

Superior undercarriage protection for towable RV's

You want your customers on the road — not in a service center. Protect their investment with UnderGuard[™] protective panels from Myers — Ameri-Kart.

Our protective panels are made of pressure tested, impact resistant material that provide superior undercarriage protection from road hazards and debris. UnderGuard protective panels are installed in sections allowing easy access and quick repair to any towable RV. Your customers will appreciate the durable, heavy-duty thermoplastic construction for years.

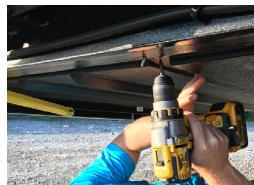

You'll enjoy lower warranty repair costs.

Specify UnderGuard Protective Panels for your towable RV's.

- Clean, elegant appearance
- Heavy-duty thermoplastic construction
- Easy access for repairs & maintenance
- Lightweight design
- Eliminates undercarriage panel deterioration
