## **"No-Risk" Core Return Policy**

Our "No-Risk" Core Return policy provides 100% core credit regardless of damage or quality of returned core. This policy provides our customers confidence when quoting repairs with Ford parts.

When returning core, these guidelines must be followed:

- Returned core is the same part as the assembly purchased
- Core is 100% complete with all parts attached and all fluids drained and is returned in original package

FORD PARTS

## LIMITED WARRANTY STATEMENT (FOR RETAIL SALES ON OR AFTER 9/1/2010) Ford New and Remanufactured Transmissions and Gas Engines

Ford Motor Company, The American Road, Dearborn, MI 48121 ("Ford") provides the following Limited Warranty on Ford New and Remanufactured Transmissions and Gas Engines to Ford and Lincoln Dealers (each being a "Dealer") or general Installers (each being an "Installer"). This Limited Warranty provides Ford will credit the Dealer or Installer for repairing or replacing, at Ford's option, any Ford Transmission or Gas Engine sold by Ford in the United States, for installation in the United States, in a Ford or Lincoln vehicle that was sold, registered/licensed, and operated in the United States, that is found to be defective in factory-supplied material or workmanship subject to the following terms, conditions and limitations:

Vehicle Owner: To obtain warranty service, please return your vehicle to any Ford or Lincoln Dealership or return to the Installer who originally installed the Ford Gas Engine or Transmission Assembly in your vehicle. You must have one of the following items:

- Vehicle Owner assembly installation repair order which includes Vehicle Identification Number (VIN), date of installation, assembly part number, and odometer reading
- Dealer Over-the-counter Invoice documenting date of purchase, assembly part number, & VIN
- Your powertrain was registered by a Ford or Lincoln Dealer.

### Gas Engine Long Block Assemblies (6006/6007/6V006/6V012) and Transmission Assemblies (7000/7V000/7002/7003)

- For 36 months from warranty start date (unlimited miles), Ford will cover 100% of all parts and labor at approved warranty reimbursement rates
- If installed by a Dealer, reasonable towing charges (up to 35 miles or to the nearest Dealer) are covered only if the vehicle is not covered under another towing insurance coverage
- Excludes gas engine short blocks (6009)

### Warranty Start Date for Ford New or Remanufactured Transmissions and Gas Engines

- If Dealer-installed, the Warranty Start Date is the date of installation.
- If sold Over-the-counter to a vehicle owner, the Warranty Start Date is the date of sale.
- If sold Over-the-counter to a fleet, general installer or wholesaler, the Warranty Start Date is the date the assembly is installed (could be later than the date of sale).

### Limitations to the Warranty

The following limitation applies to the products covered by this Limited Warranty:

- Towing charges are not reimbursable for Ford Transmissions and Gas Engines sold over-the-counter by a Dealer or Installer

### How to obtain Limited Warranty coverage for Ford Transmissions and Gas Engines sold over-the-counter by a Dealer or Installer:

This statement applies to over-the-counter customers of a Dealer, such as a vehicle owner, independent repair facility, wholesaler, or fleet customer.

The Dealer or Installer can claim both parts and labor under the Limited Warranty if the vehicle owner, at his/her option,

- Returns the vehicle to the Installer (from which the assembly was purchased) or to any Dealer for repairs, or
- Returns the Ford New or Remanufactured Transmission or Gas Engine to the Installer (from which the assembly was purchased) or to any Dealer for repairs

### NOTES on obtaining Limited Warranty coverage for Ford Transmissions and Gas Engines:

- This Limited Warranty may be honored by the original Installer or any Dealer (even though that particular Dealer was not the original purchaser/seller of the product)
- In order for the Dealer or Installer to claim under the Limited Warranty, the Installer or vehicle owner (whether original vehicle owner or subsequent transferee) must provide the Dealer the following information when repairs are requested:
  - Authorization code from the Powertrain Assistance Center (PAC) @ 800-392-7946
  - A copy of the original vehicle owner's assembly installation repair order
- Only new Ford Original Equipment, Ford Authorized Remanufactured, or other parts or assemblies authorized by Ford may be used to complete covered warranty repairs
- Installer labor reimbursement is calculated using Ford Labor Times Standard hours multiplied by the selling Dealership's warranty labor rate or the Installer's actual labor total, whichever is less
- Diagnostic steps taken to determine cause of warrantied concern with diagnostic results must be clearly documented on Installer repair order. (Warranty parts and labor reimbursement requests must be supported by diagnostic labor steps and test results)
- All parts replaced under warranty must be returned to your selling Dealer

THIS LIMITED WARRANTY DOES NOT COVER FORD REMANUFACTURED TRANSMISSIONS AND GAS ENGINES THAT FAIL DUE TO ABUSE, MISUSE, NEGLIGENCE, ALTERATION, ACCIDENT, RACING, OR PARTS AND ACCESSORIES INSTALLED IN VEHICLES OTHER THAN THOSE LISTED IN FORD AUTHORIZED CATALOGS INCLUDING OTHER FORD MOTOR COMPANY BRANDS, OR THE USE OF NON-FORD PARTS, OR LACK OF PROPER MAINTENANCE. THIS LIMITED WARRANTY DOES NOT COVER PARTS WHICH ARE REPLACED AS PART OF NORMAL MAINTENANCE. THIS LIMITED WARRANTY DOES NOT COVER REPEAT REPAIRS PERFORMED AS A RESULT OF A MISDIAGNOSIS OR IMPROPER PRIOR REPAIR. TO THE EXTENT ALLOWED BY LAW, LOSS OF TIME, INCONVENIENCE, LOSS OF THE USE OF THE VEHICLE, COMMERCIAL LOSS, AND INCIDENTAL AND CONSEQUENTIAL DAMAGES ARE NOT COVERED. **THERE IS NO OTHER EXPRESS OR IMPLIED WARRANTY ON THESE FORD NEW AND REMANUFACTURED TRANSMISSIONS AND GAS ENGINES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** TO THE EXTENT ALLOWED BY LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS IS LIMITED TO THE DURATION OF THIS WRITTEN LIMITED WARRANTY.

To retain the safety and dependability built into this product, it is essential that your Ford Remanufactured Transmission or Gas Engine receives the scheduled maintenance at the recommended intervals contained in your vehicle Owner's Manual/Maintenance Schedule.

FORD PARTS

## LIMITED WARRANTY STATEMENT

### Ford and Motorcraft® Remanufactured Diesel Engines

Ford Motor Company, The American Road, Dearborn, MI 48121 ("Ford") provides the following Limited Warranty on Ford and Motorcraft Remanufactured Diesel Engines to Ford and Lincoln Dealers (each being a "Dealer") or general Installers (each being an "Installer"). This Limited Warranty provides that Ford will credit the Dealer or Installer for repairing or replacing, at Ford's option, any Ford or Motorcraft Remanufactured Diesel Engine sold by Ford that is found to be defective in factory-supplied material or workmanship subject to the following terms, conditions and limitations:

**Retail Customers: To obtain warranty service, please return your vehicle to any Ford and Lincoln Dealership or return to the Installer who originally installed the Ford or Motorcraft Diesel Engine Assembly in your vehicle. Please have your original dated receipt for installation date verification.**

#### Complete Diesel Engine (6007/6V007) and Long Block (6006/6V006) Assemblies

- 24 months from warranty start date (unlimited miles). Ford will cover 100% of all parts and labor at approved warranty reimbursement rates
- If installed by a Dealer, reasonable towing charges (up to 35 miles or to the nearest Dealer) are covered only if the vehicle is not covered under another towing insurance coverage

#### Diesel Engine Stripped Long Blocks (6V012) and Short Blocks (6009/6V009)

- 12 months from warranty start date (unlimited miles). Ford will cover 100% of all parts and labor at approved warranty reimbursement rates
- If installed by a Dealer, reasonable towing charges (up to 35 miles or to the nearest Dealer) are covered only if the vehicle is not covered under another towing insurance coverage

#### Warranty Start Date

- Ford and Motorcraft Remanufactured Diesel Engines and Components installed by the Dealer or Installer—Warranty begins on the date of installation
- Ford and Motorcraft Remanufactured Diesel Engines and Components sold by Dealer or Installer over-the-counter or to a retail purchaser—on the date of sale

#### Limitations to the Warranty

- The following limitation applies to the products covered by this Limited Warranty:
- Towing charges are not reimbursable for Ford and Motorcraft Remanufactured Diesel Engines sold over-the-counter by a Dealer or Installer.

#### How to obtain Limited Warranty coverage for Ford and Motorcraft Remanufactured Diesel Engines sold over-the-counter by a Dealer or Installer:

This statement applies to over-the-counter customers of a Dealer or Installer, such as a retail customer or fleet customer.

The Dealer or Installer can claim both parts and labor under the Limited Warranty if the retail customer, at his/her option:

- Returns the vehicle to the Installer (from which the assembly or component was purchased) or to any Dealer for repairs, or
- Returns the Ford or Motorcraft Remanufactured Diesel Engine to the Installer (from which the assembly or component was purchased) or to any Dealer for repairs

#### NOTES:

- The original Installer or any Dealer (even though that particular Dealer was not the original purchaser/seller of the product) may claim under this Limited Warranty
- In order for the Dealer or Installer to claim under the Limited Warranty, the Dealer, Installer or customer (whether original customer or subsequent transferee) must provide the original owner's repair order or sales slip when repairs are requested
- Only new Ford Original Equipment or Ford authorized remanufactured parts or assemblies may be used to complete covered warranty repairs
- Installer labor reimbursement is calculated using Ford Labor Times Standard hours multiplied by the selling dealership's warranty labor rate, or the Installer's actual labor total, whichever is less
- Diagnostic steps taken to determine cause of warrantied concern with diagnostic results must be clearly documented on Installer repair order. (Warranty parts and labor reimbursement requests must be supported by diagnostic labor steps and test results)
- All parts replaced under warranty must be returned to your selling Dealer

THIS LIMITED WARRANTY DOES NOT COVER FORD OR MOTORCRAFT REMANUFACTURED DIESEL ENGINES THAT FAIL DUE TO ABUSE, MISUSE, NEGLIGENCE, ALTERATION, ACCIDENT, RACING, OR THE USE OF NON-FORD PARTS, LACK OF PROPER MAINTENANCE OR THAT ARE INSTALLED IN VEHICLES OTHER THAN THOSE LISTED IN FORD AUTHORIZED CATALOGS.

THIS LIMITED WARRANTY DOES NOT COVER PARTS WHICH ARE REPLACED AS PART OF NORMAL MAINTENANCE.

THIS LIMITED WARRANTY DOES NOT COVER REPEAT REPAIRS PERFORMED AS A RESULT OF A MISDIAGNOSIS OR IMPROPER PRIOR REPAIR.

