

Network Solutions

Single-source global manufacturer of innovative
end-to-end copper and fiber cabling systems

Bigger and Better than Ever

Thank you for choosing Leviton for your **network infrastructure**.

We are excited to present an expanded portfolio of products, giving you even more options to meet your network requirements. In 2020, Leviton acquired leading U.S. cable manufacturer Berk-Tek™, and in this catalog you will find trusted Berk-Tek brand copper and fiber cabling alongside our **wide selection** of network connectivity.

In addition, you'll find these newly introduced solutions:

Cat 6A High-Flex Cord

Your Single Source for End-to-End Cabling Systems

Leviton is a single-source global manufacturer of **end-to-end** fiber and copper cabling systems. That means all components — jacks, cable, patch panels and more — come from Leviton factories, where our product development teams are collocated with production and quality teams. This translates into **hyper-tuned systems** and **greater network longevity**. Plus, buying complete systems from one manufacturer simplifies ordering, delivery, and warranties.

Data Center Solutions — Leviton offers single-mode and multimode cabling systems that support networks up to 400 Gb/s and beyond, lasting through multiple generations of tech refreshes. And in our dedicated data center factories we make custom fiber and copper trunks, harnesses, and patch cords to speed delivery and deployment.

Enterprise Solutions — Leviton has an incredible history of connecting all types of enterprise networks: financial, tech, military, medical, academic and more, offering everything from interbuilding cabling to connectivity at the desk. We also help customers integrate emerging technologies into their networks, with cabling systems designed to support Power over Ethernet and the latest smart building initiatives.

U.S. Made, Global Reach

Unlike many U.S.-based companies, the large majority of Leviton Network Solutions products are **designed** and **manufactured in the United States**. The most recent addition to our U.S. capabilities comes from our acquisition of Berk-Tek™, adding American-made copper and fiber optic cable. Today, Leviton Network Solutions U.S. factories span from coast to coast, with facilities in Pennsylvania, North Carolina, Florida, Illinois, and Washington state. While we're a distinctly American company, our solutions can be found in networks **across the globe**. We have the resources

to support you wherever you are, with seamless customer service and well-stocked inventory in every region around the world. And with our UK factory support, we have the capacity for redundant operations and quick-turn assemblies in large quantities across the pond, so product is always available.

Building Stronger Partnerships

As a privately owned company, Leviton is beholden to our customers, not outside stakeholders. We make customer success the core of everything we do by continually improving product quality, performance, and sustainability, while providing the highest level of project support.

Quality and Performance — Every product is rigorously tested by Leviton and third-party labs, replicating real world environments and worst-case scenarios. This ensures that margins meet our high standards and your mission critical networks will last.

Sustainability — Our focus on sustainability comes through in product designs that cut jobsite waste and environmentally friendly packaging. It's also built into our operations, through processes like water reclamation and materials recycling.

Customer Focus — With 20 sales offices worldwide, on-call customer support, data center designers, specification and application engineers, and logistics specialists, help is always nearby.

COPPER SYSTEMS

Leviton copper systems combine category-rated performance with high-density, user-friendly designs to deliver the industry's most innovative family of solutions. Whether you are supporting a large enterprise, data center, or small business infrastructure, Leviton has the system to fit your needs. Refer to the system features below and on the following pages for an overview of Leviton's three copper system brands: Atlas-X1, eXtreme, and GigaMax.

System Features:	Category 8 solutions
	High-performance wireless and AV support
	High-density shielded shorter-depth jack for better bend radius
	Advanced features (icons, shutters) for clear network ID and protection
	Unified form factor (Cat 5e to Cat 8) and termination style for easy migration
	Shielded systems for EMI/RFI protection
	Performance exceeds the standard
	Uses Retention Force Technology, protecting connection points and increasing system longevity
	Channel margin guarantees for confidence in performance
	Component-rated products available
	Exceeds PoE standards up to 100 watts
	Third-party tested and verified
	13 color options
	Limited Lifetime Warranty
	Plenum rated

Atlas-X1

Mission Critical

Premium category-rated system that delivers the highest level of verified performance and reliability. Supports high-performance wireless, high-definition AV and high-power PoE applications.

eXtreme

Enterprise

Pairs high quality and performance with a user-friendly design to support fast, easy installations.

GigaMax

Light Commercial, MDU

Delivers proven performance with the reliability you have come to expect from Category 5e applications.

Jacks **A8**

Jacks

Leviton copper jacks go through rigorous third-party testing to ensure the highest levels of quality and reliability. Whether supporting mission-critical applications with Atlas-X1™, a large enterprise with eXtreme™, or a small business infrastructure with GigaMax™, Leviton has the connectivity solution for your needs.

ATLAS-X1 COMPONENT-RATED UTP & SHIELDED QUICKPORT™ JACKS

- Innovative wire manager and door-release levers support quick, repeatable terminations
- Unified form factor and termination method, from Cat 5e to Cat 8
- Tool-free design requires no specialized termination tool
- Patented Retention Force Technology (RFT) protects against time damage and maintains contact force between plug and jack, preventing arcing from intermittent disconnects in PoE applications
- Interchangeable icons available (voice, data, AV, and blank), color-coded to match the jack face
- Jack with internal shutter is available to protect ports from dust, debris, and contaminants
- Shielded jacks provide additional EMI/RFI protection, signal isolation, and alien crosstalk (AXT) suppression
- Tested and approved for use in air-handling spaces (plenum rating) in accordance with UL Standard 2043
- PoE optimized tine geometry prevents arcing damage where plug and jack make contact, extending jack life and ensuring maximum performance (see specification sheets for full PoE capabilities)
- Solid metal body dissipates 53% more heat than plastic, minimizing damage from excess heat in PoE applications
- Made in the USA

EXTREME UTP QUICKPORT™ JACKS

- Patented Retention Force Technology (RFT) protects against damage from 4- or 6-pin plugs
- Pair Separation Towers facilitate quick, effective termination
- Compatible with Fluke JackRapid™ Punchdown Tool for quick and easy terminations
- Cat 6A jack includes a patented Cone of Silence™ for additional alien crosstalk (AXT) suppression
- Patented large-format, tear-away, dual-layer wiring guide
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities
- Made in the USA

GIGAMAX UTP QUICKPORT JACKS

- Single T568A or T568B wiring labels simplify terminations
- Narrow jack profile for high-density installations
- Compatible with Fluke JackRapid™ Punchdown Tool for quick and easy terminations
- Durable one-piece frame built for longevity
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities
- Made in the USA

SPOTLIGHT

GreenPack™

Leviton Atlas-X1™ Cat 6 and Cat 6A, and eXtreme Cat 6A jacks are now available in GreenPack bulk packaging. The convenient packages of 12 jacks, available in shielded and UTP, provide contractors with an efficient option for large-scale projects and installations, with fewer individual parts to manage and less jobsite waste. Each bulk pack features:

- Easy to open, reusable packaging
- Protection for all included components
- Choice of three jack colors for better network planning

Atlas-X1 and eXtreme jacks are compatible with all Leviton QuickPort products.

CATEGORY-RATED JACKS | Plugs & Voice Grade

CAT 6A & CAT 6 PLUGS

- Cat 6A Universal Tool-Free plug offers easy field termination without special tools and terminates from 26- to 22-gauge solid or stranded conductors, supporting shielded and UTP applications
- Cat 6 plug provides quick UTP wire terminations, with clear housing for wire sequence verification and cable feedthrough plug opening for crimp precision

CAT 5 & USOC UTP QUICKPORT™ JACKS

- Fit into all QuickPort wallplates and housings
- Full support of voice and low-speed data applications
- Cat 5 and 8P8C USOC accept RJ-45 plugs; 6P6C USOC accepts RJ-11 plugs

QUICKPORT JACK ADAPTER BEZELS

- Allow QuickPort jacks to be installed into third-party wallplates and surface-mount boxes
- Bezel color will be visible after installation
- Packaged individually and sold separately from jacks
- CommScope bezels fit SYSTIMAX® or Uniprise® wallplates and surface-mount boxes

FEATURED PRODUCTS

1RU 48-Port
QuickPort™
High-Density Flat
& Angled Panels
A14, A15

e2XHD Snap-In
Cassette Patching
System **A13**

Patch Panels & Cross Connect

Choose Leviton for all your patch panel needs. Our e2XHD high-density panels make patching easier than ever, using snap-in copper and fiber cassettes.

Additional UTP and shielded panels, the patented Zero-U VertiGO™, high-density panels, and options with magnifying lens label holders round out an incredibly large selection of patch panels.

Flat 48-Port

Angled 48-Port

e2XHD Snap-In Cassette Patch Panels ► A13

These high-density panels are designed for data center applications where fast, single-click deployment and simple maintenance are important. They accept UTP and shielded copper as well as fiber e2XHD snap-in cassettes in the same panel.

Available Styles: Flat | Angled

Flat 24-Port

High-Density 48-Port

Flat Patch Panels ► A14, A16

Traditional, flat profile works well in almost any application. Most flat panels include rear cable management bars.

Available Styles: 110-Style | QuickPort UTP | QuickPort Shielded

Angled 48-Port

Angled Patch Panels ► A15, A16

Recommended for use in racks to optimize patch cord management and rack space utilization.

Available Styles: 110-Style | QuickPort UTP | QuickPort Shielded

VertiGO™ Zero-U

Zero-U Patch Panels ► A15

VertiGO panels are recommended for use in data center cabinets, or for any application that needs connectivity outside of the traditional 19-inch rack space. Vertical channel models provide cable routing and protection.

Available Styles: QuickPort

Cross-Connect 110-Style Wiring Block

Cross-Connect ► A18

Dependable, flexible, and cost-effective, Leviton 110-style and 66-block cross-connect products are ideal for telecommunications rooms and distribution frames. 110-style wiring blocks are available in Cat 6A, 6, and 5e, and can be mounted to the wall or plywood backboard. Rack-mount solutions are also available.

Available Styles: Cat 6A | Cat 6 | Cat 5e

SPOTLIGHT

Mini Enclosures for Non-Traditional Network Areas

The Opt-X SDX Mini Wall-Mount Enclosure provides simple deployment and flexible mounting options for remote network hubs, non-traditional network areas, and other areas with extreme space constraints. It accepts six copper ports by using a QuickPort adapter plate (5F100), or up to 24 LC fibers or 12 SC fibers using an SDX cassette or adapter plate.

Learn more on page B22.

PATCH PANELS | e2XHD Snap-In Cassette Patching System > UTP & Shielded

The e2XHD Snap-In Cassette Patching System includes 1RU panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the high-density panels, making installation, moves, adds, and changes easier than ever.

- Panels allow a mix-and-match of Leviton UTP, shielded, or fiber snap-in cassettes
- Cassettes are available empty or on pre-terminated trunks (see Leviton.com/configurator)
- Copper jacks easily snap into cassette after termination
- System accessories include rear cable managers, blank cassette inserts for unused cassette openings, and a cover for the angled panel, minimizing dust or debris

SPOTLIGHT

Leviton eXtreme™ Cat 6 High-Flex Patch Cords

Leviton eXtreme Cat 6 High-Flex Patch Cords reduce patch cord density in a 24-port patch panel by 38% when compared to typical Cat 6 patch cords. These versatile cables support high-speed data applications, are Power over Ethernet compatible, and are tested and verified to meet ANSI/TIA-568.2-D and ISO/IEC 11801-1 component requirements.

The snagless plug design with integrated strain-relief boot, narrow 0.60 bend radius, and dual-rated cable jacket (CM/LSZH) offer flexible patching and superior performance for high-density switches, routers, and other electronics.

Learn more on page A26.

FLAT UTP QUICKPORT PATCH PANELS

- Standard-density 24- and 48-port panels are available with optional patented magnifying lens label holder
- Silk-screened port numbers on panel front
- High-density 1RU 48-port maximizes rack space and reduce costs in high-density applications
- Rear Cable Management Bar (49005-CMB) included with all flat panels unless otherwise noted

See Section F for Cable Management Solutions and Accessories.

ATLAS-X1™ FLAT SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Includes appropriate grounding hardware
- High-density 1RU 48-port option maximizes rack space and reduces costs in high-density applications
- Rear Cable Management Bar (49005-CMB) included with all flat panels unless otherwise noted

PATCH PANELS | Angled QuickPort™ & VertiGO™ Zero-U QuickPort > UTP & Shielded

ANGLED UTP QUICKPORT PATCH PANELS

- Angled design conserves rack space by routing patch cords directly into vertical cable management
- Angled design facilitates proper bend radius and simplifies termination
- Include white or black write-on blocks
- Select panels include patented magnifying lens label holders for easy reading

See Section F for Cable Management Solutions and Accessories.

ATLAS-X1™ ANGLED SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Include appropriate grounding hardware

VERTIGO ZERO-U PATCH PANEL

- Zero-U panel can be mounted to a ladder tray, wire basket, under a raised floor, or onto modular furniture
- QuickPort-style openings for copper and fiber installations
- Low-profile design fully covers connections
- Improves cabinet center airflow by routing rear cable along outer edges
- Hinged doors provide easy access to termination field
- Patented magnifying lens label holders facilitate easy reading

Magnifying Lens Label Holder

Available with a wide selection of Leviton patch panels. Leviton patented magnifying lens label holders ensure visibility of port labels for easy identification of individual port designations.

FLAT UTP 110-STYLE PATCH PANELS

- 1RU 12- or 24-port, 2RU 48-port, and 4RU 96-port configurations
- 6-port RJ-45 modules on front, and 110-style punchdowns on rear
- Includes color codes for T568A and T568B wiring schemes
- Cat 5e and Cat 6 include 25-pair wiring schemes
- Silk-screened port numbers and paper label holders included
- Select panels include patented magnifying lens label holders for easy reading
- Patented Retention Force Technology (RFT) protects against time damage from 4- or 6-pin plugs, saves on costly repairs, and increases system longevity (select panels only)
- Rear Cable Management Bar (49005-CMB) is included unless otherwise noted

See Section F for Cable Management Solutions and Accessories.

ANGLED UTP 110-STYLE PATCH PANELS

- Angled design conserves rack space by routing patch cords directly into vertical cable management
- Angled design facilitates proper bend radius and simplifies termination
- Includes a snap-in plastic label holder and card stock labels
- Select panels include patented magnifying lens label holders for easy reading
- Rear Cable Management Bar (49005-CMB) is included unless otherwise noted

SPOTLIGHT

Cable Management Clip from Leviton

Manage up to 24 individual cables with the easy-to-install Cable Management Clip. The user-focused design is engineered to speed deployment, quickly snapping onto Leviton cable management bars without any tools to streamline installation and maintenance.

The cable management clip is compatible with flat QuickPort™ and 110-style panels, with no cable ties or wraps required. The result is easier, neater, more efficient network management, with improved density for larger diameter cables and discrete cable retention at the rear of the patch panels.

See page F6 for more information.

**CAT 6A 110-STYLE WIRING BLOCKS**

- Supports high-frequency data signals up to 500 MHz
- Can be used as a consolidation point (CP) in a TIA-defined 90-meter permanent link
- Designed to mitigate alien crosstalk (AXT)
- Independently tested and verified by Intertek (ETL) to meet all TIA component, permanent link, and channel requirements
- Available in 64-pair wall-mount block

CAT 5E 110-STYLE WIRING PRODUCTS

- Wall-mount bases available in 50- and 100-pair with or without legs
- 300-pair bases include stand-off legs, labels, and label holders
- Kits include bases, connecting blocks, labels, and holders
- Rack-mount units are for 100-, 200-, and 300-pair densities
- Patch cords in 110-110 and 110-T568A/B configurations
- 110-style wiring cable management available

CAT 6 110-STYLE WIRING PRODUCTS

- Supports voice, data, and security applications
- Wall-mount and rack-mount wiring block kits available in 96-, 192-, and 288-pairs
- 110-style patch cords in 110-110 and 110-T568A/B configurations
- Connector clips withstand 200 re-terminations

Patch Cords & Pre-Terminated Trunks

Leviton copper patch cords and pre-terminated trunks are designed to ensure the highest levels of performance, reliability, and longevity whether supporting mission-critical, large enterprise, or small business applications. And Leviton makes it easy to configure custom solutions. With factory testing and no need for field terminations, you can reduce installation time by up to 75 percent.

ATLAS-X1™ CAT 8 PATCH CORDS

- Outside diameter of 6.2 mm ensures ease of management
- Dual listed CMR and LSHF/LSZH materials as standard
- Part of a complete Atlas-X1 Cat 8 shielded system for 25/40GBASE-T networks
- Provides excellent alien crosstalk suppression and EMI/RFI protection

For Cat 8 jacks, see page A8.

SPOTLIGHT

Cat 6A High-Flex Patch Cords Improve Density, Bend Radius and Manageability

Small-diameter 28 AWG patch cords offer big advantages in data center and enterprise networks. Leviton's new Cat 6A High-Flex Patch Cords help data center technicians with installation and maintenance in high-density patching environments. They also give network managers additional flexibility and improved bend radius at wireless access points and remote smart building devices, while supporting higher data rates up to 10 Gb/s. The short plug and high-flex boot reduce the amount of space required in applications with limited depth behind WAPs, back boxes and furniture plates.

Learn more at Leviton.com/6Ahighflex

PATCH CORDS | Cat 6A

CAT 6A PATCH CORDS

- Short boot design (24 mm) reduces installed bend radius for limited depth applications
- Patch cord bend radius is 0.96 inches
- Provide exceptional alien crosstalk (AXT) suppression and EMI/RFI protection in Cat 6A channels
- Cat 6A cord can be used for UTP or shielded installations
- Ergonomic release tab allows for quick and easy connections and disconnects
- Tested and verified to meet ANSI/TIA-568.2-D and ISO/IEC 11801-1 component requirements
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

CAT 6A HIGH-FLEX PATCH CORDS

- Outside diameter of 0.185"
- Bend radius is a narrow 0.74 inches, versus 1.0 inch for typical Cat 6A patch cords
- Short boot design (24 mm) reduces installed bend radius for limited depth applications
- Accommodate use in ultra high-density switches, routers, and other electronics
- Same cord for UTP or shielded installations
- Tested and verified to meet ANSI/TIA-568.2-D and ISO/IEC 11801-1 component requirements
- Supports Power over Ethernet (PoE) - see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

PATCH CORDS | Cat 6A, VXC Plenum Assembly & VXC Coupler

Patch Cords

COPPER

CAT 6A PLENUM PATCH CORDS

- Outside diameter of 0.223" is easier to manage
- Short boot design (24 mm) reduces installed bend radius for limited depth applications
- NFPA-70 Plenum rated
- 26 AWG stranded conductors for extended flex life
- Snagless plug design prevents tab breakage
- Same cord for UTP or shielded installations
- Tested and verified to meet ANSI/TIA-568.2-D component requirements
- Supports Power over Ethernet (PoE) - see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

VXC™ PLENUM ASSEMBLY & VXC COUPLER

- Universal (UTP/shielded) solution for terminating cables at WAPs and smart building devices
- Plenum-rated assembly includes plug, stranded patch cable, and VXC Coupler (also sold separately)
- Coupler creates durable connection without need for punchdown or other proprietary tools
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

PATCH CORDS | Cat 6

CAT 6 UTP PATCH CORDS

- Narrow-profile boot reduces congestion in high-density applications
- Strain-relief boot ensures long-term network performance
- Snagless boot design prevents tab breakage
- Ergonomic release tab allows for quick and easy connections and disconnects
- Tested and verified to meet ANSI/TIA-568.2-D component requirements
- Supports Power over Ethernet (PoE) — see specification sheet Leviton.com/ns/specsheets for full PoE capabilities

CAT 6 STANDARD UTP PATCH CORDS

- Matching color cords and boots
- Strain-relief boot ensures long-term network performance
- Standard cords are tested and verified to meet ANSI/TIA-568.2-D channel requirements
- Supports Power over Ethernet (PoE) — see specification sheet Leviton.com/ns/specsheets for full PoE capabilities

PATCH CORDS | Cat 5e

CAT 5E SLIMLINE-BOOT UTP PATCH CORDS

- Narrow-profile boot reduces congestion in high-density applications
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

CAT 5E STANDARD UTP PATCH CORDS

- Matching color cords and boots
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

CAT 5E UTP COMPONENT-RATED SLIMLINE-BOOT PATCH CORD, CM (PVC) (COUNTRY OF ORIGIN: USA)

DESCRIPTION	PART NO.
Cat 5e UTP Component-Rated SlimLine-Boot Patch Cord, CM (PVC) (country of origin: USA)	5D560-xx*

[A] CAT 5E UTP COMPONENT-RATED SLIMLINE-BOOT PATCH CORD, CM (PVC)

DESCRIPTION	WHITE	YELLOW	BLUE	GREEN	GRAY
3-Foot Patch Cord	5D460-03W	5D460-03Y	5D460-03L	5D460-03G	5D460-03S
5-Foot Patch Cord	5D460-05W	5D460-05Y	5D460-05L	5D460-05G	5D460-05S

SPOTLIGHT

VXC™ Plenum Assembly

The **VXC Plenum Assembly** creates a cost-effective method for terminating cables for wireless access points, video cameras, and other ceiling mounted devices. This Cat 6A rated assembly includes a **VXC Coupler** (also sold separately) that creates a durable connection without the need for punchdown or other proprietary tools. It also includes a standard size plug and flexible stranded patch cable. The assembly is plenum-rated and can be used in riser and plenum applications

See page A24 for details.

