# Why Samsung Print?

At Samsung, we're in the business of delivering straightforward, flexible print solutions. While printing remains a key investment for any business, our holistic approach ensures you feel completely assured in our capabilities.

Delivering much more than just product, we deliver reliable, compatible solutions that offer user-friendly features and intuitive interfaces so your users can get the most out of their printing, every time! Ranging from compact A4 desktop printers through to fully configured A3 digital multifunctional printers, with customisable solutions, Samsung offers one of the

industry's widest selections of printers, MFPs and print software.

Here at Samsung Print, our aim is to give our customers performance, without complexity. Beyond our print devices, Samsung Printing provide document, device and security management for streamlined workflow and efficient printer performance.

Samsung's goal is to increase efficiency, help reduce your printing costs and add flexibility for corporate environments by providing intelligent solutions to meet everyday business challenges.

Samsung CLX-6260FW

# Samsung Print Promises

## Faster

The fastest and most responsive laser printing engines drive our mono and colour printers.

Samsung's instant fusing technology enables Samsung laser printing devices to deliver faster printing speeds and lower power consumption, saving energy and money.

## Longer

Samsung's Toner Save feature enables you to save up to 30% of your printer consumables and print for longer!

Immediately switch to low power consumption, with the power save button conveniently situated on the front of the device, it's easy to switch to Power Save Mode.

## Innovative

Samsung is the 11th most innovative company according to Bloomberg's Business Week.

2nd largest number of patents registered in the industry over the last 12 months.

\$6.2 billion spent across 26 R&D centres globally.

## Secure

We understand the intricacies and sensitivities of system security, and create printing devices that are easy to incorporate into your existing processes to provide you with the document security you demand.

## Reliable

We conduct 34 independent reliability tests at the point of design.

## Protected

We offer a standard 1-year limited warranty on all Samsung Printers and MFPs. An extended warranty is also available for up to 3 to 5 years.

## Responsible

More than 80% of Samsung's IT product range now carries Energy Star® certification. Energy Star is a worldwide award programme that offers businesses and consumers energy-efficient solutions.

Blue Angel is the first and most well-known eco-label worldwide and is awarded to companies for their commitment to the environment.

## Brighter

Sharper graphics delivered with enhanced imagery of up to 1,200dpi on Samsung printing technology.

Polymerised toner delivers sharper printed imagery.

# Our environment

As a technology leader, Samsung has a responsibility to the future of our planet and the impact that modern printers will have on the environment, a responsibility we take very seriously. All of our business activities observe our Green Management Policy, which encourages respect for nature and contributes to the prosperity of human life and the conservation of the environment, as follows:

#### Green management system

to continuously improve how we manage any environmental, safety and health issues occurring in production and service.

#### Compliance with regulations

we apply rigorous standards and faithfully observe relevant laws, regulations and international agreements in order to be a good corporate citizen.

#### Minimising environmental impact

with the use of resources and energy through clean production technologies, and the development of new advanced technology to reduce the output of materials known to cause negative environmental impacts such as CO2 emissions.

#### Life cycle responsibility

with environment and safety conscious designs, use of environment-friendly materials and the recycling of end-of-life products.

#### Realisation of a safe and pleasant workplace

to prevent environmental or safety-related accidents, fostering the atmosphere of a safe and pleasant workplace.

#### Solid supplier partnership & community contribution

we fully co-operate with suppliers in fulfilling Green Management Policies, and will maintain excellent partnerships with them to carry out activities for environmental conservation and the development of the local communities.

## Green accolades

ENERGY STAR is a worldwide award programme that offers businesses and consumers energy-efficient solutions, making it easy to save money while protecting the environment for future generations to come.

The Blue Angel is the first and most well-known eco-label worldwide. The Blue Angel is awarded to companies for their commitment to the environment. It is used to professionally promote eco-friendly products in the market. The Blue Angel is an ecological beacon showing consumers, ecologically superior products and promotes environmentally conscious consumption.

# What is NFC?

Near Field Communication (NFC) printing is a wireless sharing technology that enables your mobile device to connect and communicate with your printer. Tap your phone or tablet to your printer and print.

