Being a non-deposit accepting HFC, the Company relies on borrowings to fund its lending business. The top-line (net) revenue is the Net Interest Income (NII) and is driven by the spread on the Company’s loan book – spread is the difference between the rate at which loans are extended by the Company and rate at which the Company borrows monies. Thereafter, the profit of the Company is arrived at by adding to the NII other relatively smaller revenue items like processing fees and other fees, and after netting off operating expenses and credit costs. Profit growth is driven by NII growth, which in turn is derived from continuous book growth. Thus, the Company and its profits grow through growth in loan book. Borrowings fund loan book growth and thus borrowings have to grow for the Company and profits to grow. An inability to enhance the borrowing limit would impede the Company’s growth.

Over the past six years, the Company has clocked steady growth. The balance sheet size which stood at ₹ 1,03,705 Cr. as on March 31, 2017 has grown at a six-year CAGR of 27% from ₹ 25,305 Cr at the end of FY2010-11. Similarly, loan assets have grown at a six-year CAGR of 29% and stood at ₹ 91,301 Cr on March 31,2017 up from ₹ 19,825 Cr at the end of FY2010-11.

Loan asset growth has been funded by borrowings which stood at ₹ 85,301 Cr as on March 31, 2017 growing at a six-year CAGR of 28% from ₹ 19,319 Cr at the end of FY2010-11. Expanding loan book has in turn led to steady growth in profits: profit for FY2016-17 stood at ₹ 2,906 Cr and has grown at a six-year CAGR of 25% from ₹ 751 Cr in FY2010-11.

Return on Equity (RoE), the measure of shareholder earnings, is the ratio of profit to shareholder funds (net worth). RoE is driven by two key factors – the spread and the proportion of book that is funded by borrowings i.e. the leverage. The Company’s RoE increases with leverage and thus an optimal leverage is essential for generating shareholder returns. In FY 2016-17 the Company’s RoE was 26.0%, substantially higher than the average RoE for HFCs of 19.9%¹.

The Company’s net gearing computed as the ratio of [borrowings, net of cash and liquid investments] to [net worth] stood at 5.7x as of March 31, 2017. The Company’s gearing is one of the lowest amongst its HFC peers – at the end of FY 2016-17 the average gearing for HFCs was 8.0x¹. The Company thus has sufficient headroom to increase its borrowings and drive RoE expansion.

Borrowings (₹ Crores)

The shareholders of the Company in their 11th Annual General Meeting held on 8th September, 2016 authorized the Company to borrow monies upto ₹ 125,000 Crores. Against this borrowings as on March 31, 2017 stood at ₹ 85,301 Crores and the borrowings as on June 30, 2017 stood at ₹ 88,468 Crores.

Strong growth, robust profitability and conservative gearing levels are key parameters that a rating agency monitors. Superior performance across these parameters has resulted in a steady rating upgrade trajectory for the Company and today, the Company has the highest long-term credit rating of AAA from three rating agencies. In June 2017, rating agency ICRA, the Indian arm of the leading international credit rating agency Moody's upgraded the Company's rating to AAA. Credit ratings are a key determinant of borrowing costs, and the highest long term credit rating of AAA enables the Company to borrow at fine rates boosting spreads and ultimately profits and RoE.

"Housing for all by 2022" is the government's headline mission and towards this, government agencies and various sectoral regulators have coordinated their efforts to align policies and fiscal incentives. Resultantly, housing and the housing finance industry have bright prospects for an elongated period of growth. Highly rated HFCs, such as your Company, that can fund its growth efficiently are best placed to make the most of this opportunity.

To sustain business growth and to take advantage of opportunities for accelerated growth in a very favorable macro-economic environment, substantial funds may be required to be raised by the Company from various Banks / Institutions / Corporates / Entities etc., the aggregate of which may exceed the existing limits. It is therefore proposed to increase the borrowing limit of the Company from ₹ 125,000 Crores to ₹ 145,000 Crores. While the actual outstanding borrowings at the end of periods such as on March 31, 2018 and June 30, 2018, may be lower than the limit of ₹ 145,000 Crores, approval for a higher amount is sought as intra-year and intra-quarter borrowings can be higher than those at the end of periods. An increase in borrowings will fund book growth driving overall business growth. The increased borrowing limit will permit the Company to grow beyond FY 2017-18 up till September 2018. An inability to enhance the borrowing limit would impede the Company's growth.

In terms of the provisions of Section 180(1)(c) of the Companies Act, 2013, in a case where the borrowings sought to be made by the Company, together with the outstanding borrowings, at the relevant point of time, exceeds the aggregate of paid up capital and free reserves of the Company, a prior approval of the shareholders by way of a special resolution is required, before the transaction can be effectuated by its Board of Directors.

The Board accordingly recommends, passing of the Special Resolution, as set out at Item No. 6 of this Notice, for the approval of the Members of the Company.

None of the Promoters, Directors and Key Managerial Persons (KMPs) of the Company or any relatives of such Promoters, Directors or KMPs, are in any way concerned or interested, financially or otherwise, in the resolution set out at Item No. 6 of this Notice.

Item No. 7: Special Resolution to reaffirm the existing limit of ₹ 125,000 Crores for issue of Non-Convertible Debentures and/or other hybrid instruments, of the Company, on private placement basis.

The Board is of the view that the existing limit of ₹ 125,000 Crores for issue of Non-Convertible Debentures (NCDs) and other hybrid instruments (not in the nature of equity shares), is adequate for one more year and no increase in limits is being sought.

The shareholders of the Company at its Annual General Meeting held on September 8, 2016 had authorized the Company to issue Non-Convertible Debentures (NCDs) and other hybrid instruments (not in the nature of equity shares), upto a limit of ₹ 1,25,000 Crores. However, in accordance with the applicable laws viz. the Companies Act, 2013; the Housing Finance Companies Issuance of Non-Convertible Debentures on a Private Placement Basis (NHB) Directions, 2014; the Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations 2008; and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015; the authorization is valid for one year from the date of approval i.e. upto September 7, 2017. Accordingly, approval of Members is being sought to reaffirm the authorization for issue of Non-Convertible Debentures (NCDs) and other hybrid instruments (not in the nature of equity shares), upto a limit ₹ 1,25,000 Crores.

As on March 31, 2017, the outstanding NCDs issued by the Company stood at ₹ 37,243 Crores. NCDs represent one of the most cost-effective sources of funding and a reliable means of diversification of funding sources. Over the last five years, the Company has brought down reliance on bank term loans from 60% at the end of FY 2011-12 to 37% at the end of FY 2016-17. In the same period funding from debentures and securities has risen from 32% at the end of FY 2011-12 to 51% at the end of FY 2016-17.

Composition of Total Borrowings

In June 2017, the Company was upgraded to the highest long-term rating of AAA by ICRA, the Indian arm of the leading international rating agency Moody's. With this upgrade the Company has the highest long-term credit rating of AAA from three rating agencies. The cost at which NCDs are raised, specifically the spread to government bonds are driven by a Company's rating. As the Company has the highest long-term AAA rating, the Company issues NCDs at very fine rates, significantly lower than bank loan rates. Through the first half of FY 2017, NCD rates were lower by as much as 100 to 120 bps from bank loan rates. Despite considerable reduction in bank loan rates since January 2017, the Company issues NCDs at rates that are substantially lower than bank loan rates. Consequently the Company met over 90% of the incremental funding requirements in FY 2016-17 through debentures and securities.

