INTEREXCHANGE TELECOMMUNICATIONS SERVICE

2. DEFINITIONS

The following definitions apply for certain terms used generally throughout this tariff:

Access Code: A sequence of numbers that, when dialed, connect the caller to the provider of operator services associated with that sequence. These access codes include, but are not limited to, 950, 1-800 and 10XXX.

Access Line: A communication channel which is used for access to an Company service point.

Access Line Group: An access line or a number of access lines from a single Customer or authorized user location which have the same termination characteristics and which are arranged in a hunting sequence.

Accounting Code: A multi-digit code which enables a Customer to allocate long distance charges to internal accounts.

Additional Minute: The rate element used to bill for the chargeable time when a call continues beyond the initial minute.

Aggregator: Any person or entity, that is not an operator service provider and that in the ordinary course of its operations makes telephones available to the public or transient users of its premises, or university for telephone calls between points within this state that are specified by the user using an operator service provider.

Analog Transmissions: Denotes information transmitted in the form of continuously varying signal current and/or voltage.

Answer Supervision: An electrical signal fed back up the line by the local telco at the distant end of a long distance call to indicate positively the call has been answered by the called phone.

Application for Service: A standard order form which includes all pertinent billing, technical, and other descriptive

information which will enable the carrier to provide the communication service as required.

Authorization Code: A multi-digit code which enables a Customer to access Company's network and enables the Company to identify the use of proper billing.

Authorized User: A person, firm, corporation, or other legal entity which is authorized by the Customer to be connected to the service of the Customer. An Authorized user(s) must be named in the application for service.

Autodialer: A device which allows the Customer to dial pre-programmed telephone numbers, such as the Company access number or authorization codes, by pushing one or two buttons. Dialers can be bought as a separate device and added to a phone.

Automatic Numbering Identification (ANI): A type of signaling provided by a local exchange telephone Company which automatically identifies the local exchange line from which a call originates.

Billed Party: The person or entity responsible for payment of the Company's service as follows:

For an Operator Assisted Call:

- a. in case of a Calling card call, the holder of the calling card used by the Consumer;
- b. in case of a Collect or Third Party call, the one responsible for the local telephone service at the telephone number that agrees to accept charges for the call; and
- c. in the case of a Room Charge call, the Subscriber.

For a Direct Dial Call:

3. GENERAL RULES AND REGULATIONS

3.1 UNDERTAKING OF THE COMPANY

3.1.1 General

3.1.1.1 The services furnished herein are for the transmission and reception of voice, data and other types of communications. Services provided pursuant to this tariff may be utilized only for the transmission of communications by Customers consistent with the terms of this tariff, and the rules and regulations of the State of Nebraska.

3.1.1.2 Subject to unavoidable network interruptions, the Company shall endeavor to provide services and facilities 24 hours a day, 7 days a week.

3.1.2 Availability

3.1.2.1 Service is offered subject to the availability of the necessary facilities and/or equipment of the Company and/or the Local Exchange Carrier serving the customer. The Company reserves the right to provide services to and from locations where the necessary facilities and/or equipment are available.

3.1.2.2 The Company reserves the right to suspend service or delay service installation until sufficient network facilities are available to meet the anticipated traffic demand, or terminate a service request with a full refund of any charges billed to the Customer if satisfactory arrangements cannot be concluded within what the Company determines to be a reasonable amount of time.

INTEREXCHANGE TELECOMMUNICATIONS SERVICE

3.2 USE OF SERVICE

3.2.1 Services furnished by the Company may not be used for any unlawful purpose.

3.2.2 No restrictions apply on sharing or resale of services. The Customer remains liable for all obligations under this tariff notwithstanding such sharing or resale and regardless of the Company's knowledge of same.

3.2.3 Use of the services herein in a manner that could interfere with the services provided to other Customers or harm the facilities of the Company or others is prohibited.

3.2.4 In the event that the Company determines, based upon its sole judgment, that there is fraudulent use of either the services furnished by the Company or the Company's network, the Company will without liability to the Customer discontinue service and/or seek legal recourse to recover from the Customer all costs involved in enforcement of this provision.

3.2.4.1 Service may be discontinued by the Company, without notice to the Customer, by blocking traffic to or from certain cities, or NXX exchanges, or by blocking calls using certain Customer authorization codes, such as calling card codes, which the Company deems, in its sole judgment, is necessary to take such action to prevent unlawful use of its services. The Company will restore service as soon as it can be provided without undue risk.

3.2.4.2 Without incurring any liability, the Company may discontinue the furnishing of service(s) to a Customer immediately and without notice if the Company deems, in its sole judgment, that

such action is necessary to prevent or protect against fraud or to otherwise protect its personnel, agents, facilities or services.

3.2.5 The Company may, but is not required to, advise the Customer of abnormal calling patterns or other possible unauthorized use of facilities or calling cards assigned to the Customer. Additionally, the Company may, but is not required to, block calls on authorization codes which the Company believes to be unauthorized or fraudulent.

3.2.6 If a Customer utilizes a dedicated access line between the Customer's premises and the Company's service office for the origination or termination of calls, the Customer is responsible for payment of all charges for usage over that access line, including any usage which may be fraudulent or unauthorized.

3.2.7 The use and restoration of service shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules.

3.2.8 With the use of the Company authorization codes, the Customer agrees to pay the Company all charges incurred as a result of any delegation of authority whether authorized or unauthorized resulting in the use of its Company authorization codes.

