

ASIAN AMERICANS
**ADVANCING
JUSTICE**
AAJC

The White House
1600 Pennsylvania Avenue NW
Washington, D.C., DC 20500

[VIA EMAIL]

April 9th, 2021

Dear President Biden,

I am writing to deliver a petition, attached to this letter, signed by 29,318 people urging you to put an end to the racial profiling of Asian Americans and Asian immigrants and end the Justice Department’s “China Initiative.”

Asian Americans Advancing Justice | AAJC worked with directly impacted persons, who were inspired to take action but chose to remain anonymous due to fear, to launch this petition urging you to immediately end the “China Initiative” and the federal government’s racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice (DOJ), the National Institutes of Health (NIH), and the National Science Foundation (NSF).

We thank you for your public condemnation of racism, xenophobia, and intolerance against Asian Americans and Pacific Islanders in the United States and look forward to the administration's efforts to combat profiling within our federal institutions. Along with almost 30,000 impacted persons, concerned citizens, and community members, we seek to draw your attention to the increasing targeting and racial profiling of Asian Americans and Asian immigrants, particularly those of Chinese descent, who are working in science and technology. Asian Americans and immigrants across the country face not only the deadly impacts of the COVID-19 pandemic and devastating attacks of hate on their most vulnerable, but are also being scapegoated and targeted by law enforcement and the federal government.

This fear is only heightened by racist policies and xenophobic rhetoric from public officials fueling this resurgent xenophobia. Under great pressure by former President Donald Trump, former Attorney General Jeff Sessions launched the “China Initiative” in November 2018 to allegedly combat economic espionage for the Chinese government. While the prosecutions of Asian American and Asian immigrant scientists did not begin with the prior administration’s “China Initiative,” the White House mandate increased pressure on federal agencies such as the DOJ, Federal Bureau of Investigations (FBI), and NIH to scrutinize Asian Americans and Asian immigrants based on their ethnicity.

The FBI and the NIH have injected racial bias into our academic institutions encouraging staff to treat Asian American and immigrant scientists and researchers as suspects. The FBI has conducted threat awareness sessions and circulated information on the threat of so-called non-traditional collectors.¹ NIH has sent letters to over 10,000 institutions in regards to the threat of intellectual property theft, and conducted investigations that have led to the dismissals, resignations, and terminations of Asian American scientists.² NIH's head of extramural research has stated that 82% of those under investigation are Asian American.³

As a result, Asian Americans and immigrants are in fear of being subjected to discriminatory investigations in academic institutions across the country. Despite the DOJ's allegations that the "China Initiative" aims to combat economic espionage, the reality is that federal prosecutors are charging many Asian Americans and Asian immigrants with federal crimes based on administrative errors or minor offenses. These were previously handled by universities as part of the administrative process but are now being criminalized, resulting in ruined careers and lives in shambles. The DOJ's own press release shows that only about a quarter of the cases under the initiative are for economic espionage as of November 12, 2020.⁴ Even after finding no evidence of espionage, federal prosecutors are charging many Asian Americans and Asian immigrants with federal crimes based on administrative errors or minor offenses and other activities (e.g., failing to disclose information to universities/research institutions) under the pretext of combating economic espionage.

The ongoing targeting and profiling of Asian American and Asian immigrant scientists follow a long history of criminalizing immigrants and treating Asian Americans as "perpetual foreigners." This racism has manifested itself at many points in our history including the Chinese Exclusion Act of 1882, the incarceration of Japanese Americans during WWII, and the scapegoating and targeting of Arab, Middle Eastern, Muslim, and South Asian communities post-9/11. Asian

American and immigrant communities have been repeatedly scapegoated and targeted based on their race, ethnicity, or ancestry. In response to increasing concerns from our communities, we launch this petition to stop the criminalization of Asian Americans and Asian immigrants in this country and recreate an inclusive, welcoming environment that embraces diversity.

You can view each petition signer and the comments they left you below.

If you have any questions, please contact Megan Essaheb at messaheb@advancingjustice-aajc.org and Gisela Kusakawa at gkusakawa@advancingjustice-aajc.org.

Thank you,

Washington, D.C. 20036
Telephone: (202) 815-1098

Dear President Biden,

29318 people have signed a petition urging you to put an end to the racial profiling of Asian Americans and Asian immigrants and end the Justice Department's "China Initiative."

Here is the petition they signed:

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

You can view each petition signer and the comments they left you below.

Thank you,

Asian Americans Advancing Justice | AAJC

1352. alezae domenden (ZIP code: 98042)

1353. cai Maneclang (ZIP code: 07753)

protect asian lives. i don't want to spend everyday being afraid. hoping and praying my parents will not come home harmed, or hoping they will come home at all. i shouldn't be worrying about them in this way. i have dealt with racism too much as just a child. i've lived in america ever since i was born, yet i still get comments like "go back to where you came from". the hate we get has been happening for long enough and now we are doing our part in getting our voices heard. whatever it takes for these hate crimes to end, however long it may take as well, we won't stop until these hurtful actions come to an end. we are just as much as a human as anyone else in this world, so there is no need to be treating us with such hate because of our race. that applies to any of the hate that goes to any poc. so please, if you consume asian culture in any way, do your part in spreading the word. protect asian lives and stop asian hate.

