LEGISLATION AFFECTING INSURANCE.

While no session of the General Assembly was held during the year 1920, it seems advisable in this report, to call attention to insurance legislation enacted at the Thirty-ninth General Assembly which adjourned April 8, 1921.

Senate File No. 383 provides that from and after January 1, 1922, Iowa stock companies transacting business under the provisions of Chapter 4, Title 9, of the Code of Iowa, shall set up their unearned premium reserves on a basis of 50% for policies running one year or less from date of the policy or last renewal, pro rata

on policies for more than one year and not exceeding five years, and equal to the pro rata unearned premium on all policies in force for all policies running more than five years.

Senate File No. 617 prohibits the sale or disposal of shares of corporate stock in conjunction with policies of insurance and also forbids the licensing of companies or associations providing for the retention of dividends under an arrangement that such accrued dividends shall later be applied on the purchase of stock or exchanged for stock.

House File No. 391 completely rewrites the law applicable to state and county mutual insurance associations, greatly enlarging their powers.

House File No. 798 provides that companies incorporated to transact the business of insurance other than life insurance must have a capital of not less than \$200,000.00, the same to be fully paid up in cash and invested as required by law, with the exception of live stock, plate glass and exclusive health and accident companies and associations.

It seems advisable at this time to again emphasize the necessity of a recodification of the insurance statutes of this state.

The constant change by amendment and addition in the insurance sections of our code, has resulted in an involved and intricate and in many cases, conflicting set of statutes and the importance of the business of insurance, amply justifies the complete recodification of the laws applicable to the business of insurance.

The increasing importance of Workmen's Compensation insurance in the United States has created a sentiment toward the establishment of rating bureaus for the establishment and control of rates charged for Workmen's Compensation insurance.

This coverage is so essential to the stability of our industrial world and a failure of a company heavily involved in this class of business would be fraught with serious consequences to the injured laborers who might be dependent upon this compensation as their sole means of support.

Competition for business may at any time result in a rate war which might demoralize the stability of the companies writing this

coverage. To eliminate any possibility of the dangers attendant thereon, and for the stabilization of this business, these recommendations of the Insurance Department that legislation be enacted, provide for state control over the rates charged for Workmen's Compensation insurance.

It is recommended that so much of Section 1691 of the Code of Iowa as amended as provide a maximum capitalization of one million dollars for Iowa Fire and Casualty Companies, be repealed. If our young and growing companies are to take that place which is their right, and meet, as they must inevitably meet, the competition of the larger eastern companies, it will be absolutely necessary that they be permitted to increase their capitalization in excess of one million dollars.

EXAMINATION OF COMPANIES.

During the year of 1920 there were 55 examinations made of fire and casualty insurance companies and associations whose home offices are in this state.

The following table classifies the examinations by companies, showing the amount received from examinations and turned over to the treasurer of state from January 1, 1919, to December 31, 1919:

An inspection of the paid and unpaid claims showed that losses were being adjusted promptly and with fairness.

DES MOINES REINSURANCE FIRE COMPANY, DES MOINES, IOWA.

Two examinations were made of this company during 1920. The first examination was made as at January 9, 1920, and was made for the purpose of determining the financial status of the corporation preparatory to the issuance of a certificate of authority. The second examination incorporated the period covered by the previous examination and brought the work down to the close of business March 31, 1920.

The company was incorporated under the provisions of Chapter 1 and 4, Title IX of the Code of Iowa, its articles of incorporation being approved in June, 1919. The certificate authorizing the transaction of an insurance business was issued January 10, 1920. While licensed to write direct business as provided in sub-divisions 1 and 9 of Section 1709, Chapter 4, the company confines its writings to reinsurance only. The examiners found the underwriting to be conducted along conservative lines.

At the date of the last examination, March 31, 1920, the assets were \$364,376.95; liabilities, including fully paid capital stock in amount of \$206,500.00, and capital stock partially paid up (\$39,167.50), were \$267,510.70, with a surplus over all liabilities of \$96,866.25.

The authorized capital stock is \$500,000.00. The company was originally the Reinsurance Fire Company, the name having been changed in May, 1920.

DRUGGISTS MUTUAL INSURANCE COMPANY, ALGONA, IOWA.

This company was formerly the Druggists Mutual Insurance Association, and as such was examined by the Iowa and Minnesota Departments under date of June 30, 1920. Comments relative to that examination will be found under Druggists Mutual Insurance Association.

An examination was made as at November 18, 1920, and its purpose was primarily to verify the action had in connection with the change in plan and name. This change became effective in November, 1920.

