Susan Kahle
Acquisition Management Specialist
Department of Administration Materials Management Division

Dear Ms. Kahle,

On behalf of NetApp, Inc. (NetApp), we would like to thank you for inviting us to respond to the WSCA-NASPO Request for Proposal for Computer Equipment. NetApp, a data storage manufacturer headquartered in Sunnyvale, CA, is confident we can provide solutions for Band 5: Storage to all Participating States and Participating Entities through an awarded Master Price Agreement. NetApp has had a very successful track record on the current WSCA/NASPO contract for Computer Equipment, Peripherals, and Related Services growing sales year over year. The current master agreement (B27170) through which NetApp products and services are sold has generated sales in excess of \$105 million since the beginning of the contract term.

NetApp creates innovative storage and data management solutions that help accelerate business breakthroughs and deliver outstanding cost efficiency. Our dedication to the principles of simplicity, innovation, and customer success has made us one of the fastest-growing storage and data management providers today.

Over the course of the evaluation of the NetApp submission, the following persons are being identified as authorized points of contact.

Authorized to Contractually Obligate	Authorized to Negotiate
Mark Weber Sr. VP of Sales, NetApp, Inc. & President of NetApp US Public Sector, Inc. Office: 703.918.7200 E-mail: mark.weber@netapp.com	Amalie Weber Senior Corporate Counsel Direct: 703.918.7245 E-mail: amalie.weber@netapp.com
Authorized Delegate for Mark Weber	Person to be Contacted for Clarification
Tom Mihich Sr. Director of Sales Operations Direct: 703.918.7342 E-mail: thomas.mihich@netapp.com	Denise Orosco Manager, Sales Operations Direct: 530.644.1467 E-mail: denise.orosco@netapp.com

Customers around the world choose NetApp solutions for our “go beyond” approach and broad portfolio of solutions for business applications, storage for virtual servers, disk-to-disk backup, and more. Our solutions provide nonstop availability of critical business data and simplify business processes so you can deploy new capabilities with confidence and faster than ever before.

Thank you again for presenting NetApp with the opportunity to provide you with more information about our products, technologies and services. NetApp offers the State of Minnesota and any future participating States and Entities unique and comprehensive solutions that we are confident will exceed your business, financial and operational expectations with the lowest total cost of ownership. Please feel free to contact me directly with any questions you may have.

Best Regards,

A handwritten signature in black ink, appearing to read 'M. Weber', with a long horizontal stroke extending to the right.

Mark Weber

Title: MN WSCA-NASPO Computer Equipment (Desktops, Laptops, Tablets, Servers, Storage and Ruggedized Devices including Related Peripherals & Services)

SCOPE OF ADDENDUM

The purpose of this addendum is to:

1. **PROVIDE VERSION 4 OF BAND 4: SERVER PRICING WORKBOOK.** Responders are to use the revised information to submit pricing for Band 4. Revision includes: The Processor in Base Equipment TAB Specs 2, cell D12 has been changed to "Four Xeon E5-4640 series (2.4Ghz, 8-core)". This processor supports the minimum requirement of 4 sockets.
Click here to download Version 4 of Band 4: Server Pricing Workbook:
<http://www.mmd.admin.state.mn.us/process/admin/spreadsheets/19512Add8Band4ServerPriceV4.xls>
2. **CLARIFICATION ON WARRANTY PRICING:** It is understood that responders may have varying base warranties. For example, in Band 3 – Tablet Price Workbook, Services Tab – a warranty upgrade is listed for accidental damage. If a responder includes accidental damage in their base warranty they should indicate this on the pricing workbook in their offer.
3. **PROVIDE VERSION 3 OF BAND 5: STORAGE PRICING WORKBOOK.** Responders are to use the revised information to submit pricing for Band 5. Revision includes: Added Line 20 to the equipment pricing tab (ST20-1). To clarify: Responders are to provide capacity and drives based on the upgraded configuration to Spec 1- 12TB total raw and Spec 2 - 16TB raw.
Click here to download Version 3 of Band 5: Storage Pricing Workbook:

(For Agency Use Only) Vendor # _____
Contract Period: _____

State Of Minnesota – Affirmative Action Certification

If your response to this solicitation is or could be in excess of \$100,000, complete the information requested below to determine whether you are subject to the Minnesota Human Rights Act (Minnesota Statutes 363A.36) certification requirement, and to provide documentation of compliance if necessary. It is your sole responsibility to provide this information and—if required—to apply for Human Rights certification prior to the due date of the bid or proposal and to obtain Human Rights certification prior to the execution of the contract. The State of Minnesota is under no obligation to delay proceeding with a contract until a company receives Human Rights certification

BOX A – For companies which have employed more than 40 full-time employees within Minnesota on any single working day during the previous 12 months. All other companies proceed to BOX B.

Your response will be rejected unless your business:

has a current Certificate of Compliance issued by the Minnesota Department of Human Rights (MDHR)

—or—

has submitted an affirmative action plan to the MDHR, which the Department received prior to the date the responses are due.

Check one of the following statements if you have employed more than 40 full-time employees in Minnesota on any single working day during the previous 12 months:

☒ We have a current Certificate of Compliance issued by the MDHR. Proceed to **BOX C**. Include a copy of your certificate with your response.

☐ We do not have a current Certificate of Compliance. However, we submitted an Affirmative Action Plan to the MDHR for approval, which the Department received on _____ (date). Proceed to **BOX C**.

☐ We do not have a Certificate of Compliance, nor has the MDHR received an Affirmative Action Plan from our company. We acknowledge that our response will be rejected. Proceed to **BOX C**. Contact the Minnesota Department of Human Rights for assistance. (See below for contact information.)

Please note: Certificates of Compliance must be issued by the Minnesota Department of Human Rights. Affirmative Action Plans approved by the Federal government, a county, or a municipality must still be received, reviewed, and approved by the Minnesota Department of Human Rights before a certificate can be issued.

BOX B – For those companies not described in BOX A

Check below.

☐ We have not employed more than 40 full-time employees on any single working day in Minnesota within the previous 12 months. Proceed to **BOX C**.

BOX C – For all companies

By signing this statement, you certify that the information provided is accurate and that you are authorized to sign on behalf of the responder. You also certify that you are in compliance with federal affirmative action requirements that may apply to your company. (These requirements are generally triggered only by participating as a prime or subcontractor on federal projects or contracts. Contractors are alerted to these requirements by the federal government.)

HUMAN RIGHTS

January 11, 2013

NETWORK APPLIANCE, INC.
ATTN: Jaime Alfaro
495 E JAVA DR
SUNNYVALE, CA 94089

Your organization's affirmative action plan has been approved by the Minnesota Department of Human Rights. The department's review of your equal employment opportunity policies and practices indicates compliance with Minnesota Statutes, Sec. 363A.36.

The Certificate of Compliance is enclosed. This certification is subject to revocation or suspension prior to its expiration if the department issues a finding of noncompliance or if your organization fails to make a good faith effort to implement its affirmative action plan.

Also enclosed is an Annual Report form to be completed and submitted annually during the certification period whether a state contract has been awarded to you or not. **You must submit reports as required and promptly notify us of any address or status changes.**

If you have any questions, please contact Compliance Services at 651-539-1095 or compliance.mdhr@state.mn.us.

Sincerely,

Kevin M. Lindsey, Commissioner

3. Trade Secret Information Form

This page intentionally left blank.

Trade Secret Information Form

Under Minnesota's Data Practices Act, data submitted in a response becomes public upon completion of the evaluation process and negotiations are complete, or upon completion of the selection process for a solicitation. However, "trade secret information" as defined in Minn. Stat. § 13.37, subd. 1(b), cannot be disclosed to the public. While the majority of data submitted in a response is not trade secret information, the following form is needed to assist the State in making appropriate determinations about the release of data provided in a response.

All responders must select one of the following boxes:

- ☐ My response **does not** contain "trade secret information." I understand that my entire response will become public record in accordance with Minn. Stat. § 13.591.
- ☒ My response **does** contain trade secret information because it contains data that:
1. is a formula, pattern, compilation, program, device, method, technique or process; **AND**
 2. is the subject of efforts by myself or my organization that are reasonable under the circumstances to maintain its secrecy; **AND**
 3. derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.

Complete only if trade secret status is asserted:

I am claiming that aspects of my response contain trade secret information. I have completed the following:

- ☒ I have clearly marked and placed any data I claim to be "trade secret information" in a separate envelope **AND** I am attaching an explanation justifying the trade secret designation.

Please note that failure to attach an explanation may result in a determination that the data does not meet the statutory trade secret definition. All data that does not meet the definition of trade secret as defined by Minn.Stat. § 13.591subd.1(b) will become public in accordance with Minn. Stat. § 13.591. The State reserves its right to make its own determination of Responder's Trade Secret Materials.

By submitting this response, responder agrees to indemnify and hold the State, its agents and employees, harmless from any claims or causes of action relating to the State's withholding of data based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by the State in defending such an action.

ONLY information properly identified utilizing this form will be eligible for Trade Secret designation. This form must accompany any documentation that is being submitted for Trade Secret. This includes but is not limited to any material that may be submitted as part of the solicitation response, or in relation to a subsequent Master Agreement. Information labeled "confidential", "proprietary", or labeled with similar tags with regard to limiting the State's disclosure will NOT be eligible for trade secret designation unless the form provided in the solicitation is properly completed and submitted as a cover page to the information, and it meets the statutory definition of a trade secret. By submitting a response you agree that the information submitted that does not follow the trade secret process defined herein and does not meet the statutory definition of trade secret may be released by the State without prior notification to the responder and/or the Contract Vendor.

STATE OF MINNESOTA RESIDENT VENDOR FORM

In accordance with Laws of Minnesota 2013, Chapter 142, Article 3, Section 16, amending Minn. Stat. § 16C.02, subd. 13, a "Resident Vendor" means a person, firm, or corporation that:

- (1) is authorized to conduct business in the state of Minnesota on the date a solicitation for a contract is first advertised or announced. It includes a foreign corporation duly authorized to engage in business in Minnesota;
- (2) has paid unemployment taxes or income taxes in this state during the 12 calendar months immediately preceding submission of the bid or proposal for which any preference is sought;
- (3) has a business address in the state; and
- (4) has affirmatively claimed that status in the bid or proposal submission.

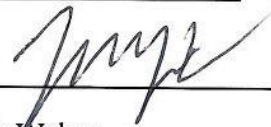

To receive recognition as a Minnesota Resident Vendor ("Resident Vendor"), your company must meet each element of the statutory definition above by the solicitation opening date and time. If you wish to affirmatively claim Resident Vendor status, you should do so by submitting this form with your bid or proposal.

Resident Vendor status may be considered for purposes of resolving tied low bids or the application of a reciprocal preference.

I HEREBY CERTIFY THAT THE COMPANY LISTED BELOW:

1. Is authorized to conduct business in the State of Minnesota on the date a solicitation for a contract is first advertised or announced. *(This includes a foreign corporation duly authorized to engage in business in Minnesota.)*
☒ Yes ___ No (must check yes or no)
2. Has paid unemployment taxes or income taxes in the State of Minnesota during the 12 calendar months immediately preceding submission of the bid or proposal for which any preference is sought.
☒ Yes ___ No (must check yes or no)
3. Has a business address in the State of Minnesota.
☒ Yes ___ No (must check yes or no)
4. Agrees to submit documentation, if requested, as part of the bid or proposal process, to verify compliance with the above statutory requirements.
☒ Yes ___ No (must check yes or no)

BY SIGNING BELOW, you are certifying your compliance with the requirements set forth herein and claiming Resident Vendor status in your bid or proposal submission.

**STATE OF MINNESOTA
VETERAN-OWNED PREFERENCE FORM**

In accordance with Minn. Stat. § 16C.16, subd. 6a, (a) Except when mandated by the federal government as a condition of receiving federal funds, the commissioner shall award up to a six percent preference in the amount bid on state procurement to **certified small businesses** that are **majority-owned and operated by**:

(1) recently separated veterans who have served in active military service, at any time on or after September 11, 2001, and who have been discharged under honorable conditions from active service, as indicated by the person's United States Department of Defense form DD-214 or by the commissioner of veterans affairs;

(2) veterans with service-connected disabilities, as determined at any time by the United States Department of Veterans Affairs; or

(3) any other veteran-owned small businesses certified under section 16C.19, paragraph (d).

In accordance with Minn. Stat. § 16C.19 (d), a veteran-owned small business, the principal place of business of which is in Minnesota, is certified if it has been verified by the United States Department of Veterans Affairs as being either a veteran-owned small business or a service disabled veteran-owned small business, in accordance with Public Law 109-461 and Code of Federal Regulations, title 38, part 74.

To receive a preference the veteran-owned small business must meet the statutory requirements above by the solicitation opening date and time. The preference is applied only to the first \$500,000 of the response.

If you are claiming the veteran-owned preference, **attach documentation, sign and return this form with your response to the solicitation.** Only eligible veteran-owned small businesses that meet the statutory requirements and provide adequate documentation will be given the preference.

I HEREBY CERTIFY THAT THE FIRM LISTED BELOW:

My firm is a certified small business and it is majority-owned and operated by an eligible person as defined by Minn. Stat. § 16C.16, subd. 6a.

☐ Yes ☒ No (must check yes or no) **State the type of documentation attached:** _____

The Contract Vendor grants the Purchasing Entity a <u>license, set forth in Contract Vendor's End User License Agreement, to perpetual, irrevocable, non-exclusive, royalty free license for</u> Contract Vendor's pre-existing intellectual property that is contained in the products, materials, equipment or services that are purchased through this Master Agreement.</p> <p><u>The Software, Documentation and all intellectual property rights contained therein (collectively, the "Contract Vendor Materials"), are and shall remain the exclusive property of Contract Vendor or its licensors. All rights in and to the Contract Vendor Materials not expressly granted to Purchasing Entity in this Agreement are reserved by Contract Vendor. No title to the Software transfers to Purchasing Entity under this Agreement. The Software and Documentation is protected by intellectual property laws and treaties worldwide, and contains trade secrets, in which Contract Vendor and its licensors reserve and retain all rights not expressly granted to Purchasing Entity. No right, title or interest to any trademark, service mark, logo or trade name, of Contract Vendor or its licensors is granted to Purchasing Entity.</u></p>
--	--	--

<p>Section 2.B.32</p>	<p>WARRANTY. The warranty provided must be the manufacturers written warranty tied to the product at the time of purchase and must include the following: (a) the Product performs according to the specifications, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is designed and manufactured in a commercially reasonable manner, and (d) the Product is free of defects.</p> <p>For third party products sold by the Contract Vendor, the Contract Vendor will assign the manufacturer or publisher's warranty and maintenance. The Contract Vendor will provide warranty and maintenance call numbers and assist the customer in engaging the manufacturer on warranty and maintenance issues.</p> <p>Upon breach of the warranty, the Contract Vendor will repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contract Vendor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contract Vendor will refund the full amount of any payments that have been made. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or so ordered by the court.</p>	<p>NetApp provides warranties for NetApp products in accordance with industry standards for COTS products. Under NetApp's standard warranty, customers are afforded 3 years for Hardware and 3 months for Software to return the products for repair or replacement if they fail to perform in accordance with NetApp's specifications. If NetApp is unable to repair or replace the defective products, NetApp will refund the purchase price.</p> <p><i>There is a broad spectrum of storage products which have different features. NetApp's warranty assures the purchaser that NetApp's products will conform to the product's specifications, not a customer's expectations based on other storage products. The pricing of NetApp's products is based on this warranty. There is not a separate remedy if the product does not match the functionality of other storage products that the customer did not select ("ordinary purpose" or "defects") or was manufactured in a different way from other storage products ("manufactured in a commercially reasonable manner").</i></p> <p>WARRANTY. The warranty provided must be the manufacturers written warranty tied to the product at the time of purchase and must include the following: (a) the Product performs according to the Contract Vendor's specifications, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is designed and manufactured in a commercially reasonable manner, and (d) the Product is free of defects.</p> <p>For third party products sold by the Contract Vendor, the Contract Vendor will assign the manufacturer or publisher's</p>
-----------------------	--	--

		<p>warranty and maintenance. The Contract Vendor will provide warranty and maintenance call numbers and assist the customer in engaging the manufacturer on warranty and maintenance issues.</p> <p>Upon breach of the warranty, the Contract Vendor will <u>at its sole discretion</u> repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contract Vendor. Alternatively If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contract Vendor will refund the full amount of any payments that have been made <u>for the nonconforming Product</u>. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or so ordered by the court.</p> <p><u>NetApp's Standard Warranty:</u></p> <p><u>Hardware Warranty. NetApp warrants for a period of three (3) years from the date of Hardware Delivery (unless otherwise specified in the applicable Documentation) ("Hardware Warranty Period") that the Hardware will materially conform to NetApp's Documentation in effect on the date of Hardware Delivery. In the event of any material nonconformity in the Hardware during the Hardware Warranty Period, NetApp will, at its sole discretion and expense, repair or replace the Hardware, or refund the purchase price paid by Customer for the non-conforming Hardware. Replacement parts will be warranted for the remainder of the Hardware Warranty Period in effect on the original Hardware purchased, unless otherwise mandated by applicable law.</u></p>
--	--	---

Software Warranty. NetApp warrants to Customer that for a period of ninety (90) days from the date of Software Delivery, or such other minimum periods under applicable laws, for the initially-shipped version of such Software (the “Software Warranty Period”), that (a) the Software will materially conform to the then-current Documentation in effect on the date of Software Delivery; and (b) the media containing the Software will be free from physical defects. NetApp does not warrant that Customer’s use of the Software will be error-free or uninterrupted. In the event of any material defect in the Software during the Software Warranty Period, NetApp will, at its sole discretion and expense, repair or replace the Software, or refund the purchase price paid by Customer for the nonconforming Software. This warranty covers only material nonconformities in the Software that are reproducible and verifiable and does not cover software, other items, or any services provided by persons other than NetApp or a NetApp authorized distributor, reseller or partner.

Limitations. NetApp will not be liable under this warranty for claims arising from Customer’s, Customer subcontractor’s or any unauthorized third person’s misuse, neglect, improper installation or testing, attempts to repair, or any other cause beyond the range of the intended use. The Hardware warranty will become void if a Hardware component is installed as an add-on to or replacement for the original Hardware, without NetApp’s prior written approval. The Software warranty will be void if Customer or any third parties misuse, neglect, improperly install or test, attempt to repair or modify (except as authorized by NetApp in writing), or use the Software beyond the range of the intended use.

		<u>Exclusive Warranties. TO THE EXTENT PERMITTED BY APPLICABLE LAWS, THE FOREGOING WARRANTIES AND REMEDIES ARE EXCLUSIVE AND NO OTHER WARRANTY OR REMEDY, WHETHER WRITTEN OR ORAL, IS EXPRESSED OR IMPLIED. NETAPP SPECIFICALLY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.</u>
Section 2.C.14	<p>GOVERNMENT DATA PRACTICES. The Contract Vendor and the Lead State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (and where applicable, if the Lead State contracting party is part of the judicial branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the Lead State to the Contract Vendor and all data provided to the Lead State by the Contract Vendor. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contract Vendor in accordance with the Master Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).</p> <p>In the event the Contract Vendor receives a request to release the data referred to in this article, the Contract Vendor must immediately notify the Lead State. The Lead State will give the Contract Vendor instructions</p>	<p>GOVERNMENT DATA PRACTICES. The Contract Vendor and the Lead State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (and where applicable, if the Lead State contracting party is part of the judicial branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the Lead State to the Contract Vendor and all data provided to the Lead State by the Contract Vendor. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contract Vendor in accordance with the Master Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).</p> <p>In the event the Contract Vendor receives a request to release the data referred to in this article, the Contract Vendor must immediately notify the Lead State. The Lead State will give the Contract Vendor instructions concerning the release of the data to the requesting party before the data is released. The civil remedies of Minn. Stat. § 13.08,</p>

	<p>concerning the release of the data to the requesting party before the data is released. The civil remedies of Minn. VAPT Accessibility Form

Web Content Accessibility Guidelines 2.0 level AA

The requested WCAG VPAT applies to the responder's website to be offered under the Contract. For products offered, VPATS are only to be provided upon request by the participating entity. It is strongly recommended Technical Staff who are trained in Accessibility complete this form.

The comments portion must be filled in to further define how accessibility is or is not met. The quality of the comments impacts the reviewers' understanding of the accessibility of your product/service. NOTE: MN only adopted the standards that are level A and level AA. This list includes level AAA standards, which are optional and highlighted in yellow.

Comments are not required for level AAA (yellow cells).

Assessor's notes:

1. Analysis scope is defined as netapp.com pages inside the WSCA directory and related documentation linked therein. This is detailed in the addendum at the end of the VPAT Accessibility Form.
2. Assessment of the index page (<http://www.netapp.com/us/how-to-buy/wscal/>) is of a planned future state of the page. Current state is also assessed in summary in the addendum.

Principle 1: Perceivable – information and user interface components must be presentable to users in ways they can perceive.

Standard	Description	Apply Yes/No	Meets Yes/No	Comments (mandatory)
<i>Guideline 1.1 Text Alternatives: Provide text alternatives for any non-text content so that it can be changed into other forms people need, such as large print, braille, speech, symbols or simpler language.</i>				
1.1.1	<p>Non-text Content: All non-text content that is presented to the user has a text alternative that serves the equivalent purpose, except for the situations listed below (Level A).</p> <ul style="list-style-type: none"> • Controls, Input: If non-text content is a control or accepts user input, then it has a name that describes its purpose. (Refer to Guideline 4.1 for additional requirements for controls and content that accepts user input.) • Time-Based Media: If non-text content is time-based media, then text alternatives at least provide descriptive identification of the non-text content. (Refer to Guideline 1.2 for the additional requirements for media.) • Test: If non-text content is a test or exercise that would be invalid if presented in text, then text alternatives at least provide descriptive identification of the non-text content. • Sensory: If non-text content is primarily intended to create a specific sensory experience, then text alternatives at least provide descriptive identification of the non-text content. • CAPTCHA: If the purpose of non-text content is to confirm that content is being accessed by a person rather than a computer, then text alternatives that identify and describe the purpose of the non-text content are provided, and alternative forms of CAPTCHA using output modes for different types of sensory perception are provided to accommodate different disabilities. • Decorative, Formatting, Invisible: If non-text content is pure decoration, is used only for visual formatting, or is not presented to users, then it is implemented in a way that it can be ignored by assistive technology. 	Yes	Yes	Nearly all non-text items are consistent with this guideline, including the appropriate use of text alternatives where appropriate. One item is out of compliance in the footer, as the TRUSTe logo is missing alt and title attribute.

