Forward-looking statement

In this Annual Report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward looking statements will be realised, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

The world over, two of
the most lifestyle-
transforming words are

'Ban plastic.'

At Ganesha Ecosphere, we have
responded with two alternative
words instead:

'Recycle plastic.'

* In view of this, we expanded our capacity to 1,18,800 TPA

At Ganesha Ecosphere, the more we produce, the more we recycle; the more we grow, the lower the carbon footprint; the more we sell, the larger the value generated from waste.

Our objective is to leave the world a better place.

At Ganesha Ecosphere, we are demonstrating that green business is also good business.

Recycle. Responsible. Remunerative.

How we have enhanced shareholder value over the years

Net Sales (₹ crore)

Definition

Growth in sales net of taxes and excise duties.

Why is this measured?

It highlights the product acceptance and reach of the Company in the market.

Value impact

Creates a robust growth engine to build profits.

Performance

Aggregate sales increased by 11.70% to reach ₹751.24 crore in FY2017-18 due to increasing demand for existing products and improved footprint.

EBITDA (₹ crore)

Definition

Earning before the deduction of fixed expenses (interest, depreciation, extraordinary items and tax).

Why is this measured?

It is an index that showcases the Company's ability to optimise business operating costs despite inflationary pressures and can be easily compared with retrospective averages of sectoral peers.

Value impact

Indicates operational efficiency and adequate buffer in the business.

Performance

The Company reported a 9.35% increase in its EBITDA in FY18 – an outcome of team engagement in enhancing operational efficiency.

Net profit (₹ crore)

Definition

Profit earned during the year after deducting all expenses, provisions and taxes.

Why is this measured?

This highlights the strength in the business model in generating value for its shareholders.

Value impact

Ensures that adequate cash is available for reinvestment and allows the Company's growth engine to not run out of steam.

Performance

The Company reported a 17.67% increase in its net profit in FY18 over FY17 – reflecting the robustness and resilience of the business model in growing shareholder value despite external challenges.

EBITDA margin (%)

Definition

EBITDA margin is a profitability ratio used to measure a company's pricing strategy and operating efficiency. Higher the operating margin, the better for the Company.

Why is this measured?

The EBITDA margin gives an idea of how much a company earns (before accounting for interest and taxes) on each rupee of sale.

Value impact

Demonstrates adequate buffer in the business, which, when multiplied by scale, enhances surpluses.

Performance

Slight decrease in EBITDA margin in FY 18 while enriching its product basket with superior products and improved operating efficiency amidst challenges during new tax regime.

ROCE (%)

Definition

It is a financial ratio that measures a company's profitability and the efficiency with which its capital is employed in the business.

Why is this measured?

ROCE is a useful metric for comparing profitability across companies based on the amount of capital they use - especially in capital-intensive sectors.

Value impact

A showcase of prudently investing every rupee in profitable spaces that generate higher returns for shareholders.

Performance

ROCE declined by 191 bps as earnings from the capital employed in the expanded capacity is yet to come in.

Debt-equity ratio (x)

Definition

This is derived through the ratio of debt to net worth (less revaluation reserves).

Why is this measured?

A measure of a company's financial health, indicating the ability of the Company to remunerate shareholders over debt providers.

Value impact

Yardstick for financial risk management.

Performance

The Company's gearing moderated from 0.64 in FY15 to 0.38 in FY18, depicting the Company's comfortable financial strength.

Earnings per share (₹)

Definition

The portion of company's profit allocated to each shareholder.

Why is this measured?

EPS serves as an indicator of financial health of a company. Increasing EPS accounts for better profitability of the Company per equity share.

Value impact

Enhances shareholder value essentially through a higher market capitalisation.

Performance

The Company strengthened its EPS from ₹13.36 in FY15 to ₹18.37 in FY18.

CHAIRMAN-
CUM- MANAGING
DIRECTOR'S
MESSAGE

This brings me great pleasure to present the performance of Ganesha Ecosphere for 2017-18.

The Company generated income of ₹760.56 crore during FY 2017-18, a growth of 10.47% and profit after tax grew by 17.67%.

Ganesha Ecosphere countered a challenging business environment in 2017-18 in terms of demand slowdown in textile sector owing to GST rollout. Fabric was not subjected to tax in earlier tax system but now it has been brought under GST, which affected the demand. It was temporary disruption, and we feel that GST was much-needed tax reform and it will help, in longer term perspective, in strengthening the economy and in organising the businesses.

The Company not only countered the challenge with increased output, revenue growth and better profitability but also commissioned a new RPSF production line of 21,000 TPA at its Bilaspur Unit reinforcing our RPSF segment leadership and keeping past growth trend intact.

Availability of new production line with latest technical updates will not only help us to produce more, but also broad base our product portfolio and address the demand arising out of different product segments.

While growing our business scale constantly, we have been consistently strengthening our Balance Sheet. Our efforts towards rationalising debt helped in deleveraging the balance sheet on one hand and helped in reporting an improved financial matrix. This, along with a stronger product portfolio, improved servicing capability and enhanced efficiency are helping in posting better returns.

During the year under review, we raised long term debt (net of repayments) of ₹25.50 crore against new capex of over ₹90 crore in the new RPSF capacity with moderate increase in debt-equity ratio from 0.32 in FY 2016-17 to 0.38 in FY 2017-18. Further, the business robustness helped us in corporate re-rating which, in turn, helped us to reduce average cost of debt from 10.40% in FY 2016-17 to 9.80% in FY 2017-18.

Optimism

There are number of reasons that enhance the optimism for our business.

One, the outlook for recycling continues to be sustainable.

From a macro perspective, sustained economic and disposable income growth is driving PET bottle consumption. With the Central Government laying a keen emphasis on recycling, the need and prospects of the organised players in the sector have brightened. Various State Governments, due to increased quantum of plastic waste, showing concern for responsible waste management and insisting for to formalise the pet waste collection mechanism to increase the collection of plastic scrap and diverting the same towards recycling companies. Responsibilities for framing collection mechanism are being directed towards the manufacturers, bulk consumers, brand owners and packagers through extended producer's responsibility (EPR) concept. This will drive not only increase the quantum of plastic scrap collection but also boost the recycling industry.

Two, the implementation of GST starting mid-2017 will generate long-term benefits for our business.

A 25% increase by 2020 in recycled polyester consumption by major textile, apparel and retail companies would...

Prevent 2,868,000,000 bottles being diverted from landfills

Lead to a 35,329,509 kilogram reduction in human toxicity

Save 1,849,464 megajoules in terms of primary energy demand

Reduce 122,823 kilograms in Co2 emissions.

Source: Textile Exchange's Preferred Fiber and Materials 2017

Three, global textile, apparel and retail companies are consuming increased quantities of recycled polyester fibre. In the Textile Exchange Sustainability Conference, 2017, more than 45 textile, apparel and retail companies pledged to increase their use of recycled stuff by more than 25% by 2020, prospectively broadening the market for our Company.

Given this sectoral direction, we believe that Ganesha Ecosphere is attractively placed with rich experience, established raw material pipelines, sizable manufacturing capacities, proven manufacturing technology, strong Balance Sheet, broad product portfolio, consistent customers' profile and widening presence in India and abroad.