The breadth and depth of Indian debentures and securities market has increased and government focus on housing has opened up new types of instruments and access to a wider set of investors for housing financiers. Funding from foreign investors can now be accessed through masala bonds and External Commercial Borrowings (ECB). With affordable housing being granted infrastructure upto \$ 750 Mn of ECBs can now be raised annually through the automatic route. Indian companies can now also raise funds from foreign debt investors through rupee-denominated masala bonds. With the highest long term credit rating, the Company is best placed to make most of the evolving debenture and security market to raise cost-efficient funding.

Pursuant to and in terms of the provisions of Section 42 of the Companies Act, 2013 read with the Rule 14(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014, the Board of Directors of the Company, subject to shareholders' approval, by way of a Special Resolution, which is required to be passed every year, can raise funds through issue of NCDs & other Hybrid instruments (not in the nature of equity shares), which can be classified as being Tier II capital under the provisions of Housing Finance Companies (NHB) Directions 2010, beyond September 7, 2017, on a private placement basis, upto one year from the date of shareholders' approval to the resolution, as set out at Item No. 7 of this Notice.

Accordingly, approval of the Members is being sought by way of a Special Resolution as set out at Item No. 7 of this Notice, authorizing the Board to issue NCDs & other Hybrid instruments (not in the nature of equity shares), which can be classified as being Tier II capital under the provisions of Housing Finance Companies (NHB) Directions 2010, on a private placement basis, during a period of one year from the date of this Annual General Meeting (AGM) of the Company, upto an aggregate amount not exceeding the shareholders' existing authorization of ₹ 1,25,000 Crores, which was approved by them in the last AGM held on September 8, 2016.

The Board accordingly recommends, passing of the Special Resolution, as set out at Item No. 7 of this Notice, for the approval of the Members of the Company.

None of the Promoters, Directors and Key Managerial Persons (KMPs) of the Company or any relatives of such Promoters, Directors or KMPs, are in any way concerned or interested, financially or otherwise, in the resolution set out at Item No. 7 of this Notice.

Item No. 8: Special Resolution, for amendment in the Articles of Association of the Company as required by SEBI circular no. CIR/IMD/DF-1/67/2017 dated June 30, 2017

To comply with the provisions of SEBI circular bearing no. CIR/IMD/DF-1/67/2017 dated June 30, 2017, the Company is required to capture enabling provisions in its Articles of Association, to carry out any consolidation and re-issuance of debt securities, pursuant to and in terms of the provisions of Regulation 20A of the SEBI (Issue and Listing of Debt Securities) Regulations, 2008, as may be amended, from time to time. The SEBI circular stipulates that the enabling provisions should be obtained within six months from the date of the circular viz June 30, 2017. The SEBI circular can be accessed at <http://www.sebi.gov.in/legal/circulars/jun-2017/>

[specifications-related-to-international-securities-identification-number-isins-for-debt-securities-issued-under-the-sebi-issue-and-listing-of-debt-securities-regulations-2008_35215.html](http://www.sebi.gov.in/sebi_data/commondocs/ilds.pdf).

The SEBI circular allows corporates a maximum of 17 International Securities Identification Numbers (ISINs) maturing in any financial year – a maximum of 12 ISINs for plain vanilla debt securities and a maximum of 5 ISINs for structured products/ market linked debt securities. If fresh issuances maturing in a financial year need to be made in excess of the 17 ISINs permitted in that year then prior issue(s) under one or more of the existing ISINs need to be consolidated and reissued. However, to carry out such consolidation and re-issuance of debt securities, clause (a) of Regulation 20A of the SEBI (Issue and Listing of Debt Securities) Regulations, 2008 <http://www.sebi.gov.in/sebi_data/commondocs/ilds.pdf> requires an enabling provision in the Articles of Association. The SEBI circular also stipulates that the enabling provision should be obtained within six months.

SEBI's purpose of limiting the ISINs is to increase float against each ISIN thereby enhancing liquidity, which is essential for development of the secondary market in bonds. This is in keeping with the recommendations of a Working Group set up by the Government of India's Financial Stability and Development Council Sub-committee (FSDC-SC) to suggest measures to develop India's corporate debt market.

Pursuant to and in terms of the provisions of Section 14 of the Companies Act, 2013, any alteration in the Articles of Association of the Company requires shareholders' approval, by way of a Special Resolution.

Accordingly, approval of the Members is being sought by way of a Special Resolution, as set out at Item No. 8 of this Notice, authorizing for alteration in the Articles of Association of the Company and consequential insertion of a new article "Article 67A" after the Article 67, in the Articles of Association of the Company.

A copy of the Articles of Association with the proposed changes is available at the registered office & corporate office of the Company for inspection by Members from Monday to Friday from (9:30 a.m. to 5:30 p.m.) till the date of the Annual General Meeting and is also updated on the Company's website <https://www.indiabullshomeloans.com>.

The Board accordingly recommends, passing of the Special Resolution, as set out at Item No. 8 of this Notice, for the approval of the Members of the Company.

None of the Promoters, Directors and Key Managerial Persons (KMPs) of the Company or any relatives of such Promoters, Directors or KMPs, are in any way concerned or interested, financially or otherwise, in the resolution set out at Item No. 8 of this Notice.

During this period of steady growth, business has been conducted with particular focus on underwriting standards and cost efficiency. The gross and net NPAs continue to remain low at 0.85% and 0.36% respectively at the end of FY2016-17. Cost to income ratio has declined steadily from 21.0% in FY2010-11 to 13.3% in FY2016-17. The Company's cost to income ratio is now one of the lowest globally amongst bank and non-bank lenders. In deciding to curtail increase in their remunerations, Mr. Gehlaut, Mr. Banga and Mr. Kumar have taken the lead in contributing to a faster decline in the Company's cost to income ratio.

The Whole Time Directors have also presided over a rating upgrade trajectory that saw the Company upgraded to the highest long-term rating of AAA from a rating of AA- in 2008. During this period the senior management team has been stable remaining largely unchanged with many business leaders and heads of departments having been with the Company since the commencement of their respective business lines. In June, 2017 the Company was upgraded to the highest long-term rating of AAA by rating agency ICRA, the Indian arm of the leading international rating agency Moody's. The Company now has the highest long term rating of AAA from three rating agencies. There are only a handful of financial services companies in India that have the highest long-term AAA rating that does not factor in sovereign support or support from a larger promoter or founder group. The last that an independent non-bank company, was upgraded by ICRA to the highest AAA rating was 20 years ago in 1997.

The Government of India is particularly focused on affordable housing enunciated through its mission of "Housing for all by 2022". Strong demand supported by demographic drivers, low inflation and robust wage growth, has ensured that the macros for the housing sector and the housing finance sector in India have never been better. Amongst its HFC peers, the Company is one of the best capitalized and has one of the lowest net gearing ratios. The Company is in a strong position and is poised to make the most of the favourable macro-economic environment for housing.

