Note: Formatting has been minimized for ease in viewing the index. Titles of books and journals are italicized, article titles are not. Page numbers are listed as “volume:page”, and indicate the first page of the article where the reference may be located. Multiple or contiguous page listings indicate photographs or other illustrative materials. Cities and towns are in California, unless otherwise noted. Locomotives and rolling stock are identified by reporting mark and number and/or italicized name under the **Railroad Equipment** heading.

The Southern Pacific Historical & Technical Society is an independent non-profit organization devoted to the preservation of the history of the Southern Pacific, its predecessor and successor railroad companies, and to the dissemination of information which documents that history. The Society is not supported by, nor affiliated in any way with, the former Southern Pacific, or any of its subsidiaries or affiliates.
