SMALL GROUPS.
BIG POTENTIAL.

Logitech ConferenceCam BCC950

Small group video conferencing deserves more than huddling around PC webcams or begging for time on overbooked conference room systems. The ConferenceCam BCC950 combines high quality HD video and crystal clear audio in a simple, amazingly affordable package, so small groups can run their own video conferences anywhere in the office. Designed with small groups in mind, ConferenceCam BCC950 is an all-in-one video and audio conferencing device ideal for huddle rooms, private offices and small conference spaces. With professional HD video and crystal clear audio, small groups up to 4 can be seen and heard so no one in the meeting is out of range. Control the call from anywhere in the room with remote control and on-unit buttons.

FEATURE SPOTLIGHT

All-in-one design combines HD video with high-quality audio clarity
Business-grade video conferencing.

The built-in, full duplex speakerphone and noise-cancelling microphone
Allows all meeting members to hear and be heard clearly up to 6 feet away from the base.

Omni-directional mic pickup and echo cancellation audio
Makes it seem like conversations are happening in the same room.

Remote control and base button control options
Quickly control camera pan, tilt and zoom and volume up/down, mute and answer/hang-up functions during call.

1080p HD up to 30 fps
Business-quality video.

Broad application compatibility
Certified Skype for Business and Skype™ and works with most other popular video conferencing platforms.

Plug-and-play compatibility for both PC and Mac® with onboard H.264 encoding
Helps ensure plug-and-play functionality across many video conferencing platforms.

High-quality webcam sensor and Logitech RightLight™ 2 technology
Improves visual quality in low light and backlit situations.

Autofocus and razor-sharp optics
Enhance face-to-face collaboration. Advanced Logitech lens technology delivers remarkable video quality with superb resolution, speed, fluidity, color balance, and detail.

A 78-degree field of view and 180-degree video pan
Makes the ConferenceCam ideal for small group meetings.

Camera height extender
Places camera focal point at eye-level for the most flattering video angles.

UNIQUELY PORTABLE AND VERSATILE

ALL-IN-ONE VIDEO COLLABORATION FOR SMALL GROUPS

Logitech ConferenceCam Connect

HD 1080p video and 360-degree sound meet portability and affordability with the all-in-one Logitech® ConferenceCam Connect. Optimized for small workgroups of 1-6 people, this video conferencing solution offers multi-device connectivity and sets up in a snap.

Now enterprise-quality video, a USB and Bluetooth® speaker-phone, and wireless screen-mirror[1] projection are available in virtually any workspace.

CISCO Compatible

Certified for Skype for Business

Optimized for Lync

Logitech ConferenceCam Connect

HD 1080p Video and 360° Sound Meet Portability and Affordability

**All-in-One Video Collaboration for Small Groups**
Optimized for workgroups of 1-6 people, the affordable ConferenceCam Connect videoconference solution offers multi-device connectivity and sets up in a snap to elevate small group collaboration to the next level.

ConferenceCam Connect offers a generous 90-degree field of view with digital pan, mechanical tilt, 4x digital full HD zoom, and a glass lens with autofocus. The mobile speakerphone features Bluetooth® wireless technology, Near Field Communication (NFC), and USB. With true 360-degree sound, users can hear and be heard within a 12-foot diameter range while acoustic echo and noise-cancelling technology delivers lifelike conversations.

For ultimate flexibility in the Anywhere Workplace, ConferenceCam Connect runs on battery or AC power, provides multi-device connectivity and features certifications from Microsoft®, Cisco®, and Skype™ to ensure broad-based UC compatibility.

Multi-Device Connectivity

Smartphones
45%

90-Degree field of view

with digital pan/tilt and mechanical tilt control.

360-Degree audio with 12-foot diameter range

The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Omni-directional full duplex mics

Makes it seem like conversations are happening in the same room.

HDMI connector

Connect the ConferenceCam to a HD TV screen to wirelessly stream content. The ConferenceCam connects automatically with no need to select TV inputs.

