Auditors' Certificate on compliance of conditions of Corporate Governance as per Clause 49 of the Listing Agreement of the Stock Exchange

To the members of Hexaware Technologies Limited

We have examined the compliance of conditions of Corporate Governance by Hexaware Technologies Limited, for the year ended 31st December, 2014, as stipulated in clause 49 of the Listing Agreement of the said company with the Stock Exchanges.

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring compliance of conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above-mentioned Listing Agreement.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

How do we create an outstanding client experience at Hexaware?

There are several ingredients in it. But first comes passion. Passion to understand the client's requirements with sensitivity and bring to life technology-driven innovations that deliver value with speed. We help global customers to improve processes, reduce cost and elevate their level of efficiency. The result is 'differentiation' that is essential for businesses to survive and grow in a complex world.

Our ecosystem focuses on simplicity at all levels. Such an approach is reshaping the way we take decisions, work together internally, partner with clients and at the end of the day give them a great reason to smile.

As a multi-cultural company with a presence around the world, we are driven by three overriding objectives:

"Offer a suite of product & services that delight customers"

"Deliver solutions that are innovative and globally acclaimed"

"Become a great place to work, where people are full of passion and enthusiasm"

These tenets best define us and infuse dynamism into our operations. Every single day.

Chairman's Message

DEAR SHAREHOLDERS,

I am pleased to report yet another year of healthy performance for Hexaware in 2014. In a rapidly changing environment, we endeavour to constantly review and transform our portfolio and competencies. This means delighting our customers beyond their expectations, finding innovative solutions to create benefits for them and making Hexaware a great place to work.

IT industry overview

SMAC (Social, Mobile, Analytics and Cloud) and IoT (Internet of Things) are disrupting traditional service delivery models. We view the opportunity from this as an ability to bring greater insights to customers and help them grow their business.

Company performance 2014

In 2014 we continued to improve our quality of products and services. We started several initiatives in organisational development to create a great and exciting working culture and revamp existing work processes. We ended the year with Y-o-Y revenue growth of 13% and 44 new customer additions. This is a validation of the company's strategic direction.

During the year we saw healthy order intake in many of our businesses verticals like healthcare and IMS. Our BFSI, BPS and GTT service lines got lucrative deals in the year. I remain optimistic of our growth prospects going forward.

Customer centric business

We deepened customer relationships by empowering our customer management and delivery teams to act with full ownership in their respective accounts. Besides this, we are also using the power of crowd sourcing to source ideas from our employees to add value to our customers by thinking outside the box. By including our employees in decision-making and using their ideas, we make them feel valued and keep them motivated. Our key performance indicators KPIs across customer teams are related to customer delight index, Customer Value Add and employee passion.

Innovations

During the year, we have created innovations – which involve building appealing products and also generating passion and excitement—capturing the hearts and the minds of customers and the people in our organisation. We want to ignite the creativity of our people so that they can discover new means to fulfill customer needs, and thus develop our distinctive capabilities and help us outpace competitors. An example of this is our iFraudEngine, which helps our insurance customers to dramatically increase their ability to detect fraudulent claims.

Going forward

The year ahead will be focused on successfully executing our strategy, growing the core business, streamlining and transforming the organisation culture and delighting our customers. I believe that we are making the right strategic investments to strengthen our market position and become our customers' most valued and trusted business partner. I thank our employees for their hard work and energy in creating this success. I also want to thank all shareholders for their continued support and trust.

Regards,

Atul Nishar
Chairman

CEO's Communique

DEAR SHAREHOLDERS,

I am very excited to write my first letter to you. It has been a short 9 months since I joined Hexaware, but it feels like a lot longer. I have had the opportunity during this time to meet our customers, fully comprehend the rationale for our deep customer relationships, appreciate the enormous expertise in our chosen verticals and horizontals and build an emotional bond with 10,000 Hexawarians.

Our financial results

On the business side, 2014 was a period of significant transformation while keeping focus on consistent quarterly performance. Our financial results are a demonstration of the deep commitment each of our employees have to deliver innovative and outstanding service to our customers.

The company delivered excellent results in 2014. During the year, our sales grew 13%, our gross profit were 37% of sales and strong, positive cash flow from operations were ₹ 4129 mn. We have had a strong growth momentum in the past few quarters. The growth has been broad based with all verticals contributing to growth.

Reinvigorating Innovation

Creating innovating services on a consistent basis is key to sustaining performance. To do this, we have created talented teams that are focused on new service development and defined top-down innovation themes.

We have also created a bottoms-up crowdsourcing mechanism which creates an outlet for the immense creativity and energy in our employees.