We are seeing a rise in Asian American hate crimes and it's heartbreaking to see. Hate crimes against Asian Americans have been going on for years and are almost always looked passed and never really put any energy to help out. It's started when Americans put Japanese in "sections" because of the war. The joke of what Asians eat or how they sound when they speak their language. Now since Covid there has been another rise in hate crimes, calling it the "Chinese Virus". It is repulsing to see this going on and almost nothing happening to stop it. We've seen a 91 year old get pushed and get severely hurt, an 84 year getting push and later dying from his injuries, to a 61 year old man getting his face slashed, then to see people are stealing money from Asian Americans SSN is soul crushing and absolutely hard to watch. Like in the video above you see and older lady got beaten by a man that is on the stretcher and she's not really being treated properly because they are really only helping the man who beat her. Now just a few days ago to see 8 people die and 6 of them being Asian women and the cops saying "he was having a bad day" we all have bad days. I've had days where getting up to go to the bathroom was like lifting up 1000 pounds. I've had days where just being alive is hard but I have never been provoked to go kill another human being. It's not shocking this isn't the first time a white man has had a bad day and taken another persons life. Just look at all the school shootings and no surprise the cops or the news try to spin it and say the had a hard life or a bad day or have a porn addiction towards Asian women. They never call it what it really is and terrorism it's so disgusting to see how far the media will go to protect the white people.

President Biden,

Please end the federal government's racial profiling and targeting of Asian American and Asian scientists and engineers. As a scientist myself, I can tell you that science is done best when everyone

has a seat at the laboratory bench. Science is a global endeavor, and it's hard to get a job to advance a science, research, or engineering career without moving internationally at least once. Asian and Asian American scientists should not have to live in fear of discrimination or worse because of their race.

To: President Biden

From: Anja Zadnik

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

2677. Anneliese Babij (ZIP code: 01005)

Why the FUCK can't we all just be treated EQUALLY? I mean by everywhere we go, everyone we meet, everyone! The government, the president, the king and fucking queen of nowhere's land... no matter what skin color, ethnicity, race, gender, identity, we are... we're all FUCKING FLESH!!! WE ARE ALL THE SAME!!! We are all the same species. We're HUMAN!! People need to grow the fuck up and stop being so biased. Look at both sides of the story. Become more open minded. Why is this happening? You know what I mean? Why are we going through this... why are we picking on Asians now? What did they do? They're normal people just like us. Was this all over the corona virus pandemic? Things happen. We've gotten other diseases like Ebola and shit like that. It happens. One day America is gonna create a crazy fucking virus that will wipe out the whole planet. But seriously can y'all grow up? Stop it!!!

3036. Angeleen Rose Francia (ZIP code: 1860)

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

To: President Biden
From: Audrey

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and

researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

All of these hate crimes are making me sick to my stomach. It is so heartbreaking to see how much racism still influences how people treat each other. Throwing racist remarks is not "funny" anymore because all these hate crimes are what it leads to. So let's take the initiative and contribute to the change we want to see.

There is also racial profiling of Asian drivers who get followed by racist police and targeted for abusive bullying by the police motivated by race-based hatred. Then get ticketed and fined more than White drivers. The courts are part of the white supremacy network.

The police and whole law enforcement in this country is to protect and accommodate Whites and has to be revamped.

To = President Biden of United States

Due to the high increases of asian racism on United States, I, as a protestor's representative for racial asian justice, would like to ask you to end the federal's government asian profiling, targeting Asian American, Immigrant Scientist, and more.

We feel like we had enough. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations.

This petition is for the good of all, including the Asian race, so it means a lot if the whole thing about racism against Asians stops

To: President Biden

From: Melany

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

Racial judgement is a horrible thing and in my life I would never have thought a group of people or their culture would be singled out as a bad thing. Racial profiling is literally just hating someone for what they were born with, and we need to stand up and fight against it before that is all our world becomes.

I'm honestly tired of all the racism us POC have to deal with. It pains me to see my brothers and sisters of color get harassed for their looks, for their accents, and for their beliefs. It's getting tiring, having to fight to be given the most basic respect we POC deserve as humans; I'm not gonna give up tho. I might not be Asian myself, but I stand in this fight with my Asian brothers and sisters. They deserve the respect and the so-called Justice this country says it has for all.

Es increíble que en este punto de la historia el racismo siga siendo un tema tan concurrido, en especial por la situación en la que nos encontramos a días de hoy, cuando las personas deberían preocuparse por si mismas y su salud, en cambio escogen hostigar e insultar a otros por algo tan vago como su lugar de nacimiento, residencia y características físicas, entre otros. Por favor detengan esto. #stoptheasianhate

To: President Biden

From: Chiara Mae Ochinang

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

i love my asian community. we're strong. love you guys <3

6057. Ciara Warren (ZIP code: 21206)

6058. Ciara White (ZIP code: 338337)

This is honestly sad how Asians get treated in the U.S., nobody should have to feel in danger because of something they clearly cannot control. You cannot blame a whole virus on a certain group of people. This honestly needs to stop, and hence, why I'm signing this petition.

