Trial of Shamrocks

Sir T. Lipton's Yachts Meet Today in a Forty-Three Mile Race

The Two Yachts Are Being Tested in the Firth of Clyde.

Wind Proved Very Changeable—The Challenger Led at The Start

(Associated Press.)
Rothsay, Firth of Clyde, July 3.—The two Shamrocks started on a thorough racing trial to-day over a 43 mile course. A brisk breeze was blowing when the start was made. The yachts carried jib heads.

In order to give the Shamrocks a thorough test in open waters, a triangular course was laid out for to-day's race, starting at Garrock Head, thence to Holy Island, around the Eria, thence ten or twelve miles to the southeastward, around the Eria again, and back to the starting point.

Sir Thomas Lipton invited the reporters aboard the Eria to witness the racing, but Mr. Watson cancelled the invitation, desiring to preserve the secrecy with which he has hitherto endeavored to surround all the challenger's movements.

The boats fetched out of the bay under jib headed topsails.

A brisk easterly breeze was ruffling the water and giving a fine wind all the way down. Although the formal racing commenced off Garrock Head, the boats were sent off from Craigmore pier in racing order.

The challenger took up a position on the weather bow of the older boat as she crossed the line, and rapidly opened away, Shamrock I. following in her wake.

Boats Change Position.
Rothsay, July 3.—Off ashore, three miles out, the challenger led by about half a mile.

Finding the wind paltry the original race plans were abandoned in favor of a trial inside the Firth, and the two yachts started on a reach across.

Off Camurra the challenger was leading by 23 seconds. Soon after they sailed into a calm and the Shamrock I. passed the Shamrock II. wide to windward.

Fetching up the Firth the wind headed the boats and their jib topsails were taken in. The breeze freshened, but the challenger gained very little. Later she bore away and passed wide to leeward of the Shamrock I. This left the older boat still in a better position, and she was soon able to re-pass the Shamrock II and slightly drew ahead.

ASK FOR TIME.
Representatives of National Founders' Association Considering Men's Proposals.

(Associated Press.)
Chicago, Ill., July 3.—At a conference between representatives of the National Founders' Association and the Iron Moulders' Union, the employers asked for time to consider the propositions before a strike should be ordered. They were given until Wednesday, July 10th, on which date they promised to give a definite and final answer.

WOUNDED DURING RIOTS.
(Associated Press.)
New York, July 3.—Rioting has occurred in Buenos Ayres, says a Herald dispatch, because of the bill for the unification of the Argentine debt. Several persons were wounded.

MINOR POINTS DISCUSSED.

Little Business Importance, Transacted at Meeting of Foreign Ministers.

(Associated Press.)
Peking, July 3.—The meeting of the foreign ministers to-day was barren of result. Only matters of minor importance were discussed, despite the efforts of two of the ministers to force consideration of the indemnity question so that a satisfactory reply might be given to China, accepting the offer of 450,000,000 taels at 4 per cent. interest.

CLAIMS OF FOREIGNERS.

Lord Roberts Tells of the Deportation of Netherlands Railway Employees.

(Associated Press.)
London, July 3.—Lord Roberts testified to-day before the royal commission which is considering the claims of foreigners deported from South Africa. The commander-in-chief dealt with the plots against his life and the deportation of the ringleaders. He said the officers and employees of the Netherlands railway were so hostile to the British that many of them had to be deported. Every consideration was shown them. He personally investigated the great majority of cases and sanctioned none unless on adequate grounds. No difference was made on account of the nationality.

Stampede To Nome

Over a Thousand Persons Reported to Have Gone From Dawson.

New Strike on Pine Creek, Atlin—The Salmon Fishing Situation.

(Special to the Times.)
Vancouver, July 3.—Steamer Hating arrived from Skagway at noon with fifty passengers and \$150,000 worth of gold. Over a thousand people have left Dawson in the down river rush to Nome. A new strike has been made on Pine creek, Atlin.

There are a hundred and nineteen men on the way out from Montreal to take the places of striking trackmen on the Pacific division. Supt. Marpole said to-day that everything was running smoothly and there was no trouble and would be less as the line was supplied with trackmen.

The fish run began to-day off Point Roberts; over five hundred having been taken in one trap last night. Cannermen went over the situation this morning with Labor Commissioner Brenner for the purpose of showing him they could not pay any higher price for fish. The cannermen claim many Indians are coming from up river and the north who will not join the union, and who will begin fishing at once.

A C. P. R. engine and freight car was badly damaged this morning at Hastings through the car projecting over the siding.

There are fifty-three charges against various saloons and hotels of gambling and selling during prohibited hours being heard this afternoon in the police court. Complaints were laid by Ed. Gold.

UNABLE TO AGREE.
Negotiations Between Cincinnati Manufacturers and Strikers Are Off.

(Associated Press.)
Cincinnati, July 3.—All negotiations between the manufacturers and the striking machinists were called off to-night. The representatives of both sides have held several conferences during the past two days, but were unable to reach a satisfactory agreement.

Tired of The Strike

Nearly All Trackmen in Ontario, West of Toronto, Back at Work.

In New Brunswick Also the Men Are Returning to Their Jobs.

Wilson Claims Aliens Are Being Imported to Take the Place of Strikers.

(Special to the Times.)
Ottawa, July 3.—J. T. Wilson, of St. Louis, Mo., president of the International Association of Trackmen, who is looking after the strike of C. P. R. trackmen, to-day asked the Deputy Minister of Labor to see the Alien Labor law strictly enforced, claiming aliens were being imported to take the place of strikers. The Deputy Minister promised to meet his wishes.

Returning to Work.
(Associated Press.)
Toronto, July 3.—Nearly all the striking trackmen in Ontario, west of Toronto, have returned to work. The men vainly expected that some of the other orders of railroad workers would have gone out in sympathy ere this. The company has so patrolled its lines and made repairs to the track with flying gangs that it is now apparent to them that so slightly had the operation of the road been affected, or is likely to be for many months through the strike, that they have resolved not to risk their jobs any longer.

In New Brunswick.
St. John's, N. B., July 3.—Striking trackmen are returning to work, being utterly disgusted with the inaction of the Montreal committee and apprehensive that Mr. Wilson is only holding it together for his own glorification.

Union Man's Views.
Winnipeg, July 3.—Writing in the Free Press a railroad union man gives the reasons why the labor unions and the public at large of Ontario and Quebec do not sympathize with the trackmen's strike, but on the contrary regard it as ill-advised and absurd. The main reason, he says, is that the Canadian Pacific pays higher wages in the province of Quebec than either the Grand Trunk or the government railway system, whilst in Ontario its wages are also higher than those paid by the Grand Trunk.

Nevertheless, while the trackmen have struck for still higher wages on the Canadian Pacific, "the members of their association on the Grand Trunk and Intercolonial remain at work under a lower scale, thus leading the public to believe that they are satisfied to work on these two roads for less than is paid by the Canadian Pacific, and giving currency to the impression that in seeking a strike on the Canadian Pacific Mr. Wilson was actuated by some motive other than a desire to better the condition of the members of the order."

The writer goes on to say: "Here in the West conditions are somewhat similar. There are now two systems in Manitoba, the Canadian Pacific and the Canadian Northern, with which the Northern Pacific & Manitoba has been incorporated. It is well known to all that the Canadian Pacific pays its trackmen higher wages than the Canadian Northern. As a matter of fact, it pays higher wages than the Great Northern and Northern Pacific, just south of the line. Nay it pays higher than most of the roads running into the state where Mr. Wilson resides. This being the case, the public, including the great body of men belonging to other organizations, can't understand why this strike should have been ordered on the Canadian Pacific whilst the trackmen on roads operating in similar territory, north and south of the line which pay a lower rate of wages, should remain at work. The better course, the only logical course, would have been to compel the roads paying the lower wages to level up to the Canadian Pacific scale, and then, if need be, to strike on all in order to secure a still higher rate, from all."

"I have the best of reasons for knowing that the reports lately printed to the effect that the Canadian Pacific was willing to arbitrate are absolutely without foundation. Arbitration would have to be carried on by the labor bureau at Ottawa, a department of the Dominion government. But with what face could the government officer ask the Canadian Pacific to put up its wages another notch when it has all along been paying higher wages than the government's own railway? How, indeed, could they ask the company to make a further increase, while Mr. Wilson is tacitly admitting that he and his fellow-members of the Trackmen's Association are content to work for a lower rate on the Canadian Northern and on the great majority of American roads?"

"If it ever came to arbitration, the Canadian Pacific would be justified in asking the arbitrator to let it pay as low a rate as these other lines in Canada and the United States.

"Mr. Shaughnessy would not, of course, resort to such a step as that. He feels that the Canadian Pacific is paying all that, under the circumstances, it should be asked to pay and is profoundly sorry for the men that they should have followed Mr. Wilson in his ill-considered course. As said, there will be arbitration. Public opinion is with the company, and that

being the case, the company is sure to win. It would be better for all concerned for the trackmen in the province of Manitoba and the Northwest Territories to ask Mr. Wilson to call the strike off, and not order a fresh one until, as a preliminary step, he has forced other lines in Canada and the United States to come up to the Canadian Pacific scale."

Gone to Ottawa.
Montreal, July 3.—Mr. Wilson, the organizer of the C. P. R. trackmen, has gone to Ottawa. He is reported to be greatly disturbed over one of the committee having returned to work. It now transpires that the action of the committee was not unanimous, some counselling the acceptance of the increases granted by the railway company. Mr. Wilson is, however, making a star play as he feels if the Canadians win they will be able to help with funds for his United States crusade.

ANOTHER ARIZONA FIRE.
Lumbering Town Practically Wiped Out—Damage, \$500,000.

(Associated Press.)
Los Angeles, Cal., July 3.—A special to the Times from Phoenix, Ariz., says: "The town of Williams, Ariz., was practically destroyed by fire yesterday. The loss is estimated at \$500,000. Williams is a railway and lumbering town on the Santa Fe Pacific railway, and has a population of about 2,000."

