HELP YOURSELF
Register your software

NOW

It will help you to maximize your investment with the purchased software

Thank you for choosing **ASKOM** software

Striving to guarantee the high quality of services provided to our customers, we introduce the registration system for **Asix** package. The collected data shall allow to emphasize those Web-based help and knowledge system elements, which are in biggest demand among our customers. It will allow us to prepare appropriate examples, ready for instant application, to extend the descriptions with explanations of the most difficult issues, and to expand the FAQ database. All of this with aim to facilitate the use of our software and to increase its reliability.

Registration of **Asix** package shall allow you to utilize your investment to a maximum.

What do you get in return?

As a registered end user of ASKOM's **Asix** software, you are entitled to the following privileges*:

• **Access to technical support**, intended to help you in each stage of your work with **Asix** package

• **Information** about new releases and improvements prepared to improve the comfort of your work with **Asix** package

• **Right to purchase new primary releases (upgrade) and to receive free updates** to new secondary software versions and releases, so as to enable you to use the latest available tools

• **Security**, resulting from the fact, that you register a valid copy of **Asix** package, and therefore you are entitled to request help and other related privileges

* Privileges related to registration are subject to change.

How can we help you?

We provide a PERMANENT, user-friendly free technical support system via telephone or e-mail.

We will do whatever we can to solve all occurring problems. However, we cannot guarantee we will be able to find a solution in any given case.

Registration of the purchased **Asix** package is a condition allowing to obtain the free technical support.

GOOD ADVICE

ALWAYS store your software LICENSE and SOFTWARE BUNDLE CHECKLIST with care. These show the LICENSE NUMBER and hardware dongle ID NUMBER, necessary to get the updates and technical support from our company.
