# Vanguard Global Corporate Bond Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays Global Aggregate Float Adjusted Corporate Index Hedged, a market-weighted index of global corporate fixed income investments with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- With Treasury yields falling and corporate bond spreads tightening, the fund's benchmark returned 12.51% for the 12 months ended 31 December 2019. Global bonds as a whole, as measured by the Bloomberg Barclays Global Aggregate Float-Adjusted and Scaled Index Hedged, returned 8.60%.
- By sector, bonds issued by industrial and utility companies outperformed those issued by financial institutions.
- By country, the United States, which accounts for more than half of the index's market value, outperformed. Some of the other heavyweights in the index lagged, including Japan, the Netherlands and France.
- By maturity, longer-dated bonds outperformed. Results from a credit-quality perspective were mixed.

All returns in the commentary above are in US dollars.

## Benchmark: Bloomberg Barclays Global Aggregate Float Adjusted Corporate Index Hedged

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)	
	One Year	Ten Years or Since Inception <sup>1</sup>
EUR-Hedged Institutional Plus Accumulation Shares	9.04%	3.22%
Benchmark	9.24	3.50
Tracking Difference*	-0.20	
GBP-Hedged Institutional Plus Accumulation Shares	10.39%	3.58%
Benchmark	10.60	3.56
Tracking Difference*	-0.21	
GBP-Hedged Investor Accumulation Shares	10.26%	3.44%
Benchmark	10.60	3.56
Tracking Difference*	-0.34	
USD-Hedged Institutional Accumulation Shares	12.16%	5.19%
Benchmark	12.51	5.31
Tracking Difference*	-0.35	

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: EUR-Hedged Investor Accumulation Shares, 7 February 2018; GBP-Hedged Institutional Plus Accumulation Shares and GBP-Hedged Investor Accumulation Shares, 2 November 2017; USD-Hedged Institutional Accumulation Shares, 2 November 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Credit Bond Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

This fund seeks to provide a moderate and sustainable level of current income by investing in a diversified portfolio of global credit fixed income bonds.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements. The fund is actively managed and seeks to invest as described in the prospectus. The following performance information shows how the fund's returns compare with those of the Bloomberg Barclays Global Aggregate Credit Index Hedged, a market index that has investment characteristics similar to those of the fund.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- For the 12 months ended 31 December 2019, the fund outpaced its benchmark, which returned 11.85%.
- Security selection was the largest contributor to relative performance. Exposure to sovereign debt in Latin America, especially Mexico, added value. So did the fund's holdings in corporate debt issued by European banks and companies in the consumer noncyclical sector and by US banks, energy companies and consumer noncyclicals.
- The fund's modestly longer duration (a measure of a portfolio's price sensitivity to changes in interest rates) also helped given that rates declined over the period.

All returns in the commentary above are in US dollars.

## Benchmark: Bloomberg Barclays Global Aggregate Credit Index Hedged

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)	
	One Year	Ten Years or Since Inception <sup>1</sup>

Benchmark	8.61	2.37
GBP-Hedged Investor Accumulation Shares	11.50%	4.35%
Benchmark	9.97	3.56
GBP-Hedged Investor Income Shares	—	-0.48%
Benchmark	—	0.12
USD-Hedged Institutional Accumulation Shares	13.44%	6.07%
Benchmark	11.85	5.26
USD-Hedged Investor Accumulation Shares	13.38%	6.02%
Benchmark	11.85	5.26

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>). Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

<sup>1</sup> Since-inception returns: GBP-Hedged Investor Income Shares, 11 December 2019; AUD-Hedged Institutional Accumulation Shares, 18 September 2019; EUR-Hedged Institutional Accumulation Shares, GBP-Hedged Investor Accumulation Shares, USD-Hedged Institutional Accumulation Shares, and USD-Hedged Investor Accumulation Shares, 14 September 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Short-Term Bond Index Fund

Managed by Vanguard Global Advisers, LLC, and sub-managed by Vanguard Investments Australia Ltd.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays Global Aggregate Ex US MBS 1–5 Year Float Adjusted and Scaled Index, a market-weighted index of global government, government-related agency, corporate and securitised bonds, excluding US mortgage-backed securities, with maturities between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- With global bond yields generally finishing the year lower, the fund's benchmark returned 4.64% for the 12 months ended 31 December 2019. By comparison, global bonds as a whole, as measured by the Bloomberg Barclays Global Aggregate Float-Adjusted and Scaled Index Hedged, returned 8.60%.
- By country, the United States, which has the largest weighting in the index, performed better than the index as a whole. Among the other large constituents, Italy performed well, while Japan, France and Germany were among the laggards.
- By sector, Treasuries underperformed corporate bonds.
- From a credit-quality perspective, bonds on the lowest rung of the investment-grade ladder performed best.

All returns in the commentary above are in US dollars.

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: CHF-Hedged Institutional Shares, CHF-Hedged Institutional Plus Shares and CHF-Hedged Investor Shares, 31 March 2014; EUR-Hedged Institutional Shares, EUR-Hedged Institutional Plus Shares and EUR-Hedged Investor Shares, 31 March 2014; GBP-Hedged Accumulation Shares and GBP-Hedged Income Shares, 31 January 2014; GBP-Hedged Institutional Plus Accumulation Shares and GBP-Hedged Institutional Plus Income Shares, 2 September 2014; GBP-Hedged Institutional Plus Accumulation Shares and GBP-Hedged Institutional Plus Income Shares, 2 September 2014; JPY-Hedged Institutional Plus Shares, 8 September 2016; USD-Hedged Institutional Shares, 31 January 2014; USD-Hedged Institutional Plus Shares and USD-Hedged Investor Shares, 10 March 2015.

<sup>2</sup> Bloomberg Barclays Global Aggregate Ex US MBS 1-5 Year Float Adjusted Index Hedged through 28 April 2019; Bloomberg Barclays Global Aggregate Ex US MBS 1-5 Year Float Adjusted and Scaled Index Hedged thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Short-Term Corporate Bond Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays Global Aggregate Corporate 1–5 Year Float Adjusted Index, a market-weighted index of global corporate fixed income investments with maturities of between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The European Central Bank (ECB) pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- With Treasury yields falling and corporate bond spreads tightening, the fund's benchmark returned 6.60% for the 12 months ended 31 December 2019. Global bonds as a whole, as measured by the Bloomberg Barclays Global Aggregate Float-Adjusted and Scaled Index Hedged, returned 8.60%.
- In the fund's index, bonds issued by financial institutions performed a little better than those issued by industrial and utility companies.
- By country, the United States, which accounted for more than 40% of the index's market value, performed a little better than the index as a whole. Among other large constituents in the index, China, Italy and the United Kingdom outperformed, while Canada, Australia and Japan were among the laggards.
- From a credit-quality perspective, bonds at the lowest rung of the investment-grade ladder returned the most.

All returns in the commentary above are in US dollars.

## Benchmark: Bloomberg Barclays Global Aggregate Corporate 1–5 Year Float Adjusted Index Hedged

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)	
	One Year	Ten Years or Since Inception <sup>1</sup>
EUR-Hedged Institutional Accumulation Shares	—	0.13%
Benchmark	—	0.25
Tracking Difference*		-0.12
EUR-Hedged Institutional Plus Accumulation Shares	3.30%	1.13%
Benchmark	3.47	1.37
Tracking Difference*	-0.17	
GBP-Hedged Institutional Plus Accumulation Shares	4.56%	1.81%
Benchmark	4.74	1.96
Tracking Difference*	-0.18	
GBP-Hedged Investor Accumulation Shares	4.43%	1.68%
Benchmark	4.74	1.96
Tracking Difference*	-0.31	
USD-Hedged Institutional Accumulation Shares	6.29%	3.37%
Benchmark	6.60	3.68
Tracking Difference*	-0.31	

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: EUR-Hedged Institutional Accumulation Shares, 11 September 2019; EUR-Hedged Institutional Plus Accumulation Shares, 7 February 2018; GBP-Hedged Institutional Plus Accumulation Shares, GBP-Hedged Investor Accumulation Shares and USD-Hedged Institutional Accumulation Shares, 2 November 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Japan Government Bond Index Fund

Sub-managed by Vanguard Investments Australia Ltd.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays Japan Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of Japanese yen-denominated treasury and Japan government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The Bank of Japan pledged to maintain policy rates at very low levels. The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases.
- After starting 2019 at virtually zero, 10-year Japanese government bond yields fell to a low of nearly -0.3% before rising to end the year once again at virtually zero. The fund's benchmark returned 2.10% for the 12 months ended 31 December 2019. Global bonds as a whole, as measured by the Bloomberg Barclays Global Aggregate Float-Adjusted and Scaled Index Hedged, returned 6.17%.
- Japanese government bonds maturing in more than 10 years returned nearly 5%, offsetting slightly negative returns among bonds maturing in less than 7 years. Bonds maturing in 7–10 years returned about 0.2%.

