Lenovo for the Data Centre

Portfolio Guide

Lenovo™

Intel® Xeon® Scalable processors

Last update: July 2017

ThinkSystem
ThinkAgile

Enabling the Future-Defined Data Centre

By providing the strongest foundation of performance, reliability and security in the industry, Lenovo delivers an end-to-end portfolio of compute, storage and networking capabilities that seamlessly integrate and interoperate with any environment. And thanks to Lenovo Services expertise offered across every phase of the IT lifecycle, we can help clients deliver the most from their technology investment.

- **Most reliable:** Lenovo servers ranked #1 in uptime of any x86 systems for the past 4 years running, according to 2016-2017 ITIC reliability survey. ¹
- **Most secure:** Lenovo provides the best and most airtight platform security with our Trusted Platform Assurance. Even after adding options at additional cost, our competitors offer fewer security capabilities than come standard on Lenovo ThinkSystem.
- **Highest satisfaction:** TBR's 2Q16 Corporate IT Buying & Customer Satisfaction Study reports Lenovo as Number 1 x86 vendor in customer satisfaction rating for the 6th consecutive study going back to January 2015. ²
- **Strategic Relationships:** Unlike our major competitors, Lenovo does not have a proprietary software business and remains more open for industry leading partnerships. Because of this, Lenovo's customers can benefit from an open standards strategy that allows them to grow and change their IT systems as needed.

With our all new-portfolios, powered by the Intel® Xeon® processor Scalable family, with open, modular technologies designed to adapt easily and scale quickly, Lenovo's clients can excel now and accelerate into the future.

ThinkSystem

ThinkSystem™: Server, storage and networking solutions that deliver the industry's best combination of performance, flexibility, and reliability.

ThinkAgile

ThinkAgile™: Next generation IT software-defined infrastructure that's easier to deploy and manage, and reduces costs and complexity

Intel® Xeon® Scalable processors

Data Centre Infrastructure

Continuing with its policy of designing exceptional products, Lenovo has recently announced ThinkSystem – the new brand for server, storage and networking platforms building solutions for the future-defined data centre.

Rack & Tower Servers

Flexible for even the most demanding workloads

Driving new levels of storage density and connectivity, Lenovo ThinkServer, System x and newest ThinkSystem servers powered by Intel® Xeon® Scalable processor family are the ideal platform to host private and public cloud, virtualisation, VDI, web serving, analytics and big data solutions.

Purpose-built for availability.

Tower systems designed to operate at whisper quiet acoustic levels and equipped with physical security features, allowing the server to be comfortably placed in an office or retail environment.

Tools based on open standards for the real world.

Comprehensive systems management tool set.

Trust Lenovo to be your expert.

Single point of contact for hardware, firmware and software support.

High End

Designed with your mission-critical workloads in mind

Lenovo's high-end rack servers are suited for heavy vertical workloads, virtualisation and legacy system replacements. The newly announced ThinkSystem portfolio brings new models designed for your most demanding, mission-critical workloads, such as in-memory databases, large transactional databases, batch and real-time analytics, ERP, CRM, and virtualised server workloads.

Always on reliability on x86. Self-monitoring, error detection, and self-healing. Consistently ranked number 1 in reliability.¹

Real time insights for real time business. 31% better TCO than competitors for analytics, leadership benchmarks, massive onboard storage, direct NVMe.

Everything within reach. Unmatched scalability with 4S & 8S in one 4U platform, modular drive tray, highest drive density, front and rear access for 12% faster serviceability.

ThinkSystem SR850

Lenovo Model	ThinkSystem SR850
Form Factor/Height	Rack/2U
Processor	2x or 4x Intel® Xeon® Gold or Platinum processors, up to 28x cores per processor, up to 165W
Memory	Up to 6TB in 48x slots using 128GB ¹ DIMMS; 2666MHz TruDDR4
Expansion Slots	Up to 9x PCIe plus 1x LOM; optional 1x ML2 slot
Maximum Internal Storage	Up to 16x 2.5" storage bays supporting SAS/SATA HDD and SSDs or up to 8x 2.5" NVMe SSD; plus up to 2x mirrored M.2 boot
RAID Support	Hardware RAID (up to 16 ports) with flash cache; up to 16-port HBAs
Power Supply	2x hot-swap/redundant: 750W/1100W/1600W AC 80 PLUS Platinum
RAID support	Hardware RAID (up to 16 ports) with flash cache; up to 16-port HBAs
Network Interface	One (2-/4-port) 1GbE or 10GbE LOM card; Multiple options with 1GbE, 10GbE, 25GbE, 40GbE or InfiniBand PCIe adapters; 1x dedicated 1GbE management port
Power Supply	2x hot-swap/redundant: 750W/1100W/1600W AC 80 PLUS® Platinum
OS Supported	Microsoft Windows Server Red Hat Enterprise Linux Server SUSE Linux Enterprise Server VMware vSphere Visit lenovopress.com/osig for more information
Warranty	1- year and 3-year customer replaceable unit and onsite service, next business day 9x5; opt. service upgrades

ThinkSystem SN850

Lenovo

Beyond Blades

The orchestration platform for conducting tomorrow's business

This integrated infrastructure platform supports a mix of compute, storage, systems management and networking resources to meet the demands of your applications. This robust enterprise chassis is designed to deploy simply now and scale to meet your needs in the future. Designed for major enterprise applications like virtualisation, cloud, database and analytics for clients across banking / finance, education, government, telecom and manufacturing.