Looking ahead

FY 2018-19 promises to be an exciting year in terms of quantum growth owing to full impact of new production capacity as well as emergence of new growth opportunities in terms of optimism spelt out above.

I want to express our gratitude to all our stakeholders – to our customers for their continued trust in our ability to support them and bring value to their business, to our suppliers in helping us to plan our operations as per schedule, to our employees and teams, who represent the foundations of our past, present and future growth and our ability to steer the Company to new heights with dedication, skill and perseverance.

And lastly of course for you, our shareholders, for your unwavering belief in our strategy and judgement. We would also like to thank all local, state and national governments, the concerned bodies, the banks and financial institutions, for their strong support.

With warm regards,
Yours Sincerely,

Shyam Sunder Sharma
Chairman

Our performance ambition

Goal

To keep the growth trend intact

Demand drivers

- Growing consumption of recycled fibre in the apparel industry
- Increasing consumption of PET packaging materials and thus growing PET scrap

availability

- Rising awareness of the benefits of PET recycling

Strategic roadmap

- Expand capacity through greenfield and brownfield initiatives
- Enhance capacity utilisation and material efficiency
- Broaden the product portfolio
- Extend into new business

lines related to environment integrity

Financial snapshot, FY2017-18

- Grew revenues by 10.47% y-o-y
- Enhanced net profit by 17.67% y-o-y

Key differentiators

- Focus on enhancing product availability

- Largest recycling polyester staple fibre capacity
- Wider product range
- Longstanding relationships with clients
- More than two decades' industry experience
- Robust Balance Sheet

How we enhanced value during 2017-18

Our resources

Financial capital

The financial resources that we seek are based on funds we mobilise from investors, promoters, banks and financial institutions in the form of debt, capital or accruals.

Manufactured capital

Our manufacturing assets, technologies and equipment for production constitute our manufactured capital. The logistics for the transfer of raw materials and finished products are integral to our manufacturing competence.

Human capital

Our management, employees and contract workers form a part of our workforce, the experience and competence enhancing value.

Intellectual capital

Our focus on cost optimisation and operational excellence, as well as our repository of proprietary knowledge account for our intellectual resources.

Natural capital

We depend on raw materials sourced from scrap (secondary source) indicating a positive impact on the natural environment.

Social and relationship capital

Our relationships with communities and partners (vendors, suppliers and customers) influence our role as a responsible corporate citizen.

Our business model

Sectoral context

Economic growth: With growing per capita income and increased economic activities, India is set to grow at a rate in excess of 7% in the coming years, making it one of the fastest-growing economies in the world. This is expected to drive consumption in the country and subsequently drive consumption of PET packaging products and drive demand for

RPSF application products.

Demographics: India is likely to emerge as the youngest country by 2020, with two-third of its population comprising people under 35 years. Higher young and working population is driving consumption.

Higher adoption of recycled fibre: Global textile and retail brands are focusing more on using higher proportion of

recycled polyester fibre in their products, driving demand for the fibre.

Government initiatives: With the government putting more focus on plastic waste management, availability of PET packaging for recycling is growing up, resulting in a better availability of PET waste for recycling through the organised route.

Our business strategy

Foresight: Though PET recycling is gaining importance in the recent past, GESL ventured in the business more than two decades back and emerged as the country's largest PET waste recycler, producing recycled polyester staple fibre.

Quality: GESL's edge lies in consistently delivering superior quality. The Company is ISO 9001:2015 - certified, ensuring conformance with superior quality norms. Besides, the Company has international certifications like Global Recycle Standard (The Control Union Certification) and 'Oeko-Tex

Standard 100, Product Class 1' by The Hohenstein Textile Testing Institute.

Value-addition: In the competitive business of PET waste recycling, value-addition differentiates a company from its sectoral peers and gives it an edge. GESL's R&D team strives to produce a versatile product range to cater to the specific needs of consumers leading to a higher bonding with customers. The Company successfully commercialised various products in the last five years. Value-addition of over ₹250 crore on raw material during FY2017-18.

Presence: The prime focus in the competitive business of PET waste management lies in penetrating raw material pockets and customer markets. GESL emerged as the largest PET waste recycling company in India - through 2,007 employees and 400+ customers.

Differentiation: The Company pioneered the manufacture of recycled staple fibre (RPSF) and yarn, supplying within India and to more than 10 countries.

Infrastructure

Scale: In the competitive business of PET waste management, the demand for RPSF has consistently increased. Following the expansion in RPSF capacity by 21,000 MTPA in 2017-18, GESL continues to be the largest RPSF manufacturer in India, strengthening offtake. Increased scale strengthened bargaining power with suppliers and customers, enhancing profits.

Network: In the competitive business of PET waste recycling, GESL widened its collection network, mobilising nearly 250 tonnes of PET waste per day, translating into adequate raw material availability to feed production lines.

Portfolio: In the competitive business of PET waste recycling, GESL reinforced its competitive advantage by widening its product portfolio across diverse applications (fibrefill, spinning industry, automobile industry, geo-textiles, medical and packaging, paper, textiles and various other non-woven sectors). With customised products, the Company is strengthening its customer engagement.

Technologies: The Company invested in cutting-edge manufacturing technologies with a dual objective: reduce costs and enhance capacity utilisation.

Financial discipline: A strong Balance Sheet reflects competitiveness and it reflected comfortable interest coverage

of 4.71 times in FY2018. GESL's liquidity profile continued to be comfortable. Though there was an increase in the average utilisation of fund-based limits to 70% in FY2018 (~52% in FY2017), this was on account of increased scale as well as a temporary GST impact that enhanced inventory. Nevertheless, the availability of adequate undrawn working-capital limits as well as sufficient accruals ensured comfortable liquidity.

Tangible results: The Company's return on capital employed strengthened from 13.26% in 2014-15 to 15.45% in 2017-18. The revenues grew from ₹621.95 crore in 2014-15 to ₹751.24 crore in 2017-18. The Company enhanced earnings per share from ₹13.36 in 2014-15 to ₹18.37 in 2017-18.

Management Discussion and Analysis

Global economic overview

In 2017, a decade after the global economy weakened, a revival became visible. Every major economy expanded: marked by Euro-zone growth, modest growth in Japan, late revival in China and improving realities in Russia and Brazil leading to an estimated 3.8% global economic growth in 2017, some 60 bps higher than the previous year.

A review of the various national economies is provided below:

The US: The world's largest economy entered its ninth straight year of growth in 2017 (2.3% compared to 1.6% in 2016).

Euro zone: This region experienced the upside arising out of cheap money provided by the central bank. In 2017, Euro zone is estimated to grow by 2.4% compared with 1.8% in 2016.

China: The Chinese economy grew faster than expected in the fourth quarter (October to December) of 2017 at 6.8%,

aided by a recovery in exports. This helped China celebrate its first annual growth in seven years (estimated at 6.9%, the highest since 2010). (Source: WEO, NBS data)

Emerging Asia: The GDP of emerging Asia is estimated at 6.5% in 2017, driven by infrastructure spending and stable economies.