All returns in the commentary above are in Japanese yen.

## Benchmark: Bloomberg Barclays Japan Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
GBP-Hedged Accumulation Shares	3.07%	2.25%	2.57%

Tracking Difference*	-0.28		

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
USD Institutional Shares	2.84%	—	4.06%
Benchmark <sup>2</sup>	3.07	—	4.28
Tracking Difference*	-0.23		
USD Investor Shares	2.80%	3.32%	0.23%
Benchmark <sup>2</sup>	3.07	3.59	0.51
Tracking Difference*	-0.27		

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: GBP-Hedged Accumulation Shares, 31 January 2014; GBP-Hedged Institutional Plus Shares and EUR-Hedged Institutional Plus Accumulation Shares, 11 December 2019; JPY Institutional Shares, 11 October 2007; JPY Institutional Plus Shares, 2 September 2014; USD Institutional Shares, 10 March 2015.

<sup>2</sup> Bloomberg Barclays Japan Government Bond Index through 30 June 2010; Bloomberg Barclays Japan Government Float Adjusted Bond Index thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard SRI Euro Investment Grade Bond Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays EUR Non-Government Float Adjusted Bond Index, a market-weighted index of euro-denominated investment-grade fixed income securities excluding euro zone treasury and euro zone government-related securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran, and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The European Central Bank (ECB) pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- Within the euro zone, growth seemed to be stabilizing despite weakness in manufacturing. The region's unemployment rate remained at its lowest in more than a decade, helping to support consumer spending. Inflation weakened before picking up in the final months of the year but was still below the ECB's 2% target.
- The fund's benchmark index returned 5.28% for the 12 months ended 31 December 2019.
- Corporate bonds, which accounted for more than half of the index, returned more than 6%. Differences in return were modest among bonds issued by financial institutions, industrial companies and utilities.
- Non-corporate bonds as a whole performed a little better than the index, while securitized debt, including mortgages, underperformed.
- Longer-dated and lower-rated investment-grade bonds performed best.

All returns in the commentary above are in euros.

## Benchmark: Bloomberg Barclays EUR Non-Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)	
	One Year	Ten Years or Since Inception <sup>1</sup>
EUR-Hedged Institutional Shares	5.07%	2.25%
Benchmark	5.28	2.40
Tracking Difference*	-0.21	
EUR-Hedged Institutional Plus Shares	5.16%	1.85%
Benchmark	5.28	2.01
Tracking Difference*	-0.12	

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

1 Since-inception returns: EUR-Hedged Institutional Shares and EUR-Hedged Institutional Plus Shares, 18 July 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Government Bond Index Fund

Sub-managed by Vanguard Asset Management, Limited.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays U.K. Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of pound sterling-denominated UK treasury and government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, a lack of agreement in the United Kingdom on how to exit the European Union, flare-ups in trade disputes and heightened international tensions with Iran. Even as those concerns eased later in the year, major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of England remained accommodative as well, keeping its interest rate target steady at 0.75% and maintaining its holdings of both gilts and sterling nonfinancial investment-grade corporate bonds.
- As gilt yields declined – the yield of 10-year gilts, for example, dropped from about 1.3% at the start of 2019 to a low of about 0.6% in late summer and early fall before closing the year at around 0.8% – prices increased. Returns rose in tandem with bonds' maturity levels.
- The fund's benchmark returned 7.64% for the 12 months ended 31 December 2019.
- A month into 2020, the United Kingdom formally committed to leave the European Union, but months of negotiations over the terms of Brexit remain. Having had years to digest the likelihood of Brexit, financial markets appeared unaffected by the formal commitment.

All returns in the commentary above are in British pounds.

## Benchmark: Bloomberg Barclays U.K. Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
GBP Accumulation Shares	7.47%	4.07%	5.65%
Benchmark <sup>2</sup>	7.64	4.24	5.77
Tracking Difference*	-0.17		
GBP Income Shares	7.47%	4.07%	5.65%
Benchmark <sup>2</sup>	7.64	4.24	5.77
Tracking Difference*	-0.17		
GBP Institutional Plus Accumulation Shares	7.56%	4.16%	5.17%
Benchmark <sup>2</sup>	7.64	4.24	5.25
Tracking Difference*	-0.08		
GBP Institutional Plus Income Shares	7.56%	4.16%	5.17%
Benchmark <sup>2</sup>	7.64	4.24	5.25
Tracking Difference*	-0.08		

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: GBP Institutional Plus Accumulation Shares and GBP Institutional Plus Income Shares, 2 September 2014.

<sup>2</sup> Bloomberg Barclays U.K. Government Bond Index through 30 June 2010; Bloomberg Barclays U.K. Government Float Adjusted Bond Index thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Investment Grade Bond Index Fund

Sub-managed by Vanguard Asset Management, Limited.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays GBP Non-Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of pound sterling-denominated, investment-grade fixed income securities, excluding government and government-related securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, a lack of agreement in the United Kingdom on how to exit the European Union, flare-ups in trade disputes and heightened international tensions with Iran. Even as those concerns eased later in the year, major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of England remained accommodative as well, keeping its interest rate target steady at 0.75% and maintaining its holdings of both gilts and sterling nonfinancial investment-grade corporate bonds.
- As yields declined – the yield of 10-year gilts, for example, dropped from about 1.3% at the start of 2019 to a low of about 0.6% in late summer and early fall before closing the year at around 0.8% – bond prices increased. Returns rose in tandem with bonds' maturity levels.
- Corporate bonds, which account for about two-thirds of the fund's benchmark, returned nearly 11% for the year.
- The fund's benchmark returned 9.34% for the 12 months ended 31 December 2019.
- A month into 2020, the United Kingdom formally committed to leave the European Union, but months of negotiations over the terms of Brexit remain. Having had years to digest the likelihood of Brexit, financial markets appeared unaffected by the formal commitment.

All returns in the commentary above are in British pounds.

## Benchmark: Bloomberg Barclays GBP Non-Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
GBP Accumulation Shares	9.32%	4.47%	6.42%

Tracking Difference*	-0.02		
GBP Income Shares	9.32%	4.47%	6.42%
Benchmark <sup>2</sup>	9.34	4.58	6.42
Tracking Difference*	-0.02		
GBP Institutional Plus Accumulation Shares	9.41%	4.55%	5.08%
Benchmark <sup>2</sup>	9.34	4.58	5.10
Tracking Difference*	0.07		
GBP Institutional Plus Income Shares	9.41%	4.55%	5.08%
Benchmark <sup>2</sup>	9.34	4.58	5.10
Tracking Difference*	0.07		

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: GBP Institutional Plus Accumulation Shares and GBP Institutional Plus Income Shares, 2 September 2014.

<sup>2</sup> Bloomberg Barclays GBP Non-Government Bond Index through 30 June 2010; Bloomberg Barclays GBP Non-Government Float Adjusted Bond Index thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Short-Term Investment Grade Bond Index Fund

Sub-managed by Vanguard Asset Management, Limited.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays GBP Non-Government 1–5 Year 200MM Float Adjusted Bond Index, a market-weighted index of pound sterling-denominated investment-grade bonds, excluding government bonds, with maturities between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, a lack of agreement in the United Kingdom on how to exit the European Union, flare-ups in trade disputes and heightened international tensions with Iran. Even as those concerns eased later in the year, major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The European Central Bank pushed its deposit rate further below zero and, in September, announced a new round of open-ended bond purchases. The Bank of England remained accommodative as well, keeping its interest rate target steady at 0.75% and maintaining its holdings of both gilts and sterling nonfinancial investment-grade corporate bonds.
- As yields declined – the yield of 10-year gilts, for example, dropped from about 1.3% at the start of 2019 to a low of about 0.6% in late summer and early fall before closing the year at around 0.8% – bond prices increased. Returns rose in tandem with bonds' maturity levels.
- Corporate bonds maturing in 1–5 years, which account for nearly 60% of the fund's benchmark, returned about 5%, on average, for the year.
- The fund's benchmark returned 3.78% for the 12 months ended 31 December 2019.
- A month into 2020, the United Kingdom formally committed to leave the European Union, but months of negotiations over the terms of Brexit remain. Having had years to digest the likelihood of Brexit, financial markets appeared unaffected by the formal commitment.