SECURE RJ SYSTEM

- Compatible with industry-standard RJ ports in most network equipment, devices, patch panels, and work area outlets
- Same-color extraction tool disengages color-matched patch cords and port blockers
- Transparent housing allows color-coding without blocking visibility to link/status LEDs on electronic equipment
- Port blocker prevents unauthorized network connection and protects open, unused ports
- Cat 6A and Cat 6 Secure RJ Patch Cord options available

SECURE RJ SYSTEM	
DESCRIPTION	PART NO.
[A] Cat 6 Patch Cord, with Secure RJ housing on both ends (country of origin: USA)	SRJ6 ⁺ -xx*
[B] Secure RJ Port Blocker, pack of 12	SRJPB-00 ⁺
[C] Secure RJ Extraction Tool, pack of 1	SRJET-00 ⁺

xx = Length: Defined in table below. Minimum orders and extended lead time may apply. Contact Inside Sales at (800) 722 2082 for more details.

⁺ = Patch cord housing, port blocker, and extraction tool colors: Choose from the transparent colors shown in (C) above.

* = Patch cord jacket colors: Choose from any of the colors below.

Make-to-Order! SECURE RJ PATCH CORD OPTIONS					
CATEGORY	CABLE TYPE & RATING	CABLE COLOR	CABLE LENGTH	SECURE HOUSING COLOR	SECURE HOUSING PLACEMENT
Cat 6A FTP	6AS10 (CMR), H6A10 (CM/LSZH)	White, Yellow, Red, Blue, Green, Gray, Black	3-72 feet	White, Yellow, Red, Blue, Green, Purple, Black, Orange	Both Ends or One End
Cat 6A UTP	6AS10 (CMR), H6A10 (CM/LSZH)	White, Yellow, Red, Blue, Green, Gray, Black	3-72 feet	White, Yellow, Red, Blue, Green, Purple, Black, Orange	Both Ends or One End
Cat 6 UTP	6D460 (CM)	White, Yellow, Red, Blue, Green, Gray, Black	1-72 feet	White, Yellow, Red, Blue, Green, Purple, Black, Orange	Both Ends or One End

All patch cords utilize stranded cable.

PRE-TERMINATED TRUNKS | Make-to-Order

UTP jack to plug

RECOMMENDED APPLICATIONS:

- Data Center Cabinets
- Telecommunications Racks
- Quick Network Deployment

PRE-TERMINATED COPPER TRUNKS

- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths
- Atlas-X1™ pre-terminated copper trunks provide the option of having jacks with shutters and/or icons
- Customized breakout length from braided sleeve improves installation flexibility and appearance
- Optional pulling eye protects jacks and eases installation
- Pre-terminated assemblies are eligible for limited lifetime product, system, and performance warranties
- Superior Suppression Technology (SST) cable is available for Cat 6A assemblies to reduce bundle size and improve alien crosstalk (AXT) suppression
- Braided sleeve colors come in white for riser environments and black for plenum or LSHF/LSZH

Make-to-Order! PRE-TERMINATED COPPER TRUNK OPTIONS						
CABLE TYPE	CABLE RATING	# OF CABLES	CABLE LENGTH	CABLE COLOR*	INDIVIDUAL JACK COLOR	TERMINATION OPTIONS
Cat 6A UTP	CMP, CMR, LSHF/LSZH	2-12	10-295 ft (3-90 m)	Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Gray, Black, Brown	Jack, Plug, Open
Cat 6A Superior Suppression Technology (SST)	CMP, CMR			Gray	Black*	Jack, Open
Cat 6A FTP	CMP, CMR		6-295 ft (2-90 m)	Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Gray, Black, Brown	Jack, Plug, Open
Cat 6 UTP	CMP, CMR, LSHF/LSZH			Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Gray, Black, Brown	Jack, Plug, Open
Cat 5e UTP	CMP, CMR					

* = Additional cable and shielded jack colors are available, but may require additional lead-time. Contact Inside Sales at (800) 722 2082 for more details.

Available with Atlas-X1 or eXtreme™ Jacks.

All trunks utilize solid conductor cable.

For assistance customizing your trunks, please visit Leviton.com/configurator or call Tech Support at (800) 824 3005.

e2XHD COPPER TRUNKS

- e2XHD cassettes terminated to trunks in Cat 6A and Cat 6 work exclusively with e2XHD Flat or Angled patch panels (see page A18)
- Available with Atlas-X1™ or eXtreme™ Jacks
- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths

Make-to-Order! e2XHD COPPER TRUNK ASSEMBLY OPTIONS						
CABLE TYPE	CABLE RATING	# OF CABLES	CABLE LENGTH	CABLE COLOR*	INDIVIDUAL JACK COLOR & CASSETTE JACK COLOR	TERMINATION OPTIONS
Cat 6A UTP	CMP, CMR, LSHF/LSZH	6	10-295 ft (3-90 m)	Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Gray, Black, Brown	Jack, Plug, Open, Cassette
Cat 6A Superior Suppression Technology (SST)	CMP, CMR			Gray		
Cat 6A FTP	CMP, CMR		6-295 ft (2-90 m)	Blue		
Cat 6 UTP	CMP, CMR, LSHF/LSZH			Blue		

* = Additional cable and shielded jack colors are available, but may require additional lead-time. Contact Inside Sales at (800) 722 2082 for more details. All trunks utilize solid conductor cable.

For assistance customizing your trunks, please visit Leviton.com/configurator or call Tech Support at (800) 824 3005.

BREAKOUT & ALIGNMENT OPTIONS

Choose from five different alignments, or contact Tech Support at (800) 824 3005 to discuss options. e2XHD Copper Trunks will always have an even alignment on the cassette end(s). Different minimum breakout lengths apply.

	MINIMUM BREAKOUT LENGTHS	ALIGNMENT OPTIONS
Copper Trunks	• 12 cables = 24" minimum • 8 cables = 20" minimum • 6 cables = 18" minimum	• Even • Stagger cable 1 shortest • Stagger cable 1 longest • Stagger cable 1 & 2 shortest (plug) • Stagger cable 1 & 2 longest (plug)
e2XHD Copper Trunks	• Cat 6 = 6" minimum • Cat 6A = 24" minimum	• Even

Market **A39**

Copper Cables

Leviton offers best-in-class copper cables that are tested to exceed industry standards. From superior alien crosstalk suppression to flexible small-diameter options, we have the ideal solution for all types of demanding networks.

UNIVERSAL APPLICATION SCORE

The Universal Application (UA) Score measures how a cabling system will perform under the strain of future demand. It is calculated using a proprietary algorithm that combines the results of four different performance tests, done in a unique four connector, 100-meter channel.

The channel test is unique because VoIP, data, video, and power are transmitted simultaneously through the channel, and it includes simulated hot plenum spaces as well as nearby power cables throwing off voltage spikes. All of this is done to replicate real-world conditions as closely as possible in the lab.

UA score	SCORE	< 3.6	3.6 - 5.5	5.6 - 6.5	6.6 - 7.5	7.6 - 8.5	8.6 +
	PERFORMANCE	Unacceptable	Poor	Limited	Good	Better	Best
	HEAT RISE	Severe	Significant	Moderate	Moderate	Moderate	Low

The UA Score ranges from 1 to 10, with 10 being the best. A high UA Score means that your IP infrastructure performance is outstanding, resulting in near flawless application performance, and that there is relatively low heat rise under the strain of high power PoE. A low UA Score such as 3.6 would mean you could expect to see and hear errors and encounter frustrating delays.

For more information about the Universal Application Score please visit Leviton.com/ua-score.

SPOTLIGHT

Save time, money and jobsite waste with smartPAK™

With **1,500 feet of cable in each box** versus standard 1,000 ft. boxes, smartPAK delivers the convenience and ease of use of a traditional pull-box with the additional benefits of 50% more cable. smartPAK packaging is available for LANmark-1000 and LANmark-6.

smartPAK benefits at a glance:

- Reduced cable scrap when installing standards-compliant 90-meter horizontal cable runs or even “typical” 45-meter runs
- More efficient installations resulting from more cable pulls per box and fewer box change-overs
- Fewer boxes to breakdown, recycle and transport
- Less jobsite waste thanks to 10%-15% reduction in cardboard per 1,000 ft
- Multi-layer corrugated box top for added strength with innovative thumb hole for better grip
- Additional full flap box bottom that resists carton sagging
- Reinforced corrugated material for improved stacking strength

CABLES | Berk-Tek™ Cat 6A Shielded & OSP Cables

**LANMARK™-10G FTP CAT 6A F/UTP CABLES**

- ETL Verified to ANSI/TIA-568.2-D
- Outstanding signal isolation and resistant to alien crosstalk
- Increased signal isolation prevents contaminant noise from entering cabling system
- Completely compliant with IEEE requirements
- Lower bit errors resulting in increased network performance
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), 2011/65/EU (RoHS), and IEC 61156-5 ED2.0_46C844CDV
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-10G OSP CAT 6A U/UTP CABLES

- Usable bandwidth up to 500 MHz
- Fully water blocked and meets NEC requirement for wet locations
- Can be used to interconnect buildings or can be run beneath a slab in duct or conduit
- Simplified structured cabling solution preserving long-term network investment
- Warranted, trouble-free cabling installation and maintenance
- Complies with ANSI/TIA-568.2-D Category 6A, ANSI/ICEA S-56-434 Outdoor Use, ANSI/ICEA S-107-704-2012 PAR 8.2.1 Water Penetration, and EU Directive 2014/35/EC (Low Voltage)

To see a full list of available cables, refer to pages X3-X6 in the back of the catalog

CUSTOMERS IN CANADA can find additional copper cable options on pages A39-A40.

LANMARK™-SST CAT 6A U/UTP CABLES

- ETL Verified 10 dB Alien Crosstalk margin over Cat 6A Standard
- Reduced CMP cable size of 0.250" is up to 8% nominal reduction versus industry average of 0.275"
- Supports high-density applications such as data center environments
- Improved pathway space and fill ratios - 15% increase in number of cables per tray
- Small diameter improves operational airflow and cooling in congested pathways and a smaller bend radius in tight spaces
- Reduced cable weight causes less strain on pathways and improves ease of installation
- Superior Suppression Technology (SST) uses an insulated metallic isolation wrap design
- No bonding or grounding needed allows for simple and efficient installation
- Error-free performance of up to 10 Gigabit Ethernet with full duplex transmission up to 500 MHz
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and RoHS
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-XTP CAT 6A U/UTP CABLES

- Innovative noise canceling XTP Technology delivers enhanced alien crosstalk (AXT) performance
- Easier installation and cable management with reduced outer diameter of 0.275"
- Error-free performance of up to 10 Gigabit Ethernet with full duplex transmission up to 500 MHz
- No bonding or grounding needed allows for simple and efficient installation
- HDBaseT recommended/certified product
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and RoHS
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-10G2 CAT 6A U/UTP CABLES

- Flexible, round, compact design
- Alien crosstalk compliant (ETL Verified) and headroom for all crosstalk parameters
- Documented balance characteristics (TCL, ELTCTL)
- Easier installation and cable management with round design
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and 2011/65/EU (RoHS)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

CABLES | Berk-Tek™ Cat 6 Shielded Cables

LANMARK™-6 FTP CAT 6 F/UTP CABLES

- ETL Verified to ANSI/TIA-568.2-D
- Outstanding signal isolation
- Increased signal isolation prevents contaminant noise from entering cabling system
- Can be used with RJ-45 style F/UTP connectivity
- Lower bit errors resulting in increased network performance
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, ISO/IEC 11801 2nd Edition, 2011/65/EU (RoHS), and EU Directive 2014/35/EC (Low Voltage)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-HD CAT 6 F/UTP CABLES

- Ideal for point-to-point AV connections in classrooms or conference rooms
- Easier installation and cable management with a reduced outer diameter of 0.275"
- Supports 720 cable bundles at 100W PoE
- Full shield for alien crosstalk protection
- Available in 500-foot lengths for cost-effective installations
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and RoHS
- Supports high power PoE/PoH applications with 85% PoE/PoH efficiency — see specification sheets at Leviton.com/ns/specsheets for full PoE/PoH capabilities

CUSTOMERS IN CANADA can find additional copper cable options on pages A39-A40.

SPOTLIGHT

Cat 6A Universal Tool-Free Plug

The Cat 6A Universal Tool Free Plug makes easy field terminations without the need for special tools, in shielded or unshielded installations. The plug is built with a rugged metal body that provides superior alien crosstalk and EMI/RFI (electromagnetic interference/radio frequency interference) suppression while supporting 10GBASE-T networks and up to 90-watt Power over Ethernet (PoE) applications.

Learn more at Leviton.com/en/products/6aplg-s6a

LANMARK™-2000 CAT 6 U/UTP CABLES

- ETL Verified 10 dB NEXT, PSNEXT, ACR, and PSACR margin above Cat 6 Standard
- Documented balance characteristics (TCL, ELTCTL)
- Reduced attenuation (Insertion Loss)
- Balance characteristics improve overall cable performance and reduce cable emissions which results in reduced transmission errors
- Extended distance guarantee
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, ISO/IEC 11801 2nd Edition Cat 6, EU Directive 2014/35/EC (Low Voltage), and 2011/65/EU (RoHS)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-1000 CAT 6 U/UTP CABLES

- ETL Verified 5 dB NEXT, PSNEXT, ACR, and PSACR margin above Cat 6 Standard
- Documented balance characteristics (TCL, ELTCTL)
- Available in smartPAK™ 1,500 foot pull-box packaging to reduce and increase efficiency
- Optimal support for Gigabit Ethernet with headroom
- Addition of balance requirements improves overall cable performance and reduces transmission errors
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, ISO/IEC 11801-2nd Edition Cat 6, EU Directive 2014/35/EC (Low Voltage), and 2011/65/EU (RoHS)
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CABLES | Berk-Tek™ Cat 6 U/UTP & OSP Cables

LANMARK™-6 CAT 6 U/UTP CABLES

- Compact design with no center spline
- Cost-effective, entry-level Category 6 solution
- Available in smartPAK™ 1500 foot pull-box packaging to reduce cable scrap and increase install efficiency
- Compact box design takes up less shelf space and allow cable to be pulled easily from the box with minimum kinking
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, ISO/IEC 11801 2nd Edition, EU Directive 2014/35/EC (Low Voltage), and 2011/65/EU (RoHS)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-1000 OSP CAT 6 U/UTP CABLES

- Guaranteed 5dB NEXT, PSNEXT, ACR, PSACR margin over Cat 6 Standard
- Fully water blocked
- Can be used to interconnect buildings or can be run beneath a slab in duct or conduit
- Simplified structured cabling solution preserving long-term network investment
- Meets NEC requirement for cable in wet locations
- Complies with ANSI/TIA-568.2-D, ETL Verified, ANSI/ICEA S-56-434 Outdoor Use, and EU Directive 2014/35/EC (Low Voltage)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK-6 OSP CAT 6 U/UTP CABLES

- Meets the requirements of ANSI/TIA-568.2-D
- Fully water blocked
- Can be used to interconnect buildings or can be run beneath a slab in duct or conduit
- Simplifies structured cabling solution preserving long-term network investment
- Meets NEC requirement for cable in wet locations
- Complies with ANSI/TIA-568.2-D, ETL Verified, ANSI/ICEA S-56-434 Outdoor Use, and EU Directive 2014/35/EC (Low Voltage)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

LANMARK™-IP CAT 5E U/UTP CABLES

- Uses 22 AWG copper conductors
- Small outer diameter of 0.240", no center filler
- Guaranteed 10/100/1000BASE-T support to 120 meters
- All FEP insulated conductors
- Reduced energy costs due to 88% power efficiency
- Improved flexibility and ease of installation
- Complies with ANSI/TIA-568.2-D, UL 444, ISO/IEC 11801, and EU Directive 2014/35/EC (Low Voltage)
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

HYPERPLUS 5E CAT 5E U/UTP CABLES

- Small design for easy installation and reduced maintenance costs
- Outer diameter of 0.210" (5.33 mm), CMP
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, ISO/IEC 11801-2nd Edition Cat 5, 2011/65/EU (RoHS), and EU Directive 2014/35/EC (Low Voltage)
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

HYPERPLUS 5E OSP CAT 5E U/UTP CABLES

- Meets ANSI/ICEA 5-56-434 Standard for Polyolefin Insulated Communications Cables for Outdoor Use
- ETL Verified to ANSI/TIA-568.2-D
- Fully water blocked
- Can be used to interconnect buildings or can be run beneath a slab in duct or conduit
- Simplified structured cabling solution preserves long-term network investment
- Meets NEC requirement for cable in wet locations
- Complies with ANSI/TIA-568.2-D, ANSI/ICEA 5-56-434, ISO/IEC 11801-2nd Edition Cat 5, EU Directive 2014/35/EC (Low Voltage), and 2011/65/EU (RoHS)

CABLES | Cat 6A U/UTP Cables for Canadian Market

A

CAT 6A U/UTP CABLES

- Reduced CMP cable size of 6.35 mm is up to 8% nominal reduction versus industry average of 6.99 mm
- Supports high-density applications such as data center environments
- Improved pathway space and fill ratios - 15% increase in number of cables per tray versus average 6.99 mm size cable
- Small diameter improves operational airflow and cooling in congested pathways and a smaller bend radius in tight spaces
- Reduced cable weight causes less strain on pathways and improves ease of installation
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and RoHS
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

B

PATENTED NOISE-CANCELING HELIX TECHNOLOGY CAT 6A U/UTP CABLES

- Innovative noise canceling helix Technology delivers enhanced alien (AXT) performance
- Supports both long and short channel
- Easier installation and cable management with reduced outer diameter of 7.3 mm
- Error-free performance of up to 10 Gigabit Ethernet with full duplex transmission up to 500 MHz
- No bonding or grounding needed allows for simple and efficient installation
- Complies with ANSI/TIA-568.2-D, UL 444, UL C22.2 No. 214-02, EU Directive 2014/35/EC (Low Voltage), and RoHS
- Supports Power over Ethernet (PoE) — see specification sheets Leviton.com/ns/specsheets for full PoE capabilities

FEATURED PRODUCTS

Palm Termination
Tool **A42**

Wire-Punchdown
Termination Tool
A42

Copper Tools & Labeling

Leviton has everything you need to terminate and test our copper solutions.

The ergonomic Palm Termination Tool, designed by and for installers, offers comfort-grip or rack-mounted positioning for termination, a sturdy jack holder, and a wire-supporting retainer. The Wire-Punchdown Termination Tool enables one-step punchdown of 110-style or 66 connecting block IDCs with a single push on the handle. Specialized termination tools, test equipment, crimping tools, and other accessories complete the collection.