Samsung has created a MobilePrint solution that is ready to handle today's latest business tools. Printing photos, web pages, PDF files etc, from your mobile devices is now a simple task. Whether you use an Android or IOS-based smart phone or tablet PC, simply select the content and then wirelessly print. It couldn't be easier.

## Mobile Print App

Printing photos, web pages, emails and documents can all be done through your smartphone or tablet with the Samsung Mobile Print App. You can even scan from a connected network, fax over a document or transfer any file easily to both a PC or over the web. Giving your smartphone or tablet the power to print is a massive advantage.

For Android users (2.1 or later), the Samsung Mobile Print App can be downloaded from Google Play. For iOS users (3.2 or later), the Samsung Mobile Print App can be downloaded from the App Store.

## Direct Wi-Fi

Mobile devices continue to make the office more efficient. Samsung Wi-Fi Direct Printing allows users to print straight from smartphones, tablets or PCs. With Wi-Fi Direct connectivity you can print and scan without having an access point.

# Experience SMART printing, just like using a tablet

Businesses now want to extend smart technology to all devices to gain the same level of intuitiveness and flexibility. A printer is no exception.

## Touch to print

The SMART MultiXpress provides innovative usability through Samsung SMART UX Center as the very first Smart Android printing UX. Samsung SMART UX Centre is a printing UX based on the Android OS and the first of its kind in the printing industry.

This user-friendly UX provides intuitiveness, usability and extendibility at the same time, which ensures perfect compatibility with various Android-based smart devices.

## Experience SMART printing, just like using a tablet

The interface also provides the Real Preview function from

the preloaded applications, such as Copy, Send and Box. You can further extend usability with direct web access through the web browser to quickly print various web content, such as maps, pictures, emails and more without a PC.

## Enjoy preloaded applications and widgets

Printing applications are preloaded, including Copy, Scan/Send, Box, Job Status, Counter, Settings, Build Job, Address Book and Help, which provides users with more convenient usability. Plus, there are custom widgets for creating instant, one-tap access to frequently used functions.