Logitech ConferenceCam Connect

Portable All-in-One Design
Sleek all-in-one design is easy to transport, providing extreme flexibility in the Anywhere Workplace.

Perfect for Small Workgroups
Optimized for teams of 1-6, watch productivity soar with HD 1080p video, 360-degree sound, and wireless screen-mirror projection in virtually any workspace.

See and Be Seen
Automatically focus on people and objects for razor-sharp resolution wherever the lens is pointed.

Multi-Device Connectivity
Simply connect the PC or Mac to conduct life-like meetings within own familiar computing environment or enjoy the convenience of wireless connectivity for screen mirroring and audio pairing from a compatible mobile device[2].

Interact with Everyone at the Table
The 90-degree field of view with digital pan, tilt, and 4X digital zoom in full HD is ideal for small group meetings.

Hear and Be Heard
The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Conversations Sound Life-Like and Natural
Acoustic echo and noise-cancelling technology makes it seem like conversations are happening in the same room.

USB Plug-and-Play Connectivity
With no special software, training, or maintenance required, launching an enterprise-quality videoconference has never been easier.

Rechargeable Battery
Leave the power cord behind: run video calls/screen mirroring for up to 3 hours or use the speakerphone for up to 15 hours with a fully charged battery.

Wireless Screen Mirroring[1]
Connect wirelessly to screen mirror presentations, spreadsheets, videos or Internet content from a mobile device[1] to a TV screen.

H.264 UVC 1.5 with Scalable Video Coding (SVC)
Frees up laptop bandwidth by putting video processing within the camera, resulting in a smoother video stream in applications like Microsoft® Lync™ 2013.

Professional-grade Certifications
Optimized for Microsoft® Lync™ 2013, Cisco Jabber™ and WebEx® compatible[3], and Skype™ certified ensures an integrated experience with most UC platforms.

Near Field Communication (NFC)
Closely wave a mobile device equipped with NFC technology[4] over the base console to instantly pair and enjoy professional audio speakerphone quality.

Bluetooth® Wireless Connectivity
Quickly and easily create a connection between any Bluetooth® device and the integrated speakerphone.

Far-end Camera Control
Operate camera pan, tilt and zoom functions of another Logitech ConferenceCam or Webcam C930e in the other location[5].

Dockable Remote Control
Easily operate camera pan/tilt/zoom and audio functions (call answer/end[6], volume, mute) during meetings. The remote covers the lens when the camera is not in use for added privacy.

Works with most UC and videoconference applications
Users are free to use the desktop video conferencing program of their choice.

Kensington Lock-Enabled
The Kensington Security Slot offers a simple, built in security solution to help protect against theft.

# SHARPER OPTICS FOR SHARPER MEETINGS.

Logitech PTZ Pro 2

Logitech® PTZ Pro 2 camera delivers premium optics and life-like video calls to create the experience of sitting together in the same room, even if you are a thousand miles away. It sets a new standard for high-quality, professional video with brilliantly sharp image resolution, outstanding color reproduction, and exceptional 10x HD zoom. Performance enhancements in the PTZ Pro 2 camera include smoother pan and tilt motion and more consistent focus during zoom. The camera features lenses designed and manufactured by Logitech and engineered to provide unparalleled sharpness, color rendition, and speed in a variety of lighting conditions. PTZ Pro 2 is the smart choice for large conference rooms, auditoriums, classrooms, healthcare settings, and other professional environments where clear, high resolution video is a must.

FEATURES & BENEFITS

Premium HD PTZ video camera for professional video collaboration
Ideal for conference rooms, training environments, large events and other professional video applications.

HD 1080p video quality at 30 frames per second
Delivers brilliantly sharp image resolution, outstanding color reproduction, and exceptional optical accuracy.

H.264 UVC 1.5 with Scalable Video Coding (SVC)
Advanced camera technology frees up bandwidth by processing video within the PTZ camera, resulting in a smoother video stream in applications like Microsoft® Skype® for Business.

90° field of view with mechanical 260° pan and 130° tilt
Enhanced pan/tilt and zoom motor performance make moving from preset to preset smoother. The wide field of view makes it easy to see everyone clearly.