TO THE EXTENT ALLOWED BY LAW, LOSS OF TIME, INCONVENIENCE, LOSS OF THE USE OF THE VEHICLE, COMMERCIAL LOSS, AND INCIDENTAL AND CONSEQUENTIAL DAMAGES ARE NOT COVERED.

**THERE IS NO OTHER EXPRESS OR IMPLIED WARRANTY ON THESE FORD AND MOTORCRAFT REMANUFACTURED DIESEL ENGINES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.**

TO THE EXTENT ALLOWED BY LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS IS LIMITED TO THE DURATION OF THIS WRITTEN LIMITED WARRANTY

#### Warranty Reimbursement for Ford and Motorcraft Remanufactured Diesel Engines Sold Over-the-Counter

##### Dealership actions required for assemblies that were sold Over-The-Counter and replaced/installed at a dealership

- Effective with repairs dated August 1, 2005, and later when an assembly that was sold OTC is brought to a Ford or Lincoln dealership for assembly replacement, dealers not on Reduced Warranty Requirements must obtain prior approval before replacing Ford and Motorcraft Remanufactured Diesel Engines under OTC Service Part Warranty.
- Dealers can obtain prior approval by completing the Powertrain Approval form via the Professional Technician Society (PTS) website OR by contacting the Technical Hotline at (800) 826-4694 and selecting option #2 "Engine and Transmission Exchange Prior Approval".
- Reduced Warranty Requirement dealers are exempt from this requirement for REPLACEMENTS DONE IN THE DEALERSHIP for one year, but will be subject to review for inclusion in the Prior Approval process at the end of one year.

##### Dealer Reimbursement

- In order for a Dealer or Installer to claim under the Limited Warranty, the Dealer, Installer or customer (whether original customer or subsequent transferee) must provide the original owners repair order or sales slip that includes the VIN of the service vehicle, the current mileage of the service vehicle, the serial number of the part being replaced, and the labor amount charged for the replacement.
- Engine assemblies and components found defective before installation on the vehicle or before sale over-the-counter are to be returned for credit to your selling Ford Authorized Distributor for Powertrain Products.
- Dealers will be reimbursed for parts and labor (if applicable) at warranty rates.
- Reasonable removal and reinstallation labor is reimbursed when prior authorization is obtained.
- Vehicle towing required as a result of the failure of an assembly or part sold over-the-counter is not covered.

##### Dealership actions required for replacement of assemblies sold Over-The-Counter but NOT repaired/installed at a dealership.

- Ensure the OTC customer completes the Assembly Replacement Worksheet and calls the Powertrain Assistance Center (800-3927946) for an authorization number when requesting replacement of an assembly.
- DO NOT GIVE REPLACEMENT ASSEMBLIES WITHOUT THE POWERTRAIN ASSISTANCE CENTER AUTHORIZATION NUMBER.
- For over-the-counter sales, the selling dealer is responsible for submitting a warranty claim on behalf of the over-the-counter customer, and reimbursing the customer for the repair.

##### Customer (retail and/or independent installer) actions required for Warranty Reimbursement for assemblies sold Over-The-Counter

- The over-the-counter customer (retail customer, fleet customer, or general installer) can, at their option:
  - 1) Return the vehicle to the Dealer from which the assembly was purchased for repairs during regular business hours for repair by the Dealer, or
  - 2) Return the defective Ford or Motorcraft remanufactured diesel engine to the Dealer (from which the assembly was purchased) during regular business hours for repair by the Dealer, or
  - 3) Obtain replacement parts or assembly from the Dealer that sold the Ford or Motorcraft remanufactured engine to complete repairs using labor supplied by the over-the-counter customer.

#### NOTE:

It is recommended that the over-the-counter customer call the dealer to discuss possible diagnostic procedures that should be taken before removal of the assembly.

#### IMPORTANT:

Effective with repairs dated August 1, 2005 and later, all independent repair facilities (IRF) and customers installing OTC diesel engines must call the Powertrain Assistance Center at 800-392-7946 for prior authorization before removing or replacing Ford and Motorcraft Remanufactured Diesel Engine assemblies under OTC Service Part Warranty.

- The over-the-counter customer (whether original customer or subsequent transferee) must present a copy of the original sales receipt for the Ford or Motorcraft remanufactured diesel engine.
- Labor reimbursed to the over-the-counter customer will be calculated based on the standard hours listed in the Ford Service Labor Time Standards Manual multiplied by the Dealer's (from which the engine assembly or component was purchased) approved warranty labor rate in effect on the date of repair, or the over-the-counter customer's actual labor amount, whichever is less.
- Vehicle towing required as a result of the failure of an assembly or part sold over-the-counter is not covered.
- Except as noted in the prior statements, all provisions and procedures outlined in the Warranty and Policy Manual apply to Ford and Motorcraft remanufactured diesel engines installed or sold over-the-counter by Dealers.

FORD PARTS

## WARRANTY REIMBURSEMENT FOR ENGINES SOLD OVER-THE-COUNTER

### WARRANTY REIMBURSEMENT FOR FORD AND MOTORCRAFT REMANUFACTURED DIESEL ENGINES SOLD OVER-THE-COUNTER

#### Dealership actions required for assemblies that were sold Over-The-Counter and replaced/installed at a dealership

- Effective with repairs dated August 1, 2005, and later when an assembly that was sold OTC is brought to a Ford or Lincoln Mercury dealership for assembly replacement, dealers not on Reduced Warranty Requirements must obtain prior approval before replacing Ford and Motorcraft Remanufactured Diesel Engines under OTC Service Part Warranty.
- Dealers can obtain prior approval by completing the Powertrain Approval form via the Professional Technician Society (PTS) website OR by contacting the Technical Hotline at (800) 826-4694 and selecting option #2 "Engine and Transmission Exchange Prior Approval".
- Reduced Warranty Requirement dealers are exempt from this requirement for REPLACEMENTS DONE IN THE DEALERSHIP for one year, but will be subject to review for inclusion in the Prior Approval process at the end of one year.

#### Dealer Reimbursement

- In order for a Dealer or Installer to claim under the Limited Warranty, the Dealer, Installer or customer (whether original customer or subsequent transferee) must provide the original owners repair order or sales slip that includes the VIN of the service vehicle, the current mileage of the service vehicle, the serial number of the part being replaced, and the labor amount charged for the replacement.
- Engine assemblies and components found defective before installation on the vehicle or before sale over-the-counter are to be returned for credit to your selling Ford Authorized Distributor for Powertrain Products.
- Dealers will be reimbursed for parts and labor (if applicable) at warranty rates.
- Reasonable removal and reinstallation labor is reimbursed when prior authorization is obtained.
- Vehicle towing required as a result of the failure of an assembly or part sold over-the-counter is not covered.

#### Dealership actions required for replacement of assemblies sold Over-The-Counter but NOT repaired/installed at a dealership.

- Ensure the OTC customer completes the Assembly Replacement Worksheet and calls the Powertrain Assistance Center (800-392-7946) for an authorization number when requesting replacement of an assembly.

DO NOT GIVE REPLACEMENT ASSEMBLIES WITHOUT THE POWERTRAIN ASSISTANCE CENTER AUTHORIZATION NUMBER.

For over-the-counter sales, the selling dealer is responsible for submitting a warranty claim on behalf of the over-the-counter customer, and reimbursing the customer for the repair.

#### Customer (retail and/or independent installer) actions required for Warranty Reimbursement for assemblies sold Over-The-Counter

- The over-the-counter customer (retail customer, fleet customer, or general installer) can, at their option:
  - 1) Return the vehicle to the Dealer from which the assembly was purchased for repairs during regular business hours for repair by the Dealer, or
  - 2) Return the defective Ford or Motorcraft remanufactured diesel engine to the Dealer (from which the assembly was purchased) during regular business hours for repair by the Dealer, or
  - 3) Obtain replacement parts or assembly from the Dealer that sold the Ford or Motorcraft remanufactured engine to complete repairs using labor supplied by the over-the-counter customer.

#### NOTE:

It is recommended that the over-the-counter customer call the dealer to discuss possible diagnostic procedures that should be taken before removal of the assembly.

#### IMPORTANT :

Effective with repairs dated August 1, 2005 and later, all independent repair facilities (IRF) and customers installing OTC diesel engines must call the Powertrain Assistance Center at 800-392-7946 for prior authorization before removing or replacing Ford and Motorcraft Remanufactured Diesel Engine assemblies under OTC Service Part Warranty.

- The over-the-counter customer (whether original customer or subsequent transferee) must present a copy of the original sales receipt for the Ford or Motorcraft remanufactured diesel engine.
- Labor reimbursed to the over-the-counter customer will be calculated based on the standard hours listed in the Ford Service Labor Time Standards Manual multiplied by the Dealer's (from which the engine assembly or component was purchased) approved warranty labor rate in effect on the date of repair, or the over-the-counter customer's actual labor amount, whichever is less.
- Vehicle towing required as a result of the failure of an assembly or part sold over-the-counter is not covered.
- Except as noted in the prior statements, all provisions and procedures outlined in the Warranty and Policy Manual apply to Ford and Motorcraft remanufactured diesel engines installed or sold over-the-counter by Dealers.

## **Limited Service Parts Warranty – Ford and Motorcraft Parts**

### **SPW Coverage on Ford & Motorcraft Parts not replaced at Company Expense**

Parts not replaced under Company Expense, and installed or sold by dealerships or authorized distributors to retail and wholesale customers qualify for the following warranty coverage:

#### **Dealer Installed**

- Parts & labor to replace defective part within 24 months/unlimited miles
- Towing is covered, if required, but only if the vehicle is not covered under the Roadside Assistance Program
- Warranty begins from date of installation, as noted on the repair order

#### **Sold Over-the-Counter to a Retail Purchaser**

- Part Warranty is 24 months/unlimited miles
- For a retail purchaser, warranty begins on the date of sale

#### **Sold Over-the-Counter to a Fleet, Installer or Wholesaler**

- For a fleet, general installer or wholesaler, warranty begins on the date of installation or resale
- Parts & labor to replace defective part within 24 months/unlimited miles
- Fleets and Installer labor is reimbursable up to \$150/claim. Labor amount is calculated using the installer or fleet cost of labor multiplied by published labor time standard. Total cost is not to exceed the Ford Labor Times standard hours multiplied by the processing dealership's warranty labor rate.
- Diagnostic steps taken to determine cause of warranted concern with diagnostic results must be clearly documented on the installer repair order along with the Vehicle Identification Number (VIN). Warranty parts and labor reimbursement requests must be supported by diagnostic labor steps and test results.
- All parts replaced under warranty by an installer or fleet must be returned to the selling dealer.