3.3

OBLIGATIONS OF THE COMPANY

3.3.1 Liability

Except as provided in this Section, the Company's sole liability for any claim, loss, expense or damages of any kind, whether direct, indirect, special or consequential, arising from, or in any way attributable to, acts or omissions of the

Customer's control to be used for any purpose or activity, including, but not limited to, any obscene, indecent or harassing purpose or activity, prohibited by Section 223 of the Communications Act of 1934, as amended, and 800 calls placed with the intent of gaining access to a Customer's outbound calling services without authorization from the Customer.

3.3.1.10 The Company is not liable for any damages, including toll usage charges, the Customer may incur as a result of the unauthorized use of its telephone facilities. This unauthorized use of the Customer's facilities includes, but is not limited to, the placement of calls from the Customer-provided equipment which are transmitted or carried on the Company network or the network over which its traffic is carried. The Company's Customer Service agents may work with Customers to recommend possible solutions to reduce unauthorized use of their facilities. However, the Company does not warrant or guarantee that its recommendations will prevent all unauthorized use, and the Customer is responsible for controlling access to, and use of, its own telephone facilities.

3.4 OBLIGATIONS OF THE CUSTOMER

3.4.1 The Customer shall be responsible for damages to the Company's facilities or that of its network providers caused by the act or omission of the Customer, its authorized users, officers, directors, employees, agents, contractors, licensees or invitees or any person or entity who gains access to the service at the Customer through the negligence of the Customer.

3.4.2 The Customer will guarantee the performance by his authorized user(s) of all provisions of this tariff and contractual obligations between the Customer and the Company. The Customer will be liable for the acts or omissions of its authorized user(s) relative to the compliance with the provision of this tariff.

3.4.3 The Customer may not assign or transfer to a third party, whether by operation of law or otherwise, the right to use the services provided under this tariff, provided however, that where there is not interruption of use or relocation of the services, such assignment or transfer may be made to the following:

3.4.3.1 Another Customer of the Company, provided that the assignee or transferee assumes all accrued and unpaid obligations of the transferring Customer including, but not limited to, all indebtedness for such services, and the unexpired portion of the minimum period and the termination liability applicable to such services if any; or

3.4.3.2 A court-appointed receiver, trustee or other person acting pursuant to the laws of bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings, provided that the assignee or transferee assumes all accrued and unpaid obligations of the transferring Customer including, but not limited to, all indebtedness for such services, and the unexpired portion of the minimum period and the termination liability applicable to such services, if any.

If the Customer wishes to assign or transfer the right to use services provided under this tariff, written consent of the Company

is required prior to such assignment or transfer which consent may be granted or withheld in the sole discretion of the Company. All regulations and conditions contained in this tariff shall apply to such assignee or transferee.

The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly and severally liable with the assignee or transferee for any obligations existing at the time of the assignment or transfer.

3.4.4 The Customer of the Company's 1+, 0+ (sent paid), calling card, and/or Inbound Service is responsible for payment for all calls placed:

3.4.4.1 Via the Customer's local telephone service number(s);

3.4.4.2 Via dedicated access lines to the Company facilities and/or network;

3.4.4.3 Via the Customer's 800 Service number(s) either intentionally or mistakenly placed;

3.4.4.4 Originated at the Customer's number(s);

3.4.4.5 Accepted at the Customer's number(s) (e.g., collect calls); and

3.4.4.6 Billed to the Customers number via third number billing.

This responsibility is not changed by virtue of any use, misuse, or abuse of the Customer's service, Customer provided systems, equipment, facilities, services interconnected to the Customer's local

telephone service, 0+ (sent paid), dedicated lines or Inbound Service; which use, misuse or abuse may be occasioned by third parties, including, without limitation, the Customer's employees and members of the public.

3.4.5 The Customer must obtain an adequate number of access lines for service to handle its expected demand in order to prevent interference or impairment of the service or any other service provided by the Company. The Company will have the right to determine such adequacy giving due consideration to (1) the total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period.

The Company, without incurring any liability, may disconnect or refuse to furnish Service to any Customer that fails to obtain an adequate number of lines. In the case of disconnections, the Customer will be notified in writing in advance of the termination of service.

3.4.6 Any mistakes, accidents, omissions, interruptions, delays, errors or defects in transmission or service which are caused or contributed to, directly or indirectly, by an act or omission of the Customer, by others, through the use of Customer-provided facilities or equipment, or through the use of facilities or equipment furnished by any other person using the Customer's facilities shall not result in the imposition of any liability upon the Company. The Customer shall pay to the Company any reasonable costs, expenses, damages, fees or penalties incurred by the Company as a result thereof, including the costs of any local exchange Company labor and materials. The Company shall be indemnified, defended and held harmless by the Customer against any and all claims, demands, causes of action and liability

3.5

PAYMENT REGULATIONS

3.5.1 Service shall be provided and billed for on a monthly basis. Service shall continue to be provided until 30 days after the Company's receipt of a written request from the Customer for the disconnection of service, unless other restrictions apply. Payment is to be made to the address designated on the invoice or such other location as the Company may direct in writing from time to time. In addition to the charges for the Company's services, the Customer shall pay any applicable federal, state or local use, excise, sales or privileges taxes resulting from the services furnished by the Company. Such taxes shall not be counted toward the attainment of any volume or revenue commitment and will not be discounted.