VPAT

Web Content Accessibility Guidelines 2.0 level AA

<i>Guideline 1.2 Time-based Media: Provide alternatives for time-based media.</i>				
1.2.1	<p>Audio-only and Video-only (Prerecorded): For prerecorded audio-only and prerecorded video-only media, the following are true, except when the audio or video is a media alternative for text and is clearly labeled as such (Level A):</p> <ul style="list-style-type: none"> • Prerecorded Audio-only: An alternative for time-based media is provided that presents equivalent information for prerecorded audio-only content. • Prerecorded Video-only: Either an alternative for time-based media or an audio track is provided that presents equivalent information for prerecorded video-only content. 	No	n/a	This site section does not contain any audio or video assets.
1.2.2	Captions (Prerecorded): Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such. (Level A)	No	n/a	This site section does not contain any audio or video assets.
1.2.3	Audio Description or Media Alternative (Prerecorded): An alternative for time-based media or audio description of the prerecorded video content is provided for synchronized media, except when the media is a media alternative for text and is clearly labeled as such. (Level A)	No	n/a	This site section does not contain any audio or video assets.
1.2.4	Captions (Live): Captions are provided for all live audio content in synchronized media. (Level AA)	No	n/a	This site section does not contain any audio or video assets.
1.2.5	Audio Description (Prerecorded): Audio description is provided for all prerecorded video content in synchronized media. (Level AA)	No	n/a	This site section does not contain any audio or video assets.
1.2.6	Sign Language (Prerecorded): Sign language interpretation is provided for all prerecorded audio content in synchronized media. (Level AAA)	No	n/a	
1.2.7	Extended Audio Description (Prerecorded): Where pauses in foreground audio are insufficient to allow audio descriptions to convey the sense of the video, extended audio description is provided for all prerecorded video content in synchronized media. (Level AAA)	No	n/a	
1.2.8	Media Alternative (Prerecorded): An alternative for time-based media is provided for all prerecorded synchronized media and for all prerecorded video-only media. (Level AAA)	No	n/a	
1.2.9	Audio-only (Live): An alternative for time-based media that presents equivalent information for live audio-only content is provided. (Level AAA)	No	n/a	

VPAT

Web Content Accessibility Guidelines 2.0 level AA

<i>Guideline 1.3 Adaptable: Create content that can be presented in different ways (for example simpler layout) without losing information or structure.</i>				
1.3.1	Info and Relationships: Information, structure, and relationships conveyed through presentation can be programmatically determined or are available in text. (Level A)	Yes	Yes	Information architecture of the pages is consistent across the site section and complies with this guideline.
1.3.2	Meaningful Sequence: When the sequence in which content is presented affects its meaning, a correct reading sequence can be programmatically determined. (Level A)	Yes	Yes	Content is displayed and coded in a meaningful sequence with context-appropriate divisions consistent with the intent of this guideline.
1.3.3	Sensory Characteristics: Instructions provided for understanding and operating content do not rely solely on sensory characteristics of components such as shape, size, visual location, orientation, or sound. (Level A)	Yes	Yes	The pages are generally text-heavy and are largely in compliance of this guideline. No-CSS presentation of the pages in scope is navigable and operable, consistent with this guideline.
<i>Guideline 1.4 Distinguishable: Make it easier for users to see and hear content including separating foreground from background.</i>				
1.4.1	Use of Color: Color is not used as the only visual means of conveying information, indicating an action, prompting a response, or distinguishing a visual element. (Level A)	Yes	Yes	Color is not used to convey meaning solely on these pages.

1.4.2	Audio Control: If any audio on a Web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level. (Level A)	No	n/a	This site section does not contain any audio or video assets.
1.4.3	<p>Contrast (Minimum): The visual presentation of text and images of text has a contrast ratio of at least 4.5:1, except for the following: (Level AA)</p> <ul style="list-style-type: none"> • Large Text: Large-scale text and images of large-scale text have a contrast ratio of at least 3:1; • Incidental: Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, or that are part of a picture that contains significant other visual content, have no contrast requirement. • Logotypes: Text that is part of a logo or brand name has no minimum contrast requirement. 	Yes	Yes	Text is generally high-contrast and legible in context of the (largely white) background. This is consistent with the guideline.
1.4.4	Resize text: Except for captions and images of text, text can be resized without assistive technology up to 200 percent without loss of content or functionality. (Level AA)	Yes	Yes	Text is rendered in relative size, meaning that resizing does not impact readability or functionality.
1.4.5	<p>Images of Text: If the technologies being used can achieve the visual presentation, text is used to convey information rather than images of text except for the following: (Level AA)</p> <ul style="list-style-type: none"> • Customizable: The image of text can be visually customized to the user's requirements; • Essential: A particular presentation of text is essential to the information being conveyed. 	Yes	Yes	The only images of text in this site section are inside logo elements. Except where noted before, these images do contain appropriate alternate text.
1.4.6	<p>Contrast (Enhanced): The visual presentation of text and images of text has a contrast ratio of at least 7:1, except for the following: (Level AAA)</p> <ul style="list-style-type: none"> • Large Text: Large-scale text and images of large-scale text have a contrast ratio of at least 4.5:1; • Incidental: Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, or that are part of a picture that contains significant other visual content, have no contrast requirement. • Logotypes: Text that is part of a logo or brand name has no minimum contrast requirement. 	Yes	No	

1.4.7	<p>Low or No Background Audio: For prerecorded audio-only content that (1) contains primarily speech in the foreground, (2) is not an audio CAPTCHA or audio logo, and (3) is not vocalization intended to be primarily musical expression such as singing or rapping, at least one of the following is true: (Level AAA)</p> <ul style="list-style-type: none"> • No Background: The audio does not contain background sounds. • Turn Off: The background sounds can be turned off. • 20 dB: The background sounds are at least 20 decibels lower than the foreground speech content, with the exception of occasional sounds that last for only one or two seconds. 	No	n/a	
1.4.8	<p>Visual Presentation: For the visual presentation of blocks of text, a mechanism is available to achieve the following: (Level AAA)</p> <ul style="list-style-type: none"> • Foreground and background colors can be selected by the user. • Width is no more than 80 characters or glyphs (40 if CJK). • Text is not justified (aligned to both the left and the right margins). • Line spacing (leading) is at least space-and-a-half within paragraphs, and paragraph spacing is at least 1.5 times larger than the line spacing. • Text can be resized without assistive technology up to 200 percent in a way that does not require the user to scroll horizontally to read a line of text on a full-screen window. 	Yes	No	
1.4.9	<p>Images of Text (No Exception): Images of text are only used for pure decoration or where a particular presentation of text is essential to the information being conveyed. (Level AAA)</p>	Yes	Yes	

VPAT

Web Content Accessibility Guidelines 2.0 level AA

Principle 2: Operable - User interface components and navigation must be operable.

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 2.1 Keyboard Accessible: Make all functionality available from a keyboard.</i>				
2.1.1	Keyboard: All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes, except where the underlying function requires input that depends on the path of the user's movement and not just the endpoints. (Level A)	Yes	Yes	Keyboard navigation is functional as expected, including a logical and consistent tab-order. This is in compliance with the guideline.
2.1.2	No Keyboard Trap: If keyboard focus can be moved to a component of the page using a keyboard interface, then focus can be moved away from that component using only a keyboard interface, and, if it requires more than unmodified arrow or tab keys or other standard exit methods, the user is advised of the method for moving focus away. (Level A)	Yes	Yes	No keyboard traps discovered in the course of this assessment. Focus is functioning as expected.
2.1.3	Keyboard (No Exception): All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes. (Level AAA)	Yes	Yes	
<i>Guideline 2.2 Enough Time: Provide users enough time to read and use content.</i>				
2.2.1	Timing Adjustable: For each time limit that is set by the content, at least one of the following is true: (Level A) <ul style="list-style-type: none"> • Turn off: The user is allowed to turn off the time limit before encountering it; or • Adjust: The user is allowed to adjust the time limit before encountering it over a wide range that is at least ten times the length of the default setting; or • Extend: The user is warned before time expires and given at least 20 seconds to extend the time limit with a simple action (for example, "press the space bar"), and the user is allowed to extend the time limit at least ten times; or • Real-time Exception: The time limit is a required part of a real-time event (for example, an auction), and no alternative to the time limit is possible; or • Essential Exception: The time limit is essential and extending it would invalidate the activity; or • 20 Hour Exception: The time limit is longer than 20 hours. 	No	n/a	No time-limited interaction found on these pages.

2.2.2	Pause, Stop, Hide: For moving, blinking, scrolling, or auto-updating information, all of the following are true: (Level A) <ul style="list-style-type: none"> Moving, blinking, scrolling: For any moving, blinking or scrolling information that (1) starts automatically, (2) lasts more than five seconds, and (3) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it unless the movement, blinking, or scrolling is part of an activity where it is essential; and Auto-updating: For any auto-updating information that (1) starts automatically and (2) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it or to control the frequency of the update unless the auto-updating is part of an activity where it is essential. 	No	n/a	No time-limited interaction found on these pages.
2.2.3	No Timing: Timing is not an essential part of the event or activity presented by the content, except for non-interactive synchronized media and real-time events. (Level AAA)	No	n/a	
2.2.4	Interruptions: Interruptions can be postponed or suppressed by the user, except interruptions involving an emergency. (Level AAA)	No	n/a	
2.2.5	Interruptions: Interruptions can be postponed or suppressed by the user, except interruptions involving an emergency. (Level AAA)	No	n/a	
<i>Guideline 2.3 Seizures: Do not design content in a way that is known to cause seizures.</i>				
2.3.1	Three Flashes or Below Threshold: Web pages do not contain anything that flashes more than three times in any one second period, or the flash is below the general flash and red flash thresholds. (Level A)	Yes	Yes	No elements on any of the pages in scope have any "flashing" behavior rendering.
2.3.2	Three Flashes: Web pages do not contain anything that flashes more than three times in any one second period. (Level AAA)	Yes	Yes	
<i>Guideline 2.4 Navigable: Provide ways to help users navigate, find content, and determine where they are.</i>				
2.4.1	Bypass Blocks: A mechanism is available to bypass blocks of content that are repeated on multiple Web pages. (Level A)	Yes	Yes	Skip navigation element in place on all pages, coded in best practice as " <code><div class='visually Hidden' id='skipNav'></code> <code>S</code> <code>kip</code> <code>navigation</code> <code></div></code> "
2.4.2	Page Titled: Web pages have titles that describe topic or purpose. (Level A)	Yes	Yes	Page titles are descriptive and appropriate.

2.4.3	Focus Order: If a Web page can be navigated sequentially and the navigation sequences affect meaning or operation, focusable components receive focus in an order that preserves meaning and operability. (Level A)	Yes	Yes	Focus is consistent with the content structure and functional elements on each page in scope.
2.4.4	Link Purpose (In Context): The purpose of each link can be determined from the link text alone or from the link text together with its programmatically determined link context, except where the purpose of the link would be ambiguous to users in general. (Level A)	Yes	No	Most links are consistent with this guideline on the pages in scope. There are a few exceptions, including a link on the index page with text "here" and a global link to the country selector module with text "Change". These should be made more descriptive to improve access to users employing assistive technologies.
2.4.5	Multiple Ways: More than one way is available to locate a Web page within a set of Web pages except where the Web Page is the result of, or a step in, a process. (Level AA)	Yes	Yes	Pages are available in several ways through search, following internal link pathing, global site search, and the site map.
2.4.6	Headings and Labels: Headings and labels describe topic or purpose. (Level AA)	Yes	Yes	Headings and labels on the pages in scope are consistent with this guideline, conveying the topic or purpose in context.

2.4.7	Focus Visible: Any keyboard operable user interface has a mode of operation where the keyboard focus indicator is visible. (Level AA)	Yes	Yes	Keyboard navigation does consistently display focus in compliance with this guideline.
2.4.8	Location: Information about the user's location within a set of Web pages is available. (Level AAA)	Yes	Yes	
2.4.9	Link Purpose (Link Only): A mechanism is available to allow the purpose of each link to be identified from link text alone, except where the purpose of the link would be ambiguous to users in general. (Level AAA)	Yes	No	
2.4.10	Section Headings: Section headings are used to organize the content. (Level AAA)	Yes	Yes	

Principle 3: Understandable - Information and the operation of user interface must be understandable.

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 3.1 Readable: Make text content readable and understandable.</i>				
3.1.1	Language of Page: The default human language of each Web page can be programmatically determined. (Level A)	Yes	Yes	Metadata and rendered information on each page indicates language and region to the user, consistent with this guideline.
3.1.2	Language of Parts: The human language of each passage or phrase in the content can be programmatically determined except for proper names, technical terms, words of indeterminate language, and words or phrases that have become part of the vernacular of the immediately surrounding text. (Level AA)	Yes	Yes	The language does comply with this guideline. Except for trademarked terms, proper names, and technical terms, the language is natural and can be parsed.
3.1.3	Unusual Words: A mechanism is available for identifying specific definitions of words or phrases used in an unusual or restricted way, including idioms and jargon. (Level AAA)	No	No	
3.1.4	Abbreviations: A mechanism for identifying the expanded form or meaning of abbreviations is available. (Level AAA)	No	No	

3.1.5	Reading Level: When text requires reading ability more advanced than the lower secondary education level after removal of proper names and titles, supplemental content, or a version that does not require reading ability more advanced than the lower secondary education level, is available. (Level AAA)	No	No	
3.1.6	Pronunciation: A mechanism is available for identifying specific pronunciation of words where meaning of the words, in context, is ambiguous without knowing the pronunciation. (Level AAA)	No	No	
<i>Guideline 3.2 Predictable: Make Web pages appear and operate in predictable ways.</i>				
3.2.1	On Focus: When any component receives focus, it does not initiate a change of context. (Level A)	Yes	Yes	On Focus functionality adheres to best practices and does not change context or reposition elements when active.
3.2.2	On Input: Changing the setting of any user interface component does not automatically cause a change of context unless the user has been advised of the behavior before using the component. (Level A)	Yes	Yes	On Input functionality uses best practices and is consistent with this guideline. Changes to context due to interaction are web-normative.
3.2.3	Consistent Navigation: Navigational mechanisms that are repeated on multiple Web pages within a set of Web pages occur in the same relative order each time they are repeated, unless a change is initiated by the user. (Level AA)	Yes	Yes	Navigation is consistent through the pages in scope. Both header, footer, and utility navigation (search, country change, etc.) are included components, consistent across the site and meet the compliance for this guideline.

3.2.4	Consistent Identification: Components that have the same functionality within a set of Web pages are identified consistently. (Level AA)	Yes	Yes	Common elements across the pages in scope are contextually placed in a consistent methodology to ensure easy and efficient identification by the user. E.g., each state's individual page is consistent with the others in architecture and content items are positioned where expected.
3.2.5	Change on Request: Changes of context are initiated only by user request or a mechanism is available to turn off such changes. (Level AAA)	Yes	Yes	
<i>Guideline 3.3 Input Assistance: Help users avoid and correct mistakes.</i>				
3.3.1	Error Identification: If an input error is automatically detected, the item that is in error is identified and the error is described to the user in text. (Level A)	Yes	Yes	On submission of a form, error messages associated with the field in question are rendered adjacent to the field which is additionally highlighted. Lastly, a linked list of the incomplete required fields is rendered above the submit button.

3.3.2	Labels or Instructions: Labels or instructions are provided when content requires user input. (Level A)	Yes	Yes	Labels are consistently applied to the form in question. Additionally, the labels are encoded in the form's list items per web best practices.
3.3.3	Error Suggestion: If an input error is automatically detected and suggestions for correction are known, then the suggestions are provided to the user, unless it would jeopardize the security or purpose of the content. (Level AA)	Yes	Yes	Corrective suggestions for field values are supplied on submit if there are issues with the submitted data. These are generalized but provide the user with guidance on correctly filling out the form.
3.3.4	Error Prevention (Legal, Financial, Data): For Web pages that cause legal commitments or financial transactions for the user to occur, that modify or delete user-controllable data in data storage systems, or that submit user test responses, at least one of the following is true: (Level AA) <ul style="list-style-type: none"> • Reversible: Submissions are reversible. • Checked: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them. • Confirmed: A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission. 	No	n/a	The form in scope does not involve a financial or legal transaction.
3.3.5	Help: Context-sensitive help is available. (Level AAA)	Yes	No	
3.3.6	Error Prevention (All): For Web pages that require the user to submit information, at least one of the following is true: (Level AAA) <ul style="list-style-type: none"> • Reversible: Submissions are reversible. • Checked: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them. • Confirmed: A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission. 	Yes	Yes	Fields submitted are checked against regular expressions for validity. If there are issues detected, then the user is prompted to correct said field.

VPAT

Web Content Accessibility Guidelines 2.0 level AA

Principle 4: Robust - Content must be robust enough that it can be interpreted reliably by a wide variety of user agents, including assistive technologies.

Standard	Description	Apply Yes/No	Meets Yes/No	Comments
<i>Guideline 4.1 Compatible: Maximize compatibility with current and future user agents, including assistive technologies.</i>				
4.1.1	Parsing: In content implemented using markup languages, elements have complete start and end tags, elements are nested according to their specifications, elements do not contain duplicate attributes, and any IDs are unique, except where the specifications allow these features. (Level A)	Yes	Yes	HTML and components are well formed and consistent with their render order.
4.1.2	Name, Role, Value: For all user interface components (including but not limited to: form elements, links and components generated by scripts), the name and role can be programmatically determined; states, properties, and values that can be set by the user can be programmatically set; and notification of changes to these items is available to user agents, including assistive technologies. (Level A)	Yes	Yes	The code is well formed and consistent with best practices; interface elements are unique and navigable where appropriate. Assistive technology can parse the page at a basic level and allow the user to interact as expected.

Addendum:

- A. Scope of assessment includes:
 - a. All web pages and assets in the www.netapp.com/us/how-to-buy/wsc/ directory.
 - b. PDFs and associated assets linked from said pages.
 - c. WSCA questionnaire form located at <http://www.netapp.com/us/forms/wsc-survey.aspx>.
- B. Current state of <http://www.netapp.com/us/how-to-buy/wsc/index.aspx> was assessed. The above analysis is accurate except for these additional line items:
 - a. Imagemap element does not supply a non-graphical interface for interaction but relies on mouse location to determine link target. This is also true of the map's key. This is inconsistent with Guidelines 1.1.1 and 1.3.3.
 - b. Imagemap element relies on color contrast to convey information to the user, specifically participation in the WSCA program and therefore user's ability to click through to the state page target. This is inconsistent with Guideline 1.4.
The planned future state of this page has a primary goal to rectify these accessibility issues.

SECTION 3: RESPONSE REQUIREMENTS

This page intentionally left blank.