More Deaths Reported

It Was Slightly Cooler This Morning in New York and Philadelphia.

At Pittsburg There Have Been Eighty-Four Fatalities Since Sunday.

(Associated Press.)
Philadelphia, Pa., July 3.—A cool breeze from the south tempered the heat slightly this morning, but a jump of eight degrees in one hour indicated another scorching day. The minimum temperature during the night was 81 degrees and at 8 o'clock the weather bureau thermometer registered that figure. At 9 o'clock the mercury has risen to 89, four degrees cooler than at the same hour yesterday. Up to 9 o'clock eleven deaths had occurred and the hospitals reported about 35 prostrations.

The total number of deaths from the heat in this city since the beginning of the present hot spell is 91.

Fatalities at Pittsburg.
Pittsburg, Pa., July 3.—Eighty-six deaths, directly attributable to the heat, have occurred in Pittsburg since last Wednesday—46 this number, 84 were reported since Sunday night.

Slightly Cooler.
New York, July 3.—It was not as hot in this city this morning as it was yesterday, but the percentage of humidity was much greater. At 9 o'clock the weather bureau thermometer showed a temperature of 85 degrees as compared with 83 degrees at the same time yesterday. The percentage of humidity was 72. Yesterday morning it was 59. From 2 to 9 a.m. seven deaths, due to heat, were reported in New York and Brooklyn.

A Week of Oppressive Heat.
Boston, Mass., July 3.—The city entered into its recent day of oppressive heat with the thermometer at 84 at 8 o'clock and the wind lighter from the southwest.

At St. Louis.
St. Louis, Mo., July 3.—At 8 a.m. the weather bureau thermometer registered 82 degrees. This was six degrees cooler than at the same time yesterday, but there is about 15 per cent. more humidity.

Suffering at Kansas City.
Kansas City, Mo., July 3.—At 8 a.m. the mercury registered 89, five degrees more than at the same time yesterday. Without a breath of air stirring last night, the suffering was great. Four prostrations, one fatal, were reported.

Deaths in New England.
Boston, July 3.—During the six days of the excessive heat, which have prevailed in New England, nearly 100 deaths have occurred which have been attributed to the weather conditions. Of this number 22 have died in Boston.

TOOK DOWN THE FLAGS.
Regrettable Incident Reported From the Pan-American Exposition.

(Associated Press.)
Toronto, July 3.—Another regrettable flag incident is reported from Buffalo. It appears that the director of the Ethnological building took it upon himself to lower a festoon of twenty-four British flags which has been placed over Ontario's archaeological exhibit, and when asked to replace them refused because someone had objected to the British ensigns.

WOOL MERCHANTS' SUICIDE.
(Associated Press.)
Leipzig, July 3.—Herr Schwolow, a wool merchant of this city, drowned himself to-day at Zwickau. His suicide was in connection with the failure of the Leipziger Bank.

Campbell's Prescription Store

We keep the largest stock of Drugs and Toilet Articles in the province. Prescriptions promptly and carefully executed.

Struck By Lightning

Young Woman Instantly Killed—Another Severely Injured—Trackmen's Strike.

Freight Trains Collide on Grand Trunk—Several Cars Burned.

Knowlton, Que., July 2.—Miss Florence Black, landlady at Mrs. Bird's distributing home, and Miss Maud Kilberide were both struck by lightning during a severe electrical storm this morning. Miss Black was instantly killed. Miss Kilberide's injuries are considered serious.

The Railway Strike. Montreal, July 2.—An attempt is about to be made by the committee of C. P. R. strikers to induce the section men on the Canadian Northern to go out so as to strengthen their cause against the C. P. R. Co. For Laval University.

The late Senator Villeneuve left \$25,000 to found a chair in Laval University. Shippers' Grievances.

Toronto, July 2.—Prof. J. S. McLeak, a noted expert on questions of shipping and railway rates, arrived here today to conduct an inquiry on behalf of the Dominion government into shippers' grievances. This report has been asked for by Mr. Blair as a preliminary to promised legislation for regulation of traffic rates. Mr. McLeak will visit Ottawa and afterwards the chief shipping centres in Canada.

The Late Sir T. Galt. Geo. Galt, son of the late Chief Justice Galt, arrived from Winnipeg this morning to attend the funeral. The funeral was represented by Judges Osler, McLennan and Street. The funeral was private, but many citizens nevertheless attended. Among many beautiful floral tributes was a handsome wreath from the Winnipeg Rowing club.

Freight Trains Collide. Bowmanville, Ont., July 2.—A bad railway smashup occurred on the Grand Trunk yesterday afternoon, when a head-on collision took place on the bridge just west of the station. Both were freight trains, several cars were smashed to splinters, and fire set in to complete the destruction. The town fire brigade turned out, and by gallant efforts succeeded in saving the bridge, which would otherwise have been destroyed. Nobody was hurt; the damage will reach \$40,000.

Obituary. Belleville, Ont., July 2.—Andrew McCullough, collector of inland revenue, died very suddenly last night. He was 54 years of age and unmarried. Kinross, Ont., July 2.—Capt. Robt. Rowan, who died here last evening, navigated Lake Huron in the early fifties. He afterwards removed to Manitoba, returning to his old home here some months ago. Capt. Rowan was born in Scotland, coming to this country at an early age.

Alleged Intimidation. Peterboro, July 2.—In the preliminary hearing before Police Magistrate Edmondson tonight, John Hayes, a bailiff and constable of Arden, was committed for trial upon two charges of intimidating the employees of the C. P. R. and obstructing the free use and maintenance of the railway, bail being fixed at \$2,000. Refused to Evacuate.

Cornwall, Ont., July 2.—Jaka Skin, the Indian ruler of Colquhoun Island, of which he took possession in January last, has been arrested after having defied the law for some months. On Thursday warrants for the removal of Skin were received and Chief Cameron and several constables went down to remove the famous red man. Skin informed the chief that if he allowed him to remain until Monday he would get out and not return. A posse went to the island yesterday afternoon, and soon had Jaka and his son under arrest, and brought them to Cornwall, where they were lodged in the police station. Owing to the fact that the warrant only called for his removal, and not arrest, Skin was liberated, and he is again in possession of the island. He will be re-arrested.

EARL RUSSELL. Asks That His Trial Be Postponed Beyond July 18th.

London, July 2.—Earl Russell appeared today at the bar of the House of Lords. He was formally taken into custody on the charge of bigamy, by Black Rod Sir Michael Biddolph. When asked if he had any application to make, Earl Russell requested that the trial be postponed beyond July 18th, in order to enable him to prepare his defence. His application will be heard on July 4th. The Earl was released on bail. The proceedings were private.

THE TSAREVITCH BETHROTHED. London, July 1.—It is reported in St. Petersburg, says a dispatch to the Daily Telegraph, from the Russian capital, that the Tsarevitch is betrothed to Princess Cécile, daughter of the late Grand Duke of Mecklenburg-Schwerin.

MANY FATALITIES.

Deaths and Prostrations Reported From Cities in Eastern States. Washington, D. C., July 2.—Reports received at the weather bureau in this city from throughout the entire area affected by the intense heat, show a continuation of very high temperatures save in a few favored localities where more moderate weather resulted in consequence of thunder storms or other local atmospheric disturbances. No immediate relief of a substantial character is in sight. The rain fall report shows that there has been precipitation throughout the affected areas, varying from less than one hundredths of an inch. Generally speaking the thunder storms which have come have been what is known as "dry storms," so that very little rain has accompanied them.

At St. Louis four deaths and thirty-three prostrations had occurred up to 9 p.m. At Newark, N. J., 41 deaths and 60 prostrations were reported to 9 p.m. In Hoboken, N. J., 8 deaths are reported and 52 prostrations. Jersey City escaped lightly with less than a dozen deaths, about 20 cases of prostrations.

Six deaths took place at Elizabeth, N. J., where there were 15 cases of prostrations reported.

Over One Hundred Degrees. Philadelphia, July 2.—At 3 p.m. today the weather bureau official thermometer registered 107.4, breaking all records.

Deaths at New York. New York, July 2.—From midnight to 11 a.m. a total of 52 deaths from the heat had been reported in Greater New York; nearly all the deaths were adults.

At 2:15 p.m. the weather bureau thermometer touched 100 within one degree of the highest record in this city. At 3 o'clock the temperature had receded a degree, registering 98 at that time.

Forty Deaths. Pittsburg, July 2.—Twelve deaths and sixty prostrations from the heat were reported between midnight last night and 11 o'clock to-day, making the number of fatalities 40 in 24 hours.

At Troy. Troy, N. Y., July 2.—There were six deaths from the heat in this city to-day and seven prostrations. The thermometer reached 104.

Fatalities at Syracuse. Syracuse, July 2.—The death record from the heat is ten.

THREE MOUNTAINERS' DEATHS

London, July 1.—"Bohemian papers," says a dispatch to the Daily Mail from Vienna, report that three German mountaineers, Weissinger, Miskner and Fischer, were killed on the Eragorger, near Weibhart. They were roped together. One lost his footing and fell over a precipice. The others held him suspended. He urged them to save themselves by cutting the rope, but they refused, and, renewing their efforts to haul him up, all fell down the rocks.

TOINADO'S WORK.

New York, July 2.—A tornado struck the shores of the Hudson river, near Ossining, this afternoon, cutting a path two miles or more long and several hundred feet wide. It struck the village of Ossining, and all along its course trees were uprooted, buildings uprooted, and windows blown in. Almost every window on the water side of Sing Sing prison was blown in and the roofs were blown from the administration building and the bakeries.

AFTER MANY YEARS

Of suffering from kidney disease, Miss Minnie Ryan, of St. Louis, Mo., found a complete cure result from the use of Dr. Pierce's Golden Medical Discovery. It is such a cure as this which establishes the soundness of Dr. Pierce's theory. Diseases which originate in the stomach must be cured through the stomach. Every other organ depends on the stomach for its vitality and vigor. For by the stomach and its associated organs of digestion and nutrition the food which is eaten is converted into nutriment, which, in the form of blood, is the sustaining power of the body and each organ of it. When the stomach is diseased the food supplied is not properly digested and the nutriment is not properly assimilated. The organs are starved, and the weakness of starvation shows itself in lungs, heart, liver, kidneys or some other organ.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and so cures disease of other organs which have originated through deficient nutrition or impure blood.