GCC: The GCC countries were affected by the oil price decline (~60% since 2013), resulting in macro-economic instability that affected job creation and growth (growth subdued at 1.8% in 2017).

Russia: The economy appeared to have completed a two-year recession that proved shorter than previous downturns. In 2017, Russia was estimated to grow by 1.9% following negative growth of 0.6% in 2016 (WEO).

Brazil: In 2017, Brazil grew at 1.1% following a deceleration of 3.5% in 2016, the recovery boosted by the agricultural sector which grew by 13%.

Outlook

The outlook for advanced economies improved, notably for the Euro area, but in many countries inflation remained weak, indicating that the slack was yet to be eliminated and prospects for growth in GDP per capita were held back by

weak productivity growth and rising old-age dependency ratios. Global growth forecasts for 2018 and 2019 were revised upward by 20 bps to 3.9%, reflecting improved momentum and impact of tax policy changes in the US. (Source: WEO, IMF)

Indian economic overview

After registering GDP growth of over 7% for the third year in succession in 2016-17, the Indian economy headed for slower growth estimated at 6.7% in 2017-18. The year under review was marked by various structural reforms by the Government. In addition to GST introduction, the year witnessed significant resolution of problems associated with bank non-performing assets, FDI liberalisation, bank recapitalisation and privatisation of coal mines.

Global PET industry

Polyethylene Terephthalate commonly known as PET is the most used polymer in the world. It is a naturally transparent and semi-crystalline plastic used widely for products used in people's day-to-day life. PET polymer is better termed as "Polyester" in the textile industry. It is widely used as a fiber for clothing as it is an excellent moisture barrier and also used for bottling and packaging on large scale.

The major share of PET plastic produced, comprises synthetic fiber (up to 60%) and the remaining is majorly used for bottle production of the total global demand.

The amorphous polyethylene terephthalate (APET) market was pegged at US\$ 28.86 billion in 2017 compared to US\$ 25.11 billion in 2016, registering a year-on-year growth of almost 15%. The growth of the APET

market is marked by increasing demand for packaging materials manufactured from polyethylene terephthalate from the food & beverages industry. Moreover, the increasing purchasing power of consumers, changing lifestyle and food habits of the masses and growing popularity of ready-to-eat food items across the globe are also fueling the growth of the APET market. The market is projected to reach

US\$ 40.85 billion by 2022, at a CAGR of 7.2% between 2017 to 2022.

Indian PET industry

As per the TechSci Research report, "India PET Resins Market Study, 2011 – 2025", the market of PET resins in India is anticipated to cross US\$9.1 billion by 2025. India is one of the fastest growing

markets for PET resins in the world. Robust growth in packaging sector, rapid industrialisation and growing urbanisation are the major factors driving the country's PET resins market. Furthermore,

emerging economy, new capacity additions and increasing consumption of packaged food and beverages driven by growing disposable income are expected to aid the Indian market of PET resins

during 2016-2025. With the government driving the 'Make in India' initiative, the country has emerged as one of the key producers in the world.

Indian recycled PET industry

As stated in a report by the country's National Chemical Laboratory, nearly 70% of polyethylene terephthalate bottles are recycled in India, and the market is pegged at ₹35 billion (US\$ 530+ million) per year.

Some 900,000 tonnes of polyethylene terephthalate (PET) is produced annually in India, 65% of which is recycled at registered facilities. 15% of recycling activity takes place within the country's unorganised sector while

approximately 10% of PET is reused at homes.

The country's PET industry is expected to grow at a handsome rate, owing to the increasing demand of rapidly expanding consumer

goods packaging and bottling industry.

Global fibre market

The world fibre market is pegged at 103 million tonnes in 2017, which accounts for an expansion of ~4% year-on-year from 2016 which stood at 99 million tonnes. The demand for the same was marked by a decent acceleration in 2017-18, as compared to the previous 4 consecutive years. Natural fibres flaunted a year-on-year growth of 3% which was the

fastest pace in eight years. The cellulosic business gained 3% in volume and synthetic fibres rebounded more than 4%.

The market for wood-based fibres expanded by 5-6% year-on-year. Demand for wood-based cellulosic fibres, which remained at a high level, was encouraging. Production increased only slightly by 2.9%

to around 6.6 million tonnes due to some capacity shut downs in Asia. Owing to the good economic condition and the positive mega-trends, demand for fibres is expected to remain stable in 2018.

The synthetic fibre production also increased in 2017 and was pegged at 64.9 million tonnes reflecting a year-on-

year growth of 4.2% which was stronger than the previous two years. Polyester fibre prices even increased substantially, a further indication of the overall robust market situation in 2017.

Indian fibre market

India is the second largest manufacturer of textiles and garments across the world. The country's textile and apparel industry can be broadly divided into two categories – fibre & yarn and processed fabrics and apparel. India accounts for 14%

of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms). The domestic textile

industry in India was pegged at US\$ 150 billion in 2017-18 and is estimated to reach US\$ 250 billion by 2019.

In the Man-Made Fibre (MMF) segment, India is the second largest manufacturer after China. The Indian domestic

market saw a slight downfall in the production of man-made fibres in 2017-18. The MMF market in India was pegged at 1.319 million tonnes in 2017-18 compared to 1.364 million tonnes in 2016-17.

Recycled fibre

At less than four million metric tonnes, recycled polyester (which is the key fiber in preferred synthetics) makes up for an estimated seven per cent of polyester fiber produced — these fibers are largely used in carpets, blankets, clothing and other textile applications.

Government initiatives, increased awareness, relatively low production cost and increase in polyester uptake has seen a surge in recycled polyester growth — which is expected to continue — with China, India, Japan and the US projected to account for the highest production.

Apparel brands pledge to use 25% more recycled polyester by 2020

The Textile Exchange Sustainability Conference 2017 saw more than 45 textile, apparel and retail companies pledged to commit or support an increase in their use of recycled polyester by at least 25% by 2020.

Growth drivers

High demand of recycled

PET bottles: Billions of non-biodegradable bottles are thrown away every year without any attempt at recycling. In view of this, the manufacture of recycled yarns out of PET bottles has emerged as a game changer. The demand for high quality, 100% recycled yarns made from 100% post-consumer PET waste is high and is expected to grow.

Rising incomes: In the last decade, Indian economy has progressed rapidly. Correspondingly, India's per capita GDP has increased from ₹71,607 in FY12 to ₹117,406

in FY17 at a CAGR of 10.4% fuelling a consumption boom in the country. Correspondingly, the per capita personal disposable income surged from ₹73,476 in FY12 to ₹119,296 in FY17 at a CAGR of 10.2%. Also, the per capita private final consumption expenditure too rose from ₹40,250 in FY12 to ₹68,049 in FY17 at a CAGR of 11.1%. The growth in the country's per capita GDP in turn has increased the disposable income of the populace ultimately driving consumption. (Source: CARE)

Recycled apparel demand:

A number of international

brands are increasingly using recycled PSF in the apparel manufacturing industry, thereby generating a growing demand. The use of such recycled PSF is also a trend that the fashion industry is following nowadays. Hence, recycled apparels are the need of the hour and are in high demand.