A. RESPONSE REQUIREMENTS: BUSINESS

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
1	<p>PROPOSED BANDS. Responders may respond to any or all bands. Responder must identify the bands they will be proposing (check all that apply):</p> <ul style="list-style-type: none"> <input type="checkbox"/> Band 1: Desktop <input type="checkbox"/> Band 2: Laptop <input type="checkbox"/> Band 3: Tablet <input type="checkbox"/> Band 4: Server <input checked="" type="checkbox"/> Band 5: Storage <input type="checkbox"/> Band 6: Ruggedized Devices <p>Responder must verify they are a manufacturer of each band proposed and describe their manufacturing process and facilities.</p> <p>NetApp is a leading provider of storage and data management solutions and a qualified manufacturer of Band 5: Storage. We offer solutions for storing, managing, protecting and archiving business dataNetApp has had a very successful track record on the current WSCA/NASPO contract for Computer Equipment, Peripherals, and Related Services (Band 4: Storage Solutions) growing sales year over year. The current master agreement (B27170) through which NetApp products and services are sold has generated sales in excess of \$105 million since the beginning of the contract term.</p> <p>NetApp was incorporated in 1992 and shipped the world's first networked storage appliance a year later. Since then, we have brought to market many significant innovations and industry firsts in storage and data management. NetApp has grown to over 13,000 employees with operations in over 150 countries around the world.</p>	M	<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>NetApp's configure to order (CTO) process provides customer-specific system configurations using NetApp standard hardware and software building blocks. Using our quote tools, we define our customer's product configuration by selecting from the hardware and software options available for that system family. The resulting CTO order is electronically transmitted to NetApp's factories where contract manufacturing partners assemble and test the configured system to NetApp specifications.</p> <p>NetApp's supply chain has been optimized for transportation cost and delivery lead time. Each of NetApp's primary geographies (Americas, Asia Pacific, and Europe-Middle East-Africa) has both a regional integration center and a regional distribution center to make sure that quick-ship parts and assembled systems travel short distances before distribution. Our products also travel the most efficient route from the regional distribution center to the customer. Products sold under this contract are manufactured within the United States.</p> <p>NetApp outsources its manufacturing operations to third parties located in Memphis, Tennessee and Olive Branch, Mississippi in the United States. All orders to WSCA end users will be manufactured and shipped from these locations. Our manufacturing operations include materials procurement, commodity management, component engineering, test engineering, manufacturing engineering, product assembly, product assurance, quality control, final testing and global logistics. NetApp manufactures products based on specific order requirements. For manufacturing redundancy, NetApp engages key suppliers and subcontractors for the production of certain materials, subassemblies and finished systems. This strategy minimizes capital investments and overhead expenditures and creates flexibility for rapid expansion. Where possible, NetApp multi-sources to mitigate supply risk. We also develop close relationships with our suppliers, exchange critical information and implement joint quality programs.</p>		
2	<p>MANUFACTURER VERIFICATION. The manufacturer's name shall appear on the computer equipment. The Contract Vendors shall provide the warranty service and maintenance for equipment on a Master Agreement. Describe proposed warranty in Section 3A6 in accordance to WSCA-NASPO warranty term.</p> <p>The products manufactured and sold by NetApp display the NetApp logo on the front bezel of storage controllers, disk shelves and storage cabinet doors.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
			

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>NetApp will provide the warranty service and optional maintenance for equipment that will be available for purchase on the Master Agreement. The standard warranty can be augmented by purchasing NetApp's SupportEdge services that provides extended warranties for hardware and software. The warranty service for the FAS/V and E-Series product line includes:</p> <ul style="list-style-type: none"> • Hardware Warranty. NetApp warrants for a period of three (3) years from the date of Hardware Delivery (unless otherwise specified in the applicable Documentation) ("Hardware Warranty Period") that the Hardware will materially conform to NetApp's Documentation in effect on the date of Hardware Delivery. In the event of any material nonconformity in the Hardware during the Hardware Warranty Period, NetApp will, at its sole discretion and expense, repair or replace the Hardware, or refund the purchase price paid by Customer for the non-conforming Hardware. Replacement parts will be warranted for the remainder of the Hardware Warranty Period in effect on the original Hardware purchased, unless otherwise mandated by applicable law. • Software Warranty. NetApp warrants to Customer that for a period of ninety (90) days from the date of Software Delivery, or such other minimum periods under applicable laws, for the initially-shipped version of such Software (the "Software Warranty Period"), that (a) the Software will materially conform to the then-current Documentation in effect on the date of Software Delivery; and (b) the media containing the Software will be free from physical defects. NetApp does not warrant that Customer's use of the Software will be error-free or uninterrupted. In the event of any material defect in the Software during the Software Warranty Period, NetApp will, at its sole discretion and expense, repair or replace the Software, or refund the purchase price paid by Customer for the nonconforming Software. This warranty covers only material nonconformities in the Software that are reproducible and verifiable and does not cover software, other items, or any services provided by persons other than NetApp or a NetApp authorized distributor, reseller or partner. 		
3	THIRD PARTY PRODUCTS. Products offered may be manufactured by a third party; however, Contract Vendor must provide the warranty service and maintenance for all third party products on the Master Agreement. Contract Vendor may not offer another manufacture's product holding a Master Agreement	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?									
	<p>without prior approval. Warranty documents for Products manufactured by a third party are preferred to be delivered to the Participating Entity with the Products. Contract Vendor can only offer third party products in a band they have been awarded. Describe proposed warranty in Section 3A6 in accordance to WSCA-NASPO warranty term.</p> <p>For awarded third party products NetApp will provide the warranty service and maintenance available for purchase on the Master Agreement. While NetApp products are commercial-off- the-shelf (COTS), its hardware products are configured to order and thus are not delivered in the same manner as printers or laptops to consumers. Section 3A6 provides additional details on warranty and maintenance information. NetApp makes all warranty and product documentation available for download from the NetApp customer support site at http://support.netapp.com/.</p> <p>For SAN switching products necessary for the proper functioning of the storage environment, NetApp passes product warranties through from the manufacturer. The following table indicates the hardware and software support for Brocade and Cisco.</p> <table><tr><th>Third Party Products</th><th>Hardware Warranty</th><th>Software Warranty</th></tr><tr><td>Brocade</td><td>3-year NBD Parts Delivery</td><td>90 days</td></tr><tr><td>Cisco</td><td>12-month "Return to Factory"</td><td>90 days</td></tr></table>	Third Party Products	Hardware Warranty	Software Warranty	Brocade	3-year NBD Parts Delivery	90 days	Cisco	12-month "Return to Factory"	90 days		
Third Party Products	Hardware Warranty	Software Warranty										
Brocade	3-year NBD Parts Delivery	90 days										
Cisco	12-month "Return to Factory"	90 days										
4	<p>PRODUCT RESTRICTIONS. Responder must agree to adhere to the restrictions in the Scope of Work throughout the life of the Master Agreement. Describe thoroughly how Contract Vendor will manage product restrictions for Participating States.</p> <p>NetApp has the capacity to customize all individual WSCA state landing pages to include any restrictions imposed by the state.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>									

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
5	<p>MAINTAINING THE PRODUCT AND SERVICE SCHEDULE (PSS). Contract Vendors will develop and maintain an electronic Product and Service Schedule (PSS) which identifies a complete listing of all products and services included in the awarded Master Agreement as well as individual Participating State's PSS's. It is understood that manufacturer's pricing models will vary and final negotiation of how the PSS is presented will be finalized upon award. The PSS will be available for audit purposes and end users to verify pricing based on the minimum discounts with categorized exceptions provided off a designated base line price list. The minimum discounts with categorized exceptions and designated price list must be provided upon request. The PSS may contain the following information:</p> <ul style="list-style-type: none"> • Band number • Category • Product Brand • Item number • Item description • List Price • Discount provided • Discounted price <p>PSS is to be maintained as follows:</p> <ol style="list-style-type: none"> 1. The PSS prices for Products and services will conform to the guaranteed minimum discount with categorized exception levels 2. The Contract Vendor may make model changes; add new Products, and Product upgrades or Services to the PSS. 3. The Contract Vendor agrees to delete obsolete and discontinued Products from the PSS 4. The Contract Vendor will work with each State to develop a satisfactory PSS reflecting the individual States restrictions. <p>The state reserves the right to make PSS format changes throughout the life of the master agreement.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

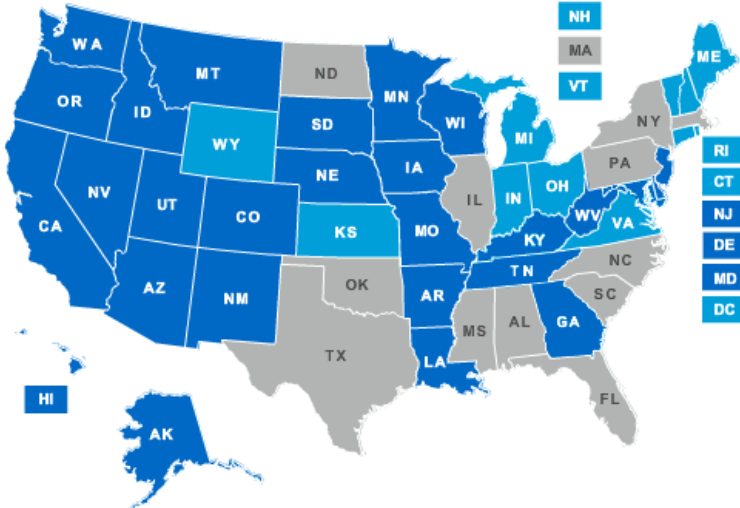

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>Contract Vendor will request changes to the PSS utilizing an Action Request Form (ARF). A sample has been provided in the Section 6. This ARF will be finalized upon negotiations and reaffirms and tracks changes made to the Master Agreement. Changes may be made quarterly.</p> <p>NetApp will maintain a compliant website that conforms to the guaranteed minimum discount levels and is updated as new products or services are added or discontinued and approved via the Action Request Form process. NetApp implements a single WSCA pricelist for all states with a participating addendum, however, each individual state's landing page identifies that state's specific product restrictions.</p>		
6	<p>WARRANTY AND MAINTENANCE. The Contract Vendor shall ensure warranty service and maintenance for all equipment, including third party products provided. Describe in detail how the responder will secure warranty for all products and services. The Contract vendor agrees to facilitate the Manufacturer or Publisher warranty and maintenance of third party products furnished through the Master Agreement. Describe in detail how the responder will secure warranty for all products and services.</p> <p>NetApp warranty service for all equipment, including third party products, will be awarded on the resulting Master Agreement. Warranty service for NetApp products is secured through NetApp and third party products warranties are passed through from the manufacturer. Maintenance services will also be available for purchase through NetApp for products on the Master Agreement.</p> <p>Information in response to A.6 Warranty and Maintenance is classified as a Trade Secret under Sec. 13.37 Minnesota Statutes 2007. The response provides product support information that is not publicly available and not readily ascertainable by proper means. Per the instructions, these pages have been removed and placed in the accompanying enveloped marked "Trade Secret Information".</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
7	<p>LEASING. Individual Participating States and Participating Entities may enter in to lease agreements for the products covered in the Master Agreements resulting from the RFP, if they have the legal authority to enter into these types of agreements. The Participating Addendum by each State will identify if and how leasing agreement terms will be conducted.</p> <p>NetApp offers a Leasing Program through NetApp Capital Solutions. NetApp will work with the individual Participating States if a state has the authority to enter into a Leasing Agreement.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
8	<p>DELIVERY. Delivery of ordered product should be completed within thirty (30) calendar days after receipt of an order, unless otherwise agreed to by the ordering agency.</p> <p>NetApp's standard delivery time is 30 days after receipt of a purchase order. If a delivery date is unable to be met due to component lead times, NetApp manufacturing and logistics coordinates with NetApp operations to promptly notify the ordering agency before a purchase order is accepted. At this time the ordering agency will be notified of the expected delivery date and if this is unacceptable the order may be cancelled. If the date is acceptable the purchase order will be processed with the new delivery date.</p> <p>NetApp has an expedite process that can be used to accelerate the scheduled ship date and, in most cases, ensures that the product delivery meets the customer's delivery schedule.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
9	<p>FREIGHT. All prices shall be FOB Destination, prepaid and allowed (with freight included in the price), to the address, receiving dock or warehouse as specified on the ordering agency's purchase order, In those situations in which the "deliver-to" address has no receiving dock or agents, the Contract Vendor must be able to deliver to the person specified on the PO without additional cost. If there is a special case where inside delivery fee must be charged, the Contract Vendor will notify the customer in advance in order for the customer to determine if the additional cost will affect the decision to utilize the Contract Vendor.</p> <p>Agreed. All NetApp pricing will be FOB Destination, prepaid (with freight included in the price), to the address, receiving dock or warehouse as specified on the ordering agency's purchase order. In situations where the "deliver-to" address has no receiving dock or agents, NetApp will deliver to the person specified on the PO without additional cost. In situations where special delivery fee must be charged, NetApp will notify the customer in advance.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
10	<p>VENDOR PERFORMANCE MEETING. An annual vendor performance meeting may be held each year with the WSCA-NASPO Sourcing Team. Participation by the Contract Vendor is mandatory. Historically vendor performance meetings have been held in the State of Minnesota.</p> <p>Agreed. NetApp will attend all annual vendor performance meetings.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
11	<p>AUDITING. Contract Vendors agree to audits, including but not limited to the Lead State or 3rd party to ensure products sold, pricing and administrative fees are compliant with Master Agreement terms and conditions.</p> <p>Responders must describe:</p> <ul style="list-style-type: none"> • how the responder regularly self audits the Master Agreement to ensure compliance • how an end user will be able to self audit to ensure quotes provided are at the discount off list price • how often the web pricing and invoicing is audited to insure contractual compliance. • reporting mechanisms available such as Invoice reports which will assist in State's ability to audit the Master Agreement through vendor supplied reporting tools. • how the responder ensures that States with multiple Master Agreements are monitored to ensure purchases are correctly booked with the correct Master Agreement. <p>The WSCA-NASPO price list will be prepared by one of several members of the NetApp U.S. Public Sector Operations team, each of whom have multiple years of experience in operations and contract management. An updated WSCA-NASPO price list will typically be released once-per quarter. NetApp's quoting system, which is used for all NetApp direct quotes, as well as quotes to resellers utilizes a NetApp U.S. Public Sector price list which is audited for accuracy once per quarter.</p> <p>End users can self audit any quote provided under the WSCA-NASPO Master Agreement by reviewing the pricelists posted on NetApp's WSCA-NASPO Landing Page. On this WSCA-NASPO landing page, NetApp posts the current pricelist which includes approved part numbers, category code, North American List Price, WSCA-NASPO minimum discount and the WSCA-NASPO maximum end user price for quantity one.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>Using the consolidated monthly sales reports which are invoiced based, NetApp validates the prices charged on WSCA-NASPO sales to ensure contractual compliance.</p> <p>NetApp currently holds a single WSCA-NASPO Master Agreement. All quotes would be issued under NetApp's WSCA-NASPO contract. Should a State that holds multiple Master Agreements issue a purchase order under the incorrect Master Agreement, the NetApp Order Management team or the authorized agent would notify the sales team of the disconnect prior to booking. The Sales team would then reach out to the issuing agency and request a corrected purchase order/change order.</p>		
12	<p>SELF AUDIT: Vendors are required to conduct at a minimum a quarterly self-audit, unless approved by the Lead State. The audit will sample a minimum of one tenth of one percent (.001) of orders with a maximum of 100 audits per quarter conducted. For example: Up to 1,000 sales = 1 audit; 10,000 sales = 10 audits; Up to 100,000 sales = 100 audits. This will be a random sample of orders and invoices and must include documentation of pricing. Summary findings are to be reported to Lead State with actions to correct documented findings.</p> <p>Agreed. On the current contract, NetApp requires a monthly sales report from each of our WSCA resellers. NetApp validates the prices charged on every reported WSCA sale to ensure the approved WSCA discount has been provided for each item sold. NetApp will continue to meet or exceed this requirement if an award is received for this RFP.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
13	<p>PREFERENCE PROGRAMS. Describe experience and capacity to meet minority and women business enterprises and other local purchasing preferences that vary among potential Participating Entities, including but not limited to the use of these businesses in their partner relationships.</p> <p>NetApp is a manufacturer of storage and data management hardware and software that utilizes MWBE businesses throughout its supply chain. In addition, NetApp has a federally approved small business subcontracting plan and a full-time supplier diversity manager.</p> <p>The mission of NetApp and its Supplier Diversity program is to have a world class program promoting inclusion of small, small disadvantaged, woman, hub zone, veteran-owned and service disabled veteran</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>businesses.</p> <p>Features of NetApp's Supplier Diversity program include:</p> <ul style="list-style-type: none"> • Membership in national and local organizations that assist NetApp in forming successful partnerships with disadvantaged, minority and women owned subcontractors • A database to accurately identify subcontracts to ensure compliance with customer requirements • Education seminars, training and technical assistance for suppliers and managers about the importance of minority subcontractor relations and how to best use their services • Participation in business opportunity events and trade fairs and conferences which allow additional access to diverse vendors • Robust processes and tools to classify and track diverse spending • NetApp is a national corporate member of the National Minority Supplier Development Council (NMSDC) and the Women Business Enterprise National Council (WBENC). <p>NetApp strives to work with a mix of resellers to meet customer preferences. Local Sales Managers at NetApp will work with individual States and Entities to meet varying purchasing preferences by assisting in identifying preferred MWBE businesses.</p>		
14	<p>GEOGRAPHIC OFFERING. While the primary purpose of this solicitation is to select a Responders who can offer all products and services within a band for all Participating States, to encourage small business participation Responders are permitted to submit a proposal on more limited geographical areas.</p> <p>Clearly describe the geographical limits (e.g. by State name) if proposing a geographical area less than that of all Participating States. <u>Identify at least one State.</u> If a Proposer elects to submit a Proposal for a single State then the Proposer will be willing to supply the entire State. The option to grow the business to other States may be allowed upon approval of the WSCA-NASPO Management Board.</p> <p>The proposer will be evaluated on the same criteria as all other vendors and referred to the identified State for consideration of a Master Agreement.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>NetApp has no geographical limits and is offering our products and services for all Participating States. NetApp currently provides products and services under a WSCA/NASPO Master Price Agreement to the following states as indicated in the figure below:</p>  <p>WSCA/NASPO State Agreement Status</p> <p>■ Approved ■ Pending ■ No Agreement</p>		
15	<p>MASTER AGREEMENT TERMINATION. Upon termination or expiration of the Master Agreement awarded from this RFP the following will occur:</p> <ul style="list-style-type: none"> All websites, on-line offering systems and Electronic Catalog functions supported and/or available as part of the Master Agreement will cease and be removed from public viewing access without redirecting to another 		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

A	RESPONSE REQUIREMENTS: BUSINESS	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>website.</p> <ul style="list-style-type: none"> • If approved by the Lead State, Customer data/user accounts acquired during the term of the Master Agreement shall be destroyed or returned to the State at the request of the Participating State's administrator unless required to maintain per audit. • No references to the Master Agreement shall be made on the Contract Vendor's commercial website without permission by the Lead State. • If approved by the Lead State, hard copy catalogs and promotional literature shall be destroyed or returned to the Participating State at the end of the Master Agreement term upon the request of the Participating State. <p>Agreed. NetApp will comply with all Master Agreement termination or expiration requirements.</p>		
16	<p>PREMIUM SAVINGS PACKAGE PROGRAM. Contract Vendors who participate in the PSP program commit to maintain and upgrade (keep pace with the advance of technology) the standard configurations for a stated period of time or intervals, as determined by the Participating Entities. Provide marketing plan of the PSP Program including leading with PSP Program and displaying prominently on websites to market aggressively to all States.</p> <p>Storage is exempt from this obligation.</p>		<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p> <p><input checked="" type="checkbox"/> n/a for server storage vendors</p>
17	<p>PROMOTIONS. Contract Vendors are allowed to provide promotions for deeply discounted products based on their inventory and sales. Promotions will also provide increased savings to States. The Contract Vendors will be responsible to market these offers. Describe what kind of promotions will be available and how marketing will be conducted.</p> <p>NetApp may provide promotions based upon inventory availability and/or periodically include additional software components bundled in with the sale of equipment at no additional cost. In addition, other types of promotions may also include free training with the purchase of a system. The periodic promotions such as those highlighted are communicated to NetApp sales teams and partners by one or more of the following methods: email, newsletter, webinar, team conference calls, banner ads on internal websites, and mailings. NetApp sales teams and partners then market these promotions to end users in the same manner.</p>		<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

This page intentionally left blank.

B. RESPONSE REQUIREMENTS: ENVIRONMENTAL

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
1	<p>ENVIRONMENTALLY PREFERABLE PURCHASING COMMITMENT. Explain commitment to environmentally preferable purchase specifically in the areas below.</p> <p>a. End of life management: Include detailed information regarding takeback, recycling and trade in programs available</p> <p>NetApp places special emphasis on recycling electronic waste (ewaste), both from operations and customers at a product's end-of-life. Through our e-waste recycler, AER Worldwide, all of our products are eligible for trade in credits, takeback, and recycling for our customers. Independent audits are regularly performed on AER for NetApp, and the waste diversion rate for our products' content consistently remains over 99%, meaning more than 99% of the product content is recycled at its end-of-life.</p> <p>NetApp accepts trade-ins on entire storage arrays including cabinets, disks, controllers, cables, and so on—for equipment being replaced by a purchase of NetApp products.</p> <p>The North America trade-in program can be initiated by participating end users contacting a NetApp Account Executive or authorized reseller. The Account Executive will work with the purchaser to gather the necessary equipment information and develop a quote to include the trade-in credit.</p> <p>Once the purchase has been made, NetApp will work with the customer to establish a timeframe for the equipment to be decommissioned and picked up and returned to a NetApp facility or directly to a regional AER facility depending upon customer location.</p> <p>Products will be processed at a recycling center that guarantees the proper removal of software and data, as well as environmentally responsible recycling. The recycling process consists of:</p> <ul style="list-style-type: none"> • Disassembly • Sorting and reuse of components (usually chips) • Material separation and recycling 		<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<ul style="list-style-type: none"> • Treatment • Disposal <p>For more than 6 years NetApp has had its comprehensive e-waste recycling program operational. This effort has diverted over 99%, or 2 million pounds, of potential e-waste from landfills since the start of the program.</p> <p>To learn more about NetApp's effort to minimize our environmental impact by recycling all of our electronic waste (e-waste), and see the process retired equipment will go through to ensure environmentally sustainable, cradle-to-cradle approach, please view the following video on YouTube by accessing the following URL: http://www.youtube.com/watch?v=oKM1tq53ZhY.</p> <p>NetApp utilizes AER Worldwide (www.aerworldwide.com) for e-waste recycling services. AER's processing facility is located in Fremont, CA and is ISO 14001 and R2 certified. The AER contact and location is provided below:</p> <p>AER Worldwide Erin Zhou Business Development Customer Service E-mail: ezhou@aerworldwide.com Phone: (510) 933-6906</p> <p>AER Worldwide Processing and Sales Site 42744 Boscell Road Fremont, CA 94538</p> <p>AER Worldwide is sensitive to the growing importance of data security. To ensure proper data erasure of our customers' hard drives, AER uses a stringent software process of data removal utilizing the following attributes:</p>		

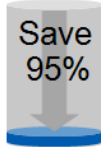

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>b. Environmental solutions: Provide detail on how additional value is provided regarding environmental solutions such as selling refurbished/remanufactured toner and equipment. Outline how your company is willing to work with the State and the manufacturers to minimize impact on the environment. Specifically address:</p> <p style="padding-left: 40px;">MATERIALS - manufacturer declaration on reduction / elimination of hazardous materials i.e.; mercury and lead.</p> <p>NetApp is committed to providing products and services that meet and exceed international standards and achieve continual improvement. We are committed to complying with all applicable laws and regulations including ISO certifications, European Union's Waste Electrical and Electronic Equipment (WEEE), and Restriction of Hazardous Substances (RoHS) and REACH (Regulation for Registration, Evaluation, Authorisation and Restriction of Chemicals) directives.</p> <p>NetApp is both WEEE and RoHS compliant. All products since July, 2006 have been RoHS compliant. NetApp has processes in place to monitor and comply with the WEEE and RoHS directives. All NetApp products are properly labeled. RoHS substances are eliminated or reduced to levels below legal limits for all NetApp products sold in the US and abroad.</p> <p>From a product packaging perspective, NetApp and its packaging distributor, Amcor Packaging, certifies that regulated metals—lead, mercury, cadmium, and hexavalent chromium—were not intentionally added to any package or packaging component during the manufacturing process. In addition, we can further certify that the sum of incidental concentration levels of lead, mercury, cadmium and hexavalent chromium present in any package or package component does not exceed 100 parts per million by weight.</p> <p>PRODUCT – In general how does the responder identify product longevity, percent of packaging and packing materials that are recycled/reusable, availability of replacement parts</p>		