All returns in the commentary above are in British pounds.

## Benchmark: Bloomberg Barclays GBP Non-Government 1–5 Year 200MM Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
GBP Accumulation Shares	3.67%	1.95%	2.07%
Benchmark	3.78	2.14	2.22
Tracking Difference*	-0.11		
GBP Income Shares	3.67%	1.95%	2.07%
Benchmark	3.78	2.14	2.22
Tracking Difference*	-0.11		
GBP Institutional Plus Accumulation Shares	3.77%	2.05%	2.23%
Benchmark	3.78	2.14	2.31
Tracking Difference*	-0.01		
GBP Institutional Plus Income Shares	3.77%	2.05%	2.23%
Benchmark	3.78	2.14	2.31
Tracking Difference*	-0.01		

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: GBP Accumulation Shares and GBP Income Shares, 22 May 2013; GBP Institutional Plus Accumulation Shares and GBP Institutional Plus Income Shares, 2 September 2014.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Government Bond Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays U.S. Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of US dollar-denominated US Treasury and US government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further into negative territory and announced a new round of open-ended bond purchases in September. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- US Treasury yields declined, especially those of intermediate-term bonds, as the yield curve flattened and then inverted before sloping upward again. As yields declined, bond prices rose.
- Against this backdrop, the fund's benchmark index returned 6.83% for the 12 months ended 31 December 2019.
- US Treasuries, which make up the majority of the index, outperformed US government agency securities for the period. Returns for longer-term securities significantly outpaced those of their shorter-term counterparts.

All returns in the commentary above are in US dollars.

## Benchmark: Bloomberg Barclays U.S. Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
EUR-Hedged Institutional Shares	3.44%	—	-0.46%

Tracking Difference*	-0.35		

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)		
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
USD Institutional Plus Shares	6.58%	2.26%	2.57%
Benchmark <sup>2</sup>	6.83	2.36	2.69
Tracking Difference*	-0.25		
USD Investor Shares	6.44%	2.11%	2.78%
Benchmark <sup>2</sup>	6.83	2.36	3.04
Tracking Difference*	-0.39		

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: EUR-Hedged Institutional Shares and EUR-Hedged Institutional Plus Shares, 31 March 2016; GBP Investor Shares, 14 December 2017; GBP-Hedged Accumulation Shares, 31 January 2014; GBP-Hedged Income Shares, 8 March 2018; USD Institutional Plus Shares, 6 December 2013.

<sup>2</sup> Bloomberg Barclays U.S. Government Bond Index through 30 June 2010; Bloomberg Barclays U.S. Government Float Adjusted Bond Index thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Investment Grade Credit Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays Global Aggregate USD Credit Float Adjusted Bond Index, a market-weighted index designed to reflect the universe of US dollar-denominated, investment-grade fixed income securities, excluding US Treasury, US government-related and securitised securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further into negative territory and announced a new round of open-ended bond purchases in September. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- US Treasury yields declined, especially those of intermediate-term bonds, as the yield curve flattened and then inverted before sloping upward again. As yields declined, bond prices rose.
- Against this backdrop, the fund's benchmark index returned 12.91% for the 12 months ended 31 December 2019.
- Corporate bonds, which accounted for more than two-thirds of the index, outperformed the index as a whole. By sector, bonds issued by industrial companies and utilities outperformed those of financial institutions. Bonds with lower credit quality outpaced those of higher credit quality. By maturity, longer-dated bonds significantly outperformed those of shorter maturities.
- Returns for noncorporate bonds lagged those of their corporate counterparts.

All returns in the commentary above are in US dollars.

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: EUR Institutional Plus Shares, 19 December 2013; EUR-Hedged Institutional Plus Shares, 24 September 2015; GBP-Hedged Accumulation Shares, 31, 2014; GBP-Hedged Institutional Plus Accumulation Shares and GBP-Hedged Institutional Plus Income Shares, 8 September 2016; USD Institutional Plus Shares, 6 December 2013; USD Institutional Plus Income Shares, 24 September 2015; USD Investor Shares, 10 March 2015.

<sup>2</sup> Bloomberg Barclays Global Aggregate U.S. Credit Index through 30 June 2010; Bloomberg Barclays Global Aggregate USD Credit Float Adjusted Bond Index thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Treasury Inflation-Protected Securities Index Fund

Managed by Vanguard Global Advisers, LLC

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Barclays U.S. Government Inflation-Linked 1–10 Year Index, a market-weighted index designed to measure the performance of US Treasury Inflation-Protected Securities (“TIPS”) with maturities between 1 and 10 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Investors contended early in 2019 with signs of decelerating global growth, flare-ups in trade disputes, heightened international tensions with Iran and a lack of agreement in the United Kingdom on how to exit the European Union. Even as those concerns eased later in the year, many major central banks adopted more accommodative monetary policy by the end of the period in an effort to buoy economic growth and lift inflation expectations.
- The US Federal Reserve cut interest rates three times in 2019 after raising them four times in 2018. The European Central Bank pushed its deposit rate further into negative territory and announced a new round of open-ended bond purchases in September. The Bank of Japan remained accommodative as well, pledging to maintain policy rates at very low levels.
- US Treasury yields declined, especially those of intermediate-term bonds, as the yield curve flattened and then inverted before sloping upward again. As yields declined, bond prices rose.
- Yields fell and prices rose for Treasury inflation-protected securities as the Fed lowered its inflation forecast to 1.5% for 2019. The Fed indicated that it didn't expect to reach its annual inflation target of 2% until 2021.
- The fund's benchmark index returned 6.94% for the 12 months ended 31 December 2019.
- Treasury inflation-protected securities maturing in 5 years or more, which make up a bit more than half the index, outperformed their shorter-term counterparts.

All returns in the commentary above are in US dollars.

## Benchmark: Bloomberg Barclays U.S. Government Inflation-Linked 1–10 Year Index

	Total Returns Periods Ended 31 December 2019 (Annualised for periods over one year)

USD Select Income Shares	6.86%	2.07%
Benchmark	6.94	2.20
Tracking Difference*	-0.08	

Each benchmark is in its respective currency.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. (For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>.) Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor. Tracking difference in the table above is in percentage points.

<sup>1</sup> Since-inception returns: CHF-Hedged Select Accumulation Shares, EUR-Hedged Select Accumulation Shares, EUR-Hedged Select Income Shares, GBP-Hedged Select Accumulation Shares, USD Select Accumulation Shares and USD Select Income Shares, 24 October 2016; CHF-Hedged Select Income Shares, GBP-Hedged Select Income Shares and SGD-Hedged Select Accumulation Shares, 25 October 2016.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Notes to the Financial Statements

**1. General Information.** Vanguard Investment Series plc (“the Company”), an open-ended investment company with variable capital, was incorporated in Ireland as a public limited company on 4 March 1998. The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”).

Where applicable, shares are listed on the Global Exchange Market of the Euronext Dublin Exchange.

**2. Presentation of Financial Statements.** The Company is organised as an umbrella fund with segregated liabilities between sub-funds. During the year ended 31 December 2019 the Company had 32 constituent funds (31 operational funds and 1 closed fund) and 4 funds that have not yet commenced trading (each a “Fund”, collectively the “Funds”):

	Commenced Operations
Vanguard Emerging Markets Stock Index Fund (the “Emerging Markets Stock Index Fund”)	7 June 2006
Vanguard European Stock Index Fund (the “European Stock Index Fund”)	14 September 1998
Vanguard Eurozone Stock Index Fund (the “Eurozone Stock Index Fund”)	25 October 2001
Vanguard Global Enhanced Equity Fund (the “Global Enhanced Equity Fund”)	18 April 2007
Vanguard Global Small-Cap Index Fund (the “Global Small-Cap Index Fund”)	10 December 2009
Vanguard Global Stock Index Fund (the “Global Stock Index Fund”)	4 August 1998
Vanguard Japan Stock Index Fund (the “Japan Stock Index Fund”)	22 October 2003
Vanguard Pacific ex-Japan Stock Index Fund (the “Pacific ex-Japan Stock Index Fund”)	22 July 2005
Vanguard SRI European Stock Fund (the “SRI European Stock Fund”)	29 June 2010
Vanguard SRI Global Stock Fund (the “SRI Global Stock Fund”)	7 February 2011
Vanguard U.S. 500 Stock Index Fund (the “U.S. 500 Stock Index Fund”)	4 November 1998

<sup>1</sup> The Fund was liquidated on 29 November 2018 and is no longer available for subscription. Financial information related to this Fund has been presented hereafter on a liquidation basis.