Pursuant to and in terms of the provisions of Section 196 and 197, Schedule V and other applicable provisions of the Companies Act, 2013, shareholders' approval, by way of an Ordinary Resolution, is required for the appointment / re-appointment of Whole-Time Directors and Key Managerial Personnel of the Company and payment of remuneration. The Board accordingly recommends, passing of the Ordinary Resolutions, as set out at Item No. 9 to 13 of this Notice, for the approval of the Members of the Company.

Except the proposed appointees, in respective resolutions set out at Item Nos. 9 to 13 of this Notice, proposing their appointments and payment of remuneration, none of the Promoters, Directors and Key Managerial Persons (KMPs) of the Company or any relatives of such Promoters, Directors or KMPs, are in any way concerned or interested, financially or otherwise, in the respective resolutions.

Forward-looking statement

In this Annual Report, we have disclosed forward-looking information to enable investors to appraise our prospects and take investment decisions. This report and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management’s plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as ‘anticipate’, ‘estimate’, ‘expects’, ‘projects’, ‘intends’, ‘plans’, ‘believes’, and words of similar substance in connection with any discussion of future performance. Although we have been prudent in our assumptions, we cannot guarantee that these forward-looking statements will be realised. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could materially vary from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statement whether as a result of new information, future events or otherwise.

A momentous year for mid-income affordable housing

Towards its mission of 'Housing for All by 2022', the Government, in coordinated actions with sectoral regulators, unveiled a slew of measures to line-up incentives and direct efficient funding to affordable housing.

Mid-income affordable housing got a boost with the inclusion of households with incomes up to ₹ 18 lakhs per year under the Credit Linked Subsidy Scheme (CLSS) of the Pradhan Mantri Awaas Yojana (PMAY).

Factoring the upfront subsidy under the PMAY scheme and tax savings from deduction available against home loan repayments, the effective home loan interest rate for mid-income affordable housing is at near-zero levels!! These near-zero effective home loan rates are in stark contrast to the prevalent rental yields of 3%+ in urban India, making home purchase extremely compelling.

Demand in mid-income affordable housing remains strong propped up by a young working population, two thirds of which is below 35 years of age, and rising urbanisation. Moderating residential prices, robust wage inflation and fiscal incentives to home buyers and builders, has led to tremendous improvement in affordability.

The average age of the first-time home buyer is falling. A change in the home loan distribution model towards a more digital, internet driven mobile platform is imminent. Indiabulls e-Home Loans is an industry pioneering, global first, end-to-end online home loan fulfilment platform providing access to Indiabulls' home loans at customers' fingertips.

We have our ears to the ground and recognise the potential of emerging technology to vastly improve customer experience and enhance our operational efficiencies. We have digitalised our offerings to capitalise on the emerging potential of tier II and tier III towns and cities with leaner tech-efficient home loan branches in these cities.

We are India's second largest housing finance company and are now a part of the Nifty 50 Index. We enjoy the highest long-term rating of 'AAA' and are focused on creating value for all our stakeholders. With over 9.20 lakh satisfied customers, our endeavour is to reach out to and help every aspiring Indian who dreams of owning a home.

OUR OFFERINGS

Home Loans

We provide tailor-made home loan solutions to our customers, both resident and non-resident Indians, to help them realise their dream of owning a home. 'SMART CITY HOME LOANS' FOR THE NEXT TIER OF BURGEONING URBAN INDIA

The opportunity in mid-income affordable housing is immense. This year we opened up as many as 41 new branches in Tier-II and Tier-III towns to cater to the next wave of growth and demand for mid-income affordable housing.

This network expansion is through a hub and spoke model with regional credit hubs servicing growing towns through technology leveraged lean branches.

At an average ticket size of ₹ 15 lakhs, through smart city home loans, we now cater to a broader target segment of mid-income home buyers in India's growing new urban centres.

The new initiative has shown great promise and already 7% of home loans disbursements are in these new locations.

UNLOCKING THE POTENTIAL OF MID-INCOME AFFORDABLE HOUSING

Housing finance in India is at an inflection point and is poised for steady, sustained growth over the coming decade. Compared to advanced and even emerging economies, our country's mortgage penetration is very low, indicating the immense potential for growth. Mid-income affordable housing segment is gathering momentum and the market estimated to grow to ₹ 6.25 trillion by 2022.

Our singular focus is on making convenient housing finance available at reasonable rates to aspiring homebuyers. We are particularly focused on mass-market, mid-income affordable housing. Exclusive focus on mortgage-backed financing means that the Company's systems, processes and workforce are built around mortgage loans.

Government Focus on Affordable Housing

Towards its mission of 'Housing for All by 2022', the Government has unveiled a slew of measures covering all aspects of supply, demand and funding to the housing sector.

With particular focus on mid-income affordable housing, the Government expanded subsidies under the Pradhan Mantri Awas Yojana (PMAY) to households of income upto ₹18 lakhs per annum, squarely covering the mid-income segment. These subsidies along with income tax deductions against home loan repayments, means that effective home loan rates in the mid-income affordable housing segment have crashed to near-zero levels making home ownership extremely compelling.

EPF Corpus Available for Home Financing

Members of the Employee Provident Fund Organisation (EPFO) can withdraw up to 90% of their accumulated corpus towards purchase or construction of a house as well as to service EMIs. This provides access to a ready accumulated sum for downpayment on a house. The accumulated corpus as a source of funds also increases a borrower's home loan eligibility.

Efficient Funding Avenues

Sectoral regulators RBI, SEBI and IRDA have worked with the Government to open up efficient funding to the affordable housing sector. SEBI permitted mutual funds to invest in highly rated HFCs beyond the sectorial cap of 25% up to 40%.

Affordable Housing was granted infrastructure status opening up access to low cost, long term funding from external commercial borrowings, insurance companies and pension and provident funds.

RBI slashed the risk weight on bank lending to AAA rated HFCs to a fifth to 20% from the earlier 100% enabling banks to reduce borrowing costs for HFCs.

For insurance companies, IRDA exempted investments in AAA rated HFC debt instruments from all sectoral caps.

Redefining Loans for Mid-income Affordable Housing

We offer competitively priced home loans through customer-centric, convenient channels of fulfilment. e-Home Loans and app-enabled access have effectively shifted the Indiabulls Home Loans branch to the customer's mobile phone.

It also provides a richer experience to our customers halving the processing time. Our technical team has modules in their mobile app with which they can appraise properties on the go.

The collections app has helped us reduce operational risks from human error through which collection executives can record collection transactions, generate e-receipts and have the data automatically updated on the central systems.

By going mobile, we have reduced the processing time tremendously. Digitising processes has enabled multiple departments to work on the same case simultaneously, thereby reducing cost and enhancing effectiveness many fold.

Strategic Partnerships

As we work towards evolving our processes and increasing efficiencies, we have entered into partnerships with technology service providers and leveraged the strengths from these collaborations to create a comprehensive ecosystem.

verification; Unified Payments Interface (UPI) for a faster payment system; Perfios for auto-retrieval of bank statements; and we are constantly adopting partnerships that enhance our offerings and increase our effectiveness.