"I had been suffering with kidney trouble twenty years," writes Miss Minnie Ryan, of St. Louis, Mo. "I had been treated by a number of the best physicians, but had no success. I then procured 'Golden Medical Discovery' and 'Favorite Prescription' and took also several vials of Doctor Pierce's Pellets. I took eight bottles (four of each), and I feel now perfectly cured."

Dr. Pierce's Pellets cure biliousness.

WILL ROSEBERRY ACCEPT? Meeting of British Liberals Called for To-Morrow—Question of Leadership.

London, July 2.—The crisis in the Liberal party has reached an acute stage. This fact has been publicly admitted and deplored by Sir Henry Campbell-Bannerman. Although the rumors that Sir Henry Campbell-Bannerman has already resigned the leadership of the party are premature, a meeting of the party has been suddenly convened for next Tuesday, when it is expected he will virtually offer his resignation.

The Imperialist section of the Liberal party, headed by Herbert H. Asquith, formerly Liberal home secretary, has been doing its utmost to enlist Lord Rosebery on its side, but up to the present time the latter has made no sign of meeting its desires.

VICTORIAN WEDDED.

Second Son of W. A. Dier United in Bonds of Matrimony Recently.

At high noon on Thursday, June 20th, the pretty home of Mr. James Hamilton Wilson, of St. Thomas, was the scene of a happy event, when the marriage of his only daughter, Miss Letitia Wilson, post-graduate of Alma college, to Mr. Harry Dier, of the Philadelphia dental college, took place. The ceremony was performed by the Rev. Canon Hill, Rector of Trinity church, of London, and the groomsmen were Mr. Roy Branwood Dier, brother of the bridegroom. The bride entered the drawing room escorted by her father and preceded by two dainty little flower girls, who strewed rose-petals in her path, while Mendelssohn's Wedding March was played by Miss Hill, graduate of Alma college. The bride was in pearl duchesse satin, en train, and her veil was caught with a pearl comb, the gift of the bridegroom. To the bridesmaid he gave a handsome turquoise ring, and to the flower girls, Miss Eva Talbot, of London, and Miss Millicent Bryant, of St. Thomas, handsome gold hearts. The presents to the bride were very handsome. The wedding breakfast was afterwards served, Mr. and Mrs. Dier will spend some weeks at Atlanta City, New Jersey, before visiting Mr. Dier's parents at Victoria, B. C.—Toronto Globe.

EDNA WALLACE HOPPER

Will Receive the Dunsuir Place at San Leandro and Her Mother's. Other Holdings.

Edna Wallace Hopper, the dainty little sourette, arrived from the East on Monday, having been summoned to the bedside of her mother, Mrs. Alexander Dunsuir, who passed away at her country home near San Leandro two days before she reached home. Mrs. Dunsuir was formerly the wife of Walter Wallace, who was the head usher of the old California theatre in the days when John McCullough and Lawrence Barrett were the stars at that playhouse. Wallace and his wife eventually disagreed and separated, she keeping the daughter, Edna, and he the son, Willie. After the separation she went to Oakland to reside, and it was there that Edna Wallace grew to womanhood and fitted herself for the stage. Not long after the separation of Wallace and his wife, Mrs. Wallace was secretly married to Dunsuir, one of the coal kings and a member of the Dunsuir family of Victoria. About two years ago Mr. and Mrs. Dunsuir left for a trip around the world, when the announcement of their marriage was made. Mrs. Dunsuir did not live to complete his trip, however, but died in New York in January, 1900. He left a will devising and bequeathing to his brother, the Hon. James Dunsuir, of Victoria, B. C., "all his property, both real and personal, wheresoever situated." This will was probated in British Columbia and was made in full effect.

Under the will the widow did not receive a cent of Alexander Dunsuir's immense wealth. It was apparently not his intention to leave his widow unprotected, however, for in his lifetime he had already given her property sufficient to make her amply comfortable. Chief among these gifts was the Dunsuir place at San Leandro, consisting of three hundred and fifty acres of beautiful rolling foothill land.

Fearing, however, a contest of the will, James Dunsuir entered into a written agreement with his brother's wife binding himself to pay to her out of the estate \$25,000 each year as long as she might live. Figured according to life-tables this offer was estimated to be equivalent to \$314,075, and was accepted. Figured according to the length of time Mrs. Dunsuir survived her husband, it has only amounted to about \$300,000. The Dunsuir ranch and the mother's other holdings will go to Edna Wallace Hopper, but she will not inherit any of the late Alexander Dunsuir's estate.—San Francisco Argonaut.

A GIANT FINANCIAL SUCCESS.

Postum Cereal Company Increases Its Capital to \$5,000,000.

The Postum Cereal Co., Ltd., of Battle Creek, Mich., has just increased its capital stock from \$3,000,000 to \$5,000,000, of which one million is preferred 4 per cent. The last dividend paid was 700 per cent. on the old capitalization, and balance carried up to surplus. Its stock is for sale and changes were made in the directory, which is as follows: C. W. Post, Chairman; Carroll L. Post, Vice-Chairman; M. K. Howe, Treasurer, and E. L. Post, Sec.

About the Certificates

New Regulations to Govern Granting of Coveted Document to Pedagogues.

They Will Hereafter Be Enforced—Four Grades and Their Requirements.

Now that the teachers' examinations are being held it would not be inopportune to refer to the new regulations which will govern the teachers' certificates in the future. These regulations were issued some time ago by the council of public instruction and are announced to come into effect on August 1st, 1901. As briefly mentioned in these columns last evening, hereafter all certificates issued to teachers by the board of examiners shall be of four classes—third class, second class, first class and academic certificates. Third class certificates shall be valid for three years, but no person shall be allowed to renew a third class certificate. All others shall be valid for life or during good behavior. All candidates must at least be eighteen years of age, on or before the date of the issue of the professional certificate.

To secure a third class certificate a candidate must have obtained a high school junior certificate and must complete, to the satisfaction of his instructors, the professional course provided for third class certificates in the normal school.

To secure a second class certificate a candidate must have obtained a high school intermediate certificate, or he must, after regularly entering a high school in the province and passing the course of study and passing the junior examination prescribed for high schools, have passed the examination for matriculation in arts of a university specified in the Public Schools Act, and must complete, to the satisfaction of his instructors, the professional course provided for second class certificates in the normal school.

To secure a first class certificate a candidate must have obtained a high school senior certificate, or he must, after regularly entering a high school in the province and passing the course of study and passing the junior examination and such other examinations as are prescribed for high schools that are affiliated to a university, have passed the examination upon the first year course in arts of such university, and must complete, to the satisfaction of his instructors the professional course provided for first class certificates in the normal school.

To secure an academic certificate a candidate must have obtained a high school senior academic certificate, or a high school in the province and passing the course of study and passing the junior examination and such other examinations as are prescribed for high schools that are affiliated to a university as specified in the act, have passed the intermediate examination in arts in such university, and must complete, to the satisfaction of his instructors, the professional course provided for academic certificates in the normal school; or he must be a graduate in arts or science of a recognized university in His Majesty's dominions, who has proceeded regularly to the degree of Bachelor of Arts, holder of a professional certificate approved by the board of examiners, must complete to the satisfaction of his instructors the professional course provided for first class certificates in the normal school.

THE LAW ABOUT FOOT ELM.

The imitations of this popular remedy have become numerous, and the proprietors, Messrs. Scott & Jury, have decided to take active measures to protect the public against the cheap substitutes being offered, as many of these contain arsenic and other injurious substances which crack the shoes and injure the feet.

They have secured an injunction against the most glaring of these imitations, and will in future take active measures against every infringement of their remedy. They have spent thousands of dollars in perfecting Foot Elm, and in making its name known, and last year in South Africa our soldiers put it to the severest test in their long marches through the burning sands, and all the troops, including Col. Otter and Capt. Barker, etc., are loud in its praises.

The public are requested to report all cases of substitution to Scott & Jury, Vancouver, and if the genuine Foot Elm cannot be secured it will be mailed, postage free, on receipt of 25c.

COMB IT AWAY.

That headache of yours; that dandruff of yours. Save your hair and be happy by using Dr. White's Electric Comb. The only patented comb in the world. Agents wanted. Sells on sight. Ladies' size 60c, men's size 40c, fine 35c. U. S. Patents accepted. D. N. Rose, Gen. Mgr., Decatur, Ill.

DISAGREEABLE FEET.

If your feet are disagreeable—smell musty, sweaty and—try Foot Elm. It will make your feet sweet and take away all nasty odors. You won't be ashamed of yourself if you have Foot Elm in your shoes. Price 25c. at drug-stamps accepted. D. N. Rose, Vancouver, Ont.

INTERVIEWED AT TORONTO.

Hon. J. H. Turner Tells Globe Reporter Something About This Province.

Hon. J. H. Turner, finance minister of the province of agriculture for British Columbia, who is visiting in the city, was seen by a Globe reporter at the Queen's Hotel last night. He had come out on business in connection with the firm of Turner, Boston Co. of Victoria, and also with the hope of seeing Sir Wilfrid Laurier at Ottawa. At the last session of the British Columbia legislature an act was passed, making permanent the position of Agent-General for the province in Great Britain, the subject being to bring before the people of the old country and also of Europe the products of British Columbia. Mr. Turner was unanimously requested by both parties in the House to accept the position, and he said last night that it was his intention to do so. He feels the responsibility of the undertaking, but he has been 30 years in the province and fifteen years in public life, he will not enter upon his new field as a novice. Probably no man in British Columbia knows that part of the Dominion more thoroughly than Mr. Turner. He has visited all the principal districts and has the industries and products of the province in order to have everything well in hand at the date of his departure. He is desirous of having his office near the Canadian High Commission, and to work in conjunction with it.

