EXPERIENCE THE DRURY DIFFERENCE

International Baccalaureate
students excel at Drury University.

Scan to read
more about IB
at Drury.

INTERNATIONAL BACCALAUREATE PROGRAMME STUDENTS HAVE A HEAD START AT DRURY BECAUSE:

› **They appreciate a challenge**

Much like the IB programme, Drury pushes students to look at real world problems through various lenses to discover dynamic and unique solutions.

› **They receive Drury's top academic scholarship**

Students pursuing the completion of either the IB Diploma Programme or IB Career-related Programme are automatically awarded the highest academic scholarship Drury offers.

› **They earn college credit for their hard work**

The time and effort spent by IB students is rewarded with college credit. Drury offers college credit for IB classes depending on qualifying test scores.

Message from Director General and Chair

Dear the IB community,

Over the past three years, the global education community has been rocked by the effects of the Covid-19 pandemic, global conflicts, natural disasters and local crises. Despite this we know that IB World Schools are resilient in the face of hardship and have embraced innovation and inspired their students to take action locally and globally. And we know the growth of our community will ensure more young people can benefit from the resilience an IB education builds: there are more than 7,500 programmes being offered worldwide, across more than 5,500 schools in 160 countries.

We endeavour to help schools navigate ever-changing, unforeseen circumstances as they support their students to develop into inquiring, knowledgeable young people who will create the better and more peaceful world we all strive for. We have provided resources and have linked to research to support schools to put strategies and action plans in place that focus on nurturing their students' diverse talents and strengths, while supporting them to build their resilience to help them cope with stress and overcome adversity.

Our priorities as we respond to the ongoing and emerging challenges have developed as we worked on our strategy this year. By 2030 the IB will be more open, more progressive and more forward-thinking. We will **enhance** our educational programmes, **improve** our services to support the capabilities of our community and **grow** the number of young people benefiting from an IB education.

Even with this forward-thinking mindset, it's clear that there is a continuity of shared values and commitments during times of change within our community. Our shared values drive us all as we work to deliver the IB mission, which has informed all of our efforts since the IB's foundation in 1968.

Creative solutions to challenges such as access, inclusion, and issues in the complex world we live in have been launched this year. This includes an online Diploma Programme pilot, a new online professional development platform called IB Exchange, and our initiative aimed to create hope, build communities and inspire action, the Festival of Hope. The projects are testament to the IB's tradition of innovation, which will always be part of the IB's DNA. Only by embracing innovation and inspiring action can we provide the continual improvements in service and support that we guarantee to our schools.

As we prepare for a future irrevocably changed by the events of the past few years, we look forward to working together with all of you – a community of passionate educators constantly striving to create a better world through education.

Olli-Pekka Heinonen – IB Director General

Helen Drennen – Chair of the IB Board of Governors

Introduction, How to use this Yearbook

The International Baccalaureate (IB) offers high quality programmes of international education to a worldwide community of schools, aiming to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better, more peaceful world.

The IB works alongside state and privately funded schools around the world that share the commitment to international education, to deliver these programmes.

Schools that have achieved the high standards required for authorization to offer one or more of the IB programmes are known as 'IB World Schools'. As of November 2022, there were 1,186 schools with 1,355 programmes in candidate status (515 PYP, 451 MYP, 292 DP, 89 CP).

The IB World Schools Yearbook is the official guide to schools authorized to offer the Primary Years Programme, the Middle Years Programme, the Diploma Programme and the Career-related Programme. It tells you where the IB World Schools are situated and what they offer, and provides up-to-date information about IB programmes and the IB organization.

This is an ideal reference for school administration, parents and education ministries worldwide as it:

- provides a comprehensive reference of IB World Schools for quick and easy access
- raises the profile of IB World Schools within their local community and beyond
- provides comprehensive information about IB programmes and the IB.

How to use this yearbook

The Yearbook has been designed to be as easy as possible to use and has been divided into five sections.

1. **General information** about the IB and its programmes.
2. **Comprehensive information** about IB World Schools presented in alphabetical order by school name, colour coded according to IB geographical region. In this section, schools have been given

the opportunity to highlight their best qualities by creating an enhanced profile for their school.

3. **Directory information** about every IB World School that offers one or more of the IB programmes as of November 2022. The directory is ordered by IB region and contains general and contact information about each school. Information about the three IB regions is also given in this section. (Those schools that have elected to purchase a profile in the Yearbook will appear in capital letters in the directory.)
4. **Appendices** containing information and lists relevant to the IB. These include addresses of IB offices, location of IB World Schools, Diploma Programme subjects offered (in 2023), IB Associations around the world, university acknowledgement of the Diploma Programme and Career-related Programme and universities offering IB scholarships.
5. **Index** of all schools listed geographically and alphabetically by name.

Are you looking for a specific IB World School?

If you know the name of the school but are unsure of its location, turn to the index on p. 653 where you will find an alphabetic listing of all IB World Schools.

Are you looking for an IB World School in a specific country?

Look first in the directory section; this will give you the basic information about all the schools in each region. More detailed information can be found in the profiles section for those schools marked with capitalized letters.

The IB website, ibo.org, also contains the most up-to-date information on IB World Schools. A school search option is available from every page on the site for people wanting to find an IB World School.

Discover the Only IB-Approved Online Course Provider

Over 20,000 IB Diploma Programme students have benefitted from a Pamoja Online Course. We are able to support subjects:

- ✓ Where a school is unable to hire a face-to-face teacher
- ✓ That create timetable challenges
- ✓ Where schools simply want to offer an online option alongside a subject they already teach face-to-face

Our Academic Success

With a 1,511 strong cohort, the Class of May 2022 achieved an average IB grade of 5.23, exceeding the IB world average. Given Pamoja's non-selective admissions process, these results are outstanding.

IB Mission Statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop

challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

Déclaration de mission de l'IB

Le Baccalauréat International (IB) a pour but de développer chez les jeunes la curiosité intellectuelle, les connaissances et la sensibilité nécessaires pour contribuer à bâtir un monde meilleur et plus paisible, dans un esprit d'entente mutuelle et de respect interculturel.

À cette fin, l'IB collabore avec des établissements scolaires, des gouvernements et des organisations

internationales pour mettre au point des programmes d'éducation internationale stimulants et des méthodes d'évaluation rigoureuses.

Ces programmes encouragent les élèves de tout pays à apprendre activement tout au long de leur vie, à être empreints de compassion, et à comprendre que les autres, en étant différents, puissent aussi être dans le vrai.

Declaración de principios de IB

El Bachillerato Internacional tiene como meta formar jóvenes solidarios, informados y ávidos de conocimiento, capaces de contribuir a crear un mundo mejor y más pacífico, en el marco del entendimiento mutuo y el respeto intercultural.

En pos de este objetivo, la organización colabora con establecimientos escolares, gobiernos y organizaciones internacionales para crear y desarrollar programas

de educación internacional exigentes y métodos de evaluación rigurosos.

Estos programas alientan a estudiantes del mundo entero a adoptar una actitud activa de aprendizaje durante toda su vida, a ser compasivos y a entender que otras personas, con sus diferencias, también pueden estar en lo cierto.

Earn a degree the world will recognise

At The University of Queensland we recognise the skills and qualities of IB students. We offer a range of opportunities to help you make the most of your time at university. From the day you commence, to graduation and beyond:

- Receive credits or exemptions for up to one semester, if eligible.
- Pursue multiple study interests through our dual programs.
- Continue your language or music learning through our concurrent diplomas.
- Expand your entrepreneurial mindset with UQ Ventures programs.
- Join a global network of more than 304,000 alumni spanning more than 170 countries.

CREATE CHANGE

About the IB

Founded in 1968, the International Baccalaureate (IB) pioneered a movement of international education, and now offers four high quality, challenging educational programmes to students aged 3-19. The IB gives students distinct advantages by providing strong foundations, critical thinking skills, and a proficiency for solving complex problems, while encouraging diversity, curiosity, and a healthy appetite for learning and excellence. In a world where asking the right questions is as important as discovering answers, the IB champions critical thinking and flexibility in study by crossing disciplinary, cultural and national boundaries. Supported by world class educators and coordinators, the IB currently engages with more than 1.4 million students in over 5,300 schools across 158 countries. To find out more, please visit www.ibo.org.

The **IB Primary Years Programme (PYP)**, for students aged 3 to 12, focuses on the development of the whole child as an inquirer, both in the classroom and in the world outside.

The **IB Diploma Programme (DP)**, for students aged 16 to 19, is an academically challenging and balanced programme of education with final examinations that prepares students for success at university and beyond.

The **IB Middle Years Programme (MYP)**, for students aged 11 to 16, provides a framework of academic challenge that encourages students to embrace and understand the connections between traditional subjects and the real world, and become critical and reflective thinkers.

The **IB Career-related Programme (CP)**, for students aged 16 to 19, incorporates the vision and educational principles of the IB programmes into a unique offering specifically designed for students who wish to engage in career-related learning.

IB programmes are available to students in a wide variety of schools and from a range of cultural, ethnic and socio-economic backgrounds. IB World Schools form a worldwide community in which there is no such thing as a “typical” school.

Figure 1: Types of IB World Schools (Information correct as of November 2022)

	Charter	Private	State	State subsidized	Total
Africa, Middle East	5	1,122	345	74	1,546
Asia Pacific	3	996	163	19	1,181
Americas	133	823	1,909	19	2,884
Total	141	2,941	2,417	112	5,611

Does not include European Platform schools. Includes MYP Partner Schools.

IB World Schools:

- share the mission and commitment of the IB to quality, international education
- play an active and supporting role in the worldwide community of IB World Schools
- share their knowledge and experience in the development of IB programmes
- are committed to the professional development of teachers

Funding for IB programmes comes from the fees paid by IB World Schools, with additional income from workshops and publication sales. Donors provide support for development projects that cannot be implemented from the organization’s budget.

The IB Learner Profile

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

As IB learners we strive to be:

Inquirers	We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.
Knowledgeable	We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.
Thinkers	We use critical and creative thinking skills to analyze and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.
Communicators	We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.
Principled	We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.
Open-minded	We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.
Caring	We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.
Risk-takers	We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.
Balanced	We understand the importance of balancing different aspects of our lives – intellectual, physical and emotional – to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.
Reflective	We thoughtfully consider the world and own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

International Educator Certificate (IEC) for International Baccalaureate Qualification

***IEC QUALIFIES FOR AN IB EDUCATOR CERTIFICATE IN TEACHING AND LEARNING WHICH MAKES YOU ELIGIBLE TO TEACH AMONG THE 4,700 IB SCHOOLS WORLDWIDE**

IB Programmes

What is an International Baccalaureate (IB) education?

An IB education is unique because of its rigorous academic and personal standards. IB programmes challenge students aged 3 to 19 to excel not only in their studies but also in their personal growth.

We aspire to help schools develop well-rounded students, who respond to challenges with optimism and an open mind, are confident in their own identities, make ethical decisions, join with others in celebrating our common humanity and apply what they learn in real-world, complex and unpredictable situations.

Through our high-quality programmes of international education, we aim to inspire a quest for learning throughout life that is marked by enthusiasm and empathy.

Our vision is to offer all students an IB education that:

- focuses on learners – our student-centred programmes promote healthy relationships, ethical

responsibility, and personal challenge

- develops effective approaches to teaching and learning – our programmes help students to develop the attitudes and skills they need for both academic and personal success
- works within global contexts – our programmes increase understanding of languages and cultures and explore globally significant ideas and issues
- explores significant content – our programmes offer a curriculum that is broad and balanced, conceptual and connected.

Informed by values described in the IB Learner Profile, IB learners strive to become inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced, and reflective. These attributes represent a broad range of human capacities and responsibilities that go beyond intellectual development and academic success.

What is the IB Primary Years Programme (PYP)?

A transformative and caring approach that builds a lifelong love of learning

The PYP, for children from 3-12 years, is the start to a lifelong love of learning. It is a caring and thoughtful approach that nurtures the ‘whole’ child and gives them ownership of their studies from the very beginning.

PYP teachers consider each child’s unique abilities and interests, to develop inquiry-based learning environments that build universal skills for life, like thinking, researching and cultural understanding. Children explore across and beyond subject boundaries through transdisciplinary inquiries, investigating big – and small – questions about what it means to be human in today’s world. But the most important thing

children get from the programme is an inquiring mind, the ability to find things out for themselves and take action to benefit their local community.

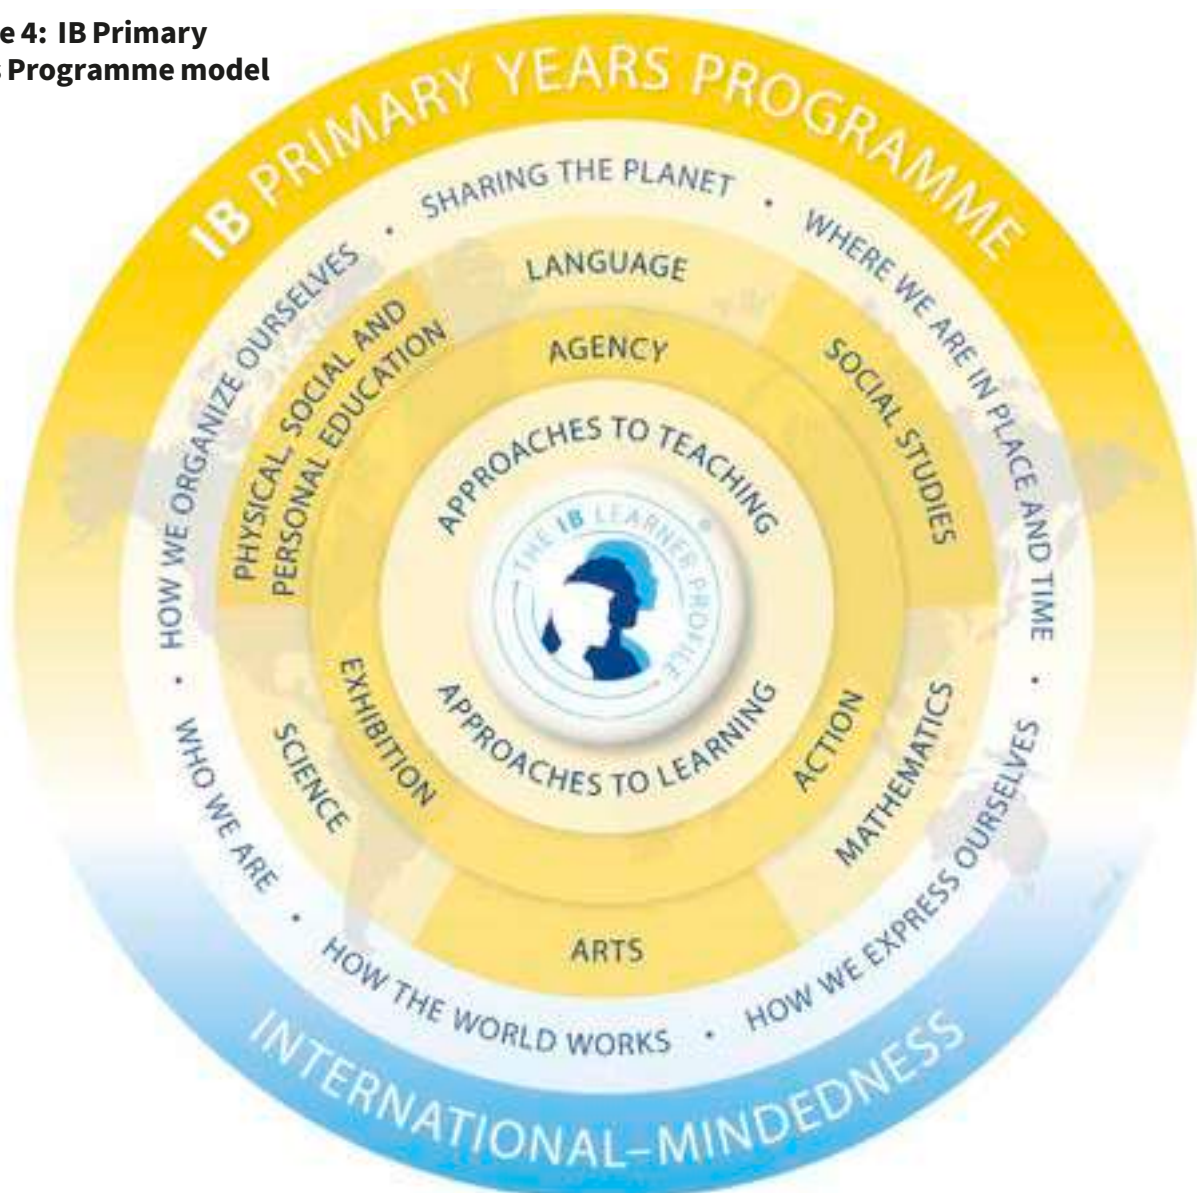

Key features of the PYP curriculum framework

Informed by research into how children learn, how educators teach, and the principles and practices of effective assessment, the PYP places a powerful emphasis on conceptual, inquiry-based learning.

Transdisciplinary learning

The PYP is designed to support transdisciplinary learning because it mirrors the natural way children learn. Guiding learning experiences through transdisciplinary themes, across and beyond the boundaries of subjects, teachers build on what children know – and their areas of interest – to help them relate to the world around them.

Figure 4: IB Primary Years Programme model

**New times
demand
entrepreneurs**

21 Bachelor's programs

International community of 100+ nationalities
Business programs taught in English

Barcelona · Geneva · Munich · Digital

Transdisciplinary themes

- Who we are
- Where we are in place and time
- How we express ourselves
- How the world works
- How we organize ourselves
- Sharing the planet

Subject areas

- Arts
- Language
- Science
- Social studies
- Mathematics
- Personal, social and physical education

Agency

By encouraging agency (voice, choice and ownership), the PYP creates a culture where teachers can create relevant, authentic, challenging learning experiences and children develop a love of learning by finding things out for themselves.

Assessment

Assessment is ongoing in the PYP, deepening learning and providing opportunities for teachers to reflect on what their students know, what they understand and what they can do. Immediate, effective feedback and feed-forward helps children to self-monitor and adjust their learning experiences to gain confidence in their own abilities, increase well-being and build resilience.

The exhibition

In the PYP exhibition, children follow their passions to collaborate on an in-depth project, resulting in a community-wide celebration of their learning journey. Analysing, researching and proposing solutions to real world challenges and opportunities prepares them for success in the IB Middle Years Programme, or the next stage in their education.

PYP in the early years (3-6)

The PYP transdisciplinary framework is designed to provide authentic opportunities to strengthen key developmental skills and abilities in young children. Inquiring through play and exploration, young learners learn to self-regulate and build and test theories to make sense of the world around them.

What is the IB Middle Years Programme?

The IB Middle Years Programme (MYP) is designed for students aged 11 to 16. It provides a framework of learning that encourages students to become creative, critical and reflective thinkers. The MYP emphasizes intellectual challenge, encouraging students to make connections between their studies in traditional subjects and the real world. It fosters the development of skills for communication, intercultural understanding and global engagement – essential qualities for young people who are becoming global leaders.

The MYP is flexible enough to accommodate national or local curriculum requirements. It builds upon the knowledge, skills and attitudes developed in the IB Primary Years Programme (PYP) and prepares students to meet the academic challenges of the IB Diploma Programme (DP) and the IB Career-related Programme (CP).

The IB Middle Years Programme:

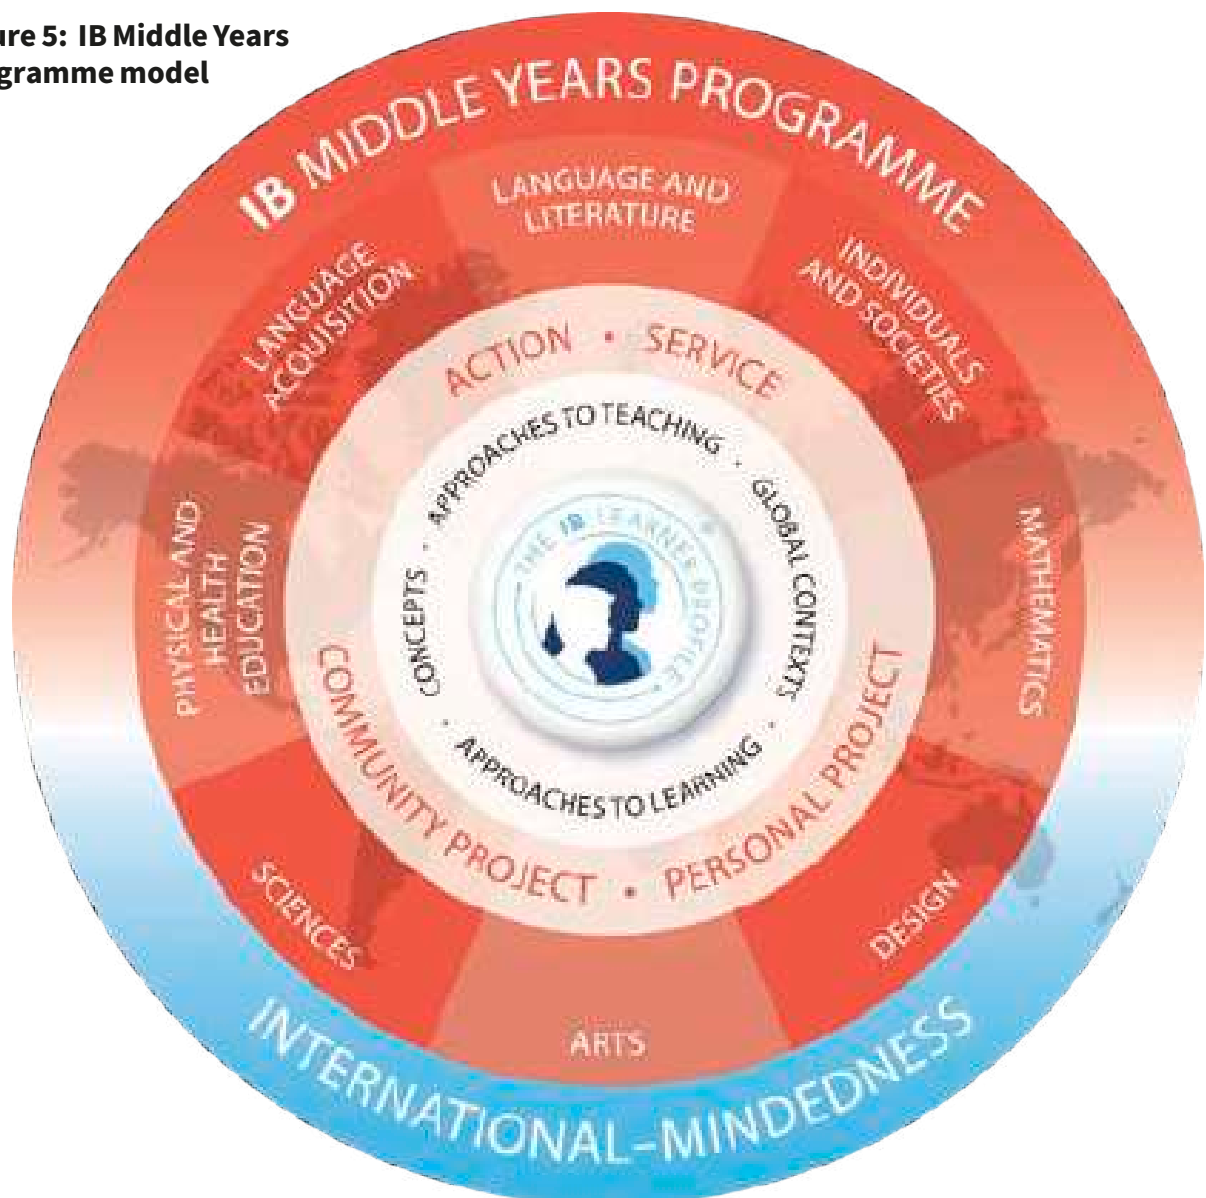

- addresses holistically students’ intellectual, social, emotional and physical well-being
- provides students opportunities to develop the knowledge, attitudes and skills they need in order to

manage complexity and take responsible action for the future

- ensures breadth and depth of understanding through study in eight subject groups and interdisciplinary learning
- requires the study of at least two languages (language of instruction and additional language of choice) to support students in understanding their own cultures and those of others
- empowers students to participate in service within the community
- helps to prepare students for further education, the workplace and a lifetime of learning.

The MYP consists of eight subject groups: language acquisition, language and literature, individuals and societies, sciences, mathematics, arts, physical and health education, and design. Student study is supported by a minimum of 50 hours of instruction per subject group in each academic year. In years 4 and 5, students have the option to take courses from six of the eight subject groups, which provides greater flexibility, with optional MYP eAssessments at the end of year 5 for schools that wish for their students to have externally validated results.

Figure 5: IB Middle Years Programme model

The MYP: a unique approach, relevant for a global society

The MYP aims to help students develop their personal understanding, their emerging sense of self and responsibility in their community. Using global contexts, MYP students explore human identity, global challenges and what it means to be internationally minded.

MYP teachers organize the curriculum with appropriate attention to:

- Teaching and learning in context
- Conceptual understanding
- Approaches to learning (ATL)
- Service as action
- Language and identity.

MYP projects

MYP projects provide students the opportunity to demonstrate what they have learned in the MYP. In schools that include MYP year 5, all students must complete the personal project. In programmes that include MYP years 4 or 5, schools may offer students the opportunity to do both the community project and the personal project. In schools that include MYP year 3 or 4, students must complete the community project.

- The community project encourages students to explore their rights and responsibilities to implement service as action in the community. Students may complete the community project individually or in small groups
- Each student develops a personal project independently. Producing a truly personal and creative piece of work stands as a summative review of their ability to conduct independent work

MYP assessment

The optional MYP eAssessment provides external evaluation for students in MYP year 5 (typically 15–16 years old) that leads to the internationally recognized IB MYP certificate and IB MYP course results.

MYP eAssessment represents a balanced, appropriately-challenging model that comprises examinations and coursework.

- Two-hour on-screen examinations in four subject groups (language and literature, sciences, mathematics, individuals and societies) and in interdisciplinary learning are individually marked by IB examiners
- Portfolios of student work for four subject groups (language acquisition, physical and health education, arts, and design) are moderated by IB examiners to international standards
- Long term personal project work is marked by school teachers and moderated by IB examiners to international standards.

These innovative assessments focus on conceptual understanding and the ability to apply knowledge in complex, unfamiliar situations. They offer robust and reliable assessment of student achievement in the MYP.

Registration for MYP eAssessment is highly flexible and can differ per candidate from a single subject to the full MYP certificate. IB World Schools can register their students for a variety of subjects, which provide the candidates with externally validated results. All candidates receive IB MYP course results; specific conditions apply for registration for the IB MYP certificate.

MYP eAssessments meet the General Conditions for Recognition established by England's Office of Qualifications and Examinations Regulation and is recognized by other national education systems as preparation for further study at the senior secondary level.

YOUR FUTURE STARTS HERE DISCOVER THE WORLD OF BUSINESS & LOGISTICS

"The IB Diploma gave me opportunities around the globe, and I chose KLU in Hamburg, Germany. At this intercultural university, I was able to establish a network of classmates from around the world. KLU encouraged my development and supported me, building my confidence and allowing me to visualize my dream. After various experiences, I am now ready to transform from a student to an adult."

What is the IB Diploma Programme (DP)?

The DP gives students aged 16-19 a world-class preparation for higher education and life beyond. It's a comprehensive, challenging framework that allows students to flourish intellectually, physically, emotionally and ethically, helping them graduate with a unique, future-ready skillset.

To ensure both breadth and depth of knowledge and understanding, DP students must choose at least one subject from each of the six groups:

- | | |
|---------------------------------------|----------------|
| 1. Studies in language and literature | 4. Sciences |
| 2. Language acquisition | 5. Mathematics |
| 3. Individuals and societies | 6. The Arts |

Students may choose either an arts subject from group 6 or a second subject from groups 1 to 5. In addition to disciplinary and interdisciplinary study, the DP features three core elements that broaden students' educational experience and challenge them to apply their knowledge and skills.

The DP core elements are:

- The **extended essay** improves students' approach to learning in higher education through an independent, self-directed 4,000-word piece of research.

- **Theory of knowledge (TOK)** enhances students and educators' critical thinking, deepening their understand of content and connections across disciplines by reflecting on the nature of knowledge and on how we know what we claim we know through this flagship seminar course.
- **Creativity, activity and service (CAS)** helps students develop an ethic of service, become more caring, open-minded and reflective, and develop more self-confident and maturity by embarking on a project in their community.

The DP prepares students for effective participation in a rapidly evolving and increasingly global society as they:

- develop the skills and a positive attitude towards learning that will prepare them for higher education
- study at least two languages and increase understanding of cultures, including their own
- make connections across traditional academic disciplines and explore the nature of knowledge through the programme's unique theory of knowledge course
- undertake in-depth research into an area of interest

Figure 6: IB Diploma Programme model

through the lens of one or more academic disciplines in the extended essay

- enhance their personal and interpersonal development through creativity, activity and service

The DP is recognized and respected by the world's leading universities, and research suggests that higher rates of DP students go on to university and higher education study than non-IB students.

IB students apply to more than 3,300 higher education institutions each year, in close to 90 countries. The most popular of these institutions are ranked among the top universities in the world.

What is the IB Career-related Programme (CP)?

The IB Career-related Programme (CP) gives students aged 16-19 a head start in life, putting their skills, interests and ideas to the test with opportunities to delve into subjects not normally taught in the classroom and a chance to learn by doing. In turn, CP students graduate

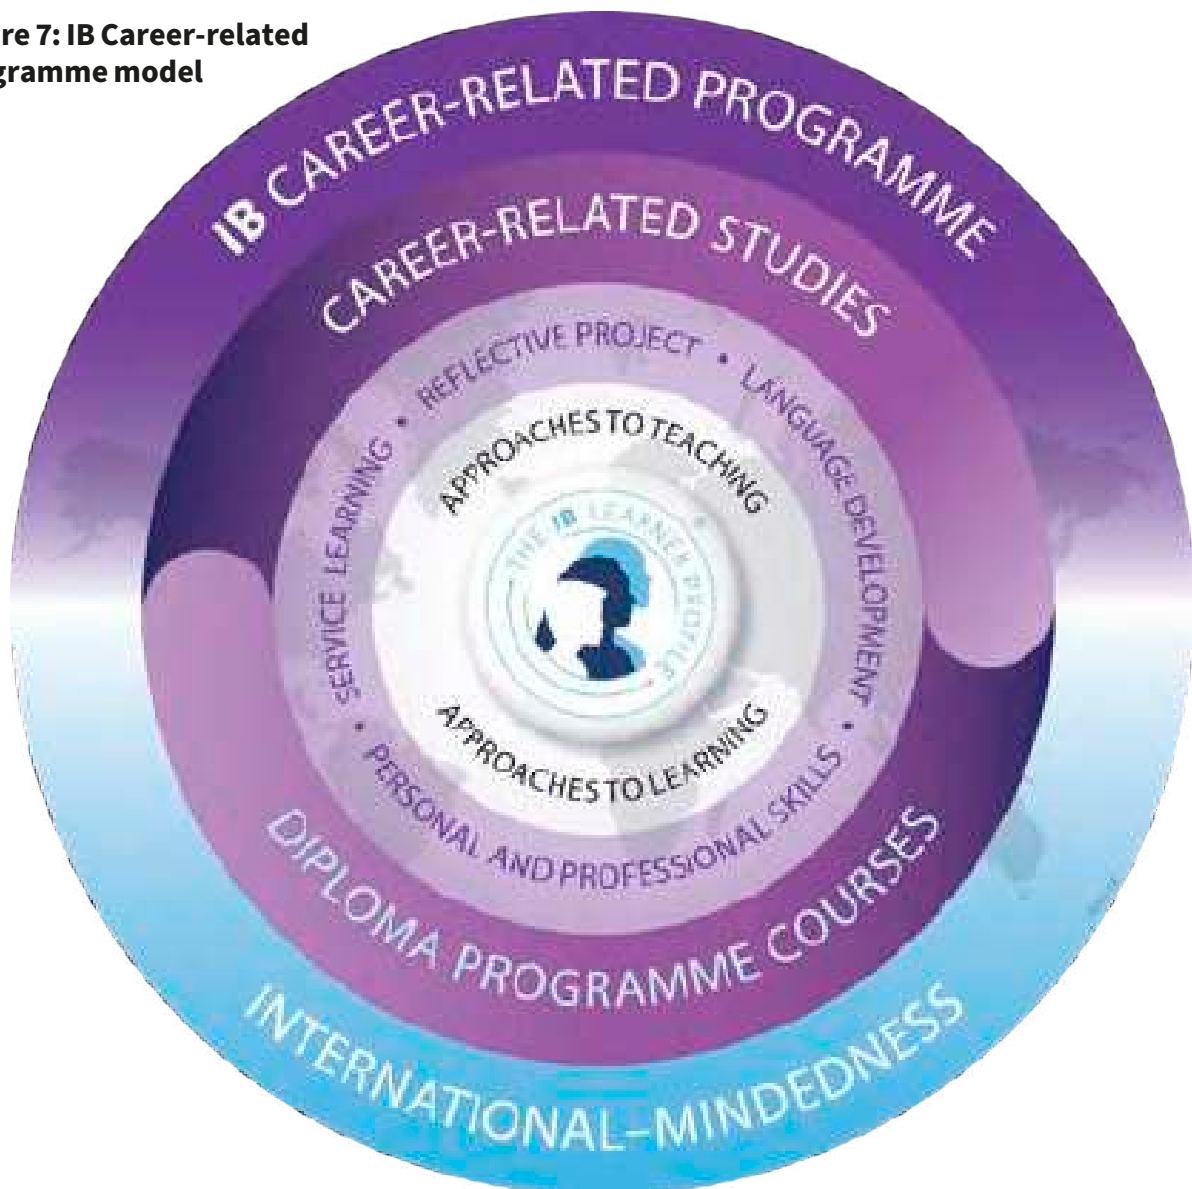

with the confidence, skills and experience needed to thrive in their future careers and higher education.

The CP's flexible educational framework allows schools to meet the needs, backgrounds and contexts of students. By engaging with a rigorous study programme that genuinely interests them, CP students gain transferable and lifelong skills in applied knowledge, critical thinking, communication and cross-cultural engagement.

The CP enables students to prepare for effective participation in an ever-changing world of work as they:

- consider new perspectives and other points of view
- engage in learning that makes a positive difference
- develop a combination of traditional academic skills and practical skills
- think critically and creatively in rapidly-changing and global workplaces
- communicate clearly and effectively
- work independently and in collaboration with others
- become self-confident, resilient and flexible.

Figure 7: IB Career-related Programme model

The CP framework allows students to specialize in, and focus on a career-related pathway. The CP provides a comprehensive educational framework that combines highly regarded and internationally recognized courses, from the IB Diploma Programme (DP), with a unique CP core and an approved career-related study.

The CP core

Personal and professional skills, designed for students to develop attitudes, skills and strategies to be applied to personal and professional situations and contexts now and in the future. It emphasizes skills development for the workplace, as these are transferable and can be applied in a range of situations.

Service learning is the development and application of knowledge and skills towards meeting an identified and authentic community need. Through service learning, students develop and apply personal and social skills in real life situations.

Language development is a central tenet of an IB education that ensures students have access and are exposed to a second language in order to increase their understanding of the wider world and enhance their skillsets within a highly competitive global workforce.

The **reflective project** is an in-depth body of work submitted towards the end of the programme. Students identify, analyze, critically discuss and evaluate an ethical dilemma associated with an issue from their career-related studies. The project can be submitted in different formats including an essay, web page or short film. This work encourages students to engage in personal inquiry, action, and reflection, and to develop strong research and communications skills.

Career-related study

Through personalized career-related studies, students are provided with practical, real-world approaches to learning, designed to prepare them for higher education, an internship or apprenticeship or even a job. It also provides the opportunities for students to learn about theories and concepts through application and practice while developing skills in authentic and meaningful contexts.

Career-related studies are offered and awarded by the school or an outside pathway provider. Popular studies at current CP schools include engineering, computer programming, business and finance, pre-med and health science, hospitality and tourism, and visual and performing arts.

TEMPLE UNIVERSITY, JAPAN CAMPUS

100%

English-Speaking Campus

American Degree

Tokyo

Temple University, Japan Campus (TUJ) is a comprehensive overseas campus of Philadelphia's Temple University. TUJ is located in the heart of Tokyo. Students can complete U.S.-accredited associate's, bachelor's, master's and doctoral degrees in English without leaving Japan.

Undergraduate Majors

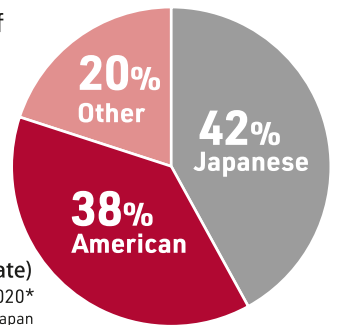

- International Business Studies
- International Affairs
- Communication Studies
- Art
- Psychological Studies
- Economics
- Political Science
- Asian Studies
- General Studies
- Japanese Language

3+1 Program With Main Campus
Computer Science

In addition to the above majors, students may complete minors in other programs at TUJ including Computer Science and Information Science and Technology.

International Campus

Students from around the world come to TUJ for its unique mix of academic rigor, central Tokyo location, and Japanese cultural immersion. 57 countries and regions are represented in the student body.

Nationalities (undergraduate) as of spring 2020*
*Before temporary restrictions on entering Japan

Career Preparation

With assistance from the Career Development Office, TUJ students have gone on to careers with some of the world's leading corporations, non-profits, and governments, or have started their own businesses.

Transfer Credits Based on IB Subject and Grade

Students who complete any IB courses may be awarded transfer credits based on the course subject and grade as determined by the Admissions Office.

IB Recognition

The IB works with the higher education community to support IB students in getting the recognition they have earned, as well as to examine and further develop our programmes to make sure we continue to offer the best preparation for university studies and life beyond. The IB prepares students to thrive in an ever-evolving world by nurturing the skills and attitudes they need to lead happy and successful lives. The programmes are designed to be innovative from the ground up, which means they're always ready to match the educational needs of today.

Through our programmes, students develop:

- social, leadership and self-efficacy skills
- critical thinking and problem-solving skills students need to thrive in the future

- reasoning, communication and collaboration skills essential for teamwork
- fluency in a second language and global cultural awareness, giving them an edge in our increasingly connected world.

A number of online resources focusing on recognition of IB programmes are available on www.ibo.org. These include information about IB programmes, research and evidence into the effectiveness of IB programmes, support in policy development, and information on where and how the IB is recognized around the world. The purpose is to increase understanding of the IB's aims and the unique aspects of each of its programmes, their assessment and the way they prepare students for further education.

BACHELOR / BBA / MBA

IFM Business School

Established since 1971, IFM Business School is an accredited and innovative institution. IFM prepares its students for successful business careers thanks to solid education expertise and outstanding business know-how. IFM provides inspiring learning opportunities for future leaders, who create value for their stakeholders, organisations and society.

The following bodies have recognised our excellence, innovative approach, cutting-edge curriculum and focus on career:

- Ranked #3 in Switzerland and #79 among the World's top business schools - Ceoworld Magazine.
- Ranked in the top tier one for MBA programs in Europe & worldwide - CEO Magazine.
- Among the top 1% of Business Schools with triple accreditation.
- Awarded most Innovative Business School in Switzerland - Global Brands Magazine.
- Switzerland is ranked 1st for education in the world >The World Economic Forum

Kick-start your career

IFM's Bachelor & MBA degrees are a transformative experience and prepare students for the challenges of the global business world. Our programmes focus on candidates' success and provide them with numerous career opportunities.

IFM's cutting-edge curriculum combines academic excellence, advanced perspectives, practical skills, new tools and technology. We do not simply teach business concepts, we prepare students to use what they learn for their organisation. They will develop an entrepreneurial, innovative, sustainable and winning mindset.

Thanks to our distinct real-business approach, students will become confident professionals, able to think differently, manage projects, create strategies and face the challenges of a rapidly changing business landscape. Graduates will be ready for successful careers in various types and sizes of industries.

Global Research, Professional Development and Government

IB research

Research plays a central role in the development, quality assurance and assessment of IB programme outcomes. The IB commissions research to leading research institutions and universities around the world.

The core of our work involves research on IB programmes. We conduct Outcomes research to investigate the impact of IB programmes on students, teachers and schools, and Curriculum research to inform the development and review of all programme curriculum and pedagogy. Policy research supports decision-making and policy development by providing cutting-edge research findings and practice recommendations on key educational issues.

We also conduct survey research, designing, distributing and analyzing surveys to support the IB's strategic decision-making, and quality assurance for IB products and services. The Assessment research department collects and analyses data to ensure assessments are well-grounded in current understanding of best practice. Lastly, we offer research resources, such as findings and figures for IB leaders, annotated bibliographies and Jeff Thompson Award studies.

For more information on IB Research, please visit ibo.org/research.

Professional development

Educators, school leaders and administrators are offered continuous support through plentiful IB professional development workshops and services. Development of a worldwide teaching and learning community committed to lifelong learning is an IB priority.

The IB is continuously seeking to ensure the accessibility of its professional development for all educators and that educators' professional learning needs are met. By offering four different delivery methods: face-to-face, online, virtual and a "blended" method combining remote and face-to-face learning, the IB aims to better accommodate the diverse learning and logistical needs of both educators and schools.

For more information, please visit ibo.org/pd.

The IB and governments

Engaging regional and national governments is at the centre of the IB's commitment to diversity and inclusivity. We are defined by our values and those include pedagogical leadership and international-mindedness. There is a growing awareness among governments that education systems have to work in an international society, not just a national one. We engage with many governments, either to create more IB World Schools or to influence national education systems. Across the world, the IB is working hand-in-hand with regional and national governments to ensure state access to IB programmes.

IB Governance

IB Board of Governors

We are governed by a Board of Governors, whose members are appointed by the Board upon recommendation by the governance and organization committee. Membership comprises a diversity of gender, culture and geography with experience from both the business and academic worlds. Board members, with the exception of the Chair, are volunteers and receive no payment for their time or work on the Board.

Members as of November 2022

Chair

Dr Helen Drennen AM – Chief Executive Officer at Studio Schools of Australia, Queensland, Australia

Vice-chair

Mr Cyrille NKontchou, Co-Founder and Managing Partner of Enko Capital, South Africa

Members

Ms Sabine Chalmers, General counsel at BT Group Plc., London, United Kingdom

Ms Isela Consuegra, Head of School at Escuela Lomas Altas, Mexico and President of IBAMEX (Mexican Association of IB World Schools)

Mr Mike Dargan, UBS Group Chief Digital and Information Officer, Zurich, Switzerland

Mr Jean-Christophe Deberre, Former managing director of the Mission laïque française (Mlf) and the Office scolaire et universitaire international (OSUI), Paris, France

Ms Totty Ellwood Aris, Head of School at Verdala International School, Malta

Dr Montserrat Gomendio, Research Professor at the Spanish Research Council and Co-Founder at Skills WeGo, Madrid, Spain

Mr Steven Kim, Partner at Verdis Investment Management, Villanova, Pennsylvania, USA

Professor Ee Ling Low, Dean, Academic and Faculty Affairs, National Institute of Education (NIE), Nanyang Technological University (NTU), Singapore

Chairs of the IB Board of Governors (formerly Council of Foundation)

1968–1981	John Goormaghtigh	Director of the European office of the Carnegie Endowment for International Peace, Belgium
1981–1984	Seydou Madani Sy	Rector of the University of Dakar, Senegal, and later minister for justice and special advisor to the president of Senegal.
1984–1990	Piet Gathier	Director General of secondary education, the Netherlands
1990–1996	Thomas Hagoort	International lawyer, USA
1996–1997	Bengt Thelin	Director General of education, Sweden
1997–2003	Greg Crafter	Former minister for education in South Australia, lawyer, Australia
2003–2009	Monique Seefried	Former Executive Director, Center for the Advancement and Study of International Education, USA
2009–2015	Carol Bellamy	Attorney, New York, USA

Innovative IB initiatives for 2022-2023

IB Exchange

The IB Exchange is a vibrant online community of IB teachers that centres on teacher expertise and celebrates learning. It's a safe and inclusive space for educators to build their network, share ideas and learning experiences, and nurture their skills. The curated, peer-reviewed teaching resources are mapped to the IB curriculum, so teachers can teach brilliant lessons using standout material that inspires their practice. In addition, the IB Exchange empowers teachers to personalize the IB curriculum to local culture, community, school, and student needs by providing diverse approaches.

Festival of Hope

Over the course of six months, the Festival of Hope will bring together students, educators, scientists, spiritual leaders, researchers, artists, and government leaders from across the globe to explore what it will take to inspire and transform humanity and address the complex challenges faced by young people today.

The immersive series will explore the theme of “Educating in the Meaning Crisis: Rebalancing Head, Heart and Hand” and include dozens of virtual discussions, as well as three live events hosted by IB World Schools. The Festival of Hope website features a digital curation of content to listen, interact, learn, reflect, and take action.

Festival of Hope

Online Diploma Programme pilot

In March 2022 we launched our online Diploma Programme pilot. This pilot will deliver a fully online Diploma Programme together with a small number of selected partners. Together, we will explore how we can create and reinforce collaborative learning communities and discover the advantages that an online Diploma Programme can bring to our community.

We're currently current working with King's InterHigh and Dwight Global Online School to deliver this pilot, which will explore and better understand the needs of students who may not be able to attend traditional brick and mortar education, perhaps due to illness, commitments to extra-curricular activities such as sport and music, or migration and displacement.

IB Certificates in Teaching and Learning

Two distinct certification opportunities in teaching and learning are offered by a network of universities in coordination with the IB. Educators can choose from nearly more than 50 highly ranked universities in locations all around the world.

1. Choose the **IB certificate in teaching and learning** to examine principles and practices associated with the Primary Years, Middle Years, Diploma Programme and Career-related programmes. These university courses of study help new and experienced educators develop themselves into reflective practitioners and teacher-researchers.
2. Pursue the **IB advanced certificate in teaching and learning research** to supplement IB experience with rigorous, systematic, investigative work in curriculum development, pedagogy and assessment.

The IB educator certificates can help you gain a rich learning experience, ongoing professional development and a career path leading to greater opportunities in the IB global community of schools. Your programme of study at an IB-recognized university will enable you to:

- improve the quality of your classroom teaching
- demonstrate your deep understanding of student learning
- enhance your competitive edge in the education job sector
- interact with leading academics
- demonstrate your commitment to continuous self-improvement and lifelong learning
- establish a strong peer network for research and publishing consultation
- gain access to IB community resources, including the IB's online Programme resource centre.

IB Certificates in Leadership

Certified IB leaders inspire and guide school communities as they implement and sustain IB programmes. IB certificates in leadership verify your understanding of principles and practices associated with leadership in an IB World School and in the IB community at large. Two distinct IB certificates in leadership development are offered by universities around the world.

1. The **IB certificate in leadership practice** is designed for aspiring educators and administrators who want to improve their leadership capabilities in an IB context. Through this programme, learn to refine your abilities to take on leadership responsibilities and to better understand your role in guiding a school through IB authorization and implementation.
2. The **IB advanced certificate in leadership research** focuses on rigorous investigative work to give experienced leaders a more grounded understanding of IB leadership responsibilities and capabilities. Your training will include research within the context of IB leadership as well as deep reflection on your personal leadership practice.

Take the next step to becoming a certified IB educator or leader. Visit <https://ibo.org/professional-development/about-our-workshops/professional-certificates/> for more information about the IB's partner universities, or contact pd.pathways@ibo.org.

The IB Around the World

We currently work with IB World Schools in 160 countries. All our jurisdictions have not-for-profit or charitable status with headquarters in Geneva, Switzerland. Our four global centres are in Washington, USA, The Hague, Netherlands, Cardiff, UK, and Singapore. We employ approximately 773 IB staff worldwide.

Our IB staff and educators work closely with prospective and candidate schools as well as existing IB World Schools. They are also responsible for creating and sustaining relationships with governments, international and national agencies, universities and other educational institutions, foundations and concerned individuals. Through its strategic goals, we are also promoting wider educational access.

Core services we provide include:

For prospective schools

- introductory or orientation workshops
- consultation, advice, and materials on application and authorization
- training workshops
- authorization visits.

For IB World Schools

- professional development programmes for new and experienced IB teachers
- regional conferences
- support via webinar
- online access to resources and support via My IB
- periodic evaluations of schools' IB programmes
- ongoing support throughout a school's IB journey.

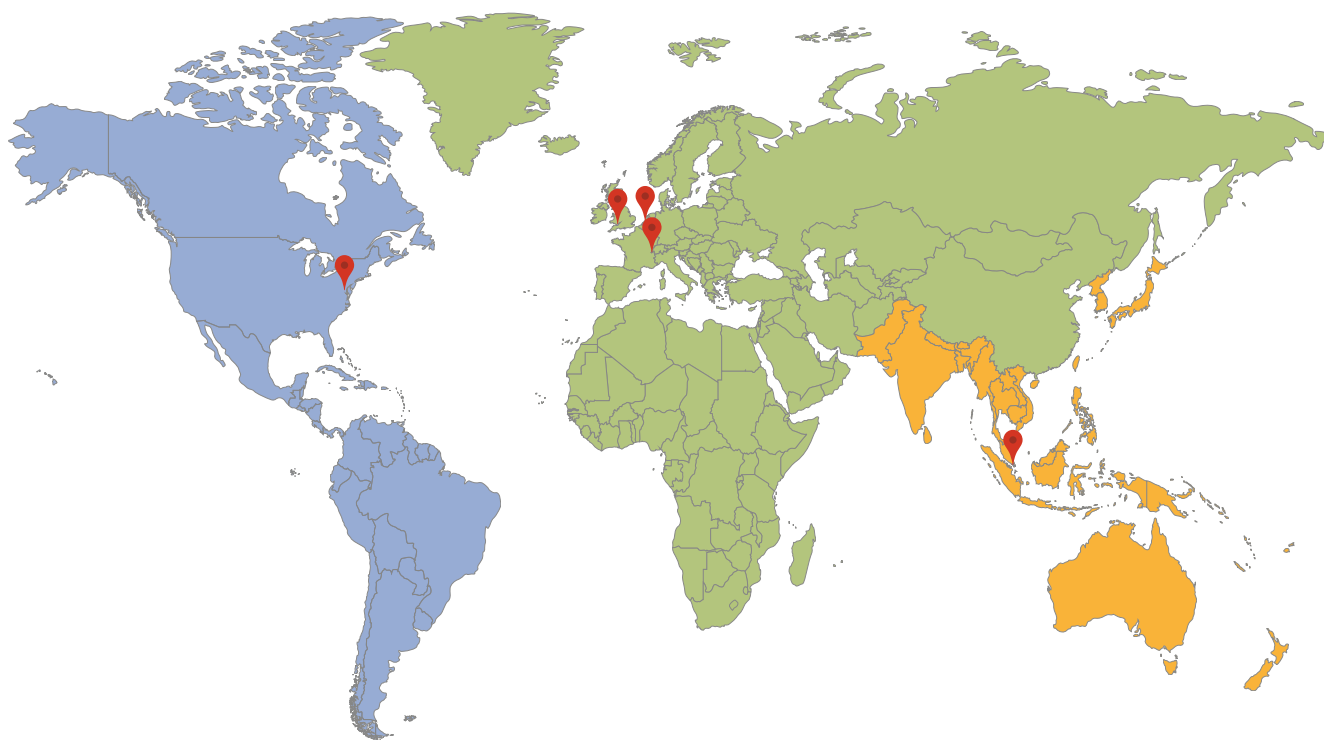

For universities

- information on the philosophy, structure and requirements of the IB Diploma and Career-related Programmes
- access to the content and requirements of the IB Diploma and IB Career-related Programme curriculums and assessment
- research to demonstrate the effectiveness of IB programmes
- advice on establishing an IB recognition policy.

For governments

- advice on how to integrate IB programmes into state educational systems
- consultation regarding recognition of the IB Diploma.

Our mission

accadis ISB aims to develop confident, knowledgeable and caring young people prepared to create a better future.

We aim to build within each child a sense of responsibility, a love for learning, self-discipline, and respect for others.

Challenging programs, combined with inter-cultural understanding and respect, enable our students to reach their potential and become compassionate and lifelong learners.

Who we are

accadis ISB is situated in Bad Homburg, a leafy town in the Taunus mountains, just north of Frankfurt am Main. We are a non for profit, lively, friendly and expanding bilingual co-ed school which currently has approximately 600 students from 2 – 18 years of age, representing over 50 nationalities. Privately owned, it is part of a family business with links to the nearby accadis University of Applied Sciences. The school has a bilingual concept, teaching some subjects in English and some in German. accadis ISB is an official IB World School since January 2016. accadis ISB is also accredited by Cambridge Assessment International Education to teach the two year IGCSE course in Grades 9 and 10.

Our students

The school provides a supportive and challenging environment where students are encouraged to become

responsible and independent learners. accadis ISB caters for a wide range of students, and is both a “local” school for families who live nearby and also an international school for students who come to us from all over the world.

Our school

accadis ISB was founded in 2004 and is situated on a state-of-the-art campus featuring its own sports hall with outdoor football pitch. Over the course of the last years, the school expanded into an adjacent building, adding an inviting library, two Art rooms, an IB Learning Suite reserved for students in Grades 11 and 12, a Drama room with stage equipment as well as further teaching rooms, providing more space for the growing Elementary and Secondary Schools. In the school year 2022– 2023 accadis ISB is opening a new building exclusively for Secondary School students, catering for the ever-increasing demand. It features more than 20 new classrooms, additional specialist spaces for Science, Art, Music and Drama as well as two libraries, a Cafeteria and an auditorium for up to 250 people.

The school focuses strongly on technology. The state-of-the-art learning environment includes Smartboards in each classroom, Google Chromebook laptops, school-wide high-speed Wi-Fi and a 3D printer.

Encapsulating the adage, 'A tree with strong roots laughs at storms', Acorns International School (AIS) bears fruits that stand the test of time.

Nestled between the verdant folds of Kampala, the capital city of Uganda, AIS is sprawled over a 5-acre state-of-the-art, purpose-built campus, that nurtures the balance between academics and extracurriculars.

Over two decades in the field of education, we have grown to represent more than 50 nationalities. The AIS team strives to inspire and empower every student to achieve their personal best and become inquiring, knowledgeable, pluralists and lifelong learners, who create a better and peaceful world, through intercultural understanding and respect.

Admissions are open throughout the academic year, subject to availability. We have a limit to the number of students per classroom, for uncompromised quality. This interface gives teachers an edge to assess each student's area of strength, and improvement. Teachers are supported in this process, with timely professional development sessions, to ensure growth and excellence. Through an open-door policy, we ensure that our main stakeholders, our parents, are full partners in the decision-making process and voice concerns not only of their children, but their own too.

The language of instruction is English, with French and Kiswahili as part of our dynamic curriculum. Through our engaging and rigorous, inquiry-based environment, students reach their full academic potential and become responsible, caring, multilingual, and culturally-literate global learners.

Our teaching team is not just diverse, they epitomize academic excellence and have a penchant for pastoral care.

AIS is non-sectarian and co-educational institution, founded on strong partnerships between parents, teachers and learners.

A visit to AIS allows your family to experience the school in a relaxed environment, meet with the administration, as well as visit homerooms, the science lab, performing arts rooms, libraries, swimming pool, auditorium, soccer fields and the basketball courts.

AIS is an authorised International Baccalaureate (IB) Continuum World School, offering the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP).

AIS is an inclusive school that accepts students in the Early Childhood Department (Crèche to Reception Class), Primary (PYP1 to PYP6), and Secondary (MYP1 – DP2).

It is always onwards and upwards for us, and we would love for you to join us!

Education should be a way of life. School should be about the development of the whole person. When John Corlette founded Aiglon College in 1949, he had a unique vision: to combine the special character of mountain life with an innovative educational mission. Aiglon today guards this original vision and has grown into one of the world's most distinctive boarding schools.

Spirited, independent and a not-for-profit organisation, Aiglon's aim toward the balanced development of mind, body and spirit works to create a principle-driven environment where students and teachers alike are encouraged toward academic excellence, pursuit of physical challenge and the learning born through a deeply international culture.

Aiglon is an English-speaking school styled in the tradition of British education. Students follow the globally recognised IGCSE and International Baccalaureate (IB) programmes while simultaneously developing practical skills that integrate curriculum into all areas of life. The focused, individually tailored programme allows each student to access a unique course of study.

The school's professional University Advising team works closely with each student to help them understand and succeed in the university application process. Through these efforts, our students have access to the world's top universities. This tailored programme encourages, develops and ultimately matches every student with a university that can continue developing their education.

The character of Aiglon students is forged on the mountain. Aiglon is located just beyond the ski resort village of Villars-sur-Ollon in French-speaking Switzerland, at 1,258m. Making use of our safe, alpine environment we enjoy an open-style campus and are just 250m from the ski resort's main lift. Central to its educational philosophy, the uniquely crafted expedition programme utilises Aiglon's location in the Swiss Alps to engage students in activities designed to develop their sense of challenge and responsibility in a highly practical environment.

In winter, students ski twice per week as part of the physical education programme. Beyond winter, students participate in a wide range of competitive and noncompetitive activities from football and swimming to yoga.

All the teaching staff play a key role in pastoral care and learning support at Aiglon. From their roles as Houseparents, Assistant Houseparents or as tutors, teachers are available to students 24/7. In this community relationship, students and teachers are able to connect in unique ways that enable young people to grow and better understand their purpose and role at Aiglon.

Our unique combination of academic excellence and the spirit of living life on the mountain ensure that an Aiglon education provides your child with everything needed to succeed.

Al-Hussan International School (AHISK) is a private English language day school with 1,220 students, situated in three buildings in the city of Al-Khobar. The Pre-School-G2 campus currently houses students in Pre-K to Grade 2. The Girls' and Boys' Section campuses house Grades 3 to 12 respectively.

The school provides the environment and the experiences which promote the moral, social and intellectual development of all its pupils. Every child is cherished and receives support and encouragement within a strong, caring community.

The school offers a well-rounded education through its provision of different programmes of instruction for students from Pre-K to Grade 12. We acknowledge that every child is born with unique potential, and we seek to develop each child's creativity, expand their horizons and prepare them to be responsible global citizens and leaders. English is the language of instruction, with Arabic, French or Urdu offered as a second language and as a foreign language for non-native speakers. Islamic classes are offered to all students from KG to Grade 12. AHISK strives to continually improve the quality of education it provides. We are accredited by COGNIA and by Council of International schools(CIS). The Al Hussan curriculum is offered from KG to 12. High School Students are offered to sit for IGCSE or O Level exams in Grade 10 and to elect one of the two programs: British Program (A Level) or the IBDP in Grade 11 & 12. Courses on offer in the IB Diploma Programme are: English Literature, Arabic B, Arabic ab-initio, French B, French *ab-initio*, Business Management, Economics, Psychology, Biology, ITGS, Chemistry, Physics,

Computer Science, Math Analysis and Approaches (AA), Mathematics Applications and Interpretation (AI) and Visual Arts.

Our Vision

Leaders of Excellence in International Education

Our Mission

Al Hussan International School provides high quality education through a safe, stimulating, and multicultural environment to prepare leaders for a global society.

Our Beliefs

At AHISK, we believe:

1. all students can learn and realize their full potential.
2. a safe and stimulating environment promotes quality education.
3. in respecting cultural and individual differences.
4. all stakeholders share the responsibility for advancing our mission.
5. in preparing students to pursue further educational goals.
6. commitment to continuous improvement is imperative.

At AHISK we believe in preparing students to become well rounded young people, ready to meet the challenges in an ever-changing world. This is done through our challenging programs of study and with the help of an experienced and extensively trained team of teachers. Our student body is very active and striving to make a change in their community.

Our graduates are joining universities across the world, mostly in the Middle East, Far East, Canada, Europe and USA. We are proud of our AHISK family and we invite you to visit us and experience our loving and nurturing family ambiance.

AMADEUS International School Vienna is a unique day and first-class boarding IB World school with an integrated Music and Arts Academy. The AMADEUS education is one of Distinction with the mission of accompanying young people as they fulfil their highest potential.

AMADEUS is an International Baccalaureate school, offering PYP, MYP, DP, and CP for students ages 6-18. AMADEUS also offers an Early Years Kindergarten Programme for ages 3-6. The school engages students in inquiry-based learning that addresses real-life challenges and cultivates critical-thinking, problem-solving, and presentation skills. AMADEUS' community is distinguished by its internationalism representing over 50 different nationalities. To best teach the qualities of global citizenship, the school recruits outstanding educators from around the world. The school regularly outperforms the world average pass rates and diploma points and its alumni study in top universities around the globe.

Music and Arts play a vital role in AMADEUS' learning approach which is emphasised in their dynamic co-curricular arts programme. This includes various areas such as editorial design, music production, and musical theatre production. Students also have the opportunity to participate in the AMADEUS String Orchestra, various forms of dance, drawing, painting, and more. Along with the unique IB World School Programme, AMADEUS Vienna distinguishes itself from other international schools with an integrated Music and

Arts Academy offering classes at Foundation, Advanced and Professional levels to further grow and nurture artists at all stages of growth. The Academy helps thrive through groups and personalised classes with distinguished instructors, practice, and performance opportunities. Finally, and uniquely, all students participate in the whole school choir.

Boarding at AMADEUS is possible for students in Grades 6-12. Our AMADEUS boarding provides students with a once in a lifetime educational experience. As the only international boarding school in Vienna, students from all around the world engage in a diverse environment that is inclusive, happy, and respectful of different cultures. A strong sense of community cultivates a supportive and caring environment while promoting a healthy lifestyle that emphasizes nutritious food, physical exercise, social activities and overall wellbeing. If boarding houses had star ratings, this one would have five.

Since 2021 the School started to celebrate the AMADEUS Festival Vienna with the participation of top-level national and international artists. Currently the festival is already a cultural benchmark in the city, and especially in the 18th district.

The location of the AMADEUS campus is just a short tram ride away from the city centre. Famous for its history, culture, and quality of life, Vienna is named 'the World's Most Liveable City' by The Economist. Home to numerous universities and nearly a dozen international schools, Vienna is Austria's hub of international education and learning.

ACS Athens has been an IB World School offering the IBDP since 1976. ACS Athens is the 66th school in the world to provide the IBDP and the first to introduce the program in Greece. Students from 60+ nationalities currently study at ACS Athens. The school is accredited by the Middle States Association of Colleges and Schools to offer an American High School Diploma, and it is the first and only one outside the US achieving the accreditation protocol of “Sustaining Excellence.” ACS Athens is located in a suburb of Athens on a privately owned enclosed campus consisting of five main buildings. The campus features a 5-lane 25m swimming pool, a state-of-the-art theater, a green-screen 4K TV studio suite with a podcast booth, a soccer field, an indoor gymnasium with a climbing wall, indoor and outdoor basketball and volleyball courts, and a fine arts suite.

Currently 66% of the upper class is enrolled in the IB Diploma programme and more than 89% of the remaining students have designed a program that combines IB and AP courses where they are enrolled in more than one IB or AP course. IBDP candidates at ACS Athens can obtain a bilingual IB Diploma, as well as an American High School Diploma when they complete the required courses successfully. ACS Athens has had a consistent average of 36 points since 2018, which is considerably higher than the average world score. Over 98% of ACS Athens graduates are admitted to top universities in the US, UK, Canada, the Netherlands, and elsewhere.

The extensive IB CAS program, including musical performances, participation in sports and service in hospitals, elderly care facilities, the Youth-to-Youth Part-time Educational and Social Integration program for unaccompanied refugee minors, and the Koinonos Club which offers help to the homeless, enhances a student’s education, broadens their perspectives and makes a student aware of real-life situations and concerns.

ACS Athens also embraces virtual learning, inaugurating ACS Athens Virtual in 2019, which offers mainstream and non-traditional high school accredited courses.

Academic support through the Writing, Math and Research Studios assists and enhances the writing and mathematical skills of each student. Furthermore, a comprehensive program for college applications offered by our Student Affairs department facilitates admission to the finest institutions around the world. ACS Athens follows a best-fit university approach, ensuring students identify universities and colleges that will best suit them academically and personally.

The fundamental principles of ACS Athens’ mission statement and its educational philosophy are in direct alignment with the philosophy and mission statement of the IBO. ACS Athens supports a student-centered environment and aims towards high academic achievement as well as active conscious citizenship; developing a community of inquirers who will make informed, intelligent and ethical decisions for improving life and living on the planet!

The American International School Kuwait (AIS) is a private independent day school serving students from pre-kindergarten through grade 12. AIS is an IB World School that is fully authorized for the Primary Years, Middle Years and Diploma Programmes. Our rigorous academic programme builds critical thinkers and inquirers in a nurturing educational environment.

The school has created intercultural learning by building bridges of understanding among diverse international students from around fifty five countries across the world. This ethnic diversity builds resilient, empathetic, and competent leaders for the future.

The school has an outstanding extracurricular program that offers a wide variety of activities in sports, arts, music, and theatre. AIS students strive for balance and participate in a wide range of athletics and activities through our international activities conference, NESAC of which AIS is a full member. AIS also participates fully in KASAC, our local activities and athletics conference.

The well-designed learning space of our facilities and services contribute to the experience of students, educators, and community members. The school facility includes two gymnasias, several outdoor sports areas, music and theater spaces, strength training and aerobics rooms, as well as a 1200 seat auditorium. The walled campus includes over one hundred teaching spaces that surround two interior courts. Our Learning Commons offers a collaborative space for student inquiry, instructional coaching, and collaboration and houses a library with a large fiction, non-fiction, and Arabic collection.

Upon graduation, our students are extraordinarily well prepared for the academic requirements of university, and they proudly enter many of the world's most respected and top-rated universities in the United States, Canada, and the United Kingdom.

Set within the rich cultural context of Austria, the American International School Vienna is one of the top international schools in the country. Founded in 1959, AISV today serves around 800 students, representing over 60 countries, from Pre-Kindergarten through Grade 12 (International Baccalaureate (IB) or American diploma). AISV's core values – respect, aspire, and achieve – ensure that students develop intellectually and interculturally while internalizing the commitment and leadership necessary in today's globally-minded world.

AISV provides comprehensive opportunities for learners from around the world. Our students succeed academically, as well as in athletics, music, and visual arts. A variety of activities, including class trips to mountain ranges and service-oriented community projects, allow students to practice commitment, leadership, and meaningful self-reflection. We maintain a broad set of offerings to help us serve our students while staying true to our mission.

The tightly knit school community allows students to develop personal relationships with both highly qualified teachers and their peers. We maintain a culture of high expectations and close connection to the pulse of international education. Investments in the quality and skill

of our staff are on-going, and recent enhancements to our facilities and technology assure our role as a vital partner and a leader in international education.

During the 2022-2023 school year, AISV celebrates 46 years as an IB World School. AISV has been an IB World School since 1977, just nine years after the IB Diploma Program began. Since its inception at the school, the program has shown impressive growth. In 1977, its first year of the IB program, AISV had 10 IB Diploma candidates. Currently, AISV has 48 IB Diploma candidates. Perhaps most striking is the massive growth in the percentage of AISV seniors graduating with an IB Diploma: 18% in 1977 compared to a projected 84% in 2022-23. AISV was the 72nd IB school to be authorized, now out of over 5,500 schools worldwide. AISV is one of the most experienced IB schools in the region and the single most experienced IB school in Austria.

We welcome all to our community of innovative learners realizing their chosen futures with courage, curiosity, and joy. We make decisions based on the understanding that we are not only guiding children towards learning but building experiences and memories that will serve to inform futures not yet imagined.

Website

www.aosr.org/admissions

AOSR has proudly offered the IB International Baccalaureate Diploma Programme since 1989, one of the first schools to offer it in Rome and we boast a 100% IB Diploma pass rate for our students.

The IBDP is a highly challenging, two-year, pre-university program of studies for Grade 11 and 12 students, and our experienced faculty have guided our students to access some of the most important universities around the world. Some of the university acceptances of 2022 include MIT, UC Berkeley, University of Toronto, University of California Los Angeles, Bocconi, King's College London, the United States Naval Academy, to name a few.

The focus of the IB Diploma Programme at AOSR aims to develop inquiring, knowledgeable, and caring young people who help to create a better world through intercultural understanding and respect.

Students apply for the program in Grade 10 and the application is submitted by our IB Coordinator. The teacher recommendations will be reviewed by the IB Coordinator and the Secondary School Principal. If a student wishes to participate in the program, they will be registered and a meeting will be arranged with parents to determine the program of studies and to sign the IB Diploma Programme Regulations.

Prior to registration, students must understand the commitment to the extra components of the program: Extended Essay, Theory of Knowledge and Creativity, Action, and Service (CAS).

AOSR offers 22 IB courses, one of the most comprehensive programs in Italy, and some of the key takeaways for the students that undertake the IB program at AOSR are:

- We encourage our students to think critically and challenge assumptions, while also developing research, interpersonal, and self-management skills.
- IB students learn to ask questions. This is a great habit to have as an adult. Companies want employees who question their own assumptions and can approach problems from different angles.
- Students learn how to plan ahead, organize their time and prioritize tasks effectively. These skills set them up for success not only in school but also in their future careers.

AOSR IB students have historically gained admission to prestigious universities in the United States, Europe, and throughout the world. Because of its equipollence with the Italian “Maturità”, AOSR students also gain acceptance to top Italian universities as well.

The American Overseas School of Rome has carefully and successfully implemented the IBDP in Rome for decades and offers constant support to our students through our experienced College Counselor and IB Coordinator. For more information or to speak with us, please visit www.aosr.org/admissions today.

AOSR is more than an education; it's the experience of a lifetime.

The American School of Milan (ASM) is an independent, co-educational college preparatory day school with a state-of-the-art campus located south of Milan. Founded in 1962, ASM has been educating international students from more than 50 countries for more than 50 years. ASM inspires students to discover their unique potential and to be curious learners, critical thinkers and global citizens who positively impact our world. ASM is accredited through the Middle States Association of Colleges and Schools and is an IB World School offering the Diploma Programme since 1983.

ASM offers a student-centered, American-style education that encourages children to develop their full potential, achieve personal excellence and become global citizens committed to lifelong learning. We embrace the IB learner profile along with our school values of respect, curiosity, integrity, courage and kindness. Technology is a key focus at ASM and an integral part of student learning. Our elementary school integrates ipads to prepare students for the 1:1 laptop

program that begins in Grade 6. The school also offers 3D design, robotics, digital art and photography and film courses in our ultramodern film studio. There is wifi campus wide.

Set in 9 acres of green space, our modern campus boasts many state-of-the-art science laboratories, two full-sized American gymnasiums, a tennis courts, a grass soccer field, and a 27,000 volume library complete with e-books, not to mention a 500-seat auditorium constructed in 2019.

Currently school enrollment is over 800 students and there are more than 100 full-time faculty employed. ASM teachers are talented, highly educated, experienced and, above all, inspiring leaders. The school encourages faculty continued learning through a substantial professional growth fund.

ASM was authorized to offer the International Baccalaureate Diploma in 1983. Students are also awarded the American School High School Diploma upon graduation. ASM student IB results have consistently surpassed world averages in terms of pass rate and average points.

The American School of Paris, established in 1946, is a coeducational, independent day school for students from ages 3–18. Home to a vibrant community of over 750 students representing over 65 countries, ASP students achieve their personal and academic best with innovative and internationally-recognized programs for learners of all ages.

ASP is accredited by the Council of International Schools and the Middle States Association of Colleges and Schools. Students learn an American curriculum (including IB and AP options) with a high priority on real-world, experience-based learning. While classes are delivered in English, all students in Grades K3–12 receive daily language instruction in French for beginners through Francophone students.

Students in Grades K3–1 participate in a play-based, Outdoor Learning program both on and off campus in the neighboring Parc de Saint-Cloud. All students use our dedicated science and technology spaces, with older children taking on independent projects in the Lower School Maker Space, and the Middle/Upper School Tech Shops, including application development, design, 3D printing, and coding projects.

Students flourish artistically at ASP, and can take advantage of a theater-style Performing Arts Center, a Black Box theater, and studio spaces for music recording,

production, and film. ASP offers full band, orchestra, and choir options as both curricular and extra-curricular classes. After-school sports are offered from Grades K4–12, with an American varsity and junior varsity athletics program (part of the International School Sports Tournament consortium), available to students in Grades 9–12. From athletics and the arts to robotics and STEM, ASP students regularly compete at the international level.

The Upper School is the academic home of 350 students who are guided by a team of college counselors and academic advisors as they select from 30 IB courses, 12+ AP classes, and American high school courses. 90% of Upper School students participate in either the AP or IB program; 30% of students are candidates for the IB diploma each year, with over 40% of these students qualifying for the IB Bilingual Diploma.

In 2022, ASP students scored an average of 4 points higher on the IB diploma than the world average, with 21% of ASP students scoring above 40 points. ASP students scored an average of 0.4 points higher than world averages on AP exams, and 75% of all AP exams taken earned a 3 or higher, with 24% earning a perfect score of 5. Students go on to attend prestigious universities across the USA, Canada, the UK, Europe, and Asia.

ASH (est.1953) is one of the most established international schools in the Netherlands. ASH families hail from 74 countries on 6 continents, mirroring the diversity of cultures that make The Hague, known as the City of Peace and Justice, such a rich environment.

We are a private, not-for-profit institution that, at every level of organization, focuses on enhancing the student learning experience. It shows in the purpose-built ASH facilities, like our Early Childhood Center, a vibrant and joyous learning environment designed to harness inquiry and play.

From Pre-Kindergarten through High School graduation, we encourage ASH students to take control of their own learning. We know that our students will be working in jobs that may not even exist yet, so we aim to nurture confidence and agility in any stage of the learning journey here at ASH.

ASH is the only school in the Netherlands offering both AP and IB, creating a pathway to graduation based on their individual passions and talents. Our students consistently outperform global averages, and supported by our dedicated College Counseling Office, they find their ways into esteemed institutions of higher education across the globe. Our graduated Class of 2022 received offers from top colleges around the world.

Only at ASH, you will find a full-inclusion program of learning support, supporting every student with great

intentionality to meet their emotional, social, physical, and academic needs.

American School of The Hague is accredited by the rigorous and independent New England Association of Schools and Colleges (NEASC).

What ASH students and faculty say:

Vaibhav, student: *“I chose to take the IB curriculum because it offers me many opportunities, which is important to me. I know that I want to pursue a career in Technology, but if I change my mind, I believe the curriculum will help me recognize my talents.”*

Christine, high school science teacher: *“The students are enjoying our approach to science learning. It is not just about learning the facts and giving students the formulas. It is about learning what scientists do, and learning to think the way scientists think.”*

David, high school principal: *“Our student results were excellent considering students endured many obstacles over the past 3 years. We are seeing more and more students take advantage of the AP course offerings at ASH as they continue to give students access to highly competitive Dutch and European university options. This is the true richness of the ASH course offerings that lead to doors opening to the future.”*

Follow the ASH experience on **@AmericanSchoolOfTheHague** to read more.

The Anglo European School is a genuinely distinctive and unique comprehensive school committed, for almost 50 years, to achieving the highest academic success through its international curriculum. The broad and balanced education offered, with its challenging additional experiences, produces open-minded and confident young people who are able to communicate effectively in a variety of languages and who have an appreciation and understanding of different cultures, religions and communities in modern Britain and beyond.

The Sixth Form is outstanding and has been awarded the highest Ofsted grades for over 20 years. In 1977 Anglo European School was the first UK state school to offer the International Baccalaureate Diploma and in 2010 became the first UK state school to offer the IB Career-related Programme. It also provides the opportunity to study A Levels, or A Levels with selected parts of the IB Diploma. All students have the opportunity to study a language ranging from introductory level, which assumes no prior knowledge, up to more advanced courses in the A Level and IB Diploma Routes. Eight languages are taught: Arabic, French, German, Italian, Japanese, Mandarin, Russian and Spanish. We believe that this gives an unrivalled opportunity for each student to combine qualifications in a way which best suits their needs and makes them stand out in the global employment marketplace.

Situated in Ingatestone, with excellent rail and road connections, local children are joined by children from Essex, Suffolk, Hertfordshire, London and abroad who value its internationalist philosophy based on the mission of the International Baccalaureate. This diversity provides a rich education which prepares succeeding generations of students for the world they will live and work in, whatever their background or ability. It really is an education fit for the 21st Century.

A remarkable feature of the school is its visits and exchanges programme. Over 700 students every year take part in the exchange programmes and extended study visits in Europe, China and Japan. Sixth Form students also have the opportunity to undertake international work experience in Madrid, Frankfurt or Paris, to visit the United Nations in Geneva, to do voluntary community work in Lesotho or to visit the historic cities of Krakow and Vienna, on a new interdisciplinary visit.

This is a caring, principled and purposeful school which is confident in its ambition and passionate about its mission. It is a school which is determined to ensure that an education with an international dimension leads to high academic success and outstanding personal development for all its students, whatever their background or ability.

From the modest start of around 250 pupils in Grades 1, 2 & 3 in its first campus in Manama Northern Governorate, near the historic Khamis Mosque built in 692 CE, APG now educates 1440 learners in K-12, with one new campus dedicated to Kindergarten.

With keen foresight and wisdom, Mr Mohamed Moosa Al'Aali – a visionary founder and Chairman of the board of APG School who is deeply committed to providing quality opportunities for learners to be highly educated and ethical in their conduct and dealings in the global world, treating the whole of mankind with great respect and care – is charting a sustainable path forward for the school so dear to his heart.

Joined by his young, bold, ambitious, uncompromising heir Mr Hussain Al'Aali as Vice Chairman, APG School redefines its identity in response to the challenges of the time, deepening its local root, expanding its global reach. Mr Hussain is taking the 25-year-old APG to the new heights, beginning with the

rebranding of the school as embodied in its new logo.

In APG, we seek to present a holistic education where each student finds his/her identity, passion, and life goals.

Led by its longstanding leader and Head of School, Ms Ebtisam Al-Zeera, APG is constantly aiming towards high morals and global competence in producing well-balanced and lifelong learners.

We in APG create a community of learners who are: creative, self-directed, and happy; adaptive and responsible citizens; resilient and compassionate towards self, others, and nature; emotionally and socially intelligent; and STEAM-competent and high achieving.

We express our values as PEARL to mean: Perseverance, Empathy, Ambition, Respect, and Leadership.

APG is a CIS-accredited school that offers the International General Certificate of Secondary Education and International Baccalaureate Diploma Programme in High School.

Website www.ais.edu.jo

Asamiah International School (AIS) is a co-educational, bilingual, and an IB continuum school. AIS encompasses various formal educational stages, commencing at kindergarten and transcending into the IB PYP, MYP and DP of education. In spite of this variability, AIS is committed to ensuring it creates a safe, thriving, open and loving milieu for each of the educational phases.

The students lie at the heart of the school's mission. The school recognizes and accentuate the importance of instilling certain principles and values in its students, all the while developing inherent qualities such as inquiry, thought, and imagination. This is interweaved into their learning experiences at school and further enhanced through their participation in community service and social development.

AIS aims to provide every learner with the finest education possible. The school continuously works on developing rich, holistic and rigorous conceptual-based curricula that is delivered through vibrant and engaging teaching approaches deeply stemmed from the IB pedagogy and practices. Teaching approaches are tailored to meet the students' preferences and diversity, and are aimed at developing and challenging students' skills and abilities so they may become independent and confident learners. Furthermore, the programme is conducted in compliance with the demands of the 21st century, and as such is constantly progressing to integrate new knowledge, approaches, facilities and areas of study. The recent integration of artificial intelligence as an additional field of study, is perhaps an evident example of such advances.

The after-school activities are designed to complement the school's programs and provide students with an opportunity to acquire extra-curricular skills.

At AIS, we prepare children for the real world. A means to such preparation is linking the learning to the real world. This may help students understand the context of their studies for them to better fathom the sphere in which they inhabit.

Moreover, the school is promoting students to become international-minded citizens who embrace differences and are more tolerant towards the spectrums of people. A means to achieve this is encouraging students to become proficient at multiple languages. Therefore, the school offers language courses in Arabic, English and German. Multilingualism will allow students to encounter a new culture, learning their modes of communication and thus establishing a more in-depth understanding of their views and behaviors. This will contribute to their international-mindedness and ability to interrelate to a given global context.

It is such cornerstones and principles that allow the AIS to emulate alongside excellent IB schools in the country. The school observes the students as they progress from year to year, making many academic, social and physical achievements and evolving into autonomous learners. Upon completing their journey at AIS, the students would have received optimal learning and have been able to leave a tangible impact in their community through positive action and service.

As such, AIS students tend to exhibit outstanding characteristics and remarkable results. Upon embarking on a new phase of life, they continue to withhold such standards at heart. The school is pleased with the AIS alumni, who have been able to make many personal and academic realizations, and the school continues to strive in delivering excellence to help benchmark a better society; a better world.

**Ethos**

The Sixth Form at Ashcroft Technology Academy is an exceptional place to learn. Students and staff have worked together to create a culture of aspiration and success. Our students enjoy their time at the Sixth Form and are given superb support and guidance, which combined with excellent teaching, enables our students to excel.

Academic

Students leave our sixth form articulate, confident, accomplished and ambitious young adults who understand the importance of rigour and high standards. Underpinning our proven track record of success is a team of highly motivated, hard working and qualified staff who have an unreserved belief in the ability and potential of young people to succeed. Our IB results are outstanding: in 2022 our average points score was 40 and the average grade per subject was 6.2. Each year, a number of students achieve over 40 points, allowing them to accept places at the very best universities such as Oxford, Cambridge, Imperial and universities outside of the UK.

Outside the Classroom

The extracurricular provision at the Academy is virtually unrivalled. Every member of staff at the Academy runs a

club or society, providing our students with a wealth of enrichment opportunities. Advanced Collective Orchestra, Debating Society and Model UN have been particularly popular with IB students. Students attend a range of workshops, lectures and conferences both within and outside of school. The Academy offers a range of leadership opportunities, from House Captains to the Head Student Team. Furthermore, students who display a particular passion for a subject may also apply for our scholarship, receiving up to £500 to put towards an opportunity to develop in that field. Examples include pre-med courses or university summer schools.

Location and Facilities

Ashcroft Technology Academy has a superb location in South West London. Waterloo station is just 15 minutes away by train and we are located adjacent to the A3 and East Putney underground station. Facilities are exceptional; our purpose built Sixth Form Centre has a university style study area, classrooms designed for Sixth Formers and a Sixth Form exclusive annex to our main school library. Additional to our excellent existing resources, the Academy boast 10 state-of-the-art science laboratories, a sixth form Art Studio and two professional quality fitness suites.

MISSION AND VALUES

The Bahrain Bayan School provides students with a comprehensive bilingual education, rooted in Arab identity and Bahraini culture. We develop students who have confidence in their abilities and embrace their responsibilities as national and global citizens. Our graduate profile represents our school’s core values that aim to develop compassionate, internationally-minded citizens who thrive in a challenging, changing, and highly technological world.

SCHOOL AND COMMUNITY

The Bahrain Bayan School (BBS) was established in 1982 by Dr. May Al Otaibi and Mrs. Kathleen Acher Kaiksow. The BBS is an independent, national, non-profit, coeducational, bilingual school in Arabic and English, catering to students from KG to Grade 12. It is accredited and licensed by the Bahrain Ministry of Education, under the Bahrain Government law, in addition to an accreditation by The Middle States Association of Colleges and Schools (MSA). The school is classified as an ‘Outstanding’ school based on evaluation by the Bahrain Education & Training Quality Authority (BQA).

The school community consists of dedicated parents who represent the highest levels of government, business, and industry in the Kingdom. We have a strong home-school partnership. The parents’ active participation in the cooperative education of Bayan School children is an essential component in the success and achievement of our students.

CURRICULUM AND IB PROGRAMME

BBS offers a challenging English and Arabic college preparatory program with a strong emphasis on the development of language and literacy skills.

An IB World School since 1993, BBS offers our junior and senior students a highly competitive IB program that yields excellent results.

The school adopted the AERO standards in 2011-2012 as the basis for the curriculum in Grades 1-12.

EXTRA-CURRICULAR PROGRAMS

BBS offers diverse programs that provide a wide range of activities and opportunities for participating in both local and international competitions and initiatives.

- **Bayan Model United Nations (BayMUN):** a signature BBS program, THIMUN affiliated, student-led, hosted annually for the past 15 years with around 600 participants from local and international private and public schools. BBS also participates annually in international MUN Conferences, in countries such as Italy, Ireland, Greece, and Russia.

- **Athletics:** Soccer, volleyball, basketball, badminton, table tennis, tennis, golf, cross-country, and track and field are available at the Junior Varsity and Varsity level.

- **Activities and Clubs:** National Junior Honor Society, National Art Honor Society, Student Government, Robotics and Programming, Global Young Leaders, and UNESCO World Heritage and Community Service.

Inspiring global citizens and future changemakers

The Bavarian International School (BIS) is a community of more than 1,200 learners and 180 education leaders, working together to bring out the best in young people from over 60 nations, all within a caring and international environment. BIS students are supported to become global citizens with outstanding language and communication skills, an intercultural mindset, and a deep understanding of digital technology and modern collaboration.

BIS is an International Baccalaureate (IB) World School, spanning two campuses in Munich-Schwabing and Haimhausen, where talented, globally-focused educators care for students ages three to 19. BIS is a private, non-profit, all-day school which ranks among the best international schools in Germany and in Europe (IB Diploma score average at BIS in 2022: 36 points). In addition, BIS is the only international school in Germany offering all four IB programmes (PYP, MYP, DP, CP).

A caring, international community

About 75% of BIS students come from international families, with the other 25% of students coming from local Munich families. One of the school's strengths is its connected, intercultural community which is continuously developing through a spirit of caring and inclusion.

“The children and young people are just happy at BIS. This positive spirit immediately inspires new families and every visitor,” says Dr. Chrissie Sorenson, Head of School at BIS.

The caring culture at BIS is further defined by additional guidance for students at every turn: language and learning support, mentors, school counsellors, and university and career counsellors. Students are encouraged to develop themselves outside of the classroom as well, by taking part in one of 80 after school activities. These include drama, music, engineering, multimedia, athletics, as well as some signature programmes, such as the Model United Nations, the Duke of Edinburgh International Award, and the European Eco School project.

Digital pioneers

Educational technology has been an integral component of the learning philosophy at BIS for nearly 20 years. From Early Childhood to Grade 3, we work with iPads as class sets; in Grades 4 and 5, each student receives an iPad from BIS; in the Secondary School from Grade 6, the “Bring your own device” (BYOD) program applies. The combination of digitally-savvy teachers, IT team and helpdesk team underlines BIS as a digital pioneer.

BIS – a school of the future, already today.

Established in 1972, BEPS International School is situated in the heart of one of Brussels' most desirable areas, close to the Bois de la Cambre and the University (ULB). BEPS caters for children between 2.5 – 18 years old. The school aims to achieve its full capacity of 450 students in the coming years.

Our campus hosts an Early Years centre with an outdoor space, a Primary building with a cosy and inviting atmosphere and a brand-new Secondary building with a variety of "Co-learning" spaces. The transformation of the new secondary building in 2022 gave BEPS the opportunity to design spaces for innovative, authentic, and engaging learning; this matches the BEPS approach to learning.

The school offers inquiry-based learning through the International Early Years Curriculum, the International Primary Curriculum and the International Baccalaureate® Middle Year, Diploma and Career related Programmes (IB-MYP, DP & CP).

We recognise that each student has their own unique learning pathway, which we help them navigate, allowing them to dream big and shape their future. With small class sizes and individual attention, we meet each student where

they are, fostering them to growth and engagement with the world around them.

BEPS takes a unique approach to delivering the IB curriculum, giving students the opportunity to be creative and innovative. Projects, critical and creative thinking skills and wellbeing form the core of our Middle School programme and are excellent preparation for the demands of the final years of secondary school. We give students the choice of where and how they learn best, building their skills to meet the needs of the 21st century.

Our learning and language support team helps students integrate into the school and supports them as needed. French is taught as a second language from the Early Years, and the development of the children's Mother Tongue is encouraged. Fluent French speakers are also able to obtain the Bilingual MYP Certificate and IB Diploma. Students also benefit from PE, Swimming, Music and ICT lessons, all of which are taught by experienced Specialist teachers. A wide range of after-school clubs and holiday clubs are available, as well as a garderie and a door-to-door bus service.

Box Hill School is a co-educational day, flexi, weekly and full boarding school for girls and boys aged 11-18 in the heart of beautiful Surrey Hills. Central London is easily accessible, and we are just 30 minutes from Heathrow Airport and Gatwick Airport. We are a founding member of Round Square, a global network of schools that share a passion for learning through experience and character education, basing its educational philosophy on the teachings of educationalist Kurt Hahn. We follow this philosophy through our IDEALS of Internationalism, Democracy, Environmentalism, Adventure, Leadership and Service which underpin our school ethos and values. There are opportunities for pupils to participate in global and regional conferences, exchange programmes and overseas community service projects.

Academic – The Curriculum

The Lower School for Years 7, 8 and 9 follows the National Curriculum as well as broadening its scope to ensure that courses are constructed to suit the abilities and interests of our students. In the Middle School we provide a wide range of GCSEs and IGCSEs and in the Sixth Form we offer our students the choice of the International Baccalaureate Diploma Programme (IBDP) or A Levels. Our IB Diploma is academically rigorous and well-respected by prestigious universities within the UK and beyond.

We offer a wide range of IB subjects: English, French, German, Spanish, Italian as well as SSST courses in other languages; Business Management, Economics, Geography, History and Psychology; Biology, Physics, Chemistry, Sports, Exercise and Health Science and ESS; Mathematics; Visual Arts course and Music and Theatre.

