

# **HP Latex 365 Printer**

### Maximize your versatility with this full-feature, 1.63-m (64-in) HP Latex printer

Water-based HP Latex Technology is unique, delivering a combination of true application versatility, high image quality and high productivity, and a sustainable approach that's better for vour operators, vour business, and the environment.<sup>1</sup>

## Expand your applications—beat client expectations

- Print on traditional signage substrates and beyond—up to 1.63 m (64 in)—print textiles with the ink collector<sup>2</sup>
- Reach new indoor spaces that solvent can't, like healthcare—water-based HP Latex Ink prints are odorless
- Enjoy efficient, automated double-sided banner printing
- Produce sharp, consistent, repeatable image quality with high-efficiency curing, 6 colors, and 1200 dpi

### Same day delivery—for highly demanding turnarounds

- High quality at high speeds—31 m<sup>2</sup> (334 ft<sup>2</sup>)/hr high-speed outdoor quality with HP OMAS, HP Latex Optimizer<sup>3</sup>
- Reach production speeds and avoid wait time—prints come out completely dry and ready to finish and deliver
- Gain productivity—reduce time between jobs with continuous printing
- You can minimize damage risk—scratch resistance is comparable to hard-solvent inks on SAV and PVC banner<sup>4</sup>

## Keep your running costs low—boost your capacity

- Increase production time and reduce time monitoring the printer—automatic, reliable, low-maintenance printing
- Save time—HP Custom Substrate Profiling and i1 embedded spectrophotometer make ICC profiling automatic<sup>5</sup>
- Maintain high image quality over the life of the printer with user-replaceable HP Thermal Inkjet printheads
- $\bullet$  Monitor your printer remotely with the free HP Latex Mobile  $\mathsf{app}^6$

## For more information, please visit hp.com/go/Latex365

### Join the community, find tools, and talk to experts. Visit the HP Latex Knowledge Center at hp.com/communities/LKC

<sup>&</sup>lt;sup>1</sup> Based on a comparison of HP Latex Ink technology to competitors with leading market share as of December, 2013 and analysis of published MSDS/SDSs and/or internal evaluation. Performance of specific attributes may vary by competitor and ink technology/formulation.

<sup>&</sup>lt;sup>2</sup> Performance may vary depending on media—for more information, see <u>hp.com/go/mediasolutionslocator</u>. For best results, use textiles that do not stretch. The ink collector is required for porous textiles.
<sup>3</sup> Banner-quality prints in outdoor (4-pass 4-color) mode.

<sup>4</sup> Estimates by PH Pmage Permanence Labor 1 cours in working the course of media. Scratch-resistance comparison based on testing HP Latex Inks and representative hard-solvent inks. Outdoor display permanence tested according to SAE J2527 using HP Latex Inks on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminate. Results may vary based on specific media performance.

ICC profiling with the spectrophotometer does not support uncoated textiles and backlits.

<sup>&</sup>lt;sup>6</sup> HP Latex Mobile is compatible with Android<sup>19</sup> 4.1.2 or later and iOS 7 or later, and requires the printer and the smart phone or tablet to be connected to the Internet.

# **HP Latex 365 Printer** (1.63 m / 64 in)

### End-to-end sustainability—a better approach

HP Latex Technology delivers all the certifications that matter to your operators, your business, and the environment.<sup>7</sup>

Using water-based inks eliminates exposure to inks with hazard warning labels and high solvent concentrations, and simplifies ventilation, storage, and transportation requirements.

HP Latex Inks enable more differentiation—odorless prints go where solvent can't.

UL GREENGUARD GOLD<sup>10</sup>

HP is designing end-to-end sustainability into large-format printing. The HP Latex 365 Printer is EPEAT Bronze registered—a designation for reduced environmental impact.<sup>11</sup>

### **HP Latex Inks**

 Scratch resistance comparable to hard-solvent inks on SAV and PVC banner—you can consider unlaminated use for short-term signage<sup>12</sup>

**HP Latex Optimizer** 

• Achieve high image quality at high productivity

pigments on the surface of the print

• Interacts with HP Latex Inks to rapidly immobilize

• Outdoor durability up to 5 years laminated, 3 years unlaminated<sup>13</sup>

### **HP Latex printheads**

- See fine details and smooth transitions with HP 831 Latex Printheads providing 1200 dpi native resolution
- Keep day-one image quality by replacing the printheads yourself in a few minutes, without a service call