6059. Ciarra Crowe (ZIP code: 22193)

I would just like to say that I am disgusted that they continuously keep hating on anyone who is different. It's not the Asian Americans who have done this to us. Stop killing off the innocent and trying to make it excusable. What has been done to these people isn't right, nor do I wish this open anyone else no matter their race, gender, sexuality, etc.

6083. Cindy Rodriguez (ZIP code: 85019)

I believe that everyone has the right to live in a world where everyone is treated equal and the attacks that is going on in the Asian community is something that is shameful for us as a nation to see and we all must come together to unite against racism and racial profiling. #unitedwestanddividedwefall

Stop Asian Hate

6338. Charlene Collins (ZIP code: 20852)

I had an experience in Boston metro with a Chinese national visiting who was correctly detained by the Justice Dept. and my family was really shocked that the man casually spoken to outside the home of relatives near Harvard University was so. However scrutinization needs to be finer honed prior to finding the guilty ones running around in our society I think.

I just want it to stop. If signing this helps then I'll sign without a second thought. If people could only see that no matter what the race, we're all still human at the end of each day. There's no better or worse kind of race. We're all equals, yet people choose to hurt others. It's sickening. The Asian Hate crimes are terrible things to hear about as well. I will do all I can to help if it makes people realize Asians are humans just like everyone else. I'm bad at wording things, so apologies if something I said sounds wrong.

6474. Caleb DuBose (ZIP code: 39581)

This hate has to end and the Police needs to do their jobs the right way because most of the country can't come tf outside. The Justice System needs to do their job the right way as well and put away these bad who are killing people of color and different races just for not looking pink like them. They need to start thinking what if a cop did this to my child or grandchild not oh this person looks different so let's just let them die. STOP ASIAN HATE!!! Asian Americans have been here for years and you greedy racists fucks have been eating their food and taking their culture. They did not start the virus because it was mostly America but planted over their to cause more trouble. If you dumbasses haven't woke up and smelled the bacon Asians and everywhere else are going back to normal and have less death rates than this dumbass country we call the US.

People need to stop disrespecting the Asian community. They are not the virus, the hate you give them (for no good reason) is. Just stop because we all know you use stuff that they came up with and invented to SHARE with you all. There is no reason for this unnecessary hate. Just stop.

6692. Daelyn Bustamante (ZIP code: 60647)
This is truly disgusting and heartbreaking. There's so many Asians who are afraid of leaving their

homes because of hate against them. I truly don't understand why they are getting so much hate and being discriminated when they haven't done anything wrong. Blaming them for COVID is bluntly stupid. Please educate yourself if you believe that. Whoever thinks this is okay, I just want to say that you are a racist mf. I hope you guys get the justice you deserve. My heart goes out to every Asian person, stay safe !

I may not be in the US but that doesn't mean I don't see what minorities on a whole have to go through having to put up with different types of bullshit everyday. I do consume Asian culture but that's not the reason I signed this. I signed because a group is hurting collectively, they are being targeted simply because of their race and I find that extremely disturbing. The shit that they have to put up with shouldn't be. Like anyone else they should be able to walk the streets without people automatically thinking they have the virus or be able to walk home without fear that out of nowhere some sick bastard will jump out and slash their face, push them or beat them up while calling them slurs. What I'm doing may not be much but i believe every action counts.

THIS IS UNACCEPTABLE, WHAT HAPPENED TO HUMANITY, WHAT HAPPENED ALL LIVS ARE EQUAL, THIS is clear racial targeting and harrasment against ONLY asian human beings. IT IS UANCCEPTABLE AND UTTERLY DISGUSTING THIS RACISM WHICH YOU HAVE ALLOWED TO UNFOLD IN AMERICA AND WORLDWIDE. IT'S TIME TO PROTECT OUR FELLOW ASIAN PEOPLE AND PUT AN END TO THIS HORRIFYING WAVE OF ASIAN HATE CRIMES. NO ONE DESERVES TO BE JUDGED, HARASSED,SEXUALLY ASSAULTED, RAPED, AND WORST OF ALL KILLED SIMPLY FOR THEIR RACE/SKIN COLOR. ARE WE SERIOISLY WATCHING A GENOCIDE OF ASIAN PEOPLE IN AMERICA UNFOLD DUE TO THE PREVIOUS PRESIDENT STATEMENTS ABOUT THE CORONAVIRUS AND CALLED IT «THE CHINESE VIRUS». SINCE WHEN DID DISEASES AND VIRUSES HAVE AN ETHNICITY?!!! YOU DON'T SEE POC PEOPLE CALLING POLIO AND SMALLPOX THE AMERICAN AND WESTERN VIRUSES. YOUR JOB IS TO ENSURE THE FREEDOM OF ALL AMERICAN PEOPLE AND IF YOU CANT(MORE LIKE NOT WILLING TO) ENSURE THEIR, SAFETY AND FREEDOM THEN YOU SHOULD JUST SIMPLY RESIGN BECAUSE YOU CAN'T DO YOUR JOB RIGHT.