Smarter Associate Integration

New systems have been developed to directly integrate with the systems of our associates, such that comprehensive lead information flows into our system seamlessly. It also eliminates duplicate work and reduces our response time.

Seamless Execution

Data from various sources is captured by our central management system – Finone, which manages the end-to-end home loan life-cycle of a customer and provides us with a comprehensive loan servicing platform, enabling us to take better and faster credit decisions and reduce delinquencies.

By harnessing the competencies of various processes and technologies, we have created an ecosystem which integrates all departments and systems together. Our collective capabilities enhance business efficiency and provide consumers with a product that lives up to its promise.

FROM THE CHAIRMAN'S DESK

Sameer Gehlaut
Founder and Executive Chairman

Dear Shareholders and Friends,

It gives me great pleasure in sharing that your Company notched up many key achievements during the year gone by in our quest to build a gold-standard mortgage lending business. The macro-economic environment for affordable housing has never been better. Government agencies, in concerted action with sectoral regulators, unveiled a slew of measures to achieve the mission of 'Housing for all by 2022'. The fillip came from this year's budget, which offered lucrative tax and interest concessions for the affordable housing segment, as a result of which it is expected to grow at 25%.

New milestones

IBHFL's long-term credit rating was upgraded to the highest 'AAA' by ICRA, the Indian arm of the leading international rating agency Moody's. IBHFL is now one among a handful of Indian companies that enjoy the highest AAA credit rating on its standalone strength without sovereign support or support of a larger parent or promoter group.

During the course of the year, the Company's balance sheet size grew past the landmark ₹ 1 lakh crores to close the year at ₹ 1.04 lakh crores. As we grew in size and scale, the Company's stock got included in the bellwether Nifty 50 index, underlining investors' trust and your Company's consistent performance. Needless to say, we shall not rest on these laurels but redouble our efforts to vindicate the trust reposed in the Company.

Macroeconomic scenario and housing sector

India is set to overtake China as the world's most populous nation by 2021. By then, the country will be home to more than one of every six persons in the world. This fast growing population brings with it many socio-economic challenges, not the least of which is housing.

The housing sector, and the larger real estate sector, has a significant growth multiplier effect on the economy as it generates a high level of direct employment and stimulates demand in over 250 ancillary industries. Through its mission of 'Housing for all by 2022', the government has aligned policies and fiscal incentives to promote the housing industry. Last year, the Prime Minister meaningfully expanded the coverage of interest rate subsidies under the Credit Linked Subsidy Scheme (CLSS) of the Pradhan Mantri Awas Yojana (PMAY) to mid-income housing. Now, households with an annual income of up to ₹ 18 lakhs are eligible for an upfront subsidy of up to ₹ 2.3 lakhs. Factoring in tax deduction against home loan repayments, which was increased last year to ₹ 4 lakhs, the effective interest rate for a home loan availed to purchase an average mid-income bracket house of is now at near-zero levels. For the first time in the country's history, the effective home loan rate is vastly lower than the rental yield and there has never been a more compelling case for purchase as against renting.

Increased supply of houses at affordable price points is crucial to increase house ownership. This year, the government clarified and eased the eligibility criteria for availing of 100% corporate tax exemption for construction of affordable housing, which was first announced in the budget of 2016. This multiplies the margins for developers from mid-income affordable housing and this segment has now begun attracting considerable interest from large, established and organised developers. The tax exemption will help bring down costs for end-customers, significantly enhancing affordability.

Affordable housing has been granted infrastructure status enabling housing financiers to raise monies as External Commercial Borrowing (ECB) up to USD 750 Mn under the automatic route. Both SEBI and IRDA increased the investment limits for mutual funds and insurance companies for investments in highly rated housing finance companies like IBHFL. RBI slashed risk weights for lending to AAA rated HFCs to 20% from 100%, reducing the capital that banks are required to allocate for lending to HFCs, enabling lending rates to drop.

Tangible and concerted efforts by government agencies and various sectoral regulators have ensured that the macros for the housing sectors and housing finance sector have never been better. Your Company, with its right business model, product proposition, systems and operating framework, is ideally poised to make use of this opportunity and deliver superior returns to its shareholders.

Financial Performance

Your Company has turned in an excellent performance this year and has clocked healthy growth on all key financial parameters. The Company's balance sheet grew by 37.0% to ₹ 1,03,705 crores for the financial year ended March 31, 2017 as against ₹ 75,720 crores for the previous year. The Company reported a 26.8% increase in total revenue at ₹ 11,702 crores for the financial year ended March 31, 2017 as against ₹ 9,226 crores for the previous year. Profit after tax (PAT) for the year ended March 31, 2017 has increased to ₹ 2,906 crores from ₹ 2,345 crores, an increase of 24.0% over the last year. Outstanding loans under management grew by 32.9% to ₹ 91,301 crores from ₹ 68,683 crores a year earlier. The net interest income (NII) has grown by 25.4% to ₹ 4,768 crores. Return on equity (RoE) works out to 26% with earnings per share (EPS) of ₹ 68.80 (₹ 59.84 previous year).

With a CRAR of 20.97%, we are one of the best capitalised housing finance companies. With accruing profits, your Company ended with a consolidated net worth of ₹ 12,055 crores this fiscal year. Our rating upgrade to AAA by ICRA, along with comfortable liquidity and healthy capitalisation, has further enhanced our fund raising capabilities. During the year, we raised over ₹ 48,048 crores through debentures and securities, up from ₹ 26,187 crores in March 2016. Among its lenders, the Company now counts 375 strong relationships: 26 PSU banks, 20 private and foreign banks and 329 mutual funds, provident funds, pension funds, insurance companies and others.

An important risk mitigation strategy is the healthy level of liquidity that we maintain. Cash and bank balances and current investment of the Company added up to over ₹ 18,500 crores at the end of FY 17.

Focus on home loans and expanding scale has helped our Company continually bring down cost-to-income ratio, which is down to 13.3% in FY 2016-17 from 14.3% in FY 2015-16 and 16.4% in FY 2014-15. As the proportion of home loans within the total loan assets increases, cost-to-income ratio shall continue to decline. NPAs continue to remain within the target range. Our Gross NPA and Net NPA stood at 0.85% and 0.36% respectively at the end of FY 17. The total provision pool, including floating and standard asset provisions, stood at ₹ 1,149.1 crores as on March 31, 2017, compared to ₹ 831.5 crores last year.

Rewarding shareholders

Our shareholders have been our steadfast allies along this fascinating journey, and in keeping with our philosophy of rewarding them for their loyalty and support, the Company, during FY 2016-17 made a dividend pay-out of ₹ 27/- per equity shares (three interim dividends of ₹ 9/- each, with a total outflow of ₹ 1,375 crores, including Corporate Dividend Tax). This was in addition to an interim dividend of ₹ 9/- per equity share, declared in the month of March, 2016, resulted an outflow of ₹ 460 crores (including CDT).

Subsidiaries' Performance

The performance of our subsidiaries and associate companies was heartening, validating our key investment decisions. IBAMC, our mutual fund, crossed an AUM of ₹ 10,000 crores

for the first time. IBAMC now manages seven debt and three mutual fund schemes.

