HPE OFFICECONNECT 1405 5G V3 SWITCH (JH407A)

Switches

WHAT'S NEW

- New entry level 5G- and 8G- port switches for small offices.
- Plug and play, no configuration required.
- Quality of Service (QoS) and flow control for improved network efficiency.
- Energy Efficient Ethernet for low power consumption.
- 3 year warranty with 24X7 phone support for 90 days.

OVERVIEW

The HPE OfficeConnect 1405 Switch Series is a plug-and-play unmanaged fixed-port Layer 2 switch designed for small offices. These switches are preconfigured with connections using low-cost Ethernet copper cabling. They are Class B certified, energy efficient and quiet. They support administration-friendly features such as auto-negotiation. Designed for high reliability, long life, and low power consumption, they are ideal for businesses concerned with total cost of ownership.

FEATURES

Ease of Use

The HPE OfficeConnect 1405 Switch Series offers unmanaged plug-and-play simplicity.

A comprehensive LED display with per-port indicators provides an at-a-glance view of status, activity, speed, and full duplex operation.

Flow control helps to provide reliable communications during full-duplex operation.

Connectivity and Performance

The HPE OfficeConnect 1405 Switch Series with Auto-MDIX automatically adjusts to straight-through or crossover cables on all 10/100 and 10/100/1000 ports.

Jumbo packet support for Gigabit Ethernet ports only offers up to 9216-byte frame size to improve performance of larger data transfers.

Half/Full duplex auto-negotiating capability on every port doubles the throughput of every port.

Quality of Service (QoS)

The HPE OfficeConnect 1405 Switch Series has IEEE 802.1p prioritization delivering data to devices based on priority and type of traffic.

The switches support energy efficient Ethernet.

Technical specifications**HPE OfficeConnect 1405 5G v3 Switch**

Product Number (SKU)	JH407A
Differentiator	Great desktop 5-port Gigabit switch for your office or home network. This model has 5x 10/100/1000 ports with an external power adapter.
Ports	(5) RJ-45 autosensing 10/100/1000 ports
Memory and processor	Packet buffer size: 1 Mb
Latency	100 Mb Latency: < 3 μ s 1000 Mb Latency: < 2.6 μ s
Throughput	up to 7.4 Mpps
Routing/switching capacity	10 Gbps
Input voltage	100 - 240 VAC, rated
Operating humidity range	15 to 95% (noncondensing)
Power Consumption	3 W (maximum)
Minimum dimensions (H x W x D)	11.43 x 9.14 x 3.56 cm
Weight	0.18 kg

HPE POINTNEXT SERVICES

HPE Pointnext Services leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes – Advisory, Professional, and Operational Services is designed to help you evolve and grow today and into the future.

Operational Services

- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalise deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.

HPE GREENLAKE

HPE Greenlake is an as-a-service offering that delivers on-demand capacity and planning, combining the agility and economics of public cloud with the security and performance of on-premises IT.