What has been happening since the beginning of COVID is unacceptable, and we should've brought more attention to this issue more than a year ago. But you can't change the past, so we need to act now. AAPI persons should be able to go out in public without fear of being sexually, physically, and verbally assaulted. But they can't, because many (white) Americans have created an unsafe and fearful environment across the country. This needs to fucking stop.

I strongly hate what's going on in this world and racism needs to be put to an end, it's horrible to see all Asians being put in these horrible disgusting situations just because of how they look. It makes me sick just to see them have to go through this. I want to help the best I can even if I am only one person.

I may not know everything about this topic, but it's an issue none of us can ignore. We need to stand against this brutalisation of Asian people, it's not their fault this virus came to be. They're humans-people too, they're not tools or toys for your fetishisation or a way to release your anger. There are families, friends, coworkers, people who are suffering right now because we're ignoring this severely

horrible and disgusting issue.

Do something for the humans who are suffering and in pain right now.

I am part of Equal Justice in Needham, Massachusetts which is working on placard programs that are spreading throughout the state. We are fighting to protect anyone in our community for being targeted, harassed, or profiled based on an identity they hold. We are paying attention to this issue as it reverberates in national government practices.

Stop the racial profiling of Asian Americans and Asian immigrants and end the Justice Department's "China Initiative". You are in position of large authority of an organization that is perpetrating harm on my neighbors. This is not ok. Please do what is in your power to stop my neighbors from being profiled and tracks and harassed.

9083. Genevieve Tuck (ZIP code: 49720)

Black lives matter, and so do Asian lives. By not taking action, we show that this behavior is acceptable and will be tolerated in our world. False claims of Asians being responsible have turned deadly. There was a shooting at Gold Spa. On the day that it happened, 8 women were killed. In my own town, the salon I visit, Cherry Nails is Asian American, so this struck close to home for me and my family. The legal members of the government need to restrict access to guns. While we cannot stop their words, we CAN disarm them and put them behind bars. If someone has a history of racist remarks or making outlandish theories, the law should forbid them from owning weapons, guns, or otherwise. If you want to protect yourself, you can lock doors and use security systems. No one deserves to be shot, and no child should have to hear that their parent was shot because of where they come from. Please, share this with everyone you know. Message your governors, mayors, and even approach the president. Cut down racism in it's tracks and stop more hate attacks from happening. I sign this petition for my Asian friends and to be a voice of change. Forget my age.

As a woman who is 25% Korean and 75% European-descent, as well as Jewish, I find this racial profiling to be morally repugnant and utterly unacceptable. I personally have the privilege of being mostly "white-passing" or benefiting from perceived ethnic ambiguity. However many of my Asian counterparts in this country do not have this "privilege" and may be targeted by these racist policies.

I urge you to end this discriminatory policy and protect all members of the Asian community, immigrant and American, and continue to distinguish yourself from our last president.

PROTECT ASIAN LIVES!!!

10696. Valeria Luna (ZIP code: 6016)

To: President Biden

From: Valeria Luna

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

11579. Roland Hwang (ZIP code: 48168)

The China Initiative is a program that embodies racism and profiling in its overreach.

11580. Ileana Elenor (ZIP code: 8228838282)

11581. An anonymous signer (ZIP code: 30345)

11582. Mia Huang (ZIP code: 98005-5016)

11583. Harmony Favella (ZIP code: 1556)

This is very hard to see and tolerate. No one deserves that. As a human being I support Asian lives. We have to educate some people about this so we can take it seriously and end this. I may not be Asian but I still support them with all my heart. Let's end this for good and finally let them live the life they deserve.

What the heck did Asians do to you? And the fact people are going for the elderly ones no why are

you going to them? because they are weak no mess with them and you mess with everyone if I see one more Asian getting beat up I am litteraly going to end up in jail litteraly. Stop going to the elderlys and go to the ones who actually know how to defend themselves they wont stop till they find someone who isn't going to stay there doing nothing Ima litteraly show yall a lesson . - Non Asian that will beat your ass.

11763. Meagan Lanphier (ZIP code: 27312)

This has to stop, why we are even going through something like this and other racial and gender biases, assaults- physically and mentally, none of this should exist and if we don't do something now then before we all know it then we will be back where the world was when we enslaved one another. EVERYONE IS EQUAL, no color, sex, gender neutral and ethnicities are better than any other and I still haven't been able to figure out why the world can't learn this lesson especially during such a trying time. Thank you Eva-NYC for starting this and using your voice for change, good luck!

i find it really rude that people are blaming the virus on the asians and hating on them. it's very disgusting behavior and i don't think anyone should be going through this. it's very disrespectful and disappointing that people are doing this thinking that they are doing something when they are not. they are making this world a nastier place than it already is. i want to try and help the asians and try to stop this with everyone else.

this definitely need attention and of course it is because of human rights. my friends have gotten increasingly more stressed the topics, being asian americans. i have heard my friends be called to many racist slurs and such. i know that it won't stop all hate but things can be changes to create more inclusivity and a more supportive environment for them. they shouldn't be perceived in a different way than any other american, because aren't the the *united* states. their culture needs to be appreciated and accepted.