Flexible infrastructure for ever-changing workloads. Resource management that leverages both hardware and systems management.

Efficient on multiple levels. XClarity reduces time management; the modular, integrated design and zone adaptive cooling reduces data centre costs.

Proven platform, investment protection. An architecture that supports newly announced ThinkSystem blades powered by Intel® Xeon® processors and future server generations for leading investment protection.

ThinkSystem

Intel® Xeon® Scalable processors

Lenovo Models	ThinkSystem SN550	Flex System x240 M5
Form Factor	Standard-width flex system compute node Up to 14 per chassis	Standard-width flex system compute node Up to 14 per chassis
Processor	Up to two Intel Xeon processor Scalable family CPUs, Bronze, Silver, Gold or Platinum up to 165W; from 4 cores to 28 cores; core speeds from 1.7 GHz to 3.6 GHz; up to 38.5 MB L3 cache. Two UPI links up to 10.4 GT/s each. Up to 2666 MHz memory speed	Up to two Intel® Xeon® processor E5-2600 v4 product family CPUs: from 4 cores to 22 cores; core speeds from 1.7 GHz to 3.5 GHz; up to 55 MB L3 cache. Two QPI links up to 9.6 GT/s each. Up to 2400 MHz memory speed
Memory	Up to 3TB [†] in 24x slots, using 128GB [†] DIMMs (requires M-suffix processors that support greater than 786GB memory per processor); 2666MHz TruDDR4	Up to 1.5TB in 24 slots, using 64GB DIMMs; 2400MHz
Expansion Slots	Up to 2x PCIe x16 I/O Adapters	Up to 2 PCIe Gen 3 Flex Adapters Gen 2 with up to 2 x16 slots and 2 x8 slots and 2 I/O adapters
Maximum Internal Storage	Up to 2x 2.5" storage bays supporting SAS/SATA HDDs/SSDs, or NVMe/U.2 SSDs; plus 1x or 2x (mirrored) M.2 (SATA) fixed boot drives (opt. RAID 1)	Up to 7.68TB by using 3.84TB 2.5" SATA SSDs or up to 4TB by using 2 TB NL SATA HDD Up to 4TB by using 2 TB NVMe PCIe SSDs Up to 3.2TB by using 800 GB 1.8-inch SSDs
RAID Support	Software RAID std. (6Gbps SATA); optional hardware basic RAID (12Gbps SAS/SATA); optional hardware advanced RAID (12Gbps SAS/SATA 2GB flash-backed cache)	RAID -0, -1, 1E optional -5
Network Interface	4x 10GbE LOM with fabric connector; or 2x 10GbE, 4x 10GbE or converged network I/O Adapters	LOMless, 2 PCIe I/O Adapter card slots supporting 1/10/40Gb Ethernet, Fibre Channel or Infiniband adapters
OS Support	Microsoft Windows Server Red Hat Enterprise Linux SUSE Linux Enterprise Server VMware vSphere Visit lenovopress.com/osig for more information	Microsoft Windows Server 2016 Red Hat Enterprise Linux SUSE Linux Enterprise Server VMware ESXi Visit lenovopress.com/osig for more information
Warranty	3-year customer replaceable unit and onsite service, next business day 9x5	3-year customer replaceable unit and onsite service, next business day 9x5

Dense-Optimised

Ready to adapt when you are

Engineered to excel at a wide range of workloads and flexible architectures for evolving needs, Lenovo's high-density systems are powerful platforms for compute-intensive workloads, ranging from technical computing, to grid deployments, to analytics workloads, to large-scale cloud and virtualisation infrastructures - all in more cost and energy-efficient ways than ever before.

More in less space. Innovative chassis enables greater density for hyperconverged workloads.

Ready to adapt. Stackable node design that supports GPUs and specialised IO adapters.

Modularity to transform. Disaggregated IO design which allows for multiple fabrics, and the scalable management design simplifies infrastructure costs. Front and rear access for easy serviceability.

Storage

Thanks to our storage portfolio growing relentlessly stronger, Lenovo offers a wide range of enterprise grade storage solutions that address the ever-growing needs of businesses, fit into existing budget and ensure data is ready when it is needed. The offering includes key features from storage tiering and thin provisioning to data encryption, all through a user-friendly interface.

Lenovo ThinkSystem DS2200

SAN

Shared storage delivering high performance access to critical data

Lenovo ThinkSystem DS-Series

Lenovo developed the ThinkSystem DS-Series offering, all-flash & hybrid SAN arrays, to revolutionise storage economics - enterprise-class functionality at entry level price point.

Affordable. Industry leading in both price/performance and cost/GB without compromise.

Intuitive. Setup in less than 15 minutes, manage all storage arrays from common GUI, XClarity integrated hardware management.

Fast. More than 375K IOPS at less than 1 millisecond latency.

Lenovo V Series

Lenovo V Series is a hybrid storage system designed with sophisticated capabilities, efficiency and flexibility through built-in thin provisioning and non-disruptive migration of data from existing storage. These enterprise-class SAN appliances provide excellent management for all types of data centres thanks to;

- Real-time compression
- Data virtualisation
- Hyper-Swap
- Extreme scalability

Lenovo Fibre Channel Switches & Directors

Combining Lenovo Servers and Lenovo Storage with Lenovo Fibre Channel SAN switches and directors provides customers a complete, innovative and affordable end-to-end solution to address dynamic business needs.