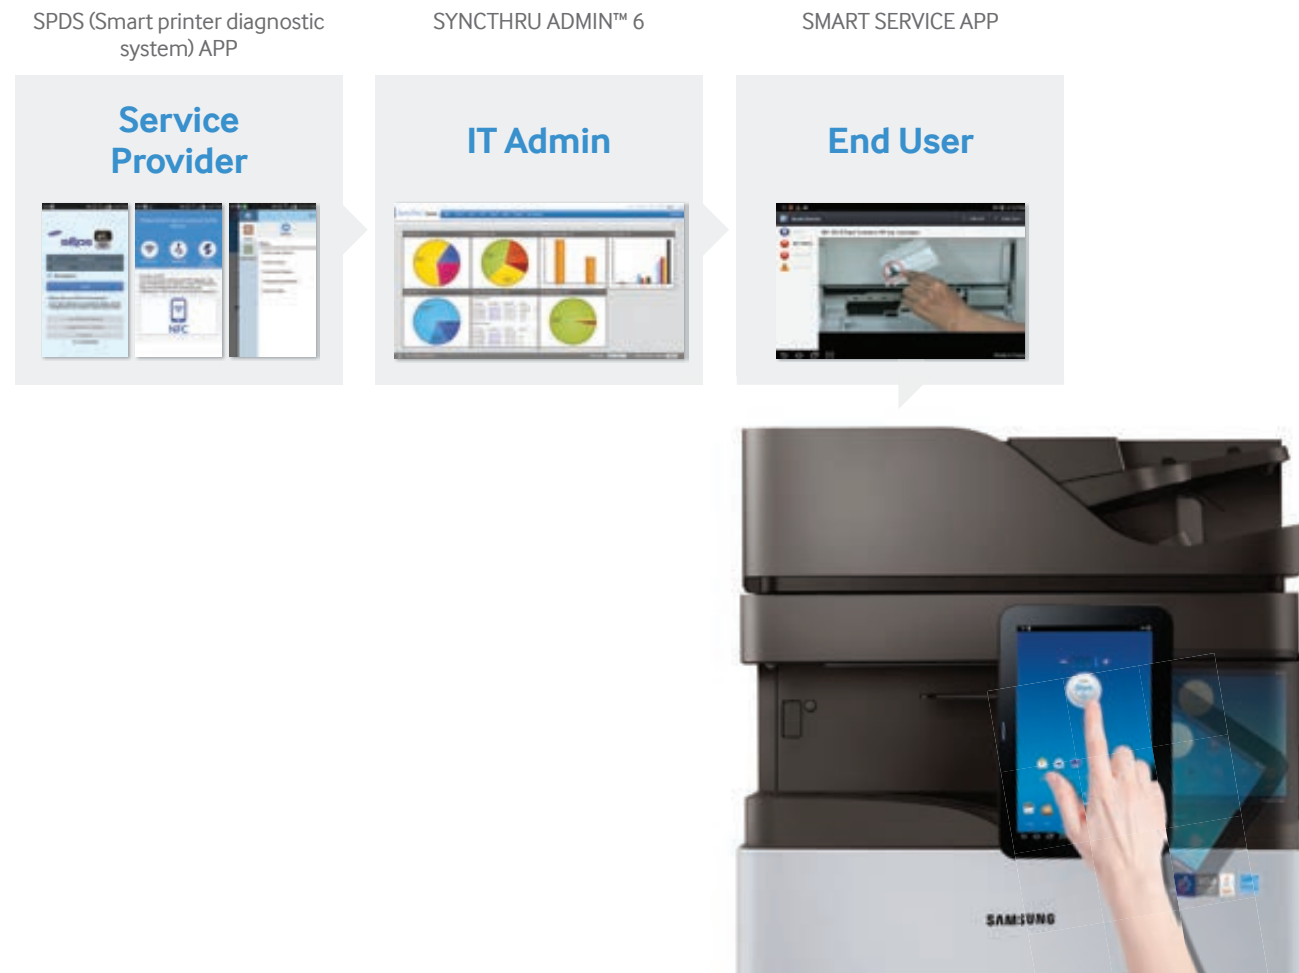

# SMART service

## Service trends in the printing industry

Rapid advancements in technology continue to drive digitisation of information, IT consumerisation and BYOD initiatives, resulting in significant changes in today's business environment. The ability to seamlessly handle and print digital documents in a modern workplace has become critical to productivity in this competitive market landscape. With the expanding role of digital document editing and printing, the service requirements to maintain these document workflows at optimal levels is also increasing. And as evolving enterprise mobility enhances every aspect of business, the end customer now expects the same kind of prompt, interactive service solutions for their printer systems.

## Why Samsung SMART service solutions?

Samsung SMART service solutions offer a broad range of methods to solve document-handling issues that may arise in the workplace and provide quick, communicative services to ensure optimal print operations for businesses. By offering customised solutions specially designed for every stakeholder involved in the document printing process, from IT administrator and an end-user to a service provider. Samsung provides the ideal solution to various problems at virtually any point in the process while drastically reducing service waiting time. This means minimal workforce downtime for increased business productivity and an improved bottom line.

# Winning achievements

Since 1961, Buyers Lab has been the leading independent office-equipment testing lab and business consumer advocate.

Our printing devices and solutions are in a league of their own. At Samsung we have received a number of high ranking awards and accolades from Buyers Lab for the reliability and overall performance of our business printing products. Our recent achievements include awards for Mono Range of the Year.

For more information on Buyers Lab and our achievement to date, visit [www.buyerslab.com](http://www.buyerslab.com)

**CLX-4195FN** 18ppm

**SL-C1860FW** 18ppm

### Samsung MobilePrint app: Advanced mobile printing with more options

Print with powerful features, including N-up printing and image size adjustment. You can also print various formats and types of documents, such as gallery images, Microsoft® Office® documents, Adobe® PDFs, web pages, e-mail and Google Docs, along with Facebook® content. Moreover, fix print errors from your smartphone using visual troubleshooting. Just tap when a print error occurs and a video clip guides you through fixing jams, empty toner and more.