3.5.2 The Customer is responsible for payment of all charges for service(s) furnished by the Company. This includes, but is not limited to, payment for calls or services: (a) originated at the Customer's number(s) whether authorized or not; (b) accepted at the Customer's number(s) (e.g., 800 Service and collect calls); (c) billed to the Customer's number via third number billing, a calling card, a company-assigned authorization code, travel card number, or other special billing number; and/or (d) incurred at the specific request of the Customer.

3.5.3 A Customer is responsible for payment for all calls placed to or via the Customer's telephone number(s). This responsibility is not changed by virtue of any use, misuse, or abuse of the Customer's service or Customer provided systems, equipment, facilities or services

interconnected to the Customer's 800 Service, which use, misuse or abuse may be occasioned by third parties, including, without limitation, the Customer's employees and members of the public who dial the customer's 800 number by mistake.

3.5.4 If notice of a dispute with respect to charge is not received by the Company, in writing, within 30 days after an invoice is rendered, such invoice shall be deemed to be correct and binding upon the Customer. In instances of a dispute, the Customer is required to pay the undisputed portion of the bill in its entirety. Accounts not paid within 30 days from the due date stated on the bill will be considered delinquent. Delinquent payments may result in the imposition of a late fee which shall be imposed at the rate of 1.5% of the unpaid balance per month or the maximum allowable rate under applicable state law.

3.5.5 If a Customer accumulates more than \$1,000 of undisputed delinquent charges, the Company's Resp. Org. reserves the right not to honor that Customer's request for a Resp. Org. change and the Company reserves the right not to honor that Customer's request for a carrier change until such undisputed charges are paid in full.

3.5.5.1 In the case of a billing dispute between the Customer and the Company for service furnished to the Customer, which cannot be settled to the mutual satisfaction of the Customer and the Company, the Customer has up to 30 days (commencing 5 days after such bills have been mailed or otherwise rendered per the Company's normal course of business) to take the following course of action:

.1 First, the Customer may request and the Company will provide an in-depth review of the disputed amount.

.2 Second, if after investigation and review by the Company, a disagreement remains as to the disputed amount, the Customer may file an appropriate complaint with the Nebraska Public Service Commission.

3.5.6 The Company may require applicants or Customers to provide information pertaining to their financial ability to pay for service.

3.5.6.1 Applicants or Customers whose credit worthiness is not acceptable to the Company, or is not a matter of general knowledge, may be denied service or may be required to make, at any time, a deposit in an amount equaling up to two (2) months, actual or estimated, charges for the services provided plus estimated toll charges for two (2) months. The Company may increase the amount of any deposit previously required if increased usage or additional services warrant it or where the Customer's payment record is not satisfactory.

New and existing residential Customers may pay for deposits or increases in existing deposits in installments over a period of three (3) months.

Where the Customer's business is, in the opinion of the Company, of a hazardous or temporary nature, the Company may bill such Customer on other than a monthly basis with a corresponding adjustment in the deposit or, guarantee requirement.

3.5.6.2 The Company may require a deposit, or an increase in the amount of deposit, of a Customer who cannot establish a credit standing satisfactory to the Company. If the actual bills of the Customer subsequently rendered prove that the deposit is either insufficient or excessive, the deposit may be changed in accordance with the facts.

Any such deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service.

Deposits held will accrue simple interest in accordance with Nebraska Public Service Commission regulations.

A deposit is returned to the Customer, less any amounts due the Company, when service is discontinued. Even though a deposit is made, the Customer must still pay bills, including any advance payments, when requested. A Customer's payment of a deposit does not waive or modify the Company's practice of disconnecting service for failure to pay any bills.

3.5.7 In the event the Company incurs fees or expenses, including attorney's fees, court costs, costs of investigation and related expenses in collecting, or attempting to collect, any charges owed to the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

3.5.8 In the event that a check or draft tendered by a Customer is returned, a fee of \$25 will apply. The fee will be assessed when a check or instrument issued by a Customer is returned without payment for any reason

whatsoever, unless the return is a bank error, in which case documentary evidence is required to waive the fee.

3.5.9 All stated charges in this tariff are computed by the Company exclusive of any federal, state, or local use, excise, gross receipts, sales, or privilege taxes, duties, fees, or similar liabilities (other than general income or property taxes) whether charged to or against the Company of its Customer. Such taxes, fees, etc. shall be paid by the Customer in addition to the charges stated in this tariff. All such taxes, duties and fees shall each be shown as a separate line item on the Customer's monthly invoice.

3.5.10 In cases involving toll fraud, the Company may backbill for one and one-half (1½) years from the point when such fraud was detected and/or quantified.

3.6

CREDIT ALLOWANCES

3.6.1 Interruption of Service

3.6.1.1 No credit will be allowed for relinquishing facilities in order to perform routine maintenance.

3.6.1.2 Credit for failure of service or equipment will be allowed only when such failure is caused by or occurs in facilities or equipment provided by the Company. As used in this tariff, all equipment, facilities and/or services for which the Company renders a bill for payment are considered provided by the Company whether or not the equipment, facilities and/or services are owned and operated by the Company unless otherwise provided by the terms or this tariff.

3.6.1.3 No credit will be allowed for failures of service or equipment due to Customer user-provided facilities or any act or omission of the Customer, its authorized user(s), officers, directors, employees, agents, contractors, licensees or invitees or any person or entity who gains access to the service at the customer through the negligence of the customer.