Mr. Turner predicts a great future for British Columbia. One of the reasons for this prediction is that the local government has lent aid to the establishment of creameries in different parts of the province, and has taken in hand the encouragement of the breeding of fine dairy and other cattle, several carloads of thoroughbreds having been introduced last year.

Speaking of the mining industries of the province, Mr. Turner said that the Boundary district looked specially promising, and that the smelting of the ore was becoming a great factor in successful mining. In this connection he had recently been informed by a reliable mining expert that the coke from the Crow's Nest smelter was of better quality and gave better results than the best from Connellville. He spoke of the agricultural industries of the province, and also of the stretches of land along the shores of the series of parallel lakes south of the P. I. L., which was being gradually settled.

Mr. Turner was the guest of Lieutenant Col. Pellatt on his steam yacht "Cruiser" yesterday afternoon in company with Mr. J. W. Flavell, Mr. James H. Plummer, Mr. Robert Jaffray, Mr. Lash and Mr. F. B. Polson.—Toronto Globe.

MONTHLY MEETING.

Ladies' Committee of Orphan's Home Held Regular Session Yesterday—Donations Acknowledged.

The regular monthly meeting of the ladies' committee of the B. C. Protestant Orphan's Home was held yesterday at the home, when a cordial vote of thanks was voted all who had aided in making the "Fourth Party" held at the home recently a success. Tenders for the new iron bedsteads and spring mattresses were received and laid over for further consideration.

The matron thankfully acknowledged the following donations: Mrs. G. I. Milne, clothing hats, etc.; Mrs. J. Hutchison, two jars jam; Dominion Bakery, Mrs. H. Stevens, underwear, salt caps, pinafors, collars, waists and Beehive wool; Mrs. F. Chopin, Denison, clothing; Mrs. Richards, milk and clothing; Mrs. H. Longfield, prunes; Mrs. W. L. Clay, ham; Mrs. J. R. Anderson, Mrs. C. Longfield, prunes; Mrs. W. Collins, cake and rice; Mrs. Franklin, sack of flour, ham and beans; Mr. G. D. Christie, sack rolled oats; Mrs. Pither, socks—sawellings; Mrs. Anderson, Campbell, Cedar Hill, six large boxes strawberries and \$1 for cream; Mr. A. Tate, large pail of milk daily; Mrs. M. Hutchison, four tons coal; Mrs. J. McCreedy, cash \$5; Times and Colonist, daily papers; Centennial Sunday school, picnic to Sidney, with refreshments; Mrs. J. Anderson, one dozen nettes; Mrs. McCulloch, two dripping pans; Miss Lottie Garib, one cake.

ISLAND FARMS FLOURISHING.

Climatic Conditions Have Had a Good Effect Upon Grain Crops. Baynes Reed, of the meteorological station, has returned from a tour of inspection of the different stations of the following islands—St. George, St. Quinsio, Alberni, Carmanah, French Creek and Nanaimo.

At the northern stations very cold weather was encountered. It was so cold that Mr. Reed expected to see snow flurries. The weather cleared, however, without a snowfall. While the absence of sunshine may have injuriously affected some of the small fruits, yet the damp weather has had a marked effect upon the grain crops of the island, which, Mr. Reed says, looked splendid, and he predicts a heavy crop.

THE BEST REMEDY FOR STOMACH AND BOWEL TROUBLES.

"I have been in the drug business for twenty years and have sold most of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakeland, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have never found anything in hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by Henderson Bros., Wholesale Agents.

TON BOYS WERE CAUGHT IN A TUNNEL LEADING TO THE OLD KEELING MINE, PITTSBURGH, OWNED BY THE PITTSBURGH COAL COMPANY, YESTERDAY. TWO WERE KILLED AND EIGHT WERE OVERCOME BY THE FULMINEOUS GASES OF THE PLACE.

E. W. Brown. This signature is on every box of the genuine Laxative Bromo-Quinine Tablets. The remedy that cures a cold in one day.

SOOKE PUBLIC SCHOOL.
The Closing Examination Master Edward M. Phillips Head Pupil For Term.

The closing examination of Sooke public school was held on Friday last. The pupils were examined in the various branches by the teacher, D. A. Fraser. The head pupil for the term was Master Edward M. Phillips, and his name was duly inscribed on the beautiful scroll of honor, presented to the school for that purpose by W. H. Hayward, M. P. F. for Esquimalt district. Short addresses were given by J. A. Murray, trustee, and L. A. Gibson, Presbyterian minister, after which a programme of recitations and songs was rendered by the pupils.

In the afternoon a picnic was held on Charter's Bluffs, a picturesque spot on the banks of Sooke river. Games and races of all kinds were provided for the amusement of the children, and abundant and delightful refreshments were supplied by the ladies of the district. All present, old and young, thoroughly enjoyed themselves. A pleasing incident occurred during the afternoon, when Mr. Fraser, the school teacher, who is leaving, was presented by the pupils of the school with a beautiful silver-mounted watch set. Miss Violet Ross read the address and Miss Isabella Milne made the presentation.

A PRETTY CITY.

Pleasant People, Excellent Streets, Good Buildings and Fine Sidewalks.

In one of the Salina, California, newspapers of recent issue is published the following, credited to J. H. McDougall, president of one of the banks in that city, who visited Victoria last month:

"In all our trip from Tacoma to Victoria I did not see a good farm. Everything was timber, brush, grass, burned stumps and water galore. At the same time the people seem to be doing well, own their own homes and don't have to rent."

"Victoria is a very pretty city, with excellent streets, good walks, fine buildings and the people are very pleasant to do business with. But the grass is growing in the yards, in the streets and on the sidewalks, and if it were not for the surroundings, I would say that I had no use for Victoria. But the Sound is grand."

"We got a good rest on the steamer running from Victoria to Seattle."

The mining town of Globe, east of Phoenix, Arizona, has been almost totally destroyed by fire. The loss is very heavy. The wires are down and particulars are unobtainable.

Contract Awarded

John Calder Submits Lowest Tender For Construction of New Caretaker's Residence.

Water Commissioner Assigns Reasons for Complaint of Residents on Rockland Avenue.

In the words of Ald. Hall the business of the regular weekly meeting of the city council last evening was transacted with "alacrity and dispatch." First in order of routine came a letter from the Deputy Minister of Marine and Fisheries department, enclosing correspondence from Messrs. Fell & Gregory, of this city, and entering a protest against the construction of a permanent bridge at Point Elliot without a swing. The letter enclosed, written on behalf of the owners of the Lee saw mill, was to the same effect, the firm contending that a bridge without a draw would seriously interfere with the business of their clients, and at the same time be in the way of making the Arm above the structure an anchorage for the vessels of the Victoria sealing fleet.

The mayor pointed out that the letter from the Deputy Minister of Marine and Fisheries was not signed, but he thought this was probably a mistake. The aldermen concurring, the communication was received and filed.

William Templeman, manager of the Times Printing & Publishing company, wrote informing the council that the special edition of the Times would be issued during the proposed visit of their Royal Highnesses to this city. The publication had been deferred, with the approval of the board, pending a favorable time in which to launch it, and the letter pointed out that the occasion referred to would be most opportune. Then the city will be crowded with people. The edition will not only be the largest ever issued in this city, but will be profusely illustrated and will appear on good paper.

The letter was received and filed. Albert T. Goward, manager of the British Columbia Electric Railway company, reported that his company had been in communication with Eastern houses in regard to obtaining material for the construction of its line on Government street, but because of strikes had not been successful in accomplishing much. Received and filed.

F. Elworthy, secretary of the B. C. Board of Trade, asked that the agreement of last year with the board for the taking of a certain number of copies of its twenty-second annual report, involving a sum of \$700, be renewed. Referred to the finance committee for report.

Three communications were submitted from the rivers and harbors committee and the members of the Seattle Chamber of Commerce, thanking the council for the invitation to visit this city while on their tour of the Sound.

Messrs. Pemberton & Son requested that the city carry out its agreement in regard to completing the improvement work on the upper portion of Johnston street. Referred to the streets, sewers and bridges committee.

The same course was taken in respect to a communication from Arthur Linman who complained of a dilapidated sidewalk on Henry street. In passing, Ald. Beckwith put in a plea for general sidewalk improvement throughout the city, as he stated he may not be here when the matter came up in the formal way.

David Spencer requested that the city make known its arrangements for the reception of the Duke and Duchess of York at the earliest date in order that he might procure in stock the material used in decorating, etc., for the occasion. The letter, with another of a similar nature, was referred to the celebration committee.

Robert Oatts expressed surprise at the water commissioner's report on the extension of the water pipes to Oak street, and took exception to the revenue therein mentioned as accruing to the improvement. The water, however, was not aware that the work had been ordered done, and with this explanation the letter was received and filed.

Attention had expired and asked for a renewal of the same. Referred to the finance committee.

A. A. Hodley, having heard that the city was about to purchase a number of pits for sand for the water works, offered for sale some property suitable for the purpose. Received and laid on the table.

J. W. Fleming wrote offering for sale stone for use in the civic improvement works. Referred to the city engineer for report.

R. H. Sperling, wiring inspector, reported as follows:

The Mayor and Corporation of the City of Victoria: Gentlemen—I herewith enclose a detail return of fees collected by me under sections 36 and 44 of the Electric Wiring By-law, as requested in your letter of the 12th inst.

The total amount collected from November, 1899, to May, 1901, inclusive, a period of 19 months, is \$390.15, which represents an average of \$21 per month. During the above mentioned period, 380 buildings have been inspected and 380 certificates issued. The average fee amounts to \$1.04 per building.

In the record book will be found a complete report of every building inspected, as called for in section 56 of the Electric Wiring By-law. I have the honor to be, gentlemen, your obedient servant.

R. H. SPERLING, Wiring Inspector.

The report was received and filed.

