Capabilties Brief

swish

ABOUT

Swish helps government agencies leverage technology to achieve superlative outcomes and rapid innovation. We do this by combining innovative technology, domain expertise, and our passion for continuous improvement.

We specialize in modernizing applications, infrastructure, data analytics, cybersecurity, and end-to-end performance. As an outcome-focused solutions provider, we deliver value throughout the Plan > Implement > Manage > Optimize > Refresh phases of a project.

Since 2006, Swish has been an ethical and trustworthy mission partner that exceeds client expectations. Agencies can acquire our solutions through various small business contract vehicles with flexible payment options.

- IT Modernization
- Performance Engineering
- Cybersecurity
- Data Science

Outcomes-Driven

We align every solution component with achieving client mission success.

Engineering Focus

We provide domain experts with large-scale operational expertise in DevSecOps, Site Reliability Engineering, Automation and Security Hardening.

Best-of-Breed Tech

We deliver the highest analyst-rated solutions that are focused on government market requirements and adhere to open standards to enable modular design and interoperability.

Flexible Payments

We maintain flexibility in payment options, offering extended payment plans, base-plus-option year contracts with annual expenditures in a subscription model, managed services and 'as a Service' (aaS) form factors.

Successful Contracts

We have a deep understanding of the acquisition and contract management process as well as managing a secure supply chain to craft optimal solutions while bidding compliant best value proposals.

SOLUTIONS

IT Modernization

Transform your data center, cloud, and applications at mission speed.

- Robotic Process Automation (RPA)
- App Frameworks
- DevSecOps CI/CD
- Infrastructure as Code
- Containerization
- Virtualization
- Storage, DR and Backup
- Compute
- Cloud
- Network Modernization

Cybersecurity

Secure critical missions with robust security solutions.

- Zero Trust solutions
- Identity, Credential & Access Mgmt
- Endpoint Security
- NextGen Firewalls
- Secure Access Security Edge (SASE)
- Cloud Security
- Application Security
- Structured Data Security
- Unstructured Data Security
- Key Management
- SIEM, XDR and SOAR

Performance Engineering

Gain efficiencies and optimize your mission with high-performing IT operations.

- Observability
- Application Performance Mgmt
- Network Performance Mgmt
- Packet Capture and Tap Fabrics
- Cloud Cost Optimization
- SDN, SD-WAN and WAN Optimization
- Application Deliver Controllers

Data Science

Unlock the value of siloed and disparate data to supercharge your mission.

- Business Intelligence
- Data Analytics
- Data Catalogs and Marketplaces
- Data Science libraries
- Data Lakes
- Data Warehouses
- Databases
- Data in Motion
- AI/ML technologies

HISTORY

Founded
2006

2015
Major GWACs
Awarded SEWP V
Awarded NITAAC CIO-CS

New Ownership
Refine Strategy
2016

2017
Execute Strategy
SDVOSB Certified
1st Multi-Year Contract

Diversify Offerings
Build SME-led Practice Areas
Awarded 5yr CBP XaaS Contract
2018

2019
Cyber Focus
Acquired MAD Security
Joined TSIA

Execute Expansion
Contract Awards: 5yr VA AIOps, 3yr
USMC C2C, and 4yr DLA Firewall
HUBZone Certified
Established Swish Industries
Acquired Titania Solutions
2020

2021
Continued Growth
Awarded 5yr USCG Cyber Contract
Continuous Improvement Focus
ISO 9001:2015, O-TTPS & GCC High

Broaden Reach
Expanded DoD Sales and
Solutions
Awarded 5yr Courts APM BPA
2022

PAST PERFORMANCE

US Courts BPA for AI-powered Application Performance Monitoring
- **TCV**: $45,000,000   **POP**: 02/02/2022 – 02/01/2026
- **Benefit**: Provide Dynatrace's open AI-powered software intelligence platform for observability, security and automation to enable better development, operations and business decisions for enterprise applications.

Veterans Affairs Artificial Intelligence Operations Solution
- **TCV**: $44,743,813   **POP**: 09/24/2020 – 09/23/2025
- **Benefit**: Helped VA Enterprise Cloud accelerate data-driven decisions and gain full-stack observability across their multi-cloud environment by providing ScienceLogic's transformational AIOps solution and consulting services.

Homeland Security Customs and Border Protection WAN Optimization
- **TCV**: $27,392,224   **POP**: 5/11/2018 – 12/29/2022
- **Benefit**: Optimized workforce productivity and reduced WAN costs with XaaS solution for ,000 Riverbed SteelHead WAN optimizers.

Defense Logistics Agency Next Gen Firewalls
- **TCV**: $14,067,000   **POP:** 08/01/2020 – 07/31/2023
- **Benefit:** Provided innovative extended payment plan for Check Point Maestro next generation firewall appliances, licenses, and maintenance support. Advanced security services delivered under separate award.

US Coast Guard Endpoint Security Services
- **TCV**: $9,762,920   **POP:** 12/22/2021 – 12/21/2025
- **Benefit**: Provide security engineering services enterprise-wide in support of C5ISC CGCyber for HBSS, ACAS, Tanium, and other tools to ensure all endpoints are secure and protected. Contracted via DHS CDM contract.

US Marine Corps Comply to Connect
- **TCV**: $8,934,891   **POP:** 09/30/2020 – 09/29/2023
- **Benefit:** Provided managed security solution across four enterprise networks to ensure cyber hygiene is met, or automatically addressed, for >300,000 endpoints prior to accessing enterprise resources.