PALM TERMINATION TOOL

- Overmolded ergonomic soft grip
- Easy-to-see wiring labels
- Jack holders provide stability for punchdown
- Incorporated retainer supports cable during termination
- Integrated holes allow rack-mounting of the Palm Tool for patch panel terminations
- Compatible with eXtreme™, GigaMax™, and AV QuickPort™ Jacks

WIRE-PUNCHDOWN / TERMINATION TOOL

- Punches and trims each wire with just a single push of the handle
- Adjustable impact setting for minimal physical effort
- Spare blade storage in handle chamber
- Available in 110 IDC and 66 IDC
- Terminate 22-, 24-, or 26-gauge wire

EZ-RJ45™ CRIMP TOOL

- Built-in cutter and stripper that crimps and cuts wire in one operation
- Accommodates EZ-RJ45 plugs, and most standard RJ-45 and RJ-11 plugs

MULTI-PAIR TERMINATION TOOL

- Designed for 110-style wiring blocks
- High-impact, spring-loaded handle for one-punch termination of multiple pairs
- “Blade-in” and “blade-out” options
- Includes 4-pair, Cat 6 head
- Cat 6 head available individually

CUTTING TOOLS

- Klein Tools® Electrician's Scissors are excellent for cutting and stripping copper cable as well as trimming center splines and rip cords
- Klein Tools Flush Cutter neatly trims individual cable wires flush to jack body to prevent shorts in metal housings (recommended for Atlas-X1™ Jacks)

TERMINATION TOOLS & BLADES

DESCRIPTION	PART NO.
[A] Palm Termination Tool	47615-PTT
[B] Wire-Punchdown/Termination Tool (blades sold separately)	49553-814
[C] 110 IDC Blade	49553-110
[D] 66 IDC Blade	49553-066
[E] EZ-RJ45 Crimp Tool	40989-ACT

MULTI-PAIR TERMINATION TOOLS & ACCESSORIES

[F] Mass-Termination Multi-Pair Tool Handle with Cat 6, 4-pair head	49553-TTH
Mass-Termination Replacement Head, Cat 6, 4 pair	49553-64H

CUTTING TOOLS

[G] Klein Tools Electrician's Scissors	49886-SIS
[H] Klein Tools Flush Cutter (must be ordered in increments of 5)	49886-FCS

TONE TEST SET

- Low-voltage tester for continuity, shorts, and opens
- Talk battery for a communications line on a vacant pair
- Identifies tip and ring polarity, and line condition for clear line with dial tone, busy line, and ringing line
- Generates continuous or warble tone to trace pairs and locate broken pairs or cables in walls — use with Inductive Speaker Probe (below)

INDUCTIVE SPEAKER PROBE

- Detects audible frequency tones for accurate tracing and identification of wires, cables, and metallic circuits

MODULAR PLUG BREAKOUT ADAPTER

- For testing any six- or eight-position modular jacks
- Works with the Tone Test Set

TONE TEST SET, INDUCTIVE SPEAKER PROBE & KITS

DESCRIPTION	PART NO.
[A] Tone Test Set (includes 9-volt battery)	49560-TTS
[B] Inductive Speaker Probe (includes 9-volt battery, one duckbill tip, and one needlepoint tip)	49561-SSP
[C] Kit containing One Tone Test Set with Belt Holster, and one Inductive Speaker Probe with Belt Holster	49562-TSK
MODULAR PLUG BREAKOUT ADAPTER	
[D] Modular Plug Breakout Adapter	40070-MDP

WORK-AREA LABELING SOLUTIONS

DESCRIPTION	PART NO.
[A] QuickPort™ Shutter Kit (50 shutters)	51084-ICN
White Label Kit	51084-XLB
[B] Color Label Kit includes gray, orange, red, yellow, green, blue, purple, and brown (2 sheets of each color)	51084-CLB
[C] Labels and Windows for Housings and Wallplates on page E6	41080-IDW
Labels and Windows for Stainless-Steel and Angled Wallplates on pages E7 and E8	43080-IDW
Pre-printed Port Labels, black ink, 10 sheets per package	41080-LEB

PATCH PANEL LABELING SOLUTIONS

[D] Adhesive Holder and Labels Kit for QuickPort Panels (supports 24 ports)	49257-QHD
[E] Adhesive Holder and Labels Kit for 110-Style Panels (supports 24 ports)	49257-I24
[F] Designation Kit Replacement for 110-Style Panels (supports 24 ports)	69585-IDL

110-STYLE LABELING SOLUTIONS

DESCRIPTION	PART NO.
Cat 6 Label Kit, 6 label strips per kit	41LBL-60W
Cat 5e Label Kit, 6 label strips per kit	41LBL-00W

SPOTLIGHT Leviton Palm Termination Tool

Use the **Leviton Palm Termination Tool** (page A42) to quickly and easily punchdown jacks at the job site. The Palm Termination Tool was designed with contractor input and offers an ergonomic comfort grip, increased jack stability, and integrated holes that allow rack mounting for QuickPort panel terminations. The Palm Termination Tool is compatible with eXtreme™, GigaMax™, and AV QuickPort jacks.

FIBER PLATFORMS

Whether your installation is small or large, simple or complex, you can rely on Leviton for a network patching platform that meets your requirements. From cloud data center to remote telecom room, from service provider to enterprise office building, Leviton solutions are versatile enough to meet specific customer demands, ensuring migration options for future bandwidth growth and strong return on infrastructure investment.

PLATFORM FEATURES:

Ultra high density (144 fibers per RU)

High density (96 fibers per RU)

Standard density (72 fibers per RU)

Angled panel eliminates need for patch cord cable manager

Individual sliding trays minimize impact on surrounding fibers

TAP Cassette option to monitor networks for performance and security

One-handed, single-click cassette installation for easy deployment

Ultra Low Loss migration (10/40/100/200/400 Gb/s) via Opt-X Unity

OM3 / OM4 / OS2 fiber types for backward compatibility

Precision-molded adapter plates for durable network connections

Allows mix of copper and fiber for network flexibility

Cassettes with adjustable rear MTP® adapters for improved bend radius

Field splicing capability

Opt-X™ HDX

Mission Critical

Ultra-high-density platform to help meet increasing network demands in data centers.

e2XHD

Mission Critical

High-density snap-in cassettes allow a mix of fiber or copper patching for large enterprise applications.

Opt-X SDX

Enterprise

Versatile solutions in multiple sizes and styles for small data centers and enterprise applications.

¹ The effective modal bandwidth is determined based on an overfill launch (OFL) per ANSI/TIA-455-204, except on LOMM fiber types.
² 10GbE transmission at 1300 nm only applies to 10GBASE-LX4 (CWDM).
³ Reach calculation is based on attenuation of ≤3.0 dB/km at 850 nm and 1.0 dB of connector loss.

PRE-TERMINATED SOLUTIONS

Leviton recommends using pre-terminated trunks and harnesses whenever possible. With 100 percent factory testing and no need for field terminations or splices, installation time is reduced by up to 70 percent. Pre-terminated MTP® cassettes feature a space-saving design with a notched back for a smaller footprint and excellent radius control. All Leviton pre-terminated solutions are made to your specifications: fiber and cable type, fiber count, connector type, breakout leg types, length, and more. See more information on page B40.

TRUNK CABLES (see pages B41-B44)

- MTP to MTP, including 12- and 24-fiber MTP connectors
- Discrete to discrete (LC, SC)*
- MTP to discrete*
- Single-mode, multimode, and laser-optimized multimode types available

HARNESSES (see pages B45-B46)

- MTP-to-MTP connectors
- MTP-to-discrete connectors (LC, SC)*
- Single-mode, multimode, and laser-optimized multimode types available

MTP CASSETTES

- Available in HDX, SDX, and e2XHD form factors
- 12- or 24-fiber MTP connectors on the back
- MTP connectors or discrete connectors on the front, including LC and SC*
- Single-mode, multimode, and laser-optimized multimode types available

* = LC/APC and SC/APC available for QS2.

SPOTLIGHT

Simplify Network Design with Universal Polarity Cassettes

Polarity is a critical part of any fiber network. But it becomes more complex with multifiber cables and MPO connectors. Leviton Universal Polarity Fiber Cassettes help data center managers simplify things. The Base12 cassettes allow for the same interchangeable cassette on both ends of a Method B trunk in a fiber channel, reducing the complexity of a fiber network, ensuring consistent polarity, and streamlining network deployment.

The cassettes also include shuttered LC adapters with IP5x rating keep out dust and debris, and protect technicians from laser light exposure, with no dust caps to remove, store or throw away.

PREPARE FOR 40, 100, 200, AND 400 GB/S WITH THE OPT-X UNITY ULTRA LOW LOSS CABLING SYSTEM

Leviton pre-terminated Opt-X Unity — Ultra Low Loss multimode and single-mode systems offer a migration path to currently available 400 Gb/s speeds. They also meet IEEE 802.3ba/bm/bs/cd standards, which respond to the needs of data centers and enterprise networks. The Opt-X Unity Ultra Low Loss system features pre-terminated trunks, harnesses, array cords, and MTP® cassettes to help you future-proof your networks. See pages B41, B45, and B47 for detailed product information.

- System of trunks, harnesses, and cassettes
- Industry-leading 24-fiber MTP system
- System uses best-in-class MTP premium multi-fiber connectors
- Ultra-low-loss 8- and 12-fiber MTP connectors
- Available in laser-optimized multimode (OM3/OM4)
- Third-party verification of 40/100 Gb/s channel performance

REQUIREMENTS FOR 40/100/200 & 400G MULTIMODE APPLICATIONS

FEATURED PRODUCTS

UHDX Enclosures **B14**

HDX Adapter Plates & Cassettes **B19**

HDX Platform

Data centers and telecommunications rooms are rapidly outgrowing their footprints as they attempt to meet increasing network demands. Leviton UHDX enclosures offer optimum patching capacity in areas where space is at a premium. Using HDX Adapter Plates, Cassettes, and Splice Modules, the enclosures and panels allow up to 144 fibers with LC connectors, or 1,728 fibers with 24-fiber MTP® connectors — the highest density per rack unit available.

UHDHX RACK-MOUNT ENCLOSURES

- Accept HDX Adapter Plates, Cassettes, and Splice Modules
- Up to 144 fibers with LC connectors or 1,728 fibers with 24-fiber MTP® connectors per RU
- Individual sliding trays allow easy access to fiber connectors in dense applications
- 20-inch depth, with hinged or removable rear doors for accessibility to rear cable routing
- Hinged front door provides easy means to install, remove, and update port ID labels
- Highly visible port locators in the front and rear of the enclosure help easily identify specific ports

RECOMMENDED APPLICATIONS:

Data Centers

Entrance Facility

19" and 23" Racks and Cabinets

Overhead Patching Above Cabinet

UHDHX 1RU FLAT & ANGLED PANELS

- Accept HDX Adapter Plates, Cassettes, and Splice Modules
- Angled panel eliminates the need for horizontal patch cord cable managers
- Open access to patch cords and trunks
- One-hand installation and removal of HDX and HDX2 cassettes or adapter plates
- Up to 144 fibers with LC connectors or 1,728 fibers with 24-fiber MTP® connectors

ACCESSORIES

- Cable clamp kits minimize excessive pulling, bending, and crushing
- Brush guards minimize dust buildup in rear of enclosure
- Rear cable manager (sold separately) supports fiber cables and snaps directly into panel without tools
- 0RU, 1RU, and 2RU cable managers provide protection and routing of patch cords for flat panel
- 1RU and 2RU cable managers mount directly over existing panels

HDX PLATFORM | MTP®, Conversion & TAP Cassettes

HDX & HDX2 MTP CASSETTES

- Easy to migrate from 10 to 40, 100, 200, and 400 Gb/s when used with Opt-X™ Unity Ultra Low Loss trunks, harnesses, and patch cords
- Configure up to 48 fibers for 24 channels (10 Gb/s) and 6 channels (40 Gb/s or 100 Gb/s)
- Available in Base 8, Base 12, and Base 24 option for optimal network flexibility
- Universal polarity design, works in conjunction with Method B trunks
- LC internal shutters minimize dust and provide eye protection

HDX2 & HDX CONVERSION CASSETTES

- Manage polarity to maintain, transmit, and receive connections between parallel optics and SFP connectivity
- Connect to electronics with LC-style ports and aggregate SFP ports to a QSFP28 or PSM4 (100 Gb/s), QSFP+ (40 Gb/s), or CXP (120 Gb/s) port

HDX2 TAP CASSETTES

- Traffic analysis points (TAPs) provide real-time monitoring of 10 and 40 Gb/s channels (QSFP)

HDX ADAPTER PLATES

- Connect to field-terminated backbone cabling or pre-terminated trunks
- Visible sequential numbering to identify ports (for Tx and Rx)

HDX LC & MTP® SPLICE MODULES

- Modules integrate fiber adapter bulkhead (12 or 36 fibers) and splice holders, eliminating need for splice trays
- Innovative 12-fiber color-coded pigtail offers fusion splicing to either single fiber or ribbon fiber constructions
- LC internal shutters minimize dust and provide eye protection
- Splice Sleeves included in accessory kit
- MTP Splice Module offers field termination option to migrate from 10 to 40, 100, 200 or 400 Gb/s

Non-shuttered LC HDX Splice Modules are also available. Please contact Tech Support.

SPOTLIGHT

Ensure Fiber Performance, Quality, and Safety

Leviton offers internal shutters on its LC fiber cassettes and adapters. These IP5x-rated solutions help prevent contamination from dust, while reducing waste and speeding deployment, as they eliminate the need for dust plugs and ensure safer installation by protecting from laser light.

The shuttered LC ports are available for

- HDX cassettes, adapter plates, and splice modules
- e2XHD cassettes
- QuickPort duplex adapters

Learn more at Leviton.com/shutteredLC

12-Fiber OM4 HDX Splice Module with internal shutters (Cable sold separately)

HDX PLATFORM | Frame, Patch & Splice Decks

HDX FIBER OPTIC DISTRIBUTION FRAME (3,168 CAPACITY)

- Integrated cable management and routing solutions for minimum bend radius, better slack storage, and protection
- Holds up to 22 patch and/or splice decks
- Lockable rear doors included to protect and conceal trunk cabling
- Optional front door kit (sold separately) with transparent door is lockable for additional security
- Occupies only one 2 x 2-foot tile
- Seismic rated to GR-63-CORE, Zone 4, UL 2046 Listed

HDX FRAME CAPACITY CHART

CONNECTIVITY	MAX. FIBER STRANDS FOR PRE-TERMINATED TRUNKS	MAX. FIBER PATCHING & SPLICING	MAX FIBER FUSION SPLICING
LC	3,168	3,168	N/A
SC	1,584	0	N/A
12-Fiber MTP®	7,776	9,504	N/A
24-Fiber MTP	15,552	0	N/A
Single Fiber	N/A	N/A	3,168
Ribbon Fiber	N/A	N/A	9,504

PATCH DECK

- Accepts HDX adapter plates, cassettes, and splice modules
- 2RU height for up to 144 fibers (using LC) capacity
- Holds 6 independent sliding trays and accepts up to 12 HDX or 6 HDX2 adapter plates, cassettes, or splice modules
- Magnifying port identification label holders for better visibility
- Integrated minimum bend radius protection

See page B15-B16 for HDX Cassettes, Splice Modules, and Adapter Plates.

SPLICE DECK

- Modular 3.5-inch-high deck accepts up to three independent splice deck trays
- Sliding trays are removable for ease of splicing
- Heat-shrink fusion splicing of individual 250 μ m or 900 μ m tight-buffer fibers or mass fusion ribbon splicing for up to 144 fibers or 432 fiber respectively per deck
- Each tray accepts up to two 24-fiber molded or 72-fiber ribbon splice trays

INDUSTRY-LEADING DENSITY

One HDX Frame holds up to 22 patch decks, and occupies only one 2 x 2-foot floor tile.

BUILT-IN CABLE MANAGEMENT & ROUTING

The frame keeps pathways clean and organized, using integrated cable management for minimum bend radius, better slack storage, and protection within the frame.

SUPERIOR SCALABILITY

HDX frames can be ganged together to handle future growth with easy pass-through cross-frame routing kits. And with 24-fiber MTP connectivity, they are ideal for migration from 10 to 40 to 100 Gb/s and beyond.

EASY ACCESSIBILITY

The frame's open design greatly reduces time and labor for maintenance, as it allows unobstructed access to patch cord connections. The one-tile footprint makes it easier to access the space beneath a raised floor.

ROI™ Savings Calculator

By reducing overall floor space, the HDX Fiber Distribution Platform creates significant yearly cost savings over a traditional main distribution area. Calculate your return on infrastructure investment (ROI) when installing the HDX Frame, and estimate your long-term savings over standard 19" cabinets or racks. Go to apps.leviton.com/hdxcalsculator.

SDX Platform

72 LC Fibers Per RU

The SDX Platform, part of the Opt-X™ family of fiber optic solutions, is a flexible solution designed for easy installation and maintenance. Whether it's the 2000i for data centers or 1000i and 500i for medium and small enterprise applications, each comes packed with features for better cable organization and maintainability. In addition, precision-molded SDX adapter plates, MTP® cassettes, and cable assemblies offer the flexible connection and storage options to meet any project need.

2000i SDX RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, MTP® cassettes, splice trays, and splice modules
- Removable transparent hinged doors
- Sliding tray provides accessibility to front and rear of bulkhead after installation, and removes completely to facilitate field terminations and splicing
- 17-inch depth for high-density fiber termination and/or splicing
- Stackable and adjustable fiber rings simplify cable management
- Constructed of durable polycarbonate plastic and black powder-coated 16-gauge steel
- 19- or 23-inch rack-mount options (23-inch 1RU mounting bracket sold separately)
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher density applications using HDX MTP Cassettes and Adapter Plates

RECOMMENDED APPLICATIONS:

Data Centers

Equipment Room

Entrance Facility

Telecommunications Room

19" and 23" Racks and Cabinets

1000i SDX RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, MTP® cassettes, splice trays, and splice modules (pages B23-B25)
- Sliding tray in 1RU and 2RU removes completely for easy field terminations and splicing
- 15-inch depth for high-density fiber termination and/or splicing
- 19- or 23-inch enclosure rack-mount option (23-inch 1RU mounting bracket sold separately)
- Enclosures protrude 4.5 inches from mounting ears to align with Versi-Duct™ Cable Management System
- Included accessory kit consists of cable ties, mounting-ear screws, and port ID label
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher density applications using HDX MTP Cassettes

RECOMMENDED APPLICATIONS:

SPOTLIGHT

Fiber Optic Patching: Open vs. Closed Environments

The choice of open patching using patch panels or closed patching in enclosures depends on a number of considerations related to the particular network environment and applications including:

- Network security requirements
- Accessibility for ease of deployment or maintenance
- Frequency of moves, adds, and changes (MACs)
- Protection for field terminations and splicing

Leviton has a wide range of open and closed fiber patching systems. From the HDX platform to the e2XHD Snap-In Cassette Patching Platform to the SDX platform, we have a solution for your network's unique needs.

SDX WALL-MOUNT ENCLOSURES

- Four sizes available (mini, small, medium, large) to accommodate from 24 LC to 288 LC fibers
- Locking doors and dual-door access to separate user and service sides (locks sold separately)
- Cable and cord protection simplifies dress-out and protects damage/pinching
- Field splicing options include both splice trays and self-contained splice modules
- Mini mounting options: wall-mount, DIN rail, zero-RU, ganging, or cubicle wall installations
- Large size can be retrofitted to allow for up to 576 single fiber fusion splicing or up to 1,728 ribbon mass fusion splicing
- Optional adapter allows enclosures to accommodate both Leviton SDX and HDX patching platforms
- Accepts 6 copper ports using Quickport Adapter Plate, 5F100-6QP

See page B23 for list of SDX adapter plates.

Mini SDX Enclosure (LC adapter plate, pigtails, and cable sold separately)

Small SDX Enclosure (LC adapter plate, pigtails, splice tray, and cable sold separately)

SPOTLIGHT

High-Density Splicing with the SDX Wall-Mount Enclosures

The **Large SDX Wall-Mount Fiber Enclosure** is an ideal housing for high-density splicing in entrance facilities and equipment rooms, and it can be retrofitted in the field as a splice only enclosure. It can accommodate up to 1,728 fibers when mass ribbon fusion splicing, and up to 576 fibers with single fusion splicing.

SDX PLATFORM | Adapter Plates

SDX ADAPTER PLATES

- Work with SDX Enclosures, including 2000i, 1000i, 500i, and wall-mount
- Captive push/pull fasteners allow for quick, tool-free installation and removal
- Precision-molded LC and SC adapter plate colors designate fiber type, per TIA standards
- Available in 6- to 24-fiber plates for LC, SC, and ST
- Available in 72- to 192-fiber plates for MTP®
- MTP and LC adapter plates with shutters available by custom order
- 6-position QuickPort™ Adapter Plates (item Q) accept all QuickPort Jacks and Adapters

SPOTLIGHT

SDX Precision-Molded Adapter Plates

Traditional adapter plate construction typically uses independent couplers inserted in a metal plate that often results in a “rattling” of components. Leviton SDX Adapter Plates eliminate rattling and loose-fitting adapters by using precision molding and integrated adapters, improving the overall performance, functionality, and quality of construction. All multimode and single-mode SDX plates feature zirconia ceramic sleeves, providing high performance and low insertion loss (recommended for applications requiring 10 Gb/s and higher).

A

B

SDX Cassette MTP-LC Shuttered Single-Mode

SDX MTP CASSETTES

- Plug-n-play cassettes eliminate the need for field termination or splices
- Bend-insensitive fiber used in OM3/OM4 cassette
- All premium 12-fiber Base 12 MTP cassettes use low-loss MTP connectors
- Low insertion loss of 0.5 dB maximum
- 100% factory tested with test results included with each cassette
- LC internal shutters minimize dust and provide eye protection
- Universal polarity design, works in conjunction with Method B trunks

SDX CASSETTES, COMMON CONFIGURATIONS

DESCRIPTION	PART NO.

PRECISION-MOLDED SPLICE TRAYS

- 12-fiber mini and 24-fiber high-density splice trays
- Protect and manage heat-shrink-style spliced fibers
- Heat-shrink splice sleeves included
- Ratchet-action clamps with foam-rubber padding minimize damage to fibers
- Compatible with Leviton SDX 2000i and 1000i Enclosures, SDX and LightSpace™ Wall-Mount Enclosures
- 24-fiber splice tray (T5PLS-24F) compatible with HDX frame splice deck
- 12-fiber splice tray compatible with Leviton network interface devices (NIDs); when stacking splice trays, only use lids on top tray

SDX 12- & 24-FIBER SPLICE MODULES

- Integrate fiber adapter bulkhead (12 or 24 fibers) and splice holders, eliminating the need for splice trays
- Individual compartments provide slack storage and bend radius guides for respective backbone cable, 900 µm tight-buffer pigtails, and fusion-spliced fibers
- Modular design allows for ease of maintenance of individual spliced fiber and allows for scaling up without impacting existing fibers

SPLICE TRAYS

DESCRIPTION	PART NO.
[A] 12-Fiber Molded Splice Tray, 3.74" W x 5.59" L x 0.56" H (includes 14 heat-shrink splice sleeves)	T5PLS-12F
12-Fiber Metal Splice Tray, 4" W x 7" L x 0.35" H, heat shrink (plastic)	T47HS-P06
12-Fiber Metal Splice Tray, with standoff 4" W x 7" L x 0.57" H, heat shrink (plastic)	5T000-00T
[B] 24-Fiber Molded Splice Tray, 4.5" W x 7.63" L x 0.50" H (includes 26 heat-shrink splice sleeves)	T5PLS-24F

SDX 12- & 24-FIBER SPLICE MODULES

[D] 12-Fiber, LC (includes splice sleeves)*	SPLCS-12x
24-Fiber, LC (includes splice sleeves)*	SPLCS-24x
[E] 12-Fiber, SC (includes splice sleeves)*	SPSCS-12x

x = OM3 (A), OM4 (4), OS2 (L), APC OS2 (V)

Note: Splice tray mounting hardware sold separately except as noted.

