The Schlage Lock Company, LLC reserves the right to make changes in designs and specifications or to make additions or improvements on its products without notice and without incurring any obligation to incorporate them on products previously manufactured. The Schlage Lock Company, LLC is not responsible for any modification, addition or alteration to our products by others.

DISTRIBUTION FUNCTION AND LOCATION POLICY

The Schlage customer relationship includes the non-exclusive area of primary sales responsibility and the channel of distribution assigned by Schlage. It is vital to our success and for the effective management of the distribution of our products that the Schlage customer relationship, once it is satisfactorily established between us, should not be changed without our approval. Therefore, after selection by Schlage as a distributor of one or more of Schlage products, a customer should continue to perform that distribution function from the location of its business at the place or places utilized at the time of selection. A customer should not change its Schlage distribution function or establish a different or additional location without the prior written consent of Schlage.

Schlage reserves the right to discontinue, after appropriate notice, sale of its products to any customer which refuses to adhere to this policy. Schlage also reserves the right to change, in its sole discretion, the number and locations of the distributors authorized to distribute its products in any area. This determination will be based upon, among other considerations, the success or failure in developing the market for Schlage products.

HARDWARE FINISHES

Schlage Lock finishes are durable, top quality finishes obtained by the careful processing of solid brass, bronze, stainless steel or other materials. Where required, a protective clear coating is applied and cured under high temperature. It is important that climatic conditions and usage be taken under consideration when selecting finishes. This is especially true in areas subjected to strong corrosive vapors, humid

climate or sea air which, in a short time, may have a damaging effect on metal finishes. The longevity and preservation of the finish appearance is determined by base metal and finishing process. Clear protective coating or other organic finishing applications may require different methods of cleaning and care. As an example, non-clear coated finishes should not be cleaned with soaps or any solvents; organically coated surfaces should periodically be cleaned with a mild, nonabrasive soap and buffed lightly with a clean cloth. The type of base metal and finishing techniques must be considered when applying any cleaning or preservative method. Contact the Schlage Technical Services Department for further information on the care of finished hardware.

In some instances, for customer convenience, the most appropriate BHMA finish symbols are used to indicate similarity of appearance, regardless of base metal of finishing process. A, AL, D, ND, F, FA, H, S, S200-Series and Dexter by Schlage levers are zinc-based material and are plated to match finishes indicated. Finishes of latches, strikes, cylinders/cores, and visible mounting screws, though similar in appearance, may differ from the finish of the trim. Finish numbers in the 600-Series are the BHMA (Builders Hardware Manufacturers Association) industry standard.

* Oil rubbed bronze (613) is considered a category "B" finish by ANSI/BHMA and will vary in color when applied to different alloys and forms of base material. 613 will also vary from production lot and additionally from one manufacturer to another. Oil rubbed bronze will wear off over time due to the "rubbed" finishing method that has no protective coating or plating.

Dexter J Series Grade 3 finishes have durable, top quality finishes obtained by the careful processing of solid brass, stainless steel or other materials. Where required, a protective clear coating is applied and cured under high temperature. It is important that climatic conditions and usage be taken under consideration when selecting finishes. This is especially true in areas subjected to strong corrosive vapors, humid climate or sea air which, in a short time, may have a damaging effect on metal finishes. The price list in this price book supersedes and cancels all previous price lists contained in any other price books or versions thereafter. Prices shown are subject to change without notice. All prices are subject to discount. Products considered "Specials" ("X" designated part numbers) fall outside of standard discount terms. Contact customer service for clarification.

Service Charges: Service charges on past due invoices (except validly disputed items) will be assessed as follows: 1 1/2% per month or the maximum allowable by law on past due amounts open as of the last day of each calendar month until the past due amounts are paid.

Changes or Cancellations: Changes or cancellations to an order must be in writing and may result in additional charges for labor and/or materials. Changes may result in a delay in the scheduled ship date. Additions to orders will be entered as separate stand-alone orders and must qualify for all terms of sale, including discounts, on an individual basis. Changes or deletions resulting in an order size of less than our minimum will not be accepted. Orders for non-cataloged, special or nonstandard items may not be canceled. Factory orders may not be changed within 7 days.

