

So much power, such precision!

P20000D Power Bank

P20000D Power Bank

The P20000D makes it clear what a flagship power bank is. Packing 20000mAh, this beast is tamed with a high precision digital display that lets you know exactly how much power remains. It also has a bright LED flashlight for added utility and safety. We placed dual USB charging ports on the P20000D so you can top up two devices at once to save time, and bulked it up with robust protective measures. The P20000D embodies ultimate – it's the envy of all other power banks!

Digital display for carefree use

Not only does it have massive capacity, it features a digital display that shows actual charge numerically, up to 100. No more vague flashing lights or “more or less” bars. This is real accuracy at a glance.

Keep going with truly big capacity

That's enough for 1.8 full tablet charges, and 6.4 times the capacity of your average smartphone. With so much power, you can keep going for literally days without worrying about an empty battery.

Dual USB ports boost charging efficiency

The P20000D features two USB ports that output 2.1A total. Recharge your smart mobile devices at once to reduce annoying waits.

Features

- Smart digital display for carefree use
- Doubles as a powerful LED flashlight
- Dual USB Port with 2.1A output
- Big capacity at the ready
- Multiple Circuit Protection (OCP, OVP, OTP, SCP, ODP, OCP)