The water commissioner, in regard to the complaint from the residents of Rockland avenue, explained the situation: His Worship the Mayor and Board of Aldermen:

Dear Sirs—I beg to acknowledge receipt of a petition from 21 residents on Rockland avenue, complaining that the supply of water on that street is "wholly inadequate to their requirements," and asking for redress. Of the 21 names on the petition, two do not live on Rockland avenue at all, and in three cases the signatures have been doctored up, leaving only 16 bona fide complainants. Of these 16, six live on the eastern or upper side of Rockland avenue, and at times they may not have as good a pressure as they wish; the other ten live on the western or lower side of the street, and have no complaint as to scarcity of water; in fact, several of them acknowledged that they were well satisfied, and had signed the petition because they were asked and from a feeling of neighborliness. On the 18th of June, owing to a slight accident to one of the valves of the pump, there was no water on any of the high levels from 8 a. m. to 11 a. m., and as I understand it on this morning that the petition was circulated and signed. I have had the pressure taken at various points on the road at different times, and from the following statement it will be seen that the complaint of a "wholly inadequate supply of water" is not well founded:

Pressure	Pressure	
June 27.	June 27.	
11 to 12 a.m.	5 to 6 a.m.	
Mrs. Pemberton	40	50
Mr. McPhillips	31	52
Mr. R. S. Day	42	45
Mr. N. Macaulay	40	45
Mr. J. Simon	40	45
Mr. W. J. Macaulay	35	37
Mr. Holland	40	50
Mr. Galletly	50	35
Mr. Fleet Robertson	50	50
Dr. Pagan	49	47
Mr. L. P. Duff	55	56
Mr. Dewdney	58	50
Mr. Fletcher	60	60
Mrs. Hunt	63	64
Mr. H. Dumbleton	41	33
Mr. A. S. Dumbleton	40	33

The six houses, however, on the upper side of the street, no doubt, suffer at times from a short supply. This happens generally when the weather is warm, during the hours for sprinkling. Still I am of opinion that the fault lies partly with the people themselves. Mr. Day's house is 66 feet above the road, and is supplied by 250 feet of 3/4 inch pipe. Mr. W. J. Macaulay is 50 feet above the road and is supplied by 400 feet of 3/4 inch pipe. Mr. N. Macaulay is 97 feet above the road and is supplied by 400 feet of 3/4 inch pipe. Mr. Simon is 57 feet above the road and is supplied by 400 feet of 3/4 inch pipe. Mr. A. S. Dumbleton is supplied by 164 feet of 3/4 inch pipe. Mr. H. Dumbleton is on a very much lower level than the rest; in fact, very little higher than those on the lower side of the street. From these data you will easily see that when an extra draft is on, it is impossible with the present small service pipes to reach these houses at all times. They have all very small tanks, and I understand at least one has no tank at all, and as no water can possibly reach them by gravitation, they are entirely at the mercy of any accident that may occur, as on the morning of the 18th of June, as already mentioned. Until these houses put in tanks capable of holding not less than 1,000 gallons and supply them with services of at least one inch in diameter, they will

always be in trouble. Mr. Justice Martin, whose house is the highest in Victoria, was for a long time in the same position. He has, however, put in a tank capable of holding at least four days' supply, and feeds it with an inch pipe, thus enabling it to be filled quickly. Since this he has had no trouble. To force water at any sort of pressure to the houses on the upper side of Rockland avenue through their present small service pipes, we would have to carry a pressure in the lower part of the city that would be continually bursting the mains there. The only remedy is a larger service pipe supplying a tank large enough to supply all household wants during the hours that sprinkling is going on.

At the best of times the water will not supply sprinklers in the garden, and at the same time flow into the houses situated on as high a level as these are. On the 18th June, when the pump was broken down and there was practically no water to the east of Cook street, Judge Martin had sufficient water in his tank to carry him over until the pump started again. If other houses on the high levels were similarly supplied, there would be fewer complaints. I may mention that all these houses on Rockland avenue are supplied by meter, so that they can use water for sprinkling at any time, and I am, dear sir,

Yours truly,
JAS. S. RAYMER,
Water Commissioner.

Received and filed, and that portion of it which refers to the cause of the complaint to be included in the reply to the petitioners.

E. C. Johnson, the superintendent of the city market, reported receipts to the amount of \$125.15 for the month.

Ald. Beckwith suggested that the clay being taken out of the bottom of the harbor be transferred to the James Bay mud flats. He thought that some kind of an arrangement might be entered into between the Dominion government and the city whereby the material now taken away to sea might be utilized as suggested. He, therefore, moved that the city engineer confer with the Dominion engineer concerning the matter. The motion carried.

Tenders for the construction of the caretaker's residence at the pumping station were then opened with the exception of one which was received too late to comply with the city's advertisement. The result was the letting of the contract to John Calder. The tenders were as follows: John Calder, \$1,180; H. M. Ross, \$1,325; Wm. Gresson, \$1,255; Thos. Merkle, \$1,214; Wilson Noble, \$1,210.

A report from a special committee appointed to report on the different sand pits was then read and adopted as follows:

To His Worship the Mayor and Aldermen of the Corporation of the City of Victoria:

Gentlemen—Your special committee appointed to enquire into the offers made for the acquisition of sand pits for supplying the filter beds at Beaver lake with sand, beg to report that they inspected two properties, viz., a sand pit at Elk lake, belonging to Mr. J. Piery, and one belonging to Mr. John Stevens, on West Saanich road. The first contains a sand that would be satisfactory for the purpose, but has much as the sand is under a layer of loam or at least five feet in thickness, your committee would not recommend the purchase of the property. The sand of the other pit has been washed under the instructions of the water commissioner, who has reported

that the rest of washing same renders its use too costly for use in the filter beds. Under the above circumstances your committee would recommend that tenders be called for the purchase of 1,500 yards of sand.

All of which is respectfully submitted.
J. STUART YATES,
H. COULRY,
JOHN KINSMAN.

The standing committee on finance recommended the payment of monthly accounts aggregating \$4,148.37, and the sum of \$2,223 for the widening of Menzies street under the Local Improvement By-Law.

The council then adjourned until to-night.

COMMUNICATIONS.

"STOP SALE OF GAME."
To the Editor—By the courtesy of Mr. Hornaday, the director of the New York zoological park, I have just received a most interesting monograph on the sheep of North America, in which much of the space is occupied by the description of Canada's new sheep and other sheep of British Columbia and Alaska.

To any one interested in sport or natural history, the work is very excellent reading, and if it falls into the proper hands may do much to bring out many men of means to hunt from Victoria, but I am not calling your attention to the pamphlet so much on that account as because Mr. Hornaday, who was out here lately, pleads hard for a cause in which both you and I have worked in vain.

He asks for "the absolute prevention of the sale of game" in Alaska and the Klondike.

It is necessary to stop the sale, here, how much more necessary must it be to stop the sale in this more densely populated part of North America?
CLIVE PHILLIPS-WOLLEY.
W-stholme, July 30th, 1901.

A GOOD COUGH MEDICINE
Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by Hendersen Bros., Wholesale Agents.

CITY NEWS IN BRIEF.

Try new White Label Blue Ribbon Tea. Opposition steamer "Rosale" sails for Seattle, daily, except Saturday, at 7.30 p. m. You will find it in the B. C. Guide; 5c per copy, 50c per year, in all book stores in B. C. Open until 9 o'clock every evening. Hambley Cycles, Broad and Broughton streets. Great bargains in monuments at Stewart's. Several Scotch Granite Monuments just arrived, Copings, etc. Nothing but first class stock and workmanship. Cor. Yates and Blanchard streets. Last evening at the Dominion hotel the Rev. Elliott S. Rowe united in marriage Carl Saeger and Miss Mary Walter, of Shelton, Wn. The newly married couple will spend their honeymoon in this city. S. M. Okell has received intelligence from Vernon that his son, who is in the hospital with typhoid fever, has now taken a perceptible change for the better. He has been in such a low condition as to be unconscious. The garden party of the ladies of St. John Guild, which was postponed from Saturday last, will be held next Saturday. It will be held, as mentioned, at the residence of Mrs. Bell, on the corner of Cook and Franklin streets. A new locomotive has been ordered by the Mount Sicker Railway company, which is in transit from the East, and is expected to arrive in a few days. Upon its arrival it will be put into service between the mine and Westholme siding on the E. & N. railway. A passenger car will be put on also for the convenience of those visiting the mine. There were given out 1,826 books at the public library during the month of June. There were 908 issued to ladies, and 921 to gentlemen. The average number of volumes given out each day was 73, the highest number for any one day being 118. Seven gentlemen and seven ladies became members during the month. The management have purchased 116 new volumes from Cedric Chivers, of Bath, England.

Covering the Surface

Any powder will do that, but if you want a beautiful clear skin take our Tonic Pills, they will act on the system purifying the blood, making the skin clear and beautiful. 50c a box. F. W. FAWCETT & CO., 40 Government St. According to the Toronto Globe it is definitely announced that Rev. Father William Murphy, O. M. L. M. A., will succeed Rev. Father Fallon as parish priest of St. Joseph's. He entered upon his pastoral duties a few days ago. Father Murphy, who is about forty-five years of age, has been connected for several years with the University at Ottawa. He was born at Lac la Pêche, British Columbia, graduated at the university, and afterwards studied for the priesthood and was ordained in Ottawa. He took a post-graduate course at Harvard University. He is a brother to Dennis Murphy, the popular M. P. P. for West Yale in the local legislature.

Try Ideal Provision Store, 72 Yates Street, for Strawberries and Cream.