### Crisp, glossy images with Samsung's polymerised toner

Our newly developed polymerised toner has smaller and more uniform particles than conventional toner. Your printouts will have crisper lines and more vivid colours, in addition to eliminating paper curling. Also, its higher wax content improves the image gloss and enhances durability, preventing unwanted fading.

Conventional	Samsung
Various, non-uniform, jagged toner particles	Small, uniform, round toner particles

### Easy toner replacement

Replacing toner cartridges is a snap with a push-loading drawer.

### Easy colour management

The Samsung Easy Colour Manager enables you to adjust the colour balance, saturation, brightness or contrast of any image prior to printing. It's perfect for matching the exact colours of your company logo every time.

### High yield, low costs

Higher-yield cartridges mean more time between changes, saving you time and consumables, which translates into less per-page cost and reduced TCO.

# Small Office / Home Office

## Mono Printers

Total reliability and efficiency for your home or small office

The perfect mono printer range for all of your home and small office printing requirements.

### SINGLE FUNCTION PRINTERS

SL-M2026 20ppm

SL-M2026W 20ppm

SL-M2825ND 28ppm

SL-M2835DW 28ppm

### MULTI-FUNCTION PRINTERS

SL-M2070 20ppm

SL-M2070W 20ppm

SL-M2675FN 26ppm

SL-M2875FD 28ppm

SL-M2885FW 28ppm

### Work smart on the go

Samsung SMART Printing Solutions provide businesses with end-to-end office connectivity that enable smart devices and printers to easily and seamlessly work together. Using Samsung NFC Print, the Samsung MobilePrint app connects a smart device to a printer with a simple tap without skipping a beat.

### Samsung NFC Print: Tap, print and go

Workers can simply tap their smart devices<sup>1</sup> to print, scan or fax to a MFP with the Samsung MobilePrint app on their mobile devices<sup>1</sup> thanks to Samsung NFC Print.

### One Touch Eco Button

Businesses can lower toner and paper usage with the One Touch Eco Button. The One Touch Eco Button automatically activates 2-up printing (two pages on the same side) and duplex printing (printing on both sides). Users can also choose the option to skip blank pages in the toner-saving mode. These eco settings can be adjusted using Easy Printer Manager.

### High-speed printing and image processing

Businesses can accelerate workflow with the high-speed Xpress M2885FW. The Xpress M2885FW delivers print speeds of 28 ppm in A4. These robust MFPs are designed to handle large, complex print jobs with Samsung's advanced 600 MHz ARM® Cortex™-A5 core processor and 128 MB memory. Plus, an embedded image processor enables rapid processing of scans.

### Easy Eco Driver

Easy Eco Driver software, granted the 2012 Outstanding Achievement in Innovation award from Buyers Laboratory (BLI), saves users up to 20 percent on toner. The software also reduces energy consumption. Users have the option of removing images, converting them from bitmap to sketch and removing text to save toner using the toner-saving mode.

<sup>1</sup> Mobile devices need to support NFC.

# Small / Medium Business

## Colour Printers

Manageable, cost effective and versatile colour printing

Cost effective colour printing solutions designed for small to medium businesses.

### SINGLE FUNCTION PRINTERS

**CLP-680ND** 24ppm

**CLP-680DW** 24ppm

**SL-C2620DW** 26ppm

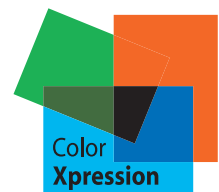

**CLP-775ND** 33ppm

### MULTI-FUNCTION PRINTERS

**CLX-6260ND** 24ppm

**CLX-6260FW** 24ppm

**SL-C2670FW** 26ppm

### Secure, confidential printing

This feature enables users to release documents only when they enter their pin code at the MFP, ensuring confidentiality and security is kept to a maximum.

### Get in touch with easy printing

From liquid crystal to colour LCD touch screens, our displays enable you to control the device's browse menu quickly and easily, providing you with the functionality you need.

### Faster printing and productivity

Powerful dual core processors combined with 1Gigabit LAN support enables large documents from multiple users to be received, processed and printed quickly.

### Easy toner replacement

Our MFPs feature easy to change, front or top loading toner, providing an effortless user maintenance experience, and by using our high yield all-in-one toner cartridges, you will save both time and money.