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>for life extension, cost, and complication to upgrade.</p> <p>The product lifecycle of NetApp storage controllers is typically three to five years. This is due to the lifecycle of the disk storage products embedded in our storage systems. Beginning after three years and even more so after five years, disk failures become more frequent, making drive replacement the economically prudent option.</p> <p>NetApp products are launched after we are prepared to provide enterprise-class support. New storage platforms are announced for sale after comprehensive development, review, and testing of internal support systems and processes to provide readiness of enterprise-class support. Internal support teams are trained in the product-specific advances, as well as any unique support considerations. We have over 250 worldwide depots stocked with platform-specific spare Field Replaceable Units (FRUs). NetApp sales teams and authorized agents can provide costs for new systems and calculate any credits that can be applied for trading in of the equipment being replaced. NetApp's worldwide Professional Services, Support staff, and Support partners are trained and prepared to support the new platforms in advance to mitigate any risk involved in performing a tech refresh.</p> <p>At NetApp, we share in the global responsibility for protecting and preserving our environment today and for future generations by not only creating energy efficient products, but also by practicing good environmental stewardship. NetApp provides reduced packaging when possible by shipping preconfigured storage arrays already assembled versus shipping individually packaged components to be assembled on site. Products are typically shipped in anti-static plastic bags within recyclable corrugated packaging. Although the anti-static bags and other protective materials are not made from recycled materials, they are recyclable through collection methods currently implemented by the majority of State and Local Governments. NetApp does have a takeback program for the wood crates the storage arrays are shipped in whereby the shipper will pick the crates up for reuse by NetApp.</p> <p>All materials used in the packaging of the NetApp equipment are RoHS compliant and contains no toxics in the packaging. All materials and designs of packaging protect the product per the shipping</p>		

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>and packaging standards which NetApp specifies. Where feasible, NetApp uses eco-friendly materials. NetApp has discontinued the use of EPS due to the difficulty in recycling and plastic decomposition. The metal and foam in the crates used for shipping NetApp hardware is 100% recyclable. The wood used is hard plywood.</p> <p>NetApp corrugated packaging, wooden crates, and even wood pallets are stamped to identify if the products are recyclable. NetApp data center packaging containers conform to the following standards:</p> <ul style="list-style-type: none"> • ASTM D4169 (Assurance Level 1) Testing Standard • Rail Regulations: Uniform Freight Classification, Rule 41 • Truck Regulations: National Motor Freight Classification, Item 222 • Air Regulations: International Air Transportation Association • Water Regulations: International Maritime Dangerous Goods Code • International Standards for Phytosanitary Measure • International Plant Protection Convention • Packaging (Essential Requirements) Regulations 2003 <p>Two examples of NetApp's continuous improvement efforts in the environmental area are the shift to re-usable packaging and shift from wooden crate to corrugated packaging for the cabinets. Both NetApp and its suppliers use recyclable packaging, recycling takes energy. We avoid the need for recycling (where possible) through the use of re-usable packaging. We do this with controller base units, disk drives, shelves, and cables --- our largest and highest volume items. This has eliminated a great amount of recyclable material on a monthly basis</p> <p>CORPORATE – detail if company has in place regarding sell/procurement of refurbished/remanufactured products.</p> <p>NetApp does not refurbish/remanufacture products for resale. NetApp does fully offer takeback / trade in credit for equipment that is being replaced by NetApp. The equipment taken back is recycled as discussed previously in this response.</p>		

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>c. Environmental certifications. Describe how certifications/registrations are identified on the website; as well as labels on equipment and/or packing list.</p> <p>General Environmental certifications/registrations are provided available on the NetApp website at the following location: http://www.netapp.com/us/company/our-story/sustainability/environmental-certifications.aspx. Where applicable, additional certifications/registrations are indicated at the equipment level (e.g. batteries, disks, power supplies).</p> <p>NetApp also has a comprehensive management program in place to ensure our products conform to the European Union's Restriction of Hazardous Substances (RoHS). NetApp's RoHS compliance approach includes the following elements and requirements:</p> <ol style="list-style-type: none"> 1. For products designated by NetApp to be RoHS compliant, NetApp specifies and designs the product to use materials and parts that conform to the RoHS directive. NetApp manages the information associated with the supplier materials/parts within a database. Hardware that is RoHS compliant includes in the part number either an "R5" or "R6" designator. The R5 or R6 designation is provided at the SKU level for part numbers on quotes and packing lists. 2. All NetApp suppliers of RoHS compliant products must provide NetApp a declaration that the particular products supplied meet the RoHS directive. <p>NetApp follows a detailed product qualification process for all products, which includes materials and specification reviews and audits of manufacturing lines.</p>		
2	<p>EPEAT REGISTRATION. Responder agrees that applicable products offered that have EPEAT Standards provided under the Master Agreements resulting from this RFP are to have achieved a minimum EPEAT Bronze registration.</p> <p>EPEAT does not apply to networked storage at this time.</p>	M	YES <input type="checkbox"/> NO <input type="checkbox"/> <input checked="" type="checkbox"/> n/a storage
3	<p>TOTAL COST OF OWNERSHIP. Describe how your company can provide users information to assist in evaluating the Total Cost of Ownership in utilizing products. E.g. equipment that runs more efficiently, with less supplies, etc.</p> <p>From a presales perspective, NetApp routinely provide end users with information regarding the costs for hardware, software, maintenance and services for up to 60 months. In addition, NetApp</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>and partner systems engineers can also provide estimated power, heating and cooling requirements for specific configurations to further assist in calculating Total Cost of Ownership (TCO).</p> <p>In addition to helping our customers understand the cost of owning our products, NetApp seeks to teach customers the efficiencies attainable by deploying superior technology that reduces the amount of data storage needed. NetApp storage systems, when utilizing our storage efficiency technologies, can drastically reduce the need to purchase more storage often deferring additional purchases for multiple years. NetApp has a storage efficiency calculator accessible from the following: http://www.secalc.com/</p> <p>TCO is dependent upon an end user's final configuration, including types of disk selected and software. Generally speaking, NetApp storage efficiency technologies challenge the validity of the traditional 'cost per raw gigabyte' (GB) metric as a way to compare storage costs. Instead, we recommend factoring the effect of each efficiency technology into the cost equation, and measuring either the effective cost per GB or the cost per usable GB NetApp's propriety technology enables our customers to make the most out of the disk space they buy. The effect of compounded storage efficiency results in the NetApp solution requiring fewer building blocks—including fewer disks—than competing approaches. This frees up physical floor space, lower power and heating, ventilation, and air conditioning (HVAC) requirements, and reduces the number of management touch points. Our customers routinely experience a reduction in the amount of physical storage needed to meet their requirements upon deployment of our technologies. The savings can be higher for requirements such as virtualized server and desktop workloads or disk-to-disk backups. The following figure highlights potential savings with NetApp storage efficiency technologies.</p>		

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<div data-bbox="289 397 380 496">  NetApp </div> <div data-bbox="394 418 873 472"> <h2>Efficiency is Built In</h2> </div> <div data-bbox="401 540 499 686">  </div> <div data-bbox="514 535 854 688"> <p>Deduplication Reclaim up to 95% capacity for full backups; 45% on average</p> </div> <div data-bbox="911 540 1010 686">  </div> <div data-bbox="1031 531 1360 688"> <p>Snapshot™ Copies Save 80% capacity; only changed data uses storage</p> </div> <div data-bbox="401 760 499 906">  </div> <div data-bbox="539 756 829 909"> <p>Thin Provisioning (FlexVol®) Liberate 20% to 33% of your capacity</p> </div> <div data-bbox="911 760 1010 906">  </div> <div data-bbox="1035 756 1346 909"> <p>Thin Replication Save up to 95% capacity with our disk-to-disk data protection</p> </div> <div data-bbox="401 979 499 1125">  </div> <div data-bbox="514 977 854 1162"> <p>Double Parity RAID (RAID-DP™) Use up to 46% less capacity versus mirrored data or RAID10</p> </div> <div data-bbox="911 979 1010 1125">  </div> <div data-bbox="1031 971 1415 1125"> <p>Virtual Clones (FlexClone®) Save up to 80% using writable virtual copies; only changed data uses capacity</p> </div>		

B	RESPONSE REQUIREMENTS: ENVIRONMENTAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
4	<p>ENERGY STAR COMPLIANT PRODUCTS. Describe manufacturer commitment to EnergyStar Program.</p> <p>ENERGY STAR does not apply to networked storage at this time. The ENERGY STAR Computer Server Specification is not easily modifiable to apply to networked storage; there are too many technical dissimilarities as well as solution configurations to meet the diversity of the end user operational requirements. NetApp is participating with the Environmental Protection Agency and other organizations such as SNIA to finalize ENERGY STAR specifications for data center controllers. In fact, ahead of these forthcoming specifications, NetApp is already pre-validating some storage controllers against draft specifications.</p> <p>NetApp will continue to monitor environmental regulations both in the U.S. and globally to ensure compliance as certifications evolve and new regulations are developed.</p> <p>Nonetheless NetApp's commitment to ENERGY STAR goes beyond its products and into our data centers. NetApp's dynamic data center located at the NetApp technology center in Research Triangle Park (RTP) earned the U.S. Environmental Protection Agency's (EPA's) prestigious ENERGY STAR, the national symbol for protecting the environment through superior energy efficiency. The RTP data center, which opened in 2009, was the first data center to achieve this distinction from the EPA. A data center that scores a 75 or higher on EPA's 1-100 scale is eligible for the ENERGY STAR. The RTP data center achieved a near perfect mark by scoring a 99 on a scale of 1-10.</p>		<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>
5	<p>ENVIRONMENTAL IMPROVEMENT PROGRAM. Describe Product environmental improvement program for products that have not yet received the applicable standards or certification. In addition, describe environmental efforts in each of the following areas: reduction/minimization/avoidance of the use of toxic and hazardous constituents (cadmium, chromium, mercury, and/or lead); compliance with international directives such as the European</p>		<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

6	<p>CUSTOMER SATISFACTION. Describe success in customer satisfaction. This could include current customer satisfaction statistics or survey results concerning the quality of the Products and services offered.</p> <hr/> <p>Information in response to C.6 Customer Satisfaction is classified as a Trade Secret under Sec. 13.37 Minnesota Statutes 2007. The response provides product support information that is not publicly available and not readily ascertainable by proper means. Per the instructions, these pages have been removed and placed in the accompanying enveloped marked "Trade Secret Information".</p> <hr/> <p>Customer and partner satisfaction, loyalty and reference-ability are critical for NetApp sustained growth. NetApp continues to review opportunities to gain new insights into how customers and partners view our performance and ways to improve service and the scope of solutions. In 2007 we developed a Customer Listening Program (CLP). The comprehensive companywide customer listening program has led NetApp into new areas and improved approaches of doing business with our customers and partners, with a single focus on delivering a better customer and partner experience.</p> <p>The cornerstone of the CLP initiative is the survey used to gain insights into our performance. Feedback is gathered from customer respondents served directly by NetApp, as well as those served by our channel partners to provide a holistic view of our customer relationships. Survey insights guide us to identify, prioritize, and drive the right actions to enhance our customers' and partners' experience with NetApp.</p> <p>Details to the methodology and survey results are provided in the Trade Secret Volume.</p>		<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

D. RESPONSE REQUIREMENTS: CUSTOMER SUPPORT AND MASTER AGREEMENT MANAGEMENT

D	RESPONSE REQUIREMENTS: CUSTOMER SUPPORT AND MASTER AGREEMENT MANAGEMENT	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
1	<p>ORDERING AND PAYMENT PROCESS. The ordering and payment process for Products or Services is to be defined in the Participating Addendum. This process may be unique to each State.</p> <p>NetApp will comply with ordering and payment process(es) and terms as defined by each State in all negotiated Participating Addenda.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
2	<p>SALES SUPPORT TRAINING. Detail how the responder will train sales staff and partners to ensure they are well versed in the terms and conditions of the WSCA-NASPO Master Agreement. Detail a remedy plan for sales staff and partners who do not comply with Master Agreement terms and conditions.</p> <p>NetApp takes contract compliance very seriously. As such, NetApp implements the following actions to ensure contract compliance from NetApp sales and reporting staff as well as Partner sales and reporting staff:</p> <ul style="list-style-type: none"> NetApp provides all NetApp WSCA support personnel and Partners with a WSCA-NASPO SLED Guide summarizing key WSCA-NASPO contract requirements and proper WSCA-NASPO quoting guidelines. NetApp provides all NetApp WSCA support personnel and Partners with WSCA-NASPO Contract Reporting Guidelines. NetApp has created on-line WSCA-NASPO training that is made available to all NetApp WSCA support personnel and Partners through NetApp University. <p>NetApp provides formal notice of violations to the Partners with proposed correction actions included. If the Partner does not respond to the formal notification or fails to provide the proper corrective action, WSCA-NASPO agent status may be removed as per the terms of the SLED Addendum, at the discretion of NetApp.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

5	<p>COMPLAINT RESOLUTION. Responders must thoroughly describe their procedures for addressing and resolving customer problems and complaints regarding service, equipment, or billing. Include timelines and escalation process.</p> <p>The escalation process for the WSCA-NASPO Master Agreement closely follows the organizational structure of the NetApp team as described in the response to requirement C.1 Organization. With the exception of technical support issues (hardware and software), all calls shall be placed into the NetApp customer service center during normal business hours.</p> <p>For purposes of this response, three types of escalations are possible: 1) Operations and Order Management for order, shipment, and billing issues 2) Sales/System Engineering – for pre-sales technical assistance and configuration advice and 3) Professional Services – for all non-maintenance services including installation and consulting services. All three of these functional organizations are ultimately escalated to Mark Weber, Senior Vice President, and then to Rob Salmon, Executive Vice President of Field Operations.</p> <p>At a high level, the escalation process consists of four steps:</p> <ol style="list-style-type: none"> 1. Identification and Notification of Escalation 2. Joint Escalation Discussions 3. Escalation to a Higher Level (if necessary) 4. Resolution and Closure <p>All technical support calls follow an established and published NetApp escalation process based upon the priority level of the problem as described below. NetApp's Technical Support Center (TSC) follows the Service and Support Professionals Association (SSPA) best practices. NetApp has been awarded 5 stars for support by SSPA and has been selected to its Hall of Fame for continued support excellence.</p> <p>The following organizational chart identifies the escalation points for operations and order management, sales, and professional services and escalation timeframes.</p>	M	<p>YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p>

	<p>From a post-sales support perspective, NetApp's Customer Support Center (CSC) will be the single point of contact to receive all support calls by phone, email or through NetApp's AutoSupport phone home functionality. The CSC is a 24x7x365 operation that employs nearly 2,700 globally and provides Levels 1, 2, and 3 support.</p> <p>The NetApp CSC (formerly the Technical Support Center) solves WSCA-NASPO's enterprise business challenges in ways that enhance your investment in storage technologies. The CSC uses consistent, proven procedures to deliver accurate and timely solutions across organizations to help deliver measurable results.</p> <p>The CSC is always available as the first point of contact for all support issues. The CSC opens a support case upon contact and manages the case to resolution. It coordinates all support activity around the world, including e-mail, web, phone, remote and on-site actions.</p> <p>The SLAs provided with the solution are associated with the target objectives based upon the level of support and priority levels. NetApp is recognized by the industry as a leading provider of support. The CSC is Support Center Practices (SCP) certified for offering a consistently high support experience for our customers. Notably, our CSS is rated no. 1 by <i>CIO Magazine</i> for achievement of SLAs, which include:</p> <p>Meeting TROs over 99% of the time</p> <p>Responding to customer requests in less than 60 seconds</p> <p>Offering 99.4% availability of parts in depots worldwide</p> <p>Initial Contact Target Response Objectives</p> <p>WSCA-NASPO has access to different target response objectives (TRO) for each NetApp support offering. The TROs available to WSCA-NASPO include 2- or 4-hours, as well as next business day service, as outlined below. NetApp does not include service-level agreements within our support offerings.</p>

	<p>Priority-Level Definitions</p> <p>Upon notification, WSCA-NASPO's issue is escalated to a level of NetApp management that meets the priority notification guidelines. Our objective is to make sure that the most appropriate support resources are utilized to quickly correct the problem.</p> <ul style="list-style-type: none"> • Priority 1. NetApp node, system, or cluster is down, is unable to serve data, is in a state of frequent or repeating panic or hang, or is in a state of degraded performance sufficient to prevent normal business operations. At this priority, both NetApp and WSCA-NASPO must commit to around-the-clock action and involvement by all necessary and appropriate personnel and systems until a mutually agreeable workaround is provided and normal business operations are restored. • Priority 2. NetApp node, system, or cluster is experiencing an infrequent, isolated, or intermittent panic or hang or is in a state of degraded performance that allows business operations to continue but at an inconsistent or less than optimal rate. At this priority, NetApp is committed to a commercially reasonable best effort to provide WSCA-NASPO with a workaround and/or restore normal operations as quickly as possible. • Priority 3. NetApp node, system, or cluster is experiencing an issue, anomaly, or cosmetic defect that inflicts little or no business impact and where a viable and mutually agreeable workaround or hardware/software upgrade exists to mitigate the problem. • Priority 4. Normal requests for information regarding the installation, configuration, use, and maintenance of your NetApp equipment. This includes administrative inquiries and RMA information. There is no impact to WSCA-NASPO's production systems or business operations. <p>Upon notification, a customer issue is escalated to a level of NetApp management that meets the notification guidelines in table below. Our objective is to ensure that the most appropriate support resources are utilized to quickly correct the problem.</p>

	<ul style="list-style-type: none"> • Product and Service Schedule (PSS) • Product specifications, pricing, and configuration aids for the major product categories proposed that can be used to obtain an on-line quote, • Online ordering capability with the ability to remember multiple ship to locations if applicable to product • Service options, service agreements • Contact information for order placement, service concerns (warranty and maintenance), problem reporting, and billing concerns • Sales representatives for participating entities • Purchase order tracking • Links to environmental certification, including but not limited to take-back/recycling programs, EPEAT, Energy Star, etc. • Information on accessibility and accessible products <p>If elements of the website require a secure log-in, Responder to provide listing of item that would require a secure sign-in option e.g. reprinting of invoices, or purchase order tracking.</p> <p>THE REQUESTED WCAG VPAT APPLIES TO THE RESPONDER'S WEBSITE TO BE OFFERED UNDER THE CONTRACT. Responder to provide completed VPAT forms found in the FORMS section of the RFP.</p> <p>The Master Agreement website shall offer twenty-four (24) hours per day, seven (7) days per week availability, except for regularly scheduled maintenance times. The website must be separate from the Contract Vendor's commercially available (i.e., public) on-line catalog and ordering systems. No other items or pricing may be shown on the website without written approval from the Lead State</p> <p>Within 30 calendar days of Master Agreement award, the Contract Vendor must provide a sample URL of the Master Agreement webpage to the Lead State for review and approval. The Lead State will review and determine acceptability of the website format and data. If the information is determined to be unacceptable or incorrect, the Contract Vendor will have 15 calendar days to provide revisions to the Lead State. Once the website is approved, the Contract Vendor may not make material changes to the website without notifying the Lead State and receiving written approval of the changes.</p>	M	

D	RESPONSE REQUIREMENTS: CUSTOMER SUPPORT AND MASTER AGREEMENT MANAGEMENT	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>NetApp will maintain a compliant website that includes the complete PSS which will identify the brand, specification, and price for every product and service being offered to WSCA. In addition, and as appropriate, this website will provide details to include product specifications, basic configurations aides, environmental certifications, warranty and support options, contact information, and links to approved subcontractors/reseller agents.</p> <p>From this main page, users will have access to additional e-commerce capabilities supporting the online ordering of select hardware, disk drives, cables, and cabinets.</p> <p>NetApp has created a public website that will act as the landing page for the WSCA contract. This website is similar to other websites that have been set up for other direct NetApp State Government contracts. Although the site is not fully functional, feel free to browse the site to get a feel for the end user experience. http://www.netapp.com/us/how-to-buy/wsca/index.aspx</p>		
9	<p>EMARKETCENTER. The Contractor agrees to cooperate with WSCA-NASPO and SciQuest (and any authorized agent or successor entity to SciQuest) with uploading a hosted catalog or integrating a punchout site. Review the eMarket Center requirements provided on next page and confirm adherence.</p> <p>NetApp currently participates in an EMARKETCENTER catalog hosted by SciQuest on behalf of WSCA-NASPO. NetApp's hosted catalog was one of the first to be approved by SciQuest and to go live. NetApp will continue to work with the WSCA Lead State by maintaining a SciQuest catalog product listing.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
10	IMPLEMENTATION PLAN AND MARKETING METHODOLOGY. Describe a thorough implementation		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

D	RESPONSE REQUIREMENTS: CUSTOMER SUPPORT AND MASTER AGREEMENT MANAGEMENT	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>rollout plan for the first year as part of the proposal. At a minimum, the response should include a description of the methodology (mailings, meetings, seminars, press releases, personal contacts) proposed, estimated dates and location of activities, including tasks to be performed and the timeframe for the completion of each task. Include sample rollout and follow-up marketing materials with their proposals. Responders are reminded that once a statewide participating addendum is in place, nearly every governmental entity, public school and university within the state may use the Contract Vendor's Master Agreement.</p> <p>NetApp's marketing plan for the WSCA contract includes a combination of go-to- market programs for both awareness and lead generation. These marketing programs will be performed both as direct marketing activities (done solely by NetApp) as well as, through our distribution partners and our authorized resellers.</p> <p>A large majority of our business is done through our channel partners. We refer to these partners as our Agent Partner. As part of the partnership, we provide training, technical and sales support as well as marketing support, creating a well-rounded sales environment, thereby enabling our Agent Partners to as an extension of our sales force.</p> <p>NetApp's authorized Partners are independent businesses entrenched in the field, and specifically the State and Local and Education markets. Each of these Partners has their own annual and quarterly calendars, sales goals, marketing initiatives, employees, and customers.</p> <p>It is NetApp's intent to enable our Partners successes by allowing them to differentiate themselves through their services and expertise to promote contracts through the WSCA contract vehicle. To enable our Agent Resellers, NetApp will provide them with a compelling business proposition: clarity, context, focus, and professionalism to plan and execute properly.</p> <p>The following efforts will be an integral part of enabling our Partners to educate them and their customers of NetApp benefits and most importantly, the benefits of the WSCA contract.</p>		

D	RESPONSE REQUIREMENTS: CUSTOMER SUPPORT AND MASTER AGREEMENT MANAGEMENT	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>Development of Comprehensive Marketing Programs for each Partner</p> <p>NetApp's strict partner selection process request each reseller to provide a compelling business model and plan before they are approved to partner for the WSCA contract will provide a business plan in which they describe their plans for marketing to WSCA customers. This marketing plan will be developed within 45 days of being approved by the Minnesota or upon completion of Participating State Addendums. Some of the marketing activities proposed by NetApp's WSCA resellers would include:</p> <ul style="list-style-type: none"> • Local events and Lunch and Learns • Telemarketing • Email campaigns • Trade shows • Industry Events • Custom Web content • NetApp product demo programs • Advertising (print, online, radio) • Catalog mailing <p><u>NetApp Direct Marketing</u></p> <p>Kickoff Meeting</p> <p>To ensure an effective contract rollout, NetApp's WSCA account team proposes to meet with the WSCA contract manager within 30 days after the contract is awarded to discuss how NetApp can best satisfy WSCA's expectations for the contract.</p> <p>The following provides information on how NetApp intends to directly market the WSCA contract vehicle as well as to participating WSCA states and end users.</p>

Appendix A: Response to C.4 Equipment and Services Overview

NetApp is a leading provider of innovative storage systems and data management solutions that form the foundation for efficient and flexible IT infrastructures. NetApp's storage systems help customers streamline operations and lower the cost associated with storing and managing their data. NetApp's product portfolio includes shared and dedicated storage solutions that are flash accelerated and cloud integrated.

