Brian,

Can you please confirm the total volume that has been injected into WDW-073 through January 19, 2019. I used a *draft* chart of 2018 totals that was sent to me, as well as the January 2019 report, and I came up with a total of 626,373,767 gallons to date. Please let me know if any updated information changes this number.

Thank you,

Ashley Howard