Igniting Hexawarians

We are committed to creating policies and an environment that instills a sense of pride and passion in our employees. We have increased focus on communication with our employees in a transparent way on the company's vision, strategy, and progress. We are all 'Proud to be a Hexawarian'

Improved Customer centricity

We are very proud of our long standing relationships with our customers. Many of our relationships are well over a decade long. Much of our growth will come from our existing customers and we are improving our engagement model with them and empowering our account teams to be champions of their customers within Hexaware.

Looking ahead

We are extending our reach to ensure seamless global delivery to our clients. We are expanding facilities in Chennai, and building a new campus in Pune. Overseas, we are adding capacity in Atlanta and Mexico. Finally, we will open a center in Poland in the second half of 2015.

We continue our growth investment in new services to enhance customer experience across both industry-specific and horizontal solutions. We have built deep domain expertise in our chosen verticals and plan to remain focused on our current verticals. The IMS industry has been the fastest growing service line for the industry and for Hexaware. We are reinvesting in this business as we believe that there is a lot of headroom for growth enabling superior speed, quality and improved customer experience.

Our commitment to corporate responsibility

Corporate responsibility is an enduring commitment for Hexaware. In 2014, we continued our tie-ups and initiatives to bring a smile to hundreds of under privileged children to whom our employees donated many hours and made generous monetary contributions in varied causes.

We have an enormous sense of hope in Hexaware about our future. Thank you for your support and confidence in us. We will continue to do our best to impassion our employees, delight our customers, innovate on services and thereby deliver superior returns to our shareholders.

A Step Forward in Innovation

Technology is now transforming global businesses in ways that nobody could have imagined a few decades ago. In such an operating landscape, clients need innovative solutions to stay relevant in their industries and build value. As a leading global technology consultant, we have invested in infrastructure, people and processes to accelerate the pace of innovation.

Proliferating mobile technology and the onset of a new era of social business has empowered consumers with information and enriched them through networks that radically change expectations. This gets factored into our clients' requirements as well. At Hexaware, we integrate their enterprise operations with new software and technologies. We have launched innovative solutions in areas like travel and transportation, healthcare and insurance, banking and financial services.

Innovations in Travel and Transportation (T&T)

Our innovations extend our customers' operating parameters, delivering higher service productivity and optimising their costs.

E-Freight Kit

We partnered with one of our clients, one of the largest airlines globally, to develop a cost-effective technology enabler for handling airway billing processes seamlessly. Earlier, this was paper based. Our new application, E-Freight kit, allows accurate, paperless and timely electronic information exchange for partners in air cargo supply chain.

Digital MRO Suite

Most Airlines and Maintenance-Repair-Overhaul (MRO) service providers use old legacy-based in-house MRO applications having outdated technologies. These old generation MRO applications take enormous time for data migration. Moreover, useful data on hard copy/PDF formats often lie scattered; these have to be converted to a digitised format or integrated and

stored in one common location such as a data mart or data warehouse. Besides this, airlines and MRO service providers hold excess inventory (including wrong parts).

Innovations in Insurance

We provide comprehensive solutions in the Insurance sector—from assessing to planning and implementation to application development to maintenance support.

iFraudEngine

Insurers seek solutions which detect potential fraud at every phase of the product lifecycle, even at the quotation stage. This can lead to reduced premiums and drive customer service giving insurance players a sustainable competitive advantage. Using this engine, companies can do actionable market intelligence and reporting, forecasting, early fraud identification and pattern detection, thus reducing underwriting.

Insurance Policy Conversion Solution (iConvert+)

We delivered a seamless data conversion application that allows a smooth data migration causing minimum disruption to business. The innovative iConvert+ suite is an advanced data migration engine built specifically for use in insurance data migration projects and also helps to partner de-duplication and address validation to enhance partner data quality. It also gives cost savings from a unified system, in addition to savings from reduced business downtime.

Innovations in Banking and Financial Services

Onboarding solution

Hexaware's Client On-Boarding Solution for Asset Manager by custodians for back office and mid office functions, which is a long and expensive exercise, aims to bring standardisation and reduces cost and time by following a repeatable process.

AIM Toolkit

Hexaware's AIM Toolkit is a comprehensive internal, regulatory and client reporting solution provides both pre-built and ad-hoc reporting tools and dashboards for portfolio management, risk management and performance management. This will help investment managers make informed decisions utilising standard

and self-service reports. Also, the one-screen data view will help CXOs in taking organisational level decisions.

Technology transformation through Business Analytics (BA/BI)

Big Leap

This application helps enterprises elevate their data management capabilities by successfully adopting Big Data technologies in ways that guarantee rapid value. It includes a lab setup with pre-built adaptors for quick proof of concept for business value definition.