12168. jess flores (ZIP code: 32304)

12169. Chelsey Perpignani (ZIP code: 857)

This needs to stop!

It breaks my heart to see.

There should be MORE compassion towards HUMANS.

I believe we should be all EQUAL.

12170. Kami Mumaw (ZIP code: 29672)

I'm genuinely disgusted by whats happening and stand with all poc through their struggles and torture

12171. Kade Doukouré (ZIP code: 75018)

12172. Livingston Herren (ZIP code: 70115)

To: President Biden

From: Alejandra

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

13280. Rain Crystalweb (ZIP code: 2222)

13281. Jewel Maningas (ZIP code: 8000)

As an Asian, it's a huge disrespect to those peeps out there who are experiencing any kind of bullying just because they are Asian. God created people equally and people have their own mission here, stop bringing other race down just because u or they think are higher than them. You ain't God, you can't just take other race down just because you don't like them. Learn to respect and spread love on every race, let's respect and spread love not hate.

-Jewel.

Please stop the nonsense before we all have to leave the adopted country

13610. Camden Johnson (ZIP code: 93619)

The number of past and recent acts of violence toward Asian Americans, Pacific Islanders, and Asian Immigrants is appalling. The fact that the "China Initiative" even exists is a testament to the systemic racism that exists in the United States. Those who support this hate should be ashamed of themselves. I urge the government to take this threat seriously. Racism has been present in this country for far too long. This continuing trend of hate, violence, xenophobia, and sinophobia is a reflection of the government's inaction and shows POC that you have never cared about their well-being. Our government and the system it's built upon has always taken its backbone, POC, for granted. It's up to us to change that. Stop AAPI Hate!

Racial profiling remains a worrying issue, especially under the influence of the coronavirus. Asian Americans should not have to get on with their lives under terror, insult or hate. None of them deserve any of that and this has to stop.

13817. Jennifer Perez Macias (ZIP code: 75211)

To: President Biden

From: Jennifer Perez Macias

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and

government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

14182. Jennifer Yaguana (ZIP code: 593)

Me parece devastador e injusto lo que se está cometiendo hacia esta cultura, es inhumano, están incitando al odio , deberían medir sus palabras, nunca se detienen a pesar en como se siente la otra persona.

Por lo cual debemos unirnos y brindar más amor, más comprensión, y hacer entender a la gente que una cultura es algo hermoso, y no por hecho que se hayan divulgado rumores podemos juzgar a las personas de la misma manera.

Debemos unirnos, y protegernos entre todos, somos de diferentes lugares del mundo , pero tenemos un mismo corazón.

To: President Biden

From: Kaja Šimec

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

To: President Biden

From: Kassandra Garcia

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

To: President Biden

From: chaline

We urge you to immediately end the federal government’s racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the “China Initiative” and a review of all prosecutions and investigations under the “China Initiative” for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and

government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

All I need to say is how embarrassing people are and how they treat Asians. And its not just about them its about all races being discriminize over their culture or how they do things. The racial slur has got to go all of these stereotypes got to go. Like I am really sick and tired of how all Races and people treat each other. You could be an Asian talking about a black person and then a black person talking about an Asian or a white person talking about a black person black people talking about white people either Which Way regardless of what race you are you are still going to talk about each other and Bully them and give them racial slurs just because they're not the same color or don't have the same culture it's idiotic and all of this needs to stop.

This issue seriously needs to stop now, ever since Covid was first announced people have really been showing their true colors on how they feel towards poc specifically Asian people which is completely disgusting. To be honest all this hatred and hate crime would've not started if one racist idiot named Donald Trump didn't decide to blab his mouth & blame the "Chinese" which caused his racist supporters to be upfront how they truly felt and hurt the Asian community. But now that we have a new president you Mr. Joseph Biden I really hope you decide to make a change and stop all this hate towards the Asian community! Thank you

15697. Kristy Tran (ZIP code: 30260)

Blaming a specific demographic will do nothing for the pandemic. It only incites more hate and more injustices in the Asian American community. These inhumane attacks on the elderly, women, etc are bringing more fear, panic, and anxiety on the people and will leave the country even more divided. I am enraged and disappointed that it has gotten this far. We need to protect and fight for the people we care about. Change needs to happen! We need to focus our country, the people who have done absolutely nothing wrong!

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

To: President Biden

From: Lilly

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

I'm sick of the discrimination that there is towards Asians, no matter who we are, we deserve respect for the simple fact of existing, we have to stop this ?

