Logitech® Rally family of appliances for RingCentral Rooms™

Product IDs by components and regions

RingCentral has partnered with Logitech to bring the RingCentral Rooms experience to your conference rooms. With the Logitech Rally Bar Mini, Rally Bar, and Rally Bar Plus and RoomMate integrated appliances, there's a solution for all meeting room sizes and needs. Logitech Rally video bars deliver the performance, installation ease, and device management tools you need to enable video for conference rooms of all sizes throughout the workplace. With the RingCentral software included, users enjoy the same simple and intuitive experience of RingCentral's video capabilities in meeting rooms. As the #1 provider of USB video conferencing devices, Logitech brings four decades of innovation and is complemented by the security, reliability, and rich analytics of the RingCentral platform. Together, we're raising the bar on video meetings.

Easy setup

The Logitech Rally family of appliances is easy to set up from purchase to deployment to activation. Get set up quickly with RingCentral video meeting features that include one-touch join.

Flexible configurations

The Logitech Rally family can be used in any size meeting room, from small, medium, to large configurations. Integrated cable management keeps things tight.

Superior audio and video quality

The Logitech Rally family includes motorized pan and tilt lenses, proprietary AI technology such as **RightSense** (automatic framing, lifelike video quality, exquisite voice clarity) that includes RightSight (auto-detects and auto-zooms on participants) and **RightSound** (suppresses background noise and provides conversational clarity).

Meeting experience monitoring

The Logitech Rally meeting experience uses RingCentral's video capabilities, where you can monitor room performance and can push firmware via RingCentral Analytics and room management.