### **SPW Coverage on Parts Replaced at Company Expense**

Parts replaced at Company expense (e.g., Customer Satisfaction Programs, Special Service Instructions, Field Service Actions (FSA), or Customer Loyalty Plan) are covered under the applicable Service Parts Warranty stated below or the remaining portion of the New Vehicle Limited Warranty (if any), whichever is greater.

- Ford/ Lincoln Cars & Light Trucks: The parts and accessories warranty is: 12 months / 12,000 miles, whichever occurs first
- 650 and higher series trucks: The parts and accessories warranty is: 12 months / unlimited miles, whichever occurs first

#### **Notes:**

- The Limited Warranty may be honored by the original installer or any Ford/Lincoln Dealer, even though that particular dealer was not the original purchaser/seller of the part.
- In order for the Dealer, Fleet or Installer to claim the Limited Warranty, the dealer, fleet, installer or customer must provide the original owner's repair order or sales slip with VIN when repairs are requested.

## WARRANTY REGISTRATION GUIDE Ford Powertrain Assembly Service Part

### Warranty Terms

Gas Engine	3 Years/Unlimited Miles on 6007/6006/6V012
Transmission Assemblies	3 Years/Unlimited Miles on automatic transmissions (7000/7V000) and manual transmissions (7002/7003)
Diesel Engine Assemblies	2 Years/Unlimited Miles on complete engines (6007/6V007) and long block (6006/6V006) 1 Year/Unlimited Miles for stripped long blocks (6012/6V012) and short blocks (6009/6V009)

### Registration Process:

#### Fleet- or Independent-Installed

- 1 Purchase assembly from Dealer/Distributor
- 2 Install assembly in vehicle
- 3 Record VIN, Installation Date, Mileage, Serial Number and Part Number on the Vehicle Owner Repair Order
- 4 Send Vehicle Owner Repair Order copy to Dealer/Distributor for registration in OASIS\*
- 5 Dealer/Distributor registers assembly in OASIS\* and generates warranty registration
- 6 Installer provides vehicle owner:
  - Warranty Policy Statement
  - OASIS\* Warranty Registration
  - Vehicle Owner Repair Order

#### Dealer-Installed

- 1 Purchase assembly from Ford Distribution Network
- 2 Install assembly in vehicle
- 3 Record VIN, Date of Installation, Mileage, Serial Number and Part Number on Vehicle Owner Repair Order
- 4 Dealer registers assembly in OASIS\* and generates Warranty Registration
- 5 Dealer provides vehicle owner:
  - Warranty Policy Statement
  - OASIS\* Warranty Registration
  - Vehicle Owner Repair Order

### FAQs:

#### \*Are vehicles for Model Years 1999 and older eligible for the Powertrain Warranty?

Yes – but they cannot be registered in OASIS. Instead, the vehicle owner must retain the Vehicle Owner Repair Order with VIN, Installation Date, Mileage, Ford Serial Number and Part Number documented.

#### Which serial number do I use for a new powertrain assembly?

New assemblies carry a tag similar to the illustration on this page. Copy the number from the label for proper registration.

#### If a powertrain is replaced under the New Vehicle Powertrain Warranty, does it receive the 3-Year/Unlimited Mileage Warranty?

No – those assemblies are covered either by the remainder of New Vehicle Warranty or 12-months/12,000 Miles, whichever is longer.

#### How do I register a powertrain if I do not install it right after purchasing the assembly?

Immediately after the installation, provide the Dealer/Distributor with a Repair Order showing the VIN, Installation Date, Mileage, Serial Number and Part Number documented.

### Where is the Serial Number?

NEW

REMAN

### What does the customer need?

Warranty Policy Statement

OASIS Warranty Registration

Vehicle Owner Repair Order  
**Must include:**

- VIN
- Date of Installation
- Mileage
- Serial Number
- Part Number

## FORD WARRANTY COVERAGE AND REGISTRATION

for Retail and Over-the-Counter (OTC) Powertrain Assembly Sales

### Warranty Terms

- New/Remanufactured Ford Gas or Propane Engines/Transmissions
- New/Remanufactured Ford Diesel Engines

	<b>Gas/Transmission</b> (All vehicles, SSP/ Retail and OTC)	<b>Diesel</b> (All trucks, retail and OTC, incl. F650/F750 & LCF)	<b>Diesel</b> (All trucks, retail and OTC, incl. F650/F750 & LCF)
<b>Warranty Start Date:</b>	9/1/2010 – Present	6/1/2005 – Present	6/1/2005 - Present
<b>Engine Base Part Numbers:</b>	6006, 6007, 6V006, 6V012	6009, 6012, 6V009, 6V012	6006, 6007, 6V006, 6V007
<b>Transmission Base Part Numbers:</b>	7000, 7002, 7003, 7V000		
<b>Warranty Claim Program Code:</b>	SSP – Installed by Dealer OTC – Installed by Customer	SSP – Installed by Dealer OTC – Installed by Customer	SSP – Installed by Dealer OTC – Installed by Customer
<b>Time/Mileage:</b>	3 Years/Unlimited Miles	1 Year/Unlimited Miles	2 Years/Unlimited Miles

Note: No towing coverage is offered on OTC assemblies.

### OTC Warranty Repair Options

Over-the-counter customers of a Dealer (such as a vehicle owner, independent repair facility, wholesaler or fleet customer) can, at their option:

1. Return the vehicle to the installer from which the assembly was purchased.
2. Return the vehicle to the selling dealership for repairs.
3. Return the vehicle to any dealership for repairs.

### Warranty Claim Steps when OTC Customer Repairs

#### OTC Customer Responsibilities

1. Call the **Powertrain Assistance Center (PAC) at 800-392-7946** for prior authorization before removing or replacing a Ford Remanufactured Assembly under OTC Service Part Warranty.
2. Provide the selling Dealer/Distributor a copy of the assembly's OTC Customer Repair Order (whether the original purchasing customer or subsequent transferee) and the PAC authorization number. Arrange for delivery of the replacement assembly.
3. Communicate with the selling Dealer/Distributor regarding your labor amount. Labor reimbursement is based on standard hours listed in the Ford Service Labor Time Standards Manual, multiplied by the dealership's approved warranty labor rate in effect on the date of repair, or the OTC customer's actual labor amount, whichever is less.
4. Return all parts replaced under warranty to the selling Dealer/Distributor.

#### Selling Dealer/Distributor Responsibilities

1. Ensure that the OTC customer calls the **Powertrain Assistance Center at 800-392-7946** for prior authorization.
2. **DO NOT RELEASE REPLACEMENT ASSEMBLIES WITHOUT THE POWERTRAIN ASSISTANCE CENTER AUTHORIZATION NUMBER.**
3. Repairs made by the OTC customer are not included in the dealership's measured warranty expense. These repairs fall "below" the measured total line and will not have an impact on a dealership's entry or progression in the Warranty Counseling Process.
  - Note that the claim must be submitted with a miscellaneous expense code of "SVCLBR" with the corresponding labor reimbursement amount. Failure to use the miscellaneous expense code of "SVCLBR" will cause the repair to be included in your measured expense.
4. Submit a warranty claim, including the serial number of the assembly, on behalf of the OTC customer, and reimburse the OTC customer for the repair.

Dealers are required to adhere to all provisions and procedures detailed in the Warranty and Policy Manual

FORD PARTS

## REMANUFACTURED GAS ENGINE ASSEMBLIES

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### Genuine Ford Remanufactured Gas Engine Assemblies – the Right Fit!

- Each assembly covered by a **36 month/unlimited miles warranty on parts and service\***, with no commercial use exceptions
- Designed to deliver quality and value – include the latest engineering enhancements
- No “reverse engineering”
- Same or next day delivery
- No-risk core return policy – 100% core credit

### Gasoline Engine Features

- Sealed long blocks (6006 base) include all highly desired components including: oil filter and adapters, thermostats and correct oil pan
- Stepped cylinder bore honing helps optimize oil consumption and minimum break-in time
- Head gaskets, main and rod bearings designed specifically for remanufactured blocks, heads and crankshafts
- O.E. manufacturing processes used in assembling each engine
- Each assembly is checked on a computer-controlled test stand to verify performance criteria

\* See dealer for limited-warranty details.

# Product Information

## GENUINE FORD Gas Engine

### HOW A GAS ENGINE WORKS:

- Gasoline is supplied to the engine under high pressure through a fuel injector nozzle that atomizes fuel in a fine mist in each cylinder
- Air is mixed with fuel in the cylinder
- The mixture is compressed and ignited by a spark plug, resulting in fuel combustion and rotary engine motion

### Possible Symptoms:

- The engine uses excessive oil
- The engine does not start or runs erratically
- Excessive bearing clearances result in low oil pressure
- Contamination of oil, coolant or fuel cause performance issues or a no-start condition
- Mechanical pounding, knocking or rattling noises may indicate internal structural problems
- Clicking noises associated with the valvetrain indicate need for component adjustment or replacement

### GAS ENGINE ASSEMBLY

#### 3-Year Unlimited Mileage Warranty

- Only Ford-approved parts
- Latest part updates and revisions from Ford engineering
- Built to original specifications
- Commercial-use approved with full warranty
- Make, model-year and calibration-specific replacements mean the right gas engine for your vehicle