Affordable innovation without boundaries. Faster data transfer, fewer links and devices reduce overall footprint and cost.

Implement with confidence. 99.999% reliability with non-disruptive, hot-pluggable components maximises uptime. Designed for high availability and reliability.

Management without complexity. Simply manage your network through integrated dashboards and easy-to-use GUI.

Lenovo ThinkSystem DB610S

Features	Lenovo ThinkSystem DB610S
Base Models *	6559HC3/D3C - 8ports with no transceivers 6559HC2/D2B - 8ports with 16Gbps SWL FC transceivers 6559HC1/D1A - 24ports with 16Gbps SWL FC transceivers, plus Enterprise SW Bundle
Scalability	Full-fabric architecture with a maximum of 239 switches
Certified Maximum	9,000 active nodes; 56 switches, 19 hops in Brocade Fabric OS® fabrics; larger fabrics certified as required
Fibre Channel Ports	Maximum of 24 ports configuration Switch mode (default): 8-, 16-, and 24-port configs. can be an E, F, M and D ports Brocade Access Gateway default port mapping: 16 F Ports, 8 N Ports
Port on Demand (PoD)	8-Port SW Licence with no transceivers Part #01KP863 8-Port SW Licence with 8 x 16Gbps SWL FC transceivers Part #01KP862
Performance	Fibre Channel: 4.25Gbps line speed, full duplex; 8.5Gbps line speed, full duplex; 14.025 Gbps line speed, full duplex; auto-sensing of 4, 8, 16 and 32Gbps port speeds
Aggregate Bandwidth	768Gbps end-to-end full duplex
Maximum Fabric Latency	Latency for locally switch ports is 900 µs (including FEC)
Port Types	F_Port, E_Port, M_Port, D_Port (ClearLink Diagnostic Port) on 24 SFP+ ports Brocade Access Gateway mode: F_Port and NPIV-enabled N_Port
Media Types	Support any combination of 16/32Gbps Short Wavelength (SWL) and 16/32Gbps Long Wavelength (LWL) or 16Gbps Extended Long Wavelength (ELWL) hot-pluggable transceivers.
Rack-mount Rail Kits	Fixed rail kit is included standard, Mid-mount rack kit (Part # 01KP864) -optional
Software Offerings	Enterprise Software Bundle includes Trunking, Fabric Vision, Extended Fabric: included standard or optional depending on model
Power & Cooling	Base switch includes a single, fixed power supply with four integrated system cooling fans.
Power Consumption	76.52W with all 24 ports populated with 32Gbps SWL optics 55.83W for idle configuration (all optics loaded but not initialized)
Warranty	1-year hardware and 3-year firmware/Fibre Operating System (upgrades available)

*Part of the Enterprise Bundle

Features	Lenovo ThinkSystem DB620S
Base Models	6415HC1/G11- 24 ports with 32Gbps SWL FC transceivers 6415HC2/G2A- 48 ports with 32Gbps SWL FC transceivers, plus Enterprise Software Bundle
Fibre Channel Ports	Minimum of 24 ports and maximum of 64 ports configuration. Both models reach 64 ports through one 4-port QSFP PoD, providing 16-port increments through a Q-Flex licence . Also supports: E_Ports, F_Ports, D_Ports, EX_Ports
Port on Demand Options	12-Port Software Licence (12 transceivers 32Gbps) Part #01KN760 QSFP+ Port Software Licence (4 transceivers 128Gbps) Part #01KN762 QSFP+ Port Software Licence (no transceivers) Part # 01KN767
Performance	Fibre Channel: 4.25Gbps line speed, full duplex; 8.5Gbps line speed, full duplex; 10.53Gbps line speed, full duplex; 14.025Gbps line speed, full duplex; 28.05Gbps, full duplex; 112.2Gbps, full duplex; auto-sensing of 4, 8, 16, 32Gbps port speeds and capable of supporting 128Gbps speeds; 10Gbps optionally programmable to fixed port speed
ISL Trunking*	Frame-based trunking with up to eight 32Gbps SFP+ ports per ISL trunk or up to two 128Gbps QSFP ports per ISL trunk. Exchange-based load balancing across ISLs with DPS included in Brocade Fabric OS
Aggregate Bandwidth	2Tbps
Maximum Fabric Latency	Latency for locally switched ports is 900 ns; compression is 1 µs per node
Media Types	32Gbps SWL SFP Transceivers come standard with each switch or with ports on demand software licence packs. Optional transceivers are also supported for longer distances. Optional hot-pluggable QSFP+ options are also available for the 128Gbps Q-Flex ports
Rack-Mount Rail Kits	Fixed rail kit is included standard, midmount rack kit (Part # 01KN770) -optional
Software Offerings	Enterprise Software Bundle includes Trunking, Fabric Vision, Extended Fabric: included standard or optional depending on model Optional: Mainframe Enterprise Bundle Software (Trunking, Fabric Vision, Extended Fabric and Control Unit Port) Optional: Integrated Routing Software
Power Supply	Dual, hot-swappable redundant power supplies standard with integrated cooling fans
Warranty	1-year hardware and 3-year firmware/Fibre Operating System (upgrades available)