10x lossless full HD zoom
Zoom wide or zero in on close-ups to clearly view objects, whiteboard content, and other details.

Autofocus
Superior camera lenses provide unparalleled sharpness, color rendition, and speed. Autofocus ensures that people and objects are clear wherever the camera is pointed.

Premium Logitech camera lens
Logitech designs and manufactures our own lenses to meet the highest technical standards and provide the experience of sitting in front of someone, even if you are a thousand miles away.

Far-end camera control
Operate camera pan, tilt and zoom functions[1] of a remote PTZ Pro 2, Logitech ConferenceCam, or select Logitech webcams[2].

Remote control
Easily operate camera pan/tilt/zoom functions during meetings.

Multiple mounting options
Configure the conference room or event space the way you want: use the PTZ camera on a table or wall mount with included hardware. The camera includes a standard tripod thread for added flexibility.

Plug-and-play USB connectivity
Easily connects to PC, Mac® and Chrome™ devices with no additional software required.

Works with most video conferencing applications
Compatible with virtually any video conferencing software app, including the ones you already use.

Kensington security slot
PTZ Pro 2 is provisioned with a Kensington security slot to help secure the equipment with an anti-theft lock.

3 camera presets
Select up to three preset locations for the camera view and return to any of them with the push of a button on the remote control.

Camera settings app
Adjust local camera pan, tilt, zoom, image settings, and other advanced controls from a PC or Mac® with a simple-to-use software app.

# SUPER-WIDE FIELD OF VIEW FOR SMALL SPACES.

Logitech MeetUp

Logitech® MeetUp is a premier ConferenceCam designed for small conference rooms and huddle rooms. With a room capturing, super-wide 120° field of view, MeetUp makes every seat at the table clearly visible. A low-distortion Logitech-engineered lens, Ultra HD 4K optics, and three camera presets deliver remarkable video quality and further enhance face-to-face collaboration. MeetUp's integrated audio is optimized for huddle room acoustics and delivers an exceptional sound experience. Three horizontally-aimed beamforming mics and a custom-tuned speaker help ensure your meetings sound as great as they look.

With a compact all-in-one design that minimizes cable clutter, MeetUp is USB plug-and-play and simply works right out of the box with any video conferencing software application and cloud service—including the ones you already use.

Logitech MeetUp

Expansion Mic

Remote Control

FEATURES & BENEFITS

Super-wide 120° field of view
Allows everyone in the room to be seen, even those close to the camera or seated at the edges of the room.

Ultra HD 4K image sensor
Supports multiple resolutions, including 4K (Ultra HD)[1] 1080p (Full HD) and 720p (HD) to best support the quality offered by your application and monitor.

Razor-sharp optics
Advanced Logitech lens technology delivers remarkable video quality with superb resolution, speed, fluidity, color balance, and detail.

3-microphones and custom-tuned speaker
Three broadside beamforming, omni-directional microphones with noise and echo cancellation—plus a custom-tuned speaker—are specifically optimized for small conference rooms.

Motorized pan/tilt
Expand your field of view even further—up to 170°—to pan to the white board or view other areas of interest.

All-in-one design
Compact all-in-one form factor takes up less space and minimizes cable clutter.

5x HD zoom
Zero in on close-ups of objects and whiteboard content with outstanding detail and clarity.

3 camera presets
Select up to three preset locations for the camera view and return to any of them with the push of a button on the remote control.

***Bluetooth*® wireless technology**
Connect to a Bluetooth device for great-sounding audio calls.

Expansion microphone-ready
Optional expansion microphone increases the audio range from 8' (2.4m) to 12' (3.7m).

Multiple mounting options
Freedom to mount MeetUp wherever it works best—tabletop, wall, or monitor—for the best possible huddle room experience.

RF remote control
Easily operate camera pan/tilt/zoom functions during meetings, no line of sight needed.

Plug-and-play USB connectivity
Easily connects to PC, Mac® and Chrome™ devices with no additional software required.