	How they work:	What can happen:
AIR	<ul style="list-style-type: none"> <li>• Air is supplied to the engine to enable combustion within each cylinder</li> <li>• Supplied air is filtered to prevent accelerated cylinder wear due to dust and abrasive contaminants</li> </ul>	<ul style="list-style-type: none"> <li>• A dirty air filter can choke off airflow to the engine, resulting in sluggish performance and poor fuel economy</li> <li>• A missing, leaking or clogged air filter can permit dirt and abrasives to enter the engine</li> </ul>
FUEL	<ul style="list-style-type: none"> <li>• Gasoline engines use a variety of fuel delivery methods, but all modern ones inject fuel either into an intake manifold, cylinder head port or directly to the cylinder</li> </ul>	<ul style="list-style-type: none"> <li>• Water in the fuel can cause fuel system corrosion and driveability issues</li> <li>• Dirty fuel can clog filters, ruin fuel injectors and accelerate cylinder wear</li> </ul>
OIL	<ul style="list-style-type: none"> <li>• Oil is the "lifblood" of the engine, providing a cooling film on internal engine components to prevent direct metal-to-metal contact, wear and damage</li> <li>• A plentiful supply of clean oil is necessary for long engine life</li> <li>• Motorcraft oil and oil filters are recommended for best protection and performance</li> </ul>	<ul style="list-style-type: none"> <li>• Oil can be drawn past worn piston rings and valve stem seals/guides and burned in the cylinder</li> <li>• Worn gaskets and oil seals can allow oil to drip out of the engine</li> <li>• A clogged oil filter can allow unfiltered oil to circulate and damage components</li> <li>• Excessive bearing clearances can allow oil to escape from critical areas, resulting in low oil pressure</li> <li>• Dirty/low oil can result in engine and camshaft bearing damage</li> </ul>
IGNITION	<ul style="list-style-type: none"> <li>• Gas engines use spark plugs to ignite the air/fuel mixture inside the cylinder</li> <li>• The mixture is ignited at a precise moment during the engine's revolution cycle</li> </ul>	<ul style="list-style-type: none"> <li>• The spark plugs can fail or wear and require replacement</li> <li>• Ignition coil(s) or spark plug wires can fail or wear, resulting in misfires or no-start conditions</li> </ul>
COOLING	<ul style="list-style-type: none"> <li>• Coolant is pumped through passages inside the engine block and cylinder heads to cool hot components</li> <li>• Coolant is pumped to an external pressurized radiator, where onrushing air flows through a finned core to remove heat</li> <li>• Coolant is returned to the engine and recirculated</li> </ul>	<ul style="list-style-type: none"> <li>• The water pump can fail and coolant cannot reach the radiator – engine overheats</li> <li>• The radiator can corrode or suffer physical damage that allows pressure to escape/coolant to leak, causing boil-over/loss and engine overheating</li> <li>• Coolant can "wear out," resulting in inadequate concentrations of important additives that prevent coolant freezing, boil-out and cooling system corrosion and clogging</li> <li>• Neglected maintenance can result in coolant freezing, system corrosion or component damage</li> </ul>
SENSORS	<ul style="list-style-type: none"> <li>• Sensors keep tabs on atmospheric conditions as well as a long list of vital engine functions</li> <li>• The sensors send data to the Engine Control Module, which in turn makes adjustments to various engine components to optimize driveability, fuel economy, performance and emissions</li> </ul>	<ul style="list-style-type: none"> <li>• Sensors can fail for a variety of reasons, from water intrusion into the component, fuel contaminants or electrical issues</li> </ul>

# GET EVERYTHING YOU'RE PAYING FOR AT A COMPETITIVE PRICE

with a **GENUINE Ford** Remanufactured Gas Engine

## We remanufacture only Ford Gas Engines – to our own original engineering specifications

Here's what adds up to a Ford engine that's closer to "new" than many competitors' engines:

- Ford proprietary blueprint specifications
- Only Ford-approved parts
- High standards in precision machining

Peace of Mind Warranty Coverage

- For 36 months from warranty start date, Ford will cover 100% of all parts and labor\*
- Unlimited mileage coverage
- If the engine is installed by a Dealer, standard towing charges are covered†
- More than 3,000 servicing Ford and Lincoln Dealers nationwide

\*At approved warranty reimbursement rates.

†If the vehicle is not covered under other towing insurance coverage; reasonable rates up to 35 miles or to the nearest Dealer.

- A** **Pistons and Piston Rings – Ford Engineering-Approved**
- Pistons facilitate ignition by compressing/sealing the air/fuel mixture
  - Over time, can become worn or heavily carbon-coated

- B** **Main, Rod and Camshaft Bearings – Ford Engineering-Approved**
- Provide a soft-metal surface for the oil film to buffer against metal-to-metal contact of the crankshaft journals, connecting rods and camshaft journals
  - Oil film can break down, resulting in damaged or "spun" bearings and severe engine knock
  - Bearings can be damaged by oil contaminants, also causing damage to the components that ride on them

- C** **Oil Pump – Ford Engineering-Approved**
- Delivers oil to internal bearings
  - Can be damaged by wear by-products, water and debris
  - Pump failure can cause catastrophic engine failure

- D** **Water Pump – Ford Engineering-Approved**
- Circulates coolant through passages in the engine block and cylinder heads
  - Bearing or impeller can wear out with use

- E** **Variable Cam Timing Solenoid – Ford Engineering-Approved (not shown)**
- Adjusts camshaft timing to ensure optimum power, economy and emissions at all engine speeds
  - Can wear out over time or become obsolete due to part revisions

**All Replaced Components – Ford Engineering-Approved**

- Competitors may use any brand or quality – Ford uses only new OE replacements

# GENUINE QUALITY MAKES THE DIFFERENCE.

# 3-YEAR Unlimited Mileage Warranty

## Compare Your Gas Engine Repair Options:

Other repair options are available to you, but none offer the quality and peace of mind that Genuine Ford Remanufactured Gas Engines do. Our remanufacturing process uses genuine original equipment Ford and Motorcraft parts that are designed, manufactured and recommended by Ford Motor Company specifically for these engines. Extensive laboratory and road testing, as well as exact fit and function ensures maximum performance and efficiency. It's all backed by Ford's three-year, unlimited-mileage warranty— even for demanding commercial use. Check out what makes us your best choice:

## INTAKE MANIFOLD KITS

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### High Quality Designs

- Original equipment manifolds vehicle crash tested to ensure fuel rail integrity
- Runner length and shape designed to minimize NVH and deliver strong performance at all engine speeds
- Injection-molded cases made of virgin nylon resins
- Designed to withstand coolant temperature and pressure spikes at wide-open-throttle
- Key Life durability tested to the equivalent of 10 years/150,000 miles lifetime

### Attention To Detail

- Designed to provide an optimal combination of torque, horsepower and fuel mileage
- PCV port location and size is engineered to ensure compliance with emissions specifications
- Hose spigot designs are vehicle-specific and feature retention barb for a firm hose fit
- Structural ribs add rigidity to the case
- The noise shield helps minimize NVH (not available on all models)

### 24-months/Unlimited Mileage Service Part Warranty

- 24-months / Unlimited Mileage Limited Warranty, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
- Designed to meet stringent Ford engineering standards for performance and durability
- Recommended for all Ford, Lincoln and Mercury vehicles

### High Burst Pressure

- Ford manifolds are engineered to ensure burst pressures high enough to withstand engine backfire
- A non-OEM plenum with a low burst pressure can contribute to backfires and damaged valves and pistons

**FORD PARTS  
WARRANTY**

**UNLIMITED  
MILEAGE**  
INCLUDES LABOR

**2 YEARS**

## WATER PUMPS

*Right Part. Right Fit. Right Price Every Time!*

**Motorcraft.**

### Motorcraft® Water Pumps

#### Robust Design

- Coolant reservoir keeps normal cold-start weepage out of sight and extends bearing life
- Press tubes coated with nickel zinc for better housing connection and corrosion resistance
- Powdered-metallic hub mating surfaces provide superior alignment for smooth operation and don't need machining
- Robust impeller design engineered to optimize performance for specific vehicle applications
- Key Life durability tested to the equivalent of 10 years/150,000 miles lifetime

#### High Quality Bearings and Seals

- All pumps contain precision ground bearings to help deliver long life and efficient performance
- Bearing housing meets original equipment load requirements
- Bearings are locked into place to minimize fan-load vibration, and help ensure long-term alignment and reliability
- Latest advances in seal and bearing technology employed

#### Easy Installation

- Original equipment-designed metal gaskets include an additional sealing bead to help optimize alignment and provide long-term sealing
- Always a new product - no core charges

#### 24-months/Unlimited Mileage Service Part Warranty

- 24-months / Unlimited Mileage Limited Warranty, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
  - Designed to meet stringent Ford engineering standards for performance and durability
  - Recommended for all Ford, Lincoln and Mercury vehicles

**MOTORCRAFT®  
WARRANTY**

**UNLIMITED  
MILEAGE**  
INCLUDES LABOR

**2 YEARS**

**Bearings locked  
in place**

**Full-length ribs  
add stability**

**High quality impellers**

## FORD REMANUFACTURED DIESEL ENGINES

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### Remanufactured to OEM Specifications:

- The only high volume V8 remanufactured diesel engines (6.0L & 6.4L) with state of the art bore spray welding procedure which are subject to bore spray manufacturing capacity
- Cylinder bores are diamond plateau honed
- Cylinder heads are new or remanufactured
- Remanufactured crankcase: Inspected for cavitation
- Crankshaft remanufacturing includes Magnifluxing
- Remanufactured injectors tested with OEM equipment
- Camshaft remanufacturing assures lift, contour, finish and size
- Remanufactured turbocharger and high pressure oil pump

### All New:

- Bearings
- Coolant Heaters
- Core Plugs
- Gaskets
- Lube Oil Coolers: Not Cleaned or Re-Cored
- Pistons
- Piston Rings
- Premium Glow Plugs
- Seals
- Sensors
- Thermostats
- Valve Cover Gaskets
- Valve Guide Inserts
- Water Pumps

### 24-months/Unlimited Mileage Service Part Warranty

24-months / unlimited mileage limited warranty, which includes parts and labor costs, and is supported by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)

**FORD PARTS WARRANTY**

**UNLIMITED MILEAGE INCLUDES LABOR**

**2 YEARS**

# Product Information

## GENUINE FORD Power Stroke® Diesel Engine

### HOW A DIESEL ENGINE WORKS:

- Diesel fuel is supplied to the engine under high pressure through a fuel injector nozzle that atomizes fuel in a fine mist in each cylinder
- Air is mixed with fuel in the cylinder
- The mixture is compressed under extreme pressure (as much as 22 times atmospheric pressure), resulting in fuel combustion and rotary engine motion
- Glow plugs are used to promote the combustion process for cold starts

### Possible Symptoms:

- The engine uses excessive oil
- The engine does not start or runs erratically
- Excessive bearing clearances result in low oil pressure
- Contamination of oil, coolant or fuel cause performance issues or a no-start condition
- Mechanical pounding, knocking or rattling noises not associated with fuel knock indicate internal structural problems
- Clicking noises associated with the valvetrain indicate need for component adjustment or replacement

### DIESEL ENGINE ASSEMBLY

### 2-Year Unlimited Mileage Warranty

- All OE parts
- Latest part updates and revisions from Ford engineering
- Built to original equipment specifications
- Commercial-use approved with full warranty
- Make, model-year and calibration-specific replacements mean the right diesel engine for your vehicle