*Part of the Enterprise Bundle

Features	Lenovo ThinkSystem DB400D/DB800D
Base Models	DB400D (6684-HC1/B2A) and DB800D (6682-HC1/B1A) include: 2 core routing blades, 2 control processor modules and enterprise software bundle (Fabric Vision, Trunking, Extended Fabrics and CUP)
Chassis	The DB400D has 4 open blade slots, while the DB800D has 8 open blade slots.
Fibre Channel Blades	FC32-48-port blade provides 48 ports of 32Gbps Generation 6 FC <900 ns (including FEC); any-port-to any-port local switching and 2.7 μs blade to blade at 32Gbps, cut-through routing <ul style="list-style-type: none"> Part # 01KN845 includes 48-port licence , no optics Part # 01KN848 includes 48-port licence and 48 x 32Gbps SWL SFPs
Extension Blades	SX6 external blade provides FC extension (16x32Gbps FC ports) and IP extension over IP networks (16x1/10GbE and 2x40GbE ports). <900ns (including FEC) and 2.7 μs, cut-through routing <ul style="list-style-type: none"> Part # 01KN850 includes 16 x 32Gb SWL FC SFPs standard and no 1/10/40GbE SFPs Part # 01KN854 includes 16 x 32Gb LWL FC SFPs standard and no 1/10/40GbE SFPs
Performance	4/8/10/16/32Gbps line speed, full duplex. Autosensing of 4/8/16/32Gbps port speeds depending on SFPs used, support for speed matching. 10Gbps port speeds with dedicated SFPs
Multi-chassis with UltraScale ICL ports	Up to 4,608 nonblocking 32Gbps FC ports; UltraScale ICL ports (32 for 8-slot or 16 per 4-slot chassis, optical QSFP). Up to 9 chassis in a full-mesh topology or 12 chassis in a core-edge topology
Chassis Bandwidth	DB800D: 12.2Tbps per chassis data rate + 4.096Tbps UltraScale ICL bandwidth (32x128Gbps) DB400D: 6.1Tbps per chassis data rate + 2.048Tbps UltraScale ICL bandwidth (16x128Gbps)
Chassis Power	DB800D: Minimum: requires 3 PSUs for 2+1 redundancy. Maximum 4 PSUs for 2+2 redundancy DB400D: Minimum: requires 2 PSUs for 1+1 redundancy
Cooling	DB800D: Requires 3 fan tray assemblies; DB400D: Requires 2 fan tray assemblies A fan assembly can be hot-swapped and should be replaced immediately in the event of a failure
Airflow	Non-port-side intake to port-side exhaust
Solution Availability	Designed to provide 99.999% uptime capabilities; hot-pluggable redundant power supplies, fans, WWN cards, processors, core switching, port blades, and optics; online diagnostics; nondisruptive firmware download and activation
Dimensions/Weight	DB400D: Height: 34.45cm (13.56in.); Width: 43.74cm (17.23in.); Depth: 61.05cm (24.04in.)/ Weight: 68.95kg (152lbs) fully loaded; DB800D: Height: 61.23cm (24.11in.); Width: 43.74cm (17.23in.); Depth: 61.05cm (24.04in.)/ Weight: 145.83kg (321.5lbs) fully loaded
Warranty	1-year hardware and 3-year firmware/Fibre Operating System (upgrades available)

Features	Lenovo B300	Lenovo B6505	Lenovo B6510
Total Bandwidth	192Gbps	384Gbps	768Gbps

DAS

Capacity expansion for servers or Software Defined Storage

The Lenovo DAS portfolio provides traditional, D1212/D1224, as well as high density, D3284, storage for high capacity applications, such as digital media, big data, HPC and video surveillance, at an affordable price. At near limitless scalability with disruptive levels of performance, the DAS portfolio easily satisfies your ever-growing storage needs.

Components	Lenovo D12 Series (D1212 / D1224)
Form factor	Rack/2U
Number of ESMs	2
Expansion ports	3x 12 Gb SAS x4 (Mini-SAS HD SFF-8644) ports (A, B, C) per ESM
Drive bays	<ul style="list-style-type: none"> D1212: 12 LFF hot-swap drive bays; up to 8x D1212 enclosures can be daisy chained on a supported RAID adapter or HBA for a total of up to 96 LFF drives. D1224: 24 SFF hot-swap drive bays; up to 8x D1224 enclosures can be daisy chained on a supported RAID adapter or HBA for a total of up to 192 SFF drives. Intermix of SFF and LFF enclosures is supported.
Drive technologies	SAS and NL SAS HDDs and SEDs; SAS SSDs. Intermix of HDDs, SEDs (not supported in a RAID group) and SSDs (supported within an enclosure but not within a RAID array).
Drive connectivity	Dual-ported 12 Gb SAS drive attachment infrastructure.
Storage capacity	<ul style="list-style-type: none"> D1212: Up to 960 TB (96x 10 TB LFF NL SAS HDDs) D1224: Up to 384 TB (192x 2 TB SFF NL SAS HDDs)
Host adapters	RAID adapters: <ul style="list-style-type: none"> ServeRAID M5225 (2-port 12 Gb SAS; RAID 0, 1, 10, 5, 50; optional RAID 6, 60) Host bus adapters (non-RAID) <ul style="list-style-type: none"> N2225 (2-port 12 Gb SAS) N2226 (4-port 12 Gb SAS) ThinkServer 9300-8e (2-port 12 Gb SAS) ThinkServer 8885e (2-port 12 Gb SAS)
Cooling	Redundant cooling with two fans built into power and cooling modules (PCMs).
Power supply	Two redundant hot-swap 580 W AC power supplies built into PCMs.
Warranty	3-year customer-replaceable unit, parts delivered limited warranty, next business day 9x5

