- Foreign Assistance Act and related programs are those authorized by the Foreign Assistance Act of 1961 (Public Law 87-195) and its predecessor mutual security programs and include loans and grants for Latin American development; disaster relief and rehabilitation assistance (loans and grants); balance of payments loans to Portugal and Turkey; loans of the Overseas Private Investment Corporation (OPIC), foreign credits extended in disposition of assets acquired by OPIC, and assets sold or guaranteed by OPIC that have been purchased by the Federal Financing Bank; credits financing military purchases, long-term credits extended to Israel for security purposes, and credits disbursed by the Federal Financing Bank which have been guaranteed by the Defense Department.
- The amount shown in column "Prepayments" is also included in the amount shown in column "Repaid."
- Some credits extended by the Defense Department under the Foreign Assistance Act have been sold to the Export-Import Bank. The amounts of such credits are included in the entries for each individual country, as applicable, and the totals for these sums are deducted in the entry "Unspecified, All Areas."

PREFACE

This report on the contingent liabilities of the U.S. Government on its contracts of foreign insurance and guarantee is in compliance with section 634 (a) (4) of the Foreign Assistance Act of 1961 (P.L. 87-195, as amended).

The foreign insurance and guarantees reported originated under authority of the following legislation:

- OPIC and AID Housing Guaranty Programs:
Foreign Assistance Act of 1966 (P.L. 89-583, as amended)
and predecessor legislation
- CCC: Commodity Credit Corporation Charter Act of 1948
(P.L. 80-806, as amended)
- DSAA: Arms Export Control Act of 1976 (P.L. 90-629, as
amended) and predecessor legislation.
- Eximbank: Export-Import Bank Act of 1945 (P.L. 79173, as
amended)

The user of these reports should be aware that:

1. Contingent liability amounts reported by the Export-Import Bank include adjustments to the insured shipment estimates of the previous year, and in cases where no shipments are anticipated for the current year, the reported amount may be negative.

2. The Defense Security Assistance Agency and the Overseas Private Investment Corporation insure certain foreign credits (loans) of the Federal Financing Bank, and thus such contingent liabilities would be paid to the U.S. Government in the event of a foreign obligor default. These liabilities are excluded from all data in the main report. A separate table (see V) is included for these guarantee. The exclusion from the main report of these guarantees of Federal Financing Bank credits allows calculation of the total U. S. Government risk exposure on foreign loans, and foreign insurance and guarantees by adding the amount of Foreign Credits outstanding from the Foreign Credit Report and the Contingent liabilities from this report without double counting the amount of foreign credits extended by the Federal Financing Bank. The user should note, however, that the contingent liability of the Defense Security Assistance Agency on its contracts of insurance of private investors (non-Federal Financing Bank) with foreign obligors is contained in the data of the main report.

The data are compiled from reports submitted to the Department of the Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

The Department of the Treasury appreciates the cooperation of the U.S. Government agencies in providing the necessary data for this report.

DEFINITION OF TERMS

Expiration date - The date (year and month) on which the agency's liability ceases for a given contract. However, some of the reported data reflect the date of termination of coverage rather than the date of termination of an agency's liability, i.e., under the provisions of some contracts the insured party has the right to file a claim within a specified period after the coverage date of the contract. In such cases the agencies liability may extend beyond the reported dates by as much as two years.

Contingent Liability - The maximum recoverable amount of disbursed and still outstanding credit plus undisbursed balances, and interest liability under the contract insured or guaranteed by an agency as of the close of the quarter. In some cases, this can result in the contingent liability exceeding the project amount. Where more than one type of coverage is contracted for from an agency, the contingent liability listed is the single highest amount of policy (contract) coverage in force. In the event of claim, it is highly improbable that multiple payments would be made under all policies carried by the insured.

Net Claims Paid - The amount of net claims paid is the sum of all benefits and expenses paid less all benefits and expenses recovered. Net claims paid do not include claims in litigation or unresolved arbitration, or the amounts of claims settlement guarantees.

Pending Claims - The amount which an insured or guaranteed party has formally claimed to have sustained a loss, but on which the agency has made no final decision as to the validity of the claim.

Project Amount - The value of the total transaction, part or all of which may be covered by a U.S. Government agency guarantee or insurance contract.