Kensington® security slot
A Kensington security slot secures the equipment with an anti-theft lock.

Works with most video conferencing applications
Compatible with virtually any video conferencing software app, including the ones you already use.

Logitech GROUP

GROUP, the amazingly affordable video conferencing system for mid to large-size conference rooms, allows any meeting place to be a video collaboration space. It's as simple to use as a mobile phone and affordable as an office chair, now it's easier than ever to include anyone in the conversation.

USB plug-and-play connectivity makes GROUP a breeze to deploy and use. It even works within your own familiar computing environment with any video conferencing software application — including the ones you already use.

Razor sharp video and a beautifully designed full-duplex speakerphone deliver an out-standing collaboration experience that's so awesome everyone can be seen and heard. Simply connect a laptop and start a meeting, or use the state-of-the-art speakerphone with a *Bluetooth*® wireless technology enabled mobile device for great-sounding audio calls.
Optimized for **Lync** Certified for ⓢ **Skype for Business** **BlueJeans** **lifesize** **zoom** **Vidyo** Certified Device ◆ **broadsoft** ꜰꜰꜰ **cisco** Compatible
Logitech GROUP

GROUP Room Set-up

GROUP + Expansion Mics Room Set-up

Video Conferencing Elevated.
GROUP, our video conferencing solution for groups of 14–20 people, delivers high quality HD video and crystal clear audio, allowing any meeting place to be a video collaboration space. With advanced features like acoustic echo cancelation, noise reduction technology, and intuitive controls now it's easier than ever to include anyone in the conversation.

Video Collaboration Made Simple.
USB plug-and-play connectivity makes GROUP easy to use. Simply connect a laptop to conduct life-like meetings within your own familiar computing environment for use with any video conferencing software application — including the ones you already use. Plus, you can use the state-of-the-art speakerphone with a *Bluetooth* wireless technology enabled mobile device for great-sounding audio calls.

Your Meeting Space. Your Way.
GROUP offers the flexibility to customize conference room set-up with multiple camera mounting options. Use the camera on the table or mount it on the wall with included hardware. The bottom of the camera is designed with a standard tripod thread for added versatility. Conference participants can also clearly converse within a 6m/20' diameter around the base, or extend the range to 8.5m/28' with optional expansion mics.

For razor sharp close-ups of objects and whiteboard content, the GROUP camera offers 10x lossless zoom enabling your team to see every detail with outstanding resolution and clarity.

Logitech GROUP

| VIDEO | AUDIO | CONNECTIVITY AND USAGE |

HD 1080p video quality at 30 frames-per-second
Brings life-like full HD video to conference calls, enabling expressions, non-verbal cues and movements to be seen clearly.

H.264 with Scalable Video Coding (SVC) and UVC 1.5
Preserves PC processing and battery power by putting video processing within the camera adjusting dynamically to the available bitstream. The result is a smoother video stream in applications like Microsoft® Lync® 2013, Skype for Business and in Windows® 8 and Windows® 10.

90° field of view with mechanical 260° pan and 130° tilt
The generously wide field of view and silky smooth pan and tilt controls enhance collaboration by making it easy to see everyone in the room.

10x lossless HD zoom
Zero in on close-ups of objects and whiteboard content with outstanding detail and clarity.

Autofocus
High-precision lens automatically focuses on people and objects to deliver razor-sharp resolution wherever the lens is pointed.

ZEISS® lens certification
Logitech designs and manufactures all ConferenceCam lenses to the highest technical standards to produce optical components of outstanding quality as certified by ZEISS.

Far-end camera control
Operate camera pan, tilt and zoom functions[1] of another Logitech ConferenceCam or Webcam C930e in the other location.

5 camera presets
Multiple camera presets make it easy to frame and focus the lens on frequently used views — such as the conference table, whiteboard, and close-ups — and quickly return to each view at the touch of a button.

Plug-and-play camera setup
Simply connect camera to powered hub with 4.9m/16' cable provided to get up and running in a snap.