Smart Cities Mission: Under 'Smart Cities Mission' the Government has allocated ₹2.04 Lakh crore for the development of 100 smart cities. Project worth ₹2,350 crore has already been completed, while ₹20,852 crore-worth projects are in progress. Any smart city would

need core infrastructure elements, including proper waste management which is expected to create opportunity for the industry. (Source: Indian real estate sector annual handbook)

Man-made fibre: Over past few years, man-made fibre made from recycled PET bottles and other waste material has been gaining strength. This has created opportunity for RPSF driven by durability, versatility of end usage and lower price as compared to cotton and other substitute fibres, natural or man-made.

Energy needed to make the RPET is less than what was needed to make the virgin polyester.

The water used in recycled polyester production is only a fraction of what is required in cotton growing. Water is not an input in the recycling process. It is mainly used to clean the shredded pieces of plastic and to remove the dirt and debris.

Recycled polyester is soft and durable. It is wrinkle, shrink and stain resistant. Its benefits include:

- less soil, water and air contamination;
- less dependence on oil used in the production of original polyester;
- millions of plastic bottles saved from the landfill daily and less emissions from incinerators.

Producing recycled polyester is dramatically better for the climate, creating 75% less CO2 emissions than virgin polyester. That's because recycled polyester doesn't require new petroleum to create, lowering the demand for new petroleum extraction and reducing our overall carbon footprint. And by providing a use for post-consumer and post-industrial polyester, it helps keep waste out of landfills.

Also, polyester accounts for approximately 60% of the world's production of PET, which is about twice of what is used in plastic bottles. Thus, the development of a non-virgin supply chain for polyester fiber has the potential to massively impact global energy and resource requirements.

Risk management

01 Industry risk

Drop in demand from the end-user segments could adversely impact the Company's offtake.

Mitigation: Growing demand for consumer goods and various governmental initiatives such as 'Make in India' among others are expected to boost synthetic fibre demand in the domestic market. The textile and apparel industry in India was pegged at US\$ 150 billion in 2017-18 and is expected to reach US\$ 250 billion by 2019.

02 Raw material risk

Inability to procure adequate raw material could impact the seamlessness of the Company's operations.

Mitigation: GESL has an extensive network of collection centres and scrap dealers across the country. The Company is focusing on the collection of PET waste from various hotels, malls, airports. Owing to the growing outreach in 2017-18, the Company processed more than 4.92 billion PET bottles, which helped the Company achieve a capacity utilisation of 89%. Regulatory support like Plastic Waste Management Rules, 2016 will also boost collection rate of plastic waste including PET bottle scrap.

03 Capacity expansion risk

The Company may not be able to sell the production from additional capacity.

Mitigation: With expanded capacity, the Company now has one more production line to service its customers quickly and as per their needs. Even with the expanded capacity, the Company could maintain an average utilisation of 89%, reflecting strong demand of its products.

04 Competition risk

Growing competition could have an adverse bearing on the Company's profitability.

Mitigation: GESL possesses one of the largest capacities for PET recycling in India, which helps it to reap the benefits stemming from economies-of-scale. The Company has a huge outreach across the country and has differentiated itself by capitalising on the advantage of its pan-Indian presence and the proximity to industrial hubs, which in turn acted as an entry barrier to the new players of the sector.

05 Currency fluctuation risk

Adverse currency fluctuation could impact profitability of the Company.

Mitigation: Besides having natural hedge in case of imports and exports, the Company is having continuous watch on foreign currency borrowings through cautious hedging policies.

06 Funding risk

The Company may not be able to fund its growing business and expansion needs in a cost-effective manner.

Mitigation: The Company's moderate debt-equity ratio of 0.38 in 2017-18 gives the Company liberty to take on additional borrowings. The Company's interest cover stood at a robust 4.71x as on 31st March 2018, reflecting the Company's ability to efficiently service debt. Timely repayments of debts and a moderate gearing helped raising additional debt in a cost-effective manner. The Company is also having adequate cash generation and is having access to capital market to fund its growth plan.

07 Quality risk

Main input being PET bottle scrap, contamination levels may affect the quality of final products.

Mitigation: The Company is driven towards enhancing its operational efficiency with cutting-edge technology across its manufacturing facilities. The Company also strives to produce quality ensured products and is in compliance with ISO 9001:2015 which assures quality management system. Furthermore, its competent workforce ensures high capacity utilisation levels with optimal production and reduced wastage. This enables the Company to produce products of high quality, fostering strong customer relationships.

Finance review

Basis of preparation

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS')

notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended. These financial statements for financial year 2017-18 are the

first financial statements with comparatives prepared by the Company in accordance with Accounting Standards notified under Section 133 of

the Companies Act, 2013, read with Paragraph 7 of Companies (Accounts) Rules, 2014.

Analysis of the profit and loss statement

Revenues: Total revenues of the Company reported a 10.44% growth from ₹685.95 crore in 2016-17 to ₹757.55 crore in 2017-18. The growth was primarily driven by growth in volumes owing to higher capacity. The other income of the Company reported 32.90% growth, largely driven by growth in government grants. Other income accounted for only 0.40% of the Company's revenue reflecting the Company's dependence on core business operations. Other income as a proportion of net profit stood at 8.52% in 2017-18 against 7.54% in 2016-17, reflecting Company's profitability is skewed towards its core business.

Expenses: Total expenses of the Company increased 9.98% from ₹642.35 crore in 2016-17 to ₹706.47 crore largely on account of increase in cost of raw material consumed, growth in employee cost and increase in other expenses. Raw material cost, comprising 65.08% of the Company's sales in 2017-18 (63.3% in 2016-17), increased 13.61% from

₹430.41 crore in 2016-17 to ₹488.98 crore in 2017-18 owing to increase in the operations of the Company as well as higher input prices. Employees' expenses, comprising 5.85% of the total revenues, increased 4.38% from ₹42.64 crore in 2016-17 to ₹44.51 crore in 2017-18 owing to increased employee base as well as yearly revision in remuneration of the employees. Other expenses have been increased owing to increase in freight and forwarding charges on higher volumes, allowances for doubtful trade receivables and advances as well as loss on sale/discard of property, plant and equipment.

Analysis of the Balance Sheet

Sources of funds

Capital employed: The capital employed of the Company increased 25.76% from ₹366.32 crore as on 31st March 2017 to ₹460.67 crore as on 31st March 2018 owing to increase in net worth as well as borrowings taken for the expansion project. Return on capital employed, a measurement of returns derived from every rupee invested in the

basis points from 17.39% in 2016-17 to 15.45% in 2017-18 due to deployment of funds for expansion project, the operation for which started in February 2018 only.

The net worth of the Company increased 14.22% from ₹230.09 crore as on 31st March 2017 to ₹262.83 crore as on 31st March 2018 owing to increase in profits. The Company's equity share capital comprising 19,176,877 Equity Shares of ₹10/- each, remained unchanged during the year under review.