3.6.1.4 Credit allowance time for failure of service or equipment starts when the Customer notifies the Company of the failure or when the Company has actual knowledge of the failure, and ceases when the service has been restored and an attempt has been made to notify the Customer.

3.6.1.5 The Customer shall notify the Company of failures of service or equipment and make reasonable attempts to ascertain whether the failure is caused by Customer-provided equipment.

3.6.1.6 Only those portions of the service or equipment operation materially interfered with will be credited.

3.6.2 Outage Credit

3.6.2.1 No credit shall be given for an interruption of less than 2 hours.

3.6.2.2 The Customer shall be credited for an interruption of 2 hours or more at the rate of 1/360th of the monthly charge for the facilities affected for each period of 2 hours or major fraction thereof that the interruption continues. (A billing period has 30 days and service is provided 24 hours a day, 7 days a week. Every month will have 720 hours.) Such a credit shall

only be applied to services priced by the Company on a monthly flat rated basis.

3.6.2.3 Where a minimum usage charge is applicable and the Customer fails to meet a usage minimum, credit for the outage shall be applied against that minimum equal to 1/360th of the monthly minimum charges associated with the portion of service disabled for each period of 2 hours or major fraction thereof that the interruption continues. Such a credit shall only be applied to services priced by the Company on a monthly flat rated basis.

3.7

EQUIPMENT

3.7.1 Customer Obligations

3.7.1.1 The Customer shall assume all responsibility for obtaining all necessary permits, authorization or consents for interconnecting Customer-provided equipment or facilities with the Company's services or facilities as well as ensuring that the Customer-provided equipment or facilities are properly interfaced with the Company's services or equipment.

3.7.1.2 Access to and release of Company provided facilities located on the Customer's premises for testing and repair will be required for failures of equipment or service and/or routine maintenance. The Company will notify the Customer in advance of such necessary access or release and will attempt to schedule the access or release at a mutually convenient time. For charges contemplated in the tariff, such testing and repair and/or routine maintenance will be performed during regular business hours. When, at the specific request of the

Customer, such routine maintenance, testing and/or repair is performed outside of regular business hours, additional special service charges may apply.

3.7.1.3 The Customer shall operate its equipment and facilities in such a manner that its use of the Company's facilities shall not interfere with any other Customer's use of the Company's services or equipment.

3.7.1.4 The Customer shall provide adequate space, electrical power, wiring, HVAC and electrical outlets necessary for the proper operation of the Company's equipment on the Customer's and/or authorized user's premises.

3.7.1.5 The Customer shall be responsible for all loss regardless of cause (other than directly resulting from an act or omission of the Company) to the Company's equipment on the Customer's or its authorized user's premises.

3.7.1.6 The Customer is responsible for ensuring that, except for Customer authorized and qualified personnel, no one attempts to adjust, modify, move or otherwise interfere in any way with the continuous operation of the Company's equipment located at the Customer's or authorized user premises.

3.7.1.7 The Customer shall comply with the minimum protective criteria generally accepted in the telephone industry and other appropriate criteria as may be prescribed by the Company to protect the integrity of service or for safety reasons.

3.7.1.8 The Customer shall be responsible for the installation, operation or maintenance of any Customer-provided equipment. Where such equipment is connected to service furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of services under this tariff and to the maintenance and operation of such services in the proper manner. Subject to this responsibility, the Company shall not be responsible for the following:

.1 Through the transmission of signals generated by Customer-provided equipment or for the quality of, or defects in, such transmission;

.2 The reception of signals by Customer-provided equipment; or

.3 Network control signaling where such signaling is performed by Customer-provided network control signaling equipment.

3.7.2 Terminal Equipment

3.7.2.1 The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided in this tariff. The Customer is responsible for all costs at his premises, including Customer personnel, wiring, electrical power, and the like, incurred in the use of the Company's service.

3.7.2.2 When such terminal equipment is used, the equipment shall comply with the

minimum protective criteria set forth below and shall not interfere with service furnished to other Customers. Additional protective equipment, if needed, shall be employed at the Customer's expense.

3.7.2.3 When service(s) using voice grade facilities is terminated in Customer-provided terminal equipment, channel derivation devices, or communications systems, the Customer shall comply with the following minimum protective criteria:

.1 When the facilities furnished under this tariff are used in common with local telephone company services, it is necessary in order to prevent excessive noise and cross talk, that the power of the signal applied to the local lines be limited. A single valued limit for all application cannot be specified. Therefore, the power of the signal in the band over 300 hertz which may be applied by the Customer-provided equipment at the point of termination will be specified by the carrier for each application, to be consistent with the signal power allowed on the telecommunications network as specified in FCC Part 68 Rules and Regulations.

.2 To protect the telecommunications services from interference at frequencies which are above the band of service provided, the carrier will specify the acceptable signal power in the following bands to be applied by the Customer provided equipment or communications system at the point of termination to insure that the input to facilities of the Company or other communications company that the company

connects with does not exceed the limits indicated.

(a) The power in the band from 3,995 hertz to 4,000 hertz shall be at least 19 dB below the power of the signal as specified in Subsection .1 preceding.

(b) The power in the band from 4,000 hertz to 10,000 hertz shall not exceed 24 dB below one milliwatt.

(c) The power in the band from 10,000 hertz to 25,000 hertz shall not exceed 24dB below one milliwatt.