Full-duplex speakerphone
Hear and be heard with life-like sound that's crisp, clear, and highly intelligible. Plus the cast metal base console is loaded with advanced audio features and intuitive controls.

Spacious audio
Conference participants can converse within a 6m/20' diameter around the speakerphone and be heard so clearly by remote participants that it seems like conversations are happening in the same room.

Optional expansion mics
Expand the conversation area from 6m/20' to 8.5m/28' so that even those away from the speakerphone can be clearly heard. Microphones, sold in pairs, are automatically recognized and configured by simply plugging them into the GROUP speakerphone.

Beamforming technology with four omni-directional mics
Conversations sound realistic and natural by minimizing sound reflections (reverb) and distracting audio artifacts.

Acoustic echo cancelation
Advanced acoustic engineering reduces echo, making calls sound more natural.

Noise reduction technology
Ambient noises and other distracting tones are suppressed to support comfortable, natural-sounding conversation on both ends of the call.

HD audio
High bandwidth audio reproduces vocal tones with exceptional quality, enabling people on both sides of the call to enjoy a life-like communication experience.

Visual call status indicator
Onboard LEDs flash to provide visual alerts when on a call, when there's an incoming call and when an incoming call is muted.

LCD displays Caller ID and other info
View call-related info[2] (Caller ID, call duration, etc.) and speakerphone/camera function indicators (volume control, etc.) on LCD display screen.

Plug-and-play speakerphone setup
Simply plug the speakerphone into the powered hub with the supplied 4.9m/16' cable to get up and running in no time.

Tight integration with top cloud communication apps
Logitech partners with the top communication developers to ensure the most integrated and seamless experience when using GROUP.

Compatible with Mac® and PC
Simply connect a PC or Mac® to conduct meetings within the user's own familiar computing environment.

Works with most UC and video conferencing applications
Users are free to use the desktop video conferencing application of their choice.

***Bluetooth* wireless technology and Near Field Communication (NFC) technology**[3]
Connect the speakerphone to a *Bluetooth* wireless technology enabled device for great-sounding audio calls, or pair NFC-enabled mobile devices by simply bringing them close together.

Professional-grade certifications
Leading business certifications (Optimized for Microsoft® Lync® 2013, Certified for Skype for Business, Cisco Jabber® and WebEx® compatible[4]) and enhanced integration with Logitech Collaboration Program (LCP) members[5] ensure an integrated experience with most business-grade video conferencing platforms.

Multiple camera mounting options and device setup configurations
Set up the conference room the way you want with up to a 9.8m/32' range between camera and speaker. Use the camera on the table or mount it on the wall with included hardware. The bottom of the camera is designed with a standard tripod thread for added versatility.

Dockable remote control
Operate camera pan, tilt and zoom, volume up/down and answer/hang-up[6] functions on the base speakerphone console or with remote control that docks in console when not in use.

PTZ app
Control local camera pan, tilt and zoom functions from PC or Mac with simple-to-use software app.

ZEISS lens certification

Kensington security slot

LED to confirm video streaming

Standard tripod thread

REMOTE CONTROL

Dockable

8.5m/28-foot range

SPEAKERPHONE

Full-duplex performance

Acoustic echo cancellation

Noise reduction technology

Ultra-wideband audio

Bluetooth and NFC wireless technology

LCD for caller ID, call duration and other functional response

LEDs for speakerphone streaming, mute, hold, and *Bluetooth* wireless paring

Touch controls for call answer/end, volume and mute, *Bluetooth* – plus camera PTZ, "home" preset and far-end control

Microphones (Tx)

 Four omni-directional microphones supporting 20-foot diameter range

 Frequency response: 100Hz – 11KHz

 Sensitivity: -28dB +/-3dB

 Distortion: <1% @ 1KHz at 106dB

Speakers (Rx)

 Frequency response: 120Hz – 14KHz

 Sensitivity: 83dBSPL +/-3dB at 1W/1M

 Max output: 91dBSPL

 Distortion: <5% from 200Hz

Kensington security slot

HUB / CABLE

Central mountable hub for connection of all components

Included adhesive solution for under-table mounting

Two cables for connection between hub and camera/speakerphone (Length: 5m/16')

One USB cable for connection to PC/Mac (Length: 3m/6.6')

AC Power adapter (Length: 3m/9.8')

MOUNT

Dual purpose mount for wall placement or for elevating the camera on a table

COMPLIANCE AND TOOLS

USB 2.0 compliant

UVC-compliant video and audio for broad application compatibility

Optimized for Microsoft® Lync®, Certified for Skype for Business, Cisco Jabber® and WebEx® compatible. Enhanced integration with Logitech Collaboration Program (LCP) members.