SPOTLIGHT SDX Fiber Splice Modules

SDX 12- and 24-Fiber Splice Modules protect and organize heat-shrink fusion-spliced fibers inside a fiber enclosure. Splice modules eliminate the need for individual splice trays within a fiber enclosure and provide optimal organization and slack management of fibers. Plus, the modular design enables faster field splicing and simple management of pigtails within the housing.

UNIVERSAL CABLE CLAMP KITS

- Minimize excessive pulling, bending, and crushing
- Enclosure-mount kits make cable identification easy and decrease need for tie-wraps inside enclosure
- Rack-Mount Kit ideal for vertical strain relief and strain relief at top or bottom of rack
- Compatible with UHDX and SDX rack-mount enclosures

SDX ENCLOSURE CABLE MANAGEMENT

- Fiber Cable Management Rings secure fiber slack; come in kit of four quarter-round rings
- Patch Cord Management Trays route and organize cables
- Trays mount directly to enclosures and do not require additional rack space

HDX RETROFIT TRAY & HDX-TO-SDX ADAPTER BRACKET

- Retrofit trays allow upgrade of SDX enclosures to accept HDX cassettes and adapter plates
- Trays allow for up to 96 LC fibers per RU
- Tray available for 1RU and 2RU 2000i and 1000i SDX enclosures
- HDX-to-SDX Adapter Bracket upgrades SDX Enclosures to accept two HDX cassettes per bracket

UNIVERSAL PATCH CORD CABLE MANAGERS

- 0RU cable managers transition patch cords from horizontal to vertical pathway
- 1RU and 2RU cable managers provide protection and routing of patch cords for flat panels

SPOTLIGHT Patch Cord Management Tray

Patch Cord Management Trays help route and organize cables on Leviton flat panels and 500i SDX Enclosures. The trays feature identification labels and front saddles that pivot for easier routing. Because they mount directly to the front of the enclosures, they do not require additional rack space. Available in 1RU and 2RU sizes, the trays can be used with any Leviton 1RU flat panel or 500i SDX Enclosure, and 2RU trays can be used with 3RU 500i SDX enclosures.

SPOTLIGHT

Cable Clamp Kits

Cable clamp kits minimize excessive pulling, bending, and crushing forces on cable. The Enclosure-Mount Universal Clamp Kit makes it easy to identify cables and decreases the need for tie-wraps inside the enclosure. The kit also creates a transition point from jacketed cable to buffered fiber or subunits. The Rack-Mount Universal Clamp Kit is ideal for vertical strain relief and strain relief at the top or bottom of a rack/cabinet. Use it for installations with minimal vertical cable pathways and little space for an enclosure-mount cable clamp kit.

e2XHD Snap-In Cassette Patching Platform

The e2XHD Copper and Fiber Patching Platform is an easy-to-connect, high-density solution for enterprise and data center applications, where fast deployment and simple maintenance are critical. The system includes 1RU high-density panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the panels, making installation, moves, adds, and changes easier than ever. **For copper cassettes, see page A13.**

e2XHD SNAP-IN CASSETTE PATCHING PLATFORM | Introduction

e2XHD
Patching Platform

FIBER

e2XHD HIGH-DENSITY PATCH PANELS

High-density panels allow patching for up to 48 duplex fiber channels in a 1RU panel.

e2XHD MTP-MTP Pass-Through Cassette

e2XHD MTP-MTP Fiber Cassette, Core

e2XHD FIBER CASSETTES

Fiber MTP® Cassettes provide a simple migration path to 40 or 100 Gb/s networks. The cassettes are pre-terminated and available in 12 or 24 fibers, OM3, OM4, or OS2 single-mode.

The e2XHD Fiber Cassette features an MTP adapter that swivels to three positions for easier cable routing. Used in conjunction with the patching system's rear cable manager and cable management rings, the adapter delivers an ideal solution for eliminating cable tension and ensuring proper bend radius.

e2XHD SNAP-IN CASSETTE PATCHING PLATFORM | Panels, Cable Managers, Covers & Tools

HIGH-DENSITY PANELS

- Allows for UTP, shielded, and fiber in the same panel
- 1RU panels hold up to 8 single-height fiber cassettes (48 fiber channels)
- Alignment tabs on panels ensure upright insertion of cassettes
- Mount on standard 19-inch racks or cabinets

ANGLED PANEL COVER

- Uses no additional rack space
- Minimizes dust and debris behind panels
- Attaches directly to e2XHD Angled Panel
- Can be retrofitted after panel is installed
- Can be used for top and bottom of panels

REAR CABLE MANAGERS

- Support both fiber and copper cables
- Cable management rings included to help manage and route incoming fiber cables
- Multiple tie down points for VELCRO® Brand ties
- Optional Clamp Kits available to provide cable strain relief for incoming cables
- Flat Panel Manager mounts to rack or cabinet; screws included
- Angled Panel Manager attaches directly to panels

FIBER CASSETTES

- Easy to migrate from 10 to 25, 40 and 100 Gb/s when used with Opt-X™ Unity Ultra Low Loss trunks, harnesses, and patch cords
- Used exclusively with e2XHD panels
- Available in MTP-MTP or MTP-LC
- Available in Base 8, Base 12, Base 24 in OM3, OM4, OS2
- MTP® adapter swivel allows for easy cable routing and proper bend radius
- QuickPort™ MTP-LC Cassette uses QuickPort modular fiber adapters; can be removed with QuickPort Connector Removal Tool
- All cassettes use either 24-fiber or 12-fiber low-loss MTP connectors
- Conversion cassettes for 40 to 100 Gb/s channels connecting QSFP+ to SFP+ transceivers, or 120G to 10G channels connecting MXP ports to SFP+ transceivers
- LC internal shutters minimize dust and provide eye protection
- Universal polarity design, works in conjunction with Method B trunks

LightSpace™ Platform

Leviton offers a wide range of enclosures designed to protect, manage, and organize fiber splices across various indoor and outdoor environments. Specifically designed to meet the requirements of service providers large and small, LightSpace enclosures are ideal for central-office, outside-plant, and fiber-to-the-premises applications.

KEY FEATURES

- Constructed of high-strength aluminum, powder-coated central-office white
- Mounts on standard 19- and 23-inch racks and cabinets
- Accepts LightSpace adapter plates (see page B36)

C

LIGHTSPACE NETWORK INTERFACE DEVICES (NIDS)

- 3500 and 502H models have upper-hinge doors
- 530 model has a left-hinge door
- 502H and 3500 models have padlock provision for added security
- Accepts LightSpace adapter plates (see page B36)
- Accepts 12-fiber molded splice tray T5PLS-12F
- Ideal for MDUs or single-family home environments

RECOMMENDED APPLICATIONS:

- Demarcation Point
- Telecommunications Room
- Equipment Room
- Wall Mount

METAL SPLICE TRAYS

- For heat shrink splices
- Mounting holes with space blocks prevent fiber damage
- Compatible with SDX and LightSpace™ enclosures
- Splice tray selector is available online at Leviton.com/configurator
- Heat-shrink fusion-splice sleeves sold separately
- T6XRB-40Q can also be mounted in SDX Wall Mount Enclosures

For assistance ordering your splice trays, visit Leviton.com/configurator or call Tech Support at (800) 824-3005.

Pre-Terminated Cable Assemblies

Simplify fiber connection and termination with Leviton cable assemblies. Choose from a wide selection of patch cords, and take advantage of our Opt-X™ Unity Ultra Low Loss assemblies to future-proof your critical networks. Pre-terminated trunk cables and harnesses, plus multimode, single-mode, and pigtail assemblies are all made to customer specifications. Choose cable type, connector combinations, length, mode, and more. **Configure online at [Leviton.com/configurator](https://leviton.com/configurator).**

PRE-TERMINATED CABLE ASSEMBLIES |

Pre-Terminated Trunk Cables > Opt-X™ Unity Ultra Low Loss

OPT-X UNITY ULTRA LOW LOSS PRE-TERMINATED TRUNK CABLES

- Multimode and single-mode MTP-to-MTP trunk cables support 40 to 100, 200, and 400 Gb/s speeds
- MTP connectors available for Base 8, Base 12 and Base 24 configurations
- Migration solution to 40, 100, 200, and 400 Gb/s from existing 10 Gb/s networks
- Up to 70% faster install than field-terminated trunks
- MTP polarity options are TIA methods A, B, or C (Method B is standard)
- 100 percent factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order

SPOTLIGHT Multimode Migration Path to 40, 100, 200, and 400Gb/S

Leviton pre-terminated MTP solutions offer an ideal migration path from 10 or 25 to 40 and 100 Gb/s channels. The Opt-X Unity — Ultra Low Loss system features MTP trunks, harnesses, array cords, adapter plates, and cassettes to help future-proof your networks. The Opt-X Unity — Ultra Low Loss system is fully compatible with UHDX, HDX, SDX, and e2XHD (shown) footprints.

10G or 25G
Leviton components for a 10 or 25 Gb/s channel include MTP-LC SDX, e2XHD, or HDX cassettes, and LC duplex patch cords.

40G
Migration from 10 or 25 to 40 and 100 Gb/s system replaces LC with MTP components, such as 2x12-fiber to 3x8-fiber MTP cassettes and 8-fiber MTP array cords.

100G
Moving from 40 to 100 Gb/s replaces MTP cassettes with MTP adapter plates and uses 24-fiber MTP array cords.

SPOTLIGHT

Pulling Eye

For assistance customizing your Opt-X Unity Ultra Low Loss trunks, please visit Leviton.com/configurator or call Tech Support at (800) 824-3005.

Heavy-duty high-tensile load option used for 125 feet and more

The pulling eye protects fiber connectors on 12- through 144-fiber trunk cables. It completely covers the breakout length, transferring any pulling force from the assembly to the pulling eye sleeve. Customers can specify which end to have the pulling eye installed.

Also available: Reduced diameter design when pulling through tight spaces

PRE-TERMINATED CABLE ASSEMBLIES |

MTP® Array Harnesses > Opt-X™ Unity Ultra Low Loss

OPT-X UNITY ULTRA LOW LOSS MTP ARRAY HARNESSES

- For use in attaching directly to 40 and 100 Gb/s transceivers
- Pre-terminated MTP-to-MTP connectors in laser-optimized multimode and single-mode fiber
- Custom short-length cable for cabinet/rack patching
- Custom staggering available
- MTP polarity options are TIA method A, B, or C (Method B is standard)
- Used in conjunction with MTP brackets (Zero-U) or adapter plates
- 100 percent factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order
- Color-coded boots

NOTE: Per IEEE802.3ba

OPT-X UNITY ULTRA LOW LOSS 1-TO-4 CONVERSION FIBER HARNESSES

- Available with multimode or single-mode fiber for channels connecting QSFP+ to SFP+ transceivers
- Breakout 40G and 100G switch ports
- Uses bend-insensitive fiber; lowers risk for pinched cables
- Available with optional reversing polarity LC Uniboot
- Ultra low loss MTP connector performance
- Includes options for HDX and e2XHD systems

SPOTLIGHT

LC Unibody

New LC Unibody duplex fiber connectors offer better network manageability, simplified polarity reversal, and low insertion loss performance — saving on time and money.

The low-profile connectors have one of the smallest LC designs available, making it ideal for high-density areas with congested patching. They include an easy-grip puller that makes installation and MAC work easy and removes risk of disturbing adjacent mated connectors. The design ensures precise alignment for easy “first try” insertions.

Polarity reversal can be accomplished on site in just seconds without twisting internal fibers or opening the connector. And polarity indicators clearly show when the polarity has been reversed.

PRE-TERMINATED CABLE ASSEMBLIES | MTP® Array Cords > Opt-X™ Unity Ultra Low Loss

OPT-X UNITY ULTRA LOW LOSS MTP ARRAY CORDS

- Available in laser-optimized multimode and single-mode fiber
- 8-, 12-, and 24-fiber MTP array cords offer migration path from 10 to 40, 100, 200, and 400 Gb/s networks
- Available in lengths of 1, 2, 3, 5, and 10 meters
- See page B8 for Opt-X Unity — Ultra Low Loss system overview
- Multimode insertion loss: 0.2 dB per 8- and 12-fiber mated pair, 0.35 dB per 24-fiber mated pair

OPT-X ENTERPRISE DC LOW LOSS MTP ARRAY CORDS

- An ideal solution for 10 Gb/s and faster network speeds
- Offered in 50/125 µm laser-optimized multimode OM3 and OM4
- 8- and 12-fiber array cords offer migration path from 10 to 40/100GbE
- All array cords use low-loss MTP connectors
- Insertion loss: 0.35 dB per mated pair

SPOTLIGHT

Conversion Harnesses

Conversion Harnesses connect to electronics with LC-style ports. Ideal for channels connecting QSFP+ and SFP+ transceivers, the harnesses can aggregate 10G ports to 40G ports and 25G ports to 100G ports. Available in OM3, OM4, and OS2, conversion harnesses feature a small diameter cable for dense connectivity and bend-insensitive fiber to lower the risk of pinched cables. Conversion cassettes are available in HDX and e2XHD footprints.

LC UNIBODY CONNECTOR WITH SPECTRO-LINK™ TECHNOLOGY

Premium Ferrule Alignment | Precise Insertion and Extraction
Simple and Safe Polarity Changes | Low Profile Design

The LC Unibody Connector with Spectro-Link™ Technology is designed to make installation and MAC work easier, cleaner, and higher performing. It provides network reliability and superior optical performance, efficiency in MACs, ease of polarity reversal, and low insertion loss performance. The connector is ideal for deployment in high density applications and mission-critical networks demanding the highest level of performance and reliability. Spectro-Link Technology is available on pre-terminated trunks, harnesses, and Premium Plus patch cords.

Easy-grip puller makes **installation, removal, and MAC** work easy and removes risk of disturbing adjacent mated connectors.

Patented **A and B polarity indicators** clearly show when the connector's polarity has been reversed.

Patented **polarity reversal** ferrule assemblies stay fixed in place while the latching front bodies rotate independently, assuring fibers are not moved or twisted.

Premium ceramic ferrules provide **lower insertion loss** while allowing extended reach and multi-connection channels.

Airtight dual sealing **duplex protective caps prevent** contamination, preserving the pristine clean from the factory up to usage.

Low profile height improves access and **manageability in high density applications**, and compact 2.2" length minimizes congestion in horizontal patching.

Beveled leading edges and unibody housing help guide connector into hard-to-see ports on the first attempt.

Bend control fiber boot serves as an omnidirectional shock absorber in the shortest length necessary to protect fibers from damage.

PREMIUM PLUS PATCH CORDS

- Available in standard SC, ST, LC, or hybrid options
- Plenum, and Low-Smoke Zero-Halogen (LSHF/LSZH) cable options available
- ≤ 0.25 dB insertion loss, > 25 dB return loss for multimode
- ≤ 0.25 dB insertion loss, ≥ 50 dB and 50 dB (UPC) / 60 dB (APC) return loss for single-mode
- LC Unibody connector option features reversing polarity and low loss performance
- Polarity reversal LC connector option
- 100 percent factory tested
- Made to order with quick-turn delivery
- COO: USA

TIGHT-BUFFERED PREMISES DISTRIBUTION INDOOR/OUTDOOR CABLES

- Designed for LAN/WAN campus and building backbone cabling infrastructure
- Suitable for outside plant installation in conduit below the frost line (non-aerial lashed)
- Enables installations from outside plant into building with no transition point requirement
- Flexible, small-diameter, 900 µm tight-buffered, all dielectric construction
- High tensile strength, crush-resistant, and small-diameter all dielectric design
- Ready for direct termination, no fan-out kits are needed
- Available with Armor-Tek™ Interlocking Armor
- Fully water-blocked core or subunits using all dry technology
- Fungus and sunlight resistant
- Low cable plant maintenance and ease of installation
- Flexible, reduced cable diameter with easy access to tight buffered fibers
- Suitable for in-tray applications
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 2-144 fiber construction designs

TIGHT-BUFFERED PREMISES DISTRIBUTION CABLES

- Designed for plenum and riser environments, including horizontal and interbuilding backbone structures
- Flexible, small-diameter, 900 µm tight-buffered, all dielectric construction
- High tensile strength and small-diameter design
- Cost-saving design, easy to install and terminate
- Allows for mix and match of fiber components to specific networking applications
- Available with Armor-Tek™ Interlocking Armor
- Suitable for conduit or in-tray applications
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 6-144 fiber construction designs

A

TIGHT-BUFFERED PREMISES DISTRIBUTION HARSH ENVIRONMENT CABLES

- Used inside or between buildings or industrial environments where corrosive chemicals, fuels, or vapors may be present
- For use in airports, automotive plants, and other harsh industrial petrochemical environments
- Plenum grade thermoplastic jacket, resistant to corrosive chemicals, fuels, and de-icing agents
- Suitable for installation in conduits, ducts, or cable trays
- Flexible, small diameter, 900 µm tight buffered construction
- High tensile strength and small diameter design
- Available with Armor-Tek™ Interlocking Armor
- Cost-saving design, easy to install and terminate
- Provides for greater pulling distances, reducing installation time
- Allows for mix and match of fiber components to specific networking applications
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 6-144 fiber construction designs ideal for horizontal and backbone installation

B

TIGHT-BUFFERED INTERCONNECT CABLES

- Designed for installation in plenum or riser environments including horizontal and patch cord applications
- Space-saving design allows for dense patchcord cable installations
- Flexible, small-diameter, 900 µm tight-buffered construction in the ICP Series
- Microconnect reduced diameter cables available with 600 µm tight buffered fibers
- High tensile strength and small-diameter design
- Cost-saving design, easy to install and terminate
- Allows for mix and match of fiber components to specific networking applications
- Suitable for conduit or in tray installations
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode

TIGHT-BUFFERED HEAVY DUTY BREAKOUT CABLES

- Designed for installation in horizontal and other harsh environments where additional strength and fiber protection are required
- High tensile strength, crush resistant
- All-dielectric construction or Aluminum interlock armored designs available
- Water-blocked indoor/outdoor and harsh environment designs available
- Ease of installation
- Allows for mix and match of fiber components to specific networking applications
- Suitable for conduit or in-tray installations
- Low cable plant maintenance
- Armor option adds crush resistance and protection from rodent attacks
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 2-36 fiber (plenum rated) and 2-48 (riser rated) count available

CUSTOMERS IN CANADA can find additional fiber cable options on page B64.

LOOSE TUBE ADVENTUM™ INDOOR/OUTDOOR CABLES

- Place anywhere in a network, bypassing the traditional transition points required in most installations, saving significant cost over traditional OSP cables
- Plenum rating enables direct installation from outside plant to riser shaft with no transition points
- Cable core and buffer tubes use dry water-blocking technology
- Interlocking armor designs available
- No cleaning of gels required for installation, greatly reducing installation time and cost
- System grounding requirements are eliminated (for non-armored versions)
- Suitable for conduit or in-tray installations
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 6-432 fiber count available

LOOSE TUBE ADVENTUM INDOOR/OUTDOOR HARSH ENVIRONMENT CABLES

- Plenum-Rated Indoor/Outdoor Harsh Environment cable designed for LAN/WAN campus, building backbones, and industrial environments
- Harsh Environment (HE) chemical resistant jacket
- UV resistant outer jacket protects the cable in outside plant installations
- Install directly from outside plant to riser shaft or through plenum spaces without transition points
- Interlocking armor designs available
- Used inside or between buildings or industrial environments where corrosive chemicals, fuels, or vapors may be present
- Dry water-blocked, plenum-rated, flexible loose tube design of all dielectric construction allows for installation in any outside plant or interior space
- No cleaning of gels required for installation, greatly reducing installation time and cost
- System grounding requirements are eliminated (for non-armored versions)
- Suitable for conduit or in-tray installations
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 6-432 fiber count available

CUSTOMERS IN CANADA can find additional fiber cable options on page B64.