Components	Lenovo High-Density D3284
Form Factor	Rack/5U
Number of ESMs	2
Expansions Slots	3x 12 Gb SAS x4 (Mini-SAS HD SFF-8644) ports (A, B, C) per ESM
Drive Bays	84 LFF hot-swap drive bays in two drawers. Each drawer has three drive rows, and each row has 14 drives. Up to 4x D3284 enclosures can be daisy chained on a supported adapter for a total of up to 336 LFF drives
Drive Technologies	NL SAS HDDs and SAS SSDs. Intermix of HDDs and SSDs is supported within an enclosure/drawer, but not within a row
Drive Connectivity	Dual-ported 12 Gb SAS drive attachment infrastructure
Drives	<ul style="list-style-type: none"> 4 TB, 6 TB, 8 TB, and 10 TB 7.2K rpm NL SAS HDDs 400 GB SSDs
Storage Capacity	Up to 3.36 PB (336x 10 TB LFF NL SAS HDDs)
Host Adapters	RAID controllers: <ul style="list-style-type: none"> M5120 (8-port 6 Gbps SAS, 2x SFF-8088 connectors) M5225 (8-port 12 Gbps SAS, 2x SFF-8644 connectors) 9286CV-8e (8-port 6 Gbps SAS, 2x SFF-8088 connectors) 9380-8e (8-port 12 Gbps SAS, 2x SFF-8644 connectors) Host bus adapters (non-RAID): <ul style="list-style-type: none"> N2125 (8-port 6 Gbps SAS, 2x SFF-8088 connectors) N2225 (8-port 12 Gbps SAS, 2x SFF-8644 connectors) N2226 (16-port 12 Gbps SAS, 2x SFF-8644 connectors) 9300-8e (8-port 12 Gbps SAS, 2x SFF-8644 connectors)
Host Operating Systems	Microsoft Windows Server 2012 R2 and 2016 Red Hat Enterprise Linux (RHEL) 6 and 7 SUSE Linux Enterprise Server (SLES) 11 and 12 VMware vSphere ESXi 5.5 and 6.0
Cooling	N+1 redundant cooling with five hot-swap fans
Power Supply	Two redundant hot-swap 2214 W AC power supplies
Hot-Swap Parts	ESMs, drives, sideplanes, power supplies, and fans
Warranty	3-year customer-replaceable unit, parts delivered limited warranty, next business day 9x5

Archive

Cost-effective long-term retention or infrequent access

IBM Tape Series stores digital information on tape. Tape is the perfect choice for storing long term data, such as system back-up, disaster recovery or archive. Using less energy and space, infinitely scalable and media life of up to 30 years all speak in favour of the IBM TS Series portfolio.

Features	IBM TS2260 Tape Drive	IBM TS2270 Tape Drive
Available Configurations	Model 6160 H6S—One LTO Ultrium 6 tape drive, 6Gbps SAS interface	Model 6160 H7S—One LTO Ultrium 7 tape drive, 6Gbps SAS interface
Tape Drive Type	LTO Ultrium 6	LTO Ultrium 7
Physical Capacity	2.5TB native; 6.25TB with 2.5:1 compression	6TB native; 165TB with 2.5:1 compression

Networking

Lenovo has been specialising in data centre networking for over 15 years, offering products that are completely interoperable with other vendor's switches. This allows us to build customised solutions and integrate them into a client's infrastructure easily.

Lenovo ThinkSystem NE1072T RackSwitch

Networking Portfolio at your fingertips

Take a 3D tour and get to know the broad portfolio. Visit lenovofiles.com/3dtours

Lenovo

Ethernet RackSwitch (Top of Rack)

Deliver speed and intelligence to the edge of your network, where it's closer to your business and your users. The product line ranges from low-cost 1/10GE switches to 2U 10/40GE switch/routers, with all 10/40GE switches supporting DCB/ROCE. The new Cloud NOS (CNOS) for the Lenovo Top of rack switches is based on open, industry Linux standards to enable support of the most common automation and orchestration applications for simple and tight integration into the data centre ecosystem.

