TOTEM & WAYFINDING KIOSKS

Universal Indoor Floorstanding Portrait Kiosk

Up to 65" - Single Sided & Back-to-Back

Experience the elegance of Peerless-AV's Indoor Portrait Kiosk. This sleek, multi-media kiosk incorporates a robust feature set, while maintaining an elegant curved design. From entertaining to wayfinding, the kiosk is an ideal solution for various indoor application settings, including corporate, retail and hospitality.

**Custom Colour**

Made in the UK

- Designed to accommodate single displays up to 101mm deep while accentuating the slim, curved kiosk design

- Back-to-Back models accommodate two ultra-thin displays up to 46mm thick

- Designed with architectural steel and a 9.5mm (3/8") steel base plate that provides stability, strength and corrosion resistance

- Two whisper quiet thermostatically controlled cooling fans to exhaust heat generated from the display and components

- Internal micro-adjustments allow for quick positioning of display within the kiosk window for flush alignment

- Secured doors allow convenient access to the display, media player and other internal components for easy installation and maintenance

- Flat base can be free standing or bolted to the ground and allows for electrical and data cable access

Outdoor Smart City Kiosk

Replace static signage with Peerless-AV's award-winning Smart City Kiosk for greater public engagement and seamless updates of digital content whenever, wherever. With a focus on functionality and aesthetics, the Smart City Kiosk is designed to be modern, approachable, practical, and endure the rigours of everyday use.

Wind Tested 140mph

All Weather Rated: IP68

- Includes Peerless-AV®'s Award-Winning 55″ (XHB552) Xtreme™ High Bright Outdoor Display

- Ambient light sensor automatically adjusts the display's brightness to best match lighting conditions

- Elegant, minimalistic design covers, protects and ventilates display and equipment

- No additional layer of glass needed between display and enclosure, eliminating glare

- Wind tested up to 140 mph

- Ultra slim design. Sleek and stylish, yet rugged enough to be installed in any application

- Easily add-on additional technology components for enhanced functionality, such as cameras, routers, antennas and more

- Media storage area protects electronic components rated to 10°C above local air temperature with filters and cooling fans (tested to IP54 rating).

Custom Finishes

With many public and private spaces becoming ever more congested with multiple digital signage content, from a variety of sources, it is important to clients that their message stands out in the crowd. Whether a kiosk branded with the client logo or in their corporate colours, or a solution where the kiosk graphics carry through the marketing theme. To support this requirement, Peerless-AV offers the ability to personalise any of the kiosk range with a choice of three different client branding options.

Aesthetic customisation

Custom Colour Finish

This delivers a kiosk that is finished in a bespoke colour to perfectly match client brand guidelines or to create an appearance that works with the aesthetics and decor of the location. Components are powder coated in the same way as a standard Peerless-AV kiosk and are delivered fully assembled.

Vinyl Logo / Graphic

Kiosk models are available in either a Black or Silver (-S) powder coated finish as standard, to which it is possible to add a vinyl graphic. This could be anything from a company logo, marketing message or a product image for a semi-permanent static brand statement.

Full Vinyl Wrap

To create a branding statement without compromise, a complete vinyl wrap is the ultimate canvas on which to deliver your message. Creating a stunning, seamless appearance in full colour. The only limit to the designs that can be achieved is your imagination.

## Peerless-AV also offer add-on additional technology components for boosted functionality

Speakers

Add speakers to boost end user communication.

Camera

Add a camera to capture real-time video and enhance interactivity.

Wheel Base

Add a wheeled base for ease of movement.