LOOSE TUBE OUTSIDE PLANT CABLES

- Designed for installation in demanding environments such as aerial lashing, conduits, and pathways that are subjected to wide temperature variations
- Gel-filled loose tubes
- Suitable for outside plant in conduit, aerial lashing, and cable tray installations
- Fully water-blocked core using dry water-blocking technology
- Armored designs available for rodent resistance and direct burial installations
- High tensile strength, crush-resistant and small-diameter design allows for installation in small spaces
- Provides for greater pulling distances, reducing installation time
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 6-432 fiber count available

LOOSE TUBE DRY OUTSIDE PLANT CABLES

- Dry core, designed for installation in outdoor environments such as aerial lashed, conduits, and pathways that are subjected to wide temperature variations
- Suitable for outside plant, in conduit, aerial lashing, and cable tray installations
- Fully water-blocked cable using dry water-blocking technology
- High tensile strength, crush-resistant, and small diameter design
- Provides for greater pulling distances, reducing installation time
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- Up to 288 fiber count available

LOOSE TUBE DRY OUTSIDE PLANT ARMORED CABLES

- Armored dry core, designed for installation in demanding outdoor environments such as aerial lashed, direct burial, conduits, and pathways that are subjected to wide temperature variations
- Recommended for outside plant in conduit, direct burial, aerial lashing, and cable tray installations
- Fully water-blocked cable using dry water-blocking technology
- Corrugated steel armor provides rodent resistance
- High tensile strength, crush-resistant design
- Provides for greater pulling distances, reducing installation time
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- Up to 288 fiber count available

LOOSE TUBE DATA CENTER CABLES, PLENUM RATED

- Revolutionary data center Plenum cables with 1.9 mm micro buffer tubes, designed for high density plenum rated environments
- 1.9 mm space-saving buffer tubes house fibers and aramid strength yarns
- Smallest cable diameter for maximum density applications
- High density, all dielectric design
- Suitable for conduit or in-tray applications
- System grounding requirements are eliminated (for non-armored versions)
- Available with Armor-Tek™ Interlocking Armor
- Optimized access ease with simple, off-the-shelf tools
- No cleaning of gels required for installation, greatly reducing installation time and cost
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- 288 fibers maximum with either 8F or 12F subunits

**INDOOR/OUTDOOR LSZH RISER — FLEX RIBBON**

- Features a flame retardant outer jacket and 12-fiber flexible ribbons constructed of 250 μ m color-coded optical fiber for easy fiber identification
- Flexible ribbon construction is designed to both pack densely in small form factor cables and transform quickly, by hand only, to splice-ready form for rapid 12-fiber ribbon splicing
- This Low Smoke Halogen Free cable is designed for use in such areas as subway systems and tunnels
- Each ribbon is identified with a unique identification number and code, printed on the ribbon surface
- Offered in single-mode optical fiber
- Up to 1,728 fiber count riser available

**INDOOR FLAT RIBBON CABLES**

- Ribbons use a peelable protective UV cured acrylate coating
- Ribbons are easily separated for single fiber splicing if needed
- Easily interfaced to MT and MPO based connectors, as well as today's newest ribbon connectors
- Two layers of flexible strength members
- Cable design offers excellent mechanical performance with superior crush and flex ratings
- Mass fusion splicing ribbon cable enables faster project completion and reduced labor costs
- Aluminum interlock armored designs available
- Armor option adds crush resistance and is a cost effective alternative to innerduct
- Offered in OM3, OM4, and single-mode
- Up to 432 fiber count plenum, up to 864 fiber count riser available

Leviton's Berk-Tek Fiber Optic Cable part numbers are composed of two basic units, the Cable Prefix and the Fiber Suffix. Throughout this catalog, fiber part number prefixes for each cable type are listed in the second column of the Technical Data tables. To accurately build your fiber

Leviton's Berk-Tek Fiber Optic Cable part numbers are composed of two basic units, the Cable Prefix and the Fiber Suffix. Throughout this catalog, fiber part number prefixes for each cable type are listed in the second column of the Technical Data tables. To accurately build your fiber part number, select the correct prefix and suffix.

COMPOSITE INDOOR/OUTDOOR CL3-OF CABLES

- Superior composite cable design combines optical fiber bandwidth with power for IP cameras or media converter via power conductors
- Available with up to 12 fibers and solid 12 AWG conductors
- CL3P/PLTC-OF or CL3R/PLTC-OF, Indoor/Outdoor dry water-blocked designs
- Enables Class 2 and Class 3 power to be located further away than typically allowed, such as PoE sourcing equipment being located more than 100 meters from the closet
- Cost savings versus installation of a new electrical outlet
- CL3P/PLTC-OF or CL3R/PLTC-OF allows cable to be installed in communication pathways, trays, and conduits
- Ease of installation
- Aluminum interlock armored designs available
- Armor option adds crush resistance and is a cost effective alternative to innerduct
- Allows for mix and match of copper conductors and fiber components for specific networking applications
- Immune to EMR/RFI
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode

ARMOR-TEK™ INTERLOCK ARMOR TIGHT BUFFER PREMISES DISTRIBUTION INDOOR/OUTDOOR CABLES

- Jacketed armor remains flexible due to the spiral wrap armoring process
- Easy one-pull installation into any environment
- Compact outside diameters when compared to innerduct or conduit
- Available in tight buffered or loose tube and composite copper and fiber designs
- Aluminum interlock offers 4 to 8 times the crush resistance of a standard dielectric fiber cable
- Eliminates the need for conduit or innerduct
- Significant cost savings in both materials and labor - up to 25%
- Accommodates last minute relocations or pathway changes
- Provides a higher concentration of cables in an area than conduit
- Rugged armoring materials provide additional security for the fiber backbone
- Suitable for tray installations
- Offered in OM1, OM3, OM4, OM4+, OM5, and single-mode
- Up to 432 fiber count available

OPTICAL CABLES | Tight-Buffered (for Canadian Market)

TIGHT-BUFFERED PREMISES DISTRIBUTION INDOOR/OUTDOOR CABLES

- Designed for LAN/WAN campus and building backbone cabling infrastructure
- Suitable for outside plant installation in conduit below the frost line (non-aerial lashed)
- Enables installations from outside plant into building with no transition point requirement
- High tensile strength, crush-resistant and small-diameter all dielectric design
- Ready for direct termination, no fan-out kits are needed
- Fully water-blocked core or subunits using all dry technology
- Fungus and sunlight resistant
- Greater pulling distances possible due to high tensile strength
- Low cable plant maintenance and ease of installation
- Flexible, reduced cable diameter with easy access to tight buffered fibers
- Suitable for in-tray applications
- Offered in OM3, OM4, and single-mode
- 6, 12, and 24 fiber (plenum rated) construction design

TIGHT-BUFFERED INTERLOCK ARMOR PREMISES DISTRIBUTION INDOOR/OUTDOOR CABLES

- Jacketed armor remains flexible due to the spiral wrap armoring process
- Easy one-pull installation into any environment
- Compact outside diameters when compared to plenum innerduct or conduit
- Aluminum interlock offers 4 to 8 times the crush resistance of a standard dielectric fiber cable
- Eliminates the need for conduit or plenum innerduct
- Significant cost savings in both materials and labor - up to 25%
- Suitable for hazardous environments or difficult installations
- Accommodates last minute relocations or pathway changes
- Provides a higher concentration of cables in an area than conduit
- Can be installed in campus environments due to the durability and indoor/outdoor rating of the cable
- Rugged armoring materials provide additional security for the fiber backbone
- Suitable for tray installations
- Offered in OM3, OM4, and single-mode
- 6, 12, and 24 fiber (plenum rated) construction design

FEATURED PRODUCTS

FastCAM
Connectors **B66**

Connectors & Housings

Leviton has everything you need to properly terminate your fiber network. FastCAM™ and Fast-Cure™ connectors are available in LC, SC, and ST styles. To extend fiber to the workstation, we also offer QuickPort™ footprint fiber adapters that fit into our standard wallplates and Multimedia Outlet System (MOS) housings. Go to the Wallplates & Housings section to see our extensive wallplate selection.

FASTCAM CONNECTORS

- Pre-polished, field-installable connectors
- Use precision zirconia ferrules
- Require no polishing or epoxy curing; provide immediate termination
- Precision mechanical termination uses molded v-groove technology to retain and align the fiber
- Terminated on 250 μ m or 900 μ m buffered fiber and/or 2 or 3 mm jacketed fiber
- Higher yields with Visual Fault Locator (VFL)-compatible LC, SC, and ST connectors
- Available in OM1, OM3, OM4, OS2 UPC, and OS2 APC (SC only)

SPOTLIGHT

Visual Fault Locator (VFL)

The Leviton Visual Fault Locator (VFL) uses a bright red laser to locate faults in optical fiber, such as bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors, a 1.25 mm adapter for LC connectors, and a soft carrying case. Use with LC, SC, and ST FastCAM connectors. The VFL is an ideal tool for first time users of FastCAM prepolish connectors, as it provides real-time visual feedback on success of fiber-to-fiber coupling just prior to activating the clamps.

See page B75.

FAST-CURE CONNECTORS

- Anaerobic adhesive-style, field-installable connectors
- Hand polishing required
- Most robust connection; ideal for inside and outside plant applications
- Available in LC, SC, and ST connector styles
- 900 µm and 3 mm boots included with SC and ST connectors

Leviton offers multiple reliable methods for field fiber connections. FastCAM pre-polished connectors provide precision mechanical fiber termination. No proprietary tools, no epoxy and no time-consuming hand polishing required, so installation takes just minutes. Fast-Cure epoxy connectors are reliable, cost-effective fiber optic connectors with robust, adhesive termination.

QUICKPORT FIBER ADAPTERS

- Snap into all QuickPort openings and Multimedia Outlet System (MOS) housings
- Tool-free plug-n-play installation
- Offered with precision phosphor bronze or zirconia ceramic alignment sleeve

FIBER OPTIC FAN-OUT KITS

- Protect bare fiber and prepare loose-tube cable for direct termination to industry-standard connectors
- Separate 250 μ m fibers and route into color-coded 900 μ m buffer tubes with no proprietary tools
- Available in 6- or 12-strand kits and 24- or 36-inch lengths
- Works with cabling from any manufacturer (will accommodate maximum buffer-tube diameter up to 3.5 mm)

RIBBON BREAKOUT KITS

- Designed to work with Berk-Tek™ Central Tube Ribbon Cables, either standard flat ribbon or the pliable ribbon design
- Using the breakout kit, the individual 12-count ribbons are broken out through the supplied transition housing and protected with the included oval shaped and color coded furcation tubing
- 31-inch furcation tubing, with ID of 1.6 x 3.6mm, and OD of 2.4 x 4.4 mm
- One 12-fiber ribbon per tube
- Terminates to MPO connector or spliced to MPO pigtail
- Color-coded furcation tubes for ribbon sequence identification
- Achieves extract length cable builds on-site in real-time without the risk of shorts and excess slack
- Furcation tubing contains aramid yarns
- Protects bare fiber optic ribbon
- Cuts time, material, and labor costs
- RoHS compliant

Cleaver **B75**

Tools & Consumables

Different termination technologies require unique tools. Leviton has everything you need to terminate Fast-Cure™ (adhesive polish) and FastCAM™ (pre-polished) connectors. We also offer cleaning tools for LC, SC, and MTP® connectors. Choose from complete kits, or mix and match individual tools and a wide variety of consumables.

VISUAL FAULT LOCATOR (VFL)

Quickly locate optical fiber damage with the Leviton Visual Fault Locator (VFL). The pocket-sized tool uses a bright red laser to locate faults, including tight bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors, a 1.25 mm adapter for LC connectors, and a soft carrying case. Use with FastCAM™ LC and SC connectors for enhanced terminations. The VFL is an ideal tool for first time users of FastCAM prepolish connectors, as it provides real-time visual feedback on success of fiber-to-fiber coupling just prior to activating the clamps. **See page B75.**

LEVITON 200X INSPECTION SCOPES

Reduce the chances of over-polishing with Leviton's high-powered inspection scopes. View single-mode and multimode end-face polishes safely with our oblique viewing technology. Full laser eye protection is provided through wavelengths of 850-1550 nanometers (nm). Rugged metal and rubber construction stands up to job-site abuse while offering an ergonomic grip. **See page B75.**

FASTCAM TERMINATION TOOLS

FastCAM terminations and fusion splicing both require precision cleaving. Get the accuracy you need with the cleaver. A cleave angle of 90 degree +/- .5 degree is guaranteed. The 16-position blade remains sharp through approximately 48,000 cleaves. Clean-up is eliminated with the built-in waste holder. For a self-contained workspace, mount the cleaver to the optional work tray and use the gooseneck LED for task lighting. The Leviton APC Angled Cleaver is required for APC single-mode FastCAM connectors. **See page B75.**

ONLINE TRAINING VIDEOS

Increase your expertise with Leviton's online fiber training. Step-by-step instructions on terminating FastCAM 250 μm or 900 μm fiber, using our fan-out kits, or terminating Fast-Cure™ connectors are all available with just a click of the mouse. All of Leviton's training videos feature clear, easy-to-understand images and instructions for maximum effectiveness. **Visit Leviton.com/ns/videos.**

FIBER OPTIC BASIC TOOL KIT

- Essential tool set for quick field-termination of multimode and single-mode Fast-Cure™ connectors
- Includes compact, lightweight case, inspection scope, polishing pad, standard 2.5mm and LC 1.25mm polishing fixture, fiber optic crimp tool, scissors, and jacket stripper

FIBER OPTIC FAST-CURE TOOL KIT

- All the tools you need for terminating multimode or single-mode LC, SC, or ST Fast-Cure adhesive connectors
- Includes compact, lightweight case, inspection scope, polishing pad, standard 2.5mm and LC 1.25mm polishing fixture, LC scope adapter, fiber optic crimp tool, safety glasses, scissors, jacket stripper, and music wire

FIBER OPTIC FASTCAM™ TOOL KIT

- Precision cleaving for guaranteed FastCAM connector performance
- Includes Opt-X fiber cleaver, Opt-X work tray, Opt-X flex LED light, fiber jacket stripper, lint-free wipes, and alcohol moistened cleaning wipes

Consumables sold separately. See page B76.

UNIVERSAL CONSUMABLES KIT

All the basic supplies needed to clean and polish fiber optic connectors. Set includes:

- 50 lint-free dry wipes
- 50 alcohol pads
- 30 sheets 12 μ m lapping film
- 30 sheets 3 μ m lapping film
- 30 sheets 0.3 μ m lapping film
- Piano wire

ADHESIVE/ACCELERATOR KIT

Sufficient supplies for approximately 200 terminations. Set includes:

- Loctite 680 adhesive
- Loctite 7649 accelerator with syringe
- Two needles

FAST-CURE™ CONSUMABLES KIT

Everything from the Universal Kit, plus specialized supplies for approximately 200 Fast-Cure terminations. Additional included items:

- 25 syringes
- 25 needles
- Adhesive and accelerator

FAN-OUT CONSUMABLES KIT

Kit terminates a minimum of 10 Fiber Optic Fan-Out Kits.

Set includes:

- 20 lint-free dry wipes
- 10 alcohol pads
- 10 D'Gel® packets
- Sealant
- Talc powder

A collage of industrial Ethernet components. At the top, a thick teal cable is coiled. Below it, an orange banner contains the text "INDUSTRIAL ETHERNET SOLUTIONS". The background features several other components: a black cable with a large black RJ45 connector, a metal panel with four ports (two with black caps, one with a blue RJ45 port, and one with a black cap), and various other connectors and cables in teal and black. The overall theme is industrial networking solutions.

- C7** DuraPort™ Industrial Connectivity
- C9** Industrial Copper Cables
- C15** Field Installable Connectors
- C16** Pre-Terminated Patch Cords

OUTDOOR CAMERA OR WIRELESS ACCESS POINT (WAP)

Have more versatility in where you place security cameras and protect your network connections with DuraPort™ Industrial connectivity. The system includes a robust water-tight seal provided by the jack housing, coupled with cable that withstands outdoor exposure to provide a reliable solution for your outdoor security and wireless access.

COMMERCIAL KITCHENS OR EXTREME CLIMATE EXPOSURE

The Internet of Things connects devices in areas not associated with reliable network connections. Industrial kitchens, tropical climates, outdoor areas, and even car washes offer services benefiting from a network connection. Protecting those network connections from the elements can be the difference between a satisfied customer and lost business. DuraPort systems provide a secure, water- and dust-tight wallplate and cable assembly to stand up to the harsh conditions found in locations from commercial kitchens to outdoor vending machine kiosks.

HEALTH CARE ENVIRONMENTS

Easy to connect and clean DuraPort industrial connectivity, coupled with best-in-class Atlas-X1 Cat 6A Shielded QuickPort™ Jacks give you the network performance you need in demanding health care environments. The DuraPort system protects data connections from dust and water intrusion, making it safe for procedure rooms, patient rooms and areas that require spray-down cleaning.

CONNECT WITH CONFIDENCE

Downtime is lost time. And lost time means lost profitability. In harsh and industrial environments, you need reliable, worry-free performance for your Control, Monitor and Process applications. Leviton Industrial Ethernet Solutions give you the confidence to make the connection by eliminating and minimizing risk, and ultimately achieving 100% uptime.

DURAPORT JACK HOUSING

- Twist-lock mating allows for easy installation and provides a robust seal
- Compatible with all Atlas-X1 and eXtreme™ QuickPort™ Jacks (sold separately)
- Captive cap with retainer protects and seals unused ports

DURAPORT STAINLESS-STEEL WALLPLATE

- Patented overmolded gasket on wallplates provides a watertight fit
- Safeguards network in severe conditions and resists moisture, dust, corrosion, acids, oils, and vibration
- Provides a complete seal without o-rings
- Compatible with standard NEMA boxes
- Help position and retain screws during installation

DURAPORT OUTLET KIT

- DuraPort components assembled for added convenience
- Kits include jack housing, jack cap, and stainless-steel wallplate
- Patch cords and QuickPort Jacks are sold separately

DURAPORT PATCH CORDS

- Available in industrial plug to industrial plug, and industrial plug to RJ-45 plug configurations
- Cat 6A shielded and Cat 6 UTP available in 3' to 50' lengths, black
- Compatible with Leviton heavy duty Weatherproof Boxes, available in single-gang (1GM53, 1GM73) and two-gang (2GM53, 2GM55, 2GM73, 2GM75) configurations

PROTECTION AGAINST SOLID OBJECTS

SPOTLIGHT

Connectivity for DIN Rail Mounting

The compact DIN Rail-Mount Box (41089-6DN) provides an ideal network patching solution for Cat 5e or Cat 6 cabling systems. The box accepts a Leviton QuickPort™ Decora™ Insert, available with 1, 2, 3, 4, or 6 ports. It allows for orientation of the cable access port at the top or bottom, increasing flexibility of cabling within a tight control enclosure.

For fiber cabling, you can use the Leviton SDX Mini Wall-Mount Enclosure (5WMNT-01C) for DIN rail mounting. The mini enclosure houses up to 24 fibers (LC), and can accommodate field terminated connectors, splicing, or pre-terminated fiber trunks and assemblies.

ZONE A CABLES: CAT 6A, CAT 6, CAT 5E

- 600 V AWM design for best electrical performance near machines and panels
- Easily transition from indoor to outdoor environments with CMR and CMX outdoor listing
- Sunlight Resistance II (720 hours) and Oil Resistance I (60°C)
- Weld Spatter resistance, abrasion resistance up to 75 cycles and pull tension up to 40 lbs.
- Comply with Low Voltage EU Directive 2014/35/EU, CE Approved, RoHS EU Directive 2011/65/EU, PoE 802.3bt (Type 1 [af], 2 [at], 3 and 4), ISO/IEC 11801, ODVA EtherNet/IP Compliant, ANSI/TIA-568.2-D, UL 444
- LANmark™-A750 Cat 6A Cable includes isolation wrap for UTP termination is suitable for cable tray installations

All Berk-Tek cables are suitable for tray installation. Berk-Tek fiber cables are available with Armor-Tek Aluminum for superior crush and rodent resistance. Direct Bury with corrugated steel available on Adventum I/O and Outside Plant All Dielectric.

BERK-TEK™ INDUSTRIAL COPPER CABLES | Zone B > Cat 6A, 6 & 5e

ZONE B CABLES: CAT 6A, CAT 6

- Superior performance with foil shielding
- 600 V AWM design for best electrical performance near machines and panels
- Sunlight Resistance II (720 hours) and Oil Resistance I (60°C)
- Weld Spatter resistance, Abrasion resistance up to 75 cycles and pull tension up to 40 lbs.
- Transitions well from indoor to outdoor environments with CMR and CMX outdoor listing
- Suitable for cable tray installations
- Complies with Low Voltage EU Directive 2014/35/EU, CE Approved, RoHS EU Directive 2011/65/EU, PoE 802.3bt (Type 1 [af], 2 [at], 3 and 4), ODVA EtherNet/IP™ Compliant, ISO/IEC 11801-1, ODVA EtherNet/IP Compliant, ANSI/TIA-568.2-D, UL 444

ZONE B CABLES: CAT 5E SOLID

- Fully compliant to Category 5e requirements
- 600 V AWM design for best electrical performance near machines and panels
- Oil Resistance II (75°C) and Sunlight Resistance II (720 hours)
- Rugged industrial design with Weld Spatter resistance and pull tension up to 40 lbs.
- Suitable for cable tray installations
- Complies with Low Voltage EU Directive 2014/35/EU, CE Approved, RoHS EU Directive 2011/65/EU, PoE 802.3bt (Type 1 [af], 2 [at], 3 and 4), ISO/IEC 11801-1, ODVA EtherNet/IP Compliant, ANSI/TIA-568.2-D, UL 444

ZONE B CABLES: CAT 5E STRANDED

- Fully compliant to Category 5e requirements
- 600 V AWM design for best electrical performance near machines and panels
- Oil Resistance I (60°C) and Sunlight Resistance I (300 hours)
- Installation pull tension up to 40 lbs.
- Transitions wells from indoor to outdoor environments with CMR and CMX outdoor listing
- Suitable for cable tray installations
- Complies with Low Voltage EU Directive 2014/35/EU, CE Approved, RoHS EU Directive 2011/65/EU, PoE 802.3bt (Type 1 [af], 2 [at], 3 and 4), ODVA EtherNet/IP™ Compliant, ISO/IEC 11801-1, ODVA EtherNet/IP Compliant, ANSI/TIA-568.2-D, UL 444

SPOTLIGHT

Network Channel Extenders

Leviton EXT-100 and OneReach™ are ideal for extending connectivity and PoE to devices located more than 100 meters from the switch.