The Congregational church have paid off the mortgage upon their church property and expect shortly to commence building operations on the church site. Every visitor to the city should drink Kola Tonic Wine, to be sure you get the genuine and original with the trade mark of bunch of celery on label, others are imitations. Read The West Dental Parlors advertisement in this issue and save money. The finest Vulcanite or Celluloid plate for only \$10. Pan-American exposition, Buffalo, N. Y., May to November. Ask Chicago, Milwaukee & St. Paul railway about reduced rates. R. M. Boyd, commercial agent, Seattle, Wash. C. J. Eddy, general agent, Portland, Ore. Mr. Justice Drake has upheld the decision of Police Magistrate Hall in fining R. Nelson \$50 for resisting a police officer while making an arrest in the California hotel. Nelson was bartender in the hotel at the time. Why go to Seattle for Dental Work when you can save money and have better work done at The West Dental Parlors, 83 1/2 Government street, opposite the Bank of Montreal. Remember the address. If you are going to the Pan-American, Buffalo, the Educational Association Meeting, Detroit, Mich., or the Society of Christian Endeavor Meeting, Cincinnati, Ohio, take the Northern Pacific Railway. Call and get particulars, Northern Pacific Ticket Office, Government street.

See Ronnell and Howard, the aerial horizontal bar performers; Bessie Pierce, the phenomenal contortionist, and our big company at Savoy Theatre to-night. The annual picnic of the Congregational Sunday school, held on Monday at Cordova Bay, was in every way a success. There was a large attendance, the carriages which left the church at about 9 a.m. being filled. Sports of various kinds were indulged in at the Bay, and a most enjoyable time was spent. Hotel Mount Sicker was opened on Dominion Day. It is under the management of Messrs. Johnston & Cresdon, both of whom are well known to Victorians. The hotel is very comfortably fitted up, and situated at an altitude of 1,400 feet above the sea level should prove a pleasant health resort. The management are giving particular attention to the dining service. Indications are that the Institute hall will be crowded this evening when the performance of Collier's comic opera by amateur artists will occupy the boards. The final rehearsal was held last evening, and the way in which the principals interpreted the different roles will insure a most successful entertainment. Selections from Gilbert & Sullivan's operas will compose part of the second portion of the programme. Herbert Taylor, the English baritone, will assist. Improvements are being made upon the Lenora mining property. The new two-drill compressor has commenced work on No. 3 tunnel, a mine has been sunk on No. 2 tunnel, which will connect with No. 3 tunnel, and through which all the ore from both will be taken out. A three-compartment shaft is also being started. The mine is shipping 60 tons of ore daily to the Tacoma smelter, and there are also 18,000 tons of \$12 ore on the dump awaiting the erection of a smelter at the camp. The customs returns for the month of June show a total revenue of \$80,349.01. This was made up of duty amounting to \$73,215.46; and other revenues aggregating \$7,133.55. The imports for the month were: Free, \$56,747; and dutiable, \$2,949,590. The exports were as follows: Produce of Canada, \$10,485, and goods other than produce of Canada, \$25,798, representing a total of \$36,283. The revenue for the year ending 30th of June will be in the neighborhood of \$1,000,000, and when taken in connection with that collected at the Yukon passes will amount to about \$1,250,000. The Friendly Help Society held its monthly meeting yesterday morning, when the reports for the month were received. It was reported that thirty-three had assistance, eleven had groceries, five milk, three fuel, and the remainder clothing. Donations as follows were thankfully acknowledged for June: Mrs. Brett, Mrs. D. R. Kay, A. Friend, Mrs. Thompson, Mrs. Vincent, Mrs. E. East, Mrs. Gore, Mrs. Fred. Fell, Mrs. (Capt.) J. Whately, clothing; and R. Porter & Sons, meat. The society are much in need at present of second-hand clothing, and any charitably disposed person who has any such is requested to notify the secretary, or send it to the rooms.

Strawberries Strawberries WE ARE NOW TAKING ORDERS For preserving berries. Our fruit is the best and at the lowest price. Leave your order with us and we will see that you get good fruit. JOHN BROS. 255 Douglas Street. LOOMIS-MACHIN. California Doctor Wedded to Young Victoria Lady. A quiet, but extremely pretty wedding took place at high noon to-day at Christ Church Cathedral, when Dr. Melville Leroy Loomis, of Los Angeles, Cal., was united in marriage to Miss Eleanor Catherine Machin, eldest daughter of Mr. and Mrs. Rowland Machin, of St. Charles street. The ceremony was performed by Rev. Canon Beaudouin in the presence of a small company of immediate friends of the bride and groom. The interior of the church had been prettily decorated with orange blossoms and other flowers for the occasion. Mr. Pauline presided at the organ, and the company was waiting for the bridal party played selections suitable to the occasion. The bride entered the church leaning on the arm of her father and preceded by the boy choristers singing "Voices that breathed o'er Eden." She looked truly charming in a gown of white satin trimmed with embroidered chiffon, with bridal train and real orange blossoms. She carried a large bouquet of bridal roses. She was attended by Miss Kathleen Gocher, as maid-of-honor, who carried a bouquet of pink roses. The groom was unattended. The ceremony over, the bridal party left amid a shower of rice and well wishes to the home of the bride's parents on St. Charles street, where a dainty repast was served. Later they leave on the San Francisco steamer for California, where they will reside, the groom taking up practice in Beck with.

Hot-Hickey. A pretty wedding was celebrated at 3 o'clock this afternoon at the Christ Church Cathedral, when two prominent young people of this city, Miss Charlotte E. Hickey, eldest daughter of M. P. Hickey, and Mr. Gilbert C. Holt were united in the holy bonds of matrimony by Rev. Canon Beaudouin. The bridesmaids were Miss Gertrude and Miss Viola Hickey, sisters of the bride. The groom was supported by H. Holmes and Noel Van der Gucht. The bride was escorted to the church by her brother, F. M. Hickey, and greeted away by her mother in the absence of her father. The ceremony was private, only the intimate friends of the family being present. A reception was held immediately after the ceremony, when the newly married couple received the congratulatory wishes of their friends. An array of handsome presents attested to the popularity of the young couple.

Grand Excursion to Port Townsend, 4th of July Celebration, on the popular steamer Rosale, leaving here evening of July 3rd. Cheap rates. Fare 50c round trip to Port Townsend, Wash.

An adjourned session of the city council will be held in the city hall this evening. Why it is called has not yet been announced, but possibly the city fathers have some interesting proposition to make or the business may be that which was left over from last night's meeting.

The regular weekly meeting of Columbia Lodge, No. 1, I. O. O. F., will be held this evening. Officers for the term will be installed. The lodge room will hereafter be the place for the paying of dues, as the noble grand, as well as the permanent secretary, has to sign the official receipts.

A social will be held at St. Aidan's church, Cedar Hill, this evening, when strawberries and real cream will constitute an important feature of the programme. An excellent literary and musical programme will be rendered, to which a number of entertainers from the city will contribute.

The committee on mining of the Agricultural Society met yesterday afternoon at the city hall. It was decided to ask mining men in various districts to offer suggestions as to mining exhibits. Mr. Hitchcock's offer to provide an exhibit from Atlin district was accepted with thanks. The ground committee will be asked what space they will allow for exhibits of mining machinery. An assay office in active operation is also suggested.

REGIMENTAL ORDERS. Annual Inspection of Fifth Regiment to Be Held Next Saturday. The following district order has been issued: "The annual inspection of the Fifth Regiment, C. A., by the district officer commanding, will be held at Beacon Hill park on Saturday next, the 7th instant, at 4 o'clock, p. m. Uniform, field day order. Pay lists will be handed in with parade state. Major A. W. Jones will act as ordnance officer to the D. O. C."

The regiment will parade at the drill hall on Saturday afternoon next, the 7th July, at 2.30 o'clock. Dress, field day order.

Delegates Return J. E. Church and J. T. McMilloy Arrived From Buffalo Last Evening. They Attended Session of Supreme Lodge A. O. U. W. Impressions of Fair.

J. E. Church and J. T. McMilloy, representatives from British Columbia to the Supreme Lodge, A. O. U. W., which met at Buffalo on June the 11th, arrived in the city last evening, after a very enjoyable trip. Mr. McMilloy when seen this morning stated that about 38 different jurisdictions were represented. The legislation, however, was not of such an important character as that transacted in the past. The work done was simply the perfecting of the details of their present plan. The reports of the different jurisdictions show the entire order to be in a more prosperous condition than at any time in the past. Perfect harmony prevailed throughout the session, which adjourned on the 21st to meet in Portland, Ore., on the second Tuesday in June, 1902.

Mr. McMilloy says that Mr. Church and himself had a very enjoyable trip East, travelling by the Northern Pacific. The accommodation of that road is, he says, first class. Leaving the Northern Pacific they took the Wisconsin Central and the Michigan Central.

The stay in Buffalo, with the exception of the time taken up in attending the sessions of the lodge, was one of uninterrupted pleasure. The greater part of their spare time was taken up in examining the different sights of the Pan-American exposition. Only a short time was spent in Buffalo, and although they visited the exposition almost every afternoon and evening, they had not time to investigate all the wonders of the fair.

They, however, saw some sights which will not easily be forgotten. Mr. McMilloy states that what impressed him the most was the electric light display, which he says was one of the grandest ever produced in the world. There were as many as 300,000 lights on the buildings; and the effect of these may be imagined. On the electric tower alone there were 18,000 lights. Of course the fact that Buffalo is near to Niagara Falls explains where the immense electrical power is derived from.

Among the other features of the exhibition which impressed the visitors was the architecture which Mr. McMilloy said surpassed anything he had seen. The coloring, tinting, etc., was conducted by a lady artist, and reflects great credit upon her.

During the time of the session of the Supreme Lodge, a day was set apart as A. O. U. W. Day, when all the Workmen from the surrounding districts swarmed into the city for the purpose of participating in the parade. The A. O. U. W. have a building in connection with the exhibition and the occasion was the dedication of the structure.

The event took place on June 29th, and the parade was of immense size. It has been estimated that there was an unbroken line three miles long of Workmen.

Two brass bands had been engaged. The parade was held in the forenoon, while in the afternoon the building was dedicated.

The delegates to the Supreme Lodge were also entertained by the local order. On one occasion they were taken on a picnic to Niagara Falls, and spent the day in that vicinity. In their rambles through the exposition grounds they visited the government buildings where they saw exhibits from all the provinces of the Dominion. Mr. McMilloy states that the exhibits were very creditable, especially those from Ontario.