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including Financial Reporting Standard (“FRS”) 102, Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “CBI UCITS Regulations”) and the Listing Rules of the Euronext Dublin Exchange. Accounting standards generally accepted in Ireland in preparing financial statements which present a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council (the “FRC”).

The Company has determined that the arrangement, headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 to more appropriately reflect the Company’s business as an investment fund.

A Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares has been presented in place of a Cash Flow Statement due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

### 3. Significant Accounting Policies.

**(a) Critical Accounting Estimates and Judgements.** The preparation of these financial statements requires the use of certain accounting estimates and requires the Company to exercise judgement when applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other facts that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements concerning the classification of financial assets and liabilities, the carrying values of financial instruments, as well as the fair value of certain financial instruments in instances where information is not readily apparent from other sources.

**(b) Revenue Recognition.** Dividends, whether cash or stock, are recognised when the securities are quoted ex-dividend. Special dividends are treated as either capital or revenue depending on the facts of each particular case.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as revenue over the life of the security using the effective yield basis of calculating amortisation. Revenue from debt securities is accounted for on a basis which takes account of the amortisation of any discount or premium between the purchase price and the expected final maturity price over the remaining life of the security.

The treatment of returns from derivatives is dependent upon the nature of the transaction and considers both motives and circumstances to determine whether returns should be treated as capital or revenue. Where positions are undertaken to protect or enhance capital, the returns are considered capital. Similarly, where positions are undertaken for generating or protecting revenue, the returns are considered revenue. Where positions generate total returns, an apportionment of any such return between capital and revenue is made to properly reflect the nature of the transaction.

Revenue is recognised gross of any withholding taxes incurred.

Bank interest is recognised on an accrual basis.

Securities lending revenue is accounted for on an accrual basis.

**(c) Taxation.** Current tax is recognised as the amount of income tax paid or payable in respect of the taxable overseas net profit. Deferred taxation is provided on all timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the year in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise.

Withholding taxes on foreign dividends and capital gains have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and rates. Foreign capital gains tax is accounted for based upon net unrealised gains.

**(d) Financial Assets and Financial Liabilities.** FRS 102 requires a reporting entity to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments Issues; (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39, Financial Instruments: Recognition and Measurement ("IAS 39"), and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, Financial Instruments, and the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of FRS 102.

**Classification and Measurement.** Financial assets and financial liabilities, including derivative investments, are classified and measured at Fair Value Through Profit or Loss ("FVTPL") from the launch date. Obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost, which approximates fair value.

**Recognition and Derecognition.** Purchases and sales of financial instruments are recognised on the trade date, being the date on which the Company commits itself to the purchase or sale. Financial instruments at FVTPL are initially recognised when the Funds become party to the contractual provisions of the instrument. Financial instruments are derecognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred. Realised gains and losses are specifically identified when securities are derecognised. Premiums received on expired options are realised as gains, while premiums paid on expired options are realised as losses. Premiums on exercised options will result in gains or losses by either increasing the proceeds received when selling the underlying security or decreasing the cost basis when purchasing the underlying security.

**Equities.** Equities (including warrants and rights) are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service. When applicable, unlisted and suspended instruments are based on the Investment Manager's assessment of their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes.

**Fixed Income.** Fixed income securities traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities and ratings), both as furnished by independent pricing services.

**Derivatives.** Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position. Forward currency contracts are valued at the closing prices of the forward currency contract rates in the London foreign exchange markets on a daily basis as provided by a reliable bank or dealer. Credit default swaps are valued using a pricing service provider; where no pricing service provider is available, contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models. Option contracts are valued at their quoted daily settlement prices.

**(e) Fair Value Measurement.** The Funds classify financial instruments measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest-level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

**Level 1**—Quoted prices in active markets for identical securities.

**Level 2**—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

**Level 3**—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments).

**(f) Transaction Costs.** Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs incurred in the purchase and sale of securities designated at FVTPL are expensed on an accrual basis.

**(g) Foreign Currency.** All transactions in foreign currencies are translated into each Fund's functional currency at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included in total return and are reported on a net basis.

The functional currency of each Fund is:

Fund	Currency	Fund	Currency
Emerging Markets Stock Index Fund	US dollar (US\$)	U.S. Investment Grade Credit Index Fund	US dollar (US\$)
European Stock Index Fund	US dollar (US\$)	U.S. Treasury Inflation-Protected Securities Index Fund	US dollar (US\$)
Global Enhanced Equity Fund	US dollar (US\$)	U.S. Ultra-Short-Term Bond Fund	US dollar (US\$)
Global Small-Cap Index Fund	US dollar (US\$)	Eurozone Stock Index Fund	Euro (€)
Global Stock Index Fund	US dollar (US\$)	Japan Stock Index Fund	Euro (€)
SRI Global Stock Fund	US dollar (US\$)	Pacific ex-Japan Stock Index Fund	Euro (€)
U.S. 500 Stock Index Fund	US dollar (US\$)	SRI European Stock Fund	Euro (€)
U.S. Fundamental Value Fund	US dollar (US\$)	20+ Year Euro Treasury Index Fund	Euro (€)
U.S. Opportunities Fund	US dollar (US\$)	Euro Government Bond Index Fund	Euro (€)
Emerging Markets Bond Fund	US dollar (US\$)	Euro Investment Grade Bond Index Fund	Euro (€)
Global Bond Index Fund	US dollar (US\$)	Eurozone Inflation-Linked Bond Index Fund	Euro (€)
Global Corporate Bond Index Fund	US dollar (US\$)	SRI Euro Investment Grade Bond Index Fund	Euro (€)
Global Credit Bond Fund	US dollar (US\$)	U.K. Government Bond Index Fund	British pound (£)
Global Short-Term Bond Index Fund	US dollar (US\$)	U.K. Investment Grade Bond Index Fund	British pound (£)
Global Short-Term Corporate Bond Index Fund	US dollar (US\$)	U.K. Short-Term Investment Grade Bond Index Fund	British pound (£)
U.S. Government Bond Index Fund	US dollar (US\$)	Japan Government Bond Index Fund	Japanese yen (¥)

In preparing the aggregate Company financial statements, all transactions have been translated into USD at the prevailing exchange rates in effect.

**(h) Cash and Bank Overdrafts.** Cash is composed of demand deposits with financial institutions or bank overdrafts. Bank overdrafts, when applicable, are presented as current liabilities. Cash held or pledged as collateral against financial transactions or derivative instruments is not included within Cash and Bank Overdrafts but is segregated and presented separately on the Statement of Assets and Liabilities as Cash Collateral.

In respect to share issuances or redemptions, the Company operates an umbrella cash account. Monies received or proceeds due will be held and transmitted through this account and are included in Cash and Bank Overdrafts.

**Margin.** Upon entering into futures contracts, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day. Margin against these derivative instruments is not included within Cash or Bank Overdrafts but is segregated and presented separately as Futures Margin Cash or Futures Margin Cash Due to Broker, as applicable.

**(i) Redeemable Participating Shares.** Redeemable participating shares provide Shareholders with the right to redeem their shares for cash and are classified as financial liabilities.

**(j) Trade Date Reporting.** Investment transactions for financial statement purposes as at 31 December 2019 are accounted for on the trade date. This is different from the basis used for the daily dealing net asset value, which is accounted for using the trade date plus one business day.

**(k) Offsetting.** Financial assets and liabilities are offset and the net amount reported when there is both a legally enforceable right to set off the recognised amounts and an intention to settle on a net basis, or realise the assets and settle the liability simultaneously. As at 31 December 2019, there were no financial assets or liabilities offset.