	How they work:	What can happen:
AIR	<ul style="list-style-type: none"> <li>• Air is supplied to the engine to enable combustion</li> <li>• Supplied air is filtered to prevent accelerated cylinder and turbocharger wear due to dust and abrasive contaminants</li> </ul>	<ul style="list-style-type: none"> <li>• A dirty air filter can choke off airflow to the engine, resulting in sluggish performance and poor fuel economy</li> <li>• A missing, leaking or clogged air filter can permit dirt and abrasives to enter the engine</li> </ul>
FUEL	<ul style="list-style-type: none"> <li>• Diesels use a variety of fuel delivery methods, but all inject fuel either into an intake manifold, cylinder head port or directly to the cylinder</li> <li>• Older Power Stroke® engines used high-pressure oil to drive fuel injectors</li> <li>• Ford 6.4L and 6.7L Power Stroke common rail systems deliver fuel from a main pump to a high-pressure pump, then force it through a common line ("rail") to each fuel injector, and into each cylinder</li> </ul>	<ul style="list-style-type: none"> <li>• Diesel fuel can contain water, which must be prevented from freezing and removed from the fuel system by draining the water separator</li> <li>• Water in the fuel can cause high pressure fuel pump corrosion and failure</li> <li>• High pressure fuel pump problems can result in hard hot starts, a miss at idle or oil supply aeration to the pump due to a leaking o-ring</li> <li>• Cold diesel fuel is subject to "gelling," preventing free flow from the fuel tank to the engine</li> <li>• Dirty fuel can clog filters, ruin fuel injectors and accelerate fuel pump and cylinder wear</li> </ul>
OIL	<ul style="list-style-type: none"> <li>• Oil is the "lifblood" of the engine, providing a cooling film on internal engine components to prevent direct metal-to-metal contact, wear and damage</li> <li>• A plentiful supply of clean oil is necessary for long engine life</li> <li>• Special oil formulated for diesel engines is required – Motorcraft diesel oils are recommended for best protection and performance</li> </ul>	<ul style="list-style-type: none"> <li>• Oil can be drawn past worn piston rings and valve stem seals/guides and burned in the cylinder</li> <li>• Worn oil seals can allow oil to drip out of the engine</li> <li>• A clogged oil filter can allow unfiltered oil to circulate and damage components</li> <li>• Excessive bearing clearances can allow oil to escape from critical areas, resulting in low oil pressure</li> <li>• Dirty/low oil can result in turbocharger or injector damage</li> </ul>
IGNITION	<ul style="list-style-type: none"> <li>• Diesel engines use no spark plugs – fuel is ignited through extreme compression of the air-fuel mixture</li> <li>• Cold-engine starts are aided by glow plugs</li> </ul>	<ul style="list-style-type: none"> <li>• Glow plugs can fail and require replacement</li> <li>• Diesel fuel can gel in cold weather, becoming difficult to pump and ignite</li> </ul>
COOLING	<ul style="list-style-type: none"> <li>• Coolant is pumped through passages inside the engine block and cylinder heads to cool hot components</li> <li>• Coolant is pumped to an external pressurized radiator, where onrushing air flows through a finned core to remove heat</li> <li>• Coolant is returned to the engine and recirculated</li> </ul>	<ul style="list-style-type: none"> <li>• Water pump failure results in engine overheating</li> <li>• The radiator can corrode/suffer physical damage, allowing pressure to escape/coolant to leak, causing boil-over and overheating</li> <li>• Each type of Power Stroke engine has unique coolant and testing requirements. Failure to test may lead to coolant with improper strength/concentration levels – damaging EGR coolers on newer models</li> <li>• Neglected maintenance can result in coolant freezing, corrosion or component damage</li> </ul>
EGR	<ul style="list-style-type: none"> <li>• Exhaust gases are reintroduced into the engine to reduce Oxides of Nitrogen (NOx) emissions</li> </ul>	<ul style="list-style-type: none"> <li>• Performing oil/filter and engine coolant scheduled maintenance is required to prevent EGR Cooler/Oil Cooler corrosion/plugging – Failure to perform this maintenance on time can result in overheated/failed components, increased emissions and poor performance</li> </ul>

# GET EVERYTHING YOU'RE PAYING FOR AT A COMPETITIVE PRICE

with a **GENUINE Ford** Remanufactured Diesel Engine

## **A** **Pistons and Piston Rings – NEW OE**

- State-of-the-art bore-spray technology on remanufactured Power Stroke® 6.0L and 6.4L engines results in standard-size bores in brand-new condition that allow use of standard-size pistons
- Pistons facilitate ignition by compressing/sealing the air/fuel mixture
- Over time, can become worn or heavily carbon-coated

## **B** **Main, Rod and Camshaft Bearings – NEW OE**

- Provide a soft-metal surface for the oil film to buffer against metal-to-metal contact of the crankshaft journals, connecting rods and camshaft journals
- Oil film can break down, resulting in damaged or “spun” bearings and severe engine knock
- Bearings can be damaged by oil contaminants, also causing damage to the components that ride on them

## **C** **Oil and Fuel Pumps – NEW OE**

- Deliver oil to internal bearings and fuel to the engine
- Can be damaged by wear by-products, water and debris
- Pump failure can immobilize the vehicle (fuel) or cause catastrophic engine failure (oil)

## **D** **EGR and Oil Coolers – NEW OE**

- The EGR cooler reduces exhaust gas temperatures before reintroducing gases into the engine for lower emissions
- Oil coolers reduce oil temps to prolong turbo life (when equipped) and to cool pistons/bearings more effectively
- Competitors may clean and reuse old components that can fail and cause other components to fail as well – we don't take chances

### **All Replaced Components – NEW OE**

- Competitors may use any brand or quality – Ford uses only new OE replacements

**We remanufacture only Ford Power Stroke Diesel Engines – to our own original engineering specifications**

**Ford offers twice the warranty coverage of a major competitor on:**

- **Electronic fuel injectors**
- **Hydraulic high-pressure pumps**
- **Turbochargers**
- **Water pumps and more**

A major competitor also excludes warranty coverage on oil, antifreeze, fluids and towing charges – but Ford covers them all. And more than 3,000 servicing Ford and Lincoln Dealers nationwide offer peace of mind for over-the-road travel.

# GENUINE QUALITY MAKES THE DIFFERENCE.

# 2-YEAR Unlimited Mileage Warranty

## Compare Your Diesel Engine Repair Options:

Other repair options are available to you, but none offer the quality and peace of mind that Genuine Ford Remanufactured Power Stroke® Diesels do. Our remanufacturing process uses genuine original equipment Ford and Motorcraft parts that are designed, manufactured and recommended by Ford Motor Company specifically for these engines. Extensive laboratory and road testing, as well as exact fit and function ensures maximum performance and efficiency. It's all backed by Ford's two-year, unlimited-mileage warranty— even for demanding commercial use. Check out what makes us your best choice:

## GENUINE FORD Diesel Fuel System Components

### HOW THEY WORK TOGETHER:

- Water separators and fuel filters are your Power Stroke® Diesel engine's first line of defense against unnecessary repairs – keep the water separator drained and the filters changed on schedule
- On Power Stroke Diesels, fuel is supplied to the engine through a fuel conditioning module that combines a water separator and fuel filter
- A fuel pump transports fuel from the tank through the water separator and filter to a secondary filter at the engine (6.0L, 6.4L, 6.7L engines)
- On common rail fuel injection systems, the high pressure fuel pump further pressurizes the fuel and supplies it to a fuel injector nozzle at each cylinder
- The fuel injector atomizes fuel in a fine mist in each cylinder

### POSSIBLE SYMPTOMS:

#### Fuel Filters

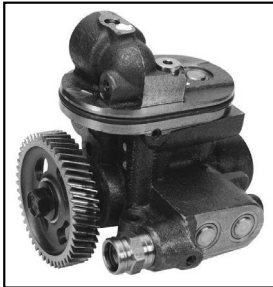

- Dirty filters are the “silent killers” – damage occurs when they are neglected
- By the time symptoms such as erratic idling, lack of power or hard starts begin, engine damage is already underway

#### High Pressure Fuel Pump

- The engine does not start or runs erratically
- Hard hot starts
- A miss at idle

#### Injectors

- The engine does not start or runs erratically
- Excessive black smoke from the exhaust
- Lack of power/poor economy

	How they work:	What can happen:
FILTERS	<ul style="list-style-type: none"> <li>• The Diesel Fuel Conditioning Module separates water and filters impurities from the fuel</li> <li>• The primary and secondary fuel filters remove dirt, sediment and metal particles from the fuel system, to prevent accelerated wear and damage to the fuel pumps, fuel injectors and internal engine parts</li> </ul> 	<ul style="list-style-type: none"> <li>• The water separator can pass water through the fuel system if it is not drained monthly                             <ul style="list-style-type: none"> <li>– Always drain the system <b>immediately</b> if the “Water in Fuel” light on the instrument panel illuminates</li> </ul> </li> <li>• Over time, fuel filters can become waterlogged and collapse if they are not changed on schedule and/or the water separator is not drained</li> <li>• Fuel filters can become clogged with contaminants, impede fuel flow and pass impurities to the engine if they are not changed on schedule</li> </ul>
PUMPS	<ul style="list-style-type: none"> <li>• Older Power Stroke engines deliver fuel to the engine at lower pressures than modern versions</li> <li>• Common rail systems like the Ford 6.4L and 6.7L Power Stroke engines deliver fuel from the fuel tank through a main pump                             <ul style="list-style-type: none"> <li>– From the main pump, fuel is delivered to a high-pressure pump at the engine</li> <li>– The high pressure pump further pressurizes the fuel and forces it through a common line (“rail”) that supplies the fuel injector nozzles</li> </ul> </li> </ul> 	<ul style="list-style-type: none"> <li>• Diesel fuel can contain water, which must be prevented from entering the pumps and causing corrosion that can result in pump failure                             <ul style="list-style-type: none"> <li>– In addition, contaminated diesel fuel may introduce metal debris into the high pressure system, requiring the replacement of all parts in the system</li> </ul> </li> <li>• High pressure fuel pump problems can result in hard hot starts, a miss at idle, or difficulty building proper fuel pressure</li> </ul>
INJECTORS	<ul style="list-style-type: none"> <li>• Injectors atomize pressurized fuel and spray it into the engine cylinders</li> <li>• Older Power Stroke® engines used high-pressure oil to drive fuel injectors</li> <li>• Common rail systems like the Ford 6.4L and 6.7L Power Stroke engines force fuel through a common line (“rail”) to each fuel injector nozzle, and into each cylinder</li> <li>• Clean fuel is critical to long component life and proper operation</li> </ul> 	<ul style="list-style-type: none"> <li>• The combination of dirty fuel and neglected fuel filters can damage injectors, resulting in costly repairs</li> <li>• Water in the fuel can attack internal components and cause the injectors to malfunction</li> </ul>

# MAINTAIN THE SYSTEMS

...and the components will follow

Fuel system maintenance is just the start, when it comes to preventive maintenance. The health of your fuel pumps and fuel injectors depend on it. In addition, regularly-scheduled oil/filter and fuel filter changes – along with coolant testing and maintenance – are key to ensuring long lives for your Power Stroke® Diesel's Exhaust Gas Recirculation (EGR) cooler and engine oil cooler, too.

