PREFACE

The enclosed genealogical abstracts were copied from microfilmed copies of the Port Byron GLOBE obtained from the Rock Island County, Illinois Historical Society and read on the microfilm readers at the Moline Public Library. I have included all items I felt to be of genealogical value - all vital records, visits from out-of-town relatives, probate abstracts, marriage licenses etc.

The next page contains a geographical listing of towns/communities listed in the text, which I have not always identified in the text as to specific location. In a few cases, I was not able to exactly determine the location of a community.
