

INTENDED USE — The CPANL[™] Series LED surface mount flat luminaire features an internal 120 volt triac dimming driver, color switching technology and ceiling flush mounting kit. This reliable and rigid flat panel is visually comfortable and can be recessed in a lay in ceiling or surface mounted to a hard ceiling with included accessories. The CPANL can be suspended or surface box mounted with accessories sold separately. The CPANL was designed for residential and light commercial applications including retail and offices. **Certain airborne contaminants can diminish the integrity of acrylic and/or polycarbonate**. **Click here for Acrylic-Polycarbonate Compatibility table for suitable uses**.

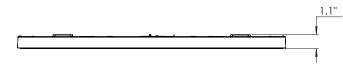

CONSTRUCTION — Built to last with an aluminum frame for strength and durability, the seamless frame prevents light leak in the corners. The satin white lens provides excellent shielding and fully luminous appearance. CPANL's low-profile design provides increased installation flexibility especially in restricted plenum spaces. The back plate includes integral T-bar clips for installation into T-grid ceilings.

ELECTRICAL — Long-life LEDs, coupled with a high-efficiency driver, provide superior illumination for extended service life. 70% LED lumen maintenance at 60,000 hours (L70/60,000). The line voltage dimming driver, dims to 10% without the need to run low voltage wiring. Compatible with most standard incandescent dimers, see list of approved dimmers on page 2.

LISTINGS — CSA certified to meet US and Canadian standards. Intended for indoor use only. Product is not to be stored in non-climate controlled spaces. Damp location listed. IC rated. IP5X rated. Rated and certified to meet NSF Splash Zone 2.

WARRANTY — 5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/support/warranty/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

Emergency Battery Delivered Lumens

Use the formula below to determine the delivered lumens in emergency mode

Delivered Lumens = 1.25 x P x LPW

P = Output power of emergency driver (10W for PS1055)

LPW = Lumen per watt rating of the luminaire.

NOTES

1. See lota <u>ILBLP CP10 HE SE A</u> battery spec sheet here. Test switch must be remote mounted or installed in an adjacent ceiling tile.