Long-term debt: Long-term debt of the Company increased 126.76% from ₹36.65 crore as on 31st March 2017 owing to capital investments in expanded capacity. Long-term debt-equity ratio of the Company stood at 0.38 in 2017-18 compared to 0.32 in 2016-17, reflecting use of leverage to meet the operational demand.

Finance cost: Finance cost of the Company decreased 2% from ₹14.87 crore in 2016-17 to ₹14.57 crore in 2017-18 due to scheduled repayment of loans and capitalisation of finance cost on new loans taken for expansion project. The

Company's interest cover stood at a comfortable 4.71x in 2017-18 (4.11x in 2016-17), reflecting the comfort in servicing interest by the Company.

Applications of funds

Property, plant and equipment (gross) of the Company increased 26.09% from ₹356.28 crore as on 31st March 2017 to ₹449.24 crore as on 31st March 2018 largely owing to capacity expansion. Depreciation on tangible assets declined 0.24% from ₹20.53 crore in 2016-17 to ₹20.48 crore in 2017-18.

Working capital management

- Current assets of the Company increased 38.53% from ₹168.75 crore as on 31st March 2017 to ₹233.78 crore as on 31st March 2018 owing to growing business scale of the Company and impact of GST.

- Inventories including raw materials, work in progress and finished goods among others increased 44.37% from ₹92.25 crore as on 31st March 2017 to ₹133.18 crore as on 31st March 2018. FINANCIAL AND OPERATIONAL PERFORMANCE

Your Company has prepared the Financial Statements for the year ended 31st March, 2018 for the first time in accordance with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder. Previous year figures have been regrouped/re-classified wherever necessary and have been re-stated as per Ind AS.

We are pleased to inform you that your Company posted a growth of 10.39%, in revenue from operations of ₹75,755.27 Lakh, during the year under review, as compared to ₹68,623.03 Lakh in the

previous year. The Company achieved Earnings before Depreciation, Interest and Taxation (EBITDA) of ₹8914.24 Lakh in financial year 2017-18 against ₹8,153.74 Lakh in financial year 2016-17, thereby registering a growth of 9.33% on year to year basis. During the year under review, the Net Profit of the Company is improved by 18.12% at ₹3,523.08 Lakh as against ₹2982.65 Lakh in previous year due to growth in volumes and cost consciousness.

During the year, the business landscape witnessed a historical tax reform in indirect taxation, causing initial disruption. The Goods and Services Tax (GST) regime has since then stabilized. The recent

rationalization in GST rates is expected to trigger positive sentiments amongst consumers and we are optimistic about growth opportunities it may bring.

Despite rising commodity prices and high GST rates, Ganesha continued to reinforce its market position and product portfolio. Your directors are pleased to report that Company's additional production line at Temra has commenced commercial production of RPSF with an installed capacity of 21,000 TPA, w.e.f. 1st February, 2018 and full effect thereof will be reflected in the working of current financial year. With commissioning of the project, the consolidated RPSF capacity of the Company has reached at 1,08,600 TPA.

The performance of the Company during the current year continues to be encouraging and barring unforeseen circumstances, your Directors expect your Company to achieve better results during the year.

DIVIDEND

Your Directors are pleased to recommend for approval of the members, a dividend of ₹1.50 per share (i.e. @ 15%) on Equity Shares of ₹10/- each of the Company, involving cash outflow of ₹394.75 Lakh (inclusive of Dividend Distribution Tax of ₹67.31 Lakh) for the financial year 2017-18.

Pursuant to the provisions of Section 124(5) of the Companies Act, 2013, final dividend for the financial year 2009-10 amounting to ₹463,852/- being unclaimed for more than 7 years from the date it was lying in the unpaid dividend account, had been transferred by the Company to the Investors Education and Protection Fund (IEPF) of the Central Government.

SHARE CAPITAL

During the current year, your Company had made an allotment of 26,52,520 Equity Shares of face value of ₹10/- each at a price of ₹377/- per share (including premium of ₹367/- per share) aggregating to approx. ₹10,000 Lakh to eligible Qualified Institutional Buyers in accordance with Chapter VIII of the SEBI (Issue of Capital and

Disclosure Requirements) Regulations, 2009.

The proceeds of the aforesaid issue are being utilized in accordance with the objects stated in the offer document.

With the aforesaid allotment of Equity Shares, the total Paid-up Equity Share Capital of the Company stood increased from ₹1,917.69 Lakh to ₹2,182.94 Lakh.

M. Commodity price risk or foreign exchange risk and hedging activities:

The Company is exposed to the risk of price fluctuation of raw material as well as finished goods. In the absence of alternate use of raw material, its price fluctuations are directly linked to the price fluctuations of finished products. Accordingly, Company passes on any adverse movement in prices of finished goods to raw material suppliers. The Company's reputation for quality, product differentiation and service coupled with robust marketing network mitigates the impact of price risk on finished goods.

The Company is also exposed to foreign exchange risk due to borrowings in foreign currency, import of raw materials, colour/chemicals, stores and spares etc. and export of its finished products to various countries. The Company evaluates exchange rate exposure arising from these transactions and takes required hedging from time to time, which minimizes the impact of fluctuations in exchange rate movement.

Independent Auditor's Report

To
The Members of
Ganesha Ecosphere Limited

Report on the Indian Accounting Standards (Ind AS) Financial Statements

We have audited the accompanying Ind AS financial statements of **Ganesha Ecosphere Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS Financial Statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS Financial Statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply

with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinion on these Ind AS Financial Statements.

Opinion

In our opinion, and to the best of our information, and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Others Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these Ind AS Financial Statements, are based on the previously issued statutory financial statements for the years ended March 31, 2017 and March 31, 2016, prepared in accordance with the Companies (Accounting Standards) Rules, 2006, audited by the predecessor auditor who expressed an unmodified opinion vide reports dated May 22, 2017 and May 22, 2016 respectively. The adjustments to those financial statements, for the differences in accounting principles adopted by the Company on transition to Ind AS, have been audited by us.

Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, and on the basis of such checks of the books and records of the Company as we considered appropriate, and according to the information and explanations given to us, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Ind AS Financial Statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion, and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in the Ind AS Financial Statements - refer note 30.2.
 - ii. In our opinion, and as per the information and explanations given to us, the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The reporting on disclosure relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2018.