Max bidirectional throughput	1,280Gbps	1,280Gbps	N/A
Cloud Ready	VMready Switch Partitioning UFP OpenFlow	VMready Switch Partitioning UFP	
Flexibility & Scalability	FPM FoD Stacking	FPM FoD Stacking	FPM FoD FSIF
Converged	DCB, CEE, FCoE transit	DCB, CEE, FCoE break out 8Gb FC	DCB, CEE, FCoE transit
Recommended for:	Performance, virtualisation	Direct FCoE connectivity, FC to external F SAN or in-chassis storage	Low-cost end host mode, simple management, 10/40GbE scalability, performance
Warranty	1-year customer replaceable unit	1-year customer replaceable unit	1-year customer replaceable unit

Features	EN6131 40Gb Ethernet Switch	Cisco Nexus B22 Fabric Extender
Base Configuration Ports	14 x internal full-duplex 40Gb ports 18 x external ports for 40Gb QSFP+ transceivers for QSFP+ DAC cables	14 x internal full-duplex auto-serving 1/10G ports 8 x external ports for 10Gb SFP+ transceivers
Max bidirectional throughput	1.44Tbps aggregated	400Gbps aggregated
Scalability & Performance	Non-blocking architecture with wire-speed forwarding of traffic Up to 48,000 unicast and up to 16,000 multicast MAC addresses per subnet Static & LACP (IEEE 802.3ad) link aggregation Up to 720 Gb total uplink bandwidth per switch Up to 36 link aggregation groups (LAGs) Support for jumbo frames Broadcast/multicast storm control IGMP v1 and v2 snooping	Wire-speed forwarding of traffic Static and EtherChannel link aggregation Up to 80 Gb (160 Gb full-duplex) total fabric uplink bandwidth per module Support for jumbo frames PortChannel on server ports
Availability & Redundancy	IEEE 802.1D STP for L2 redundancy IEEE 802.1w Rapid STP (RSTP)	Redundant uplinks through Cisco EtherChannel hashing or static port pinning vPCs for dual-homed connectivity
Virtualisation	Up to 4094 VLANs per switch 802.1Q VLAN tagging support	802.1Q VLAN tagging support Switch Independent Virtual NIC (vNIC2): Ethernet, iSCSI, or FCoE traffic
Typical Configurations		
Recommended for:	High performance applications	Cisco-Flex System connectivity
Warranty	1-year customer replaceable unit	1-year customer replaceable unit

Lenovo Models	FC5022 16Gb SAN Scalable Switches
Maximum Port Configuration	28 internal full-duplex 16/8 Gb FC ports supporting 2 and 4 port adapters 20 external ports for 16 Gb or 8 Gb SFP+ transceivers supporting 4 Gb, 8 Gb, and 16 Gb port speeds
Base Configuration Ports	12 or 24 dynamic ports depending on model
Switch Upgrade 1 Ports	12 additional dynamic ports
Switch Upgrade 2 Ports	24 additional dynamic ports
Key Features	Full fabric Access Gateway Advanced zoning Enhanced Group Management Adaptive Networking ISL Trunking+ Fabric Vision* Advanced Performance Monitoring* Fabric Watch* Extended Fabrics* Server Application Optimisation*
Recommended for:	Storage-intensive enterprise workloads
Warranty	1-year customer replaceable unit

+Requires separate licence or ESB switch

*Requires ESB switch

Juniper Products from Lenovo

Extend Lenovo's networking with Juniper products to build the next generation of data centre infrastructure solutions.

The Juniper EX2300-C-12P and EX2300-24P Ethernet switches for Lenovo with Power over Ethernet (PoE) deliver a compact, high-density, cost-effective solution for small network environments where space and power are at a premium. Featuring a small, 1U footprint, these switches are ideal for access-layer deployments in micro branches, retail and workgroup environments, and converged network access in larger networks.

Networking Portfolio at your fingertips

Take a 3D tour and get to know the broad portfolio of Lenovo's data centre offering. Visit lenovofiles.com/3dtours

Multi Products	Juniper EX2300-C Compact Ethernet Switch	Juniper EX2300-24P Ethernet Switch

Lenovo XClarity Administrator

Lenovo XClarity Administrator is a centralised resource management solution that is aimed at reducing complexity, speeding response and enhancing the availability of Lenovo server systems and solutions. Seamlessly integrated with Lenovo servers, Flex System, RackSwitch networking, and S Series Storage, XClarity also centralises control in a single dashboard. With an intuitive graphical user interface, it allows Auto-Discovery & inventory, firmware updates & compliance, configuration patterns and bare metal deployment. With upward integration, you can manage hardware systems from many common IT applications such as Microsoft System Center and VMware vCenter with XClarity Integrator software plugins. External, higher-level cloud orchestration and IT service management software tools can integrate, leveraging available REST APIs.

Lenovo XClarity Energy Manager is an application that helps view, analyse, and control server power usage.

Lenovo[™]

XClarity[™]

Software-Defined Infrastructure

Engineered to simplify the user experience, software-defined infrastructure is designed to adapt to changing IT needs while reducing complexity and cost created by silos in traditional IT. Pre-integrated, pre-built and pre-tested offerings accelerate application deployment and add robust capabilities to your data centre faster.

Lenovo Storage DX8200C
powered by Cloudian

Software-Defined Storage

The software-defined storage portfolio delivers flexible, easy to scale, and simple to manage data centre storage solutions for Object storage, unified File and Block, and Storage Virtualisation. It offers a full suite of storage services, including dynamic allocation of storage data on underlying x86 servers. Whether you need to manage small chunks of data, in a hierarchy or as objects, SDS appliances offer a full range of data management storage systems across a variety of applications, from database, email, through large data file storing and sharing, all the way to medical and educational records, or online collaboration services.