17259. Emily Domínguez (ZIP code: 86660)

17260. Emily Lopez (ZIP code: 61068)

17261. Hannah Roberson (ZIP code: 98261)

17262. Lyliana Lopez (ZIP code: 98264)

Just go clarify I am hispanic.

I've grown up with anime my whole life cause of my brothers and I am in love with it. It has been my happiness and ever since BTS/kpop came into my rear view mirror it was more happiness ___ I'm proud to be hispanic and I plan on expressing my culture in ever possible way. Though I want to give my big huge thank you's to different Asian cultures out there (Japanese, Korean, China, etc) because they influenced me dramatically and I plan on learning more each day and in the future(:

Asian hate crimes are a real thing and I want to do something about it too because (1) y'all are poc (2) an inspiration (3) this isn't your fault (4) I want to stand side by side with Asians and help them (5) Asians are human too (6) we don't need any more hate in this world - what we do need is more healing in this world and being there for each other because gawlie.. who tf does this shit.

I think there are more reasons too it but it's just the fact that I want to help as much as possible and be there for one another. Asians are really going through it and it's my job to be there for them (just like everybody else who is tryna help too) I stg if I see anybody coming about towards Asians it's a wrap and imma ride or die because that's my ninja way. (I hope I can say that..) I do mean it. If they wanna come disrespecting y'all then I will be there to stand up for y'all.

Umm hopefully this is okay to say. Overall though, we all needa stop the hate crimes (racial profiling) towards Asians. Y'all are human and I want y'all to roam around free with no pressure on your backs. I want y'all to be heard and seen and I want y'all to keep speaking your language and wear your culture on your chest. You have my respect and either way I still would be there to lend you a hand or

my back. You guys will always matter.

As an Asian woman, I have experienced Asian racism before and after the pandemic. Back in the early stages of the pandemic, I felt so alone because none of us were being heard especially with Trump spewing his hateful anti-Chinese rhetoric fueling the fear. It may be too late for me and others in receiving closure and justice, but if by signing this petition, I can prevent another person from going through what I did or worse, I would sign a thousand petitions. They can't burn us all.

I cant wrap my head around the fact that we are still dealing with discrimination and racism in 2021. how embarrassing. I encourage everyone who may read this to go do your part and make sure any race dealing with discrimination of any sort feel safe because it is absolutely bizarre that people think it's okay to shoot people for something as small as their skin color. I thought the world knew better. I guess I was wrong #Asianlivesmatter #Blacklivesmatter

By signing this petition, I'm signing to stand by the Asian community who have been targeted for years by racial discrimination and still continue face it. As a person who is non Asian, and as admire , respect and loves the Asian community culture, food , kpop and anime i will use my voice to spread and raise awareness, to stop the anti hate Asian crimes that Asians have been facing, so many innocent people in the Asian community have been murder, and been harass and the racism in the United States has to end.. it breaks my heart that right now so many Asians are living in fear to go out and worried to be targeted or racial discrimination and being called as. " virus" which by the way it's not their fault COVID happened.. Asians are humans, they're the most amazing people, and they are part of the human race as the rest of us and they deserve to be respected and have the same rights and justice as all of us, they're our brothers and sisters and we should be aware that these anti Asian hate crimes are not okay! The Asian community deserves justice and support from our nation and people ? #stopasainhate #asiansarehuman

Please, stop.

18461. Marj Coronel (ZIP code: 0442)

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

18493. Marina Genova (ZIP code: 8000)

To: President Biden

From: Marina Genova

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

I really hate seeing this hate being thrown around especially towards Asians because it isn't their fault that this all happened. Asians didn't create the virus the virus was already here and we didn't know it and China,Japan,Korea, and Tokyo didn't create it and it wasn't their fault that this all happened. It's not Asians fault nor any other of them, this all just happened, they shouldn't be held responsible for all of this happening.

Not only does the "China Initiative" devastate the lives of individuals and harm the broader community, but the federal government targeting people of Chinese descent in this way is not much different from what former President Trump was doing when he was casting blame on China and vilifying Chinese Americans and Asian Americans for "causing" the coronavirus in an attempt to deflect attention from his failure to properly respond to the COVID-19 pandemic. We can do better than this.

To: President Biden

From: Mihaela Yordanova

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

Asian community have been receiving hate because of covid-19, we can't act sh*t against everyone who's asian.

We need to understand them because all of us have been going through a lot, because of covid-19 but that sh\$t doesn't give you the right to discriminate and do that things that you want against asian community.

#stopasianhate.

We need to respect every race.
Stop the hate against asian community.

We as humans are programmed to survive, but these are other human beings searching for a better and kinder way of life; these are not animals posing a threat on our homeland. If anything, they are aiding us and our economy. Welcome the foreigner! It isn't where they are from that matters it's where

they can and have taken our country!