We offer a 2 week Summer Pre-School English course which

help students raise their English Language CEFR level, as well as gain invaluable British boarding experience. Students may also study here on a one year Pre-Sixth course (accelerated GCSE programme) to gain valuable qualifications ahead of joining the mainstream Sixth Form courses.

Co-Curricular

At Box Hill School, we are committed to producing well-rounded young people which is why we provide every pupil with a wide range of co-curricular options to develop their interests and to gain life skills. There are over 50 options which are timetabled during the school day. Pupils can choose from coding, producing podcasts, jazz, drama production and many more. Athletic interests are catered for, with team sports and weekly fixtures along with many other active options on offer.

We are actively involved in the Duke of Edinburgh’s Award Scheme which runs in parallel to our programme of expeditions.

Boarding

The Independent School’s Inspectorate report, 2019 stated *“They (the students) enjoy school and thrive in the nurturing and supportive environment provided by the excellent pastoral care system and family atmosphere in boarding and day houses.”*

Boarding life is structured around 6 boarding houses, all within a home-from-home environment. Pupils are placed according to age and gender, with a mix of nationalities and cultures. Our fees include weekly weekend trips as well as campus based activities.

We are proud of the independent, well-rounded young people who graduate from Box Hill School.

Set in the village of Bradfield amidst unspoilt Berkshire countryside, Bradfield College enjoys a well-established reputation for being one of the country's leading co-educational, independent schools through its provision of academic excellence and a well-rounded education.

The College welcomes pupils from Britain and overseas and provides challenge and choice for all. We offer a personalised programme of study that is inspired by expert, passionate and engaging teaching and focuses on providing an education for life. We are acutely aware of the global community in which pupils will live and work when they leave the security and dynamism of Bradfield.

The Bradfield Sixth Form aims to provide an outstanding all-round education to prepare young people for success in a rapidly changing world. We care about the individual and pride ourselves in the warmth of a community in which young people feel happy and valued. We aim to foster an environment of high expectations in which all our students are encouraged to believe in themselves, to be inquisitive, to be resilient and to show ambition both within and beyond the classroom.

The IB Diploma Programme focuses on the education of the whole person whilst also seeking to provide an international perspective. This is very much in line with Bradfield's own education for life ethos and values. The IBDP emphasises the importance of Language, Science and Mathematics, as well as the Arts and Individuals and Societies. At the core of the curriculum model, Theory of Knowledge, Creativity, Activity and Service and Approaches to Teaching and Learning, both inside and outside of the classroom are all elements that Bradfield views as essential to an all-round education. We offer an unrivalled sports and co-curricular programme for all our pupils which ensures that every individual has the opportunity to develop valuable skills, wherever their interests lie. The need to complete the Extended Essay sits perfectly with Bradfield's drive towards creating independently-minded and curious young men and women by the end of the Sixth Form. In short, the IB Diploma and Bradfield fit perfectly together.

FLAIR, DISCIPLINE, ACADEMIC RIGOUR

Set in 100 acres of beautiful parkland, Bromsgrove School caters for 1300 pupils with over 400 pupils in the hugely popular sixth form. Main intake is at ages 7, 11, 13 and 16, with international pupils joining at any of these stages.

Bromsgrove takes girls and boys between the ages of 7 and 18 in the hope of nurturing compassionate people who change the world for the better. International Baccalaureate and A level results place Bromsgrove in the first division. These impressive results combined with a massive sporting and extra-curricular programme means that at Bromsgrove breadth and quality are not mutually exclusive.

Life at Bromsgrove is dynamic. Great boarding schools offer pupils a home, not a place to sleep after work. People, not systems, must come first. The houses are different, as boarding houses in the best schools should be, but there are core values and structures shared by all. Houseparents are resident in the boarding houses with their own families. They are academic staff and are supported by a housemother. Bromsgrove boarders see family life going on around them. Each house has a dedicated tutor team, doing day and evening duties on a rota basis. Support, encouragement and trust are the watchwords.

A mix of over 50 different nationalities makes Bromsgrove vibrant. Bromsgrove School has an active International Students Department with full-time teachers who provide pastoral and academic support, specialising in the particular needs of the international pupils in the school. The department focuses lessons on the development of English language skills. International pupils are prepared for internationally recognised tests of English as an Additional Language. Bromsgrove results are outstanding: the IB Diploma average score was 39.3 in 2022.

Bromsgrove offers a unique weekend programme, covering a huge range of timetabled options from exclusively academic sessions to school trips. All staff work Saturday and the Sunday boarders' programme is extensive.

Admission for international students is by entrance test and, where possible, interview. Prospective students and their families are encouraged to visit. The Admissions Director has an extensive programme of international visits each year and will always try to meet prospective pupils in their own countries when she visits.

admissions@bryanston.co.uk

Website

www.bryanston.co.uk

Bryanston is different from other independent schools. Inspired by 90 years of innovative practice, our approach to education and our distinctive culture nurtures purposeful, curious and well-rounded individuals.

At the heart of Bryanston's approach is our distinctive method of education, the Bryanston Method. It has been the keystone of the School's philosophy since our foundation in 1928, tailored to the needs and interests of each pupil. There is no Bryanston 'type' – we want our pupils to think for themselves.

Alongside high academic standards and expectations, we provide an emotionally and intellectually supportive environment, allowing pupils to develop independent, creative, and unbounded thinking. We encourage innovation and creativity in all areas of the curriculum, believing that imagination, perspective, and boldness are applicable in all subjects.

Pastoral care sits at the centre of everything we do and integrates with the academic through our one-to-one tutorial system. Each pupil is carefully matched to their tutor and the relationship lasts for the duration of their time at Bryanston. The tutor guides each pupil in becoming responsible for their own learning and discusses their wellbeing and progress at the weekly tutorial.

This ethos is reflected in the principles of the IB, making it a natural fit at Bryanston where we offer both the IB Diploma Programme and the IB Career-related Programme. In 2022, our eighth cohort of IB Diploma pupils achieved an average score of 37 points.

Entrance procedures for our IB courses at Sixth Form require candidates to sit both an English and a maths test, have an interview with the Head and meet Heads of Departments. Candidates unable to attend our Test and Interview Day can sit their papers at a suitable venue overseas and have a Skype interview with the Head. Successful candidates are invited to an induction week in July to explore their chosen subjects before confirming their academic programme. This gives candidates the chance to familiarise themselves with the School, make friends and get to know their tutor. You can also attend an Information Afternoon, held in the autumn before you would be due to join us.

Outside the curriculum there is a fulfilling academic enrichment programme, as well as over 100 extra-curricular activities ranging from beekeeping and music production to eSports and filmmaking. As a full-time boarding school, weekends are an integral part of life at Bryanston, with the chance to participate in a range of sports fixtures, outdoor activities and rehearsals.

www.charterhouse.org.uk

Motto: *Deo Dante Dedi*

Founded in 1611, Charterhouse is one of the UK's leading independent boarding schools, providing a first class education for boys and girls aged 13 to 18.

Campus

The School is set within an inspiring 250-acre campus, conveniently located close to London and within 50 minutes of Heathrow and Gatwick airports.

With 17 grass sports pitches, 3 full-sized Astro turf pitches, an athletics stadium, a sports centre, 24 tennis courts and a 9-hole golf course, not to mention beautiful lawns and gardens, the campus is one of the best, if not the best, in the country. Combined with a 235-seat theatre and separate music performance and art display spaces, the School's setting encourages pupils to contribute, and provides a safe community in which to explore and grow.

Academic

Charterhouse offers a rigorous intellectual education both for pupils choosing the IB Diploma Programme and those following the British A Level curriculum. The IB DP provides both breadth and depth, and every opportunity is taken to promote cross-disciplinary working notably in pupils' choice of the Extended Essay. Intellectual curiosity is piqued by the huge range of academic clubs and societies operating during the afternoons and evenings, and students are even encouraged to set up their own with the organisational and financial support of the 125-strong academic faculty. The university destinations of leavers reflect both the ambitions

of students and the quality of teaching on offer: 80% of Carthusians attend UK Russell Group institutions, and 2022 leavers obtained places at Oxford, four different Ivy League institutions, as well as several top European universities.

Co-curricular Activities

Co-curricular activities are an essential element of a Charterhouse education. They combine opportunities for leadership development, creativity, exercise and team work. They are also great fun. With more than 80 different sports and activities, including outdoor pursuits, music, drama and other creative opportunities, all pupils are encouraged to develop existing interests to exciting levels and to take up new ones. All pupils have the opportunity to enjoy themselves across a wide range of sports and creative arts, making use of the School's impressive facilities.

Boarding

The House is the centre of every pupil's life, and the Houses offer a strong sense of identity and community. House spirit is encouraged by competitions in a wide variety of activities, from art to water polo, and House colours can be awarded for cultural and sporting achievements, as well as upholding the School's values.

The Heads of Houses and their families live in the Houses, and are supported by a team of pastoral staff and tutors. Each tutor has a small number of pupils with whom he or she meets at least once a week to provide the help and encouragement that enables every pupil to make the most of life at the School.

It is fair to say that every pupil at Charterhouse feels that their House is the best!

Admissions

Around 60 pupils join the Sixth Form each year. Admission is by competitive examination and interview. Boys and

girls should submit an application form by October of the year before entry, and will be assessed at Charterhouse in early November. Offers of places are made on 1 December. For further information please contact the Admissions Department: admissions@charterhouse.org.uk.

Casvi Educational Group was created in 1985, when Mr. Juan Yagüe Sevillano – who had spent 20 years working in education – founded the first Eurocolegio Casvi in Villaviciosa de Odón. From its beginnings with just one classroom per grade, it is grown into a large international private school with almost 1,300 students and 120 teachers.

Established in 2017, Casvi International American School is a private, international, American and co-ed school, located in the north of Madrid, and based on the American school system whose mission is to educate and create citizens of the world.

At Casvi International American School we are constantly adapting ourselves to society's new needs and requirements, and we educate our students for a successful personal and professional future. That is why we have a deep and ongoing commitment to innovation, both in terms of leveraging new technologies to help to learn and to introduce new teaching methods.

A fundamental pillar of our school is the implementation of the three International Baccalaureate (IB) study programmes at all teaching levels: the PYP (Primary Years Programme), MYP (Middle Years Programme), and DP (Diploma Programme). Casvi International American School is an authorized school for the three IB programmes mentioned above.

The International Baccalaureate methodology uses a skills-based, constructivist methodological framework designed to educate students to be inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced, and reflective.

In addition, international-mindedness, language acquisition and encouraging students' talents have been the foundation of this education system for more than three decades.

Young people from all over the world live and learn at Casvi International American Boarding School, where they develop deep friendships that last forever. Our main mission is to make our students grow personally and intellectually to achieve a real advantage in university, in the world of work, or in any real-life situation through the detection and development of talent, with an entrepreneurial spirit and an ethical commitment to our society.

Cultural exchange, recognition of diversity, acceptance and mutual respect make up our philosophy. Life at Casvi International American Boarding School is a life-changing experience. In our 25,000 sq. m. facilities, students not only find out about their interests, but also develop their talents.

Life in the residence offers a wide variety of fun and interesting activities. Being a resident student at Casvi International American Boarding School is fun and educational... it's like having a big family!

Colegio San Patricio is a coeducational day school which provides Spanish education and IB Diploma Programme for children from 18 months to 18 years old.

Trusted generation after generation since 1958, our curriculum embeds and continually innovates with proven pedagogical methodologies, in order to offer a unique and comprehensive educational model. In our three campuses in Madrid we nurture every child's individual passions and talents in order to ensure that they flourish.

*CSP school listed as "The No.1 best school in Spain" (El Mundo, 2022 – "100 Best Schools in Spain" guide)

- Colegio San Patricio, has been ranked in the Top 10 among the best 50 schools in Spain according to Forbes Magazine.

San Patricio was founded in 1958. Since then, we have had the honour of educating generations of students.

Going to school at Colegio San Patricio means that you are part of more than just a school. You become part of the SanPa Family.

IB at Colegio San Patricio:

Our El Soto campus enjoys an unbeatable location in Soto de La Moraleja. Here, secondary cycles are taught after which students can choose between National Baccalaureate or International Baccalaureate. The school offers facilities

specifically designed and built for children between the ages of 12 and 18 years and has a capacity for more than 800 students.

IB at San Patricio is more than simply a qualification, the IB Diploma provides a distinctive educational experience. It allows students to study a wide range of subjects throughout their final 2 years at school, while giving them the freedom to choose which subjects to study in greater depth.

IB students follow the Creativity, Activity, Service (CAS) programme, prepare an Extended Essay and take the Theory of Knowledge course.

2022 graduates enjoyed outstanding IB results, achieving a fantastic average grade of 34, an average grade 2 points higher than the world average (over 45 points).

Our school has achieved a 100% pass rate. 11% of our IB Diploma students have achieved more than 40 points and 17% have achieved more than 38 points. The highest grade achieved so far was a very impressive 43.

Thanks to their outstanding results our students have been accepted by some of the best Universities in the world such as Imperial, Bath, UCL in the UK, and Georgetown and University of California in the USA.

Colegio Virgen de Europa was founded in 1968, we have celebrated our 50th anniversary as one of the leading schools in Madrid.

Since then, CVE has been committed with a fulfilling learning experience that involves culture and nature, developing critical thinking and creativity as pillars of a well-rounded education connected with the surrounding environment.

Our IB Diploma Programme relates to the school philosophy where the IB students can develop not only academic performance but also a holistic approach to the world we live in. Our students are eager to find answers by themselves connecting, extending, and challenging their inquiry and critical thinking profile.

Building knowledge is beyond our classrooms, CVE motivates young minds through school trips, art exhibitions, theater plays and interesting lectures with the aim to inspire our students to find their passions.

CVE physical education is a key element in our educational values since the early years, our school offers a variety of different sports, performing in our facilities, CVE counts with gym, running track, tennis and paddle courtyard surrounded by a quiet and peaceful environment in Madrid suburbs. In our IB Diploma, students carry out a Wellness & Mindfulness program as well.

CVE offers the IB Bilingual Diploma Programme through nine different itineraries that encompass subjects from Sciences to Environmental Systems, Social Studies, Design & Technology, and Visual Arts; led by passionate teachers who guide students through this meaningful learning process with full commitment to the IB mission.

Enhancing and motivating our IB students to be the best version of themselves in the path they have chosen and hence, leave trail.

We are an international day and boarding school located in Geneva, Switzerland. Our programmes offer tailor-made learning journeys and inspire students from Pre-school through to Grade 12 to be their best selves. We open doors for our students by creating a diverse and inclusive learning community that flourishes.

Our school sits on an 8-hectare landscaped campus nestled between the Jura mountains and Lake Geneva, 15 minutes away from the Geneva international airport. It offers comfortable residential facilities and recreational areas, providing students with a wide range of sport and leisure activities. In addition to our commitment to excellence in education, our philosophy also includes stimulating enthusiasm for lifelong learning and personal growth.

We have offered the IB Diploma Programme (DP) since 2005 and the IB Career-related Programme (CP) since 2016. Our 2021 Pass Rate for both programmes are an impressive 100%! The IB DP is very successful and attracts around half of our graduates every year. Our broad choice of subjects allows

students to focus on their strengths and fulfil their interests. This, combined with a strong pastoral programme, which incorporates wellbeing as an essential part of students' education, and the professionalism and dedication of our teachers, contribute to consistently excellent exam results. For the IB CP we offer three career-related studies within the framework of Sustainable Business: Nature Conservation, Hospitality and Fashion. Each course is unique and has been developed in partnership with the Sustainable Management School in Gland. Students, in addition, study a minimum of 3 IB subjects. Our IB DP and IB CP graduates come from over 100 countries and our university advisory programme enables them to enroll in one of the universities of their choice, worldwide.

We belong to the Nord Anglia Family of schools, a worldwide group of elite schools, which offer students the highest standards in education and unique, international learning opportunities.

Collège Du Léman-Made for success, Made for you!

The DSL is part of a long-standing tradition of excellence in the worldwide network of more than 140 German Schools abroad and we currently welcome 870 students from 30 nations at our school in Richmond.

We strive to empower our students, encouraging them to be open-minded, curious and committed learners as well as responsible members of our local community within an international context. We offer an appealing and challenging educational programme from Kindergarten to our dual programme in Years 11 and 12 with the International Abitur (DIA) and the IB Diploma.

This dual qualification (Abitur and IB DP) uniquely equips our students with bilingual (German and English) academic competencies, permitting them to meet the challenges of a university education and supporting them in becoming independent, global-minded citizens. In general, all students completing Year 10 at the DSL, or a comparable qualification with good academic results, are eligible to apply to the dual programme (Abitur and IB DP) at the DSL.

In combination with the Abitur subjects, IB students complete three higher level (HL) and three standard level (SL) courses as well as the core requirements (ToK, CAS, EE)

for a full IB Diploma. Students may choose between German and English as their IB Language A (HL and SL) and Spanish or French as IB Language B. Furthermore, we offer History, Economics, Geography, Psychology (SL), Biology, Chemistry, Physics, Mathematics Analysis & Approaches (SL) as well as Visual Arts (SL) and Music (SL). All Year 12 students at the DSL take their Abitur exams between February and April, ahead of their IB exams in the May session of the same year, which promotes thorough preparation for both examinations.

In addition to the full dual qualification (Abitur and IB Diploma), the DSL offers the category “course candidate” (CC), i.e. Abitur students may enrol in two or more individual IB courses and/or core elements, which allows them to study a subject of particular interest in more depth or to build a profile for their university application.

Quoting one of our 2019 alumni, “*The decision to go for the dual programme at the DSL is based on two things – an interest in a variety of subjects and a wish to challenge yourself. Additionally, the DSL isn’t just a school, it is a community of students, parents and teachers that one feels connected to and welcome in at all times.*”

Join us at Dwight School London where we are dedicated to crafting a personalised journey for every student, which we call “igniting the spark of genius in every child”. We invite you to visit us to see our school’s warm, engaging environment and experience our spark of genius philosophy in action.

A member of the world-renowned Dwight global family of schools, we share the same commitment to personalising education which began nearly 150 years ago when Dwight was founded in 1872 in New York and 1972 in London.

Our students are encouraged to pursue their passions, believe in their own talents and celebrate and learn from the perspectives of others. They are also inspired to take intellectual risks through the academically rigorous International Baccalaureate curriculum – a pathway to top universities worldwide – nurturing creative critical thinkers empowered to help make our world a better place

We are one of the UK’s first IB World Schools to offer the full IB curriculum:

The Primary Years Programme (PYP) – ages 2 to 11

The Middle Years Programme (MYP) – ages 11 to 16

The Diploma Programme (DP) – ages 16 to 18

Through Dwight School London’s personalised learning, EAL and mother tongue programmes, we enable all students to access the IB curriculum and become successful global citizens.

Through the academic breadth and depth of the IB, we nurture inquiring, knowledgeable and caring young people who help to create a better, more peaceful world through intercultural understanding and respect.

Our school rests on three pillars:

- **Personalised learning:** Customising an education for every student. We pride ourselves on getting to know each of our students and their families quite well. We shape the learning journey around how students best learn, where their skills lie, and what sparks their interest.
- **Community:** Encouraging students to contribute to their school and wider communities. Through service learning, we foster every student’s ability to make a positive difference to our school, among neighbours, and in the world beyond.
- **Global vision:** Educating global leaders. With students from around the world, Dwight is a culturally and socially rich and diverse school. We nurture learning within our own international community, the IB’s larger global context and our network of Dwight Schools across continents.

The Eastern Mediterranean International School (EMIS) is an independent, non-profit boarding school located in HaKfar HaYarok, a green youth village within a short driving distance from Tel Aviv, Jerusalem, and Ramallah, founded in 2014 with a mission to make education a force for peace and sustainability in the Middle East. EMIS hosts students from 50+ countries and offers an inclusive program to ensure mutual understanding, cultural appreciation, and a positive diverse environment.

Our village campus has a dining hall, park, gym, sports courts, music building, library, and many other student facilities accessible to every student living in the area. The EMIS campus is located close to one of the sports courts and the dining hall and includes several dorms and classroom buildings with a lab, art room, music room, and study rooms.

With a student body composed of 20% Israelis, 20% Palestinian and Arab students, and 60% international, students from different backgrounds live and study together, gaining an education that focuses on leadership, academic excellence, diplomacy, peacebuilding, and sustainable development. EMIS works to foster independent leaders, creative thinkers, and open-minded students.

The school offers a preparatory year for the IB (Pre-DP for 10th grade) and the International Baccalaureate Diploma (IBDP) for 11th and 12th grade.

Admissions are on a rolling basis and solely merit-based, while scholarships are entirely need-based. To join EMIS, all applicants go through the same process of filling out our online application which can be easily found on our website.

Mission – Peace and Sustainability

The ongoing Israeli-Palestinian conflict has seriously impacted the future of Middle Eastern youth and youth around the world. EMIS's mission is to bring peace and

sustainability to the region through transformative education, while also teaching students to introduce change in their own international communities. Challenging socio-economic divisions, EMIS unifies teenagers in a multicultural environment, fostering dialogue, peace, and understanding while offering special programs focused on conflict resolution and diplomacy.

To complement the curriculum, we offer Mission Class, a course that develops the changemaker capacities of students, helps them integrate a stronger alignment with our mission, and harvest a deep understanding of conflict-resolution.

CAS, Projects, and Extracurriculars

We offer 60+ CAS Activities, ranging from sports, arts, social and environmental initiatives, and much more! To illustrate the deep impact of our projects, we expanded on 4 out of 100+ activities that students can join.

Project Oasis

A student-led initiative in engineering that aims to collect electricity and water from the air. The system they are developing accomplishes this using organic Rankine cycle and condenser technology.

They aim to produce 6 kilowatts of energy and 1,000 liters of water every day to significantly reduce global water shortages and provide clean water and energy in impoverished areas; all while being carbon neutral in operations. The solution will continue to deliver benefits to students at the school for the next 50 years.

STEPS Of Change

A student-led project that contributes to the educational lives of disadvantaged students who are in conflict zones by teaching them English and assisting with educational opportunities.

As some of their teaching groups consist of Palestinian and Israeli English speakers, STEPS of Change aims to also demonstrate how youth can collaborate regardless of their different perspectives in a conflict environment.

YOCOPAS

YOCOPAS is an annual student-led three-day conference that aims to establish a collaborative platform for conversations and discussions between young leaders from Israel, Palestine, and all around the world. Participants have opportunities to learn from each other, attend lectures, workshops and form initiatives for peace and sustainability in their local communities.

Green Up

Green Up is a student-run organization that focuses on education and awareness, activism, and promoting sustainability. Our planet faces unprecedented challenges such as climate change, depletion of natural resources, and threatened biodiversity; our students tackle those problems by being part of climate marches, planting trees, attending international climate conferences, doing beach clean-ups, and many other engaging activities yearly.

Pre-DP at EMIS (10th grade)

The Pre-DP program at EMIS is a one-year program for

students in 10th grade (in 9th grade during the application process) who aspire to join the IB Diploma Programme in years 11 and 12. It is a skill-based program that develops a variety of approaches to learning for each student such as thinking, communication, self-management, research, and social skills. Experienced IB teachers design each course and use a personalized approach to help support a growth mindset and develop self-efficacy in each student.

IB at EMIS (11th-12th grade)

EMIS offers a range of IB Diploma Programme (DP) courses that allow students to plan a track of study best suited to their individual strengths, interests, and goals. The combination of Standard Level (SL) and Higher Level (HL) courses along with the considerable latitude available in choosing an Extended Essay topic, allows each student to focus in-depth on mathematics, humanities, or sciences. At the same time, the student enjoys the benefits of a broad-based liberal arts education. During the two years of the Diploma Programme, students have ample opportunity to review their work, knowledge, and skills with their teachers before internal and external assessments. A range of practice tests and assessments prepare students for externally graded examinations in their final year.

Founded in 1899, École des Roches is an international coeducational day and boarding school located on a spacious wooded campus in the heart of the beautiful Normandy countryside. We welcome students aged 11 years to 18 years from 52 nationalities to our Middle and High school.

École des Roches offers several programmes: French curriculum, International curriculum with the IB Diploma Programme, French as a Foreign Language short stays or full academic year, and also summer and winter intensive language courses.

International Baccalaureate Diploma Programme

In response to the needs of its increasingly international community, École des Roches has been an IB World School since 2016, offering the International Baccalaureate Diploma Programme in English.

The school offers as well a special Pre-diploma year to prepare our students for the International Baccalaureate.

We also advise our students in their career choices and accompany them throughout the university admissions process.

In École des Roches, the IB Diploma Programme is characterised by:

- Its academic breadth, depth and rigour
- Small class sizes with individualized academic support
- The attention it gives to international awareness and the development of socially responsible citizens of the world.

In addition to preparing the students for the IB Diploma, all of our students are encouraged to take advantage of the school context, heritage and resources to improve in their French language proficiency, whether that be at a beginner, intermediate or advanced level.

Boarding Life

Our Boarding School consists of 7 residences called Maisons, which are large historic Normandy houses. Boys and girls are divided by age range in these single-sex boarding houses.

Foreign students are together with French-speaking students in pleasant and recently renovated rooms. From the start, the educational focus of École des Roches has been to offer educational, psychological and emotional support to our students in order to promote their intellectual and personal development. Extracurricular activities on offer range from horseback riding and golf to karting on the school's course located on campus.

Admissions

Students can apply to our school all year-round based on availability. Students must submit two years of school reports, a letter of recommendation, as well as a letter of motivation. For further information about admissions or to schedule a visit of the school, please contact us at ecoledesroches@ecoledesroches.com.

Website

www.ecolejeanninemanuel.org

École Jeannine Manuel Lille is a non-profit coeducational school founded in 1992 and welcomes students from nursery to 12th grade. As the sister campus of École Jeannine Manuel Paris, the school has the same educational project and mission: promoting international understanding through bilingual education. An associated UNESCO school, École Jeannine Manuel Lille is the only non-denominational independent school in Nord-Pas-de-Calais, with over 900 pupils representing 50 nationalities and every major cultural tradition. The school's academic excellence matches its diversity: École Jeannine Manuel Lille is regularly ranked among the best French high schools (ranked first for four consecutive years). The school is accredited by the French Ministry of Education, the International Baccalaureate Organization (IBO), the Council of International Schools (CIS), and the New England Association of Schools and Colleges (NEASC).

École Jeannine Manuel Lille's campus extends over 8.5 acres. It includes a boarding house, a restaurant, and state-of-the-art sports facilities including a 1500 m² gym with its own climbing wall, a 300m racing track, and two outdoor playing fields. The boarding house currently welcomes 120 pupils from 6th to 12th grade.

Each year, École Jeannine Manuel Lille welcomes non-French speaking students. These students integrate the school through the adaptation program, which provides

intensive instruction in French, support in English as needed, help in understanding and adjusting to French culture, and differentiated coursework and assessment during their adaptation period. The lower and middle school follow the French national curriculum with several exceptions: English is taught every day and, in middle school, experimental sciences, history and geography are taught in English. The curriculum is enriched at all levels, not only with a more advanced English language and literature curriculum, but also, for example, with Chinese language instruction (compulsory in grades 3-4-5), an integrated science program in lower school, and independent research projects in middle school.

In upper school, tenth graders follow the French national curriculum, albeit taught 50% in French and 50% in English. In 11th grade, pupils choose between the French track (international option of the French baccalaureate (BFI)) and the International Baccalaureate Diploma Programme (IBDP). Approximately 25% of our pupils opt for the IBDP.

Admission

Although admission is competitive, the school makes every effort to reserve space for international applicants, including children of families who expect to remain in France for a limited period of time and wish to combine a cultural immersion in French education with the ability to re-enter their own school systems and excel.

École Jeannine Manuel is a non-profit pre-K-12 coeducational school founded in 1954 with the mission to promote international understanding through bilingual (French/English) education. An associated UNESCO school, École Jeannine Manuel welcomes pupils representing 80 nationalities and every major cultural tradition. The school's academic excellence matches its diversity: École Jeannine Manuel is regularly ranked among the best French high schools (state and independent) for its overall academic performance (ranked first for ten consecutive years). The school is accredited by the French Ministry of Education, the International Baccalaureate Organization (IBO), the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC).

Each year, the school welcomes more than 100 new non-French speaking pupils. These students integrate the school through our adaptation program, which provides intensive instruction in French, support in English as needed, help in understanding and adjusting to French culture, and differentiated coursework and assessment during their adaptation period.

The lower and middle school follow the French national curriculum with several exceptions: English is taught every day and, in middle school, experimental sciences, history and geography are taught in English. The curriculum is enriched

at all levels, not only with a more advanced English language and literature curriculum, but also, for example, with Chinese language instruction (compulsory in grades 3-4-5), an integrated science program in lower school, and independent research projects in middle school.

In upper school, tenth graders follow the French national curriculum, albeit taught 50% in French and 50% in English. In 11th grade, pupils choose between the French track (international option of the French baccalaureate (BFI)) and the International Baccalaureate Diploma Programme (IBDP). Approximately 25% of our pupils opt for the IBDP.

Over the past three years, approximately 20% of our graduating class have gone to US colleges or universities, 48% chose the UK or Canada, 37% entered the French higher education system, and the balance pursued their education all over the world.

Admission:

Admission is competitive and applications typically exceed available spaces by a ratio of 7:1. The school nonetheless makes every effort to reserve space for international applicants, including children of families who expect to remain in France for a limited period of time and wish to combine a cultural immersion in French education with the ability to seamlessly re-enter the school system in their home country.

Ecole Nouvelle de la Suisse Romande (ENSR) / International Boarding School of Lausanne (IBSL)

Academic excellence since 1906

We offer

- Complete schooling from Kindergarten, including a Montessori section, through to High School in French and/or in English
- Bilingual French-English Programme from age 3 to 18 years
- Swiss Maturity in French
- International Baccalaureate Diploma programme in French, English or bilingual French-English
- Sport and Study Programme (Basketball, tennis, golf, rowing, ice-hockey and more)
- All Cambridge, Goethe-Institut and Cervantes examinations
- Boarding facilities
- Ski Camp, Summer Camp, Windsurf Camp
- Holidays: day care for children aged from 3 to 7 years old

Languages

English is introduced at the age of 2.5 years old with French as the language of instruction until Grade 6 (11 y.o.). As of Grade 7 (12 y.o.), possibility to have English as the language of

instruction or a bilingual French-English Programme.

German is introduced in Grade 4 (9 y.o.). Introduction classes to Spanish, Italian and Latin are proposed in the Middle School (10-14 y.o.). Other languages are offered in High School (14-19 y.o.).

French or English for beginners are provided for new students, beginners and those requiring further support.

Summer Camp

Our summer camp takes place from July to mid-August for children aged from 9 to 18 years old.

Mornings, 9 am to 12 pm: French and English classes (elementary, intermediate and intensive) in preparation of the DELF and Cambridge Certificates. Students are placed according to their language level in classes of 4 to 7 students.

Afternoons and weekends: sports, leisure, cultural activities and trips.

Multisports formula (only sports, no language classes).

Boarding School

Boarding facilities are offered for students as from Middle school, Grade 7, 12 years of age.

Our boarding school provides a friendly and warm atmosphere offering security, care and support.

Boarding is offered for either 5 or 7 days per week.

Located on a tranquil tree lined historic country estate, we provide a top quality, rich cultural learning environment, with focus on health and wellbeing.

The learning experience at Eerde IBS is consciously small-scale to ensure individual attention for all students. Our approach toward learning allows our students to discover their true potential and empowers them to develop personal leadership and life skills. We do so by inspiring academic excellence, stimulating inquiring minds and developing our students as active members in their community.

The educational staff at Eerde IBS is international and highly qualified. Our staff guides and encourages each student to recognise their own style of learning and apply strategies to improve their study skills. In addition to our International Baccalaureate Diploma Programme (IBDP), we also offer a Pre IB class. The Pre IB class serves as a transition year prior to entering the IBDP, it is particularly well suited for students who wish to improve their English language skills before entering the IBDP or those students which are entering international education for the first time.

Complimenting our academic offer, Eerde IBS has a variety of extra curricular activities to enhance each students Eerde Experience. When school is out on weekday afternoons, students can participate in a range of sporting, cultural and social activities and discover their unique talents and interests.

Eerde's partnership with the Rijksmuseum offers students an Enriching Educational Experience, benefiting from the ongoing partnership through workshops, internships, exclusive exhibits and exchanges. This experience is especially beneficial for the International Baccalaureate Visual Arts students.

Eerde IBS offers both full and flexible boarding options. Our on-campus chef prepares homemade healthy meals that are enjoyed in the student bistro. The castle library and study centre provide a supportive environment to complete homework assignments or receive study assistance supervised by subject teachers and our educational support team. Our boarders share a double room and are looked after by our boarding parents, who are dedicated to creating a happy and safe home. The students can join a variety of activities offered during the weekends. All members of our boarding community treat each other with respect, honesty and tolerance.

Our alumni are accepted at universities throughout the world, including some of the top Netherlands research universities.

Please contact us through: admission@eerdeibs.nl or +31 529 451 452 or check us out at eerde.com

Ermitage International School is a bilingual K-12 school located in the historic town of Maisons-Laffitte, just 20km west of Paris. With a student body of nearly 1500 students, representing over 70 nationalities, Ermitage offers student-centered learning, with a focus on bilingualism and leadership. Weekday and fulltime boarding is available in traditional French residences.

- IB Programs (IB MYP & IB DP), 240 students enrolled, offering English instruction, with French lessons from a beginner to native-level.
- French Bilingual Programs (Primary to French bac, BFI) 1260 students enrolled, instructed in French.

IB Middle Years Programme (MYP) 1-5

The MYP encourages students to be active learners, asking challenging questions, as well as developing a strong sense of identity, cultural understanding and communication skills. During the MYP, our team of experienced teachers accompany and guide students on their journey to becoming IB Learners. Emphasis is placed on individual growth and encouraging students to reflect upon their classroom projects and co-curricular initiatives. Teachers facilitate students' learning and help prepare them for the rigorous demands of the IB Diploma Programme.

IB Diploma Programme (DP) 1-2

Within the dynamic, inquiry based environment, students are encouraged to think critically and become independent

learners. Assignments are demanding, but by graduation the calibre of research, writing and project management skills acquired mean our students are highly prepared for their tertiary studies.

Round Square

As a Global Member of the Round Square organization, Ermitage is connected to like minded schools, offering a variety of service-learning trips, global exchanges and leadership conferences. Students also discover their interests outside of the classroom through a daily co-curricular program with the opportunity to initiate projects, participate in leadership experiences, sports and more while connecting with local and global communities.

What sets us apart

- Student-centered approach with a balance of academics & character-developing projects
- Opportunities for student leadership via well-rounded daily co-curricular programs
- Teachers are approachable & serve as coaches, guiding students individually
- Students learn in engaging ways both inside & outside of the classroom
- Located in historic town 20km from Paris
- Weekday and full-time boarding is available in our traditional French residences
- Dedicated University Advising team

ES American School offers an independent, college preparatory American curriculum for 5 to 18 year olds (1st through 12th grades) located within the campus of the Emilio Sanchez Academy, Barcelona. Our Elementary is an authorized IB PYP school, offering the International Baccalaureate Primary Years Programme, a world-renowned curricular framework, where children learn to take ownership of their own learning, increasing confidence and self-motivation. In Middle School, the enrichment program supports students to have a broad range of learning experiences. The Advanced Placement (AP) program in High School offers students the opportunity to work at a more challenging level with the potential to earn university credit. Students who elect to take the Spanish program alongside the American curriculum are eligible to homologate their diploma.

With locations in Barcelona, Spain and Naples, Florida, USA, ES American School provides students with a truly international experience enabling them to excel both academically and athletically. All students receive individual attention, close academic guidance and personal counseling. The predominant language on campus is English.

Sports are an essential part of the curriculum and students benefit from the world-class tennis program and training facilities provided by Emilio Sanchez Academy. Our students have three distinct pathways with regards to sport: high-performance tennis (offered on-site), high-performance in other sports (offered off-site), including water polo, soccer, basketball, or horse riding OR our Physical Education Program for general fitness and well-being. ES American School, Barcelona is accredited by the Middle States Association of Colleges and Schools and is authorized by the Department of Education of the Catalan Government.

Eurocolegio Casvi International Private School is a private, co-educational school. Since 1985, its aim has always been to work with children and young people so that, when they finish their education with them, they are in an advantageous situation with respect to any citizen in the world.

The child who attends this school today, from Pre-School to Baccalaureate, is within an IB methodology (International Baccalaureate). An active methodology, closer, real, effective, and adapted to the current times in which a globalized society dominates. Organized and synchronized from year to year, it promotes, from an early age, skills and attitudes that will help our pupils to face their future with guaranteed success.

Furthermore, at Casvi, the three International Baccalaureate programmes (PYP, MYP and DP) are fully implemented, and we are one of the few schools in Spain to offer a continuum of IB programmes. Thanks to this, at Eurocolegio Casvi they have the possibility of modelling the attributes of the IB profile from the age of 3.

In addition to all this, there is a clear commitment to internationality. These are the tools to achieve this:

Multilingualism. Pupils learn English from the first year of life; and Chinese and German from the 5th year of Primary School. This is done in small groups, by levels, and with native and bilingual teachers. Thanks to this methodology, practically all of our students complete the Diploma Programme with CAE and/or PROFICIENCY qualifications.

Language Exchanges. These are organized without any intermediary agency, through direct contact with schools all over the world. In the USA they last two months and our students from the age of 10 take part in them. Those in Germany last two weeks, and it is our German MYP and PD students who enjoy this opportunity.

Presence of international students. The IB methodology, which seeks globalization in the educational field, invites many students from other countries to study at Casvi.

At Eurocolegio Casvi International Private School, the promotion of artistic skills is also very important. The aim is to detect the talents of the students, whatever their nature. Thus, the Schools of Art, Music and Theatre stand out.

As for the promotion of their sporting skills, they have swimming lessons as part of their school day and Sports Schools for Basketball, Football 7-a-side, Indoor Football, Rhythmic Gymnastics, Swimming and Synchronized Swimming and Athletics.

Finally, with regard to New Technologies, the aim is to increase STEAM vocations and achieve the professional development of pupils. It also aims to promote their technological competence from the early years to their prior incorporation into the world of work. This is based on Robotics and the most cutting-edge programming languages used in the real world of work, which have been introduced in a pioneering way in their educational curriculum from the 1st year of Pre-school with the subject of Technology, Programming and Robotics.

Founded in 1970 by Dr. Rüstem Eyüboğlu, Eyüboğlu Schools are a group of private co-educational schools offering bilingual pre K-12 education. Eyüboğlu Schools are comprised of six kindergartens, four elementary schools, three middle, one high school, and one science & technology high school located in different districts in Istanbul with its friendly, welcoming, green campuses.

Eyüboğlu Schools is the first Turkish school accredited by CIS. Eyüboğlu Schools have been an IB World School since September 1996, and are the first Turkish school authorized to offer all three IB programs; IB PYP, IB MYP, and IB DP in grades pre K-12.

The school's internationally recognized high standards of academic excellence enables Eyüboğlu graduates to further their studies both in prestigious universities in Turkey and in the US, Canada, the UK, and Europe.

The school philosophy is based on academic excellence, international-mindedness and social awareness. Students are encouraged to think critically, work collaboratively, and hence become innovative, lifelong learners. In addition to a heavy focus on IB qualifications, great importance is given to teaching foreign languages as stated in the school's mission to raise international-minded, bilingual students. We lead our students to English, German and Spanish proficiency exams such as Cambridge, IELTS, TOEFL, FIT and DELE.

Eyüboğlu schools have state-of-the-art learning facilities such as fully-equipped classrooms, Biology, Physics,

Chemistry Virtual Reality labs, theater halls. The school libraries hold a distinctive collection of 1500 volumes which makes Eyüboğlu schools unique among K-12 schools in Turkey. Besides, the first Astronomical Observatory in K-12 schools was established by Eyüboğlu Schools on its Çamlıca campus. Today, Eyüboğlu has two astronomical observatories and a planetarium that provide outstanding learning experiences for all students.

Besides academic studies, Eyüboğlu gives great importance to the social development of its students. Not only it offers physical facilities such as swimming pools, art studios, gyms, sports fields, pitches, and courts on its campuses, but also it offers various social clubs in diverse areas such as sports, arts, music, science, technology, and humanities. Over a hundred social clubs include but are not limited to basketball, athletics, volleyball, tennis, golf, archery, water polo, horse riding, fencing, dance, drama, ceramics, MUN, DI, Astronomy, Artificial Intelligence, TedX, Machine Learning, Young Entrepreneurs.

Admission to Eyüboğlu is offered based on school-administered interviews up to grade 3 and a written examination and interview for upper grades. All students including Eyüboğlu Middle School graduates are expected to meet the admission requirements to continue to Eyüboğlu High School following Turkish Ministry of Education regulations. Admitted students to high school are among the top scorers of national entrance exam takers.

Fairview International School, Bridge of Allan is an authorised IB World School for both the Primary Years Programme (PYP) and the Middle Years Programme (MYP) and is currently a candidate school for the Diploma Programme (DP). Upon anticipated authorisation of the DP in 2023 Fairview will be the only school in Scotland to offer the full, uninterrupted IB continuum.

The only IB school in Central Scotland, Fairview is situated in an idyllic rural location, nestled in wooded countryside with excellent transport links to Stirling, Glasgow and Edinburgh.

Fairview, Bridge of Allan is part of a family of 6 schools located across Southeast Asia, totalling to 300 teachers and +3,000 students. Formed in 1978, Fairview is synonymous with academic excellence, integrity, and life-long opportunity, offering a comprehensive IB education and is known to be one of the world's best-performing private schools delivering the IB Diploma Programme and over recent years has consecutively been listed among the top 50 Global IB Schools. Fairview International School's diverse and global student body, parent community and faculty provide high-quality global learning opportunities for families based in Scotland.

Fairview accepts students all year round giving the opportunity for parents and prospective students to visit the school whenever they wish and enrol at any point throughout the academic year. The international school offers taster days to give students an opportunity to see what it would be like to be a part of the Fairview family, full week trials at the school can also be arranged to provide a full experience of school life, before enrolling.

Fairview has made the decision to freeze school fees until August 2025, subject to enrolment by 31 March 2023, as a result of the ongoing pressures and uncertainty everyone is facing due to the cost-of-living crisis. This will apply to both current families and new families joining Fairview and will help ease constraints during a difficult time for the whole of the UK.

Various means of financial support are available to parents, including payment plans and scholarships up to the value of 100% which allows the school to improve accessibility of an IB education to families.

As Fairview International School, Bridge of Allan continues to grow, there has never been a better time to consider Fairview.

**‘A forward-thinking place’ with ‘a rich cultural tapestry’:
Tatler Schools Guide**

Felsted School was founded by the Lord Chancellor to King Edward VI, Richard Lord Riche, in 1564, and by combining this heritage with contemporary facilities and a modern approach to teaching and learning, Felsted opens up a world of opportunities for young people from countries all around the globe.

Very conveniently situated, just an hour from the cities of London and Cambridge, and 20 minutes from Stansted airport, Felsted’s 90 acre countryside campus centres on a pretty English village and has its own extensive playing fields, chapel, theatre and music school.

International GCSEs and the International Baccalaureate are offered. Classes are small and each student is assigned an academic tutor who keeps track of progress and gives support when needed, on an individual basis.

Excellent academic results are achieved with a 100% IB pass rate in 2022, and an average score of 36.

Places at the world’s top universities are regularly secured by Felsted IB students, including Oxford, Cambridge, Durham, Exeter, Warwick and UCL in the UK, as well as leading universities across Europe and colleges in the USA.

Very able students are extended and supported, and there is extensive assistance for students whose first language is not English.

Sports and the arts thrive, and students are given time and encouragement to pursue their passions. Many sports

teams are coached by ex-professionals, concerts and drama productions are of an extremely high standard, and there is a huge range of clubs and activities for students to get involved in, including the adventurous Duke of Edinburgh’s Award Scheme and the school’s Model United Nations, at which students discuss world affairs.

Felsted is a global community. Students from more than 30 countries attend the school and there is an international atmosphere. By living and working together, students gain a real understanding of cultures and backgrounds that are different to their own. Felsted is a member of the Round Square network of the world’s top schools and this presents chances for students to work together on projects to improve the lives of people in disadvantaged nations.

Welcoming and homely, the school has nine boarding houses on campus, each with a Housemaster or Housemistress, a team of tutors and a matron. Life-long friendships are made. Social events, outings, sporting activities and creative projects keep boarders entertained at weekends.

Student wellbeing is the top priority at Felsted. A medical team is on-hand 24 hours a day and there is a fully equipped medical centre on campus, as well as a wellbeing centre, which is a focus for emotional support. All staff are trained in pastoral care and every student is well known and valued as an individual.

To find out more about Felsted, please visit felsted.org, or email admissions@felsted.org. Virtual tours and videos are available, or come along to one of our on-site Open Mornings.

A co-educational independent day school providing a rich and diverse curriculum to pupils aged 3 to 18. Founded in 1996, Fulham School believes in co-education in its broadest sense: not just girls and boys learning together, but learners of all abilities understanding that they have much to offer each other, and teachers as keen to learn and evolve as their students.

The school celebrates diverse abilities across academic, creative, and sporting pursuits, and its mission is to ensure every pupil experiences the joy of learning. Our curriculum encourages the development of creative, problem-solving individuals with resilience, kindness, and strong self-esteem. The supportive and welcoming environment is ideal for pupils to become confident learners, while specialist teachers and support staff inspire our pupils to work to the limits of their potential. Good schools achieve consistently strong results, great schools help every student achieve their best outcomes.

Fulham School supports the highest of academic high-flyers to achieve the scholarships and university places that will challenge them most alongside pupils whose chief passions and interests are expressed in practice and rehearsal rooms, on the sports field, or among friends. All pupils are encouraged to make contributions where their strengths lie and recognise the contributions of others; it's a wonderful place to learn, play and grow.

Situated in the heart of Fulham, all three school sites, Nursery & Pre-Prep, Prep, and Senior, are ideally located to take advantage of London and its endless opportunities to enhance education. In 2014 we were proud to join Inspired Education, the leading group of premium international schools which provide academic excellence to over 70,000 students in over 80 schools across 23 countries.

Vision Statement: Inspiring children to be positive changemakers

In keeping with the vision of GEMS Education the founder and chairman, Mr. Sunny Varkey, GEMS Modern Academy (GMA) assures every student a world-class education that is wholesome and exciting. Spread over 120,000 square meters, this state-of-the-art institution is located in the heart of Dubai and has been making its mark on the local and global education scene for the last 35 years.

The school is recognized and accredited by Ministry of Education, Dubai, UAE, the Council for Indian School Certificate Examinations (ICSE – New Delhi, India) and the International Baccalaureate to offer both the Primary Years Programme (since April 2021) and the Diploma Programme (since September 2014). Modern also received candidacy status for the Middle Years Programme in August 2021.

GEMS Modern Academy is a CIS member school, a Round Square school, a Green Flag school and the only school in the UAE to receive the Dubai SME certified incubator status.

‘Modern’ as it is fondly called, lives up to its name as it strives ceaselessly to nurture 21st-century learners who will become active, sensitive and responsible world citizens. Our educational philosophy aims at making students independent and lifelong learners who will contribute positively to society. The faculty and management work passionately to keep the balance between modern educational demands and the wholesome traditional values that the institution embodies.

In addition to being rated as an ‘Outstanding’ school since

2011 by the Knowledge and Human Development Authority of Dubai, the school has also been awarded the coveted Hamdan Award for Distinguished Academic Excellence and School Administration. The highly qualified and committed faculty ensures that all pupils at Modern strive to reach their goals and prepares them to take their place in the world.

Modern’s alumni regularly receive admission to Ivy League and other world renowned universities and the school boasts of a 100% placement record.

Modern offers the IBDP to students of grades 11 and 12, with twenty seven individual subject options available. We are very pleased with the achievements of our seven graduating batches since 2016. May 2022 batch achieved an average of 36 points with the topper securing a perfect score of 45 points. This balance between strong academic performance and fantastic experiential outcomes from areas such as CAS is a hallmark of our growing Diploma Programme.

Modern also has a unique advantage that sets it apart from other IB schools – our bespoke ‘Bridge Programme’. This consists of 14 modules designed and delivered by our teachers prior to students entering the Diploma Programme. The Bridge helps students develop a clear idea of the philosophy behind the Diploma Programme and the skills needed to be successful in it. This is accomplished through modules such as ‘Critical Thinking’, ‘Global Citizenship’, ‘Academic Honesty’, ‘Cultural Diversity’ and ‘Investigative Science’ which are directly linked to key IB themes like the learner profile, approaches to teaching and learning,

international mindedness, and CAS. By proactively engaging students in these interactive modules, we aim to ensure that they hit the ground running in the Diploma Programme and aspire to be lifelong learners afterward.

Modern is a place where every child matters. Deep and powerful learning only happens when it is relevant, real-world, collaborative, driven by inquiry and passion, and shared transparently. Through the provision of a balanced curriculum with the rigour of academics and a strong value system, world-class facilities for sports, performing and fine arts, for innovation and entrepreneurship, and inculcating international mindedness, it is a place that gives children roots to hold on to and wings to fly.

Our Primary Years Program Curriculum stems from age-appropriate curricular standards in a global context, carefully and creatively constructed by our PYP faculty and the Deans' Department through a process of reflection and collaboration. The curriculum outlines knowledge, skills, understanding, attitudes, and values pupils are expected to learn in the course of their transformative experience in school.

The Program standards and practices offer both an aspirational (the standards and practices) and baseline (the requirements and specifications) framework of what it means to be an IB World School. Thus, we mindfully use the IB PYP framework and philosophy for pedagogy and align the core curriculum objectives from the CISCE with the IB PYP scopes and sequences for the requisite PYP subjects.

The curriculum contributes to fulfilling the vision of GEMS Modern Academy, 'Inspiring children to be positive change-makers'. It is enriched by incorporating activities that are also embedded in the core values of GEMS Education and Jewels

of Kindness Program. In line with Ministry regulations and compliance, the curriculum includes Arabic, Moral, Social and Cultural Studies for all students and Islamic Education for Muslim students. To fulfil the UAE National Priorities and achieve the set National Agenda targets for the school, we also ensure that the curriculum continues to align with international assessment frameworks such as TIMSS, PIRLS, and PISA. The curriculum is reviewed annually and is open to modification.

As an all-inclusive school, Modern values student diversity and understands the difficulties faced by students of determination. We strive to provide equity in education to ensure all learners have the necessary tools to succeed, by reducing barriers to learning with their peers in a common learning environment. Inclusion is truly at the heart of everything we do at Modern. It helps create a more positive sense of belonging with the community and teaches vital life lessons in respect, tolerance, and resilience.

Our mission is to create lifelong learners who possess the competencies, confidence, and knowledge to meet the challenges that face them. Living in a diverse society and globalized world, we work on graduating students who are contributing members of society, tolerant of others and empowered to shape their own future.

The German International School Beirut maintains its progress through constant improvement in both structural and curricular aspects, having the students at the top of its pyramid of priority. Our motto is “Inspire-Educate-Support”.

Inspire

One of our main goals has always been to inspire our students to follow their passion. We support our students to decide what course their life will take at such an early stage, and so to aid their decision we try and expose them to as many activities and experiences as possible. From our balanced and eclectic subject offerings to our wide range of CAS projects and experiences, we want our students to have the most fulfilling educational process possible. As such, we’ve made full use of technology in order to turn our classrooms into informational ecosystems that allow students to freely exchange ideas and take advantage of interactive media to truly immerse themselves in their work. While the written word is the cornerstone of education, we also want our students to learn with sights and sounds, and their state-of-the-art PC’s they have the world at their fingertips. Beyond that, we strongly believe in going green, and our technology

initiatives have helped us work towards a totally green campus. We hope that our efforts to promote environmental awareness can really inspire our students to help make the world a better place.

Educate: Curricular Aspects

Our school offers a variety of academic programs. Aside from the IB Diploma Programme, our school also offers the Lebanese National Programme as well as the official German Language Diploma (DSD I, II). Each curriculum strives to impart students with the necessary skills and knowledge they need to excel in academics. Our teaching methods emphasize collaborative learning and critical thinking, and we have developed a highly skilled student body as a result. We also want our students to have a truly international education and as such we offer a variety of language courses in English, German, Arabic, French, and Spanish.

Support: School Community and atmosphere

Inspiring people is all about making them believe they can do something, and we want our students to truly believe in themselves. Our school fosters a diverse, supportive environment that encourages students to be both expressive and patient. Missteps and false starts are part of every process, and our students need to be given the freedom to grow freely and safely. Overall, we want to give our students the setting in which they can reach their fullest academic, emotional, physical, and spiritual potential.

Godolphin and Latymer School is an independent day school for girls aged between 11 and 18; it is located in Hammersmith, West London, and is easily accessible by public transport from the surrounding areas. Means-tested bursaries are available at 11+ and 16+ entry covering up to 100% of fees; music scholarships are offered at 11+ and art and music scholarships at 16+.

The school has an excellent academic record and students gain places on a huge range of competitive courses at the very best universities both in the UK and overseas. Godolphin is a research-informed school that places great emphasis on the quality of its teaching to provide a broad and well-rounded education. It embraces innovation and new opportunities to create learning environments which promote analytical skills, emotional intelligence, teamwork, adaptability, entrepreneurship, creative thinking and problem-solving. Students are encouraged to explore beyond the syllabus and to find passion in their study and to be brave in embracing new academic challenges. The academic and pastoral sides of school life operate very much in tandem and students

grow as independent and sophisticated thinkers and learners whilst being supported in their personal development as they learn key life skills.

The school prides itself on the amount of choice and opportunity it offers students. There is an exciting and ambitious curriculum with a wide range of subjects, and at Sixth Form it is one of the few schools in London that offers the choice of the A Level and the International Baccalaureate Diploma pathway. Beyond the classroom girls enjoy the most extensive extra-curricular programme and facilities to pursue their interests and talents, and there are many opportunities for students to take on leadership roles and positions of responsibility within the school community. There is a strong culture of community and voluntary service, caring for others and kindness which permeates the whole school. The school aims to develop students who will become the leading citizens of the future: young adults who are capable of thinking for themselves and who can demonstrate a critical awareness of the wider world, having a sense of their own worth whilst being appreciative of others.

Greenfield International School (GIS), a member of the highly regarded Taaleem group, opened its doors in 2007, and since then has promoted and inspired young minds from diverse backgrounds. We are fully authorised as an International Baccalaureate Continuum World School and offer the IB Curriculum from Pre-Kindergarten through to Grade 12. We were also one of the first schools in the Middle East that successfully piloted the IB's Career-related Programme. With our students coming from over 80 different countries, we are a truly international school, rich with cultural diversity. The spirit of internationalism is reflected in the philosophy of the school's curriculum, as well as extracurricular activities (ECA) we offer our students. This approach enriches our students' minds, their skills and talents through collaborative approaches to learning. Our holistic education allows students to not only achieve excellent academic results but also to thrive outside the classrooms by developing their talents and communication skills through extracurricular activities. As committed IB practitioners, our team are

experienced international educators and the driving force behind the school's academic and pastoral success. Our classrooms are vibrant student-centred environments where inquiry-based approaches are balanced with direct teaching. Our teachers actively strive to encourage children's natural curiosity and a love of learning. They take great care to support each child's social and emotional growth. We also know how important it is to build strong parent-teacher relationships as we recognise what a pivotal role the teacher plays in the child's life. As a result, we encourage parents to be active participants in school life and we welcome them to be part of our many family events and class activities. As a mark of quality assurance, GIS is fully accredited by two of the world's most highly regarded accreditation bodies; the Council of International Schools (CIS) based in Europe and the New England Association of Schools and Colleges (NEASC), based in the USA. Along with the IB authorisation, the CIS and NEASC accreditation offer a guarantee of quality knowing that your school meets or exceeds international standards.

The Gymnasium am Münsterplatz, the second oldest school in Switzerland, is situated in the heart of Basel on Roman foundations opposite the cathedral. It enjoys considerable prestige in the city and commands a worldwide net of alumni whose generous donations go to support numerous extra-curricular activities in our school. The historical buildings are equipped with state-of-the-art equipment specially designed so that students can focus entirely on their studies in a dynamic modern atmosphere. Throughout the successive reforms in the educational sector over the last years, reflecting the social dynamics of our city, the school has changed considerably both within and without. Our recently installed Learning Centre allows pupils to carry out independent research under constant coaching provided by teachers and senior students. The integration of foreign-language-speaking pupils into Swiss society through the public school system is another of our major concerns.

The main objective of our Learning Support Centre is to provide individual didactic counselling, subject-specific backup courses, as well as various integrative measures for pupils with diverse educational biographies. It also aims to furnish individual, accompaniment and supervision for highly-talented pupils.

Apart from the modern foreign languages, French, English and Spanish, we also offer a choice of main elective subjects including; Latin, Greek, Spanish, English, and the combination Philosophy, Pedagogics, and Psychology. Of course, our Mathematics and Natural Science departments together with our Arts and Sports departments also furnish their necessary contribution to the education of our students.

The School has a rich and varied extra-curricular life. Every year, each of our 4th classes (11th grade) prepares and performs a drama project under the guidance of professional directors. We also have an annual Winter or Spring Ball. We have both a top-quality jazz band and a choir. Almost every year, one of our delegated teams to the National Session of the European Youth Parliament has been selected to represent Switzerland at the European Youth Parliament. We invite politicians and diplomats on a regular basis to discuss world affairs in our classrooms.

Apart from successfully preparing our students for third level education, the Gymnasium am Münsterplatz, in keeping with its humanistic tradition, places great importance on the development of individual personalities. We aim to address and promote our pupils as whole persons in their psychological, spiritual and physical integrity.

Outside our regular school programme, and our local interdisciplinary weeks, we also offer numerous activities away from Basel, such as study trips linked to the main elective subjects (Spain, Greece, Rome, UK, Vienna), annual skicamps, and concentrated study-weeks elsewhere in Switzerland.

As the first public school in Basel to be accredited in 2011, the GM has been offering the IB Diploma Programme as an ideal complement to the state gymnasium syllabus. Thanks to the great popularity of the IB Curriculum, our IB scores continue to improve every year and are well above world average, giving our students easier access to the world's leading universities.

Welcome to a small school with a big heart and great results!

Should you begin your international journey in the Pre-Diploma or the Diploma Programme?

The Diploma Programme is the final 2 years of upper secondary education authorized by the International Baccalaureate Organisation. You are eligible to apply for the Diploma Programme if you have completed the equivalent of 10 years of compulsory school. The 2 years in the Diploma Programme, if completed successfully, will give you the basic requirements to apply to Universities in Sweden and around the world. The IBDP is literally an open door to your adventure on this globe!

Apply to the Pre-Diploma Programme if you have completed 9 years of compulsory schooling. In the Pre-Diploma Programme you will study the typical first year National Swedish upper secondary courses like English, Math, Biology, and Civics, for example. You will also get some orientation courses that allow you to narrow down your

selection of subjects to take once you enter the Diploma Programme.

Why choose Haganässkolan for your IBDP adventure?

Haganässkolan is a small school with a big heart and great results. It is located in Älmhult which gives you the advantages of a small town with a unique international atmosphere. It is easy to live here and most things are close by. Due to our small class sizes and friendly teachers, students feel safe, happy, and supported; which affects their learning very positively. Haganässkolan also offers some special subjects that you might not find nearby, for example, if you have an interest in Global Politics, Business Management, Design Technology, or Visual Arts, then this may be the place for you!

Why not come and visit and see for yourself?

We would love to have you for a visit and get to meet you!

If you are unable to visit, feel free to contact the Diploma Programme coordinator to discuss your interest and application at karin.ringblom@almhult.se

Founded in 1862, Haileybury is cited by Best Schools to be one of the UK's top independent boarding and day IB schools based on 2021 results. Pupils' academic ambitions, intellectual curiosity, imaginations and abilities are harnessed to provide a truly all-round education. With strong academic results across the IB, A Levels and GCSEs, the School provides each and every pupil with a secure and caring environment where they can find their passion and shape their future. The School is situated just 20 miles north of London, nestled in over 500 acres of woodland, playing fields and superb facilities.

Academic

A key part of the School's philosophy is about empowering each child to follow their interests and build confidence in their abilities and intuition. Pupils are encouraged to be independent, creative and intellectually ambitious. The School offers a dedicated Lower School for Years 7 and 8, a wide range of GCSE and (i)GCSEs and the choice of the International Baccalaureate (IB) Diploma or A Level Course in Sixth Form.

Haileybury is the first school in Europe to partner with scientists from Stanford University and the University of Oxford as part of the global Stan-X study. This allows our pupils the opportunity to participate in this pioneering study of genetics, contributing to efforts to find cures for diseases such as pancreatic cancer and diabetes.

Co-curricular

Haileybury offers an enormous range of co-curricular opportunities, including clubs and societies, broad enough

to cater for the most eclectic individuals. From trekking in the Himalayas to debating global issues at its Model United Nations programme to exploring the depths of visual storytelling in Filmmaking.

Sport is central to Haileybury life and the School has an outstanding reputation for Sports. The School is listed as one of the top 100 secondary schools in the UK for its cricket provision by The Cricketer's Good School Guide. Haileybury's Sports Complex has a strength and conditioning gym, a 25-metre swimming pool, indoor cricket nets, a golf simulator, a climbing wall, tennis courts, acres of beautifully maintained playing fields and two all-weather hockey pitches. Pupils benefit from professional sports coaching from the likes of former Wales rugby captain, Michael Owen, and ex-England international netballer, Dani McFarlane.

The campus also has a high-tech Music School, a purpose-built theatre and a fully equipped Art School designed to bring the most adventurous of ideas to life. The School takes pride in hosting spectacular Arts productions with multiple showcases per term for pupils to take part in.

Boarding

The Independent Schools Inspectorate describes the quality of boarding at Haileybury as excellent. With an emphasis on pastoral care and around-the-clock support from Housemasters and Housemistresses, the chaplain, tutors, a Health Centre and a Wellbeing Centre. The Houses lie at the heart of a Haileybury education and have done so for over 150 years. They are vibrant, happy, productive and homely communities where lifelong bonds are formed.

Hayah International Academy (aka Hayah International School) is committed to create and maintain an environment that fosters and enriches the personal and academic growth of each student. Hayah empowers students to live with purpose, honor their cultural identity, respect diversity, and serve humanity by positively impacting local and global communities.

Hayah International Academy is a distinguished entity founded on the belief that every child is creative, special, and capable of achieving outstanding results if provided with the proper support. Hayah provides a wide selection of educational programs and extracurricular activities aiming to generate well rounded students and promoting social, academic, and physical development.

The school campus is located on a land lot of 55,000 square meters with separate buildings for early childhood, elementary and middle/high school, all equipped to support various learning opportunities.

Hayah prides itself on its select, diverse, and experienced IB teachers who remain continuously up to date through professional development. Hayah's IB staff members work collaboratively towards serving the needs of the student population whilst upholding the standards for quality IB

education and investing in character building and developing students' IB learner traits.

IB Diploma subjects offered at Hayah:

English Literature HL/SL – English Language and Literature HL/SL – English B HL – Arabic Language and Literature HL/SL – Arabic B HL – Arabic *Ab-initio* SL – French B HL/SL – French *Ab-initio* SL – Economics HL/SL – History HL – Business and Management HL/SL – Psychology HL/SL – Information Technology in Global Society (ITGS) HL/SL – Chemistry HL/SL – Physics HL/SL – Biology HL/SL – Environmental Systems and Societies SL – Mathematics Analysis & Approaches HL/SL – Mathematics Applications & Interpretations SL – Visual Arts HL/SL – Film HL/SL – Global Politics HL/SL – Computer Science HL/SL.

The class of 2022 achieved 100% pass rate in the IB Diploma with an average IB score of 36.17. Of the 72 students who took the IB Diploma, one student scored a perfect score of 45, 22% scored 40 and above, 61% scored 35 and above, and 92% scored 30 and above.

IB students from the Class of 2022 joined many top-level universities both in Egypt and worldwide, in the United Kingdom, Canada, USA, United Arab Emirates and Germany.

H-FARM International School, located just outside of Venice, Italy, empowers students to be internationally-minded citizens who are able to shape their own future in a rapidly changing global community. Through innovative learning environments and the development of relationships based on compassion and respect, we enable students to become confident, creative and collaborative. We are a community of active lifelong learners. H-FARM International School serves a diverse and growing community of students and families.

Our school uses English as the language of instruction and learning and aims to promote international mindedness and global citizenship.

We offer three of the International Baccalaureate Organization's educational programmes: Primary Years Programme (nursery / elementary school), Middle Years Programme (middle school + 1st two years of high school) and the world-renowned Diploma Programme (final two years of high school), an engaging curriculum that prepares students to access the most prestigious universities and colleges in the world.

Our school is located within the Campus of H-FARM, located just 10 minutes from Venice International Airport, an unparalleled center for innovation in Europe, with a strong DNA of digital technology, creativity and entrepreneurship. The sprawling, 51-hectare Campus boasts world class services for both its boarding and day students. H-FARM students have access to full-service Boarding facilities (which were recently certified by the BSA), an indoor and outdoor sports complex, a fully-equipped gymnasium, a coffee shop and restaurant, a library with communal study areas, a radio station, an astronomy observation station, innovative science and Virtual Reality laboratories.

This school year, we welcomed more than 170 new students and more than 100 Boarding students from 20 different countries and representing all 6 continents. Boarding students are cared for by Residence Life coordinators, who also facilitate weekend excursions and activities that allow students to enjoy the natural and cultural attractions of our stunning corner of Italy.

School. Sports. Nature.

HIF Swiss International School is an open-hearted campus community where young people from around the world can thrive in the sublime, health-giving environment of the Swiss Alps. It is a co-educational secondary school offering a range of educational programmes for students in school years/grades 7 to 12. It is accredited by the Canton of Graubünden to prepare and examine students for the Swiss Matura and by Cambridge Assessment as a centre for the International General Certificate of Secondary Education (IGCSE). HIF proudly holds IB World School status and offers the IB Diploma programme.

Our Vision

As one of the oldest schools in Switzerland, we still uphold the values of the great Swiss educators. True to their legacy, HIF fosters a student-centred school culture and caring relationships between educators and learners. This is manifested in high standards of teaching and learning, the discovery and development of individual talent and achievement within a motivating, supportive community.

Our Mission

At HIF we prepare our students to go out into the world with the knowledge, intellectual skills and emotional maturity to find fulfilment in their personal lives as well as in their academic and professional careers. The school aims to promote open-mindedness, critical thinking, self-directed

research and teamwork through teaching and learning with a local, national and international outlook. We challenge our students to become global citizens with a sense of responsibility for our shared planet. We want them to understand that fairness, kindness and community spirit help to make the world a better place.

Your Home Away From Home

For our dedicated house parents at HIF nothing is more important than the happiness of their house and that depends on the health, happiness and safety of each child in their care. House parents are not just carers or activity organisers or supervisors.

Although they are all of these, they are first and foremost educators. They work as a team in close cooperation with teachers, school leaders, sports coaches, medical staff and, of course, parents to provide the holistic education expressed in HIF's mission statement.

Sports Academy

Sport promotes health, well-being, resilience, self-discipline, and team spirit. What is more, sport is a source of joy, excitement and inspiration. With its team of expert coaches and high-profile training facilities, HIF enables students to combine competitive or leisure sports with an academic programme of their choice. Special support and mentoring programmes ensure the coordination of sport and academics.

Situated on a leafy campus in Bishop's Stortford, 10 minutes from London Stansted Airport, Hockerill is a leading UK school which features in the Sunday Times Guide 2022 and the Good Schools Guide. It is a strong, caring community of 900 boys and girls (400 boarders and 500 day students) aged between 11 and 18. All boarding houses are located within the campus.

Student outcomes are exceptional with results and university destinations comparing favourably to those of top independent schools. 75% of those attending UK universities go on to Russell Group destinations, with 6% taking up an Oxbridge place in 2022. The Sunday Times placed Hockerill third of all comprehensives, based on academic achievement, in its 2022 guide to the best schools in the country.

The College offers a rigorous and broad curriculum and is proud to be one of the largest state schools offering the prestigious International Baccalaureate Middle Years and Diploma programmes with consistently outstanding results. Hockerill has a special focus on languages and music with

both French/English and German/English bilingual sections.

The main intake years are at ages 11 and 16 with a limited number of additional places at ages 13 and 14. The Lower College curriculum is based on the IB Middle Years programme offering a wide range of subjects with students taking their GCSEs before moving on to the IB Diploma.

The College has a strong extra-curricular provision which includes Sports, Music Ensembles and Choirs, BMX, CCF, Young Enterprise, Duke of Edinburgh, Debating, Model United Nations, Amnesty and Charity fundraising. There are some 100 clubs on offer.

The trips and exchanges programme runs throughout the College and encompasses destinations such as Uganda, India, Japan, China, Spain, France, Croatia, Belgium, Austria, Germany and Italy.

Many events take place during the year for students including formal dinners, concerts, Speech Day, International Boarders weekend (for students and their families). As part of the regular communication, there is a termly forum for boarding parents.

Introduction

Hout Bay International School is more than a school – it is a community of diverse individuals and families, a centre for academic excellence, for some a home away from home and yet more importantly a family for all those that are part of it. Few schools can boast that they belong to two international organisations spanning across almost every continent of the globe. The first being International Education Systems (IES), a family of international schools committed to quality educational experiences for all who attend and, second, the International Baccalaureate Organisation (IBO), renowned for its high quality and rigorous academic programme.

Our School is as diverse as the location in which it finds itself, our commitment to highlighting social injustice, the celebration of differences and the fostering of international mindedness goes beyond the classroom. Students are encouraged to ‘think outside the box’, ‘have a voice’ and engage on pertinent topics daily. From the Primary Years Programme (PYP), Middle Years Programme (MYP) through to the Diploma Programme (DP), students, staff and parents are part of a learning community that seeks to encourage awareness of the wider world. They have a sense of their own role as global citizens, who respect and value diversity, who have an understanding of how the world works and who take responsibility for their actions.

We are proudly South African, embodying an International mind-set, where the spirit of ‘ubuntu’ – the idea that humanity is bound together and expressed by caring for each other – can be seen and felt. The teachers genuinely care for

their students and love practicing their craft. The students genuinely love learning and are encouraged to become life-long learners.

Facilities

Our campus is cradled between beautiful mountains on three sides with the sparkling Atlantic Ocean on the other; and houses the following facilities: 35 Classrooms (each equipped with Wi-Fi and Data Projectors). Two Fully Equipped Science/Biology Laboratories, Robotics Lab, Black Box Drama Studio, Visual Art Studio, Design Studio, School Library, Music Studio, Creative Arts Outdoor Courtyard, Courtyards equipped with climbing walls and Sand pits, Canteen for daily lunches and snacks, Small hall, Stop and Drop / Pick Up Facilities, 2 Netball / Tennis Courts, 3 Cricket Nets, 2 Multi-purpose playing fields, Bio-Diversity Sanctuary, Sustainable Vegetable Garden. In 2019 our campus was enhanced with the completion of our brand new Early Years and Junior Primary building which also houses our newest addition, our Nursery Class.

Extra-Curricular Programme

Our students enjoy an extensive Extra-Curricular programme exposing them to various sports, creative arts, dance, martial arts, community service activities, all contributing to their ‘Whole Child’ educational experience and embracing the concept of CAS.

Admissions

We accept students year round, in all grade levels except the final year of the Diploma Programme which requires a two year commitment from the student. Application forms and previous school reports are required for entry.

Ibn Khuldoon National School (IKNS) is a non-profit self supporting coeducational institution that is dedicated to providing high quality education for local and expatriate students. The school offers a bilingual programme of study for students from Kindergarten to Grade 12. IKNS students can communicate in both Arabic and English with ease and lucidity from an early stage of their lives.

IKNS is an IB Continuum School that is authorized to offer three of the International Baccalaureate (IB) educational programmes from KG1 to Grade 12. The School was authorized to offer the IB Diploma Programme (DP) in 1990. In 2020, it was authorized to offer the IB Primary Years Programme (PYP) and in 2022, the IB Middle Years Programme (MYP).

The school also offers the American High School Diploma Programme in Grades 11 and 12 as a parallel programme to the IBDP.

IKNS students go on to complete their tertiary education in international and local universities, many gaining admission to prestigious institutions.

A diverse faculty, whether teaching in Arabic or English, provide a rich and supportive learning environment for students. The faculty is supported by a dedicated team of administrative and support staff.

At the top level of the school's governance stand the board of trustees, board of directors and specialist committees. Their members volunteer their expertise, time and effort to ensure that the school is always heading in a forward direction.

The school received its full accreditation from the Middle States Association of Colleges and Schools (MSA) in 1994, and it continues to be in good standing with the association. IKNS continues to be rated as an "Outstanding School" by the Education and Training Quality Authority (BQA).

ICS Côte d'Azur is a bilingual, co-educational, non-sectarian, IB World Primary School serving the international and local community in the Sophia Antipolis region. The school offers Early Years and Primary Years education from KG1 (age 3) to PY6 (age 11). ICS Côte d'Azur is a proud member of Globeducate.

Formerly known as EBICA, the school's multicultural learning community enjoys a modern and secure campus in Sophia Antipolis, Valbonne, southwest of Nice. Recognised as an IB World School since 2018, ICS Côte d'Azur welcomes students from around the world, offering an international education within the inquiry-based framework of the IB Primary Years Programme, whilst also integrating the national curricula for England and France.

The school attracts internationally-minded families with aspirations for their children to learn in French and English from the early years onwards. Within the multicultural community, students are immersed in both languages with equal measure, in an environment that promotes international understanding while fostering an appreciation of French culture.

ICS Côte d'Azur offers a language support programme for French as a foreign language (FFL) learners and English as a foreign language (EFL) learners. These support lessons for beginners assist acquisition in either language, bringing them the linguistic competencies required to access the curriculum and progress with confidence.

Through learner-centred teaching, ICS Côte d'Azur empowers students, as agents in their IB journey, to develop the self-knowledge and confidence to create their successes. In an environment that fosters cross-cultural understanding, students develop the attributes of the IB learner profile, which equips them with the essential skills to be successful in a diverse and connected world.

Sophia Antipolis is a rich area for science and technology, often referred to as the 'Silicon Valley' of Europe. To reflect its location, the school offers an innovative STEAM programme (Science, Technology, Maths, Art and Engineering), with a dedicated tinkering lab called 'The Hub', LEGO® Education kits, and Apple products in the classroom. The vision behind this cutting-edge STEAM initiative is for students to acquire the critical thinking, creativity and problem-solving skills that will be essential for the future.

ICS London is an independent day school in the heart of central London. We are one of only two IB World Schools in the city offering the full International Baccalaureate (IB) programme for learners aged 3 to 18 years.

Providing an inclusive and international community for early years, primary, secondary and high school students, our children and young people study on two close-by locations at our primary and secondary school sites in elegant Marylebone and Paddington.

With over 40 years' experience delivering globally-recognised education, today we serve our close-knit community of students and their families with the IB Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP). With instruction in English, we are a truly international school where diversity is celebrated with around 65+ different nationalities represented each year.

Quality is assessed, recognised and assured at ICS London through accreditation with the:

- IB World School: ICS London is authorised and accredited by the International Baccalaureate. This is subject to a

strict accreditation process monitored by the IB which ensures our education provision is of the highest quality.

- Independent Schools Inspectorate: This is a government approved inspectorate for independent schools which ensures quality on behalf of the UK Department for Education (DfE).

ICS London also prides itself on offering a holistic and personalised learning experience:

- Class sizes: Between 6 and 18 students
- Teacher to student ratio: 1 to 5
- In Secondary School each student is assigned a mentor
- Individual study plans can be tailored to meet students' needs

As a rolling admissions policy is in place, students can join anytime throughout the year. Students can also easily transfer from other curriculums, such as the UK or US and join the IB programme at ICS London.

For further information please visit www.icschool.co.uk or call +44 (0)20 7298 8800.

ICS Milan International School

ICS Milan is the first school dedicated to students from 1 – 18 years that offers an international curriculum enhanced by an innovative teaching approach based on experiential learning and a STEAM agenda (Science, Technology, Engineering, Arts and Maths). With four different campuses throughout the Milan area, ICS Milan is a school of innovation that helps children grow into citizens of the world.

ICS Milan serves a diverse community of students from a range of nationalities, cultures and backgrounds. The school offers a broad-based education that uses English as the main language of learning and caters for a range of student abilities. ICS Milan’s vision is to inspire, motivate, and challenge all students to achieve their personal best by providing a rich, creative, and well-balanced educational experience.

International School with Italian Roots

As Scuola Paritaria (an officially recognised school), our school also adopts the national recommendations for the curriculum issued by MIUR (the Ministry of Education). The Italian language and history programmes are designed for mother-tongue Italian speakers. A specific programme for

Italian as an additional language learners is available for children of other nationalities.

ICS Values

ICS Milan teaches creativity, responsibility, respect, diversity, compassion and shared values. Students are invited to develop a sound knowledge base and to reflect on and reassess their surroundings from a variety of perspectives.

Our system fosters a balanced development of different personalities. It combines the importance of rules with a sense of expressive creativity, challenge and imagination, and it also provides the necessary tools for becoming “masters” of our own abilities.

Our teaching approach stimulates each developmental and learning phase of every child by placing respect for others and for ourselves at its centre.

Globeducate

Since 2017 ICS Milan is a proud member of the Globeducate network, which operates in more than 55 international schools in Europe, Americas and Asia, with more than 25,000 students. Globeducate’s mission to prepare each student to become a global citizen that can shape the world is well-aligned to the student-centered approach at ICS Milan.

Established in 1954, ICS Paris is a private international school in Paris, running the International Baccalaureate (IB) Curriculum. At ICS Paris, we are an inclusive and intercultural educational community driven by a call for excellence. Committed to developing global citizens and successful lifelong learners, we empower our students to shape a brighter future by preparing them for tomorrow’s challenges today. We are very proud of our multicultural environment, which welcomes students from over 70 countries. We offer a high-quality education that equips them to thrive in the world and shape it and make a difference. ICS Paris is a candidate school for the PYP and MYP for 2023.

Located in the heart of Paris, we ensure that each of our students is immersed in many different aspects of French culture through outings in Paris and trips further afield in France, making for a rich learning experience. Our supportive, nurturing community cares about how our students grow into the generation of tomorrow. We expect our students to develop empathy, be kind to each other, and demonstrate resilience and perseverance when faced with difficult situations. Working together in groups, collaborating, and

the many different approaches to learning that we use help to cultivate these crucial skills and contribute to developing responsible adults of the future.

At ICS Paris, our students are at the centre of everything we do. Our International Baccalaureate curriculum provides the framework for developing their thinking skills and empowering them to take ownership of their learning. Education at ICS Paris is rooted in the IB learning philosophy and is structured to equip students with the next generation’s skills.

As an international school, we are building towards becoming a Bilingual Multilingual Learners (BML) smart school. With a research-based approach to learning languages and education, we are working on providing the knowledge, expertise, and facilities where children can learn their mother tongue language, and at the same time, follow a rigorous English-language curriculum. By providing opportunities for multiple language learning, we equip our students with the communication skills essential in an international environment while fostering an understanding and experience of French culture.

A World Class IB education from Impington International College – your ticket to a world of opportunity

Why choose Impington International College?

1. The quality of care is exceptional – The tutor to student ratio is approximately 1 to 15, with a dedicated Student Manager for pastoral support and guidance. In lessons, the average teacher to student ratio is 1 to 10.

2. It delivers excellent outcomes – The pass rate is 100% (international average: 85.6%) and the average International Baccalaureate (IB) point score is 36. In 2022, over a third (35%) of our students attained 40 points or more; the equivalent to four A* at A Level.

3. Students go on to achieve great things – In 2022, 98% of students were accepted into their first choice of university, with 10% offered Oxbridge places and 35% attending Russell Group universities.

4. Expert delivery of the International Baccalaureate – for more than 30 years, Impington International College has offered the IB and was one of the first state schools in the UK to do so. The College is consistently rated ‘Outstanding’ by Ofsted.

5. It is truly international – the culturally diverse College offers a huge range of opportunities for study trips and service visits abroad, with an emphasis on developing international-mindedness.

Impington International College offers the following programmes to students:

- IB Diploma Programme (DP)
- IB Career-related Programme (CP) through the College’s
- Performance School
- Sport Scholarships
- Health and Social Care Futures programme

Impington International College bases its teaching on the IB’s mission statement and ethos, aiming to develop “inquiring, knowledgeable and caring young people who help to create a better and more peaceful world”. Not only do students gain a valuable breadth of skills through either the DP or the CP but IB higher level subjects also provide the same depth of knowledge as A Levels, so students can go on to achieve excellence in whichever path they choose.

The driven cohort achieve outstanding results and have gone on to attend renowned higher education institutions around the world, including: University of Cambridge, University of Oxford, London School of Economics and Political Science, University College London, King’s College London, Loughborough University, Leiden University, UCLA, The Place, Italia Conti, International University of Japan, and many more. Many students from the College’s Performance School go on to join professional companies, with a number starring in the West End. Students from the sports scholarship programme often go on to study coaching and management at university, or play semi-professionally for local teams.

www.florimont.ch

Institut Florimont is a co-educational day school offering children from 3 to 18 years of age a complete education from kindergarten to the three diplomas that will open the doors to higher education. As well as encouraging academic excellence, Florimont fosters the traditional values and beliefs that are important for life.

Since 1905, Florimont has been preparing students for the French Baccalaureate and, as of 1942, for the Swiss Maturité. Since September 2014 our range of final examinations includes the bilingual (French-English) International Baccalaureate. Therefore, Florimont offers children more opportunities and more choices, allowing them easier access to the world's best universities.

All sections of our school work together to ensure the continuity and coherence of the programme of study. Clear procedures are in place to ensure that new students joining us from other private or public schools are successfully integrated.

Close communication with parents, additional lessons and one-to-one tutoring are just some of the ways that Florimont supports students during their studies.

Our student body is made up of more than fifty nationalities making Florimont a rich multicultural and multilingual learning environment. The importance we attach to this is reflected in our language learning programme. In addition to English, emphasis is placed on German, Switzerland's predominant language, as well as on Chinese, Spanish and Italian. Other languages such as Russian and Arabic are individually tutored or taught to small groups. Bilingual classes in French and English are offered from the primary and throughout the school.

Priority is given to partnerships and exchanges with leading schools worldwide, as well as to many activities that can add value to a university application, such as the CAS programme.

Philosophy lessons are initiated in the primary years in preparation for a better appreciation of Theory of Knowledge in the IB Diploma Programme.

Our students are encouraged to be entrepreneurial, bold, adaptable and creative because we know that these qualities will not only strengthen their university applications but also prepare them to face the challenges of working life.

The Institut International de Lancy was founded in 1903 (Pensionnat Marie-Thérèse). A private, co-educational school, IIL is a member of the Sisters of St. Joseph de Lyon European network of schools. IIL students, aged 3 to 19 years old, come from a wide variety of cultural and religious backgrounds and represent more than 90 countries. The school offers challenging and inspiring programmes with a strong emphasis on languages.

Within a warm, nurturing and bilingual environment, IIL Early Years welcomes children from 3 to 6 years old in three learning paths: English, French and Bilingual (50/50).

An IB World School, IIL is certified to teach the International Baccalaureate Diploma Programme. The school is also a Cambridge University examination centre and is a member of the GESBF (Groupement des Ecoles Suisses qui préparent au Baccalauréat Français).

Students in the French section follow the Education Nationale curriculum which leads to the Brevet des Collèges and French Baccalaureate diplomas and learn English from the age of 3. The French Baccalaureate programme is taught under the aegis of the Académie de Grenoble.

The school prepares students for Cambridge and IELTS examinations, as well as for a number of certified examinations in other languages.

In the English section, students follow the National Curriculum for England, sit Cambridge IGCSE examinations, and prepare for the IB Diploma with multilingual exam options. They also prepare for University Admission tests. Children are taught French as a foreign language from the age of 4.

An Apple Distinguished School, IIL is a pioneer in incorporating information technology in education. In 2011, it became the first One-to-One iPad school in Switzerland, creating an individualised learning environment and a platform for clear information sharing between teachers, parents and students.

Students of all ages benefit from modern facilities including fully equipped sports halls. After-school supervision, as well as a wide variety of extra-curricular activities, are available for all age groups. IIL also operates a regular school bus service.

JUMP INTO A UNIQUE FRENCH INTERNATIONAL SCHOOL!

Recognized for its educational philosophy, the Saint-Dominique Institute (ISD) is one of the most prestigious French schools in Italy that combines educational excellence and well-being. The Saint-Dominique Institute is a school of the international Odyssey group and for more than 10 years a partner school of the network of the Agency for French Education Abroad (AEFE) which has more than 500 schools around the world.

All our programs from kindergarten to high school are approved by the French National Ministry of Education. Our establishment offers excellent and multilingual education (French, Italian, English) from Pre-kindergarten to High school. ISD Rome is accredited with the International Baccalaureate Organization and opens an English-speaking International Section (PRE-IB GRADE 10) from September 2022 and the Diploma Programme for 2023-2024.

ISD, like all schools in the Odyssey network, provides its students with a French and international education allowing them to express the best of themselves and embark on a path of excellence that will open doors to the best universities in the world. We welcome our students in a dynamic, cosmopolitan environment where each member of the community can find his/her place and build lifelong bonds.

The learning environment plays an essential role in the development and success of each student, our spaces are designed to promote academic performance, curiosity, creativity and well-being of students through the integrated teaching of languages by teachers “mother tongue”, sciences

and data processing (presence of interactive screens touchscreen in the classrooms).

The boarding school: our exceptional campus on 6 hectares in a secure and green setting in the heart of a city steeped in history allows us to accommodate an increasing number of boarding students and to implement advanced teaching and learning methods. Saint-Dominique boarding school offers:

- A multilingual education
- A personalized support
- A cultural, sports and artistic program

In this exceptional setting of 6 hectares, the students have the possibility whatever their age, their nationality and their sensitivity to accomplish their schooling from a personalized pedagogical and educational framework.

Our boarding school is driving the development of a quality educational offer that is also rich in human experiences, acquired through a community life that requires attention and respect in the relationship with others.

- Double or single rooms
- 5/7 days possible in boarding school
- A dozen cultural and sporting activities offered

THE BENEFITS OF THE ENGLISH INTERNATIONAL SECTION – IB AT ISD

- The language of the International Section is English and it is in this language that the majority of courses are delivered, however you can also study other languages at a very advanced level.
- Small classes allow students to exchange and communicate very easily with each other but also with their teachers.

- A wide choice of subjects associated with projects of solidarity, commitment and leadership make it possible to build and strengthen a recognized and sought-after academic profile.
- Interactive classes: IB students are actors in their learning and deploy with their teachers a personalized strategy adapted to the challenges they set themselves.
- The development of critical thinking via the Theory of Knowledge (ToK), the acquisition of skills and research (Extended Essay) lead the student to effectively master the tools that will lead him to success in the Diploma Programme exam.

- A CAS coordinator (Creativity, Activity, Service) works with Diploma Programme students as they take initiative to organize their CAS project, reflect on their progress and achieve their goals. An IB coordinator organizes, plans and supports the work of students and teachers to carry out a fulfilling orientation project.

All of the modern infrastructure, digitized and adapted to the evolution of our pupils, allows a peaceful and successful schooling.

Welcome to the Saint-Dominique International Institute!

Institut Montana was founded in 1926 by Dr Max Husmann. His humanist vision continues to guide us to help every student find their own individual path and thrive.

Learning, Personal Growth, Community

Our combination of small class sizes and individual support fosters a family atmosphere that builds up enthusiasm for learning and motivation to excel. Our international school community is highly diverse yet also promotes typically Swiss values, such as a strong work ethic, respect for each other and dedication to achieving excellence. We are a fully accredited Swiss international boarding school. Since 1987 we have been an official IB World School.

A central location in a natural setting

Our 60 acres campus, at an altitude of 950m, offers seclusion and contact with nature while benefitting from its proximity to Switzerland's major cities Zug and Zürich and the rich opportunities they offer.

The Pursuit of Excellence

Students have the opportunity to choose the academic path that suits their interests and aspirations. We offer (grades 1-12) the best of Swiss and international educational programmes, carefully structured to ensure the highest standards of teaching and learning: Swiss Bilingual Elementary, Secondary and Senior High School, as well as International Cambridge CLSP, IGCSE, IB Diploma programmes and High School Diploma.

Home at School

Life at Montana is unique: we breathe mountain air, drink our own spring water and eat fresh food that accommodates all dietary restrictions. Our daily routine promotes self-responsibility while maintaining a well-balanced, active lifestyle.

Summer Sessions

Our summer school is about combining learning with fun. Intensive classes in English and German dramatically improve the language level, while exciting afternoon workshops bring learning to life. Students from all over the world join us every year for a summer adventure filled with outdoor activities on the beautiful Zugerberg.

Empowering Students

We want our students to grow into confident adults who will make the most of their life. Our extracurricular activities encourage them to pursue their passion, whether that is athletic, intellectual or cultural. Our students participate in athletic competitions, Model United Nations conferences, entrepreneurship programmes, theatre productions and more. Our students are global citizens supporting charity projects within Switzerland and around the world.

Montana for Life

We are a vibrant community with strong connections that continue across years as across continents. From scientists to politicians and film directors, our alumni are a diverse group of passionate people who share the same background and values.

School Description

The Inter-Community School Zurich (ICS) is the longest-established international school in the Zurich area. A private co-educational day school, established in 1960, we provide a world-class international education for students aged 18 months to 18 years.

Our language of instruction, in a multilingual context, is English. Our 'English as an Additional language' (EAL) programme supports students with limited English. All students learn German, the language of our host country.

Students undertake the full IB Diploma. As well as offering the full IB Diploma to all students, ICS champions excellence in Sports and Arts and offers students a broad range of exciting extra-curricular opportunities alongside the academic IB programme.

Learning Beyond the Classroom

ICS believes that learning beyond the classroom, as well as within, adds value to a rigorous educational experience. We offer collaborative and innovative extra-curricular activities to inspire and engage students.

