FACT SHEET

WESTERN PACIFIC RAILROAD COMPANY SUPERFUND SITE
OROVILLE, CA

REMOVAL ACTION FOR GROUNDWATER OPERABLE UNIT NO. 1

ADMINISTRATIVE RECORD

The "administrative record" is the collection of documents which form the basis for an agency's decision, in this case the selection of a response action at a Superfund site. Under Section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), EPA is required to establish an administrative record for every Superfund response action and to make a copy of the administrative record available at or near the site.

The administrative record must be reasonably available for public review during normal business hours. It should be treated as a non-circulating reference document, in order to allow the public greater access to the record and also to minimize the risk of loss or damage. Individuals may copy any documents contained in the administrative record, according to the copying procedures at the local repository.

The administrative record will be maintained at the local repository until further notice. Periodically EPA may send supplements and indexes directly to the local repository. These supplements must be placed with the initial administrative record. Questions regarding the maintenance of the administrative record (and requests for copies of the microfilm) should be directed to:

Elaine Chan
Administrative Record Coordinator
U.S. Environmental Protection Agency
75 Hawthorne Street (H-7-4)
San Francisco, CA 94105
(415) 744-2380

Please address questions or comments on this administrative record to:

Holly Hadlock or:
Remedial Project Manager
U.S. EPA, H-7-2
75 Hawthorne Street
San Francisco, CA 94105
(415) 744-2244

Jackie Lane
Community Relations
Coordinator
U.S. EPA (H-1-1)
75 Hawthorne Street
San Francisco, CA 94105
(415) 744-2177 or

INTRODUCTION

WESTERN PACIFIC RAILROAD COMPANY SUPERFUND SITE Oroville, California

Removal Action for Groundwater Operable Unit No. 1

Administrative Record and Cumulative Index

The documents contained in this administrative record were used by the U.S. Environmental Protection Agency in identifying appropriate remedial activities for use at the Western Pacific Railroad Company Superfund site in Oroville, California.

The list of U.S. Environmental Protection Agency guidance documents which were considered or relied upon in the selection of the remedy is document AR 12 in this administrative record file. Copies of the guidance documents are contained in the Compendium of CERCLA Response Selection Guidance Documents located in the Region 9 Superfund Records Center.

The original administrative record file was compiled in September, 1993, and consists of documents AR 1 - AR 15. The file has been added to as documents have become available: Supplement 1 consists of document AR 16. The cumulative index is in chronological order.

July 1996
