# Dux

## the smarter case.<sup>™</sup>

Founded in Australia in 1998, STM Goods first made their mark on the world of technology protection with its creation of a backpack that featured an innovative padded cell to safeguard digital gear. Now, two decades later, the company with the initials that correspond with their commitment to creating products that are **"smarter than most"** continues to be at the forefront of device protection. Millions of STM's Dux cases have been deployed worldwide, saving institutions untold millions in device damage and, in the process, becoming a common presence throughout the UK, Scandinavia, Europe and beyond.

## smarter features

### Rugged construction, superior protection

- Exceeds demanding Mil-Spec drop testing
- Helps minimise downtime (fewer devices out for repair)

### Higher residual value on your devices

- At end of lease, gear will be in better condition than in competitors' inferior cases
- Superb value for money (cost of ownership) with structured business support

### Customise, personalise, organise

- Front cover accommodates printing or embossing (great for company logos)
- Transparent back makes barcoding and asset tagging easy

### Outstanding features (may vary by model)

- Choose from a variety of typing and reading configurations
- Instant on/off cover wakes up/turns off the device, saving battery life
- Water resistant polyurethane cover wards off occasional drips or spills

### Unparalleled warranty and customer support

- No wonder millions of Dux have been deployed by institutions worldwide
- Supported globally by ASEs, APRs, and Apple as their number one choice