Our unified fabric-attached storage (FAS) platform offers the optimal storage platform for business applications, shared infrastructures, and cloud environments. The high performance E-Series platform offers modular flexibility and custom configuration capability for demanding workloads, with an optimized price to performance ratio. NetApp is a leading original equipment manufacturer (OEM) storage provider with a 15-year track record of enabling OEMs to offer market-leading IT and storage solutions that serve specific markets and customer requirements.

NetApp was founded in 1992 with the goal of simplifying data access by creating the world's first network storage appliance. Today, NetApp is a \$6.3 billion, Fortune 500® storage and data management company with more than 13,000 employees around the world in more than 150 offices.

Since then, we have brought to market many innovations in storage and data management. Our evolution can be attributed to our history of identifying and creating new markets and innovating around market transitions. We create an efficient and agile storage foundation for applications and shared IT infrastructures. Our dedication to the principles of simplicity, innovation, and customer success has made us one of the most successful storage and data management providers today.

These markets include:

- **Shared infrastructures.** A market shift from traditional dedicated storage to shared storage in virtualized IT infrastructures is well under way. Virtualization allows organizations to separate applications and data from dedicated hardware so that the server, storage, and networking infrastructure can be shared and used more efficiently. Our unified FAS architecture, running clustered Data ONTAP® software with integrated protection, is well suited for virtualized environments.
- **Converged infrastructure.** Converged infrastructure is the industry's response to market demand for simplified shared infrastructure deployments. Current IT architectures are a complex combination of infrastructure along with public, private, and hybrid (combination of external and on-premise) clouds addressing distinct customer needs. To address this need, we have partnered with Cisco Systems to develop a shared vision for a unified data center. We've delivered on this vision through our deeply integrated FlexPod® solution, which offers customers the ability to simplify deployment, management and orchestration — connecting enterprise clouds to service providers, enterprises to branch offices, consumers to enterprises, and clouds to clouds. With our FlexPod Cooperative Support, we quickly address multivendor technical issues and help our customers get the most value from their FlexPod investment.
- **Cloud.** Cloud-based infrastructure has become a business priority. We believe clouds built on NetApp® foundations have lower costs than our competitors and provide operational efficiencies that allow IT to respond more rapidly. Clustered Data ONTAP software allows

customers to rapidly respond to changing business requirements. Our goal is to help organizations benefit from the efficiency and flexibility our products provide, whether they choose to deploy a private cloud solution or outsource to a public cloud service provider. In order to meet customers' needs for public cloud services, we have developed a global network of cloud service provider partners. Our solutions for service providers accelerate the development and delivery of cloud services such as Microsoft® Exchange as a service, Microsoft® SharePoint as a service, IT Infrastructure as a service, desktop as a service, storage as a service, and data protection as a service.

- **Business applications.** Our products and services are designed to meet the expansive requirements and demanding service levels of large enterprises and their mission-critical business applications. In addition, we bring our affordable, enterprise-proven technology to midsize enterprise businesses. We also design our products to satisfy the demands of high-performance computing and technical data center applications. We partner with key industry leaders such as Cisco Systems, IBM, Microsoft, Oracle, SAP and VMware to develop, deliver and support best-in-class integrated solutions. We provide expert services and global support to maximize the value customers derive throughout the lifecycle of their systems.
- **Big data.** We are in an era of big scale, in which the amount of data processed and stored by enterprises is stressing traditional storage architectures. Companies must find ways to manage their data affordably, while extracting greater business value from it. NetApp big data solutions help customers cost-effectively manage extremely large datasets, ingest and process data at high speeds and analyze both structured and unstructured data. With NetApp, customers are able to extract more value from their data by getting control of data growth and scaling limitations of traditional storage architectures.
- **Flash.** Falling NAND flash prices, combined with increasing performance requirements, have been fueling the market demand for flash storage. Flash, in the form of solid-state drives (SSDs) and memory cards, is transforming the speed of business. Flash-based devices reduce data access time and speed application performance. In addition, they are more compact than high-density hard disk drives (HDDs) and use less energy. At the device level, SSDs are still more costly than HDDs, but they can reduce the need to overprovision HDD storage, thus lowering the overall cost of ownership. Our approach to this market is to maximize the value of flash across the entire computer, network and storage stack. Our customers are able to choose the most cost-effective approach for each unique workload. Even though flash is a new market, enterprises expect new flash solutions to provide global scale, efficiency and reliability — the hallmarks of all NetApp flash solutions.

1.1 Equipment Overview

NetApp offers two storage platforms, each engineered to serve different goals. Our unified FAS storage platform based on NetApp Data ONTAP software offers integrated protection, data management and built-in efficiency for virtualized, shared infrastructures and business applications. Our E-Series platform featuring SANtricity® storage management software, offers high-performance, reliable, scalable, and space-efficient storage for demanding workloads with an optimized price to performance ratio.

Both platforms reflect our commitment to the principles of simplicity, innovation, and dedication to customers and partner success. Both platforms have a proven track record of reliability and performance, are highly cost efficient, and provide flexibility for diverse workloads.

We believe that by providing greater efficiency and flexibility, our solutions help improve business productivity, performance, and profitability, while providing investment protection and enhanced asset utilization. Our enterprise-class storage solutions are complemented by our services expertise to maximize the business benefits that customers gain from deploying our storage products.

1.1.1 FAS Storage Platform

The Fabric Attached Storage (FAS) platform offers highly available, scalable and cost-effective storage solutions that incorporate our unified FAS storage family and the feature-rich functionality of our Data ONTAP storage and data management software.

Data ONTAP Software

Our FAS and V-Series storage solutions are based on the NetApp Data ONTAP operating system (OS), which is the world's #1 branded storage OS in terms of both revenue and terabytes, according to IDC's Worldwide Quarterly Disk Storage Systems report for calendar year 2012. Data ONTAP concurrently supports any mix of storage area network (SAN) and network-attached storage (NAS) environments. Our platform is compatible with UNIX®, Linux®, Windows®, and web environments.

Clustered Data ONTAP software provides superior capabilities to enable IT agility. When IT is agile, customers can innovate more quickly, get to market sooner, and operate more efficiently and cost effectively. This software provides the foundation for the full breadth of business applications and data storage and protection requirements. It features scalability, secure multi-tenancy and unification across protocols and disks.

Data ONTAP also unifies storage efficiency, data management and data protection. We believe customers can benefit from these capabilities as they increasingly virtualize their application environments. Our deduplication for primary and secondary storage, thin provisioning and highly efficient hardware help maximize utilization while reducing data center footprint and lowering storage-related power and cooling consumption. A few of the technology features we offer with Data ONTAP include:

- DataMotion™, which provides nondisruptive data mobility for volumes and virtual storage controllers;
- Infinite Volume, which creates a single volume that can scale up to 20PB to provide a large container for storing seldom-accessed data or fixed content;
- Parallel NFS (pNFS), which offers an industry-standard framework for shared, high-performance parallel I/O for applications running on large compute clusters;
- FlexShare® quality-of-service tool, which directs how storage system resources are used to deliver an appropriate level of service for each application;
- MultiStore® software, which allows partitioning of individual physical storage systems into multiple secure and separate logical partitions; and
- RAID-DP®, safeguards data from double disk failure. Integrated with our WAFL® (Write Anywhere File Layout) file system, RAID-DP gives customers data protection plus high performance.

Storage Efficiency

Our portfolio of efficiency technologies helps our customers reduce their storage spending and get more from the storage assets they already own. Some of the efficiency technologies we offer include:

- FlexVol® technology, which provides for thin provisioning through virtual volumes, enabling storage architectures to be more efficient and achieve higher utilization using flexible volumes that do not require repartitioning of physical storage space;
- FlexClone® technology, which enables true data cloning using logical copies that do not require additional physical storage space and allows for instant replication of data volumes and datasets; and
- Deduplication and compression technology, which allow the reduction of physical space usage within primary and secondary disk storage environments, resulting in greater efficiency and higher utilization of storage capacity. Deduplication reduces physical space usage by removing duplicate blocks on disk. Data compression reduces physical space usage by replacing repeating patterns within chunks of data.

Storage Management and Application Integration Software

NetApp OnCommand® management software improves storage and service efficiency through functions that help customers control, automate, and analyze their shared storage infrastructures. Our management software family of products provides a broad range of storage and data management tools to simplify IT administration and enhance flexibility and productivity. We deliver differentiated products that support industry open standards and interfaces to deliver this value to customers. We tightly integrate our software with database and business application software from partners such as Microsoft, Oracle, SAP, and VMware in order to optimize the performance of those applications on our storage systems.

Through data center automation tools, we give customers the ability to monitor service levels, manage performance, and support change management in complex enterprise SAN and NAS environments. We help customers optimize shared infrastructures by supporting individual application performance, service level, and security needs even while the storage is shared across multiple applications.

1.1.2 FAS Unified Storage Systems Family

Our family of modular, scalable, highly available, unified storage systems streamlines, simplifies, and consolidates the storage layer. The FAS6200, FAS3200, and FAS2000 series of FAS systems are designed to consolidate all types of storage workloads, including primary and secondary data, as well as structured and unstructured data, across all key OS platforms and network infrastructures. Also, we unify storage access for all standard network protocols based on host bus adapter technology and standard Internet Protocol networks. All our FAS systems are interoperable and provide common software services. We provide a data-in-place upgrade path that spans from entry-level platforms for smaller organizations all the way to high-end data center environments. Our FAS unified architecture supports both scale-up and scale-out growth strategies running the highly efficient Data ONTAP operating system.

Customers can increase the performance of our storage using our virtual storage tiering technologies. These technologies help data centers improve performance while minimizing the

cost and complexity of flash. Flash-based devices such as SSDs and controller-based flash can complete 25 to 100 times more random read operations per second than the fastest HDDs, but that performance comes at a premium of 15 to 20 times higher cost per gigabyte. Our strategy for the use of flash is to use it everywhere—from the server to the disk subsystem to the storage controller. For maximum efficiency and ease, customers use our virtual storage tiering technologies to leverage intelligent caching to automatically identify and store hot data blocks in flash while storing cold data on slower, lower-cost media. NetApp flash options include:

- Flash Cache™ modular cache expansion, which improves performance for workloads that are random- read intensive, reducing latency by a factor of 10 or more compared to HDDs. Flash Cache modules are available in capacities up to 1 TB providing controller-based caching.
- Flash Pool™ technology, which makes it possible to mix HDDs and SSDs in a single NetApp aggregate. Flash Pool provides caching of both random read and write operations through the automated use of SSDs. Flash Pool enables the use of capacity optimized HDDs across the majority of application workloads.
- Flash Accel™ technology, which uses a wide variety of server-side flash devices (PCI-e flash memory card or SSDs) as a local cache that offloads I/O from networks and back-end storage to deliver optimum I/O efficiency to the most demanding virtualized application workloads while freeing up server CPU and memory resources. NetApp Flash Accel is currently supported for VMware vSphere infrastructure and works with hardware from such partners as Fusion-io, Micron, LSI, STEC, and Virident Systems.

The following tables provide high level product specifications for the FAS6200, FAS3200, and FAS2000 series. Specifications for the FAS6200 and FAS3200 apply to active-active dual controller configurations.

Features	FAS6290 	FAS6250 	FAS6220 
Maximum Raw Capacity	5,760TB	5,760TB	4,800TB
Maximum Drives	1,440	1,440	1,200
Controller Form Factor	Dual enclosure HA; 2 controllers in two 6U chassis, total of 12U	Dual enclosure HA; 2 controllers in two 6U chassis, total of 12U	Single enclosure HA; 2 controllers in single 6U chassis
Memory	192GB	144GB	96GB
Maximum Flash Cache	16TB	8TB	6TB
Maximum Flash Pool	24TB	18TB	12TB
Combined Flash Total	24TB	18TB	12TB
PCIe Expansion Slots	24	24	8
Onboard I/O: 10GbE	8	8	8
Onboard I/O: 8Gb FC	8–32	8–32	8–16
Onboard I/O: 6Gb SAS	0–24	0–24	0–8
Storage Networking Supported	FC; FCoE; iSCSI; NFS; CIFS/SMB; HTTP; FTP		
OS Version	Data ONTAP 8.1.2 GA or later, Data ONTAP 8.0.5

1.1.3 V-Series Family

NetApp's V-Series family is a network-based virtualization solution that consolidates storage from different suppliers behind our data management interface, providing SAN and NAS access to the data stored in heterogeneous storage arrays. With the V-Series solution, customers are able to:

- Transform existing heterogeneous, multivendor storage systems into a single storage pool;
- Simplify storage provisioning and management with Data ONTAP thin provisioning; and
- Dramatically lower backup time, space, and cost with Data ONTAP Snapshot™ copies. The V-Series family is compatible with the FAS family of storage systems.

1.1.4 Data Protection Software Products

The NetApp Integrated Data Protection portfolio offers a broad range of branded and partner-integrated solutions designed to increase the speed, simplicity, and efficiency of data protection operations in any environment from physical to shared IT to cloud. This portfolio includes:

- Snapshot technology, which enables near-instantaneous, space-efficient online backups of large datasets without affecting system performance;
- SnapRestore® technology, which uses stored Snapshot backups to recover entire file systems or data volumes in seconds, regardless of capacity or number of files;
- SnapVault® and Open Systems SnapVault technologies, which provide network- and storage-optimized data movement for disk-to-disk backup;
- MetroCluster™ systems, which uniquely combine array-based clustering with synchronous mirroring to deliver continuous availability and zero data loss;
- SnapMirror® data replication solutions, which provide disaster recovery protection for business-critical data matched to the recovery point objectives and recovery time objectives of customer environments;
- NetApp SnapProtect® management software, which manages NetApp Snapshot copies, replication, and tape from a single console to enable high-speed, modern backup solutions that solve longstanding data protection challenges; and
- NetApp integrated backup solutions, which bring the speed and efficiency of NetApp Snapshot and replication to customers using our alliance partners' backup solutions. Symantec™ NetBackup™, CommVault Simpana, and Syncsort data protection software can manage our data protection stack to accelerate operations without complicating management.

For more information: <http://www.netapp.com/us/products/protection-software/index.aspx>

1.1.5 Data Retention and Archive Products

To meet growing regulatory compliance demands faced by most enterprises, we offer a broad suite of products to help enable data permanence, accessibility, and privacy to satisfy a variety of different regulations such as the Sarbanes-Oxley Act, FDA Title 21 CFR Part 11, SEC Rule 17a-4, and the Health Insurance Portability and Accountability Act. Cost-effective, resilient, and reliable storage architectures can be created utilizing NetApp SnapLock® products.

1.1.6 Storage Security Products

NetApp's portfolio of encryption solutions complements our unified architecture platform for storage solutions. NetApp Storage Encryption provides seamless access to encryption of data at rest through the use of self-encrypting drives. For traditional SANs, we have partnered with Brocade to provide secure access to fibre channel logical unit numbers (FC LUNs) and tape through Brocade Encryption Solutions. Our partnership with SafeNet brings granular encryption capability, enhanced access controls, and two-factor authentication for NAS file services and Internet small computer systems interface (iSCSI) LUNs. Together, these solutions enable

customers to secure data at rest while meeting governance, risk and compliance requirements for sensitive data.

For more information: <http://www.netapp.com/us/products/storage-security-systems/>

1.1.7 Object-oriented Solutions: StorageGRID

NetApp StorageGRID® is a proven object storage software solution designed to manage petabyte-scale, globally distributed, object-oriented repositories of images, video, and records for enterprises and service providers. NetApp StorageGRID provides tremendous scalability by eliminating the typical constraints of data containers in blocks and files. It supports billions of files or objects and petabytes of capacity in hybrid cloud storage architectures with a single global namespace.

NetApp StorageGRID enables intelligent data management and secure content retention. Data placement and secure content retention are optimized by aligning system and business process management metadata with a global policy engine that manages how data is stored, placed, governed, protected, and retrieved. Content is protected from tampering using technologies such as digital fingerprints and encryption.

Other big content offerings include the NetApp solution for archive as a service and NetApp StorageGRID healthcare solution.

For more information: <http://www.netapp.com/us/products/storage-software/storagegrid/index.aspx>

1.1.8 E-Series Storage Platform

E-Series systems offer OEMs a high-performance, modular storage platform with flexible scalability, space- efficient density, and high reliability for their purpose-built solutions and value-added customizations. This combination makes E-Series systems ideal for high-performance environments that are characterized by massive amounts of critical data and computing demands that require enterprise-class scalability and reliability. Our server OEMs also take advantage of E-Series attributes to deliver entry storage systems to their diverse customers.

We leverage the E-Series platform to simplify the deployment of a Hadoop big data infrastructure. We accelerate the time to value for a Hadoop infrastructure and enable customers to scale their deployments more practically and predictably. Working with an ecosystem of partners, we continue our commitment to industry standards and open sources, including the Apache distribution of Hadoop. We also leverage the E-Series platform in the development of big bandwidth solutions for full-motion video, seismic processing, medical content management, and high-performance Lustre solutions.

Feature	E2600 	E5400 	E5500 
Maximum Raw Capacity	768TB	1536TB	1536TB
Maximum Disk Drives	192	384	384

EF540 Flash Array

The EF540, built on the SANtricity operating system, combines consistent extreme performance with enterprise-class high availability, reliability, manageability, and worldwide support. It delivers over 300,000 input/output operations per second (IOPS) and sub-millisecond data access in a highly available, fault-tolerant architecture. It can eliminate storage over-provisioning and greatly reduces costs by cutting space utilization, power, and cooling. The EF540 features intuitive storage management and advanced tuning functions, enabling efficient management

with minimal effort. The storage system has a fully redundant architecture designed to eliminate downtime.

For more information please refer to <http://www.netapp.com/us/products/storage-systems/flash-ef540/index.aspx> and the EF540 solutions brief: <http://www.netapp.com/us/media/ds-3417.pdf>.

Technical specifications for the NetApp EF540 flash array all-SSD enterprise storage system.

Attribute	NetApp EF540
Disk drives	Base system: 12 or 24 SSDs Expansion: 24 SSDs Maximum: 48 SSDs
Raw capacity	Up to 38TB
Drive types supported	2.5" SSD 800GB
Form factor	Base System: 2U/24 Expansion shelf: 2U/24
Memory	24GB
Base I/O interfaces	(8) 8Gb FC
I/O interface expansion options	(8) 8Gb FC (8) 6Gb SAS (4) 10Gb iSCSI (4) 40Gb InfiniBand
OS version	SANtricity® 10.86
High-availability features	<ul style="list-style-type: none"> • Dual active controller with automated I/O path failover • RAID levels 0, 1, 3, 5, 6, and 10 • Redundant, hot-swappable controllers, disk drives, power supplies, and cooling fans • Automatic drive failover and detection and rebuild using global hot spare drives • Mirrored data cache with battery backup and destage to memory • Nondisruptive controller firmware upgrades (no interruption to data access) • SANtricity proactive drive health monitoring tracks SSD wear life and alerts when threshold is reached • SANtricity persistent monitor makes periodic copies of the storage system configuration
Operating systems supported	Microsoft® Windows Server®, Red Hat Enterprise Linux®, Novell SUSE Linux Enterprise Server, VMware® ESX®, Oracle® Solaris, HP HP-UX, Apple® Mac® OS

Introduction of the FlashRay™ Platform

In February 2013, we announced that we are developing new all-flash storage architecture to bring rich scale-out and efficiency capabilities to flash arrays. We expect this new product line to also provide consistent low-latency performance, high availability, and integrated data protection, as well as, enterprise storage efficiency features such as inline deduplication and compression.

1.2 Services Overview

NetApp customers demand high availability and reliability of their storage infrastructure to ensure the successful ongoing operation of their businesses. Our services are designed with this in mind. We provide professional services, global support solutions, and customer education and training to help customers most effectively manage their data. The professional services and support solutions we offer help our customers to resolve business problems, reduce costs, keep businesses up and running continuously, comply with regulations and policies, and improve overall operational results. We utilize a global, integrated model to provide consistent service delivery and global support during every phase of the customer engagement, including assessment and analysis, planning, design, installation, implementation, integration, optimization, ongoing support, and remote management and monitoring. Services and support often involve phased rollouts, technology transitions and migrations and other long-term engagements.