The Company operates as a mutual company under the provisions of Chapter 4, Title IX of the Code of Iowa, insuring its members against loss or damage by fire, lightning, tornado, cyclone and wind-storm. The risks taken are largely confined to drug stocks and such other stocks as are associated with the drug business. Insurance is also carried on buildings occupied by drug stores, on household goods and residences of persons engaged in the drug business, and, to a limited extent, on jewelry stocks and property connected therewith.

The company allows each policyholder a dividend of 30% and an additional dividend of 10% of the premium for cash payment upon the renewal of policies.

This examination showed the company to have net premiums in force in the amount of \$83,746.11, its assets were \$96,505.70 and

surplus \$50,385.23. Of this surplus \$31,000.00 was advanced to the company by the secretary-treasurer. This advance was made in order to aid the company to secure admission to other states and was advanced in accordance with the provisions of Section 8, Chapter 429, Acts of the 37th General Assembly. Pursuant to the provisions of the above section, this amount was not held as a liability and can be repaid only out of the surplus earnings of the company and upon the approval of the commissioner of insurance.

Recommendations and corrections in the records of the company which were set out in the report of the previous examination were found to have been made.

Losses were found to be adjusted promptly and on a fair and equitable basis.

The organization was completed in February, 1920, and authority to transact the business of insurance was granted May 22, 1920. The authorized capital stock is \$150,000.00, of which \$100,000.00 is fully paid up and issued. There was no promotion expense and \$25,000.00 was contributed to surplus.

This examination was made upon the company's application for a certificate of authority and covers the period from organization to the close of business June 30, 1920.

The company has an authorized capital stock of \$750,000.00. At the date of this examination there was outstanding \$364,550.00 of fully paid capital and partial payments on stock had been received in the amount of \$82,920.59. There was a surplus over all liabilities of \$39,355.05.

The company was found to be in sound financial condition with a surplus of \$82,466.12.

A permanent surplus fund of \$100,000.00 is maintained which permits such a mutual company to write policies of insurance on which there is no contingent liability on the part of the policyholder.

IOWA STATE LIVE STOCK INSURANCE COMPANY, DES MOINES, IOWA.

This examination was made prior to the purchase of this company by the Farmers Live Stock Insurance Company of Des Moines, Iowa, and shows the company to have a deficit of \$8,270.87 at the date of this examination, June 30, 1920. This condition is primarily due to an unfortunate loss experience. The volume of business for the first six months of 1920 was an increase of approximately 35% over the first six months of 1919. The corresponding increase in the reserves together with the excessive losses absorbed the surplus.

The company was found to be prompt in its payment of losses in all cases where the proofs were properly presented and the liability clearly established. The fully paid up capital stock amounted to \$101,450.00 and the company had net premiums in force of \$206,083.10.

NATIONAL BONDING AND INSURANCE COMPANY, CEDAR RAPIDS, IOWA.

As noted under comments on examinations of fire insurance companies this company was originally incorporated to transact a bonding and casualty insurance business. An examination was made as of May 31, 1920, and a certificate of authority was granted June 24, 1920.

Following the adoption of amendments to the articles of incorporation changing the nature of business to be transacted, a second examination was made as of September 22, 1920, comments on which will be found under the reports of fire insurance companies.

The coverage is restricted to automobiles.

The active management of the association is vested in the Automobile Underwriters, the attorney, and an advisory committee.

At date of this examination, September 30, 1920, the association had a surplus over all liabilities of \$39,786.37.

Since organization the association has sustained a loss ratio of 99.8% as regards losses incurred to deposits earned. The expense ratio, other than the administration expense on the same basis, is 11.6%.

ASSESSMENT ACCIDENT ASSOCIATIONS.

NATIONAL TRAVELERS BENEFIT ASSOCIATION, DES MOINES, IOWA.

At the request of this association a verification was made of its annual statement filed with this department as at December 31, 1919, and a financial statement was set up showing the condition of the association on May 31, 1920. This verification was made to comply with a request of other states in which the association was seeking admission.

A joint examination was made, as of June 30, 1920, by the insurance departments of Iowa and Montana as a prerequisite to the admission of the association to Montana. At this date the admitted assets exceeded the liabilities by \$25,674.04.

STATE MUTUAL INSURANCE ASSOCIATIONS.

AUTOMOBILE DEALERS MUTUAL INSURANCE ASSOCIATION, DES MOINES, IOWA.