Service Learning, both locally and internationally, is a key component of the ICS curriculum. Students are constantly encouraged to look beyond themselves. As a Round Square

member school, ICS offers students opportunities to join Round Square Service initiatives.

Zurich, Switzerland

With vast natural and cultural resources, Switzerland is a perfect environment for "learning through doing". By deliberately structuring authentic learning experiences outside the classroom, we foster students' holistic development. Field trips are an integral part of learning at ICS, giving students the chance to apply their learning, broaden their horizons and develop leadership and independence.

Admissions

As an international school, we welcome students of all nationalities; we currently have students from 50+ countries here.

We welcome applications from prospective students throughout the year. Please contact us at contact@icsz.ch if you have any questions or if you would like to arrange a visit.

Location

We are conveniently located on a single campus, situated near the Zurich city centre and easily accessed by public transportation. We also offer a school bus service.

The International Bilingual School of Provence, an independent coeducational school located near Aix-en-Provence in the south of France, owes its international character to the diversity of its student population. The school, established since 1984, has an annual enrolment of more than 900 students from more than 75 different countries in its day and boarding sections. In addition to the French students who make up 50% of the student population, IBS welcomes pupils from the five continents desiring to pursue their education in English, French or both.

A particularity of the school is that the international section is not dominated by any one nationality and new students are made to feel at home immediately. Committed to French-English bilingualism, the school offers both the International Baccalaureate Diploma Programme and the French Baccalaureate. The school also offers seven first languages to ensure that the student maintains his/her own language skills.

Philosophy

Small classrooms, qualified teachers, modern facilities in a tranquil, calm environment help ensure the success of each student. IBS of Provence recently invested in a new 7000m² state-of-the-art campus which includes a sports complex, four new tennis courts (2 hard surface, 2 synthetic clay), football field, indoor gymnasium, 400+ seat auditorium for theatre performances and international conferences as well as a three-level academic building with fully equipped

laboratories, art rooms, library, multi-media room and rooftop terrace.

The school also has a boarding section with 150 students residing in one of the five boarding houses which offer a home-like atmosphere in a beautiful Provençal setting.

Involvement in various extracurricular activities is expected and enhances the development of each individual's character within the spirit of the school. Politeness, respect and consideration for others are important values at IBS.

Students leave IBS, the majority for 1st choice university placements, as caring, responsible young citizens.

Summer school

During the spring and summer holidays, IBS offers intensive French as a Foreign Language and English immersion programmes. Over 400 students from all over the world join IBS every summer to develop their language skills while discovering the beauty of the Provence region. For more information about our summer program or group visits, please contact Ms. Lisa Ortola, Spring/Summer Camp Director, by email at stages@ibsofprovence.com.

Admissions

We accept applications for admission to our school year round based on availability. There is no formal entrance exam but students must submit two years' of school reports, a letter of recommendation from a teacher/Head of School as well as a letter of motivation. For more information about admissions or to schedule a tour of the school, please contact Ms Lena Junge at admissions@ibsofprovence.com

**About our school**

With over 40 nationalities, International School Altdorf is an inclusive and diverse community located in the central part of Switzerland. The school builds on the tradition of Swiss boarding education, with a special focus on academic excellence to offer a challenging course of studies. Our experienced and accomplished international teachers help students stay on track to earn globally recognized qualifications to attend excellent universities at home or abroad.

Academics at international School Altdorf

“IB students develop strong academic, social and emotional characteristics.”

At International School Altdorf, students enjoy flexibility when choosing their courses: we offer a large number of courses in all programs and grades to ensure that students can follow their academic interest and talent. Our combination of small class sizes, tailored academic programs and individual support creates a family atmosphere and builds up the enthusiasm of students for learning and excellence.

The school offers the IB Diploma Programme and the IB Career-related Programme, each lasting for two years, in grades 11 and 12. In lower grades, we offer different authorized pathways for learners with a wide range of abilities and interests, including those whose first language is not English. We encourage students to engage with a variety of topics, focusing on interdisciplinarity, research and inquiry. We are also an accredited partner for TOEFL and IELTS testing

and of the United Nations World Tourism Organization Center in Switzerland.

University Acceptance

The IB curricula, the academic focus and the support of our University Counsellor at International School Altdorf offer the best preparation for students to continue their academic journey into the university of their choice.

The last three cohorts of graduating students have all obtained bilingual diplomas with scores well above the world average. Over 50% of our students have received offers from the top 50 universities in the world, and several alumni have been accepted to the University of Oxford, Imperial College London, University College London, University of California – Berkeley, New York University, National University of Singapore, University of Hong Kong and University of St. Gallen.

Campus life

At International School Altdorf, we encourage students to actively participate and challenge themselves outside of the classroom! Students are thus instilled with a sense of responsibility, even in extracurricular activities and in community projects.

Students have access to a range of extracurricular activities on campus, from facilities for many sports to even a student-run animal shelter. Our school is located close to Swiss Alps and Lake Lucerne, thus outdoor activities are part of the weekend life, from hiking to skiing, from golf to swimming and rowing. Students are free to create their own clubs and the range evolves from year to year.

Mission:

*“We all want to learn more;
We all do it in different ways;
We all have fun learning;
We all help.”*

- ISB Student

ISB is a private, not-for-profit, co-educational day school established in 1979. Our students and teachers come from all corners of the world, creating a diverse and inclusive community. We live our Mission every day in every area of the school, as it reminds us to appreciate our learning differences, help each other out, and in our quest for excellence, find a way to make it fun and engaging.

Here at ISB, we firmly believe that true education neither ends nor begins in the classroom alone. As our students explore the world beyond the classroom, our well-qualified teachers and staff instill a skill set that will help them remain lifelong learners, no matter where they live and what they do in the world.

We live in a rapidly changing world, thus, education must lead that change. Investing in professional development at all levels to stay at the forefront of educational trends is our priority to prepare our students to embrace challenges and shape a better world.

At ISB, we prepare students to flourish and impact their world. Our goal is to enable them to “Feel Good and Do Good”, by providing them with positive and satisfying learning experiences, and helping them develop a deeper purpose to serve something greater than themselves.

Campuses

Our three campuses, located on the outskirts of the city of Basel on the edge of the Swiss countryside, provide students with world-class learning opportunities. An efficient public transport system and convenient pedestrian and bicycle paths ensure easy access to ISB campuses. Age-appropriate and supportive learning environments encourage students’ potential and nurture their talents at all stages of intellectual, physical and emotional development, providing them with the means to grow and thrive.

Inclusion

We understand that all children learn differently and possess individual strengths and areas for growth. As stated in our Mission, “We all do it in different ways.” ISB embraces diversity, not only in race or culture, but in the learning profiles of our students. ISB serves learners by aligning student needs with appropriate resources and support by qualified and experienced teachers and staff.

Academic Results

In 2022, 118 students completed the full Diploma. 100% achieved a pass rate, compared with a world average of 85.6%. Our students achieved an average score of 37 points (out of a maximum of 45 points), compared to a world average of 31.98 points. For the 7 students who took Diploma Programme Courses, they completed a total of 28 individual Courses, scoring an average of 5 points per course (out of a maximum of 7 points), which is an excellent result. ISB graduates have successfully transferred to top universities around the world.

Teaching and learning at International School Brescia is about preparing our students in a global community to have the skills, the knowledge and the capacity to problem solve that will enable them to meet the challenges of the future. With a strong emphasis on developing the IB Learner Profile*, and by learning through inquiry, action and reflection our students acquire in-depth knowledge and become deep thinkers.

ISB is a co-educational private day school located close to Lake Garda in the province of Brescia, Italy. Founded in 2009 we are a fully authorised International Baccalaureate (IB) continuum school offering the Primary Years Programme (PYP), Middle Years Programme (MYP) and the Diploma Programme (DP).

ISB offer our students the best possible international education in a supportive and inclusive, caring environment. Principled IB learners are honest and fair and take responsibility for their own learning and actions and our students are guided to act with integrity.

Our open-minded and respectful culture encourages the whole school community to contribute to the teaching and

learning in school and this collaboration and involvement makes our school a very welcoming and special place to learn.

Our student body is made up of around 18 nationalities and we cultivate a truly international outlook whilst fostering knowledge and experience of our host country, Italy. English is our language of instruction, and we provide support for those students joining us, who have limited knowledge, to be communicators.

In addition to delivering the IB subjects, our balanced curriculum provides many opportunities for extra-curricular experiences such as workshops, field trips, sporting exchanges and international travel. We support out of school interests and commitments and motivate our students to be active members of the community.

As ISB grows and develops we continue to reflect on our practices and to participate in the wider IB world community to produce a positive impact on student learning outcomes.

Mission – *Dream. Achieve. Celebrate. Unite.*

Location

International School of Belgium (ISBe) is a private, fee paying, not for profit International School which is located in the small town of Aartselaar, about 10km south of the city of Antwerp. While the school has strong ties to the local Aartselaar community, our student population comes from Antwerp, Mechelen and Brussels.

Internationalism

While English is the main language of instruction, Belgium is a multilingual country and as such, ISBe supports the importance of learning the host country's languages of Dutch and French. Additional foreign languages can be offered through an online programme.

Demographics

As a small school from preschool to Class 12, students experience a very personalised education. We are an international community with a diverse student population representing more than 30 nationalities. Our faculty is also very diverse and draws from countries all over the world.

Activities and Experiences

Students are afforded access to a range of opportunities to enhance their learning programme:

- sporting teams and tournaments
- drama/music productions and art exhibitions
- educational excursions, residential trips and the
- Duke of Edinburgh award scheme and MUN conferences
- leadership roles through student council and the House system
- community events
- extensive co-curricular programme after school.

University Pathways

The IBDP provides the perfect passport for university entry worldwide. Commonly our students attend first choice universities in the UK, Belgium, The Netherlands and Asia. However, our alumni have attended universities in the USA and many other European countries.

We have a university and careers counsellor available to senior school students who advises them on and assists them with university choices, applications and processes. We also organise a variety of university fairs and talks each year to ensure that students are exposed to a range of options. Students also get a chance to explore the world of employment through our internship programme.

www.isbergamo.com

Founded in 2011, the International School of Bergamo (ISBergamo) is part of the Inspired Education Group, a leading global schools group educating over 50,000 students across a network of more than 70 schools. Committed to delivering high quality educational programmes, ISB strives to develop the intellectual, personal, emotional and social skills needed to live, learn and work in a rapidly globalising world.

The school is authorised to offer the Primary Years, Middle Years and Diploma Programmes, providing an International Baccalaureate continuum education.

Joining ISBergamo offers a fantastic opportunity to enter a safe and nurturing environment, where the Italian culture is valued alongside the recognition and appreciation of a multicultural collective diversity. Technology plays an important role in the school and is embedded in the school curriculum through a blended approach where we feel it adds value to teaching and learning.

In our state-of-the-art campus, of around 15,000 sqm, students can benefit from specialised facilities, including a dedicated Early Years area, an Art & Design Lab, a school library, a cafeteria and an extensive outdoor area with a modern football pitch, a multipurpose sports facility, and fully equipped playgrounds.

Recent additions to the facility include a Secondary School wing with a specialised Science Laboratory, a Music, Drama & Dance studio, an Innovation Lab, and a newly expanded indoor gym.

The school is located in the Eastern part of Bergamo, in a green and quiet environment rich in sporting facilities; rugby fields, an indoor climbing wall and an athletics track can be found just at the end of the road.

Thanks to an efficient bus service, the school covers the city of Bergamo as well as a large number of the surrounding communities.

Since its founding in 1996, ISB has grown to become one of the largest and most successful international schools in Bucharest. The curriculum offers students from age of 2 to 18 a demanding and reflective education with an international perspective.

Our Mission is to provide each student with a broad, balanced education in a safe and supportive environment. We promote an enjoyment of learning, creativity, and excellence, whilst working in close harmony with our diverse community. We enable students to reach their full potential and develop skills to become independent, respectful, and caring adults who will be successful and contribute to global society.

In Primary and Lower Secondary, ISB follows the National Curriculum for England and Wales adapted to meet international best practices. We offer the Cambridge International General Certificate of Secondary Education (IGCSE) in Key Stage 4 and the International Baccalaureate

Diploma Programme (IBDP) in the Sixth Form.

As part of the International Baccalaureate Diploma Programme, we offer a variety of courses, all taught by specialist teachers, making use of an extensive range of facilities and up-to-date educational technology.

In the May 2022 session, despite all the obstacles of an unprecedented era, our students have enjoyed continuous success in the IB exams since ISB introduced the IBDP in 2017. Resilience and dedication to learning have paid off; of our 40 diploma candidates, 7 enjoyed outstanding success and earned 40 or more points out of 45. ISB is proud to introduce the world's top scorer Tudor Durnescu., who did an exceptional job in the International Baccalaureate May 2022 Examination Session, scoring maximum points (45/45).

Our Sixth Form has a significant rate of acceptance from the top universities in the UK- Russell Group, the USA and the Netherlands.

Founded in 2002, the International School of Como (ISC) has grown to stand for excellence and has contributed to the expansion of international education in Northern Italy, as one of the almost 5,000 International Baccalaureate (IB) schools located worldwide. Today, ISC welcomes over 415 students from 2 to 18 years old of 46 nationalities and an international staff of more than 60 qualified teachers and assistants.

ISC is committed to providing children with the best educational experience possible. ISC offers the IB (International Baccalaureate) Primary Years, Middle Years and Diploma Programmes and aspires to create a community where learning is the central driving factor of a journey in which our students become ethical thinkers, creative problem-solvers, community-minded and individuals of action on the world stage.

Our state-of-the-art campus was designed and built specifically for our students and provides for every aspect of a vibrant, innovative and rigorous education. Over 10,000

square metres of internal and external spaces house our extremely large classrooms, a Robotics lab, two Art Studios, 3 fully-equipped Science Laboratories, A Drama Studio, a well-stocked Library, an indoor gym and outdoor multipurpose sports facility, cafeteria and playgrounds. Recent additions to the facility include an IBDP Study Centre and our 'CoLab', which is a shared work area / coffee bar.

With our efficient bus service we can cover a large number of the surrounding communities, and beyond, including: Como, Lecco, Varese, and Lugano (Switzerland).

At ISC we are driven by our Mission Statement which is: *"The International School of Como is a student-centered community of internationally-minded learners. We offer a balanced and challenging curriculum, in a safe and nurturing environment, where we respect and value the Italian culture and our collective diversity. We empower all students to be active, reflective and responsible lifelong learners who can achieve their full potential and contribute to an ever-changing world."*

The International School of Islamabad (ISOI) is a private, coeducational, college-preparatory day school. ISOI offers an inquiry-based curriculum to students of 49 nationalities. The school operates on the semester system and is accredited by Middle States Association of Colleges and Schools. ISOI is an IB World School, offering the International Baccalaureate Diploma (IBDP) in grades 11/12. ISOI is also an IB PYP school. ISOI was founded in 1965. The campus is located on 23+ acres on the outskirts of Islamabad, Pakistan. The campus includes Elementary School, Middle School and High School quads, a gym, an auditorium, an open-air theater, an IB art gallery, a physical education center, tennis courts, a climbing wall, a running track, playing fields, a swimming pool, two libraries and two technology centers. Students are admitted on the basis of previous academic records, standardized test scores, a writing sample and verification of the need for an international, English curriculum.

The school year runs from August to early June and is divided into two semesters. The first semester runs from August to December and the second semester runs from January to June. The school follows a two week, rotating block schedule.

Vision

The International School of Islamabad inspires open collaboration to create a student-centered, inquiry-based learning environment that cultivates enthusiastic and globally-minded individuals.

Mission

The International School of Islamabad ensures that each student strives for academic success, develops intellectual curiosity, and becomes a responsible global citizen.

Celebrating its 50th anniversary this year, the International School of London (ISL) is an International Baccalaureate (IB) World School with an integrated home language programme for over 20 languages, delivering educational excellence for ages 3-18. Our school has earned a global reputation as a highly successful IB school and is widely recognised as one of the UK's best international schools.

We offer an exceptional world of learning for every student. Starting with a genuinely warm welcome to our multicultural environment from our award-winning Transitions team, we work with each child to devise an individual learning programme tailored to their unique needs and goals. Our focus on student wellbeing, in a supportive environment, is complemented in the classroom by dynamic teaching practises. It's this approach that we believe leads to the academic and personal success that characterises ISL pupils.

We are a culturally diverse community. Students' cultural and linguistic identities are valued and nurtured through our curriculum and unique home language programme, that is embedded into the timetable. Our school develops the attitudes, skills and understanding needed to shape responsible, creative citizens of both local and global communities.

ISL has high academic standards, offering three IB programmes: the Primary Years, Middle Years and Diploma

Programmes. These align to the unique developmental needs of students from nursery through to pre-university.

Located adjacent to the beautiful Gunnersbury Park, all primary students attend daily Forest School, year-round. We are committed to intercultural education, extending our students' learning beyond the confines of the classroom and into both the park and the wonderfully rich culture of London. With our fantastic new Sports Hub, local astroturf pitches and tennis courts we offer students a huge variety of sports activities, alongside many opportunities in service learning and the arts that challenge our students to grow and develop, through innovative, inter-disciplinary projects that stretch minds and encourage curiosity. The breadth and depth of our programmes ensure our graduates are prepared for life at leading universities worldwide, as well as for exciting futures across the spectrum of careers.

ISL is a relatively small school with a distinct family atmosphere, giving a voice to all members of our community, with active parent groups and a committed student government. Students at ISL develop a keen sense of intercultural understanding, greatly valued in our globalised world. ISL actively celebrates this diversity throughout the year in class activities and whole school events.

Founded in 2008, The International School of London (ISL) Qatar is an International Baccalaureate (IB) World School, authorized to offer the IB Primary Years, Middle Years and Diploma Programmes.

ISL Qatar has developed a strong presence both locally and internationally as a pioneering educational institution, that is continually exploring the process of learning and considering what constitutes effective learning. ISL Qatar has an outstanding reputation for high academic standards, prestigious International Baccalaureate (IB) programmes.

ISL Qatar is part of the International School of London Group, which has a tradition of over 40 years of outstanding educational achievement in the UK. The IB curriculum fulfils the School's vision of combining intellectual rigour and high academic standards with a strong emphasis on the ideals of international mindedness and responsible global citizenship.

ISL Qatar's unique and pioneering Mother Tongue programmes is a particular highlight of the school, as ISL

Qatar is the only school in Qatar to offer Mother Tongue Programmes in over 12 languages, with additional languages being developed each academic year. ISL Qatar is focused upon the students' cultural and linguistic identities as part of the learning experience, valuing their cultural identity as an integral part of being a member of the learning community. This facet of inclusion strives to maintain the home culture and language, fostering parental engagement and supporting the academic performance of our young learners.

ISL Qatar is a culturally diverse community which fosters a passion and enthusiasm for learning through outstanding educational practice from ages 3-18 from over 70 countries. The school's international staff represent more than 50 different nationalities. ISL Qatar develops the attitudes, skills and understanding needed for active and responsible contributions to both local and global communities.

Welcome to the International School of Milan (ISM).

ISM is proud of its position as the premier international IB school within the city. We are renowned for our high educational standards, caring learning environment, and world class facilities. We are a diverse community with over 50 nationalities and a student body that is proud of everything we do. We are the longest established international school in Milan, and our progressive educational thinking has served the international and Italian communities in Milan for over 60 years.

Our ethos of high achievement, coupled with diversity of opportunity, will enable your children to develop their confidence and be ready for the challenges of the future. The IB curriculum, which runs throughout the school, embraces internationalism and global citizenship, fitting the needs of students of all learning profiles. Our PYP, MYP and IB Diploma programmes thoroughly prepare our students for further study all around the world, including at the world's leading universities. Our academic results, including our students' final IB DP scores, are consistently above world averages.

Our dedicated international teaching community work with our students to support their well-being and guide them on their individual pathways. As a community, we embrace a growth mindset, ensuring that all students have

the opportunity and motivation to aim high and achieve their dreams. Our students have agency over their learning, increasingly taking responsibility for their own personal development, and student leadership is very well developed. Our teachers embrace innovation and creativity, working with technology to enhance learning on a daily basis.

Facilities within our large and spacious campus are world class. Our students enjoy specialist music and drama facilities (including a theatre), a wide range of sport venues (including a swimming pool, gymnasium and football pitch), dedicated laboratories and libraries, alongside our well-furnished suite of classrooms. For students aged 14 or above, we also offer the option of joining our modern and vibrant boarding house for 40 students, where the care and attention provided by our staff team ensures a transformational educational and social experience for all.

As a school which caters for students from 2 to 18, our provision is very carefully differentiated to ensure that the needs of each student are well met. ISM will enable your child to thrive, whatever their profile and interests, through a unique holistic learning experience that is underpinned by the IB curriculum, our dedicated and innovative staff, our world-class facilities, and our very special international community. Please visit us at any time to see this for yourself.

Welcome to the International School of Modena. Celebrating 25 years of high quality education in the region, ISM started as a joint venture with Tetra Pak, whose global research and development unit is located in Modena. ISM is a proud member of Inspired which is the fastest growing premium international schools' group operating on 5 continents and educating over 45,000 students globally. Our modern, purpose-built campus, surrounded by green open spaces, is located 12km outside of the city of Modena.

We are a truly international school representing approximately 30 different nationalities and offering the full continuum of International Baccalaureate (IB) education, with the Primary Years Programme (PYP) for children ages 3-11, Middle Years Programme (MYP) for ages 11-16 and the Diploma Programme (DP) for 16-18 years. ISM is the first school in Emilia-Romagna to offer the IB Continuum, which will thoroughly prepare your child for study all around the globe, including at some of the world's leading universities.

Our innovative Early Years department features beautiful spaces and play structures specially designed to support the delivery of the IB PYP and Reggio-Inspired Early Years Curriculum.

The curriculum at ISM is carefully designed to reflect the ethos of the school and of the International Baccalaureate with a commitment to inquiry-based learning, encouraging every student to ask questions, to think for themselves and develop the skills to become confident, independent learners who will grow up to be balanced, caring and principled citizens. Our dedicated, international teaching body ensures that students achieve highly at the school. We believe in challenging young minds, ensuring that our focus is on every student achieving beyond expectations both inside and outside of the curriculum. Over the last three years we have achieved an average of 36 in the IB Diploma with a top score of 45 out of 45, allowing our students to access world class universities across the globe.

The International School of Modena is a small, friendly school, growing quickly due to its popularity with both expat and local families. We are proud to be a premium international school offering high quality education in a caring environment with happy, engaged students. We are certain that you will see that ISM is a place that celebrates learning and values each and every student, offering them a challenging, enjoyable education aimed at developing skills required for future success.

Founded in 1994, the International School of Monaco (ISM) is an independent, co-educational, not-for-profit day school in Monaco. ISM is the only fully accredited international private school in the Principality of Monaco and today caters to 750 pupils aged from 3-18, drawn from over fifty nationalities.

In August 2020 the school signed a historic partnership with King's College School, Wimbledon, as part of the school's aim to be among the best in Europe.

Driven by its vision of international education with distinction, ISM's mission is to provide an outstanding education for students so that they are happy, confident, independent, multilingual and responsible global citizens. The school's values emphasise integrity, learning, caring and respect, with strong emphasis placed on excellence, wellbeing and multilingualism as well as international mindedness and digital citizenship.

ISM offers a distinctive bilingual education in English and French for students in the Early Years and Primary Schools (Kindergarten to Year 6), and from Year 7 onwards, the Secondary School offers a broad and balanced curriculum in English, leading to Cambridge IGCSE and the IB Diploma qualifications. The school offers the IB Diploma Programme (IBDP) and the IB Career-related Programme (IBCP), as well as the Extended IBCP pathway, which allows high-performing student-athletes to complete the IBCP over a 3-year period instead of a 2-year period as part of ISM's accreditation as

an Athlete Friendly Education Centre (AFEC) from the World Academy of Sport.

Languages are an important part of the curriculum, with Spanish, Italian, Russian and German, in addition to French, on offer. Highly qualified teachers and support staff are recruited from around the world.

ISM provides an extensive programme of enrichment including sports, Model United Nations, an annual Arts Festival, the Duke of Edinburgh's International Award plus ABRSM and LAMDA music and drama qualifications. The school's unique location on the Côte d'Azur enables access to world-class museums and places of interest.

Outreach is an important element of school life, and students participate in a wide range of giving projects throughout the year via the school's philanthropy clubs, Student Senate initiatives, and the PTA, in partnership with local charities and environmental associations.

Pastoral care is a major priority for the school; an extensive PSHE (Personal, Social and Health Education) programme is delivered by teachers who receive regular training in child safeguarding, and a full-time Head of Wellbeing is supported by a wellbeing team including a school counsellor and psychologist.

ISM students are well-rounded, academically successful individuals who are admitted to top universities around the world. ISM graduates are already pursuing exciting careers in many diverse fields.

At ISMonza, a full International Baccalaureate (IB) continuum school authorised to offer the Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP), we endeavour to deliver the International Baccalaureate programmes in the purist of forms, with the school's core values and the IB's Learner Profile embodied in everything that we do. Both the school and the group to which it belongs, have an established record of success in the IB, from age 2 all the way through to admission to the world's leading universities at age 18.

Perhaps most of note is the sense of collaboration that exists amongst all members of the school community. This is most evident in the way in which our highly qualified mother-tongue teachers and inquisitive students work towards a common goal of academic success which is seamlessly balanced with an inherent commitment to active global citizenship at every level. Although all classrooms are fitted

with smart TVs and students bring tablets or laptops to school, we use technology in a blended approach where we feel it adds value to teaching and learning and not merely to replace traditional methods (yes, we do use books and, yes, we do talk to one another).

All this takes place in our city-centre campus – a stylish and colourful factory conversion – which has been specifically designed to foster collaborative approaches to teaching and learning. Our science laboratories are fitted with state-of-the-art equipment and we also boast carefully designed on-site spaces which support the delivery of our Reggio-Inspired Early Years Curriculum, three beautiful libraries, as well as studios for visual arts, drama and music, supported by a brand new sports complex. That said, living in such a culturally rich part of the world, we take many opportunities to knock down our classroom walls and learn from opportunities in the local and not-so-local area.

The International School of Nice is an accredited, co-educational, non-sectarian, IB World School, providing Anglophone education for the international community in the Cannes-Nice-Monaco region. The school offers a complete international education from Young Explorers (age 3) to Grade 12 (age 18). ISN Nice is a proud member of Globeducate.

The Primary School follows the IB Primary Years Programme, a rich, inquiry-based approach to learning that focuses on the individual needs of every child. French is mandatory from age 5, and taught on a daily basis. An EAL programme parallels mainstream English in the Primary and Middle Schools.

The Middle School is a candidate for the IB Middle Years Programme, with a particular focus on the social and emotional developments of students, as well as high academic standards.

The High School curriculum prepares students for the IGCSE exams, the IB Diploma, and the High School Diploma. Students are guided and supported to reach their potential in a safe and caring environment. A team of highly-qualified and experienced teachers respond to students' diverse learning

styles and challenges them through exciting and innovative practices. Over 95% of graduates go directly to university, primarily in the UK, France and North America.

The faculty represents over 30 nationalities, and the student body is truly a melting pot, representing over 60 nationalities, with students from Anglophone countries making up ca.20%. This enables cultural awareness and participation in a globalised world for all our students.

The school year is from September through June with classes meeting from 08:30 to 16:00. There are a number of extra-curricular activities, including a variety of sports, Model United Nations, Student Council, and field trips.

The school occupies a purpose-built facility, which is undergoing an ambitious and inspirational two-year renovation project, with specific areas for problem solving, analytical thinking, imagination and creativity, and digital skills. This is in keeping with the school's vision to prepare today's learners to confidently embrace challenges as adaptable, empathetic global citizens who will be active contributors to a more sustainable world.

Founded in 2010, the International School of Siena has grown considerably in the past 12 years. We are the only IB through school in Tuscany, fully authorised for the Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP).

Learning at IS Siena is exciting and engaging, as students strive for excellence in a climate that is caring and responsive to individual needs and goals. Our global vision is coordinated by an outstanding team of educational leaders and implemented by our highly skilled and dedicated professional staff.

The school takes advantage of a purpose built building with 21st century technology where we enjoy a spacious, light, modern teaching spaces with a spacious indoor gym, Drama/Dance studio, Library, Music and Art rooms and Science laboratories fitted out to the highest standards. Our Early Years spaces are specially designed to complement the Reggio Inspired teaching approach. Our Inspired approach to PYP Early Years also draws inspiration from the Reggio Approach.

Learning at the International School of Siena is an international experience with students from around 23 nationalities. This leads to a perception of the world that merges understanding of our global context with the development of skills and attitudes that young people require to participate fully in the world of tomorrow, both as national and global citizens.

At the same time, we deeply appreciate the diversity of mother tongue languages in our school community and aim to utilise our diversity as well as supporting each student to appreciate our host country of Italy and become fully bilingual in English and Italian. We are so fortunate to be located in a beautiful area of Tuscany where we have access to a variety of cultural and educational resources in our local area which we strive to incorporate into the experience of the students, making connections between the classroom and the world around us.

We are a welcoming school community in which parents, students and staff work together to provide a stimulating programme, which engages each child in a concept-driven and inquiry-based environment.

The International School of Ticino is a special and exciting place to be. We are the first and only accredited International Baccalaureate (IB), Primary Years Programme (PYP) and Middle Years Programme (MYP) school in Ticino, Switzerland and also offers the Diploma programme (DP).

At the International School of Ticino we place the student at the centre of all we do to facilitate them to become lifelong learners. We achieve this through our school culture, which is rooted in the IB Mission statement, which states: The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

The school opened as a Kindergarten in 2014. It was established to offer the local and international residents of Ticino an IB education. As of 2017 the International school of Ticino joined the education group Inspired, who educate over 45000 students in 64 schools worldwide.

This grounding and combination with a leading education group has laid the foundations for the special community of learning which we see today in our new campus. The school now accommodates students from Kindergarten, 3 years old, to 18, offering the IB PYP, MYP and DP programme with our first graduation class in 2023.

The design and build of the new campus has drawn upon our foundations, the IB mission and the vision of the school; Inspiring the Extraordinary.

We accommodate our students in a facilitated student centred learning environment, where we equip all to develop in the international sector and in line with Ticino requirements, enabling your child to study at our school from the age of 3-18/19.

The International School of Ticino is a special and exciting place to be and we look forward to welcoming you to our community for a school visit, trial day and enrolment.

Website

www.isturin.it

The International School of Turin is a private, non-profit organization school open to students from all over the world. Established in 1963 as the American School of Turin, it was refounded in 1974 as the American Cultural Association of Turin (ACAT) and in 2007 renamed as the International School of Turin (IST). Since its establishment, IST has been a point of reference for the international community as well as for local families wishing to raise their children to be ready for the challenges of today's global world.

Our mission is to “inspire lifelong learning and international mindedness, empowering each student to reach their full potential.”

IST is an IB World School authorized to offer the IB full continuum of programs in English from Early Years to Grade 12: the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP).

IST has also been accredited by CIS (Council of International Schools) and NEASC (New England Association of Schools and Colleges) since 1984.

The school's curriculum is international and leads to the completion of both the IST American High School Diploma and the IB Diploma, which is recognized by the Italian Ministry of Education as being legally equivalent to the Italian Maturità.

IST is the only international school in Piedmont to be granted Parità Scolastica (equivalency) by the Italian Ministry of Education for its Early Years and Primary sections.

As proof our school's commitment to sustainability, IST is also certified as a “Green School” by FEE – Foundation for Environmental Education. Our school garden and greenhouse provide endless teaching and learning opportunities for students of all grades to raise their awareness of this global issue.

IST is proud to be a non-selective school and as such we pride ourselves on a well-structured student support team to ensure all students equal opportunities to access the school curriculum and benefit from it. The English Language Learning is aimed at students whose level of English language knowledge requires further development to access regular class courses. The Learning Support team works with students who need additional support to help them develop skills and strategies that will enable them to work at their full potential.

IST's school counsellor is in charge of a school-wide advisory and counselling program and works alongside teachers to help students successfully develop their socio-emotional skills.

IST offers a university counselling service to guide students in their subject choices as well as supporting them with university applications and providing opportunities to learn more about the options available both locally and abroad.

Afterschool activities are an integral part of IST's academic offer and are aimed at promoting and supporting learning beyond the classroom. The IST Sports teams and the IST Orchestra are just two examples.

Welcome to the International School Rheintal (ISR)! We are the leading IB World School in the Rheintal region catering for ages 3-19 years. We strive to meet the needs of each and every student through a personalised education and individual support to reach their potential.

Why ISR

ISR has a 100% pass rate in the IB Diploma and scores constantly above the world average. While academic excellence plays an important role at ISR, the development of the child as a whole to become a responsible and engaged global citizen is at the centre of all we do.

Individual academic support, one-on-one EAL classes, school and career counselling and our welcoming, international community are strong features of our school.

We encourage students to take their learning beyond the classroom through programmes such as the Duke of Edinburgh's International Award and the Model United Nations.

Where We Are

Situated in the heart of the Rheintal, a beautiful part of Eastern Switzerland, we are surrounded by mountains and

the Rhein with glorious views whilst being easily accessible by public transport or by car. Our ISR school bus conveniently connects the town of St. Gallen with the school. The nature surrounding us invites us to participate in diverse outdoor activities and is an integral part of our daily teaching and learning.

New School Campus

In summer 2023, ISR will move to a modern, ecologically-sustainable school campus near our current location. The new campus is specifically designed for ISR's learning and teaching needs, with phased learning zones, versatile classrooms, science labs, specialist art and design studios, outdoor learning, and lunch zones, a 1000m² green roof terrace and much more.

How to join

As a non-selective school, our doors are open to all families with children from ages 3 to 19 sharing our vision and mission. We accept applications all year round and are happy to work with families to make the application process as simple as possible. Please contact us at office@isr.ch to ask your questions, to book a free tour or a trial day at any time.

International School San Patricio Toledo is a day and boarding School, offering the complete range of the International Baccalaureate (IBO continuum) from 1 to 18 years. PYP, MYP and DP, bilingual or English only.

Our School prides itself on its range of choice and opportunity be it the diverse subjects on offer at Diploma or the clubs and sporting facilities within our grounds.

Our very strong academic results can be seen once again in 2022 with our excellent 35 point average (our highest ever) and a superb 17% of our cohort achieving 40 points or more and a top highest score of 45, maximum achievement.

We are one of the first in Spain to be an official Google Education Reference School. We take great pride in the use of our technology to ensure maximum knowledge for our students and the world they live in.

Location:

Our school is located in an exclusive residential area of Toledo (1 hour from Madrid by car and 30 min by train). The grounds are large with over 30,000 square meters: our purpose built boarding school is within the school grounds, which facilitates the use of the premises at all times without the need for transfers or departures from the campus. This ensures that students live in a fully-equipped campus with maximum security and control.

Furthermore, our Boarding School has over 18 different

nationalities providing students with a genuine international experience in the beautiful world heritage city of Toledo.

We offer a complete educational experience for students between 14 and 18 years of age and weekly boarding for students from 12 to 18 years old, allowing them to develop their communication and social skills.

All students have a designated boarding house tutor as well as an academic tutor who oversee the pastoral and academic wellbeing of each individual student. In addition we have a designated university counselor. Excellent standards of Safeguarding accredited by leading BSA and SACPA organizations.

Foreign languages:

English, German, French

Accommodation:

First class facilities. Rooms are designed to allow groups to be formed according to the personal characteristics and diversity of the students. We can therefore accommodate 2, 3, or 4 students per room on both male and female floors.

Weekends:

We take great pride in our programmed weekend activities for our boarding students allowing them to flourish and provide the necessary balance with their important academic studies.

The İSTEK Schools is comprised of several K-12 campuses. As an educational organization and a community that believes in life-long learning, the Foundation is committed to constant innovation and by providing scholarships the Foundation strives for equal opportunity education. Working in national and international contexts, aiming to make positive contributions to both the country and the world's future, and giving priority to scientific inquiry defines İSTEK as a foundation apart.

İSTEK Baris Schools' student body is mainly composed of Turkish students. About 5% come from bilingual/bicultural backgrounds. The Turkish National Curriculum is implemented under the PYP framework.

The school library is very active and has a central role in the lives of the school community. The classrooms that are equipped with modern technology, the field trips organized during the year and access to various databases develop students' research skills and lead them to become active inquirers.

With open mindedness as a goal, open communication is promoted by all the members of the school community. The Student Council is very active and participates in code of conduct related management decisions, regarding the suggestions and wishes of the students. Students are always encouraged to express their opinions and respect others' views. Their opinions are valued and they are provided with many opportunities to take action.

Learning together and learning from one another through cooperative learning and our reflective-thinking-oriented assessment system, support ongoing development of the students and play a pivotal role in leading them to become autonomous learners.

İSTEK Baris Schools as a community is committed to life long learning and responsible action that will help to create a better and more peaceful world.

Admission to İSTEK Baris Schools is offered on the basis of a school administered evaluation and according to the regulations of Turkish Ministry of Education.

IPS Mission

IPS lays the groundwork for a life-long love of learning by combining the benefits of multilingual and intercultural education, promoting international awareness. We strive to provide opportunities to reach both the intrinsic and extrinsic educational potential of every student. We create global leaders who are compassionate learners, who engage, enlighten, empower and contribute to building a better world.

IPS Vision

IPS Macedonia enriches the mind, strengthens the character, and inspires the hearts of our students.

IPS Macedonia's philosophy is to support the educational path of students from infancy to adolescence, in a safe, caring environment. We encourage students to try new things so they can figure out what inspires them. Despite the academic preparation, we are deeply committed to helping prepare young people to thrive in a complex, global community. That means we focus on the whole person, on character development, as well as on their academic progress. We prepare students to unlock their highest potential and contribute to the community and the world in which they work and live.

IPS Macedonia is a private school open to students of all nationalities between the ages of 1 to 18 years. IPS was first established in 1998 by a diplomat of Brazilian/American nationality temporarily residing in Skopje, in collaboration with Marija Mihailovikj and Tanja Todorovski, two Macedonian university students, as a means of providing her children with a good nursery school education.

IPS Macedonia with its 24 years of existence and implementing educational activity, is the oldest private International preschool, now school, in Skopje. It is a

testimony to the quality teaching that is performed in it, and the proof of that is the very successful generations of students resulting from it. Now they are knowledgeable professionals in their work in various spheres of life. In 2018 IPS started to implement primary educational activities and in 2020, the Secondary school started to enrol students. With the growth of the Secondary school, IPS Macedonia will cater for children between 1 – 18 years old. The school aims to achieve its full capacity of 570 students in the coming years.

Our campus provides the ideal environment for your child to learn and grow. We offer dedicated facilities to support different types of learning. We have:

- A dedicated science lab
- Classrooms designed for, Design, Music and Visual Arts
- Gym for Physical Education
- Extensive outdoor spaces including a sports field, multiple play spaces
- A wide range of After school activities
- A door-to-door bus service.

In the Primary Years Programme, the school offers a play-based learning approach through the Early Years, allowing children to discover the world around them and supporting the development of the whole child. Through play, and inquiry children develop an essential set of skills and they develop as readers, writers and mathematicians, and a sense of wonder is fostered as they grow socially, emotionally and academically.

The Middle Years Programme encourages students to be active learners who ask challenging questions, allowing them to continuously make meaningful connections between their learning and the world outside the classroom. During the MYP, our team of experienced teachers accompany and guide students on their learning journey. Emphasis is placed on

individual growth and encouraging students to reflect upon their learning. Teachers facilitate students' learning and help prepare them for the rigorous demands of the IB Diploma Programme.

IPS Macedonia is a candidate school for the IB Diploma Programme (DP). Only schools authorized by the IB Organization can offer any of its four academic programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP), the Diploma Programme (DP), or the Career-related Programme (CP). Candidate status gives no guarantee that authorization will be granted. For further information about the IB and its programmes visit www.ibo.org.

Within the dynamic IB environment, students are encouraged to think critically and become independent learners, coming prepared to class, presenting the material and being coached by their teachers. Assignments are demanding, and the balance between academic work and co-curricular activities allows students to tailor the programme according to their interests and develop an impressive university profile in the process.

Students who successfully complete the IB Diploma Programme demonstrate a strong commitment to learning, both in terms of their mastering of a range of subjects and in their development of skills and disciplines necessary for success in our competitive, global world.

Admissions

Students can apply to our school all year round based on availability. For further information about admissions or to schedule a visit to the school, please contact us at infopyp@ips.mk

The International Sharing School is a highly respected school on the lovely island of Madeira, Portugal. The school offers the PYP and the MYP programmes, teaching students aged 3 to 16, currently representing 23 different nationalities and with teachers from 8 different countries, in an international, multilingual and multicultural environment.

With 40 years of experience in international education, International Sharing School offers both the PYP and MYP, thus being the only IB World School in Madeira offering both programmes.

We are dedicated to achieving enjoyment and excellence in education for all.

As we continue to follow our ethos statement – “The passion of learning, the pride of teaching” – International Sharing School aims to provide an excellent and continuous international educational experience, in order to develop enquiring knowledgeable and caring young people who help create a better and more peaceful world through intercultural understanding and respect.

International Sharing School offers a curriculum focused on personal and professional development, preparing students for an increasingly global, competitive, multicultural and multilingual world.

Students begin their school learning at 3 years of age in

a bilingual environment, with educators who are English and Portuguese native speakers, so that by the age of 6 they enter PYP 1 with a sound bilingual foundation. The language of instruction throughout the school is English and we offer daily lessons of the host country’s language, Portuguese, for all students. In addition, the academic curriculum includes the teaching of German, Spanish, French, Mandarin and Russian. Students, therefore, are able to move to upper secondary and university education, having had the opportunity to learn, with a great degree of fluency, at least 5 of the 7 languages we offer.

We are very proud of our learning-journey and the traditions we have created. We are innovative and always strive to reflect the best of current practices and adapt to the demands of an ever-changing world.

Choosing a school is one of the most important decisions and has high significance as a long-term family investment. We offer a happy, enthusiastic and effective learning environment, combined with the expectation of challenging work experiences and high standards.

We encourage each and every student to fulfil their potential both academically and as a person in readiness for them to take their place successfully in the world of today and for the future.

Located in Portugal's largest technology park, Taguspark, in Oeiras Valley, in Lisbon Metropolitan Area, International Sharing School - Taguspark offers the full IB Continuum, the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP), with a multicultural and multilingual approach to learning, in a safe and empowering learning environment, where students are encouraged to be the best version of themselves.

International Sharing School – Taguspark currently welcomes 660 students from 65 different nationalities and 150 highly qualified teachers and assistant teachers, all teaching and learning in a multilingual and multicultural environment.

In PYP and MYP, students have direct contact with 6 languages and 3 different alphabets, with students in DP focused on subjects in the areas in which they intend to continue their studies in higher education.

Our families can find in International Sharing School a

warm, calm, personalized environment, integrated in green spaces and with easy access to the main circulation routes in Lisbon, Cascais and Sintra.

At International Sharing School, each student is unique, and fully integrated into the group, where teachers, motivated and rigorous, transmit to students much more than knowledge: they convey how to get to knowledge, through curiosity, research and sharing.

We educate responsible, creative, knowledgeable young people at International Sharing School – Taguspark, always respecting the environment that surrounds them, whether indoors or outdoors.

Integrated in Portugal's largest technology park, students at International Sharing School interact with the environment and with companies from Oeiras Valley, contacting realities that spike their curiosity and motivate them to push even further.

Since its establishment by Mr. Bedrettin Dalan in 1985, ISTEK Foundation has been raising modern and entrepreneurial generations in line with Atatürk's principles and revolutions. Today, our foundation, which has a chain of education from Kindergarten to University, is prominent in the future of our country with 22 Kindergartens, 22 Primary Schools, 22 Middle Schools, 20 Anatolian High Schools, 14 Science High Schools and Yeditepe University.

ISTEK Kasgarli Mahmut Schools, started operating in the academic year of 1987 – 1988. Our school was named after one of our Turkish seniors, Kasgarli Mahmut, who was known as the first Turkish philologist. On our campus, students study from kindergarten to the last year of high school.

ISTEK Kasgarli Mahmut Campus is located in Sultangazi on a large area of 9360 square meters. Our school facilities include 320 seat conference hall, library, indoor sports complex, swimming pool, music, painting, gastronomy workshops, music recording studio, 4 science and computer laboratories, maker workshop, large dining hall, outdoor sports areas, activity halls, playgrounds and technologically equipped classrooms that allow our students to develop academic and social skills.

Our school, which was accepted to apply PYP with Candidate School status in April 2016, received a Consultancy

Visit by IB in April 2017. In February 2020, IB carried out a Verification Visit and both ISTEK Kasgarli Mahmut Kindergarten and ISTEK Kasgarli Mahmut Primary School were authorized to apply PYP in June 2020. Our school is now honoured with the status of IB World School.

We believe that learning different languages is the key to becoming a global citizen. For this reason, we offer our students an intensive English language education starting from the age of 3. Our students receive bilingual education in kindergarten and primary school. In the second grade students choose between German and Spanish languages and receive their second language education until they graduate.

We aim to create experiences that will make our students to be more sophisticated, organized, mature and socially responsible. In addition to our daily flow, our students also participate in different club activities in fields of science, arts and sports in line with their skills and interests. Supported by our enriched curriculum, our students successfully represent our school in national and international organizations.

ISTEK Kasgarli Mahmut Schools is committed to raising caring individuals who are ready to change the world.

[kampusu](http://www.istek.k12.tr/kemal-ataturk-kampusu)

Situated on the European side of Istanbul overlooking the Bosphorus, lies Istek Kemal Atatürk Schools, which educates students from pre-school to high school. Apart from the Preschool and Primary School National Education Curriculum, PYP was added with IB authorization in 2013.

Since 1985 Istek Kemal Atatürk Schools offers a safe environment with open and closed sport centers, a semi-olympic swimming pool, well equipped laboratories, and libraries rich in resources and modern educational technologies. One can also find a spacious dining area, art rooms, a bicycle training zone, and a 7400m garden!

We believe that every child is gifted in a unique way. We aim to discover those gifts by offering different programmes such as; chess, musical instruments, visual arts, swimming, gym, modern dance, drama and brain teasers.

Throughout the year we assess our students in order to provide the best support for those whose needs differ from their peers. Our educational program is continuously developing out of consideration for our children's age, level of development, needs and any international developments. The curriculum is enhanced by making changes that allows students to perform at their top cognitive capacity. We support them in reaching this capacity by activating their curiosity, asking them to research, explore and

solve problems. The IB Baccalaureate PYP Primary Years Programme helps students to experience learning and the process of knowledge. Taking into account each students individual differences, we have tutorials for students who need extra support. We believe that students should care about the issues facing their communities and environment, and it's our responsibility to create a community of well rounded, knowledgeable, internationally minded, and caring students.

English is taught intensively at our school. Our students are evaluated by internationally recognized tests such as Cambridge, Trinity, and GESE every year. From fourth grade on, we teach French and German intensively in an effort to broaden our students horizons and to show them that they are citizens of the world.

We aim to create experiences that will make our students well rounded, organized, mature and socially responsible. We open new clubs in areas where we see students show interest, in addition to the arts and sports lessons that they normally attend. Students are selected to take part in after school clubs aimed at advancing their knowledge of science, and their abilities in arts and sports. These students go on to represent our school in national and international competitions.

Jewels International School of Kinshasa, an arcadian educational institute in harmony with nature in the Democratic Republic of the Congo, comprises of students and faculty from over 35 countries. JISK is an IB accredited school with PYP and DP, and MYP in candidate phase.

Founded in the year 1972, the school only had a garage for classroom and five toddlers as students. With consistent effort and an indomitable will to bring about a change in the community by offering them affordable and better education, JISK is a roaring epic of more than 1000 students now with state-of-the-art classrooms, IT lab, visual art studio, open air auditorium, design lab, park and an education system with international standards. Keeping the spirit of inquiry in mind, here students are encouraged to take the ownership of learning by following an experiential way of knowing and understanding. With an actively involved parent-teacher association and a very strong governance committee, here at JISK we believe that proper communication with a common goal is the key to success.

Community and Mission – The JISK community is a diverse community of learners, committed to fostering compassionate, confident and socially responsible individuals who are en route to global citizens. A community of teachers and students from more than 35 nationalities, represent unity in diversity in a campus that is spread over the length and breadth of 6 acres of land. With a mission to bring affordable and quality education to the local community, JISK is equally committed to maintaining an eco-friendly environment for all so that our students grow up to be caring individuals.

The program – JISK is a K-12 school offering world class education to students following the IB curriculum. Keeping the spirit of inquiry in mind, students are motivated to take the ownership of learning under the able guidance of the facilitators who attend IB workshops regularly as a part of their professional development journey. Life in DRC has taught students here to be resilient, open minded and respectful towards diverse culture and community.

Campus

Founded in 2010, Jumeira Baccalaureate School (JBS) is part of Taaleem, the UAE's second largest education provider. The JBS campus sits on approximately eight acres of prime land in the heart of Dubai, with outstanding learning, sporting and performing arts facilities; including a FIFA sized grass field, 25m swimming pool and additional training pool, two large gymnasiums, two full-sized rooftop tennis courts, designated music and visual arts rooms, primary and secondary library and shared play areas for younger students.

Vision and Mission

To be a school of good character, excellence and outstanding performance. Our Mission is to ignite passion, purpose, and curiosity in our students and promote wellbeing within our community. To provide an IB education with high expectations that is innovative, internationally minded, and inclusive.

Our Teachers

Our teachers are highly qualified educators with vast experience in IB and education. All our teachers are trained IB practitioners, with many being IB workshop trainers, and IB site visitors.

Student body

We have 78 different nationalities and speak 45 languages. JBS has been recognized as the first international school outside the UK to become a 'Kitemark School of Character'. Character education is all the activities that take place in and outside of school to develop character strengths or virtues in students.

We aim to provide exceptional opportunities for each of our students in a supporting and challenging environment. We welcome all students to JBS. This could include students with special educational or learning needs, students with English as an additional Language (EAL), and those who are Gifted or Talented.

We offer a unique French Native Speaker Programme from Pre K to Grade 5 and a French B programme from Pre K to Grade 12. Arabic is also taught as a first and second language from Pre K.

We pride ourselves on high academic standards, however we are more than this. Truly excellent education is about developing a passion for life-long learning and a capability for independent thinking.

Kent College Campus

The Senior School sits in 80 acres (32 hectares) of land with 26 acres of sports fields, grazing for the school farm and ancient woodland for walking and cross country running. Yet the centre of Canterbury, with its wide selection of shops, restaurants, theatres, cinemas and world-heritage site, within which sits Canterbury Cathedral, is just a short walk away.

The Great Hall, a state-of-the-art 600 seat versatile theatre for the performing arts, worship and concerts also hosts the annual Canterbury Festival, the largest Arts event in Kent. The Great Hall is an important step for Kent College in building a world-class campus, and it is used as a versatile and practical space for the school's highly regarded Drama and Music departments.

Curriculum

Kent College prides itself on offering personalised academic programmes, small class sizes and exceptionally well-qualified and experienced teaching staff. All students are provided with a laptop when they start at the school. Pupils achieve excellent academic results at GCSE, A Level, and in the International Baccalaureate (IB). An average point score of 37 in the IB consistently places Kent College in the top 10 IB schools in the UK. The school also offers a wide range of additional support for pupils, including access to a Learning Support Centre and specialist English language teaching for overseas students in the International Study Centre.

Kent College is very flexible when it comes to constructing the timetables for Diploma candidates and encourages applicants to identify courses and subjects they wish to study even if KC does not offer them as they are able to bespoke most options. Kent College offers outstanding levels of teaching and support for the IB Diploma with additional classes and tutoring available as standard to ensure the very best outcomes for individuals.

The academic life of the IB student is complemented with a rich and diverse co-curricular programme at KC. There are 100 clubs and activities for every interest and new ones established each year to meet the changing desires of our students. National representation in sport is common with equal standards in Music and Drama, there is simply something for everyone at KC.

Candidates for an IB Diploma scholarship (Year 12 only) must submit written work to the Deputy Head, Mr. Letley (deputyheadofseniorschool@kentcollege.co.uk). International students should contact Mr Letley directly about submitting their application. Written work – applicants must submit two reports: 1. (maximum 300 words) which should explain why you particularly want to study the IB. 2. (maximum 1,000 words) which should be an extended piece of writing based on an area of research that you have completed. This might be research based on reading or possibly some form of experiment/investigation. The assessment includes a short interview that will focus on the content of the two written reports.

Beyond the classroom

Kent College has a strong belief in “work hard, play hard” and provides over 100 co-curricular clubs and activities for students who are actively encouraged to participate in two clubs each week. A cornucopia of clubs and societies are available from Archery to Zumba dancing. Students can try many different sports from basketball to rowing and fencing as well as joining the debating society, photography club or jewellery making. The school also runs an active Eco Warriors group and a woodland conservation team as well as the Duke of Edinburgh programme from Year 9 at Bronze, Silver and Gold award level.

Many students join the school’s Farm Club and learn to care for animals at our working farm and show them at the Kent Show where they can also join the annual Young Farmers Camp. Horse Riding lessons are also available in the school’s riding arena and our NESAs team compete in events all over the country.

Pastoral Care

Kent College has a reputation for being a friendly and caring school, and our pastoral structure is designed to give all pupils the support they need from the start of their school career to the day they leave. Our mission is always pupil-centred and to focus on enabling every child to become the best they can be. The Heads of House lead their teams of Tutors and have overall responsibility for the academic and pastoral wellbeing of the pupils in their age groups. All of the Heads of Houses work in close co-operation with the Deputy

Head of Wellbeing and Pastoral as well as House Parents, and the Head to ensure that all students receive the care and nurturing they need from the day they arrive to the time they leave Kent College. The school runs a Health and Wellbeing week and believes feelings of wellbeing are fundamental to the overall health of an individual, enabling them to successfully overcome difficulties and achieve their goals in life.

**Introduction**

King Abdulaziz School is proud to be the first IB World Continuum School in the city of Medina S.A. Our IB journey began in 2015 and we subsequently became officially authorised to offer the PYP by the International Baccalaureate in December 2017. Later on, KAS achieved the accreditation to offer the MYP in 2020 and the DP in 2021.

Mission Statement

Our Mission at KAS is to create international educational experiences that cultivate active and lifelong learners. KAS aims to provide stimulating academic programmes supported by rigorous assessment, and implemented through inquiry, in a caring and nurturing learning environment. Learners are equipped with the skills they need to reach their full potential and become responsible global citizens. KAS prepares students to be open to other perspectives, values and traditions whilst recognising their own identity and taking pride in their cultural heritage.

Primary Years Programme at KAS

At KAS, we offer an inquiry-based, transdisciplinary curriculum framework that builds conceptual understanding and enables sound skill development. We focus on providing the best educational practices, having both local and global significance. In line with IB learning, our PYP students are

open to the perspectives, values and traditions of others, whilst at the same time appreciating their own identities, and being proud of their cultural heritage.

Middle Years Programme at KAS

As our learners mature from transdisciplinary learning in the PYP into interdisciplinary learning in the MYP, they become more responsible and reflective of their own learning experiences through engaging in the inquiry cycle. Our student-centered approach ensures the empowerment and development of students ready to embark on further education as critical independent thinkers in the DP.

The Diploma Programme at KAS

Our experience with the International Baccalaureate Diploma Programme at KAS has enabled us to combine the interdisciplinary and robust subject disciplines in the IB Diploma, whilst maintaining the breadth and depth structure of the curriculum.

To the wider school community, here are our firm commitments in our provision of teaching, learning and interactions in our IB Diploma curriculums:

- Structured and balanced curriculum
- Experienced teachers
- Coherent and deep learning
- Rich and relevant resources for teaching and learning

King Edward's Witley, a co-educational independent British boarding and day school for pupils aged 11-18, is situated in stunning 100-acre grounds in a designated Area of Outstanding Natural Beauty in Surrey. The School benefits from a convenient location with excellent road and rail links between London, the South Coast and Heathrow and Gatwick international airports.

Founded in 1553, King Edward's enjoys established links with the City. The School embraces its heritage and traditions with a modern outlook consistent with a world-class centre of excellence, with a commitment to the pastoral and education needs of the children it serves.

King Edward's is one of the UK's top co-educational day and boarding schools offering the International Baccalaureate Diploma Programme (IBDP), opening university opportunities in the UK and globally. In 2022 pupils achieved an average score of 32.3 points, well outstripping the worldwide average for IB students of 32 points out of a possible 39% of individual subject grades were 7 or 6 – the equivalent to A Level A* and A, an outstanding achievement.

The School offers a Pre-Sixth one-year programme for overseas pupils as a stepping stone to the IB. Pre-Sixth gives students, aged 15-16, a taste of boarding life, an opportunity to improve their spoken and written English and enjoy cultural trips around the UK. For Pre-Sixth pupils looking

to continue into King Edward's Sixth Form or return to education in their home country, they are able to take GCSE examinations in a range of subjects.

Living in Houses alongside pupils aged 11 – 18, our Pre-Sixth and Sixth Form pupils are fully integrated with their peers and build deep friendships. There are currently 444 boarding and day pupils from over 30 countries. 70% are English native speakers.

This year we have unveiled our Upper Sixth Form House, which has become home to all Upper Sixth Form pupils, both boys and girls, in their final year at King Edward's. The new House benefits from landscaped outdoor space, study and social areas and boarders have their own study bedrooms with full en suite facilities. Our Upper Sixth Form House provides the perfect stepping stone to university and independent living.

Academic and sporting facilities are extensive affording a broad curriculum and co-curricular programme. There are over 50 clubs & societies including many sporting opportunities; much music-making with over twenty ensembles and choirs; an array of art and DT workshops; extended drama and theatre experiences, trips and much more from the cerebral chess and debating to the challenging Duke of Edinburgh to the more mindful bee keeping.

We are a relatively small school, under 400 students. Approximately 20% of students board, with half of the boarders living on the Island and the rest from a wide variety of countries around the world. We are non-selective, but through the dedication of our staff, the structure of support for each individual and the work ethic of our students, we achieve excellent results. Our students go to top universities in the UK, Europe and the USA.

The Isle of Man is a beautiful environment in which to live. It is a safe haven with a very low crime rate, giving students the freedom to explore and take advantage of the fresh air, open countryside and beaches, away from the hustle and bustle and pollution of a busy city. The Island is easy to get to with air links from the major airports in the UK and Ireland.

We are one of a few schools where every student in the Sixth Form studies for the International Baccalaureate

Diploma. The IB philosophy – particularly its emphasis on skills and its focus on internationalism – is central to our approach and we are one of the largest and most experienced IB schools in the British Isles.

Our pupils follow a broad curriculum of sporting activities, competing in the major sports against UK and Island schools. Every three years, the senior rugby and hockey teams embark on a world sports tour during the summer months. Golf, rock climbing and sailing are also on offer, along with a wide variety of other extracurricular activities.

Drama and Music thrive and pupils are given the opportunity to perform at many events and productions. There are workshops throughout the year and students are also encouraged to participate in competitions.

King's College School prides itself on being a forward-thinking and innovative school, offering outstanding academic and pastoral provision for boys aged 7-18 and for girls aged 16-18.

King's has retained its place in the Sunday Times 2022 Parent Power tables as the top boys' or coeducational school in the UK for the fifth consecutive year. Set opposite the beautiful Wimbledon Common, it is located in one of the most attractive and peaceful parts of London. The school campus has recently undergone significant renovation as part of a £50m master plan, and it boasts a wealth of incredible sporting, musical and drama facilities. Founded in 1829 by royal charter, today the school has almost 1500 pupils and is one of the most academically successful schools in the world, teaching both the International Baccalaureate and A level in the sixth form. The school puts its success down to teachers that love their subject and pupils who care as much about the success and happiness of their friends as themselves.

The curriculum is designed to offer a broad range of options and the quality of teaching is excellent. Lessons are fun, exhilarating, and purposeful, creating the best possible foundation for the future. We prepare sixth formers for both the IB and A Levels. In the last six years, over 250 leavers have won places to study at Oxford or Cambridge.

The approach at all levels is to encourage pupils to look beyond the academic curriculum and King's is renowned

for its co-curricular programme. A huge variety of sporting, drama, musical and other activities is offered throughout the school week, including the Combined Cadet Force and the Duke of Edinburgh's Award Scheme. To enable so much to occur, Friday afternoons for year 9 and above are made over entirely to these and other activities. One of the defining features of King's is the dynamic and successful community partnerships programme which involves almost 400 pupils each year and consists of mutually valued partnerships with state-maintained primary and secondary schools and other organisations.

Outstanding pastoral care is central to the school's success. King's offers a programme of PSHE that equips pupils with the skills and knowledge to understand their place in the modern world, and all pupils are placed in a House, form and cross-year tutor group. Tutors remain with pupils throughout their time at school. Sixth form pupils, the school's chaplain, the school counsellors, the learning enrichment department and equality, diversity and inclusivity mentors also support pupils throughout their time at King's.

Financial assistance of up to 100% of tuition fees (inclusive of scholarships) and up to 100% of other costs (for the expense of daily school lunch, transport, uniform, relevant trips and so forth) is available.

King's College Alicante is a premium, private British school offering first-class education to children from age 2 to 18 years old. Our aim is to educate the whole child and support them in exceeding their potential on academic, physical, and interpersonal levels. King's College has been rated as one of the best schools in Spain by Forbes and is one of the leading schools in Spain for over 50 years.

The school follows the British National Curriculum until Year 11 and is proud to offer the IB Diploma Programme in Years 12 and 13. Our dedicated and passionate staff help shape our children and encourage them to become dynamic, tenacious and resilient individuals, ready to take on new challenges at university or the world of work. Education at KCA opens many doors for our students and ensures they are well prepared to successfully apply to the best universities around the globe after graduating from us.

Post-16 education at King's College Alicante is centred around preparation for the International Baccalaureate Diploma Programme which is seen as the gold standard in pre-university certification. KCA offers the broadest IBDP curriculum in the local area and also provides the opportunity to be awarded the bilingual diploma at the end of Year 13.

We are the first British school in Spain certified as a Google Reference School, awarded for our excellent digital learning

programme, dedicated to maximising your child's potential in every area and harnessing technology to improve all aspects of teaching and learning. We were recently re-awarded the SENDIA award as recognition of our outstanding inclusive educational programme and are proud to have been rated as "outstanding in all areas" during our previous three BSO inspections.

We are truly a unique and outstanding institution that offers a rich curriculum and a broad all-round education. When you visit you will be impressed by our warm and purposeful atmosphere, underpinned by the dedication and talent of the staff and the enthusiasm of the students. As well as our focus on the academic achievement of each pupil, we are committed to enhancing their love of learning and enjoyment of the whole school experience. Staff give freely of their time, and we offer a comprehensive programme of sport, music and drama, as well as numerous co-curricular opportunities, trips and visits. Above all, and just as much as any parent, we want our children to thrive and be happy throughout their time with us.

Our motto "Always aspire to be the best you can be" resonates across our campus and drives high expectations and standards from everyone in our British international community.

King's College Madrid is a coeducational day and boarding school which provides British education for children from the age of 4 months to 18 years (Baby Unit to Year 13). It is located on an attractive 12-acre site in a leafy suburb, just 20 minutes' drive from Madrid and the main airport.

King's College is the only school in Madrid to offer both A Level & IB Diploma programmes of study in English. This allows students to choose their path of study depending on what type of learner they grow up to be enabling them to fulfil their future aspirations.

This freedom of choice, coupled with the highest quality of teaching and learning allows our students to excel across the curriculum:

- Academic Results are among the best in Europe
- Year 13 Graduates go on to study at some of the best universities in the world (Russell Group, Ivy League & Oxbridge)

Since it was founded in 1969, King's College has gained a reputation for high academic standards. An experienced

careers and university entrance advisory department is available to all pupils, and the Oxbridge preparatory group prepares students applying to Oxford, Cambridge and other elite universities.

Our boarding house opened in September 2011 and offers some of the best boarding accommodation in Europe. Tenbury House is home to 60 pupils from all over the world. The new facilities offer a 'home from home' environment with shared and individual bedrooms all with en-suite bathrooms, underfloor heating and wireless internet. In addition, there is a dining room, a common room, a TV room, a study room, a kitchen that pupils can use to make light meals and a laundry. During the evenings and weekends, the students in Tenbury House have full use of these facilities and can also take advantage of many of the school's sports facilities.

King's College is the only BSO school in Madrid accredited by the Department for Education in the UK as "Excellent" in every category that offers a British Curriculum from 20 months to 18 years.

King's College, The British School of Murcia is the only school in the region that regularly undertakes external inspections accredited by the Department for Education (DfE) of the British Government. The school is located in La Torre Golf Resort and offers the English National Curriculum to pupils from the age of 18 months to 18 years (Pre-Nursery – Year 13).

In this growing school, the children mature with us from 18 months to 18 years; learning and developing into the young adults of the future, with confidence and a multicultural perspective. The students benefit from a first-class campus, well equipped to provide a stimulating environment to nurture their skills and talents, whether these be academic, artistic or sporting. This environment is enriched by dedicated teachers, delivering the English Curriculum through inspirational teaching.

Premium and Private British school ranked as the 4th Best School in Spain by Forbes magazine that offers the British

National Curriculum to pupils from 18 months to 18 years.

They foster a culture of aspirations and ambitions with their youngsters that leave school with the right skills necessary to thrive and a growth mindset, fully ready to follow their dreams and achieve them no matter the circumstances.

King's Murcia is the only school in the Murcia region to offer the IB Diploma Programme in English, opening many national and international opportunities for them in the future starting by accessing elite universities.

KCM offers a unique teaching and learning framework to develop the cognitive skills, values, attitudes and attributes needed to reach success, they offer a wide programme of Extra-Curricular activities in which each student can discover and enhance their talents.

The best investment for the future is King's College, The British School of Murcia.

La Côte International School is a private international school based in Aubonne, Switzerland. The modern campus is conveniently located between Lausanne and Geneva, with stunning views of the Swiss Alps and Lac Léman.

The school offers its students unmatched international learning opportunities, combined with truly personalised academic support and the highest educational standards, to motivate all students to achieve more than they ever thought possible.

The school offers only curricula that lead to accredited qualifications recognised by the world's leading universities. It also offers enriching learning opportunities to ensure that students are equipped with the skills to shape the world they inherit.

Primary students follow an enhanced International Primary Curriculum with French options that range from a beginner's course to a truly bilingual program. This provides an excellent transition into the diverse international secondary curriculum offer.

In secondary, students are supported to achieve excellent academic results and further develop their skills in two or more languages. In Years 10 and 11, students study for their IGCSE, the world's most popular international qualification for 14 to 16-year-olds. In Years 12 and 13, students aged 16-18 study the IB DP, the gold standard in education. Through a broad range of subject choices, targeted support, and personalised guidance, students are supported to achieve their very best academically.

IB students can opt for a single-language or bilingual IB diploma, strengthening their application to top universities in Switzerland and abroad.

LCIS is a member of Nord Anglia Education (NAE), the world's leading premium schools' group, and is, therefore, able to recruit the finest locally and internationally trained teachers committed to nurturing and inspiring every child. Consequently, LCIS students achieve outstanding academic results, and graduates are accepted to top universities in Switzerland and worldwide.

With approximately 40 nationalities represented at the school, supporting children in their own cultures and languages is at the core of the school's philosophy. Through outstanding education and international opportunities unmatched by other schools in the area, the school cultivates in them the qualities, attributes, and skills needed to shape the future.

The school's Performing Arts programme benefits from its collaboration with The Juilliard School. The school's collaboration with MIT emphasises hands-on learning of STEAM subjects. In partnership with UNICEF, the school raises awareness of the UN Sustainable Development Goals and explores local solutions to global problems.

LCIS is led by Andy Puttock, formerly Global Education Director for NAE. He has been instrumental in driving NAE's strategy for building an outstanding education for their students worldwide.

Website

www.la-garenne.ch

Set in the heart of the Swiss Alps, La Garenne combines a rigorous academic programme with multiple and diverse outdoor activities. More than 75 years after we welcomed our first children, LGIS is now home to 150 young people aged from 5 to 18 from 40 countries.

Our priority is that each child should be happy, safe, healthy, valued and cherished. Our motto “Be Happy, Never, Never, Never Give Up” reflects our holistic, child-centred approach, alongside traditional Swiss values of respect, politeness, tolerance and responsibility.

English is the official language in school and our long history of bilingualism means every student is also encouraged to master French.

Following completion of their IB studies or the High School Diploma, La Garenne graduates go on to leading universities and hotel and business schools across the world.

Our tight-knit community is centred on an authentic Swiss chalet from which the school takes its name: La Garenne. It includes a refectory and cosy accommodation for our youngest boarders.

Chalet Beau Site is home to students aged from 11 to 13. All rooms are en-suite with spectacular views. Beau Site also has a dedicated art workshop and a multi-purpose music and exercise space.

Chalet Le Roc has stylish two-person suites for our older students, as well as classrooms, a gym, a dance studio, a stunning art room and a welcoming refectory and reception area. Next door, the ski lift enables ski-in, ski-out opportunities in winter.

Two further buildings complete the campus:

- ‘Academia’: for students aged 5-13. It has a library, classrooms and an airy teaching space to inspire creativity and promote learning.
- ‘Millennium’: flexible space for music and crafts.

Sports include football, aerobics, padel, tennis, athletics, swimming, karate, golf and much more. Naturally in winter, the focus is on snow sports with skiing and snowboarding as part of the curriculum. La Garenne has its own ski team.

Creativity comes with art, drama, debating, music, singing and dance. Beyond the classroom, there are expeditions, cultural visits and charity initiatives. Our demanding overseas trips enable students to complement their studies with IB Service as Action projects.

La Garenne International School is one of a kind. Its pioneering approach to boarding education is known and respected throughout the world. Owned and managed by the second generation of the Méan family, LGIS retains its original family atmosphere.

Come and join us.

At La Miranda – a global, multilingual school in Barcelona – every child is encouraged to think for themselves as well as to live and love the world around them. Conveniently located in Sant Just Desvern, Barcelona. Our school offers 12 buildings filled with a wide range of facilities that provide a nurturing, culturally-diverse environment for kids from 0 to 18 years old. Since its foundation in 1967, La Miranda has offered high quality and global education in a multilingual environment.

Love, enthusiasm and solidarity leading by example are the basis of the foundations of our global, multilingual and quality educational model. With over fifty years of history, our heritage has been achieved thanks to our team, made up of students, families, teachers and professionals, committed to knowledge, innovation, research, internationalization, academic excellence and the comprehensive education of children and young people, from birth to university.

We learn critical thinking, to raise awareness and to share global values. We actively work with families to offer multilingual, cutting-edge training with international projection. Our mission is to develop knowledge in all areas, beyond academic learning, as well as to promote their human, emotional, physical, intellectual and social skills in order to become happy people who are aware of their values and their social responsibility. In this way, they will have more opportunities, be able to think critically, have freedom of choice as they will be trained in different environments and cultures.

La Miranda, The Global Quality School, is an official IB School. The IB Diploma Programme at La Miranda aims to train its students to be reflective, to acquire critical thinking skills, to acquire an active attitude towards learning and to instil values that will accompany students throughout their lives.

Leighton Park was founded in 1890 and is a day and boarding school for girls and boys aged 11-18 set in 65 acres of beautiful parkland in Reading. Winner of the Best Co-educational School 2021, South East England, the School has been fully co-ed since 1993 and has a 50:50 ratio of girls to boys at its Year 7 entry point.

The UK Government's latest Sixth Form league tables reveal Leighton Park to be the best performing School in Berkshire and one of only eight schools in England to have always appeared in the top 100 since the rankings began. Our A Level students achieved 72% A*/A last year. The Independent School Inspectorate (ISI) awarded Leighton Park a 'double excellent' standard in January 2022, the highest possible attainment for an independent school, in recognition of both the quality of pupils' personal development and the quality of their academic progress.

Our approach is to support students to succeed as themselves, with the breadth and depth to thrive in life as well as in the academic arena. Our aim is to nurture our student's talents, whatever they might be, with academic achievement the consequence of our approach rather than the object.

While the School offers a holistic curriculum, it is particularly well-known for its STEAM academic approach, which combines the analytical skills from Science, Technology, Engineering and Maths with the creativity from the Arts. It won the national Award for Excellence in STEAM Education in 2020.

Music is another strength of the School with a stunning Music and Media Centre providing students with exceptional facilities, including a Yamaha Live Lounge recording studio. Our Music department is accredited as a Flagship Music Education Partner, the only school in Europe to hold this status, with 50% of students studying an instrument and 27 music teachers on staff.

With Quaker values given currency and purpose through our Ethical Changemaker programmes, we develop young people who understand, cherish, and make a difference to the world. We have won the Independent School Association Award for Outstanding Local Community Engagement for the last two years.

At Leysin American School in Switzerland, we develop innovative, compassionate, and responsible citizens of the world.

Our idyllic campus is tucked away in a beautiful mountain town. It provides the ideal environment for students, faculty, and staff to learn together in a safe, residential community in the Swiss Alps. Leysin, located in western Switzerland, represents the epitome of Swiss culture. Our striking, cozy hometown is an internationally-recognized ski destination with the hospitality, facilities, and lifestyle that appeal to students and global visitors alike. Leysin was also one of the host venues for the 2020 Youth Olympic Games.

We offer students an academically challenging setting with the goal of developing lifelong learners. Jointly accredited by NEASC and IBO, LAS provides a program for students at a variety of levels. IB Diploma students engage in deep, concentrated learning through engagement with the International Baccalaureate curriculum. The IB Diploma Programme has over 40 course offerings (SL/HL classes) available for students to select a program that best suits them and their future goals.

In 2022, the highest score at LAS was a 45. 34% of LAS candidates scored higher than 38 points, and the average score was 36 points. LAS had a 100% pass rate. 23% of candidates at LAS received an IB Bilingual Diploma. LAS

re-introduced AP subject exams in 2020, and the first cohort sat their AP exams in May 2021.

At LAS, we are committed to providing a stable, caring, supportive, family-like environment. We are a diverse, tight-knit community where staff members are always on hand to give students care and guidance as they navigate the responsibilities and challenges of young adulthood. We offer our students a balanced program of study, sports, recreation, and cultural travel to promote a well-rounded education. During the winter, students ski twice a week from our ski-in, ski-out campus.

At LAS, we seek out every chance to connect our students with impactful hands-on learning opportunities so they can see the practical applications of their studies at work in the real world. We augment traditional classes with programs and events that build on students' passions and address current global issues, helping our students develop fundamental skills in critical thinking, entrepreneurship, and teamwork.

We take pride not only in educating stellar students but also attracting the attention of strong universities. Our university advisors begin working with students in grade 9, building relationships that focus on character, gratitude, personal excellence, and relationships. We facilitate a dedicated weekly course to support them in their personal and academic goals once they leave LAS.

**Welcome to Luanda International School(LIS)**

LIS was founded in 1996 as a non-profit international school serving Pre K to Year 13 (grade 12) students from the expatriate and local community in Luanda, Angola. Together we form a close-knit community that cares deeply about many things including respectful and healthy relationships, a strong sense of belonging, student voice, leadership, and growth. Our students, families and staff come to Luanda from around the world with more than 40 nationalities represented in our community.

Every year the school identifies a mantra to express a strong belief imbued in our values. Each mantra serves to guide our work and unify the school and community. This year's mantra is founded on the concept of ubuntu. Ubuntu means 'you are because of others', that is, your sense of self is shaped by your relationships with other people. This is such poignant mantra especially as we continue to foster and build a stronger sense of inclusion and belonging into the fabric of the school.

Our Mission

Luanda International School is a diverse community of learners, committed to fostering compassionate, confident and socially responsible individuals who thrive in the world.

Relationships matter

Effective schools build strong partnerships with their school community. We believe our relationships with students and parents are a point of difference from many other schools in Angola – you can feel it the moment you enter the school.

Students are at the center of what we do, so our engagement with our parents is always about the students and learning. We expect our families to engage, play a fundamental role in the success of their child's progress and achievement and ultimately, live our mission and values.

Thriving in Angola and Beyond

When it comes to thriving, teachers matter more to student achievement than any other aspect of schooling. Our faculty members have a proven ability to empower, encourage and inspire learning that is concept based, inquiry-driven and focused on the social, emotional and academic well being of children. Our team nurtures the social, emotional and cognitive well being of students, demonstrating care and compassion. We are a school prepared to search the globe for professional, internationally-minded teachers with a growth mindset and proven ability to build relationships and community.

Taking social responsibility and action beyond the classroom is important at LIS. Angola provides our students and staff with authentic opportunities to engage with a wide range of challenges and issues. These engagements must be sustainable, linked to our school values and enriching for the learning experience. The 'pay it forward' experience and opportunity to live the school's mission throughout the process are just as important as the outcome. Our co-curricular programme is designed to engage and extend our diverse community of learners in an enjoyable, safe and supportive environment. The

programme enhances our sense of community through building sustainable and positive relationships within LIS, Angola and global contexts. A lot of our work is connected to the environment, children, and education. We believe an important enabler of thriving is to access others, connect with them, and find ways to mutually benefit through taking social action and responsibility. Students have reached out to other organizations including NGOs and ministries. This

external expertise, coupled with student passion, helps to create the basis for sustainable project-based learning and the opportunity to thrive. Finally, the building of social competence serves as a cornerstone in our programmes to develop lifelong skills including peaceful conflict resolution, awareness and appreciation of other cultures, and interpersonal skills.

At Lomond School, we prepare our pupils for their future by ensuring that they learn the skills necessary to be successful in the 21st century, whilst developing the traditional values and qualities they require to be responsible and active global citizens.

Situated in the coastal town of Helensburgh, on the edge of Loch Lomond and the Trossachs National Park, and only 40 minutes from Glasgow International Airport, Lomond School provides a perfect setting to deliver a rounded education which inspires both academic and personal achievement.

From Junior 1 to Senior 6, our talented and dedicated teachers deliver a rich and varied curriculum ensuring that all Lomond School pupils are encouraged to love learning right from the start and continue to be challenged and inspired throughout their school career. From Senior 5, pupils can choose to study SQA Highers and Advanced Highers, the International Baccalaureate Diploma Programme or the International Baccalaureate Career-related Programme with an HNC in Business. As a small school, our pupils benefit from high levels of support and guidance from teachers and staff to ensure they choose the best pathway to achieve their goals.

Times are changing and our overall aim is to ensure that every young person in our care has an education that

prepares them for life, challenges them to be the best they can be and inspires them to go out into the world and make a difference.

Beyond academics, our teachers and support staff work together to ensure that every child in our care makes the most of the many opportunities available to them in sport, extra-curricular activities, trips and excursions. There is a strong commitment to outdoor education with lessons in sailing, canoeing and climbing, all part of the curriculum. The learning opportunities such activities present for our young people are limitless, and our guiding principles and values strongly support lessons outside the classroom.

As the West of Scotland’s only boarding school, living and studying at Lomond School offers a truly unique experience for boys and girls from the UK and around the world. Our boarding house, Burnbrae, is home to young people from a diverse range of nationalities and backgrounds and its superb location and facilities provide plenty of opportunities for adventure, making it an exciting and cosmopolitan place to learn and grow. As a co-educational house, siblings can live together under one roof and the mix of boys and girls of different ages creates a real family feel, helping our boarders to settle into Lomond School life with ease.

Vision

LWIS-AiS, home of Peace Education, will set the pace for holistic learner-centered education.

Mission

LWIS-AiS promotes life-long learning through Peace Education, professional development, and facilitated classrooms that utilize differentiation, inquiry, cooperative learning, and interactive technology.

We endorse a partnership where students, parents, staff, and community members work together in a safe and nurturing environment to develop higher order thinking, academic excellence, ethical behavior, and personal growth. We honor the gift and support the need of every child. We also empower learners to become active and innovative contributors to an ever-diverse international and multicultural society.

Values

LWIS-AiS ensures that the actions of all learners are guided by its PACER values:

Perseverance

Agility

Clarity

Empathy

Respect

Educational Objectives

We offer an educational journey whereby students embrace their rights and responsibilities and have fun. We believe the journey will develop learners who are effective leaders, Peace Education endorsers, good communicators,

diversity celebrators, critical thinkers, problem solvers, creative researchers, team players, academic achievers, knowledgeable individuals, and self-reflectors.

Facilities

LWIS-AiS is located in Fatqa, Lebanon. It overlooks the beautiful bay of Jounieh in what is an entirely green landscaped and residential neighborhood. The school features well-equipped classrooms with technology for mainstream and individualized learning students, internet connectivity, art rooms, indoor and outdoor playgrounds, as well as a library, science and computer labs, and a dance and drama area. The school consists of two campuses. The Upper Campus encompasses Grades 6 to 12 while the Lower Campus hosts Kindergarten through Grade 5.

Programs

LWIS-AiS has been accredited by NEASC since 2009. It offers the American High School Diploma in addition to the National Program. Furthermore, it became an authorized International Baccalaureate World School for the Diploma Programme in May 2019.

Teachers

LWIS-AiS teachers are highly qualified, experienced teachers.

The IB DP teachers have received IB authorized training.

Students

The School's diverse student body is one of its special assets.

The approximate number of students is 470, representing over 46 nationalities.

We invite you to join our journey and discover how we measure success one happy learner at a time.

The Lycée Franco-Britannique Ecole Internationale was founded in 1989 with a view to educate children ready to meet and embrace the needs and demands of tomorrow and adaptable to an ever-changing world.

Our School was the first in Gabon to become a candidate school for the IB programmes as well as authorized to dispense the PYP and the MYP (both 2015). Pupils have the possibility to sit the Brevet des Collèges General (French exam) at the end of Middle School alongside the MYP Certificate.

At present, we are also authorized to offer the DP to ensure the continuum.

The core of our program is taught in French with a particular emphasis on foreign languages which occupy a key position within our School and are taught daily: English is offered from the age of 3 and Spanish from age 7 onwards. However this is not to the detriment of other subjects which all hold an equal importance within our taught curriculum.

Moreover, a plethora of nationalities are represented within our School. This multi-national spectrum nurtures a spirit of tolerance and respect for the values, beliefs and culture

of every single pupil whilst encouraging cultural diversity and international awareness. Our philosophy has for aim to develop responsible and solidary citizens through the various activities undertaken during the Service and Action Programme.

Class size doesn't exceed 20 pupils per class which enables a personalised follow-up. In the afternoons, supervised study is offered to pupils with learning difficulties or to those with higher capabilities to deepen their knowledge. Students have the opportunity to partake in various extra-curricular activities (creative writing, film club, debating ...) as well as swimming, athletics and team sports.

Throughout our 30 years of education, we take pride in seeing our pupils travel abroad to study in Europe and America. We believe that by offering a holistic education, which hones the abilities of each pupil so that they can fulfil their individual potential, we can reach our objective which is to endow them with the required skills to become active citizens of the world, driven by their will to change it for the better.

**The International Baccalaureate at Malvern College**

The IB Diploma has been a highly successful part of the academic programme at Malvern since 1992 and it is a programme of study that is completely in tune with our holistic approach to education at the College.

Over the last five years, our IB graduates have averaged over 37 points, with over 30% of our pupils being awarded 40 points or more. With these results our pupils are consistently able to access the very best universities in the UK and across the world.

We offer a wide range of subjects, including Higher and Standard Level Maths in both Analysis and Approaches and Applications and Interpretation. We also offer both English Language and Literature and English Literature at both Higher and Standard Level.

We have recently introduced Psychology and Computer Science to our IB offering as well as School Supported Self Taught Language A, where pupils are able to study the literature of their native language with support from a school supervisor.

In all subject areas pupils are encouraged to develop communication skills, and the ability to think critically and reflectively, with the Theory of Knowledge course fundamental in developing the skills needed to enable pupils to test the validity of arguments and the strength of evidence.

At Malvern College we actively promote a set of well-tested, enduring human values which we call the Malvern Qualities. We believe that these values will enable our pupils to grow whilst they are with us and over time, equip our pupils for life's challenges, enabling them to adapt and succeed beyond Malvern.

Our pupil led Super-curriculum allows them to individualise their studies through a number of societies and these create the opportunities for intellectual stretch, further academic breadth and collaborative research. Our extensive Co-curricular programmes provide a significant range of opportunities for each pupil to engage in a range of sports, creative activities and service opportunities contributing to their Creativity, Activity and Service (CAS) component. Our holistic curriculum encourages and enables all pupils to develop the necessary skills, passions and ambitions, curiosity and personal qualities needed for building on their strengths, discovering new talents and becoming life-long learners.

Academics

We adopt a student-centred approach to learning, which means that we make our decisions based on what works best for learning and not what works best for teaching. We base our improvements on research-based methods to ensure best-practice at every level.

Vision

Our Vision is to be the inspiration for positive change for our whole community by offering an equal opportunity to all learners to choose to be the best they can be, and to empower them to use their voices to help improve the lives of others, both locally and in the wider world.

Mission

Our Mission is to always put our learners at the centre of our decisions as we build a safe, open-minded and engaging learning environment which is dedicated to academic excellence through best-practice and to student well-being through gender equality, differentiation, self-reflection,

social awareness, civic responsibility, knowledge, and personal growth.

Our Beliefs

Students learn best in a community where academic disciplines are integrated, fostering an appreciation of how they interact and form a whole.

Our Approach

Our approach to the structure of each day is based on key concepts rather than time. In a traditional school the day is divided into minutes by subject with little if any connection. At our school connections are at the heart of each day – the more, the better.

Our Purpose and Success

Our purpose is to bring forth well-balanced members of society. And to succeed we provide a well-balanced curriculum and a solid academic foundation to prepare our students for success in life.

**Who We Are**

Mar Qardakh International School is a private, Catholic school located in Ankawa, a suburb of Erbil, Iraq, in the heart of the Middle East. It offers two IB programmes, the PYP and the MYP. Since 2011, Mar Qardakh has committed itself to passing on the intellectual tradition of the West intermingled with Eastern heritage. As a school of the Chaldean Archdiocese of Erbil, Mar Qardakh has a unique role in forming students to become the next spiritual and temporal leaders of Northern Iraq.

The mission of Mar Qardakh is the bedrock on which students receive this formation: Our mission is to empower students for life in the 21st century by providing them with a holistic, international education encompassing academic, social, spiritual, and personal development. Each student who enters Mar Qardakh is therefore not merely an academic interest. Rather, teachers, administration, and students alike view their education as a journey together to dispel ignorance and form persons committed to meditating on and sharing the truth.

An integral part of this holistic education is the community. We are a family of life-long learners. Parents, students, teachers and staff all form part of this family, mutually helping one another to fulfill their respective role in the

school. Mar Qardakh offers students a safe and loving learning environment in which critical thinking is fostered, and students' voices and ideas are not only encouraged but heard. Mar Qardakh prepares students to become virtuous leaders of the future.

An extension of the mission and familial community at Mar Qardakh is our principles:

- Academic Excellence
- Ethical and Moral Values
- Love of Learning
- International Mindedness
- Responsibility
- Well-Roundedness
- Learning Community

These principles reflect the ancient heritage we possess as Eastern Catholics and are rooted in the scholastic traditions of the West. The learning community, mission, and principles collide in the unique pedagogy of Mar Qardakh, which embraces both sides of erudite learning. From international and local teachers collaborating together to classes that emphasize the particular contributions of the East and West, Mar Qardakh is more than an international school in name. It is an international school in spirit.

Student-centred | Global-minded | High-performing

Celebrating its 28th anniversary in 2023, Mark Twain International School is proud to be one of the most experienced international schools in Romania. Challenging educational frontiers with its two divisions of study, Global Bilingual (English-Romanian) and International (English), the School has a strong portfolio of accreditations to support its mission:

- the full International Baccalaureate continuum (PYP, MYP & DP)
- the Cambridge International Education Assessment for Primary and Secondary
- national recognition from the Ministry of Education via 4 accreditations covering the entire K12 route
- the delivery of The Duke of Edinburgh's International Award in Romania
- recognized Cambridge English Exam Preparation Centre.

Curriculum & Student Profile

At the core of the School's approach to premium education is the IB continuum: a broad, conceptual, connected curriculum, empowering students, as early as the pre-primary stage up to graduation, to achieve intellectual and academic success, and to develop a wide range of human capacities and social responsibilities. Students are encouraged to be inquisitive, knowledgeable, communicators and brave life-long learners, and to become

open-minded, caring, balanced, and principled global citizens of the 21st century. Critical thinking is promoted, as they strive to reflect upon and learn from their actions. Annual pass rates for the International and National Baccalaureate are prevalently 100%, with graduates receiving offers to date from 150 of the world's top universities.

Diversity & Inclusion

Healthy relationships, ethical responsibility and personal challenge are all promoted. Over 50 vibrant nationalities are represented in the student community, and as students increase their understanding of the world's cultures and languages (including their mother tongue), they explore globally significant ideas, become confident in their own identity, join with others to celebrate our common humanity, learn how they can make a change with their own voices.

Teacher-Student Ratio & Faculty

The average teacher-student ratio is 1:6, and the annual teacher-turnover rate falls below 5%, thus facilitating optimal levels of consistency, care and attention to students' needs. The faculty is well-qualified, with most holding master and doctoral degrees, and being active participants in the Professional Development programs offered in both national/international networks.

Green Campus & Student Services

Operating in two green campuses near Baneasa Forest, Mark Twain International School welcomes its students to

over 16,000 sq.m of verdant open spaces and 6,000 sq.m of modern buildings. The school offers 40+ extracurricular classes dedicated to arts, sports, and further academics, as well as student services: freshly-cooked meals, pastry/

bakery onsite, door-to-door school bus service, infirmary with on-campus doctor, well-being, counselling and mental health support, special home delivery of school resources/ care packs, parent support.

www.marymountrome.com

Marymount International School Rome is a private, Catholic, co-educational day school. The oldest international school in Italy, we are located on a 40-acre campus of protected parkland just 20 minutes north of the city center.