Downloadable diagnostic tool

Field upgradeable firmware tool

Downloadable app plug-ins for advanced feature support

INSIDE THE BOX

Camera, speakerphone, remote control, two 5m/16.4' cables for connection between speakerphone and hub and camera and hub, one 3m/9.8' meter cable between hub and PC, Velcro for cable management, Velcro for hub to table securing, powered hub, power adapter with regional plugs, mount, quick start guide, warranty card.

WARRANTY

2-year limited hardware

Logitech Rally/Rally Plus

Logitech® Rally offers an Ultra-HD imaging system, delivering brilliantly sharp video, outstanding color, and exceptional optical accuracy at resolutions up to 4K. The modular audio system brings crisp, clear audio and unmatched voice clarity to the table.

Rally comes standard with one speaker and one mic pod for medium and large sized meeting rooms. For larger spaces with 14 participants or more, Rally Plus offers two mic pods and two speakers for greater versatility out of the box.

Rally's modular audio components mean that speakers and mic pods can be placed wherever they are needed, achieving full audio coverage in your meeting space. Rally supports up to seven mic pods in total, helping you create the perfect audio configuration for your space.

Rally features RightSense™ proactive technologies, which make better meetings easy and automatic. RightSight™ auto-frames participants no matter their distance from the lens, RightLight™ prioritizes faces over environment to render natural-looking skin tones, while RightSound™ enhances vocal clarity by suppressing background noise, auto-leveling voices, and focusing on active speakers. RightSense is compatible with most any video conferencing application that works with USB devices, including Google® Hangouts™ Meet, Microsoft® Skype® for Business and Teams, and Zoom.

Elegantly designed with premium finishes, thoughtful cable management, and modular audio, Rally integrates beautifully into any room design.

VIDEO

Exceptional Video Quality
With an Ultra-HD imaging system, Rally delivers brilliantly sharp video, outstanding color, and exceptional optical accuracy at resolutions up to 4K.

Adaptive Pan, Tilt and Zoom
The smooth PTZ motor adjusts pan and tilt speed with the amount of zoom. The result: Faster camera movement when zoomed out for quick framing and slower camera movement when zoomed in for more control.

Sleek Industrial Design
The premium PTZ camera is elegantly finished in matte black and slate gray metal trim, complemented by sleekly designed audio components and accessories that look great in any room.

AUDIO

Advanced Modular Audio
Rally delivers sound that's natural, crisp, and highly intelligible. Exquisitely sensitive Mic Pods ensure that everyone in the meeting can be clearly heard while stand-alone speakers fill larger rooms with rich, life-like sound.

Front-of-Room Audio
Rally speakers are designed for placement at the front of the room. With mic pods on the table and speakers at the display, voices and video come from a natural direction — and never from behind you — so conversations feel more natural and lifelike.

Up to 7 Mic Pods
For large meeting rooms, add Rally Mic Pods to expand audio coverage and provide convenient access to mute controls. Each pod adds coverage for six additional participants, perfect for equipping large meeting spaces and boardrooms.

CONNECTIVITY & USAGE

Smart Cabling and Content Sharing
With a Display Hub and Table Hub to minimize cross-room cabling, Rally components and the meeting computer remain securely out of sight.

Loud and Clear
The built-in amplifiers in Rally Display Hub can power up to two Rally Speakers, providing rich sound even in larger rooms.

