Quart Notes:

- ¹ Application of Urethane Activator 8oz PN 99825-02 RECOMMENDED
- ² REQUIRES separate purchase of Urethane Activator 8oz PN 99825-02
- ³ Application of Denim Clear 98628CLR required
- ⁴ DO NOT USE CLEAR COAT FOR THIS COLOR
- ⁵ Application of Satin Clear 98628DYH required

It is recommended the base coat be catalyzed and dried for at least 24 hours before applying the clear coat, otherwise uneven color distribution may result

Unless otherwise specified, all colors REQUIRE the following 4-step

- 1 PRIME COAT - Even if parts have been primed from H-D it is still necessary to apply Primer 98628G (quart) or 98606A (aerosol) prior to applying base/top coats. This is required to maintain accurate matching of the final color.
 - 2 BASE COAT (if required)
 - 3 TOP COAT
 - 4 CLEAR COAT 98628EK (quart) or 98606EK (aerosol)
- SEE COMMONLY USED AIR-DRY PAINT SECTION FOR MORE