• Prints are completely cured and dry inside the printer, and ready for immediate finishing and delivery

#### Easy maintenance and operation

- Accessible print zone with large window and lights
- Enjoy low-maintenance printing with automatic
- drop detection and nozzle replacement

Based on a comparison of HP Latex Ink technology to competitors with leading market share as of December, 2013 and analysis of published MSDS/SDSs and/or internal evaluation. Performance of specific attributes may vary by competitor and ink technology/formulation.

- Applicable to HP Latex Inks. UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see ul.com/EL) HP 831 Latex Ink Cartridges, certification number 14142007, certified by the Eco Mark Office of Japan Environment Association.
- Applicable to HP Latex Inks. UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit
- ul.com/gg or greenguard.org. EPEAT registered where applicable/supported. See <u>epeat.net</u> for registration status by country.
- Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks. Estimates by HP Image Permanence Lab on a range of media. HP image permanence estimates by HP Image Permanence Lab. Outdoor display permanence tested according to SAE J2527 on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminate, GBC clear gloss 1.7 mil hot laminate, er Neschen Solvoprint Performance Clear 80 laminate. Results may vary based on specific media performance. For best results use media options intended for double-sided printing.
- ICC profiling with the spectrophotometer does not support uncoated textiles and backlits.
- The color variation inside a printed job has been measured at 10-pass mode on vinyl media within this limit: maximum color difference (95% of colors) < > 2 dE2000. Reflective measurements on a 943 color target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. 5% of colors may experience variations above 2 dE2000. Backlit substrates measured in transmission mode may yield different results.
- Performance may vary depending on media—for more information, see <u>hp.com/go/mediasolutionslocator</u>. For best results, use textiles that do not stretch. The ink collector is required for porous textiles.

#### **HP Optical Media Advance Sensor (OMAS)**

- Precise and accurate motion control of media advance between print swaths
- Controls registration automatically including double-sided prints with automated registration across sides14

### **Technical specifications**

	-	
Printing	Printing modes	91 m²/hr (980 ft²/hr) - Max Speed (1 pass)
		31 m²/hr (334 ft²/hr) - Outdoor High Speed (4 pass)
		23 m²/hr (248 ft²/hr) - Outdoor Plus (6 pass)
		17 m²/hr (183 ft²/hr) - Indoor Quality (8 pass)
		14 m²/hr (151 ft²/hr) - Indoor High Quality (10 pass)
		6 m²/hr (65 ft²/hr) - Backlits, Textiles, and Canvas (16 pass)
		5 m²/hr (54 ft²/hr) - High Saturation Textiles (20 pass)
	Print resolution	Up to 1200 x 1200 dpi
	Margins	$5 \times 5 \times 0 \times 0$ mm (0.2 $\times$ 0.2 $\times$ 0 $\times$ 0 in) (without edge holders)
	Ink types	HP Latex Inks
	Ink cartridges	Black, cyan, light cyan, light magenta, magenta, yellow, HP Latex Optimizer
	Cartridge size	775 ml
	Printheads	6 (2 cyan/black, 2 magenta/yellow, 1 light cyan/light magenta 1 HP Latex Optimizer)
	Color consistency <sup>18</sup>	Average <= 1 dE2000, 95% of colors <= 2 dE2000
Media	Handling	Roll feed; take-up reel; automatic cutter (for vinyl, paper- based media, backlit polyester film)
	Media types	Banners, self-adhesive vinyls, films, fabrics, papers, wall- coverings, canvas, synthetics, mesh, textiles
	Roll size	254 to 1625-mm (10 to 64-in) rolls (580 to 1625-mm (23 to 64-in) rolls with full support)
	Roll weight	42 kg (92.6 lb)
	Roll diameter	250 mm (9.8 in)
	Thickness	Up to 0.5 mm (19.7 mil)
Applications	Exterior signage	s, Double-sided banners, Exhibition and event graphics, Indoor posters, Interior decoration, Light boxes – film, Light urals, POP/POS, Posters, Textile, Traffic signage, Vehicle