Our UK associate, OakNorth Bank, has turned in a stellar performance. The bank achieved cash break-even in record time, ahead of initial projections and in a considerably shorter span of time than its peer challenger banks. OakNorth Bank now has a loan book of over GBP 400 million and this is projected to cross GBP 1 billion by 2018. Validating IBHFL's valuation, within 18 months of our investment OakNorth Bank raised equity capital at a valuation that was 50% higher

Diversifying and expanding our funding sources

Our liability franchise remains the engine fuelling our growth and continues to move from strength to strength. Our bond franchise gained further traction and at the end of FY 2016-17 debentures and securities contributed to 51% of the Company's funding sources. The Company has diversified its borrowing sources by venturing into new markets and new instruments, further reducing its reliance on domestic bank borrowings.

During the year, the Company successfully completed its inaugural public issue of non-convertible debentures of ₹ 7,000 crores. The Company also tapped the international debt capital markets by being only the second Housing Finance Company (HFC) from India to raise USD 200 million of masala bonds. The Company also raised External Commercial Borrowings (ECB) of USD 200 million and refinanced existing ECBs of USD 150 million.

Technology key to our growth

As we enter a period where technology increasingly redefines traditional business models, IBHFL is poised to leverage its first mover advantage of being one of the pioneers in the tech-space in the industry. Greater customer convenience and operational effectiveness led by the effective deployment of technology and decentralisation of work processes has been the driving force behind IBHFL's endeavours this year. This has been enabled through partnerships with multiple third parties, both government and private, to leverage synergies with the said associations and provide a truly world-class product with seamless customer experience.

With the introduction of Indiabulls eHome Loans – India's first completely online home loan product/platform – we have revolutionised the home loan experience in its entirety. A customer can from the comfort of his/her home or office, apply for a home loan, have all documents uploaded and receive the disbursed amount within the promised time period.

Our pioneering technology-led efforts were recognised by the industry and peers alike through awards such as 'BFSI Digital Innovators Award by the Indian Express Group' and 'The

Leaders Award by Zee Business and This Week Group'. The Group CIO, Mr. Nafees Ahmed was also recognised as one of India's top 50 CIOs by the CIA Association of India.

Corporate Social Responsibility

We are conscious of our responsibility towards the environment and work towards sustainability through our Environmental Management System (EMS). We assess the environmental cost of the Company's services and activities, and seek to reduce or eliminate negative impact, and increase their positive effects. Our EMS framework is guided by ISO 14001:2015, which specifies processes and checks to monitor and correct our impact on the environment. The certification helps us document our process from an environmental perspective and importantly, gives us a means to measure and minimize the environmental impact of our operations.

The group's CSR arm, Indiabulls Foundation, has focused on areas like healthcare, education, art and culture, nutrition, sanitation and rural development. In healthcare, three more mobile medical vans have been added this year taking the total to 20. This project has helped diagnose and treat 765,000 patients. Cleft and palate surgeries were successfully performed on 600 underprivileged children across the country. Four free medical clinics were set up where over 119,000 patients were treated.

Indiabulls Housing Finance Limited through Indiabulls Foundation partnered with ESHA, a non-profit organisation working with the visually challenged, to provide appropriate educational tools to the visually challenged and resource deprived individuals. More than 47,000 beneficiaries were covered across the country. The Foundation also contributed 1,000 computers to tribal ashram schools, night schools and shelter homes across Maharashtra. Scholarships were offered to over 600 meritorious students to enable them to pursue higher studies. Under the Government of India's Swachh Bharat Abhiyan, Indiabulls Housing Finance Limited through Indiabulls Foundation constructed toilets for girls at government-aided schools in Western India.

The Foundation has been actively providing nutrition supplements to 5,000 malnourished individuals every month and regularly monitors their health status, covering over 85,000 children till date. It provided round-the-clock seamless electricity from the renewable energy plant it set up to five tribal ashram schools, benefiting 3,400 tribal students every year.

Human Resources and training

As business continues to grow at a steady pace amidst greater consumer expectations, the human resource department's responsibility of nurturing the potential of employees is also greater. With digitisation of the HR function we have made further progress towards creating an environment that fosters learning and growth.

We continue to deepen our relationship with campuses across the country to hire fresh talent. Our talent acquisition programme is also continually focussed on hiring best in class lateral talent. The HR department, along with senior employees across other departments, is invested in developing internal talent and performing employees are given enhanced job responsibilities in your fast growing Company.

For our vast sales force we now have an online learning platform built around 'gamified' modules to make them more involved. The HR department is also focussed on ensuring good work-life balance and the general health and well-being of employees. Towards this, IBHFL participates in many health awareness activities like 'Get Fit Go', health check-ups for women employees, Puma Urban Stampede, Vasai-Virar Marathon, etc.

The Path Ahead

India is on strong economic footing and has a government at the helm that is committed to reforms. The government's particular focus on housing and the country's strong macro-economic fundamentals have converged to open up a period of immense opportunity for the housing sector. IBHFL is coming off a period of consistent performance and has every component aligned to make the most of the opportunity. I am glad to have you all along on this exciting journey.

I would like to conclude by extending my heartfelt thanks to team Indiabulls, our customers, bankers, regulators and other stakeholders, without whose support all these achievements would not have been possible.

Thank you!

MANAGEMENT DISCUSSION AND ANALYSIS

FY 2016-17 saw the world go through momentous socio-political changes and move away from the post-war concerns of globalization and market-based economic organization. However, global economic growth rebounded led by the US, the Eurozone and bolstered by the recovery in China and India's sustained strong growth.

For India, the year saw several historic economic policy developments. The long-awaited and transformational Goods and Services Tax (GST) amendment was passed and the roll out on July 1, 2017 was smooth, belying much touted scepticism. GST will create a common Indian market and is widely expected to improve tax compliance, boost investment and growth, and improve governance. The government also made commendable headway by overhauling bankruptcy laws and codifying the institutional arrangements on monetary policy with the Reserve Bank of India.

In a move that will have far reaching consequences for all Indians, the legal framework for Aadhar was ratified. Aadhar is now truly a digital and biometric unique citizen identification number for Indians. Mandatory linkage of Aadhar to the tax identification number (PAN) and bank account number will improve tax compliance, streamline and reduce misallocation of subsidy delivery and very importantly revolutionize availability and distribution of credit.

Despite demonetization, India's economic growth was strong and the estimated GDP for FY 2016-17 stood at 7.1%. Agricultural growth was boosted by good monsoons. But the year saw a moderation in the growth of industry and non-government service sector. CPI inflation for the year ending March 2017 stood at 3.8%, well below the RBI's target of 4% (+/- 2%); by June 2017, this has slipped further down to 2.2%.

India is on sound financial footing, the government met its fiscal deficit target of 3.5% of GDP. Foreign exchange reserves remained at comfortable levels, buoyed by surging FDI inflows. Current account deficit narrowed to 0.7% of GDP down from 1.1% in FY 2015-16, and is expected to remain at these levels with a surge in exports balancing the receding effects of benign international oil prices.