An English-language Early Childhood through 12th Grade School, our standards-based international curriculum is inclusive with an academic offering that is bespoke to the individual needs of every student. Enrichment opportunities are offered across all Grade Levels to encourage students to discover what they love doing and who they are as people in order to guide them towards the achievement of their full potential.

A wide range of extracurricular activities include Varsity athletics, S.T.E.A.M. classes, theatre, choir/band, and Model United Nations, in addition to visits to national and international sites of cultural importance. Marymount graduates obtain an accredited American High School Diploma and the majority of our students work towards the full IB Diploma with around 15% opting for individual IB course certificates.

Marymount has been an IB World School for over 35 years. The Diploma Programme (DP) has become an integral component of Marymount's academic program. School-wide curriculum alignment prepares students with the academic rigor necessary to fully engage with the Diploma. We offer over 30 subjects at this level, including 11 languages. Students also have the opportunity to choose among several Advanced Placement classes.

Marymount consistently obtains well above world average results. In 2022, for example, 100% of the School's DP candidates obtained the Diploma and the School's average score was 36 points. Marymount is a culturally and responsibly inclusive School, with an open admissions policy, and is therefore particularly proud of its students' results. The internationalism of the program is reflected in that over half of the students achieve the Bilingual Diploma.

The School's IB students go on to study in many of the world's top universities and colleges; in the UK this includes Cambridge, London School of Economics, Imperial College London, and King's College London, and Yale, New York University, Boston College, and Johns Hopkins in North America, in addition to Bocconi and more.

Classroom activities focus on conceptual understanding, authentic learning, and skills development. The School also has an ever-growing commitment to technology and Artificial Intelligence learning. All Marymount students work with personal Apple devices and the School is equipped with the latest technology, art and science labs, as well as a Forest School.

Marymount welcomes students from over 80 different nationalities and of all faiths to participate in its vibrant community life, where each student is valued and nurtured to achieve their full potential and develop a lifelong love of learning.

Website

www.marymountlondon.com

Marymount International School London is an independent, day and boarding school for girls which nurtures the limitless potential of curious, motivated students (ages 11 to 18) of diverse faiths and backgrounds. Founded in 1955 through the charism of the Religious of the Sacred Heart of Mary (RSHM), the School proudly stands as the first all-girls' school in the United Kingdom to adopt the International Baccalaureate curriculum (IB MYP and Diploma), where girls are inspired to learn in a creative, collaborative, interdisciplinary, and exploratory environment.

Students are empowered to build their confidence, leadership skills, and sense of self on a seven-acre garden campus conveniently located just twelve miles from Central London. The campus offers outstanding facilities, including a STEAM Hub, sports hall, dance studio, modern dining hall, and tennis courts. The School's challenging academic program is based on the International Baccalaureate curricula:

- The Middle Years Programme (MYP), offered in Grades 6 to 10, encourages students to draw meaningful connections between eight broad and varied subject groups. With a central focus on the development of conceptual understanding and effective approaches to learning (ATL) skills, the MYP is a student-centred, inquiry-based programme rooted in interdisciplinary learning.

- The International Baccalaureate Diploma Programme (DP) for Grades 11 and 12 builds on the strong foundation of the MYP, leading to independent research opportunities as well as exceptional university placement within the UK and around the world.
- Marymount's 2022 results are exceptional: an average of 37 points; the School provides a bespoke, student-centred college counselling programme which leads to successful placements in top universities in the UK and around the world.

Marymount's holistic approach to learning delivers a well-rounded education that encourages critical thinking, intercultural understanding, and participation in a wide array of interesting extracurricular offerings. Robust transport service from London/surrounding areas and boarding options (full, weekly, and flexi) are available.

Marymount offers year-round rolling admission as space allows. The admissions section of the website, featuring an online application portal, provides all of the information necessary to get started. Applicant families are encouraged to learn more about the School's strong tradition of excellence by exploring the website and making contact with the Admissions team by phone/email.

Mirabal International School is a school of reference in Europe. Highly regarded by its' exceptional academic standards, Mirabal has historically achieved world top positions in the annual PISA report for Schools, an educational evaluation promoted by the Organisation for Economic Co-operation and Development (OECD).

Founded in 1982 Mirabal International School is committed to the integral education of the students, promoting values such as independence, tolerance, responsibility (diligence, generosity, honour). Located in an outstanding natural setting in the north of Madrid, Mirabal offers excellent facilities at the service of an innovative educational project based on interactive and practical learning. The school occupies a total of 45,000 m2 and offers a wide range of sports and academic facilities, including tennis courts, athletics tracks, two swimming pools and several laboratories.

The constant training of teachers in active and innovative methodologies, the integration of iPads in the classroom and subjects such as robotics are some of the key tools used to bring students closer to the most advanced learning resources. Students learn to research, discriminate, contrast and select information from a very young age.

Students can choose to follow Spanish National Curriculum, the International Baccalaureate or a double-honors program. Its multilingual program is offered by native teachers and is especially designed to stimulate physical intellectual, social and artistic development.

Mirabal is a certified music school, where students can obtain an official Music Elementary Degree in the instrument of their choice. Emotional intelligence is a main focus of Mirabal's educational project. Cooperative learning, emotion management, motivation and education in values help students acquire skills such as creativity, leadership and initiative.

The Modern Montessori School (MMS) aims to provide a rich and stimulating environment where children can develop to their full potential. Understanding and appreciating the differences that make every student unique, each child is valued as an independent thinker and encouraged to make choices on his or her own.

Our system of personalised education encourages every student to develop his or her own talent, to respect the differences in others, and to be a respectable member of a community, thus achieving the finest possible holistic education. This aims to instil a pride in accomplishments, providing the students with the confidence needed to use their abilities to the fullest and enabling them to define and achieve success in college, career and, above all, in life.

To this end, the IB Diploma Programme at MMS is designed largely to cater for the needs of individuals, rather than for the collective needs of a group; our subject menu is varied and enjoys a degree of flexibility, which in turn allows students to choose the subjects that appeal to their different learning preferences and future university courses.

Furthermore, MMS has devised an extracurricular, three-level award scheme, which has the IB CAS perched atop its golden level. The Amin Hasan Award (AHA) provides students from grade 6-10 with the ability to participate in enjoyable yet beneficial and thought-provoking activities. This non-academic aspect of their education is extremely valuable in the overall development of the whole child, as it fosters a sense of compassion, teamwork, and mutual respect among

students, in addition to promoting the principles of model citizenship and the importance of solidarity and togetherness among people, irrespective of their ethnic, religious, or gender differences. One of the many AHA activities was having students work together to meet the challenge of scaling Jordan's highest peak.

At MMS, we also believe in the inherent ability of each student to achieve distinction. This is why our LEAD Department (inclusive assessment) works hand-in-hand with administrators, programme coordinators, and teachers to cater for students who have special learning needs, through the application of an inclusion programme.

We also believe that cooperation between home and school is required to ensure the personal and intellectual development of each student. Consequently, we have designed an e-school portal where both parents and students are kept up-to-date with everything they need from report cards and academic calendars to forums and e-learning material.

As a PYP/MYP accredited school, the MMS prepares students through a devised preparation programme and curricula that will ultimately expose students to the IB continuum of international education.

The Modern Montessori School is accredited by the International Centre for Montessori Education (ICME), Cambridge and Edexcel International Examinations' syndicates and is an authorised IB World School. In addition, MMS has recently acquired membership from the Council of International Schools (CIS).

WHO WE ARE

The MPESA Foundation Academy is a state of the art, co-educational and residential High school offering the International Baccalaureate Diploma Programme (IBDP), and Middle Years Programme (IBMYP).

Driven by leadership, technology and innovation, the Academy serves talented but economically disadvantaged students with demonstrated leadership potential.

The school offers a world-class, well-rounded learning environment to develop future leaders. The Academy places great emphasis on the holistic development of all our learners not just in academics but also in innovation, technology, sports, the arts, outdoor pursuits, and community service. Learners are exposed to the latest technology as part of the day-to-day teaching. The school focuses on moulding future leaders and entrepreneurs by incorporating the core values of Curiosity, Leadership, Accountability, Innovation, Responsible Citizenship and Excellence (CLAIRE) as well as the IB Learner Profile attributes into every sphere of learning within the Academy.

Our Vision is to develop transformational leaders who strive for excellence and success for themselves, their communities, and the world.

Our Mission is to deliver an innovative world class education through a holistic curriculum so that our learners are principled, reflective, and open-minded.

Through our programmes, we nurture active, compassionate, and successful lifelong learners.

MPESA FOUNDATION ACADEMY STUDENT LIFE

MPESA Foundation Academy residential life caters for students' life outside the teaching curriculum. The residential life comprises of staff members drawn from several departments which include boarding life, clinic, counselling, leadership, sports, mentorship, child safeguarding and protection. The Director of Student Life works with all team members in ensuring that students develop holistically. This includes students' physical and psychological well-being together with a highly nutritious diet which makes them feel at home while they are in their residences. Residential life offers learners an opportunity to nurture their leadership skills and qualities, too. Students are attached to internal and external mentors who prepare them for life within and after school.

Child safeguarding and protection procedures are also put in place to protect learners from harm within and outside of the Academy.

TERTIARY PROGRAM

The Uongozi Centre offers a unique development program philosophically aligned to the IB curriculum, including a consistent approach to teaching and learning. The learning programme strives to create well informed, innovative lifelong learners and responsible global citizens who effectively contribute and understand issues shaping the world. Additionally, the Uongozi Centre supports the transition of the Academy's graduates into tertiary education institutions or employment alongside further developing leadership and entrepreneurship skills.

Nord Anglia International School Dublin (NAIS Dublin) is a member of Nord Anglia Education's global family of premium schools in Europe, South East Asia, North America and the Middle East. NAIS Dublin is Ireland's newest IB World School and is the only school in Ireland to unite an international curriculum with world-class learning opportunities and global experiences that enable students to achieve more than they ever thought possible.

Nord Anglia International School Dublin is fully credited to deliver the Primary Years Programme (PYP) from age 3 to 11, the Middle Years Programme (MYP) from age 11 to 16 and the Diploma Programme (DP) from age 16 to 18. NAIS Dublin is Ireland's first and only IB continuum school. These IB programmes teach students to think critically and interdependently, to inquire with care and logic, and to become confident and resilient. We have developed our curriculum in conjunction with the Massachusetts Institute of Technology and The Juilliard School of Performing Arts in New York.

True learning and innovation happens at the intersection of disciplines, so your child will be encouraged to tackle problems by calling on knowledge from several subjects. As a truly international school, our students collaborate and learn with over 70,000 of their peers in 32 countries every day through our Global Campus: whether that be physically in school, virtually online, or by travelling worldwide to other

schools to participate in sporting events in the USA, cultural exchanges with China, adventure activities in Switzerland and philanthropic outreach experiences in Tanzania.

Our state-of-the-art campus has been designed for the future of learning and is centred around a custom designed building in Leopardstown, South County Dublin. Our facilities include a custom-built sports centre, dance studio, design and technology studios, performing arts spaces, auditorium, libraries and a parent café.

Parents choose a Nord Anglia Education because we offer academic, social and personal success for every student. Through opportunities to learn from the best, experiences beyond the ordinary, and the encouragement to achieve more than they ever thought possible, we help our students succeed anywhere through our unique global educational offer. We do this by investing in our people, our schools, and above all, our students. At Nord Anglia International School Dublin, your child will grow as a confident global citizen in an engaging environment, which will ensure that they will love learning for life.

**Only schools authorized by the International Baccalaureate can offer any of its four academic programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP), the Diploma Programme or the Career-related Programme (CP).*

Nord Anglia International School Rotterdam (NAISR) is a member of Nord Anglia Education's global family of premium schools. In addition to providing high quality international education for children from 3 to 18 years of age, NAISR is fully authorised to deliver the IB Diploma Programme (IBDP) for students in their final two years of school.

Students studying the IBDP develop life skills such as critical thinking, teamwork, research and time management, which sets them up for success at university and beyond. The programme aims to develop confident and enthusiastic learners who respond to challenges with optimism and an open mind.

Universities in the Netherlands and around the world understand the academic rigour of the IBDP and therefore hold the IB Diploma in high esteem. NAISR IBDP graduates are accepted into the best colleges and universities.

At NAISR, IB students have the opportunity to gain a bilingual IB Diploma. Bilingual students can study two language courses from the 'Studies in Language & Literature' subject group to be awarded with the prestigious 'IB Bilingual Diploma'. Alternatively, students who score highly

in the 'Studies in Language & Literature' and in one other subject completed in a language other than English, will also receive the 'IB Bilingual Diploma'. This special qualification recognises a student's high level of multilingual skills and is well received on university applications.

NAISR is proud of their brand new 'Nord Anglia IB Academy' – a space dedicated to their Years 12 and 13 students. This space provides students with a modern and purposeful space to study, collaborate, and relax. Students have easy access to the IB Coordinator and College Counsellor with a range of meeting spaces for students, staff and parents.

NAISR students have achieved high academic outcomes, opening doors to top universities in The Netherlands and around the world. Recently, NAISR was awarded a top 3 place in the Netherlands based on its IBDP score. In the 2020-21 academic year NAISR's average IBDP score was 36.9 and in 2022 we maintained our 100% pass rate and above global average IBDP scores. If you have any questions, or you would like to learn more about the IB at NAISR, please don't hesitate to contact their friendly admissions team at admissions@naisr.nl or +31 (0)10 422 5351.

North London Collegiate School is internationally recognised as an outstanding school which provides an exceptional education. One of the oldest day schools for girls in England, we have maintained our position as an established force at the forefront of women's education, and our students consistently excel in every area. Our students leave us not just with outstanding qualifications, but also as articulate and independent young adults who possess the confidence, intellectual curiosity, and passion for learning and understanding that will endure for life.

Whilst ensuring academic excellence, equal attention is given to supporting the development of the whole person, inspiring confidence, individuality and self-esteem. Consequently, the school is a positive and energetic community where pupils are encouraged to take advantage of the opportunities open to them, with around 36 productions, 40 societies and 30 foreign trips offered each year.

International Outlook

NLCS has a highly international perspective that is unique amongst London day schools. We feel it is vital to prepare our students to become global citizens, by providing opportunities for them to be outward-looking, internationally minded and well informed about the world beyond school. Our growing family of sister schools in South

Korea, Dubai, Bangkok and Singapore, with more branches planned for the future, benefits pupils and staff through exchange opportunities and internships. The IB Diploma resonates with the values of NLCS, and its international dimension affords students the opportunity to be part of a programme which is offered in, and recognised by, almost every country in the world.

Academic Excellence

In 2021, we were ranked the No.1 school in the UK for the IB Diploma by The Sunday Times, and since offering the IB Diploma programme in 2004, we have had an exceptional record of success. Our students consistently achieve an average score in excess of 40 points, making NLCS one of the top-performing IB schools in the world.

Looking to the future

Our IB students have received offers from a range of impressive institutions including Oxford, Cambridge, Harvard, Yale, Georgetown, Stanford and Princeton, as well as other leading universities such as Bristol, Edinburgh and the London colleges and medical schools.

The IB Diploma programme offered at NLCS ensures that students enjoy an exciting and academically stimulating Sixth Form experience, providing them with an excellent preparation for life at university and in the wider world beyond.

Oakham is well known and loved for being a friendly, unpretentious and highly successful school. Our uniquely structured student population – with 50:50 girls and boys, and 50% boarders and 50% day pupils – creates a genuinely inclusive and caring school community.

We have been offering the IB Diploma for more than 20 years.

Academic

Our educational ethos reflects the IB's vision to nurture intellectually ambitious thinkers, giving our pupils the ability to learn effectively and independently at school and beyond. Our IB Diploma results far exceed the global average and our teachers are leading practitioners.

Having received accreditation as an IB MYP World School in summer 2021, we are equipping our pupils aged 11-14 with the knowledge, aptitudes and skills to thrive in the world of 2030 and beyond.

Pastoral Care

Our dedicated Houses for boarders and day pupils means that we can offer all pupils the benefits of our outstanding boarding provision in ways that suit modern family life. Led by a Housemaster or Housemistress, and supported by a team of Tutors, Prefects and a Matron, each of our 16 Houses

provides our pupils with the care and support they need to develop intellectually, physically, emotionally and spiritually.

Our location

Pupils benefit from the School's location close to Rutland Water, in the heart of safe, rural England. Our beautifully green campus is just a few minutes' walk from Oakham's historic town centre and train station and Oakham's excellent road and rail links mean that London, Birmingham and Cambridge are all within easy reach. There is a direct train to Stansted Airport.

Co-curricular

We offer a spectacularly wide range of co-curricular opportunities. Hundreds of students take part in the Arts – there are five major drama productions every year, we teach over 400 individual music lessons each week, and our award-winning Art & Design Department is a hive of creative activity. Oakham has a national reputation for Sport, offering 30 different sports to students of all levels – from enthusiasts to elite athletes. Activities are also an integral part of life beyond the classroom, with students able to choose from over 125 activities to take part in each week, to discover and develop their interests and talents, and provide service to others. In addition to Duke of Edinburgh, CCF, and Voluntary Action, options range from dance to robotics, e-textiles to sailing.

PaRK IS, an Inspired school, welcomes nearly 2,000 students from 1 Year Old to Grade 12 across our three campuses in Lisbon. An international school with Portuguese roots, PaRK IS offers the best education for both Portuguese and International families, welcoming students and staff from over 50 nationalities. Our mission is to guide and inspire students to be successful and happy in their adult lives.

With new, state-of-the-art facilities (opened in September 2020) in a 2,000sqm campus, PaRK IS Alfragide offers a demanding, dynamic, innovative and bespoke curriculum for each age group: a bilingual education from Early Learning until Grade 4, Cambridge (including the IGCSE) from Grade 5, and the internationally-acclaimed IB Diploma Programme. Our first cohort graduated in May 2022, with an outstanding average of 35.2 point score.

Students receive a personalised and well-rounded education – besides the strong academic curriculum, our Well-Being department ensures that each student has their individual needs met. It is also responsible for the Social Skills programme, so important for our students' success and happiness. In addition, our student-centred university counselling programme offers each student the tools and support they need to follow the right university and career path for their unique profile.

We are always searching for the world's best practices in education and implementing the ones that best fit our students and their objectives. Technology is fully integrated into the curriculum, and we offer unique Arts and Drama classes, in addition to PaRK Music Academy, where students find a solid bridge between vocational and non-vocational music education. Furthermore, we provide our students with a wide range of sporting activities, including the exclusive Inspired Sports Programme, which offers individualised training for students from Grades 5 to 12. In this programme, students can dedicate themselves to the sport of their choice during school hours, getting the personalised coaching they need to excel both athletically and academically.

Inspired Education Group students have had the best IB Diploma results across the world – providing access to top universities in Europe and the US. As an Inspired School, PaRK IS gives its students access to world's best practices in education, outstanding arts and sports programmes, state of the art facilities, and Exchange Programmes.

With a PaRK IS education, students will be prepared for academic excellence, proficient in more than one language and equipped with key life skills to be successful in an ever-changing world.

www.pierce.gr

Founded in 1875, Pierce – The American College of Greece is a private, non-sectarian, non-profit institution accredited and regulated by the Greek Ministry of Education. Pierce has been offering the International Baccalaureate Diploma Programme (IBDP), since 2016.

The Pierce Mission

The mission of Pierce is to provide holistic education to form intellectually independent, morally responsible, socially engaged global citizens. “*Non ministrari sed ministrare*” (“Not to be served but to serve”) defines our institutional character and our aspiration for our students.

Why Pierce-IB is unique

1. Small class sizes (5-15 students), which augment group work and learning, as well as facilitate interactive teaching and academic collaboration.

2. Pierce-IB DP students are supported with additional class sessions, enabling families to eliminate private tutoring and alleviate from additional expenses.

3. Supervised Study Sessions: since all Pierce-IB DP students follow the daily schedule of the mainstream program, with less number of courses (than those mandated by the Greek curriculum). Hence, each student will have – approximately – two 2-period sessions (per week) with no class. For these time slots our students have three options:

- To stay in class and prepare/read, for the next day or collaborate with their teachers/tutors.
- To use our Computer Lab and search for data, papers and information from the web, from digital libraries or from ManageBac (the online platform for teachers and students’ communication).
- To go to Pierce library and search relevant bibliography or references, required for their Internal Assessments and/or Extended Essay.

4. Pierce-IB DP is supported by highly qualified and

trained teachers, with extensive experience in the Diploma Programme and University education. The majority of teachers (55%) hold a PhD degree and all of them (100%) hold either an MSc or an MA degree. The IBO verification team was most impressed by the academic qualifications, the passion and the commitment of the school staff.

5. We take advantage of all divisions of The American College of Greece (Pierce, Derees, Alba), exchanging best teaching practices, undergraduate education experience and high-end facilities, such as:

- The ACG Art Gallery, which is a distinctive educational venue for students and faculty based on the academic program of Visual Arts. Each year we organize the annual VA exhibition, where our students’ works are displayed.
- The ACG Simulated Trading Room is built to offer our students a real-world trading experience. This state-of-the-art trading room is expected to recreate a professional financial environment and is being supported by the latest trends in technology, including state-of-the-art hardware and software.
- The Fabrication Lab is a new technologies workshop which is equipped with 3D printers, a laser cutter, a 3D scanner, a vinyl cutter, a CNC machine, robotics kits and an electronics workbench for experimenting with creative electronics, such as sensors, microcontrollers, conductive ink, e-textiles, etc.

6. Pierce-IB DP is fully integrated with campus life and the regular high school program. Our students can take part in all activities the School has to offer, choosing from more than 50 Clubs, Pan-Hellenic or European contests and International Programs such as: Model United Nations, Harvard Model Congress Europe, University of Delaware Summer Program, Phillips Exeter Summer School.

Qatar Academy Al Khor (QAK) was established in 2008 to serve students who live in Al Khor and the different areas in the north of Qatar, extending our groundbreaking curriculum to a broader community. As a full IB World School that predominantly educates native Qatari students and long-time residents, QAK is especially dedicated to developing local human capital. QAK seamlessly blends its world-class international curriculum with Qatar's heritage and culture. In part, this is achieved by enabling students to thrive in a truly bilingual environment that develops rich language skills in English and Arabic concurrently, since the student base is predominantly Qatari.

QAK strives to empower students to be open-minded, inquiring and knowledgeable life-long learners who are able to adapt to an ever-changing world through intercultural understanding and respect.

At QAK, we envision our future leaders as courageous problem-solvers who will make a positive difference in the world.

Our mission at QAK is to create a safe yet dynamic learning environment that inspires innovation. QAK empowers learners to think critically as compassionate and principled global citizens grounded in Arab values while celebrating Qatari National heritage and culture.

Qatar Academy Al Wakra (QAW) is a premier private international school in Qatar, and a member of Qatar Foundation, a world-class organization dedicated to building excellent educational institutions in Qatar and around the world.

Qatar Academy Al Wakra was established to serve the needs of the rapidly growing Al Wakra coastal community and surrounding areas in the southern region of Qatar. QAW serves over 1200 students from pre-school to Grade 12. QAW is an IB World School fully authorized for PYP, MYP and DP and accredited by the New England Association of Schools and Colleges and the Council of International Schools.

Through an educational model that enables learning in two languages, encourages innovation, and develops a strong code of ethics, QAW has been nurturing students to become leaders in their communities. The talented faculty at QAW go above and beyond to cultivate the spirit of discovery and

creativity in students' learning experiences. QAW teachers and administrators are highly collaborative, energetic, and supportive team players who are passionate about working with children and making a difference.

The school moved into its new, state-of-the-art, purpose-built campus in September 2018. Facilities include sports and recreational spaces, swimming pools, a 450-seat theater, music and art studios, and well-equipped science, technology, engineering, art, mechanics, and food technology laboratories.

Learning at QAW is further enhanced through the variety of opportunities available through the vast network of Qatar Foundation, from experiential programs to athletics and community services that enable students to achieve their full potential in a nurturing and culturally grounded environment.

Website

www.qataracademy.edu.qa

Vision: Empowering students to achieve high levels of academic growth and personal wellbeing and to be responsible citizens who are locally rooted and globally connected.

Qatar Academy Doha (QAD) is one of the Middle East's premier educational institutions; a leading private, non-profit international school established as the first learning organization in Qatar Foundation's landmark Education City. Founded in 1996, it marked an important step for a country on the cusp of transforming itself from a gas- and oil-producing economy to a knowledge-based society.

QAD was the first school in Qatar authorized to offer all three IB Programmes.

Over 1,800 students representing different nationalities experience an extensive academic and co-curricular program grounded in traditional values and steeped in the best practices in education.

Inquiry-based learning starts at the Primary School. Students, parents and faculty are encouraged to challenge themselves and their thinking through the framework of the PYP, and Units of Inquiry based on the IB transdisciplinary themes provide students with structure and direction in their learning. This learning environment extends beyond the classroom to involve the wider community, supporting real-world connections.

The MYP and DP are offered in the Senior School, with the Middle School serving to address the specific needs of the pre-adolescent age group from Grades 6-8.

QAD's strength lies in its comprehensive DP curriculum, and its rigorous and effective university preparation program. QAD's strength lies in its Open Campus configuration that allows students to access a personalized learning pathway in addition to a rigorous IB education with opportunities to engage in internships and co-curricular programs from university campuses, research labs and entrepreneurship incubators across Education City.

Access to many community and service, athletic and academic after-school activities challenge students beyond the curriculum, and student e-portfolios and student-led conference structure ensure that focus is consistently on learning and growing, while acquiring the grades, necessary for success in the DP and beyond.

QAD teachers are recruited from a variety of academic and cultural settings. Through encouragement and a caring, innovative and creative approach to instruction, our faculty ensure that our students achieve their fullest potential in a learning environment designed to promote cultural understanding and respect.

Established in 2014, Qatar Academy Msheireb, a member of Qatar Foundation operating under Pre-University Education, is a state-of-the-art Early Years and Primary School authorized for the International Baccalaureate Primary Years Programme, and a Council of International Schools accredited school.

QAM's mission is to create an effective learning environment to develop internationally minded and empathetic lifelong learners through a dual-language program emphasizing inquiry-based practices.

At QAM everything has a purpose, and learning is relevant to the 'real world' within a dual-language curriculum that is structured to be rigorous, stimulating and challenging. The Program of Inquiry centers around 'big ideas' and provides students with opportunities of learning about issues that

have local, national and global significance, and hence nurtures an understanding of human commonalities. The transdisciplinary nature of the themes ensures that learning transcends the confines of traditional subject areas, and facilitates student connections between life in school, life at home and life in the world.

QAM offers an inclusive education where students evolve as individuals who are self-motivated, creative and can think, question and reason logically, i.e. individuals who are independent, confident and capable of making decisions.

All students are encouraged to be curious about what they are learning, and differentiation allows them to demonstrate what they have learned by using a variety of mediums or tools at different levels that are appropriate to individual needs.

Qatar Academy Sidra (QAS) is a rapidly growing school, currently serving over 700 students who represent approximately 35 nationalities. QAS was initially established to serve the needs of Qatar Foundation (QF) and Sidra Medicine employee families, and has since expanded to cater to the growing demand for QF schools.

QAS is a dynamic, kind and responsive learning community that challenges learners of today to inspire them to be the change-makers of tomorrow. QAS believes there is a leader in everyone. Students at QAS are empowered learners with strong skills and a sense of self for a life filled with opportunity. QAS graduates are compassionate responsible

citizens who achieve their full academic and personal potential.

As an inclusive and multilingual community, QAS is committed to creating opportunities for every child so that every individual is personally and academically empowered with 'roots to grow and wings to fly'. The school values of respect, integrity and unity lead to a culture of kindness. This culture enables QAS to create a nurturing environment for each child's wellbeing, passion, and talents.

The school is currently located in the lively Education City campus and utilizes the facilities and collaborative connections within the wider campus.

QSI International School of Bratislava (QSIB) is a private, non-profit institution that opened in September of 1994. It offers a rigorous, high-quality American international education in the English language for children ages 3-18. The warm and welcoming community that is QSIB makes it an ideal setting for children to grow in ability with the finest faculty and educational opportunities in Bratislava. Students in the secondary earn stellar results in our International Baccalaureate (IB) and Advanced Placement (AP) Programs.

The brand-new state-of-the-art facility (opened in January 2018) is a large 2-story complex, which has 35 classrooms, a library (over 18,000 titles), two computer laboratories, a gymnasium, an atrium, several outdoor playgrounds, a full-court outdoor basketball court, an artificial grass mini-pitch for soccer, and several offices. QSI International School of Bratislava (QSIB) provides full security for its students, teachers, staff and visitors with guards, an advanced key card system and an elaborate security camera network. Partner facilities are found within the nearby Olympic training facility (www.x-bionicsphere.com/domov), including indoor and outdoor swimming pools, a fitness facility, dance/exercise rooms, track & field, a full soccer pitch, gymnastics hall, equestrian course, and a movie cinema. Free Shuttle Buses to/from the campus are available from six separate locations in and around Bratislava.

QSIB offers the IB Diploma Programme to students ages 16-19, during the final two years (Secondary III & IV). The QSI courses offered in Secondary I & II prepare students

to take IB courses. Students may elect to enroll in the IB Diploma Programme as full diploma candidates or as course candidates. Enrollment of students is done through one-on-one counseling with the Director of Instruction and the IB Coordinator. Prerequisite skills are required for the program, but specific prerequisite courses are not typically required.

QSIB students enjoy a high success rate with 94% passing the rigorous diploma programme with an average score of 35.8 over the last 10 years.

Kyiv International School is a private, nonprofit, day school, serving Preschool through Secondary IV. The school was founded in 1992 to provide a quality education in English for the children of expatriates living in Kyiv. Parents of its students are primarily employed by large corporations and governments. Kyiv International School is a member of Quality Schools International, a consortium of non-profit college-preparatory international schools with American-style curriculum. QSI has 37 schools in 31 countries. The world headquarters of QSI is in Ljubljana, Slovenia.

Mastery Learning Philosophy: Kyiv International School believes in personalized instruction within a positive learning environment leading to mastery of clearly defined objectives. The educational philosophy emphasizes cooperative and collaborative learning, reflection, innovation, and higher-order and critical thinking. Mastery learning prepares our students for the higher level thinking, reflection and self-motivation that is so fundamental for students engaged in the IB Diploma Programme.

International Baccalaureate Diploma Programme: Kyiv International School has offered the International Baccalaureate Diploma Programme since 2004 and the program continues to grow and evolve through reflection and

review. With more than twenty teachers involved with the IB curriculum and classes, there are varied opportunities for students enrolled in the program. Students are encouraged to enroll in the full diploma program, but also have the opportunity to enroll in classes for IB certificates.

IB Language Courses: KIS is proud to offer German, French, Spanish, Russian and Ukrainian which students can study as either a first or second language. We also encourage students to enroll in school-supported self-study of their native language. Students have recently received bilingual diplomas in Russian, French, Ukrainian, German, Italian and Korean.

Facilities and location: KIS is located just 10 km from the city center. The park like campus includes 95 classrooms (including fully equipped science laboratories to support Group 4 subjects), a learning center, 2 sensory rooms, 3 art rooms, 3 music rooms, a recording studio, 3 computer laboratories, 2 indoor gymnasiums, an indoor pool, fitness center, climbing wall, a cafeteria, a snack café, 2 playgrounds, a purpose built track, an artificial turf soccer field, an artificial turf soccer mini pitch, an outdoor basketball court, outdoor fitness area, other outdoor spaces, and a brand new auditorium with a seating capacity of 350.

Tirana International School is a private, nonprofit institution which opened in 1991. It offers a high-quality education in the English language for children ages two through high school graduation and includes students from the diplomatic, international business, and Albanian communities. It is a member of Quality Schools International, a consortium of non-profit college-preparatory international schools with American-style curriculum. TIS has been accredited by the Middle States Association since 1999.

Students, Faculty & Staff

The school is growing and currently has over 400 students representing 38 nationalities. The school prides itself on hiring caring, qualified, and dedicated educators. Teachers at TIS are certified and experienced educators who bring a wealth of expertise, knowledge, and skills to their learning environments.

School Facilities and Location

The school facility is located on the south side of the city of Tirana, just outside the busy city. The campus occupies a beautiful, green 5.5-hectare site. The building was designed to accommodate growth in enrollment and to take advantage of the abundant Albanian sunshine, having lots of balconies and patios.

The sports complex boasts several playgrounds, a soccer field, a track, a tennis court, an indoor exercise room, a gymnasium, and a dance studio. The school building includes a full English-language elementary and secondary library, with additional resources to support Languages Other than English; multiple science laboratories; a technology lab; fully equipped music and art rooms; an indoor performance area;

a full-service cafeteria; and state-of-the-art, well-resourced and well-equipped classrooms. In addition, the school has many outdoor courtyards and respite areas for students to gather.

Academic Program & Philosophy

Tirana International School believes that every child can succeed and strives to offer a rigorous overall program – with equal emphasis on the acquisition of knowledge, skills, and success orientations – in an accepting, friendly, and supportive environment.

TIS follows QSI’s mastery learning approach to teaching, in which students master specific objectives before moving on. This approach emphasizes success over mediocracy as well as rigor and critical thinking. The TIS curriculum well prepares students for the challenges of the IB DP.

IB Programme

The first IB cohort started in fall 2021 and is composed of five highly engaged students representing three different countries. Students are supported by a team of motivated, caring teachers, including the DP Coordinator, the Secondary School Counselor, and the CAS Coordinator. The IB teachers are passionate about their subjects and collaborate with other QSI IB teachers as well as IB teachers worldwide.

IB Course Offerings

For the first cohort, TIS is offering English: Language and Literature, French B, Spanish B, Business Management, Biology, Chemistry, Mathematics: Analysis and Approaches, and Theatre. TIS is prepared to offer more courses as the program grows.

At Raha International School, a member of the Taaleem family of schools, we believe that a successful education is all about inspired, imaginative teaching, centred on the learner as an individual. We nurture students not only to achieve academic success but also to become true global citizens. Raha is an International Baccalaureate World School catering for all grades from Early Years 1 to Grade 12. Our school community is made up of over 2,800 students from more than 80 nations who collectively speak over 45 mother tongues. We pride ourselves on being a big school but a small family.

Gardens Campus, situated on 14 acres of beautifully landscaped property in a bustling residential suburb, boasts an abundance of open spaces and play areas. We support our students and rigorous curriculum with state-of-the-art facilities that include; libraries, a purpose-built arts centre and auditorium, sports and training facilities, wellness areas, parent and visitors' café and more.

Just a 7-minute drive from Gardens sits Khalifa City Campus which opened in September 2020 and currently caters to our Early Years up to Grade 9 students and will be expanding to all grades in subsequent years. The Khalifa City Campus has been built to satisfy the exceptionally high demand for

places at Raha, and the ever-increasing popularity of the International Baccalaureate curriculum. The new campus will eventually cater for up to 3,000 K-12 students.

Raha was the first school in Abu Dhabi to achieve accreditation in the full IB curriculum. The IB is internationally acclaimed and respected for its relevance in today's multicultural and increasingly global society. We are also the only K-12 school in Abu Dhabi to receive the highest rating of 'Outstanding' from the Abu Dhabi Department of Education and Knowledge for a second time, an amazing achievement for our staff and students.

Our programmes feature an inquiry approach that aligns student interest with what they learn, thereby enriching their natural curiosity and promoting a love of learning. Our team of internationally-experienced, skilled and passionate teachers model the attributes of the IB Learner Profile and encourage students to "respect themselves, others and the world around them". A strong sense of common purpose pervades our learning community. We believe that trust and strong parental participation are an integral part of a quality education and we see parents as our partners in their children's learning journey.

Rome International School (RIS) offers an unparalleled inclusive international education that prepares students to solve problems that have not yet been imagined and to work in jobs that may not yet exist.

We continue to be the only school in Rome authorised to offer both the International Baccalaureate (IB) Primary Years Programme and IB Diploma Programme. The school is an accredited centre for the Cambridge IGCSE thereby ensuring the quality and consistency of a true international education.

Highly qualified, caring and experienced staff motivate and inspire students to achieve their potential, both academically and personally.

We teach students to think for themselves and to understand the significance of what they are learning in global and local contexts. Our inquiry-based educational approach places students at the centre of the learning process and encourages them to be active participants in their education.

Students who complete the rewarding educational journey at RIS progress to attend universities of their choice worldwide. They will have established a personal set of values

that will lay the foundation for international mindedness and critical thinking to develop and flourish.

From the Duke of Edinburgh's International Award to a sustainability education partnership with WWF and Eco Schools, our community of learners can participate in enriching co-curricular and extracurricular activities that take learning beyond the classroom.

The school's state-of-the-art building has been purpose-built to meet every learning and teaching requirement. Nestled in almost four hectares of natural parkland in north-west Rome, close to the city centre, our campus offers students plenty of opportunities to play, discover and experiment.

Joining RIS means joining an extended international community.

We are a member of the Globeducate ICS family of schools, united by a vision to prepare each student to become a global citizen who can shape the world.

With a student intake of over 50 different nationalities, Rome International School is the ideal context for a rewarding and progressive educational experience.

Rossall has been described as a ‘warm, inclusive and remarkably happy place to be’.

Set on an historic 160-acre campus, Rossall is one of the country’s leading independent co-education boarding and day schools, where boys and girls aged 0-18 are nurtured in a safe, secure and supportive environment.

The School provides a broad curriculum with the senior school following the British National Curriculum culminating with GCSE/iGCSE examinations at the end of Year 11. In the Sixth Form, students choose from A Levels, IB Diplomas or BTEC in Sports.

In 2021, Rossall celebrated outstanding results. At A-Level 29% of grades awarded were the top mark of A*, firmly beating the national average of 19%. With 61% of pupils achieving A* or A grades. For IB Diplomas students had a 100% pass rate and average score of 35.

Year 11 students achieved excellent GCSE results. With 98% of results at grades 9-4 or A*-C including Maths and English and 55% at a grade of 7-9 or A*-A.

Rossall’s enviable on-campus facilities include 45 acres of outdoor grassed sports pitches, floodlit all-weather surfaces, purpose built £4 million sports centre, heated indoor swimming pool, Fives courts, shooting range and multi use games-area.

Rossall runs an Elite Football Programme for boys and girls, in partnership with League One football club, Fleetwood Town, focusing on developing students by challenging them as athletes.

Rossall’s Golf Academy is ranked number 1 by the ISGA, boasting an indoor golf studio, equipped with the latest video analysis equipment and GC2 launch monitor/simulator, as well as an indoor putting lab and swing room.

Through our International Piano Academy we have joined the All-Steinway Schools programme and our fleet of 21 Steinway pianos now includes 3 grand pianos and a Model D Concert Grand Piano.

The School is home to the Lawrence House Astronomy and Space Science Centre, the only centre of its kind in Britain, specialising in astronomy education.

A huge range of extracurricular activities are offered to all pupils throughout the school. Students can join everything from the world famous Chapel Choir to the oldest Combined Cadet Force in the country.

Admitting boarders as young as seven, Rossall’s ‘family structure’ provides the framework for its exceptional standards of pastoral care. With regular investments in its 9 boarding houses, each house is a well equipped and comfortable home, modernised to the highest of standards.

Rossall School is a registered charity (No. 526685) that exists to provide education for children.

Royal High School Bath, GDST is a leading independent day and boarding school. Part of the GDST family, RHSB provides outstanding, contemporary, education for girls aged 3-18. With a reputation as supportive and stimulating, our students realise new talents, fulfil their potential and go on to have bright futures. Our Steinway Music School and Art School highlight our commitment to our students' creativity.

Academic

Committed to high academic standards, Royal High School Bath offers a choice of A level or IB with a wide range of subjects delivered by specialist teachers. Staff are highly qualified and engage and inspire their students – with 16 years' experience of the Diploma Programme, the school's results are excellent, and consistently above the global average. In 2020 RHSB was recognised as a Top Global IB School and in 2022 students achieved an impressive average score of 37.4 points (6 points higher than the global average). Students go on to study at prestigious universities in the UK and overseas, including Oxford, Cambridge, Imperial and UCL.

Global perspective beyond the classroom

Students value the international-mindedness of the IB and enjoy a school exchange to Sweden. This gives experience of other young people from very different backgrounds and nationalities. Students choose from a wide range of CAS

options and in previous years took part in an expedition to Cambodia where they taught in a partner school. Model United Nations enables students to refine skills including public speaking, critical thinking and leadership.

Orientation

The school's expertise means the induction of students is quick and effective. A residential orientation experience helps students gain an understanding of the programme ahead, and provides the space to plan their final years at school.

Boarding

Our global community of boarders find their home from home in RHSB. Girls aged 11-16 board in School House, our stunning neo-Gothic main building. Gloucester House is the Sixth Form boarding house and girls quickly settle into a caring and supportive community. House staff value students as individuals and the pastoral care and wellbeing of each girl is paramount.

Location

Situated in Bath, RHSB has good transport links. Just 15 minutes from M4 motorway and with easy access to London, Bristol, Cardiff and Birmingham. Mainline rail links to London Paddington. Airports in Bristol, Southampton, Heathrow and Gatwick are easy to access and a shuttle to west London for weekly boarders can be arranged as required.

The school has an excellent record of academic achievement throughout all age groups and was the first independent school in the UK to offer the IB Career-related Programme alongside the IB Diploma Programme and our A Level Plus Programme, through which pupils study for A Levels but also take advantage of the IB courses on offer and add them as enrichment options. We also offer a one year GCSE and Pre-Sixth Form course providing excellent preparation for entry into the Sixth Form.

Pupils leave to go on to study at Oxbridge, medical schools, other Russell Group Universities and Art, Music and Drama colleges. Pupils succeed academically and are well-mannered, characterful, happy and independent; a result of Ryde School's dynamic yet welcoming environment.

Our pupils benefit from an extensive range of excellent resources and extra-curricular activities. Sailing is on the curriculum in both the Prep and Senior Schools and has a strong focus throughout the School. In addition to the extensive academic, creative arts and sporting programmes, the location of our school enables us to offer a full extra-curricular programme including sailing, riding and water sports.

Situated in a beautiful, safe and idyllic island setting just off the South Coast of England, Ryde School with Upper Chine (known locally as Ryde School) is a thriving, prosperous independent day and boarding school for boys and girls aged 2.5 to 18, providing exceptional educational opportunities in a nurturing environment – helping them to be resourceful and resilient in the face of challenge and change.

Just ten minutes by Hovercraft from the mainland, the School and the boarding houses benefit from being near high-speed sea, rail and air links to regional, European and international destinations and the School is 1/2 an hour from Cowes, the home of international sailing.

Constantly investing in the future of our pupils, we have recently updated the science labs and libraries, the Sixth Form Centre and added a parent and pupil coffee shop, fantastic new Performing Arts Centre and two new boarding houses in the school grounds in Ryde. The aims of Ryde School as embedded in the School motto, 'Ut Prosim', have always been focused on service to others. Our pupils are encouraged towards self-knowledge, academic excellence and leadership in order to contribute positively in their careers and the wider world.

Website

www.dominics-int.org

St. Dominic's International School, Portugal, is a highly respected and well-known international school. It was the first and is currently one of the few schools in Portugal authorised to offer three of the International Baccalaureate Programmes: Primary (PYP), Middle (MYP), and the Diploma, and is celebrating its 25th year as an IB Continuum School.

Our commitment to the IB and its programmes is at the core of SDIS' educational philosophy of 'Nurturing and Educating International Minds'. The IB programmes encourage students to question perceived truths and beliefs and reflect on their place in, and contribution to, the society in which they live.

Although the original founders of the school left in 2010, the current owners still maintain the connection with the Dominican values which are imbedded within the school and the Veritas Motto.

The principle of inquiry based learning ensures that students develop into independent learners, equipped to embrace both the challenges and opportunities they will face throughout their lives. Situated 15 kilometers from central Lisbon, in the district of Cascais, St. Dominic's is a private, non-selective, coeducational day school serving students aged 3 to 18 years in the international community, through

the medium of English. We currently have 47 nationalities amongst our student population, making us a truly international school.

The school is housed in three one-storey buildings. In addition to 48 classrooms, it has a self-contained nursery and kindergarten for our youngest students, two gym halls, three art rooms, two libraries, five science and technology laboratories, two music rooms and a drama studio. Our ICT facilities include both dedicated ICT suites as well as portable devices. We have an excellent reputation for sport, and have facilities for football, basketball and volleyball on site; a wide range of other sports are played using outside facilities.

The junior school offers: English, Portuguese, mathematics, social studies, information technology, art, music, PE and social education through the curriculum of the PYP from nursery to grade 5. In the senior school, students in grades 6 to 10 study the MYP, and in grades 11 and 12 we prepare students for the full diploma or for diploma courses. Our students go on to study at prestigious universities and colleges around the World.

Classes begin in early September and run to the end of June with breaks for Christmas and Easter and shorter mid-term breaks.

SVIS – Sainte Victoire International School is an IB World School located near Aix-en-Provence in the south of France. The school offers both the International Baccalaureate Diploma Programme and the Cambridge IGCSE examinations. SVIS provides education for students aged 5 years to 18 years from over 40 nationalities in our Primary, Middle, and High School. From the Primary school level, teaching is bilingual, allowing students to achieve their academic potential in English and French. SVIS also offers mother-tongue classes for several additional languages.

SVIS provides an innovative and rigorous approach to teaching and learning, incorporating cross-disciplinary subjects as well as a wide range of learning opportunities that take place off-campus. These include an extensive range of local and international trips, an abundant offering of after school activities, and an ecology park. SVIS integrates sustainability goals and service-learning into the curriculum to develop students as global citizens.

The school is situated in the heart of an international 18-hole golf course, facing the Sainte Victoire mountain and offers students a healthy and peaceful school environment. SVIS is a family-friendly environment focusing on the whole child and provides opportunities for students to explore their passions in athletics and the arts. Class sizes are limited to 15 maximum allowing for individualised education programs.

School Facilities

The school facilities include an amphitheater, a library with computers, a theatre/art room, a science laboratory, an

indoor gym and outstanding outdoor facilities: an 18-hole golf course, a football/rugby grass pitch, a tennis court, a basketball court and ecology park where students can grow fruit and vegetables.

Boarding Facilities

The boarding house is located 20 meters from the entrance to the school. This facility offers an exceptional living environment, where students enjoy a healthy pace of life, conducive to academic success. There is a maximum of 2 students per duplex. Each duplex is equipped with study rooms, a kitchen, 2 bathrooms, lounges, and a private terrace with outstanding views over the grounds.

Outstanding qualities of SVIS

- SVIS offers internationally renowned educational programs that are sought by leading universities.
- SVIS graduates have their first choice of leading universities.
- With more than 40 student nationalities, SVIS is a diverse and inclusive school.
- Each student receives individual support and guidance from teachers to achieve their maximum potential.
- The school provides students with opportunities to study a large variety of mother-tongue and foreign languages including English, Spanish, Russian, Chinese, Italian, German, Dutch, and Japanese.
- The school has an outstanding campus on an international 18-hole golf course in the south of France. The grounds are surrounded by pine forests.

**In brief**

Founded in 1896, Scarborough College is a leading independent school in the Northeast, nestled between the stunning North Sea coast and the North Yorkshire Moors. The College offers a forward-facing and holistic education to boys and girls aged three to 18 years old.

At Scarborough College, we believe that all pupils have hidden talents and through our challenging curriculum, we inspire children to find their love of learning and develop a 'can do' attitude that typifies Scardeburgians old and new, the world over.

Academic and Co-curricular

True to our founding principles of offering an outstanding education; we offer GCSEs, an exceptional range of co-curricular activities and an IB-only Sixth Form. Our nationally recognised Yorkshire Grit programme is a vital part of our curriculum, providing challenges beyond the classroom and an opportunity for pupils to become resilient, collaborative and compassionate individuals.

Sports play a central role in College life and children from as early as Year 3 are engaged in daily sports and games lessons. With hockey and rugby as representative sports, the College has two Centres of Excellence – cricket and golf – for boys and girls who are committed to train and perform at a higher level.

The SC Visual Arts department has been ranked among the top performing in the country and through our cooperation with the London Academy of Music and Dramatic Art, we have nearly a quarter of our pupils taking LAMDA examinations each year.

Boarding

Following recent investments, Scarborough College's boarding facilities rank among the very best in the country. In addition to a Junior Girls and a Junior Boys House, the College boasts a flagship co-ed Sixth Form house. While the boarding houses are comfortable and modern, including underfloor heating and bespoke modern furniture, the atmosphere within them is homely, caring and happy. Boarding the SC way is a blend of modern comforts, the foundation of lifelong friendships and warmth.

A young school, in a historical setting. A small school, growing fast. We are SKIS, an eclectic community of world citizens. We all speak at least two languages and value our diversity.

Schloss Krumbach International School is a co-educational boarding school (Grades 7-12), located in a beautiful 13th century castle. An Austrian Hogwarts, or so they say.

SKIS already holds the following accolades:

- IB World School offering IB Diploma Programme
- Austria's only Cambridge Assessment International Education School offering Advanced Level (A-Level Diploma)
- Duke of Edinburgh (DoE) Award center
- Member of the CIS (Council of International Schools)

Our Middle School students in Grades 7 to 9 follow the Austrian national curriculum and are taught in German and supported in English. Grade 10 transitions to English as a medium of instruction and prepares for Grades 11 and 12 (IBDP or A-level). During Grade 10, our Pre-Diploma Grade, the learning process is organized in a way that allows Grade 10 students to improve their language skills, accustom to the new studying environment, try and evaluate different subjects, and gain a final understanding of what they are going to take for the Diploma programme. SKIS Career Counseling Team helps students explore the potential college venues to facilitate their choice of the Diploma subjects.

SKIS at Glance:

- Premium education: offering IB world & A-Levels programmes, access to the most advanced studying

equipment and innovative learning techniques

- Internationally renowned teachers with 30+ years of experience, PhD degrees and passion for pedagogics
- A truly unique setting: Austria's one and only one castle-based school
- A carefully designed bilingual system: studying in English and German throughout Grades 7-10 + additional language in Grades 10-12 (taught in English)
- Superb accommodation: study and reside in a magnificent campus-castle
- Healthy lifestyle: a 6-meals-a-day menu, carefully crafted in accordance with best nutritionist science practices and lots of sports
- Personalized family-alike atmosphere: small studying groups with no more than 16 students per each
- Student-focused approach: academic support center, career orientation and university counseling
- An enriching boarding experience: culture trips around Europe and a wide range of extracurricular activities
- Lifelong learning habits: supervised homework time with professional teachers + mother tongue support
- Soft skills acquisition: a unique student leadership system and participation in global major forums
- A safe ecosystem: 24/7 security on campus, digital detox, COVID-19 extensive precautions

Hop on an incredible academic, social, and creative journey at our castle!

dublin.sek.es

SEK Dublin International School is a leading IB school in Ireland. Small by design, with an emphasis on personalised learning, the school's unique teaching and learning model is built on inquiry-based learning to promote critical and creative thinking.

Located in a stunning natural setting, where the landscape of the Irish countryside meets the Atlantic coast, between the towns of Bray and Greystones. The latter was named one of the best towns in the world to live as a family, and is 30 km from Dublin. SEK-Dublin combines architectural tradition with cutting-edge technology, spanning over 250,000 m² of grounds and boasting extensive green areas where our students can enjoy a diverse range of sports and outdoor activities, while enhancing their academic development.

SEK-Dublin is the first school in Ireland authorised by the International Baccalaureate Organisation to teach the Middle Years Programme (11-16 years) and the Diploma Programme (16-19 years), taught fully in English with optional languages, including German, French and Spanish.

SEK-Dublin opened its doors in 1981. The success of the school is based on several factors including: a multicultural

team of highly trained teachers; the effective use of learning technologies; an individualised programme to cover the educational needs of each student; small class sizes; and an outstanding programme guaranteed by SEK schools' standards of excellence. Aware that education does not only take place in the classroom, for our boarding students we offer residential options with carefully selected local host families or in our on-campus high quality residential facilities, and diverse extracurricular and cultural activities. These aspects combine to nurture the holistic personal and academic development of our students. This all-round education serves them well for their future, enabling them to become mature and independent individuals, and providing them with lasting memories of their experiences at school.

In all SEK International Schools we are able to offer a quality online learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

alboran.sek.es

Located on the seashore and adjacent to the Punta Entinas Natural Park, in Almería, SEK International School Alborán is regarded as a high quality international school in Andalusia. It is the only school in Almeria that offers three IB International Baccalaureate Programmes, from 3 to 18 years of age (Primary Years Programme Middle Years Programme – MYP and the Diploma Programme, either bilingually in English and Spanish or fully in English). These programmes are coordinated closely with the Spanish education system.

For the SEK Education Group, to which SEK-Alborán belongs, physical fitness and respecting one's health are an essential element of the learning process. SEK-Alborán has extensive recreational areas, and 28,000m² of outdoor spaces, as well as extensive sports facilities and a heated indoor pool. Its classrooms are equipped with cutting-edge technology (makerspace, video recording and editing spaces, radio, 3D printer, robotic tables, TED ED Club). It is considered a model of educational innovation in Andalusia.

Social and emotional learning programmes are of particular importance in students' curricula to foster the social and personal awareness. In the Intelligent Classroom, each student progresses according to their potential, working in teams and having individual efforts rewarded. Teachers

and tutors are afforded an open space for dialogue with students and parents both in-person and online. Students can take advantage of the Flipped Classroom to work on content and tackle issues from a broad perspective, solving doubts with their teachers, and learning by doing. The HYFLEX system has been implemented due to the covid and online learning has become part of the daily life of students.

SEK-Alborán offers a bilingual Spanish-English education that is incorporated progressively over all educational stages (50% of the subjects are taught in English). It is the only school in Almeria authorized by Cambridge English Exams, Alliance Française and Goethe Institut in Almería. It also has an extensive program of exchanges and participations in United Nations Models. SEK-Alborán has started the process of accreditation by the New England Association of Schools and Colleges (NEASC).

In all SEK International Schools we are able to offer a quality online learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

SEK International School Atlántico offers an outstanding international education to students, from 4 months to 18 years of age. SEK-Atlántico is authorised to teach the three International Baccalaureate Organisation programmes (PYP, MYP and IB). Second School in Spain with the best results in IB DP Exams in 2021 (19th in Europe).

SEK International Schools are committed to offering each student a learning experience focused on personal development and learning, preparing them for success in later life. Situated close to Pontevedra and Vigo, between the sea and the mountains, SEK-Atlántico boasts modern well-designed school spaces and buildings.

Students are afforded a bilingual education and learn to live with other cultures from an early age. The school places great importance on students' oral and written expression, fostering fluency in different languages. Considered a leader in educational innovation in Galicia, SEK-Atlántico offers learning in Galician, Spanish, English and French from year 3 of Primary.

The SEK education model allows students to play a leading role in their education. They explore and discover for themselves, and build and organise their own knowledge and skills, with expert support from teachers.

SEK-Atlántico students learn in facilities designed for their physical, social and creative development. They include: makerspaces, a psychomotor skills classroom for younger students, laboratories, music and art rooms, a library, language classrooms, a learning lab and large indoor and outdoor sports and recreational areas.

Technological spaces are integrated in the day to day lessons of the school and are designed to contribute fully to student learning. Devices have portability and compatibility enabling them to be used in any space.

From the second year of Primary to Baccalaureate, SEK-Atlántico students prepare for Cambridge University Examinations. In the Middle Years Programme and in Baccalaureate, students can also opt to take the Alliance Française Diplôme d'étude de langue française.

SEK-Atlántico has started the process of accreditation by the New England Association of Schools and Colleges (NEASC).

In all SEK International Schools we are able to offer a quality online learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

SEK International School Catalunya is located in a quiet and safe residential area spanning 100,000 m², including a large expanse of Mediterranean forest. The school is in La Garriga, a picturesque town just 30 minutes from the centre of Barcelona, one of the most cosmopolitan cities in Europe.

SEK-Catalunya boasts modern facilities and innovative learning spaces and teaches the three International Baccalaureate Programmes. The Middle Years Programme is offered in Spanish and English while in Baccalaureate, students only do the IB Diploma Programme, which is offered entirely in English or in both languages. We are one of the leaders in the international rankings thanks to our excellent results in IB Diploma exams and also thanks to the wide offer of subjects that we provide to the students. This current year this offer has been extended with Computer Science, Design Technology and Russian Language and Literature.

SEK-Catalunya is accredited by the New England Association of Schools and Colleges (NEASC), which is a process of external globally recognised quality assurance. NEASC accreditation allows SEK-Catalunya to offer the US High School Diploma, as a complement to the IB Diploma.

The school offers its Secondary School and Baccalaureate students the opportunity to take part in the prestigious Duke of Edinburgh's International Award, an all-round personal development scheme focused on the development and training of skills such as: leadership, autonomy, problem solving and teamwork.

The SEK-Catalunya Music School, in partnership with the Trinity College London, offers a complete curriculum for all students who wish to acquire the necessary skills to learn classical and modern music.

We also offer international boarding, housing students from Spain and abroad in modern, comfortable and functional facilities, designed for residents to live together, grow as individuals and develop their personal identity thanks to a multicultural environment and a rich offer of complementary activities.

In all SEK International Schools we are able to offer a quality online learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

SEK International Schools are committed to offering each student a learning experience focused on personal growth, preparing for success in later life. SEK Schools are bilingual and pioneers in offering the International Baccalaureate programmes, boasting an educational model that has made a tradition of innovation, placing them among the best schools in Spain since their foundation in 1892. SEK International School Ciudadcampo offers the IB Primary Years Programme, the IB Middle Years Programme, the IB Diploma Programme (in English and Spanish, or fully in English), and the Spanish Bachillerato LOMLOE.

SEK-Ciudadcampo offers an innovative educational model based on early stimulation, immersion in English and the development of talent and creativity in a digital environment that favours the development of emotional intelligence.

SEK Ciudadcampo boasts over 20,000m² of grounds and buildings and a large outdoor sports complex that exceeds 10,000m².

Through an active learning approach, SEK-Ciudadcampo turns the classrooms into a flexible learning space for all students. The student becomes an active agent, building

learning for themselves. The Design Thinking methodology helps students to develop skills such as cooperation, creativity and innovation.

We believe that the way we learn has changed forever. As a result, SEK Future Learning Model is presented as a new opportunity to learn from new methodological formats, based on the Intelligent Classroom system, the use of new tools and the interaction between the different members of the educational community, offering enriched programmes such as the “Aula de Padres”.

SEK-Ciudadcampo is accredited by the New England Association of Schools and Colleges (NEASC), and is the first Spanish school to be recognised as a global member of Round Square.

In all SEK International Schools we are able to offer a quality online learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

SEK-El Castillo School is a privileged place for coexistence and learning in the broadest sense of the word. The High Artistic Performance School (Music and Dance), the Artistic or the Research Baccalaureates, the different sports schools or the enrichment projects in collaboration with the Camilo José Cela University, are some examples.

We have been authorised as an International Baccalaureate (IB) World School for over 40 years. Currently our students can take the IB Primary Years, Middle Years and Diploma programmes either in English or following an English-Spanish bilingual syllabus, with outstanding examination results. We are also accredited by the New England Association of Schools and Colleges (NEASC) in conjunction with IB with a process of quality assurance: the Collaborative Learning protocol with a focus on impactful learning processes.

We believe that the way we learn has changed forever. As a result, SEK Future Learning Model is presented as a new opportunity to learn from new methodological formats, based on design-thinking tools, the use of new educational technology and the interaction between the different members of the educational community, offering enriched programmes such as the “Aula de Padres” and instrumental lessons for families in our Music School.

We boast first-rate sports facilities on campus and offer international boarders a professionally staffed, nurturing and safe environment. We provide linguistic immersion programmes in both our languages of instruction to ensure access to the curriculum for all our students. In addition, as part of our commitment to talent development, we offer a high-performance sports programme: SEK International Sports Academy (we are the academic partner of important clubs such as Real Madrid). This programme allows athletes to combine their academic studies with their training and competing schedules. We are members of the Boarding School Association, our boarders enjoy a wide range of facilities to enhance their learning. As part of our provision to develop engaged and active young adults, we offer students the opportunity to participate in the prestigious Duke of Edinburgh International Award.

In all SEK International Schools we offer a quality hybrid learning model in which students are able to continue their learning if necessary, with synchronous and asynchronous classes, and with personalized monitoring by teachers and tutors, which has proved successful with students and families.

SEK International School Qatar was founded in 2013 within the framework of the Outstanding Schools Programme of the Ministry of Education and Higher Education of the State of Qatar. The school today caters for students from over 60 nationalities. The teaching staff represents more than 25 different nationalities.

The school is an innovative coeducational, international and multilingual school in Qatar, with a cutting-edge learning campus located in the sophisticated West Bay district of Doha. English is the language of instruction, and the school also offers Spanish and Arabic courses for all students. Technology is embedded across the curriculum, supported by their staff as Microsoft Innovative Educators and a Bring your Own Laptop programme from Grade 4.

SEK-Qatar is an IB World School authorized to offer the IB Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP), from pre-school to grade 12. The IB offers high-quality and challenging educational programmes, with a reputation for their high academic standards. SEK-Qatar is also proud to be an accredited school by New England Association of Schools and Colleges (NEASC), one of the most prestigious international university and school accreditation agencies. It indicates that the school meets high standards of institutional quality

through ongoing, independent, and objective process of peer-review.

Established in 1892, SEK International Schools are places where innovation and pedagogical leadership are combined with 120 years of tradition and history to offer educational programmes. The SEK Group has launched over a hundred pioneering initiatives introducing innovations such as the classrooms without walls, the SEKMUN Model United Nations and the International Baccalaureate Organisation programmes.

SEK-Qatar has a unique educational model, committed to offering quality education that promotes individualisation, places emphasis on learning rather than teaching, and fosters activity and effort, freedom, interaction and teamwork as well as transformational learning. Technology, sports, artistic and social activities also play a major role in the SEK educational model. The ultimate goal is for students to acquire skills, knowledge and understanding to become active citizens, committed and determined to build a better world.

SEK-Qatar has the infrastructure, digital devices and skilled staff to enable the delivery of online or blended learning depending on changing external scenarios, to which we are able to respond in a flexible and agile manner.

With more than 20 nationalities, SEK Santa Isabel offers of a dynamic multicultural environment set in the heart of Barrio de Las Letras, the historic cultural district of Madrid. The only school in the center of Madrid to deliver the International Baccalaureate's Primary Years Program, students learn in real world settings where their school Campus expands to the museums, libraries, urban gardens and the renowned Retiro Park. Our outdoor Learning Paths makes use of these city spaces, and cultural, historical and scientific institutions to improve and enrich learning.

SEK-Santa Isabel offers Early Childhood and Primary Education (3-12). Our innovative educational model is based on early stimulation, immersion in English and Spanish and the development of talent, creativity, and academic achievement. We boast of a vibrant school wide community and personalized learning experiences in a safe environment that promotes emotional intelligence and close contact with families.

Through our dynamic learning approach, the student becomes an active agent, building learning for themselves in spaces inspired by Montessori and Reggio Emilia.

Learners discover their talents and motivations through Design Thinking and Passion Pursuits, where students have the freedom to design their own projects and guide their learning.

Our learning methodologies foster global competencies, critical thinking, communication, creativity, public speaking and emotional intelligence.

Students take part in our extensive Arts Department and Play Music project, which consists of a school-wide orchestra, learn additional languages and can choose from a range of extracurricular activities, extended hours and sports activities. We have a spacious gym on school grounds, as well as outdoor areas for sports such as swimming, tennis and padel tennis, football and basketball. Our Stellar Programme aims to enrich personal development for high-achieving students.

SEK schools are pioneers in offering International Baccalaureate programmes, boasting an educational model that has made a tradition of innovation, placing them among the best schools in Spain since their foundation in 1892.

Website

www.sevenoaksschool.org

Sevenoaks is one of the leading schools in the UK, providing an outstanding modern education. All 450+ students in the sixth form study the IB Diploma Programme, which the school has taught since 1978. The leafy 100-acre campus is in the Kent countryside, just half an hour from Central London and Gatwick Airport. International students make up around 20 per cent of the student body and the school provides pupils with a balanced and intellectually stimulating education while promoting global understanding. Pastoral care is consistently excellent, enabling friendships between all members of a peer group to flourish. Sevenoaks is only one of a handful of schools to win *The Sunday Times Independent Secondary School of the Year* twice.

Curriculum

A wide range of subjects is offered at GCSE and IGCSE. In the sixth form all pupils study the IB Diploma Programme. Academic results are outstanding. In 2022, 15 students achieved the maximum 45 points in the IB Diploma, and the average score was 40.3 (around eight points above the world average). Virtually every student goes on to one of the world's best universities, with around 80 per cent taking places at leading UK universities, and 21 per cent accepting places at top US, Canadian, European and international universities.

A wide range of sport is offered, and pupils achieve honours in cross country, rugby, football, hockey, netball, cricket, athletics, sailing, shooting, swimming and tennis. There is

a strong emphasis on music, drama and art, with chamber music a particular strength. The school is proud of its strong tradition of community service and DofE Award participation.

Facilities

Facilities are first class. Recent developments include a striking, state-of-the-art boarding house, an award-winning performing arts centre, a Science & Technology Centre uniting the four core fields of science, and an innovative Sixth Form centre. There are seven boarding houses, including five single-sex houses (13-18), and two sixth form houses (16-18). A new girls' boarding house is being built and will open in 2023. The house will accommodate 60 girls in Year 9 and above.

Entrance

Year 7 (11+): entrance examination, school reference and interview.

Year 9 (13+): pre-assessment, entrance examination or Common Entrance or scholarship examination, plus school reference and interview.

Sixth form (16+): entrance examination, personal statement and interview.

Up to 50 scholarships are awarded annually at 11, 13 and 16, for academic excellence, music, sport, art and drama, and means-tested financial assistance is available.

Sevenoaks School is a registered charity for purposes of education. Charity No. 1101358.

Sotogrande International School (SIS) is a day and boarding school, that follows the IB programme from 3-18 years. Home to a passionate learning community who inspire and encourage learning and intercultural understanding, promoting education as a force for good in the world.

Academic results are consistently excellent, with both MYP and Diploma students achieving well above world average scores year after year. As a result of the impressive average point score of 34 in 2022, 43 points was the highest grade and 21% scored 38 or higher with a 100% pass rate.

With more than 1100 students from 54 countries, SIS is more than just a school, it's a place where individuals flourish. Throughout the IB programmes, internationally qualified teachers provide a challenging, nurturing and academically-rigorous education. SIS offers a bespoke Elite Sports Programme where students combine sports and education.

As an Apple Distinguished School, the use of technology is creatively embedded into the curriculum for all students from the age of 3, while the F1 in Schools programme and the Hyperbaric Challenge provide an exciting way for students to learn Science, Technology, Engineering and Maths (STEM) related subjects. Students are encouraged to think independently and critically, developing their unique interests, gifts and talents benefiting from opportunities to be the best they can be.

Sotogrande International Boarding House is a warm vibrant community, where the staff are dedicated to caring for, and getting the best out of each individual. The academic support received by students is reflected in IB Diploma exam results and University destinations of our boarding students.

Students are encouraged to take part in every aspect of boarding life helping them to grow into happy, motivated and morally committed citizens of the world.

St Andrew's College was founded by the Presbyterian community of Dublin in 1894 to provide a broadly-based, liberal education. From its inception, the College attracted students from a variety of backgrounds and strove to unite them through a shared experience of working, learning and playing together. Over the years the College has evolved in many ways, and is now a flourishing, interdenominational, co-educational school of over 1,270 pupils and over 150 teachers.

In 1982, St Andrew's College became the first school in Ireland to be authorised to offer the International Baccalaureate. It started teaching the IB Diploma Programme in 1983, and first held IB DP examinations in 1985. Over the last 28 years it has built up a well-deserved reputation for its excellent results and for its distinctive multicultural environment. The philosophy on which the College was founded and from which it draws its inspiration today is that a high-quality, rounded education is essential to the moral, social, spiritual, cultural and academic development and physical and mental well-being of the individual student. This philosophy is mirrored in the IB Learner Profile. The high quality of the education offered by the College and its commitment to continuous improvement are reflected in the fact that since 1982, St Andrew's College has been fully accredited by the European Council of International Schools and the New England Association of Schools and Colleges.

The IB Diploma Programme combines academic rigour with a strong extracurricular dimension and various community service projects. The IB students at St Andrew's College participate in a wide range of activities, representing their year on the Prefect Council, playing team sports such as hockey, rugby, tennis, basketball and badminton, taking part in activities such as the Model United Nations, being involved in environmental projects, assisting in the school library and local communities and helping various charities by fundraising and doing voluntary work. The IB Diploma Programme is the premier worldwide pre-university programme. Since 1985, St Andrew's College IB students have been accepted into many universities throughout the world. In recent years these have included all the top Irish universities; MIT, Yale, Stanford, Berkeley and Columbia (USA), Cambridge, Durham, Bristol, Edinburgh and the LSE (UK), the Universities of Tokyo and Keio (Japan). These students universally acknowledge the extent to which their studies in the IB Diploma Programme has given them invaluable help in their university careers.

The IB student profile at St Andrew's College is a truly international one, with students coming from all continents. This ethnic and cultural diversity enriches the school community in many ways and provides a wealth of knowledge and experience which is of great benefit to other students in the school.

St Clare's Oxford is an independent, co-educational, day and boarding college located in elegant north Oxford and has been offering the International Baccalaureate Diploma for over 40 years, longer than any other school or college in England. It is also an IB World School. The college has a worldwide reputation for expertise in providing the IB Diploma and embraces internationalism and academic excellence as its core values.

Students from over 45 countries study at St Clare's, including a significant number of British students. The atmosphere is informal and friendly, with an equal emphasis on hard work and developing personal responsibility and mutual respect between staff and students.

St Clare's has an especially wide range of subjects on offer at higher and standard level and, in addition, can teach literature face-to-face in over 20 different languages, something that is not available in any other school in the UK.

In recent years, 28 of our students have gained the maximum 45 points and obtained places at top ranking universities worldwide.

The college also offers a one, two or three terms long Pre-IB course which includes English and Maths iGCSEs and a three week IB Introduction Course in the summer to prepare for the start of the diploma in September.

Students live in college houses close to the central campus, under the care of residential staff. St Clare's also welcomes students from the local area as day students.

There is an extensive programme of social, cultural and sport activities and students are encouraged to take full advantage of the opportunities that Oxford provides.

St Clare's is most definitely different to any other college in Oxfordshire and rightly so. We have a different approach to studying, living and developing the students as young adults, creating knowledgeable, open-minded and inquiring minds.

If you are looking for a top Sixth Form offering the IB Diploma programme, then look no further – St Edward's College in Birgu, Cottonera is only a few minutes from Malta's Capital, Valletta. St Edward's was established in 1929, basing itself on British Public School ideals, to fill the void left in the Maltese education system by the departure of the English Jesuits.

The College site originally served as a Military Hospital and has extensive grounds between the bastion walls and the old hospital buildings, which serve as ideal recreational areas. St Edward's College was authorised to offer the International Baccalaureate (IB) Diploma Programme (DP) commencing September 2009 and following successful years, applications for boarders and day students have been increasing.

Between the age of 16 and 18 we offer the 2-year International IB Diploma programme which is recognised by both local and international universities. The IB was designed to meet the needs of these students to ensure that they can effortlessly integrate into different International Schools when the need arises.

After carefully looking at the options available to Maltese students we reached a conclusion that the IB Diploma would also be their best option.

The International Baccalaureate® (IB) aims to do more than other curricula by developing inquiring, knowledgeable and caring young people who are motivated to succeed.

The College is an English speaking school so all the lessons are in conducted in English.

St Edward's offers a unique opportunity for parents seeking a boarding school also. We have five-day and seven-day options. Our boarding facilities are split over two floors where single and double rooms are available.

- The school operates on British boarding school principles with high academic standards
- The location and environment are superb with year round sunshine on a Mediterranean island
- Malta is within 3 hours of any European capital city by air
- The IB Diploma is recognised by all top universities
- Our fees offer some of the best value of any European boarding schools

Come and join our students on the IB Diploma Programme!

**St Edward's**

The number of pupils choosing to study the IB at St Edward's has increased significantly in recent years. We have an excellent balance in the Sixth Form between the IB and A Level, with equal numbers of candidates for both. The School sits on a vast 100-acre estate complete with landmark new university-style academic facilities, recently-completed Music School, professional-level North Wall Arts Centre and riverside boat house – yet it is only a five minute bus ride away from one of the most famous university cities in the world.

Oxford

Being so close to all the amenities and attractions of Oxford is of enormous benefit to our pupils. The city's rich architectural history and the University's global reputation for scholarship are an intoxicating combination. Venues such as the Ashmolean Museum, the Oxford Playhouse, The Museum of Modern Art and Blenheim Palace offer important learning opportunities – but also welcome distraction from the busy school day. In Oxford, pupils can attend talks and lectures by notable speakers at countless venues across the city.

Sixth Form Achievements

In 2022, 93% of Higher Level grades were 7-5 and 61% were 7/6; the average points score was 35. Each year, a number of pupils are awarded places at Oxford and Cambridge whilst

the majority go on to top universities in Britain and overseas. Pupils are increasingly interested in studying outside the UK and we have considerable experience in this area. In recent years, pupils have gone on to study at US and Canadian universities including Harvard, Dartmouth, UCLA, McGill, Northeastern and NYU. Pupils have also been successful in their applications to universities in Hong Kong, Japan, Ireland and elsewhere in Europe.

Pastoral Care

The pastoral care system at St Edward's has long been regarded as one of the school's great strengths. Underpinned by a highly effective network of relationships, the system offers distinct but interwoven levels of care.

The School and the Admissions Process

St Edward's has around 800 pupils, 84% of whom board. The Sixth Form has around 330 pupils, some 25% of whom are from overseas (16% across the rest of the School), and the boy/girl split is 53%/47%. Entry to the Sixth Form is competitive with around 4 applicants per place. Academic and Music Scholarships are available along with further Awards in Sport, Art, Dance and Drama.

St George's is Rome's original and largest British international school, founded in 1958. Today it is home to 925 pupils from over 90 different countries: a truly global community.

The school's main campus is a historic 14-acre site in the north of the city with extensive facilities: 7 fully-equipped science laboratories, two information technology classrooms, specialist music, art and design technology rooms, and multiple sports amenities, including two multi-purpose astro-turf pitches, an olympic-size running track, tennis, basketball and volleyball courts.

A proudly inclusive school, St George's welcomes new pupils throughout the year, subject to availability, and offers extensive learning support to pupils with additional

educational needs, as well as EAL. Pupils follow the UK National Curriculum through to IGCSE. Thereafter, pupils progress to the IBDP, with over 30 separate DP courses offered. Teachers are almost exclusively UK-trained and mother-tongue English speakers.

Emphasis is on academic excellence, with exam results consistently amongst the best in the country and in Europe. The Class of 2022 achieved an average DP score of 37 points, and have accepted places at leading universities including Harvard, Brown and Imperial. Recent graduates have also attended Oxford, Cambridge, Yale and MIT. For prospective families, virtual and in-person visits are available throughout the school year.

stleonards-fife.org

St Leonards is an independent, coeducational, boarding and day school situated on an historic campus at the heart of St Andrews, Scotland. Less than an hour from Edinburgh Airport, the beautiful coastal town is renowned as the ‘home of golf’ and of the UK’s top university. St Leonards was named Scotland’s Independent School of the Year 2019 by The Sunday Times Good Schools Guide and, most recently, was named the UK’s Independent School of the Year 2022 for International Student Experience.

It is international and progressive in outlook, yet rooted in Scottish tradition. There are pupils of 34 nationalities on the school roll; full, flexi and weekly boarding is offered from age ten. Over the past six years, St Leonards has invested over £5 million in the refurbishment of its boarding houses, which are very much a ‘home from home’. Houses have state-of-the-art kitchens and spacious, comfortable social areas. Many bedrooms have unrivalled views over the town’s mediaeval cathedral ruins and the North Sea that lies beyond the school playing fields.

St Leonards is one of two schools in the UK to actively offer all four IB programmes. The youngest pupils follow the PYP, followed by the MYP and (I)GCSEs. In the Sixth Form, pupils choose between the CP and the DP.

The school fosters an imaginative choice of projects for CAS and Service Learning, as well as for the MYP Community Project. Recent examples include sewing scrubs for frontline medical teams, preparing, fundraising for the RNLI and

preparing and delivering meals to those in need in the community as part of a project called ‘Beyond Education: Being Human’. To help pupils prepare for life after school, there are higher education and careers fairs each year featuring UK and international institutions, and a stimulating calendar of lectures delivered by guest speakers.

In 2022, the average points score was 36, with 83% of all Higher Level subjects graded 7, 6, or 5. This strong set of results led to leavers securing places at their first choice university, with the most popular destinations this year including the universities of St Andrews, Glasgow, Aberdeen, Nottingham, Bristol, Durham and University College London.

Timetables are designed to establish a healthy balance of sporting and co-curricular activities alongside high academic achievement, with over 50 activities offered. The leading six-tier Golf Programme continues to go from strength to strength, and the broad programme of activities includes everything from apiary to aquathlon, ukulele group to Model United Nations. An exciting calendar of trips on top ensures pupils leave St Leonards equipped with skills for life, Ad Vitam.

Entry requirements

Tests and interviews are held throughout the year. For older pupils, entry is by CAT4 assessment, along with school reports and interviews. A Pre-IB programme is offered, usually for one year before a student starts Sixth Form.

Founded in 1927, St. George's International School combines its well-structured, traditional ethos with academic excellence in an international environment. Enjoying a safe location, our whole school community fosters mutual respect and understanding whilst cultivating individual talents and potential.

As stated in our motto, 'Levavi Oculos', St. George's International School encourages students to lift their eyes and recognise positive qualities within themselves and others and to nurture a caring and dynamic attitude in today's demanding world.

The school's Learning Principles closely relate to the IB learner profile and students are challenged to become more curious, thoughtful, resilient, reflective, collaborative and balanced.

The school provides a 'Home away from Home' to approximately 80 boarders and over 300 day students from 60 different nationalities. Nestled between the Alps and Lake Geneva, the school includes tennis courts, football field, sports hall, play parks and opened landscaped grounds. During winter students ski and in the summer they make use of the lake, surrounding countryside and local sports facilities.

The curriculum contains the following subject groups:

Groups 1 & 2: Languages

Students usually select from English and French. Spanish,

German, Chinese, Russian and other languages as part of the mother tongue Literature self-taught programme are also possible.

Group 3: Individuals and Societies

- Economics
- Geography
- History
- Environmental Systems and Societies
- Business Management

Group 4: Experimental Sciences

- Biology
- Chemistry
- Physics
- Sports, Exercise and Health Science
- Computer Science
- Environmental Systems and Societies

Group 5: Mathematics

St. George's offers Mathematics in higher and standard levels.

- Applications and Interpretations
- Analysis and Approaches

Group 6: The Arts (or elective subject)

Students can follow courses in either Visual Arts, Music, Dance or Theatre Studies.

Alternatively students may follow a second subject chosen from Groups 2, 3 or 4.

An International educational experience in a breathtaking natural setting

English. German. Ukrainian. Spanish... Just a few of the languages that float down our hallways at St. Gilgen International School (StGIS). Consisting of approximately 40 nationalities, our international student body with over 220 students is a diverse melting pot of talented students. Our school is nestled in the heart of a charming lake side village on the exquisite Wolfgangsee and surrounded by the Austrian alps. St. Gilgen is a stone's throw from the cultural hotspot of Salzburg and just a few hours from Vienna and Munich.

Our key promise is that every child has talent and we will develop it – so a main focus for us is making sure we provide the ideal environment for students. In order to ensure every student flourishes at StGIS, our philosophy of 'three pillars of excellence' applies to every child – excellence in education, care and activities. This means our highly qualified network of teachers, pastoral staff and nurses combine to ensure every student's unique talents are discovered, nurtured and developed.

With over 40 activities to choose from – the school treats the world as a classroom and ensures professional guidance is always at hand. For example, a state-approved mountain

guide leads hiking expeditions and horse riding lessons are held in a first class stable. Students can also enjoy golf lessons and seasonal sports such as rowing, water skiing, canyoning, skiing, ice skating and climbing. StGIS also has a strong foundation in the Arts and all students have access to professional Art, Theatre, Dance and Music lessons.

A key focus of the school is to instill a love of learning in each student – and the curriculum and modern teaching methods are designed to fuel natural curiosity. Offering the coveted International Baccalaureate (IB) Diploma and Middle Years Programme (MYP), StGIS students are equipped to go on to study at the world's best Universities. This is a place where teachers strive to build an energy of relentless curiosity in each classroom and empower young minds to stretch and fulfill their potential.

With school fees in line with the world's most prestigious educational institutions, StGIS is one of the best investments you can make in your child's future. After experiencing the unique school first-hand, it's absolutely clear that the reward is a magical education that lasts a lifetime.

We would be delighted to welcome you to show the very best of what Austrian education offers. Simply visit us at www.stgis.at and let the journey begin!

**An Internationally trusted institution with an excellent reputation**

Founded in 1964 in Waterloo, Belgium, St. John's International School has established itself as one of the leading international schools in Europe.

For more than 50 years, St. John's has been a trusted institution, serving the expatriate and local communities of the greater area with their promise of a soft landing for their new families and a welcoming community that will make them feel right at home.

Academic excellence and so much more

Being the only premium IB continuum school in the area, the school can count on more than 40 years of experience in teaching the International Baccalaureate, an invaluable asset in getting the most out of the IB experience.

Furthermore, it has built its reputation for excellence on a foundation of exceptional academics but realizes that there is so much more to personal growth than academics alone. That is why the school keeps investing in its unrivalled Visual and Performing Arts and Competitive Sports Programmes.

St. John's prides itself to be able to take the individual approach with small class sizes and outstanding pastoral care.

International in more than in name only

500 students between the ages of 2 1/2 and 18 years, representing 62 nationalities, find themselves in a truly cosmopolitan atmosphere while pursuing their curricular ambitions and extra-curricular interest.

Its students are instilled with the open-mindedness to think globally and take individual responsibility for life-long learning, service, and achievement.

Learning without limits

As an International Baccalaureate (IB) World School, offering the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP), and the only school in the Brussels area to offer the Advanced Placement (AP) programme, St. John's is the perfect springboard to top universities all over the world.

Flexible options

And last but not least, their fully-flexible boarding options cater to the modern, mobile professional to accommodate every need.

Established in 1996, St. Louis is a leading co-educational International School based in the heart of Milan and hosts 1600 students between the ages of 2 and 18.

Located across three sites, the south-east and north-west premises comprise of an Early Years, Primary School, and Middle School, offering school opportunities for 2–14-year-olds. The High School is located in a prime position, just a stone's throw from the Duomo.

The St. Louis School's academic programme is rigorous and challenging. The Early Years programme is based on the British Early Years Foundation Stage (EYFS) Curriculum, and the Primary and Middle School follow the British National Curriculum with an option for students aged 6 years and upwards to also follow the Italian curriculum.

The High School comprises of IGCSE examinations for Years 10-11 and the International Baccalaureate Diploma

Programme (IBDP) for Years 12-13 with over 100 students each year studying this unique course.

The approach reinforces the importance of creative and critical thinking, with the school developing independent learners well equipped to succeed in the IBDP and beyond. St. Louis achieves outstanding academic scores within the IB Diploma with the highest average attainment in Europe spanning the last 8 years (37 average).

The school opened its newest addition, the High School in the centre of Milan (Palazzo Archinto) in September 2019. A magnificent historic building located in via Olmetto accommodates all senior school students from Years 10-13. Designed by architect Francesco Maria Richini in the 17th century and situated in the centre of Milan, the Palazzo provides the perfect learning environment for students of this age, blending state-of-the-art educational facilities within historic surroundings.

Why Choose St. Stephen's

St. Stephen's provides a demanding academic program taking full advantage of its location in the historic center of Rome. We offer a rigorous college preparatory curriculum, which is balanced by a diverse co-curricular program that fulfills the requirements for the full International Baccalaureate Diploma Programme and a US high school diploma.

The First IB School in Italy

In 1975, St. Stephen's was the first school in Italy to offer the International Baccalaureate Programme to students in grades 11 and 12. As a leading IB World School, our graduates have consistently ranked in the top percentile of IB exams, including perfect scores of 42 and the highest IB scores in the history of the School in recent years. Our average IB score is 36.

Building Futures Since 1964

St. Stephen's offers specialized career and university counseling services that aid students in the college or university search process, as well as potential academic and career choices. Our international student body applies to multiple education systems and matriculates to universities throughout the world whose admissions requirements vary widely.

A Focus on Internationalism and Global Citizenship

Our internationally-minded community aims to foster a keen sense of global citizenship in our students, who hail from more than sixty nations. We value the American roots of the School; we embrace Rome as our location, in both its historical and contemporary dimensions; and we are global in our outlook, both in terms of our active interest in histories, cultures, languages and belief systems from around

the world, and in our awareness of the global impact of our actions. We welcome students, faculty, and staff from all backgrounds and believe that every one of us contributes in equal measure to the evolving cultural fusion that makes St. Stephen's special.

Rome Is Our Classroom

Our English language high school is surrounded by Western Civilization's most significant historic monuments, such as the Colosseum, the Roman Forum, and Circus Maximus – all within minutes of our campus. Teachers use the Eternal City as their classroom, and students gain first-hand knowledge of history, art, archaeology, classics, and cultural heritage. We provide a world-class education in an intellectually challenging environment that transforms young minds and prepares them to excel in high school and in their future endeavors.

World-Class Professionals Comprise Our Faculty

St. Stephen's employs award-winning authors, playwrights, researchers, archaeologists, art historians, accomplished musicians, scientists, and professionals in many sectors who have distinguished themselves in their respective fields. The real-life experience of our faculty enables them to share a high level of expertise with students. Ninety percent of our faculty have advanced degrees, and twenty percent have earned a PhD.

A Commitment to Discovering Rome and the World

A program unique to St. Stephen's is our dynamic faculty-led trips and experiential service-learning program. Trips take students to regions throughout Italy every fall, and to destinations throughout Europe and the Mediterranean Basin every spring. Paired with summer service-learning experiences in Rwanda, Senegal, and Sri Lanka, students

benefit by gaining new insights and develop a global mindset balanced with compassion and consideration for others.

Signature Programs

Through the St. Stephen's Lyceum, students benefit from enriched classics courses and collaborations with prestigious institutions. Students may elect to take Classical Greek & Roman Studies in the IB Diploma Programme. Our classical studies courses build on the past and unite with the world of technology and globalization.

iLabs

Students enhance their technology skills in the iLab as they learn to design, program, build, and compete in robotics using EV3 Lego Mindstorm or Tetrax Java-based robots. Artists use Wacom tablets to design in 2D and digitally cut and assemble various products and models. Students explore 3D design via Google Sketchup, AutoDesk's Fusion 360 or Inventor programs, as well as Unity, widely used for creating animations and augmented and virtual reality. Students can learn to create and program a myriad of problem-solving devices using Arduino, and a variety of drones, photographic and video equipment, and small robots such as Sphero are available to explore and program. Students can explore virtual reality experiences and learn to make their own Virtual and Augmented Reality applications, and with Cozmo programmable robots, IBM Watson they construct chatbots and learn about creating and using Artificial Intelligence.

Molecular Genetics

St. Stephen's offers science students an advanced molecular genetics program. Developed in partnership with the European Molecular Biology Labs, Europe's flagship

laboratory for Life Sciences, this collaboration allows students to develop inquiry-based lab skills and participate in university-level research with state-of-the-art equipment so they may expand and deepen their scientific literacy and competencies.

Five Core Values Anchor Our Community

A strong commitment to our core values of care, integrity, scholarship, independence, and creativity defines us and provides an essential foundation for building character. Students feel supported and free to achieve their personal best.

St. Peter's International school is a private school which will celebrate its 30th Anniversary in 2023. It provides a competitive, high-quality education from nursery to secondary school (4 months to 18 years old), ensuring students have access to the best opportunities and support to achieve their full academic and personal potential. St. Peter's mission is to build self-reliant, critical and creative students. As an authorised IB World School in Portugal, we offer the IB Diploma Programme in Grades 11 and 12.

St. Peter's International School provides a unique education model with a humanistic approach, adapted to each age group, where languages, sports, arts and technology are key elements in students' daily lives. From Kindergarten to Junior School, we offer a personalised bilingual curriculum, and the option of the national Portuguese or the International curriculum (Cambridge Lower Secondary, IGCSE and IB Diploma Programme) from Grade 7 onwards. Academic excellence is guaranteed in both curricula: St. Peter's is a well-established school with proven outstanding academic results in both the national and the international exams, ensuring access to top tier universities in Portugal and abroad.

Located only 30 minutes from Lisbon city centre, St. Peter's extensive 37,000 m² campus has outstanding facilities for academics, arts and sports, including 3 football fields, 1 rugby pitch and 2 tennis courts, as well as specialised areas, with science and IT labs, art rooms, and a fully equipped multimedia resource centre.

In addition, St. Peter's is home to the first boarding school in the area, an extension of our commitment to excellence, where students can develop life skills while nurturing life-long friendships. Now, families living abroad can guarantee their children have access to an international, individualised education in a safe environment and location. Being an on-campus boarding residence, surrounded by the mountains and the sea, students can benefit from a wide range of extracurricular and enrichment activities both during the week and at weekends.

Finally, as an Inspired Education Group school, St. Peter's offers a range of opportunities to students, who have access to world's best practices in education, outstanding arts and sports programmes, state of the art facilities, and unique Exchange Programmes.

Preserving values, taking responsibility, shaping the future – Louisenlund, the only IB boarding school in northern Germany, impresses with its beautiful surroundings, a thoroughly international character and education of the highest quality. Located on the Schlei, the school is committed to forming open-minded and responsible citizens.

