The Neomounts by Newstar adapter, model FPMA-VESAMAC, provides your Apple iMac screen with a VESA hole pattern. By using a VESA pattern you can install your iMac to a Neomounts by Newstar desk or wall mount bracket. The Mac adapter has the VESA hole pattern: 75x75.

The adapter is compatible with the following 24 "and 27" screens:

24-inch iMac,
27-inch iMac,
27-inch Apple Thunderbolt Display

How does it work? Remove the base of your Apple iMac. Mount the adapter on the back of your screen and install the desired Neomounts by Newstar wall- or desk mount to your screen.

This adapter offers a VESA hole pattern 75x75. Any mount with VESA75 can be combined with this VESA-adapter. Look on our website for your desired support.

This adapter is made of durable high quality metal. All installation material is included with the product.