India's macroeconomic parameters are strong and accumulating dividends from the reforms of the past year are expected to elevate the country onto a trajectory of sustained growth of 8-10% by the end of the decade.

Falling inflation and contracting current account deficit induced the RBI to cut interest rates by 50 bps during the year. But the effect on end-borrowers was more pronounced as trillions of rupees of currency-in-circulation entered formal banking channels, leaving banks awash with liquidity leading to a drop in rates (MCLR) by an average of 105 bps through the year.

Inflation has further moderated in the first quarter of FY 2017-18 and the outlook on current account deficit remains benign. Interest rates are thus expected to continue their downward trajectory.

HOUSING SECTOR

The demand for housing remains strong supported by strong demographic drivers like a young and expanding working population, rising urbanization and increasing nuclearisation of families. An already existing large urban housing shortage makes this demand all the more pronounced. The social challenge posed by housing is also an economic opportunity as housing, both directly and through multiplier effect of ancillary industries, contributes to as much as 6% of the GDP. The government is seized of this and the housing sector has attracted singular focus through the government mission of "Housing for all by 2022".

The fears around demonetization were overplayed with real estate prices holding steady. Moreover, surging liquidity into formal channels led to a steep drop in home loan rates and on the whole, demonetization has had a very favourable impact on the housing sector.

Commercial office space absorption was at an all-time high in CY 2016. The demand was secular across key micro-markets of the country and was also sectorally broad-based. Resultantly, office vacancy slipped to an eight-year low. Leasing activity is a lead indicator of housing demand with office goers eventually requiring places in the vicinity to live in. Leasing activity was most strong in the suburbs and peripheries of metros which coincide with the supply of mid-income affordable housing.

Towards its mission of "Housing for all by 2022", the government continues its concerted actions with sectoral regulators to align policies and fiscal incentives. In the year gone by, the government meaningfully enhanced the scope of "affordable housing" for buyers, lenders and developers to include mass-market mid-income affordable housing.

The government expanded the coverage of the Credit Linked Subsidy Scheme (CLSS) under the Pradhan Mantri Awas Yojana (PMAY) to cover households with incomes of up to ₹ 18 lakh per annum buying their first house. The eligible subsidy on the home loan is paid upfront into the customer loan account, significantly reducing the effective interest rate. The features of the scheme are tabulated below.

Criteria	CLSS – EWS & LIG	CLSS – MIG I	CLSS – MIG II
Household income per annum	Up to ₹ 6 lac	₹ 6 lac up to ₹ 12 lac	₹ 12 lac up to ₹ 18 lac
Property size	60 Sq. Mts. [646 Sq. Ft.]	90 Sq. Mts. [969 Sq. Ft.]	110 Sq. Mts. [1,184 Sq. Ft.]
Loan amount qualifying for subsidy [The total loan amount could be higher]	110 Sq. Mts. Up to ₹ 6 lac	4.0% Up to ₹ 9 lac	3.0% Up to ₹ 12 lac
Interest subsidy	6.5%	4.0%	3.0%
Subsidy under CLSS	₹ 2.67 lac	₹ 2.35 lac	₹ 2.30 lac

In addition to PMAY, mid-income home buyers can also claim a deduction of up to ₹ 4 lakh from their taxable income against home loan repayments. If both of them are considered together, the effective interest rate on home loan is down to near zero levels for mass market mid-income houses. This is a first in India's history. Effective home loan rates are now vastly lower than rental yields which average at 3.2% for the country's top 12 metros, making a compelling case for home ownership.

The government further sweetened the deal for prospective home buyers by permitting them to utilize as much as 90% of their accumulated EPFO corpus for purchase or construction of a home. Additionally, the remainder corpus and monthly contributions can now be used to service home loan EMI's.

The government has also done much to boost demand. In the 2017 budget, the government clarified and eased the rules around full tax waiver on profits from construction of affordable housing. For developers this will boost margins from construction of affordable housing attracting larger and more organized developers to this segment. This measure will greatly increase supply and reduce prices in the affordable housing segment.

Increasing supply, moderating prices, low effective interest rates and strong wage inflation will boost affordability. The outlook for the housing sector is very bright and the sector will see an elongated period of steady growth.

The government and various sectoral regulators have also done much to direct efficient funding to the housing sector. The granting of infrastructure status to affordable housing opened up access to cost effective long term funding from external commercial borrowing, insurance companies and pension provident fund.

SEBI increased the cap for mutual fund investment into Housing Finance Companies rated AA and above, permitting investment into HFC's by upto 15% in addition to the 25% sectoral cap in place for investments in other sectors.

The insurance sector regulator IRDA exempted investments into AAA rated HFC's from sectoral caps enabling insurance companies to fully invest in HFC debt instruments. Banking regulator, the Reserve Bank of India slashed the risk weights on bank lending to AA rated HFC's to a fifth to 20% from the earlier 100%.

Access to long-term cost-effective funding for both financiers and real estate developers will ultimately benefit the end-buyers

making homes available at affordable price points encouraging greater house ownership.

OPERATIONAL HIGHLIGHTS

In June 2017, IBHFL was upgraded to the highest long term rating of AAA by ICRA, the Indian arm of leading international credit rating agency Moody's. With this, the company enjoys the highest long term credit rating of AAA from three rating agencies. The last non-bank company to be upgraded on standalone basis, i.e. without sovereign support or the support of a larger promoter group, was 20 years ago in 1997. The upgrade will further strengthen the company's liability franchise particularly its bond borrowing programme, enabling it to substantially narrow spreads. Reduction in borrowing costs will be utilized to both grow the book by offering finer rates and also to hold up margins.

During the course of the year, the Company's balance sheet size grew past the milestone ₹ 1,00,000 crore to ₹ 1,03,705 crore, growing by 37% over the balance sheet size of ₹ 75,720 crore at the end of FY2015-16.

In the first half of the year, the Company launched eHome Loans, a global first, end-to-end online home loan fulfilment platform. With eHome Loans, the Company has led the change in the homeloans distribution model. eHome Loans permits loan applicants to submit their application form and upload required documents in as little as 10 minutes and this can be done at the applicant's convenience 24x7. Critical information like income, banking activity, tax filings etc. are directly accessed from the source systems ensuring authenticity and eliminating human data-entry errors. eHome Loans substantially reduces man power intensive involvement in the loan cycle and also cuts turnaround time. Both of these have a multiplier effect on cost reduction. eHome Loans is hence convenient for customers, increases the thoroughness of the underwriting process and is also extremely cost efficient.

FINANCIAL PERFORMANCE

The Company's revenues for the year ended March 31, 2017 stood at ₹ 11,702 crore, growing by 27% over last year's revenues of ₹ 9,226 crore.

NII grew by 25% to ₹ 4,768 crore for the year ended March 31, 2017, from ₹ 3,802 crore last year.