(d) The power in the band from 25,000 hertz to 40,000 hertz shall not exceed 36 dB below one milliwatt.

(e) The power in the band above 40,000 hertz shall not exceed 50 dB below one milliwatt.

.3 Where there is connection via Customer-provided terminal equipment or communications systems to a Message Telecommunications Service to prevent the interruption or disconnection of calls or interference with network control signaling, it is necessary that the equipment to the interface at no time has energy solely in the 2450 to 2740 hertz band. If signal power is in the 2450 to 2750 hertz band, it must not exceed the power present at the same time in the 800 to 2450 hertz band.

.4 Where such Customer-provided equipment or communications system applies, signals having components in the frequency spectrum below 300 hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in a. through d. following:

(a) The maximum rms (root-mean-square) value, including dc and ac components of the current per conductor shall not exceed 0.35 ampere.

(b) The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

(c) The conductor voltage shall be such that the conductor-to-ground voltage limit in .2 preceding is not exceeded. If the signal source is not grounded, the voltage limit in .2 preceding applies to the conductor-to-conductor voltage.

(d) The total weighted rms voltage within the band from 50 hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are indicated.

3.7.2.4 If the Customer fails to maintain and operate his terminal equipment properly, resulting in the occurrence or possibility of harm to the Company's equipment, personnel, or the quality of service to other customers, the Company may, upon written notice, require repair, maintenance or the use of protective equipment at the Customer's expense. If such repair, maintenance or use of protective equipment fails to produce satisfactory results, the Company may, upon written notice, terminate the Customer's service immediately.

3.7.2.5 The Customer shall also comply with the minimum protective criteria generally accepted in the telephone industry including Part 68 of the FCC Rules and Regulations, and other appropriate criteria as may be prescribed by the Company. The Customer shall ensure that his terminal facilities are of the proper mode, band-width, power, data, speed, and signal level for the intended use of the Customer, and that the signals do not damage the Company's equipment, injure personnel or degrade service to other Customers.

CANCELLATION OF SERVICE

3.8.1 For any of the following reasons, the Company may discontinue service upon at least 10 days' notice or cancel an application for all services without incurring any liability. Separate accounts for the same Customer are also subject to this provision.

3.8.1.1 In the event that a Customer's bill remains unpaid after more than thirty days following rendition of the bill.

3.8.1.2 In the event of a violation of any regulation governing the service under this tariff, when necessitated by conditions beyond the Company's control, a violation of any law, rule, or regulation of any government authority having jurisdiction over the service.

3.8.1.3 Where the Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

3.8.2 The Company, by written notice to the Customer, may, without incurring any liability, cancel or suspend the provision of service or equipment for non-payment of any sum due to the Company from the Customer, whether pursuant to service offered under this tariff or otherwise, or as a result of actions of a government agency which forces discontinuance of the provision of service or equipment, or for violation or threatened violation of any of the terms or conditions of this tariff by the Customer or authorized user, or if the Customer becomes insolvent or bankrupt, or makes a general assignment for the benefit of creditors or as otherwise permitted by this tariff. Cancellation

will be effective on the date specified on the notice.

3.8.3 Service may be canceled by the Customer only on not less than 30 days written notice to the Company. In the event the Company is unable to disconnect the Customer's access line by the requested cancellation date, the customer will be responsible for any usage over the line.

3.8.4 The discontinuance of service by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owed for service(s) furnished up to the time of discontinuance.

3.8.5 The remedies available to the Company set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

3.8.6 Except as otherwise provided in this tariff or as specified in writing by the party entitled to receive service, notices may be given orally or in writing to the person(s) whose name(s) and business address(es) appear on the executed service order.

3.8.7 Where the Company cancels a service and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge for each day after the service was discontinued. This credit will be issued to the Customer or applied against the balance remaining on the Customer's account.

3.8.8 The Customer shall pay a cancellation charge for services that require special facilities dedicated to its use when the Customer cancels the order before service begins or prior

to the expiration of the service term or if service is canceled for nonpayment or failure to make a requested deposit. The charge will be equal to the non-recoverable portion of expenditures or liabilities incurred expressly for the Customer and the sum of the monthly recurring or minimum usage amount remaining through the end of the term. The Customer is liable for any charges assessed by the interconnecting telephone company providing the dedicated local access line.

3.9

DETERMINATION AND RENDERING OF CHARGES

3.9.1 For the purpose of billing, service will be deemed to be started on the day the service and its associated equipment, if any, is installed. Where billing is based upon Customer usage, Customers will be billed for all usage commencing on the date usage begins.

3.9.2 Subject to the Company's right to cancel or suspend services as otherwise provided in this tariff, the minimum service period is 30 days. Termination by Customer is effective 30 days after receipt by the company of a written notice of cancellation. Termination by the Company is effective 30 days after delivery of written notice or as otherwise set forth in this tariff or other agreement between the Customer and the Company.

3.9.3 In situations where a Special Service is requested, the minimum service period and charges will be determined by the Company on a case-by-case basis.

3.9.4 All monthly recurring charges are billed one month in advance. Initial and final month's billing, when the service period is less than a month, will be prorated at 1/30th of the month's

recurring charge for each day the service was rendered or equipment was provided.

3.9.5 Usage charges are billed monthly for the preceding billing period. For periods less than the monthly billing period, minimum usage charges are prorated at 1/30th of the monthly minimum amount for each day the service was rendered.

