

WIFI IN-WALL OR IN-CEILING SPEAKERS - SET OF 2

\$174 PER SET | RETAIL \$299 | LU WSP-6S

Enjoy wireless music playback controlled by your smartphone, tablet, or ITV4A box. Simple to install in ceiling, wall or eaves! Create & control multiple zones within your home or retail store - play the same or different music from each set of speakers. Use the SmartSonix app or an app of your choice. Compatible with Wifi, ethernet or RCA for multiple playback options. Includes 2 speakers - 1 x 60W amplified active speaker & 1 x passive speaker (24V low voltage speakers require no permits or special wire). Easy to replace existing speakers - use existing speaker wire as the power wire. Active speaker has L&R outputs to connect to the passive speaker with speaker wire. The speakers also function as access points once joined to your Wifi/ethernet network (extends your Wifi). Set to max or 50% reduced volume with a manual switch on the speaker face - ideal for retail spaces or restaurants where people are talking. The volume of each speaker can be controlled as well as creating a left, right, or stereo channel; aimable centre speaker. Removable magnetic white grill (paintable) to access controls/Wifi buttons. Use your existing Wifi signal (no internet required) - no extra routers required unless you want a separate music network

ACCESS YOUR MUSIC FILES, YOUTUBE, INTERNET RADIO & HOME THEATRE SOUND: Download the SmartSonix app from Google Play/ App Store (other apps will also work). Turn on the speakers, open SmartSonix & select "Add new device". Press the button on the speaker (blue light flashes). The speaker will appear in the app & ask for your Wifi password. You can name the speakers ("Kitchen", "Basement", etc.)

TECH SPECS: Includes 2 speakers, power supply (DC24V/2.5A), template sheet & user manual • 6.5" woofer (kevlar woven cone) • 1.2" tweeter (titanium dome), 2 x 30W inside amplifier • Wifi 802.11 b/g/n • Supported Audio Formats: MP3/WMA/AAC/ACC+/ALAC/FLAC/APE/WAV • RMS Power: 2 x 30W/8Ω • Frequency Response: 65Hz-20kHz • Sensitivity (1W/1M): 90dB • Treble Attenuation: +3dB/-3dB

BONUS FEATURES - ALSO AVAILABLE:

These speakers work with the Tech Connect & Varo speakers! Make your existing stereo & WPS-6S speakers work together - the Tech Connect appears in the SmartSonix app & combines so you have full control. Add Varo speakers for portable, rechargeable, wireless sound within your Wifi network - all joined to the WSP-6S speakers & Tech Connect. With the Varo Vibe or Cube, you can use Bluetooth /SD card/USB stick as the source & it will play to all the other speakers you have connected. Ask us for details!
