AQUOS BOARD[®]

Transforming Meeting Spaces and Learning Environments

The PNL2B AQUOS BOARD® range of smart interactive displays combines genuine “4K reading and writing” and an intuitive Pen-on-Paper® user experience with Zero Bonding and Sharp’s PrecisionTouch technology. The single USB-C connector makes it so simple to walk into a room, plug in your device and start working together straightaway. The PNL2B AQUOS BOARD® interactive displays also feature an integrated controller with whiteboard, overlay and wireless functionality to help enhance your productivity.

Built-in Apps

The PNL2B series are the perfect choice for busy office environments, boardrooms, meeting rooms and training sessions that require quick, responsive operation and smart, integrated collaboration tools. It encourages effective group teamwork, promotes idea sharing and helps people deliver great presentations and achieve better meeting outcomes.

These interactive displays feature a launcher that allows users to easily access a range of useful pre-installed configurations, inputs, settings and apps, such as Bytello Share, Web Browser, File Explorer, etc.

Optional AV SoundBar

An optional PNZCMS1 AV Soundbar is also available allowing for more engaging video conference experience. This all-in-one unified communication soundbar features a speaker, microphone and camera integrated into a single cross platform device. Its high quality sound provides best solution for large rooms without compromising the sound clarity. The 6-array microphones pick up voice firmly and cancel echoes while reducing noise. With a single USB-C cable connection the soundbar features simple integration with Sharp PNL2B series interactive displays.

See Every Little Detail

To ensure that groups can collaborate more effectively in corporate environments everything needs to be displayed clearly and precisely. It helps people absorb information more easily, so they stay focused and engaged and can contribute more proactively. The PNL2B AQUOS BOARD® range of large format interactive displays is available with a choice of 65" class (64.5" diagonal), 75" class (74.5" diagonal), and 86" class (85.6" diagonal) screen sizes to suit almost any office environment, boardroom or meeting room.

It also delivers a true 4K reading and writing experience as it features a 3840 x 2160 Ultra High Definition (UHD) 4K resolution display and touchscreen. The LCD technology delivers high contrast and visual clarity, ensuring that even the most detailed presentations, documents and diagrams can be easily viewed and read. So it is ideal for exploring very detailed data and technical designs, particularly within businesses operating in the finance, engineering, architecture, healthcare, consulting, energy and retail markets.

All the Flexibility You Need

The ability to adapt to changing requirements quickly and effectively is essential to ensuring that businesses always operate with maximum productivity and efficiency.

The open architecture design of the Sharp PNL2B AQUOS BOARD® provides exceptional flexibility and freedom of use, so it can meet the demands of even the most challenging corporate environments. You can easily connect to various types of PC sources with its USB-C, HDMI, and VGA connectors. This allows you to display almost any type of content with a 4K resolution, or select any type of 4K video content from a media player using the CEC HDMI output. In addition, it has the latest high-speed, high-bandwidth USB-C port, which can be used for multiple functions and has a rotationally symmetrical design, so there is no connection confusion.

It can also wirelessly share information with any smart Windows, Android, iOS, Chrome or other mobile device without unsightly cables, complex add-on peripherals, or bulky power supplies. Or you can utilize the OPS slot to instantly extend the AQUOS BOARD® interactive display's functionality with third-party add-ons and solutions. Finally, it supports the use of Touch Back, so that whatever is shown, drawn or controlled on the AQUOS BOARD® will be replicated on the connected smart devices.

Its versatile connectivity ensures that you can easily create the optimum conditions to encourage creativity, boost productivity and enable effective decision making, without being hampered by any unnecessary technical complexity.

Added Productivity as Standard

The PNL2B AQUOS BOARD® interactive displays come with a range of standard software to help get the most out of your meetings or presentations. It is easy to install and use and does not require any technical expertise.

• Sharp Pen Software

Provides quick and easy access to pen settings and other useful functions. It allows you to add onscreen annotations or graphics directly onto photos, videos, PDFs and common Microsoft® files. You can also control presentations, adjust the screen set-up and store or email any files you have been working on.

• Bytello Share App

Supports multifaceted wireless casting*, so content on the screen, including images, audio and video, can be shared simultaneously with multiple other devices. No cables are required, so there is no stress, hassle or delay in sharing information.

*Compatible with Windows®, Android™, iOS®, macOS®, iPadOS®, Chrome™ OS

• Sharp Touch Viewer™ Software

Offers an easy-to-use interface and file system to collect, manipulate and organize a variety of different files on the screen without actually opening the respective applications.