Claims and Returns: Claims for shortages and/or incorrectly filled orders must be filed with Customer Service within 10 days of receipt of material. Price adjustments must also be made in writing to Customer Service within 30 days from receipt of invoice. No returned goods will be accepted without written approval from Schlage. Credit will be based upon the written authorization of the IR Schlage represen-

tative and final acceptance by Schlage. Such returns must be prominently marked with the return goods authorization number and shipped prepaid. Returns, if approved, will be subject to a minimum restocking charge of 35% for unopened cases received in the same condition as when sold by Schlage. Non-stock materials are not returnable. Charge-backs will not be allowed.

Shipping: a. Freight Charges. Company will ship all Deliverables in accordance with Company's freight shipment guidelines, which are set forth on the My Allegion Portal ("Freight Shipping Guidelines"), **WHICH TERMS ARE EXPRESSLY INCORPORATED HEREIN.** b. Rush Charges. Expedited order options are available as set forth in Company's Freight Shipping Guidelines. c. Packing and Marking. Company will pack, mark, and ship Deliverables according to its standard procedures for shipment, unless the parties agree, in writing, that Company will comply with any special instructions provided by Customer. Special instructions may result in an increased price. d. International Shipments. For all international orders, a Shipper's letter of instruction must be submitted in writing with the order. Failure to do so will result in the order being rejected. Complete adherence to this order requirement will be strictly enforced. Company will not be held liable for any charges resulting from delays due to lack of complete required information being supplied. e. Once received by the Company, a purchase order cannot be combined with any other order to increase average order size as it relates to Company's Freight Shipping Guidelines. However, for orders placed under Company's FastTrack 24 Hour/5 Day Program (available for Schlage, Von Duprin, LCN and Glynn-Johnson products); ii) FastTrack 24 Hour/3 Day Program (available for Ives products); or ProExpress (available for specific product lines stated in the ProExpress price book for Falcon, Ives, Glynn Johnson, LCN, Schlage and Von Duprin products), the applicable brands or product categories may, subject to certain order requirements identified by Company, be combined on a single order to increase average order size used in Company's Freight Shipping Guidelines.

Taxes: Prices do not include any present or future Federal, State or local property, license, privilege, sales, use, excise, gross receipts or other like taxes or assessments which may result from transactions or any services performed in connection therewith.

Delivery: Orders will be assigned ship dates and acknowledged accordingly, based on estimates of availability of products. Specific scheduled ship dates are not guaranteed by Schlage because of the nature of

STANDARD PRODUCT TERMS AND CONDITIONS

product, labor, availability of material or manufacturing conditions that might be beyond our control. Schlage will not be liable for back charges incurred based on availability of product in accordance with acknowledged ship dates.

Certifications: Schlage products, as noted in our catalog, are produced and tested by independent laboratories for compliance with UL and ANSI standards. Any field modification or alteration of product will void certification.

Thank you for your order.

Thank you for your order and continuing business. Please submit purchase orders to Canada.orders.service@allegion.com In order to expedite order processing, please include the following information on purchase orders:

- Schlage account number
- Product UPC numbers (if available)
- Quote number (if applicable)
- Specific keying requirements

Note: Line quantities of keyed products must be divisible by KA quantities.

Example: 20 locks ordered KA4 results in 5 groups of 4 locks keyed alike, however, 20 locks ordered KA3 is not divisible and results in order processing delays as Schlage seeks clarification

- Door handing

How to identify door handing:

Handing of all doors is determined from the exterior of the room's entrance.

- If the hinge is on the left side of the door, the door is "left hand" (LH)
- If the hinge is on the right side of the door, the door is "right hand" (RH)
- To order a handed product, please specify LH or RH
- To order a handleset, handing is still determined from the exterior of the door
- We will use that information to determine the handing for the inside of the door