1.2.1 NetApp Customer Success Services

Customers require the right level of support to maximise your storage infrastructure investment. Your support plan needs to apply thorough knowledge of your business for a fast, efficient resolution of your most challenging data storage issues.

NetApp® Global Support delivers the systems, processes, and people to help you anywhere in the world with global consistency, addressing complex issues and driving them to quick resolution. Our award-winning Customer Success Services (CSS) provides WSCA end users with greater control over your data by offering a flexible range of storage networking experts and automated prevention processes.

NetApp CSS helps to actively preempt support problems, enabling the highest availability for your data environment with fewer and less severe support cases. If an issue arises, storage administrators can rely on our technical support staff for prompt resolution.

1.2.2 Support Offerings

The following describes our support offerings, which include:

- Standard warranty service
- Software Support Plan
- SupportEdge family

More information about our support offerings can be found on the NetApp Support site (formerly the NOW® site): <http://support.netapp.com>.

Warranty

NetApp typically warrants hardware for a period of three years from the date of delivery. In the event of material nonconformity during warranty, NetApp will repair or replace the hardware or refund the purchase price paid by purchaser for the non-conforming hardware. Replacement parts will be warranted for the remainder of the Hardware Warranty period.

Software comes with a 90-day media replacement warranty (material conformance to published documentation and free from media defects). The warranty becomes effective on the shipment date.

The NetApp systems warranty is augmented by our comprehensive support services for both hardware and software. These services offer maintenance and support packages and extended warranty options.

Hardware Warranty

NetApp provides the following support during the warranty period for hardware.

Remote Technical Support

Personnel may contact NetApp by telephone or by web interface on a 24/7/365 basis to report a problem on NetApp hardware.

Parts Replacement

If a NetApp Customer Support Center (CSC) engineer determines that a hardware product needs to be returned, a return material authorisation (RMA) number will be assigned to the transaction and a replacement part will be ordered.

Replacement Parts Target Response Objective

Replacement parts will be shipped to end user's site by the next business day. Note that local shipment cut-off times might affect the next local business day delivery of replacement parts.

Access to the NetApp Support Site

Customers who have registered can access the NetApp Support Site on a 24/7/365 basis.

AutoSupport and NetApp Remote Support Diagnostics Tool

Specific NetApp hardware products such as AutoSupport and the NetApp Remote Support Diagnostics Tool (RSDT) have the ability to automatically contact NetApp and create independent technical support cases on behalf of WSCA end users. Early detection of a support problem assists in the prevention or faster resolution of an issue.

Software Warranty

NetApp warrants the following support during the 90-day software warranty period. As of the software delivery date:

- The software will materially conform to NetApp documentation.
- The media containing the software (but not the software itself) will be free from physical defect.

Should there be any material defect in NetApp software during the warranty period, NetApp will repair, replace or refund the nonconforming software. NetApp does not warrant that purchaser's use of the software will be error free or uninterrupted. This warranty covers only material defect

in the software that are reproducible and verifiable and does not cover software, other items or any services provided by persons other than NetApp or a NetApp authorised service provider.

To learn more about the NetApp hardware and software warranty as well as the support provided, visit the NetApp General Terms and Conditions page on our website: www.netapp.com/us/how-to-buy/stc.html.

Software Support Plan

The NetApp Software Support Plan (SSP) is available on eligible NetApp software. The following table lists the support features of the NetApp SSP.

Note: For software based on Data ONTAP® licensed on a NetApp system, the NetApp SSP may only be purchased for software installed in a system covered by a valid hardware warranty or extended warranty hardware support offering.

Table 1: NetApp Software Support Plan.

NetApp Software Support Plan (SSP)		
Feature	Description	Software Support Plan
Remote technical support	Customer may contact NetApp by telephone or by web interface on a 24/7/365 basis to report a problem with the company's NetApp software (SW)	Included for eligible NetApp SW*
Access to the NetApp Support Site	Customer has access on a 24/7/365 basis to the NetApp Support Site	Included for eligible NetApp SW*
Software updates	NetApp provides access to commercially available SW updates through the NetApp Support Site when and if available, as determined by the NetApp CSC	Included**

* View support offerings terms and conditions of sale for specific definitions, responsibilities and exclusions. Product descriptions are subject to change without notice.

** If customer is purchasing NetApp Software Support Plan for Lustre SW or Hortonworks SW, the feature 'software updates' is not included in the NetApp SSP because the appropriate SW updates are available directly from the respective SW vendor. In this case, the price of the SSP is reflective of this feature not being provided by NetApp.

1.2.3 SupportEdge Services Family

Customers require cost-effective support, whether you work with a large enterprise, a classified government installation or a small business.

The NetApp SupportEdge family of services provides simple, effective and affordable ways to maximize your storage investment. Organizations can create a global support strategy by choosing the appropriate support options for each location and enterprise:

- SupportEdge Standard
- SupportEdge Premium
- SupportEdge Secure for Government

SupportEdge Standard

NetApp SupportEdge Standard answers customer's request for flexible and remote support services. SupportEdge Standard is designed for less critical operations within an enterprise, at remote locations or when you have the expertise and staffing to perform your own on-site maintenance.

Customers' receive both hardware and software coverage with SupportEdge Standard and a more responsive level of service above our basic warranty:

- Quick mean time to resolution with a minimum target response objective (TRO) in as few as 2 hours
- Optional 4-hour parts replacement
- Inclusive Software Support Plan
- Targeted software and hardware support by NetApp experts
- Reduced maintenance burden on your IT staff

Replacement Parts Target Response Objective and Optional Installation of Replacement Parts

When selecting SupportEdge Standard, you choose from the following response time options:

- **Next business day (NBD) installation of replacement parts.** A NetApp authorised service engineer (ASE) will remove the defective product and install the replacement product by the next business day (Monday–Friday, 8 a.m.–5 p.m. customer local time). This commitment can be met only if the RMA has been issued prior to 3 p.m. customer local time. After 3 p.m., both the ASE and the replacement product will arrive at your site within two business days from RMA issuance.
- **4-hour installation of replacement parts.** A NetApp ASE will remove the defective product and install the replacement product within 4 hours of the RMA being issued by NetApp Technical Support. The NetApp ASE might arrive outside standard business hours because this level of support includes 24/7 availability.
- **4-hour delivery of replacement parts only.** The replacement product will arrive at your site within 4 hours of the RMA being issued by NetApp Customer Support. The replacement product might arrive outside standard business hours because this level of support includes 24/7 availability.

Software Support Plan

Software with SupportEdge Standard support is covered by the NetApp SSP.

SupportEdge Premium

NetApp SupportEdge Premium is designed for mission-critical systems requiring optimal performance, availability and expedited support. The Premium option offers remote troubleshooting and resolution capabilities along with expert on-site resources, when needed, to support your most demanding IT operations.

Organizations can rely on NetApp SupportEdge Premium services to keep your business-critical environment up and running because it offers faster response times, on-site troubleshooting and multivendor support.

- Includes hardware and software initial product installation
- Includes on-site support

- Offers 4x faster TROs than SupportEdge Standard, with faster parts delivery available in select locations
- Includes NetApp Unified Support, our multivendor support assistance
- Includes installation of remedial software updates
- Higher priority case routing than standard or warranty coverage

Hardware and Software Initial Product Installation

- **Site preparation and installation preview.** A NetApp ASE and customer will jointly conduct the preinstallation review prior to installation. The review will evaluate the site and network environment. In addition, the NetApp ASE will address information, host and client compatibility and inclusion of hardware and software components necessary for successful operation of the NetApp product.
- **Basic hardware setup.** A NetApp ASE will install necessary racks and cabinets, physical connection, cabling components, power components and network components to facilitate the NetApp product.
- **Connect NetApp equipment to existing networks.** A NetApp ASE will configure one initial file system for each network-attached storage (NAS) protocol and/or logical disk unit (LUN). SnapMirror® or SnapLock®, if purchased, will be installed and enabled at this time.
- **Verification and test.** A NetApp ASE will run appropriate protocol verifications and proper failover (if clustered).
- **Enable AutoSupport and NetApp Remote Support Diagnostics Tool.** A NetApp ASE will enable the NetApp AutoSupport capability and RSDT (on qualifying systems) so that the NetApp CSC can communicate with NetApp equipment.
- **Installation of hardware and software on a scheduled basis during standard business hours.** If this activity is performed during nonbusiness hours or weekends, additional fees might apply.
- **After a successful setup.** A NetApp ASE will provide customer with a brief orientation to the NetApp Support Site and assist with system registration.

On-Site Support

- When customer opens a technical support case with NetApp CSS, a technical support engineer (TSE) initiates problem identification and repair as necessary.
- For priority 1 cases, if the problem cannot be resolved remotely and the TSE and customer agree that on-site support is necessary and appropriate; the TSE will dispatch a NetApp ASE to the customer site. The ASE works with the CSC to diagnose and isolate the problem, make necessary changes and restore systems to normal operation. These changes might include installing necessary software updates and/or replacing hardware components.
- The service-level agreement (SLA) for this P1 on-site event support is subject to the same service-level time frame (2-hour/4-hour/next business day) that was specified for parts exchange response time with the purchase of Premium Support. NetApp will determine the most appropriate on-site support engineering resource to work on resolving this issue and restoring normal operation.

Replacement Parts Target Response Objective and Installation of Replacement Parts

SupportEdge Premium provides the following response time options:

- **Next business day.** The replacement product will arrive at site along with a NetApp ASE to remove the defective product and install the replacement product by the next business day (Monday–Friday, 8 a.m.–5 p.m.) at customer local time. This commitment can be met only if the RMA has been issued prior to 3 p.m. at the customer's local time. After 3 p.m., the replacement product and the NetApp ASE will arrive at the customer site within two business days from RMA issuance.
- **4-hour.** The replacement product will arrive at site along with a NetApp ASE to remove the defective product and install the replacement product within 4 hours of the RMA being issued by the CSS. This level of support includes 24/7 availability, which means the replacement product and the NetApp ASE might arrive outside of standard business hours.
- **2-hour.** The replacement product will arrive at site along with a NetApp ASE to remove the defective product and install the replacement product within 2 hours of the RMA being issued by the CSS. This level of support includes 24/7 availability, which means the replacement product and the NetApp ASE might arrive outside of standard business hours.

Install Remedial Software Update

In order for the Customer Support Centre to resolve an open case, the TSE might determine that certain software or firmware changes must be installed on the customer's system.

If this occurs, the NetApp TSE, with the customer's agreement and participation, will determine the appropriate method to install the necessary software or firmware on the product with the serial number for which the case was originally opened.

In addition, the TSE and the customer will determine a mutually agreeable date and time for this specific upgrade activity to occur. Depending upon the specific circumstances, NetApp might choose to dispatch a NetApp ASE to the customer site to direct or assist in upgrade activities. These upgrades can be scheduled during nonbusiness hours.

A Professional Services manager is available to assist you in upgrading additional systems with the same upgrade.

Software Support Plan (SSP)

Software with SupportEdge Premium support is covered by the NetApp SSP.

Priority Case Management

Customer will receive priority service on cases with NetApp SupportEdge Premium support coverage. All cases opened by a Premium support customer will be taken before the cases of NetApp customers who have Standard or hardware warranty support coverage.

In addition, Premium cases will be handled by a more senior-level TSE to help expedite resolution.

Note: Premium support must be purchased in conjunction with existing or extended hardware warranty support coverage.

SupportEdge Secure for Government

SupportEdge Secure for Government (SESG) is specially designed for systems that have high security demands, including worldwide classified and nonclassified government users.

Customers can be assured of secure support that includes specially designated engineers, specialized processes and sanitising software and capabilities.

- Designated case handling by a TSE who is a U.S. citizen on U.S. soil
- Designated on-site troubleshooting by an engineer who is a U.S. citizen on U.S. soil
- Customised case management processes for minimal amount of information sharing
- Secure basic installation service

SupportEdge Secure for Government is available in two options:

SESG On-Site

SESG On-Site provides customer with ASEs for parts replacement and FSEs for troubleshooting and on-site support.

SESG Parts

SESG Parts is intended for customer's sites where security measures restrict NetApp from sending personnel on site.

SCIF for Engineering Escalation

SESG includes access to a team of specially trained sustaining engineers that hold the appropriate security clearances to provide support from the NetApp Sensitive Compartmentalised Information Facility (SCIF) in Raleigh, North Carolina, and/or Vienna, VA.

Table 2: NetApp SupportEdge family of services.

Access to NetApp Support site	✓			
Software updates	✓			

1. NBD = next business day.
2. TRO availability is based on the location of the installation site.
3. These features are included with HW warranty and extended warranty HW support.
4. If customer is purchasing Premium from an authorised NetApp reseller, the reseller may choose to replace storage system installation with its own installation service. In this instance, the price of Premium would be reflective of this feature not being included.

1.3 Value Added Support and Service Offerings

1.3.1 Optional Value Added Support Offerings

Maintaining your storage infrastructure has never been easier. Maximize your system availability with personalized support services from our technical experts who understand your data center environment.

Take advantage of our suite of value-added support services:

NetApp Support Account Manager: Proactive personalized service designed to reduce risk, minimize issues, and gain operational consistency.

- Proactive personalized service - support best-practice guidance and reviews focused on aligning your storage management solutions with your strategic IT objectives
- Upgrade Guidance - More efficient storage system upgrades with targeted recommendations and tracking
- <http://www.netapp.com/us/library/datasheets/ds-3176.html>

NetApp Support Advisor: Your support advocate focused on optimizing your storage infrastructure through support best-practices and incident management.

- Personalized service - provided by an English speaking individual, in a NetApp Technical Support Center.
- Focused incident response - Minimize potential business impact with 24x7 critical incident management
- <http://www.netapp.com/us/library/datasheets/ds-3174.html>

NetApp Resident Support Engineer: Day-to-day onsite support from a dedicated expert on NetApp products, processes, and tools to more quickly facilitate storage health, case

management, and routine maintenance. This offer is under limited availability. Check with your NetApp Account Manager or certified partner for more information.

- Onsite reactive support – break-fix hardware parts replacement, issue troubleshooting as part of day-to-day onsite support, and installation of remedial software updates
- Onsite proactive support – proactive and predictive tools, streamlined processes and preventive measures as recommended in the NetApp Customer Fitness program
- <http://www.netapp.com/us/library/datasheets/ds-3307.html>

NetApp Non-Returnable Disk Service (NRD): The NetApp Non-Returnable Disk Service is available on the following:

- NetApp Hardware (including related firmware and Data ONTAP® operating system)
 - During the applicable hardware warranty period.
 - Upon expiration of original hardware warranty period, in conjunction with purchase of Extended Warranty Hardware Support or any Extended Warranty SupportEdge offering (Standard, Premium, Secure for Government).

Entitlement Details:

The NetApp Non-Returnable Disk Service (NRD) eliminates the need for a customer to return defective disk drives to NetApp when a replacement disk drive has been sent under a parts exchange request and return materials authorization (RMA). NRD allows customers to keep and dispose of failed disk drives on their own.

Customer will pay an annual charge per system for being released of responsibility to return defective disk drives to NetApp. This same charge applies regardless of the number of replacement disk drives that are requested.

1.3.2 Optional Value Added Services

Overcoming the complexities of your IT infrastructure presents never-ending challenges. Your success relies on continuously refining and advancing your data center. NetApp Professional Services delivers an industry-leading team of storage and data management experts and is the partner who can help you capitalize on the full potential of NetApp's innovative technologies.

Our professional service value added offerings include:

- Assessment Services
- Consulting and Deployment Services
- Management Services

Our expert staff is ready to assist you in every phase of your deployment. Whether you need help planning your next-generation storage system, implementing a storage solution, or upgrading your existing infrastructure, trained NetApp professionals will make sure you get the most out of your storage investment.

1.3.2.1 Assessment Services

Assessment Services give you the insights you need to lower costs, avoid risks, improve performance, and realize new opportunities. These services can increase your return on investment by providing a solid understanding of the many assets across your infrastructure. Our IT experts help you thoroughly identify and document business, storage, and infrastructure requirements and then deliver recommendations to make improvements.

NetApp Enterprise Transformation Workshop

We help customers align their IT plans with their business goals to create a storage architecture and operational processes that support future IT projects.

- <http://www.netapp.com/us/library/datasheets/ds-2937.html>

NetApp Efficiency and Optimization Services (NEOS)

We leverage innovative tools to analyze and report on your current storage utilization and make recommendations for improved efficiency.

- <http://www.netapp.com/us/library/datasheets/ds-3024-efficiency-optimization.html>

NetApp Performance Consulting Service

NetApp consultants will perform real-time analysis across the NetApp storage infrastructure to help customers resolve performance problems and plan for current and future workloads.

- <http://www.netapp.com/us/library/datasheets/ds-2895.html>

NetApp Infrastructure Consulting Service

This comprehensive offering will focus on best practices for performance, utilization and high availability. We look at application and business needs to make sure the storage infrastructure aligns with requirements.

- <http://www.netapp.com/us/library/datasheets/ds-3225.html>

1.3.2.2 Consulting and Deployment Services

NetApp Consulting and Deployment Services accelerate your implementation, maximize your operating efficiency, and get you up and running quickly.

Decisions you make today regarding planning and implementing your infrastructure will impact your business far into the future. The NetApp team of specialists provides comprehensive architectural design and planning services to optimize your virtualization, backup, disaster recovery, network storage, and security practices.

Once the planning phase is complete, NetApp consultants will apply the appropriate Implementation Services required to achieve a successful deployment. We'll install, set up, and verify your high-performance NetApp system for optimal results.

Infrastructure

- SANscreen Implementation Service (<http://www.netapp.com/us/library/datasheets/ds-2883.html>)
- Operations Manager Implementation Service (<http://www.netapp.com/us/library/datasheets/ds-2877.html>)
- Rapid Deployment Service (RDS) + Operations Manager Implementation Service (<http://media.netapp.com/documents/ds-3154.pdf>)

1.3.2.3 NetApp Management Services

NetApp Management Services help you realize the full value of your investment in NetApp storage solutions.

- <http://media.netapp.com/documents/ds-3175.pdf>

The transition from traditional, dedicated application silos to a shared IT storage environment is a major step – one that increases the criticality of good operational management and practices. To reduce risk, and gain the full benefits of NetApp technology, on-site resident staff can be deployed in your data center to meet any operational need.

Let NetApp help you boost the effectiveness of your IT organization with certified administrators, engineers, consultants, architects, and project managers. Our highly skilled storage professionals work as part of your corporate IT team, offering deep NetApp expertise as they roll up their sleeves to help your business run at top efficiency.

Working side by side with your staff, NetApp professionals help you realize the benefits of flexible solutions that keep you on top of your business and ahead of your competition. It's the ideal way to maximize your investment in NetApp technology.

We provide on-the-spot experience, expertise, knowledge transfer, and best practices to manage and operate your storage infrastructure and accelerate your new IT initiatives. By handing off an agreed-to set of tasks to your NetApp professional, we can help you reduce the risk of outages caused by inefficient operational practices. Your internal resources can pay attention to other parts of your IT infrastructure and save you time and money.

NetApp residents now help hundreds of global companies with every aspect of their data storage needs. By partnering with NetApp Professional Services, you and your organization will be engaging the best in the business.

Simply choose one or more of our five professional skill levels:

- Storage Administrator

- Storage Management Engineer
- Storage Management Consultant
- Storage Management Architect
- Storage Project Manager

1.3.3 NetApp University

NetApp University offers professional training and certification programs that help end users fully leverage NetApp enterprise solutions to meet your specific business and technical requirements.

The NetApp University Learning Center is the primary training source for all your NetApp learning and training needs, offering access to technology information that is essential to successfully support your NetApp products.

We partner with a number of training companies worldwide to provide you and your staff members with proven methods that maximise performance, minimize downtime and training costs and conserve valuable personnel resources.

Hands-On Learning Prepares You for Real-World Challenges

Our courses incorporate known best practices and focus on the effective application of our management tools to develop and challenge your skills. With significant time devoted to hands-on labs in each course, there is ample opportunity to assess problem situations, experiment with workload conditions, fine-tune options, develop and test disaster recovery scenarios and upgrade systems—all in a risk-free, nonproduction environment. The proficiencies you develop will help to buy back time on the job by deploying the most robust infrastructures and enabling the use of productive long-term resources.

Training Options Designed to Fit Your Needs

You choose the training delivery that best fits your schedule and work environment. End users will benefit from our courses with minimal impact on your normal work demands, with training options such as:

- Conveniently located instructor-led classroom instruction through our global Authorised Learning Partners
- Web-based self-paced courses
- Virtual Live instruction, which allows you to attend a live instructor-led course from the convenience of your own location

Course Descriptions and Schedules

NetApp University has an extensive list of courses from which to choose covering all aspects of our technology and configurations. Our full range of education and certification services can help end users maximise your return on investment for your storage solution, lower your total cost of ownership and provide the foundation of an advanced business solution.

