Visioneer®

NetScan™ 3000

Hi-Speed USB Scanner Server with Gigabit Support

- Instantly share any Visioneer® or Xerox® DocuMate® scanner with your workgroup.

- Enjoy the freedom to use office scanners remotely.

- Conveniently transmit scanned documents and images over a network.

- Easily manage all networked scanners from one utility.

- Continue using current scanner drivers and software applications already installed.

The NetScan 3000 brings flexibility and productivity of document scanners to a whole new level in any environment including home, SOHO, school or business setting. The Visioneer® NetScan™ 3000 is a scanner server designed to connect a certified Visioneer or Xerox® DocuMate® scanner directly to a network allowing it to be a shared resource. It is a 10/100/1000 Base Ethernet port that can be connected to a wireless router for wireless USB device networking with two Hi-Speed USB 2.0 ports supporting up to one amp of USB bus power combined. Up to 15 scanners can be integrated with the Gigabit network and can be used as if they were attached locally.

When combined with a scanner utilising Visioneer OneTouch technology, the NetScan 3000 creates an elegant solution that allows users to save time and resources by only having to make one trip to the scanner. Users simply open the NetScan™ 3000 utility on their desktop, walk up to the scanner, place their documents in the ADF, and press the OneTouch scan button. Their document will immediately be scanned and automatically sent to the specified location in one easy step.

The NetScan 3000 includes a utility that allows users to visually manage all of their networked scanners in one window and displays the availability of connected scanners on the network in real time.

Technical Specifications

Part Number	100N02966
Supported Operating Systems	Microsoft® Windows® 8 / 7 / 2000 / XP (32 & 64 bit) Vista / Windows Server 2008, 2003 Macintosh® 10.2.7 - 10.5x (Power PC®) Macintosh 10.4.3 - 10.6x (Intel)
Supported protocol	TCP/IP
Device interface	Hi-Speed USB 2.0 (A-Type) x 2
Network interface	10 / 100 / 1000 Mbps (Auto-detection)
Total number of USB interface connections	15 (using additional USB hub)
Configuration	Web browser, Quick Setup
Languages (installation utility)	English, German, French, Italian, Spanish, Portuguese, Chinese, Japanese
Power supply	AC adapter (DC12V, 1.0A)
Power consumption	Up to 5W
Warranty	1 year
Regulatory approvals	FCC, CE, VCCI Class B
Package contents	NetScan 3000, Quick Setup Guide, SVL Users Guide, Warranty Card, AC adapter/power cord, Tech Support Card, CD-ROM with configuration utilities and HTML manuals
Dimensions	60 x 100 x 28 mm (2.4" x 3.9" x 1.1")
Weight	100 g / 3.5 oz

Windows 8 Compatible • Compatible with Windows® 7 • Designed for Microsoft® Windows® XP • Mac