Louisenlund seeks to develop personalities and promote talents. Practical, proactive and experiential learning enables students to actively acquire and develop knowledge and achieve their individual educational objectives. Students become main actors in their own learning process and learn to be accountable for their own academic process. Each student is accompanied by a faculty mentor, who acts as an academic advisor, helping students to reach their full potential. Committed to the IB Learner Profile, Louisenlund aims for students' best academic performance, fosters a sense of community, companionship and consideration for others, and a willingness to take responsibility.

Since its establishment in 1949, Stiftung Louisenlund stands for a first-class education with high standards for academic achievement and character development. Louisenlund offers young people the opportunity to choose between the German Abitur and the International Baccalaureate (IB) Diploma, two widely recognised

qualifications. In addition, Louisenlund offers the IB Middle Years Programme (MYP) with two grades, Year 4 and Year 5 (candidate school for the MYP). The MYP is the optimal preparatory programme for students who wish to pursue the IB Diploma, improve their English language skills and expand their horizons. 480 students, including about 60 from abroad, currently attend the half-day primary school and the grammar school 'Gymnasium' (German secondary school) or the IB Diploma Programme. Nearly 310 students are residents of our boarding community, which impresses with its relaxed and familial atmosphere. Because of the large number of Anglophone teachers, various native speakers teach their own language (English, Spanish and Chinese) and our membership in the esteemed Round Square network, Louisenlund enjoys an excellent reputation worldwide.

Another important feature is the exceptionally good relationship between students and staff, which results from the small learning groups. Particular talents and interests can be specifically fostered.

Besides the educational opportunities and the broad range of extracurricular activities, life at Louisenlund is a time to remember for other reasons: local and international projects, linguistic and cultural diversity on campus, lifelong friendships and the exceptional team spirit of our community.

Stonyhurst is the UK’s leading co-educational Catholic boarding and day school for 3-18 year olds. Inspired by the beautiful Stonyhurst estate and the heritage of the world’s oldest continuous Jesuit school, our pupils pursue academic excellence alongside spiritual and emotional growth and learn to embody their school motto: “*Quant Je Puis*”, meaning “*As Much As I Can*”, in every activity. The IB mission reflects Stonyhurst’s Jesuit mission and identity, in that both organisations seek to develop the whole person – intellectually, physically and emotionally.

Pupils come from the UK and around the world to experience an IB education at Stonyhurst. We offer an extremely full and enriching educational experience and our pupils flourish in a safe, happy, ordered environment and vibrant, close-knit community. Thoughtful, age-appropriate pastoral care encourages all pupils, whether day, weekly boarders or full boarders, to become increasingly self-reliant and considerate global citizens.

Since its introduction in 2013, we have found our IB offering has grown rapidly in popularity at Stonyhurst, and our year 12 IB intake now comprises just under 40% of total admissions into our sixth form. Our academic results for the IB Diploma bear testimony to the hard work and dedication of both highly qualified staff and motivated pupils. Our 2022

average points score in the Diploma was 34.4 and over a third of pupils achieved more than 36 points. The top points score was 42, a feat achieved by less than 4% of pupils worldwide. Our IB pupils consistently perform above the world average and have gone onto prestigious universities in the UK and beyond, in a wide variety of challenging subjects, such as law, economics, medicine and engineering.

We also offer the IB Career-Related Programme with a sport or business career related pathway. With exceptional sports facilities, pupils who take on the IBCP sport related option can expect to study in one of the best environments in the country. This includes a brand new state of the art gym, an exciting outdoor pursuits programme, as well as the recent installation of LTA standard indoor tennis courts. Our global alumni network, as well as strong links with the local business community, can provide unique opportunities for our IBCP business pupils. Of course, these experiences are available for all pupils at Stonyhurst, where they benefit from a huge range of co-curricular options with over 75 clubs and societies running each year.

An IB education at Stonyhurst provides an exceptional foundation for any young person, and we look forward to being a part of your future.

‘Family is the cornerstone of our school.’

We believe that there is no such thing as an unsuccessful student. Our programme is based on this philosophy. We endeavour to develop not only the confidence and skills of our children, but to help them realize their maximum potential through balanced personal and interpersonal development. The positive environment is reinforced by the limited presence of externally imposed discipline – students are not punished, and bells are not rung. We focus on facilitating the knowledge, as well as the behaviour, attitudes and skills that will help our children become successful adults, whatever challenges they choose to undertake in the future.

We are committed to the responsibility and privilege of educating and nurturing inquirers and critical thinkers. Our goal is to become internationally recognised for our active participation in enriching the qualities of our countries’

human resource, and thereby improving the world we live in, and the cultural patrimony of future generations.

Towards this end we energetically pursue a course of study that holds the essential elements of the PYP (Action, Attitudes, Concepts, Knowledge and Skills) at its heart, and not only for our students. We embrace the continuing education of our parents as well by offering them a range of studies, and symposiums designed to stimulate and continue their personal development. We regularly reach out to our alumni and encourage them to maintain contact as role models and examples. Throughout the year our students participate in charity and fundraising events to support communities both locally and nationally.

The TAS School family; our parents, teachers, students, and support staff look forward to the challenges of the future. We embrace the diversity of our community and plan for our successes carefully and consciously.

TASIS The American School in England provides a truly international learning experience for day and boarding students aged 3 to 18. Our caring teachers are committed to providing the balance of academic challenge and support that will enable our students to realize their full potential and contribute to their community as they discover their passion and follow their own pathway.

- International Baccalaureate (IB) Diploma Programme
- American curriculum leading to an American High School Diploma
- Advanced Placement (AP) courses
- Average class size of 10-12 students
- Individualized four-year university counseling
- Excellent university placement in the UK, US & worldwide
- 60 nationalities & 30 languages spoken on campus
- 45 minutes from central London
- 20 minutes from Heathrow Airport

Set in the beautiful Surrey countryside, our spacious 46-acre campus is close enough to London to take advantage of

all the culture and excitement it offers for field trips and weekend activities. The TASIS boarding program provides a safe and welcoming home-away-from-home for students aged 13 to 18 (Grades 8-12).

In Upper School, our impressive academic offerings include Advanced Placement courses developed by the American College Board and the IB Diploma Programme. Both provide well-defined pathways to universities in the US, the UK, or anywhere in the world. A broad range of co-curricular, leadership, and service opportunities round out our students' educational experience.

TASIS England also offers an award-winning residential Summer Program for ages 11-17. Our program attracts bright and adventurous students from around the world who take one major academic course and one elective, complemented by sports, activities, and weekend excursions. We offer two three-week sessions starting in late June and ending in early August.

www.tasis.ch

Founded by M. Crist Fleming in 1956, TASIS is a day and boarding international school committed to creating global citizens through education, travel, and service.

The oldest American boarding school in Europe, TASIS now welcomes 755 students from 60 nations in grades Pre-Kindergarten (beginning at age three) through Postgraduate each year. More than 260 students between ages 12-19 reside in dormitories on campus.

High School students can choose from individual Advanced Placement courses or pursue the International Baccalaureate (IB) Diploma, helping them receive offers from more than 400 universities in 20 different nations over the past five years. The School offers an extensive Fine Arts program that includes courses in Drama, Music, and the Visual Arts, enabling aspiring artists of any ilk to find their creative voice and nurture their talent.

Accredited by the European Council of International Schools (ECIS) and the New England Association of Schools and Colleges (NEASC), TASIS is proud to employ gifted, passionate educators who encourage intellectual curiosity. Nearly 80 percent of the High School faculty hold advanced degrees.

The campus includes more than 25 buildings dating from the 17th century Villa De Nobili to the state-of-the-art Campo Science Center. Perched on a hillside in sunny southern Switzerland with commanding views of snow-capped mountains, palm trees, and Lake Lugano, the School's

envious location makes possible an impressive Academic Travel program that brings students face-to-face with the rich cultural heritage of Europe and the spectacular natural beauty of the Alps and beyond.

The School's pioneering Global Service Program transforms lives by providing every High School student with a unique opportunity to connect across borders – whether geographic, economic, or social – through comprehensive experiences that build empathy and encourage personal responsibility. The Program awakens students to humanitarian needs, inspires them to build enduring relationships, and leads them toward a life of active service and committed service.

TASIS encourages physical fitness and healthy lifestyles. Varsity sports teams compete throughout Switzerland and Europe, and a variety of other fitness activities are offered to cater to all interests. Each year also brings many opportunities to ski and explore the breathtaking Alps. Students leave TASIS with a heightened appreciation for the outdoors and an understanding of what it takes to succeed in challenging environments.

Each summer, hundreds of students aged 4–17 journey to Lugano for the TASIS Summer Programs, which feature intensive academic courses, an unparalleled performing arts program, thrilling outdoor adventures, advanced sports training, and exciting cultural excursions around Europe.

“At Taunton School, the IB becomes your second family. Because the classes are so small and you spend so much time together, you become close with people from all over the world, and you gain an insight into different cultures and beliefs that A Levels just don’t offer.”

“After being offered the IB Scholarship at Taunton School, it has opened many doors and opportunities for me to prosper in a fantastic educational environment. Taunton School offered great facilities which supported and strengthened my studies in my subjects.” **IB students at Taunton School**

At Taunton School, we have been offering the IB Diploma since becoming an IB World School in 2007. During that time over 300 students have obtained the diploma and its popularity continues to grow.

IB students do consistently well at Taunton School, achieving high scores equivalent to 5 A Levels and often obtaining places at their first-choice university, whether it’s in the UK or overseas. Many students achieve top points and go onto study medicine at highly competitive universities.

In 2022, students achieved a 100% pass rate with an average of 34 points, exceeding the world average by almost two full points. The previous year, seven students scored 40 or more points including one student who achieved the maximum 45 points.

Aside from lessons, everything else is done with the rest of the Sixth Form, such as sport, drama, music, social events, houses and tutor groups.

Adrian Roberts, IB Coordinator at Taunton School says: *“IB is going from strength to strength at Taunton School and our students consistently impress me with their willingness to aim high and extend themselves beyond the confines of a ‘normal’ Sixth Form curriculum.”*

We are a leading independent school for boys and girls aged 0 to 18 years situated on a beautiful 56 acre campus in the picturesque county of Somerset, in South West England.

Our aim is to challenge, nurture and inspire young people to succeed in a global community.

We offer an IB Scholarship of up to 100% of fees. Contact us to find out more: www.tauntonschool.co.uk/scholarship-awards/

Described as ‘much more than a school’, The Abbey is a place where academic excellence becomes a natural process of growth and curiosity at every stage of the journey, from the age of 3 to 18. We are a school that celebrates success in all its forms, and every girl is encouraged to explore her own unique strengths and discover her passions through a vast choice of opportunities – both inside and outside the classroom.

As an International Baccalaureate school, our internationally-minded ethos means that we collaborate across divides and strive to provide a real-world education that prepares students to step out into an uncertain world with confidence, empathy, and at ease with those from all cultures.

Our pioneering methods put the ‘why’ back at the heart of learning and our holistic approach places equal emphasis on academic achievement, intellectual agility and emotional wellbeing. The results of this more organic, relaxed approach

to learning, speak for themselves. The Abbey is consistently one of the top performing schools academically – not only in the UK, but globally. In 2022, our students who studied the IB Programme, achieved an average of 40 points, compared to the global average of 30, placing the School firmly in the top tier of IB Schools in the World.

The Abbey’s town centre location places us at the heart of a vibrant community, whilst our extensive coach network helps provide accessibility from locations across Oxfordshire and Berkshire for both Junior and Senior girls.

A range of scholarships are available, as well as financial assistance offered through means-tested bursaries. Above all, The Abbey is passionate about creating a learning experience that is joyful and meaningful. Our self-regulating culture helps us all to look after each other, and our inspiring teachers are dedicated to fostering a special relationship with each and every individual.

The Academy International School, established in 1985, has long been recognised as a centre of excellent academic achievement, where the whole school community shares the joy of learning. We are also proud to be the first International British School to bring the International Baccalaureate Diploma Programme to Mallorca.

In a beautiful setting in the Mallorcan countryside students enquire, discover, analyse and evaluate. They are creative, innovative and proud to be part of this school community. The Academy teaching team accompanies the students on a wonderful learning journey from our Nursery classrooms all the way through to IBDP.

Academy students are encouraged, supported and challenged. They are offered a broad and balanced curriculum, delivered by motivated and creative teachers, to ensure that learning is effective and promotes a lifelong passion for education. The Academy International School

prepares students to compete in a rapidly changing international marketplace where academic content is important, but is no longer enough.

In today's evolving global society, inquiry, critical thinking, and international mindedness are essential skill sets that students must have to determine their success as a leader and in the workforce. The Academy International School offers students multiple ways to develop and demonstrate what they know and understand. Students complete collaborative projects, oral presentations, essay writing, inquiry-based experiments, and take part in discussion and debate that mirror what they will experience in the challenging fields they hope to enter after university.

The Academy students see how our school connects with the world at large through community projects and activities locally, nationally and internationally.

Our goal is to help students achieve their dreams.

About Aga Khan Academy, Nairobi

Established in 1970, the Aga Khan Academy, Nairobi is a private, co-educational school located in the Parklands suburb of Nairobi, Kenya. The Aga Khan Nursery School is located on a separate campus on Kipande Road, at the bottom of Museum Hill in Nairobi.

Together, our schools have an enrolment of over 1,000 students and are authorised to offer the International Baccalaureate Primary Years Programme, Middle Years Programme and Diploma Programme.

Mission statement

Enable many generations of students to acquire both the knowledge and the essential spiritual wisdom needed to balance that knowledge and enable their lives to attain the highest fulfilment.

School Overview

The Aga Khan Academy is one of few schools in Kenya offering International Baccalaureate Programmes, and is one of the two schools in Kenya authorized to offer the IB continuum – the Early Years Programme (EYP), the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP).

The Aga Khan Academy, in keeping with the IB philosophy, ‘touches hearts as well as minds’. Our students not only learn to be knowledgeable, open-minded thinkers, inquirers, principled, risk takers, well-balanced, and caring but also to

be leaders and stewards.

Examination results

The Aga Khan Academy provides an outstanding academic education and enables students to fulfil their potential. Although the Aga Khan Nursery School does not have a grading system, it typically holds an annual graduation and exhibition celebrating the completion of the Early Years PYP.

Curriculum offered

The IB curriculum enables students to learn using a transdisciplinary and an interdisciplinary approach and to develop critical thinking, creativity and internationalmindedness – identified by leading educators globally as some of the necessary skills for the 21st Century learning. Our curriculum combines academic excellence with athletics and visual performing arts programmes.

Admission

Admission is based primarily on merit determined by a wide range of criteria, including academic strengths and overall potential.

Examinations offered

MYP eAssessment, IB Diploma Programme (IB DP) Facilities ICT resource centres, STEAM, Robotics Lab in junior school, film studio, music rooms, art rooms, science labs, well-resourced libraries, heated pool, wireless connectivity, data projectors in classrooms, a makerspace for the junior school and a well-resourced SEN and Guidance & Counselling room.

The British School of Milan, founded in 1969, is rated among the top 5 IB schools in Europe, No.1 in Italy, and top 50 in the world. The BSM is the only school in Milan passing all the standards set by UK Government Inspectors (ISI).

The BSM is a not-for-profit school which provides world-class education to 750 students aged 3 to 18 from over 40 different nationalities. The school values cultural diversity and offers a rich international experience while rigorously following the UK National Curriculum.

Academic results are outstanding and students progress to top universities around the globe. In the last few years they have gained places at Oxford, Cambridge, Yale, LSE, Imperial, University College London, The University of Edinburgh, Trinity College Dublin, Università Bocconi, University of British Columbia, Sciences-Po and many other leading universities.

There is a strong emphasis on co-curricular activities with over 100 options available. The school is particularly proud of its exceptional music, art and drama departments. In addition, BSM acts as the Italian centre for the UK-based ABRSM, the exam board of the Royal Schools of Music. The school nourishes a strong tradition of community service, with a scholarship and bursary fund recently inaugurated and its involvement in the International Duke of Edinburgh's Award Scheme.

The BSM is situated just outside the centre of Milan, close to the metro and on several bus routes. Linate airport and the popular Milano 2 residences are just minutes from the school.

Admission applications are accepted throughout the year.

The English School of Kyrenia (ESK) is a purpose-built modern IB World School offering exciting opportunities for academic excellence and personal development for boys and girls aged 2 to 18. An enviable and spacious learning environment, the campus is set in the inspiring surroundings of the Kyrenia foothills, overlooking the Mediterranean to the front and the Kyrenia mountains to the rear.

The Little Learners building is a welcoming, calming and nurturing environment for our Pre-Nursery students. Designed with soft, earth inspired tones, students thrive in the fundamental stage of their development along with support from our professional and qualified teachers. Our Nursery – Year 2 students are located in the eco-friendly Early Years building. The unique building aims to generate its own electricity requirements and seeks to provide all ESK students with a living example of green sustainability.

For the current 2020-2021 academic year, ESK has 900 students drawn from both international and local backgrounds. The sections of the school are Little Learners (Pre-Nursery), Early Years (Nursery – Year 2), Primary (Year 1 – Year 6), and Secondary (Year 7 – Year 13). All classes are taught in English, with an addition of Turkish as a second language, and an option of Mandarin, Russian, French, or Spanish. The Early Years follow the UK's EYFS (Updated) curriculum and the Primary School follows the Cambridge International Primary Programme (CIPP).

In the Secondary School the widely respected IGCSE, A-Level and International Baccalaureate (IB) Diploma Programme give students the opportunity to develop an international perspective and attend the world's top universities. Over 88% of graduates attend University in the UK, and 10% in the EU or North America. Graduates have attended prestigious universities such as The University of Cambridge, Imperial College, UCL, LSE, University of Edinburgh, Parson's School of Design and Leiden University, to name a few.

Today's students are tomorrow's leaders and decision makers: we afford every opportunity for our boys and girls to reach their personal and academic potential whilst nurturing their curiosity and encouraging individuality and creative thought. IBDP Subjects available:

- Group 1: English Language & Literature, Russian Language & Literature, Turkish Literature
- Group 2: English B, Spanish ab initio, French
- Group 3: Geography, History, Business and Management, Psychology, Economics
- Group 4: Biology, Chemistry, Physics, Computer Science
- Group 5: Mathematics Analysis and Approaches, Mathematics Interpretation and Application
- Group 6: Visual Arts, Music, Theatre Arts or one other subject taken from groups 3-4 above

Welcome to École Ruban Vert – International School of Gabon.

Vision

To provide a legacy in education which promotes qualities of open-mindedness, tolerance and respect for others, which will provide a best practice model for the future of students from all nations in Gabon.

Mission

To become Africa's most enterprising school, focusing on sustainability and innovation to play a significant role in Gabon's and in Africa's education.

École Ruban Vert (ERV), offers a unique blend of bilingual, internationally focused education accredited by the Council of International Schools (CIS). ERV is an IB World School, offering Early Years, IBPYP, International GCSE, and the IBDP, with exceptional examination results.

Our students secure outstanding results in external examinations. The IBDP Pass Rate has been 100% for three years running, the pass rate for the Bilingual IBDP is also 100%, and in 2021 our highest scoring student achieved 42 points. Students have the opportunity to sit the EdEXCEL International GCSEs, where again the pass rate is 100%, and 2021 30% of students gained the highest grade, 9.

ERV students are recognised for their capacity to lead, innovate, serve, to respect resources and the environment, and for their commitment to making a significant impact on their school and their communities. Our world-class, green campus serves as the backdrop for an educational establishment that aims to facilitate radical thinking and achieve high standards of education. ERV is a forward thinking school whose aim is to enable students to learn to manage the future in a creative and sustainable way.

A programme of scholarships enables local Gabonese students accessibility to top-class education alongside children from diverse national and international backgrounds.

Our campus is a microscopic example of Gabon itself with every tree and shrub of Gabon planted within the campus. We believe it is one of the most beautiful in Africa with streams, bridges, green play areas and wildlife in abundance. Outstanding facilities include an auditorium, computer suites, gymnasium, library, music performance spaces, science labs and international sports stadium. We offer musical instrument tuition, Royal College of Music Examinations, yoga, ballet, the Duke of Edinburgh Award, and our Tennis Academy is the best in Libreville. ERV hosts the Moabi Festival, a celebration of local culture and the Gabon International Open Tennis Tournament.

At The International School of The Hague (ISH) we provide high quality international education for children ages 4 – 18. Our concept-based inquiry approach to learning is at the centre of everything we do in the classroom and through our extensive co-curricular programmes, engaging students to be curious, connected and compassionate global citizens of the future.

ISH students benefit not only from a well-established IB Middle Years Programme (MYP), and Diploma Programme (DP), both with consistently excellent results, but also a Careers Related Programme (CP) for students with a more entrepreneurial spirit because we know different career paths demand different approaches. As part of this commitment to offering different ways to learn, our innovative Pathfinder programme enables students to co-construct parts of their curriculum together with their teachers. They decide what they want to learn, and how they want to learn, an approach that is producing inspiring results. All of these paths provide an excellent route to university and other journeys beyond ISH.

With a uniquely diverse community of over 100 nationalities, we embrace and nurture all home languages, something that enriches the lives of our students and the

lives of everyone around them. ISH has a naturally global outlook and students actively engage in the issues that face the planet today. For example, every year our Year 10 to Year 13 students have the opportunity to take part in one of the oldest, and largest, secondary school Model United Nations conferences (MUNISH) in the world, attracting over 1200 students from all around the globe. This amazing opportunity is led by the students of today for the students of tomorrow – a weekend filled with lively debate and policy-making.

Being an international school in the Dutch context means students at ISH also benefit from all the advantages of being situated in The Netherlands. Empowered by a cycling culture and infrastructure unrivalled in the world, children are free from a young age to meet friends, explore the city and take advantage of the impressive array of leisure opportunities available. Furthermore, the schools' location in an area of natural beauty, close to the beach, in the City of Peace and Justice all contribute to children feeling at home in a country that facilitates life for those who don't speak Dutch. Perhaps it's unsurprising that children in The Netherlands are consistently ranked by UNESCO as among the happiest in the world.

The KAUST School (TKS) proudly serves a thriving multicultural University community, with an enrollment of approximately 1,800 students from more than 75 nations. As an International Baccalaureate World School authorized in three programs: Primary Years, Middle Years and the Diploma Programme, we share a common philosophy and a commitment to high quality, challenging international education for children from K1 through to Grade 12. TKS is accredited by the Council of International Schools (CIS) and the Middle States Association (MSA).

Our Resources

The school is uniquely located within the university campus of King Abdullah University of Science and Technology (KAUST), a destination of choice for world-class scientific and technological graduate education and research, north of Jeddah on the shores of the Red Sea.

The School is purpose built with a design that supports a balanced curriculum. The Gardens Campus which houses the Elementary and Secondary School, has technology equipped classrooms, science laboratories, a design and technology hub, two library media centers, two indoor gymnasiums, two performance theatres, outdoor basketball and tennis courts, an outdoor swimming pool and soccer pitch. The Kindergarten Campus is filled with natural light, color and materials that stimulate learning. The buildings include activity rooms, two libraries and several specialized rooms for Art, Music, Arabic and Islamic studies.

The School offers a state-of-the-art technology environment that incorporates a broad spectrum of educational solutions while maintaining a 1:1 Apple computing environment.

Our People

Our students are the children of KAUST academic and professional staff, TKS staff, graduate students and University partners.

TKS Staff consists of over 350 teachers, specialist support staff and administrators from across the globe, with over 70% having advanced degrees and the majority with previous international school experience.

The school maintains classroom ratios of one teacher to 15 students in early childhood; to 18 students in Elementary; and to 22 students in Secondary.

Our IB Diploma Curriculum

TKS offers a co-educational IB academic program in English. Targeted support is provided for students with instructional needs, including intensive English language support, as required. Arabic and French are offered as a first language to native speakers in secondary and Spanish, French and Arabic as an additional language (acquisition).

Co-curricular Activities

With the benefit of being located on a university campus and enclosed community, TKS utilizes all university and community facilities enriching the co-curricular programs.

Our Mission: We encourage and enable all of our students to realise their potential, fostering independence and maturity in order to prepare them for their future as Global Citizens.

Who is the International Baccalaureate Diploma Programme programme for?

Students wishing to experience an inspiring education with classmates from around the world. This is a qualification that challenges, encourages and inspires students to become caring, critical thinkers; ready for university study and globally-focused careers.

What will you achieve?

You will:

- Be able to progress to an international university;
- Possess desirable study skills, such as critical thinking, independent research and real-world context;
- Gain life skills, such as independence, confidence, good communication and international mindedness – all essential for university and your future career.

Key features of the IBDP:

- Study six subjects – Language and Literature, Language Acquisition, Individuals and Societies, Experimental Sciences, Mathematics and the Arts;
- The Theory of Knowledge asks you to reflect on the nature of knowledge and on how we know what we claim

to know (epistemology). It is assessed through an oral presentation and a 1,600-word essay;

- An Extended Essay prepares you for the study skills required at university;
- Creativity, Activity, Service comprises Arts and other experiences that involve creative thinking; physical exertion contributing to a healthy lifestyle, which improves and complements your academic studies; and an unpaid and voluntary exchange that has a learning benefit;
- Additionally, throughout your course, you will be supported by career counselling via our Key Professions Programme and academic-skills workshops.

Our success rate

In 2021 our International Baccalaureate students received brilliant exam results. Their average total diploma score was 37 compared with 33 as the average global diploma score. Top-scoring students achieved 42 points, while only 5.8% of students globally achieved 42 or above in 2020.

We are especially proud that 94% of grades achieved were 5-7, which brings us to a 100% success rate on the Diploma Programme for the fifth consecutive year. The global pass rate for 2021 was 89%.

A member of Taaleem, Uptown International School, located in the heart of Mirdif since 2005, is a highly reputed and certified International Baccalaureate (IB) World School for the Primary Years Programme (PYP), the Middle Years Programme (MYP) and Diploma Programme (DP). Dedicated to nurturing the development in all aspects of education and personal growth. Our mission is to encourage curiosity and enthusiasm, creativity and independence, and compassion and communication through an exciting, rich and engaging learning experience.

Vision and Mission

A school for the whole of our international community, that delivers a World class education and achieves excellent student outcomes, by all measures, for all our students, in line with UAE National Agenda. Our Missions is to use education to make the world a better place to be, at the individual, community and global level.

KHDA Rating: “Very Good” with “Outstanding” features.

Our Facilities

Our facilities are spread over 14 acres of landscaped grounds and were designed to ensure that our students have the best environment to support their learning and development including a 25-metre swimming pool, a multi-purpose Sports Field, DT studios, a Food Technology lab and more.

Our Teachers

Our teachers are highly qualified educators with vast experience in IB and education. All our teachers are trained IB practitioners, with many being IB workshop trainers and IB site visitors.

Student body

Co-educational, ages 6 months to 18 years, over 80 different nationalities.

Extra-Curricular Activities

Our students have access to over 150 activities that fall under sports, arts, academic interests, and various enrichment programmes. Examples include: Model United Nations, TEDx Youth, Choir, Dance, Football, Gymnastics, Rugby, World Scholars Debate, Chess Club, French DELF, Emirates Literature Club, Lego Robotics and Coding and more.

Uptown International School (UIS) also offers a broad range of educational visits and excursions, which are a vital part of supporting our students’ unit of inquiries. UIS is part of Taaleem, the United Arab Emirates’ second largest school provider for early years, primary and secondary schools founded in 2005.

UWC Adriatic is set in the seaside village of Duino, in north-east Italy, in an area strongly influenced by political and ethnic divisions during the two World Wars and just a few kilometers away from where the Iron Curtain once divided Western Europe from the communist bloc during the Cold War. By entering this arena of ethnic and historical complexity, UWC Adriatic has embraced an educational role of highly-charged political meaning and stepped into a world of extraordinary cultural diversity.

Since 1982 UWC Adriatic offers a genuinely holistic education, delivered to its 180 students from more than 80 countries across five strands of the College’s educational experience, which include the academic programme (IBDP); service-based learning; ecological and outdoor education; engagement in physical and cultural activities as well as social and emotional learning.

UWC Adriatic is also known among the UWC movement as “the musical college”. This dimension of the students’ educational experience has been further enhanced in the 2022-23 academic year by the appointment of a new position – that of a Director of Performing Arts. With regard to the

CAS component of the IB programme, a particular emphasis is placed on the “service” element, with students involved in volunteering activities in the local area (Duino, Trieste and Monfalcone). The UWC educational model prioritises student initiative, so new student-led CAS activities are also encouraged.

UWC Adriatic also capitalises its seaside setting on Trieste’s karst highlands nearby the Alps to offer its students a host of related outdoor activities: sailing, kayaking, climbing, hiking and cross-country skiing.

The College has eight student residences, an academic building, a science laboratory and an Art Centre scattered across the village of Duino. Every residence is manned by one or more residence tutors. A fully equipped music academy is available, as well as sports facilities shared with local associations. The College also ensures that the medical staff are available round the clock, seven days a week.

Admissions

Students can apply through the UWC national committee in their home country or through the UWC Global Selection Programme.

Introduction

In addition to the highly recognized International Baccalaureate curriculum, UWC Maastricht is a multicultural school that hosts students from more than 100 different nationalities. The school operates within the Dutch public educational system and is subsidized by the Dutch government. It is formed to serve both the needs of the Maastricht international community and the students chosen by UWC national committees all over the world.

Inside the Classroom

At age 4, children can start their education at UWC Maastricht. The Primary Curriculum (until 11 year) is composed of a variety of subjects, at various levels of English language proficiency. After primary school UWC Maastricht offers the IB-Middle Years Programme (11-16 year-olds) in which students are encouraged to become critical and reflective thinkers. For 16-19 year-olds, UWCM applies the IB Diploma Programme Curriculum and the IB Career-related Programme. Alongside the IB standard courses, the school offers Dutch, Spanish, German, Italian, Arabic, World Arts and Cultures, Global Politics, Visual Arts, Film and Music.

Outside the Classroom

UWC Maastricht has designed a social impact programme including action-oriented courses, social entrepreneurship and community service projects. Students develop the skills and attitudes needed to be active participants in society,

to identify problems and injustices wherever they exist. They design a local Project Week providing service to the Maastricht community, they organise and lead conferences and they learn to engage critically with the world around them. Because students come from all over the world and from many different backgrounds, there are always unique insights and interesting discussions going on.

Campus and Facilities

UWCM campus is located in a very green and leafy part of Maastricht, close to the city centre. The site is surrounded by sports fields, a nature reserve and modern housing. DP and CP students live on residences across three buildings consisting of three floors, each comprised of six rooms. Every room hosts four students, of different nationalities, so it is a lively setting. Each floor has a common room, study room, laundry room and kitchenette and is supported by a Residence Mentor who lives in an apartment adjacent to the floors.

Admission

Day student applications for Primary and Secondary must meet the requirements of the Dutch Law on International Education. Residential IB Diploma Programme and Career-related Programme students are recruited through UWC's National Committee system (NC) or through the UWC Global Selection Programme. More info and applications via uwcmaastricht.nl.

Villiers School is one of only four schools in Ireland offering the IB Diploma Programme, and is the only boarding school in Ireland offering students the choice between Irish Leaving Certificate curriculum and an international alternative, the IBDP. Villiers believes in a shared IB Schools philosophy: a commitment to high quality, challenging, international education for all its students.

Academic excellence is a process of both formal and informal education, which traverses all programmes at Villiers School. It is intended that Villiers students will see education, in its wider context, as a limitless and unending process to be enjoyed for a lifetime. The DP at Villiers is proud to have a 100% graduation rate, and our average DP results are consistent with global IB average results. Recent DP Graduates have taken up university places in a variety of fields of study, in Ireland, the UK, Germany, Spain, Poland, Belgium and Malta.

Villiers School is fortunate to have growing numbers of students joining our DP class from a variety of cultures, backgrounds, and experiences, all of which adds to the intrinsic diversity that we value within our school community. Villiers School strives to foster a safe and inclusive culture

with equality at its heart so that diversity can flourish. We embrace our diversity as a strength, and we work with sincerity to enable all in our community to grow and flourish equally. International mindedness is embedded within our school, and we currently have more than forty nationalities represented in the school. This growth has allowed us to continue to expand our diploma programme offerings, with new subjects being added each year.

Management and staff at Villiers School embrace and maintain the traditional values of the school, which has more than 200 years of history, and balance them with modern, state of the art educational facilities, developing an environment that engenders growth on an academic, cultural, and social level. Villiers offers both day and boarding options. We are home to approximately 165 boarders, and 435 day students.

The essence of Villiers is our inclusive family-based community. We are wholeheartedly committed to providing a safe, caring, welcoming and friendly atmosphere. Villiers is an environment where both individuality and community mindedness can flourish, and every student can achieve their full potential.

Founded in 1975 as one of the first linguistic high schools in Italy, the Vittoria International School Torino offers bilingual education for children and young adults starting from elementary school and continuing through to the IB diploma. Located in the heart of Turin's city center, the school ensures a modern and innovative learning environment for students of all ages and nationalities.

Since the very beginning, we have leveraged the best of tradition and innovation both in the choice of educational pathways and teaching methods. Fully certified by the Italian Ministry of Education, the school offers bilingual primary and secondary programs in addition to traditional Italian and international, English-language high school programs.

We have been an authorized IB World School since 2008. We offer the IBDP grades 11 and 12. The Italian Government recognizes our DP as equivalent to the Italian Maturità Linguistico or Scientifico, depending on the track chosen by each candidate.

We have been a Cambridge Upper Secondary School IGCSE (grades 9 and 10) since 2010. We have welcomed students at all phases of their education beginning in the Primary years and Lower Secondary since September 2018.

Our curriculum is constantly growing and adapting to the individual needs of our students. The final scores and completion rates of our students are consistently above the international average. We provide professional, personalized career and university guidance, and many of our students go on to study at world-class universities around the globe. Our students are supported in their pursuit of excellence in extracurricular activities, and many have been rewarded nationally and internationally in sports and the arts.

A low student-teacher classroom ratio allows for individual attention as part of a socially and academically rich formative experience. Our door is always open to parents and students who have ideas to propose or concerns to express, and we use a centralized, password-protected system to keep parents and students updated on all school activities.

Our teachers are all university graduates; IB and Cambridge trained. They are passionate about their subjects and dedicated to their students.

A vibrant discussion of global issues begins in our classrooms and extends into CAS projects. Students experience world issues as they play out in our local community and abroad. We have an ongoing relationship important international organizations located in Turin.

www.warminsterschool.org.uk

Warminster is a coeducational school of 551 students aged 2 to 18, located in the South-west of England. Founded in 1707, the school is a member of HMC and has been an authorized IB World School since December 2005.

Warminster School prides itself on its ability to combine a strong academic record and excellent facilities with a warm, friendly family ethos. A comprehensive pastoral care programme, centred around the role of the tutor, provides appropriate levels of support at all times.

Warminster School's students have consistently achieved excellent results, averaging 34 points in 2016, an average of 31 and a 100% pass rate in 2017, and an average of 30 in 2018. In 2019 the average was 29.9 and in 2020 the average was 30.3. 95% of our students go on to study at leading universities around the world, including Oxford and Cambridge, where the IB Diploma is particularly well received. Several individual candidates have secured exceptional IB results; the highest candidate points scored to date is an outstanding 44 points out of 45.

Warminster School welcomes students from over twenty-eight different countries into a community that celebrates its own diversity and encourages service to local, national and global societies. With a talented and enthusiastic staff

and a diverse range of subjects and activities on offer, pupils are able to develop their potential to the full. The wide range of co-curricular activities include music, drama, a comprehensive range of sports and opportunities to go on challenging international visits.

Experienced resident house staff provide a supportive environment for boarding students in comfortable, well equipped boarding houses. Recreational activities and trips are arranged each weekend. For medical care there is a school nursing sister on duty every day.

Subjects offered vary according to student demand but typically include: English A and B, German A, 'self-taught languages', French B, Spanish B and Ab Initio, History, Geography, Economics, Psychology, Environmental Systems, Biology, Physics, Chemistry, Maths, Theatre, and Visual Arts. Additional online courses are available in Film, Business Management, Philosophy, French and Mandarin ab initio. As well as offering the Diploma Programme, from September 2017 Warminster School has offered the IB Career-Related Programme, combining Diploma Programme subjects with vocational qualifications (OCR Cambridge Technicals at level 3) in Business, Engineering and Sport.

**Introduction**

Waterford Kamhlaba UWC of Southern Africa was founded in 1963 as a response to the separate and unequal educational systems in South Africa. When His Majesty King Sobhuza II visited the school, he gave it the name “Kamhlaba”, which meant both “of the world” and also that we are “of the earth” and without distinctions such as race. Differently to all the other schools, the academic year at runs from January to November.

Inside the Classroom

Waterford offers the Waterford curriculum in the junior school, the University of Cambridge International General Certificate of Secondary Education (IGCSE) program in the middle school and the International Baccalaureate Diploma Programme in the senior school. For the IBDP, alongside standard courses SiSwati, French, Spanish, Anthropology, Psychology, Business Management, Music, Theatre are offered.

Outside the Classroom

Waterford is an ambassador of UWC’s mission on the continent and having educated a large group of African changemakers since its inception. With the School having been the first multiracial school in Southern Africa; founded as a direct response to its system of apartheid, its history of embracing and celebrating diversity from across Africa

and beyond is something deeply ingrained into Waterford Kamhlaba’s nature and continues to be at the core of its values today. The School, through community service, has strong relations with local organizations such as the refugee camp and neighborhood care points (children welfare centres). A commitment to community service has been recognized as an essential part of the school’s policy, organisation and life. A regular commitment to a service project is required of IBDP and Form 5 students, and projects usually vary from involvement at the local hospital to work for the disabled. UWC WK offers a wide variety of sporting- and recreational activities run by both staff and students (e.g. kayaking, art clubs, etc.).

Campus and Facilities

Ekukhuleni residence accommodates up to 80 Form 1, 2 and 3 students. Esiveni accommodates up to 110 Form 4 and 5 students. Emhlabeni and Elangeni accommodate, respectively, up to 130 and 68 IBDP students, in either single rooms or shared rooms; consisting of separate wings for males and females. Each day there is one male and one female residence tutor on duty in each residence.

Admissions

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

Website

www.wellingtoncollege.org.uk

Wellington College is a vibrant, inspiring and challenging all-round coeducational boarding and day school set in 400 acres of parkland, 40 minutes from Heathrow. At present there are 600 boys and 500 girls, of whom 235 are day pupils.

The College seeks to provide young people with the knowledge, skills and character to serve and help shape a better world by focusing on its key values of Kindness, Courage, Respect, Integrity and Responsibility, values which underpin every aspect of life at Wellington.

Its international reputation in sports, arts, service, wellbeing and leadership, and its genuine commitment to an education that extends far beyond the classroom ensure that students leave school equipped for the challenges and opportunities of tomorrow's world.

Currently 240 pupils take the IB Diploma in the Sixth Form. 80% are from the UK and the rest are from a range of countries worldwide, which sets us apart from competitors who tend to have smaller programmes attracting only international pupils. In 2022, we had 125 Diploma students who achieved an incredible average of 41.3, with 75% scoring 40+ points and twelve achieving the perfect score of 45. Eighteen students went on to Oxbridge or Ivy League. Indeed, over 100 Wellingtonians have been offered places at Oxford or Cambridge over the past five years and 20-25 pupils move on to US universities each year, many to Ivy League institutions. The high academic expectations we have for our pupils are expressed through encouragement and support – nearly 40% of teachers have Masters or Doctorates and all are specialists.

Wellington College introduced the International Baccalaureate Diploma Programme in 2007. Its philosophy – of combining academic rigour with breadth and depth – is very much in sympathy with our own. We offer a wide range of subjects, at all levels, and we believe our support for the IB Core – the extended essay, theory of knowledge, and creativity, activity, service – is truly world class, combining as it does academic expertise with outstanding opportunities and resources. This is a school that actively promotes excellence without compromising the ideals embedded within the IB's learner profile.

Subjects offered in the IB Diploma Programme are all at both HL and SL unless stated:

Group 1: English literature, German literature, German language and literature, English literature and performance SL.

Group 2 Modern B (HL, SL and *ab initio*): German, Spanish, French, Mandarin. Group 2 Modern B (HL and SL): Italian, Russian.

Group 2 Classical: Greek, Latin.

Group 3: business and management, economics, history, philosophy, psychology, geography, global politics, environmental systems and societies SL, art history SL.

Group 4: biology, chemistry, computer science, design technology, physics, sports, exercise and health science, environmental systems and societies SL, astronomy SL.

Group 5: analysis and approaches, applications and interpretation.

Group 6: music, visual arts, theatre arts.

Wellspring Learning Community is the first IB Continuum World School in Lebanon and it is the realization of a belief that children of Lebanon deserve to study in a high quality learning environment that opens up space for developing their talents and intellectual potential, as well as their capacity for caring about the world around them. Wellspring is a non-sectarian community with no political affiliations. Depending on availability, enrolment is open throughout the year. We welcome inquiries and visits from interested families.

Authorization/Accreditations

Wellspring is authorized for the IB Diploma, Middle Years Programme, and Primary Years Programme, Council of International Schools (CIS), New England Association of Schools and Colleges (NEASC).

Vision and Mission

Wellspring is an inquiry-based learning environment where students are given every opportunity to realize their social, emotional and academic capacities. Teachers, students and parents work collaboratively in an atmosphere of mutual respect and trust by sharing a positive learning environment that builds on an ongoing process of selfassessment, evidence-based decision making, and

continual improvement. Our students will become confident, resourceful, creative, caring, responsible and thinking citizens, prepared to use their education to contribute in meaningful ways to improve society; locally and internationally.

Teachers

Our 155 faculty members are highly qualified and experienced teachers; many are native English speakers. In addition to being IB trained, some teachers hold additional positions within the IB Educator Network (IBEN).

Students

Wellspring has a large international population, with 56 countries represented across our two campuses, in addition to our local students who come from diverse backgrounds within Lebanon.

Facilities

We are proud to offer two campuses in the vibrant heart of Beirut. Both environments are attractive, technologically advanced, and continuously upgraded to keep pace with the demands of the educational program. Facilities include music and art rooms, science labs, computer labs, cafeteria (CCC), libraries, play areas and sports spaces.

www.windermereschool.co.uk

Nestled on a hillside within the Lake District National Park, a landscape that inspired writers such as Beatrix Potter and William Wordsworth, Windermere School enjoys one of the most picturesque views in the Lake District, and arguably, the best school view in the world.

Windermere is a leading independent day and boarding school for boys and girls aged 3 to 18. It is fully co-educational and consists of the Senior School (ages 11 to 18) and Junior School (ages 3 to 11). Windermere was named as the Sunday Times ‘International Baccalaureate School of the Year 2017-2018’.

A non-selective school, Windermere offers four pathways through Sixth Form with the IB which are designed to challenge, extend, motivate and inspire students. You can be confident that the path you choose will equip you with the results needed for success beyond the school gates, with a future full of possibilities.

Transcending pure academics, our guided Round Square Service programme will hone key transferable life skills and the strong self-awareness needed for you to step out into the world with confidence. As part of this holistic training, students take on responsibilities to enrich both their

experience as-well-as those of the wider school and local community while enhancing their employability portfolio. From organising house events, hosting clubs, adventurous expeditions, volunteering, and going on residential trips such as our annual trip to South Africa to support Thussanang Service project, there are a vast array of opportunities available.

The Sixth Form boarding house is designed to promote the successful transition between School and Higher Education. It is laid out in university style apartments with twin and single bedrooms, a bathroom, common room, and kitchen. There is also a large communal space for socialising in which numerous social events are held throughout the year.

The Good Schools Guide describes Windermere as “*a school which revels in a hearty approach to everything from academia to friendships*”. In the latest inspection report by the Independent Schools’ Inspectorate (February 2018), Windermere School received the highest grades for the quality of the education provided – recognised as ‘Excellent’ for both Academic and other achievements, and Personal Development.

**Who we are**

World International School of Torino is an International Baccalaureate® World School for the PYP (Primary Years Programme), the MYP (Middle Years Programme) and the DP (Diploma Programme).

WINS was founded in 2017 by the Formiga Family, with their 60 years of experience in international education.

Teachers and students from all over the world, programs of excellence and integrated use of technology are joined by numerous creative, artistic and sporting activities.

Campus and facilities

Our 16,000 square meters Campus is equipped with a swimming pool, indoor and outdoor sports fields, libraries, music, science and art labs, spacious classrooms and a boarding house for students living far from Turin.

The high-quality internal canteen, a rich program of extra-curricular activities and the shuttle bus are only some of the services you can find at WINS, offered to ensure a welcoming, safe and comfortable environment for the students and their families.

Boarding House

Our Boarding House is the first one in Piedmont. It is designed for WINS students aged 13 and above who want to live an amazing international learning experience.

Our Community

Our community is made up of more than 60% international families and our teachers come from many different nations.

The truly multicultural context of our school and the high standards of its academic programs nurture the intellectual growth of our students, helping them become open-minded, principled, and inquiring citizens of the world.

Our values and mission

WINS core values are to be found in the daily commitment of

teachers and each faculty member, who work together with families and students to ensure the proper differentiation and the fulfillment of students' potential.

Our mission is to create a safe and respectful learning environment to support children in the development of their individual talents by fostering critical thinking from an early age.

WINS Foundation

WINS Foundation pursues educational and cultural projects to lay the foundations for a better and sustainable society, made up of responsible, knowledgeable and international-minded citizens.

The Foundation has several courses of action: it provides money, goods or services to support people in need; it carries out projects in the fields of education, professional development and acts against educational poverty; it organizes cultural, artistic or recreational activities of social interest; it disseminates the culture of volunteering and organizes activities of educational guidance and prevention of early school leaving.

Accreditations

- AFEC: WINS is the first Athlete Friendly Education School in Italy, to support athletes in achieving their educational and athletic goals.
- CAMBRIDGE: WINS is a Cambridge English Exams Preparation Center and the only authorized Cambridge Assessment Admissions Testing Center within the Piedmont region.
- TRINITY: WINS is a registered Trinity College London® Examination Centre.
- KiVa: WINS implements the KiVa anti-bullying international program aimed at preventing bullying within the school.

At Yago School, we are transforming the educational-learning system in the South of Spain so that our students from 0 to 18 years can successfully confront many of the educational challenges of the 21st century, by offering the International Baccalaureate, Diploma Programme and the Primary Years Programme, along with the Spanish educational system and by using the English and Spanish languages as a communicative instrument inside and outside the classroom, with Chinese and French as part of its dynamic curriculum. Our unique curriculum is also accredited by WASC (Western Association of Schools and Colleges).

With over a decade in the educational field, we have grown to represent more than 33 nationalities. The Yago team strives to inspire, nurture and empower every student to achieve their personal best and become enquiring, knowledgeable, lifelong learners who create a better world through intercultural understanding and respect.

Our purpose is for students to develop their abilities and potential to the maximum, to build knowledge through projects, broaden their interests and their own experience using integrative, innovative and cooperative methodologies in traditional and technological environments so that they can succeed at universities and in their professional careers all over the world.

Yago School's principles have been built on five educational pillars: traditional values, bilingualism, sports, music and new technologies. Five bases that, combined with demanding academic training, provide our students with an extremely solid foundation promoting success in both their personal and professional lives. The use of technology is embedded in the curriculum for all students from the age of four. Music is performed at a wide range of events and students are prepared for examinations in theory, piano and singing with the Associated Board of the Royal Schools of Music. The outstanding sporting facilities, including sports pitches and a sports hall, provide many opportunities for students to compete in team and individual events.

The avant-garde architecture of its facilities, along with its privileged location in the "Aljarafe", just 15 minutes from the international airport and the high-speed AVE train station, all enhance the multitude of diverse and personalised opportunities and complementary experiences Yago School offers.

Admission: Admissions are open throughout the academic year, subject to availability. Every effort is made to reserve a space for international applicants. We currently arrange boarding in our residence and homestays for our international students.

Website

www.zsbarcelona.com

Zürich Schule Barcelona is a privately-owned, non-subsidized, and secular educational center for Preschool, Primary, and Secondary education. It aims to help students to grow intellectually, emotionally, socially, and physically. Forming a community, the school emphasizes on people and the relationships between them. It also encourages a sense of belonging, participation, and involvement of the entire educational community in the school projects. The school has approximately 300 students, one class per year group, and 40 different nationalities are represented. All teachers are native speakers.

More than 50 Years of Historic Legacy

With this legacy, Zürich Schule Barcelona instills an international mentality and global awareness in pupils. The school understands what a responsible and respectful vision of the world means. And above all, the school wants these facets to be expressed in the beliefs, actions, and contributions to make up the educational and learning community.

In preschool, they teach all subjects in the German language. The school makes an exception for Literacy, Music Education, Psychomotricity and Swimming, which are instructed in Spanish and Catalan. The methodologies applied foster children's innate potential.

As education at this age is crucial, the school serves throughout the year in four-month terms. It functions according to the objectives of the programme. The children, being young explorers, observe, learn, and proceed further.

Zürich Schule Barcelona is an IB school with the PYP and MYP Programme. Hence, scholars here are active, supportive, and follow a lifelong learning attitude. This echoes the

general development of the child and his or her potential for study and learning, both in and out of the school. Children learn by continual curiosity and accountability for their own learning.

The school intensifies the German language in Primary Education incorporating the written language. The groups are divided and distributed in the timetable to encourage oral and written language acquisition. In this way, the school pays more personal attention to the pupils.

The IB Primary Years Programme explores the learning, social, and emotional well-being of pupils. This pushes them to develop individuality and to seize responsibility for their own learning. It facilitates their efforts to make sense of the world and how to function within it. Further, it helps students to discover personal values as a basis on which a foreign mindset grows and flourishes.

Here, trans-disciplinary themes provide the IB World Schools with an ability to integrate local and global topics into their curriculum and allow students to 'step up' beyond the field of learning in the subject areas.

As an IB school, the school's Middle Years Programme (MYP) emphasizes intellectual challenge. This helps secondary school students to make concrete links between their learning and the real world and trains them for success in their future education and in their lives.

In accordance with the changing world, pupils from class 1-10 learn on their iPad. This serves as their complementing partner in learning material. Further adapting to the benefit of innovative technologies, Zürich Schule Barcelona has opted to reduce communication channels with a tailor-made ZSB app

ACG School Jakarta provides an educational pathway from Kindergarten to Year 13 and is regarded as an exceptional option for students seeking a dynamic international education in South Jakarta. We are a proud member of Inspired, a leading premium schools group with a network of more than 60 outstanding schools worldwide.

At ACG School Jakarta, our students enjoy the benefits of world-class teaching from specialist educators, and we are committed to ensuring every child is prepared for success. With proven quality and results in a values-driven, inclusive, and diverse environment, we concentrate on the needs of the individual, offering personalised programmes of study that reflect each student's ability and background.

Our globally recognised curricula deliver the best learning outcomes for our students:

- International Baccalaureate Primary Years Programme (IBPYP) and Diploma Programme (IBDP)
- Cambridge International Lower Secondary and IGCSE courses
- Kindergarten programme for students aged three years and up

With our international mindset and emphasis on academic achievement, we encourage students to become innovative problem solvers and advanced critical thinkers. We place a strong focus on inquiry, investigation and experiential

discovery, allowing students to be at the forefront of their learning in creative, meaningful and authentic ways.

Additionally, our holistic learning approach and well-established pastoral care system actively supports every student socially, emotionally, and academically. This ensures they reach their full potential during their time with us and are well prepared for life beyond.

Accordingly, ACG School Jakarta students have performed extremely well on the global stage, with ACG graduates accepted to top universities around the world.

Our dedication to developing the individual is also reflected in our co-curricular pursuits, featuring performing and fine arts, sporting and leadership opportunities. Combined with a range of cultural and service activities, this participation equips our students with invaluable life skills such as persistence, commitment, and teamwork, as they contribute to and acquire a wider sense of community.

ACG School Jakarta is uniquely permitted to enrol students who hold passports from Indonesia and other parts of the world. Our central location is ideal for families employed by embassies and multinational corporations. As a private, independent, co-educational school, ACG Jakarta has a non-selective admission policy, serving the needs of expatriate and local communities.

The American International School of Guangzhou is an independent, non-profit, multicultural, and co-educational day school for foreign children from preschool to Grade 12. It is located in Guangzhou, China, with an Elementary School campus on ErSha Island, Yuexiu District and a Secondary School campus in Science Park, Huangpu District. Founded in 1981, AISG is the oldest and longest established non-profit international school in south China.

AISG is on the path to becoming an IB World Continuum School and seeks to add IB Middle Years Programme (MYP) to the already offered IB Primary Years Programme (PYP) and the IB Diploma Programme (IBDP). In addition, AISG has a standards-based curriculum; American Education Reaches Out (AERO), Common Core and Next Generation Science Standards (NGSS) are used throughout all phases to tailor a program most relevant to our unique context and learners.

AISG enrolls over 1,000 international students from preschool to Grade 12 and our student body demographics reflect our international environment with over 40 nationalities. Our students are guided by faculty who challenge them to achieve, nurtured in an environment where creativity and inquiry are celebrated, and supported by a community who understands the power of a growth mindset.

AISG is a caring community that employs experienced teachers who are passionate and bring their forward-thinking

pedagogy along with an empathetic approach to enrich each child's learning. More than 75% of our 114 innovative faculty members have attained their master's degrees and more than 70% have over 11 years of experience in education.

Our campuses are designed with the future of learning in mind. Both campuses embrace world-class class learning environments, including open learning spaces to promote collaborative and transparent learning with a green building design and flexible spaces that can evolve with the pedagogical changes that lie ahead.

AISG boasts an extensive athletic program, giving our student athletes the opportunity to participate in a wide variety of sports against other schools both internationally and within China. In addition, AISG offers a diversity of options for our after-school activities program, ranging from academic, sports, arts, music, technology, and social, allowing students to enjoy a current passion or find a new one.

From our volunteer board members to our dedicated faculty, to our supportive parents, to our hard-working students, AISG has a sense of connection and community in working together to fulfill our mission of creating unique, transformative journeys that will forge a globally connected community.

For over forty years, the American School of Bombay (ASB) has continued to be a beacon of schooling internationally. We are “what school should be”, achieving this through modeling best practices and continually transforming how we teach and learn. Through positively engaging students in new ways of learning, our educators create a deep sense of trust with our families. We continually assess and adapt our approach to teaching and learning, to ensure engagement for all our students within a safe environment.

The focus of our educational philosophy is our students: they are at the center of their learning experience, they are empowered by dreams, and they are equipped with skills to become life-long learners. ASB’s Mission is to inspire all of our students to continuous inquiry, empowering them with the skills, courage, optimism, and integrity to pursue their dreams and enhance the lives of others. Serving others, with a desire to make a positive impact in their world, underpins an ASB education.

With our home in India’s vibrant cultural and financial capital, Mumbai, and a student population drawn from more than 45 countries, ASB is intentionally international. Together with students, we identify the big issues affecting them, and actively address diversity, equity, inclusion, and justice, both

philosophically and through explicit teaching. We commit to open dialogue with our students, parents, and staff to better educate ourselves and each other and make a positive impact in our local and global community.

ASB is an accredited Middle States Association of Colleges and Schools (US) and IB World School, offering the Primary Years and Diploma Programmes. Our graduates are awarded an American high school diploma and/or the IB Diploma. Our two campuses span over 200,000 square feet of purpose-built instructional spaces and state-of-the-art facilities, designed to deliver unique and individualized programs to our students.

Beyond the classroom, we are members of SAISA and ASIAC, offering opportunities for international inter-school collaboration and competition in sports and the Arts. Students also participate in local and international Model United Nations and our Community and Social Responsibility (CSR) program is integrated across all grade levels. ASB graduates are accepted at the world’s finest colleges and universities, including MIT, Stanford, Johns Hopkins, Duke, University College London, Harvard, Princeton, University of Sydney, and University of Paris, and contribute personally and professionally across a diversity of fields.

Welcome

Our team is waiting to welcome you at our school either online or in person.

Vision

We are an internationally recognised multi-campus kindergarten through university group, transforming education for learners in Japan and beyond.

Mission statement

In order to achieve our Vision we will continue our emphasis on Aoba's strategic transformative imperatives:

- Group Culture & Leadership to enhance and nurture progressive mindsets and actions.
- Teaching & Learning to ensure continued flexible delivery of internationally relevant curricula connecting to local and global contexts.
- Learning Environment & Capability to facilitate physical & virtual campus design that supports innovative teaching and learning.
- Economic Sustainability & Engagement to ensure sustainable growth and optimal resource alignment with Aoba's identity.

Our Philosophy

We believe that our young people are enabled to reach their full potential as international citizens who are dedicated to learning and who are inspired to succeed in an ever-changing world.

Our 5 Core Values

At Aoba we value the concepts of:

- Global Leadership
- Entrepreneurship and Innovation
- Effective Communication
- Wise Risk Taking
- Effective Problem Solving

Learning at Aoba

Aoba is one of the only full IB World Schools in the Tokyo area and features the typical characteristics expected of an IB school. Aoba has also been selected as the MEXT IB Consortium Chair in recognition of its expertise in IB curriculum and pedagogy.

What sets Aoba apart from other schools, however, is the innovative, progressive approaches to learning we employ from Kindergarten through Grade 12. Aoba consistently features authentic team-based inquiry in all three IB programmes at the school: PYP, MYP, and DP. We take a multi-age, transdisciplinary approach to the IB that really brings the programmes to life for our students.

Our students co-plan their learning with their teachers and are supported to truly take ownership of their learning whilst developing desirable marketplace skills and dispositions as described in our Core Values. Students move beyond simply solving problems for themselves or even solving them for others. We seek to develop students that can create the conditions to empower others to solve problems for themselves, a more sophisticated and powerful mode of, as we say in our Mission Statement, leading positive change in the world.

**Educating For The Future**

The Australian International Academy of Education is dedicated to providing high-quality education for students from Foundation to Year 12. Australian International Academy of Education is an International Baccalaureate school offering (IB) programmes at all four Melbourne campuses as well as the local Victorian Certificate of Education (VCE). The programmes allow AIAE to enhance its local curriculum and to achieve its mission of developing productive Australian Muslim citizens who will help to create a better and more humane world through intercultural understanding and respect.

At the Australian International Academy of Education, we believe each child is unique. We promote intercultural understanding and a vision to inspire character and leadership. The Academy offers a broad curriculum with global perspectives to primary and secondary school students. We encourage our students to broaden

their horizons in a spirit of tolerance, compassion, and cooperation.

Our passionate teaching staff ensures outstanding academic results and inspires and supports students to achieve their highest potential. With small class sizes, we can offer a personalised approach to learning and a diverse range of educational experiences inside and outside the classroom. In addition, our local, national and international learning experiences allow students to develop a greater understanding and appreciation of the world around them.

The Academy also provides a wide range of co-curricular activities that extend and complement the core curriculum, enrich student lives and develop their skills.

Our website includes further information on the IB Diploma at the Australian International Academy of Education, including details of various subjects on offer.

Leading to a bright future

At Australian International School (AIS), every action we take is designed to lead our students towards a bright future. Since our establishment in 2006, we have continued to achieve this aim by delivering high-quality international education. We are dedicated to creating an environment where we stimulate inquiry, creativity and innovation, to help our students embrace all opportunities that life brings them and to become global citizens.

Providing the IB curriculum

Understanding the significance of all that the IB curriculum offers, AIS has long identified its ability to foster both academic and personal success while challenging students to excel in their studies and their individual development. AIS was one of the first schools in Vietnam to become an authorised IB World School, and as such, we are now among the most experienced educators in the country to provide this curriculum.

Currently, AIS offers the IB Primary Years Programme (PYP) for both our Kindergarten and Primary School students and the IB Diploma Programme as part of its Senior School education. The University of Cambridge Secondary Programme with the International General Certificate of Secondary Education (IGCSE) is provided for our Lower Secondary School students.

For the IB Diploma, AIS has an extensive background in supporting and preparing students to study this acclaimed curriculum and develop real-world skills that extend beyond the classroom. Consequently, AIS graduates consistently obtain results above the world average, and students have gone on to gain places at leading universities around the globe, many with full or partial scholarships.

Exceptional education with modern facilities

Under the leadership and experience of AIS's Executive Principal, Ms Davina McCarthy, our team of enthusiastic, internationally-trained and qualified teachers are dedicated to challenging, inspiring, and supporting the individual needs of every student.

We support each child to reach their full academic potential, to nurture a love of arts, to become involved in and passionate about sport and to develop the resilience to overcome challenges. Our Australian values of fairness and a 'have a go' attitude, combined with a world-class curriculum, drive this ambition.

To aid our teaching staff, every classroom and learning environment is spacious, well-resourced, and technologically rich. Additionally, our students have access to an open garden style campus, swimming pools, a double gymnasium, an auditorium, soccer fields, a dedicated IB Centre, and much, much more.

Winner of the ISC 2021 International School of the Year, Branksome Hall Asia is the only IB World International School in Jeju Island in South Korea that offers the academically rigorous and challenging Diploma Programme, Middle Years Programme, and the Primary Years Programme. Founded in 2012 in Jeju, Branksome Hall Asia is the only overseas school of Branksome Hall, a 119-year-old independent girls' school in Canada, consistently ranked as one of the world's best boarding schools.

Co-educational Junior School (age 3-11) and a separate gender environment in Middle (age 12-16) and girls' school environment in Senior Schools (age 17-19), Branksome Hall Asia nurtures the development of global perspectives and leadership through academic rigor, physical activities, and service, which benefits all students as they discover their voice and their place as leaders locally, nationally and globally. Our distinctive educational journey actively pursues our mission, "Each day, we challenge and inspire students to love learning and to shape a better world". This educational journey promises to support each student to discover within themselves a strong voice, to take risks and step outside their comfort zones, and the power to lead lives of curiosity, empowerment, service to others, and personal fulfillment.

Branksome Hall Asia students grow as globally minded learners and leaders prepared for the challenges and opportunities they will meet in a rapidly changing interdependent world.

From JK Prep to Grade 12, the students share their learning and living in a state-of-the-art world-class facility that embodies and encourages our value for intellectual inquiry, collaboration, effective communication, and strength of character. Branksome Hall Asia vibrates with students' energy and warmth.

Experts in their field and dedicated to professional growth, our exceptional faculty fuels this energy via their commitment to the highest levels of learning, to ensure each student discovers their own pathway.

Branksome Hall Asia offers an International Merit Scholarship program for non-Korean students to provide deserving future leaders the chance to benefit from our IB World School program. Scholarships are given in recognition of a student's academic success, leadership commitments, co-curricular involvement, and other talents and achievements. More information is available through the school website.

In our complex and ever-changing world, it's clear that today's young people will be faced with a unique set of challenges in the future. To meet these challenges, fulfil their ambitions and contribute to the wider world, students must be equipped with capabilities that will enable them to thrive in a changing environment. At Carey Baptist Grammar School, we believe in adopting a broader expression of success and allowing students to leverage their strengths and follow their passions, whether they be academics, creators, innovators or athletes.

Founded in 1923, Carey is a Christian independent coeducational school offering 3-year-old Early Learning to Year 12. Carey is situated close to the Central Business District of Melbourne, within easy distance of public transport.

As one of Australia's leading schools, Carey maintains a gender balance, fostering the development of confidence, communication skills and self-esteem in all students. Carey works in partnership with families to develop wise, independent, motivated young people who are inspired and equipped to create positive change. The Senior School offers both IB and VCE and fosters a dynamic and stimulating environment. Our students achieve university entrance scores that place Carey amongst the top schools in Victoria.

The wellbeing of every student is at the heart of everything we do at Carey and our award-winning wellbeing program

underpins all our activities, from the very beginning of each student's schooling. Through nurturing student wellbeing and supporting their individual interests, we foster an environment that supports them in achieving their best while also developing individuals with integrity, resilience and a social conscience.

Our IB educators are experts in their fields. With regular professional development and an active engagement with the IB Diploma Co-ordinator's network, we ensure that our program is always at the forefront of IB approaches to teaching and learning. We have a number of workshop leaders within the School. Our educators are committed, passionate and inspiring leaders and mentors for our IB students.

Carey's position as a globally-respected school enhances our students' engagement with the wider world and ensures that when they are applying for tertiary education, whether in Australia or abroad, their applications are looked upon with favour and esteem.

We welcome the cultural diversity that international students bring to our community.

For more information about our programs and purpose built facilities, visit www.carey.com.au or call our Admissions Manager on +61 3 9816 1242, or email admissions@carey.com.au

Chadwick International is a PreK- G12 international school fully equipped with the state-of-the-art facility built in the Songdo International Business District, Incheon, Republic of Korea.

Chadwick International is the sister campus of Chadwick School, a K-12 school in the greater South Bay area of Los Angeles, which was founded by Margaret Lee Chadwick in 1935. The two campuses share the same mission that Chadwick Schools develop global citizens with keen minds, exemplary character, self-knowledge, and the ability to lead.

Chadwick International is an authorized four programme International Baccalaureate (IB) world school, offering PYP, MYP, DP and CP. Chadwick International emphasizes experiential and inquiry-based learning both in and outside the classroom including Outdoor Education and Service Learning programs. The Outdoor Education allows students to develop conflict-resolution abilities and leadership skills through various outdoor experiences. Meanwhile, Service Learning program teaches students how to interact with both their local and international communities and problem solve on a deeper level. These fundamental programs assist students in transferring valuable lessons learned in the classroom and develop them as contributing members and leaders of tomorrow.

Physical Education plays an integral part of the Chadwick curriculum as it focuses on the promotion of good personal health and a holistic lifestyle for our students. Its activity-

based program emphasizes the skill development that improves the fitness and well-being of the individual student as well as healthy and safe lifestyles.

Chadwick International has rich and diverse Visual and Performing Arts programs. In these classes, students develop their knowledge, skills, creativity and ability to respond to artistic ideas. Also, students are exposed to a variety of theatrical mediums to express themselves and heighten their awareness of themselves in relation to the people and culture around them.

Chadwick International helps to achieve its educational mission through recruiting and supporting highly experienced, dedicated, and diverse faculty members from around the world. With the support of the faculty, Chadwick International is capable of a low teacher to student ratio of 1:8.

Chadwick International's superior educational facilities include an aquatic center with scuba diving capabilities, two gymnasiums, two performing arts indoor theaters, a television studio that allows production up to eight channels, a working garden, purpose-built science laboratories and three design/maker spaces. These facilities permit the students to cultivate their intellectual, artistic and physical abilities based on Chadwick International's experience-based curriculum.

Chadwick International is accredited by Western Association of Schools and Colleges (WASC) and Council of International Schools (CIS).

www.chatsworth.com.sg

Established in 1995, Chatsworth International School is a community-focussed and diverse K-12 international school in Singapore. As an IB World School, we are authorised to offer the Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP) of the International Baccalaureate. We pride ourselves on providing top quality international education at exceptional value, guided by our educational philosophy to inspire, educate and enlighten.

We offer the IB PYP for students from Kindergarten to Year 6 (ages 3 to 12). The final year of the PYP culminates in a Year 6 Exhibition, a powerful celebration and showcase of student learning and development. The MYP is offered to students from Years 7 to 11 (ages 12 to 15). The MYP emphasises intellectual challenge, encouraging students to make connections between their studies in traditional subjects and the real world, and sets students up for success in the IB Diploma Programme. In the High School, we offer the two-year IBDP in Years 12 and 13 (ages 16 to 18) and students who have successfully met our graduation requirements also earn our WASC-accredited Chatsworth High School Diploma.

As a non-selective school, we welcome students of all nationalities and abilities. From academics to arts to sports to service learning, our highly qualified and global teachers from over 20 nationalities strive to inspire and challenge the students to bring out their best selves. Our focus on an individualised education ensures that students are heard

and are recognised for their talents. All students are given equal opportunities to be fielded across sports teams and represent the school so long as they show a commitment.

Student well-being is at the heart of a Chatsworth education. Our established student services team provides a strong pastoral programme and offers the support that students need to thrive academically, personally and socially.

Chatsworth graduates have achieved excellent results in their IB Diploma and consistently scores well above the world average year-on-year. Our school average is 39 points (highest ever) in 2022 and the school average has been 36 points for three consecutive years from 2019 to 2021. Chatsworth is one of the few international schools in Singapore to offer the full IBMYP eAssessment (includes seven subjects and a personal project) for our Year 11 students.

Loved for our close-knit community, the foundation of a Chatsworth education is more than academic success. The strong relationships that our teachers develop with their students and amongst the different key members of our community underpin the strength of our community. Our supportive Chatsworth Parent Group (CPG), where every parent is a member, contributes to our school culture and ensures families are engaged.

We are honoured to have won the Best IB School Award and Highly Commended in the Best School for the Arts Award in WhichSchoolAdvisor (Singapore) Best Schools Award 2022.

Enrol@cranbrook.nsw.edu.au

Website

www.cranbrook.nsw.edu.au

Located in the heart of Sydney, Cranbrook School is an IB Continuum School offering the Primary Years, Middle Years and IB Diploma Programmes. We are committed to developing knowledgeable, caring young people who respond to challenges with optimism and an open-mind, are confident in their own identities, make ethical decisions, join with others in celebrating our common humanity and are prepared to apply what they learn in real world, complex and unpredictable situations.

ACADEMIC EXCELLENCE: A LIFE-LONG LOVE OF LEARNING

Cranbrook School is committed to academic excellence, inspiring students to strive to achieve beyond their expectations and to broaden their horizons. Our dedicated teachers encourage young people to engage enthusiastically with intellectual challenges and develop a life-long love of learning.

THE ARTS: A WORLD CLASS PROGRAMME

We place great importance on cultural and artistic expression. Participation in these programmes aims to develop skills in leadership, performance, creativity and decision-making. Our vision is to provide a world class programme for a world class school: a programme which excites, inspires and encourages boys to dream, persevere and achieve.

SPORT: INCLUSIVENESS AND CHALLENGE

Our sports programme promotes inclusiveness, opportunity and competition. Students are driven to challenge themselves through the development of their skills, training and conditioning, with a strong focus on balancing

the camaraderie of team success with the satisfaction of individual achievement.

CO-CURRICULAR: A HOLISTIC APPROACH TO EDUCATION

Reflecting the true ethos of the School, Cranbrook's co-curricular activities are broad, distinctive, holistic and well-rounded. Our students take part in a stimulating range of extra subjects over and above the set curriculum designed to widen each student's horizons, enable them to find their niche, and allow them to grow in confidence and achieve excellence in all that they do.

EXPERIENTIAL LEARNING: ESCAPING THE CONSTRAINTS OF CITY LIFE

All students also benefit from an enhanced focus on education within the natural environment as part of our 'Cranbrook in the Field' experience held at our experiential bush campus at Wolgan Valley and in the Australian Capital Territory. This unique educational experience gives us the opportunity to instil in our students the value of contemplation, camaraderie, reflection, conversation and wonder, free from the distraction of technology and city life.

BOARDING: A BRIDGE TO UNIVERSITY LIFE AND BEYOND

Ever since Cranbrook first opened its gates in 1918, our School has been a home away from home to boarding students, ensuring an academic environment and nurturing community where boys can learn and grow. Two Boarding Houses are home to 75 students from across Sydney, regional Australia and the world – all living, learning and growing together.

Delia Memorial School (Glee Path), a member of The Delia Group of Schools, is proud to offer the IB Diploma Programme as a curricular pathway for our students in the last two years of secondary school. Because of its academic rigor, balanced approach, and whole-person focus, the IBDP is an excellent option for our students who seek an internationally-recognized alternative to the local HKDSE curriculum and a thorough preparation for the demands of university education in Hong Kong and abroad.

As a school that affirms and celebrates our students' diverse backgrounds and multicultural identities, Glee Path is especially a committed believer in the IB mission. Our students hail from over 25 countries, with the majority coming from South and Southeast Asia in addition to a growing number of local and overseas Chinese. Together, our students learn in a vibrant, academically rigorous, and English-speaking environment that promotes tolerance, empathy, and understanding. Even before our students graduate, they are already taking their place in the wider world as caring and committed global citizens.

To put into practice our educational belief in equity and equality, Glee Path makes the IBDP available to our students

regardless of their financial circumstances. As such, our school offers the lowest tuition fees of any IB World School in Hong Kong, with full need-based scholarships also available to those who qualify. Even learning resources such as laptops, iPads, and course companions, are provided to our students regardless of financial need as are our extracurricular activities and overseas study tours to places like Australia, Canada, Nepal, and Romania. These measures ensure that our students benefit not only from the equitable access to the IBDP but also from being fully included in the learning opportunities enjoyed by the Glee Path community.

Celebrating its 50th Anniversary in 2022, Glee Path has indeed witnessed transformative changes over its five decades, none more so than being fully authorized as an IB World School in 2019. This is truly a testament to the precious trust parents have placed in our school as their community of choice for their children over the years.

As the only IB World School in Hong Kong's Mei Foo neighborhood, our school is easily accessible by public transportation options. So, why not drop by and pay us a visit? We would love to welcome you to Glee Path, where the journey towards excellence and equity begins.

Founded in 1972, Dover Court International School (DCIS) proudly celebrates 50 years this year. DCIS is an international, multicultural and inclusive school community in the heart of Singapore. We are a community underpinned and guided by clear values, which resonate with the values of Singapore itself and with those upheld by global communities everywhere.

Dover Court is unique in welcoming children of diverse strengths and talents and in providing an education which is aligned to each individual. We welcome students from 3 to 18 years old, from Nursery to Year 13, with our student body comprising of over 60 nationalities.

As part of Nord Anglia Education (NAE) we benefit from the unparalleled opportunities gained from being part of a worldwide network of over 80 schools. At DCIS, we are highly ambitious for our students in all aspects of their academic and personal growth. Our students are energetic, articulate, motivated, confident, caring and they are eager to make their mark on the world. One of the great strengths of our British style international education is that such growth involves all aspects of students' moral, physical, emotional, social and academic development focused on each individual's personal best.

At DCIS, this is achieved through superb teaching supported and complemented by Teaching Assistants and the guidance of Form Tutors and Progress Leaders. Dover Court is unique in Singapore in welcoming students with diverse needs and talents and we deliver on our promises, with bespoke programmes that enable every student to thrive, to flourish and expand their potential. Education has never succeeded with a "one size fits all" approach but few schools manage to personalise education in the ways that Dover Court does: three pathways, and many qualification routes, blended and customised to each individual.

Students from Nursery to Year 11 follow the National Curriculum for England, adapted for our international context, leading to the IGCSE qualifications. Sixth Form students, Years 12 and 13, complete either the IB Diploma Programme, IB Courses or the International BTEC in Business. Our 2022 IBDP Graduates achieved an average score of 39 points, 56% of our students achieved over 40 points, with our highest score being 44, achieved by three students. Our graduates are now attending universities in Singapore, UK, USA, Hong Kong, Australia, New Zealand, Canada, The Netherlands, Ireland, and Dubai.

**Heritage and Tradition**

Dulwich College (Singapore) is an international school with a British independent school ethos and values, which draws upon 400 years of excellence and tradition from Dulwich College in London. Our traditions form part of our culture and are firmly embedded in all that we do. Additionally, our collaborations across our family of schools in Asia and London stimulate innovation and encourage an international outlook, which we believe fully prepares students for their futures. The result is a community where academic ability is nourished, creativity is valued, diversity is celebrated, and inspiration is paramount.

Our students go to some of the best universities and colleges in the world and we are proud of our individualised university counselling service and the network of schools which support this.

What is the Dulwich College (Singapore) IB Diploma Programme Difference?

- Embedded enrichment and leadership for all students
- Passionate, highly experienced IB Diploma Programme and IB Career-related Programme teachers who put students first
- Three-year (I)GCSE programme which ensures enriched activities and a focus on skills which enable students to be fully prepared for the IB Diploma Programme and IB Career-related Programme
- Part of a network of schools that truly supports students in terms of opportunities and shared knowledge

- Holistic programme where the arts and sport are a valued and integral part of each student's education
- Small cohort and class sizes which focus on student wellbeing
- Academically rigorous but holistic at the centre
- Personalised IB Diploma Programme and IB Career-related Programme application process
- Individualised university application process supported by the Dulwich College International network
- An IB Diploma Programme which focuses on feedback and metacognition, so students can independently plan and improve their own learning
- An IB Career-related Programme which focuses on the development of personal and professional skills, allowing students to reflect on their own learning and apply these reflections in both work and academic environments
- True to the "Students come First, Personalised Pathways" learning environment, the IB Career-related Programme (IBCP) offering at the College gives students the choice of 6 career pathways which includes business and sustainability; engineering; digital technology; performance and production arts; creative practice: art, design and communication; and sports
- State-of-the-art facilities for IB students to collaborate, study independently and flourish, including a purpose built IB common room and quiet study areas
- A personalised pathway for every single student

Our Heritage and Tradition

Dulwich College Beijing is an international school with British independent school ethos and values, which draws upon 400 years of excellence and tradition from Dulwich College, the founding College in London. Established in 2005, Dulwich College Beijing maintains strong ties with Dulwich College. We are proud to share a common heritage across the network of schools in Asia, and equally value the traditions, unique to our school, that we have created since we opened. Dulwich College Beijing was the winner of the Holistic Education and Science and Technology Awards at the British Schools Awards 2021. The College also received the 2022 International School Awards in the Pathways to Continued and University Education category.

Our diverse student body is represented by more than 1,570 students from age 3 to age 18, with over thirty different nationalities. We are extremely proud of our students who achieve excellent academic results while at the same time, engaging in sports, visual and performing arts, science and technology, community service, debating, leadership roles and anything else that they are passionate about. Our graduating classes have consistently achieved IB results and university placements that place the school among the world's best.

Our Curriculum

The primary teaching language is English, with a Dual Language approach in Mandarin and English in Early Years.

Children up to age 5 follow the Early Years Foundation Stage, and from Year 1 to Year 9, they follow the National Curriculum of England and Wales, which is enhanced to meet the needs of our international student body.

In Year 10 they begin the IGCSE (International General Certificate of Secondary Education), a rigorous two-year course that requires students to take a broad range of subjects. It culminates in exams at the end of Year 11 and prepares students well for the two-year International Baccalaureate Diploma Programme (IBDP) starting in Year 12.

Extra-Curricular Activities

With 150 extra-curricular activities per term, our students can explore and expand their interests beyond academics. Our extra-curricular activities help develop social, leadership, organisational, creative, technical, speaking and listening skills, among others.

Consistent IB Results

We congratulate our Class of 2022 for their outstanding results and university matriculations:

- Average score of 39.4 points out of 45, significantly above the global average of 31.9 in 2022
- 100% full IBDP pass rate
- 58% of the students scored 40 points and above
- 2 students achieved full score of 45 points
- 64 students received the full Diploma
- University matriculations include Oxbridge and Russell Group universities in the UK, Ivy League in the U.S., as well as top universities in Canada, Europe and Asia.

École Mondiale World School proudly serves a thriving community of internationally minded parents who desire an outstanding holistic education for their children. Its student body comes from citizens of Mumbai, multinational companies and the expatriate community living in Mumbai with an enrollment of approximately 400 students in Nursery through Grade 12.

Established in 2004, École is accredited by the Council of International Schools (CIS) and is authorised by the IB. It was the first IB World School in Mumbai, bringing the baccalaureate programmes to India's commercial capital. An IB continuum school, École offers the Primary Years Programme, Middle Years Programme, and the Diploma Programme. The school shares a common philosophy and a commitment to high quality, challenging international education and is committed to the philosophy and practices that underpin the International Baccalaureate programmes. Like IB, Ecole is committed to ensuring we develop well-rounded young people who will make a positive and productive contribution to the world in which they live, well beyond school.

École Mondiale World School is driven by its mission to provide a high quality education that encourages resilient learners to explore, engage, and excel, positively transforming the school, local, and global communities. It strives to be a model of excellence in education and puts a great deal of commitment, passion, and energy into its arts, athletics, design, after-school and co-curricular programmes – thereby holistically nurturing and empowering its

community of learners to achieve global success. With an excellent student to teacher ratio of 1 teacher for every 6 students, learners are guided by dynamic, highly-qualified IB trained educators.

École Mondiale World School is committed to learning that goes beyond the academic life of students and encompasses academic, social, physical and community interests that shape individuals who embrace lifelong learning, with attitudes and values that transcend barriers of race, class, religion, and gender. We offer an extremely full and enriching educational experience where our students flourish in a safe, happy, ordered environment and a vibrant, close-knit community. Thoughtful, age-appropriate pastoral care encourages all students to become increasingly self-reliant and considerate global citizens.

FACILITIES

École Mondiale World School is purpose-built and offers a wide choice of activities in and out of the school, with excellent facilities to support the learning process – these include an auditorium, two multipurpose halls for sports, a swimming pool, a splash pool for the Early Years, a well-equipped gymnasium, Indoor Basketball court, five state-of-the-art science laboratories, two libraries, an audiovisual room, three music rooms, three computer centers, two drama & dance studios, three art and design studios, design technology studios, health office, two canteens and children's play areas. The entire school is built to provide a comfortable learning experience in a temperature-controlled environment.

ARTS

École prides itself on a committed Arts department with a special focus on Visual Art, Drama, and Music. École uses the creative arts to promote attitudes such as empathy and appreciation, and skills such as analysis, that help see the uniqueness of each person as well as explore the commonalities that connect each other. We have dedicated Arts spaces for music, visual art, and drama. We also offer numerous opportunities to perform at concerts, assemblies and other gatherings.

TECHNOLOGY

All primary classrooms are equipped to support an inquiry-based programme. Throughout the secondary years, students bring their own device (BYOD) while at the primary level learning is supported by iPad, laptops, and access to the computer labs. Technology in the Secondary School is seamlessly integrated into all subjects. Additionally, Product Design, Digital Design, Design Technology, and Computer Science are offered as subjects.

Career and College Counselling

As a mature IB World School, we have been delighted to have hundreds of our graduate students placed in highly reputed universities both in India and many countries across the world. Our career and college counselling department works with students from Grade 9 onwards to identify their aptitude, understand their interests, and guide them towards colleges that will help them meet their academic and personal goals. École graduates have been accepted to some of the most prestigious universities across the globe including, Stanford University, University of Cambridge, Dartmouth College, London School of Economics (LSE), New York University (NYU), University of California, Los Angeles

(UCLA), Sarah Lawrence College, University of Southern California (USC), Massachusetts Institute of Technology (MIT) Boston, University of Pennsylvania, University of Toronto, University of British Columbia (UBC), LaSalle School of Arts, City University of Hong Kong, and many more.

An IB education at École Mondiale World School provides an exceptional foundation for any young person, and we look forward to being a part of your future.

ELCHK Lutheran Academy (LA) is a through-train school with its primary and secondary sections at the same location. We gained IB authorization to offer the Diploma Programme (DP) in September 2014, the Primary Years Programme (PYP) in January 2018, and the Middle Years Programme in November 2019 respectively, which marked a great milestone for the Academy.

We offer a wide range of subjects for all the programmes. DP subjects comprise the 6 subject groups: Languages (Chinese, English, and French), Sciences (Physics, Chemistry, and Biology), Individuals and Societies (Economics, Business & Management, and History), Mathematics (Mathematics Analysis & Approaches, and Mathematics Application & Interpretation), and The Arts (Visual Arts and Music). MYP subjects encompass the 8 subject groups such as Languages (Chinese, English), Arts (Visual Arts, Drama, Music), and Design and so on.

The PYP, as the foundation of the curriculum, initiates students to develop ideas contributing to international mindedness. Embracing the Unit of Inquiry (UOI), students are encouraged to question and refine their understanding of individual wellbeing, learning communities, and the world from different perspectives.

Away from the hustle and bustle of city life in Hong Kong, we are dedicated to make a difference in students' lives. Creating a warm and friendly campus, students are nurtured to explore their potentials and develop their talents through diverse experiences.

By offering holistic and balanced Christian education, the professional teaching team with teachers from different cultural backgrounds is committed in nurturing students to strive for excellence and to become global leaders of tomorrow. To maximize the learning opportunities and provide adequate care to individual needs, LA adopts small-class teaching that our overall teacher-student ratio is around 1:8.

We encourage students to explore concepts in manifolds of forms to ensure their whole-person development. Students are exposed to learning from varieties of activities, including field trips, Co-curricular and Extra-Curricular activities. During the EOTC (Education Outside the Classroom) week, students experience the learning outside the classroom and broaden their horizons. After the activities, they showcase to share what they have acquired to their classmates, parents and teachers.

To support programme implementation, Information and Communication Technology (ICT) has been well integrated into education to equip students with ICT skills. With the "Apple One-to-One Program", each secondary student is equipped with a laptop for daily learning. Together with the whole school Wi-Fi coverage, the ICT-infused inquiry-based learning has been effectively and efficiently facilitated.

With the enthusiastic support from the LA community, the school is growing from strength to strength to provide high quality education for the future rising generation.

EtonHouse International School Suzhou is a small school with a big heart. With class sizes of between 10-20 students, only one class per age group and a student to teacher ratio of 6:1, at EtonHouse your child will be much more than a number. Every student can make a difference, no matter how gifted or otherwise.

EtonHouse International School Suzhou is part of the world-renowned EtonHouse International Education Group, with more than 100 schools throughout Asia,

We are a well-established IB World Continuum school for students from 6-18 years old. The PYP was accredited in 2008, MYP in 2011 and DP in 2016. Our Early Years Programme is based on the Regio Emilia approach and blends seamlessly with our Primary Years Programme.

We are an inclusive school that welcomes students of all abilities. EtonHouse believes that every student can succeed;

any student who wishes to pursue the IB Diploma Programme is allowed and encouraged.

Our student population is highly multicultural. Despite being a small school, we have students from 22 nations, and no nationality represents more than 24% of the population.

Despite the small scale, EtonHouse International School Suzhou has all the facilities you would expect from a much larger school, with a heated swimming pool, all-weather sports field, gymnasium, well-stocked library, and assembly hall / theatre. The thoughtfully considered and aesthetically designed campus is set among the hills and trees west of downtown Suzhou, a learning environment which provides students with many opportunities for exploration, and provocations that support the rich inquiry-based learning programme offered at the campus.

With possibly the most convenient location in Thao Dien, the European International School Ho Chi Minh City (EIS) is the only boutique international school, set in lush garden surroundings, offering the International Baccalaureate (IB) continuum of studies for children aged 2-18.

Our vibrant, unified campus is a place where students, teachers and parents of all grade levels and different backgrounds interact freely with each other within a home-from-home, tranquil village atmosphere. EIS offers a truly diverse 'melting pot' of 40+ nationalities and global cultures, where students are encouraged to find their unique voice, to pursue languages, and to contribute to all aspects of school life.

EIS teachers, with over 13 years' average experience, are well-practiced in individualized learning methods. With a

very low student-to-teacher ratio, particularly in the middle-high school sections of the school, students benefit directly from more frequent access to teachers.

Graduating IB Diploma students consistently achieve well-above the world averages, and have achieved acceptances into prestigious universities worldwide, often with significant merit-based scholarships.

EIS provides an outstanding world-class education for students, evidenced by our full accreditation status with the Council of International Schools (CIS).

Being a medium-sized school, we are large enough to offer a wide range of educational opportunities, while also being intimate enough to provide the unique personal attention and care that each child deserves.

Global Indian International School (GIIS), operated by the Global Schools Foundation, is a frontrunner in international school education from Nursery to Grade 12, in Asia. The foundation manages a blossoming network of 35 campuses across 10 countries with a vision of becoming the global role model for teaching and learning through its award-winning holistic framework of 9 GEMS.

GIIS has two campuses in Singapore – East Coast Campus from Nursery to Grade 10 and SMART Campus, Punggol, from Nursery to Grade 12.

Our flagship campus, GIIS SMART Campus with a capacity of 3.5 K students is a school of the future. The campus offers an innovative learning environment for students with digital classrooms, video conferencing, collaborative learning spaces, data analytics in sports and more than 40 skill-based studios. This learning environment helps to foster creativity in students and allows them to discover and develop their talents.

The school offers complete international curricula – IB Primary Years Programme (IB PYP), Cambridge Lower Secondary Programme, IGCSE and IB Diploma Programme (IB DP). Students begin their educational journey with a strong foundational framework like IB PYP, that sparks curiosity and makes them inquiry-driven. In secondary school from Grades 6 to 10, the Cambridge curriculum offers

them analytical skills and a stronghold over diverse subjects, thus preparing them for the challenges of IB DP in Grades 11 and 12.

The IB DP at GIIS is a much sought after course with high achieving students, trained and qualified teachers and NextGen facilities at the SMART Campus. In the last 16 years, 43 students at GIIS have become IB World Toppers (with 45/45 points) and 53 students scored near-perfect scores (of 44/45 points) in the IB Diploma exams.

Close to 250 students graduate every year from the school. The school’s unique performance-measuring metrics, called 7S, tracks and monitors each student’s academic and all-round progress thus enabling teachers to roll-out a systematic improvement plan.

Our graduates are placed at prestigious universities across the world including the University of Cambridge, University of Oxford, University of California, Cornell University, Imperial College London, National University of Singapore, Nanyang Technological University, and many more.

An amalgamation of great factors including our international curricula, excellent teachers and infrastructure, and holistic education contribute towards making our students well-rounded individuals and global leaders of the 21st-century.

Situated in Noida, a satellite city of Delhi, Genesis Global School is part of the National Capital Region (Delhi NCR). The School is spread over a 30-acre campus, with efficient connectivity via an Expressway. It is an hour's drive from Indira Gandhi International Airport, Delhi and around 25 minutes' drive from cosmopolitan South Delhi.

Genesis Global School has become a hub of national and international educational excellence, where every child is important and accepted for who they are. At GGS we ensure that our students have exposure to the best in current global practices, provide them with a truly holistic environment where modern facilities and high-quality teaching and learning practices allow our school ideals to be developed.

Our school ideals depicted in the School logo – the hexagon are: International mindedness; Educational Excellence; Integrity and Persistence; Resilience; Stewardship; Compassion and Care. These six pillars underpin our mission statement making them the guiding light of our practices.

Our Mission Statement is: "GGS graduates will be responsible global citizens empowered to contribute to society in various capacities by providing them the freedom to be, to act, to impress and to dream. GGS incorporates an inquiry-based curriculum and extensive co-curricular experiences, acknowledging the role of community voice and student agency."

