HP Latex 115 Print and Cut Solution

Start – with this easy, affordable 1.37 m HP Latex print and cut solution

The HP solution – best in its class¹

- Print more applications, full bleed stickers don't shrink or curl; reach more indoor spaces.
- Enjoy accurate high-speed cutting and cut throughs; LAN connectivity and HP media basket add convenience.
- Optimised workflow management from a single point – includes unique software with barcode integration.
- Design applications in 3 simple steps no design skills are needed with HP Signage Suite in box.²

True print AND cut

- Print AND cut at the same time versus print OR cut with solvent with this reliable, dual-device solution.
- Avoid solvent wait time prints come out dry, cut/laminate right away with no degas time, and deliver same day.
- Avoid lamination for short-term applications scratch resistance is comparable to hard-solvent inks.³

Easy, reliable workflow

- Print and cut in 5 simple steps add cut lines from the RIP, predefined cutting presets, easy user interface.
- Efficient job recognition and reliable, error-free cutting Optical Positioning System (OPOS) and HP Barcode.
- Avoid the complexity of other dual-devices this complete HP solution is designed to work as one.

¹ Based on productivity advantages compared to the leading (per IDC market share numbers, March 2017) and comparably priced solvent-technology-based integrated print and cut solution. HP internal productivity testing performed February 2017.

² Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com.
³ You can consider unlaminated use for short-term signage with scratch resistance comparable to hard-solvent inks on self-adhesive vinyl and PVC banner. Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks. Estimates by HP Image Permanence Lab on a range of media.

¹ Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer – see the Site Preparation Guide for details. Customers should consult state and local requirements and regulations. Contains no Hazardoux Air Pollutants according to EPA Method 311. Odorless prints: there is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.
² UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit http://www.ul.com/gg or http://www.greenguard.org.

¹ Reflective measurements on a 943 colour target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. Backlit substrates measured in transmission mode may yield different results.
