

## Gunitite Gen4 Ductilite® Drive Hub Obsolescence

### Part numbers: H1021 & H1025 families & related assemblies

Effective immediately, Accuride Wheel End Solutions (AWES) will obsolete the following hub part numbers which can be serviced by other available designs. The change is the result of product synergy activities within AWES.

The Gunitite part numbers will be listed as “Sell-Out Inventory” until all inventory has been sold. Parts will then be changed to “Obsolete” status. The Gunitite part numbers to be obsoleted and their KIC equivalent parts are reverse compatible.

Your Accuride sales representative will be working with you to ensure the replacement part numbers are communicated correctly along with pricing for a smooth transition.

Gunite P/N	Description	Special Notes
HR908	Long barrel R-drive hub	Move to “Sell-Out Inventory”. Can be serviced by HR931 family