3.9.6 The duration of a call is rated in intervals of the billing increments described for each service provided in this tariff. If the final interval of a call is less than the applicable billing increment, it will be rounded up to a full increment for purposes of billing.

3.9.7 Computed usage charges or credits for each call are rounded to the nearest cent when possible.

3.9.8 The applicable usage rates for the billing of a distance sensitive call will depend on the distance in airline mileage between the originating and terminating points of the call. For the purpose of determining the airline mileage of a call, the Company will utilize the vertical ("V") and horizontal ("H") coordinates of the rate centers of the originating and terminating points of the call. For purposes of billing, the Company references "V" and "H" coordinates provided by Bell Communications Research. Calls originated by dialing a local exchange number or a 950-type number using an authorization code, the originating point will be the rate center in which the switched access facilities are located. For calls originated via equal access connections, WATS access lines or dedicated access lines, the originating point will be the rate center in which the Customer is located. The terminating point will be determined by the rate center of the called number.

The formula to determine airline miles is as follows:

$$\frac{\sqrt{(V1-V2)^2 + (H1-H2)^2}}{10}$$

3.9.9 Rate periods apply, unless noted otherwise, as indicated below and are based on the time in which a call is established. In cases where a call begins in one rate period and continues into another, the rate in effect in each period will apply to the portion of the call occurring within the applicable rate period.

Day rates apply from 8 a.m. to, but not including, 5 p.m. Monday through Friday

Evening rates apply from 5 p.m. to, but not including, 11 p.m. Sunday through Friday

Night rates apply from 11 p.m. to, but not including, 8 a.m. seven days a week.

Weekend rates apply from 8 a.m. to, but not including, 11 p.m. Saturday and from 8 a.m. to, but not including, 5 p.m. on Sunday.

On holidays, evening rates apply throughout the day on which the holiday is observed unless a lower rate would normally apply.

3.10 TIMING OF CALLS

3.10.1 Billable time for service is the duration of time between the called station answering and the called or calling station disconnecting, provided duration may be rounded in accordance with specific descriptions in this tariff.

INTEREXCHANGE TELECOMMUNICATIONS SERVICE

3.11 SPECIAL SERVICES

For the purpose of this tariff, a Special Service is deemed to be any service requested by the Customer for which there is no prescribed rate in this tariff. The Company may offer Special Services under special arrangements on a case-by-case basis. Service offered under this tariff provision will be provided to Customers pursuant to contract. Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of this tariff.

3.11.1 From time to time, the Company will introduce promotional offerings. The Company may offer services at a reduced rate, free of charge, or offer incentives including gift certificates and coupons for promotional, market research or rate experimentation purposes.

3.11.2 The Company may offer service to test and evaluate service capabilities, implementation procedures, technical processes, etc., or for market research, including rate experimentation purposes. Such trials will be for a limited duration.

3.11.3 Special Service charges will be based on the estimated cost of furnishing such services including the cost of operating and maintaining such a service, the cost of equipment and materials used in providing such a service, the cost of installation including engineering, labor supervision, transportation, and the cost of any other specific item associated with the particular Special Service request.

3.11.3.1 If at the request of the Customer, the Company obtains facilities not normally used to provide service to its

Customer, the cost incurred will be billed as a Special Service.

3.11.3.2 If at the request of the Customer, the Company provides technical assistance not normally required to provide service, the costs involved will be billed as a Special Service.

3.11.3.3 Where special signaling, conditioning, equipment, or other features are required to make Customer-provided equipment compatible with the Company service, the cost of providing these features will be billed as a Special Service.

3.11.4 Arrangements will be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service not generally offered under this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis.

3.12 FRACTIONAL CHARGES

3.12.1 Charges for a fractional part of a month are calculated by counting the number of days remaining in the billing period after service is furnished. Divide that number of days figure by thirty days (billing period). The result is then multiplied by the applicable monthly service charge to arrive at the appropriate fractional monthly service charge.

3.12.2 For each call the minimum charge shall be the applicable charge for the initial billing increment of use with use in excess of the initial billing increment during a call charged at the applicable rate per minute with the fractional billing increments, if any, of each

call rounded up to the next highest whole billing increment.

3.12.3 All per call charges of fractional cents shall be rounded to the next full cent unless otherwise stated in the specific product description (Section 4).

3.13

APPLICATION OF STATE AND LOCAL TAXES

3.13.1 Excise Tax

There is a charge of 3% added to intrastate charges to recover the amount the Company must pay toward the excise taxes, in addition to the state sales tax of 5%.

3.13.2 Municipal Taxes

The municipalities listed below have enacted taxes upon the Company's gross receipts from intrastate services originated within their boundaries. The Company will apply a charge on all intrastate charges originating within these municipalities:

3.14 TELECOMMUNICATIONS RELAY SERVICE (TRS)

3.14.1 TRS is a service which permits hearing or speech impaired Customers who have been certified, in writing, by a licensed physician, audiologist, speech pathologist, or appropriate state or federal agency, as having a hearing or speech impairment which precludes oral communications and who use a Telecommunications Device for the Deaf (TDD), to complete calls to Customers who do not use TDD. Customers originating a call, either by voice or TDD, reach the TRS center for their respective state via a toll free telephone number.

3.14.2 The Company is not liable for errors in translation, receiving or delivering messages by telephone, TDD, or any other instrument over the Company facilities, connecting carriers or through any of the TRS Centers operated by the Company in absence of gross negligence or willful misconduct.