Visit NetApp University Learning Center to access our full range of available courses, register for training and see scheduled times of delivery:

1 Response to Section 4: Cost Proposal

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
1	<p>PRICE STRUCTURE. This RFP will employ a MINIMUM discount-off list price structure with categorized exceptions for each band. It is understood there may be categories within a band which carry a different discount than the minimum stated. For example, the minimum discount for the laptop band could be 50%. The responder may name an additional category of laptops “Laptop Brand X” at 45% and “Laptop Brand Y” at 60%. Responder may categorize these exceptions by naming as categories and identifying the associated discounts in the price workbook. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all “quantity one” procurements. It will also serve as verification for the WSCA Master Agreement Administrator upon submittals of product additions. An end user will be able to verify pricing using the base line price list and the minimum discounts with the categorized exceptions provided. The responder must designate a “Base Line Price List e.g. MSRP, education price list. The price list submitted must be dated: November 15, 2013. A discount schedule is to be provided for each band in the Price Workbook. Responders may define additional categories within a band. The category discounts may be higher or lower than the than the band discount. Responder must describe all available options for pricing services in the Price Workbooks such as discount off list, hourly fees, per unit fees, etc. The worksheet allows for up to seven categories, however the responder may edit their submission to include additional categories if needed.</p> <p>NetApp has read, understands, and complies with the requirement. NetApp has included additional categories and discounts under Band 5.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
2	<p>PRICE WORKBOOKS. Price Workbooks will be used to evaluate. Responders will be evaluated on the Price Workbook which includes a market basket for each band. For each band proposed, the Responder must complete the Price Workbook which includes several worksheets.</p> <p>The market basket includes selected configurations, services, peripherals, third party products to</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>fairly evaluate discounted pricing. In evaluation the State reserves the right to:</p> <ul style="list-style-type: none"> a. Eliminate an item from consideration from all responses. b. Enter the highest price item of all responses received when an item has not been provided by a responder. c. Request additional pricing items for consideration. d. Clarify pricing responses with responder(s). e. Include options, quantity discounts and/or services for basis of calculating the cost utilized in evaluation. <p>The Contract Vendor will maintain the discount structure as bid throughout the term of the Master Agreement.</p> <p>For the purpose of comparing pricing across a standard group of products, the prices provided by the responder in the Price Workbooks will be utilized to calculate cost points. Vendors must use the minimum percentage discount stated from a published or base line price listing for a “quantity one” purchase in the Pricing Workbook.</p> <p>Minimum specifications are provided in the Price Workbooks.</p> <p>Manufacturer specific items may be substituted for the minimum specification if the manufacturer is able to provide an approved equal. The lead state reserves the right to reject any or all responses that are not an approved equal.</p> <p>FINAL EXCEL PRICE WORKBOOKS WILL BE PUBLISHED VIA AN ADDENDUM.</p> <p>Addendum 5 provides links to updated Pricing Workbooks.</p> <p>There are a total of six workbooks:</p> <p>Band 1: Desktop:</p>		

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>Band 2: Laptop</p> <p>Band 3: Tablets</p> <p>Band 4: Server:</p> <p>Band 5: Storage</p> <p>Band 6: Ruggedized:</p> <p>INSTRUCTIONS:</p> <p>1. Each workbook contains several tabs. Responder is to fill in the yellow highlighted areas. Once filled in the yellow highlight disappears.</p> <p>2. The workbooks are locked, however there is not a password and responder may revise as needed ensuring they supply yellow highlighted fields.</p> <p>3. It is understood that different components may make up a total configuration for the market basket item. The responder may provide additional detail to how the discount provided in the market basket was calculated.</p> <p>The Lead State reserves the right to request additional pricing, if in the best interest of the state or to clarify pricing responses.</p> <p>NetApp has read, understands, and complies with the requirement.</p>		
3	<p>BASELINE PRICING VERIFICATION. The responder must designate a Base Line Price e.g. MSRP, education price list in the price workbook. The price list submitted is to be dated: November 15, 2013. Describe how the designated Base Line Price List will be accessed and verified by potential end users, contract administrators, etc. All historic versions of the Baseline Price List must be made available upon request pursuant to the audit provisions. The responder must provide ONE HARD COPY and ONE ELECTRONIC COPY (USB DRIVE OR CD) of the dated Baseline Price List with the response. The dated Baseline Price List provided shall be used for completing the price</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>workbook when “List/MSRP” price is requested.</p> <p>NetApp has read, understands, and complies with the requirement. The baseline pricing is the NetApp North American Price List which has been included in the response. Baseline pricing is also verifiable by accessing the required WSCA website from www.netapp.com. NetApp currently hosts websites for all directly held contracts that similarly require the posting of contract pricing including list pricing/MSRP. These sites can be accessed from the following URL that will allow for list pricing to be verified: http://www.netapp.com/us/how-to-buy/contracts/.</p>		
4	<p>MINIMUM DISCOUNTS. The Contract Vendor will provide a MINIMUM discount off base line price list for each band with categorized exceptions. It is understood there may be categories within a band which carry a different discount than the minimum stated. For example, the minimum discount for the laptop band could be 50%. The responder may name an additional category of laptops “Laptop Brand X” at 45% and “Laptop Brand Y” at 60%. Responder may categorize these exceptions by naming as categories and identifying the associated discounts in the price workbook. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all “quantity one” procurements. It will also serve as verification for the WSCA Master Agreement Administrator upon submittals of product additions. An end user will be able to verify pricing using the base line price list and the minimum discounts with the categorized exceptions provided. The named category exception discounts may be higher or lower than the than the minimum band discount. These discounts must remain firm, or the discount may be increased, during the term of the Master Agreement. This minimum discount and categorized exceptions will be applied to all “quantity one” procurements. It will also serve as verification for the WSCA Master Agreement Administrator upon submittals of product additions. An end user will be able to verify pricing using the base line pricing and minimum discounts and categorized exceptions provided.</p> <p>NetApp has read, understands, and complies with the requirement.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
5	<p>THIRD PARTY PRODUCTS. Third party products may be offered as peripherals and options in the Price Workbook. Third Party products will be approved upon finalization of the PSS. Contract Vendors are not able to offer another Contract Vendor's product as a third party without approval. If third party products are offered, a third party product minimum discount will be stated in the price workbook.</p> <p>NetApp has read, understands, and complies with the requirement. Third party products have been included in the Products and Services Schedule under NetApp product category C. These products include SAN switching and other necessary equipment that may be necessary for the proper functioning of the storage environment.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
6	<p>REFRESH STRATEGY. Describe your recommended refresh strategy for your product line.</p> <p>Major refreshes are targeted for every two years for the FAS product line at a minimum. The product lifecycle of NetApp storage controllers is typically three to five years, with support guaranteed for five more years after the end of availability of that platform.</p> <p>NetApp releases software on an ongoing basis. New software functionality is coded so that it works, at a minimum, on all of our currently active platforms. We go through a rigorous process to make sure that NetApp is ready to provide enterprise-class support of our software when it is released for general availability (GA). Once released for GA, a software program typically has a life of two years. We typically distribute maintenance releases for that GA release once per calendar quarter, and release patch releases approximately twice per month and as necessary to resolve software issues. We continue to develop patches, fixes, and workarounds for software major releases for two years after the end of availability (EOA) of a software program.</p> <p>The following table indicates in-service dates (general availability) for NetApp's most current FAS product line.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

7	<p>MAINTAINING COMPETITIVE PRICING. Proposers will provide an initial MINIMUM discount with categorized exceptions off baseline price list for a quantity of one unit. Proposers are to base discounts on the collective volume of potential purchases by the participating entities. Further bulk/quantity savings may be obtained when additional quantities are requested. In order to maintain competitive pricing throughout the full life of the Master Agreement, Contract Vendor and Participating entities must understand it is the expectation to provide competitive pricing at the quantity one level. Additional savings are expected when recompeting the awarded vendors for volume pricing.</p> <p>NetApp has read, understands, and complies with the requirement.</p>		M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>												

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
8	<p>PRODUCTS AND SERVICES SCHEDULE (PSS). Responders must submit with their COST proposal a proposed Product and Services Schedule including all the products and services offered within each band for this solicitation. The PSS should be submitted in Excel format. A sample has been provided in the attachments for reference, but is only an example. Other formats are acceptable. Submission of a product and/or service on the sample PSS does not guarantee that it will automatically be approved as being included in the resulting Master Agreement. The products, services and format for the final PSS will be finalized during negotiations.</p> <p>NetApp has read, understands, and complies with the requirement.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
9	<p>BULK PRICING. Utilize the Price Workbook to provide additional volume based pricing for consideration. These will allow for deeper discounts for per transaction and cumulative volume purchases. Examples of bulk pricing models are included in Section 6. Responders must propose how they will provide deeper discount including, but not limited to:</p> <p>1. Per Transaction Multiple Unit Discount. Responders may propose a contractual volume discount program or plan based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase. Include a table indicating the additional discount percentage to be earned by volume purchased at one time.</p> <p>2. Cumulative. Responders may propose a cumulative volume discount based on dollars resulting from the cumulative purchases by all governmental purchasers for the duration of their Master Agreement. Include a table indicating the additional discount percentage to be earned by cumulative volume purchased.</p> <p>3. Other Discounts Describe additional discounts available to States or Participating Entities.</p> <p>NetApp has read, understands, and complies with the requirement. See price workbook for additional information.</p>	M	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
10	<p>PREMIUM SAVINGS PACKAGE PROGRAM. Contract Vendors are encouraged to participate in the Premium Savings Package (PSP) Program. If intending to participate, propose and describe</p>		YES <input type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>commitment to offer and maintain deeply discounted standard configurations. Participants in the PSP program will commit to maintain and upgrade (keep pace with the advance of technology) the standard configurations for a stated period of time or intervals, as determined by the Participating Entities. The standards currently are refreshed every six months (May and November). Refresh schedule is subject to change. See current configurations: http://www.wnpsp.com/index.html. States and other Participating Entities can choose to purchase these packages without any signing additional documents.</p> <p>Contract Vendors may provide Premium Savings & Packages in the bands awarded and comply with the following:</p> <ol style="list-style-type: none"> Provide a WSCA-NASPO Premium Savings Packages-specific SKU for each proposed product. Discount must be provided on Contract Vendor related SKU as well. Standard configurations cannot change or be upgraded during the entire refresh period for any reason other than end-of-life issues (e.g., swapping of processor, motherboard, etc. is prohibited). Prices offered must be offered at a better than the quantity one Master Agreement discount. Pricing increases are generally not allowed unless there is documentation and justification provided. Provide marketing plan of the PSP Program including lead with PSP Program and display prominently on websites to market aggressively to all States. Submit quarterly usage reports broken out by State to the WSCA-NASPO Premium Savings Packages team lead and to the WSCA-NASPO PC Master Agreement Administrator. Individual reports to each State may also be required. The format for the reports must follow the current WSCA-NASPO PC reporting format. 		<input checked="" type="checkbox"/> n/a for server storage vendors

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	This section is not applicable to the storage solution.		
11	<p>PROMOTIONAL OFFERS: Contract Vendors will be allowed to provide promotions for deeply discounted products based on their inventory and sales. Promotions will also provide increased savings to States and other Participating Entities. The Contract Vendors will be responsible to market these offers. Describe what kind of promotions will be available and how marketing will be conducted.</p> <p>NetApp has read, understands, and complies with the requirement.</p> <p>NetApp may provide promotions based upon inventory availability. NetApp sales teams and Partner sales will be apprised and will inform customers of promotional offers as available.</p> <p>NetApp defines sales promotions as a set of defined activities for a specified length of time that are focused on driving incremental revenue as well as one or more of the following:</p> <ul style="list-style-type: none"> • Capturing market share from a competitor • Adjusting inventory levels • Testing new product idea (configuration) • Promotions include a monetary offer (e.g. discount, rebate). <p>Marketing of these promotions are first disseminated internally to sales teams and resellers prior to the promotion start. Shortly before the go live and during the period of the promotion NetApp and its partners will advertise the promotion through email blasts, custom letters to customers, magazine/e-magazine ads, banner ads on select websites, and through targeted webinars for specific customer sets.</p>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
12	Describe the Prompt Payment Terms (if available) to be offered: <input type="checkbox"/> __% 30; <input type="checkbox"/> __% 15/Net 30; <input type="checkbox"/> __% 10/Net 30, <input checked="" type="checkbox"/> Other (specify): <u>1%/Net10</u>		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
13	ADDED VALUE. Responders may propose suggestions on improvements and/or alternatives for doing business with your company that will make this contract more cost effective for your company and participating public agencies. Some suggestions on improvements to make this contract more cost effective would be to ease the reporting requirements and raise the maximum values for the storage products and third party/peripherals necessary for the proper functioning of the storage environment.		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
14	TRADE-IN. The Participating Addendum by each State will identify if and how trade-in or takeback terms will be conducted. If trade in program will be offered, provide pricing. NetApp will be offering a trade-in program however systems being accepted will be evaluated and priced on a case by case basis. This is due to the number of NetApp products still being supported and other criteria such as age of product, types of internal cards, types of disks, etc.		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
15	SERVICES. Services are at the option of the Participating Entity. The Participating Addendum by each State will address service agreement terms and related travel. Responder must describe all available options for pricing services in the Price Workbooks such as discount off list, hourly fees, per unit fees, etc. Services pricing is provided in the Price Workbook and calculated as a discount from list price. Appendix A in the narrative response provides a description of available services. Depending upon the service, pricing can be calculated based upon number or hours, number of weeks, a percentage of hardware and software costs, or can be provided as a firm fixed price or even time and materials.		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>
16	LEASING. Responders are not required to provide leasing. Individual Participating States and Participating Entities may enter in to lease agreements for the products covered in the Master Agreements resulting from the RFP, if they have the legal authority to enter into these types of agreements. The Participating Addendum by each State will identify if and how leasing agreement terms will be conducted. Leasing will be at the option of each participating addendum. If leasing will		YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>

	COST PROPOSAL	M = MANDATORY	MEETS UNDERSTAND & WILL COMPLY?
	<p>be offered, provide rates. Do not submit lease documents or corresponding lease terms as these documents should be addressed in a State's Participating addendum if applicable.</p> <p>NetApp Capital Solutions offers leasing and rates will be tied to the then current like term Swap Rate, plus 80 Basis Points (BP).</p>

NetApp General Terms and Conditions of Sale

- 1 Scope.** NetApp shall sell to Customer the hardware and software products ("the Product(s)") ordered by Customer and listed in NetApp's published price list, as amended from time to time, and shall accept purchase orders from Customer only in accordance with these general terms and conditions of sale. THESE TERMS AND CONDITIONS ARE THE ENTIRE AGREEMENT AND SHALL PREVAIL OVER ANY PURCHASE ORDER OR OTHER DOCUMENT SUBMITTED BY CUSTOMER.
- 2 Prices.** Prices will be based upon the US Price List for shipments within the United States, and upon the International Price List for shipments outside of the United States. NetApp may change and adjust its Price List at any time. For Purchase Orders received and unshipped before a price change, which specify a delivery date within thirty(30) days following the effective date of the price change, shall be invoiced at the price specified on the Purchase Order, not the adjusted price.
- 3 Payment Terms.** Customer commits to make payments within thirty (30) days of the issuance of the invoice. NetApp reserves the right to charge Customer interest on any delinquent balance. This interest is computed on a daily basis for each day that the payment is delinquent at the lesser of fifteen per cent (15%) per year or the maximum rate permitted by law. NetApp reserves the right to refuse shipment to Customer if any delinquencies are outstanding and incurred. NetApp reserves the right to invoice on shipment, including whole or partial orders, and payment shall be due thirty (30) days after the issuance of such invoice. NetApp may refuse to ship on credit for any reason or for no reason at all. NetApp further reserves the right to refuse payment terms if, in NetApp's sole discretion, such terms would create an unreasonable credit risk. NetApp reserves the right to invoice on shipment, including whole or partial orders, and payment shall be due thirty (30) days after the issuance of such invoice. In that event, deliveries will be available only on a C.O.D. or cash-in-advance basis.

No payment by Customer or receipt by NetApp of a lesser amount than the amount of invoice shall be deemed to be other than on account of the earliest due amount, nor shall any endorsement or statement on any check or letter accompanying any check or payment be deemed an accord and satisfaction, and NetApp may accept such check or payment without prejudice to NetApp's right to recover the balance of any amount due or pursue any other remedy provided for in these terms and conditions. In connection with the foregoing, NetApp shall have the absolute right in its sole discretion to apply any payment received from Customer to any account of Customer then not current and due and delinquent.
- 4 Security Interest.** Customer hereby grants to NetApp a security interest covering each shipment of Products made hereunder (and any proceeds thereof) in the amount of NetApp's invoice for such shipment, until payment in full is received by NetApp. Customer agrees to sign and execute any and all documents as required by NetApp to perfect such security interest.
- 5 Proprietary Rights and Software License.** NetApp grants to Customer a non-exclusive and nontransferable license to use the NetApp software ("Software") in object code form solely for Customer's internal business use, and pursuant to the terms stated in NetApp's End User Software License Agreement. All Software licenses are Product and End User specific. Customer may make one (1) archival copy of the Software provided Customer affixes to such copy all copyright, confidentiality and proprietary notices that appear on the original.

Except as expressly authorized above, CUSTOMER SHALL NOT: (i) COPY, IN WHOLE OR IN PART, SOFTWARE OR DOCUMENTATION; (ii) MODIFY THE SOFTWARE; (iii) REVERSE COMPILE OR REVERSE ASSEMBLE ALL OR ANY PORTION OF THE SOFTWARE; OR (iv) RENT, LEASE, DISTRIBUTE, SELL OR CREATE DERIVATIVE WORKS OF THE SOFTWARE.

- 6 Standard Order Procedure.** Products may only be ordered by Customer by mailed or faxed purchase orders by referencing this Agreement and stating the quantity, Product(s), appropriate "ship to" and "bill to" locations, and requested delivery date. Delivery date requested must be no less than five (5) business days after NetApp's receipt of the written, faxed or electronically placed purchase order. Orders shall be subject to written acceptance by NetApp and delivery schedules shall be established in accordance with Product availability and Customer's credit status.
- 7 Change Orders, Cancellation and Rescheduling.** Any and all changes to purchase orders sought to be made by Customer to a purchase order must be provided by mail or fax notice from Customer and are subject to approval by NetApp. All deletions or modifications made to purchase orders within ten (10) days prior to the scheduled shipment date are subject to a restocking charge equal to thirty percent (30%) of the change.

A request to move the ship date forward or increase quantities will be granted provided NetApp can satisfy the request. Reschedule requests made between eleven (11) and thirty (30) days are subject to NetApp's approval at its sole discretion. Only one (1) reschedule per purchase order shall be permitted. The scheduled ship date is assumed to be the same as Customer's requested delivery date. If Customer cancels any portion or all of an order within thirty (30) days of the original shipping date, it shall be assessed a thirty percent (30%) restocking charge equal to a percentage of the net dollar reduction in the purchase price

of the order.

If NetApp is unable to meet the delivery schedule, it shall provide notice as soon as it is reasonably aware of the situation. If NetApp fails to ship within 48 hours of the scheduled ship date, Customer may reschedule or cancel at no charge.

- 8 Right of Return.** No Product may be returned to NetApp except under warranty or repair.
- 9 Delivery.** Delivery is F.O.B. NetApp's facility. Title and risk of loss or damage in respect to the Products shall pass to Customer on delivery to the common carrier. Products are deemed accepted by Customer upon delivery to Customer's common carrier. Customer is responsible for payment of all costs relating to transportation, delivery and insurance. NetApp shall use its best efforts, but shall not be obligated, to deliver the Products in accordance with Customer's shipping instructions and choice of carrier. NetApp will make reasonable efforts to expedite delivery of an "ASAP order" subject to Product availability, but is not obligated to make such delivery on an expedited basis.
- 10 Taxes and Duties.** Customer shall assume all responsibility for taxes on shipments (except taxes based on the gross or net income of NetApp) or provide NetApp with a tax exemption certificate acceptable to the taxing authorities. On orders for shipment outside the United States of America, all required import duties, licenses and fees shall be payable by the Customer in addition to the stated prices. Customer shall also be responsible for both exporting the Product outside the United States and importing the Product into any country outside of the United States.
- 11 Export Law Compliance.** Neither NetApp nor Customer shall export, directly or indirectly, any information acquired under this Agreement or any Products utilizing any such information to any country for which the United States Government or any agency thereof at the time of export requires an export license or other governmental approval, without first obtaining such license or approval. With respect to any transactions under these general terms and conditions of sale, both parties will cooperate, in any reasonable manner, to effect compliance with foreign sales corporation rules as set forth in the Internal Revenue Code.
- 12 Hardware Products Warranty.** Warranty for hardware Products is specific to the Product. For the F700 Series, the warranty period is one (1) year. For all other products sold by NetApp, pursuant to the current price list, the warranty period is three (3) years. All warranties begin on the date that Customer receives the hardware Product. NetApp warrants that each hardware Product sold by NetApp, will operate in accordance with NetApp's published specifications and documentation for the product on the date it is shipped, or NetApp will repair or replace the product, or refund the purchase price. Hardware Product may contain some refurbished parts warranted as new. Replacement parts are warranted for ninety (90) days or for the remainder of the warranty period in effect on the original product, whichever is greater.
- 13 Limited Software Warranty.** For a period of ninety (90) days from the date that Customer receives the Software from NetApp, NetApp warrants that (a) the Software will materially conform to NetApp's then-current documentation and specifications for such Software; and (b) that the media containing the Software (but not the Software itself) is free from physical defects.
- 14 Software Maintenance And Upgrade Options.** For a period of ninety (90) days from the date that Customer initially receives the Software, NetApp will provide Customer with upgrades and support services. Support services consist of the following:
- NetApp will provide technical support by telephone, 24 hours per day, year-round. Customer may call NetApp at (888) 4NETAPP from the United States, and at (408) 367-3178 from all other countries.
- If Customer reports a software problem to NetApp, and NetApp confirms that the problem exists in a software Product, NetApp will use its best efforts promptly to correct or supply a work-around for the error if it substantially degrades the performance of a Product, and to correct other significant errors in future software releases.
- 15 Exclusive Warranties.** THE FOREGOING WARRANTIES AND REMEDIES ARE EXCLUSIVE AND ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. NETAPP NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH THE SALE, INSTALLATION, MAINTENANCE OR USE OF ITS PRODUCTS, AND NETAPP MAKES NO WARRANTY WHATSOEVER OF ANY NONSTANDARD PRODUCTS SUPPLIED BY IT HEREUNDER.
- 16 Patent, Copyright and Proprietary Rights Indemnity.** NetApp shall, at its expense, defend and indemnify Customer for damages and reasonable costs incurred in any suit or claim brought against Customer alleging that the Products sold pursuant to this Agreement infringe any U.S. patent, copyright, trade secret or similar right provided that NetApp is promptly notified, rendered reasonable assistance by Customer as required, and permitted to direct the defense or settlement negotiations. NetApp

shall have no liability for any infringing combinations arising from the integration of NetApp's Products together with other products provided by Customer or any third party.