## WHY FILTER CHANGES ARE VITAL

### 1. Keep water out of your fuel.

- This is the first line of defense against fuel pump corrosion and damage to the fuel filter. Make draining the water separator part of your routine – don't wait for the "Water in Fuel" (WIF) light to illuminate on your instrument panel. If it does illuminate, drain the separator immediately

### 2. Keep your fuel filters changed on schedule.

- Stop damage to your fuel system before it starts, by ensuring that contaminants and debris never reach your fuel pumps and injectors
- New fuel filters are inexpensive insurance and cost much less than injectors or pumps to replace

### 3. Use Genuine Ford and Motorcraft Parts

- On 6.0L and 6.4L Power Stroke engines, Motorcraft diesel fuel filters feature Aqua Block® technology to assist in keeping water upstream in the fuel system and away from pumps and injectors
  - The Aqua Block material repels water and drops it into the separator for draining
- Genuine Ford and Motorcraft replacement filters are designed (and in several applications, patented) specifically for your engine – competitive filters aren't

### 4. Maintain ALL of your Power Stroke Diesel Engine Systems

- Stay on top of all of your Power Stroke Diesel engine's maintenance items to ensure that your EGR cooler and oil cooler operate in peak condition and to avoid preventable repairs. This includes:
  - Regular oil/filter changes
  - Air filter changes
  - Coolant testing and maintenance specified by your Owner Guide

## Get More Power and Better Fuel Economy with Motorcraft Diesel Fuel Additives

**3 Sizes Available**  
Improve your diesel engine's performance with fuel system additives you can rely on:

### Motorcraft Cetane Booster & Performance Improver

- Boosts power
- Improves fuel economy
- Improves starting ability
- Smooths engine operation
- Adds lubricity to fuel to reduce engine wear
- Reduces EGR valve soot contamination
- Single shot, medium size and gallon size

### Motorcraft Anti-Gel & Performance Improver

- Helps prevent gelling of diesel fuel in lines, filters, and tanks
- Improves fuel economy
- Improves starting ability during cold weather
- Smooths engine operation
- Adds lubricity to fuel to reduce engine wear
- Single shot, medium size and gallon size

Motorcraft®

FORD PARTS

## REMANUFACTURED TRANSMISSION ASSEMBLIES

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### Genuine Ford Remanufactured Transmission Assemblies – the Right Fit!

- Exceptional quality and value
- Incorporate the latest engineering enhancements
- No “reverse engineering”
- Same or next day delivery
- No-risk core return policy – 100% core credit
- Each assembly covered by a **36-month/Unlimited Miles Limited Warranty** on parts and service (see dealer for details) - no commercial exceptions
- Nationwide warranty coverage
- All critical parts replaced – contributes to excellent performance and durability

### Transmission Assembly Features

- Assemblies feature all-new gaskets and seals
- Ford-approved transmission fluid – filled before the assembly leaves the factory to ensure proper fluid is used
- Make, model, year and emission calibration specific
- Include sensors (when applicable)
- Same extensive O.E. production end of line testing for:
  - Hydraulic pressure
  - Proper shift times and points
  - Torque converter stall speed
  - Torque converter lock-up points

## GENUINE FORD Transmission

How they work:	What can happen:
<b>A TORQUE CONVERTER</b>	
<ul style="list-style-type: none"> <li>• A hydraulic coupling that transfers engine power to the transmission</li> <li>• Allows the engine to run with the vehicle stopped, by permitting a controlled amount of slip. Provides the engage/disengage function from the drive wheels at red lights</li> <li>• A lockup clutch physically locks the engine output to the transmission at steady cruising speeds to eliminate slip and increase efficiency</li> </ul>	<ul style="list-style-type: none"> <li>• A seal between the torque converter and the transmission can leak fluid</li> <li>• The torque converter can fill with debris from component wear and contaminate fresh fluid or a replacement transmission</li> <li>• Internal components can break or bend</li> <li>• The lockup clutches can slip or stop working entirely</li> <li>• The seam weld can leak</li> </ul>
<b>B FLUID AND FILTER</b>	
<ul style="list-style-type: none"> <li>• Fluid is the “lifeblood” of the transmission</li> <li>• Keeps components cool</li> <li>• Lubricates the bearings, bushings and gears</li> <li>• Prevents rust</li> <li>• Optimizes driving “feel” (clutch friction)</li> <li>• An internal filter cleans the fluid</li> <li>• Fluid/filter require periodic changes – see Owner Guide maintenance schedule</li> </ul>	<ul style="list-style-type: none"> <li>• Fluid can overheat (burn) and reduce the life of the transmission</li> <li>• Unchanged, burned fluid eventually results in transmission failure</li> <li>• Filter can eventually clog with debris (metal shavings/friction material) caused by wear</li> <li>• A clogged filter can prevent fluid flow, resulting in failure</li> </ul>
<b>C GEARS</b>	
<ul style="list-style-type: none"> <li>• Planetary gearsets offer multiple speed ratios in a compact package</li> <li>• Clutches hold specific gearset components for various gear ranges</li> </ul>	<ul style="list-style-type: none"> <li>• Bushings or bearings can fail</li> <li>• Debris can damage gear teeth</li> </ul>
<b>D OIL PUMP</b>	
<ul style="list-style-type: none"> <li>• The oil pump pressurizes fluid to:                             <ul style="list-style-type: none"> <li>– Activate clutches</li> <li>– Provide lubrication</li> <li>– Move it through the transmission cooler</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• The pump can fail due to wear or leakage                             <ul style="list-style-type: none"> <li>– Causes low or no fluid pressure</li> <li>– Clutches can slip and fail</li> </ul> </li> <li>• Bushings, bearings and gears lose lubrication, causing wear or failure</li> <li>• Low pressure reduces or stops fluid flow through the transmission cooler                             <ul style="list-style-type: none"> <li>– Transmission overheats as a result</li> </ul> </li> </ul>
<b>E CLUTCHES</b>	
<ul style="list-style-type: none"> <li>• Clutch pistons are actuated by fluid pressure                             <ul style="list-style-type: none"> <li>– This applies the clutch to engage the friction material</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• The friction materials can wear out and lose their grip, resulting in transmission slip</li> <li>• Clutch piston seals can wear or fail, resulting in friction material slip and wear</li> </ul>
<b>F MAIN CONTROL / TRANSMISSION CONTROL UNIT</b>	
<ul style="list-style-type: none"> <li>• The Main Control and Transmission Control Unit are the combined brains of the transmission</li> <li>• They direct fluid at the proper time and pressure to the clutch pistons/clutches to provide:                             <ul style="list-style-type: none"> <li>– Smooth shifts</li> <li>– The optimum gear selection for performance and fuel economy</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• Main control valves and solenoids contaminated by debris can stick, causing erratic shifting and clutch failure</li> </ul>

### HOW AN AUTOMATIC TRANSMISSION WORKS:

- A torque converter harnesses and transmits the engine’s rotary motion
- A hydraulic pump moves transmission fluid to the clutches and main control
- Rotary power is transferred to internal shafts and gearing
- Gearing and clutch application determines the correct combination of speed and power output to the wheels
- Rotary motion is transmitted through the differential to the drive wheels

### Possible Symptoms:

- One or more gear ranges do not work (A, B, C, D, E, F)
- The engine must be revved higher than normal to make the vehicle move (A, B, C, D, E, F)
- Vehicle driveability is jerky or erratic (A, B, D, E, F)
- A burnt odor is detected (B, E)
- Excessive noise (A, C, D)

### TRANSMISSION ASSEMBLY

#### 3-Year Unlimited Mileage Warranty

- All Ford-designed and approved parts
- Assembled using precision assembly fixtures
- Latest parts updates and revisions from Ford engineering
- Commercial use-approved with full warranty
- The correct replacement for your vehicle
- Final testing and standards identical to new Ford production transmissions

# GET EVERYTHING YOU'RE PAYING FOR AT A COMPETITIVE PRICE

with a **GENUINE Ford Remanufactured Transmission**

- A Torque Converter**  
A hydraulic coupling that transmits engine power to the transmission.
- Remanufactured using premium components
    - Disassembled and all parts cleaned and inspected
    - Assembled using only Ford-designed and approved parts and processes
    - Balanced using the same methods as new production units

- B Fluid and Filter**  
Provides clean lubrication, cools components, inhibits rust and optimizes “shift feel” across the normal operating temperature range
- Ford-specified, Ford-designed fluid and filter used on every unit

- C Planetary Gearsets**  
Transfer power from the torque converter to the wheels at different speeds to provide a full range of gear options
- Cleaned and inspected for wear, damage or noise and replaced when necessary

- D Pump**  
Pressurizes fluid to actuate clutches, lubricate parts and move fluid through the cooler
- Cleaned, inspected and reassembled using Ford-designed, Ford-approved parts and processes

- E Clutches and Friction Material**  
Activated by fluid pressure to transmit power to the gearset elements and to provide smooth transitions between gear ranges
- Disassembled and parts cleaned and inspected
  - Friction material and seals inspected for wear and replaced as needed with Ford-designed and approved parts
  - Assembled using state of the art equipment to ensure proper clutch clearance

- F Main Control and Transmission Control Unit (“Brains”; not pictured)**  
Interacts with vehicle computer to determine correct transmission shift speeds and timing
- Disassembled and parts cleaned and inspected
  - Solenoid valves electronically tested to ensure full-range function
  - Assembled using only Ford-designed, Ford-approved parts and processes

# GENUINE QUALITY MAKES THE DIFFERENCE.

# 3-YEAR Unlimited Mileage Warranty

## Compare Your Transmission Repair Options:

There are a number of transmission repair options available to you, but none offer the quality and peace of mind that Ford Remanufactured transmissions do. For starters, we use only the most up-to-date Original Equipment parts and offer an unsurpassed three-year, unlimited-mileage warranty. You can be certain that they're engineered and built tough enough for demanding commercial use. Check out what makes us your best choice.

## AUTOMATIC TRANSMISSION TIPS & CHECKLIST

To perform the task of removing and installing an automatic transmission, you should be certified in automotive transmission replacement.

### REMOVAL AND INSTALLATION

- Review all prior warranty history of the vehicle.
- Review all Technical Service Bulletins and Special Service Messages pertaining to the vehicle and transmission being serviced.
- Verify that the replacement unit is the correct unit for the vehicle.
- Use appropriate Workshop Manual for exact procedures and specifications required to remove and replace the transmission assembly.

