

# REFERENCE GUIDE 2016/2017

STAR ALLIANCE

FOR EMPLOYEES OF STAR ALLIANCE MEMBER CARRIERS

# WELCOME

## **WELCOME TO THE 2016 EDITION OF THE STAR ALLIANCE REFERENCE GUIDE**

This guide is intended to provide a single reference point for a wealth of detail about the services offered by the 28 Star Alliance member airlines. It gives an overview of each airline's policies (for example on baggage) and services (such as frequent flyer programmes and lounges) as well as information and maps for the main Star Alliance hub airports.

The aim is to help all Star Alliance member airline employees to assist customers who are travelling on any Star Alliance flight. Information changes regularly, so please continue to consult your airline's own information systems for changes and updates, as well as for operational information and procedures. We are planning a future electronic version of this guide with more frequent updates.

Please let us have your feedback and comments on the Reference Guide at **[ref.guide@staralliance.com](mailto:ref.guide@staralliance.com)**.

Thank you,

## GREETINGS FROM STAR ALLIANCE HEADQUARTERS

The 28 member airlines of Star Alliance strive to give the best possible service to all of our customers. We know from surveys and other feedback that every individual employee can make a positive difference to a customer's travel experience. This Reference Guide is intended to help you serve the particular needs of the customer who is interlining across the Alliance.

Our Alliance is constantly evolving to ensure its proposition remains attractive as the industry grows and develops. We recently created the "Connecting Partner" model, offering a simplified way for carriers to associate themselves with Star Alliance without becoming a member. Shanghai-based Juneyao Airlines is set to be our first Connecting Partner from Q2 next year.

For customers, the model extends our network and offers them certain privileges whenever they travel on a connecting itinerary involving a Star Alliance flight. As we start implementing the new model we will keep you posted about what this means for you and your customers

# GENERAL INFORMATION

# CUSTOMER BENEFITS

## **MILEAGE ACCRUAL AND REDEMPTION**

There is no Star Alliance frequent flyer programme. There are 21 frequent flyer programmes, all operating independently. Customers of any Star Alliance member airline's frequent flyer programme (see chart) can accrue and redeem miles, kilometres or points\* when they travel on any eligible Star Alliance member airline flight on a fare eligible for mileage accrual.

In addition, when travelling on Star Alliance member flights, miles or points count toward higher membership status in the customer's chosen frequent flyer programme.

To ensure successful membership accrual, passengers should quote the frequent flyer number on their membership card, show their card, and save passenger receipts and boarding passes in case retroactive crediting is necessary.

\*Qualifying accruals vary by frequent flyer programme and are subject to paid fares. Air New Zealand's frequent flyer currency is Airpoints Dollars.

---

## **RECOGNITION ON INFLIGHT PAPERWORK AND BOARDING PASSES**

Recognition of Star Alliance Gold and Star Alliance Silver customers can be found on inflight paperwork and boarding passes. Look for this format: XX\*G or XX\*S and read as Airline Star Alliance Gold or Airline Star Alliance Silver (XX is the two-letter airline code).

Example: TG\*S = THAI Star Alliance Silver = THAI Royal Orchid Plus Silver

---

## **STAR ALLIANCE UPGRADE AWARDS**

The Star Alliance Upgrade Awards is an electronic upgrade product. Customers can use their own FFP miles to upgrade on member airline operated flights. The upgrade must be requested and confirmed in advance and is subject to seat availability.

---

## RECOGNITION OF MEMBERSHIP CARDS

Membership cards carry the Star Alliance Gold or Star Alliance Silver badge.

# TICKETING PROCEDURES

The following are harmonised ticketing policies and procedures.

---

## **Initial Issue**

Each carrier's policies and procedures related to the issuance of tickets will be in accordance with the IATA Ticketing Handbook.

---

## **Reissue**

Each carrier's policies and procedures related to the reissue of tickets will be in accordance with the IATA Ticketing Handbook.

---

## **Reservation Changes/Revalidation**

Each carrier's policies and procedures related to the revalidation of tickets will be in accordance with the IATA Ticketing Handbook.

---

## **Endorsement Waiver**

Each carrier will publish and honour the Star Alliance Endorsement Waiver Agreement (EWA) policy, as agreed on a multilateral basis between Star Alliance member carriers.

For electronic tickets, the endorsement, as described in the following conditions, is granted by giving airport control from the validating carrier to the Star Alliance member carrier performing the reissue/exchange.

