

LightScene EV-100

DATASHEET / BROCHURE

2,000-lumen WXGA accent lighting projector in white, with a low visual noise design, ideal for retail displays, galleries and museums.

Add movement and life to your retail displays or exhibitions with a low visual noise projector that blends in beautifully to any environment, and blurs the line between lighting and projection with 2,000-lumen brightness and WXGA sharpness.

A discreet attention-grabber

The LightScene EV-100 allows you to create instantly appealing visuals with sharp WXGA resolution and 2,000-lumen brightness. Yet thanks to its low visual noise white casing, it can be used where a traditional projector would stand out, such as window displays and as part of exhibitions.

Simple, flexible implementation

A light, flexible design means the EV-100 can be installed in a variety of ways, from a traditional ceiling mount to a freestanding floor mount, or attached to an existing lighting track like a spotlight¹. It can also be mounted at and project from any angle, including portrait. The projector can be used as a traditional spotlight for when simple lighting effects are needed.

Easy to program and use

The EV-100 comes with Epson Projector Content Manager Software for quick, easy set-up without specialist installation. Playlists can easily be loaded via SD Card and changed using remote control by employees without the need for a computer. The projector can also use advanced techniques such as edge-blending to achieve stunning results in larger spaces that require multiple-unit installations.

Fit and forget reliability

A five-year, 20,000-hour warranty, coupled with Epson's durable, reliable inorganic phosphor wheel technology means that EV-100 projectors can be installed and forgotten about, and don't require regular maintenance.

KEY FEATURES

- **Discreet signage projector**
Low visual noise white casing won't grab the spotlight
- **Sharp, vivid projection**
2,000-lumen brightness and detailed WXGA resolution
- **Flexible installation**
Can be ceiling-mounted, floor-standing or attached to a lighting track
- **Easy playlist loading**
Playlist can be loaded from an SD Card without the need for a computer
- **Fit and forget reliability**
Durable Epson technology supported by a five-year 20,000-hour warranty