Profits for the year ended March 31, 2017 was ₹ 2,906 crore, a growth of 24% over the previous year. For FY 2016-17, the return on equity was at 26%.

eHome Loans, increasing digitization and improving productivity resulted in the cost to income ratio reducing to 13.3% for the financial year ended March 31, 2017, from 14.3% the year before. Cost to loan assets has reduced to 0.78% in FY 2016-17, dropping from 0.88% the year before, directly adding the difference of 10 bps to the pre-tax ROA.

eHome Loans has contributed to as much as 20% of incremental home loans sourcing. As a channel, e-Home Loans is extremely cost efficient as manpower intensive sourcing is not required. As the proportion of loan sourcing through eHome Loans increases, cost to income ratio will drop further.

Retail mortgage loan prepayment were lower at 8.8% of opening outstanding balance compared with 13% in the previous year.

Asset quality remained stable with gross and net NPAs at 0.85% and 0.36% respectively, compared with 0.84% and 0.35% at the end of the previous year. BUSINESS STRATEGY

Focus on Mass-market Mid-income Affordable Housing

The Company continues to be focused on home loans in the mid-income affordable housing segment particularly the salaried

segment. Two-third of the country's population under 35 years of age, rising urbanization and increasing disposable incomes are lowering the age of the average house buyer. Our average home loan customer today is just over 33 years of age. As a young organization ourselves we are better placed to connect and engage with the customers. The success of our industry pioneering eHome Loans has surpassed our expectations and by the end of the year, within nine months of launch, eHome Loans was contributing to as much as 20% of incremental home loan sourcing.

The Company has expanded into tier II and tier III cities with Smart City Home Loans through a lean-branch hub-and-spoke model. Smart City Home Loans rides on the eHome Loans infrastructure where the sales person can complete and scan the files and log them in digitally. Credit underwriting is centralized at regional hubs. This permits cost-effective expansion into the hinterlands where otherwise full-fledged brick-and-mortar offices would have not been financially viable.

The employee workforce is fully digital-and-mobile enabled with all key workflow processes accessible to employees through hand-held devices and through mobile apps. This lets the team to focus on their core business activities and not get bogged down negotiating operational challenges.

Stable, long-term and diversified liability profile

IBHFL depends on long term as well as medium term funding from various sources to ensure it has sufficient liquidity and appropriate working capital at all times. Being a non-deposit accepting housing finance company (HFC), the Company relies on borrowings to fund its lending business. The top-line - Net Interest Income (NII) - is driven by the spread on the Company's loan book, this is the difference between the interest rate at which loans are extended by the Company and rate at which the Company borrows monies. Thereafter, the profit of the Company is arrived at by adding to the NII other relatively smaller revenue items like processing fees and other fees, and after netting off operating expenses and credit costs. Profit growth is driven by NII growth, which in turn is derived from continuous book growth. Thus, the Company and its profits grow through growth in loan book. Borrowings fund loan book growth and thus borrowings have to grow for the Company and profits to grow. The Company is focused on both cost-efficiency in borrowing and also diversification of borrowing sources.

Total borrowings of the Company grew from ₹ 61,085 Cr in at the end of FY 2015-16 to ₹ 85,301 Cr at the end of FY 2016-17. In FY 2016-17, the Company raised ₹ 7,000 crore through its first ever public issue of bonds. It also raised a total of ₹ 27,650 crore through debentures and securities which is 26% higher than combined amount raised through this source in the previous three years and more than twice of that raised in FY 2015-16. The Company is only the second housing finance company to successfully tap the masala bond market to raise \$ 200 Mn in FY17. The Company also raised \$ 350 Mn of ECBs in FY 2016-17. This saw strong participation from over 15 Japanese, Taiwanese and other lenders across Asia.

The Company has a total of 375 lending relationships, which include 26 PSU banks, 20 Private and Foreign Banks, and 329 mutual funds, provident funds, pension funds, insurance companies and corporates.

Subordinated Debt

IBHFL's outstanding subordinated debt as on 31st March 2017 was at ₹ 1,762.5 Cr, of which ₹ 809 Cr was issued during the fiscal year under consideration. In FY 2016-17, CARE ratings upgraded IBHFL's subordinated debt credit rating to the highest AAA rating. As per balance tenure of the debt, ₹ 1,807.05 Cr. is considered as Tier II capital for capital adequacy calculation under National Housing Bank guidelines. Tier II capital increases capital adequacy conserving equity capital and making its utilization more efficient.

Accounting Treatment of securitized and assigned loans

Sell down transactions are an efficient means of increasing operational leverage. Sell down transactions move the loan off the balance sheet while retaining the spread. It both reduces the capital requirement and adds to margins making sell down transactions very capital efficient and RoE accretive. IBHFL has consistently been one of the largest sellers of mortgage pools and has sold down loans amounting to ₹ 24,096 Cr. since inception. In FY 2016-17, the Company sold down loans amounting to ₹ 3,894 Cr. The outstanding securitized/assigned loan book as of 31 March 2017 stood at ₹ 8,687 Cr. The income on assignment/ securitization of loans is recognized over the life of the underlying loans and is not booked upfront.

Sell down of loans happens as either securitization or as direct assignment transactions. In securitization, the loans are pooled and sold down to an SPV. The SPV issues securities, which are Pass Through Certificates (PTCs), against this pool of loans securitized. The proceeds from the sale of these PTCs are used by the SPV to purchase the pool from the originator (IBHFL). The PTCs are shown as 'investments' on the balance sheet of the investor. The investor receives the contracted payments on these PTCs out of the repayment proceeds from the underlying pool of loan assets. In direct assignment, the loans are sold down directly to the investor and they appear as 'loan assets' on the books of the investing entity.

In both types of transactions, the sold down loan assets do not appear on the balance sheet of the originator (IBHFL).

Investments

The investments of the Company are monitored by the Investments Committee of the Board of Directors. The committee helps the Company deploy excess funds from time to time to generate optimal returns for the Company, while also reviewing all investments and ensuring they comply with the investment policy of the Company. On 31st March 2017, investments in cash and cash equivalents stood at ₹ 18,502 Cr, as against ₹ 12,870 Cr at the end of the previous year.

The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors of the subsidiary companies which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary companies which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT (Contd.)

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial

controls over financial reporting insofar as it relates to fifteen subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

For this purpose, the Company's share of net worth is determined on the basis of the latest financial statements prior to the acquisition after making necessary adjustments for material events between the date of such financial statements and the date of the respective acquisition. Capital Reserve on consolidation is adjusted against Goodwill on consolidation, if any. The Goodwill on consolidation is evaluated for impairment whenever events or changes in circumstances indicate that its carrying amount may have been impaired.

(1) Note on AS - 15 disclosure:

Employee Benefits – Provident Fund, ESIC, Gratuity and Compensated Absences disclosures as per Accounting Standard (AS) 15 (Revised) – Employee Benefits:

Contributions are made to Government Provident Fund and Family Pension Fund, ESIC and other statutory funds which cover all eligible employees under applicable Acts. Both the employees and the Company make predetermined contributions to the Provident Fund and ESIC. The contributions are normally based on a certain proportion of the employee's salary. The Company has recognised an amount of ₹ 60,452,561 (Previous Year ₹ 37,904,134) in the Consolidated Statement of Profit and Loss towards Employers contribution for the above mentioned funds.

