

Simplifying network cabling

SN® EZ-FLIP PREMIUM CONNECTOR

A new duplex connector, optimized for 400G witch allows the polarity to be switched without connector re-termination

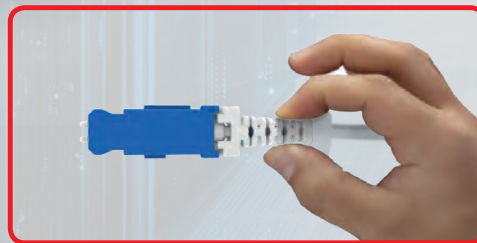

40% HIGHER DENSITY
compared
to LC Connector

UP TO 2.0 mm
ruggedized
cable

2x LC STYLE FERRULE
for increased reliability

PUSH-PULL on boot design

Watch the video
scan the QR code

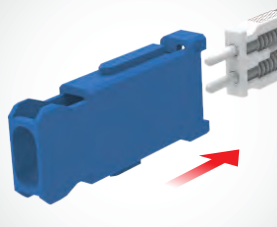

Push-pull design allows for easy insertion or extraction of connector from transceiver or adapter. When holding boot you can push or pull to insert or extract. Boot is flexible to allow for adjacent connectors to flex out of the way allowing you to extract intended connector.

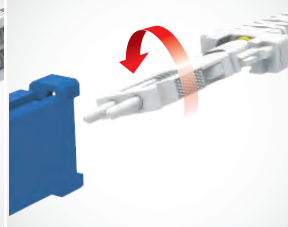

1) Unlock

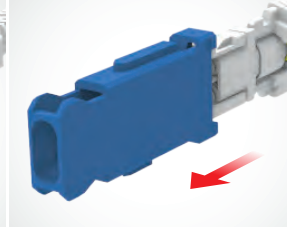

2) Extract

3) Rotate 180°

4) Insert

5) Lock