- The EXT-100 Extender Kit is a single-port device that cost-effectively transmits up to 100 Mb/s, and either PoE+ (30 W) to 1,250 feet or PoE (15 W) to 2,000 feet.
- OneReach is a modular system that uses composite cable to support up to 1 Gb/s. It supports the transmission of 15 watts of PoE to 8,200 feet, and up 60 watts of PoE to 1,000 feet.

Industrial Copper Cables

INDUSTRIAL ETHERNET SOLUTIONS

ZONE C CABLES: CAT 6A

- Fully compliant to Category 6A requirements and 10 Gigabit Ethernet
- Small diameter with 26 AWG conductor option for optimal connectivity
- Superior protection against electromagnetic noise with foil and braid shielding, Transfer Impedance Grade 2 and Coupling Attenuation Type I
- 600 V AWM design for best electrical performance near machines and panels
- 35 million flex cycles for continuous motion and robotic applications with durable TPE jacket and stranded conductors
- Oil Resistance II (75°C) and Sunlight Resistance II (720 hours)
- Rugged industrial design with high Abrasion resistance, Weld Spatter resistance and pull tension up to 40 lbs.
- Transitions well from indoor to outdoor environments with CMR and CMX outdoor listing
- Suitable for cable tray installations
- Complies with Low Voltage EU Directive 2014/35/EU, CE Approved, RoHS EU Directive 2011/65/EU, PoE 802.3bt (Type 1 [af], 2 [at], 3 and 4), ISO/IEC 11801-1, ODVA EtherNet/IP Compliant, ANSI/TIA-568.2-D, UL 444

ZONE C CABLES: CAT 5E

- 600 V AWM design for best electrical performance near machines and panels
- 35 million flex cycles for continuous motion and robotic applications with durable TPE jacket and stranded conductors
- Oil Resistance II (75°C) and Sunlight Resistance II (720 hours)
- Rugged industrial design with high Abrasion resistance, Weld Spatter resistance and pull tension up to 40 lbs.

FIELD INSTALLABLE CONNECTORS | Zones A, B & C

RJ-45 FIELD INSTALLABLE CONNECTORS

- **Cat 6A Universal Tool-Free Plug** offers easy field termination without special tools and terminates from 26- to 22-gauge solid or stranded conductors, supporting shielded and UTP applications
- **C542-RJS-PKB** support cables with 0.217 - 0.315 inch cable diameter, 0.042-0.048 inch wire size, polycarbonate wire aligner, 10 Gb/s Ethernet Application Performance
- **B537-RJS-PKB** support cables with 0.270 - 0.295 inch cable diameter, 0.042-0.048 inch wire size, no wire aligner, 100 Mb/s Ethernet Application Performance
- **C637-RJS-PKB** support cables with 0.270 - 0.295 inch cable diameter, 0.033-0.038 inch wire size, polycarbonate wire aligner, 10 Gb/s Ethernet Application Performance
- **C545-RJS-PKB** support cables with 0.295 - 0.340 inch cable diameter, 0.042-0.048 inch wire size, polycarbonate wire aligner, 10 Gb/s Ethernet Application Performance

M12 FIELD INSTALLABLE CONNECTORS

- **M12 X-Coded Connector Kit** is ideal for more ruggedized industrial connectivity requiring threaded connection, 10 Gb/s Ethernet, and IP67 Ingress Protection rating
- **M12 D-Coded Connector Kit** is ideal for more ruggedized industrial connectivity requiring threaded connection, 2-pair Cat 5e Ethernet, and IP67 Ingress Protection rating

Versatile Selection of Copper Jacks

Leviton QuickPort copper jacks go through rigorous in-house and third-party testing to ensure the highest levels of quality and reliability. Whether supporting mission-critical applications with Atlas-X1, large enterprise with eXtreme, or small business infrastructure with GigaMax, Leviton has the connectivity solution for your needs.

See pages A8-A9 for more about Leviton jacks, from Cat 5e to Cat 8.

PRE-TERMINATED PATCH CORDS | Zones A, B & C

LANMARK™-B540 CAT 5E UTP RJ-RJ PATCH CORDS

- 600 V AWM design, stranded conductors and Industrial PVC jacket resistant to abrasion and oil
- Ideal for interconnecting devices and switches in enclosures, machines, and control rooms where high-vibration and tight spaces are present
- Rated CMR and CMX outdoor

LANMARK-C542 CAT 5E SF/UTP RJ-RJ PATCH CORDS

- High-flex life, 600 V AWM, stranded shielded construction, and durable TPE jacket resistant to abrasion, oil, UV light, and weld spatter
- Ideal for interconnecting devices and robotics in machines and C-track chains
- Rated CMR and CMX outdoor

LANMARK-C637 CAT 6A SF/UTP RJ-RJ PATCH CORDS

- High-bandwidth Cat 6A performance, shielded design, high-flex life, 600 V AWM, and durable TPE jacket resistant to abrasion, oil, UV light and weld spatter
- Ideal for interconnecting devices, robotics, and high resolution video in machines, C-track chains and HMI equipment
- Rated CMR and CMX outdoor

LANMARK-C541 CAT 5E SF/UTP M12-M12 D-CODED PATCH CORDS

- High flex life, 600 V AWM, 2 pair shielded design, and durable TPE jacket resistant to abrasion, oil, UV light and weld spatter
- Ideal for interconnecting devices and robotics in machines and C-track chains
- Ideal for clean-in-place and wash-in-place applications
- CM and CMX outdoor listed

LANMARK-C538 CAT 5E U/UTP M12-M12 D-CODED PATCH CORD

- High flex life, 600 V AWM, 2 pair design, and durable TPE jacket resistant to abrasion, oil, UV light, and weld spatter
- Ideal for interconnecting devices and robotics in machines, C-track chains, and clean-in-place and wash-in-place applications
- CM and CMX outdoor listed

OneReach™ Poe Extender System

With options to power one device or many, the OneReach PoE Extender System becomes a part of the network infrastructure, with Power Injector, Head End Devices, cable assemblies, and Remote End Devices.

ONEREACH™ POE EXTENDER SYSTEM | Head End Devices

HEAD END DEVICES FOR POWER INJECTION (PI)

- Power up to 12 devices with one power supply module
- Standalone 1-Port Source
- 2RU or 4RU Injector Chassis, with potential N + 1 power redundancy
- Fits standard 19" rack
- Simplifies device management
- Enables UPS consolidation
- Uses simple screw terminal connections
- Supports PoE, PoE+, and HPoE (not standards compliant to IEEE 802.3bt)
- No PoE enabled switch required

ONEREACH™ POE EXTENDER SYSTEM | Cable Assemblies

ONEREACH CABLE ASSEMBLIES

The OneReach cable assemblies combine optical fiber and copper conductors in a single assembly that easily attaches with standard M8 and LC or MTP® connectors, taking PoE+ up to 2,400 feet.*

- Simple, single pull installation
- Combines power and communication in industrial pathways
- Provides common pathway for fiber backbone and Class 2 power supply
- Can be used in wet or dry locations
- Designs for indoor, outdoor, and indoor/outdoor environments
- Able to support PoE+ distances up to 2,400 ft*
- Operating temperature: -40°C to +75°C

1-, 2-, 4-Port (MPO) M8 Pigtail, two 18-gauge conductors	11099456
4-Port (LC Duplex) M8 Pigtail, four 20-gauge conductors	11099453

xxxx = Length in feet (using leading zeros as needed)

[‡] = Pigtail 11099456 is required when ordering.

[^] = Pigtail 11099453 is required when ordering.

Additional cable/assembly configurations are available upon request.

* = 2,400 feet include 300 feet copper structured cabling. For more temperature and remote information, please contact technical support.

REMOTE END DEVICES

Remote devices mount in enclosures and connect to active devices up to 100 meters (328 feet) away using category cables terminated with standard RJ-45 plugs.

- No need to install costly remote power outlets
- No need to install remote industrial switches
- There is no virtual entry point for hackers into your network
- Eliminates the need for remote UPS
- Unmanaged remote is invisible to the network; the only configuration needs to occur at the closet's switch
- Easily attach pre-terminated LC or MTP® connectors for data transmission
- Standard M8 connector screws into place to complete power circuit
- Uses standard RJ-45 connectivity to patch to the security camera, wireless access point, or any other IP-based device
- Each RJ-45 port supports a full 100 meters (328 feet) to the network powered device
- Allows common pathway for fiber backbone and Class 2 power supply

GUIDANCE FOR BUILDING YOUR SYSTEM

OneReach is modular, allowing you to easily scale the system to meet your specific application requirements. Every application will require devices from each of the system segments; Head End Power Injection (PI), OneReach Cable Assembly (OCA), and Remote PoE Port (RPP). The specific devices will be determined by the number of remote devices to be supported, the distance of the RPP from the closet and the environmental conditions of the installation. The examples below provide guidance on the specifics required for a few common installation options.

Basic surge protection for remote and devices is built in. However, when installed outside, extra surge protection specifically rated for lightning strike protection and grounding is required in areas that are prone to surge events. **Extra surge protection is strongly recommended in all installations. Proper grounding is required in all installations.**

* = Plenum cable assemblies and bulk fiber options are available; xxxx denotes the length in feet. Use leading zeros as needed.

[^] = For temperatures above 20°C, derate this length by multiplying the above value by: $(1 - (T_{\text{Ambient}} - 20) \cdot 0.00386)$.

FEATURED PRODUCTS

EXT-100 Kit **D12**

EXT-100

The EXT-100 is a cost-effective solution to support PoE and PoE+ applications to extended distances. It supports 10/100 Mbps and is ideal for lights, cameras, VoIP phones, card access, emergency call boxes, and additional devices connected to the emerging uLAN™ (Utility Local Area Network). The EXT-100 kit will support indoor and outdoor applications and provides the flexibility, scalability, and ease of use that today's demanding networks require.

EXT-100 KIT

- Functions as a midspan or endspan PoE injector
- Supports up to 100 Mbps of data and PoE+ (30 watts) up to 1,200 feet or PoE (15 watts) up to 2,000 feet
- Can be used outdoors to support parking lot or campus (suitable NEMA enclosure required)
- Mounts on the wall inside your telecom room quickly and easily
- The EXT-100 is unmanaged, and is invisible to the LAN or uLAN™ (utility LAN)
- Effectively transitions a data-only port to a PoE port without upgrading the switch
- Cost effective solution to extend your network to reach surveillance cameras or other devices
- When rack unit space is at a premium, the EXT-100 is a compact solution for easy installation
- There is no virtual entry point for hackers into your network

HOUSINGS & WALLPLATES | QuickPort™ Surface-Mount & DIN Rail-Mount Boxes

QUICKPORT BOXES, MODULES & ACCESSORIES

- Surface-mount boxes and back boxes have breakouts to match common raceway systems and cable entry
- One-, two-, and four-port surface-mount boxes have been tested to UL 2043 and are suitable for use in air handling (plenum) spaces per NEC 300-22(b)(c)
- Mounts with screws or adhesive mounting tape (both provided), or with magnets or modular furniture brackets (sold separately, page E13)
- 4S089 products are designed to work with Leviton shielded or UTP Cat 6A jacks to allow proper bend-radius control. 1- and 2-port 41089 and 4S089 products are designed to work with Leviton shielded or UTP Cat 6A jacks and cables to allow proper bend-radius control.

QUICKPORT DIN RAIL-MOUNT BOXES

- Provide an ideal network patching location for industrial automation and control panels
- Compatible with standard and low-profile 35 mm symmetrical DIN rails and 32 mm asymmetrical DIN rails
- Accept one QuickPort Decora™ Insert with one, two, three, four, or six ports
- Box depth suitable for Cat 5e or Cat 6 applications

HOUSINGS & WALLPLATES | QuickPort™ In-Ceiling & In-Wall Brackets

IN-CEILING BRACKET

- Creates a testable permanent link for cabling that terminates above a drop ceiling without a wallplate
- Brackets available individually or with pre-installed multi-function clip that attaches to standard drop wire or rod
- VELCRO® Brand tie-down points accommodate cabling slack loops (sold separately, see pages F8-F9)
- Plenum-rated QuickPort one-, two-, and four-port surface-mount boxes (sold separately) attach to brackets and are ideal for use in drop ceiling areas

IN-WALL BRACKET

- Helps create a testable permanent link for cabling that terminates in the wall without using a traditional wallplate
- Provides a stable mounting surface for jacks that is recessed behind the wall surface
- Ideal for Ethernet-enabled devices — such as WAPs, cameras, or clocks — that mount to electrical or low-voltage boxes or directly to the wall
- Available as a set of five brackets, or individually kitted with a single-gang wallplate mounting bracket

Two In-Wall Brackets

QuickPort In-Ceiling Bracket with clip, loaded with Atlas-X1™ Cat 6A QuickPort Jacks

QuickPort In-Ceiling Bracket loaded with Atlas-X1 Cat 6A QuickPort Jacks

SPOTLIGHT

VXC™ Plenum Assembly

The **VXC Plenum Assembly** creates a cost-effective method for terminating cables for wireless access points, video cameras, and other ceiling mounted devices. This Cat 6A rated assembly includes a **VXC Coupler** (also sold separately) that creates a durable connection without the need for punchdown or other proprietary tools. It also includes a standard size plug and flexible stranded patch cable. The assembly is plenum-rated and can be used in riser and plenum applications

See page A24 for details.

QUICKPORT™ WALLPLATES

The QuickPort System allows you to create the perfect mix of voice, data, video, and audio connections. Category-rated copper, fiber, and AV QuickPort jacks are compatible with any QuickPort wallplate or insert.

QUICKPLATE™ TEMPO WALLPLATES WITH ID WINDOWS

QuickPlate Tempo wallplates allow for fast, one-piece installations. They feature patented rear wings that tighten the wallplate to wallboard, eliminating the need for a box or mounting brackets.

WATCH: INSTALLATION VIDEOS

Leviton.com/ns/videos
"How to Install a QuickPlate Tempo Wallplate"

QUICKPORT STANDARD PLASTIC WALLPLATES

- Compatible with all QuickPort Jacks and Couplers
- Manufactured from ABS plastic for superior resistance to impact, chemicals, and solvents, as compared to other plastics
- Fits NEMA openings and accommodates low-voltage box eliminators for a flush mount
- cULus Listed, fire-retardant material rated UL 94V-0
- ID windows aid in port identification
- Country of origin: USA

SINGLE-GANG QUICKPLATE TEMPO WALLPLATES WITH ID WINDOWS

- Patented rear wings tighten wallplate to wallboard, eliminating the need for a box or mounting brackets and creating a fast, one-piece installation
- Wings accommodate wallboard thickness of 5/8 inch or less
- ID windows act as marking template for cutting hole in wallboard
- cULus Listed, fire-retardant plastic rated UL 94V-0
- Country of origin: USA

QUICKPORT ANGLED, MIDWAY, LARGE JACK & HORIZONTAL WALLPLATES

- Angled and large jack wallplates are made from high-quality ABS plastic, which provides superior resistance to impacts, chemicals, and solvents as compared to other plastics
- Angled wallplates facilitate optimal cable management and ensure proper bend radius in front and back of connector
- Midway wallplates are durable nylon with a smooth finish and help hide irregular drywall cuts or flaws around outlets
- Large jack wallplates feature increased vertical spacing between ports
- cULus Listed, fire-retardant material rated UL 94V-0
- Horizontal wallplate options include single-gang 2-port and a 3-port with an ID window

SPOTLIGHT

Multimedia Outlet System

The **Leviton Multimedia Outlet System (MOS)** is a front-loading solution providing a clean and flexible way to integrate voice, data, audio and video into one wallplate or surface-mount box.

Ideal for applications like healthcare, education, enterprise and government buildings, the front-loading capability makes the system easy to install, maintain and update. Changes are made without removing the wallplate from the wall, and all wiring and cabling is done from the front side of the wallplate.

MOS consists of surface-mount boxes and single-, dual-, and triple-gang wallplates that accept a variety of copper, fiber, and AV modules. Install any combination of connectors including QuickPort™ Jacks and larger AV modules such as 3-port composite/component RCA, HD-15 couplers and fiber modules.

See the full array of MOS options on pages E17 and E18.

DECORA TELEPHONE & VIDEO WALLPLATES

- 6P4C models feature lead-frame design for improved reliability and simple installation
- Decora inserts are compatible with Decora wallplates and Decora Plus screwless wallplates
- Decora wallplate assemblies include a Decora insert and matching Decora wallplate
- Decora Kits include a one- or two-port QuickPort™ Decora insert and snap-in USOC or F-connector QuickPort Couplers
- Inserts, assemblies, and kits are cULus Listed and rated UL 94V-0

Inserts fit Decora Wallplates found on page E11.

See page E16 for color options.

ROUND TELEPHONE INSERTS & SURFACE-MOUNT BOXES

- Round inserts available with screw terminal or 110-style termination
- See page E14 for wallplates with round openings
- Surface-mount boxes feature 4-, 6-, and 8-conductor screw terminal connections
- Shorting bar option for use with monitored home security systems

QUICKPORT™ FLOOR BOX ASSEMBLIES

- Combine voice, data, and AV couplers and jacks in convenient in-floor locations
- Floor box assemblies include brass wallplate and screw cap (floor box not included)
- Inserts and connectors are ivory

CABLE MANAGEMENT | Versi-Duct™ Cable Management System

VERSI-DUCT CABLE MANAGEMENT SYSTEM

The innovative system for copper and fiber installations fits on any standard equipment rack, and accessories enable a wide range of configurations.

VERSI-DUCT 8" CHANNEL CABLE MANAGEMENT

- Ideal for today's large-scale deployments and Cat 6A installations with typical larger-diameter cable
- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Channels available with standard black cover
- Designer cover (gray) available as an accessory
- Channels include mounting bracket kit and two covers, one slack-loop organizer, and one cable retainer, per 80-inch side (front or front/rear)
- Covers feature integrated dual-hinge for easy accessibility
- Channels can be side- or center-mounted for better space utilization
- Large finger-passthrough space aligns with rack units

VERSI-DUCT 8" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES			
DESCRIPTION	FRONT ONLY		FRONT & REAR
Vertical 80" Length, 8" W x 8" D channel, standard black cover, hinged [A]	8980L-VFO*	[B]	8980L-VFR
Vertical 40" Cover, 8" W, black (set of 4)	—		8940L-SRC
Vertical 40" Designer Cover, 8" W, gray (set of 2)	—		89265-8DC
Vertical Center Mounting Bracket, 8" W channel (bag of 4)	—		89265-BKT
Vertical Cable Retainer, 8" W channel (bag of 6)	—	[C]	89265-WR1
Vertical Slack Loop Organizer, 8" W channel (package of 2)	—	[D]	89265-SL1

* = Rear retrofit not available.

8" VERSI-DUCT CAPACITY CHART

Use the chart below to determine maximum recommended cable capacity for 8" Versi-Duct managers, based on average cable outside diameter. To ensure proper bend radius and space for future additions, do not fill to capacity at initial installation.

FEATURE	CHANNEL DEPTH (WXD)	USABLE AREA (IN ²)	CAT 6A CAPACITY (.330" CABLE)	CAT 6 CAPACITY (.230" CABLE)	CAT 5E CAPACITY (.185" CABLE)
8" Channel Size	7.88" x 6.9"	54.3	159	327	505
Finger Spacing	5.5" x 1"	5.5	24	50	77
Large Passthrough	4.8" x 2.6"	11.2	49	101	156
Small Passthrough	2.6" dia.	5.3	23	48	74

CABLE MANAGEMENT | Versi-Duct™ Vertical & Horizontal Management

VERSI-DUCT 5" CHANNEL CABLE MANAGEMENT

- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Interlocking tabs maintain flush channel alignment
- Finger spacing aligns with rack units

VERSI-DUCT HORIZONTAL CABLE MANAGEMENT

- Fits all standard 19-inch racks
- Includes bend-radius-compliant clips
- Finger spacing aligns with patch panel port openings to better manage patch cords

Mount the Slack Loop Organizer on the duct fingers to manage excess cables.