As a caucasian american who cares very much about all the people who live in this country, I am so horrified about the hatred that is being unfairly and unlawfully directed at asians. Who, definitely don't deserve any more hate that they (unfortunately) get. Especially in such a tiring and trying times, nobody deserves to be treated so unfairly but especially people who already have horrible things said to them. I will do whatever I can as a teen to help people who don't deserve any hate directed at them for their race. PLEASE spread the word of this. Stop Asian Hate.

stop killing them

20464. naila lamiea (ZIP code: 11219)

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and

government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures, and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities but erodes the health of our democracy.

As an African American woman, racism is not subject to just us black people, it is subjected to everyone who is of color. I stand by in supporting this petition to eliminate the evils of racism and discrimination against Asian Americans. This has been long over due, racism should be of the past, not in our present.

As a white person I never had to deal with racism, however I could see it happen all around me. All I ever see is people blame other people for something they cannot control. Their skin color is not scary, or dangerous! Everyone is beautiful on the inside and out. But blaming one minority for a cause of a whole worldwide pandemic is bullshit! They have a right to speak up, they have a right to feel comfortable, they have a right to go about their day and not have to feel unsafe because THEY ARE PEOPLE WITH EMOTIONS. Honestly, I can never see anyone's point of view from a racial standpoint, because of my color. But it doesn't mean I don't care, it doesn't mean I'm going to be silent. I will defend and help others around me, because they deserve it! Everyone deserves to feel comfortable and safe, especially people of color who feel like they can't be part of the society.

Could you please end the “China Initiative” because many of our people have have been wrongfully targeted for crimes they haven’t committed and have to end up losing their careers that they have been working so hard to get. It is not easy being under this situation and as a country of immigrants, we should embrace the fact that people have come to this country to better the lives of themselves and their family, but at the same time they have to end up they have to end up being wrongfully convicted of a crime and being blacklisted. This is immoral and unacceptable that certain people are being treated this way because of what they are perceived as and at the end of the day it doesn’t matter whether we like each other or not. At the end of the day what matters is that we work together to better the country as a whole and to show what America really is. Lastly, I want to say that without the sacrifice of immigrants, America wouldn’t be the country that it wants to be.

A message to the American government:

As an "advanced" community and country, please do something to educate your people, the Americans. The rise of hate crimes against Asians is not just merely a "hate" crime but a murder.

Please do not downplay what it is a murder to a case of a person mentally ill who committed a crime. It's never morally right to sugarcoat anything especially when it was a murder that took away lives. As a foreigner looking at the global news at how the "civilised" Americans going out of their way murdering and injuring people from all walks of life be it an elderly or an adult. This is disgustingly horrendous and immoral! Those Asians murdered are people with family, feelings and emotions nothing less than what your people are. If you fail to have the empathy and compassion to care for those murdered and injured, try to have a look at the elderly at your homes and with that envision what it wil or would be like if you are in their shoes. If it's a murder, say it as it is and take action upon it. America is not "great" as it claimed to be if putting a stop to this or just educating your people is not impossible to be done. Thank you for your time if you actually read this and did not just ignore it. God bless

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

It is past time that Asians are viewed as the perpetual foreigner. Asians and those of Asian ancestry have contributed to the advancement of our educational systems, leading technologies, robust commerce and trade and much more. The harmful perpetuation of racial and systemic biases only weakens the United States and drives valuable human capital elsewhere.

This Anti-Asian crimes should stop, all lives matter, we all breathe and feel and are humans, for God's sake we need the authorities to take strict actions against such crimes and such criminals regardless of their reasons and excuses. Nurturing their reasons is a way to invite more of such crimes in future.

All lives matter

We all feel and have families

We are all FREAKIN HUMANS!

Asians aren't responsible of this situation, they are victims and shouldn't be killed for this virus ! They are living through it as much as we do, they are innocent ! We have to stop those hate crimes and all this racism ! We are all tired of this pandemic but this is NOT a reason to put their anger on innocent people who just tries to live their life's like every human being on this planet !

What is the world we live in today? Literally no where is safe. Your either going to be physically or mentally abused/hurt/assaulted by those around you because of the person you are. It makes no sense! This society has endured it all, yet when does it end. And what is happening in right now to these innocent people is just so frustrating. I wish some people can wake up and see the horror they are putting out into the world. ?

To: President Biden

From: Starlett Glaspy

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

_____(2 Chronicles) 7:13 _____

7:13 "When I shut up the heavens so that there is no rain, or command locusts to devour the land or send a plague among my people,

7:14 _____

7:14 if my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land.

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but

erodes the health of our democracy.

Asian hate should stop at all costs. Asians SHOULD be respected. asians SHOULD be treated equally with others. And hating a person just because of their nationality is the dumbest and stupidest thing ever. Just because the virus started from China doesn't mean the whole Asian community is responsible for it. And anyone don't have the right to hate the whole Asian community. No one in the world deserve to die just because if there nationality.