**(l) Equalisation.** Equalisation occurs to reflect the pro rata payment of distributions based on the time period over which shares have been owned by an investor. If shares are purchased when the Funds have accrued income but not yet declared a distribution, the Funds will credit to the equalisation account the portion of the purchase price representing income accrued but directly attributable to those shares. Conversely, if shares are redeemed when the Funds have accrued income but not yet declared a distribution, the Funds will deduct from the equalisation account the portion of the redemption price representing income accrued but directly attributable to those shares. Equalisation is accounted for through the Statement of Operations as a finance cost.

**(m) Swing Pricing.** The Funds employ swing pricing as a means to prevent dilution. Swing pricing results from the Company's determination to adjust the Funds' net asset value, on any dealing day, following a consideration of dealing activity (i.e. level of subscriptions and redemptions) and the level of costs associated with such activity. A dilution adjustment is exercised only for the purpose of reducing the negative effects of transaction charges in the interest of the non-dealing shareholders in the Funds and is applied consistently in respect of the Funds, and in respect of all assets of the Funds. The direction of the swing depends on whether there are net subscriptions or net redemptions in the Funds on the relevant dealing day, while the magnitude of the swing is based on pre-determined estimates of the average execution costs in the relevant asset classes in which the Funds are invested.

The dilution adjustment did not exceed 2% of the original net asset value per share of the Funds during the year (30 December 2018: none).

#### 4. Risk Management Policies.

**Price Risk.** Price risk is the risk that the value of financial instruments will fluctuate because of changes in the market. The Investment Manager considers the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors while continuing to follow the stated investment objective.

The investment objective for an index fund is to seek to track as closely as reasonably possible the performance of the benchmark index. In order to achieve this objective, an index fund invests primarily in securities held in the relevant benchmark index. An index fund places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

All investments present a risk of loss of capital. The Investment Manager assesses market risk volatility to ensure that the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to overall value. The Investment Manager moderates this risk through careful selection of financial instruments.

**Currency Risk.** Currency risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, can also adversely impact currency values. The Funds may enter into foreign currency contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments. The Funds may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or the shifting of exposure to foreign currency fluctuations from one country to another.

All currency-hedged share classes for the year ended 31 December 2019 are listed in the following table:

Fund	Currency	Fund	Currency
<b>Global Stock Index Fund</b>		<b>Global Short-Term Bond Index Fund</b>

		Select EUR-Hedged Income Shares	EUR
		Select GBP-Hedged Income Shares	GBP

Each hedged share class incorporates a currency hedge, which acts as a buffer against the impact of currency fluctuations for investors for whom the base currency is hedged-share-class-specific currency.

**Interest Rate Risk.** Revenue on fixed income securities may be affected by changes in interest rates relevant to particular securities or as a result of the Investment Manager being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Interest receivable on bank deposits or payable on bank overdraft positions will also be affected by fluctuations in interest rates.

For Funds with exposure to interest rate risk, the tables below summarise the percentage of each Fund's holdings by maturity:

31 December 2019							
Fund	Under 1 Year	1-5 Years	5-10 Years	10-15 Years	15-20 Years	20-25 Years	Over 25 Years
20+ Year Euro Treasury Index Fund	0.01%	—	—	—	—	40.75%	59.24%

**Management of Market Risk (Including Price, Currency and Interest Rate Risks).** The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification, maturity and credit quality, and makes adjustments where necessary to ensure that the risk components closely match those of the respective benchmarks. In addition, the Investment Manager and Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") perform daily checks of performance against the respective benchmarks. Potential tracking errors are raised and discussed by the Investment Manager and the Administrator for investigation and resolution. Market impact, currency discrepancies and interest rate exposure are investigated as possible causes. Currency positions are reconciled daily and discrepancies are immediately resolved. Procedures are established with the Investment Manager to trade currency as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the daily valuation.

**Market Risk Sensitivity Analysis.** Market risk exposures are measured using value at risk (VaR), which estimates the maximum expected loss over a defined period given a specified confidence level. The VaR methodology is a statistically defined, probability-based approach that takes into account estimates for market volatilities and correlations between assets in the portfolio. Risks can be measured consistently across markets and products, and risk measures can be aggregated to arrive at a single risk number. For the purpose of this annual report, a one-year historical (ex-post) absolute VaR calculation has been completed for each Fund as set out below. The calculation includes a 95% confidence interval with a 260-trading-day (one-year) VaR period, or since the Fund's inception if it does not have 260 trading days of performance history. That is, under normal market conditions and assuming no changes to holdings, there is a 95% probability that the value of Fund assets will not decrease by more than the calculated value over a one-year period.

VaR as presented is based on historical performance through 31 December 2019 and does not reflect the effects of any market volatility since that date.

<sup>1</sup> Fund commenced operations on 3 December 2019.

Global exposure is measured using the commitment approach, which considers the full constituents of the portfolio. The Investment Manager will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

The use of derivatives may expose the Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivative positions can therefore increase Fund volatility. The leverage is calculated on a gross exposure basis, by taking the sum of the notional values of the derivatives used by a Fund, without netting, and is expressed as a percentage of the net asset value. Certain Funds may use index futures contracts to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. The Funds did not employ any significant leverage during the year.

**Liquidity Risk.** Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Funds is exposure to cash redemptions of redeemable participating shares. Hence the Funds invest the large majority of their assets in investments that are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the Investment Manager to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Funds invest in securities that form part of the benchmark indices. Benchmark indices are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities underlying the Funds. The Funds are exposed to withdrawals and contributions that are invested to ensure that exposure to the benchmark indices are maintained in order to meet the investment objective of the Funds.

Index futures contracts may be used to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. The Funds may equitise cash holdings from inflows and outflows by purchasing futures contracts to immediately invest incoming cash to the market, or selling futures in responses to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity.

Liquidity risk is not deemed to be significant to the Funds.

**Management of Liquidity Risk.** In order to meet redemption requests and raise cash from the portfolio, the Investment Manager receives daily reports of share capital activity from the Administrator. The Investment Manager incorporates cash forecasts into the daily management of the portfolio and monitors cash balances daily.

**Credit Risk.** Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Significant investment in debt securities or use of over-the-counter derivative contracts to a material degree will generally increase credit risk.

Credit risk exposure is also created through interactions with brokers and custodians. However, transactions in listed securities are settled and paid for upon delivery of securities using only approved brokers. The risk of default is therefore considered minimal because securities are delivered only when the broker has made payment and the broker is paid for purchases only once the securities have been received by Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depository").

Credit risk may also arise from assets of the Funds which are substantially all held by the Depository. Bankruptcy or insolvency of the Depository may cause certain rights with respect to securities and other positions held to be delayed or limited. As of 31 December 2019, the Depository has a long-term credit rating of A+ from Fitch (31 December 2018: A+). Additionally, the Depository ensures there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. All securities held in custody by the Depository are segregated from the Depository's own assets, whether in a vault, in segregated accounts on the books of sub-custodians, or in an account maintained at a central securities depository. The Depository maintains segregated accounts per client on its own books as well as on the books of sub-custodians in local markets, where possible.

Certain Funds may use credit default swaps ("CDS") to a limited extent, for efficient replication of credit risk exposure or to transfer default protection on an underlying fixed income security. Credit protection purchased results in an asset which may increase credit risk, while credit protection sold results in a liability which may increase liquidity risk.

For Funds invested in debt securities the following is an analysis of the concentration of issuer credit ratings:

31 December 2019:

Fund	AAA	AA	A	BBB	Less than BBB	NR

**Management of Credit Risk.** Credit risk is managed by investment policies which restrict or place limits on acceptable portfolio and net asset concentrations as well as exposure to certain instruments, credit institutions, and counterparties. The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification and credit quality, and makes adjustments where necessary to ensure that the credit risk components closely match those of the respective benchmarks. Credit ratings of debt instruments and counterparties are monitored and evaluated periodically by the Investment Manager; an approved counterparty list is maintained, and trading with approved counterparties is enforced.

**5. Taxation.** Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares, or appropriation or cancellation of shares of a Shareholder by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer. Any tax arising on a chargeable event is a liability of the Shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events in respect of:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

(b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims received during the year, if any, are included in Foreign Withholding Tax. No other amounts for additional tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment. During the year, Vanguard Eurozone Stock Index and Vanguard Emerging Markets Stock Index Funds received reclaims, and recognized a tax benefit, in the amount of €4,300,118 and \$339,172, respectively.