(Referred to in paragraph 1 under the heading of 'Report on Other Legal and Regulatory Requirements' of our report of even date to the Members of Ganesha Ecosphere Limited on the Ind AS Financial Statements as of and for the year ended March 31, 2018)

- (1) (i) The Company is maintaining proper records showing full particulars including quantitative details and situation of fixed assets on the basis of available information.
- (ii) As explained to us, the fixed assets are physically verified by the management, according to a phased programme designed to cover all the items over a period of three years, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. Pursuant to the programme, a portion of fixed assets has been physically verified by the management during the year and as informed to us, no material discrepancies were noticed on such physical verification.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (2) As explained to us, the physical verification of inventory has been conducted at reasonable intervals by the management during the year and discrepancies noticed on such physical verification between physical stock and book records were not material considering the operations of the Company and the same have been appropriately dealt with in the books of account.
- (3) In our opinion, and according to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties as covered in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of Clause 3(iii) (a), (b) and (c) of the said Order are not applicable to the Company.
- (4) In our opinion and according to the information and explanations given to us, the Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186 of the Companies Act, 2013. Accordingly, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- (5) According to the information and explanations given to us, the Company has not accepted any deposits from the public, within the meaning of Sections 73, 74, 75 and 76 of the Companies Act, 2013 and the Rules framed there under to the extent notified.
- (6) Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148 (1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determining whether they are accurate or complete.
- (7) (i) According to the information and explanations given to us, and the records of the Company examined by us, in our opinion, the Company has generally been regularly depositing with the appropriate authorities undisputed statutory dues including provident fund, employees state insurance, income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, goods and services tax, cess and other material statutory dues applicable to it. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (ii) According to the records of the Company, and as per the information and explanations given to us, there are no dues of duty of customs, duty of excise, goods and services tax and cess which have not been deposited on account of any dispute. The particulars of dues of income-tax, sales tax, service tax, value added tax and entry tax as at March 31, 2018, which have not been deposited on account of a dispute, are as follows:

- (8) Based on our audit procedures, and according to the information and explanations given to us, we are of the opinion that the Company has not defaulted in repayment of loans or borrowings to financial institutions or banks or Government during the year. Further, the Company has not issued any debentures during the year.
- (9) In our opinion, and according to the information and explanations given to us, the term loans have been applied for the purposes for which they were obtained. Further, as per the records, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year.
- (10) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- (11) According to the information and explanations given to us, and based on our examination of the records of the Company, the Company has paid and provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Companies Act, 2013.
- (12) In our opinion, and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, the provisions of Clause 3(xii) of the said Order are not applicable to the Company.
- (13) The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Companies Act, 2013. The details of such related party transactions have been disclosed in the Ind AS Financial Statements as required under Ind AS 24, Related Party Disclosures, specified under Section 133 of the Companies Act, 2013.
- (14) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under audit. Accordingly, the provisions of Clause 3(xiv) of the said Order are not applicable to the Company.
- (15) According to the information and explanations given to us, and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with its Directors or persons connected with them covered under Section 192 of the Companies Act, 2013. Annexure B to the Independent Auditor's Report

(Referred to in paragraph 2(f) under the heading of 'Report on Other Legal and Regulatory Requirements' of our report of even date to the Members of Ganesha Ecosphere Limited on the Ind AS Financial Statements as of and for the year ended March 31, 2018)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Ganesha Ecosphere Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to

error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information, and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based

on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

1.0 Corporate information

Ganesha Ecosphere Limited ("the Company") is a public limited company, incorporated and domiciled in India, listed on the National Stock Exchange of India Limited and the Bombay Stock Exchange Limited. The address of the registered office is Raipur (Rania), Kalpi Road, Distt. Kanpur Dehat (U.P). The Company is a leading PET Waste recycling company in India and is engaged in the manufacturing of Recycled Polyester Staple Fibre (RPSF), Spun Yarn and Dyed Texturised yarn.

2.0 Significant Accounting Policies

a) Basis of preparation

(i) Compliance with Indian Accounting Standards

These financial statements have been prepared in accordance with the Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended.

These financial statements for the year ended March 31, 2018 are the first financial statements with comparatives, prepared by the Company under Ind AS. For all previous periods up to and including the year ended March 31, 2017, the Company had prepared its financial statements in accordance with accounting standards notified under Section 133 of the Companies Act, 2013 read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Indian GAAP'). Refer note 26 for an explanation of how the transition from Indian GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities (including derivative financial instruments such as forward contracts and assets held for sale) measured at fair Value.

(iii) Current versus non-current classification

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criterion set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle to be 12 months for the purpose of current and non-current classification of assets and liabilities.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III of the Companies Act, 2013, unless otherwise stated.

b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions, based upon the best knowledge of current events and actions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the reported amounts of incomes and expenses during the reported period. Actual results may differ from those estimates. Any difference between the actual results and the estimates are recognized in the period in which the results are known/ materialised.

c) Foreign currency translation

(i) Functional and presentation currency

The financial statements are presented in Indian rupee ('₹'), which is Company's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the statement of profit and loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the statement of profit and loss. Exchange differences, in respect of foreign currency borrowings taken for acquiring qualifying assets included in property, plant and equipment, to the extent it is an adjustment to interest cost, has been capitalized. Additionally, exchange gains or losses on foreign currency borrowings taken prior to April 1, 2017 which are related to the acquisition of qualifying assets are adjusted in the carrying cost of such assets.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

d) Revenue recognition

Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and are net of returns, trade allowances, rebates, discounts and value added tax/ goods and services tax.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below:

(i) Sale of goods

Revenue from the sale of goods is recognised when significant risk and rewards of ownership are transferred to the customer. In case of domestic customer, sales take place on delivery of goods. In case of export customer, sales take place when goods are shipped on board based on bill of lading.

(ii) Job work receipts

Revenue from job work is recognised at the time of dispatch of material.

(iii) Export incentives

Export incentives under various schemes are accounted in the year of export.

(iv) Interest income

Interest income is recognized on time proportion accrual basis using the applicable/ effective interest rate.

(v) Insurance claims

Insurance claims are accounted only when there is reasonable certainty of its ultimate collection. Insurance claim receivable is recognised as a separate asset, but only when the claim receivable is virtually certain.

e) Government grants

Grants from the Government are recognised at their fair value when there is reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to statement of profit and loss on a straight line basis over the expected lives of related assets and are presented within other income. Government grants relating to an expense item is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed and are netted off from the related expense. However, where the grant pertains to expenses already incurred in earlier years, it is disclosed in other income.

Export Promotion Capital Goods ('EPCG') Scheme allows import of certain capital goods at zero/ concessional duty subject to an export obligation for the duty saved. The duty saved on capital goods under EPCG scheme is treated as a Government grant and is recognised as income spread equally over the expected useful life of the related asset.

In case of interest free/ concessional loan provided by Government, the loan or assistance is initially recognised and measured at fair value and the Government grant is measured as the difference between the initial fair value of the loan and the proceeds received. The loan or assistance is subsequently measured as per the accounting policy applicable to financial liabilities.

f) Taxes

(i) Current income-tax

Current income-tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted, at the reporting date.

(ii) Deferred income-tax

Deferred income-tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred income-tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income-tax assets are realised or the deferred income-tax liabilities are settled.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

(iii) Minimum alternate tax ('MAT')

MAT Credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income-tax during the specified period.

g) Non-current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use and a sale is considered as highly probable. Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Asset classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

h) Property, plant and equipment

The Company has elected for the one time transition exemption of considering the carrying cost on the transition date i.e. April 1, 2016 as the deemed cost under Ind AS. Hence regarded thereafter as historical cost.

Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

Property, plant and equipment which are not ready for their intended use are disclosed under capital work-in-progress. Expenditure during construction period (including borrowing cost relating to borrowed funds for construction or acquisition of property, plant and equipment) incurred on projects/ assets, including trial run expenses (net of revenue) are treated as pre-operative expenses, pending allocation to the assets, and are included under capital work-in-progress. These expenses are apportioned to related property, plant and equipment on commencement of commercial production. Capital work-in-progress is stated at the amount expended up to the date of the balance sheet.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment is provided on Written Down Value Method ('WDV') except in respect of buildings and plant & equipment of Kanpur Unit and Temra Unit (located at Bilaspur) where depreciation is provided on Straight Line Method ('SLM').

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act, and management believes that the useful life of assets are same as those prescribed in Schedule II to the Act, except for certain plant & equipment being continuous process plants, required and designed to operate for 24 hours a day, where the useful life has been estimated, based on independent technical evaluation, as 18 years, which is different from that prescribed in Schedule II to the Act.

Useful life considered for calculation of depreciation for various assets class are as follows:

Assets	Useful life
Buildings	30 – 60 years
Roads (capitalised under buildings)	10 years
Plant & equipment	5-18 years
Furniture and fixtures	5-10 years
Office equipment (including computers, computers equipment and servers)	3-10 years
Vehicles	8-10 years

Assets individually costing ₹0.10 Lakhs or less are fully depreciated within the year of acquisition. Residual value of tangible assets is considered to be not more than 5% of the cost.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

i) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairments, if any. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use. Intangible assets which are not ready for their intended use are disclosed as intangible assets under development and are stated at the amount expended up to the date of the balance sheet.

The Company amortizes computer software and technical know-how using the straight line method over the period of 5 years.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end and adjusted prospectively, if appropriate.

j) Borrowings

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of profit and loss over the period of the borrowings using the effective interest method.

k) Borrowing costs

Interest and other borrowing costs attributable to qualifying assets, which takes substantial period of time to get ready for its intended use, are capitalized. All Other interest and borrowing costs are charged to the statement of profit and loss. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

l) Leases

Operating lease

As a lessee

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Payments under operating lease are recorded in the statement of profit and loss on a straight line basis over the

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

Initial premium paid on leasehold land is amortized on straight line basis over the period of lease.

m) Inventories

Items of inventories are valued at the lower of cost and net realisable value after providing for obsolescence, if any. Cost comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories is ascertained on the 'weighted average' basis. Inventory of finished goods and work-in-progress is valued on full absorption cost incurred in bringing the inventories to their present location and condition. Goods-in-transit are stated at cost. Wastes and scraps are valued at net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

n) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses, if any, are recognized in the statement of profit and loss. Non-financial assets that suffered an impairment are reviewed for possible reversal of impairment at the end of each reporting period.

o) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. The Company does not recognise a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resource is remote.

Provisions and contingent liabilities are reviewed at each balance sheet date.

p) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service, are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit

The liabilities for earned leave, that are not expected to be settled wholly within 12 months, are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund, family pension fund and employee's state insurance

(a) Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost is included in employee benefits expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(b) Defined Contribution Plans

Defined contribution plans such as contributions to provident fund, family pension fund and employee's state insurance are made to the funds administered by the Government of India, and are recognized as an expense when employees have rendered service entitling them to the contributions.

q) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash at banks and on hand, bank overdrafts and short-term deposits with an original maturities of three months or less, which are subject to an insignificant risk of changes in value.

r) Financial instruments

i. Recognition and initial measurement

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not measured at fair value through profit or loss are added to the fair value on initial recognition. Purchase and sale of financial assets are accounted for using the trade date accounting.

ii. Classification and subsequent measurement

Financial assets

a. Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

c. Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the statement of profit and loss.

iv. Impairment of financial assets

The Company assesses impairment based on expected credit losses ("ECL") model at an amount equal to 12 months expected credit losses, or Lifetime expected credit losses depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the Company does not track the changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

v. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

s) Derivative financial instruments

The Company uses derivative financial instruments, such as forward contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of profit and loss.

t) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

2.0 Significant Accounting Policies (Contd.)

(ii) Diluted earnings per share

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders of the Company and weighted average number of equity shares outstanding during the year are adjusted for the effect of all potentially dilutive equity shares.

u) Recent accounting pronouncements

Amendments to Ind AS 115, 'Revenue from Contracts with Customers':

In March 2018, the Ministry of Corporate Affairs has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ('amended rules'). As per the amended rules, Ind AS 115, 'Revenue from Contracts with Customers' supersedes Ind AS 11, 'Construction Contracts' and Ind AS 18, 'Revenue' and is applicable for all accounting periods commencing on or after April 1, 2018.

Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

Retrospective approach – Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.

Cumulative catch-up approach – Under this approach, the standard will be applied retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application.

The Company is evaluating the requirement of the amendment and the impact on the Ind AS Financial Statements. The effect on adoption of Ind AS 115 is expected to be insignificant.

Amendments to Annexure B to Ind AS 21, 'Foreign Currency Transactions and Advance Consideration':

The amended rules, containing Appendix B to Ind AS 21, 'Foreign Currency Transactions and Advance Consideration', clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the requirement of the amendment and the impact on the Ind AS Financial Statements. The effect on adoption of amended Ind AS 21 is expected to be insignificant.

26.0 FIRST-TIME ADOPTION OF IND AS

These financial statements, for the year ended March 31, 2018, are the first financial statements, the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2017, the Company had prepared its financial statements in accordance with accounting standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Indian GAAP'). For the purpose of transition from Indian GAAP to Ind AS, the Company has followed the guidance prescribed under the Ind AS 101, 'First-time Adoption of Indian Accounting Standards', with effect from April 1, 2016 ('transition date').

The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended March 31, 2018, the comparative information presented in these financial statements as at and for the year ended March 31, 2017 and in preparation of the opening Ind AS balance sheet as at April 1, 2016. This note explains how the transition from Indian GAAP to Ind AS has affected the Company's balance sheet and financial performance.

Exemptions/ exception availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from Indian GAAP to Ind AS:

(i) Ind AS optional exemptions

Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38, 'Intangible Assets'.

Accordingly, the Company has elected to measure all of its property, plant and equipment as well as intangible assets at their Indian GAAP carrying value. There are no decommissioning liabilities of the Company.

(ii) Ind AS mandatory exceptions

Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance the previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with Indian GAAP.

Reconciliations between Indian GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flow for prior periods. The presentation requirements under Indian GAAP differs from Ind AS, and hence, Indian GAAP information has been regrouped for ease of reconciliation with Ind AS. The regrouped Indian GAAP information is derived from the financial statements of the Company prepared in accordance with Indian GAAP. The following tables represent the reconciliations from Indian GAAP to Ind AS.

