MANAGEMENT DISCUSSION AND ANALYSIS

Background:

Transwarranty Finance Limited is a non-deposit accepting Non-Banking Finance Company ("NBFC"), holding a Certificate of Registration from the Reserve Bank of India ("RBI") engaged in a wide spectrum of financial services, both advisory and fund based lending.

The Company is headquartered in Mumbai and has a capital market subsidiary engaged in equity / commodities / currency broking and Merchant Banking.

Economic Scenario:

The Indian economy is continuing its positive momentum with GDP growth rate of around 7.4% in 2018 largely driven by accelerated pace of structural reforms. Although higher oil prices kept the inflation more than expected, the consumption is slowly picking up leading to improving industrial and economic activity.

Industry Overview:

The Indian financial services industry is growing rapidly. The main drivers of growth are digitization, financial inclusion, recapitalization of public sector banks and continued inflow of FII funds. Non-Banking Financial Companies (NBFC) are an integral part of the Indian Financial system, augmenting competition and diversification in the financial sector and complementing the banking system. The Indian NBFC sector has been providing credit to customers in the underserved and unbanked areas. Their channelling the savings and investments of customers and the subsequent capital formation is necessary for India's economic growth and development. Their ability to innovate products in conformity with the needs of their clients is well established. According to CRISIL, NBFCs in India are expected to see 18% Compounded Annual Growth Rate (CAGR) for the next two-and-a-half years and raise their share in total credit to 19% by 2020.

Review of operations of the Company:

The Company along with its subsidiary companies achieved consolidated revenue of ₹ 1782.29 lakhs compared to ₹ 1983.45 lakhs in the previous year. On a standalone basis the revenue is marginally lower at ₹ 962.49 lakhs compared to ₹ 1185.62 lakhs in previous year. This is mainly on account of reduction in sale of shares at ₹ 384.60 lakhs in current year compared to ₹ 723.83 lakhs in previous year.

The Company has three major business operations in advisory services consisting of Trade Finance, Corporate Finance and Investment Banking.

Trade finance, which caters to the working capital needs of companies, showed a modest increase in the activity and executed business transactions of ₹ 2913.24 crores (previous year ₹ 2533.14 crores) with income of ₹ 108.96 lakhs (previous year ₹ 91.75 lakhs) for the year.

Corporate Finance & Investment Banking also showed substantial improvement in the activities. Business transactions worth of ₹ 75 crores (previous year ₹ 52 crores) was executed with an income of ₹ 341.00 lakhs (previous year ₹ 294.00 lakhs)

The lending business, which is providing loans to the economically challenged sections of the society against security of gold jewelry, is losing its shine due to various government measures to discourage import of Gold and stringent directives by RBI to banks and NBFC for taking exposures to gold lending business. The company had decided to lower its exposure to gold lending business till full clarity emerges.

ANNEXURE 'B' TO INDEPENDENT AUDITORS' REPORT

(Annexure referred to under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date.)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of Transwarranty Finance Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of

changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018. However, the Company is in the process of establishing the internal control over financial reporting criteria considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018. However, the Company is in the process of establishing the internal control over financial reporting criteria considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over

Financial Reporting issued by the Institute of Chartered Accountants of India.