VERSI-DUCT 5" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES

DESCRIPTION	FRONT ONLY	FRONT & REAR
Vertical 80" Length, 5" W x 4" D channel, standard snap-on black cover (included)	4980L-VFO+	4980L-VFR
Vertical 40" Length, 5" W x 4" D channel, standard snap-on black cover (included)	[A] 4940L-VFO+	[B] 4940L-VFR

CABLE MANAGEMENT | Rear Cable Managers, Blanks & Transitional Covers

REAR CABLE MANAGEMENT BARS AND CLIP

- Standard Flat Cable Management Bar attaches to patch panel
- Cable Management Clip easily snaps into the standard Cable Management Bar to secure discrete cables with no ties or wraps
- Angled bars attach to rack
- High-Density Cable Management Bar supports heavy loads of cable and mounts on front or rear of rack
- e2XHD Rear Cable Manager for flat panel attaches to rack, includes rings to help manage and route incoming fiber cables, and supports any Leviton panel (see page A18 or B31 for more details)

BLANK PANEL INSERTS

- Provide a seamless look and designate rack space for future expansion

TRANSITIONAL COVER

- Provides clean, aesthetic transition from angled patch panels to flat equipment
- Improves thermal management

CABLE MANAGEMENT | Rings & Brackets

ORU PATCH CORD MANAGER

- Mounts on side of Leviton 1RU flush-mount enclosures and flat or angled panels
- Rigid fingers with cable retention feature to organize and protect cords

HINGED WALL-MOUNT BRACKETS

- Designed for installations where space is constrained and racks are not used
- Six-inch deep brackets allow for proper cable management

CABLE MANAGEMENT RINGS

- Vertical Management Rings are an open ring solution that can be installed in tight spaces and smaller deployments
- Mounting Tie Bracket allows rings to be positioned between racks
- Vertical Transition Rings are used for vertical and horizontal cable management and are compatible with flat and angled panels

FRONT HINGED BRACKET

- Simplifies process of terminating cables to rear of patch panels when access is limited
- Easy-access quick-release latches drop to 90-degree and 120-degree positions
- Rack or wall mountable

CABLE MANAGEMENT

SPOTLIGHT

Cincinnati Bell Technology Solutions (CBTS) Scores with Comprehensive Data Center Services

CBTS is one of the top 20 communications providers in North America. And with a constant demand for colocation and virtual data center services, CBTS required a top-quality infrastructure to achieve the reliability needed for expanding its critical data center environment. After evaluating several options, CBTS chose Leviton connectivity for its quality, reliability, and outstanding performance. Plus, in addition to meeting needs, Leviton took it one step further by developing its custom solutions for unique data center applications.

ZONE ENCLOSURES

- Provide flexible consolidation points in ceiling or floor
- Simplify moves, adds, and changes (MACs)
- Plenum rated and includes fire-rated foam sealing kits
- Significant reduction in cable pathway loading
- Use as a telecom enclosure (TE) for cabling flexibility

2' X 2' PASSIVE RAISED-FLOOR ENCLOSURES

- Fit in air-handling space under 8-inch raised floors
- House two 4RU (8RU total) racks for standard 19-inch components
- Rotating patch panel mounting provides easy access to rear of panels

CEILING ENCLOSURES

- Install flush with drop ceiling
- Fully hinged drop-down doors support installed equipment and open to face technician
- Active and passive styles available
- Mount into standard 2' x 2' and 2' x 4' ceiling tiles
- Active enclosures include AC power back box and venting for active equipment

ZONE ENCLOSURES

DESCRIPTION	PART NO.
[A] Active Ceiling Enclosure, 2' x 2', 2RU active and 5RU passive space	Z1000-AC2
[B] Active Ceiling Enclosure, 2' x 4', 4RU active and 10RU passive space	Z1000-AC4
[C] Passive Raised-Floor Enclosure, 8" depth, 8RU passive space	Z1000-PF2
[D] Passive Ceiling Enclosure, 2' x 2', 5RU passive space	Z1000-PC2

SPOTLIGHT

Zone Cabling Design Benefits

In a **zone cabling design**, cables are routed from the telecommunications room (TR) to appropriately placed telecommunications enclosures (TE). Cabling is then run from the zone enclosure to each work area (WA). In an Active Zone Enclosure System, a single fiber run can support dozens of work areas, significantly reducing cable pathway loading and TR space requirements. Zone cabling designs are ideal for open office architecture. Zone cabling benefits include:

- Maximum infrastructure flexibility
- Improved network performance
- Simplified moves, adds, and changes
- Reduced floor space usage
- Significantly reduced cost of ownership

AV SOLUTIONS

Leviton IT/AV systems combine category-rated structured cabling with audiovisual signal extenders to create plug-and-play solutions with no programming required. The enterprise-grade systems allow contractors to extend AV signals over twisted-pair cabling with the same tools used for installing datacom infrastructure. They can then test and certify the installation to Ethernet standards to ensure high signal performance after they leave the jobsite.

EXTENDING HIGH-QUALITY AV SIGNALS OVER CATEGORY CABLE

Deliver the high-quality audio and video required for today's technologies with Leviton IT/AV Systems, which include signal extenders for long distance transmission of HD video. We offer extenders for a variety of connection types that increase cable distance and retain high signal performance.

Below are recommended maximum lengths using Leviton extenders, compared to maximum lengths for different AV cables.

END-TO-END TESTED AND CERTIFIED AV SYSTEMS

The increasing convergence of AV and data networks has positioned low-voltage, BICSI RCDD contractors as the next generation of AV integrators. Leviton's new IT/AV Systems help these contractors be the AV experts for their customers and use an easy-to-install solution that requires no programming and little-to-no training.

An IT/AV System combines Leviton HDBaseT™ HDMI® Extenders, Atlas-X1™ Cat 6A connectivity, and approved Cat 6A cable and patch cords for a complete end-to-end solution. The Cat 6A infrastructure link can be installed, tested, and verified like any other Cat 6A 10GBASE-T link. This system is also certified to HDBaseT Alliance standards.

SPOTLIGHT AV Cable Recommendations for HDBaseT

*PoH = Power Over HDBaseT

Using HDBaseT™ technology you can transmit HDMI® signals over category-rated cable, delivering the high resolution needed over distances up to 100 meters. In the white paper “AV Cable Recommendations for HDBaseT,” you’ll learn why Cat 6A UTP cable with Alien Crosstalk Prevention Technology is ideal for supporting IT/AV applications over longer distances. Plus, you’ll also gain a better understanding of HDBaseT standards and applications, as well as be able to review comprehensive test results for different category-rated cables used in HDBaseT certified links.

To read the white paper, visit Leviton.com/ns/whitepapers.

HDBaseT™ certification offers important benefits:

- System longevity capable of supporting future HD video signal performance requirements
- Installation and testing using the same tools used for datacom infrastructure
- Peace of mind that comes from third-party verification and certification of AV signal transmission performance
- Compatibility with other manufacturers' equipment supporting the same HDBaseT features
- Limited lifetime warranty on the structured cabling system when installed by a Leviton certified contractor

CLASSROOM APPLICATION

Today's classrooms have evolved from using chalkboards and overhead projectors to connected tools like interactive whiteboards and document cameras. Leviton solutions allow contractors to easily extend HDMI®, VGA, and USB signals from teachers' desks to the latest devices anywhere in the room, all networked over easy-to-install, category-rated cable. Classrooms can also integrate IT/AV controls for an interface that's easy to use (see "Conference Room" diagram on G10). These solutions help ensure a quality learning environment throughout all types of learning areas, including lecture halls, libraries, and computer labs, and they prepare schools for more advanced technologies to come.

CLASSROOM/CONFERENCE ROOM APPLICATIONS WITH SIGNAL EXTENSION & 70V AUDIO

CONFERENCE ROOM APPLICATION

The best AV installations for conference rooms can adapt to handle future multimedia devices while maintaining a low profile in the room. With help from Leviton AV Signal Extenders, IT/AV Controls, audio amplification, and in-ceiling connectivity for wireless access points — all connected over versatile category-rated cable — you create extra flexibility and a clean look in business, school, or hotel conference rooms. See the following page for typical conference room AV applications with Leviton solutions.

CLASSROOM/CONFERENCE ROOM APPLICATIONS WITH CONTROL SYSTEM & STEREO AUDIO

Decora™ Wallplate Sold Separately

A

B

AUTOSWITCHING & 8-BUTTON CONTROL PANEL WALLPLATES

The Leviton Autoswitching HDBaseT Extender Wallplate connects, switches, and extends HDMI and VGA signals to displays or projectors in conference rooms, classrooms, and control centers. Complete the system with an optional 8-button control panel for simple push-button controls.

- Extends signals up to 70 meters (230 feet) over a single category cable
- Uses certified HDBaseT technology for a complete professional plug-and-play installation.
- PoH (Power over HDBaseT) powered from the receiver at the display end
- Autoswitching Extender accepts any Decora™ dual-gang wallplate (sold separately, see page E11)
- Optional 8-button Control Panel has pre-configured buttons for display or projector on/off, volume up/down, and source selection
- 8-button panel powered by, and communicates with, the Autoswitching Wallplate via category cable

AUTOSWITCHING HDBASET EXTENDER WALLPLATE & 8-BUTTON CONTROL PANEL

DESCRIPTION	PART NO.
[A] Autoswitching HDBaseT Extender Wallplate	41920-HRC
[B] 8-Button Control Panel	41920-CP8

HDBASET™ EXTENDER TRANSMITTERS & RECEIVERS

HDBaseT twisted-pair extenders with Power over HDBaseT (PoH) deliver HDMI®, Ethernet, IR, and RS232 signals for classrooms, conference rooms, command centers, restaurants, and more. The paired transmitter and receiver require only one power adapter that can be connected at either end.

- Class A Extenders (41910-HTE) deliver 328 ft (100 m) transmission for HDMI, Ethernet, bi-directional IR, RS232
- Class B Extenders (41910-HT0) deliver 230 ft (70 m) transmission for HDMI, bi-directional IR, RS232
- Support key features of HDMI 1.4, including 3D and 4K x 2K, CEC pass through and HDCP compatible
- Locking power supply and HDMI cable connectors
- Power supply, RS-232 cables, and mounting brackets included
- Compact metal housing for mounting with flatscreen displays
- Plenum rated

IR EMITTER & RECEIVER KITS

Kits work with Leviton HDBaseT Transmitters and Receivers.

- IR Emitter and IR Target Kit delivers 5V signal transmission; connects over 5-foot cords
- IR Y-Cable and Emitter Kit splits IR output from the receiver to two emitters

HDBASET EXTENDER TRANSMITTERS & RECEIVERS	
[A] HDBaseT Extender, transmitter and receiver, 100 m	41910-HTE
[B] HDBaseT Extender, transmitter and receiver, 70 m	41910-HT0
[C] HDBaseT Extender, receiver only, 70 m	41910-HTR
[D] HDBaseT Extender IR Emitter and Receiver Kit*	41910-HIR
IR Y-Cable and Emitter Kit*	41920-YIR

* = These kits are not compatible with the audio amplifier infrared remote control kit.

VGA EXTENDER TRANSMITTER & RECEIVER

- Extends distance between AV source and display up to 328 feet (100 meters) over one category cable
- Screen resolutions include:
1920 x 1200 @ 60 Hz (30 meters)
1600 x 1200 @ 60 Hz (100 meters)
1280 x 1024 @ 60 Hz (150 meters)
- Adjustable Gain Control lets you manually adjust signal strength to compensate for distance
- Audio enabled (mono)
- No external power supply needed for transmitter
- Receiver powered either by included USB power cable or DC adapter
- Convenient docking on the display device
- Plenum rated

70 VOLT MIXING AUDIO AMPLIFIER

- 40-watt mono output, 70V or 100V constant voltage
- Three inputs: two stereo audio and one balanced mic, which support EQ control and mic mixing
- Mic input supports 48V phantom power
- Volume, bass, treble, and mute control
- LED indicators for power and control function feedback
- Plenum rated

4/8 OHM MIXING AUDIO AMPLIFIER

- 2 X 20W stereo, 1 X 40W bridge mono, and 2 X 20W dual mono
- Three inputs: Two stereo audio and one balanced mic
- Mic input supports 48V phantom power
- Volume, bass, treble, and mute controls
- Plenum rated

INFRARED REMOTE CONTROL KIT

- Controls Mixing Audio Amplifiers
- Includes a remote control and IR target
- A kit is also available that includes only the IR target

USB EXTENDERS

- Plug-and-play extenders reach up to 328 feet (USB 2.0) and 164 feet (USB 1.1) over a single category cable
- USB 2.0 Extender includes transmitter, 2-port receiver, power supply, 6-foot (2 m) cable, mounting brackets
- USB 1.1 Extender includes transmitter with attached 1-foot (0.3 m) cable and receiver
- 2.0 Extender supports USB 480 Mb/s and also connects to USB 3.x devices; 1.1 Extender supports USB 12 Mb/s

HDMI® 1X4 SPLITTER

- Splits one HDMI input into four independent HDMI outputs
- 4K ultra high definition 4K x 2K at 60Hz 4:4:4 HDR 18Gbps
- Compatible with and supports key features of HDMI 2.0 including CEC, EDID and HDCP2.2
- Supports audio extraction from the HDMI signal for connection to an external sound system
- EDID management with multiple presets and auto downscaling from 4K to 1080p resolution for display compatibility
- Built-in equalization helps with compatibility with varying HDMI cable quality
- Compact and convenient 5VDC USB Type C power input with included power adapter and 1.5 meter (5') USB Type A to Type C cable
- Compact design for easy installation in crowded spaces

HDMI 4X1 SWITCHER

- Switches any one of four HDMI inputs to one HDMI output
- Automatic switching mode selects a new active input or when the active input is removed, selects the first active input on the lowest numbered port
- Manual switching of HDMI inputs is accomplished via a front panel push-button
- 4K ultra-high-definition 4K x 2K at 60Hz 4:4:4 HDR 18Gbps
- Compatible with and supports key features of HDMI 2.0 including CEC, EDID and HDCP2.2
- Supports ARC audio return channel and audio extraction from the HDMI signal for connection to an external sound system
- EDID management: multiple presets and user defined settings
- Controllable via included IR remote or RS-232 command input
- Compact and convenient 5VDC USB Type C power input with included power adapter and 1.5 m (5') USB Type A to Type C cable
- Ultra slim design for easy installation in crowded spaces

HDMI AUDIO EXTRACTOR

- Extracts the audio from an HDMI signal and makes it available for connection to an amplifier or sound system
- 4K ultra-high-definition 4K x 2K at 60Hz 4:4:4 HDR 18Gbps
- Compatible with and supports key features of HDMI 2.0 including CEC, EDID and HDCP2.2
- Three audio modes: Passthrough, Bitstream, and PCM
- Digital audio output supports PCM, DOLBY DIGITAL, DTS, DTS-HD
- Locking power input connector
- Compact design for easy installation in crowded spaces

HDMI AUDIO EXTRACTOR	
[C] HDMI Audio Extractor — 4K/60, HDCP 2.2	41920-HAE

HDMI® EXTENDER TRANSMITTER & RECEIVER

The HDMI Extender Transmitter and Receiver extends your HD display up to 130 feet (40 meters) away from your HDMI source using two category cables. They are capable of supporting DVI-D (Single-Link) equipment when used with a HDMI-to-DVI adapter, providing greater flexibility and installation options.

- 8-segment equalization adjustment switch
- Extend 1080p by 40 meters; extend 1080i (HDTV) by 60 meters
- Superior video quality — 1920 x 1200, up to 1080p
- Supports Dolby® TrueHD and DTS-HD® Master Audio
- DDC and HDCP 1.1 compatible
- For commercial use only
- Locking HDMI connector
- Compact metal housings
- Transmitter and receiver power supplies and mounting brackets included
- Plenum rated

HDMI CABLES

Leviton high-speed HDMI Cables with Ethernet and Audio Return Channel are ideal for supporting in-wall and permanent installations for education, health care, enterprise, government, and residential applications.

- cULus listed
- CL2 rated for in-wall installation
- Compact connector body and flexible cable accommodate common box depths while maintaining minimum bend radius
- Commercial-grade, 28-gauge construction
- Gold-plated connectors for long-lasting performance
- HDMI Cable Lock Kit secures cable to Leviton Signal Extension devices for permanent installations
- Includes two universal adapters, two tie wraps, M3X05, and 4-40 UNC screws

HDMI CABLE LOCK KIT

[C] HDMI Cable Lock Kit	41900-LKT
--------------------------------	-----------

SPOTLIGHT HDMI Cable Lock Kit

The Leviton HDMI Cable Lock Kit provides a secure connection to all Leviton HDMI Signal Extension devices, making it ideal for in-wall and permanent-system installations.

The kit includes two sets of universal adapters and screws to secure the cable from either the top or side of the connector body.

AV COUPLERS, JACKS & INSERTS

- HDMI® coupler works with HDMI Type A connectors
- Binding Post and Banana Jack couplers are excellent for advanced audio
- QuickPort Blanks secure unused ports in wallplates and housings for future expansion
- 3.5 mm Stereo Jack facilitates classroom, workstation, and computer audio applications
- Use BNC couplers for commercial CCTV or commercial video signals
- S-video for enhanced video streams available in coupler and 110 termination
- Decora™ wallplate inserts with HDMI couplers provide high-definition video with in-wall wiring
- Decora brush passthrough offers a clean, professional appearance when cables need to pass through a wall opening

RCA & F-CONNECTORS IN FEEDTHROUGH & 110-STYLE

Leviton carries a comprehensive selection of RCA and F-connectors in both couplers and 110 termination. Body colors match Leviton housings; barrel colors are industry standard.

- RCA Jacks use standard identification colors for component and composite video
- Coax F-Connectors are SCTE-compliant and support signals up to 3 GHz

COMPRESSION & CRIMP-ON F-CONNECTORS

- Leviton compression and crimp-on connectors are ideal for more specialized AV applications
- Compression connectors offer an airtight seal and secure fitting for increased cable retention
- Crimp-on connectors are an economical solution for less demanding applications

SPOTLIGHT

In-Ceiling System for Wireless Access Points

Plenum-Rated
QuickPort™ In-Ceiling System

An **In-Ceiling System** provides a fixed location for terminating a data connector, creating a more reliable and consistent connection than a direct connect plug. This fixed connection also reduces the possibility of damage during construction.

The system of plenum-rated cable, jacks, patch cords, surface-mount boxes, and brackets provides a testable permanent link in drop ceilings to WAPs, while allowing the flexibility to move the In-Ceiling Bracket to refine Wi-Fi® coverage or WAN placement without needing to retest the link.

[See pages E3-E4 for product information.](#)

DECORA™ STRAUSS™ TRANSFORMER-FREE VOLUME CONTROLS

- Contemporary slider design brings precision and elegance to any installed audio system
- Available in standard and impedance-matched versions
- Volume control uses standard Decora wallplate in a standard J-Box or low-voltage mounting ring
- Color-change kits ensure the right finishing touch for every application

SYSTEM MATCHING MODULE

- Combine with non-impedance-matching volume controls to control up to six speaker pairs (cannot be used with impedance-matching volume controls)
- AutoSurge® circuit technology protects speakers from potentially damaging transients
- Designed to mount in Leviton Structured Media™ Enclosures

1X6 AUDIO DISTRIBUTION MODULE

- Combines with impedance-matching volume controls to control up to six speaker pairs from an amplifier or receiver
- Designed to mount in Leviton Structured Media enclosures and connect to six rooms/zones

SPOTLIGHT

Cat 6A System for Demanding AV Networks

We can help you create the highest performing system for demanding AV networks. Our Atlas-X1 Cat 6A jacks, Cat 6A patch cords, and LANmark-XTP Cat 6A cable is optimized for 10 Gb/s AV applications requiring high bandwidth and low latency, such as HDBaseT and SDVoE. The innovative Crosstalk Prevention (XTP) technology in LANmark-XTP cable provides superior signal isolation for crystal clear AV in HD or UHD (4k).

HOME THEATER, MULTI-ROOM & SPEAKER WALLPLATES

- Designed for easy installation of cables using low-voltage rings and standard low-voltage junction boxes
- Home Theater Interface wallplate (AEHTK) accommodates 5.1 to 7.1 channel surround-sound systems, and features RCA jacks for subwoofer connection and two extra QuickPort™ openings
- Multi-Room Audio wallplate (AEMRK) accommodates left and right audio speakers (± connections), and two extra QuickPort openings (e.g., adding a subwoofer or 3.5 mm stereo phone jack)
- Speaker wallplate allows for simple, solderless connections to any home entertainment speaker system

RECESSED ENTERTAINMENT BOX (REB)

- Affordable solution manages home theater electronics in a single location
- Ideal for new construction (stud-mounted) and retrofit (wall-mounted) applications
- Low-profile frame provides neat, recessed installation
- Optional high-profile cover includes sliding plastic front panels, and channels all wires through the bottom of the unit

RECESSED RECEPTACLES

Recessed Single-Gang Receptacle

- Fits most standard electrical boxes
- Supplies AC power for one or two components (flat panel TVs and video receiver)
- cULus approved, code-compliant solution

Recessed Dual-Gang Duplex Receptacle with Six QuickPort Openings

- Centralizes connection points for AC power, audio, video, data, and phone
- Includes plastic electrical box for use in new and retrofit construction
- UL approved, code-compliant solution

USB CHARGER/TAMPER-RESISTANT OUTLETS

- Up to 2X the charging power (up to 30W) of typical USB chargers, our USB In-Wall Charger
- Dual Type-C™ (T5635) with Power Delivery is the most advanced, powerful in-wall charger.
- Compact design fits in a standard wallbox, is compatible with standard wallplates, and can be multi-ganged with other standard Leviton devices
- Back and side wired for easy installation
- Smart chip designed for recognizing and optimizing the charging requirements of your device
- Tamper-Resistant NEC® Compliant shutter mechanism blocks access to contacts from most foreign objects

SPOTLIGHT

Recessed Box

The Leviton 14" Structured Media Center makes running cable and managing multimedia displays simple and more cost-effective. Designed to provide a central distribution consolidation point, the enclosure can be installed and concealed behind a display or near a projector screen.