Optional Flexible Mic Pod Cabling
Rally Mic Pod Hub makes it easy to minimize cross-table cabling with three connectors for Rally Mic Pods or additional Mic Pod Hubs, helping participants reposition individual pods or to bring mute control within easy reach.

Optional Mounting Kit
Add the Rally Mounting Kit to streamline installation of each component with custom brackets and mounting hardware.

RIGHTSENSE TECHNOLOGIES AND DESIGN INNOVATIONS

Integrated **Logitech RightSense** technologies, built into Rally, automate a better user experience. RightSight perfectly auto-frames participants no matter their distance from the lens. RightLight prioritizes faces over environment to render natural-looking skin tones while RightSound enhances vocal clarity by suppressing background noise, auto-leveling voices, and focusing on active speakers to support better meetings.

RightSight
Logitech RightSight camera control technology automatically moves the lens and adjusts the zoom so no one gets left out of the picture. RightSight detects human figures, not just faces, to ensure that meeting participants remain in view and optimally framed on-screen.
RightLight
Logitech RightLight with Wide Dynamic Range (WDR) helps everyone look their best on camera, regardless of lighting conditions. RightLight reduces video noise, optimizes light balance, and fine-tunes color and saturation for natural results across all skin tones.

RightSound
Logitech RightSound is a suite of audio processing technologies and design innovations that deliver enterprise-class sound to video conferences. Optimized for the human voice, RightSound reduces unwanted vibrations and noise, and zeroes in on the active speaker to convey their every word with remarkable clarity.

TECH SPECS

RALLY CAMERA

Ultra-HD imaging system supports:
4K, 1440p, 1080p, 900p, 720p, and SD at 30fps 1080p, 720p at 30 fps and 60 fps

Smooth motorized pan, tilt and zoom

Pan: ±90°

Tilt: +50°/-90°

15x HD zoom

90° field of view

Adaptive pan and tilt speed up to 70°/second (slows when zoomed in for easier control)

Automatic inversion detection to correct image orientation and camera controls when mounted upside down

Autofocus

3 camera presets

Kensington® security slot

Video mute/unmute LED indicator

Standard tripod thread

Lens parks at -90° in sleep mode for assured privacy

RALLY MIC POD

Pickup range: 15 ft / 4.5m diameter

Four microphones with eight beamforming elements

Mute button with LED status indicator

Captive cable: 9.6 ft (2.95m)

Daisy chain up to 7 Rally Mic Pods

Recommended participants:
Rally (one Mic Pod): 10
Rally Plus (two Mic Pods): 16
Additional participants per Mic Pod: 6
Recommended participants for Rally with 7 Mic Pods: 46

RALLY SPEAKER

High-performance 3" (76mm) driver

Patent pending suspension system eliminates vibration-induced camera shake and audio interference

Mini XLR cable (9.6 ft (2.95m)) connects to Rally Display Hub for both signal and power

RALLY TABLE HUB

Single cable (CAT6A) connection to Rally Display Hub (16.4 ft (5m) CAT6A Ethernet cable included, supports customer-supplied cables up to 164 ft (50 m))

Active speaker detection: analyzes audio from up to 7 Mic Pods and 56 beams every 8ms

12 Pin connector for Rally Mic Pod

HDMI Type A for wired content sharing

HDMI Type A for display

Power input

USB Type C (Ultra HD/4K capable)

USB Type A (reserved for future capability)

USB Type B (connects to meeting room computer)

RJ45 (Ethernet)

RALLY DISPLAY HUB

HDMI Type A (x2) (connects to displays)

Power input

USB C (connects to Rally Camera)

USB Type B (connects to meeting room computer)

RJ45 (connects to Table Hub)

Mini XLR (x2) (connects to Rally Speakers)

Powers one or two Rally Speakers

REMOTE CONTROL

RF remote control (line of sight not required)

CR2032 batteries (included)

CABLES / POWER

Camera to Display Hub
6.5 ft (2m) USB 3.1 Type C to USB Type C 3.1

Conference Room Computer to Display or Table Hub
6.5 ft (2m) USB 3.1 Type A to USB Type B
