WORK
REIMAGINED

A New Standard in Clean

WORK REIMAGINED

Protection is at the heart of everything Targus does. As the pandemic eases and people start returning to shared workspaces, we're transforming the safety of hybrid working. With next-level antimicrobial solutions that not only protect your tech, your data and our planet but protect our health and wellbeing too.

Organisations must put their employee wellbeing first: delivering peace of mind during commutes and creating demonstrably safe and flexible workspaces where people will want to come and quietly work, meet up or collaborate.

PROTECTION IS AT THE HEART OF WHAT WE DO...

Protecting Your Technology

Protecting The Planet

Protecting Your Wellbeing and Workspace

Our research tells us the **top 3 things people expect** to have changed about the office when they return:

1

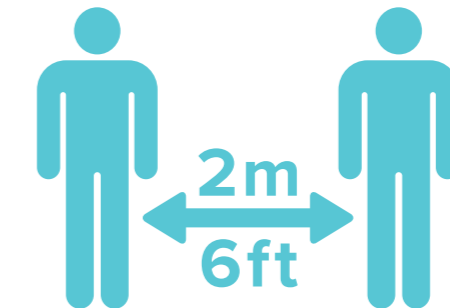

54%

Improved cleaning protocols

2

53%

Improved Covid-19 security

3

41%

Increased levels of trust to work away from the office

Trust Targus to help you plan without panic for the next phase, creating clean workspaces.

AT HOME | AT THE OFFICE | ON THE MOVE...

Human needs have changed, working and living under lockdown we have adapted our way of life to protect each other.

We have all had to embrace a new normal, and hybrid ways of working and living are likely to continue.

We need solutions for the cleanliness challenges at home, in our workplaces and on the move.

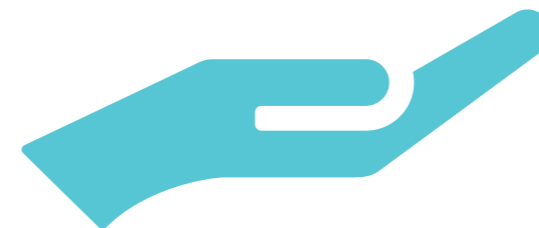

THE FUTURE OF WORK

The future of work is hybrid, with some homeworkers set to gradually return to the office as the world reshapes around the pandemic. As we start venturing out, we're likely to be carrying much more of our own tech and accessories, particularly high-touch peripherals like keyboards and mice.

3 LEVELS OF CLEAN PROTECTION

1

Barrier Antimicrobial Protection

SEE OUR SOLUTIONS ▶

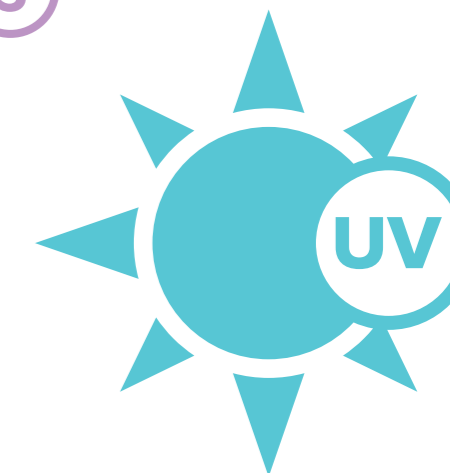

2

Integrated Antimicrobial Protection

SEE OUR SOLUTIONS ▶

3

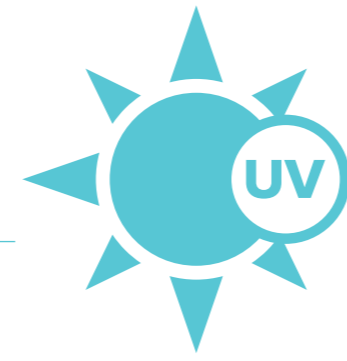

Active Antimicrobial Protection

SEE OUR SOLUTION ▶

Neutralise microbial threats. Prevent germ growth. **Create clean workspaces with Targus.**

ACTIVE ANTIMICROBIAL PROTECTION

Our **UV-C LED Disinfection Light** actively disinfects workspace and device surfaces by killing unwanted micro-organisms right at DNA level. It harnesses the germicidal effects of UV-C light, killing micro-organisms like bacteria, viruses and mould at DNA level.

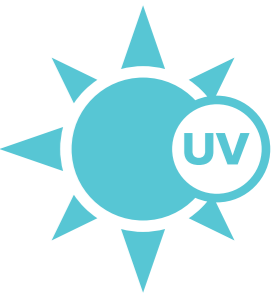

UV-C Technology

The 'C' wavelength of ultraviolet light breaks down the DNA of micro-organisms disabling their ability to function or reproduce, and they die.

UV-C light is invisible and highly effective at disinfecting surfaces such as keyboards, mice, and other commonly used objects in the home or office.

Proven and tested technology is currently being used in hospital neonatal environments.

ACTIVE ANTIMICROBIAL PROTECTION...

