

AXIS Companion

Simply wireless.

For high-quality surveillance
without the cables.

AXIS Companion wireless IP cameras are ideal when you need to set up one or two surveillance cameras in locations with a power outlet, but cannot or do not want to run cabling. Together with AXIS Companion Card 64 GB they create a self-contained recording solution with up to one week's storage.

Designed for small businesses, AXIS Companion software provides optimized monitoring of businesses, people and assets.