### Business colour printing at its best

With the power to handle the demands of accurate colour printing with absolute ease, Samsung colour MFP printers deliver high quality whenever you need it. With our enhanced CTD sensor we ensure that colour output is always clear, sharp and professional.

### One touch eco solution

The ECO button lets you save paper, energy and reduce toner usage, plus the unique Samsung Result Simulator provides a graphic representation of your savings on your Carbon Footprint, power consumption and paper usage, dependent on the criteria you select.

# Small / Medium Business

## Mono Printers

Manageable, cost effective and versatile mono printing

Cost effective mono printing solutions designed for small to medium businesses.

### SINGLE FUNCTION PRINTERS

**SL-M3320ND 33ppm**

**SL-M3820ND 38ppm**

**SL-M4020ND 40ppm**

**ML-5015ND 48ppm**

**ML-5515ND 52ppm**

**ML-6515ND 62ppm**

### MULTI-FUNCTION PRINTERS

**SL-M3370FD 33ppm**

**SL-M3870FW 38ppm**

**SL-M4070FR 40ppm**

**SL-M4580FX 45ppm**

### Built-in duplex printing

ProXpress series provides professional two-sided documents, brochures, and booklets with ease, which can also help save money and reduce paper use.

### Convenient mobile printing optimised for various business environments

Samsung MobilePrint application helps employees wirelessly print from their mobile devices. Users do not need to install a new driver or configure network settings. Office workers can simply download the MobilePrint application from the Google® Play store for Android™ and the Apple Store® for iOS®.

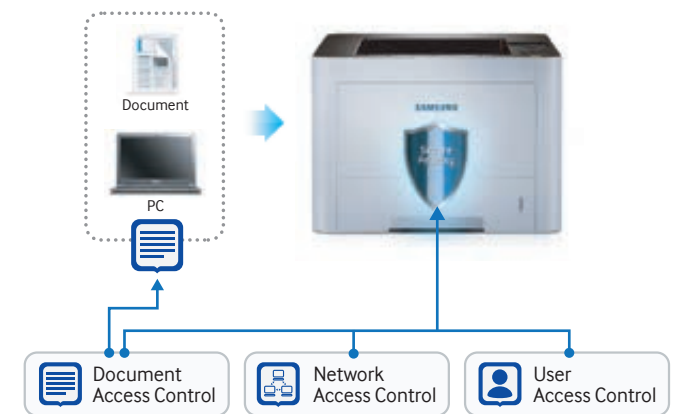

After downloading the application, the mobile device automatically detects nearby, compatible Samsung printers. The ProXpress series3 can handle almost any type of file, including text documents, images and web pages.

### Enterprise-level document security

Businesses produce and print numerous official documents including confidential information, which requires high security on the printing jobs.

ProXpress series offer greater control of user, document and network access with Samsung SyncThru™ Admin at the enterprise security level.

### Easy connection

Users can print wirelessly from mobile devices, such as smartphones, tablets, and PCs. Wi-Fi Direct connection allows devices connected to the available Samsung ProXpress printers around even without an access point or Wi-Fi router.

# Enterprise

## Colour MFPs

Flexibility and control for your business

Our Enterprise colour printer range is designed at the cutting edge of printing technology. This range is the ultimate in performance, productivity and flexible finishing.

### A4 COLOUR MFPS

**CLX-8640ND** 38ppm

**CLX-8650ND** 48ppm

### A3 COLOUR MFPS

**CLX-9201NA** 20ppm

**CLX-9251NA** 25ppm

**CLX-9301NA** 30ppm

**CLX-9352NA** 35ppm

### SMART PRINT RANGE

**SL-X4220RX** 22ppm

**SL-X4250LX** 25ppm

**SL-X4300LX** 30ppm

**SL-X7400GX/LX** 40ppm

**SL-X7500GX/LX** 50ppm

**SL-X7600GX** 60ppm

**SL-X7600LX** 60ppm

Touch & Slide UI on 10.1" Color Touchscreen

10.1"