A GGS education allows students to achieve their potential

and take their place in the world. We continuously strive to develop and improve our curriculum to meet the needs of all learners in an ever-changing world both inside and outside the classroom.

As an IB World School, Cambridge accredited centre and a member of the Council of International Schools (CIS) GGS is also part of a community working collaboratively to shape international education. We are committed to incorporating international and intercultural perspectives into our programmes so that students can move forward with the attitudes, knowledge and understanding that will provide them with a solid base wherever their studies or work may take them.

Junior School

The Junior School comprises of Grades Pre-Nursery to 5 and follows the IB Primary Years Curriculum (PYP). Project based and experiential learning opportunities allow our students to be encouraged and enable them to become independent critical thinkers who can take increasing responsibility for their learning. Our student to teacher ratio is 13:1 which enables every child to have the support they need. Students' progress is regularly assessed both formally and informally by staff to ensure every child reaches their potential.

Middle School

The Middle School (grades 6, 7, 8) follow the MYP framework of the IB curriculum. The skill-based, concept-based and

context driven curriculum of the middle school enables our learners to be part of the teaching and learning process. The inquiry-based teaching approach ensures every child's voice is heard and every learner gets the best support to reach their highest potential.

Our curriculum is planned to consider student differences and is accessible to all. We give students the opportunity to find the area they are strongest in and to grow in it.

The teaching and learning approaches ensure that the learners explore and understand WHAT they are learning, HOW they are learning things and most importantly, WHY they are learning. The focus is not only on teaching academics but having students use their knowledge and skills in different known and unknown situations. By applying these skills they become lifelong learners, develop learner attributes such as being knowledgeable inquirers, who are caring and open minded, who value everything and everyone who are ready to be global citizens and successful leaders.

Senior School

The Senior School has two phases: MYP 4-5 and DP year 1 and 2. In the senior school students are given the opportunity to specialise and explore subjects of their interest. Though academic rigour increases, students are still taught with a great focus on the development of their skills through an inquiry-based approach to teaching and learning. Complimenting the individualised teaching, our senior students also have the extensive guidance of the Support Department which is a combination of student counselling services, ESL support for international students, learning needs support and university counselling. This ensures that the students are provided with everything they need for a

well-balanced life and studies to be successful learners both at and beyond their time at GGS.

Students in Residence

Our boarding houses are equipped with modern facilities providing "a home away from home". The School has air-conditioned residences for boys and girls, where they are given personal attention and care by experienced, professional House Parents.

Genesis Global School endeavours to nurture resilient, holistic, empathetic & lifelong learners in a multi-cultural environment, for a sustainable future.

Guangdong Country Garden School is located in Foshan, Guangdong Province, the central region of the Guangdong-Hong Kong-Macao Greater Bay Area. Founded in 1994, the school authorized the Middle Years Programme (MYP) and the Diploma Programme (DP) of the International Baccalaureate in 2001 and the Primary Years Programme (PYP) in 2011. It is the first IB world school in mainland China to implement PYP, MYP and DP programs simultaneously, with a 15-year curriculum from kindergarten to Year 12. It has more than 4,800 students and 700 teachers from all over the world.

As an IB World School, we focus on lifelong learning and inclusive education by delivering a balanced curriculum that focuses on the well-being of teachers and students, fostering resilience with a growth mindset, and believing that every child can succeed and make a difference. The faculty and staff of the school are committed to preparing students to attain the following ten attributes:

- cultural confidence and dedication
- extensive knowledge and regular reflection
- active exploration and attempts
- thoughtfulness and effective communication
- open-mindedness and responsibility

Covering an area of nearly 200,000m², the school has a

beautiful environment with first-class facilities, such as the STEAM experimental building, two indoor heated swimming pools, opera house, observatory, gym, expansion base, English village and Xing Yue garden, etc. The campus is built around a mountain, providing a good ecological environment for students to explore and facilitates the development of inquiry courses based on the community.

Our PYP mainly focuses on six transdisciplinary themes. The 42 sub-topics of inquiry “transcend” the boundaries of subjects, helping our kids have a better understanding of the world from different perspectives. The PYP Exhibition for the fifth grade, allows students to choose a topic of their interest from current issues, and work as a group to figure out the solutions. It is a powerful celebration and showcase of student learning and development.

Based on the six global contexts, the MYP programme offers a range of challenging courses and activities to help students think creatively, critically and reflectively. The MYP emphasizes intellectual challenge, encourages students to make connections between subjects and the real world. Additionally, the emphasis on Service and Action and the personal project help to set students up for success in the IB Diploma Programme.

The six subject groups in DP programme are provided in a balanced way, providing more than 30 subjects for personalized learning. The three core elements of TOK, EE and CAS further improve thinking, research, self-management and collaboration skills. The IB teachers actively become IBEN members, many of them take the role of the IB examiners and workshop leaders, helping to build a learning community.

The school's signature courses, such as the Leadership courses, the Creativity, Activity, Service (CAS) program, and career planning course, combine elements of action and adventure, service and responsibility, and cross boundary and cooperation in a fun and challenging way to ensure the balanced academic, mental, social and physical development.

Leadership programs are based on student's age and cognitive development. The Research and Hiking Trip in PYP with the topic of "Children of the World, Sharing the Earth" provides students with comprehensive mental, physical and spiritual exercise. In the MYP Culture Immersion Trips in Guangdong Province, nearly 30 categories of Chinese cultural phenomena are deeply experienced and explored, while more than 30 social service activities have been carried out. In the high school section, Cycling the Silk Road, China Week Community Service and The Duke of Edinburgh's International Award further enhance the leadership skills of students. The China Week Community Service initiated

by DP students, which started in 2004, has continued for 18 years, spanning 26 provinces and cities, with more than 5,000 students participating and serving more than 360 elementary school in remote areas. By volunteer teaching, caring for the sick, orphans, the elderly and children, raising funds for libraries situated in mountainous elementary schools, and collaborating with NGOs to make students' voices heard internationally, students truly grow into caring global citizens. In addition, the school offers over 100 CAS activities on and off campus. Each student is assigned a tutor, with whom the student meets regularly to keep track of their academic progress and engagement in CAS activities.

Our diversified curriculum and dedicated professional teachers assist students develop in a holistic well-rounded way to successfully achieve entrance to prestigious universities around the world. Our graduates can be found in Princeton University, The University of Chicago, Columbia University, Cornell University, Johns Hopkins University, University of California-Berkeley, University of Cambridge, University of Oxford, Imperial College London, Tsinghua University, Peking University, the University of Hong Kong, National University of Singapore and many others. We believe that no matter where they are, our students are committed to contributing to a better and more peaceful world.

www.desheng-school.com

A caring and innovative school that aims to transform students from good to great, Guangdong Shunde Desheng School has an illustrious history of achievements and has consistently ranked as a top school in Shunde, China based on its sterling academic results and student performance.

In 2011 under the visionary leadership of its Chairman, Mr. Chen Ji Ye, the school started the international education division to prepare students for an overseas education. The division is now known as Desheng School (International) (DSI).

DSI was accredited by the Cambridge Assessment International Education (CAIE) in 2014 to offer the Cambridge IGCSE and International A Levels. In 2015, the school was accredited by the International Baccalaureate Organisation to offer the International Baccalaureate Diploma Programme (IBDP).

DSI is proud to have:

- A Student-Centric Educational Philosophy

SCHOOL VISION

A global centre of excellence that promotes holistic education.

OUR MISSION

To nurture independent life-long learners who strive for excellence and serve with compassion.

SCHOOL CORE VALUES

R.I.S.E. – Respect. Integrity. Self-Discipline. Excellence.

DESIRED STUDENTS OUTCOMES

To be Scholars, Leaders, Global Citizens.

- A World Class Learning Environment

DSI is located in a newly built complex with state-of-the-art facilities. The environment is ideal for students to fully engage in academic and non-academic activities including

the multi-media library, Artificial Intelligence laboratory, range of sports facilities and more facilities that meet the needs of teachers and students.

- Professional Educators

In DSI, our outstanding teaching staff includes experienced IB trained teachers, and are integral to the implementation of the curriculum. They are divided into the Pedagogical Team and the Student Development Team, who work together to lead, care and inspire, ensuring the overall wellbeing of students. The school is proud to have Dr. Hon Chiew Weng, former principal of Hwa Chong Institution, Singapore, as Education Director to enrich its management team.

- Holistic Education

DSI offers a wide range of subject options to cater to varying needs of students in line with the requirements of Cambridge IGCSE and IBDP.

From 2017 to 2021, five cohorts have graduated from DSI. 90% of the IBDP students have enrolled in top 50 universities in the world, including Oxford University, Imperial College London, University College London in the United Kingdom, New York University and University of California (various campuses) in the United States of America, University of Toronto in Canada, The Australian National University and University of Melbourne in Australia, and National University of Singapore and Nanyang Technological University in Singapore.

In terms of innovation, the school has a number of programmes that prepare them for the changing dynamics of the world. These comprise the Champions of Innovation, focusing on Artificial Intelligence, Cyber Safety, 3D Printing, and other cutting-edge information and communications

technology. In the 1st International Artificial Intelligence Fair held in Beijing, Desheng School AI Challenge Team was awarded the Qomolangma Prize (The First Prize) for their project “Research on Nursing Home Caring System Based on Deep Learning”. This marked a milestone in DSI’s history of developing the innovative potential of students.

DSI also puts emphasis on language development and critical thinking. In addition to compulsory Super Curriculum subjects such as Philosophy of Disciplines and Research Skills, we offer a wide variety of Co-Curricular Activities. Students gain national and international exposure through platforms such as the Model United Nation conferences,

future problem solving programmes, as well as Experiential Programmes (Local/Overseas/University).

In terms of caring for the well-being of students, the House system, leadership education system, student care system and Career, Opportunities and Guidance team contribute to a dynamic culture on campus and inculcates a sense of camaraderie and excellence among DSI students.

With strong emphasis on both academic and student-centric activities, the school is well positioned to nurture its students to become Scholars, Leaders, and Global Citizens.

www.greenwoodhigh.edu.in

Greenwood High students pride themselves in being able to not only balance academics, sports and co-curricular activities, but excel in them. Greenwood High IB results far outshine the world average; in 2019 two students achieved a perfect score of 45 in IBDP, in IGCSE results 78% students received a distinction and 20.2% students secured a merit. The school has produced India toppers in both IGCSE and ICSE. And yet, these very same industrious students immerse themselves in theatre and with support from their theatre, art and music teachers, and their talents blossomed into a musical 'Annie' that was compared to professional theatre productions. To encourage them further, the school has held various workshops including one from the prestigious Globe Education.

The school is an open art gallery, for its hallways and open spaces display artwork by the promising young artists. In sports too, the students are champions, for they have won various Basketball, Soccer and Badminton championships. The students are very socially aware, and the Model United Nations debates and forums begin from middle school itself, so that they grow into international minded global citizens.

Greenwood High students are extremely involved in social projects and have contributed to various causes. Our student designs include a six wheeled hand cart with steering, gears and brakes to help street vendors maneuver their hand carts over uneven, hilly terrains, and this has won her the

President's Award. Another student had developed a cell phone app 'Corner Shop' "aiming to give small time vendors a platform to boost their sales." One student developed an App for the blind to help them in purchasing groceries and was hailed by IBM while another launched an online debate forum at global level, which was funded by Google and Microsoft. One student has been awarded the Diana Legacy Award for setting up science laboratories in schools for the underprivileged.

The CAS students volunteer in hospitals, paint government run schools for the underprivileged, create breast cancer awareness, clean streets and recycle waste. They raise funds for education and health in rural areas. The CAS students also worked on a social project in Prague.

The students of Greenwood High aim high and reach higher. This year IBDP students have received acceptances in over 200 universities around the world, for many have been accepted in Ivy League colleges, with scholarships to a total of 7.1 million USD. Greenwood High already has students in the University of Pennsylvania, Columbia University, Cornell University, Brown University, Johns Hopkins, Georgia Tech, UCLA, Berkeley, Duke, Imperial College London, to name a few. Indeed, they all take the school motto 'Rooted in Knowledge' very seriously, and while spreading out their wings to soar high, remain rooted deeply in knowledge.

The High School Affiliated to Shanghai Jiao Tong University (known as JDFZ in Chinese Abbreviation) is one of Shanghai's most renowned and competitive public high schools, situated in northeastern Shanghai.

JDFZ established its International Curriculum Center in 2011 and got the IB authorization for the Diploma Programme in 2012. The first cohort of 65 students graduated in 2014, and the school has grown to nearly 350 students from the academic year of 2020-2022. In 2021 the International Curriculum Center marked its 10th anniversary.

Students are mainly from in and around Shanghai, and also from the neighbouring provinces across China. The vast majority of our students are boarders. Students undergo a foundation year at Grade 10 with CAIE IGCSE before being promoted into IBDP. The graduates have earned outstanding offers of admissions from the top Universities, mainly in the United States, Canada, and the UK, such as Yale, Columbia, Chicago, Duke, Johns Hopkins, Northwestern, Cornell,

Dartmouth, Toronto, McGill, Oxford and Cambridge.

JDFZ IB has an excellent result in its short history as an IB World School. Students achieved the final IBDP grades above the World average, nearly in every subject being offered at JDFZ. Continuous success comes from the hard work of the students and passionate teachers. Staff are dedicated, enthusiastic, and professional, hailing from both China and Overseas. It is an English medium school, and all lessons are in English except Group 1 Chinese A, and TOK in both Chinese and English.

One of the core elements of school ethos is the balance between love for one's mother country and the growth of an international outlook. This thread is woven into all subjects. The IB Learner Profile is the core in regular discussions, teaching, events, and activities. JDFZ also strives to utilize IB concepts to promote the educational reform of the national curriculum.

Hangzhou Greentown Yuhua School is a fully licensed, private school located at 532 Wenyi West Road, Hangzhou, China. Our mission is to cultivate global citizens with integrity, a rational spirit, cultural literacy and a strong sense of duty; to advocate for professionalism and a healthy lifestyle. We encourage our students to have global literacy, enable them to respect different cultures and beliefs and integrate into multicultural world. The Education Philosophy at Greentown Yuhua provides the students both academic and self-development educational streams, allowing for full cognitive and social development, meeting the requirements and needs of each individual student. Moreover, campus Life at Greentown Yuhua is devoted to improving the quality of student's life on campus. Activities include various student societies and clubs, such as tae kwon do, piano, painting, studios and foreign language courses. The school motto is "Being Benovolent and Tolerant while seeking the Truth". We are dedicated in providing a well-rounded educational experience for our students; both as individuals and as a collective.

Since its foundation in 1992, Greentown Yuhua School has been striving to achieve educational excellence by providing an all-round quality education that will serve the needs for the future development of local community. In previous years, the school was awarded "The National Outstanding Private School" by the Ministry of Education. Since 2000, Zhejiang Greentown Real Estate Group (a national Top 2 real estate company in year 2010) has invested more than 1 billion yuan RMB in the school. And the school now takes up an area of 16.867 hectares, with the construction area about 70,000 square meters. The school is a modern institution with a beautifully landscaped environment and first-class facilities.

We provide Middle Years Programme for students

from year 7 to year 9. In this program we are committed to cultivating learners to be inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced and reflective. In order to help students achieve these attributes, the school provides English language acquisition, Chinese language and literature, individuals and societies, mathematics, design, drama, music, and visual arts, science, physical and health education. We encourage our students to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be valuable. We participate in the construction of international courses based on the domestic compulsory curriculum to help students adapt to overseas study.

We have a faculty of 280 and 2400 students. All the teachers have the recognized qualifications and are conscientious in their work. They are dedicated to the well-being of each student and have a vacation to provide for the welfare, mentoring of individual students within the harmonious environment of their classes. We also have a beautiful campus, modern teaching facilities, technology and resources. The school has high-standard on-campus rooms for boarding students, along with spacious classrooms, specialized laboratories, a library, lecture halls, auditorium, gymnasium, etc. We have a fully computerized management and monitoring system.

As the only world-wide affiliated boarding school in mainland China, a quality-oriented educationally advanced school in China, a grade-A model school in Zhejiang province, and one of "The most beautiful schools" in Hangzhou, nothing can stop us from constantly improving in warmth, safety, and dignity; both on campus and globally.

Hangzhou World Foreign Language School (HZWFLS) is the second school established by Shanghai World Foreign Language Education Group (WFL Education) after the Shanghai branch to provide the complete IB curriculum in China. To aim to cultivate “a young Chinese with a modern and global view”, the school strives to explore and practice quality education to seek and develop the compassion, elegance, and forthright within the students. By Participation and Practice (P&P) in Cooperation and Creativity (C&C), the students’ learner autonomy is augmented, potentials developed, abilities in collaboration fostered, and creativity nurtured.

The IBPYP of HZWFLS started in April 2013. It was authorized by IBO in 2017. Following the school’s philosophy of “Let the students embrace the world; Let the world be part of the school life”, the PYP Department has been authorized as an International School since 2015.

HZWFLS has a beautiful school campus, excellent teaching facilities, an experienced administrative team, and a Chinese and Foreign teaching team that provides high-quality education to the learners. The PYP Department brings in the IB curriculum, which integrates the advantages of the Chinese and Western education systems. The PYP department aims to develop lifelong learners who maintain A Chinese heart, global vision, international mindedness, inquiry ability and creativity.

Centering on the six transdisciplinary themes, teaching through inquiry, cooperation, discovery, and

questioning is the leading way of learning. In the classroom, transdisciplinary learning explores a relevant concept, issue or problem that integrates the perspectives of multiple disciplines to connect new knowledge and deeper understanding to real-life experiences.

Outside the classroom, each inquiry unit will have a community-based learning experience which includes a field trip corresponding to the theme to facilitate the connection of students’ learning to authentic, real-world experiences which broaden students’ thinking and vision.

The IBDP of HZWFLS was established in 2019 and was officially authorized by IBO in 2021 to become the first IBDP school in Hangzhou.

Located beside the Banshan National Forest Park, the school lies in the embrace of mountains and streams. With the soothing sceneries of nature, the campus is a perfect venue for students to pursue their academic success.

The school offers an IBDP course, which aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

The curriculum system consists of six subject groups, which together focus on the three core courses. Through approaches to teaching and learning, the courses train students to become independent thinkers, lifelong learners, well-grounded generalists, and participants in global contexts.

The course has no geographical restrictions and is

recognized by all mainstream universities in the world. There is a wide range of universities to choose from, which can avoid the impact of changes in visa policies of various countries to the greatest extent.

All teaching faculty members of HZWFLS are certified by IBO, including established teachers with ample teaching experience as well as excellent Master's graduates commanding cutting-edge knowledge of their respective subjects. Currently, HZWFLS adopts small class teaching that our overall teacher-student ratio is around 1:2, the ratio will not exceed 1:5 in five years.

HZWFLS aims to help students establish correct personal values and carry forward international feelings, a positive learning attitude and good self-management skills.

Through integrating the learner profile, approaches to learning, concept-driven inquiry and action, HZWFLS strives to help learners develop into global citizens with lifelong learning abilities to create a better future for everyone through mutual understanding and cooperation. Learners who can celebrate and respect all the differences of nationality, culture and religion can take on a full dynamic role as citizens in an international world.

HKCA Po Leung Kuk School, established in 2017, is a non-profit school offering a high-quality education to local and non-local resident children aged 3-12. The school, located at 62 Tin Hau Temple Road, is a beautiful, small campus surrounded by trees and conveniently located to several means of public transport.

We believe your child will love learning at our school. We understand that children come to us with their own learning styles, strengths and challenges. We acknowledge and celebrate that children have unique values, knowledge and life experiences. By recognising each child as an individual, we can help them develop a love of learning within our strong culture of collaboration, mutual respect, support and problem-solving that involves the whole school community.

At HKCA Po Leung Kuk School, each child's personal learning journey includes support designed to build confidence and encourage lifelong learning. Individual interests, strengths and abilities are nurtured in an

environment where children have voice, choice and ownership in their learning – a hallmark of the PYP programme. We are committed to offering an excellent education for children ages 3-12 that challenges them to reach their potential socially, emotionally, academically and physically while having fun along the way!

Our Vision:

Our students will become creative, critical thinkers who are internationally minded lifelong learners.

Our Mission:

- Provide a transdisciplinary, challenging learning environment in a happy, safe and caring school
- Develop our students' confidence and desire to inquire, in order to expand their knowledge, skills and understanding
- Nurture individual interests, strengths and abilities
- Foster an inclusive language atmosphere where English, Chinese and other mother-tongue languages are valued and respected.

At Hong Kong Academy, we value how children learn as well as what they learn. From Pre-K to Grade 12, we are committed to creating an engaging and supportive learning environment for every student. The unique programmes, exceptional faculty and environmentally-friendly facilities at Hong Kong Academy (HKA) all contribute to the school’s rigorous, student-centred education.

Our programmes are designed to challenge students to explore new perspectives, maximise opportunities for growth and develop a strong sense of their own identity. In addition to offering the International Baccalaureate Primary Years, Middle Years and Diploma programmes, all HKA graduates earn an HKA Diploma and the Global Citizen Diploma (GCD) Certificate. HKA is the only school in Hong Kong to offer the GCD and is the host school for the global consortium. We also offer a comprehensive co-curricular programme, including after school activities, clubs, performing arts, sports and mother tongue classes, through which our students build on existing skills, explore new interests, compete, create and grow.

Starting in early childhood, HKA cultivates a commitment in its students to understanding others and making decisions with an awareness of how they affect communities. By studying real-world issues students learn how to analyse

information, respect diverse perspectives and positively contribute to society. Starting in middle school students build their Global Citizens Diploma (GCD) portfolio showcasing their unique identity and competencies in the areas of intercultural communication, community engagement, global understanding and academic excellence.

Our whole community is committed to providing a joyful and authentic learning environment for every child. HKA parents are highly engaged, contributing a wide range of backgrounds, expertise, skills and resources which enrich school life on a daily basis. And because we know that strong partnerships between home and school are beneficial to student wellbeing, HKA promotes a culture of thinking, trust and collaboration by hosting regular parent education events, social gatherings and community clubs throughout the year where everyone’s voice is valued.

HKA graduates are able to effectively apply research, critical thinking and communication skills precisely, flexibly and intentionally across subject areas and consistently outperform the IB Diploma Programme world pass rate and average total points. Each year HKA alumni are accepted to pursue degrees in a wide variety of professions at competitive universities and colleges all around the world.

Hwa Chong International School (HCIS) is a member of the prestigious Hwa Chong family of schools, drawing its core strengths from a century old tradition of educational excellence and philanthropy.

We offer a six-year integrated curriculum that eventually prepares students for the International Baccalaureate (IB) Diploma at Year 6 (Grade 12). With a vibrant and dynamic learning environment, HCIS is uniquely poised to provide students with positive and enriching learning experiences that stem from its deep traditions and internationally-oriented outlook. The caring school community and plethora of programmes and activities offer support for academic pursuits, leadership and character development of students.

Over the years, HCIS takes great pride in having nurtured many graduates who are talented and successful in their own way. We have set a track record of producing graduates who have gone on to pursue higher education, and our stellar performance in the International Baccalaureate Diploma Programme has provided our students with the springboard for entry into colleges and universities of their choice.

A Premium on Experiential Learning

Experiential learning in HCIS is modelled after Kolb's Learning Cycle and it involves experiencing, reflecting, learning and applying.

Students are exposed to a host of outdoor activities that stretches them and takes them out of their comfort zone.

It is through these experiences that critical life skills like communication, teamwork, critical thinking, leadership and resilience are nurtured. More often than not, these experiences provide lasting memories of their school life in HCIS that are talked about in years to come.

On-campus Boarding Residence

As the only local International School with a boarding residence within the school compound, we endeavor to create a conducive and community-oriented environment. Supportive staff and well-equipped facilities promote character development and emphasize diverse competencies of our boarding students beyond just academic success.

At the HCIS Boarding Residence, our mission is to inspire and promote personal growth, while nurturing international-mindedness in our boarders within a safe and caring community. Our boarders are provided with the best quality of care by our Residence Mentors, who take on a close-knit and supportive approach to promote holistic development in students, allowing them to grow into disciplined, responsible and resilient individuals who not only act with integrity and pursue excellence continuously, but also learn to respect and foster lifelong friendships with people of different nationalities through living and sharing together. Find out more about HCIS at www.hcis.edu.sg!

Established in 1993, International School Ho Chi Minh City is the oldest international school in Ho Chi Minh City and the first IB World School in Vietnam. ISHCMC provides the International Baccalaureate with a culturally diverse perspective to students aged 2-18 years.

ISHCMC is a vibrant co-educational school of approximately 1,400 students representing over 55 nationalities and provides a unique learning experience from Early Years through to Grade 12.

As one of the few IB Continuum schools in Vietnam, ISHCMC offers the IB Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP). Through the IB curriculum, students construct understandings and knowledge of their world through personalized learning experiences and inquiries that develop a deep understanding of important concepts in global contexts.

ISHCMC has a rich history of academic success with students' examination results consistently surpassing the global average. A 100% pass rate in the IB Diploma programme, sees students typically receiving their first or second choice university, which are among the best in the world.

At ISHCMC, teaching and learning is guided by our Principles of Learning. They inform planning and, in the very

best teaching, 'interleave' together to give the impression of classroom learning, which is smooth, consistent, immersive, and sustained. Our teachers are well qualified, experienced, care about their students and build positive relationships to ensure students reach their full potential. Many of our educators have advanced degrees and all of our educators are committed to ongoing professional growth and development.

Wellbeing is at the core of ISHCMC's community and is integral to our overall purpose of 'Providing an inspiring world of education: building self-belief and empowering individuals to succeed'. The positive mental health of our students is an utmost priority within the ISHCMC family community, and our mindfulness program helps us to sustain a supportive learning environment.

Both our campuses offer a great opportunity for student learning through technologically advanced classrooms, collaborative learning spaces and student study areas. Unique facilities help to prepare our students for the realities of the 21st-century commercial world. These include an Information & Media Center, a professional theater, recording studios, design suites, music practice rooms, NBA-size basketball court, rooftop sports field, 25m 8-lane pool, food tech and science labs.

ISS educates to make a difference through accredited academic programmes led by our team of highly motivated, experienced, and caring educators.

The school was founded in 1981 by visionary Singaporean politician Chan Chee Seng as an inclusive school offering an international curriculum serving a diverse student population. Our full membership with the International Baccalaureate (IB), accreditation by the Council of International Schools (CIS), the Western Association of Schools and Colleges (WASC) and certified by Singapore's Edutrust affirms and celebrates our inclusive vision and high quality education. Most recently ISS received an excellent report from these accrediting agencies, recognising the strength of our mission, our commitment to student wellness, multiple student support programmes, the development of global citizens, and strong academic Programmes.

At ISS, academic rigor is enriched by our focus on student well-being. In keeping with our inclusive philosophy, we continue to maintain small class sizes to ensure optimum engagement and support student success. Our special hilltop campus, set in a nature reserve, is a safe haven where students learn in a tranquil environment that is optimal for learning and encourages creativity, high-level thinking, and innovation, including opportunities to engage in authentic biological and environmental studies.

In addition, we have in place a unique personalised learning programme which is developed over several years using research from the world of psychology and current thinking on how students best learn. Each student has a profile that tracks their performance which includes internal assessments, standardised tests, community engagement and anecdotal evidence.

As an integral part of this personalised learning programme, we use this data to identify teaching strategies, student pathways, and subject offerings for future years.

We believe in encouraging our students to customise their own learning journey, empowering them to be independent learners who can navigate the world with confidence.

Frequent dialogue with teachers and parents allows for reflection, strengthens the parent-school partnership, celebrates progress, and enhances student self-esteem and creative thinking. Since introducing our personalised learning programme in 2019, our IBDP average has increased by 2–3 points.

This year, ISS students achieved a 100% pass rate at the IB Diploma level: 15% above the worldwide average. 96% of students achieved a bilingual diploma (well above the worldwide average of 27.64%) and the average points achieved was 35; three points above the global average. These excellent results place ISS in the top 10 schools offering IBDP in Singapore.

John Wollaston Anglican Community School is a co-educational day School serving families in Perth's south-east for Pre-Kindergarten to Year 12. We are inclusive and welcoming of families from all backgrounds and faiths; a school where every student finds their place in our safe and nurturing environment, where they are free to be and inspired to become.

We are a World School of the International Baccalaureate Primary Years Programme (IB PYP) with a strong academic and pastoral reputation. At John Wollaston, we focus on the development of the whole person, teaching students to be inquirers, knowledgeable thinkers and communicators who are motivated to think for themselves, be courageous and make a difference in the world.

We believe character development is as important as academic progress. Strong relationships underpin the whole school journey. Our students' lives are transformed through connection, creating a positive culture and opportunities to thrive. Our pastoral strategies are designed to embed social and emotional learning across all age groups.

Service Learning and Encounter experiences facilitate character development and personal growth. Students are challenged to be better people who are kind, resilient and confident in their abilities.

The IB PYP encourages students to think critically and creatively through an inquiry-led curriculum. This culminates with the Year 6 PYP Exhibition in which students interrogate a central idea to showcase the depth and breadth of their learning.

Our strong academic and pastoral focus continues in the Secondary School, where John Wollaston provides the foundation for students to develop the knowledge, skills and dispositions for success in further education, work and life. In the 21st century, young people need to be lifelong learners, confident and resilient individuals and responsible change makers. With the world rapidly evolving around us, our teachers are working to 'future-proof' our students' education, providing them with more choice, agency over their learning and inspire innovation for future pathways. We support our students to become innovators, entrepreneurs, collaborators, ethical citizens, effective communicators and creators of technology by offering a range of curriculum and co-curricular opportunities from Years 7 to 10.

Our new approach to Senior Secondary course selection titled 'MYPath' has been designed to help students tailor their learning experience, tapping into their interests and providing flexibility around future pathways. From Year 11, students participate in 'MYPath' choosing from one of six streams of learning including an ATAR pathway, General pathway and one of four Vocational and Education Training pathways.

At John Wollaston, we are committed to making learning as dynamic as the world around us by presenting our students with real world contexts, transforming their knowledge to build a better world. John Wollaston graduates leave our school with a strong foundation for life, valuing personal best and possessing integrity and compassion.

In May 2022, 43 students at Jerudong International School (JIS) sat for the IB Diploma examinations. There are presently 358 students following pre-university courses in this vibrant community where the student voice is actively nurtured.

Founded in 1997, JIS is located in South East Asia, in the small, country of Brunei, on the island of Borneo. A direct flight from major international and regional hubs such as Singapore, Malaysia, Thailand, Vietnam, South Korea, Hong Kong and Japan, it is easy to access, making it an ideal school of choice for parents seeking an outstanding school in a safe, secure environment.

JIS is an IB World School; a British School Overseas (BSO), an international HMC School and recognised by the prestigious Good Schools Guide. A leading member of the Federation of British Schools in Asia (FOBISIA), Council of British International Schools (COBIS).

In January 2019, Jerudong International School, an IB World School, became the first international school in the world to achieve the highest rating in all nine areas inspected by the British Schools Overseas (BSO) inspectorate including Boarding.

The school is a thriving community with 1650 students from 55 countries (45% Bruneian), 3-18 years in age. 220 Boarders form a close community in bespoke accommodation, on campus. The School aims are: Communication, Engagement, Integration, Leadership, Resilience and Thinking. Students are encouraged to Challenge Yourself, Respect Others and Inspire Change.

The IB Diploma Programme at JIS

The 100 IBDP Students study in small classes (5-15 students) with up to 21 subjects on offer across the six IB Group areas. Theory of Knowledge (TOK) is taught in lectures, small group discussions and supplemented by lunchtime lectures from outside speakers, staff and students. The IBDP programme at JIS is a student centred programme designed to enable students to be actively engaged in academic subjects but also thoroughly grounded in world events so they can really make a difference.

Outstanding IB Diploma Results

In 2022, JIS IB students' average score was 35.4. The World Average IB Score was 32; 71% of JIS students exceeded the world average. The highest score achieved was 44 points. 40% of the JIS IB Diploma students achieved 38 points or more. These results are consistent and build upon the results of the past 11 years of offering the IB Diploma programme.

University Destinations

A specialist team of Higher Education advisors guide and prepare students for SATS, IELTS and University applications. 2022 graduate destinations include the UK – the University of Cambridge, Durham University, University of Manchester, Sheffield University, University College London. CANADA – University of Toronto, University of British Columbia. AUSTRALIA – Monash University, Melbourne. GERMANY – Ludwig Maximilians University. NETHERLANDS – Erasmus University. SINGAPORE – Nanyang Technology University. IB Diploma students also received a number of Scholarships.

Teaching Staff

JIS has almost 200 highly qualified teachers primarily from the UK but also a small number from Australia, New Zealand, South Africa. Our language teachers are native language speakers from China, France and Brunei. The IBDP is staffed by experienced academic teachers.

Pastoral Care

All students and teachers in the School are members of a House (a community of about 70 students) which plays a vital role in establishing and maintaining a strong school spirit and enabling leadership opportunities. The 16 Houses in Senior School, provide leadership, mentoring and teamwork opportunities. Weekly House sports competitions and other House Events including House Debates, House Music, JIS has Talent and Spelling Bees in addition to House social events are highlights.

The Campus

The 120 acre single campus is 'Outstanding'. The purpose-built, fully WiFi and networked school facility is located near the coast – a 15 minute drive from the airport. Students can use the Arts Centre (725 seat theatre, dance studio, black box theatre and rehearsal rooms), 27 science laboratories, extensive music faculty, art, design and technology and textile studios, libraries and traditional classrooms as well as the 2 swimming pools (50m and 25m), Extensive sports facilities include 3 large air-conditioned Sports Halls, netball/basketball and tennis courts and 3 soccer/rugby pitches. A Raquet Sports facility for squash and tennis and a well resourced library. A medical centre in the school and boarding is on site to take care of students. An award winning Outdoor Discovery Centre – an eco-forestry initiative on tropical heathland on the campus is regularly used for activities and also as an Outdoor Classroom learning space.

Boarding facilities

The 'outstanding' Boarding facilities for students aged 10 years + are purpose designed and built for the community of boarders. 217 girls and boys presently enjoy separate Boarding Houses cared for by experienced staff, including a Junior House. The Boarding Housemaster or Housemistresses are all teachers in the School. Boarders can also use the school facilities. A programme of weekend activities is arranged for the boarders to fully embrace the wonderful environment of Brunei.

Co-curricular Programme

Creativity, Activity and Service (CAS) builds on an extensive co-curricular programme with over 300 activities including a mature International Award programme, Model United Nations (MUN), ECO JIS, Diving, Sports and Performing Arts programmes.

K.R. MANGALAM GLOBAL SCHOOL – an IB Continuum School in New Delhi driven to raise progressive lifelong learners.

Education should prepare students today to combat global challenges. An international curriculum like IB supports students to widen their horizons and be more inclusive and accommodating. We at K.R. Mangalam Global School strive to nurture students who embrace empathy, are resilient, and can contribute to society from a range of perspectives. As part of the school's culture, we recognise the uniqueness of every child, believe in the intrinsic potential of each individual and develop it to its full potential. Our school believes in inculcating a goal-oriented approach amongst learners that gives them the required impetus to succeed not just academically but also develop their natural ability to empathise and respect people of all races and cultures.

The school advocates for an inquiry-based learning environment that is not only focused on critical and creative thinking, but also on creating a safe environment that promotes new ideas, nurtures creativity, and encourages an enthusiastic and deep sense of learning. At K.R. Mangalam Global School, the community is deeply involved in student-

led service learning-based co-curricular clubs, activities, and committees or in organizing events in support of charities and causes.

Learning diverse skills and fostering varied interests is at the core of what we do at our school. Whether it's our well-equipped laboratories, advanced robotics equipment, an inviting play area, an expansive performing arts platform, or a dedicated fine arts space and library, we aim to meet every child's diverse learning needs and create a wholesome learning environment. We earnestly believe that the essence of authentic learning is not confined to the four walls of a space. To celebrate this profound notion, we arrange field trips, literacy and numeracy weeks and exhibitions, university fairs and leadership conferences.

With a balance of academics and co-curricular activities, our school strives to provide all students with a safe and intellectually stimulating environment where they can cultivate habits of self-discipline, curiosity, and reflection. Our endeavour is to create responsible global citizens, equipped with an insight and perception to function in a multi-cultural environment, ready to pave a way for sustainable future.

Kardinia International College is a high achieving and highly respected Kindergarten – Year 12 educational institution. The College was established as a symbol of hope for the world, developing knowledgeable and compassionate, globally minded citizens who act as agents of positive and sustainable change.

The College is independent, coeducational, and non-denominational, providing a caring environment for 1900 day and international students.

The College is renowned for the safe, respectful, and inclusive learning environment, which enables students to thrive. We actively encourage our students to develop their social, personal, intercultural, critical thinking, and ethical (SPICE) skills and attributes that enable and inspire them to actively contribute to a more inclusive, respectful and peaceful, and sustainable world. As an IB World school, we offer the Primary Years Programme (PYP) in Kindergarten-6, a vertical curriculum based on the guidelines of the Victorian Curriculum and Assessment Authority to students in Years 7-10 and both the International Baccalaureate Diploma Programme (IB) and the Victorian Certificate of Education (VCE) in Years 11 and 12. In the Senior School, the vertical curriculum offers many advantages, as students' progress at a rate appropriate to their ability, rather than age. Able

students can fast track subjects, while other students can allow extra time for consolidation. Some students complete the IB Diploma or VCE in five years, most in six. An extensive range of VCE and IB subjects are available.

The Senior School curriculum is further strengthened by our International Immersion Programs. Our Year 9 students can join our positive, life changing up to eight-week Chiang Mai program in Thailand. Students can also visit our sister schools; Gotemba Nishi High in Japan, Saint Alyre in France, and Discovery College in Hong Kong. Our world class facilities include Katsumata Centre with our 1500 seat theatre and gymnasium, Goodfellow Aquatic Centre with a 25-metre indoor pool and cafe, School of Performing Arts, Learning Commons, six ovals, six tennis courts, a 1560 seat outdoor Amphitheatre and much more. Our main, 22-hectare campus is in Geelong (near Melbourne), our Year 5, 11-hectare farm campus in Lovely Banks and our 2.5-hectare campus in Chiang Mai, Thailand.

Kardinia International College is renowned for the outstanding results our students achieve in Year 12 examinations every year. We maintain a strong focus on academic excellence, pastoral care and developing globally minded citizens prepared for the challenges of a rapidly changing world.

Kingston's mission is to provide a challenging and stimulating environment that nurtures the balanced development of students who, in their own unique way, grow into active and responsible world citizens. Kingston Children's Centre was established in 1996 and quickly grew into a highly successful bilingual Kindergarten using English and Mandarin Chinese as the medium of instruction. With popular demand from our parent community, our Primary School opened in September 2001 as a pathway for our students to continue their education in a bilingual setting and with the Kingston philosophy. The International Baccalaureate Primary Years Programme was introduced at the same time. In 2004, Kingston was the first school in Hong Kong to gain IBPYP authorisation. Since 2010, Kingston has been able to offer our students a through-train to the IBDP through our partnership with ICHK Secondary School.

Our school is spread over three cozy campuses, located very near each other in Kowloon Tong, Hong Kong. Members of the community who take the opportunity to walk the halls and visit the classrooms of Kingston often comment

on the fluidity with which our students switch between the two living languages of our school, Mandarin and English. Collaborative teaching practices ensure an ideal environment for native fluency in both of our languages of instruction.

The Kingston community feels like an extended family in which multicultural collaboration has resulted in an excellent, rigorous, bilingual program. We value inclusive learning, which is reinforced by our approach of keeping class numbers low and teacher numbers high. All of our teachers are fully qualified native speakers of their taught languages and come from all over the globe, bringing with them a wide variety of experiences.

For over 25 years, Kingston has successfully provided a bilingual education for learners whose families wanted an international education for their child without foregoing the opportunity for their child to become a bilingual communicator who is confident in using both English and Mandarin. At Kingston we remain committed to the transdisciplinary approach to education, to innovation and to a lifelong learning journey.

Kororoit Creek Primary School is a fully authorized PYP school, catering for 3-12-year olds. The school is in Public-Private Partnership, maintained and operated through a connection of government and private sector companies. Established in a high growth area, the school has grown from 260 students in 2011 to over 1600 in 2022. We pride ourselves on being a true representation of our community, with over 50 languages and cultural backgrounds.

The school implements the PYP framework underpinned by the Victorian Curriculum, a transdisciplinary curriculum outlining the key outcomes and expectations of the Victorian Government. The curriculum supports us to unpack the Essential Elements using explicit Scope and Sequence documents, ensuring all students are working within their Zone of Proximal Development.

Being a PYP school, we have a major focus on documented

curriculum, assessment and shared pedagogical approaches. We also have a major emphasis on evidence-based school improvement strategies. These strategies include the moderation of common student assessment tasks, data collection and analysis as well as evaluation of student learning growth over time. Timely and effective feedback to its community of learners underpins every student's personal learning goals. Teacher professional practice activities are rigorous and differentiated.

With a whole school approach to health, wellbeing, inclusion and engagement, KCPS supports strong community values that underpin its safe and orderly learning environment. These contribute directly to the school's positive standing and high reputation within the immediate and broader area.

Kristin School is an independent, modern, co-educational International Baccalaureate (IB) World School located in Albany, Auckland with more than 1800 students aged from six months to 18 years old. Established in 1973, Kristin is non-denominational and welcomes students from all cultures and backgrounds, attracting students from 40 different nationalities.

Based in New Zealand’s most dynamic city, all of Kristin’s learning environments share the same 50-acre, parklike campus: Little Doves Early Learning Centre, Kristin Kindergarten, Kristin Junior School (for 5-10 year olds), Kristin Middle School (for 10-15 year olds) and Kristin Senior School (for 15-18 year olds).

Kristin was the first IB World School in New Zealand offering the IB Diploma Programme since 1986, and the first school to offer the IB Primary Years Programme, IB Middle Years Programme and IB Diploma Programme (DP) catering for students from Year 0-13. Kristin students regularly achieve at levels well above global averages, with more than 25% achieving scores of 40+ points, placing them in the top 2% of students worldwide. Our students also receive a high quota of scholarships to Oxbridge, Ivy League and top universities in Asia Pacific.

Our small class sizes are critical in providing personalised learning opportunities, and a balanced education at Kristin goes beyond providing a positive school culture. We ensure students are taught skills that will enhance their wellbeing, help them cope with life’s challenges, strengthen their relationships with others and enable them to pursue a happy, healthy and prosperous life.

In summary, Kristin offers a:

- Modern, multicultural, co-educational, non-denominational environment with solid, aspirational values
- Proud record of high academic results and scholarships being awarded locally and internationally
- High level of teaching expertise, with many teachers internationally trained and experienced
- Focus on student wellbeing and developing future-ready citizens
- Choice between the national NCEA or IB Diploma Programme curriculum options for senior students
- Nationally acclaimed performing arts and outdoor education programmes
- Vast range of community service and leadership opportunities
- 30 different popular and niche sporting codes
- Experiential Learning through a wide array of trips and exchanges with more than 15 partner schools overseas
- 50-acre, park-like campus and extensive facilities: two theatres, art, dance and drama studios, a green room/ media suite, huge library, numerous sports fields, gyms and courts, technology workshops and more!
- Dedicated bus service travelling 20 routes across Auckland.

For all admission enquiries, please visit kristin.school.nz or call our Admissions Manager on +64 9 415 9566 ext 2324. We look forward to sharing more information with you to help show why Kristin School is the right choice for your child.

Léman International School Chengdu (LIS) welcomes students from Pre-nursery to Year 13 on its 50 acre campus.

The Primary School uses the English National Curriculum for Maths, English, Computing and PSHE. This is integrated with the International Primary Curriculum (IPC), currently used in over 1000 schools in 65 countries, to give a truly international educational experience throughout the Primary years. The Secondary School, from Years 7 to 11, is based upon the International Baccalaureate Middle Years Programme, with Year 12 and 13 following the International Baccalaureate Diploma Programme. LIS offers foreign languages including Mandarin and French. Korean and German are also offered to its native speakers.

LIS has world class facilities on an extensive campus, including fully equipped modern classrooms, science laboratories, an art studio, music studios, I.T. rooms, maker spaces, gymnasium, 25 meter indoor swimming pool and further outdoor sports facilities, including two full size football pitches; this allows us to offer an extensive extra-curricular activity program as well as comprehensive sports and arts programs.

We are proud that 3 out of 4 of our graduates have chosen, and been admitted to, the world's top universities (according to the QS World University Rankings 2022). Our graduates attend the very best universities in the world, including Oxford, Tsinghua, UCL, LSE, UBC and NYU. We have graduates attending top Art & Design Institutes, including University of Arts London, the School of Visual Arts, and the Fashion Institute of Technology.

LIS is accredited by the Council of International Schools (CIS), the New England Association of Schools and Colleges (NEASC) and Council of British International Schools (COBIS).

LIS is part of the global Nord Anglia Education family and this gives us a unique link to collaborate with schools and pursue opportunities worldwide. This includes the world leader of performing arts education, The Juilliard School, and the world's top university, MIT, as well as our collaboration with UNICEF, whereby students have their social consciousness raised so they care more deeply about the world and the people in it. Our unique online and classroom collaboration platform, Global Campus, connects more than 70,000 Nord Anglia students, and the Nord Anglia University platform enables the very best professional development for our staff.

Located approximately 30 minutes from Fukuoka city-centre, Linden Hall High School's goal is to nurture individuals who will play an active role in a rapidly globalizing, dynamic world. Our philosophy, "Develop the individual, instill them with confidence, and send them out into the world" reflects this. In 2013, we became the first Article 1 school (a school recognized as meeting the requirements of the Japanese national Curriculum, guaranteeing that IB graduates are awarded a Japanese High School Diploma as well as the IB Diploma) in Kyushu certified as an International Baccalaureate World School.

In this fast-changing global society, with all its challenges, the need to cultivate open-minded global citizens who can utilise English fluently in various intercultural settings is increasingly apparent. We have therefore adopted an English immersion approach, in which the majority of classes other than Japanese Language classes are conducted in English. Through interacting with teachers and students from around the world, students naturally acquire both English language skills and respect for diversity. Our classroom methods encourage students to engage actively in their learning and discover the joy of unravelling the world's mysteries. Until high school, students progress through a common curriculum before electing, in Year 10, to pursue either the

International Baccalaureate Diploma Programme (IBDP) or the Think and Inquire (TI) Course (for students wishing to continue the National Curriculum).

We also provide numerous opportunities for students to study abroad and participate in international exchange and volunteer programmes. In 2018, we became a member of Round Square, an association of approximately 200 private schools from over 50 countries. Founded in 1966 to develop the next generation of international leaders, member schools participate in international exchanges, conferences and various other activities.

The school building is an airy structure, built to make the most of natural light. It is fully air-conditioned with learning facilities such as IT, Art, and Music rooms, a Science laboratory and Wi-Fi in every classroom. The Library houses 12,000 books, one-third of which are in English, and provides subscribed access to many online resources. Next to the school is the cafeteria, where chefs and registered dietitians serve Japan's first year-round organic school meals. The surroundings feature lush greenery and the classrooms offer a panoramic view, including the 60,000m² English Garden – an ideal place to relax and observe nature. Our dormitories, one for boys and one for girls, are within easy walking distance.

Where better to study the IB diploma than at the International French School of Sydney?

Located between Sydney's famous beaches and the central business district, the Lycée Condorcet is an international school with a welcoming and friendly campus. Here, for the past 50 years students of all nationalities from ages 3-18 study the rigorous French curriculum, renowned for its excellent academic standard. Since 2005, the Lycée Condorcet also offers the IB Diploma Programme in Year 11 and 12, attracting ambitious students from diverse backgrounds with one common goal; to become informed, inquiring and active global citizens.

While other Lycée Condorcet pupils study at a native French and English level, IB students are not required to have any prior French language knowledge as the program is taught in English. Therefore, students will learn French at their own pace with classes ranging from introductory to native level. In fact, students benefit from the opportunity to obtain the prestigious bilingual IB diploma in French and English.

Our school operates on the northern hemisphere calendar – the school year begins in August and final IB diploma examinations are held in May.

Although the Lycée Condorcet student body consists of approximately 1100 students representing over 50 different nationalities, the school consciously limits the IB class sizes in order to facilitate individualised learning. Through the promotion of French and Australian cultures, we aim to develop inquiring, knowledgeable and caring young people while working to promote international and intercultural understanding and respect.

The Lycée Condorcet belongs to the global network of French Schools Abroad, the AEFÉ, an active network in which students interact regularly through projects, sports competitions, cultural events and more. Students are able to not only transfer seamlessly from one school within the network to another, but also to meet and build friendships with children from all over the world, making friends for life.

Visit our website to embark on your IB journey:

**Internationally renowned**

Situated in the leafy foothills just 6 kilometres from the city centre, the Mercedes College campus has beautiful gardens, open space and great learning facilities.

A contemporary Reception to Year 12 International Baccalaureate world school, Mercedes College is renowned for providing students with a world class education. Offering all three programmes, the College promotes the education of the whole person, emphasising intellectual, personal, emotional, spiritual, and social growth through all domains of knowledge.

Mercedes College is a learning community in the Mercy tradition, where a strong sense of belonging is fostered and values are lived as we develop creative, caring and critical thinkers who are responsible, compassionate, loyal, show integrity and mutual respect, and have a strong sense of justice.

Achieving success

Through a progressive, internationally focussed curriculum underpinned by values, we prepare our students as future local, national and global community leaders by providing opportunities that enable each of them to reach their full potential.

Success at Mercedes College is measured by academic achievement, plus each student's abilities, breadth of skills and confidence. The wellbeing of our students is deeply intertwined with our curriculum, facilities, approach to teaching and the connection between students and their teachers.

High performance

Set to open in early 2024, the new \$25 million Arts and Sports Precinct will be where students refine their performance skills, train and compete in a high performance indoor sports complex, and celebrate achievements in our community plaza.

**Mission**

Merici College empowers women to love life, have hope, be faithful and build futures more wondrous than they dare to dream.

Vision

Merici College endeavours to be a vibrant, faithful learning community that fosters excellence, and takes positive action to build a shared global future.

Merici College is a Year 7-12 Catholic girls' college, situated in Braddon in the heart of Canberra. We are very proud to be the oldest established Catholic girls' secondary school in Canberra.

Merici is a vibrant community committed to preparing confident and competent young women well equipped to contribute to the world beyond high school. We create innovative learning environments that meet the needs of individual students and inspire them to strive for the highest levels of personal achievement. We challenge our students to take risks within and beyond the classroom to achieve individual academic excellence.

Merici College is a welcoming community, where authentic relationships are nurtured, and dignity and integrity are affirmed. We seek to foster a life-long love of learning within our students, where each young woman is given the opportunity to grow spiritually and intellectually to make a positive contribution to society. Families also enrich Merici from diverse Christian and other faith traditions.

Academic

We teach the Australian Curriculum in the Junior Years (Years 7-10) delivered through the Middle Years Framework. At the senior level, students choose to study either the IB DP, or our local curriculum. We offer a range of opportunities for gifted and talented students, including differentiated teaching, acceleration, enrichment, and support for students with specific learning needs.

Cocurricular

We believe it's vital that every Merici Girl gets the chance to explore their passion, be creative and try something new. Our co-curricular and enrichment opportunities have something to suit everyone, from our Sustainability at Merici (SAM) group to Art Club and a vast array of sporting teams, including a robust set of Netball teams.

Vertical House System

One of the strengths of our college is the strong House System and excellent pastoral care provided. The six Pastoral Care (PC) Groups in each House are vertically streamed, and students remain in the same PC group throughout their six years at Merici. This encourages positive relationships and a sense of belonging and continuity for students and their families. It also provides leadership opportunities for older students who support and mentor the younger ones.

MLC School is an independent, non-selective Uniting Church school for girls from Pre-Kindergarten to Year 12 in the Inner West of Sydney. From Pre-Kindergarten through to their time as Senior School students, MLC School girls dare to be more. In 2020, MLC School was the highest-ranked IB School in Australia.

Led by a highly professional staff under the guidance of Principal Lisa Moloney, girls are challenged and encouraged to question traditional perceptions and roles of women and are instilled with the skills and confidence to take their place in an ever-changing society. MLC School prepares girls for a life of learning by motivating them to pursue excellence, demonstrate integrity, celebrate diversity, embrace world citizenship and live with humility. A wide selection of subject choices, as well as an extensive co-curricular program aims to empower girls to be self-reliant and play an active role in their futures.

The award-winning Senior Centre, opened in 2019, takes classroom practice to a new level and is reflective of modern workplaces. The aim is to equip girls with the skills to be successful in a collaborative, team environment and to be comfortable in open-planned, flexible spaces designed for impromptu group work sessions.

Year 7 to Year 10 are pivotal years at MLC School where girls experience Immersive Learning journeys that broaden each year. The experiences, that may take place locally, regionally, or abroad, aim to broaden horizons, encourage resilience and foster a growth mindset to underpin success in their senior years of schooling. Each immersive learning experience is unique in its design, but they all have some common threads that link the experiences together. Academically, each girl takes responsibility for her own path in the final years, and this is a crucial stage in her journey towards becoming an independent, fearless and empowered young woman.

Girls can choose between the Higher School Certificate (HSC) or the International Baccalaureate (IB) Diploma Programme, with nearly 40 per cent of students choosing to study the IB. In 2021, the School was named No 1 IB School in Australia and a Top 50 Global IB School.

Over 64 MLC School girls have achieved the perfect IB Diploma score of 45, since the programme was introduced in 2002, and all girls consistently score well.

Visit the campus, meet the girls and professional teaching staff, and experience the benefits of joining the MLC School community.

Nexus International School (Singapore) is an international school with children from over 55 different nationalities, catering to ages 3 to 18. International Baccalaureate (PYP, MYP* and Diploma) and the UK IGCSE curricula are offered, ensuring the easiest transition from home country to Singapore and to the next adventure.

At Nexus, we cater to each child's personal strengths, motivations, talents and level of understanding. We empower children to learn by encouraging them to be independent and teaching them to be critical thinkers. We use ongoing assessments to track each child's performance, with our learner outcomes for our core subjects of English, Mathematics and Science measuring well above the international average. Our child-centred philosophy is echoed by every teacher, in every class and in every extra-curricular activity.

Nexus offers a world-class education that is internationally recognised and accredited by the most respected awarding bodies. We foster a strong community where parents, teachers and children collaborate in learning-focused environments and build strong relationships based on an open-door policy that encourages regular communications between parents and teachers. At Nexus, the learners are at the heart of everything we do, even down to our school

campus that was purposefully designed by our educators to reflect and enhance our core educational philosophies. Our innovative learning environments support and enhance the learning experience by giving learners the opportunity to choose their own learning style and surroundings, thus developing self-efficacy. As a three-time recognised Apple Distinguished School, we pride ourselves on innovative and technology-rich approaches to tap into children's natural motivation to learn.

We also believe that learning entrepreneurship skills benefits learners from all backgrounds, inspiring out-of-the-box thinking and innovation. If learners bring ideas forward, we support them to make things happen.

We help our learners achieve their personal bests. In 2022, the average IB grade was 36 points, with a top score of 44 points and a 100% pass rate. 49% of our learners' grades achieved were at least one grade above standardised predictions, with 56% of all grades being 6 or 7 points.

**Nexus International School (Singapore) has passed its candidacy for the IB MYP. This programme will continue for each subsequent academic year, MYP Year 8 in 2022/23 and MYP Year 9 in 2023/2024. Until then, learners will continue the English National Curriculum.*

**The hub of Sydney, Australia**

Newington College is an International Baccalaureate World School in the heart of Sydney. It includes a Primary Years Programme (PYP) satellite prep school, based in Lindfield on Sydney's upper north shore, and a boarding house for secondary students on the main campus in the inner west suburb of Stanmore.

It's only ten minutes from Sydney International Airport and Central station, and five minutes from the prestigious University of Sydney.

Surrounded by a number of universities, theatres, libraries and museums, the location gives boys of all ages the opportunity to access a range of learning and cultural resources, and work with experts from other nearby centres of learning.

The College attracts a diverse range of students from greater Sydney, regional areas, and the Asia-Pacific, with the lush gardens and playing fields creating an oasis of learning within the bustling city.

A tradition of inclusivity and critical thinking

Founded in 1863 with an inclusive policy that declared it 'open to the sons of all', the founding fathers realised the need for a quality educational establishment to help boys develop into men that will make a positive difference.

Newington College's holistic approach to education and unique focus on critical and creative thinking, makes it a remarkable place to educate your son.

Its families value the approach of teaching children how to

think not want to think, while being open to other student's views and perspectives – a belief espoused by the IB.

The College strives to reaffirm a culture that is vibrant and caring while encouraging their boys to be courageous, open-minded, creative, and curious, valuing both independence and teamwork.

Rigorous approach to learning and teaching

Lindfield Preparatory School offers the PYP (Primary Years Programme), while the senior school is the only Greater Public School (GPS) in Sydney that allows students to choose between the Higher School Certificate (HSC) examination and the IB Diploma Programme.

The IB Diploma is a popular option for many boys at the College and the results achieved are outstanding. Newington is committed to providing an internationally respected education with access to the best teachers, facilities and opportunities. Students are encouraged to take a global perspective to their studies and immerse themselves in their own areas of interest and passion.

The College is equipped with the latest technology and industry level facilities including a modern technology centre, 200-seat drama theatre, light-filled library, lecture theatre and super-labs.

Wellbeing, values, and spirituality

The teachers share a passion for their areas of expertise and build strong connections with their students – tailoring their teaching style to suit each individual.

The boys value their teachers and coaches genuine interest

in each of their wellbeing, passions, goals and setbacks, something the college is highly committed to.

The staff want to empower the boys to develop great hearts, inspired minds, and strong wings, who will leave the college ready to make a positive contribution to society and the future.

As a Uniting church school, Christian values are the backbone of the community. This includes welcoming students and families of all faiths and cultural backgrounds.

The boys are expected to build a sense of social responsibility, service to others and the development of strong and lasting relationships – not only with teachers and students but parents, families and past graduates (Old Boys). The College strives for every member of the Newington community to feel welcome, connected and appreciated.

Extensive co-curricular opportunities

Newington encourages all boys to experiment and grow through participation in a variety of co-curricular activities and tours in Australia and abroad, to help them discover their unique passion and interests.

These opportunities are a large part of what sets the college apart, with boys combining academic life with sports, arts, outdoor education, and hands-on learning activities.

Results

Out of 35 students doing the IB in 2021, 27 received an ATAR rank over 95. For Newington College, the median score was 40/50 which is equivalent to an ATAR of 97.90. The average was 39/45, compared to a global average of 32/45. Underpinning these results were some exceptional individual performances across all subjects.

As the first and only full, not-for-profit IB World School in Bangkok, NIST International School offers a world-class education to students from the early years to high school levels. Established in 1992 with the guidance and support of the United Nations, the school now welcomes over 1,760 students representing more than 76 nationalities. NIST is governed by the parent-elected NIST International School Foundation and was the first school in Thailand to receive triple accreditation through the Council of International Schools (CIS), New England Association of Schools and Colleges (NEASC) and Office for National Education Standards and Quality Assessment (ONESQA).

Recognized worldwide for its progressive approach and international scope, the IB framework provides students with critical 21st century skills that align to the demands of the modern workplace. Through the IB and its own unique programmes, NIST aims to inspire, empower and enrich lives. The academic structure encourages students to explore, take risks and make connections across disciplines. Student-driven service learning plays a central role, as they learn to understand and empathize with others, and take an active role in solving local, national and global issues. NIST also partners with other top schools around the globe to offer the

Global Citizen Diploma, an optional qualification that allows graduates to showcase strengths in leadership, service and community engagement.

In addition to its rigorous academics, NIST offers an expansive World Languages Programme and over 300 extra-curricular activity options. As one of the founding members of the Southeast Asia Student Activity Conference (SEASAC), the NIST Falcons compete against their peers from other top schools in Southeast Asia, as well as students around the globe. NIST has also committed itself to excellence and innovation in the use of technology. Students benefit from personal MacBook Air computers, iPads, a completely wireless campus, SMART Boards, the FrontRow classroom amplification system, and LCD-equipped classrooms.

NIST represents the future of learning through its stellar academic achievements and expansive resources. More importantly, the school has been successful in fostering reflective, principled learners with a passion for making a difference in the lives of others. With its graduates attending the best universities around the globe and going on to become community leaders, NIST has become recognized as one of the world's leading international schools.

Established in 2002, Nord Anglia International School Shanghai, Pudong (NAIS Pudong) is an excellent international school focusing on high achievement for every child and success across all subject areas. The school offers the very best of the British education system in China for children aged 2 to 18 years.

NAIS Pudong provides students with a highly academic environment, and a warm, welcoming and diverse international community. Its rigorous, contemporary and globally focused curriculum challenges and excites children from their early years through to the International Baccalaureate Diploma Programme (IBDP).

To complement classroom teaching, NAIS Pudong offers a broad co-curricular programme that encourages students to take risks, nurture their passions and serve others. Globally respected curricula are enhanced by innovative collaborations with world leading organisations such as The

Juilliard School, Massachusetts Institute of Technology (MIT) and UNICEF to ensure that every student develops the skills and mindset needed to thrive in an ever-changing world. Its Global Campus connects the Nord Anglia Education family of 69 schools, giving NAIS Pudong students access to a variety of exceptional learning opportunities worldwide.

NAIS Pudong wholeheartedly embraces the educational philosophy and pedagogical principles that underpin all IB programmes. This approach has resulted in the establishment of an optimal learning environment whereby its students are able to achieve outstanding academic results.

At NAIS Pudong, we nurture every student to achieve academic success, enabling entry into the world's leading universities.

You want your child to excel, so do we.

Nord Anglia International School (NAIS) is part of Nord Anglia Education's (NAE) global family of international schools. A through-train school known for its warm and friendly global community, made up of over 40 nationalities, NAIS nurtures every child to develop a love of learning, enabling them to achieve more than they ever thought possible.

NAE's Global Campus helps students explore the world, learn new skills and set their sights higher, developing a truly international perspective through outstanding online, in-school and worldwide experiences.

NAIS educates children for the future, enhancing its

curricula through collaborations with the world's best organisations including MIT and Juilliard. Through opportunities to learn from the best, experiences beyond the ordinary, and the encouragement to achieve more than what they thought possible, NAIS helps students succeed anywhere through a unique global educational offer.

NAIS follows the frameworks of EYFS, IGCSE and IBDP. With a focus on individualised learning, the school's rigorous curricula ensure that students have a creative and challenging learning experience.

North London Collegiate School Jeju, is an international boarding and day school based in South Korea. The School provides an exceptional education, one in which our students excel academically. They achieve outstanding results and secure places at prestigious universities around the world. Our students are passionate about learning; they are independent thinkers and have an intellectual curiosity that is admirable.

NLCS Jeju provides an environment, which strikes a healthy balance between academics and co-curricular activities; we focus on the whole person. Our programme is designed to inspire confidence, individuality and develop self-esteem. Modelled on our founding school in London, we are a positive and energetic community where both boarders and day students are encouraged to take advantage of the exceptional range of opportunities open to them; academics, sports, the arts, service and much more.

International Outlook

NLCS students are internationally minded and well informed about the world beyond the School. The IB Diploma

resonates with the values of NLCS Jeju, and its international dimension affords students the opportunity to be part of a programme which is recognised throughout the world.

Academic Excellence

We have offered the IB programme since 2011 and have had a consistent record of success. Diploma candidates in the Class of 2022 achieved an average of 38 points, with 43% achieving 40 points or higher, including two achieving a maximum 45 points.

Looking to the future

The Class of 2022 showed another outstanding performance. Now they begin their studies at many of the world's top universities – with offers from universities including; the Columbia, Cornell, Carnegie Mellon, New York, Stanford, Oxford, Cambridge and St Andrews. Other destinations around the world are Canada, Hong Kong, Japan and South Korea. The IB Diploma programme offered at NLCS Jeju ensures that students enjoy an exciting and academically stimulating Sixth Form experience, providing them with an excellent preparation for life at university and in the wider world beyond.

Students of NPS International School have attained a cohort average score of 39.5 points in 2022. 56% of our students scored 40 points or more. 88% scored 35 points and more and above. 8 students have scored a perfect score of 45 points. With these results, the school is placed among the top 3 IB Schools in Singapore in terms of IBDP average score.

National Public School (NPS) group of educational institutions headquartered in Bangalore, India, has an enviable track record of academic excellence spread over six decades, nurturing 15,000 children each year in over 10 campuses.

In operation since 2008, the day school, welcomes students to its child-centred environment, offering Montessori, Nursery, Kindergarten, Grades I to Grades XII, IBDP and IGCSE programmes. Student-teacher ratio is a healthy 1:13 and the IBDP subjects have an average class size of 16 students. The key difference between NPSI and many other groups of schools is the consistent Top Performing IB results and the founding governors are educationists with vast experience in

a wide range of educational contexts.

That richness of experience brings a maturity of systems and vision has been recognised, valued and endorsed by parents.

Join NPS – a Top International IB School located in Singapore. We strive to foster academic excellence and a sense of well-being in our carefully curated positive – learning environment. We encourage your child to blossom into an active, critical learner filled with compassion. Be a part of us and enjoy the impactful educational experience!

Our Vision

Inspiring young minds and empowering them to have a positive impact on the world.

Our Mission

- Providing a child-centred, holistic, and value-based learning experience.
- Encouraging creativity, innovation, confidence, and critical thinking in a safe and nurturing environment.
- Fostering leadership, empathy and engagement in humanitarian and environment service.

**A Thoughtfully-priced Education, A Lifelong Impact**

One World International School offers a rigorous, developmentally-appropriate IB education at a thoughtfully priced fee structure. Our IB curriculum combines a personalised approach with international standards, focusing on nurturing the natural love of learning within every child. Research has repeatedly demonstrated that for children to thrive academically, they must be engaged and enthused about their learning. At OWIS, our carefully designed curriculum incorporates hands-on learning experiences within a supportive environment to prepare students to become the leaders of tomorrow.

A truly international learning environment

OWIS brings together students from over seventy nationalities with a diverse staff. Children have the opportunity to learn and discover in an international environment that prepares them for our global society. As part of our programme, we are committed to providing all students with opportunities to learn other languages with a particular focus on Mandarin across the whole school.

A holistic learning environment

Students at OWIS have access to a future-ready curriculum that not only sets them on the path of academic excellence, but also emphasises the importance of holistic development. Children are nurtured within and outside the classroom

environment with rich and varied opportunities to learn sports, perform on stage and work with hands-on projects that stimulate their love of learning.

At OWIS, we understand the importance of personalised learning with each child being given individualised attention and feedback. Our classes, therefore, are capped at 24 students to maintain a small and inclusive environment and ensure that each child receives the attention they need to thrive academically, emotionally and socially. The deep relationships that our teachers develop with their students help to create a welcoming, safe environment for every child to succeed.

Access to the latest in technology and education

Society has rapidly become dominated by digital technology and students today need to be given appropriate opportunities to embrace these technologies. At OWIS, we believe that students should have access to this technology under the guidance of their teachers who carefully consider how and when to incorporate it into the teaching and learning. Our focus is to enhance every child's creativity, communication skills and technical skills. The OWIS values of being "One with the World" provide a balanced, rigorous educational experience that nurtures lifelong learners, unique thinkers and future leaders.

Established in 1991, Overseas Family School (OFS) is a Pre-K to Grade 12 international school that serves a vibrant multicultural community of approximately 70 nationalities. With a beautiful, modern campus located in the eastern part of Singapore, OFS is accredited by Western Association of Schools and Colleges (WASC) and offers the International Early Years Curriculum (IEYC) for Pre-K1 (2 years old) to K2, the International Primary Curriculum (IPC) for Grades 1 to 5, and the International Baccalaureate (IB) for Grades 6 to 12. Students can also pursue the Cambridge International General Certificate of Secondary Education (IGCSE).

At OFS, students learn and grow in a dynamic, diversity rich environment promoting personal initiative, intellectual curiosity and respect for different perspectives. Academic programs at OFS are rigorous and thoughtfully-designed. OFS' highly-acclaimed International Baccalaureate Middle Years and Diploma Programmes (IB MYP and IB DP) immerse students in a wide range of stimulating course offerings designed to help them make practical connections between their learning and the outside world. Because we believe that every student can succeed, OFS students are not preselected into the Diploma programme. Any student who wishes to pursue the IB Diploma programme is allowed and encouraged to do so, making this one of the most inclusive IB Diploma programmes offered in Singapore. We take great pride in our students' academic achievements. With a 98%

pass rate, our students' IB results well surpass world averages and the school has consistently produced students scoring a perfect 45 points year after year. Approximately 37% of the diplomas awarded every year are also prestigious IB Bilingual Diplomas, reflecting the exceptional language resources and support available at OFS. The school's extraordinary language acquisition programs support students in their learning journey. Our Study Preparation Program (SPP) is best-in-industry for rapid English language acquisition, while our Mother Tongue Program is the most extensive amongst international schools in Singapore, with 14 different languages on offer. This thoughtful attention and dedicated support, provided at no additional cost, allows many students joining OFS or returning home to quickly progress and join mainstream classes without losing an academic year.

To support the holistic development of students, OFS also encourages broad participation in the arts, sport and other extracurricular activities (ECAs). A wide array of ECAs are open to all students and provide many opportunities to explore interests, join teams and leadership groups, and contribute to the local community. Through our Competitive Sports programme (OFS Tigers) and Enrichment Programme OFS students also enjoy access to an exciting variety of sports ranging from swimming and gymnastics, to badminton, basketball, touch football and sailing at the recreational or competitive skill levels.

**Mission**

QSI International School of Chengdu promotes the success for every child through quality instruction and character development in a caring, challenging, multicultural environment.

Academic Program

QSI has a strong belief that all students can succeed. The learned outcomes needed at mastery level are clearly defined; students have more than one chance to be successful in demonstrating mastery.

In addition to academics, our Success Orientations are a vital part of the entire school experience. Personal habits, the ability to interact successfully with others, responsibility, trustworthiness, kindness, and other factors in this realm areas important as the knowledge one learns and the competencies one gains. The QSI Success Orientations compliment the IB Learner Profile.

IB Program

The IB program at QSI Chengdu is our most rigorous college preparatory program offered and take an inclusive approach with all students and do not restrict access to IB courses. We encourage students to challenge themselves and have a 100% pass rate on all IB exams.

Faculty & Staff

We are a family of leaders and learners at QSI Chengdu. Our faculty and staff come from across the world, which reflects our student diversity. Our staff come prepared with qualifications and training in best practices to ensure they have the skills to facilitate higher level learning and social-emotional development of all students.

Accreditation

QSI International School of Chengdu has been accredited by the Middle States Association since 2008.

QSI International School of Haiphong is nestled in the quiet Me Linh Village, a small residential community in the south of the city of Haiphong. Here, 220 students from Preschool through Graduation gather together to learn daily.

The school, in operation since 2004, has recently moved to its current campus where it offers two new purpose-built buildings that include an Elementary library, a Middle School-Secondary library, a science laboratory, a music exploration room, a black-box theatre, full-service cafeteria, an early childhood center, and classrooms outfitted to provide cutting-edge 21st century learning experiences. In addition to swimming pool and tennis court access, extra-curricular facilities include a turfed soccer field as well as an outdoor court for basketball, volleyball, and badminton.

QSI International School of Haiphong is accredited through

the Middle States Association of Colleges and Schools (MSA), an accrediting body from the United States. Last year, the school also received its verification to join the International Baccalaureate Organization.

The school offers students both the opportunity to take the full IB Diploma or certificate courses. Beyond the IB Core classes (Theory of Knowledge, Community Activity Service, and the Extended Essay), we offer Language & Literature, Physics, Mathematics, Theatre, Music, Chinese ab initio, and History. For students who have a desire to take courses that we do not currently offer on campus, we have access to Pamoja online, which provides students with additional IB course options in a distance-learning format. As we continue to grow our program, in addition to our IB team, we will continue to add more course options to be taught in person.

QSI International School of Shenzhen is a private, nonprofit preschool through Secondary IV co-ed, college-preparatory, day school. It was founded in 2001 to provide a quality education in English for the children of expatriates in Shenzhen. The school is part of Quality Schools International, a consortium of nonprofit international college-preparatory schools with American style curriculum. It is fully accredited by the Middle States Association of Colleges and Schools (MSA) and is a member of the East Asian Council of Overseas Schools (EARCOS) and the Association of China and Mongolia International Schools (ACAMIS).

QSI International School of Shenzhen believes in a personalized approach to instruction leading to mastery of clearly defined objectives within a positive and enjoyable learning environment. It offers a challenging academic curriculum for students age 2 through Secondary IV and utilizes the Mastery Learning model of instruction. This model results in students learning more information compared to traditional school methods in which students receive a percentage grade and then move on. As a Mastery Learning school, we care about our students mastering 100% of their course content because we believe that any gaps in learning, if left unchecked, turn into deficits, difficulties, and frustrations in learning in the future. Therefore, QSI teachers

work with students until all course content is mastered and allow students to use time as a resource, instead of a limiting factor, in their classroom.

Success for All is the motto of Quality Schools International. Research indicates that successful people have developed personal orientations that lead to success, and these character traits are at least as important as the knowledge one learns and the competencies one gains through classroom instruction. The Success Orientations are actively encouraged and taught in virtually all areas of the QSI school curriculum with the view of making them a vital part of one's life pattern. QSI promotes trustworthiness, responsibility, aesthetic appreciation, concern for others, kindness and politeness, independent endeavor, and group interaction as character traits that are necessary for personal success beyond the classroom.

QSI International School of Shenzhen is proud to participate in the IB Diploma Programme and continues to offer one of the top IB programs in the area. With scores consistently higher than the world average, our graduates are well-prepared for success at university, and joined with QSI's holistic approach to education our graduates are also prepared for success in life.

Queensland Academy for Science Mathematics and Technology (QASMT) is located in Brisbane's inner west, and is a Queensland state school for highly capable students in Years 7 to 12. QASMT inspires high achieving students through exclusively offering the International Baccalaureate Middle Years Programme (IB MYP) and Diploma Programme (IB DP).

In conjunction with the University of Queensland and other leading universities, QASMT offers an enriched program to enhance the development of students with an interest and ability in the STEM fields of Science, Mathematics and Technology.

QASMT students achieve outstanding academic results and have a proven record in attaining offers to some of the world's most prestigious universities. In 2018, 2019 and 2020, QASMT was named Queensland's Top Performing School (www.bettereducation.com.au/Results/QCE_ATAR.aspx), and has the largest cohort graduating with an IB Diploma in Australia. The QASMT average IB score for 2020 was 35.31, with over 93% of graduates exceeding the world average Diploma score (29.59). In comparison with other Australian curricula, this means that 31.1% of the graduating cohort received the highest attainable QSR/ATAR 99+ or OP1 equivalent, versus 2.7% (Queensland average).

Underpinning our academic success is an outstanding pastoral care system which ensures every student feels a part of the QASMT 'family'. Student welfare is implemented through our bespoke positive education program and

House structure, which ensures every student is known by a significant adult, their House Dean. We believe in the importance of guiding students to become responsible and caring individuals, who are sensitive, open-minded and respectful of all cultures. QASMT aims to develop tomorrow's leaders; individuals who are internationally minded world citizens.

We develop students' abilities to research, investigate and reflect on local and global matters. The relationship between the students and teachers is based on intellectual challenge and interdependent inquiry.

Our campus and facilities are world standard. Our state-of-the-art STEM and Languages Precincts opened in 2020, and provide dynamic use and enhancement of our learning environments. A central hub of the Academy, our Research Centre, provides innovative learning spaces, such as the Robotics and Digital laboratories and 3D printing Makerspace, quiet individual study nooks and collaborative learning areas with up to date e-resources.

Students enjoy the benefits of working in wireless learning spaces with computer network access from all work and recreation areas. In addition, we have virtual classrooms, an observatory, and extensive recreational and sporting facilities. Students also enjoy the contemporary university style lecture theatre and large auditorium, plus well equipped music and art rooms.

www.queenwood.nsw.edu.au

A rigorous academic curriculum within a balanced program of activities has been the hallmark of a Queenwood education for over 90 years.

Within a strong learning community, we create space for our girls to engage with big ideas and connect with a diverse range of people and communities. At Queenwood, our commitment is to a liberal education – an education which, at its core, develops rigorous thinking and the practice of inquiry.

Our Programs

We are an independent Kindergarten to Year 12 non-selective day school for girls that provides a well-balanced curriculum catering to individual differences. We seek to develop in our students the knowledge, skills and habits which will be the foundation for a lifelong awakening to the complexity of the world. As girls move through the school there are increasing opportunities and expectations for independence. Our curriculum, pastoral care structures and extra-curricular programs create a safe but challenging framework within which girls learn to manage their work, their time, their relationships and responsibilities – skills which are essential to a happy and productive life.

International Baccalaureate

We offer dual IB and HSC pathways for Years 11 and 12 students, and each girl has the opportunity to choose the pattern of study which best suits her individual interests. Our IB results demonstrate the commitment to academic

rigour offered at Queenwood, with 56% of students completing our last IB Program placing in the Top 5% of the state with their overall mark. This has enabled our alumnae to attend Universities within Australia, as well as in the United Kingdom and the United States of America, including Oxford, Cambridge, Harvard and Brown Universities. Our commitment to the life of the mind reaches far beyond the examination syllabus, and we recognise the school years as an essential grounding in developing an intelligent and sensitive awareness of the world.

Our Values

Truth, Courage and Service underpin a Queenwood education. Growing in wisdom with a strong sense of identity and self-knowledge aid students in seeking a deep understanding of the truths of the world. That sense of purpose, the willingness to engage with challenge and the desire to make a contribution remain at the heart of Queenwood's mission. By thinking and acting independently, our girls are keen to courageously engage with contemporary social and political issues, thereby deepening their knowledge of themselves and gaining deeper and more nuanced perspectives on the world. We encourage our students at every level to contribute in thought, word and deed: responding to the vulnerable and marginalised with respect and compassion; speaking out with courage; and taking action in their service.

Since its foundation in 1901, Ravenswood has embraced a strong tradition of academic excellence with an emphasis on holistic education. As a proudly non-selective school from Prep to Year 12, we are committed to being at the forefront of education and wellbeing for girls, aiming to ignite the potential of every student – inspiring her passion and purpose to lead her most meaningful life.

Ravenswood is a Uniting Church school, governed by a Christian ethos and our guiding principles of Excellence, Respect, Courage, Optimism and Compassion. Our motto is *semper ad meliora* – Always towards better things.

Ravenswood offers the International Baccalaureate Diploma Programme (IBDP) to students in Years 11 to 12. We are also one of few schools in Australia to offer the International Baccalaureate Bilingual Diploma.

Ravenswood’s IBDP cohort grows each year and the School’s results are always excellent. Our students have achieved perfect scores of 45 for the last five years running. In 2021, over 60% of our students achieved a score of 40 or above.

Ravenswood also launched its innovative new pre-kindergarten offering in 2021, featuring a curriculum infused with the School’s own award-winning Positive Education and wellbeing approach, combined with the IB Primary Years Programme (PYP), and the Reggio Emilia philosophy. The result is a Prep learning experience that is student-centred and inquiry-based, encouraging student wonder, empathy, creativity, independence, and collaboration.

As one of the first Visible Wellbeing Schools in NSW, Ravenswood has embedded evidence-based positive education strategies into the curriculum, recognising that learning and well-being are inextricably linked.

For the last five years, we have been recognised by The Educator as one of Australia’s most innovative schools and named ‘a school to watch’ in the areas of Science, Technology, Engineering and Mathematics (STEM) and Positive Education.

Ravenswood Principal, Mrs Anne Johnstone, was also selected in 2022 for *The Educator Hot List 2022* due to her positive impact in the K-12 education sector over the past 12 months, her demonstration of expertise in linking theory and practice, and for designing and implementing innovations that provide students with high-quality educational experiences during these unprecedented times.

Ravenswood also received four Excellence Awards in the 2022 *Australian Education Awards* for *Principal of the Year*, *Boarding School of the Year*, *Primary School Teacher of the Year*, and, for the second year running, *Best Student Wellbeing Program*.

The innovative Ravenswood Positive Education and Wellbeing approach is multi-layered. This runs from the Principal, Mrs Anne Johnstone, an internationally recognised leader and sought-after speaker in the area of youth wellbeing, through to class teachers, Mentors, Year Coordinators, the School Chaplain, psychologists, Health Care unit, the Learning Enrichment team, Head of

Positive Education, Head of Senior School, Deputy Principal (Boarding, Wellbeing and Development), and Daisy the therapy dog – who provide a framework of wellbeing support, guidance and advice for all students. It comprises bespoke curriculum lessons to teach the theory of Positive Education and wellbeing strategies, mentor group sessions, a comprehensive network of student support and wellbeing initiatives, and innovative wellbeing spaces on campus, as well as in the Residential College, Ravenswood’s boutique boarding house.

Ravenswood girls have access to more than 100 diverse co-curricular choices designed to extend their development beyond the classroom, including gymnastics, snow sports, public speaking and debating, dance and music to name a few. Our girls also enjoy co-educational opportunities in partnership with our brother school, Knox Grammar School, including army cadets, careers, musical performances and service activities.

Ravenswood girls enjoy the benefits of award-winning world-class facilities including the Mabel Fidler Building, state-of-the-art Learning Resources Centre and Petre Innovation Centre. The Centenary Centre features a Performing Arts Auditorium, Music Centre, open exhibition space and dance studios. The indoor sports and recreation centre includes a strength and conditioning facility and a 25-metre heated indoor swimming pool and diving apparatus. Ravenswood’s beautiful new Senior Learning Centre, nominated at the World Architecture Awards for its design and use of colour to create an innovative educational and wellbeing learning space, is a forward-thinking

21st-century learning space designed to provide both flexible academic spaces and relaxation areas for our Years 11-12 students.

This world-class institution is the largest school in New Zealand with over 3000 students, and is perhaps the most internationally acclaimed New Zealand school. Rangitoto's success is the result of expert teaching in a wide range of academic subjects and extensive extra-curricular opportunities including music, dance, drama and over 40 different sports. The facilities, passionate staff and culture of excellence inspire students to become the best they can be.

Rangitoto has a focus on diversity and has around 50 different nationalities in the school. Our IB students have been accepted into some of the world's best universities, including Cambridge and Oxford in the UK, and Princeton in the USA.

Rangitoto College is located on the beautiful, safe North Shore of Auckland, New Zealand. The school is close to beaches, parks, shops and cinemas, and is about 25 minutes from downtown.

Rangitoto College has some of the best facilities in the Southern Hemisphere including: modern classrooms,

a library and information centre featuring senior study and reading rooms, computer access for all students, an auditorium, an Olympic standard all weather hockey turf, three gymnasiums and a weights room, an all-weather athletics track, five sports fields. A purpose built Science block with laboratories for Physics, Chemistry, Biology and Electronics. An English block featuring television and film studios and drama rooms, a music block with practice and performance space. A new dance studio with sprung floor, and a large modern swimming pool and sports institute on the school boundary.

Rangitoto College has been hosting international students for over 15 years and we have developed excellent systems to help students adapt to life in a new country. First language support is available for Korean, Chinese and Spanish speaking students.

A dedicated team of non-teaching and teaching staff, the IB Diploma co-ordinator and a Deputy Principal takes care of our IB students, meeting with them regularly to check they are doing well academically and personally.

www.redlands.nsw.edu.au

Redlands is a leading Australian independent school that offers a contemporary real world education, fostering academic excellence and confidence for life.

We have offered the International Baccalaureate Diploma Programme for Years 11-12 since 1988, longer than any other school in New South Wales. The 30-year association with the IB has helped the school build its reputation as a leading provider of a well-rounded global education.

Redlands provides an extensive range of opportunities – academic, sports, creative, outdoor education, service – for students to learn, to achieve and to develop their unique skills and talents.

The rich and balanced education program is aimed at developing well-rounded, confident and compassionate young adults who are prepared for life after school, ready to meet challenges and embrace opportunities and change in the 21st century.

Our students work together within an inclusive, real world, coeducational environment, complemented by a comprehensive leadership and service programme, to develop the knowledge, capability and confidence to let their light shine – at school and beyond.

At Redlands students receive an outstanding academic education as a result of the school’s individual approach, committed teachers and world-class learning programmes and resources.

In embarking on the IB Diploma Programme at Redlands, students will commit themselves to:

- a two-year journey of discovery and self-awareness;
- an experience that will be ultimately both rewarding and empowering; and
- an outcome that will enable a smooth transition between school and university.

As a non-selective school, students who come from over 30 different countries have the opportunity to study for the IB Diploma Programme if they so wish. Careful guidance is undertaken in considering course structure and styles of learning to assist students in making the right choice for them. Each year approximately 50% of Redlands students select the IB.

Redlands IB Results

- In recent years, 13 Redlands students have achieved the perfect IB score – 45/45, putting them in the top 0.2% of IB Diploma Programme students worldwide.
- In 2021, 71% of candidates achieved an IB score of 37+, equating to an ATAR of 95 and above.
- Over the past ten years, a number of candidates were awarded rare bilingual diplomas – in French, German, Italian, Chinese, Japanese, Korean, Dutch, Danish, Swedish and Spanish.

At Redlands, all components of the IB Diploma Programme are delivered by a strong team of IB teachers, including moderators in their subject areas, IB trained workshop leaders and experienced teachers.

For more information about Redlands please contact the Registrar or visit our website: www.redlands.nsw.edu.au.

About Our School

Regents International School Pattaya is like no other school in Thailand. As part of the global family of more than 80 premium Nord Anglia schools located around the world, we provide unique learning opportunities far beyond the ordinary. We are an exciting, vibrant and inclusive school which has something to offer to every child and every family in our dynamic and diverse community.

We have approximately 850 students aged from 2 to 18, spread evenly across our Early Primary, Primary and Secondary schools, including around 50 boarding students. We are an inclusive school that continues to celebrate consistently high academic results and cares for the wellbeing of our students so they leave us with everything they need for success, whatever they desire to be or do in life. We are the most successful school on the Eastern Seaboard with a long-established reputation for almost 30 years. Our students are successful because our approach encourages children to think for themselves, how to question, how to learn – skills that will last them for a lifetime.

Regents is the leading school on the Eastern Seaboard for good reason. We have joined forces with the world famous Juilliard School of Performing Arts in New York, and we also

collaborate with the prestigious Massachusetts Institute of Technology (MIT). As well as being part of the Nord Anglia family of schools, who provide an outstanding education to over 75,000 students around the world, we are also proud to be a Round Square school, offering unique opportunities for our students to take part in many exciting global projects.

Boarding

We provide a safe, friendly and active boarding community with the emphasis on continued learning. We provide opportunities to collaborate, study independently, have fun, be active and have a sense of adventure. Our boarders develop into confident, independent, resilient and caring individuals who will make the world a better place. The outstanding range of learning opportunities and new environments to discover in Thailand and in South East Asia, make the boarding experience here so much richer and better value-for-money when compared with boarding schools in the UK, Western Europe and North America.

We Invite You to Experience It For Yourself

Choosing the right community and learning environment for your child is an important decision. We hope you agree that Regents is not only a fabulous school but also the right school for you and we look forward to welcoming you into our family.

**About**

Ritsumeikan Uji Junior and Senior High School is located in scenic Uji City, within a short distance of Kyoto and Osaka. The school is mixed boarding and day, coeducational, and offers an integrated six-year curriculum. Ritsumeikan Uji High School was established in 1994 as an affiliated school of Ritsumeikan University, one of the largest and most prestigious universities in Japan. The school was rebuilt in its current location in 2002 and established a junior high school in 2003.

IP

Beginning in April 2021, the IP Course has been designed to provide Japanese returnees and foreign students with an authentic Japanese educational environment, while engaging in a rigorous core of academic subjects taught in English by experienced International Baccalaureate teachers. IPC homerooms are managed by Japanese and English speaking IB staff, where students can enjoy learning a variety of Japanese cultural traditions as well as core IB curricular elements such as the Approaches to Learning. On completion, students will have an intimate understanding of life in Japan, as well as the knowledge, skills and maturity to find success in our senior high school IB Course.

IB

Since our authorisation in 2009, Ritsumeikan Uji's English language IB Course has endeavoured to provide the highest levels of guidance and support for the academic and personal growth of our multicultural student body. Indeed, our course structure guarantees students the chance to graduate with

a bilingual International Baccalaureate diploma, as well as the Japanese high school certificate. Our IB Course prides itself on small class sizes, individualised care, and an inclusive learning community, guided by a team of experienced and committed staff. With their cultural fluency and world class educational backgrounds, our graduates go on to study at top Japanese institutions as well as prestigious schools overseas including Duke University, Imperial College London, the National University of Singapore and many others.

C Building

The Ritsumeikan Uji IB Course recently moved into the new, specially designed C Building on the Uji campus. The new building houses two fully equipped laboratories, an art studio, collaborative and private study spaces, and a large common lounge area. C Building integrates harmoniously with neighbouring parkland to provide students with a peaceful environment for reflection and focused study.

Events

Our community calendar is full of events, including the annual culture and sports days, as well as supervised trips to destinations across Japan and internationally. These shared experiences strengthen our community and enable IBDP students to broaden their world view.

Boarding

High school students are welcome to stay in our dormitory throughout their three years of study. The dormitory provides meals, wireless internet, is a short bus ride to campus and an easy walk to the city centre.

Ruamrudee International School (RIS), founded in 1957 by Catholic Redemptorist Fathers, is one of the first international schools in Southeast Asia to be accredited by the Western Association of Schools and Colleges (WASC). An IB World School since 1998, RIS offers a rigorous and extremely successful International Baccalaureate Diploma Programme (38 courses) and is one of the region's only schools to simultaneously offer the Advanced Placement program (14 courses).