The return trip was made by the C. P. R. Travelling on the Canadian line is not so pleasant at present; according to Mr. McMilloy, from Vancouver to Montreal there is not a man at work on the track.

REGIMENTAL ORDERS. Annual Inspection of Fifth Regiment to Be Held Next Saturday. The following district order has been issued: "The annual inspection of the Fifth Regiment, C. By Book Post

"A Lady of the Regency" (1), by Mrs. Stepancy Rawson, is still another of the tales of royal adventures for which there exists such a long-felt want.

It would be difficult to find a sweeter or a sadder story than that of Annetje in "God's Puppets" (2), by Imogen Clark. Of all the novels of this historical type that have come to my attention, it pleases me best.

"Pro Patria" (3) seems to me a fool of a story, but I believe my opinion is not largely shared. It is by Max Pemberton and made its debut in Munsey's.

No less an authority than the late Sir Moral McKenzie, the great English specialist, vouches for the fact that Catarrh is the sole cause of deafness in by far the vast majority of cases.

Japanese Catarrh Cure

"For years I had been troubled with catarrh, which affected my hearing. For five years I could not hear a watch tick. I spent much money fruitlessly in search of a cure, but received no permanent benefit until I used Japanese Catarrh Cure.

DEATHS FROM THE HEAT

are common during the hot spells of the summer. It is strange there are not more of them. So many careless people go about the streets trying to

ATTEND TO BUSINESS WITH THEIR

BODIES FULL OF POISON.

Neglect your bowels and they become clogged up and fill your entire system with poisonous matter. No wonder you feel tired out—can't work, can't sleep, can't eat.

You can be cured by ABBEY'S EFFERVESCENT SALT, THE FAMOUS TONIC LAXATIVE.

All druggists sell it. 25c and 60c a bottle.

gets into their place of operations in France, escapes with his life and almost loses the English end of the tunnel and walks into trouble again.

A Text Book of Psychology (4), by Daniel Paulina, is equally well adapted for the general reader and for the student.

How to Reach Reading and Composition (5), by J. J. Burns, is designed to help the teacher to prepare for the labor of training pupils.

A work which promises to be a standard is G. H. Armstrong's new English Grammar and Composition (6). It is a practical book and one useful to the teacher.

Provincial News

GREENWOOD.

On his arrival at Greenwood Rev. J. D. P. Knox was accorded a very kind and enthusiastic reception by his congregation, which rendered it very easy for him to become deeply interested in them and in the city.

FINLAND.

The Finnish colony meeting in the Finnish church here on Sunday, resolved not to enter into any agreement with the Woodpulp & Paper company at Malcolms Island until the matter was thoroughly considered and the opinion of the Finns in Washington state obtained.

ROSSLAND.

Those of the McGill mining students who stayed over here have been employed at all kinds of jobs about the Le Roi mine, seeking thus to gain practical experience. They have, it is stated, pushed cars, wielded the white ash, worked with the timber gang and tended machines, always aiming at the willing and intelligent manner in which they tackled any proposition which they have been placed.

Chief of Police Vaughan is here continuing his good work and on Wednesday last one result was the payment in to the city treasury of \$153 in fines by various offenders against law and order.

REVELSTOCK.

The local school trustees have written to the education department deprecating any extension or improvement of the present wooden building of the public school, and demand instead of it a brick or a stone structure.

A narrow escape from death occurred to an infant here the other day when the child of Morris Anderson fell into a bucket of water head downwards. The baby was unable to extricate itself and it was some time before either of its parents noticed what had befallen it. When taken out it was to all appearances dead. Dr. McLean was hurriedly summoned and after working with artificial respiration for some time, restored the child alive to the arms of its parents.

PHOENIX.

Mayor Rumberger and City Solicitor Kez were at Grand Forks on Thursday to confer with H. G. S. Heisterman in regard to the water and light franchise agreement. A special meeting of the city council was held on Friday, when the agreements were to be formally ratified. Messrs. Graves, Williams and Flumerfelt will begin immediately the installation of a fire system, and if the by-law is rejected the city will reimburse them for their outlay. The idea is to have fire protection for the dry season, which is so near. As soon as the by-law is approved of by the people work will be started on the domestic water service.

The two hoists ordered some time ago by the Dominion Copper company for the Brooklyn and Stenwinder mines have arrived and are now being unloaded as rapidly as possible.

VANCOUVER.

The eldest daughter of Mr. W. Tower, of Mount Pleasant, Sarah Elizabeth, was married on Saturday afternoon at St. Michael's church, Mount Pleasant, to George White, of the firm of Buchanan & White, accountants and decorators, of this city. Many neighbors and friends attended to witness the ceremony, which was performed by Rev. Mr. Elliott.

Alderman Grant had a narrow escape from a serious accident on Monday, being thrown a considerable distance by the collision of a wheel, ridden by an unsteady tar, with his own.

A fitting wind-up of the celebration was the ball given in honor of the officers of the visiting fleet at the Hotel Vancouver last night. The ball proved to be one of the great social events of the year. The guests were so numerous that at times the crowd was inconvenient for the dancers. The floor was in splendid shape, however, and the music excellent. Among the guests were Sir Henri Joly and Mrs. Charles Tupper.

The sad death occurred on Saturday of Miss Leola Ida Taylor, daughter of George R. Taylor, 623 Hamilton street. The young lady, who was but 21 years of age, was subject to fits, and expired suddenly while taking a bath.

NELSON.

An exceptionally successful Dominion Day festival was celebrated here on Monday. There was an attendance of several thousand visitors from various points in the Kootenays. The people of the city subscribed in aid of the occasion.

The unfortunate Great Northern section man Randall, who had both legs cut off by a train near Creston, died of his injuries, ere an engine could be dispatched to Creston, in order to convey him, whither surgical attendance could be secured.

The news that his sentence to death has been commuted to life imprisonment was conveyed to Frederick Collins in the Nelson jail on Friday, and was received by him with that same indifference which the prisoner has manifested in his fate from the start, his only comment being that the action of the Ottawa authorities would save the province the amount expended in keeping up the death watch.—Tribune.

The Salvationists are going to build a new barracks here which will cost in the neighborhood of \$8,000. A quiet wedding took place on Saturday afternoon in St. Saviour's church when Miss Hedley and Dr. Senior, of Rossland, were joined in the bonds of matrimony by Rev. Mr. Hedley, of Rossland, assisted by Rev. Mr. S. Akhurst. The bridesmaids were Miss Frances Hedley and Miss Margot Whitney and the groom was supported by Mr. Duffie, of Rossland.

A quiet but beautiful wedding was celebrated on Saturday evening at the residence of the bride's parents on Silica street. The contracting parties were Alfred Jerns, of Byer's Hardware Co., and Miss Mabel Augusta Colwell, second daughter of Mr. and Mrs. H. G. Colwell. The ceremony was performed by the Rev. D. Wright. She was assisted by her sister, Mrs. W. Pringle, of Colville, Washington, United States, and the groom was supported by his brother, Mr. Charles Jeffs.

FASENGERS.

Per steamer Charmer from Vancouver—Miss Murray, Mrs. Anderson, Mrs. Rono, Mrs. Blaklock, Mrs. Langley, F. A. Bennett, J. H. Kerr, N. B. Van der Gucht, Capt and Mrs. Thompson, Mrs. Tyler, R. McGrimmon, M. S. Dillabough, Miss Wilson, Mrs. Wilson, J. A. Fullerton, E. D. S. Scholefield, G. W. Lawson, F. M. Rattenbury, W. A. Webster and sister, Mrs. Morrison, C. T. Lett, F. O. White, E. V. Dufferin, J. Gibson, H. Ward, F. O. Dillabough, J. Scheler, T. Wilkinson, Agnes, E. Dier, Roy B. Dier, Miss Merrill, W. A. Ward.

Per steamer Rosalie from the Sound—Max Leiser, Mrs. Leiser, Miss Leiser, Miss Hilda Leiser, E. J. Palmer, Mrs. Palmer, W. Biddell, Mrs. Biddell, Mrs. J. E. Ward, D. S. Pothringham, A. Lorenson, Jos. Carno, A. Dayer, G. H. Barnes, Miss Peterson, V. E. Roberts, C. Roth, G. H. Hewett, S. A. Stoddard, Mrs. Stoddard, Mrs. Jerome, Mrs. Williams, Mrs. May, F. Enloe, Mrs. Enloe, J. Oppenheimer, Homer Dixon, H. Fuller, J. Fulton, Mrs. Ginn, J. B. Corbett, Mrs. Corbett, Miss Corbett, D. J. Money, D. W. Campbell, Miss McCullum, A. Horace Tucker, Capt H. F. Beecher, H. Logan, Mrs. Whitehall.

Per steamer Utopia from the Sound—Mrs. Case, Mrs. Hunt, Miss Wilby, Miss Campbell, W. Duncan, A. H. Findlay, B. Croft, J. H. Wark, H. Wallinson, C. G. McKeown, J. K. McKeown, Miss Wither, J. Kemp, Miss Hutchins, Miss Wither, H. Witter, E. L. Hopkins, Dan Cook, G. A. Carleton, Mrs. Bland, Miss Steel, W. Bland, J. Bland, F. C. Milton, Dr. Quigley, Flasher, Dr. A. C. Dickey, Mrs. Dickey, W. Creighton, J. R. Giffen, Robt. Gill, P. Mulligan, Miss Jones, A. B. Tweedie, A. M. Snyder.

HORSE SENSE

With a Human Application.

The man who owns horses is careful of them. He is careful that they are fed regularly. He sees to it that their feed is proportioned to their needs and conditions. They are fed at stated times and with a measured ration.

No man feeds a horse which is just off a long and fatiguing journey. He lets it rest a while and then feeds it moderately. No horse owner rushes a heated horse from the harness to the spring, and lets it drink its fill of cold water.