Convenient Applications & Widgets

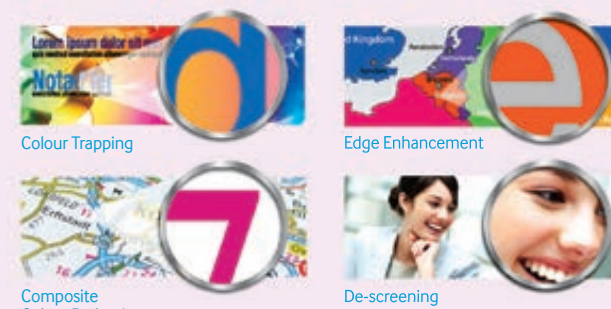

**Samsung SMART UX Center** powered by Android™

### SMART Touch

Touch to print, just like on a tablet

The SMART MultiXpress X4300LX / X4250 LX / X4220RX provides innovative usability through Samsung SMART UX Center as the very first Smart Android printing UX. Samsung SMART UX Center is a printing UX based on the Android OS and the first of its kind in the printing industry.

This user-friendly UX provides intuitiveness, usability and extensibility at the same time, which ensures perfect compatibility with various Android-based smart devices.

### Get sharper quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology delivers professional-quality output with sharp text and clean images, ensuring a perfect looking printout every time. The innovative technology automatically sharpens the focus of both graphics and text. And with a superior resolution of 1,200 x 1,200 effective dpi, your scans, printout and company will always look professional.

<sup>1</sup> Dual-Scan ADF is available on the X4250LX and X4300LX models only. <sup>2</sup> 80 single-sided ipm is available on the X4250LX and X4300LX models only. <sup>3</sup> 100 double-sided ipm for color is available on the X4250LX and X4300LX models only. <sup>4</sup> 120 double-sided ipm for mono is available on the X4250LX and X4300LX models only. <sup>5</sup> 30 ppm is available on the X4300LX model only. 25 ppm is available on the X4250LX model only. 22 ppm is available on the X4220RX model only.

Ultra-fast dual scan Up to 120 ipm

Fast print speed Up to 30 ppm

**Dual Core Core**  
1GHz Dual-Core CPU

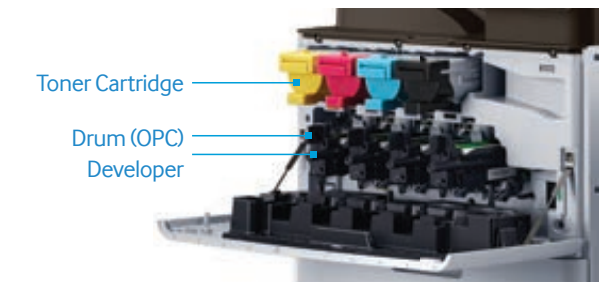

### Work fast, wait less

Scan at ultra-high rates

SMART MultiXpress X4300LX / X4250 LX / X4220RX printers are equipped with Dual-Scan ADF<sup>1</sup> technology, enabling them to deliver ultra-high, best-in-class scanning speeds. These workhorse MFPs can scan up to 80 single-sided images per minute (ipm)<sup>2</sup>, up to 100 double-sided ipm<sup>3</sup> for colour and up to 120<sup>4</sup> double-sided ipm for mono.

Save resources with low total cost of ownership (TCO) printing

Businesses can handle heavy printing volumes while reducing labour costs with the X4300 Series' ultra-high-yield toner cartridges and drums. Flexible options range from toners that yield 20,000 standard pages for colour to 23,000 for black and white, while drums yield 100,000 standard pages. These long-life consumables ensure businesses get the most out of their resources, resulting in lower TCO.

### SMART Manage

#### Personalise the UX through My Page

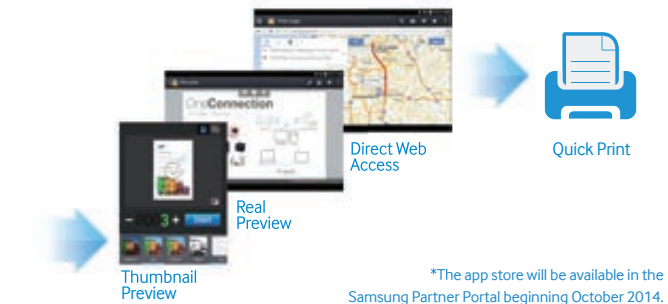

Enhance the UX by arranging and managing the environment by user with My Page. Simply customise the My Page settings and Quick Menu for each user and you can keep track of an individual's usage, control accessibility and more.