Data Modernisation

This application enables transition from heterogeneous/legacy applications driven by business process change, consolidation or M&A, performance considerations to a modern platform using data management best practices and innovative tools. It delivers low-cost, cloud-based managed service model for data migration, data quality services and reduces dependency on business users through Hexaware IP tools like HexaRule, Fuzzy Data Quality Kit, Business Glossary, DQ Dashboards.

Dr. Hadoop (IP/technology solution accelerator)

This tool is a Hadoop Migration Solution Accelerator for efficiently transferring the data structure, data content between structured databases and Hadoop. It speeds up DW augmentation programmes by saving 60 to 70% effort.

Innovation in Quality Assurance and testing

DT Compress

Test automation utility to compare the source and target tables/files to validate business rules for transformations in ETL, data migration projects.

No tool investment required, accelerates the test execution cycle as it can compare a million records between the source and target data-bases in 10 min

HexaBi - Test

Automated Reports content validation tool for pre and post migration testing of reports.

Significant effort reduction in reports comparison testing as compared to a manual comparison

Winning Big with Passion

Passion can break barriers and do the unthinkable. We are creating a global team of passionate go-getters, who can deliver winning solutions in multiple business verticals.

The cornerstone to winning in all verticals and in all service lines is having an engaged Team. Hence, we strive to make Hexaware a great place to work and attract and retain talent. We try to unleash the creativity, diversity and intellectual curiosity in our people. Our aim is to reduce internal complexity and build an employee-friendly working culture.

People-friendly initiatives

- We continue with ESOPS and several innovative rewards for our people.
- Engaging the Generation Z employees means assisting them in career planning. We are launching a **Career Management System** that nurtures fresh talent as well as creates more competent leaders.
- Hexaware partnered with 'Great Places to Work (GPTW)' to launch **EMPOWER – an Employee Passion Survey**. The survey objective was to give employees across all functions a platform to voice their opinions and provide feedback on how they feel on being a 'Hexawarian'.
- Several employee engagement initiatives (exit interviews, flight risk management programme, fast trackers' programmes, employee grievance management, job rotation) are being implemented at different levels. These programmes help people achieve a decent work-life balance at the middle and higher levels.
- At entry level, employee-connect programmes, Know Your Organisation, Business etiquettes training, mentoring and buddy system and Trainee Forums help build a youth-friendly environment.

Hexacare

Our 'Hexacare' initiative contributes to the all-round development of employees including medical check-up camps, wellness programmes and spiritual awareness workshops.

- Health related workshops
- Medical camps
- Hexaware Kids' Day
- Yoga classes, stress management workshops
- Financial management
- Workshop for parents
- Self-defence workshops for women employees

Motivation matters

We promote talent from within the organisation by giving our employees challenging assignments. These assignments enable people to exercise their responsibility and creativity, and also help them grow themselves and our business. Internal promotions and vertical or horizontal movements of deserving candidates have increased employee morale and motivation.

Our work culture promotes meritocracy and we have in place an automated Performance Management System that is fair and objective. We are in the process of revamping our other HR policies, bringing them at par with the industry best practices.

Proud Hexawarians

We intend to create enthusiasm with our **'Back to Growth, Back to Fun'** Employee Engagement Campaign recreating a Brand Image for the HR department. We encourage employees to participate in competitions, activities and interact with each other, making them feel **'Proud to be a Hexawarian'**. We also conduct several people-driven activities like Open Houses, Happy Hours, Grow More Round table. Facilities like in-house counsellor, doctor-on-call and a full-fledged infirmary with paramedic support are also maintained to benefit our employees.

Women empowerment

We fully support an environment, which encourages advancement of our women employees. The strength of the women workforce has steadily increased to over 2800. In 2013, W@H (Women @ Hexaware) Forum was started in all locations in India. Under this programme, our women workforce is mentored, so that Hexaware has women leaders to take on more responsibilities in future.

Differentiate and Delight

Yes, that is our guiding philosophy at Hexaware. We provide clients differentiated technology-based interventions to manage the growing complexities of their businesses. Our whole array of enterprise solutions is geared to increase flexibility and scalability of applications, reassuring clients and giving them a reason to smile.

SMAC (Social, mobility, analytics and cloud environments) offers significant opportunity for the industry and for us, and we are building new differentiators that will connect enterprise data and applications to the cloud.

236

Customers in 2014 include leading players in Banking and Financial Services, Travel and Transportation and Healthcare and Insurance segments

Adding capabilities

We are adding capabilities to grow and constantly fine-tune business processes to deliver enhanced solutions to our clients. We have institutionalised customer delight processes, which also have direct senior management focus and attention.