Provision for unfunded Gratuity and Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Accounting Standard (AS) 15 (Revised) on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

(Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of INDIABULLS HOUSING FINANCE LIMITED (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the

Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

allocable to segments on reasonable basis have been included under “unallocated revenue / expenses / assets / liabilities.

(xviii) Derivative financial instruments and hedging activities:

The Company’s activities expose it to the financial risks of changes in foreign exchange rates and interest rates. The Company uses derivative contracts such as foreign exchange forward, cross currency contracts, interest rate swaps, foreign currency futures, options and swaps to hedge its exposure to movements in foreign exchange rates and interest rates. The use of these foreign exchange and forward contracts reduce the risk or cost to the Company and the Company does not use those for trading or speculation purposes.

The Company uses hedging instruments that are governed by the policies of the Company which are approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company.

Effective April 1, 2016, the Company has followed Guidance Note on Accounting for Derivative Contracts for accounting of derivative instrument, to the extent that the adoption did not conflict with existing accounting standards and other authoritative pronouncements of the Company Law and other regulatory requirements.

Derivative financial instruments are initially measured at fair value on the contract date and are subsequently re-measured to fair value at each reporting date. Derivatives are classified as assets when the fair value is positive (positive marked to market value) or as liabilities when the fair value is negative (negative marked to market value). Derivative assets and liabilities are recognised on the balance sheet at fair value. Changes in the fair value of derivatives other than those designated as hedges are recognised in the Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, no longer qualifies for hedge accounting or the Company chooses to end the hedging relationship.

Effective January 1, 2017, the company has designated certain Interest Rate Swaps (IRS) as hedging instrument. Interest rate swaps are held to manage the interest rate exposures and are designated as fair value or cash flow hedges, as applicable. The Accounting for such designated

contracts is as follows:

Fair value hedges

The Company uses IRS instruments to convert a proportion of its fixed rate debt to floating rates in order to hedge the interest rate risk arising, principally, from issue of non-convertible debentures. Company designates these as fair value hedges of interest rate risk. Changes in the fair values of derivatives designated as fair value hedges and changes in fair value of the related hedged item are recognised directly in Statement of Profit and Loss thus ineffective portion being recognised in the Statement of Profit and Loss.

Cash Flow hedges

The Company uses Interest Rate Swaps (IRS) Contracts (Floating to Fixed) to hedge its risks associated with interest rate fluctuations relating interest rate risk arising from foreign currency loans / external commercial borrowings. The Company designates such IRS contracts in a cash flow hedging relationship by applying the hedge accounting principles set out in “Guidance Note on Accounting for Derivative Contracts “ issued by the ICAI. These IRS contracts are stated at fair value at each reporting date. Changes in the fair value of these IRS contracts that are designated and effective as hedges of future cash flows are recognised directly in “Cash Flow Hedge Reserve” under Reserves and surplus and the ineffective portion is recognised immediately in the Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

(xix) Foreign Currency Transactions and Translations:

- i. Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.
- ii. Monetary items denominated in foreign currencies at the year end are translated at year end rates. In case of Forward Foreign Exchange Contract (FEC) and Cross Currency Swaps (CCS), the difference between the year-end rate and the rate on the date of the contract is recognised as exchange difference and the premium on such forward contracts is recognised over the life of the forward contract. Any profit/loss arising on cancellation or renewal of forward contract is recognised as income or expense for the period in which such cancellation or renewal is made.

Based on the audited financials of these companies, as at March 31, 2017, there has been an erosion in the value of investment made in these companies as the operations in this company have not yet commenced / are in the process of being set up. During the current financial year provision of ₹ 51,000,000 (Previous year ₹ Nil) for diminution in the carrying value has been made in the books of account.

(2) During the current financial year, the Company has sold its entire investment in Indiabulls Asset Reconstruction Company Limited for a consideration of ₹ 12,250,000 (Previous year N.A.).

(3) The Board of Directors of Indiabulls Finance Company Private Limited ("IFCPL") and Indiabulls Commercial Credit Limited ("ICCL") (formerly Indiabulls Infrastructure Credit Limited) (both being wholly owned subsidiaries of the Company) at their meeting held on April 16, 2015 had approved, the merger of IFCPL, on an ongoing basis, into ICCL, pursuant to and in terms of the provisions of Section 391 – 394 of the Companies Act, 1956, as amended from time to time. The appointed date of the proposed merger fixed under the Scheme was April 01, 2015. The Hon'ble High Court of Delhi, vide its order dated March 15, 2016, received by the Company on March 31, 2016, approved the Scheme (Order). In terms of the court approved Scheme, with the filing of the copy of the Order, on March 31, 2016 with the office of ROC, NCT of Delhi & Haryana (the Effective Date), the Scheme came into effect and IFCPL, as a going concern, stands amalgamated with ICCL with effect from the Appointed Date, being April 01, 2015. Subsequently the Board of Directors of ICCL, on March 31, 2016, issued and allotted 32,826,288 Equity Shares of ₹ 10 each of ICCL to the Company against its holding of 10,942,096 fully paid Equity Shares of ₹ 10/- each of IFCPL, in the ratio of 3:1 i.e the Share Exchange Ratio, fixed under the Scheme.

As a result thereof, the stake of IBFSL in ICEX has been reduced from 40% to 14% and the same has been reclassified as a long term investment from the earlier classification of being an Associate. MMTC filed a petition before the Company Law Board (CLB) against ICEX, R-Next and IBFSL alleging that the transfer is null and void in terms of the Shareholders Agreement in view of the Forward Markets Commission (FMC) guidelines. IBFSL contends that such view of MMTC is based on the old FMC guidelines and without considering the amended FMC Guidelines dated June 17, 2010 wherein the transfer norms were relaxed. IBFSL had filed its objections on maintainability of the petition which is pending adjudication before the CLB.

Provision for unfunded Gratuity and Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Accounting Standard (AS) 15 (Revised) on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

The Company uses hedging instruments that are governed by the policies of the Company which are approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company. The Board constituted Risk Management Committee (RMC) of the company manages risk on the company's derivative portfolio. Derivatives are classified as assets when the fair value is positive (positive marked to market value) or as liabilities when the fair value is negative (negative marked to market value). Derivative assets and liabilities are recognized on the balance sheet at fair value. These values are cross checked against the valuations done internally on Bloomberg. Changes in the fair value of derivatives other than those designated as hedges are recognized in the Statement of Profit and Loss.

(33) EARNINGS PER EQUITY SHARE

Earnings Per Equity Share (EPS) as per Accounting Standard (AS)-20 "Earnings Per Share";:

The basic earnings per share is computed by dividing the net profit attributable to Equity Shareholders for the year by the weighted average number of Equity Shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of Equity Shares and also the weighted average number of Equity Shares that could have been issued on the conversion of all dilutive potential Equity Shares. The dilutive potential Equity Shares are adjusted for the proceeds receivable, had the shares been actually issued at fair value.

Dilutive potential Equity Shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The number of Equity Shares and potential diluted Equity Shares are adjusted for potential dilutive effect of Employee Stock Option Plan as appropriate. Potential dilutive Equity Shares on account of Share warrants are not adjusted being anti dilutive in nature.