3.14.3 The completed call is rated as a call from the originating telephone number to the terminating telephone number. This service will apply to intrastate calls that originate and terminate in Nebraska. All TRS calls are confidential and may not be placed to 900 or 976 numbers. All TRS calls are not eligible for any discounts associated with any other Calling Plans.

RESALE

All Company Interchange Services are available for resale unless otherwise specifically indicated.

Customers who subscribe to Interchange Service and resell the service to others, shall be the Customer of Record. The Customer of Record shall be responsible for complying with all laws and regulations of the state of Nebraska which relate in any way to the Customer of Record's provision of local telephone service, including, but not limited to, laws and regulations regarding consumer protection, billing and collection practices, tariffing obligations, and the payment of applicable taxes.

The Company will bill the Customer of Record who is at all times responsible for payment of the full amount of all charges incurred. The Company is not responsible for the allocation of usage or charges for resold services. The Customer of Record is responsible for allocating charges to its end users.

With respect to resold services, applications for service as well as requests for additions, rearrangements or discontinuance of service will be accepted only from the Customer of Record.

Absent an agreement between Company and Customer to the contrary, connection with the marketing of its services, the Customer of Record may not directly or indirectly (1) use NT&T's trade names, trademarks, service marks, registered marks or other indicia or origin (or confusingly similar names, marks or other indicia) in a manner that may cause third parties (including the Customer of Record's end-users) to believe that service provided by the Customer of Record is NT&T service; or (2) use NT&T's corporate

4. SERVICE DESCRIPTIONS

4.1 MESSAGE TELECOMMUNICATIONS SERVICE

4.1.1 MTS - This service arrangement allows a Customer to originate calls in areas with Equal Access capabilities served by the Company by Resubscribing to the Service.

The applicable usage rate depends upon the distance between originating and terminating points and the rate period(s) in which the call occurs. Calls are billed in six (6) second increments after an initial minimum billable period of one minute. Discounts from the Company's basic rate schedule if available through various calling plans are set forth in

Section 4.5 herein.

4.1.2 Product Types

4.1.2.1 Basic MTS

.1 Service via equal access facilities is available to Customers served by any LEC equal access office served by the Company.

.2 Usage Charges

a. Per Minute Rates - Refer to the Section 6 Service Charges.

b. Rate Periods - Refer to the Determination and Rendering of Charges in Section 3.9 for the Company's standard rate period.

INTEREXCHANGE TELECOMMUNICATIONS SERVICE

4.2 OPERATOR SERVICES

4.2.1 Description - Operator Services will be offered to Company subscribers served from equal access offices, and to users accessing the Company's services through public payphones or Customer provided stations. Charges for Operator Services may be billed to a Customer's commercial credit card account or local exchange company (LEC) calling card account, or to the calling station, called station or a designated third party station. Charges may not be billed to public payphones or Customer-provided stations.

4.2.1.1 Operator Service rates will apply to the following types of calls:

.1 Customer Dialed Calling Card Station - Calls completed without the assistance of a company operator when the charges are billed to the LEC calling card account entered by the calling party.

.2 Operator Station - Calls completed with the assistance of a company operator on a station-to-station basis. Charges may be billed to the Customer's commercial credit card or LEC calling card account, or to the calling station, called station or a designated third party station.

.3 Person-to-Person - Calls completed with the assistance of a company operator to a particular person, station, department or PBX extension specified by the calling party. Charges may be billed to the Customer's commercial credit card or LEC calling card account, or to the calling station, called station or a designated third party station.

4.2.2 Regulations Applicable to Operator Service

- For the purpose of this section, a traffic aggregator is any subscriber who has entered into a contract with the Company or its agent whereby the subscriber will be compensated for presubscribing telephones to "0+" service.

4.2.2.1 Access to the operator services of competing carriers will not be blocked or intercepted.

4.2.2.2 Access to the local exchange carrier's operators will not be blocked or otherwise intercepted. Specifically, all "0 minus" calls (when an end-user dials zero without any following digits) will be directed to the local exchange carrier operators. "00 minus" calls will be directed to the Company operators.

4.2.2.3 Neither the Company nor traffic aggregators shall deviate from the rates as set forth in this tariff, or from the regulations applicable to the Company's operator service as set forth herein.

4.2.2.4 Non-compliance with subsections the above by traffic aggregators will result in the suspension of commission payments. Upon such suspension, the Company or its agent shall give written notice of non-compliance. If non-compliance is not corrected within twenty (20) days, the Company will cease processing "0+" calls from the affected location(s).

4.2.2.5 "0+" calling card calls will be processed through an automated interface, without operator assistance. Operator assistance will be provided whenever necessary (e.g., from rotary telephones). Calls billed to calling cards or third

numbers will be accepted only if the Company determines that the billing number is valid. If validation information is not available from the billing local exchange carrier, the Company shall decline to accept the call or require that the call be billed to a number which can be validated, or to a major credit card.

4.2.3 Carrier Identification

4.2.3.1 The Company will identify itself at the beginning and end of every call, and in no case will charges be incurred before the Company identifies itself for the first time.

4.2.4 Disclosure of Rates - The Company will provide its rates to any caller upon request before any charges are incurred.