This professional-grade enclosure is spacious for simple audiovisual device installation and management, and allows for future growth. Ideal for supporting conference room, classroom, and enterprise technologies, the enclosure accommodates the distribution of voice, data, video, audio, and IT/AV applications.

See page I6-I8.

POWER DISTRIBUTION UNITS (PDUs)	H3	5500 & 5505 Series
---------------------------------------	----	--------------------

POWER DISTRIBUTION | 5500 & 5505 Series

Leviton 5500 and 5505 Series Power Distribution Units (PDUs) help power and protect vital electronic equipment. The 5500 and 5505 Series share several key features, including:

- Resettable circuit breaker to protect against overloading
- 12 receptacles: 10 in back, 2 in front
- 20-amp versions available with either straight blade or locking input plug
- Mounts horizontally on 19-inch racks or cabinets

POPULATING THE STRUCTURED MEDIA CENTER

The Nerve Center of the Connected Home

For every residence — single-family home, high-rise, or hotel — Leviton offers an unparalleled selection of structured wiring solutions for networking, audio, video, and more. And we offer the ideal central distribution point to manage them all.

THE **CONNECTED** HOME

Get enterprise-grade, best-in-class broadband network performance capability with Leviton Structured Media components. These solutions are engineered to be an integrated system, providing an organized base and simplifying installation from rough-in through line activation. For enclosure configuration assistance, go to Leviton.com/homeconfig.

- 1 Structured Media Center**

These versatile enclosures allow you to manage and distribute a full range of voice, data networking, audio, and video wiring from one central location. We have enclosures for every construction type: wood, steel frame, concrete, and cinder block construction, and Wireless Structured Media Centers for expanding the reach of a wireless network.
- 2 Data Patching and Distribution**

Leviton offers durable Cat 6 and 5e panels and modules for data cable distribution. The high-end Twist & Mount Panel makes installation simple and provides easy access for moves, additions, or changes in the home network.
- 3 Telephone Patching and Distribution**

Choose from a wide selection of telephone distribution boards, modules, or panels for telephone and security systems. Our Telephone Input Distribution Panel (TIDP) supports inputs for use with triple-play modems and complements the look and simplicity of our Twist & Mount Patch Panels.
- 4 High-Flex Patch Cords**

High-Flex Cat 6 Patch Cords allow for tighter radius connections and a cleaner finished appearance inside a dressed Structured Media Center.
- 5 User or Service Provider Active Gear**

Leviton offers a range of accessories for mounting and securing active gear, such as shelf brackets, saddle ties and VELCRO® Brand strips. And when used with a plastic Vented Hinged Door, the enclosures have added depth to support bulkier routers and other equipment.
- 6 Premium and Passive CATV Splitters**

Distribute the incoming RF signal to locations throughout a home via coaxial cable using Leviton passive CATV splitters, or use Premium splitters to optimize the performance of digital cable signals to handle HDTV.
- 7 Integrated Power Supply**

Structured cabling systems rely on active gear that requires low-voltage power and surge protection. Leviton offers power supplies with extra plugs that eliminate the need for bulky power adapters within enclosures.

VELCRO® is a registered trademark of Velcro BVBA. Used with permission.

ADVANTAGES OF THE LEVITON WIRELESS STRUCTURED MEDIA™ CENTER (SMC)

1 Multi-Bay Attachment Tube — The tube creates a multi-bay system between two fully independent SMCs, isolating enclosures for better security and heat containment.

2 Door Versatility — Universal left or right side door orientation. The door opens 180° for better access, and is engineered so it won't shut on its own.

3 Tri-Plane Heat Dissipation — The Vented Door promotes better intake of cool air and outward flow of warm air, maximizing performance and extending the life of active equipment.

4 Ratcheting Hinge & Latch System — The system creates fast, tool-free door installations, and the ratcheting feature accommodates for wall imperfections and varying thickness of drywall.

Industry Leading Capacity — Enclosures have more cubic inches than other options on the market when used with the Vented Door.

Retrofit Capability — Plastic doors work with metal Leviton SMCs, improving their wireless signals and allowing for Tri-Plane Heat Dissipation.

14" WIRELESS ENCLOSURES, COVERS & DOORS

The 14" enclosure creates a single distribution point for all low voltage cables in an apartment, condo, or small home, accommodating basic residential networking systems and accessories.

28" WIRELESS ENCLOSURES, COVERS & DOORS

The 28" enclosure serves as command central for virtually all technology including home networking, Internet, satellite video, camera, VoIP, telephone, intercom, and audio. It is ideal for homes with more advanced multimedia needs and provides for future growth.

42" WIRELESS ENCLOSURES & DOORS

The 42" enclosure is extra long to accommodate extensive voice, data, audio, and video equipment in larger homes or small businesses, and to provide maximum room for expansion. It accommodates a wide variety of modules for home networking, DSL, internet, satellite video, camera, VoIP, multi-line telephones, intercom, audio distribution, and volume controls.

SPOTLIGHT

Choosing Your Wireless Structured Media Enclosure Cover or Door

Vented Cover (14", 28")
Economical design, screws directly to enclosure frame.

Vented Hinged Door (14", 28", 42")
Vented design creates tri-plane heat dissipation, mounts using Ratcheting Hinge & Latch System, adds capacity.

Vented Hinged Door with Trim Ring (14", 28", 42")
Includes benefits of Vented Hinged Door, creates optimal capacity, can be retrofitted on metal Structured Media Center enclosures.

Leviton Structured Media Centers provide a convenient termination location for wiring home runs from wall outlets, creating a distribution point for voice, data, audio, and video applications. Available in compact, 14-, 21-, 28-, and 42-inch sizes to address a broad range of capacities for single-family homes, MDUs, and light commercial applications, Leviton Structured Media Centers support new and retrofit installations.

METAL STRUCTURED MEDIA CENTERS, COVERS & DOORS (A-F)

- Enclosures are constructed of white, powder-coated 20-gauge steel
- Covers and doors are constructed of white, powder-coated 18-gauge steel, and feature 3/4-inch overlap to hide irregular drywall cuts
- Modules mount vertically or horizontally
- Multiple knock-outs on top and bottom facilitate cable entry and routing
- Knockout in base of enclosure accommodates single- and double-gang J-boxes and power modules
- Six 3-inch self-healing foam grommets included to accommodate and protect cable bundles
- Can be surface mounted or recessed
- Mounting tabs on housing sidewalls prevent enclosure from falling through the studs during installation
- Combine two or more enclosures for larger installations or future expansion
- Optional lock and key set available for additional security
- Standards compliance: ACA and cULus Listed:
 - ANSI/UL 1863 — Communication Circuit Accessories
 - ANSI/UL 985 — Household Fire-Warning System Units
 - ANSI/UL 1023 — Household Burglar-Alarm System Units

14" & 21" METAL ENCLOSURES, COVERS & DOORS

- Entry-level home network enclosures create a central distribution point for low-voltage cabling
- Ideal for apartments, condos, and smaller homes
- 14" enclosure accommodates basic residential networking systems and accessories
- 21" enclosure provides additional room for larger modules and equipment

COMPACT STRUCTURED MEDIA MDU ENCLOSURES (G-I)

- Economical solution for MDU connectivity
- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for expansion boards
- Angled video-splitter shelf for easy installation
- Hosts three expansion boards and one TV splitter
- Constructed of sturdy white ABS molded plastic

MDU & HOSPITALITY |

Concrete-Mountable & Fiber-to-the-Home (FTTH) Solutions

FTTH POINT-OF-ENTRY BOX

- Provides convenient staging for terminating incoming fiber from service provider
- Can mount inside the Structured Media™ Center or as a stand-alone unit on a wall
- Includes magnet for easy installation and place adjustments
- Includes an SC/APC adapter with two dust caps and two splice sleeves
- Made of ABS plastic

MULTI-BAY FTTH ENCLOSURES

Multi-Bay Enclosures provide excellent termination and mounting locations for both in-home structured wiring and fiber-to-the-home (FTTH) components. Structured wiring components typically mount in the upper section of the dual enclosure and optical network termination (ONT) mounts in the lower section. The dual enclosure can be surface mounted, or mounted between metal or wood wall studs using provided screws.

- Allow separate lockable sections for FTTH integration
- In a separate bay, a full Leviton structured wiring system can be easily connected and optimized up to gigabit speeds to maximize incoming fiber optic connection
- Ideal for new installations or retrofits
- Use multiple covers or doors to provide access and security
- Flush-mount cover, economy- and premium-vented doors available

Creating Consolidation Points for Offices and Schools

Leviton Structured Media Centers — a popular solution for wiring in residential buildings — can also be used as a simple, low-cost consolidation point installed in surface mount, in-wall, or in non-plenum ceiling applications.

The adjacent photo shows an IT/AV installation using a Ceiling Mount Kit (47612-CMK) and a 14" Structured Media Center. The kit is compatible with plastic Wireless Structured Media Centers to create a Wi-Fi® transparent ceiling access point.

MDU & HOSPITALITY | Multi-Bay Connector Tube

MULTI-BAY CONNECTOR TUBE

Use the easy-to-install Multi-Bay Attachment Tube between two or more Wireless Structured Media Center Enclosures of any size to create a secure, fully isolated location for service provider equipment.

- Isolates service provider equipment from end-user connectivity and controls for better security
- Heat separation and containment keeps equipment in both enclosures cooler and more efficient
- Include Lock and Key for added security on one or more of the connected enclosures
- Allows for two Structured Media Centers to be stacked

MULTI-BAY CONNECTOR TUBE

SPOTLIGHT

Retrofit Your Metal Enclosure

Improve Wi-Fi® signal transparency by adding a plastic Vented Cover or plastic Vented Hinged Door and Trim Ring to support stronger wireless signals.

- Adding a Vented Hinged Door creates Tri-Plane Heat Dissipation, which improves airflow and cooling for active equipment by as much as 40% over a vented metal door
- The Vented Hinged Door and Trim Ring add depth, increasing capacity inside the enclosure
- Plastic Vented Doors are compatible with 14", 28", and 42" metal enclosures

SURGE-PROTECTION, STANDARD AC POWER MODULES & J-BOX KITS

- Fit in standard 14"-, 21"-, 28"-, 30"- and 42"- Structured Media™ Centers
- Surge-protected versions provide enhanced protection and EMI/RFI filtering per UL 1449 standard

DC BUS MODULE

- Eliminates need for more than two bulky AC/DC power adapters
- Contains six 12 VDC power outputs at up to 1500 mA total
- Contains three 24 VDC power outputs at up to 1000 mA total, including one F-connector coupler
- Output power cables included for all except 24 VDC F-connector coupler connection

VERSATILE DC POWER SUPPLIES

- 120 VAC, 60 Hz input
- Includes NEMA 5-15 AC receptacles at 15A total
- Eliminates the need for multiple bulky AC/DC power adapters

AC SURGE MODULES

- Includes six surge-protected NEMA 5-15P receptacles
- Allows six AC/DC power adapters to fit easily into Structured Media™ Centers
- Powers routers, switches, modems, volume controls, camera hubs, and other Structured Media mounted devices

UNIVERSAL DC POWER SUPPLIES

- 100 - 240 VAC, 50/60 Hz input
- Provides nine 12 VDC outputs with surge protection at 3.34A total
- Includes one IEC AC power receptacle
- Eliminates the need for multiple bulky AC/DC power adapters

3-OUTLET POWER STRIP

- Includes three NEMA 5-15R receptacles and 1.5-foot cord attached

Mounting Bracket

The **12-Port QuickPort™ Mounting Bracket** offers an economical custom network distribution board to support their exact system requirements. By selecting from Leviton's diverse line of QuickPort connectivity, users are able to mix and match media distribution for up to 12-Ports with any combination of data, video, audio or voice lines, including CAT 6, CAT 5e, HDMI, Coax F-Connector, S-Video, RCA, and traditional telephone connectors. The bracket can be positioned horizontally or vertically to accommodate for cable routing.

See previous page.

MDU & HOSPITALITY | Twist & Mount, TIDP & Compact Structured Media™ Panels

TWIST & MOUNT PATCH PANELS

- Low-profile, high-density, component-rated patching for voice and gigabit ethernet connections
- Feature simple twist and mount installation
- Universal T568A and T568B wiring labels ensure compatibility in residential and commercial installations
- Available in 12- and 24-port versions

TELEPHONE INPUT DISTRIBUTION PANELS (TIDP)

- Support four-line telephone distribution
- Offer choice of inputs and outputs: one 4-pair 110-style IDC input, four industry-standard RJ-11 jack inputs, or 12 modular industry-standard RJ-45 jack outputs
- Security jack for interface with security systems
- Test and auxiliary disconnect outlet (ADO) ports for isolation and testing of telephone line connections

PRE-CONFIGURED COMPACT STRUCTURED MEDIA PANELS

- Compact series (six-inch width) pre-configured panels are an ideal solution for basic telephone, data, security interface, and TV distribution in MDUs where space and budget are of primary concern
- Connections: four to nine bridged telephone, up to four Cat 5e data, and up to eight video

PRE-CONFIGURED COMPACT STRUCTURED MEDIA PANELS — COMPACT WIDTH (6")

DESCRIPTION	PART NO.
[D] 1x9 Bridged Telephone and 6-Way 2 GHz TV splitter	47603-2G6
1x9 Bridged Telephone and 8-Way 2 GHz TV splitter	47603-2G8
[E] 1x4 Bridged Telephone, 4 Data, and 6-way 2 GHz TV splitter	47603-DP6
1x7 Bridged Telephone, security interface, and 6-way 2 GHz TV Splitter	47603-TSV

SPOTLIGHT Compact vs. Standard Structured Media Panels

Compact Structured Media Panels offer a space-saving profile that is half the size of standard panels, and is ideal when space and budget are a primary concern.

Standard Structured Media Panels combine multiple modules into a simple distribution point, and provide greater versatility when it comes time for customization or expanding.

PRE-CONFIGURED STANDARD STRUCTURED MEDIA PANELS

- Standard series (twelve-inch width) pre-configured panels combine voice, data, and TV modules into a single, simple distribution point
- Several pre-configured options are available with room for customization with additional expansion boards

PRE-CONFIGURED STANDARD STRUCTURED MEDIA PANELS		
DESCRIPTION	FEATURES	PART NO.
[A] Basic Telephone & Video Panel	- One 1x9 Bridged Telephone Board - One 6-way 2 GHz TV Splitter	47606-BTV
[B] Basic Home Networking Plus Panel	- One Telephone Patching Board - One Cat 5e Voice & Data Board - Six 4-line telephone connections - One 6-way 2 GHz TV Splitter	47606-BNP
Advanced Home Telephone & Video Panel	- One Telephone Line Distribution Board - 19 multi-line telephone connections (in various combinations of two or four lines) - One Cat 5e Voice & Data Board - One 6-way 2 GHz TV Splitter	47606-AHT
[C] Advanced Home Office Panel	- One Telephone Line Distribution Board - 19 multi-line telephone connections (in various combinations of two or four lines) - Two Cat 5e Voice & Data Boards - One 6-way 2 GHz TV Splitter	47606-ASO
12-Port Structured Media Panel	- One Telephone Line Distribution Board - 19 multi-line telephone connections (in various combinations of two or four lines) - Two Cat 5e Voice & Data Boards	47603-12P
4x12 Telephone Distribution Panel	- One 4x12 Telephone Distribution Board	47603-12M
[D] 4x12 Telephone Distribution Panel with Splitter	- One 4x12 Telephone Distribution Board - One 8-way 2 GHz TV Splitter	47603-412
[E] 4x18 Telephone Distribution Panel with Cat 5e Board	- One 4x18 Telephone Distribution Board - One Cat 5e Voice & Data Board	47603-8C1

MODULES			
DESCRIPTION			PART NO.
[A] 1x9 Bridged Telephone Module			47689-00B
[B] Cat 5e Voice and Data Module			47605-C5B
[C] Cat 6 Voice and Data Module			47611-C6B
Telephone Security Module			47609-TSV
EXPANSION BOARDS			
DESCRIPTION	APPLICATION	FEATURES	PART NO.
[D] Cat 5e Voice and Data Board	Data, Telephone, Fax, Modem	- Patch phone or data connections to six locations - Combine with a TLDM, key system, or network switches - 4-pair 110-type IDC punchdowns - Six Cat 5e RJ-45 ports - Printed circuit board	47603-0C5
[E] Cat 6 Voice and Data Board	Data, Telephone, Fax, Modem	- ANSI/TIA-568-C channel-rated for gigabit Ethernet - Combine with gigabit Internet router or Ethernet switch - 4-pair 110-type IDC punchdowns and six Cat 6 jacks	47611-0C6
[F] Combo Phone & Data Board with 1x4 Bridged Phone and 4-Port Cat 5e	Data, Telephone	- Provides data and phone connections on a single board - 1x4 phone portion provides four telephone lines to up to four locations via IDC punchdowns - Four ports of Cat 5e 150 MHz data connections via modular RJ-45 jacks and 4-pair 110-type IDC punchdowns	47609-4DP

SPOTLIGHT

Panels, Modules, Boards: What's the difference?

Pre-configured Structured Media™ Panels include multiple expansion boards combining voice, data, and TV boards into a single distribution point.

Modules include an expansion board on a single ABS mounting bracket.

Expansion Boards mount in Structured Media Panels or Mounting Brackets. **See page I13.**

EXPANSION BOARDS (CONTINUED)

DESCRIPTION	APPLICATION	FEATURES	PART NO.
[A] 1x9 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to four telephone lines to nine locations - Connect up to nine separate telephones per line - Printed circuit board - 4-pair 110-type IDC punchdowns	47603-110
[B] 1x6 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to four telephone lines to six locations - Connect up to six separate telephones per line - Printed circuit board - IDC connectors for Cat 5, 5e, or 6 wire - RJ-45 expansion port	47609-0F6
[C] 1x10 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to six telephone lines to 10 locations - Connect up to 10 separate telephones per line - Printed circuit board - IDC connectors for Cat 5, 5e, or 6 wire - Security port - Punchdown security interface to accommodate alarm systems	47609-S10
[D] 1x4 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to four lines to four locations via IDC punchdowns	47609-004
[E] Telephone Patching Board/ Expanded 4-line Telephone Distribution	Telephone, Fax, Modem	- Bridge up to four telephone lines to seven locations - Printed circuit board module - One incoming 4-pair 110-type IDC punchdown - Seven outgoing RJ-45 jack connections - Combine with a Cat 5e or 6 board to route telephone to remote locations	47609-EMP
Telephone Line Distribution Board	Telephone, Fax, Modem	- 19 multi-line telephone connections in combinations of two or four lines - Bridge "line 1" service to 12 locations and four-line service to eight locations - Connect to Cat 5e voice & data board(s) or additional panels for more connections and easier moves/adds/changes - Independent RJ-45 jack and punchdown security interface to accommodate alarm systems	47603-TDM

MDU & HOSPITALITY | Video Distribution & Splitters

PREMIUM AMPLIFIED CATV/HDTV MODULE

- Splits and/or amplifies signal to one, eight, or sixteen TVs throughout the home
- Bi-directional circuitry supports advanced interactive applications, as well as standard TV and video inputs
- Forward path internal amplifier provides equal input and output level on all ports; reverse path is not affected
- Unity gain eliminates the need to manually adjust attenuation
- HDTV and digital cable-ready SCTE- and DOCSIS-compliant

PASSIVE CATV/HDTV SPLITTERS

- Split signal to six or eight TVs throughout the home
- Provide digital cable, cable TV, and other TV services via coaxial cable
- Lightweight, strong die-cast housing
- HDTV and digital cable-ready; SCTE-compliant
- Available with and without Structured Media™ Center mounting bracket

Additional video and home theater solutions located in Section G.

SPOTLIGHT Popular Configurations

Whether your next project is a multiple dwelling unit (MDU), apartment, or student housing installation, Leviton can help you design the optimal network infrastructure to meet your unique requirements. Our Connected Home configurations will help you select the right components to deliver high-performance residential connectivity, including:

- Reliable, high-speed internet access
- Multi-location phone, data, and television lines
- High-bandwidth HDTV, telephone, and data distribution

You can explore Leviton Connected Home configurations, and products to support the applications and network performance you need, at Leviton.com/connectedhome.

Information in this catalog is provided as a guide to product selection and is believed to be correct at time of publication. Because Leviton engages in a continuous program of product improvement, data is subject to change without notice.

Today's networks must be fast and reliable, with the flexibility to handle ever-increasing data demands. Leviton can help expand your network possibilities and prepare you for the future. Our end-to-end cabling systems feature robust construction that reduces downtime, and performance that exceeds standards. We offer quick-ship make-to-order solutions from our US and UK factories. We even invent new products for customers when the product they need is not available. All of this adds up to the **highest return on infrastructure investment.**
