

2-Port USB 3.0 SuperSpeed Desktop Extension Cable (M/2xF), 6 ft.

MODEL NUMBER: **U324-006-DSK2**

Description

Connect the [U324-006-DSK2](#) 2-Port USB 3.0 SuperSpeed Desktop Extension Cable (M/2xF) to your computer's existing USB-A port to extend it up to six feet away. This flexibility allows you to place the cable's desktop hub with two female USB 3.0 connectors within easy access next to your keyboard, on a nearby shelf, behind a monitor or anywhere else you find convenient. It's especially recommended for moving a rear USB port somewhere easier to access. A black padded base provides stability.

The [U324-006-DSK2](#) features one standard USB 3.0 data/power port and one power-only port. It supports data transfer rates up to 5 Gbps—ten times the speed of USB 2.0. The cable's bi-directional data interface allows data to flow both directions simultaneously, increasing theoretical bandwidth by ten times.

Backward compatible with earlier USB generations, the [U324-006-DSK2](#) features premium foil and braid shielding to deliver reliable, error-free signal quality and protection from EMI/RFI interference. Molded nickel-plated connectors with gold-plated contacts ensure excellent conductivity. Integral strain relief ensures the cable and connectors last a long time. A rugged PVC jacket protects twisted 28 AWG data lines and 24 AWG power lines.