Should the use of Product by Customer be enjoined, or in the event NetApp wishes to minimize its potential liability hereunder, NetApp may, at its option, either: (i) substitute a fully equivalent non-infringing unit of the Product; (ii) modify the infringing item so that it no longer infringes but remains functionally equivalent; (iii) obtain for Customer, at NetApp's expense, the right to continue use of such item; or (iv) if none of the foregoing is feasible, NetApp may take back such infringing item or items and refund to Customer the purchase price paid therefor, less amortized depreciation on a straight line basis.

- 17 Limitation of Liability.** IN NO EVENT, WHETHER BASED IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) SHALL NETAPP BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL OR PUNITIVE DAMAGES OF ANY KIND, OR FOR LOSS OF REVENUE, LOSS OF BUSINESS OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE SALE, INSTALLATION, MAINTENANCE, USE, PERFORMANCE, FAILURE OR INTERRUPTION OF ITS PRODUCTS. NOTWITHSTANDING ANY OTHER PROVISION OF THESE GENERAL TERMS AND CONDITIONS OF SALE, NETAPP'S MAXIMUM LIABILITY FOR DAMAGES HEREUNDER SHALL NOT EXCEED THE PURCHASE PRICE OF THE PRODUCTS PURCHASED DURING THE TERM OF THIS AGREEMENT, OR \$20,000, WHICHEVER IS LOWER.

THIS DISCLAIMER OF LIABILITY FOR DAMAGES WILL NOT BE AFFECTED IF ANY REMEDY PROVIDED HEREUNDER SHALL FAIL OF ITS ESSENTIAL PURPOSE. CUSTOMER HAS ACCEPTED THE DISCLAIMER OF LIABILITY FOR DAMAGES AS PART OF A BARGAIN TO LOWER THE PRICE OF THE GOODS AND UNDERSTANDS THAT THE PRICE OF THE GOODS WOULD BE HIGHER IF NETAPP WERE REQUIRED TO BEAR ADDITIONAL LIABILITY FOR DAMAGES.

- 18 Product Changes.** NetApp reserves the right to change, improve or add any new Product or discontinue any Product at any time.
- 19 Indemnity.** Customer agrees to indemnify and hold NetApp harmless from any claims or damages (inclusive of reasonable attorney's fees), including claims of infringement, made against NetApp as a result of alleged negligence, misrepresentation, or error or omission on the part of Customer or its employees or representatives.
- 20 Entire Agreement.** These general terms and conditions of sale are the complete, final and exclusive statement of the terms of the agreement between the parties and supersedes any and all other agreements between them relating to the subject matter hereof. This Agreement may not be modified except in a writing executed by authorized representatives of both parties. This Agreement may be executed in counterparts.
- 21 Force Majeure.** NetApp shall not be liable to Customer for any alleged loss or damages, resulting from the delivery of the Products being delayed by acts of Customer, acts of civil or military authority, governmental priorities, fire, floods, epidemics, quarantine, energy crisis, strikes, labor trouble, war, riots, accidents, shortages, delays in transportation, or any other causes

beyond the reasonable control of NetApp.

22 Waiver. A waiver of any default, or of any of these general terms and conditions, shall not be deemed to be a waiver of any other default or of any other term or condition, but shall apply solely to the instance to which such waiver is directed. The exercise of any right or remedy provided in this Agreement shall be without prejudice to the right to exercise any other right or remedy by law or equity.

23 Notice. Any notice required or permitted to be given under this Agreement shall be given in writing and delivered in person or by express courier, or shall be deposited postage prepaid via registered or certified United States mail, at the address first stated in this Agreement or at such other address as shall be given by either one to the other in writing. All notices shall be deemed to have been given and received on the earlier of actual delivery or 3 days from the date of postmark. All notices shall be directed to:

NetApp, Inc.
Legal Department
495 East Java Drive
Sunnyvale, CA 94089

24 Survival. The following clauses shall survive for a period of 10 years from the termination of this Agreement: 11, 12, 13, 14, 16, 17, 18, 21, 22, 23, 24, 27.

25 Severability. In the event any provision of this Agreement is found to be invalid, illegal or unenforceable, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

26 Assignment. Assignment of this Agreement shall be prohibited without the express written consent of the other party, except that NetApp reserves the right to subcontract any support, maintenance or warranty obligation. Any other attempted assignment in violation of this provision shall be null and void.

27 Governing Law; Venue. This Agreement shall be construed in accordance with, and all disputes hereunder shall be governed by, the laws of the State of California, except its conflicts of law rules. The California Superior Court of Santa Clara and/or the United States District Court for the Northern District of California at San Jose shall have jurisdiction and venue over all controversies in connection herewith.

28 Attorney's Fees. In any action to enforce this Agreement, the prevailing party shall be awarded all court costs and attorney's fees incurred.

29 Restricted U.S. Government Rights. If Customer is an agency or instrumentality of the United State Government: Software is provided with Restricted Rights under FARS and DFARS; the Software has been developed at private expense; no portion of the Software has been developed with U.S. Government funds; the Software is a trade secret and proprietary information of NetApp; and the ownership of the Software and any reproduction shall remain with NetApp. Use, duplication or disclosure by the U.S. Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable.

30 Confidentiality. Both parties acknowledges that it or its employees may, in the course of performing its responsibilities under this Agreement, be exposed to or acquire information which is proprietary to or confidential to the other party or its affiliated companies or their clients or to third parties to whom the disclosing party owes a duty of confidentiality. Any and all non-public information of any form obtained by the receiving party or its employees in the performance of this Agreement shall be deemed to be confidential and proprietary information. Both parties agree to hold such information in strict confidence and not to copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give or disclose such information to third parties or to use such information for any purposes whatsoever other than the provision of services as contemplated by this Agreement and to advise each of its employees who may be exposed to such proprietary and confidential information of their obligations to keep such information confidential.

It is understood and agreed that in the event of a breach of this Section 31 damages may not be an adequate remedy and the disclosing party shall be entitled to injunctive relief to restrain any such breach, threatened or actual. Customer agrees that aspects of the licensed materials, including the specific design and structure of individual programs, are the protected intellectual property of NetApp under trade secret, copyright, patent and/or trademark law. Customer agrees not to disclose, provide or otherwise make available such protected intellectual property in any form to any third party without the prior written consent of NetApp. Customer agrees to implement reasonable security measures to protect such protected intellectual property. NetApp retains sole title to Software and documentation. This provision shall survive the expiration or termination of the Agreement.

3 Proposed Product and Services Schedule

As indicated in the price workbook, NetApp is offering a minimum 8% discount and includes the following discounts by category for review:

Discount % from List	Discount Category	Type	Description
16.25	A	HARDWARE	Legacy discount category. Enterprise platform controllers and related miscellaneous hardware (e.g., Host Bus Adapters, Network Interface Cards, and other spare parts)
16.25	B	STORAGE	Legacy discount category. Enterprise platform storage and related miscellaneous hardware (e.g., Cabinets, Cables, and other spare parts)
3.25	C	THIRD PARTY	Third Party branded hardware, software, and maintenance (e.g., switches, encryption, adapters, cables, accessories)
8	D	HARDWARE /STORAGE	Entry platform controllers, storage, bundles, and other related miscellaneous hardware
16.25	E	SOFTWARE	Enterprise heterogeneous storage monitoring software
16.25	J	SOFTWARE	Legacy discount category.
8	K	SOFTWARE	Entry platform software
16.25	L	HARDWARE	Enterprise platform controllers and related miscellaneous hardware (e.g., Host Bus Adapters, Network Interface Cards, and other spare parts)
16.25	M	STORAGE	Enterprise platform storage and related miscellaneous hardware (e.g., Cabinets, Cables, and other spare parts)
16.25	N	SOFTWARE	Enterprise platform software
15.25	P	PROF SVCS	Professional Services
15.25	S	SUPPORT	Support and services for A, B, J, D, K products
15.25	T	SUPPORT	Support and services for L, M, N products
15.25	V	SUPPORT RENEWAL	Support Services Renewals for L, M, N products
15.25	W	SUPPORT RENEWAL	Support Services Renewals for A, B, J, D, K products

<i>Please fill in the yellow cells.</i>	
1. BASELINE PRICING	
IDENTIFY BASELINE/LIST PRICING UTILIZED:	NetApp North American Price List
2. MINIMUM BAND DISCOUNT	
<i>PROPOSERS MUST PROVIDE MINIMUM DISCOUNT FOR BAND.</i>	
<i>PROPOSERS MAY PROVIDE ADDITIONAL CATEGORY DISCOUNTS IN EACH BAND.</i>	
CATEGORY NAME	DISCOUNT
MINIMUM DISCOUNT FOR BAND	8.00%
ADDITIONAL CATEGORIES	DISCOUNT
NetApp PRODUCT CATEGORIES:	
A - HARDWARE - Legacy discount category.Enterprise platform controllers and related miscellaneous hardware (e.g., Host Bus Adapters, Network Interface Cards, and other spare parts)	16.25%
B - STORAGE - Legacy discount category.Enterprise platform storage and related miscellaneous hardware (e.g., Cabinets, Cables, and other spare parts)	16.25%
C - THIRD PARTY - Third Party branded hardware, software, and maintenance (e.g., switches, encryption, adapters, cables, accessories)	3.25%
D- HARDWARE /STORAGE - Entry platform controllers, storage, bundles, and other related miscellaneous hardware	8.00%
E - SOFTWARE - Enterprise heterogeneous storage monitoring software	16.25%
J - SOFTWARE - Legacy discount category.Enterprise platform software	16.25%
K - SOFTWARE - Entry platform software	8.00%
L - HARDWARE - Enterprise platform controllers and related miscellaneous hardware (e.g., Host Bus Adapters, Network Interface Cards, and other spare parts)	16.25%
M - STORAGE - Enterprise platform storage and related miscellaneous hardware (e.g., Cabinets, Cables, and other spare parts)	16.25%
N - SOFTWARE - Enterprise platform software	16.25%
P - PROFESSIONAL SERVICES - Professional Services	15.25%
S - SUPPORT - Support and services for A, B, J, D, K products	15.25%
T - SUPPORT - Support and services for L, M, N products	15.25%
V - SUPPORT RENEWAL - Support Services Renewals for L, M, N products	15.25%
W - SUPPORT RENEWAL - Support Services Renewals for A, B, J, D, K products	15.25%
3: OPTIONAL: 3RD PARTY MINIMUM DISCOUNT	
CATEGORY NAME	DISCOUNT
THIRD PARTY MINIMUM DISCOUNT FOR BAND	3.25%
ADDITIONAL CATEGORIES	DISCOUNT
C - THIRD PARTY - Third Party branded hardware, software, and maintenance (e.g., switches, encryption, adapters, cables, accessories)	3.25%
4: OPTIONAL: LEASE RATES	
<i>Provide Current lease rates</i>	
NetApp rates will be tied to the then current like term Swap Rate, plus 80 Basis Points (BP).	

BAND 5: STORAGE - Volume Discounts

Responder Name:

NetApp, Inc.

Please fill in the yellow cells.

Responders may provide volume based pricing allowing deeper discounts on volume purchases (greater than Qty 1)

1. Per Transaction Multiple Unit Discount

Responders may propose a contractual volume discount program or plan based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase. Include a table indicating the additional discount percentage to be earned by volume purchased at one time.

For one or more WSCA purchase orders received at one time with a North American list price over \$750,000.00, NetApp will provide an additional 10% discount to the WSCA end user customer for that order only.

2. Cumulative

Responders may propose a cumulative volume discount based on dollars resulting from the cumulative purchases by all governmental purchasers for the duration of their Master Agreement. Include a table indicating the additional discount percentage to be earned by cumulative volume purchased.

No cumulative discount has been provided.

3. Other Discounts

Describe additional discounts available.

For one or more WSCA purchase orders received at one time with a North American list price over \$750,000.00, NetApp will provide an additional 10% discount to the WSCA end user customer for that order only.

BAND 5: STORAGE - Market Basket Pricing

Responder Name:

NetApp, Inc.

Market Basket Pricing is used for EVALUATION PURPOSES ONLY.

Please fill in the yellow cells.

Base Equipment (Hardware)

ST1B-1	STORAGE 1 SKU:	FAS2220-R6	STORAGE 1 LIST PRICE:	\$ 8,000.00
Spec #	Configuration	Minimum Requirements	Manufacturer's Proposal	Manufacturer SKU #
	Architecture	Specify	The architecture is based upon the NetApp Data ONTAP operating system and the Fabric Attached Storage (FAS) platform that offers a unified storage architecture supporting both NAS and SAN in a single storage system.	FAS2220-R6
	Raw Disk Capacity - Base	4 TB	ST1B-1 includes 6TB of raw capacity using SATA disks.	FAS2220-6X1TB-2-R6
	Effective Capacity - Maximum	128 TB	The single controller FAS2220 supports a maximum of 60 drives equating up 240TB of raw capacity with currently shipping disk drives.	FAS2220-R6
	Maximum Cache	32 GB	The FAS2220 includes 6GB of memory and is capable of supporting up to 400GB of cache (Flash Pool) using solid state drives (SSD). The SSDs required to reach this maximum is not reflected in the cost.	DS2246-SL008-4A-Q3-R6
	Minimum number of Drives	4	The FAS2220 requires a minimum of 6 drives.	FAS2220-6X1TB-2-R6
	<i>Raid Options</i>	<i>Specify</i>	NetApp storage systems all use dual parity RAID called RAID-DP (NetApp's implementation of RAID 6), which provides higher availability than RAID 1 (mirroring), RAID 0+1 (striping + mirroring), and RAID 5 at the cost of only one additional parity drive and incurs no performance penalty. RAID-DP provides protection against the possibility of any two drive failures in the same RAID group.	SW-2220-ONTAP8-P
	Back end disk channel interface	SAS	The FAS2220 includes 2 onboard SAS ports.	FAS2220-R6
ST1B-1	Drive Types Supported	SATA , SAS	Supported drive types includes SAS, SATA, and SSD. NL-SAS is supported on other models.	Examples of SKU #'s includes: SAS- X423A-R5 SATA- X477A-R6 SSD- X449A-R6
	Sdrives Supported - fully expanded	60	The FAS2220 supports a maximum of 60 drives.	FAS2220-R6

	Shelves	1 shelf	The FAS2220 supports 12 drives internal to the controller and supports an additional 2 disk shelves that contain 24 disks each.	FAS2220-R6 Optional supported disk shelves includes: DS2246-21.6TB-QSR5 DS4246-0796-24A-QS-R6 DS2246-SL192-24AQS-R6
	Protocol Support	TCP/IP	The FAS2220 configuratin includes licensing for the following protocols: CIFS, NFS, iSCSI	SW-CIFS-C SW-ISCI-C SW-NFS-C
	Chassis - rack mount rails	Yes	A rack mount kit has been included.	X5518A-R6
	<i>Controller type</i>	<i>Specify</i>	The proposed configuration is a single controller FAS2220.	FAS2220-6X1TB-2-R6
	<i>Controller Host Interface - speed and number of ports</i>	<i>Specify Speed and Number</i>	The FAS220 includes 4 x RJ45 (1Gbps) onboard ports per controller	FAS2220-R6
	<i>Controllers - Dual Controller Support</i>	<i>Yes or No</i>	Dual controller support is available as an option.	FAS2220A-UG-BASE-R6
	<i>Storage Replication Support</i>	<i>Specify</i>	Available as an option. NetApp's SnapMirror delivers a disaster recovery and data distribution solution by replicating data at high speeds over an IP-based LAN or a WAN.	SW-2220A-CL-SMIRROR-N-INC
	<i>Chassis - Height (U)</i>	<i>Specify height (U)</i>	The proposed configuration is 2U.	FAS2220-R6
	<i>Chassis - Rack Hole Type</i>	<i>Specify round or square</i>	Square	FAS2220-R6
	<i>Power single phase standard</i>	<i>Specify</i>	Single phase is standard.	FAS2220-R6
	<i>Power - Three Phase availability</i>	<i>Yes or no</i>	Three phase is not available on the FAS2220.	FAS2220-R6
	<i>Power - Redundancy</i>	<i>Yes or no</i>	NetApp FAS systems include power and cooling redundancy built into the controller.	FAS2220-R6
	<i>Power Type</i>	<i>Specify</i>	Single phase is standard.	FAS2220-R6
	<i>Power - BTU Rating</i>	<i>Specify</i>	851 (12 drives)	FAS2220-R6
	<i>Power - Amps/Voltage</i>	<i>Specify</i>	2.7/100 single controller	FAS2220-R6
	<i>Power - Watts</i>	<i>Specify</i>	258 (12 drives)	FAS2220-R6
	Warranty on above hardware and software	Manufacturer Warranty - Minimum one year	NetApp's standard hardware warranty is 36 months and software is 90 days. The configuration includes NetApp's software support plan for 12 months for software included with this configuration. Warranty can be augmented by purchasing NetApp's SupportEdge support service. BAND 5: STORAGE - SERVICES - Market Basket Specs

Responder Name:

NetApp, Inc.

Please fill in the yellow cells.

A. EACH STATE DETERMINES IF AND HOW SERVICES WILL BE OFFERED IN THEIR PARTICIPATING ADDENDUM

B. TRAVEL FOR SERVICES TO BE NEGOTIATED WITH EACH STATE IN THEIR PARTICIPATING ADDENDUM.

C. RESPONDER MAY PROVIDE DISCOUNT OFF LIST, HOURLY AND/OR UNIT RATES

SERVICES				
Spec #	Description	Minimum Requirements	Manufacturer's Proposal	Manufacturer SKU #
ST1S-1	Warranty Upgrade-2 yr	Describe two year warranty on Storage 1	NetApp's standard hardware warranty is 36 months and no additional costs would be required to extend hardware warranty. NetApp's standard software warranty is 90 days. NetApp's Software Support Plan (SSP) can be purchased to cover software for 24 months.	CS-N-SSP
ST1S-2	Warranty Upgrade-3 yr	Describe three year warranty on Storage 1	NetApp's standard hardware warranty is 36 months and no additional costs would be required to extend hardware warranty. NetApp's standard software warranty is 90 days. NetApp's Software Support Plan (SSP) can be purchased to cover software for 36 months.	CS-N-SSP
ST1S-3	Warranty Upgrade-AD	Describe accidental damage protection on Storage 1	NetApp does not offer accidental damage protection.	N/A
ST1S-4	Break Fix - Non Warranty	Describe break-fix non warranty on Storage 1	NetApp offers customers the option to extend the warranty or augment the existing warranty by purchasing SupportEdge support offerings (http://www.netapp.com/us/services-support/supportedge.aspx).	SKU #'s differ based upon service level selected. Support SKU #'s begin with "CS". Examples of SKU #'s include: CS-A2-INST-NBR CS-02-4HR CS-SEC-4HR
ST1S-5	Image Loading	Describe services to load custom software image at factory prior to delivery	Does not apply to NetApp storage.	N/A
ST1S-6	Image Consulting	Develop custom software image solution.	Does not apply to NetApp storage as NetApp is a COTS provider.	N/A
ST1S-7	Asset Tagging	Affix asset tags to equipment prior to delivery.	NetApp does not perform asset tagging; however partners can perform these tasks under the hourly consulting rate.	PS-TM-FED-CONSLT-HR
ST1S-8	Installation	Describe equipment installation services available	Staging/deployment services can be purchased based upon time and materials, customer statement of work, or through one of NetApp's Rapid Deployment Services. NetApp Rapid Deployment Services are fixed cost, fixed scope implementation and configuration services that offer modular add-on services that allow for the service to be relevant to an end users environment.	T&M: PS-TM-FED-ENGINEER-HR Custom SOW: PS-SOW RDS Base: PS-RDSP-STOR-IMPL-BASE-ZA
ST1S-9	General Consulting	Describe Consulting services available	NetApp offers consulting services that provide infrastructure assessments, assist in planning data migrations, help optimize the environment, develop a plan to move services to the cloud and also assist in transformation and consolidation of existing infrastructures.	PS-TM-FED-CONSLT-HR

ST1S-10	Training	Describe Training Services Available	<p>NetApp University offers professional training and certification programs that help end users fully leverage NetApp enterprise solutions to meet your specific business and technical requirements. The NetApp University Learning Center is the primary training source for all your NetApp learning and training needs, offering access to technology information that is essential to successfully support your NetApp products.</p> <p>Choose the training delivery that best fits your schedule and work environment. End users will benefit from our courses with minimal impact on your normal work demands, with training options such as:</p> <ul style="list-style-type: none"> • Conveniently located instructor-led classroom instruction through our global Authorised Learning Partners • Web-based self-paced courses • Virtual Live instruction, which allows you to attend a live instructor-led course from the convenience of your own location 	ED-TU-1-ZA
ST1S-11	Staging/Deployment	Describe staging/deployment services	<p>Staging/deployment services can be purchased based upon time and materials, custom statement of work, or through one of NetApp's Rapid Deployment Services. NetApp Rapid Deployment Services are fixed cost, fixed scope implementation and configuration services that offer modular add-on services that allow for the service to be relevant to an end users environment.</p>	<p>T&M: PS-TM-FED-ENGINEER-HR Custom SOW: PS-SOW RDS Base: PS-RDSP-STOR-IMPL-BASE-ZA</p>
ST1S-12	System and Server Configuration	Describe system and server configurations services	<p>System and server configuration services can be purchased based upon time and materials, custom statement of work, or through one of NetApp's Rapid Deployment Services</p>	<p>T&M: PS-TM-FED-ENGINEER-HR Custom SOW: PS-SOW RDS Base: PS-RDSP-STOR-IMPL-BASE-ZA</p>
ST1S-13	Rack and Stack Configuration	Describe Rack and Stack configurations services	<p>Rack and stack (NetApp Storage System Installation) can be purchased if opting for only warranty support and is included with the purchase of SupportEdge service offerings. The goal of the NetApp Storage System Installation Service is to turn over a high-performance NetApp storage system that is ready to use. In addition to installation, setup, and verification, we optimize your storage system so you can reap the benefits of a consistent, high-quality installation from the start while minimizing risk and shortening deployment time.</p>	CS-N-INS