Features	Lenovo Storage DX8200C powered by Cloudian
Form Factor/Height	Rack/2U
Processor	1x Intel® Xeon® processor E5-2630 v4
Cache	20MB
Memory	64GB
Disk Bays	12 x 3.5" and 2 rear 3.5" HDDs + 2 x 2.5" HDDs/SSDs
Maximum Internal Storage	Up to 140TB
Power Supply	Up to 2 redundant 750W AC, 80 PLUS® Platinum
Hot-Swap Components	Power supplies, fan modules and HDDs/SSDs
Network Interface	2 x 1GbE + 2 x 10Gb (base), optional SFP+, Base-T
Storage Management Software	Cloudian HyperStore
Scale Out Storage	Starts with three nodes and scales to hundreds
Configurable Data Protection	Erasure Coding, Replication, Configurable Consistency
Multi-Tenancy Controls	Role based Group/User level Access Controls QoS services to control usage Configurable cost accounting and chargeback
Data Encryption	AES256 bit encryption support
Systems Management	Lenovo XClarity Administrator with mobile option Lenovo XClarity Pro software bundle Lenovo XClarity Energy Manager IMM2.1, Cloudian Management Console
Support	Lenovo single point of contact for 24/7 assistance
Recommended for	File Distribution & Sharing, backup & archive, Media Content Store, SaaS/Cloud Storage, Object (medical or educational records), Cloud Backend
Warranty	3-year customer replaceable unit and onsite limited warranty, next business day 9x5; upgrades available

Intel® Xeon® Processors

Features	Lenovo Storage DX8200D powered by DataCore
Form Factor/Height	Rack/2U
Processor	2x Intel® Xeon® processor E5-2620 v4
Cache	40MB
Memory	128GB (4 x 32GB) to 512GB (16 x 32GB)
Disk Bays	24 x 2.5" and 2 x 2.5" HDDs/SSDs
Power Supply	Up to 2 redundant 750W AC, 80 PLUS® Platinum
Hot-Swap Components	Power supplies, fan modules and HDDs/SSDs
Network Interface	3 x 10GbE Dual port BaseT adapter (base), optional SFP+, Base-T, or FC
Storage Management Software	DataCore SANsymphony
Scale Out Storage	Two nodes for synchronous mirroring then scale with more nodes or external storage
Supported Networking Protocols	10GbE NFSv3, NFSv4, 10GbE, CIFS, SMB 3.0, 10GbE iSCSI, 8Gbps Fibre Channel, 16Gbps Fibre Channel
Data Availability and Integrity	Synchronous Mirroring, Asynchronous Replication, CDP, Snapshot/Backup
Data Acceleration	High-speed caching, Auto-tiering, Random Write Accelerator, QoS
Systems Management	Lenovo XClarity Administrator with mobile option Lenovo XClarity Pro software bundle Lenovo XClarity Energy Manager IMM2.1, DataCore Management Console
Support	Lenovo single point of Contact for 24/7 assistance
Recommended for	Accelerating applications, Business Continuity/Disaster Recovery, storage consolidation, storage expansion/refresh
Warranty	3-year customer replaceable unit and onsite limited warranty, next business day 9x5; upgrades available

Features	Lenovo Storage DX8200N powered by Nexenta
Form Factor/Height	Rack/2U
Processor	2x Intel® Xeon® processor E5-2643 v4
Cache	20MB
Memory	256GB (16 x 16GB)
JBODs	Up to 8 x Lenovo Storage D1212, or Lenovo Storage D1224, or Lenovo Storage D3284 - up to 6.72PB
Power Supply	Up to 2 redundant 750W AC, 80 PLUS® Platinum
Hot-Swap Components	Power supplies, fan modules and HDDs/SSDs
Network Interface	3 x 10GbE Dual port BaseT adapter (base), optional SFP+, Base-T, or FC
Storage Management Software	NexentaStor 5.0
Scale Out Storage	Two nodes, plus up to 8 JBODs
Supported Networking Protocols	10GbE NFSv3, NFSv4, 10GbE CIFS, SMB 2.1, 10GbE iSCSI, 8Gbps Fibre Channel, 16Gbps Fibre Channel
Data Availability and Integrity	Active/Active controllers, ZFS 256-bit block level checksums, RAID 10 and multi-parity software RAID (n+1, n+2, n+3), Asynchronous replication
Data Acceleration	High-speed caching, Auto-tiering, Random Write Accelerator, QoS
Data Services and Optimisation	Flash and HDD hybrid pools, ZFS Copy On Write, unlimited writable snapshots, thin provisioning, inline data compression, CLI & Web UI, SNMP & REST API
Systems Management	Lenovo XClarity Administrator with mobile option Lenovo XClarity Pro software bundle Lenovo XClarity Energy Manager IMM2.1, Nexenta Management View
Support	Lenovo single point of contact for 24/7 assistance
Recommended for	Generic File Share, Home Directories, Near Line Archive, Transactional databases, email, backup & archive block storage
Warranty	3-year customer replaceable unit and onsite limited warranty, next business day 9x5; upgrades available

ThinkAgile SX for Microsoft Azure Stack

ThinkAgile SX for Microsoft Azure Stack is a turnkey, rack scale hybrid cloud solution optimised with resilient, high performing, and secure software-defined infrastructure. It's the perfect platform to;

- Deliver Azure cloud services from the security of your own data centre
- Enable rapid development and iteration of apps with on-premises deployment tools to help transform your organisation
- Unify app development across the hybrid cloud environment
- Easily move apps and data across private and public clouds

Lenovo and Microsoft have worked closely together to co-engineer the solution components - Azure Stack software and Lenovo software-defined infrastructure - so you can be confident the solution components will perform seamlessly.