UV-C Led Disinfection Light

- Optimised to sit between a monitor and keyboard on a desktop to clean keyboards, mice and other items in the active area
- Easy to move, to enable disinfection of other items like keys, pens, stylus, smartphone or other items
- Automation and Motion sensing technologies enable this to be used safely in most environments
- Hourly Automated Cleaning Cycle
 - Waits for 5 minutes of no motion
 - Runs for 5 minutes every hour
- Motion Activated Safety Features
 - Motion sensing field UV-C active area
 - Auto shut-off
- Eliminates the need for liquid-based cleaning

AWV339TT

INTEGRATED ANTIMICROBIAL PROTECTION

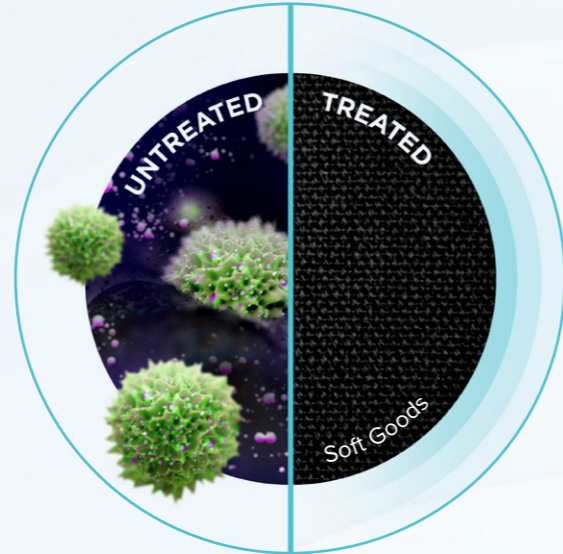

DefenseGuard™ Antimicrobial Protection

A continuous cleaning innovation designed to prevent and eliminate the growth of bacteria. It delivers a durable, cleaner surface. Proven to protect bags, cases, keyboard and mice against germs it won't wear off or wash off, it is designed for life.

Testing of Targus materials including the JIS Z 2801 and ISO 22196:2011 standards at independent laboratories has demonstrated **99.9% reduction** of Staphylococcus aureus (Staph Infection) and Escherichia coli (E. coli).

BPR and EPA compliant, silver antimicrobial agents' have been infused into Targus DefenseGuard™ products for all-around protection, neutralising bacterial threats to your product for its lifetime.

*Antimicrobial product protection is limited to the case or device itself.

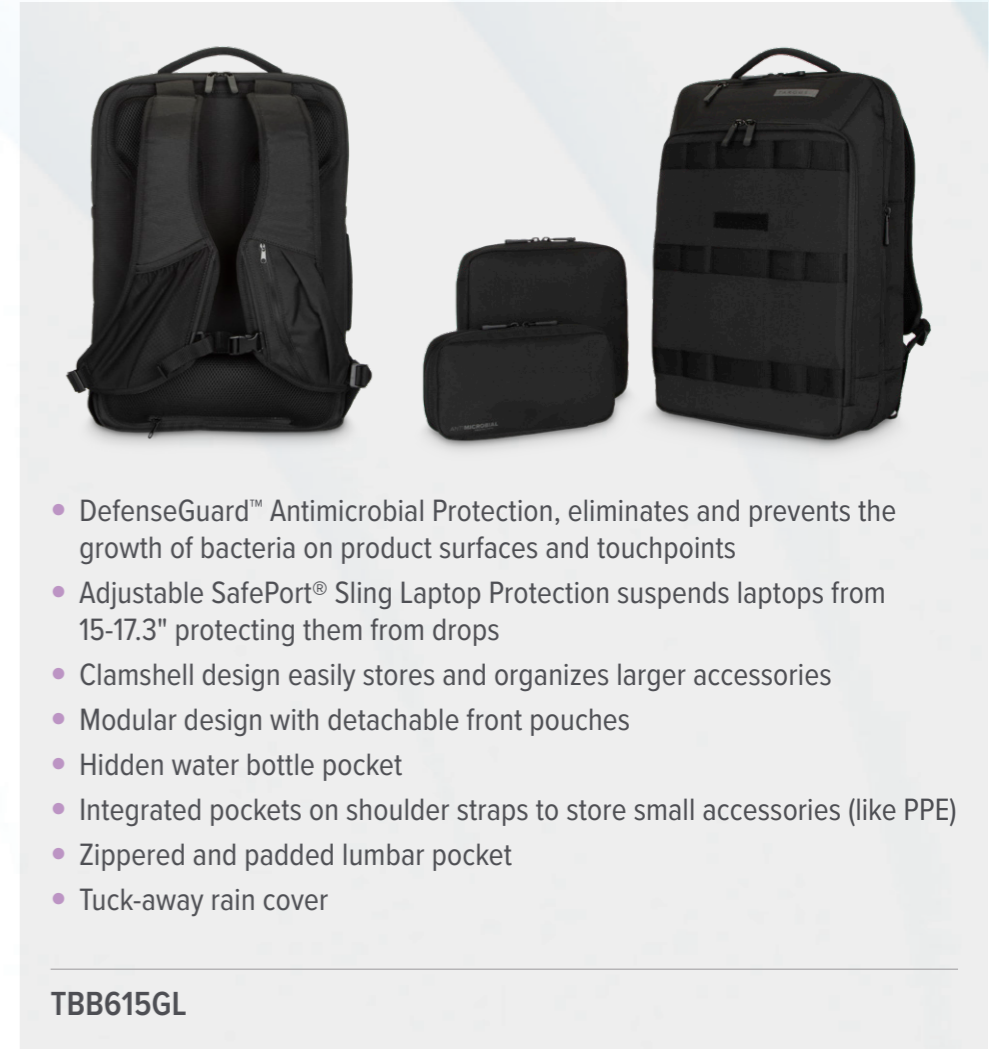

INTEGRATED ANTIMICROBIAL PROTECTION...

20 Office Antimicrobial Backpack

Carry More.
Worry Less.

- DefenseGuard™ Antimicrobial Protection, eliminates and prevents the growth of bacteria on product surfaces and touchpoints