4.2.5 Charges - The charges for Operator Services will be the usage rates appearing in the following section plus a per call charge dependent upon the type of operator service provided along with a property surcharge ranging from \$0.00 to \$1.75. In addition, an Operator Dialed Surcharge will apply on a per call basis when the Customer has the capability of dialing all the digits necessary to complete the call, but elects to dial only the operator and requests the operator to dial the called station. No charges apply to emergency calls placed to recognized emergency agencies.

4.2.5.1 Per Minute Rates - Specific per minute rates are set forth in Section 6 herein.

4.4 INBOUND SERVICES

4.4.1 The Company's inbound service is a service accessed via 800, 887 or 888 NPA's originating on feature group facilities provided by the Local Exchange Carrier (LEC) and terminating on a regular business line or a Special Access Line (SAL). This service enables the Customer to receive 800 service calls at their residence or place of business.

4.4.2 The Company reserves the right to require an applicant for the Company 800 Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.

4.4.3 The Company's 800 Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effect upon it or any service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

4.4.4 The Customer must obtain an adequate number of access lines for the Company 800 Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish the Company 800 Service to any Customer that fails to comply with these conditions.

4.4.5 Use of numbers; Each 800 Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any 800 telephone number associated with the Company 800 Service that has not been placed in actual and substantial use during the first sixty (60) day period after service activation may be redesigned as a spare number in the Company 800 database by the Company upon written notice to the Customer.

4.4.6 If the Customer requests assignment of a specific 800 Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than ten (10) numbers reserved. Any reservation shall be for no more than sixty (60) days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after the Company 800 Service has been in actual and substantial use for a consecutive sixty (60) day period.

4.4.7 Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved 800 telephone number hereunder or Customers who subscribe to and use the Company 800 Service or their transferee or assigns, any ownership interest or proprietary

right in any particular 800 number; however, upon placing a number actually and substantially in use, as defined above, the Company 800 Service Customers do have a controlling interest in the 800 number(s). The Company's 800 Service Customer may retain the use of their 800 number assignments, even following changes in their 800 carrier and/or Resp. Org.

4.4.8 If a Customer places an order for the Company to carry Customer's already existing 800 number service, the Customer shall provide to the Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to the Company 800 Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its 800 number(s) to the Company Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or 800 service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to the Company.

4.4.9 The Company's Resp. Org. functions include 1) search for and reservation of 800 numbers in the SMS/800; 2) creating and maintaining the 800 number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.

4.4.10 In the event that a Customer cancels its Company Resp. Org. or 800 Service, the customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any service obtained by or on behalf of the Customer by the Company.

INTEREXCHANGE TELECOMMUNICATIONS SERVICE

4.4.11 It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Company 800 Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.

4.4.12 800 Feature Charges - Feature Charges are determined by the specific feature requested by an 800 Customer. These charges are in addition to 800 usage charges and are not subject to discounting unless specifically indicated in Section 6.

4.4.13 Special 800 Services - Residential

4.4.13.1 Homebound 800 Service

.1 Description - Homebound 800 is an inbound service available to the Company residential customers only. This service enables the Customer to receive "toll-free" 800 service calls at their residence. The residential Customer will be assigned an 800 telephone number to receive calls that are paid for by the Customer rather than the calling party.

.2 Usage Charges - Usage Charges are determined by the time of day, rate periods and minutes of use within each rate period. Usage charges are set forth in Section 6.4.4 herein.

5. CARD SERVICES

5.1 PREPAID CARD SERVICE

5.1.1 Description - NT&T Prepaid Card Service is a switched service that enables an end-user to place calls charged to prepaid phone cards issued by the Company. The end-user accesses the network by dialing the appropriate Company toll free number printed on the back of the card. Six toll free numbers are available and each number prompts the end-user in a different language: Chinese, English, French, Japanese, Portuguese, Spanish and German.

The Prepaid Card is available in 10, 20, 50, 100 and 200 unit (minute) denominations. The 10 unit (minute) denomination cards are subject to a per card surcharge of \$0.20. The number of available Prepaid Cards is subject to technical limitations.

The Company is not liable or responsible for theft, loss or unauthorized use of cards or card numbers. The Company will not refund or issue credit on unused units (minutes) of the Prepaid Card. The Customer(s) of Prepaid Card Service is solely responsible for payment of all applicable federal, state or local use, excise, sales or privilege taxes, duties or any similar fees that may be assessed by any governmental body or regulatory authority in connection with the service.

5.1.1.1 Availability - Prepaid Card Service is available 24 hours a day, 7 days a week. Card availability is limited and shall be handled on a first come, first served basis. Prepaid Card Service can be accessed through touchtone telephone only. 900 calls cannot be made on the Prepaid Card.

INTEREXCHANGE TELECOMMUNICATIONS SERVICE

5.1.1.2 Card Depletion/Renewal or Expiration - Each time the card is used, the end-user hears a message stating the amount of minutes remaining on the card. Sixty (60) seconds prior to the card being depleted, the user hears a warning announcing the time remaining on the card and a reminder tone 30 seconds thereafter. If the end user is holding a re-usable card, the user can extend the value of the card in increments identified via voice prompt by charging the cost of additional increments on an authorized major credit card. The system will prompt the user through the processes necessary to purchase these additional increments on the phone card. An online credit check will be done to ensure available credit.

Each Prepaid Card will expire twelve (12) months following printing of the cards. If the card is purchased wholesale the customer will be given an additional three (3) month period in which to sell the cards ordered prior to the beginning of the twelve (12) month period.