Now consider how the horse owner treats himself. He doesn't think regularly of meals of any moment, so he eats in season and out of season. He has no regular ration or measured meal, and he eats to repletion. He comes home utterly tired from field or store and sits down to a hearty meal. He gets overheated and drinks copious draughts of cold water. He treats himself as he would allow no one to treat his horse, and he wonders why his stomach gives out, his digestion is impaired and his health grows weak and miserable. If a man would treat himself as well as he treats his horse he would not suffer from disease of the stomach and its allied organs of digestion and nutrition.

A Common Cause of Disease. There is no doubt that careless and irregular eating and drinking are the most prolific causes of disease. When the stomach is diseased the whole body suffers from inanition and its consequent physical weakness. The heart feels the lungs feel it—the nerves feel it, and, as a general rule, the beginning of "doctoring" is when the heart, lungs, liver, kidneys or nerves show signs of disorder. The stomach is, as a rule, not considered, or fails to receive the treatment necessary to the cure of chronic disease of digestion and nutrition. By enabling the perfect digestion and assimilation of food, it enables the strengthening of the body, and so restores weak organs to normal activity and the whole body to vigorous health. The most notable cures effected by the use of "Golden Medical Discovery" are those of chronic forms of disease which have entirely failed to yield to the treatment of local physicians.

O. S. Copenhaver, Esq., of Mount Pleasant, 2221 Huntingdon Co. Pa., writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused water-bombing and vomiting of a slimy yellow water."

day afternoon in St. Saviour's church when Miss Hedley and Dr. Senior, of Rossland, were joined in the bonds of matrimony by Rev. Mr. Hedley, of Rossland, assisted by Rev. Mr. S. Akhurst. The bridesmaids were Miss Frances Hedley and Miss Margot Whitney and the groom was supported by Mr. Duffie, of Rossland.

consulted a physician and he told me I had a form of dyspepsia and treated me for about six months with but little benefit. I still kept getting so weak I could scarcely walk. I then tried another physician and he told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief while using it. I then tried Dr. Pierce's medicines, using his "Golden Medical Discovery," "Favorite Prescription" and the "Pleasant Pellets," and in two months' time I was feeling better than I had for years before. I can truthfully say Dr. Pierce's medicines did me more good than any I had ever taken."

Common Sense Cures. The logic of the cures effected by Dr. Pierce's Golden Medical Discovery is easy to understand. Physical life is sustained by food. The strength of the body is derived from the nutrition in food. It is a natural conclusion that when the body and its organs grow weak it is because of failure to assimilate the nutrition contained in food. This is exactly what occurs when there is disease of the stomach and its associated organs of digestion and nutrition. There is a loss of nutrition with a corresponding loss of strength and lowering of vitality. Physical weakness therefore points to disease of the stomach and digestive and nutritive tract. When this disease is cured by "Golden Medical Discovery" perfect digestion and nutrition are re-established and the weak body becomes strong again.

"When commencing to take your 'Golden Medical Discovery,'" writes Mrs. Virginia F. Griffith, of Flatop, Mercer Co., W. Va., "the doctors said I had chronic inflammation of the liver, stomach and bowels, also some kind of female trouble. My neighbors told me after I got better that they thought I had consumption, and no one thought I could get well. This was my condition when I first wrote to you. After being sick over a year and taking doctors' medicines and all kinds of patent medicine recommended, my stomach and bowels were in a bad condition, so that the lining of my stomach and bowels peeled off, leaving them as sore and raw as ever a sore could be on the surface of the body. Everything I ate hurt me so I could eat nothing but a little rice or an egg. My chest was so sore all through that when I would draw my breath it seemed like a thorn pricking me. Expectoration was almost constant. There seemed to be a large lump in my left side. It is impossible to describe all the aches and pains, as it seemed every organ of my body was more or less involved. I have taken 'pale dollars' worth in all of your medicines, and consider myself a well woman."

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce by letter free, and obtain, without charge, the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. The Best Medical Book Free.

Dr. Pierce's Common Sense Medical Advice, containing more than a thousand large pages and over 700 illustrations, is sent free on receipt of stamps to pay expenses of mailing only. Send 31 one-cent stamps for the cloth bound volume or only 21 stamps for the book in paper cover. Address Dr. R. V. Pierce, Buffalo, N. Y.

Souvenir of the Royal Visit. Recognizing that the approaching stay of Their Royal Highnesses The Duke and Duchess of York Will mark an epoch in the history of the City of Victoria and the Province of British Columbia, the publishers of The Victoria Daily Times SPECIAL SOUVENIR EDITION Are prepared to issue a Which will be published concurrently with the holding of the B. C. Agricultural Exhibition. This number, which is issued under the patronage of His Worship the Mayor and Aldermen, will consist of fifty or sixty pages, printed on the finest paper, and embellished with over one hundred fine half-tone engravings, illustrating the resources of British Columbia and the beauties and wealth of Victoria and Vancouver Island. Over 30,000 copies of this superb magazine edition, which will be enclosed in a handsome cover, will be circulated at the time of the Exhibition, thus affording an Excellent Opportunity For Advertisers to bring before the numerous visitors to Victoria during this civic carnival their ability to cater to the wants of the public. As the advertising will be limited, application should be made early for space to The Times Printing and Pub. Co.

Our Ice Cream

Is not a frozen conglomeration of starch, eggs, etc. but is really what the name indicates, "Froze Cream."

Oscar and Hattie Back

Schooner Reached Port Last Evening After a Fairly Successful Cruise.

Hunted in New Sealing Grounds and Secured Principal Part of Catch There.

Schooner Oscar and Hattie, Capt. R. O. Lavender, dropped anchor in James Bay at 4 o'clock yesterday afternoon, after a fairly successful season's hunting.

ferred from the railroad to the steamers, there was approximately 3,500 tons of freight for Dawson when I left a few days ago.

Just before I left the steamer Dawson broke all records for the trip upstream from Dawson to White Horse, making the voyage in two days and nineteen hours.

FIRST SALMON SHIP ARRIVES. British bark Blythwood, Capt. Dixon, arrived from Antofagasta last evening.

MARINE NOTES. R. M. S. Empress of China arrived at the quarantine station this afternoon after making a record trip from the Orient.

Steamer City of Puebla which sails for San Francisco this evening will carry among her passengers from this city Dr. Loomis and wife, Sergt. John Hawton, Mrs. Hawton, A. W. Ward and boy, Mrs. Campbell, Rev. Mr. Crossen and wife, Mrs. E. Whitworth, Miss M. Blackburn, Mrs. Spencer and Miss A. McKenide.

Steamer Waiha Waiha is making an unusually long trip from San Francisco. Up till noon today she had not been reported in the Straits, although due to arrive this morning.

Steamer Danube sails for Skagway tonight with a very large cargo, but with few passengers. She has a big lumber freight in addition to some forty men, boilers and other mining machinery for Dawson.

The ship Casco came off the ways this morning, and immediately went to the Marine Iron Works for the purpose of having some work done.

News has been received of the little schooner "Doris," bound for Pelican being again in "Doris's" Cove. No vessels were sighted during the cruise. The schooner this morning was towed to the upper harbor by the steamer Clayquod.

HENLEY REGATTA.

Pennsylvania University Boat Club is Second Heat of Grand Challenge Cup Race.

(Associated Press.) Henley on Thames, July 3.—The Henley Regatta opened today formally, although owing to the large number of entries for the Thames challenge cup, three heats in the contest for that trophy were rowed yesterday afternoon.

The regatta began under favorable conditions. The sun was bright and warm, and a cool breeze was blowing off the water.

The results to-day were as follows: Wyfold Challenge Cup.—First heat—Kingston Rowing club beat Trinity College, Oxford. Kingston's time was 6:08.

Grand Challenge Cup.—First heat—Leander Rowing club beat New College, Oxford. Time, 7:10.

Second heat—Pennsylvania University beat the London Rowing club by three lengths. Time, 7:01 2/5.

Ladies' Challenge Plate.—First heat—Worcester College, Oxford, beat Jesus College, Cambridge. Time, 7:17.

Thames Challenge Cup.—Fourth heat—Trinity Hall, Cambridge, beat the London Rowing club.

Diamond Challenge Sculls.—First heat—J. J. Johnson beat A. H. Clout. Johnson's time was 8:05.

Second heat—Fag Ash beat W. C. Bond. Ash's time was 8:45.

Wyfold Challenge Cup.—Second heat—Christ College, Cambridge, beat the Royal Artillery Rowing club. Christ College's time was 8:00.

NEW YORK EXCHANGE. (Associated Press.) New York, July 3.—The New York stock exchange will be closed from 3 p.m. until 10 a.m. on Monday, July 8th.

TOO MUCH HAIR. for a man, is what Paderowski has, but you have too little and are far worse off. You will soon have less if you do not use Dr. White's Electric Comb.

TREASURE SHIP ARRIVES. Steamer Victorian arrived at Seattle on Monday with 67 passengers and \$300,000 in treasure.

Unlucky Thirteen

That Was the Number of Cases in the Police Court This Morning

Nobody Was Seriously Alarmed Except the Prisoners in the Dock

Thirteen cases were dealt with in the police court this morning. Although this might be considered portentous by the superstitious, the pragmatic officials who manipulate the machinery of justice in this city were not troubled.

If, however, the number of cases was large, the returns were not proportionally great. There have been days on which half the quantity of counts have enriched the municipal exchequer by double the amount that was cleared this morning.

There were eight occupants of the culprit's dock this morning. These, with one exception, were offenders of the law of temperance.

Tommy, the first to figuratively bow beneath the stroke of justice, was fined \$5 and \$1 costs, on a charge of ten days' imprisonment.

Tommy Helton, a Cowichan Indian, was the third to appear in the dock. Through the interpreter, H. W. Shepard, he denied the imputation; scorned the insinuation affecting his temperance principles; and somewhat indignantly objected to being included in the category of intemperance.

Tommy Helton, a Cowichan Indian, was the third to appear in the dock. Through the interpreter, H. W. Shepard, he denied the imputation; scorned the insinuation affecting his temperance principles; and somewhat indignantly objected to being included in the category of intemperance.