### INSTALLATION TIPS

- Prior to installation, lightly lubricate the torque converter pilot that fits into the engine crankcase bore with multipurpose grease specification ESB-MIC93-B or equivalent.
- Ensure engine to transmission dowel pins are in place.
- Properly flush cooler and cooler lines. Refer to appropriate workshop manual for complete flushing procedures. See page P-10 to identify cooler return line. Flush system using Rotunda tool 222-00007 (or equivalent) with a Ford approved transmission fluid as the flush agent. The Rotunda flushing unit is highly recommended as it has a flow meter, maintains fluid at 140 degrees F, pulsates during cleaning, and air purges before and after flushing, which is crucial for maximum effectiveness. Any substitute flushing tool must have these features to ensure success.  
**NOTE:** Some coolers and/or bypass valves cannot be flushed. These units must be replaced.
- The replacement transmission has some fluid in it. (Rear wheel drive transmissions are full filled. Front wheel drive transmissions are partially filled). For complete fluid checking procedures, refer to the appropriate workshop manual.

**NOTE: If required, use fluid type identified on the tag attached to the remanufactured transmission. Do not overfill transmission.**

**NOTE:** Some transmissions require use of a scan tool to verify fluid temperature is in proper range when checking fluid level.

### INSTALLATION TIPS (CONT'D)

- Check and adjust transmission shift linkage as outlined in the appropriate Workshop Manual. Adjustment must be done in drive position.
- Inspect transmission wiring harness and connectors for any damaged areas and correct routing. Ensure that the harness connector has no damaged pins or seal also check for cracks or corrosion.
- Most transmissions require that the solenoid strategy be updated in the Powertrain Control Module (PCM). Verify that the PCM is programmed to the latest level. Use appropriate Workshop Manual for proper procedure.
- Follow the workshop manual "Transmission Adaptive Learn and Drive" procedure after installation.
- Correct any drivability concerns and/or codes during course of repair. Engine performance issues can adversely affect transmission operation.

### CORE SHIPPING GUIDELINES

- Use the shipping container that the replacement transmission was shipped in to return the failed transmission.
- Fully drain the fluid from the transmission pan and torque converter.
- Ensure that all components to be transferred have been removed from the failed transmission and installed on the replacement transmission.
- Verify that no dowel pins are on the failed transmission.
- Transfer all shipping caps and plugs from the replacement transmission to the failed transmission.
- Ensure the retuned failed transmission is completely reassembled.
- Install the torque converter shipping strap.

# Product Information

## TRANSMISSION OIL COOLERS & TUBES

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### Attention To Detail

- Sized to meet Cold Flow requirements - helps prevent overheating in cold conditions
- Aluminum fins meet rigorous Ford corrosion specifications
- Long-life aluminum alloys
- Lightweight aluminum construction

### Robust Design

- Optimum cooling capacity and performance for uphill towing
- Tough tested through a wide range of pressure and thermal cycles
- Designed for optimal heat dissipation

### Easy Installation

- Vehicle-specific designs
- Robust brackets for secure mounting
- No fabrication required

### Oil Cooler Tubes

- Vehicle specific designs
- Correct fittings minimize connections and leaks
- Routed correctly to eliminate NVH

### 24-months/Unlimited Mileage Service Part Warranty

- 24-months / unlimited mileage limited warranty, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
- Designed to meet stringent Ford engineering standards for performance and durability
- Recommended for all Ford, Lincoln and Mercury vehicles

**Lightweight aluminum  
construction**

**Brackets designed for  
easy installation and  
secure mounting**

FORD PARTS  
WARRANTY

UNLIMITED

### Legend:

<b>F</b>	Flush cooler using Transmission Heated Cooler Line Flusher 222-00007, 222-00004 or equivalent during transmission overhaul or replacement. If the Transmission Heated Cooler Line Flusher or equivalent is not available, install a new transmission fluid cooler and/or an auxiliary transmission fluid cooler
<b>F*</b>	The Cold Weather Bypass Valve (if equipped) cannot be flushed and should be replaced during cooler system service. If the valve is not currently installed, it should be retroactively added after cooler system service. Flush the cooling system using the Transmission Heated Cooler Line Flusher 222-00007, 222-00004 or equivalent during transmission overhaul or replacement. If the Transmission Heated Cooler Line Flusher or equivalent is not available, install a new transmission fluid cooler and/or an auxiliary transmission fluid cooler
<b>R</b>	Replace cooler during transmission overhaul or replacement

**NOTE:** Some vehicles may be equipped with an optional Towing Package transmission cooler. This optional cooler (if equipped) should be replaced during transmission overhaul or replacement

### Legend:

<b>F</b>	Flush cooler using Transmission Heated Cooler Line Flusher 222-00007, 222-00004 or equivalent during transmission overhaul or replacement. If the Transmission Heated Cooler Line Flusher or equivalent is not available, install a new transmission fluid cooler and/or an auxiliary transmission fluid cooler.
<b>R</b>	Replace cooler during transmission overhaul or replacement
<b>R (OTA)</b>	Replace Oil-To-Air cooler (if equipped) during transmission overhaul or replacement
<b>R (OTA)*</b>	Flush cooling system during transmission overhaul or new unit install. Replace OTA when flushing does not adequately clean
<b>R (OTAG)</b>	Replace Oil-To-Air cooler (if equipped) during transmission overhaul or replacement- Gasoline engine vehicles only

**NOTE:** Some vehicles may be equipped with an optional Towing Package transmission cooler. This optional cooler (if equipped) should be replaced during transmission overhaul or replacement

## TRANSMISSION COOLER SERVICE

- Most F-Super Duty vehicles have radiator in-tank fluid coolers. This type of cooler will require flushing. If flushing does not adequately clean the cooler, replacement is required. Always refer to the vehicle service publications.
- TorqShift transmission cooling system flushing procedure is unique. Refer to the vehicle workshop manual before performing this procedure.
- Replacement procedures for Oil-To-Air (OTA) and Auxiliary coolers vary based on year and model of the vehicle.

- Different types of OTA coolers are required for gasoline and diesel applications.
  - OTA Cooler with threaded cooler line connections
  - OTA Cooler with crossover tube and hose clamp connections

**Note:** Cooler application may change due to a mid-year production changeover. Always replace the OTA cooler with a cooler of the same size and cooler line connection type (threaded or hose clamp).

When any of the following vehicles with OTA transmission coolers require major transmission service the OTA cooler must be replaced.

**Note:** Always verify the correct part numbers before ordering replacement parts.

### 1999 - 2014 F-Series F-150

- 2009 - 2014 **Part # DL3Z-7A095-A** (4 ch - 1/2" line hose clamp connection)
- 2004 - 2008 **Part # 6L3Z-7A095-A** (4 ch - 1/2" line quick connection)
- 2004 - 2008 **Part # 6L3Z-7A095-B** (9 ch - 1/2" line quick connection)
- 2000 - 2003 **Part # 4L1Z-7A095-BB** (11 ch (trailer tow) - 3/8" line quick connection)
- 2000 - 2003 **Part # 5L3Z-7A095-G** (4R100 7 ch - 3/8" line quick connection)
- 2000 - 2003 **Part # 5L3Z-7A095-H** (4R70W 7 ch - 3/8" line quick connection)
- 1999 **Part # XL3Z-7A095-EA** (4R100 7 ch - inverted nut fittings)

### 1999 - 2016 F-Series Super Duty 250 - 550

- 2008 - 2010 6.4L Diesel Engine, 5R Transmission **Part # 7C3Z-7A095-B** (hose clamp 1/2" line connection)
- 2003 - 2007 6.0L Diesel Engine, 5R Transmission **Part # 5C3Z-7A095-CA** (hose clamp 1/2" line connection)
- 2001 - 2003 7.3L Diesel Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 1999 - 2001 7.3L Diesel Engine, 4R Transmission **Part # XC3Z-7A095-BA** (threaded line connector)
- 2011 - 2016 6.2L Gas Engine, 6R Transmission **Part # 9C3Z-7A095-A** (hose clamp 1/2" line connection)
- 2008 - 2016 6.8L Gas Engine, 5R Transmission **Part # 9C37-7A095-A** (hose clamp 1/2" line connection)
- 2005 - 2007 6.8L Gas Engine, 5R Transmission **Part # 5C3Z-7A095-CA** (hose clamp 1/2" line connection)
- 2017 6.2L Gas Engine, 6R Transmission **Part # HC3Z-7A095-A** (hose clamp 1/2" line connection)

## TRANSMISSION COOLER SERVICE — Cont'd

### 1999 - 2016 F-Series Super Duty 250 - 550 — Cont'd

- 2017 6.8L Gas Engine, 6R Transmission **Part # HC3Z-7A095-A** (hose clamp 1/2" line connection)
- 2017 6.7L Diesel Engine, 6R Transmission **Part # HC3Z-7A095-B** (hose clamp 1/2" line connection)
- 2001 - 2004 6.8L Gas Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 1999 - 2001 6.8L Gas Engine, 4R Transmission **Part # XC3Z-7A095-CA** (threaded line connector)
- 2008 - 2010 5.4L Gas Engine, 5R Transmission **Part # 9C3Z-7A095-A** (hose clamp 1/2" line connection)
- 2005 - 2007 5.4L Gas Engine, 5R Transmission **Part # 5C3Z-7A095-AC** (hose clamp 1/2" line connection)
- 2001 - 2004 5.4L Gas Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 1999 - 2001 5.4L Gas Engine, 4R Transmission **Part # XC3Z-7A095-CA** (threaded line connector)

### 1999 - 2017 F-53 Stripped Chassis

- 2011 - 2017 6.8L Commercial Stripped Chassis **Part # BU9Z-7A095-A** (1/2" line quick connection)
- 2005 - 2017 6.8L Recreational Stripped Chassis **Part # 5U9Z-7A095-AA** (1/2" line quick connection)
- 2014 - 2017 6.8L Commercial Stripped Chassis with BT Delivery Van Pack **Part # EU9Z-7A095-A** (1/2" line quick connection)

### 2004 - 2016 E-Series

- 2008 - 2010 6.0L Diesel Engine, 5R Transmission **Part # 8C2Z-7A095-C** (hose clamp 1/2" line connection)
- 2004 - 2007 6.0L Diesel Engine, 5R Transmission **Part # 5C2Z-7A095-DA** (hose clamp 1/2" line connection)
- 2008 - 2016 6.8L Gas Engine, 5R Transmission **Part # 8C2Z-7A095-B** (hose clamp 1/2" line connection)
- 2005 - 2007 6.8L Gas Engine, 5R Transmission **Part # 5C2Z-7A095-CA** (hose clamp 1/2" line connection)
- 2008 - 2016 5.4L Gas Engine, 5R Transmission **Part # 8C2Z-7A095-B** (hose clamp 1/2" line connection)
- 2005 - 2007 5.4L Gas Engine, 5R Transmission **Part # 5C2Z-7A095-CA** (hose clamp 1/2" line connection)
- 2008 - 2016 5.4L Gas Engine, 4R Transmission **Part # 8C2Z-7A095-A** (hose clamp 1/2" line connection)
- 2005 - 2007 5.4L Gas Engine, 4R Transmission **Part # 5C2Z-7A095-AA** (hose clamp 1/2" line connection)
- 2008 - 2016 4.6L Gas Engine, 4R Transmission **Part # 9C2Z-7A095-A** (hose clamp 3/8" line connection)
- 2005 - 2007 4.6L Gas Engine, 4R Transmission **Part # 4C2Z-7A095-EA** (hose clamp 3/8" line connection)
- 2017 6.8L Gas Engine, 6R Transmission **Part # 8C2Z-7A095-C** (hose clamp 1/2" line connection)
- 2017 6.2L Gas Engine, 6R Transmission **Part # 8C2Z-7A095-C** (hose clamp 1/2" line connection)