**6. Distribution Policy.** The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

<sup>1</sup> Portfolio liquidated on 29 November 2018.

**7. Net Asset Value Per Share.** The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

**8. Share Capital.** The Company has variable share capital consisting of 500,000,030,000 authorised shares divided into 30,000 subscriber shares and 500,000,000,000 redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

**Subscriber Shares.** There are two Subscriber Shares in issue, which are held by nominees for the Investment Manager. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder present as aforesaid or by proxy shall have one vote for every share held.

Movement in shares for the year ended 31 December 2019:

**9. Credit Facility.** The Funds and certain other funds managed by the Manager or its affiliates participate in an annually renewable USD \$4.3 billion (2018: \$3.1 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

Any borrowings under this facility denominated in euros bear interest at the Euro Interbank Offered Rate plus an applicable margin, while borrowings under this facility in denominations other than euros bear interest at a rate equal to the higher of the one-month London Interbank Offered Rate (or an acceptable alternate rate, if necessary), federal funds effective rate, or overnight bank funding rate plus an agreed-upon spread.

Subsequent to the report date, Vanguard Emerging Markets Bond Fund was included in the facility.

The Funds did not have any borrowings outstanding at 31 December 2019 or at any time during the year then ended (31 December 2018: none).

**10. Efficient Portfolio Management.** Investment techniques and financial derivative instruments (FDIs) may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Manager to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Investment Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is JPMorgan Chase Bank, N.A. (London Branch). All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending revenue is net of any lending agent fees paid.

Securities on loan by the Funds and the value of collateral held in respect of the securities as at 31 December 2019:

Fund	Value of Outstanding Securities on Loan	Value of Collateral
Emerging Markets Stock Index Fund	\$58,330,991	\$64,196,074
European Stock Index Fund	\$34,174,037	\$38,720,997
Eurozone Stock Index Fund	€24,093,674	€26,529,524

## 12. Related Party Transactions.

**Manager.** Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and expressed as a percentage by dividing the total net assets of each share class by the number of shares in issue and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the ongoing charges figure ("OCF") of each share class will closely track the

Management Fees. In the event that the costs and expenses of the Company or any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

Any amounts due from or to the Manager at the end of the year are disclosed in the Statement of Assets and Liabilities. Amounts paid to the Manager in respect to fees for the year are disclosed in the Statement of Operations.

The Annual Management Fees of certain share classes, in certain Funds, were reduced during the period. The table below presents the amounts in effect during the period and as at 31 December 2019:

**Directors' Fees.** Aggregate director fees paid by the Manager out of the OCF on behalf of the Funds and other funds managed by the Manager for the year ended 31 December 2019 were US\$309,685 (31 December 2018: US\$306,685), of which US\$none (31 December 2018: US\$none) was outstanding at the year-end.

The Company had eight Directors as at 31 December 2019, three of whom were independent. The interests of the Directors in related parties are as follows:

Mr James M. Norris is a Managing Director of Vanguard International, a division within The Vanguard Group, Inc. Mr Sean P. Hagerty is Managing Director of Vanguard Asset Management, Limited. Mr Michael Miller retired as a Managing Director of The Vanguard Group, Inc., in 2015. Mr Richard Wane is Managing Director, Ireland. Mr Thomas Merz is Head of Distribution, Europe. Ms Tara Doyle is a partner in the legal advisory firm acting as the Manager's Secretary and serving the activities of the Manager.

Mr Richard Wane was appointed Director on 29 March 2019. Mr Axel Lomholt resigned as Director on 23 April 2019. Mr Thomas Merz was appointed Director on 15 May 2019.

**Investment Manager.** Vanguard Global Advisers, LLC, is the Investment Manager of the Company and is compensated by the Manager. PRIMECAP Management Company sub-manages Vanguard U.S. Opportunities Fund. Pzena Investment Management, LLC, sub-manages Vanguard U.S. Fundamental Value Fund.

The Investment Manager or the Manager, at their discretion, may appoint other companies from within the Vanguard Group of Companies to provide investment management and advisory services with respect to the Funds.

**Inter-Fund Trading.** The table below details the inter-fund trades between the Company and other funds also managed by the Investment Manager or its affiliates during the year ended 31 December 2019. There were no amounts outstanding between these parties as at the balance sheet date.

**13. Soft Commission Arrangements.** Neither the Investment Manager nor PRIMECAP Management Company, the sub-manager for Vanguard U.S. Opportunities Fund, has a commission arrangement on behalf of the Company. Pzena Investment Management, LLC, the sub-manager for Vanguard U.S. Fundamental Value Fund, has established client commission arrangements consistent with the concepts of Section 28(e) of the Securities Exchange Act of 1934 and the relevant interpretive guidance issued by the U.S. Securities and Exchange Commission. Under these arrangements, an adviser receives a variety of research and brokerage products and services, including but not limited to written research reports analysing performance or securities, discussions with research analysts, meetings with corporate executives regarding company performance, and market data. Any benefits obtained by an adviser in conjunction with a client commission arrangement are used for the benefit of the respective Fund.

**18. Auditors' Remuneration.** The statutory audit fee (including out-of-pocket expenses incurred by the auditors in connection with their work) paid by the Manager out of the OCF on behalf of the Company amounted to US\$528,287 for the year ended 31 December 2019 (31 December 2018: US\$553,269). The Auditors also charged for Swiss reporting services provided to the Funds, which amounted to US\$21,327 for the year ended 31 December 2019 (31 December 2018: US\$21,719). The Auditors provided no other services to the Company.

**19. Events During the Year.**

Richard Wane was appointed Director on 29 March 2019.

Axel Lomholt resigned as Director on 23 April 2019.

Thomas Merz was appointed Director on 15 May 2019.

With effect from 20 May 2019, the methodology around the application of a dilution adjustment (also known as "swing pricing") has been updated such that a dilution adjustment will only be applied when a pre-determined level (the "swing threshold") has been reached.

**20. Events Since the Statement of Assets and Liabilities Date.**

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds. Management is continuing to monitor this development and evaluate its impact on the Funds.

On 30 March 2020 shareholders voted to approve: (i) a change to the benchmark of the Vanguard SRI Global Stock Fund from the FTSE Developed Index to the FTSE Developed All Cap ex Controversies/Non-Renewable Energy/Vice Products/Weapons Index; and (ii) following this change in benchmark, a change to the name of the fund from the Vanguard SRI Global Stock Fund to the Vanguard ESG Developed World All Cap Equity Index Fund. These changes will go into effect on 13 May 2020.

Management has determined that no other events or transactions occurred subsequent to 31 December 2019 that would require recognition or disclosure in these financial statements.

**21. Approval of Financial Statements.** The Financial Statements were approved by the Directors on 24 April 2020.

# Report from the Directors

The Board of Directors (the “Directors”) submits its annual report together with the audited financial statements for Vanguard Investment Series plc (the “Company”) for the year ended 31 December 2019.

## Directors’ responsibilities statement

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with Irish law and regulations.

Irish company law requires the Directors to prepare financial statements giving a true and fair view of the state of affairs of the Company and the profit or loss of the Company for each year. Under that law the Directors have elected to prepare the financial statements in accordance with Irish Generally Accepted Accounting Practice (accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland and Irish law).

In preparing those financial statements, the Directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- State whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards.

The Directors are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”). They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors have the power, under the Memorandum and Articles of Association of the Company, to determine the time and place at which payment for shares must be made. Accordingly, the Directors in exceptional circumstances have discretion to accept subscription monies after the dealing time specified in the Prospectus. In exercising this discretion, the Directors will take into account legal considerations, timing considerations and other relevant considerations.

The financial statements are published at [www.vanguard.co.uk](http://www.vanguard.co.uk). The Directors together with the Manager and Investment Manager are responsible for the maintenance

and integrity of the website as far as it relates to Vanguard Investment Series plc. The work carried out by the auditors does not involve consideration of the maintenance and integrity of the website and accordingly, the auditors accept no responsibility for any changes that have occurred to the financial statements presented on the website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

## Statement of Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- As far as they are aware, there is no relevant audit information of which the Company’s auditor is unaware; and
- They have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company’s auditor is aware of that information.