RIS features a diverse group of experienced teachers who are passionate, supportive, and experts in their fields; most of whom hold master's degrees or higher. From Pre-K 3 through Grade 12, students benefit from small class sizes; relevant and innovative electives; modern languages; a vibrant performing and visual arts program; and a comprehensive extended day program with creative enrichment opportunities.

Located in the Minburi district of Bangkok along the city outskirts, RIS is less than half an hour from Suvarnabhumi International Airport and is surrounded by a thriving local community. Campus highlights include 21st-century learning spaces, a culinary arts center, recording studio, industrial design studio, a makerspace/robotics lab, and a contemporary boarding residence with a warm, familial feel. The school's lush 29-acre campus and facilities also support

one of the largest athletic programs of any international school in Southeast Asia.

In the last few years, RIS IB Diploma students have scored an average of 35, far above world averages, with 2021 and 2022 culminating in highs of 37 and 38 respectively. After graduation, RIS students go on to attend the most prestigious universities in the world, and a close-knit alumni community can be found working as government leaders, diplomats, and researchers; in all branches of medicine; as startup entrepreneurs; in the entertainment and film industries; as professional athletes; and in the fields of AI and design technologies.

At RIS, the community is deeply involved in student-led, service learning-based extracurricular clubs, activities, and committees or in organizing events in support of charities and causes. The IB Theory of Knowledge (TOK) and Creativity, Action, Service (CAS) elements at RIS count as a required Values credit, and by the end of a two-year commitment, CAS students will have assessed authentic needs within the community and collaborated with friends and organizations, developing new skills and connections along the way. These CAS experiences are compiled into an annual school publication, written by the students themselves, aptly titled *Reflections*.

**Welcome to Saint Kentigern College**

As strong today as the day the College opened in 1953, the Mission of Saint Kentigern is to provide an education that 'Inspires students to strive for excellence in all areas of life for the glory of God and the service of others'.

Saint Kentigern College delivers a world class education for boys and girls from ages 11 to 18 years old in Auckland, New Zealand. The College is located on a leafy 100-acre campus bordering the beautiful Tamaki Estuary in Pakuranga, Auckland.

Curriculum

Academic success is expected of every student at Saint Kentigern and we challenge our young men and women to excel. An unparalleled range of subjects is taught in modern, specialist facilities. In the final two years of school, the International Baccalaureate Diploma programme is taught by talented educators, who are highly qualified and passionate in their areas of expertise. They are committed to creating an environment that encourages, motivates, and challenges every student to realise their personal potential.

Co-Curricular Activities

Our sports facilities and coaches are among New Zealand's best and we enjoy success in regional and national competitions. We are also deeply committed to the performing arts. Our Drama and Dance students

learn in dedicated spaces and perform in a purpose-built performance venue. In addition, our separate Music Centre provides superb, soundproofed facilities for our choral and instrumental enthusiasts.

Boarding

Bruce House, with separate houses for boys and girls, is the place our boarders call home. Boarders are involved in every facet of College life and develop lasting friendships and a strong sense of school spirit. Students from as far afield as Germany, Russia, China, Korea, Thailand and the Pacific Islands come to Saint Kentigern to enjoy the many benefits of studying in New Zealand and to enjoy Saint Kentigern's unique learning environment.

Student Wellbeing

Our students receive the best pastoral care. A dedicated team of teachers and personal care specialists monitor the students' progress socially, academically, and emotionally, ensuring they thrive at school.

Sanjay Ghodawat International School is the sole institution to provide world-class education through the IB DP Curriculum in the Southern Maharashtra as well as North Karnataka region. SGIS education combines the very best features of high academic challenges with a unique approach to enrichment and personal development to create global citizens committed to lifelong learning. We embrace the attributes of the IB learner profile along with our school values of respect, curiosity, integrity, courage, and kindness.

The IB DP places a strong emphasis on the holistic development of a student while attempting to offer a global viewpoint that is compatible with SGIS's own education for life mission and principles. The IB DP curriculum model gives importance to languages, sciences, individuals and societies, mathematics, and the arts. The core components of the IB DP curriculum are Theory of Knowledge, Extended Essay, and Creativity – Activity and Services. We pride ourselves on innovation in education and are constantly developing our programme to fit the needs of the student community.

The school provides modern, high-tech, bright, spacious classrooms; a well-resourced library; state of the art, psychology, science, and technology labs; and spacious art, music, and dance studios. We offer a variety of indoor and outdoor sports, including horse riding, archery, rifle shooting, table tennis, and lawn tennis. While Multi-Gym is the biggest attraction, the magnanimous stadium can host international sporting events like cricket, football, and volleyball.

SGIS is extremely concerned about people's health and wellbeing. Students can develop close relationships with both

their peers and highly qualified faculty members thanks to the close-knit school community. Our academic and emotional support systems enable students to think independently, creatively, and without constraints. We support advancement and imagination in every aspect of the educational plan. In addition to excelling academically, our students also excel in music, visual arts, and sports. Students can practice dedication, leadership, and deep self-reflection through a range of activities, informative field trips, community service-focused CAS projects, and the TOK retreat.

Our philosophy is based on the recognition of diversity, cultural exchange, mutual respect and acceptance. Life at SGIS Boarding is a life-changing experience. A boarding experience can alter your life. Our boarders receive the perfect amount of warmth, attention, and discipline, which helps them develop a sense of independence. With roomy, pleasant living quarters and access to a wide range of extracurricular activities, it offers students a home away from home. At SGIS, the boarding houses have study rooms, common lounges, and quad-sharing rooms. There is a fitness center and round-the-clock medical assistance is available for the households. Students and their specific requirements are taken care of by knowledgeable house parents and service personnel.

Our status as an important partner and a pioneer in international education is assured by continued investments in the calibre and expertise of our staff, as well as by recent upgrades to our buildings and technology.

Scots College was founded in 1916 and has a proud history for providing world-class, educational excellence. Scots rigorous academic curriculum is supported by a diverse range of sporting, cultural, service and leadership opportunities, enabling each student to reach their potential in all aspects of their lives.

The College is comprised of three schools; Junior, Middle and Senior. It is an authorized IB World School and the IB programmes are an integral part of the school's ethos and curriculum design, developing students prepared to learn for life. The school House system provides another dimension to student life with a Dean and Tutor overseeing the pastoral care of each student.

Scots Junior School (Years 1-6) provides a safe and caring environment where students can experience the joys and challenges of learning as they build strong foundations for their future years. The Junior School proudly delivers the IB Primary Years Programme (PYP).

Scots Middle School (Years 7-10) provides a positive and supportive learning environment. Students take specialist classes, specifically in science, arts, technology and languages, and are provided opportunities outside the classroom with weekly sporting programmes, service initiatives and an EOTC programme. The Middle School delivers the IB Middle Years Programme (MYP).

Scots Senior School (Years 11-13) prepares students to succeed now and in their futures with the knowledge and

soft skills required for a rapidly evolving work place. Year 11 students undertake a programme that provides a depth and breadth of learning and teaching with a dual pathway offered in Years 12 and 13 of the IBDP or NCEA qualifications.

Scots College is proudly an internationally minded school with a diverse community which welcomes students from around the globe. An active international services team work closely with the international student community. Language options offered in the curriculum include English, Chinese, French, Spanish and Te Reo Māori.

Outside of the classroom Scots is a leader among schools for the quality of its extra-curricular programme. Students are encouraged to try new activities, learn new skills and develop as teams and individuals. Students are encouraged to join a team and or cultural activity with so many on offer. In addition, there are a number of specialist academies for high performance athletes including football (soccer), rugby, netball and cricket. The College has a proven track record of assisting top athletes with pathways to US universities.

Scots College is located in Wellington, a harbour city at the heart of government, home to international embassies and renowned for its vibrant city culture and cosmopolitan population of 180,000 centrally, and 450,000 within the region. The Scots College campus is located in the suburb of Strathmore, a ten minute drive to the central city. Scots College's boarding house provides accommodation and care for over 100 students in a supportive and family orientated environment.

With its distinguished slogan 'Building Personalities, Not Just People', the Scottish High International School, Gurugram, India, stands distinct amidst many. Enterprisingly productive with IB since 2008 (14 Years), Scottish High, the IB World School is going strong with its cosmopolitan vision. Building World Citizens since its inception, it is the institution where the idea of internationalism and inclusiveness has become the way of life.

Housing more than 1600 IB students under one roof, Scottish High International School is a diverse mix of students from across the country and the globe. Looking over the diversity and the infrastructural provisions, one can say that the idea of developing world citizens is rightly justified at Scottish High as the school proudly strives to provide 'one of the best in the world' facilities to the students to foster a consistent and competent climate of international mindedness.

With EOMS ISO 21001:2018 Certification, for Educational Organisation Management System, Scottish High sustains and maintains its proud heritage of quality teaching & learning, occupational health & safety and safe environmental practices through the combined effort of the dedicated students, staff and parents. It is also the first school in India to be associated with this standard to maintain high-quality education.

Senior High School at Sakado, University of Tsukuba (UTSS) is Japan's first "Integrated Course" high school, actively promoting reforms in education and research. In line with the school's mission to provide diverse learning opportunities to students, UTSS is now an IB World School offering the dual language Diploma Programme in Japanese and English.

UTSS is an affiliated Article One high school of the University of Tsukuba. The school campus is located at Sakado, Saitama, approximately an hour from the center of Tokyo, with access through the Tobu Tojo line. Students in the IBDP course of UTSS complete a three-year programme, beginning Year 1 with pre-DP and foundational courses, followed by Years 2 and 3 covering the 6 groups in the IBDP. The high school currently offers the following subjects under the IBDP:

Subjects in Japanese

- Japanese A: Language and Literature (HL)
- History (HL)
- Biology (SL)
- Mathematics AI (SL)

Subjects in English

- English B (HL)
- Economics (SL)
- Theatre (SL)

The core subjects, Creativity, Activity and Service (CAS), Extended Essay (EE) and Theory of Knowledge (TOK) are delivered and supervised in Japanese, however, students have the option to write their EE in English.

The dual-language program requires the students to work in the context of Japanese and English. The curriculum practices and develops reading, speaking, listening and writing skills in both languages, with emphasis on the use of higher order thinking skills.

Students use Japanese and English as a means to understand and express critical and analytical ideas, thus, they are expected to have a solid grasp of both languages.

Even before becoming an IB World School, UTSS has consistently exercised experiential learning through fieldwork, school camps, research, clubs, volunteer work and international student exchange. These activities provide diverse platforms to enrich their learning experiences, and complement the core subjects of the IBDP.

The teachers and staff of UTSS recognize that each student is an individual with unique capabilities and intelligences. The curriculum is designed to encourage and support students in choosing career paths where they will thrive. UTSS graduates are empowered to meet the challenges of a changing world – both local and international.

Seoul Foreign School Inspiring Excellence, Building Character – since 1912

Seoul Foreign School is the longest established international school in Korea and one of the first 10 international schools in the world. Founded in 1912, it offers a community of teaching and learning excellence, coming together to educate children at all ages and stages. Seoul Foreign School inspires a passion for learning, pursues academic and creative excellence and is dedicated to the service of others.

An unrivalled legacy is combined with state-of-the-art facilities on our 25 acre campus in central Seoul. With a current population of over 1450 students from more than 50 countries and with many diverse backgrounds, our students are able to learn and grow as truly global citizens.

Four sections, Elementary School, Middle School, High School and the British School, are situated together on a world class campus benefitting from individual space but aligned with one purpose and ethos. Academic, physical and spiritual needs are served across the facilities. Students have

the opportunity to participate in various activities – within the school day and in extracurricular time – including many competitive sports, arts, sciences and holistic interests.

Seoul Foreign School is an IB continuum school – a Pre-K to Grade 12 IB World School and additionally Foundation to Year 9 British School. The IB Primary Years Programme and IB Middle Years Programme are offered along with the English National Curriculum and both lead into the IB Diploma Programme. Based on its history of 40 years of IB Diploma Programme, SFS High School provides students an outstanding flexibility allowing 160 combinations of subjects, including unique course offerings in Seoul such as Design & Technology.

Teachers are rigorously selected and their passion, inspiration and academic excellence ensure that students go on to attend prestigious universities and colleges and succeed in all walks of life. Seoul Foreign School is a Christian school for all. Students enjoy an education surrounded by rich heritage in preparation for a future as global contributors.

www.scis-china.org

Established in 1996 as one of Shanghai's first international schools, Shanghai Community International School (SCIS) is a non-profit educational day school, governed by a self-perpetuating board of directors and overseen by the International Schools Foundation.

With over twenty years of rich tradition, SCIS offers a truly unique international experience. The SCIS community is unparalleled, consisting of a diverse mix of outstanding teachers, students, and parents representing over sixty nationalities and thirty-five languages, across six continents. SCIS leverages this unique community to provide a personalized approach to holistic education, ensuring all students have the opportunity to be successful.

SCIS is one of the first international schools in Shanghai to become fully authorized as an International Baccalaureate (IB) Continuum World School, a world class academic program aimed at rigorous critical thinking and global citizenship. This accreditation extends across all SCIS Campuses, including Hongqiao and Pudong, providing a

seamless program for students aged 2-18, and comprised of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP).

Primary Years Programme (PYP) prepares students to become active, caring, lifelong learners who demonstrate respect for themselves and others and have the capacity to participate in the world around them. It focuses on the development of the whole child as an inquirer, both within and beyond the classroom. (Age 2-10)

Middle Years Programme (MYP) is a challenging framework that encourages students to make practical connections between their studies and the real world. The MYP is a five-year programme, which can be implemented in a partnership between schools. Students who complete the MYP are well-prepared to undertake the IB Diploma Programme (DP). (Age 11-15)

Diploma Programme (DP) is designed as an academically challenging and balanced program of education with final examinations that prepares students for success at university and life beyond. (Age 16-17)

www.suis.com.cn

Shanghai United International School was founded in 2003 and was authorized as an IB World School in 2010.

Situated in Shanghai it caters for more than 2,300 students on two campus, Hongqiao and Gubei. Hongqiao Campus offers IB PYP, Gubei Secondary Campus offers Key Stage 3, IGCE and IBDP.

Students are drawn from more than 40 nationalities, represented across the schools. Close links with nearby Chinese primary and secondary schools allow for rich academic and cultural exchanges leading to the enhancement of the school's signature 'East meets West' characteristic.

At the end of Grade 5, students are bilingual, proficient in both Chinese and English and able to comfortably access the curriculum of their secondary school. Some students use three languages with ease.

Augmenting the academic work of the school is a wide-ranging programme of extracurricular activities catering for the cerebral, the athletic, the artistic and the social aspects of life – hugely supported and enjoyed by the students. The aim of the school is to produce students who are prepared to live life to the full and to contribute to making the world a better place for all.

School facilities include an extensive games field, a 400 seat auditorium, an indoor heated swimming pool, a very large gymnasium and a cultural centre for the benefit of the students (and community at weekends). The range of laboratories and specialist teaching rooms necessary to support the IB programmes are also available.

Staff are recruited from many countries, with the USA, Canada, the UK and Australia being particularly well represented. This staff teaches alongside highly qualified and talented local Chinese teachers to provide a practical cross-cultural pedagogical framework in which students thrive. A comprehensive programme of staff professional development, both locally and internationally, is in place to enhance IB skills and to develop further the expertise of all staff.

Living in Shanghai at the beginning of the 21st century is an extraordinary opportunity for students to be part of a rapidly developing social and economic milieu, with all the benefits and opportunities this possesses. Shanghai United International School is ideally positioned to work with students to maximize their learning in preparation for being truly global citizens.

Website

www.sis-shekou.org

Shekou International School (SIS) is a three-campus, private, co-educational, not-for-profit school located in Shenzhen, China. For over 30 years, SIS has long been at the forefront of international education for expatriate children in the region. SIS is an IB World School offering the Primary Years Programme (PYP) and the IB Diploma Programme (IBDP), and is fully accredited by the Western Association of Schools and Colleges (WASC). We are a member of the East Asian Council of Overseas Schools (EARCOS), the Association for the Advancement of International Education (AAIE), and a founding member of All-China and Mongolia International School (ACAMIS) organization.

SIS currently enrolls over 1100 international students from Nursery through Grade 12 (ages 2-18). Our student body represents more than 40 different countries, including the US, Canada, South Korea, Hong Kong, India, France, and Germany. We currently employ over 250 world-class licensed faculty and staff members hailing from over 20 different countries. Our faculty and staff are masters of their craft, inspiring our students to become lifelong learners.

SIS provides a well-balanced, rigorous education that challenges students across all disciplines. At SIS, we use the best global practices in our curriculum. Our curriculum and programs develop students' knowledge, self-awareness, and self-confidence, allowing them to become the best representatives of the school as they enter universities and

achieve success in a wide array of contexts. The language of instruction is English for all classes except for proficiency level Mandarin and French courses.

Service-learning is an essential part of the educational experience at SIS. Engaging students in community service projects is a way of encouraging our students to be principled, caring, and open-minded. Learning outside the classroom and helping others promotes empathy and understanding that supports students' ability to impact global and local communities.

Our co-curricular program engages students in opportunities to develop and extend themselves outside the classroom. Students are encouraged to participate in a wide variety of sporting events, after school activities, clubs, and service. We believe these play an essential role in the broader holistic program offered by our school.

A partnership between educators, parents, and students, all working together to create a caring, supportive, and engaged community is the foundation of life here at SIS. Together, we provide a vibrant learning environment that extends beyond the classroom. Our Parent Support Association (PSA) are an integral part of our community that enhances and promotes school spirit.

At SIS, our Mission is to provide a rigorous education in a caring community and inspires our students to become principled, innovative contributors in a transforming world.

St Andrew's Cathedral School, an independent Anglican school founded in 1885, has a long history of pursuing excellence in the context of a warm and inclusive community. Our teachers are experts in their chosen fields, deeply committed to the relational nature of teaching and engaged in the character development of every child. Our location, in the heart of Sydney's CBD, enriches our curriculum, allowing students exciting opportunities to engage with significant entrepreneurial and cultural institutions.

Our Academic Programme

We are an International Baccalaureate (IB) World School. Our Middle School students enjoy the real-world richness of being taught the NSW curriculum through the IB Middle Years framework, building critical skills for their later years. Our Senior College students can choose to study either the HSC or the IB Diploma. In 2021, 92% of our Year 12 students gained entry to their 1st choice university. Typically, around

70-80% of our Diploma students receive ATAR conversion scores above 90, that is, in the top 10 per cent of the State. The overwhelming majority of our students pursue university education after graduation, with increasing numbers pursuing overseas study options.

Extracurricular

By secondary school, students can join one of many expeditions offered – hiking from Mount Kosciuszko to the coast, canoeing along the Murray River, mountain biking in New Zealand and back-country skiing and snow camping. Every year, a variety of international tours are offered through various faculties.

You can find out more about us by taking our Virtual tour: www.sacs.nsw.edu.au/virtual-tour

Alternatively contact our Enrolments team on +61 2 9286 9579 or +61 2 9286 9664 or by email at enrolments@sacs.nsw.edu.au.

St Andrews International School Bangkok was founded in 1997 on an attractive, conveniently located site, with excellent facilities and good access to local transportation. Today we are a school of more than 2,000 students representing some 50 nationalities ranging from Nursery (2 years) to Year 13 (18 years). In August 2017 we opened an additional campus at a nearby prime city centre location which delivers state of the art purpose-built learning facilities to our High School.

Our school provides a high quality, professional, well-resourced learning environment where each child's talents and abilities are recognised and nurtured, and their needs supported. Our teachers are professional and caring, selected for their awareness of the needs of a broad range of children who may come from different social, cultural, religious and educational backgrounds. They are capable educators who take care with their preparation of the curriculum, use a variety of strategies for its delivery and pay close attention to the progression of each individual.

We are an inclusive school that welcomes students of all abilities. To ensure that all our children have an equality of opportunity, we have a professional Learning Support Department. This team works with class teachers to identify and support children in their learning across the school,

whether they need extra help with their studies or have been identified as gifted and talented.

The curriculum draws on the best UK practices, adapted to reflect the international context of the school. Students take IGCSE examinations at the end of Year 11 and then follow the Senior Studies Programme in Years 12 and 13. Our school offers the International Baccalaureate Diploma Programme, alongside an alternative school-based curriculum, both of which lead to graduation and provide the opportunity to apply to prestigious universities all around the world. As part of Nord Anglia Education, the world's leading premium schools organisation, we collaborate with the preeminent performing arts conservatory, The Juilliard School, and one of the world's leading universities, the Massachusetts Institute of Technology (MIT), to bring truly inspiring learning experiences to all of our students.

With high quality teaching, excellent facilities and small class sizes, St Andrews International School Bangkok offers students the opportunity to fulfil their academic potential in a stimulating, caring and nurturing environment. We are fully accredited by CfBT Education Trust and Thailand's Office for National Education Standards and Quality Assessment (ONESQA), the first school in Thailand to receive this joint accreditation award.

St Margaret's College is one of New Zealand's leading girls' school with a proud 110-year history of academic, sporting and cultural excellence. An education at St Margaret's College offers a dual academic pathway to leading universities around the world through the International Baccalaureate as well as NCEA, the only girls' school in New Zealand's South Island to do so. Students regularly top both the New Zealand IB and NCEA rankings, opening opportunities at leading international and New Zealand universities.

St Margaret's College values the cultural diversity that students from around the world bring to the school community as they learn to live and lead in a global society. St Margaret's College has played host to thousands of forward-thinking young women and educators over the last century. It leads the way in providing a world-class education in a teaching and learning environment tailored to suit girls while celebrating the traditions of its founding values.

All students are offered a breadth of opportunities where they can shine, unencumbered by gender stereotypes. While academic results are consistently outstanding, it is the variety of curriculum offerings and opportunities available that ensure the interests and learning styles of every girl are catered for. Our international students are completely

integrated into school life and, where appropriate, receive additional support in specific areas of the curriculum. Girls come to St Margaret's from many different countries and are actively encouraged to experience and participate in the rich sporting, cultural and social life of the school, Christchurch and Canterbury while studying for the International Baccalaureate Diploma.

The school enjoys the most modern school campus in Christchurch, providing a future-proofed learning environment, including our leading Centre for Innovation and STEM programmes, that attracts high quality teachers and provides students with a safe and inspirational space to learn.

St Margaret's College values the cultural and global dimension students from around the world bring and provides a warm, caring home-away-from-home in its three boarding houses. The boarding houses are arranged in year groups, tailored to the specific needs of each developmental stage, and provide the opportunity of a first-class education while building strong friendships and learning lifelong values.

St Margaret's College is a family that values each girl for the gifts and talents she brings, that provides a safe place for her to take on new challenges and empowers her to live and lead.

Established in 2007, St. Joseph's Institution International offers a holistic, values-driven and international educational experience to a diverse student body of 40 nationalities rooted in the context of Singapore.

As a school with a Lasallian Catholic foundation, our community welcomes students, teachers, parents, friends and supporters of all faiths and cultural backgrounds. Our mission is to enable students to learn how to learn and learn how to live, empowering them to become people of integrity and people for others.

Today, we celebrate a community of over 2,000 students across two schools on one campus. The Elementary School offers the International Primary Curriculum for pre-school Prep 1 – 2 (ages 4 turning 5 – 6) and Grade 1 – 6 (ages 7 – 12), while the High School offers the IGCSE followed by the IB Diploma Programme in Grades 7 – 12 (ages 12 – 18).

The IB Diploma Programme

The attributes of the IB Learner profile underpin much of the teaching and learning throughout SJI International with a desire to develop curious, independent and confident

learners. The most important principle within the school's educational philosophy is that of active learning. Crucially, active learning is about students doing. This involves a wide range of activities within the programme which will vary according to the subject: research, role plays, simulations, thinking exercises, decision-making exercises, debates, presentations and so on. These provide a stimulating educational environment and one that is intellectually challenging for the students.

Values, education and character-building are achieved through a range of challenging activities in sports, adventure and creativity, with a special emphasis on service, featuring weekly service activities and overseas projects that help students connect with and serve the local and global community.

We are justifiably proud of the outstanding achievements of our IB Diploma students. Many of our graduates have continued their studies at many of the top universities around the world. But outstanding academic results are only part of what we strive for. Our students leave SJI International ready for lifelong learning.

Suzhou Singapore International School (SSIS) was founded in 1996 in the Suzhou Singapore Industry Park. It is a fully authorized IB World School as well as the oldest and largest international school in Suzhou, China. Since its establishment, SSIS has grown from 20 students in a few rooms into a school of a 14-hectare campus with 1000+ students from 50 different nationalities.

SSIS offers a challenging curriculum to cultivate global citizens and life-long learners. Everyday students are challenged to actively participate in their education. This produces students that consistently perform well above world averages, and is why SSIS is one of the best schools in China.

Values and Mission

SSIS provides an excellent international education to the children of expatriate families. Faculty and staff are committed to creating a learning environment that encourages and enables students to be self-motivated, lifelong learners. SSIS educate students to become global citizens that value other cultures and are responsible, meaningful participants in the international community.

Curriculum and Activities

SSIS offers three IB programs including PYP, MYP and DP from preschool to Grade 12 along with a German curriculum in the elementary school. A strong partnership between students, faculty and parents, enables SSIS to maintain a rigorous and challenging education. SSIS offer a wide range of academic, cultural and recreational programs ensuring to deliver the highest quality international education possible. SSIS offers more than 100+ activities, whether it is the visual arts program, showcased by a week-long celebration of the Arts; SSIS Book

Week, celebrating global literacy or the much anticipated International Family Day, there is something for everyone. SSIS students also have the opportunity to compete against other peer schools in academics, arts and sports, through its memberships with ACAMIS, SISAC, EARCOS and CISSA.

Accreditations and Affiliations

SSIS is accredited by external agencies including IB (International Baccalaureate Organization), CIS (International Association of Schools), NEASC (New England Association of Schools). SSIS is also a member of the Association of China and Mongolia International Schools (ACAMIS) and the East Asia Regional Council Schools (EARCOS).

Faculty and Staff

SSIS attracts the highest caliber of teachers with masters degrees and doctorates. Faculty is comprised of over 150 dedicated professionals from over 20 countries, each bringing their own unique perspective on teaching and learning.

Campus

Spread across a spacious 14 hectometer campus, the building boasts integrated technology and air purification systems throughout all classrooms and common areas. Art and Performance facilities include 600-seat theater, black box theater, orchestra room, 3 dance studios, individual music practice spaces and art carrels. Recreational facilities include 3 playgrounds, 2 gymnasiums, a new soccer pitch, 400M running track, 25M swimming pool and tennis courts. The Science and Design facilities include fully equipped science, food technology and hard materials labs. The Learning Technology Center includes 500+ ipads, charging stations, green room, podcast facilities and Lego robotics room.

Founded in 2008, Stonehill International School is one of the most widely reputed international schools in Bangalore, India. We are an IB school and are accredited by the Council of International Schools (CIS), and the New England Association of Schools and Colleges (NEASC). Stonehill is also a member of the Australian Boarding Schools Association (ABSA). The expansive 34-acre lush green campus, near the International Airport, offers ample space and infrastructure for sporting, cultural, and leisure activities. Besides state-of-the-art classrooms, the world-class facilities include a 25-metre temperature-controlled swimming pool, synthetic turf football field, tennis and volleyball courts, dedicated buildings for the arts and STEM subjects, a research centre, and a multi purpose sports hall. Stonehill also prides itself on modern boarding houses and a fully equipped cafeteria that serves nutritious and healthy meals.

As a world-class educational institution, Stonehill is a dynamic, inclusive, and friendly day and boarding school. Our students and faculty comprise 35 different nationalities. We are dedicated to our mission statement – “To provide stimulating, engaging academics integrated with enhanced opportunities for technological innovation, sports, and the arts.”

University Placement Programme

Our Career and College Counselling Department works with students from Grade 9 onwards to identify their aptitude, understand their interests, and guide them towards colleges that will help them meet their academic and personal goals. Stonehill graduates have been accepted to some of the

most prestigious universities across the globe including, Carnegie Mellon University, London School of Economics, UC Berkeley, UCLA, University of Toronto, University of St. Andrews, Imperial College London, Kings College London, University College London (UCL), University of Cambridge, National University of Singapore (NUS), Nanyang Technological University (NTU), University of Amsterdam, Stanford University, MIT, Dartmouth College, NYU, University of Melbourne, University of Michigan Ann Arbor, University of British Columbia, and many more.

English as an additional language (EAL)

Stonehill offers support to non-native English-speaking students. Individual programmes are developed to enable English language acquisition in students. To aid faster learning, EAL students are included in regular classes, as often as possible.

Sports

Through our sports programme, importance is given to not just students’ health and fitness, but also to develop skills, learning to work in teams and building leadership and personal growth. Stonehill students also compete regularly with teams from other schools in Bangalore, India, and Asia. Our students have made us proud by demonstrating commitment, great attitude and the spirit of teamwork. Swimming, tennis, equestrian sports, basketball, football, volleyball, and cricket are just a few of our sports offerings.

The Arts

Stonehill prides itself on a committed Arts department with

a special focus on Visual Art, Drama, and Music. Stonehill uses the creative arts to promote attitudes such as empathy and appreciation, and skills such as analysis, that help see the uniqueness of each person as well as explore the commonalities that connect each other. We have a dedicated Arts Centre, that has purpose-built spaces for music, visual art, and drama. We also offer private music lessons for instruments such as piano, guitar, drums, violin and cello along with numerous opportunities to perform at concerts, assemblies and other gatherings.

Technology

At Stonehill, we have a 1:1 policy for devices and our students use a wide variety of tools to communicate, collaborate, research, and create. In Primary School, the digital citizenship programme teaches students to be safe and responsible in the online world. They use an all-in-one digital platform for planning, assessments, portfolios, projects, and reports, which they can independently navigate. Learning is supported through the Makerspace where digitally enhanced Lego and robotics work alongside the traditional elements of design, sewing, and construction. Technology in Secondary School is seamlessly integrated into all subjects. Additionally, Product Design, Digital Design, Design Technology, and Computer Science are offered as subjects.

Boarding

Stonehill offers weekly and full-time boarding options to students. The residential programme at Stonehill is for students from Grade 6 onwards, and is designed to extend

learning the IB way through academics, extracurricular activities, and the social aspects of boarding. It offers students a home away from home, with spacious and comfortable living areas, and access to a host of extracurricular activities. The small number of boarders provides a warm atmosphere and creates a sense of community. The boarding houses at Stonehill feature twin and quad-sharing rooms, a common lounge, and a study room. The houses are supported by a cafeteria, a fitness centre, and a 24-hour medical centre. Experienced House Parents, tutors, and service staff take care of children and their individual needs.

Taipei Kuei Shan School is an International Baccalaureate World School offering three programmes – PYP, MYP, and DP. It is fully accredited by the Taipei City Government Department of Education and a member of the Association of Christian Schools International.

Kuei Shan was established in 1963 as a K-9 school, founded by Professor Hsiung Hui-Ying as a research project to improve Taiwan Education. Many decades ago, education in Taiwan was a “one-size-fits-all” approach. To allow a holistic development of learners, Professor Hsiung built Kuei Shan as a small school environment with smaller class size to promote active learning, both academically and socially. She practiced the use of unit teaching and theme-based learning to engage students in hands-on and collaborative learning activities. Upon the success of this long-term research, the school continues its commitment to educational research and excellence.

In 2015, the high school program was added, and Kuei Shan’s first DP cohort graduated in 2017. As a small private school, we provide a lively campus community for more than 700 students from Pre-Kindergarten to Grade 12 by blending educational excellence and an international perspective with Christian values. About 80% of our student body are Taiwan nationals and 20% are from over 15 other countries.

Our Mission

Kuei Shan’s mission is to provide holistic education that is Biblically inspired, academically rigorous, socially friendly, and globally and culturally responsive. Students will be

equipped to experience TRUTH:

Transformed: by the renewing of the mind

Rigorous: academic pursuits

United: life-giving community

Twined: heritage with globalization

Holistic: balanced development

Activities and Service

- The school supports students to participate in a Taiwan team sports program which includes basketball, volleyball, soccer, softball, swimming, track & field, and cross-country.
- Students have opportunities to participate in band, string ensemble, choir, worship band, and drama.
- Students have opportunities to conduct a wide range of outreach and community service for underprivileged children and people in need.
- Students participate in student government, scouts, model UN, and Global Issues Network.

Academic Achievement

Our six cohorts (2017-2022) earned Diploma mean grade and average total points above worldwide average. Students are currently attending four-year universities in various regions – Asia, Australia, Canada, Europe, the U.K., and the U.S.

At Kuei Shan, we celebrate our distinctive place in PreK-12 education – where teaching, learning and faith guide the mind in understanding the complex diversity of God’s creation, equip them to experience T.R.U.T.H., and prepare the whole person for service and leadership.

Established in 1925, Tanglin Trust School is the oldest British international school in South East Asia. Tanglin provides the English National Curriculum with an international perspective to children from 3 to 18 years in Singapore.

Tanglin is a vibrant co-educational school of 2,800 students representing over 50 nationalities and provides a unique learning environment for children from Nursery right through to Sixth Form. As a not-for-profit school, tuition fees are devoted to the provision of an outstanding education.

As the only school in Singapore to offer A Level or the IB Diploma in Sixth Form, all of Tanglin's Sixth Formers study a programme that is tailored both to the subjects they are passionate about and to the style of learning that most suits them, ensuring they thrive and flourish.

Tanglin has an excellent academic reputation. Students' examination results consistently surpass Singapore and global averages, with around 99% of graduates typically receiving their first or second choice university, which are among the best in the world.

Tanglin is inspected regularly within the British Schools Overseas (BSO) framework, recognised by Ofsted. All three schools have been awarded 'Outstanding', the highest possible grade in their latest inspections (2017, 2018 and 2019).

Drawing on professional and dynamic staff, Tanglin aims to nurture students and strive to make every individual feel valued, happy and successful. Responsibility, enthusiasm and participation are actively encouraged, and integrity is prized. Working together in a safe, caring yet stimulating

environment, Tanglin sets high expectations whilst offering strong support, resulting in a community of lifelong learners who can contribute with confidence to the world.

Tanglin encourages both broad participation and the achievement of excellence in the arts, sport, outdoor education and co-curricular activities.

Over 160 teams compete in 17 different sports each year, both in Singapore and the wider region. Exceptional sporting facilities enable students to participate in a wide range of competitive and non-competitive events. The Tanglin community is looking forward to the opening of the Tanglin Centenary Building, which will include an Olympic length pool, gymnastics centre, climbing wall, co-working spaces for parents and an athletics development gym.

Tanglin has a thriving and energetic Arts programme which plays an important part in school life. Students develop their skills in art, design, drama, music, and film-making, facilitating creative, social and intellectual development. Throughout the year, there are many opportunities for students to participate in high-quality ensembles, recitals, performances and exhibitions.

Tanglin students are also encouraged to contribute actively to the local community, support service projects and participate in a wide variety of co-curricular pursuits that stimulate and broaden student experience. These include 80 outdoor education trips, the International Duke of Edinburgh (DofE) Award, and the Creativity, Activity, Service (CAS) programme.

The International School of Kuala Lumpur (ISKL) believes its success today is based on how well it prepares its students for their future. Offering a diverse academic and co-curricular program, ISKL's curriculum recognizes that students are on a lifelong learning journey and is driven by ISKL's purpose to prepare our students for life itself, as we believe in the importance of helping students to shape their own paths, supporting them in discovering their passions, developing their competencies, and having an ethical impact on the world.

The school is located on a 26-acre, state-of-the-art campus in the heart of Kuala Lumpur and is home to students representing more than 70 nationalities. Students benefit from its robust international curriculum combining leading North American educational frameworks and global best practices.

ISKL is a fully inclusive school and offers the International Baccalaureate Diploma Programme (IBDP) on a non-selective basis. As the longest-running World IB School in Malaysia, ISKL has seen over 1,500 students graduate with an IB Diploma over the past 30 years, representing a 98% pass rate. In 2022, 34% of ISKL students scored 40 or more points and

20% earned a bilingual diploma. Multilingual students have the opportunity to take IB Language and Literature courses in English, Chinese, Japanese, Korean, and Spanish.

ISKL is one of the only schools in Malaysia offering transdisciplinary pathways that are designed to enable every learner to choose a curriculum best suited to their abilities, interests, and aspirations. In addition to the IBDP, High School options include PRAXIS (Grade 9) and ISKL's Pursuits Program combining individual IB, Advanced Placement, and High School courses for students who want to deep-dive into a specific area. The flexibility of ISKL's academic program creates further education opportunities, with ISKL students receiving acceptance from leading universities worldwide.

ISKL is accredited internationally through the Council of International Schools (CIS), and in the United States through the Western Association of Schools and Colleges (WASC). ISKL has a strong focus on service and sustainability across its divisions and is a member of the Eco-Schools organization and the Green Schools Alliance. Past awards include Highly Commended in the Relocate Awards for School Providing Outstanding Relocation Support category.

The International School of Penang (Uplands) is a non-profit, co-educational Reception to Primary and Secondary School with boarding facilities, open to children aged 4 to 18 years old. It is one of the leading international schools in Malaysia, offering the IB PYP, IB Diploma and IGCSE qualifications.

Since being established in 1955 at the top of Penang Hill we are now established in a modern campus in Batu Feringgi. During our rich history, Uplands has strived to embody a caring community; a school where both international and Malaysian students are happy to learn in with our motto of Respect for Self. Respect for Others.

Students receive a wealth of quality education from an international teaching faculty as well as a range of sporting and extracurricular activities cultivating our values of respect, integrity, inquiry, diversity, collaboration, resilience and balance. Year upon year Uplands students have attained academic results that are consistently higher than global averages, with some achieving perfect scores in the IB Diploma pre-university course and receiving prestigious university scholarships.

Uplands is an IB World School, who are also recognised by the Malaysian Ministry of Education and permitted to admit both foreign and local students. Continuing its long history of excellence in education, Uplands received accreditation by The Council of International Schools (CIS), a global organisation committed to ensuring high-quality international education. Uplands is also accredited by

The International Baccalaureate Organisation (IBO) and a member of:

- The Federation of British International Schools in Asia (FOBISIA);
- The Association of International Malaysian Schools (AIMS);
- The Boarding Schools' Association (BSA).

The School is approved to offer external examinations by The International Baccalaureate Organisation (IBO), Cambridge International Examinations (CIE) and Edexcel International Examinations.

Languages offered at the school are English, Bahasa Malaysia, Mandarin, Spanish, French and German. School facilities include air-conditioned and well-resourced classrooms, climbing wall, 25 metre swimming pool, sports field, library, refectory, playground, basketball court, badminton court, IT resource centre, science laboratories, multi-purpose hall, audio/visual room, art rooms, music rooms, drama rooms, design technology workshops and world class boarding facilities. The campus is fully networked with wired and wireless access.

Student support services are also on deck including university guidance counsellors, learning support and school counsellors. Students are able to engage in a wide variety of extracurricular activities using our excellent campus facilities. The International School of Penang (Uplands) is proud to provide an environment for personal and academic challenge, helping our students to achieve, thrive and develop.

Tokyo Metropolitan Kokusai High School is a coeducational public high school that was established in 1989 and is maintained by the Tokyo Metropolitan Government. Located in a leafy suburb not far from the cosmopolitan west side of Tokyo, the school's motto is "Your Wings to the World" and its aim is to provide education to nurture well-balanced students with international mindedness.

In May 2015, Tokyo Metropolitan Kokusai High School was authorised as an International Baccalaureate World School offering the Diploma Programme, the first of which to be offered in a Japanese public high school.

Kokusai High School conducts the IBDP in English with the aim of cultivating internationally-minded students who will study overseas after graduation. The Kokusai IBDP strives to nurture future global leaders, and based on this philosophy, the ideal Kokusai IB student should demonstrate the following attributes.

A Kokusai High School IBDP student should:

1. Demonstrate a clear goal to enter the IBDP, a desire to contribute to a global society, and the willingness to gain entrance into universities overseas.
2. Approach learning with a self-starter mentality by showing a strong sense of inquiry and a willingness to use their own initiative, while having the courage to handle difficult challenges.
3. Exemplify a well-rounded character, being cooperative and considerate of others, and also have the willingness to positively accept and understand different perspectives and opinions.
4. Be motivated to broaden their perspectives, and be able to maintain a healthy mental and physical mindset and actively participate in extracurricular activities.

5. Demonstrate strong academic performances across all subjects, and have a high level of English proficiency.

Kokusai High School offers entrance examinations twice per year: the April enrollment session (held in January) and the September enrollment session (held in July). The April session is for students who will finish Year 9 school education by the end of March, and the September session is for those who will finish Year 9 school education between April and August. The maximum number of successful applicants in 2021 was 25. The ratio of Japanese students to International students for each enrollment session is announced by the Tokyo Metropolitan Board of Education. The assessment methods used in the entrance examinations are the English Language Skills Test, the Mathematics Academic Performance Test, the Essay, the Individual Interview, and the Certificate of Academic Record.

Kokusai High School offers a three-year programme; Year 1 (Grade 10) is the Foundation Year, Year 2 (Grade 11) and Year 3 (Grade 12) are the IBDP. Students also graduate with a Japanese High School Diploma. The subjects we offer are listed below:

Studies in Language and Literature

Year 1: Comprehensive English, English for Academic Purposes, Contemporary Japanese Language, Language Culture.
Year 2 and 3: IB Diploma English A SL and HL (Language and Literature); Japanese A SL and HL (Literature).

Language Acquisition

Year 1: Comprehensive English, English for Academic Purposes, Contemporary Japanese Language, Language Culture.
Year 2 and 3: IB Diploma English B SL and HL; Japanese B SL and HL.

Individuals and Societies

Year 1: Public, Geography for Cultural Understanding, Modern and Contemporary History.

Year 2 and 3: IB Diploma History SL and HL, Economics HL, Geography HL.

Science

Year 1: Basic Physics, Basic Chemistry, Basic Biology.

Year 2 and 3: IB Diploma Physics SL and HL, Chemistry HL, Biology SL and HL.

Mathematics

Year 1: Mathematics I

Year 2 and 3: IB Diploma Mathematics: analysis and approaches SL and HL, IB Diploma Mathematics: applications and interpretation HL.

Other subjects

Year 1: Physical Education, Health, Art and Design, Basic Home Economics.

Year 2 and 3: Physical Education, Health, Homeroom Activity, International Relations, Information Study by Scientific Approach, Theory of Knowledge (TOK), Creativity, Activity, Service (CAS).

Creativity, Activity, Service (CAS)

Throughout their DP years, IB students explore their interests and personal development by participating in a wide range of CAS experiences such as sports, arts and music. Former IB students' passion led to many volunteer activities both locally and internationally, including in Tokyo, Hiroshima, Kenya, Senegal, and Ghana. Students engaged actively in volunteer groups such as "Child Doctor Japan", "Green Bird", "Earth Day Tokyo 2019" and "Teens Fiesta in Meguro". While doing these experiences for CAS, students also won various awards such as the 2018 and 2019 World Scholar's Cup.

Some universities where students have been accepted

UK: University College London, Imperial College London, University of Edinburgh, King's College London, University of Manchester, London School of Economics. USA: Princeton University, Purdue University, Georgia Institute of Technology, University of California Los Angeles, Williams College. Canada: University of Toronto, University of British Columbia, McGill University. Australia: Australian National University, University of Melbourne, University of Sydney. Germany: Technical University of Munich, Jacobs University. Netherlands: Leiden University, University of Groningen. Singapore: National University of Singapore, Nanyang Technological University.

The Overseas School of Colombo (OSC) is the only IB World School in Sri Lanka. With its rich legacy and momentous history spanning back to 1957, OSC is Sri Lanka's oldest internationally ascribed educational institution – fully accredited by the Middle States Association (MSA) and the Council of International Schools (CIS).

OSC is wholly authorized by IB to offer the Primary Years Programme, Middle Years Programme, and the Diploma Programme.

An experiential academic home to a diverse community of learners composed of over 40 nationalities; a true global family that stays true to its endearing motto – 'Unity in Diversity'.

However, a motto is only as good as what it represents and signifies; precisely why at OSC it is such a quintessential part of our core ethos to foster intercultural awareness, develop understanding, and inspire collaboration.

OSC takes stock in our brilliant teacher to student ratio of 1:6. Our learners are nurtured and empowered by the finest educators from around the world, who share in our vision, mission and values. They are driven by a real passion to teach, to guide students along each of their academic journeys, rather than treating it as a mere profession.

Our consistent 100% pass rate is a testament to our tenet of continually pushing ourselves to improve, adapt and evolve with the times.

OSC's mission to pave a path for all-round, multifariously skilled learners who strive for personal excellence within a culturally diverse environment echoes steadfast for 65 years. Ours is a hub of learning that endows upon our students the resolve, mindset and spirit of perseverance to grow

into responsible and accountable adults, while striving with consistency to be a progressive model of excellence in education. An all-encompassing sanctuary that places much commitment and passion into its curriculum, arts, athletics, design, after-school and co-curricular programmes – availing a versatile and holistic education.

Additionally, we integrate the latest teaching methods and newest technologies to gear students with the necessary tools they require in life to achieve a healthy balance of creativity, camaraderie, collaboration and communication within and beyond the classroom.

You see, at OSC we are passionate about shaping future leaders, game changers, visionaries, movers and shakers from multiple nationalities that transcend race, class, religion and gender.

Our educational haven is a self-sufficient campus equipped with all amenities; air-conditioned classrooms, libraries, design labs, state-of-the-art science labs, specialist rooms for art, drama and music, IT labs, counselling offices, a 400-seat auditorium, black-box studio theatre, a covered primary school playground, cafeteria and coffee shop.

The sports aficionados will be delighted with a spacious grass football field, a 25-meter swimming pool, a professional outdoor basketball court, a gymnasium with a rock-climbing wall, badminton, volleyball and basketball courts, a movement room and cardio/weight room.

The Overseas School of Colombo is a pristine IB World School, that truly exemplifies personalized excellence, instills virtue and values, while demonstrating that we are indeed an educational institution that's second to none in experiential learning.

**Introduction**

UWC Changshu China was founded in 2015 as the first UWC in the mainland of China for students in grades 10, 11 and 12. The college emphasizes a connection to its location and offers education focused on Chinese language and culture, innovation, youth leadership and environmental activism.

Learning at UWC Changshu China

The College defines learning as an iterative process in which we engage and inquire, reflect on the experience considering diverse perspectives, and intentionally apply what we learn to better ourselves, our communities, and the world. UWC Changshu China offers a Foundation Programme for grade 10 and the IB Diploma Programme for grades 11 and 12 with an emphasis on experiential learning to develop critical thinking skills and self-management skills, as well as focusing on community engagement, physical activities, service to others and creative pursuits. The Yunshan Academy on campus houses the Centre for Design and Innovation to support innovation and design thinking, as well as the Centre for Chinese Programmes to further learners' understanding of the essence of Chinese culture and language.

Outside the classroom

Students at UWC Changshu China engage in a wide range of cultural, sporting and social activities. The name of its Creativity, Activity, Service (CAS) programme is Zhi

Xing, which means 'learning by doing' as well as 'putting knowledge into action'. The extra-curricular Zhi Xing programme allows students to connect to the UWC mission and values through selecting to participate in one or more of its ten service streams, which are physical education; ecology and biodiversity; media and communication; design, innovation and engineering; outdoor education; peace and justice; the arts; education and research; culture; and diversity and identity.

Campus and facilities

The 24-acre campus is built on an island on the northwest side of Kuncheng Lake. In architectural design, the campus is reminiscent of a southern Chinese waterside village, where connections between all parts are seamless and unobstructed. The campus is comprised of cutting-edge technologies to enhance its sustainability. With an abundance of open spaces, modern facilities include a multi-function performing art space, STEM hub, wellbeing centre, swimming pool, athletics track and sporting facilities, residential houses for students and faculty, a dining hall and a library.

Admission

IBDP applicants apply through their UWC national committee or the UWC Global Selection Programme. Foundation Programme applicants need to contact the school directly.

**Introduction**

UWC Mahindra is a vibrant college with a rich tradition of curricular innovation and community engagement. Programs such as the IB's World Studies Extended Essay were conceived and piloted here. The College also runs a bridge program and the Akshara Foundation, both of which enhance the positive local impact of the College and provide students with numerous opportunities for project-based and service learning.

Inside the Classroom

UWC Mahindra College offers the International Baccalaureate Diploma Programme curriculum. Alongside standard courses, the College offers Art, Theatre, Film, Psychology, Global Politics. Additionally, students also benefit from the MUWCI Core – a specially designed curriculum for the College that encompasses the areas of Political Education, Social and Emotional Education, Host Studies and Ecological and Outdoor Education. UWC Mahindra also offers the Project Based Certificate to interested students, wherein they can utilize the second year to conceive and execute an impact-driven project.

Outside the Classroom

UWC Mahindra College offers an immense variety of co-curricular activities through its Creativity, Activity, Service program (CAS), referred to as “Triveni” program, which

facilitates project-based learning. Students can choose from a rich diversity of Service Learning opportunities on and off campus spanning areas like menstrual health, organic farming, mental health and rural public education. Students are also active participants in decision-making processes that affect campus life, such as envisioning and executing resource management initiatives on campus. Students benefit from the cultural diversity of the surrounding valley and India at large and have immersive experiences in other parts of the country through Experiential Learning Weeks. MUWCI also conducts short programs which bring together students from around the world to learn about issues such as sustainability and globalization.

Campus and Facilities

Students live together in five residential clusters known as “wadas”, each of which forms a more intimate community. The campus also offers many informal locations for gathering and hiking, and several areas are well known among students for their gorgeous vistas of the valley during sunset. Academic facilities include a science lab, a library, an art space overlooking the valley, specialized facilities for theatre and music practice and a large sporting ground.

Admissions

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Mission**

We challenge, inspire, and empower our learners to develop their unique potential in our changing world.

Vision

We will lead the way toward a sustainable future.

Values

We value Balance, Respect, Resilience, Innovation, and Courage.

VIS Definition of Learning

We learn when we build and apply new understandings and skills in a variety of contexts

VIS is an independent, non-profit school offering an international-standard curriculum. We are the only school in Laos accredited by the Western Association of Schools and Colleges (WASC) and the Council of International Schools (CIS). We are also the only IB World School in the country, delivering IB Continuum Program (PYP, MYP, DP). Over the years, VIS has demonstrated consistent improvement in the IB results. Our 2022 Class IB Diploma Average Score was 32.76, above the world average of 31.98.

The diverse student body of 456 learners draws from 39

nationalities. Most families represent the non-government and diplomatic sectors; international and local businesses are also represented. Our unique VIS Personal and Home Language program currently supports the development and maintenance of 8 different languages. We also offer an English Language Acquisition (ELA) program.

At VIS, we strive to develop empathy, cultural understanding, and global awareness through meaningful interactions with the Lao community. As a Mekong River International Schools Association (MRISA) member, our students participate in sporting and cultural exchanges with schools in neighboring countries.

Our current campus facilities include two swimming pools, two soccer pitches, ample playground spaces, and a collaborative library. This year we added new buildings with:

- A new multipurpose Performing Arts Center with a capacity of 350+ pax. Retractable seats make space versatile for events and community gatherings;
- An indoor Gymnasium with 2 full-size basketball courts integrated into our sports hub (pool and soccer field);
- A modern administration building with community areas.

Every Child Matters

Every Nation, every Institution, every school, has a message to deliver, a mission to fulfil, a destiny to reach. The vision of education is to guide humanity. The insights that we have from our great Masters, great educators of the world, is to uncover, to discover the secret potential, from within every child. Every child similarly has a mission! In our pursuit for perfection, we guide every child to fulfil their dreams and reach their goals for life. The deepest desire in every parent’s heart is to channel the potential of their children, to be somebody in this universe, and become a source of pride for the country as well as the family. The Mission of Victorious Kidss is to help children and families.

Victorious Kidss Educares (VKidss) permeates the field of education, with the latest of the world’s research-based Teaching and Learning pedagogy of IB, and its Standards and Practices, is coupled with the rich heritage of Vedanta of India. Thus, enhancing character, all-round, leading to the development of human excellence. Be that as it may, in the subject areas of Academics, Digital literacy, Sports, Robotics, Virtual & Performing Arts, Foreign Language skills, Oratory skills, and love for writing, along with strengthening their focus, expanding the strength of mind; amalgamates the best teaching-learning pedagogy.

When IB is coupled with Vedanta, the possibilities of the human child towards spiritual intellectual, and physical growth, become Infinite. They develop an attitude of

mindfulness, belonging, and an awareness of “Learning to Love to Learn”. With the standards and practices of IB, we strongly believe, “If the child has not learnt, it is we who have not taught”.

With over 26 years of helping children, and parents, crystallising their professional and academic dreams, planning their future; we have discovered the presence of an intrinsic power, inherent in all children but unrecognised and sleeping in most. And that is because the parents are ignorant about this knowledge.

Achievements:

- Despite the entire Academic Year (2021-22) running virtual, due to Covid-19; our DP student joined the World Topper Rank – scoring a perfect 45/45. Every other student, whoever had appeared for DP, secured a perfect first division.
- All our DP students have been successfully placed, in their preferred universities, placed across the globe. The majority of which were prestigious ones and a large number of our students received scholarships to aid their academic progress.
- In the Academic Year 2019-2020, MYP and DP results were 100 percent, with the highest score being 56/56 – World Topper – in MYP and 44/45 in DP.
- In August 2022 we attained 100% results for MYP and DP, with the highest score being 55/56 in MYP and 43/45 in DP.
- By this balancing power of the best of East and West, our

school has been blessed by the Divine Grace with the honour of being, since 2012, a Model IB World School in Asia.

- On 15 Nov 2019, just four months before the lockdown began, we received through an IB Evaluation process, 'accreditation from IB for our excellent standards and practices'. IB has, in addition, requested us to share these standards and practices, through networking.

'Being gifted is primarily a product of the ambience. And by the current definition, the level of intelligence can easily be reached by nearly every child (Dr. Neil Harvey). We, at Victorious Kidss Educares, are experiencing this phenomenon, again and again.

Intellectually active engagement of our students, through inquiry, we have been successful in nurturing this power of awareness. With this consciousness, understanding, and concept, we crystalise, 'Success for Every Child'.

These children garner and hone their life skills by taking responsibility for their own learning!

As a School Management Core Team, we work with the Wisdom and knowledge that 'Our children are no longer the people as we were in the school. That if we try to teach them, the way we had learnt yesterday, we will rob them of their tomorrow.

We are a 'Not for Profit' IB World School.

VKE thoughtfully offers the following:

- VKE was one of the first schools to onboard virtual classes instantaneously during the pandemic. We continue to provide the hybrid classroom model to selected students to date.
- Broad-spectrum sporting facilities consist of basketball, volleyball, handball, football, cricket, badminton, tennis, table tennis, swimming, skating, Mallakhamb, gymnastics, yoga, and athletics.
- TED-Ed program for MYP students.
- Career counselling, placements, guidance towards scholarships, and internships.

- Scholarships in top universities for DP students.
- Vedic Mathematics, Robotics, Abacus, and Design Technology.
- Visual Art, Performing Art, 3D Digital Arts Lab, and Pottery Studio.
- Diversified exposure in Performing Arts (Indian Classical, Western, Dance – Bharatanatyam, Hip Hop, Freestyle).
- Concentration techniques – Pranayama, Yogic breathing exercises, and Mindfulness Meditation.
- Model UN Programme to enhance communication skills in debating and negotiation.
- Parental workshops

The students of VKE march fearlessly and forge ahead on the path of truth, purity, and perseverance and become, 'the torchbearers of the IB learner profile, towards the life they have dreamt for'.

The Western Australian International School System (WASS) provides education from Kindergarten through to Senior Secondary School and is currently offering various international curriculums for all students. We are proud to be one of the only two schools in Vietnam licensed by the Western Australian Department of Education and to be recognized as an Australian Oversea School in Vietnam.

We are also one of the only 18 international schools in Vietnam allowed to teach the International Baccalaureate Diploma Programme, one of the only 2 schools in Vietnam allowed to offer the West Australian Certificate of Education program (WACE), and the Western Australian Program (WAP) in teaching.

The school is accredited by the Vietnamese Ministry of Education and Training, the International Baccalaureate Organization (IBO), and School Curriculum and Standards Authority (SCSA). These two pathway programs (IBDP and WACE) at WASS will provide our students with the choice and opportunity to follow their dreams by selecting the most suitable higher-level education course for their future. In 2021, Western Australian School System officially launched the Advanced Placement (AP) program which is accredited by the College Board.

WASS educates students in a multicultural, open-minded,

loving, and friendly environment. We are always aiming for sustainable development, not only equipping students with knowledge but also the ability to think critically and form social skills so that they are confident and well-prepared to step into the future challenging world. For the past 10 years, WASS has become the home of hundreds of students from over 10 different countries around the world.

With English as the primary language of instruction, standardised academic programs, and enthusiastic support, our students have gained the skills to integrate into the dynamic and global world.

WASS has five modern, state-of-the-art, campuses in excellent city centre locations in Ho Chi Minh City, Southern Vietnam. The facilities are carefully designed to help inspire students toward their qualifications, goals, and future adventures in life. It is WASS's mission to educate talented young people and build a high-quality, world-class, and global education – helping students open the gate to the world and achieve success in the future. From the enthusiasm and belief of “A world-class education with the world in your class”, WASS is committed to providing the younger generation with a modern, dynamic and educational environment that energizes the students with the confidence to perform spectacular jumps to reach their dreams.

The Western International School of Shanghai (WISS) is a leading international school with a track-record of over 15-years of excellence in international education. WISS is amongst an elite group of schools worldwide with a triplecrown of accreditations. As an IB Continuum World School, accredited by the Council of International Schools (CIS), and Western Association of Schools and Colleges (WASC) WISS offers a world-class education.

A WISS Education offers a robust but balanced academic program and is unique as the first and only full continuum International Baccalaureate (IB) World School in Mainland China. Our broad range of programmes is designed to respond to the rapidly evolving education and employment landscape.

This unique approach to education facilitates individualized pathways that empower students to become life-long learners and develop into successful Global Citizens. WISS is home to a diverse student community of over 45 nationalities offering a vibrant learning environment.

Conveniently located in New Hongqiao, WISS is nestled amongst green residential spaces, with easy access to all major commercial and tourist areas.

WISS offers a robust and holistic international curriculum that includes the full range of International Baccalaureate (IB) Programmes, the Primary Years Programme (IBPYP), the Middle Years Programme (IBMYP), the Diploma Programme (IBDP), and the Career-related Programme (IBCP) alongside a strong athletics, music, arts, and performing arts curriculum.

Through our Distinguishing Programs, WISS students have ample opportunities to develop leadership and excellence, becoming lifelong learners who balance mental and physical challenges. Programs such as these are part of what makes our school's vision of "sending into the world brave, compassionate, internationally minded global citizens with the skill and intellect to help shape the future" a reality.

There are also many after-school activities offered daily and on weekends. Some of the activities available include: a variety of sports, mother tongue language clubs, Student Government, music, drama, cooking, robotics, and many others.

WISS has one of the largest international school campuses in Shanghai, spread out over 18 acres of lush greenery. The modern campus features open plan classrooms equipped with air purification units, a well-resourced library, cafeteria, and two cafes. WISS also boasts state-of-the-art science and technology laboratories equipped with 3D printers and laser cutters. In addition to providing students with the most up-to-date hardware and software for design, the school hosts the "Imaginarium" – a completely green room for film and media. Our creative arts program showcase spacious art studios, a black box theatre, the Orsini Theatre, and modern music studios. Sports facilities include both grass and AstroTurf football fields, a running track, basketball courts, a gymnasium equipped with a rockclimbing wall, and two indoor swimming pools.

World-class IB resources for world-class thinkers

At Oxford we're a global leader in International Baccalaureate resources. For many years we've been creating innovative and inspiring learning materials to support the IB's remarkable scope and distinctive philosophy. Our resources are developed by academic experts and underpinned by the enduring excellence of one of the world's leading universities.

We're constantly exploring fresh opportunities, developing innovative new ways to learn, and equipping students with the skills they need for a successful future.

By choosing Oxford's high-quality print and digital resources you know you can deliver the IB curriculum to the highest standard, this year and every year.

Website

www.abc.edu.sv

At the ABC, our mission is to change the world by building responsible outstanding citizens, through our commitment to a values-based and holistic learning experience. The ABC has a carefully designed curriculum that provides a natural continuum between a world-class Early Years provision (based on the UK's Early Years Foundation Stage but also heavily influenced by the Reggio Emilia play-based approach to learning) through to MYP and the IB Diploma. The curriculum is supported by a wide range of co-curricular and extra-curricular enrichment experiences including international trips, community service, sports, and visual and performing arts. The school also has a Learning Support Unit comprising 6 highly-qualified professionals to support students with their emotional and learning needs. The learning journey at the ABC nurtures a strong sense of care and respect for oneself, others and society through the demonstration, application and development of our values.

Situated on a beautiful 13 acre site, the ABC is equipped with science laboratories, libraries, a theater, a performing arts center, a large multi-purpose auditorium, swimming pools and sports facilities. Faculty is mainly from the UK and

El Salvador but includes a range of nationalities from around the world. The language of instruction throughout the school is predominantly English. The ABC is fully accredited by the Council of International Schools (CIS) as well as being a member of the Latin American Heads Conference (LAHC) and the International Values-based Education Trust (IVET).

Our dedicated Guidance Counsellors support our students to ensure they find the best fit university for them. Our graduates receive offers of admission from universities in countries all over the world including Columbia, Pennsylvania, Stamford, Berkeley, Notre Dame, Duke, Edinburgh and Durham.

We are a true example of an internationally minded community, as recognised in our latest evaluation review from the IB:

“Academia Británica Cuscatleca offers a holistic, values-based approach to education. It has high academic standards, including the full IB Diploma and an international outlook. It has a strong well-being focus and a strong sense of identity and community. It offers excellent preparation for university education...”

**Atlanta International School. Developing Courageous Leaders Who Shape Their World For The Better**

Founded over thirty years ago by people who wanted a different sort of school in Atlanta, Atlanta International School offers a comprehensive and challenging International Baccalaureate (IB) curriculum from 3K to Grade 12, enhanced with a world-class language acquisition program.

At Atlanta International School (AIS) students are focused on developing the skills to creatively collaborate on the challenges of the future and are equipped to become changemakers.

Offering an authentic, nurturing, learning community, AIS values curiosity, empathy and a passion to create a world with environmental, economic and social well-being for everyone.

Faculty from around the world are focused on genuinely getting to know, value and nurture each and every student, and his or her unique skills and strengths. The result is a spirit of community and a celebration of the diversity of perspectives that come from students, families, faculty and staff representing 90 nationalities and over 65 languages.

A full immersion preschool program for children ages three and four is offered in German, French, Chinese and Spanish. From 5K through Grade 5, the inquiry-based IB curriculum is taught in two languages. All faculty are mother tongue speakers of the language they teach.

Students not only learn at least one other language, they learn through language, developing so much more than

linguistic proficiency. At AIS students are taught to develop 'intercultural competence', the ability to easily navigate and flow between and among different nationalities and complex cultural situations – and to do so with tremendous empathy, diplomacy and tact.

Students entering Secondary School have varied language backgrounds and a wide range of options to develop their language proficiency, from beginner to taking both Language & Literature and Humanities courses at an advanced level, many choosing to pursue dual language IB Diplomas.

The curriculum is complemented by an extensive range of age-appropriate activities to enhance students' learning experiences beyond the classroom.

The athletics department is home to more than 40 teams pursuing 12 different sports. Theatrical and musical talent is showcased via regular performances alongside frequent art exhibitions.

In Secondary School, in addition to internships that students complete as part of a STEM or STEAM Diploma Endorsement, students participate in many other activities including service projects, Model United Nations, Mock Trial, the AIS Space Program, Robotics and educational international trips.

Parents, alumni, faculty, staff and students actively participate in the growth and sustainability of the school, with community firmly at the centre of all activities. The result is a pioneering and courageous spirit built upon local impact and global reach.

Cambridge College Lima ('Cambridge') is a private institution founded in 1985, whose purpose is to provide a co-educational, bilingual, modern, and holistic education. Cambridge is a member of Inspired, a leading global group of premium schools, with over 80 schools across five continents. A definitive statement of excellence in private education; Inspired is an independent school group designed to inspire students, to achieve their maximum potential in a nurturing, progressive academic environment.

At Cambridge, we seek to meet our students' social, emotional, and physical needs with a high-quality, holistic, and personalized education. Our student community is enriched by a diversity of families, which significantly influences our students' formation with a distinctive Cambridge feeling of community founded in a strong national identity with a global mindset.

Our Academic Programme combines the Peruvian Ministry of Education requirements with our students graduating with the International Baccalaureate Diploma Programme. The curriculum is balanced with various art courses, including Performing & Visual Arts, Drawing, and Music with students able to specialize in the latter during Middle School.

Cambridge offers a wide range of afterschool activities.

These include sports such as basketball, football, volleyball, chess; activities such as MUN and debate; and also The Arts. MUN is a very popular after-school activities and public speaking is a taught curricular subject. From Grades 6 to 11 debating and public speaking promote a high level of critical and creative thinking, negotiation, and teamwork. It aims to encourage our students' involvement in those activities that support power (soft) skills development, allowing them to develop into the profile of students achieving their own potential. Students develop awareness and social responsibility through their participation in our school committees such as Cambridge Green and Cambridge Action. Learning by experience, they become aware of the importance of social work to create constant and sustainable development. Students go to different communities to work with and for them during school hours and work on actions that are student-led and supported by the CAS Coordinator.

Cambridge has a personalized Counselling Programme using Unifrog and also Arete for students from grades 9 to the senior year. Students are encouraged and guided to reflect upon their skills, interests, and preferences to identify what national and international universities offer regarding the careers that match their profile.

Colegio Altair is a private institution founded in 1995, whose purpose is to provide a co-educational, bilingual, modern, and holistic education. Altair is a member of Inspired, a leading global group of premium schools, with over 70 schools across five continents. A definitive statement of excellence in private education; Inspired is an independent school group designed to inspire students, to achieve their maximum potential in a nurturing, progressive academic environment.

At Colegio Altair we seek to meet our students' intellectual, physical, emotional, and social needs with a high-quality and personalized education. Our student community is enriched by multicultural families, which significantly influences our students' formation. Around 12% of the families are from different nationalities.

Our Academic Programme combines the Peruvian Ministry of Education requirements with the guidelines of the three levels of the International Baccalaureate: Primary Years Programme, Middle Years Programme, and Diploma Programme. The curriculum is holistic and balanced with various art courses, including Performing & Visual Arts, Drawing, and Music. A Talent program is offered from grades 3 to 6.

Colegio Altair offers a wide range of afterschool activities. These include sports such as basketball, football, volleyball; cultural activities such as MUN and debate; and musical

activities such as choir, big band, wooden, metal and string instruments among others. MUN and Debate are very popular after school activities and curricular subjects from Grades 6 to 11. The primary skill developed with these two programs is the ability to speak in public effectively. They also promote a high level of analysis, synthesis, supporting arguments, investigation, negotiation and teamwork.

Colegio Altair has an Accreditation Programme that accounts for credits earned based on high school students' participation in social, sports, and/or cultural activities. It aims to encourage our students' involvement in those activities that support soft skills development, allowing them to develop a comprehensive profile. Students develop awareness and social responsibility through their participation in our community. Learning by experience, they become aware of the importance of social work to create constant and sustainable development. Students go to different communities to work with and for them during school hours and work on an action plan that is executed proactively.

Colegio Altair has a personalized Counselling Programme for students from grades 9 to 11 and Diploma. Students are encouraged and closely oriented to reflect upon their skills, interests, and preferences to identify what national and international universities offer regarding the careers that match their profile.

Cultural Arts Academy Charter School offers a dynamic elementary education of both the mind and heart, focusing on developing the whole child. Our mission is to provide a college preparatory education, with exemplary cultural arts proficiency, to young leaders who will profoundly impact the human condition.

Established over twelve years ago, CAACS boasts two global recognitions; The prestigious Franklin Covey Lighthouse School designation, attained in 2017, and authorization as an International Baccalaureate (IB) World School, attained in 2019. Through these two designations, CAACS operates one synergistic learning model, rooting in student-lead learning and leadership.

Our goal is to fully prepare our scholars for college, career, and citizenship, starting with instilling the foundational principles of open-mindedness, problem-solving, strong character, and intrinsic motivation. Establishing 21st century skills through project-based learning across all grade levels equips our scholars with the necessary tools for success.

At the core of our school, of course, is culture and the arts. All scholars, from Kindergarten through 5th grade, receive

extensive education through the arts, including Dance, Drama, Music, and the Visual Arts. Learning through multiple forms of expression provides our scholars with a deep appreciation and passion for the arts across time periods and cultures, as well as an ownership of self-expression.

True evidence of student learning, mastery, and success comes not only from their research-backed presentations, artistic performances, and creative projects, but through their ability to identify problems within the world around them and construct reasonable and effective solutions. Recently, the strength of their character is seen in the resiliency they exhibit amongst all the changes happening within their school and home life, given the nature of the state of the world. This has been the value of the International Baccalaureate Primary Years Programme for our students. CAACS is proud of the self-motivation and agency our students have developed and exercised in their own learning experiences.

In June of 2023 our 5th grade students will graduate as open-minded and principled thinkers, ready for the next level in their educational journey and beyond.

Founded in 1872, Dwight School is an internationally renowned college preparatory school with a rich tradition of academic excellence and igniting the “spark of genius” in every child. Dwight’s world-class education rests on three pillars: personalized learning, community, and global vision. The School’s diverse faculty and student body represent over 45 countries, deepening the internationally minded, innovative learning environment.

A leader in global education, Dwight is the first school in the Americas to offer the comprehensive International Baccalaureate (IB) curriculum for students from preschool through grade 12. It was also the first school in New York City to offer the PYP. The rigorous IB is recognized as the “gold standard” in pre-university preparation. Through the IB, Dwight is educating students to become caring, open-minded and critical-thinking global leaders. Foreign language instruction is extensive and begins in preschool.

Through Spark Tank, Dwight’s unique incubator designed to nurture innovation, entrepreneurship, and leadership skills beyond the classroom, K-12 students develop their own

ideas for new businesses, non-profits, and products.

Dwight School in New York is the flagship campus of a global network, which includes schools in London, Seoul, Shanghai and Dubai. Dwight Global Online School – a campus in the cloud ranked the #2 best online high school in the U.S. – extends a world-class Dwight education everywhere. Dwight students benefit from a wide range of exciting cross-campus academic, leadership, and creative collaborations.

Dwight School has a comprehensive college guidance program beginning early in grade 9. Graduates attend the finest colleges and universities in the world, including Harvard, Yale, Princeton, MIT, Stanford, Oxford, St. Andrew’s and the University of Edinburgh, among many others. Upon graduation, they join an extensive global network of alumni leaders – all dedicated to making our world a better place.

Dwight is accredited by the Council of International Schools, the International Baccalaureate, the Middle States Association of Colleges and Secondary Schools, and the World Academy of Sport. Financial aid is granted on the basis of need.

Edgewood High School is a public high school located in the city of West Covina, 19 miles east of Los Angeles. Edgewood is an International Baccalaureate World School authorized to offer the Middle Years Programme, Diploma Programme, and Career-related Programme. Edgewood is a school of choice serving a diverse population of 845 students. Edgewood reopened as a high school in 2010 with our first graduation class in May of 2014. In addition to being an IB World School since 2011, Edgewood has been accredited by the Western Association of Schools and Colleges.

Edgewood offers a smaller learning community focused on preparing creative, inquiring, and caring students prepared for college and career. This can be seen in our Mission Statement, “*Edgewood, an IB World School, is committed to building a globally aware community of lifelong learners who achieve high academic standards. Edgewood provides a diverse, challenging curriculum that is student-centered and develops inquisitive, knowledgeable, and empathetic students who actively engage in and contribute to their family, community, and the world around them.*”

Edgewood offers a variety of courses to meet our diverse student needs. The curriculum includes: honors courses in 9th and 10th grade, both standard level and higher level IB

courses, a world language program, a fine arts department offering visual arts, music, and drama, a health and physical education program, career and technical education pathways in athletic training, game design, public safety, performance dance, CISCO, and video production, and support services for special education and English learner students. Students at Edgewood learn in state of the art facilities including a brand new Event Center. The Event Center features a 350-seat auditorium and freestanding seats and houses the IB Career Programme courses in Game Design and Video Production.

Students at Edgewood are also provided personal and social development opportunities created by participation in extracurricular activities such as ASB, clubs, yearbook, dances, study trips, performances, cheer, athletics, and service opportunities. Edgewood offers CIF sports in cross country, baseball, softball, tennis, basketball, volleyball, water polo, soccer, wrestling, track, and swim. The completion of the new Edgewood Sports Complex features an Olympic-size swimming pool, updated locker rooms, two digital scoreboards capable of video playback, a high-quality sound system, and updated basketball courts.

Edgewood, an International Baccalaureate World School, is committed to building a globally-aware community of lifelong learners who achieve high academic standards.

Edgewood provides a diverse, challenging curriculum that is student-centered and develops inquisitive, knowledgeable, and empathetic students who actively engage in and contribute to their family, community, and the world around them.

Edgewood Middle School is a public school located in the city of West Covina, 19 miles east of Los Angeles. Edgewood received the IB Middle Years Programme authorization in December 2018 and is authorized to offer the International Baccalaureate Middle Years Programme. Edgewood is a school of choice serving a diverse population of 624 students in grades 6-8. Edgewood provides a smaller learning community focused on preparing creative, inquiring, and caring students. Edgewood IB students are ready to make connections between subjects studied and the real world as well as develop critical and reflective thinking skills.

EMS offers a variety of courses to meet our diverse student needs. The curriculum includes: honors courses in 7th and 8th grade, a Dual Language program, a world language program offering both Mandarin and Spanish, a fine arts department offering visual arts, music, theater, a health and

physical education program, dance, yearbook, and services for special education and English learner students.

Edgewood Middle School offers outstanding student support through committed, compassionate teachers that provide multi-tiered systems of interventions and enrichment opportunities. Edgewood students are holistically taught in diverse learning environments that prepare students for a global workplace. Partnerships with community, local agencies, and organizations provide opportunities for students to participate in activities for service. Students at Edgewood get to learn in our modern, newly constructed state-of-the-art Event Center. The Event Center features a multi-purpose auditorium with a 350-seat capacity, and houses the IB Career Programme courses in Game Design, Athletic Training, Performance and professional Dance, and Video Production. The new Edgewood Sports Complex features an Olympic-size swimming pool, updated locker rooms, two digital scoreboards capable of video playback, a high-quality sound system, and updated basketball courts. Students at EMS are provided personal and social development opportunities created by participation in extracurricular activities such as WEB, 40+ clubs, dances, performances, cheer and athletics. Edgewood offers sports in track and field, flag football, tennis, softball, basketball, volleyball, and soccer.

EF Academy International Boarding Schools prepares students for a global future with an exceptional high school education in the US or UK. We empower every student to succeed through our renowned curriculum, quality one-to-one guidance and experiential learning opportunities. Our students, representing 60+ nationalities, live the IB ethos of intercultural understanding and respect every single day and benefit from learning in a diverse environment that emphasizes multilingualism and cultural exchange.

The School

Our IB World School is located approximately 45 minutes from Manhattan. EF Academy's secure campus offers 97 acres of landscaped grounds, running trails and playing fields in the quiet suburban town of Thornwood. Our facilities include spacious classrooms, a fully-equipped gym and renovated sports facilities, comfortable on-campus residences and a Health Center.

Academics

Instruction and guidance at EF Academy New York is highly personal. Students follow the US High School Diploma from Grade 9, which prepares them for the opportunity to enroll in the full IB Diploma Programme or take individual IB Courses in Grade 11. All students who successfully complete the IB Diploma at EF Academy New York are also awarded a nationally recognized New York State High School Diploma.

Support and Guidance

Each student at EF Academy New York is assigned a University and Academic Advisor (UAA) who helps them select the right courses, monitors their academic progress and supports their social and emotional wellbeing. In addition to receiving one-on-one support from teachers, students work together with UAAs to research and apply to the universities that best suit their goals and interests.

University Placements

EF Academy New York graduates have been accepted to universities such as The Cooper Union, Parsons School of Design, New York University, Boston University, University of California – Los Angeles and Vanderbilt University.

Student Life

With over 120 co-curricular clubs and activities on offer, students are provided with a wealth of special-interest clubs, varsity sports and community service opportunities to complete their Creativity, Activity and Service (CAS) program. Our school's activities coordinators also arrange teacher-led excursions so students can extend their learning beyond the classroom and take advantage of the impressive museums, historical sights and other advantages that being a student in New York has to offer.

Escola Eleva is a Brazilian bilingual school that has four campuses in Brazil. Two in Rio de Janeiro, one in Barra da Tijuca, a second one in Botafogo, a third one in Recife, in the Northeast of Brazil, and a fourth one in Brasília, our capital. Across all sites, Escola Eleva students attend nurturing schools committed to academic excellence and are proud to celebrate the diversity of Brazilian culture. Our mission is to form a new generation of leaders capable of making a difference in their lives contributing to a better world.

Located on Av José Silva de Azevedo Neto, in front of the Peninsula Condominium, with an area of 16,000 m², Escola Eleva Barra da Tijuca were intentionally built to stimulate creativity and the pleasure of learning, following world trends in education. The sports areas are made up of 3 sports courts and a society field, an athletics track, a 640 m² covered gymnasium and bleachers. Among the internal learning spaces are 2 Maker Spaces with Media Lab, 2 libraries and auditorium. In addition, the unit has an exclusive space for Early Childhood Education, with more than 800 m² of parks, classrooms with verandas, Mini Maker, music and theater rooms

We educate students aged 2 to 19 offering a bilingual academic environment that enables our learners to exceed their goals and to become successful, well-rounded individuals, while positively contributing to a better world.

Our highly-qualified educators are dedicated to each and every child and to ensure they receive the best possible opportunities to achieve their full potential, while at school and beyond graduation. Internationally-recognised IB-accredited qualifications, exciting extra-curricular activities, and a unique socioemotional programme place our children in a prime position to thrive.

Students learn in cutting-edge facilities and access resources that offer outstanding modern technology to support STEAM, Sports, Humanities, and Arts classes. Additionally, each learner receives excellent pastoral care and advice from specialist University Counsellors over an extended period, aiming to provide the support they need to proceed to the best universities and opportunities in the world.

Today the IB curriculum is available on the Botafogo and Barra campuses, as these are the ones that currently offer High School education.

Since May 2022, Eleva is proud to be part of the Inspired Education Group, the leading global group of premium schools. We have since been adapting our curriculum and activities to achieve even higher standards, bringing Inspired's best practices and experience from more than 80 schools in over 20 countries.

Across all sites, Escola Eleva students attend nurturing schools committed to academic excellence and are proud to celebrate the diversity of Brazilian culture. Our mission is to form a new generation of leaders capable of making a difference in their lives contributing to a better world.

Currently Escola Eleva offers the IB Diploma for high school students at two campuses, Botafogo and Barra da Tijuca, both in Rio de Janeiro.

Founded in 2017, Escola Eleva Botafogo is situated in a century old building with an area of 12,600 m², whose history has always being linked to education and which today we are proud to occupy and preserve. From 2023 we are going to have a new unit in Urca, our high school students will study in a centenary building in front of Praia da Urca, once home of Cassino da Urca, TV Tupi and IED. With modern facilities at their disposal they will develop to the maximum and live meaningful experiences during the last years of their school life.

At Escola Eleva Botafogo we educate students from kindergarten till the end of High School, aged 2 to 19, offering

a bilingual academic environment that enables our learners to exceed their goals and to become successful, well-rounded individuals, while positively contributing to a better world.

Our highly-qualified educators are dedicated to each and every child and to ensure they receive the best possible opportunities to achieve their full potential, while at school and beyond graduation. Escola Americana do Rio de Janeiro is one of Latin America's most respected international teaching institutions. Established in 1937, and an IB World School since 1982, EARJ is a non-profit school, providing an American international education to the expatriate and Brazilian communities of Rio de Janeiro. It blends a rigorous academic program with rich co-curricular opportunities.

EARJ occupies two campuses in different parts of the city, each offering programs from Preschool to the IB Diploma. EARJ is distinctive in that its 1,280 students can work towards graduating with three Diplomas concurrently: the IB Diploma, the US High School Diploma, and the Brazilianc Diploma. Every year, EARJ graduates are accepted to the world's leading universities, and we pride ourselves on each student finding the institution that is best for them. Whilst a few graduates remain to study in Brazil, the vast majority head abroad to the USA, Canada and Europe for university.

EARJ is proud to offer a holistic education that, through the philosophy and practices of the IB, inspires creativity, critical thinking, collaboration, communication, and the confidence to lead and excel in an ever-changing global community. The institution has a long tradition with the IB, being the second school in Brazil to implement the DP Programme.

Currently, EARJ is on the journey towards becoming an IB World Continuum School. In 2022, EARJ was officially recognized as a fully authorized International Baccalaureate Primary Years Programme (PYP) school. EARJ has developed a comprehensive two-year roadmap for the implementation of the Primary and Middle Years Programmes (PYP and MYP). During the Candidate Phase, faculty, students and parents were trained in Programme standards and practices in the form of professional development and specific workshops. The coming years EARJ will extend its belief in and commitment to the IB Programme Standards and Practices with the adoption of the MYP by 2024.

EARJ is a diverse international community of learners. Across our two campuses, our student body comprises 70% Brazilian and 30% International students, with our faculty demographic reflecting that same balance. The past years have seen tremendous growth in our enrolment, with further growth expected in the coming years. Our community is spread far and wide, via our Panther Alumni network, who keeps us connected to our past as we work towards an even brighter future.

www.foxcroftacademy.org

Foxcroft Academy, home of the Ponies, is an independent high school founded in 1823 on the principle that knowledge is power. Foxcroft Academy equips graduates with the life skills needed for success in college, career, and community by inspiring, engaging, and empowering students to become informed and active global citizens. Foxcroft Academy values the attributes that have been a source of strength throughout our history: the tight bonds that tie school to community, a cohesive student body with an abiding school pride, a professional staff committed to student achievement and lifelong learning, and an appreciation for the natural environment and safety of our rural location. Whether our students come from central Maine or from around the world, we celebrate diversity and pledge to maintain our focus on educational excellence for all.

As we celebrate our bicentennial (1823-2023), Foxcroft Academy exists as one of only nine remaining private academies (from an original 122) that serve the public trust as part of its mission. Today, Foxcroft Academy is proud to have an enrollment of more than 400 day and boarding students from 16 Maine communities and over 20 different nations. Students at Foxcroft Academy can choose from more than 150 different course offerings, including college preparatory, Advanced Placement (AP), International Baccalaureate (IB), and more. This extensive curriculum represents the core liberal arts requirements, college preparatory courses, advanced placement courses, vocational/technical courses, and an alternative education program.

Your success as a student is paramount to our mission and vision as an independent school. In addition to inside-the-classroom learning, Foxcroft Academy has plenty of co-curricular activities that you can be a part of. We offer over 20 interscholastic varsity sports playing under the auspices of the Maine Principals Association consisting of sports such as football, field hockey, soccer (boys & girls), golf, cross-country, basketball (boys & girls), wrestling, track & field, baseball, softball, and more. We have dozens of clubs and organizations for students to work with and belong to, such as Key Club, Spanish Club, National Honor Society, Latin Club, Student Council, and so much more!

Foxcroft Academy has a 125-acre campus consisting of a main academic building, gymnasium, an art center, an industrial technology building, several athletic fields (football field with track, soccer, field hockey, baseball, and softball), two weight//fitness rooms, a full-size indoor field house, and an indoor ice arena, all within walking distance of the dormitories. We also have access to an indoor pool at the local YMCA. All of our facilities are well-maintained, and our students have access to them multiple times a week.

Being a boarding student at Foxcroft Academy means you have access to a world-class curriculum, a wide variety of offerings, and a caring and supportive faculty and staff, all in the safe environment Northern New England offers.

Learn more about Foxcroft Academy at www.foxcroftacademy.org. Together, we will ride on.

The French-American School of New York (FASNY) is an international and bilingual independent coeducational day school providing an international education to approximately 750 students in Nursery through Grade 12. FASNY develops globally literate, multicultural lifelong learners through a unique program that integrates French, American, and international curricula.

A unique location

FASNY is located in Westchester County, New York, 20 miles north of Manhattan (35 minutes from Grand Central Station by rail) and 9 miles south of Greenwich, Connecticut. Most families choose to enjoy the space and quiet that this peaceful yet active area has to offer with a convenient commute to Manhattan.

Stellar academics

FASNY is the only school in the New York metropolitan area to be accredited by the International Baccalaureate Organisation and by the French Ministry of Education (AEFE). We are also accredited by the New York State Association of Independent Schools. Our students enjoy the unique privilege of graduating with either the IBDP or the French Baccalaureate (with or without the International Option) and a New York State High School Diploma.

The school offers a bilingual immersion program in Nursery through Kindergarten, bringing children of all cultural and linguistic backgrounds to academic fluency in French and English. In grades 1 through 8, students have

the option to continue with the French-American Track or a new International Track. New in 2020, FASNY offers a predominantly English speaking curriculum for students in grades 1 through 8. With little to no french required, students study roughly 70% of their subjects in English, with the remaining 30% in French, at the individual level and pace of each child's language skills. This lower and middle school International Track naturally leads students to our current 9-12 international curriculum, creating a cohesive 1-12 learning environment.

Each year FASNY sends students to top colleges and universities. Our acceptance list includes: Columbia, Harvard, MIT, Princeton, Stanford, and Yale in the United States, and Cambridge, Imperial College, LSE, Oxford, and UCL in the United Kingdom. Many students also choose to study in Canada, France, and other fine European institutions.

A vast array of co-curricular activities

Our strong STEM, Arts, Music, and Athletics programs along with our many clubs ensure a well-rounded education and encourage leadership. Strong Community Service, educational trips, and a large choice of clubs all contribute to the development of balanced and caring individuals.

A diverse and welcoming community

Our community of teachers and students represents over 50 nationalities, and the fabric of our school is one of tolerance, acceptance, and appreciation of our diversity. We mix French and American school-life traditions, creating a warm and engaging experience for our students.

Founded in 1893, George School is a Quaker, co-ed boarding and day school for students in grades 9 to 12 located in Newtown, PA. The school is close to major cities on a picturesque, expansive 240-acre campus of open lawns and beautiful woods. Students arrive from nearly fifty countries and more than twenty states.

George School is an experienced leader in education, offering the International Baccalaureate (IB) Diploma Programme for more than thirty-five years and boasting a diploma success rate of 95 percent over the past ten years. In addition to the IB diploma, George School offers nearly 20 Advanced Placement (AP) courses.

Experiential learning across disciplines is a hallmark of a George School education. Students gain practical experience

in subjects such as film, artificial intelligence, robotics, human geography, stagecraft, and more. Local and global service-learning opportunities are also an integral part of the curriculum and student life at George School. The chance to freely explore new passions, as well as dive deep into existing ones, makes for a journey of discovery and preparation for life beyond George School.

Understanding that knowledge and character go hand in hand is at the foundation of the George School community. Graduates enter the world confident and capable leaders rooted in self-awareness, self sufficiency, and the ability to listen deeply to others while letting their lives speak. They attend the most selective colleges and universities worldwide.

www.greengates.edu.mx

Greengates School, is a member of the Nord Anglia Education family of schools. It has been held in high esteem for over 70 years. Its British style international education caters to 1000 students, aged 3-18. The student body is largely made up from the diplomatic and business communities of Mexico City.

International-mindedness and cultural diversity are experienced daily with the participation of over 45 nationalities in our community.

The mission statement of Greengates School holds as true as ever today as it did when it was written in 1951. We encourage our students to develop character and self-discipline, while fostering respect and reflection in a challenging learning environment that honours individual differences. In Greengates we act with integrity and seek to motivate our students to become socially responsible citizens while achieving academic excellence.

As a British international school English is the language of instruction, from the age of six all students also study Spanish. Support in both languages is given as required. Furthermore, French is taught in the Secondary School and can be further studied at the levels of the IGCSE and the IB Diploma. Added to this, Korean and Japanese are also available as study options in the school's delivery of the diploma.

Graduates from Greengates attend some of the most prestigious universities in the world. Of the 2022 cohort 24% are attending universities in the USA, with acceptances to

institutions like Stanford University, University of California San Diego, University of California Berkeley, Boston University and many others. Additionally, another 22% of the year group are studying in Canadian top universities like the University of Toronto, University of British Columbia and McGill University. Offers were also received from University of Bristol, University of Edinburgh, University of Manchester, and many other institutions in the UK. We also have students attending prestigious universities around the globe like Waseda University in Japan, Yonsei University in Korea, Erasmus University Rotterdam and University of Amsterdam in the Netherlands among others. Our students also cumulatively received scholarship offers totalling over \$2M USD.

The teaching body in Greengates is comprised of almost 110 teachers from a wide variety of backgrounds. Alongside the many British teachers, highly qualified and experienced educators come from across the world. Teachers bring a variety of different skills and modern methods to the classroom and these approaches to teaching are central to the students' success.

The Primary School is fully accredited in the International Early Years Curriculum (IEYC) as well as in the International Primary Curriculum (IPC); with recognition given to the school's mastering in its practice of the curriculums. The Secondary School prepares students for the International General Certificate of Education (IGCSE). The IGCSE two-year course is studied prior to embarking on the IB Diploma

Programme. The Secondary School has been authorised to offer the IB Diploma Programme since 1986. In each of the last five years the pass rate has been 98-100%, with overall point scores being consistently well above the world average.

The Greengates campus covers an area of 20,000 square metres, with purpose-built facilities including two libraries, nine sciences laboratories, six computer media centres, four art studios, a theatre, an auditorium, a large gymnasium,

basketball courts, an indoor swimming pool, an organic learning garden used by all students, a cafeteria, an adventure playground designed by the famous architect Javier Senosiain and an all-weather field.

Enrolment is open throughout the year, depending on availability. We always welcome enquiries and visits from prospective families.