This examination made as of June 30, 1920, shows a deficit of \$2,293.80. The examiners call attention to the fact that this same deficit condition existed at December 31, 1918, December 31, 1919, and at the last previous examination May 31, 1919, in the following respective amounts: \$152.41, \$66.19 and \$2,088.81, and the contention is brought out that this condition is at least partially due to excessive salary expense.

An examination of losses paid disclosed prompt and equitable action in settlement.

DES MOINES MUTUAL INSURANCE ASSOCIATION, DES MOINES, IOWA.

This association was incorporated in 1899 as the Des Moines Mutual Hail & Cyclone Insurance Association which name was changed to the present one in January 1916. Its corporate existence was renewed for a period of twenty years in January 1919. The association operates under the provisions of Chapter 5, Title IX of the Code, and the business transacted is confined to the state of Iowa:

This examination made as of May 31, 1920, shows a deficit of \$6,354.05. The association operates on the post mortem basis of assessment and having no surplus is compelled to borrow money for overhead expenses until the assessment is levied, September 15th.

The examiners state that the association has been negligent in securing licenses for its agents. The association is again criticized for operating on borrowed money, \$8,000.00 being unpaid at the date of this examination.

An inspection of the paid and rejected losses shows the association to be fair and prompt in its settlements.

DRUGGISTS MUTUAL INSURANCE ASSOCIATION, ALGONA, IOWA.

This association was organized in October, 1909, by members of the Iowa Pharmaceutical Association for the purpose of insuring their stocks against fire, lightning, windstorms and plate glass against breakage.

This examination was made as of June 30, 1920, the insurance departments of Iowa and Minnesota participating. A second examination was made as of November 18, 1920, following changes in the name of the association, and its plan of operation. Comments on this later examination will be found with those under the heading of Fire Insurance Companies.

EASTERN IOWA MUTUAL HAIL ASSOCIATION, DEWITT, IOWA.

This association was organized in 1903 as a mutual assessment hail association under and by virtue of Chapter 5, Title IX of the Code.

At the date of this examination, August 12, 1920, the assets were \$3,278.06 and liabilities were \$327.39. This liability does not include liability for unpaid losses for the reason that no loss record of notices received is kept in the association's office, such notice being forwarded to adjusters as soon as received. The examiners recommended that a suitable claim register be installed and put in use immediately.

A 2% assessment was levied at the close of the 1919 season, which was found to be sufficient as the year was closed with a surplus amounting to \$2,242.65.

FARM PROPERTY MUTUAL INSURANCE ASSOCIATION, DES MOINES, IOWA.

This association was organized in August, 1899, and commenced business in February, 1900, under the provisions of Chapter 5, Title

IX of the Code. The corporate existence was renewed for a period of twenty years from and after August, 1919.

The object of the association is to mutually insure the property of its members and such other property as is authorized by Chapter 5, Title IX of the Code, against loss or damage by fire and lightning, cyclones, tornadoes and windstorms.

At the date of this examination there existed a deficit of \$11,401.97. In commenting on this deficit the examiners call attention to the fact that the association operates on the post mortem basis of assessment. It would be of decided advantage to the association if the assessments were increased to provide for a surplus sufficient to eliminate the borrowing of money and consequent payment of interest.

The treatment of policyholders appears to be liberal and fair.

**FARMERS MUTUAL INSURANCE ASSOCIATION OF THE M. E. CHURCH,
ROCKFORD, IOWA.**

This examination, made as of July 31, 1920, showed the association to have assets of \$5,081.77 and liabilities of \$233.33.

IOWA IMPLEMENT MUTUAL INSURANCE ASSOCIATION, NEVADA, IOWA.

This examination, made as of June 30, 1920, shows a deficit in the amount of \$4,958.59 which the examiners state is accounted for by the additional amount of reserve liability set up in computing upon the 40% basis.

The association conducts its business along sound and economical lines and the conservative loss ratio over the long period of years is indicative of careful underwriting management.

The association was incorporated in January, 1903, and operates under Chapter 5, Title IX of the Code. Assessments are collected in advance.

IOWA MERCANTILE MUTUAL INSURANCE ASSOCIATION, SPENCER, IOWA.

This association was incorporated in 1895 and insures its members on the mutual plan against loss by fire or tornado as provided in Chapter 5, Title IX of the Code.

At the date of this examination, May 31, 1920, a deficit of \$8,079.67 existed. At December 31, 1919, this deficit amounted to \$2,119.65. This condition is due to the fact that the association operates on borrowed money and at the date of this examination the 1920 assessment had not been levied. An assessment of 3% was levied in 1919.