## Directors’ Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company’s compliance with the Relevant Obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors’ opinion, designed to secure material compliance with the Company’s Relevant Obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company’s Relevant Obligations.

## Accounting records

The measures taken by the Directors to secure compliance with the Company’s obligations to keep adequate accounting records are the use of appropriate systems and procedures, appointment of an administrator and employment of competent persons. The accounting records are kept at the Administrator, 30 Herbert Street, Dublin 2, Ireland.

## Review of the business and future developments

The Company is organised as an investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the UCITS Regulations. There was no change in the nature of the Company’s business during the year.

A complete list of Funds can be found in Note 2 of the Notes to the Financial Statements.

### Potential implications of Brexit

The United Kingdom (“UK”) left the European Union (“EU”) on 31 January 2020, with a transition period that will end on 31 December 2020, unless extended (the “Transition Period”). Any decision to extend the Transition Period must be taken before 1 July 2020 and the extension can only be for one or two years. Therefore, the UK has ceased to be a EU Member State but, during the Transition Period, the UK continues to be treated as an EU Member State and EU law continues to apply. The exact nature and extent of the UK’s future relationship with the EU, following the Transition Period, remains uncertain.

Political instability and economic uncertainty may lead to speculation and subsequent market volatility, particularly for assets denominated in British pounds. Vanguard continues to encourage investors to follow its core investing principles, including maintaining long-term discipline. The implications of Brexit extend well beyond the UK economy and financial markets, affecting multinational organisations globally. Vanguard remains committed to safeguarding our investors’ assets and their long-term interests and has devoted significant resources to developing plans to manage the impact of Brexit.

### Risk management objectives and policies

The Directors draw your attention to the principal risks affecting the Funds, which are outlined in Note 4 of the Notes to Financial Statements.

### Results and dividends

The results and dividends for the year are stated in the Statement of Operations.

### Events Since the Statement of Assets and Liabilities Date

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds. Management is continuing to monitor this development and evaluate its impact on the Funds. Vanguard continues to encourage investors to follow its core investment principles, including maintaining long-term discipline. Vanguard is committed to safeguarding the assets of investors and their long-term interests.

On 30 March 2020 shareholders voted to approve: (i) a change to the benchmark of the Vanguard SRI Global Stock Fund from the FTSE Developed Index to the FTSE Developed All Cap ex Controversies/Non-Renewable Energy/Vice Products/Weapons Index; and (ii) following this change in benchmark, a change to the name of the fund from the Vanguard SRI Global Stock Fund to the Vanguard ESG Developed World All Cap Equity Index Fund. These changes will go into effect on 13 May 2020.

### Directors

The names of the persons who were Directors for all or part of the year ended 31 December 2019 are set out below.

Peter Blessing (Irish)  
James M. Norris (American)  
William Slattery (Irish)  
Michael S. Miller (American)  
Sean P. Hagerty (American)  
Tara Doyle (Irish)  
Richard Wane (British)  
Thomas Merz (Swiss)

Mr Richard Wane (British) was appointed Director on 29 March 2019. Mr Axel Lomholt resigned as Director on 23 April 2019. Mr Thomas Merz (Swiss) was appointed Director on 15 May 2019.

### Directors’ and Secretary’s interests

The Directors and Secretary and their families had no interest in the shares of the Company at 31 December 2019. No Directors had at any time during the year a material interest in any contract of significance subsisting during or at the end of the year in relation to the business of the Company.

### Independent Auditors

The auditors, PricewaterhouseCoopers, will be reappointed in accordance with Section 160(2) of the Companies Act 2014.

## Directors’ disclosure on corporate governance

### Corporate governance

The Company is authorised in Ireland pursuant to the Companies Act 2014 and the UCITS Regulations. Accordingly, the Directors are obliged to carry out the business of the Company in accordance with the UCITS Regulations and in accordance with all of the relevant provisions of the Companies Act 2014. The Directors have also adopted the Corporate Governance Code issued by the Irish Funds Industry Association (the “IFIA Corporate Governance Code”). A copy of the IFIA Corporate Governance Code is available at <http://www.irishfunds.ie/publications/>.

## Shareholder meetings and voting rights

### General meetings

All general meetings of the Company shall be held in Ireland, and at least one general meeting of the Company shall be held in each year as the Company’s annual general meeting. At least 21 days’ notice (inclusive of the day on which the notice is served or deemed to be served and of the day for which the notice is given) shall be given to shareholders. The notice shall specify the place, day and hour of the meeting and the terms of the resolutions to be proposed. A proxy may attend on behalf of any shareholder.

### **Voting rights**

Each shareholder shall be entitled to such number of votes as shall be produced by dividing the aggregate net asset value of that shareholder's shareholding (expressed or converted into US dollars and calculated as of the "relevant record date") by one. The subscriber shareholders shall have one vote for each subscriber share held. The relevant record date for these purposes shall be a date being not more than 30 days prior to the date of the relevant general meeting of shareholders or written resolution as determined by the Directors. In relation to a resolution that in the opinion of the Directors gives or may give rise to a conflict of interest between the shareholders of any class, such resolution shall be deemed to have been duly passed only if, in lieu of being passed through a single meeting of the shareholders of such class, such resolution shall have been passed at a separate meeting of the shareholders of such classes. All votes shall be cast by a poll of shareholders present in person or by proxy at the relevant shareholder meeting or by unanimous written resolution of the shareholders.

### **Class meetings—variation of class rights**

Under the Articles of Association of the Company (the "Articles"), the rights attached to each class of shares may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a Special Resolution passed at a separate general meeting of the holders of the shares of that class. The rights attaching to any class of shares shall not be deemed to be varied by the creation or issue of further shares ranking *pari passu* with shares already in issue, unless otherwise expressly provided by the terms of issue of those shares. The provisions of the Articles relating to general meetings shall apply to every such separate general meeting except that the necessary quorum at such a meeting shall be two persons present in person or by proxy holding shares of the class in question or, at an adjourned meeting, one person holding shares of the class in question or his or her proxy.

### **Directors of the company**

Unless otherwise determined by an ordinary resolution of the Company in a general meeting, the number of Directors may not be less than three nor more than nine. Currently there are seven Directors, being those listed in the directory in these financial statements.

The business of the Company is managed by the Directors, who exercise all such powers of the Company which are not required to be exercised by the Company in a general meeting in accordance with the Companies Acts and the Articles. A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. The quorum necessary for the transaction of business at a meeting of the Directors may be fixed by the Directors, and unless so fixed at any other number shall be two.

### **Internal controls and risk management**

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Directors have entrusted various delegates with responsibility for the oversight of the internal control and risk management systems. Separately, two Directors, Peter Blessing and Michael S. Miller, have been designated with the primary responsibility for evaluating the independent accountants, reviewing audit coverage and use of audit resources, and overseeing financial reporting and audit processes. The Company's internal audit function is carried out by the Internal Audit Department ("IAD") of The Vanguard Group, Inc. ("VGI"). The IAD is mandated to assist the Directors in reaching a conclusion about the overall effectiveness of internal controls and provide the Directors with the information necessary to discharge their responsibilities.

The Directors have procedures in place to ensure that all relevant books of account are properly maintained and are readily available, including production of annual and half yearly financial statements. The Directors are responsible for ensuring that the books of account disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act 2014 and the UCITS Regulations. The annual financial statements of the Company are required to be approved by the Directors. The statutory financial statements are required to be audited by the Company's independent auditors, PricewaterhouseCoopers, who report annually to the Audit Committee on their findings.

Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") is appointed as an independent administrator to the Company to maintain the books and records and the Administrator is authorised and regulated by the Central Bank of Ireland and must comply with the rules imposed by the Central Bank of Ireland. In addition, the Administrator will prepare all financial statements and corresponding notes in respect of the Company together with its annual and semiannual reports.

From time to time the board also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Directors are also responsible for safeguarding the assets of the Company which involves the taking of reasonable steps for the prevention and detection of fraud and other irregularities.

On behalf of the Board,  
Sean P. Hagerty  
James M. Norris  
24 April 2020

# Additional Information From the Directors (unaudited)

## Remuneration Disclosure

Vanguard personnel providing services to the Manager are subject to the Vanguard European Remuneration Policy (the "Remuneration Policy"). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU).

