Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice. Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another. In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges. If the State's Customers believe they enjoy an exemption from taxes normally billed by Verizon Wireless on our invoices, you must provide evidence of your exemption in a legally acceptable form, such as the exemption certificate. Exemptions do not apply to expenses necessary to comply with law (surcharges). If the State provides Bidder with an official Tax exemption certificate or with other evidence of exemption that Bidder finds acceptable, then Bidder will not collect Taxes covered by the exemption. If, however, the State asks that Bidder apply an exemption and the exemption is later found not to apply, the State will be responsible to pay the uncollected Tax, plus interest and penalties. Bidder does not issue credits for Taxes billed before Bidder receives evidence of exemption. The Surcharges that would apply as of the date of this response are identified on Attachment A: Cost Sheet. Please note, these taxes and surcharges are only an estimate of the taxes and surcharges that may be applicable to the services, based on the relevant locations of the services and the current applicable tax and surcharge rates. Actual taxes & surcharges can vary based on applicable tax-on-tax rules. Verizon applies taxes and surcharges in accordance with applicable law, and therefore, such taxes/surcharges are subject to change. Please be aware this is an estimate and rates can change at any time.