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

Stop being immature and stop acting like illiterate sooo please just stop the retail profiling of Asian Americans and Asian immigrants act like grown up it is actually very in human to harm people just #stop this nonsense #actlike grown ups

27194. Martina D'Alessandro (ZIP code: 08870)

27195. Tinitra Jay (ZIP code: 71950)

I'm just sick and tired of seeing how people are treating Asian Americans. Labelling them and beating them up. This should really stop!!! Everyone has a voice and everyone should be treated with love and respect despite their skin colour, race, shape or size.
#protectasianlives

27234. Katie Tran (ZIP code: 98178)

As a Asian American, I've been having constant fear of being targeted since the beginning of the pandemic. It's been painful and heartbreaking to see many people who are just like me, getting

targeted for no apparent reason and only using their race as a way to discriminate them. I am sick and tired of hiding myself all the time when I'm in the streets, worrying that I might end up being next. We need to stop Asian American and Asian immigrants discrimination at all cost. At the end of the day, we are all humans and we are made to treat each other with respect. I'm begging you, we need to end this suffering that the Asian community is going through right now and hopefully gain some common sense and unite together as a whole.

To: President Biden

From: [Tsion]

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department

of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the “China Initiative” and a review of all prosecutions and investigations under the “China Initiative” for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

it's disgusting the way asian hate is normalized. Its also fucking disgusting, idiotic, and ridiculous that the hate crime targeted against asians who were killed, was ruled by a police officer who said, and i quote, 'he had a bad day'. Justifying the muderers actions not even considering the many killed by

that man and was obviously racially motivated.

yo, man, I happen to be born in china. I don't represent china, china doesn't represent me. I hate copy cats and thieves. That's why I end up here in US. Just be careful in the future, it's better building up fences in advance than catching those runaway sheeps later. I understand fixing a messy problem could end up like a farse. But anyway, message is already delivered, show is over, just focus on building a better system to protect US Intellectual property in the future.

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.

It is absolutely absurd to distinguish Asian Americans from others just due to our skin color and cultural difference. This is 2021, not 1821! But sadly many people still think like in 19th century with their mind keeping judging others based on skin colors and cultural background. I truly hope USA can move forward with adapting to new century concept and discarding all those stubborn conservative minds.

The way China project is implemented undermines the value of the United States and violates the principles and rights bestowed by the Constitution. As someone who spent time under a totalitarian government, Donald Trump is not new at all. His tactics are widely used by the fascists' leaders. He and his white supremacy supporters in government or outside went out their ways to diminish the value of minorities and immigrants, as part of their efforts to leverage the hatred to arouse his base and solidify his power. This has been used again and again by the fascist and totalitarian leaders in the history and is really nothing new. I am so proud that we the people defeated him under the leadership of President Biden and defended the longest modern republic. History will tell how much this means to the United States and to the human civilization. However, we have a long way to go to clean up his influence and poisonous attitude left in our government. China project is one of such a leftover that needs to be cleaned up. Dealing with the challenges and competition with China is one thing, Singling out more than 5000 Chinese American scientists and investigating them with magnified glasses is another thing. The systemic effort to persecute, trap, diminish, smear against Chinese American Scientists has made people seriously question who we are as a nation and what we are as a democracy. 'Our nation is shaped by the constant battle between our better angels and our darkest impulses.' Unfortunately, from the Chinese Exclusion Act to the China project, the history of Chinese American has always been overshadowed by the darkest impulses. Yet, 'It is time for our better angels to prevail.' It is time to review and end the China project and to make things right for the victims of unfair treatments during the Trump age.

No one should ever feel unsafe just because they are born different. We're all from different parts of the world and everyone is born different in this world, we're all humans, with feelings and minds of our own. We may "look different", but we're all still human. No one should ever feel on edge while simply walking outside and minding their own affairs, no one should ever have to worry about how someone

they know, family or not, might get attacked by someone on the streets or being spat at or verbally belittled.

I'm appalled. All these incidents are happening and for what? Because people come from a different nationality? As a white American male, all these crazy's saying that the white American male is the best group of people are utter jokes. If anything, we are the worst group of people, due to the amount of racists, sexists, and people who take violent actions against others. Even though I know there is little I can do as a singular person, by signing this poster I can only help to reform the fucked up actions of the past and help everyone in the journey for zero racism and peace.

To: President Biden

From: Zuhairaa Baig

We urge you to immediately end the federal government's racial profiling and targeting of Asian American and Asian immigrant scientists, researchers, and scholars, particularly by the Department of Justice, National Institutes of Health (NIH), and National Science Foundation (NSF). We also ask for an end to the "China Initiative" and a review of all prosecutions and investigations under the "China Initiative" for evidence of racial profiling. Furthermore, we request that the administration directs federal grantmaking agencies, including the NIH, to stop using race, ethnicity, or ancestry as a basis to investigate Asian American and Asian immigrant scientists and provide redress to people who lost their funding or had their funding withheld due to discriminatory allegations. Universities and government grantmaking agencies should provide clear guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest, as well as give scientists and researchers ample time to correct their forms without disproportionate consequences. The mass profiling of Asian Americans not only harms the lives of individuals, families, and communities, but erodes the health of our democracy.
