General:

Pelco's representations as to product features and performance are limited to those made in the specification sheet and installation/operation manual in effect at the time the product was manufactured. When possible, Pelco will offer product upgrades to purchasers of its products as follows:

Software upgrades:

1. All upgrades for Pelco software shall be free to the customer for the duration of the warranty period. This offer does not apply to software that may be installed in a Pelco product that is licensed from another supplier. All other software, such as operating systems, drivers for accessory devices etc., shall be governed by the software manufacturer's upgrade policy, even when said upgrades are necessary to implement an upgraded version of Pelco software.
2. Whenever possible, software upgrades with detailed instructions shall be provided to customer via web-site download. Pelco will not be responsible for loss of data, losses due to down time, or damage to product as a result of a customer attempting to perform any upgrade.
