## HEAVY BAG HANGING 101: LESSON #1: NO METAL ON METAL

Hanging a heavy bag can be tricky. Remember never to set up your system so you have metal on metal. The D rings are sewn into the straps of the heavy bag. If they break, you might have to replace the whole heavy bag! Remember to always have some non-metal intermediary between your D rings and your hook or carabiner. If you break a sling or nylon strap, it costs much less to replace, and it's much faster too!

- Never set up your system metal on metal
- Use Infinity Sling to connect D-ring and bag spring
- Fast set up, lasts a long time
- Easy to replace

### HEAVY BAG SLING KIT

- No more broken D-rings
- Replace your straps instead of the complete heavy bag
- 2 Slings, 1 carabiner

## FLEXI-CONNECT™ MAT CONNECTION SYSTEM

We are proud to offer you the newest innovation to the sports industry, Flexi-Connect™. This patented & patent-pending technology is an option across all divisions. The Flexi-Connect™ mat eliminates the use and hassle of mat tape. Our patented hook and loop system has revolutionized the mat industry with a hook and loop system that makes your set up time just minutes.

Flexi-Roll mats are manufactured in 6 wide rolls by any length (to the nearest foot), and available in two styles:

### TATAMI STYLE TEXTURED MATS

- Tatami surface is generally reserved for the "stand up" or "traditional gi (uniform)" martial arts. The tatami surface has the traditional look and will offer better traction for stand up arts such as Muay Thai kickboxing, Karate, Taekwondo, Aikido, Judo and many more.
- Size:** 6' wide rolls, specify length to the nearest foot
- Color:** Red, Blue, Green, Black, Gold, Charcoal
- Price:**