EXPLANATION OF TABLES

The reported contingent liability of the U.S. Government is presented first (I) for all foreign obligors which is followed by the component obligor divisions of (II) official obligors and (III) private obligors. Within each of these obligor divisions are included tables which list a) total program contingent liability of programs in effect within each country. The fourth (IV) table lists, by program within country, the detail of individual contracts of more than one million dollars and then the aggregate sum of those contracts of one million dollars or less; it also shows the project amount for each such contract. The fifth (V) and last table lists the U.S. Government insured credits of the Federal Financing Bank (a U.S. Government agency); these data are not included in the totals of any other table.

PREFACE

This report presents a record as of September 30, 1981, of the status of foreign assistance related agreements of contractual indebtedness to the United States Government. The data on such foreign assistance related indebtedness to the United States Government includes accounts receivable from foreigners, as well as active short-term and long-term loans and credits to foreigners. The report does not include international claim settlements by the United States Government payable to American nationals (except for the German World War I indebtedness). (See Explanatory Note) Reports on active long-term credits have been compiled by the Department of Treasury since June 30, 1967, pursuant to section 634(a)(4) of the Foreign Assistance Act of 1961, (Public Law 87-195, as amended), and have been presented in previous editions of this publication. Tables on short-term loans and credits and accounts receivable have been compiled since June 30, 1972, pursuant to a request of the Foreign Operations and Government Information Subcommittee of the Committee on Government Operations, House of Representatives.

The report lists data on active long-term loans and credits extended by the United States Government between July 1, 1941, and the date of the report. An active credit is one with an outstanding principal indebtedness or an available unused authorization. Fully repaid loans and credits are excluded. The report also contains data for short-term loans and credits and accounts receivable, and on foreign government indebtedness to the U.S. Government which arose from World War I.

The indebtedness reported (except for that arising out of W.W.I.) originated under authority of the following legislation, as amended, and international agreements:

- (1) Foreign Assistance Act of 1961 (Public Law 87-195 as amended) legislation for predecessor programs, and the Arms Export Control Act 1/

- (2) Mutual Educational and Cultural Exchange Act of 1961
- (3) Agricultural Trade Development and Assistance Act of 1954 (Public Law 83-480)
- (4) Commodity Credit Corporation Charter Act
- (5) Export-Import Bank Act of 1945
- (6) Lend-lease Act of 1941
- (7) Surplus Property Act of 1944 and related legislation
- (8) Atomic Energy Act of 1954
- (9) Euratom Cooperation Act of 1958
- (10) Special legislation enacted for particular transactions, such as the British loan of 1945 and the loans to the United Nations
- (11) Universal Postal Union Agreement of 1964
- (12) An act to promote safety at sea, 1922
- (13) Isthmian Canal Convention of 1903
- (14) Legislation granting general and specific operational authority to government agencies and corporations.

The Department of the Treasury expresses its appreciation for the cooperation of United States Government agencies in making the necessary data available for this report.

1/ All military sales, beginning with fiscal year 1969, have been extended under the Arms Export Control Act (formerly the Foreign Military Sales Act). Previous foreign military sales were extended under the Foreign Assistance Act of 1961.

EXPLANATORY NOTE

Data on loans and credits to foreigners by the United States Government are compiled from reports submitted to the Department of Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

EXPLANATION OF TABLES

Consolidated Table by Type Program and Obligor

The amounts listed for "credits utilized and still outstanding" and those "due and unpaid 90 days or more" are the sum of the amounts owed by official government obligors and reported in the more detailed maturity classification tables: accounts receivable, short-term loans and credits, and long-term loans and credits.

Maturity Classifications

The principal indebtedness reported is classified by the various operating agencies into three categories on the basis of the original or formally extended maturity of the obligations: accounts receivable, short-term loans and credits, and long-term loans and credits.

Accounts receivable are obligations with an original maturity of less than 90 days from the effective date of the obligation.

Short-term loans and credits are obligations with an original maturity of 90 days or more to and including one year.

Long-term loans and credits are obligations with an original maturity of more than one year.

Credit Program

Credit program titles are listed and indicate the programs under which foreign indebtedness to the U.S. Government has been created. These programs have been undertaken pursuant to the various legislative acts and agreements referenced in the Preface.