Founded in 2011 in Villahermosa, Tabasco, Mexico Greenville is an international school with an avant-garde and holistic educational model. 845 students between 2 and 18 years representing 20 nationalities find themselves in a multilingual and multicultural environment, where we prepare them to be global citizens and face the challenges of today's world. We are an excellent alternative for the local and foreign community.

We have been a member of the IB World Schools since May 2016. In all our activities we encourage a philosophy of respect and appreciation of diversity. We provide the necessary environment, tools and skills that allow our students to think globally and to take responsibility for their own life-long learning.

Thanks to our certification as an International Baccalaureate (IB) World School: Diploma Program (DP), Middle Years Program (MYP) and Primary Years Program

(PYP), our evaluation system is approved with both, international and national criteria, which makes it easier to integrate into any educational system around the world.

Since the beginning, we have built a reputation as an inclusive and green school. We promote ecological awareness that is fostered through the study plans and the environmentally friendly facilities. At Greenville, we seek that our students achieve personal growth, which is why, in addition to our exceptional academic offer, we provide various extra-curricular artistic and sports disciplines.

While most classes are delivered in English, all students in Grades K1-12 receive language instruction in Spanish and French. Greenville is an ETS (Educational Testing Service) and Alliance Française authorized center for the application of the TOEFL (junior/ITP) and DELF (junior) certifications.

We are proud of the community we have formed, where children and young people feel valued and happy.

www.nido.cl

Founded in 1934, Nido de Aguilas is a private, co-educational, non-sectarian, non-profit day school rooted in the best traditions of Chilean and North American education. Today, Nido has over 1550 students from 50 countries and offers a comprehensive liberal arts college preparatory educational program from Early Years (age three) through Grade 12. Nido serves the international business and diplomatic community of Santiago, as well as local students seeking an English-language, U.S.-style education.

Nido has offered the IB Diploma since 1982, and today, over 50% of our Grade 11 and 12 students enroll in the full IB Diploma Programme. Their IB Diploma scores are above the worldwide average, and our IB Coordinator ensures that students complete all required courses and register for all necessary external examinations. IB Diploma candidates are examined internally at Nido and externally by the IB Organization to award IB Diploma results.

Students must apply for acceptance into the IB Diploma Programme at the beginning of the second semester of Grade

10 before the course registration process the following year. Admission to the program is based on a student's academic record, including having a record of academic honesty. Students transferring from IB programs with good standing may continue in the IB program at Nido. In the case of English language learners, they must meet English language proficiency requirements to participate in the full IB Diploma.

IB courses are open to non-Diploma students. All Nido HS students are exposed to the IB curriculum during their academic career, as many upper-level courses are taught at the IB level. It is possible to earn the IB Diploma simultaneously with the Nido/US diploma and the Chilean National Plan Diploma.

Nido's high school faculty includes 34 IB teachers recruited from the best schools in the world. They have an average IB teaching experience of over nine years, and all attend official workshops in their subject group. In addition, Nido has a robust mentoring program for teachers new to the IB.

Now celebrating its 60th anniversary, the International School of Boston (ISB) is an independent, non-profit, age 2-grade 12 multilingual school located in Cambridge, MA. This world-class accredited academic institution places the development of the bilingual brain at the heart of its mission. Offering a rich experience with rigorous programs, ISB prepares its students for a lifetime of learning and service.

In addition to being long known for its excellence in bilingual French and English education, ISB has recently launched new Chinese and Spanish language programs for our students to explore and master starting in Grade 2. Our youngest students, in Pre-K through Grade 1, are also expanding their knowledge of Spanish and Chinese in our *Éveil aux langues* program, which helps them to start awakening to and exploring these languages. This gives our Elementary students the opportunity to become trilingual, while our Secondary students have the option to study Spanish at the novice or fluent level within the English-based International Baccalaureate curriculum.

Whether students join us in Maternelle, Lower, Middle or Upper School, ISB graduates stand apart from other day schools' graduates, because their knowledge of the world is enhanced by learning across the disciplines in multiple languages and by connecting with diverse classmates from more than 40 countries. All ISB students graduate with an American high school diploma, having chosen between two internationally renowned diplomas, the French or the International Baccalaureate. Thus they have the opportunity

to thrive at leading universities in the United States, France, and around the world.

One of the many beneficial programs offered to Upper School students at ISB is the "Agora Monde" platform that allows them to connect with 60,000+ students and alumni from Lycées in the AEFÉ (agency for French education abroad) network around the world. They also have the opportunity to study for up to a trimester at a partner school abroad. Our younger students take advantage of all that the Greater Boston area has to offer in terms of culture, arts, and history through experiential learning programs. ISB also has a very strong athletic program that includes its Blue Terriers Varsity Interscholastic soccer, basketball, volleyball and fencing teams.

Accreditations & Memberships

ISB is accredited by the Council of International Schools (CIS), the French Ministry of National Education, the International Baccalaureate Organization (IBO), and the New England Association of Schools and Colleges (NEASC).

ISB is a member of the Agence pour l'enseignement français à l'étranger (AEFE), the Association of French Schools in North America (AFSA), the Association of Independent Schools in New England (AISNE), the National Association of Independent Schools (NAIS), and the Mission laïque française (MLF).

We invite you to contact the ISB Admissions Office at admissions@isbos.org.

The International School of Los Angeles is an independent, international, high-quality school that offers both a French immersion track from preschool through 12th grade and a separate international high school track that prepares students for the International Baccalaureate® Diploma Programme in grades 11 – 12.

Students study a common bilingual program from preschool through 8th grade, after which they choose one of two rigorous programs that culminates in the International Baccalaureate® Diploma (taught in English) or the French baccalauréat (taught in French). With an education delivered in an intimate, nurturing and diverse environment, our students become caring global citizens prepared to thrive in a changing world.

The School has offered the IB Diploma Programme for more than 20 years. Possessing such a robust bilingual background, many of its students pursue the prestigious Bilingual Diploma, demonstrating their proficiency by completing the requirements in both English and French at Literature level. This highly sought-after credential has become another mark of distinction for the International School of Los Angeles' IB students.

In the 2019-2020 school year, the School extended its international track to the beginning of 9th grade, thereby

realigning its entry points to reflect the US educational model, further internationalizing its curriculum, and providing students an additional year of preparation ahead of the IB Diploma Programme. Students entering the international track in 9th grade are not required to demonstrate proficiency in French but should display an openness to learning another language.

With multiple Los Angeles-area campuses (Burbank, Los Feliz, Pasadena, and West Valley), and more than 1,000 students, the International School of Los Angeles holds accreditation from the French Ministry of Education, the Western Association of Schools and Colleges (WASC), the California Association of Independent Schools (CAIS), and the International Baccalaureate® (IB). The School is also a member of the National Association of Independent Schools (NAIS) and the National Honor Society (NHS) networks.

The International School of Los Angeles is committed to the values of respect, excellence, and diversity, and to preparing students of all backgrounds to excel in and contribute to a global world. Since 1978, the School has been instilling the love of learning in all its students through small classes and low student-to-teacher ratios. With over 65 nationalities and 40 spoken languages represented on the campuses, students study and live in a diverse global community every day.

Working together with Southern International School and Northern International School.

In 1981 Mrs. Estela María Irrera de Pallaro and her husband Andrés Pallaro founded a kindergarten in a lovely house situated in O'Higgins St. in Belgrano, which was later to become Islands International School. Some years later, as a result of hard work, clear objectives and true commitment, a primary school was opened in a spacious building situated in Virrey del Pino and Arcos St. In 1988, a secondary school was opened with a curriculum based on the latest, most prestigious syllabi in Argentina and the whole world. The new building situated in Amenábar St. offered our students appropriate facilities and modern equipment to meet the highest educational standards.

From the beginning, our aim has been to present our students with a demanding curriculum while emphasizing the values of hard work, effort and commitment. The outstanding achievements of our alumni both in college and later on in their jobs are irrefutable proof of our success.

In 1990 Islands embraced a new challenge by joining the International Baccalaureate Organization, a well known association of schools seeded in Geneva, Switzerland whose main objective is to foster the students' skills so that they can perform successfully in an increasingly demanding academic world and expanding job market. Furthermore, it is essential that our students should acquire full command of the languages taught at our school: Spanish, English and Italian.

By getting an IB diploma our students can also get the "Maturità Linguistica o Scientifica", which is a diploma issued by the Government of Italy at the end of secondary school and which grants students admission to European Universities.

Our school emphasizes the values of respect and hard work as the main tools, which will enable our students to achieve success. Islands International School provides students with quality education, which comprises the latest technological breakthroughs and the practice of human and social values.

La Scuola d'Italia is a multicultural, multilingual institution located in the heart of Manhattan. At La Scuola, students pursue Italian and U.S. rigorous curricula simultaneously, supported by a nurturing international community comprised by people from all over the world who recognize the value of an internationally minded, multilingual, and academically challenging education.

In addition to being recognized by the Italian Ministry of Education, La Scuola is chartered by the Regents of the University of the State of New York and accredited by the New York State Association of Independent Schools (NYS AIS). As a further confirmation of the quality of its educational offering, La Scuola was officially authorized to offer the International Baccalaureate Diploma Programme to its 11th and 12th grade students in May 2018.

As a result, La Scuola students enjoy the unique possibility of graduating with a high school diploma that is fully recognized by every university institution in Europe and the United States. Thanks to their International Baccalaureate

Diploma Programme affiliation, our students now benefit from even greater opportunities to truly stand-out on the global stage.

La Scuola is committed to the harmonious integration of different disciplines, cultures, and languages into its carefully designed K-12 curriculum. An exceptionally dedicated and highly qualified faculty refines the curriculum regularly in a low teacher-student ratio environment.

La Scuola strives to prepare students for the academic, professional, social, cultural, and ethical challenges deriving from a globalized world. The education we offer aims to:

- develop in students the specific skills and knowledge required to excel in higher education and beyond within the domains of mathematics, science, modern and classical languages, history, philosophy, the arts and business management;
- foster in students a deeper understanding of their future role as thoughtful, respectful, caring and principled human beings in an ever-expanding world community.

**Open to the World**

The world has changed and it's time for education to catch up. That's why, every day, it's the students at La Scuola who ask the challenging questions... they lead – and embrace – their own ability to learn across languages, cultures and subject areas. Because when children are open to the world and protagonists in their own education, there's no limit to their ability to learn, find beauty in life, and discover extraordinary answers.

At La Scuola International School – the only Reggio Emilia inspired, International Baccalaureate – PYP and MYP – and Italian language immersion school in the world – our mission is “to inspire brave learners to shape the future.”

We offer an inquiry based, immersive Italian language curriculum for Preschool – Grade 8 students. With Inquiry as the leading tool of our education, students foster critical and creative thinking skills, confidence, collaboration, and empathy.

La Scuola is also recognized by the Italian Ministry of Education as a Scuola Paritaria. In our diverse, multicultural and multilingual school, students grow in a community that balances academic rigor with creativity and real-life tools like cultural awareness and global citizenship.

Lincoln Park High School, founded in 1899, is a Chicago public high school that offers very successful IB Diploma, MYP & CP Programmes within the context of a college preparatory school for students of all ability levels. Students living in our attendance area or anywhere within the Chicago city limits can make application to Lincoln Park's Magnet Programs, which include the IB Diploma Programme, the IBCP (Performance Music, ROTC, Sports & Health, Theatre, Computer Science, and Visual & Digital Arts), an Advanced College Prep (Honors/Double Honors/AP) Program, and a Performing/Fine Arts Program with concentrations available in drama, band, strings or visual arts. After admission, any student may elect music or visual arts. Special consideration for admission is extended to students from other IB schools and to international students from the business and diplomatic communities.

Fluent/bilingual French students can participate in a special program (EFAC) that can include preparation for DELF or the French Baccalaureate in addition to college prep, AP, and/or IB classes. All students with special needs are supported in their IB and college preparatory classes by a full special services program.

Newsweek magazine has ranked Lincoln Park as one of the top 100 high schools in the US and, for the last fourteen years, *US News & World Report* awarded the school gold and silver medal rankings.

Its staff places high value on rigor, mutual respect and creativity, while encouraging students in both their academic and extracurricular activities to develop their talents and interests to the full. Personal excellence, a willingness to

challenge oneself, inventiveness, and a can-do spirit are at the core of Lincoln Park's culture.

Students come from over 80 countries and speak more than 60 different languages at home. A significant number of students in the IB Diploma Programme were born in other countries, are first-generation in this country, or the children of internationals. Within this diverse urban context students acquire insight into others and the leadership skills needed in a global society.

A wide variety of extracurricular activities (62) and interscholastic sports opportunities (currently 31) are available for all students. IB students are active in sports, drama, music, art, school clubs, and local organizations. Many do community service beyond the CAS requirement and are active in their individual churches, synagogues, and mosques. In addition to their work in their classes, all Lincoln Park students participate in a number of academic competitions in writing, history, experimental science, literature, social issues, world languages, and the fine and performing arts; many have gone on to the national and international levels of these competitions. Every year, the boys' and girls' athletic teams win division and sectional championships. The music program regularly earns superior ratings in competitions and is currently ranked among the top music programs in the state of Illinois.

Since 1984 approximately 80% of the IB students have gained the IB diploma on completion of the IB Diploma Programme. Lincoln Park enjoys an outstanding record of university acceptances both in the US and internationally.

www.lia-edu.ca

London International Academy (LIA) is a private, co-educational day and boarding school located in the beautiful “forest city” of London, Ontario, Canada.

LIA is an International Baccalaureate (IB) authorized world school with programme offerings from 9th to 12th grade in the Ontario Secondary School program (OSSD) as well as the IB Diploma Programme (11th and 12th grade).

The goal of LIA is to prepare and graduate our students for admissions to the top universities in Canada, United Kingdom, Southeast Asia, and the United States.

Our graduates are our greatest resource, and their successes are our greatest achievements.

LIA is in a privileged position to have established University Pathway Programmes with some of the finest universities in the country, our graduates are heavily favoured in the universities in which they apply to. In some cases, our senior students can earn university credits while in their senior year of high school.

In addition to the highest-level academic standards, the school offers numerous leadership development options such as The Duke of Edinburgh Awards Society, The Circle Round Society, Model United Nations, and Student Prefects.

LIA's IB cohort student average in 2021 was 38, and the highest grade achieved in 2021 by a LIA student was 43. The IB students have a 100% subject pass rate, and 100% graduation rate. LIA is also known for their highly academic and hands on STEM program and is recognized for being amongst the top competitors in mathematics, robotics, artificial intelligence,

coding, and science competitions across Canada.

In addition to exceptional academics and student leadership opportunities the school well understands the mental health and emotional needs of our students. All staff are trained in “Wellness” approaches to student counselling and support. In addition, we have on site psychologists and counsellors trained to assist and support our students.

The school provides both boarding and homestay options. The boarding facility offers 24/7 supervision and meals provided by several local restaurants offering a variety of international cuisine. Its main campus, located in the heart of the city of London (Ontario), is a vibrant hub for activities and student innovation.

LIA offers small classes averaging 11 students per class. Our teaching faculty are both IB and OSSD certified teachers, with 90% of our faculty holding advanced degrees and Doctorates.

Student services takes an individualized approach to university admissions and applications having recently placed students at the University of Toronto, University of Waterloo, University of British Columbia, Carnegie Mellon, Imperial College, University of Manchester, Kings College, London School of Economics, University College of London, New York University, University of Amsterdam, University of Melbourne, Australia National University, Hong Kong University, Chinese University of Hong Kong.

LIA looks to educate young, bright minds while providing exceptional opportunities that allow students to stand out amongst the crowd, worldwide.

Madison schools have been nurturing minds and creating successful learning experiences for more than 40 years in our community. We have been fulfilling internationally certified academic standards through collaborative work, positive attitudes and core values. These are highly regarded in our schools.

Madison Campus Monterrey was the first school founded in the Madison Group of Schools, which are located in different Mexican states: Nuevo León, Coahuila, Yucatán, and Chihuahua.

Monterrey is a modern and industrial city, known as one of the three most industrious and important cities in Mexico.

Monterrey has at least four well-known universities with important international exchange programs and several smaller ones.

Madison Campus Monterrey became bilingual in 1994. Since then, it has had a strong emphasis on the English language.

The school has programs that nurture its students' development:

- “Ruta de Independencia” School Trip: 5th-grade students spent five days travelling throughout different places in Mexico where the Independence Movement took place. This program enriches what they had learned in their classes, so they can live, themselves, a real learning experience.
- United Nations Model: Academic simulation of the United Nations that aims to educate participants about civics, effective communication, globalization, and multilateral diplomacy.
- Youth Leader Explorer exhibition: organized by one of the

most important high schools in Mexico where students develop different scientific skills.

- French Immersion Program: a week program held in Quebec, Canada.
- International trips: Every year we offer a complete Educational Travel Program to reinforce our main objective, that is to educate citizens of the world.

In 1999 the school decided to become part of the IB and began working towards its authorization. The school achieved authorization to offer the International Baccalaureate Primary Years Programme (PYP) in 2003 and the International Baccalaureate Middle Years Programme (MYP) in 2007.

We have had students from Russia, Argentina, Venezuela, Canada, Nicaragua, Colombia, United States, Philippines, Lebanon, Poland, Switzerland, Germany, Spain, India, and Japan.

One of Madison Group of Schools' greatest strengths is an International Teachers Program that enhances our students' abilities to interact with foreign cultures and learn from them.

For the last fifteen years, we have had instructors from Canada, China, Costa Rica, Croatia, Cuba, England, Ireland, Lebanon, Scotland, Poland, and the United States, teaching at our schools. Students and graduates from our school are well appreciated by the community and by the high schools they attend. Our well-articulated, inquisitive, mature and responsible graduates and students have already made a difference here in Mexico.

Madison Campus Monterrey is a certified school by SEP, an active member of FEP as well as IBAMEX.

We belong to the Madison Group of Schools, which has more than 40 years of educational experience.

On a national level, we have campuses in the cities of Chihuahua and Mérida*. Locally, we have the Madison International School (MIS), Instituto Anglo Británico, and Madison Monterrey.

Our particular campus opened its doors in 2007 in the south of Monterrey, in the area of El Uro, and we offer Nursery, Kindergarten, Primary and Secondary levels of schooling.

MIS is located in Monterrey, an industrial and modern city in Northeastern Mexico. The city is anchor to the third-largest metropolitan area in Mexico. Its economic, cultural and social influence makes it one of Mexico's most developed cities with the highest per capita income in the nation.

MIS provides a first-class education for students and gives children a head start in the modern world by taking their English skills to a higher level. Madison's superb bilingual program teaches children English beginning in their most formative years.

Madison International School uses the constructivist educational method and is also based on inquiry, reflexion, and active participation of our students.

As part of our international profile we encourage our students to participate in different programmes that nurture their development, such as:

- Destination Imagination: engage participants in project-based challenges that are designed to build confidence and develop extraordinary creativity, critical thinking, communication, and teamwork skills.
- Model United Nations: academic simulation of this international organization, which aims to educate participants about effective communication, globalization and multilateral diplomacy.

Madison International School proudly boasts some of the best student facilities in Monterrey such as computer and science labs, video and conference halls, library, cafeteria, music and art rooms, and substantial sports fields that are all staffed by teachers committed to creating a fun and interesting learning environment for the children. The school offers extracurricular classes ranging from guitar, piano, robotics, to sports teams. Madison's dedication to students' safety and wellbeing is the most important element, which is why we provide excellent security features that will give every parent and child peace of mind.

We encourage diversity and internationalism and therefore we welcome students, teachers and families from any religion, race, and nationality.

Established 76 years ago, Markham College is a regional influence in South America for educational leadership and academic excellence. We are an independent school that provides bilingual education to children from 3-18 years of age at our Miraflores and Surco campuses in Lima, Peru.

Markham has a British heritage and international perspective. We have an adapted British Curriculum that respects our distinct Peruvian setting. Our Early Years bilingual programme starts at 3 years old and leads them towards IGCSE and the International Baccalaureate Diploma programmes. Our IB program, with over 27 subjects, gives students the tools to succeed in universities worldwide. We encourage diversity and support passion by allowing our students to choose from over 100 different extracurricular activities and sports.

Our mission is to support children to become leaders in their chosen fields and be agents of change in Peru and the world. To achieve this, our curriculum is underpinned by the pillars of academic and creative endeavour, character development and service learning. Our outdoor education programme (HELIX) and social programmes are our special and unique features. They ensure that students receive a balanced and rounded education focusing on how they can make a difference in society. Furthermore, our student leadership programme means that students are a central part of the decision-making process with regard to their learning experiences.

Our teachers are also tutors and integral to our children's

pastoral care. Supporting our students' emotional, psychological, and physical development and academic growth is central to our educational philosophy throughout their Markham journey.

Peru's rich cultural history and its fantastic territory offer a wealth of opportunities for unforgettable experiences. Over 3000 km of Pacific Ocean coastline through the majestic Andean high peaks to the vast Amazon rainforest provide an infinite number of places, sports and adventures. Numerous field trips ensure that the IB curriculum is enriched by the geographic and demographic variety Peru offers. International exchanges, debates and Model United Nations ensure that IB students receive an education steeped in logical and global contexts.

New world-class primary facilities are being built in Monterrico's 27,778 m2 campus which will be finished in 2024. It is a state-of-the-art educational facility reflecting the school's advanced pedagogic approach.

Markham is moving away from the traditional four-wall classroom, developing flexible learning spaces that encourage independent learning in different environments. Teachers are developing new ways of working and collaborating across groups and disciplines in our 'Learning Communities' already built in the San Antonio Campus. Architect Rosan Bosch has worked with the school to show how breakout spaces and rooms for immersion give students at Markham more autonomy and choices in planning and executing their learning journey.

About

Maryland International School (MDIS) is an independent, private school in Howard County, Maryland, conveniently located in the Baltimore-Washington metropolitan area. MDIS is the first school in the state of Maryland, and the second in the mid-Atlantic region, to offer three International Baccalaureate (IB) programs: Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP).

Our beautiful 9 acre campus serves students from grades 1-12. Our mission and vision is to provide an academically rigorous and supportive college-preparatory education with an interdisciplinary and applied focus on the Science, Technology, Engineering, and Mathematics (STEM) disciplines in order to prepare students to become creative problem solvers, effective communicators, and tomorrow's leaders who think ethically, independently, and globally.

IB & STEM

Our curriculum integrates the International Baccalaureate curriculum with STEM specific programs and pathways. Our STEM-integrated curriculum was developed taking into account the principles of Universal Design for Learning (UDL), technology standards, disciplinary literacy standards, Next Generation Science Standards (NGSS), and transdisciplinary core content lessons. Our curriculum is designed to promote critical thinking, collaboration, and innovation in order to develop the academic, emotional and social skills that

students will need to live and work in a globalized world. Our after school STEM programs include, but are not limited to: Robotics Club, Science Olympiad, FIRST Lego League, Coding Club, and a Drone Club.

Signature Programs & Events

MDIS highlights the IB philosophy of building international-mindedness through our Global Ambassadors Program (GAP), Mother Language Day, and Celebration of Nations. GAP, our study abroad immersion program with a service-learning component builds leadership beyond the classroom. It includes an international student program bringing students together from around the world to study at MDIS. We celebrate the cultures, languages, and traditions of countries around the world with our Celebration of Nations and our Mother Language day. These events showcase the diversity of our students by giving them a day to share their experiences, teach their language and to build connections through the use of the 10 learner profiles.

Admissions

Our admissions process operates on a rolling basis and so we welcome student applications year-round. When considering an applicant, we recognize that every child is unique. We evaluate a student's overall academic and developmental readiness and whether they will thrive in, and benefit from, the academic challenges of our curriculum. For additional information, please reach out by phone or email to learn more about the MDIS admission process.

Meadowridge School exists as a point of departure for parents and students who seek more meaning from education; an unfettered education that has a greater impact on the whole individual and more relevance to the realities of the world.

Our school is an International Baccalaureate (IB) Continuum World School, accredited through multiple organizations. We celebrate teaching and learning through the most balanced, demanding, and international curriculum, and have built a culture which enables it: a community of families who believe that children learn best in a culture of conscious care, academic challenge, clear and high expectations, constant communication, intercultural understanding, collaboration with families, creative teaching, and open and inviting facilities. At Meadowridge, we live what we teach and model what we believe – and we do it together with our families.

Meadowridge is a school which values academic achievement, but one which also insists our children live well, live balanced lives, and flourish within a community. Students learn through inquiry, experience, and exploration,

and they learn about themselves, our communities, and our world. Meadowridge develops young adults who, as leaders, understand that the way to excellence involves understanding and working with and for others, and who have developed the skills, knowledge, and dispositions to be able to engage with complex issues in intercultural settings, with a foundation of fairness and just treatment of all.

Our school, from classroom to natural woodland, is the setting for this program. Just 45 minutes east of Vancouver, British Columbia, Meadowridge is located in beautiful Maple Ridge on a unique, pastoral 27-acre campus complete with gardens, greenhouses, a discovery forest, and stream for students across the continuum to engage and explore. Our 150,000+ square foot facility includes state-of-the-art science labs, a theatre, a design lab, an international-sized soccer pitch, and a nine-classroom high school complex.

Through our outstanding teaching, programs, and facilities, Meadowridge develops the confidence in students to not only meet the future, but also to create it. To discover more about Meadowridge visit us online at meadowridge.bc.ca/discover.

Mission

Mercyhurst Preparatory School (MPS) is a four year coeducational Catholic secondary school founded by the Sisters of Mercy to prepare students from all religious and ethnic backgrounds for a successful, productive, and compassionate life in an ever-changing and interdependent world. A Mercyhurst Prep education is based upon the teachings of Jesus Christ, the Mercy charism, and a modeling of Judeo Christian values. We strive for excellence in academic and co-curricular programs, promote service to our local and global communities, and foster the dedication and active support of the students, parents, faculty, staff, and alumni of the Mercyhurst community.

Community

Mercyhurst Prep is located on the beautiful shores of Lake Erie in the USA where students experience seasonal change and access to numerous outdoor activities in this safe community of 200,000. Erie, Pennsylvania has easy access to major US cities – Cleveland, Buffalo, and Pittsburgh – as well as Toronto, Canada.

Curriculum

As a college preparatory school, the curriculum is rigorous. 98% of graduates matriculate to post-secondary institutions. The school offers a wide range of courses at the college prep, honors, and International Baccalaureate (IB) levels. Implemented in 1985, the International Baccalaureate program is geared towards knowledgeable and caring students who are motivated to succeed in a well-rounded interdisciplinary curriculum, which leads to IB certificates or the IB diploma.

Students take eight courses in each of the school's three terms. Our block schedule classes are ninety minutes long.

We encourage every student to study at least one IB course.

STEAM (Science, Technology, Engineering, Arts, and Math in the Classroom)

One-to-one iPad deployment provides a tremendous blending of cutting-edge classroom technology with best educational practice. MPS faculty receives extensive ongoing training in the use of iPads. Faculty and students are supported by a full-time technology expert and coach. iPad integration occurs across the curriculum.

Creative Arts

The school offers 54 courses in the performing and visual arts taught by a faculty of active award-winning artists. Students exhibit and perform year-round in the school's nationally recognized musical theatre, dance, and choral groups.

Collaboration with Mercyhurst University

Academically advanced students may begin college course work or pursue a subject in greater depth at Mercyhurst University. Some students may complete freshman year of college and senior year of high school simultaneously. The two schools are adjoined by a walkway, making each easily accessible to the other.

Athletics, Activities, and Clubs

A wide variety of extracurricular programs meets the interests of our students and helps them develop time management skills, hone their ability to prioritize, assume responsibility for learning and social events, and compete in ventures that highlight their talents. Athletic teams include football, soccer, tennis, golf, volleyball, basketball, swimming, softball, cheerleading, baseball, rowing, cross country, and track. MPS teams regularly win district, regional, and state titles with a program philosophy that emphasizes dedication, teamwork, and good sportsmanship.

Boarding Opportunities

While 95% of the students are day students, the school also serves international students from countries such as China, Vietnam, Taiwan, India, Brazil, Canada, Mexico, and Russia. Partnerships with Pennsylvania International Academy (PIA) and Christian Boarding provide dormitory housing for international and American students who board full-time as well as weekdays. Visit m脾slakers.com/boarding for more information.

A small sampling of colleges attended by Mercyhurst Prep grads includes:

- Boston University
- Brandeis University
- Carnegie Mellon University
- Case Western University
- Dartmouth University
- New York University
- Penn State University
- Rochester Institute of Technology
- Rutgers University
- Swarthmore College
- University of Notre Dame
- Wake Forest University
- Villanova University

Faculty

60% of our faculty/administration hold postgraduate degrees. The student to faculty ratio is 11:1. Besides in-depth expertise in their specific fields, our faculty embody the Mercy charism, an attribute that makes them unique and exceedingly qualified to work with teens. Many teachers travel extensively during breaks and summer vacation, bringing an international mindset to instruction.

Admissions Policy

Mercyhurst Prep admits students of any race, creed, color, or national origin without discrimination. When any student applies for admission, every effort is made to determine whether the school offers an educational program which will allow that student to develop intellectually, socially, spiritually, emotionally, and physically.

Future Ready and Engaging

The Bill and Audrey Hirt DREAM Lab and Room 201 serve as learning environments where the infusion of new digital tools and technology can enhance the learning process. Teachers utilize proven and emerging teaching strategies while students learn fundamental concepts like communication, collaboration, critical thinking, and creativity.

Examples of our technology include: 9 Touchscreens, 2 Video Walls, 40 Lenovo Intel Laptops, 16 Makerbot 3D Printers, 3 Workstations with Touchscreens, Drones, 3 Oculus Rift Immersive Virtual Reality Systems, 12 zSpace Combined Virtual Reality and Augmented Reality Systems, 12 Oculus Quest 2, 5 DJI Robomaster S-1, 15 Sphero Bolts, 10 Lego Mindstorm Expansion Kits, 8 Lego Spike Expansion Kits, 24 Lenovo Laptops, 15 Raspberry Pi 4 Desktop Kits, 6 HP Omen Gaming Computers.

Performing Arts Center (PAC)

Our newly renovated PAC boasts a cutting-edge flying system, acoustics, lighting, and climate control. These improvements will help prepare our students for the creative endeavors of a 21st century actor, dancer, vocalist, musician, lighting designer and technician.

The Metropolitan School of Panama (MET), is an International Baccalaureate (IB) World School for students aged 3-18, and the only IB continuum school in Panama authorized to offer the PYP, MYP and DP in Panama.

Celebrating 11 years of world-class academics, the MET offers Preschool through 12th grade programs, with more than 785 students hailing from 45 nationalities.

Our school is committed to each child reaching their personal level of excellence through a balanced academic program that nurtures their self-esteem and potential and engages them in the world around them.

The MET is proud to form part of Nord Anglia Education, the world's leading premium schools organization, uniting with more than 80 other outstanding schools in 30+ countries worldwide. NAE's global family of schools share a common philosophy that there is no limit to what its students can achieve. Our students benefit from collaborations with world renowned institutions through our Juilliard-Nord Anglia Performing Arts Programme, preparing them for the world's stage. Our MIT STEAM curriculum which focuses on transferable skills in an evolving world. Our global scale enables us to recruit and retain the best teachers in the world, offering a quality education in Panama.

New Campus. New Opportunities.

The MET opened a new 5-hectare purpose built campus in 2020 offering unparalleled educational facilities, not just in Panama but in Central America.

MET students discover a world beyond the traditional classroom with modern learning spaces designed for collaborative learning; including 7 fully-equipped science labs, a STEAM lab, black box theater, FIFA sized soccer field,

a 25 meter pool and specialized areas for design, technology and music.

We are a school committed to the education of the future and are proud to offer a 1-to-1 technology program for all students, implementing Apple technology throughout the school with iPads for EC to G4 students and MacBooks for G5 to G12 students.

Our goal is to educate your child for the future, enhancing learning through collaborations with the world's best organizations. We Individually tailor our approach to your child enabling them to achieve outstanding academic results while developing the skill, resilience and mind-set to thrive in an ever-changing world.

The MET's excellent results and acceptances at the world's leading universities are a testament to our excellent execution of the IB Program and our dedicated, experienced and highly qualified teachers. The 2022 MET class achieved an excellent 90% IB pass rate, and a very high proportion of our Senior class (79%) studied for and achieved the IBDP. Our highest IB score was 43 points and 68% of our cohort earned a bilingual IB Diploma. MET graduates attend some of the most prestigious colleges and universities worldwide. Our 2022 graduating class received scholarship offers totalling \$2.8M. Come and learn about MET. You won't find an international school in Panama better equipped to prepare your child for a successful future. Enrolment is open throughout the year and we always welcome enquiries and visits from prospective families. To explore the MET difference take a virtual tour:

Mott Hall Science and Technology Academy is a rigorous math, science, and technology focused middle school. We offer families the opportunity for their children to meet the highest academic expectations and standards, to make smooth transitions to selective high schools, to compete successfully for admission to top public and private colleges and to succeed as a global citizen. Our school culture is characterized by a shared vision for academic excellence, the healthy personal growth of all students, and a commitment to our strong belief that all students can and will succeed in their endeavours.

At Mott Hall, students, faculty, and staff members have a shared vision of the individual's ability to achieve personal success each day as preparation to become active members of our global society. The journey our students embark on when they enter our doors is marked by continuous support and guidance academically, emotionally, and physically, to ensure the holistic development of our young people. Students enter a community that embraces them while challenging them.

Instruction in our school is rooted in collaboration and inquiry, which leads to deeper individual understanding of content and application of this content to real life. Our

curriculum remains driven by conceptual learning, using digital activities and personalized differentiation to meet the needs of our students. We aim to provide an equitable education that allows each student to discover and utilize their full potential, while finding joy in learning.

Along with strong support in our classrooms, we create a safe learning environment for our students, nurturing and supporting them as they grow. Students are equipped with tools to overcome obstacles they may face and to help them become understanding and respectful of different identities and cultures. To do so, we focus on our school's core values: respect, responsibility, integrity, compassion, and honesty, along with the International Baccalaureate learner profile traits. With these tools, our students become lifelong learners ready to actively participate in the world.

In 2014, our school became the first New York City public middle school to be certified as an International Baccalaureate Middle Years programme. In addition, we have been a certified Advancement Via Individual Determination (AVID) model school since 2013. After over a decade of service to our students and families, we look forward to our continued growth as a community.

Mulgrave, The International School of Vancouver is a multicultural, gender-inclusive International Baccalaureate World School (pre-school to Grade 12). Nestled on the slopes of Cypress Mountain, overlooking the Pacific Ocean and downtown Vancouver, our stunning campus provides students and faculty custom-built spaces where they can inspire each other as they are all inspired by the views. Our diverse community is united in its commitment to develop the interpersonal and intercultural skills, attitudes, and values that will allow our students to thrive and be happy no matter where in the world they find themselves. Our graduates go on to post-secondary institutions across the globe; this year, they have accepted offers spanning from UBC and McGill in Canada, to NYU and UC Berkeley in the United States, and to Maastricht and Cambridge abroad.

Our Mission: Inspiring Excellence in Education and Life

Through the continuous pursuit of personal best, Mulgrave strives to equip lifelong learners to thrive in a culturally diverse and interdependent world. Our goal is for students to embrace, with passion and confidence, their responsibility to make a difference by serving their communities, both locally and in the world at large.

Our Culture: A warm, vibrant, supportive community

Developing a strong aptitude for learning, service, and leadership is inherent to our school's ethos, as is a strong culture of caring and support. Mulgrave is highly valued for our positive community spirit, enriched by the diversity of

families from around 40 countries, and its vibrant learning atmosphere. Experienced teachers from around the world provide a comprehensive, appropriately challenging, and personalised IB curriculum to an equally ambitious and capable student body.

Our Strategic Plan 2021-2024: Weaving Our Future, Common Threads

Over this three year period, it is our intention, while being true to our school's guiding statements, to build on our success from our previous strategic plan and to ensure that we continue to provide an outstanding future-oriented education for the students in our care. We will engage student agency and technology to continue to support increased personalisation of learning, curriculum and support. We will focus on student health and wellbeing with more emphasis on social and emotional learning and the use of outdoor education experiences. And we will focus on students' skill development with special emphasis on creativity, global citizenship, and social entrepreneurship.

Accreditations

Mulgrave is proud to be an accredited member of the Council of International Schools (CIS), the Independent Schools Association of British Columbia (ISABC), and Canadian Accredited Independent Schools (CAIS), and is also authorised by the International Baccalaureate Organization as an IB Continuum School.

**Lifelong Learners and Active Global Citizens**

New Hampton School is an independent, coeducational, college preparatory school for boarding and day students, grades 9 through 12, and postgraduate. Nestled in the foothills of New Hampshire's White Mountains and the heart of the beautiful Lakes Region, yet just 90 minutes from Boston, Massachusetts, the 350-acre campus features six contemporary classroom buildings. On-campus housing includes 13 dormitories, varying in size, each with resident dorm parents/family and complementary dorm life programming activities throughout the year.

Sharing the whole world

Our school's mission is to cultivate lifelong learners who will serve as active global citizens. Core values of respect and responsibility provide an essential foundation, while our inclusive community immerses students in diverse cultures, travel opportunities and a worldwide network of alumni, families, and friends. By allowing classroom conversations to represent more points of view, expertise from outside sources, and intellectual links to coursework, we introduce students to a full range of insights. Ours is a conscious curriculum built on an interconnected understanding of the world.

The student body includes representation from 28 states and 30 different countries. Twenty-five percent of students are international. New Hampton routinely sends students to top colleges and universities, including Harvard University, Massachusetts Institute of Technology, Dartmouth College, University of Michigan, Brown University, University of Wisconsin, Madison, UCLA, and the University of Chicago.

Empowering Technology

New Hampton School is considered a leader in technology integration and is recognized by Apple for continuous innovation in learning, teaching, and the school environment. Students benefit from a 1:1 iPad Program, used to individualize the learning process and expand ideas, and are well-versed in the promise of technology in their futures.

Enlivened Learning

Our school is proud of its programmatic variety, spirited athletics, robust art offerings, including Animation by the Walt Disney Family Museum, a new Entrepreneurial Studies curriculum, student leadership opportunities, clubs, and activities. International Baccalaureate classes begin in eleventh grade and can be taken as part of the full Diploma Programme or as certificate courses. The IB philosophy permeates the curriculum and prepares ninth and tenth graders to embrace its challenges. Equally prominent is the School's commitment to delivering durable skills using relevant content, emphasizing experiential education and career partnerships. The average class size is 11, and the academic rigor is well-balanced with project-based learning modules and dynamic, supportive educators. Students preparing to meet the demands of the IB Diploma Programme may take advantage of our Academic Support Program tutorials or International Support classes to better understand their learning styles and build confidence.

Weekend activities on and off campus include dances, dinner trips, shopping, hikes, concerts, day trips to Boston, and student-designed outings.

Together with Islands International School and Southern International School.

Northern International School opened its doors in 1997 in a site of 8 hectares in Pilar.

Its founder, Prof. Estela María Irrera de Pallaro, has as an aim to offer a demanding educational quality for families looking for a better lifestyle for their children. With the benefits that contact with nature offers, Northern International School develops all its regular activities in a bright and cheerful environment.

The International Baccalaureate, of which we have been members since 1997, is key in this institution; that is why teachers and heads are trained regularly.

The school has all the facilities needed to comply with this modern and demanding programme: science and IT labs, a library for research, a multi-purpose hall as well as comfortable and bright classrooms.

Our three schools have fully equipped laboratories for the experimental sciences; they are an essential facility for classes in Physics, Chemistry and Biology. Our laboratory provisions are not only for demonstration classes but also for students to become personally acquainted with different research techniques and apply them in practice in experiments ranging from the simple to the more complex.

Our students learn to handle laboratory materials safely and efficiently and make full use of them in different pieces of research.

At primary level, research projects include: photosynthesis, animal nutrition, the ill effects of tobacco, analysis of animal movements, electrical resistance, the structure of materials, magnetism, the human body, heat energy, ecosystems, soil, water, cells, life process in vegetables and diet in humans.

At secondary level, research projects include: coefficients of contact, genetics, physical and chemical properties of hydrocarbons, evolutionary theory, population growth, biodiversity, pollution of the environment, ecosystems, and health and human physiology.

Year after year, our students take part in different events and competitions, among these Physics and Biology Olympiads, science fairs organized by ESSARP (English Speaking Scholastic Association of the River Plate), local representative of the University of Cambridge, and Mathematics Olympiads organized by OMA (Argentine Mathematics Olympiads). In recent years the schools have taken part in the worldwide NASA projects and one of our schools has on three occasions won the regional competition and taken part in the world finals in Houston in the United States.

NORTHLANDS is a coeducational, bilingual IB World School that, through caring and innovative teaching, educates young people to the full extent of their individual potential. It is a school that values its Anglo-Argentine roots, while respecting all cultures, religions and nationalities. It offers an all-encompassing friendly environment reflected in its motto: Friendship & Service.

We aim to strengthen our position as leaders in education and innovation by focusing on our students' wellbeing and helping them discover their individual learning paths. We are expanding project based learning, Design and Technology and Education for Sustainable Development, instilling a culture of healthy lifestyle choices. We keep developing our campuses to meet the needs of our highly demanding programmes, and continue to develop a closely knit community influenced by the diversity of our families. We appreciate the richness of diversity and promote international mindedness as we currently have 11% of international families in Olivos and 19% in Nordelta.

Kindergarten Education

An all-embracing curriculum that works on physical, social, emotional, intellectual, ethical and aesthetic aspects through teaching and learning strategies focused on encouraging curiosity and the desire to know in children.

Primary Education

Our integral curriculum is based on inquiry and research as the ideal vehicles for learning. We provide a caring and

stimulating environment where children enjoy doing their work and develop positive academic and interpersonal attitudes, self-confidence and self-discipline.

Secondary Education

During this phase students develop critical thinking skills, creativity and autonomy. Individual talents and personal interests are nurtured so that students can make satisfactory career choices at the end of their school life.

While we constantly pursue academic excellence, NORTHLANDS embraces many different programmes where students can develop a variety of skills. We consider Physical Education as an integral part of education as the well being of our students is accomplished through physical, mental and emotional balance. The Visual & Performing Arts Programme stimulates children to find alternative ways to express themselves. As students mature, they have the opportunity to explore visual arts, music and drama through a variety of techniques, instruments and cultures. Our Design & Technology Programme seeks to build a culture of innovation through the implementation of different techno-educational abilities such as construction, designing, programming and robotics, where students apply them to the real world by investigating digital solutions. Finally, our Personal & Social Education Programme is a central part of the comprehensive education that NORTHLANDS aims for its students. We help develop the values of integrity based on high moral standards enabling our children to freely choose what is right.

“Orangewood Elementary is dedicated to developing globally-minded problem solvers. We enhance learning by inspiring students to inquire through transdisciplinary units, while empowering them to take action using the attributes of the Learner Profile.”

Reflecting Southern California’s rich, multicultural heritage, Orangewood Elementary is a diverse transitional kindergarten (TK) through grade 5 learning community located in the San Gabriel Valley. Orangewood Elementary is the starting point for West Covina Unified School District’s IB continuum that includes the Middle Years Programme as well as the Diploma and Career Pathways programmes in high school.

Students who read, write, think and communicate in two languages are best prepared for college, career, and the global economy. Dual immersion not only provides students with the advantage of bi-literacy, it cultivates cognitive flexibility and international mindedness. Orangewood families have the choice of enrolling their child in a Spanish or Mandarin Dual Language Immersion pathway. Students are immersed in their second language and often begin speaking their newly acquired language within months of entering the program. Students who continue their language studies in WCUSD are eligible to earn the California Seal of Bilingualism with their high school diploma.

As part of Orangewood’s commitment to providing a well-rounded curriculum, we incorporate technology and the arts. To enhance learning through 21st century skills, we introduce the use of 1:1 tech devices beginning with kindergarten. All students engage in Specials classes weekly to enrich their learning. During coding and robotics, students engage in activities that promote engineering design and perseverance. Additionally, weekly dance lessons allow all students to learn the art of dance to further their collaborative and self-expression abilities.

Ultimately, the strength of Orangewood Elementary lies in our wholehearted approach to creating a principled, caring community that honors the uniqueness of each child. The Orangewood community recognizes the importance of educating the whole child. The staff participates in ongoing training in developing the health and well-being of our students. School wide, students are able to engage with our learning garden to foster their cooperative skills, individual responsibility, and scientific wonderings. The enthusiastic involvement of our families and the promotion of student action are evident throughout our campus as well as in the numerous collaborative projects and events undertaken both at school and in the broader community.

Parkland Secondary School is located on the northern tip of the Saanich peninsula on beautiful Vancouver Island in British Columbia, Canada. We are within kilometers of the Victoria International Airport and the Schwartz Bay Ferry Terminal making for easy access to students and visitors. Parkland Secondary is mere steps from the Pacific Ocean creating fantastic opportunities for students in our Outdoor Education programs and our Sailing Academy. The school's catchment area includes Sidney, North Saanich and the Indigenous communities of Tseycum, Pauquachin and Tsawout. Every year Parkland hosts a number of International students from around the world-attracted to our school and community for the beautiful location and the myriad of programs offered for students.

Parkland Secondary is proud of its innovative, inspiring and inclusive learning environment on which it's built a solid reputation for unique programs. Parkland has a diverse selection of courses offerings including its renowned Marine Academy complementing the region's rich coastal geography. Students can also choose from courses in Trades, Technology, Visual and Performing Arts, and Athletics including a Hockey Academy and Canada's only Judo Academy.

Our International Baccalaureate Diploma Programme makes Parkland the only English speaking public school on Vancouver Island to offer the IB Diploma Programme for students in their final two years of high school. The IB Diploma Programme prepares students for participation in a rapidly evolving and increasingly global society as they develop intellectually, emotionally, physically and ethically while acquiring skills that will prepare them for further education and life in the 21st century.

Students and families interested in finding out more about Parkland Secondary and the IB Diploma Programme can visit the Parkland website parkland.sd63.bc.ca/ and the Parkland IB website www.parklandib.ca/. If you are an international student you can visit the Saanich International Student Program website studyinsaanich.ca/. To find out more information about Parkland Secondary School and our IB Diploma Programme you are also welcome to contact Kal Russell, the principal, at krussell@saanichschools.ca or Erin Stinson, the IB Diploma Programme Coordinator, at estinson@saanichschools.ca.

PRIDE Schools is a public charter school district for PRIDE Prep Middle School and Innovation High School located in eastern Washington in downtown Spokane. Both schools are International Baccalaureate world schools authorized to offer the Middle Years Programme and the Diploma Programme. These are choice schools that serve a diverse population of students from all over the city and outlying rural towns.

PRIDE Schools offer students the opportunity to develop their skills through an inquiry-based curriculum with a focus on creating relevant projects that benefit both the student and our community. We regularly work with local businesses and colleges to give our students a holistic education that

encompasses life both in and outside the school building. We encourage our students to follow their curiosity and discover new passions. *“The mission of PRIDE Schools is to honor the diversity and capacity of people through innovative education design. Our students are inspired to create, innovate, and challenge the status quo in a world that demands better designed systems, new solutions, and increased communication.”* We fully believe that if students have a say in their education, then the students will invest more of their time in creating unique and innovative solutions and projects to better our community.

Ridley College is focused on educating the whole child and provides students with tools that will help them lead flourishing lives. Our coeducational boarding programme was established in 1889, making Ridley one of Canada's oldest and most prestigious schools.

- Located on a beautiful 90-acre campus in St. Catharines, Ontario
- Canada's leader in positive education
- Easily accessible from Toronto Pearson and Buffalo Niagara International Airport
- Largest CAIS boarding programme in Ontario with 377 boarding students from 55 countries
- Kindergarten to Grade 12

“World Prep” is what you will find here: a forward-looking, rigorous programme that prepares students for university and a promising future. Ridley is one of only three International Baccalaureate (IB) continuum boarding schools in North America which offer the Primary Years Programme, Middle Years Programme, and Diploma Programme.

In addition to the IB Programme, Ridley offers the Ontario Secondary School Diploma and a wide range of summer programmes, including an EAL credit course. Together with its impressive academics, students experience a diverse co-curricular programme comprised of arts, athletics, leadership development, and community service.

Ridley graduates matriculate to some of the most prestigious universities in the world, including:

- Carnegie Mellon University
- Cornell University
- Harvard University
- Johns Hopkins University
- McGill University
- New York University
- Princeton University
- University of British Columbia
- University of California – Berkeley
- University of Cambridge
- University of Oxford
- University of Toronto
- Yale University

For more than 133 years, Ridley College has held to its motto, Terar Dum Prosim, which translates to “May I be consumed in service.” Students have plenty of opportunities year-round to give back to their communities, explore new interests, cultivate passions, and reach their potential in a challenging and supportive environment.

One of the school's defining features is its traditional House system, which integrates boarding and day students into ten boarding houses on campus, each with its own distinctive identity and sense of community. By incorporating local day students into its boarding programme, Ridley provides each member with the opportunity to learn more about global cultures while enjoying a uniquely Canadian experience.

Santiago College is a bilingual, independent, co-educational day school, founded as a non-sectarian institution in 1880 with support from the US Methodist Church.

The educational programme at Santiago College meets the requirements of the Chilean Ministry of Education and is authorized to offer three of the IB Programmes: PYP, MYP and DP. Santiago College is accredited by CIS and NEASC.

Students normally enter Santiago College at PK level and stay until they graduate from 12th Grade. Students applying for admission to PK must be four years old by December 31st of the year prior to school entry. Santiago College accepts students without regard to gender, colour, creed, or ethnic, nationality or social origin. The selection process includes an interview with prospective students and their parents. Although most students are Chilean, a considerable number of students come from other countries and priority admission

is given to overseas applicants. Approximately 90% of the graduating class enters Chilean universities and the remainder pursues studies in the USA or Europe.

The school operates a 180-day minimum calendar starting in early March and ending in mid-December. PK and kindergarten children have a half-day schedule. All other grades have a full school day beginning at 7:55am and ending between 3:30 and 5:10 pm. The school campus of 11 hectares is located in Lo Barnechea, 30 minutes drive from the city centre. Facilities include a library of 40,000 volumes, 98 classrooms, AV rooms, an auditorium, gymnasium, swimming pool, playing fields, science and computing labs, music and art studios and one cafeteria. All classrooms are equipped with interactive projectors, and numerous devices are available for student use at all grade levels, to support the integration of technology into learning.

Website

www.somersfield.bm

Somersfield is a co-educational day school serving children from age 3 to 18. Students in the Children's House and Lower Primary Divisions follow the Montessori programme. The Upper Primary Division is designed for students aged 9 through 11. Secondary Division students aged 11-18 follow the International Baccalaureate Programmes: the 5 year Middle Years Programme (MYP) followed by the 2 year Diploma Programme (DP). The school received formal authorisation in 2005 from the IB in Geneva, Switzerland to conduct the MYP and became the first school in Bermuda to offer this programme. DP authorisation was awarded in 2019 and the school opened its new purpose-built DP building to our students in Sept 2019.

The five-year MYP offers students a rigorous, comprehensive and well-rounded academic preparation for moving on to the final two years, (grades 11 and 12) with the internationally-regarded IB Diploma Programme.

College Preparation

The IB Diploma Programme is an academically challenging and balanced programme of education with rigorous coursework and final examinations that prepare students, aged 16-19, for success at university and in life beyond. The DP aims to encourage students to be knowledgeable, inquiring, caring, open-minded and to develop intercultural understanding and the attitude necessary to appreciate a range of viewpoints. In addition to their DP courses, students wishing to attend a US University are supported with SAT preparation classes in English and Math.

Mission

Somersfield Academy will provide a unique educational experience for all its students based firmly on the ideals of The Somersfield Promise, the explicit beliefs of the Core Values Statement and our commitment to Diversity.

Our Promise

To stimulate intellectual curiosity and accomplishment; to instill compassion and respect; and always to honour the daring dreams and hidden talents of the individual.

Our Core Values

- We are a learning community
- We practice peace
- We inspire intellectual curiosity
- We foster independence and responsibility
- We embrace a sense of joy and wonder
- We honour the strength and courage to stand for truth
- We instill respect for self and others.

Vision

Our school aims to prepare students to be global citizens, independent, life-long learners and to acquire the problem-solving skills and knowledge necessary for educational success. Teachers encourage self-expression and creative thinking as well as respect for and understanding of different philosophies and cultures in accordance with the school's learner profile.

Working together with Islands International School and Northern International School.

A community committed to education

In 1999 Mrs. Estela María Irrera de Pallaro, backed up and encouraged by her experience in founding and developing a comprehensive educational project, creates a new school with the aim of improving the institution objectives in a place where families can not only find peace and privacy but also a space in contact with nature.

The school mission is to teach students to interact and adapt to a complex social environment in which they need numerous tools to be able to succeed, accompanied by a teaching staff permanently trained. For this purpose, with a history of more than three decades, the school provides a demanding education that not only abides by academic aspects but expects to educate upright people as well.

Southern International School develops the students' capacities through different activities so that they can interact with full independence and freedom in today's society.

International Baccalaureate Programme

International Schools want their students to complete their studies hand in hand with this organization. Born in Geneva, Switzerland, these programmes, which demand a strong commitment from teachers and heads, are worldwide recognized by their excellent quality.

To belong to or to be a member of this organization implies meeting certain requirements such as having fully equipped experimental sciences laboratories, where the students acquire and handle different research techniques in order to apply them in class in a practical manner, which will help them achieve a better understanding of all kinds of topics, easy or complex.

Our beautiful campus is located in the heart of South Delta, a growing community rich in history, surrounded by nature reserves and boundless ocean views. Established in 2000, Southpointe has grown into a world-leading school delivering the International Baccalaureate (IB) Programme, which encourages students to think critically, engage in global conversations, and is recognized by universities around the world.

Southpointe Academy is authorized to deliver the IB Primary Years Programme (PYP) from Kindergarten to Grade 5 and the IB Middle Years Programme (MYP) from Grades 6 to 10. We are currently a Diploma Programme (DP) candidate school and will begin the IB Programme for Grades 11-12 in September 2023. Following accreditation, Southpointe will be one of the few schools in Canada delivering the IB Continuum Programme from Kindergarten to Grade 12.

With a foundation built on community, Southpointe has grown into an internationally recognized school, seeking to expand the boundaries of what is possible while staying

committed to its founding mandate. Shaped by experienced faculty and staff who bring diverse perspectives and extensive knowledge to every department, an internationally recognized curriculum framework, and a state-of-the-art campus, Southpointe looks ahead to a bright future while continuing to provide a world-leading education for our students to learn, lead and succeed.

Future

Southpointe is at an exciting stage of growth and development. With spaces at a premium and enrolment increasing, our school has expanded its 80,000-square-foot campus that opened in 2012. An additional, new Senior School Campus was officially opened in March 2022, offering our Grade 10-12 students a cutting-edge pre-university environment that prepares them for success in their post-secondary studies. Moving forward in the very near future, Southpointe will deliver on the next phase of its Master Campus Plan and add new buildings and amenities to further enrich its modern campus.

St. Francis College is an international school which strives for excellence providing a warm and friendly community committed to the IB Philosophy. We offer a challenging educational programme with rigorous assessment through inquiry-based instruction.

We empower pupils to be passionate lifelong learners, achieve academic and personal excellence and be committed to impact the world positively.

Curriculum

The international curriculum offered is taught in English. The formal curriculum is guided by the Brazilian and British National Curriculum and the IB Programmes. A broad approach of concept-based learning encompasses the humanities, arts, sciences, mathematics, and information technology. An important element in the curriculum are the Portuguese language subjects, which include Brazilian literature, Portuguese language as well as the history and geography of Brazil. The College provides pupils with academic challenge and key life skills in a flexible and transdisciplinary programme. We are a continuum school and offer three of the IB Programmes. Throughout the

primary school we offer the IB PYP, in the secondary school we offer the IB MYP and the IB DP in the last two years.

IGCSE exams are taken in the main subjects in MYP 5. Pupils will conclude their secondary education having obtained their Brazilian and IB diploma.

A wide range of physical activities and sports are offered to students as well as outstanding programmes in visual arts, drama and music, from Early Years through Secondary Years. Once our students graduate from St. Francis College they go on to both Brazilian and international universities and continue to excel academically, personally and professionally.

Extracurricular activities

Extracurricular activities offered include football, basketball, volleyball, dance, skateboarding, martial arts, cooking, drama, music, arts, MUN (Model United Nations), Duke of Edinburgh Award and more.

Members of

We are members of the IBO, LAHC, College Board, BAIBS and we are a SAT and Cambridge Assessment Centre.

**St. John's School At A Glance**

Established over 30 years ago, St. John's Independent School is located in the heart of beautiful Vancouver, British Columbia. It is a non-denominational, co-educational, IB World School. Our graduates go on to attend Universities across the globe in North America, Europe and Asia.

St. John's is known first and foremost as a tight-knit community of teachers, students, staff and parents who work together to ensure everyone is healthy, safe and thriving. A St. John's education is shaped by small class sizes, individual attention and a culture of collaboration.

Our Students

St. John's students are challenged and encouraged by the rigour of the IB curriculum. Every member of the St. John's community explores their talents, skills and interests so they can make a difference in the world in their own way.

Outside academics, St. John's aims to provide its students with a real-world grounding. Just like real-life St. John's is co-educational. In the classroom, the gym, theatre and art studio, St. John's boys and girls use their individual and combined strengths to work and play together. Plus, being based in the heart of Vancouver means students are never far away from the city's cultural and civic delights.

Above all, St. John's students are interesting. They are artists, public speakers, chess players, basketball stars, designers and so much more. Whatever their passion, they can explore it at St. John's.

Our Mission & Values

St. John's aims to develop confident, life-long learners who make a difference in their communities. Each student embraces and celebrates their unique abilities.

To achieve this, St. John's students work hard to cultivate five key values.

- **Respect:** St. John's is a warm, caring and inclusive community. A culture of kindness, empathy and service to others is encouraged.
- **Curiosity:** St. John's promotes critical thinking and stringent inquiry into the nature of things.
- **Integrity:** Honesty is rewarded. St. John's students strive to do the right thing.
- **Courage:** Students embrace new ideas that challenge them to improve themselves and the communities they are a part of.
- **Wellness:** St. John's cares deeply about personal and environmental health. Students are encouraged to be mindful of their emotions and to nurture personal relationships.

St. Paul's School was the first British School to be established in São Paulo (Brazil) and continues to offer an Anglo-Brazilian curriculum, embracing the best of both cultures. As an all-through (ages 3-18) co-educational school, offering the IGCSE and IB courses to pupils, we are affiliated to a global network of top UK Schools through our membership of HMC (Headmaster's Conference) and COBIS (Council of British International Schools). Almost 100 years old, we draw on our proud heritage as the first British school in Latin America to be recognised as a British School Overseas (BSO) by the UK government. Yet, we look forward with creativity and confidence.

At St. Paul's we always strive to be our better selves. We have the courage of our convictions, essential values, freedom to imagine and create. This is achieved through our high quality British and Brazilian holistic education which drives the personal and academic development of pupils, within a framework of a caring, inclusive and united community.

It is our aim to discover the passion and talents of every pupil, and create the right environment to develop these. The school prides itself on an excellent enrichment programme ranging from MUN to Duke of Edinburgh, from knitting classes to a robotics programme, from mathematical Olympiads to outstanding drama and music. We have been awarded as a Microsoft Showcase School and an Apple Distinguished School in recognition for our excellence in transforming and enhancing our physical and online learning environment to deliver more personalised education to our pupils.

The school is a positive agent of change, helping its pupils to be caring individuals ready to inspire and mobilise those around them to impact the world for the best. Our commitment to broad educational experiences opens many opportunities for pupils who go on to leading universities in the United Kingdom, America and Brazil.

We believe in helping our pupils achieve their full intellectual, emotional, social, physical, artistic, creative and spiritual potential. An innovative, structured curriculum, combined with excellent teaching, state of the art facilities, and the best in pastoral care, equip pupils to flourish.

Stratford Hall is an independent, gender-inclusive, non-denominational, university preparatory day school with a student population of 540 ranging from Kindergarten to Grade 12. Our location in a vibrant, urban setting in East Vancouver, British Columbia reflects our diverse community of students. Through the continuum of International Baccalaureate (IB) programmes, the Primary Years Programme (Kindergarten – Grade 5), Middle Years Programme (Grade 6 – 10) and Diploma Programme (Grade 11 & 12), the School provides a level of individual challenge and academic rigour beyond the norm. Equally important is our commitment to the IB Learner Profile as a guide, fostering international-mindedness in students and adults alike.

At Stratford Hall, every child is given the opportunity to learn and to thrive; to discover their unique strengths, and to explore the diverse opportunities our rapidly changing world offers. Under the guidance of our staff and faculty, they will grow and mature, while equipping themselves with intellectual tools, strength of character, and a global perspective.

Stratford Hall is a not-for-profit school operating under the authority of the Ministry of Education of British Columbia.

Our Mission

Stratford Hall educates students to the highest global standards through the programmes of the International Baccalaureate. Excellence and confidence are developed through a challenging academic curriculum with further emphasis on creativity, activity and service. We foster a strong pluralistic community built on integrity and respect.

Our Vision

Stratford Hall strives to be a global leader in the International Baccalaureate community. Our students will gain a deep understanding of the world around them, and they will act on their connections to the outside community. They will excel to the best of their abilities, and graduates will be equipped to achieve their chosen goals. This is accomplished by acquiring and retaining the best teachers, and by a commitment to a balanced and enriched curriculum. The success of Stratford Hall is deeply rooted in the establishment of a supportive, knowledgeable and committed community.

Stratford Hall is proud to be an accredited member of the Independent Schools Association of British Columbia (ISABC), Canadian Accredited Independent Schools (CAIS), National Association of Independent Schools (NAIS), and is authorized by the International Baccalaureate Organization as an IB Continuum School.

Bilingual and co-educational since 1962, TFS is renowned as Canada’s leading bilingual International Baccalaureate (IB) school, providing an internationally focused education with high academic standards to over 1,500 students. Teaching the curricula of France and Ontario through the framework established by the IB programs, we offer our students an education that is rich in academic excellence, diversity and opportunity.

Authorized to offer the PYP, MYP and IB Diploma, TFS is an IB World School and the only full continuum bilingual IB school in Canada.

We welcome boys and girls from age two to university entrance. No prior knowledge of French is required for entry up to and including Grade 7. Thanks to our Introductory Program, we successfully integrate students with no background in French. While 90% of TFS students have little or no knowledge of French when they enrol, they graduate fully bilingual with an international outlook that sets them on a path to a bright future.

TFS’ mission is to develop multilingual, critical thinkers who celebrate difference, transcend borders and strive for the betterment of humankind.

Our educators come from around the world to teach at either our Toronto or West Campus in Mississauga, and provide a caring and supportive learning environment that encourages students of diverse backgrounds to become individuals who reflect, and citizens who act.

We demonstrate our commitment to the development of the whole child through stimulating academic and co-curricular programs that include recreational and competitive sports, music, visual and dramatic arts.

In addition to being authorized by the IB, TFS is accredited by the Ministry of Education of Ontario, the French Ministry of Education, and Canadian Accredited Independent Schools (CAIS). TFS is also a member of the Conference of Independent Schools of Ontario (CIS), the Council of International Schools, and Agence pour l’enseignement français à l’étranger (AEFE).

The Baldwin School of Puerto Rico, located in the greater San Juan metropolitan area, is the premier independent, PPK-12, college preparatory English language day school in Puerto Rico. It is the first school on the Caribbean island to offer the Primary, Middle and Diploma levels of the International Baccalaureate (IB) program. “What is most congruent with our mission and the IB, is how both are focused on the type of environment that optimizes student learning,” says Head of School, Mr. Greg MacGilpin. “We grow with the IB as it challenges us to reflect and act iteratively because of the diversity of our learners’ experiences.”

At Baldwin School, technology is broadly integrated in the classroom. Students use a range of platforms, applications and web-based software; to research, organize and create content. A fully modern, wireless digital mainframe allows students to leverage the world’s resources and conceive original content. Touchscreen technology supports literacy and numeracy across all grades. Interior and exterior laboratories combine hands-on and digital learning. “We were fortunate and deliberate in the transition to online platforms during our pandemic response. Our students and adults have innovated in both, grand and simple ways to share learning,” says Mr. MacGilpin.

Baldwin offers a beautiful and spacious twenty-three acre campus, which is also a Certified Wildlife Habitat. Its location means that students can take part in a range of outdoor activities. Spectacular facilities include a swimming pool, tennis courts, field house, outdoor courts, soccer field, and a rainforest biological field station. Indoor facilities include science and computer labs, a performing arts center, a recording studio, multiple art studios, a dance studio, and music rooms.

Baldwin’s student body very much reflects Puerto Rico’s diverse population. Students participate in dozens of co-curricular activities. Athletes compete at mini, youth, junior varsity, and varsity levels. Math, Science and Model United Nations teams also compete at the national level. Campus life includes opportunities to participate in many clubs and organizations, most of which serve the broader community through both service and donations. All of Baldwin’s graduates go on to study at university, mostly abroad, including the United States’ most prestigious colleges and universities.

Baldwin School is committed to the belief that every child can flourish if they are given the right combination of time, opportunity, and support.

Originally founded in Coral Gables in 1926, The Biltmore School is one of the oldest schools in Miami Dade County. Our school enjoys a tradition of educational excellence that has provided guidance to children for the past 90 years.

Our Principal, Gina Romero and our Biltmore Staff members are actively involved in the “Project Zero” research initiative, sponsored by Harvard University that promotes creative thinking, encourages children to be self-reliant, and empowers them to think “outside the box” through a challenging curriculum that incorporates instruction that maximizes the multiple intelligences, individual learning styles and modalities. Through participation in ongoing professional development workshops in partnership with Florida International University, our staff actively explores “Visible Thinking” strategies that promote the highest levels of abstract and critical thinking in children of all ages.

During the 2007-2008 school year our school was awarded

accreditation by AISF (Association of Independent Schools of Florida), SACS (Southern Association of Colleges and Schools) and CASI (Council on Accreditation and School Improvement).

The Biltmore School has also been an IB World School since March 2012 and offers the IB Primary Years Programme and is currently considering the IBO Middle Years Programme.

The Biltmore School believes that students are capable and knowledgeable agents of their learning. We feel that it is the responsibility of the educator to be both the partner and guide in the growth and development of the child. It is through much research and collaboration that our school has embraced and synthesized diverse educational views and practices to best benefit our students.

The Biltmore School offers a comprehensive program for students from age one through eighth grade.

The British College of Brazil (BCB), a Nord Anglia Education school, is São Paulo's school of choice for expatriate families looking to provide their children with an international education. We offer engaging learning environments to students in Early Years, Primary and Secondary school in a warm and supportive atmosphere where they can thrive. Our schools and the one-of-a-kind opportunities we create inside and outside the classroom enrich learning, instill life-long memories and a deep sense of achievement. We welcome your family to become a valued member of our community.

At the British College of Brazil we teach the English National Curriculum adapted to an international environment, with the International Primary Curriculum in Primary, the IGCSE in Year 10 and 11 followed by the IB Diploma Programme. Throughout our core curricula and programs we help your child to develop a global mindset and nurture essential skills such as creativity, collaboration and resilience. We want every student to become lifelong learners, to try something new and, above all, to be ambitious.

We are part of the Nord Anglia Education family of 81 international schools, boarding schools and private schools

located in 32 countries around the world. Together we are able to enrich your child's learning experience with opportunities beyond the ordinary. From online debates and competitions on Global Campus to expeditions to the savannah of Tanzania and to Switzerland or participating in our Performing Arts Festival in Miami, and the Global Games in Orlando, we connect our students around the world to learn together every day.

Additionally, our collaborations with world leading institutions such as The Julliard School, The Massachusetts Institute of Technology (MIT), UNICEF and the Kings College London, enhance the curriculum and offer exceptional professional development for teachers. This approach results in high academic outcomes, and equips students with the skills that are essential to thrive in the 21st century.

We believe that there is no limit to what our students, our people, and our communities can achieve. We encourage your child to set their sights higher by fostering a global perspective together with our school's personalized approach to learning – helping every child to succeed, thrive and love learning.

www.britishschool.g12.br

Founded in 1924, we are a non-profit, independent and coeducational day school offering a complete and coherent curriculum for students of all nationalities from ages 2-18. Our school aims to give students a broad, balanced and relevant educational experience. The educational philosophy and practice are primarily British in nature with international and Brazilian elements incorporated. Programmes of study are: Early Years Foundation Stage (EYFS) and International Primary Curriculum (IPC) for 2 to 11 year olds; Key Stage 3 (Middle Years) of the UK National Curriculum for 11 to 14 year olds; Cambridge IGCSE for 14 to 16 year olds; and the International Baccalaureate (IB) Diploma for 16 to 18 year olds. Over 80% of our students are Brazilian and the remainder are from over 30 different countries, with British and other European students being the biggest proportion.

English is the main language of instruction with Portuguese, French and Spanish also being taught. We are an IB World School accredited by the Council of International Schools (CIS). The director is a member of the Latin American Heads Conference (LAHC). There are 2200 students located on three sites. The Zona Sul Unit is split into two Sites: Botafogo Site (primary school) and Urca Site (secondary school). The Barra Unit caters for students from age 2 (Pre-Nursery) to age 18.

Classes are small and school environment is pleasant, well-resourced and stimulating, with a strong focus on health, safety and security. Performing arts, sports, Model United Nations, Duke of Edinburgh's Award Scheme and work experience provide a wide range of co-curricular opportunities. There are numerous local day visits, national

or international residential trips for most year groups. Our teachers are well-qualified (some 30% being recruited from overseas) and supported by a robust and effective programme of continuing professional development.

Our school provides a caring and friendly, yet demanding, learning environment and makes every effort to ensure that each individual has the opportunity to develop their particular abilities and talents to the full. Emphasis on academic achievement is also balanced by our concern to meet our students' physical, emotional and social needs. We place a high value on good social behaviour and ethical standards, with respect for the individual and the environment.

We want our students to be happy in school and we hope that their school experience will be fondly and warmly remembered for life. We believe that this can be achieved through high expectations; clear guidelines and limits; constant encouragement; and addressing individual needs.

Extracurricular Activities

Football, capoeira, volleyball, basketball, ballet, artistic gymnastics, judo, choir, music (instruments and singing), cooking, drama and arts are available.

Facilities

Air-conditioned classrooms, interactive Whiteboards, computers, laptops, tablets, science and computer & technology & robotics labs, libraries, gymnasiums and open spaces for sports and games, playgrounds with a variety of toys, auditoriums for Drama classes, presentations and art exhibitions, sickbays (first-aid – nurses), and dining halls.

The Newman School's motto, "Heart Speaks to Heart", is woven through all areas of school life. Relationships are at the core of who we are. Students develop through inquisitive academic exploration and apply critical and creative thinking skills to resolve complex problems and contribute to our community.

Founded in 1945 and located on Marlborough Street, in the heart of Boston's extraordinary Back Bay neighborhood, The Newman School serves students from grades 7-12 who come from the city of Boston, numerous surrounding towns, and 38 countries.

Our small community nestled in a larger city environment offers students a chance to be both known and independent. We are committed to providing an IB global education, recognized by universities around the world for its depth and rigor. Our extraordinary faculty have deep international and independent school experience, and students are engaged in individualized learning with support and challenge.

The Newman School students participate in activities, arts, and sports at school and throughout Boston, pursuing

their passions in the "education city." Sports offered include crew, sailing, soccer, cross country, basketball, volleyball, and tennis.

Extracurricular clubs and enrichment activities include: AMC Math, Model United Nations, Mock Trial, robotics, computer science, NASA, environmental, chess, musical performance, Junior Achievement, film & media, art, and a broad range of service opportunities. Partnerships with the Boston Public Library, Greater Boston YMCA, Community Rowing Club and Community Boating enrich our students' experience.

Our unique boarding program, around the corner from the school, gives students a full boarding experience, providing a cozy home in the heart of the city. Students are surrounded by art, innovation, culture, and recreation. Our location is a short walk to the Boston Public Library, Symphony Hall, The Boston Ballet, The Museum of Fine Arts, and many colleges and universities – including Harvard, Boston College, Northeastern University, Boston University, and MIT – for which Boston is world-renowned.

One World. One Village.

The Village School, a pre-k through 12th grade private day and boarding school in Houston, delivers a global perspective, exceptional learning experiences, and access to world-class teachers. Voted the #1 most diverse private school in Houston, Village is home to a collaborative, supportive and global community. Recognized for our excellence in STEAM education, world-class internships and differentiated programs, we offer a rigorous but nurturing individualized environment. The Village School provides a rich selection of academic, arts, and athletics to help our students prepare for future success at the best colleges and universities around the world.

Exceptional Learning Experiences

At Village, we offer a unique and enriched approach inclusive of entrepreneurship, internships, and experiential learning, along with collaborations with world-leading institutions. Our visionary teachers inspire your child to excel and foster a thirst for knowledge. This unique approach to teaching and learning enables our students to gain a better grasp of concepts, think more creatively, and allows for greater reflection on experiences.

Four Diploma Options

Village is proud to offer four rigorous diploma options: the International Baccalaureate Diploma Program, Pre-Medical Science Diploma, Entrepreneurship Diploma, and The Village School U.S. Diploma.

Cultivating a Global Perspective

The Village School student body represents over 80 different countries across almost every continent, offering our students the opportunity to interact with and learn from students across the globe. This culturally rich environment helps cultivate a global perspective and awareness and provides access to people from other ethnicities, cultures, schools of thought, and viewpoints.

Preparing for the Future

We offer our students access to experienced college advisors who know the ins and outs of the application process and university requirements for schools both nationally and abroad. Our advisors have a proven track record for helping Village students gain acceptance into the top colleges and universities. In addition, our recent graduating class earned more than \$18M in scholarships toward higher education institutions around the world.

Premier Collaborations

Village students benefit from our collaborations with esteemed institutions such as Massachusetts Institute of Technology (MIT), The Juilliard School, UNICEF, and Space Center Houston.

About Us

UEP Academia Washington (Unidad Educativa Privada), also referred to as Washington Academy (WA), is a private, bilingual (English/Spanish), PK-12, co-ed school, located in Caracas, Venezuela, and registered in the Venezuelan School System, offering a high school diploma. Founded in 1966 by American educators, the school is a not-for-profit organization, and has an enrollment of mainly Venezuelan students, but includes other nationalities. Its modern infrastructure with many open spaces is divided in four areas: preschool, elementary, high school, and administration. Classrooms are set up for a maximum of twenty students. We also have: a library dedicated to our founder Kathy Tugendhat, biology and chemistry labs, robotic and computer labs, two art classrooms, and outdoor sports facilities.

Curriculum and Extracurricular Activities

WA's curriculum follows the Venezuelan official educational program and an intensive English language program. Students are required to demonstrate their learning process through projects designed for each grade, such as: Science and Math Fairs, Time Tunnel, Storytelling, Simple Machines, among others. Our school offers the IB MYP and DP, and self-evaluates its performance through American standardized tests. Following the IB philosophy, we have recently included French in MYP and DP and business management as part of the DP curriculum. It also offers many interscholastic sports competitions, an annual college fair, an internship

program for seniors, and extracurricular activities such as: programming and robotics, drama, chess, choreography and dance, basketball, volleyball, soccer, martial arts, track and field, and gymnastics.

International minded education is present in our WA Model of United Nations, which started seventeen years ago, and in our participation in the International High School Moot Court (US Justice Resource Center) and in The Masters (British English Olympics).

Mission

WA promotes holistic education by emphasizing student's intellectual, physical, emotional, and social development through pedagogical models aligned with the IB learner profile, curricular guidelines, and philosophy. Our motto states: "Washington Academy gives students the tools to cope with life."

Vision & Values

WA aims for excellence and high standards in all its areas: school-wide learning process, meeting students and teachers' needs to support their holistic development, a conscientious practice of Washington Academy's values, collaboration among all stakeholders, structure and performance of our organization.

WA stakeholders work daily to foster the following values: integrity, honesty, responsibility, awareness and respect of other people's rights, justice, and loyalty. It also promotes the development of the attributes described in the IB learner profile.

Westlake Middle School (WMS) is a public school located in the leafy suburbs of Westchester County in New York. The school is housed on a large green campus with ample outdoor athletic fields and indoor facilities. Served well by public transportation, it is approximately 45 minutes by train to the heart of New York City. The school offers The IB Middle Years Programme years 1-3, USA grades 6-8. At Westlake, all students engage in the full MYP Programme of eight subjects. Westlake Middle School is recognized as a middle school of excellence and is ranked by Niche as an 'A' school. WMS supports the whole child and our mission is to engage and develop independent, inquisitive, tenacious and open-minded students who think critically, perform innovatively and act ethically in our local and global community.

All students at Westlake have the opportunity to study the core subjects as well as the arts, design, physical education and health. Languages are offered in Spanish and Italian at all grade levels. WMS has a full inclusion program where students who require special education supports are given the necessary structures for them to thrive within the framework of the IB program. In MYP Year 3, students have the opportunity to take high school level classes in

Algebra and Living Environment. The Community Project is the culminating experience for all year 3 students allowing them to connect to a personal passion or a community organization. They can grow themselves as caring, thoughtful human beings. Students also participate in advisory sessions where their social and emotional learning and well-being is supported. The school has full-time school counselors, a school psychologist and a school social worker to support students and families.

Extracurriculars are offered and open to all students. All Fours on Paws, Engineering Club, Environmental Club, Art Club, Student Council and Yearbook Club are just a few examples. Students also participate in national competitions such as Science Olympiad, Math League and the Robotics Competition Team, often bringing home medals of achievement. Competitive sports include track, lacrosse, football, cheerleading, baseball, volleyball, soccer, basketball, cross country and softball.

The community of Westlake Middle School is part of the Town of Mount Pleasant. There is a vibrant 'Westlake Wildcat' spirit surrounding the school and families move to our sought-after area for a safe and stable place to live and grow.

Welcome to Williamsburg Christian Academy, a Christ-Centered International Baccalaureate Boarding and Day school where...

We provide college preparatory instruction...

Our International Baccalaureate curriculum and life skills focus do more than prepare students for tests; they prepare them for life. WCA is approved for both the Middle Years and Diploma Programmes and executes both programmes with a talented, loving, and committed faculty of Learning Facilitators. There is an emphasis on IB's Approaches to Learning (ATL), delivered to prepare our students thoroughly for the rigor and structure of university and to be equipped with the life skills to survive and thrive in college life. In addition, WCA has a dedicated College and Career Counsellor whose sole focus is to help students assess their skills and interests and successfully navigate the college application and testing process.

...in a culture of grace...

As a Kingdom Education school, our students are immersed in the Holy Spirit, and our courses are taught from a Christian Worldview. Although we are Christ-centered in our instruction, being a practicing Christian is not a prerequisite to attending WCA, all are welcome to apply and attend.

...through personalized learning...

Every student at WCA is seen, heard, known, loved, valued, and shaped. Whether a student has learning challenges, is a gifted learner, or wants to learn remotely, our flipped learning method helps us deliver directed solutions for all of our students.

...in academics, arts, and athletics...

Combine our rigorous IB curriculum with our extensive athletics and arts programs, as well as our student-centric

extracurriculars, all in a Christ-focused day and boarding setting, and you will see why families rave about their WCA experience. WCA has 13 sports teams spread throughout three seasons and has reached championship level in basketball and swimming. Our campus is equipped with a dedicated art studio, and our students select our extracurricular activities. In the past, student-selected clubs have included chess, drama, photography, and men's and women's culture clubs.

...while building relationships...

We have a special tagline universally applied to all things WCA: #HowWeEagle. Our student culture and fellowship, especially in our residential program, set us apart. Our student body is fun and supportive, and our vibrant student body welcomes and accepts our international students from the moment they step on campus. Because that's how we Eagle!

...that inspire students to serve their community...

Stewardship is one of the key characteristics we endeavor to instill in our students. Not only to make them global citizens who make a difference in their countries and communities but to help them understand their paramount role of serving others as disciples of Christ.

...and become Christ-centered leaders.

In the final analysis, our ultimate goal is to send our graduates out into the world as principled and compassionate global citizens. To do that, we work diligently to instill several key character traits known as our Seven Pillars. These Seven Pillars consist of Awareness, Respect, Innovation through Inquiry, Communication, Wellness, Stewardship and Development of their Christ-Centered Walk.

Residential Life at WCA

Residential life at WCA is an immersive experience that builds relationships and a strong sense of community in a safe, structured environment that helps nurture every student. We invite our students into a community of care that they can call home. Our residential community provides a structured setting with a comprehensive focus on safety that helps nurture every student. We believe that authentic living can not be compartmentalized and that we need to address all safety aspects (physical, emotional, and spiritual). In our dorms, or 'cottages', students relax, fellowship, play, and live together on a scenic Residential Campus less than five miles away from their academic setting, where they enjoy their home away from school. Essential staff members are on-site to meet the needs of our students. Healthy, nutritious meals are shared around the table, and special fellowship activities are also available on our residential campus to foster friendship, team building, and stress relief, including weekend trips.

Location

Our school is nestled in historic Williamsburg, Virginia, USA, a small rural city that was America's birthplace. Colonial Williamsburg is nearby America's first permanent settlement of Jamestown, and Yorktown, the site of the British surrender at the end of the American Revolution. From Williamsburg, many of America's largest and most exciting cities, such as Washington, DC, New York City, and Philadelphia, can easily be reached. WCA is also short drives away from both the sandy white beaches of the Outer Banks and the Appalachian mountain range. In addition, Williamsburg is home to the beautiful Busch Gardens amusement park, and roller coaster-heavy King's Dominion is just a short drive away.

College Advisement

Our students have access to an experienced college admissions coach at WCA who can help in all aspects of college and university admissions, from researching colleges based on career interest to writing the perfect admissions application essay and even lining up scholarships and financial aid. Students from WCA have been accepted to top-tier colleges and universities throughout the United States, such as Princeton, the College of William and Mary, Brown University, the University of Michigan, the University of Virginia, Liberty University, and VCU Arts.

Nestled in the outskirts of Princeton, New Jersey, YingHua International School (YHIS) is the only not-for-profit, independent school in the greater Princeton area that offers English-Chinese dual language education with an internationally-focused, inquiry-based curriculum. YHIS is also the only school in the Eastern United States that offers the IB Primary Years Programme with whole-school Chinese immersion.

YingHua International School (YHIS) was founded in 2007 with a mission to enable academic excellence and prepare students for compassionate, effective, and ethical global citizenship through English and Chinese language acquisition and instilling a passion for lifelong learning. A hidden gem in Central New Jersey, YHIS accomplishes its mission by combining total Chinese Immersion with IB inquiry-based learning.

Through this unique approach, YHIS enables ethnically diverse students from as young as 18 months old through 8th grade, to develop the skills and mindset needed to become leaders in an increasingly global world. Through exposure at an early age to a language-immersive environment combined with IB inquiry-based learning, YHIS students gain deeply rooted cognitive benefits that stay with them well into adulthood.

At YHIS this approach is further characterized by small, nurturing, and inclusive classes led by passionate, dedicated teachers. The results are students who consistently outperform their suburban and private school peers on the local and national stage and in standardized testing. While many parents are initially drawn to YHIS for Chinese immersion, they often stay because of its ability to foster independence and self-reliance while instilling critical thinking skills and academic excellence in students.

Much of YHIS' success can be attributed to its core values of Excellence, Diversity, Integrity and Compassion. Excellence is striving for and being the best that we can be. It means high standards of teaching, learning, and all that we do. It includes well-rounded development in addition to intellectual curiosity and rigor. It requires teamwork, community service and leadership. Diversity is embracing difference and building on the best of all worlds. It embraces equity among cultures and peoples, and suggests respect for the natural world including its animal and plant inhabitants. Integrity is excellence of character and Compassion is caring for diverse others: both integrity and compassion are essential for guiding how we relate to and treat one another and are critical cornerstones for what YHIS stands for.

YHIS welcomes all into its warm and nurturing community!

Language B Notes:

Malay SL and Tamil SL are available only in the November session. Therefore, any candidate registered for a May session wishing to take Malay SL or Tamil SL must be additionally registered for a November session C1.6 Availability of subjects for 2023 and 2024 examination sessions Diploma Programme Assessment procedures 2021 51 (usually, but not necessarily, in the preceding year). They must take all Malay SL or Tamil SL assessment components (IA, paper 1 and paper 2) in that November session. Note: Italian B and Portuguese B were withdrawn from the November session after the November 2019 session. Note: The Chinese B – Cantonese (May session only) and Chinese B – Mandarin (both May and November sessions) examination papers will continue to be produced in both traditional and simplified characters.

Language *ab initio* Notes:

Indonesian is not available in the May session. Therefore, any candidate registered for a May session wishing to take Indonesian must be additionally registered for a November session (usually, but not necessarily, in the preceding year). They must take all Indonesian assessment components (IA, paper 1 and paper 2) in that November session. There is no special request service for language *ab initio*.

4. Associations of IB World Schools

Associations of IB World Schools (AIBWS) are groups of IB World Schools, who come together in order to provide mutual support to the community of IB World Schools. AIBWS are organized in various ways, sizes and constituencies, depending on their local circumstances and provide a forum for school collaboration, hold periodic meetings, deliver professional development and share best practice among members.

Each AIBWS is an independent entity that is not run or managed by the IB, but in order to formalize its relationship with the IB, they must meet certain criteria, by means of a recognition agreement and licence. They have their own constitution that describes their structure, membership and financial responsibilities. The IB works closely with all the recognized AIBWS.

Associations are often an indispensable resource for schools discovering the IB for the first time, offer a wealth of IB experience and support, and are often active at district, state or government level raising awareness of all IB programmes within their area of representation. They may also, working closely with their regional IB office, assist in negotiations with governments for acceptance of all IB programmes and with universities for recognition for the Diploma Programme.

Association of IB World Schools benefits

The IB raises the profile of the AIBWS by featuring them on its website, IBWS yearbook, inviting their representatives to regional meetings, as well to dedicated IB Associations' events at IB Conferences. AIBWS have access to IB materials the same way as IBWS, permitting their use of a specially created logo for use under licence on their websites and in publicity to denote their status, and have multiple communication channels with IB.

Establishing an Association of IB World Schools

Groups of schools who wish to be recognized by the IB as an AIBWS should ensure that they can meet IB criteria for recognition. Full overview of the criteria, as well as detailed guideline on how to form an AIBWS is available on the IB website.

More information is available on AIBWS website: www.ibo.org/contact-the-ib/associations-of-ib-schools

List of recognized Associations of IB World Schools

AIBWS family is growing and there are 63 recognized AIBWS globally, that cover 65 countries, 54 states and provinces on six continents.

Cooperation with other groups of schools

In addition to the work with the AIBWS and in order to support IB World Schools, the IB communicates and collaborates with other groups of schools and international school associations on an informal basis.

5. University Recognition

IB Diploma Programme

The IB Diploma Programme is an excellent passport to higher education. Universities around the world welcome the unique characteristics of IB Diploma Programme students and recognize the way in which the programme helps to prepare students for higher education.

Each year the IB is asked by students and their schools to send transcripts to over 4,500 different universities and colleges, in over 100 different countries. The most popular destinations include the United States (40%), United Kingdom (17%), Australia (10%), Canada (10%) and Netherlands (4%).

IB students routinely gain admission to some of the best universities and colleges in the world. Every year the IB sends significant numbers of transcripts to the university members of:

- the Ivy League in the United States
- the Russell Group in the United Kingdom
- the U15 group in Canada
- the Group of Eight in Australia
- the RU11 group in Japan
- the U15 group in Germany

As well as other academically elite universities across the globe.

The IB has established strong relationships with universities who have granted recognition of the IB Diploma programme in a number of different ways. It is recommended that schools, students and parents visit the individual university websites in order to gain the most up to date information regarding recognition.

Admission

The IBDP is widely accepted as a valid qualification for entry into higher education, without the need for other tests or qualifications. Note that this does not guarantee admission to a particular university, rather provides the opportunity to compete for a place at the institution.

Students wishing to be admitted for certain degree programmes may be required to study certain subjects, which may be specified at either standard or higher level. Students may also be required to achieve a particular number of points for the Diploma and may be required to gain a certain number of points in individual subjects.

The IBDP also acts of proof of English Language proficiency for admission into university in a number of countries.

A number of universities also accept students who are not completing the full IBDP, but are instead studying for one or more IB DP Courses.

Credit and Advanced Placement

Many universities, particularly in the United States, will offer students Credit and/or Advanced Placement on their chosen university degree programme. This may reduce the overall tuition cost, or the time required to complete their degree.

Scholarship

A number of universities have established scholarships specifically for IB graduates. The value and nature of these awards will vary from university to university and are aimed to support the student during their time in higher education.

IB Career-Related Programme

Since its launch in 2014, the IBCP has grown its reputation with universities as a valid route for students to progress to higher education, as well as the world of employment.

CP students have requested that their transcripts be sent to universities and colleges in 35 countries, across North America, Africa, Europe, the Middle East, Asia, and Australasia. They have requested that their transcripts be sent to over 1,000 universities around the world, including more than 750 institutions in the United States and more than 130 in the United Kingdom.

The IB continues to work with universities to improve the knowledge and understanding of the CP, as well as its recognition.

For more information regarding recognition or both the DP and CP, please see the University Admissions section of the IB website www.ibo.org/university-admission/

Index

An index of all IB World Schools listed alphabetically.

World-class IB resources for world-class thinkers

At Oxford we're a global leader in International Baccalaureate resources. For many years we've been creating innovative and inspiring learning materials to support the IB's remarkable scope and distinctive philosophy. Our resources are developed by academic experts and underpinned by the enduring excellence of one of the world's leading universities.

We're constantly exploring fresh opportunities, developing innovative new ways to learn, and equipping students with the skills they need for a successful future.

By choosing Oxford's high-quality print and digital resources you know you can deliver the IB curriculum to the highest standard, this year and every year.