Paper tickets: Any Star Alliance member carrier or one of its agents will be able to reissue or exchange a ticket or MCO without having to request a written or stamped endorsement, under the described conditions:

## Conditions: Voluntary

- When a customer requests a change of airline or re-routing (as described in IATA Resolution 736), the Star Alliance member carriers agree to grant airport control (thus waive the endorsement requirement between themselves) for non-restricted tickets or MCOs provided that:
  - A.** such tickets or MCOs do not bear carrier validation restrictions, which by their terms prohibit the transfer of the ticket or MCOs such as “Valid on XX only” and “Non-Endorsable”;
  - B.** such tickets or MCOs are not governed by fare rules that prohibit transfer of the ticket to the other party.
- No endorsement required for First Class, Business Class, full Economy Class and non-restricted excursion fare tickets.
- Does not apply to ID/AD tickets.

## Conditions: Involuntary

- When an airline undergoes a schedule change or encounters an irregularity in accordance with the general provisions of IATA Resolution 735D, the Star Alliance member carriers agree to grant airport control (and thereby waive the endorsement requirement) for the following:
  - A.** non-restricted tickets;
  - B.** restricted tickets;
  - C.** Frequent flyer redemption tickets. After schedule changes, rebookings are made with Star Alliance carriers according to redemption seat availability.
- No endorsement required for any fare types when an airline encounters an irregular operation (within 24 hours of departure).
- Does not apply to ID tickets.

# TICKETING PROCEDURES

## **Miscellaneous Charges Order (MCO)**

Each carrier's own MCO is handled according to the carrier's policies and procedures and in accordance with the IATA Ticketing Handbook.

## **MCOs for Star Alliance member carriers**

Each member issues MCOs for travel on other member carriers, using its own MCO stock. The MCO is issued for the purpose of service recovery, and is endorsed valid for redemption on any Star Alliance member for the following purposes:

- It can be used to pay for tickets, upgrades and excess baggage;
- It can be redeemed at all Star Alliance member carriers' sales offices or airport ticket offices but not at travel agencies;
- The MCO tendered to all member carriers must be limited to US\$750, or its equivalent in other currencies:
  - A.** if the value of the service purchased exceeds that of the MCO, payment of the outstanding sum can be made in any form accepted by the Star Alliance member carrier,
  - B.** if the value of the service purchased is less than the value of the MCO, a new MCO will be issued for the remaining amount. A new MCO will be issued under the same conditions as the original MCO.

MCOs are valid for one year from the date of issue. Extension of validity is at the discretion of the issuing member; Lost MCOs cannot be reissued.

UA does not issue MCOs but will accept them from other Star Alliance carriers.

---

## **Multi-Purpose Document (MPD)**

Each carrier's policies and procedures related to the use of an MPD will be in accordance with the IATA Ticketing Handbook.

## Transmittal of Ticket Number(s) in the PNR

Each carrier agrees, by automated or procedural means, to transmit the ticket numbers to any Star Alliance member carriers participating in the ticketed itinerary.

### NOTE: Carrier positions:

- Automated for AC, OS, SK, and TG as SSR TKT(-) element
- Automated for 06, AV, CM, ET, LO, MS, NH, SQ and UA as SSR TKN(-) element

## Prepaid Ticket Advice (PTA)

If carriers still use PTAs (e.g. for non-e-ticket eligible sales) these carriers' policies and procedures related to the issuance and refunding of PTAs will be in accordance with the IATA Ticketing Handbook.

**NOTE:** AC, ET, LO, LX, SK and TP do not allow PTAs.

---

## Lost Ticket Indemnity

If a paper ticket is lost, each carrier will issue a ticket against a Lost Ticket Indemnity if the original ticket was plated on its own ticket stock for travel on its own or another carrier's flight.

---

## Flight Interruption Manifest (FIM)

A FIM is a document used in place of a ticket when a passenger is involuntarily re-routed and the appropriate flight coupon(s) is (are) no longer available. IATA resolutions have been adopted with the intent of reducing the number of FIMs issued in the event of an involuntary re-route. The FIM format has been standardised allowing for a ticket-sized FIM and two coupons. For details about how to process FIMs, please consult your own carrier's procedural training manuals, or contact your training representative.

