

DMA-80 ESSENTIALS LIST

for your Milestone Direct Mercury Analyzer

KEEP YOUR DMA-80 UP AND RUNNING

Your DMA-80 is an essential component to your lab's productivity and downtime can mean lost revenue or throughput. The following is a list of the essential parts required to keep your DMA-80 Mercury Analyzer operational. We suggest that our DMA-80 users should have a backup of these critical items to ensure the continual running of their instrument and to avoid any disruptions in usage.