Transactions reported as "Currency loans to foreign governments" under the Agricultural Trade Development and Assistance Act of 1954, as amended 1/, are primarily to foreign central governments. However, approved borrowers in this category have also included private entities, educational institutions, technical institutes, local governments, and development banks. This subclassification includes credits arising from disbursements of foreign currencies under the following subsections of the Agricultural Trade Development and Assistance Act of 1954, as amended:

- (1) 104(c), "to procure equipment, materials, facilities, and services for the common defense."
- (b) 104(f), "to promote multilateral trade and agricultural and other economic development." 2/
- (c) 104(g), whereby the U.S. Government provides to one country the currency of a second country for purchase of goods and services from the country whose currency is disbursed. The country to which the currency is provided assumes the obligation to repay the U.S. Government.

The transaction reported as "Asset Acquired in European Fund Liquidation" shows the status of a long-term obligation of the Government of Turkey assigned to the U.S. Government by the Organization for Economic Cooperation and Development, executive agent for the European Fund of the European Monetary Agreement, in connection with the liquida-

2/1

tion of the Fund. The transaction represented the return to the United States of part to the capital assets (and accumulated earnings thereon) granted by the U.S. Government to the European Payments Union, the predecessor of the European Monetary agreement; the balance was transferred in cash.

Country and Program

Entries in the "Country" and "Program" columns were provided for this report in many instances by automatic data processing methods from the operating agencies and have been reviewed or edited by the Department of the Treasury only to a limited extent.

Under the Foreign Assistance Act - in the subclassification "Country loans" - the Agency for International Development (AID) makes some two-step loans. In these loans, the host foreign government may elect to collect the repayments from the borrower (or primary obligor) and then repay the U.S. Government on an extended schedule. In some instances the borrower repays the host government in its local currency at some agreed interest rate, which is generally higher than the rate of interest repaid to the U.S. Government by the host government. While this report shows as the borrowers the entities actually receiving the loan or credits, the interest rates shown for such credits are those the host governments would pay in the event they elect, as they generally do, to collect from the borrowers and repay the U.S. Government. Principal and interest collections recorded are those actually received by the U.S. Government, whether from the primary obligor or the foreign government.

Date Authorized

Entries in the "Date Authorized" column are generally those of

022

FOREIGN CURRENCY TRANSACTIONS

original authorization or commitment, and do not reflect subsequent amendments. Date of signature of the loan agreement with the borrower is that reported by the agency responsible.

In addition to loans and credits repayable in dollars, this report also lists transactions which are denominated in and/or repayable in foreign currencies. Such transactions have occurred primarily under the various subsections of the Agricultural Trade Development and Assistance Act of 1954, as amended, whereby the U.S. Government has sold surplus agricultural commodities in many countries and has received foreign currencies in payment, part of which may then be relent by the United States for economic development and other purposes specified in the Act. Foreign currency transactions have also been generated under other legislation, includes predecessor programs to the present Foreign Assistance Act.

Calculations of Dollar Equivalents

Because of the differing situations with regard to the exchange value and convertibility of foreign currencies, it is difficult to arrive at accurate comparability of foreign currency data as among various geographic areas, countries, programs, and currencies or repayment. The problem is only minor in respect of loans "repayable in foreign currency with maintenance of dollar value," for the obligations are denominated in dollars and all current activity is stated in dollar amounts.

The more difficult problem arises in determining the U.S. dollar equivalent for data on loans "repayable in foreign currency without maintenance of dollar value," where activity is recorded in foreign currency amounts. Nevertheless, an attempt has been made to achieve some degree of comparability through the calculation of dollar equivalents for such

transactions on the basis of procedures stipulated in regulations of the Department of the Treasury. Foreign currency data are not shown or identified. Dollar and dollar equivalent data as of the date of the report are presented.

All outstanding balances as well as the disbursed and undisbursed balances of credits denominated in foreign currencies are converted by United States Government Agencies to U.S. dollars at exchange rates prevailing as of the date of the report in accordance with Treasury Circular No. 930.

Transactions of the Social Progress Trust Fund are valued as reported by the Inter-American Development Bank, which serves as administrator of the Fund.

SUPPLEMENTAL INFORMATION

Totals are the rounded sums of unrounded numbers, so that the rounded detail entries do not necessarily add to these totals.