26.0 FIRST-TIME ADOPTION OF IND AS (Contd.)

Notes to the reconciliation of equity as at April 1, 2016 and March 31, 2017 and total comprehensive income for the year ended March 31, 2017:

a. Property, plant and equipment

i. Recognition of Government grant

For the subsidy received from the Government for capital expenditure which has been reduced from the value of the fixed asset capitalized in earlier years, the WDV amount as at April 1, 2016 has been added in the value of the assets and deferred Government grant is recognized. The deferred Government grant is taken to profit and loss on a straight line basis over the remaining useful life of the assets. This has resulted in an increase in net block of property, plant and equipment by ₹197.24 Lakhs and ₹186.00 Lakhs as at April 1, 2016 and March 31, 2017 respectively and an increase in deferred Government grant by ₹197.24 Lakhs and ₹185.25 Lakhs as at April 1, 2016 and March 31, 2017 respectively. Correspondingly, depreciation for the year ended March 31, 2017 has increased by ₹11.24 Lakhs and Government grant income has increased by ₹11.99 Lakhs.

ii. Reclass of leasehold land

Leasehold land has been considered as an operating lease since the Company does not have the option to buy the land after the completion of the initial lease period of 90 years but is having a renewal option as per the lease agreement. Accordingly, the leasehold land has been removed from the block of property, plant and equipment and has been added to prepaid rental expense. The net block of property, plant and equipment has been reduced by ₹131.43 Lakhs and ₹129.82 Lakhs as at April 1, 2016 and March 31, 2017 respectively with a corresponding increase in the prepaid rental expense of respective years. The depreciation for the year ended March 31, 2017 has reduced by ₹1.61 Lakhs with a corresponding increase in other expense.

b. Fair valuation of forward contracts

Under the Ind AS 109, forward contracts are carried at fair value and the resultant gains and losses are recorded in the statement of profit and loss. Accordingly, this has resulted in an increase in other financial assets by ₹21.83 Lakhs as at April 1, 2016 with a corresponding credit to the opening retained earnings and an increase in other financial assets by ₹9.55 Lakhs as at March 31, 2017. This has also resulted in a net decrease in foreign exchange fluctuation gain by ₹12.28 Lakhs during the year ended March 31, 2017.

c. Proposed dividend

Under Indian GAAP, till March 31, 2016, proposed dividends and related dividend distribution tax was recognized as a provision in the year to which they relate, irrespective of when they are declared. Under Ind AS, dividends and related dividend distribution tax are recognized as a liability in the year in which it is approved by the shareholders in the annual general meeting of the Company or paid. In the case of the Company, the declaration of dividend occurs after period end. Therefore, the liability of ₹276.97 Lakhs as at April 1, 2016 recorded for dividend has been derecognized against retained earnings.

d. Reclass of prior period items

Under Indian GAAP, prior period items (net) as at March 31, 2017 had been taken to other expenses. Under Ind AS, it has been adjusted to opening retained earnings, which has resulted in decrease in retained earnings as at April 1, 2016 by ₹5.57 Lakhs and an increase in other current liabilities as at April 1, 2016 by similar amount.

e. Measurement of financial assets and financial liabilities - interest free loan

Under Indian GAAP, the Company had accounted for financial liability related to interest free loan which is repayable in the year 2023-24 at the undiscounted amount whereas under Ind AS, such financial liability are recognized at present value with a corresponding credit to the Government grant. This has resulted in a decrease in financial liabilities and increase in deferred Government grant by ₹11.26 Lakhs as at March 31, 2017. The financial liability is then increased by ₹0.62 Lakhs with corresponding increase in interest expense and deferred Government grant is reduced by ₹0.84 Lakhs with a corresponding credit to statement of profit and loss during the year ended March 31, 2017.

f. Defined benefit liabilities

Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to the statement of profit and loss. Under Ind AS, remeasurements comprising of actuarial gains and losses on defined benefit obligations are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Accordingly, actuarial gain of ₹3.38 Lakhs during the year ended March 31, 2017 has been removed from employee benefit expenses and ₹2.21 Lakhs (net of deferred tax of ₹1.17 Lakhs) has been recognized in OCI.

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

26.0 FIRST-TIME ADOPTION OF IND AS (Contd.)

g. Excise duty

Excise duty of ₹1,177.66 Lakhs on account of sale of goods has been included in revenue for the year ended March 31, 2017 and is separately disclosed as an expense since it is liability of the manufacturer which forms part of the production, irrespective of whether goods are sold or not.

h. Other comprehensive income

Under Ind AS, all items of income and expense recognized in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognized in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under Indian GAAP.

i. Deferred tax

Under Ind AS deferred tax has been recognized on the adjustments made on transition to Ind AS.

j. Cash flow statement

The Ind AS adjustments are either non-cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2017 as compared with Indian GAAP.

35.4 No amount has been written off or written back during the year in respect of debts due from or to related parties.

36.0 Financial instruments

The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values

- A. The fair values of derivatives such as forward contracts are on mark to market basis as per bank.
- B. The Company has adopted effective interest rate for calculating interest expense. Processing fees and transaction costs relating to each loan has been considered for calculating effective interest rate. The fair values of non-current borrowings are classified as level 3 in the fair value hierarchy due to the use of unobservable inputs including own credit risk.
- C. Loans and other non-current financial assets are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken into account for expected losses of these receivables. Accordingly, the fair value of loans is equal to their carrying amount. These fair values are classified as level 3 in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.
- D. Fair values of cash and cash equivalents, trade receivables, bank balances, current loans, other current financial assets, trade payables, current borrowings and other financial liabilities are considered to be the same as their carrying amount due to short-term maturities of these instruments.

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Notes to the financial statements FOR THE YEAR ENDED MARCH 31, 2018

37.0 Financial risk management

The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's senior management oversees the management of these risks.

The Company has exposure to the following risks (arising from financial instruments):

- Credit risk
- Liquidity risk
- Market risk

A. Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. The Company is exposed to credit risk mainly from trade receivables, loans given and other financial assets.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on assets as at the reporting date with the risk of default as at the date of initial recognition.

Trade receivables are typically unsecured and derived from revenue earned from customers located in India and abroad. Credit risk is managed by the Company through customer assessment, credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. The Company measures the expected credit loss of trade receivables based on historical trend, industry practice and the business environment in which the entity operates. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables, loans given and other financial assets.

The allowance for life time		(₹ in Lakhs)	
Particulars	As at March 31, 2018	As at March 31, 2017	
Allowance for expected credit loss			
Opening balance	70.87	37.83	
Impairment loss recognized (net of reversals)	71.61	33.04	
Closing balance	142.48	70.87	

Loans given and other financial assets are considered to be of good quality and there is no significant credit risk.

B. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

a. Financing arrangements

The Company believes that it has sufficient working capital to meet its current requirements. Accordingly, no liquidity risk is perceived. Further, the Company is having cash credit facilities from banks of ₹12,500.00 Lakhs (March 31, 2017: ₹10,500.00 Lakhs and April 1, 2016: ₹10,500.00 Lakhs), repayable on demand which carry floating rate of interest.

C. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e., currency rate, interest rate and other price related risks. Financial instruments affected by market risk include borrowings, loans given, deposits, foreign currency receivables and payables and derivative financial instruments such as forward contracts. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Regular interaction with bankers, intermediaries and the market participants help us to mitigate such risk.

i) Foreign currency risk

The Company is exposed to foreign currency risk through operating and financing activities in foreign currency. The Company uses derivative financial instruments, such as foreign currency forwards, to reduce foreign currency risk exposure and follows its risk management policies.