### 2000 - 2005 Excursion

- 2003 - 2005 6.0L Diesel Engine, 5R Transmission **Part # 5C3Z-7A095-B** (hose clamp 1/2" line connection)
- 2001 - 2003 7.3L Diesel Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 2000 - 2001 7.3L Diesel Engine, 4R Transmission **Part # XC3Z-7A095-BA** (threaded line connection)
- 2001 - 2005 6.8L Gas Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 2000 - 2001 6.8L Gas Engine, 4R Transmission **Part # XC3Z-7A095-CA** (threaded line connection)
- 2001 - 2005 5.4L Gas Engine, 4R Transmission **Part # 3C3Z-7A095-AA** (hose clamp 3/8" line connection)
- 2000 - 2001 5.4L Gas Engine, 4R Transmission **Part # XC3Z-7A095-CA** (threaded line connection)

### Other Vehicles

- 2003 - 2005 Crown Victoria / Grand Marquis / Town Car **Part # 5W1Z-3F749-A**
- 2005 Five Hundred / Montego / Freestyle with CVT **Part # 5F9Z-7A095-AC**
- 2005 - 2007 500 / Montego, AWF21, **Part # 5F9Z-7A095-AC** (1/2" line hose clamp connection)

## IDENTIFICATION OF THE RETURN TRANSMISSION COOLER LINE

The best way to identify the return cooler line (fluid coming out of the cooler and returning to the transmission) is to locate the return cooler fitting or case inlet. The return cooler fitting can be found in the following locations on the products listed below:

### Rear Wheel Drive

- 5R110 TorqShift – The REAR transmission case fitting receives the return line
- 4R100/E4OD – The REAR transmission case fitting receives the return line
- 4R70/75W-E – The TOP transmission case fitting receives the return line
- 4R44/55E, 5R44/55E, 5R55N, 5R55W, 5R55S – The TOP transmission case fitting receives the return line
- 6R60/6R75 – The TOP transmission case fitting receives the return line
- AOD – The BOTTOM transmission case fitting receives the return line
- AODE – The TOP transmission case fitting receives the return line
- C6 – The REAR transmission case fitting receives the return line
- A4LD – The TOP transmission case fitting receives the return line
- 6R140 TorqShift – The TOP transmission case fitting receives the return line
- 6R80 – The TOP transmission case fitting receives the return line
- 6HP26 – The TOP transmission case fitting receives the return line

### Front Wheel Drive

- 6F50 – The REAR transaxle case fitting receives the return line
- 6F55 – The REAR transaxle case fitting receives the return line
- CD4E (4F44E) – The REAR or pump end transaxle case fitting receives the return line
- 4F27E – The REAR or cover end transaxle case fitting receives the return line
- AX4S/AX4N (4F50N) – The BOTTOM transaxle cooler line fitting receives the return line
- AWF21 – The BOTTOM transaxle case receives the return line
- 6F35 – The REAR or lowest transaxle case fitting receives the return line
- AXOD – The BOTTOM transaxle case fitting receives the return line
- AXODE – The BOTTOM transaxle case fitting receives the return line
- FNR5 – The REAR or cover end transaxle case fitting receives the return line

**Note:** Always verify the correct part numbers before ordering replacement parts.

## REMANUFACTURED TORQUE CONVERTER

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

Upgraded impeller with stronger SAE 1020 brazed blade in 6.0L diesel applications

Dynamic vector-balanced O.E. design and tolerances, consolidated to the latest design level

Upgraded stator with preloaded thrust washer and two-piece bearing for 5R110 applications

O.E. replacement parts

Hysteresis-tested damper assemblies for assured damping performance

Adherence to the tightest O.E. specs on friction surface and splines

- A wide selection is available to cover most popular Ford Motor Company applications
- Designed to help get the job done right the first time, every time
- **24-months / Unlimited Mileage Limited Warranty**, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
- O.E. improvements are integrated into the remanufacturing process to meet the highest Ford standards of quality and durability

- All components cleaned and re-qualified in a TS16949 certified factory
- Each Assembly feature:
  - Upgrade stator in 5R110
  - Triple plate damper assemblies
  - Upgraded impeller
  - Diesel applications get stronger impeller blades
  - Original equipment ATF
  - O.E. Replacement Parts
  - Unpainted bodies

FORD PARTS  
WARRANTY

UNLIMITED  
MILEAGE  
INCLUDES LABOR

2 YEARS

## TRANSMISSION OVERHAUL KITS

*Right Part. Right Fit. Right Price Every Time!*

### Three Levels of Overhaul Kits are Available for Flexibility

Each kit contains quality parts that meet stringent Ford Motor Company standards

- Customized for your Ford, Lincoln or Mercury vehicle
- O.E. friction surface is designed for vehicle specific fluid and calibration
- Seals are designed for leak prevention and less corrosion

### Motorcraft® Master Overhaul Kit includes everything in the Motorcraft® Overhaul Gasket & Seal Kit plus:

- Steel plates
- Bands (where applicable)
- O.E. friction plates
- Available for the full line of Ford Motor Company vehicles

### Motorcraft® Overhaul Gasket & Seal Kit includes:

- Bonded pistons and Valve body gaskets (where applicable)
- Soft and Metal-clad seals
- Ring kit (where applicable)
- Available for the full line of Ford Motor Company vehicles

### Motorcraft® Master Overhaul Less Steel Kit contains O.E. friction plates but excludes steel plates

- Not available for all applications

### 24-months/Unlimited Mileage Service Part Warranty

- 24-months / unlimited mileage limited warranty, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
- Designed to meet stringent Ford engineering standards for performance and durability
- Recommended for all Ford, Lincoln and Mercury vehicles

**MOTORCRAFT®  
WARRANTY**

**UNLIMITED  
MILEAGE  
INCLUDES LABOR**

**2 YEARS**

## CLUTCH KITS

FORD PARTS

*Make Ford Genuine Parts your first choice for Ford and Lincoln replacement parts!*

### High Quality Designs

- Designed specifically for each vehicle

### Attention To Detail

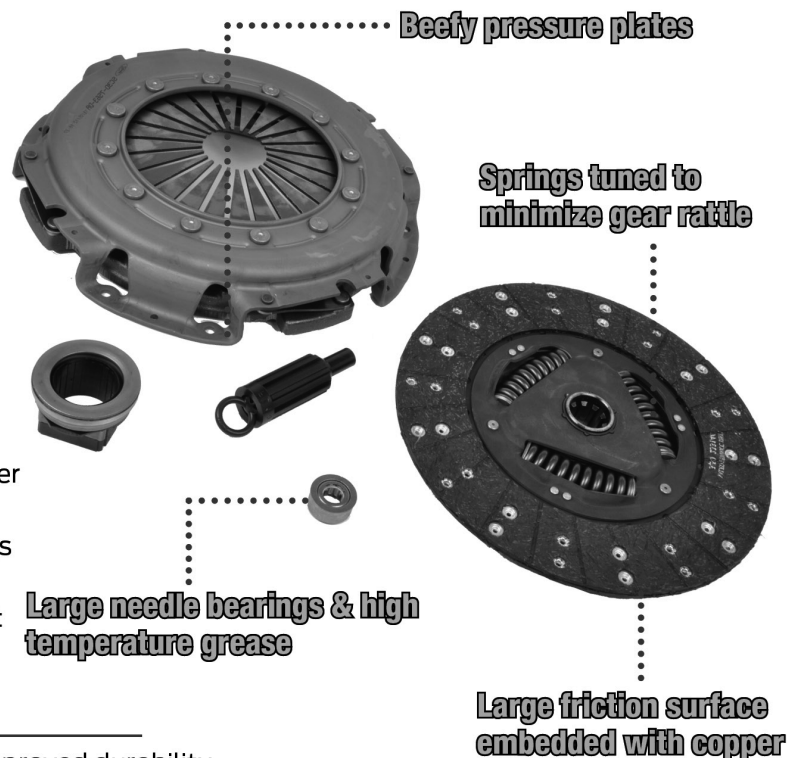

- Clutch springs tuned to minimize gear rattle
- Friction surface uses deep-set rivets for long life
- Friction material have optimum copper content for better durability
- Pressure plates have optimum mass to operate cooler and are more durable
- Beefy pressure plate “ears” designed to better transmit engine torque
- Pilot bearings use large needle roller bearings to better transmit radial loads
- High temperature grease used in critical pilot bearings for optimal durability

### Less Down Time

- All components designed for long life and improved durability
- Better durability means less down time
- Less down time means less lost revenue for fleets and commercial owners

### 24-months/Unlimited Mileage Service Part Warranty

- 24-months / unlimited mileage limited warranty, which includes parts and labor costs, and is supported nationwide by Ford and Lincoln dealers and Ford Authorized Distributors (See seller for limited warranty details)
- Designed to meet stringent Ford engineering standards for performance and durability
- Key life durability tested to the equivalent of 10 years/150,000 miles lifetime
- Recommended for all Ford, Lincoln and Mercury vehicles

**FORD PARTS  
WARRANTY**

**UNLIMITED  
MILEAGE  
INCLUDES LABOR**

**2 YEARS**

## VIN GUIDE

Your Guide to 2017 Vehicle Identification

### How To Use:

Here is your 2017 guide to interpreting universal Vehicle Identification Numbers (VIN). This vehicle information applies to 2017 models only. For previous model VIN information, check sources at your local dealerships or log onto

[www.remarketing.dealerconnection.com](http://www.remarketing.dealerconnection.com)

The VIN data provided is preliminary and prepared for the exclusive use of Ford and Lincoln dealers.

### Example:

Universal Vehicle Identification Numbers (VIN) have 17 “positions.” There is a number or a letter in each position.

Positions	1-3	World Manufacturer Identifier
Position	4	Restraint System Type Brake Type and GVWR Class (Trucks and Vans Only)
Positions	5-7	Line, Series, Body Type
Position	8	Engine Type
Position	9	Check Digit
Position	10	Model Year
Position	11	Assembly Plant
Positions	12-17	Production Sequence Number