ThinkAgile SX for Nutanix

ThinkAgile SX for Nutanix is a best-in-class hyperconverged turnkey rack scale system optimised for deployments that are intended to scale across multiple data centre racks. Built by Lenovo as a single pre-configured system, shipped with ThinkAgile Network Orchestrator and management by Lenovo XClarity Integrator for Prism, the ThinkAgile SX for Nutanix leverages proven hardware with innovative software in one single virtualisation-ready system.

Lenovo and Nutanix deliver leadership hyperconverged offerings that natively integrate compute, storage and virtualisation into a single x86-based appliance deployed in scale-out clusters to dramatically reduce complexity and cost in data centres of all sizes.

NUTANIXTM

Hyperconverged Solutions

Designed for easy deployment and manageability in scale-out clusters, the Lenovo HX Series appliances integrate Nutanix software onto Lenovo's highly reliable and scalable servers. These appliances ship fully integrated, tested, and configured so that you can dramatically accelerate your business growth, while containing your data centre footprint.

The Lenovo HX Series family includes a variety of models optimised to meet growing business and enterprise needs.

- HX 1000 Series for remote office/branch office environments
- HX 2000 Series for small and medium-sized businesses
- HX 3000 Series for compute-heavy workloads
- HX 5000 Series for storage-heavy requirements
- HX 7000 Series for high-performance requirements

Lenovo Models	HX1310
Form Factor	1U
Processor	Up to 1 x Intel® Xeon® E5-2680 v4 (14 cores)
Memory	Up to 256GB 2400MHz TruDDR4
Maximum Internal Storage	Up to 2 x 1600GB SSD or 6 x 2TB HDD
Network interface	1 x dual-port NIC (10GbE/10Base-T)
Hypervisor Support	Nutanix Acropolis pre-loaded VMware ESXi optional Microsoft Hyper-V 2012 R supported
Systems Management	Lenovo XClarity (hardware) Nutanix Prism (software)
Licence Options	Nutanix Starter, Pro or Ultimate
Warranty	3-year or 5-year customer replaceable unit and onsite limited warranty, next business day 9x5; selectable service levels

Lenovo Models	HX2310-E	HX2710-E

Intel® Xeon® Processors

Engineered Solutions

A typical IT department's goals are complex, increasingly costly, and always changing. With Lenovo solutions engineered to optimise resiliency, performance, and TCO, customers can deploy comprehensive, proven solutions that meet requirements from scaling the systems quickly to getting more from their IT budget.

Partnership is in Lenovo's DNA. Collaborating with proven industry partners, Lenovo provides solutions using the best infrastructure and applications to address your workload needs.

Cloud Solutions

for the next step from virtualisation. Improve resource utilisation and business process efficiency.

Big data & Analytics

to make sure information and analysis flow seamlessly to support real-time insight and facilitate better decision-making.

Business Applications

can benefit from improved productivity with Lenovo's high-performance, scalable, extremely reliable hardware for business critical workloads.

Database Solutions

to take advantage of optimised solution offering built on top-tier technology, whether for a small department or a data warehouse.

High-Performance Computing & AI Solutions

powered by Lenovo platforms with Intel® technology can help you put your business at the forefront of tomorrow. On top of our high-density data centre infrastructure, we bring customised solutions for the high-performance technical computing storage needs in our new DSS family of products.

Client Virtualisation and Infrastructure

are battle-tested to help IT managers easily deploy, secure and manage their technology.

Lenovo DSS-G

Lenovo Distributed Storage Solution for IBM Spectrum Scale (DSS-G) is a software-defined storage (SDS) solution for dense scalable file and object storage suitable for high-performance and data-intensive environments. DSS-G combines the performance of Lenovo's latest generation x3650 M5 servers, Lenovo D1224 and D3284 storage enclosures, and industry leading IBM Spectrum Scale software. Designed for Technical Computing, HPC, Analytics and Cloud environments can handle small to very large capacity storage workloads with high performance, in an up-scaling building-block storage approach with easy installation, design and support along our broader HPC offering.

Lenovo DSS-G

Lenovo Services

Lenovo offers a comprehensive portfolio of services that support the full lifecycle of a customer's Lenovo IT assets. At every stage—plan, fulfil, deploy, support, optimise, and end of life—Lenovo offer the expertise and services clients need to more accurately budget for IT expenses, deliver better service-level agreements and generate greater end-user satisfaction. With Lenovo Professional Services expertise we can help clients gain the most from their technology investment.

Tackle your most complex challenges

Lenovo Services consultants, with deep experience in delivering technology solutions, can help you overcome complicated business challenges with innovative design, architecture, application & integration solutions

Making business easier

Clients can focus on their core business with a comprehensive portfolio of deployment, support and managed services that cover the entire suite of enterprise products

Peace of mind

Lenovo Services consultants have specialised, understand the latest technology inside out

and employ industry best practices to deliver solutions consistently and reliably

Flexible

A range of services to complement your internal team, capabilities and business demands at a global and local level

Improved Service

Experienced Lenovo Professional Services consultants help maintain and ensure optimal performance and efficiency in the data centre through health checks and preventative maintenance

For more information on Lenovo Services please visit www.lenovo.com