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard's Global Remuneration Committee and the European Remuneration Committee ("ERC"). The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The ERC is responsible for implementing the remuneration programmes in accordance with our total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans are reviewed and approved by the ERC (and other applicable groups) in order to ensure that plans appropriately assess financial and non-financial performance and do not encourage conflicts of interest, and to ensure that risk or compliance issues are appropriately reflected.

The ERC also reviews and approves the list of UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

Under the UCITS V Directive, the Manager is required to disclose information relating to the remuneration paid to its staff for the financial year, split into fixed and variable remuneration. The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UCITS code staff.

	Headcount <sup>1</sup>	Total Remuneration (£000) <sup>2,3</sup>
<b>Funds, of which</b>	<b>33</b>	<b>3,113</b>
Fixed Remuneration	33	2,316
Variable Remuneration	33	797
Performance Fees	n/a	n/a
<b>Code Staff</b>	<b>2</b>	<b>744</b>
Fixed Remuneration	2	298
Variable Remuneration	2	446
Performance Fees	n/a	n/a

<sup>1</sup> This is the total number of employees who are employed through VGIL.

<sup>2</sup> The staff in this table provide services to the Irish Funds.

<sup>3</sup> The remuneration disclosed is the total remuneration earned for the 2019 Irish Funds fiscal year.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

## Connected Persons Disclosure

Transactions carried out with the Company by the Investment Manager, Manager, Depositary, Investment Adviser and/or associated or group companies of these ("Connected Persons") during the year ended 31 December 2019 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

## Securities Financing Transactions Regulation ("SFTR")

Securities Financing Transactions Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs").

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement.
- Securities or commodities lending and securities or commodities borrowing.
- A buy-sell back transaction or sell-buy back transaction.
- A margin lending transaction.

As at 31 December 2019, Vanguard Investment Series plc had securities lending programme as a type of SFT under the scope of the SFTR.

#### Global Data

The amounts of securities on loan as at 31 December 2019 are as follows:

# Report of the Depositary to the Shareholders

We have enquired into the conduct of the Vanguard Investment Series plc ("the Company") for the year ended 31 December 2019 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

## Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary, must state why this is the case and outline the steps which we have taken to rectify the situation.

## Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association and the appropriate regulations; and
- (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

## Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

# Independent auditors' report to the members of Vanguard Investment Series plc

## Report on the audit of the financial statements

---

### Opinion

In our opinion, Vanguard Investment Series plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2019 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Company Statement of Assets and Liabilities and the Statement of Assets and Liabilities for each of the Funds as at 31 December 2019;
  - the Company Statement of Operations and the Statement of Operations for each of the Funds for the year then ended;
  - the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for each of the Funds for the year then ended;
  - the Statement of Investments for each of the Funds as at 31 December 2019; and
  - the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.
- 

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Independence*

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

---

## Our audit approach

### Overview

#### Materiality

- Overall materiality: 50 basis points of Net Asset Value ("NAV") at 31 December 2019 for each of the Company's Funds.

#### Audit scope

- The Company is an open-ended investment Company with variable capital and engages Vanguard Group (Ireland) Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.

#### Key audit matters

- Existence and valuation of financial assets at fair value through profit or loss.

### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p><b><i>Existence and valuation of financial assets at fair value through profit or loss</i></b></p> <p>Refer to the Statement of Investments for each of the Funds and the accounting policies set out in note 3 (a) and (d).</p> <p>The financial assets at fair value through profit or loss included in the Statement of Assets and Liabilities as at 31 December 2019 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We obtained independent confirmation from the Depositary or other counterparties of the investment portfolios held as at 31 December 2019, agreeing the amounts held to the accounting records.</p> <p>We tested the valuation of the investment portfolios by independently agreeing the valuation of investments to third party vendor sources.</p> <p>No material misstatements were identified as a result of the procedures we performed.</p>

### *How we tailored the audit scope*

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2019 there are 31 operational Funds and 1 closed Fund. The Company's Statement of Assets and Liabilities, Statement of Operations and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the 32 Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to Vanguard Global Advisers, LLC (the 'Investment Manager') and to Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

### *Materiality*

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

<b><i>Overall materiality and how we determined it</i></b>	50 basis points (2018: 50 basis points) of Net Asset Value ("NAV") at 31 December 2019 for each of the Company's Funds.
<b><i>Rationale for benchmark applied</i></b>	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2018: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

## **Conclusions relating to going concern**

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where::

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's and Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's and Funds' ability to continue as going concerns.

## **Reporting on other information**

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial

statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Report from the Directors, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Report from the Directors for the year ended 31 December 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Report from the Directors.

---

## **Responsibilities for the financial statements and the audit**

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Directors' responsibilities statement set out on page 1034, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at: [https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf). This description forms part of our auditors' report.

### *Use of this report*

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## Other required reporting

---

### **Companies Act 2014 opinions on other matters**

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
  - In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
  - The financial statements are in agreement with the accounting records.
- 

### **Companies Act 2014 exception reporting**

#### *Directors' remuneration and transactions*

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

## Additional Information for Investors in the Federal Republic of Germany

J.P. Morgan AG, Junghofstrasse 14, D-60311 Frankfurt am Main has undertaken the function of Paying and Information Agent for the Company in the Federal Republic of Germany (the "German Paying and Information Agent").

Applications for the redemptions and conversion of Shares may be sent to the German Paying and Information Agent. All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

The Prospectus together with its supplements, the key investor information documents, the Memorandum and Articles of Association of the Company and the annual and semi-annual reports may be obtained, free of charge, in hard-copy form at the office of the German Paying and Information Agent during normal opening hours. The statement of changes in the composition of the investment portfolio is also free of charge upon request at the office of the German Paying and Information Agent.

Issue, redemption and conversion prices of Shares, and any other information to the shareholders, are also available, free of charge, from the German Paying and Information Agent.

The issue, redemption and conversion prices will be published on the following website: [www.fundinfo.com](http://www.fundinfo.com).

Any other information to the shareholders will be published in Germany by way of investor letter.

## VANGUARD INVESTMENT SERIES PLC

### Additional Information for Investors in Switzerland

This additional information for investors in Switzerland forms part of the annual report for the period ended 31 December 2019 and should be read in conjunction with the Prospectus of Vanguard Investment Series Plc (hereinafter the “Company”) and all notes, explanations and additions thereto.

#### 1. SWISS REPRESENTATIVE AND PAYING AGENT

BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, CH-8002 Zurich.

Copies of the prospectus, the Key Investor Information Documents, the articles of association, any later versions of the above documents, the current annual report and financial statements of the Company or, if more recent, the interim report and interim financial statements are available at no charge at the registered office of the Swiss representative.

#### 2. TOTAL EXPENSE RATIO (TER)

All the total expense ratios (TER) reported in the Fund Profile section of the report were calculated in accordance with the 16 May 2008 guidelines on the calculation and disclosure of the TER of the Swiss Funds & Asset Management Association (SFAMA). The calculation method corresponds to the method used in Ireland. As the Company is subject to Irish law, the TER was calculated in accordance with the SFAMA guidelines and was provided for information purposes only. As a rule, deviations are limited to rounding differences.

The TER was calculated for each segment (“sub-fund”) or each share class for the period ended 31 December 2019.

Depending on the transaction, transaction costs are stated at the purchase price of the securities or separately in the revenue statement. These costs, which are not included in operating expenses under the guidelines on calculation and disclosure of the TER, are not taken into account in calculating the TER.

#### 3. PERFORMANCE OF THE FUND AND PORTFOLIO TURNOVER RATE

Fund performance was calculated in accordance with the SFAMA’s 16 May 2008 guidelines for the calculation and disclosure of fund performance. Historical performance data does not provide an indication of current or future performance. These performance data do not include fees and costs incurred on the issue and redemption of shares.

Fund performance for the period ended 31 December 2019 is presented in the Performance Summary section of the report.

The portfolio turnover rate (PTR) was calculated in accordance with the SFAMA’s 16 May 2008 guidelines for the calculation and disclosure of the PTR and is presented separately for each sub-fund.

#### 4. CHANGES IN THE COMPOSITION OF THE SECURITIES PORTFOLIO

An overview of the changes in the composition of the securities portfolio during the period under review (1 January 2019 to 31 December 2019) may be obtained at no charge from the Swiss representative.

#### 5. REFUNDS

Refunds to institutional investors are paid in accordance with the provisions of Irish law.