#### Create custom apps and UIs in a snap

Administrators can create quick custom apps directly on the devices. Instantly respond to different customers with one click by customising the UI configuration in a maximum of a minute.

#### Create the printing environment that suits your needs with customised, cost-efficient solutions

Samsung's Business Core™ Printing Solutions (BCPS) work as efficiently as you do by providing cost-effective and secure print operation, increasing productivity and simplifying management. The solutions require no dedicated server or IT resources and reduce unnecessary printing and supply use, lowering TCO. These essential printing solutions include:

### SMART Use

#### Expand use with independent functions and extensibility

The interface also provides the Real Preview function from the preloaded applications, such as Copy, Send and Box. You can further extend usability with direct web access through the web browser to quickly print various web content, such as maps, pictures, emails and more without a PC.

Plus, you can access more useful features and solutions by downloading them through the Samsung printing app store.\*

Business Core Printing Solutions	Benefits
SecuThru™ Lite 2	Enhances document security and reduces costs with user authentication
Secure Login Manager	Guards valuable data and devices from unauthorised use
SmarThru™ Workflow Lite	Increases productivity with an automated workflow solution
Cloud Connector	Scans to and prints from the cloud with easy, secure access
Usage Tracker	Controls printing expenses by easily tracking device usage per user

# Printing Solutions

Super Smart Super Simple.

Samsung is the world's second largest laser printer manufacturer. For more than 20 years, we have been developing award winning laser printers and MFPs that businesses across the globe depend on for the smooth running of their day-to-day operations.

Today, our printer range is stronger than ever. In addition to the widest range of colour and mono A4 printers and MFPs, we have an impressive range of A3 devices and business print solutions that allow us to meet our customers' document processing and output needs in their entirety.

Office print has a higher profile than ever. Awareness of its true costs, as well as its potential to transform business efficiency, have propelled it to the top of the corporate agenda. Sometimes this is the result of simple economic necessity and a need to eliminate unnecessary costs. Other times, it is driven by a desire to streamline processes. Whatever the motivation, you will only succeed if you have the right tools.

At Samsung, we make it easy for our customers by supplying our network devices with all the solutions you need to manage, monitor and control print output.

## Fleet Management

Many of the pitfalls of uncontrolled print environments can be overcome with simple device management. Alerts that tell you when a printer is running low on toner; administration tools that make it easy to apply two-sided printing across all devices; reports that track users' printing habits. All can have a big impact on productivity and cost control.

## Output Management

These solutions enable companies to reliably, efficiently and cost-effectively manage high-volume business document distribution. Companies can deliver business-critical information from virtually any source to any destination across your distributed enterprise – everything from printers and faxes to e-mail, web or file destinations. Scan, convert, extract data and distribute documents directly and securely.

## Managed Print Services

Samsung works with managed print service partners to deploy strategies focused on your business – from Small to Medium Businesses to Large Enterprises – that bring control over documents' hidden costs in an organisation without sacrificing quality or performance.

## Mobile and Cloud

Nowadays, we all need the freedom to send print information wherever we are. That's why our easy Wi-Fi connectivity technology proves so useful to modern workplaces. We can make sure everything is connected as efficiently as possible.

## Utilities

Samsung's Printing Utilities are smart applications designed with our customers in mind. User specific tools such as Plug-ins, device software features, or print drivers for enterprise applications (SAP, Oracle), host systems (AS400, etc.), and operating systems (Unix, NetWare, and Microsoft), help to save time and money.

# Solutions Compatibility Matrix

Samsung Print Solutions put printing at the heart of your business. Our easy-to-use software and features deliver power and intelligence to your printing devices, putting you in control of your printers and MFPs. Samsung Print Solutions provide the security, control and paperless processes demanded by businesses. They also provide a powerful platform for integrating leading third-party solutions.
