426-4S	Surveillance Systems, Wearable Body Cameras, Vehicular Video

246-1000 Security, Alarm & Signal Systems - Ancillary Supplies and/or Services - Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor's offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule.

Special Instructions: The work performed under this SIN shall be associated with existing SIN(s) that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered, but be an integral part of the total solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies or services purchased under another SIN(s) of the same schedule. Offerors may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SIN(s) under this schedule.

246-60-1 Security System Integration, Design, Management, and Life Cycle Support – SUBJECT TO COOPERATIVE PURCHASING - Services involving the security integration and/or management discipline which supports security products or systems through their life cycle. Security Systems integration and design services may include, but are not limited to those associated with the design, test, production, fielding, sustainment, improvement of cost effective security and/or protection systems including the eventual disposal or salvage of these systems. Services may include studies and analysis such as - risk assessment, threat evaluation, and assessment (including resultant deliverables). Contractors may provide security or protection expertise in the pre-production or design phase of security or protection systems to ensure that the system can be supported through its life-cycle and that the infrastructure elements necessary for operational support are identified and acquired. These services may continue through the life cycle of the system or product and may include guidance, assistance and/or operational support. This includes all necessary security management elements.

Services providing the best practices, technologies and methodologies to plan, design, manage, operate and maintain secure and protected systems, equipment, facilities and infrastructures. Agency orders may include complete turnkey operations, maintenance and support services, or components thereof as needed to ensure secure and protected systems involving personnel security, physical access, and information security, and reduce life cycle costs. Contractor personnel carrying out these activities, to include management and operating staffs, are not involved with or responsible for the core business of the customer agency placing the order.

Services providing for the design, coding, integration, testing, deploying, repair and maintenance of integrated security systems. Includes training across all platforms, enterprise wide, for the complete life cycle of the system.

Note: This SIN does not include services related to physical access control that meet the requirements of the GSA FIPS 201 Evaluation Program. Services meeting those requirements can be found under SIN 246-60-5.

246 60 5 Security System Integration, Design, Management, and Life Cycle Support – SUBJECT TO COOPERATIVE PURCHASING

Includes any services covered under 246 60 1 that are to be performed in conjunction with products/systems under 246 35 7 and are in compliance with current GSA FIPS 201 Evaluation Program requirements. The GSA FIPS 201 Evaluation Program define service categories for the FIPS 201 APL as required to implement the mandates in [OMB Memorandum M-05-24](#) and [OMB Memorandum M-06-18](#). Categories are defined by the Program to serve the needs of the federal enterprise in an inclusive manner to the various standards, requirements, interoperability and conformance as applied within the execution of HSPD-12.

Technical evaluation criteria are:

- Companies shall be listed at IDManagement.gov
- Companies shall have at least one Certified System Engineer ICAM PACS (CSEIP) listed at IDManagement.gov