# PRIORITY BAGGAGE HANDLING

---

## **Priority Baggage Handling Policy**

Identification of priority bags is achieved by two separate and alternative methods which are used for premium customers. The Star Alliance priority tag features the Star Alliance logo and the word "PRIORITY" and it should be attached to the bag tag to make it highly visible and recognisable by all baggage handling staff. The second method is where the word "PRIORITY" is printed on the bag tag from a kiosk when customers self-tag their bags. Both of these methods are used to ensure that the bags will be placed on the arrival belts/carousels before all other baggage.

This harmonised policy will ensure that our most valued customers receive consistent baggage handling service and this policy sets the minimum standard to be applied by all airlines. Recognition of priority status at check-in and the priority handling of checked baggage is offered to the following customers:

---

### **First Class**

On all flights

**NOTE:** Some carriers do not provide First Class service.

---

### **Business Class**

On intercontinental flights including connecting flights (for this purpose intercontinental is defined as travel between Europe, Asia, North America, South America, Australia, New Zealand and Africa).

**NOTE:** Some airlines offer Priority Baggage Handling to all business class customers.

---

### **Star Alliance Gold Members**

On all flights, regardless of fare paid or class of service flown.

# CARRY-ON BAGGAGE POLICY

---

## **WEIGHT & SIZE**

Weight and Size policy has not been harmonised. Please check individual carrier restrictions.

---

## **PIECES**

### **2 / 2 POLICY:**

**2** pieces for First Class and **2** pieces for Business Class

The 2/2 policy applies to intercontinental flights, and domestic flights connecting to intercontinental flights. Intercontinental refers to travel between Europe, Asia, North America, South America, Australia, New Zealand and Africa. Some carriers may use "International", nonetheless, the policy is the same. Two pieces can be defined as one carry-on and one personal item.

**NOTE:** Certain governments limit carry-on to one piece regardless of class of travel.

# IRREGULAR OPERATIONS HANDLING

When a flight is delayed, cancelled or re-routed, special guidelines and procedures have been created for rebooking and notification to the passengers and onward Star Alliance member carriers. Special rules and exceptions apply for EU carriers and non-EU carriers operating from the EU.

---

## **COMMUNICATION TO THE CUSTOMER**

For all disrupted services, communication to customers must be provided immediately when known, and not later than scheduled departure time with updates every 30 minutes or as appropriate.

---

## **AMENITIES - CONTROLLABLE\***

In the event of a controllable delay, Star Alliance member carriers will provide amenities such as accommodation, refreshment, meals and transportation for customers as appropriate.

---

## **AMENITIES - UNCONTROLLABLE\***

In the event of an uncontrollable delay, Star Alliance member carriers will provide amenities to premium customers (First, Business and Star Alliance Gold status customers).

\*Special conditions apply for EU registered carriers and non-EU registered carriers operating from the EU.

## **REBOOKING**

The policies apply in all irregularity situations.

When a customer's travel plan is disrupted due to a flight irregularity and rebooking is required, the following procedures apply to all Star Alliance member carriers. Alternative transportation may apply when no flights are available on the same day or protection is not acceptable to the customer.

The policies apply to all customers with confirmed reservations and those who have been accepted on the flight. Contact the receiving carrier for rebooking within six hours prior to scheduled departure time of rebooked flight. If the receiving carrier confirms the booking, customers shall be treated as other confirmed customers of the receiving carrier.

---

## **ONWARD CARRIAGE**

Provide onward carriage with the least possible delay to the destination shown on the ticket(s).

---

## **SAME RATED ROUTING\***

Rebook on the same rated routing whenever possible.

\*Special conditions apply for EU registered carriers and non-EU registered carriers operating from the EU.

---

## **CARRIER ORDER**

Rebook in the following carrier order, depending on frequency of flights and the customer's best interest:

- Original receiving carrier
- Own airline
- Star Alliance member airline
- Non-Star Alliance member airline (OAL)

## **PASSPORT OR VISA**

Identify any passport or visa constraints that would affect rebooking customers via alternative routing.

---

## **SAME BOOKING CLASS**

Rebook in the same booking class whenever possible.

---

## **HIGHER CABIN CLASS**

If booking in a higher cabin class is required, preference must be given to Star Alliance Gold and full-fare customers.

Rebooking in a higher cabin class on another Star Alliance carrier or another airline is only permitted with prior approval of the new receiving carrier. Additional cost may apply.

---

## **STANDBY**

Previously inconvenienced customers that receive standby status should receive special priority.

---

## **ALTERNATIVE TRANSPORTATION**

Alternative transportation, such as taxi, train or bus will be provided on request or when no alternative flights are available