The "CHINA (UNSPECIFIED)" category is used to refer to obligations incurred by China prior to 1949 whose status is currently under review.

The repayment terms on certain loans and credits extended to Indonesia have been changed pursuant to a debt reorganization agreement with that country. The status of each portion of the reorganized Indonesian debt is shown under the respective program headings as reported by the agencies involved. On the Indonesia page, the status of the debt reorganization agreement and an entry deducting the sum of reorganized debt reported by the agencies appear under the program heading "Debt Reorganization and Adjustments." Program totals under the "Debt Reorganization and Adjustments" heading are net differences and appear on relevant summary pages: over the entire term of the debt reorganization agreement, the adjustment to the "Principal Outstanding" column will be zero.

Amounts Due and Unpaid 90 Days or More

Data are included showing amounts overdue 90 days or more (as of the date of the report). In the case of loan agreements with a schedule of repayment dates, the 90 days are calculated from the due dates of the payments which are incomplete. For accounts receivable, the reference point is the date on which payment is customarily expected. Amounts due and unpaid 90 days or more on obligations guaranteed by a foreign government or agency of a foreign government, such as a central bank, are shown as due from official obligors.

A credit with an amount overdue is not necessarily in default. The arrearages reported are frequently technical, pending conclusion of discussions or negotiations between the borrower and the collecting agency.

Refund Claims on Long-Term Loans

Foreign Assistance Act country loan and grant agreements contain provisions governing the application or use of proceeds by the borrowers. In cases in which the review procedures of the Agency for International Development indicate disbursements may have been used for purposes that did not meet these requirements, the Agency for International Development bills the borrower for a refund of the disbursements. The greater part of refund claims derive from grant agreements. Grant-origin refund claims are an account receivable but are not included in the accounts receivable table. However, in those instances where the refund claim derives from a loan agreement the amounts are included in the outstanding principal amounts reported for individual Foreign Assistance Act country loans. Country totals for the outstanding amounts of the refund claims, and for the amounts which are due and unpaid for 90 days or more, are shown separately in the table headed "Refund Claims on Grants and Long-term Loans of the Agency for International Development." The amounts of refund claims overdue 90 days or more are excluded from the accounts receivable table and the long-term loan table headed

127

20

"Principal and Interest Due and Unpaid 90 days or more," on scheduled loan installments.

Relationship of This Report to Other Published Data

In addition to the present report, a summary table on "Outstanding Long-term Principal Indebtedness of Foreign Countries on U.S. Government Credits" appears in the Annual Report of the Secretary of the Treasury on the State of the Finances (as of the end of the fiscal year) and similar data appear in the Annual Report of the National Advisory Council on International Monetary and Financial Policies (as of December 31). The data here given agree by country and program with those tables with a few minor exceptions arising from the timing of agency reports. Such differences are explained in the above referenced reports.

Data Not Included in This Report

As previously noted, this report includes only data relating to active loans and credits. Cumulative amounts disbursed (utilized) as well as amounts repaid since July 1, 1945, may be found in the tables compiled by the Bureau of Economic Analysis, U.S. Department of Commerce, for the statistical appendix of the annual report of the National Advisory Council.

This report does not include information on indebtedness due on any international claims settlements in which the U.S. Government has entered into an agreement with a foreign government in order to collect claims due to American nationals (except for such claims included in the statistics on the German World War I indebtedness). This information may be found

in the Annual Report of the Secretary of the Treasury on the State of the Finances. Information on the value of foreign currencies held on deposit by the U.S. Government which have been generated from the sale of agricultural and other commodities or services by the Government is not contained herein. That information is reported regularly in the Treasury Bulletin and in the Combined-Statement of Receipts, Expenditures, and Balances of the United States Government published by the Department of the Treasury. Also excluded are data on loans or other investments made by U.S. private institutions, even if such transactions carry credit risk insurance or any other guarantee by a U.S. Government agency. Such data on the outstanding foreign insurance and guarantee programs of the United States Government are reported in the companion Treasury publication, Contingent Foreign Liabilities of the United States Government.

- 1/ The Agricultural Trade Development and Assistance Act of 1954 (Public Law 83-480) has been amended many times. The citations in this text refer to the subsections as now in effect.
- 2/ This section of Act, under which the majority of the loans of foreign currencies has been made, was formerly subsection 104(g).