We create customer value-adds to all projects and this ensures very high customer delight index. With these processes, we have retained some of our top customers for over a decade. These include large airlines in North America and relationships enduring since 1999. Consistently high Customer Delight Index scores for our clients is a business imperative as we continue to deliver periodic value-adds to find the best outcomes for our customers' businesses.

We have selected 22 differentiated services, from the existing service lines. These are more enriched offerings that will enable us to enter adjacent verticals.

Putting customers first

Consistent customer focus is crucial to achieving customer delight and this is woven into the Company's training modules for every employee. Our employees are energised by a deeper customer focus. To deepen client relationships, we have invested in sales and marketing personnel; we have increased our capabilities in servicing, won new customers, and enhanced our field presence with technology proficient personnel and managers, complementing them with specialists in respective verticals. Thus, we have created more empowered account teams.

By establishing a formalised account management mechanism and building trusted relationships with our largest customers, we have grown profitably over the years.

Clientspeak

"As in years past, I've said it many times and this time is no different, the QCK development team has a high sense of pride and ownership of the application and it is truly reflected in the quality of work delivered. The entire team strives to suggest alternative solutions when appropriate, and fully understand the business needs and reasoning. I am very grateful to be working with such a wonderful and hardworking group. Akila and Anil are competent, strong, supportive leaders and never fail to ensure that their staff is well trained, thoughtful and accommodating."

Performance Review

Banking & Financial Services including Capital Markets

The Company offers several software tools and services across varied sectors like Asset Management, Asset Servicing, Capital Markets, retail banking, cards, corporate banking, leasing among others. These solutions cater to evolving needs of clients such as operational efficiency, process intelligence and standardisation, complex integration needs and delivery channels. Hexaware provides technology consulting services to assess client requirements and recommends a product-based or a custom-built leasing business solution.

Our global delivery model testing Centre of Excellence (CoE) framework, IPs and tool-based solutions result in a faster go-to-market.

Examples of our key offerings

Our Client On-Boarding Solution is a IT-BPO offering aimed at bringing standardisation and reducing cost and time by following a repeatable process:

- BPM modelling, onboarding monitoring, operations support, SOP matching, data exchanger, meta-data management and testing
- Comprehensive workflow solution provides single view of the whole process and enables standardisation across assets and geographies

This solution is expected to result in ~40% reduction in overall cost and will increasingly reduce the time involved for Custodian banks. Secondary benefits also include the possibility to take more onboardings with parallel teams.

Our AIM Toolkit is a comprehensive internal, regulatory and client reporting solution. The solution provides both pre-built and ad-hoc reporting tools and dashboards for portfolio management, risk management and performance management. Hexaware differentiates by providing flexibility of cloud based, hosted and non-hosted model along with managed services for related IT and BPO services. We also plan to add regulatory and client reporting along with data library to help with performance calculations, benchmarks and regulations that vary for different countries. This will help investment managers make informed decisions utilising standard and self-service reports. Additionally, the one-screen data view will help CXOs in taking organisational-level decisions.

Performance Review

Manufacturing and Services

With more than 50 clients in the manufacturing sector globally, most of them being among the top 5 in segments like Industrial Manufacturing, Hi-Tech, EPC and other Discrete segments. We are well positioned, not only to improve quality, productivity and optimise costs, but also to provide value added offerings to customers which directly contribute to production throughput and margins.

On the shop floor, our offerings go beyond the traditional production planning and execution systems, to help manufacturers monitor their machine performance in real time through sensor data and holistically analyse and improve utilisation, cycle times and throughput using sophisticated pattern matching algorithms. Customers who are already using MES are also adopting these cutting edge analytical solutions to get a higher integrated performance

As manufacturers tend to maximise their profit mix through after-sales services for their installed products, there has been a spurt in the need for predicting part failures in the field, condition monitoring and proactive maintenance. Our offerings for such after-market needs, optimises the costs of warranty, enables accurate spare parts planning and drives seamless field services management. The underlying thread of connecting products, people and service processes, driven by analytical insights, has been a great area of interest for our customers to attain higher performance goals.

We also help clients in project based manufacturing to accurately estimate, monitor and control schedule and cost during engineering and construction project lifecycle, tracking project profitability, managing variances and enabling effective site management.

Performance Review

Travel and Transportation

We provide in-depth domain knowledge that helps our customers to address operational, quality, and cost challenges. Linking business and technology, with an aim to optimise costs and enhance customer experience, we create niche domain products and services across airlines and airports, travel and hospitality, transportation and logistics and rail IT. This means bringing multiple applications for:

- Passenger Services
- Revenue Management
- Car Rentals
- Hotels and Restaurants
- Travel Portals
- Motor Freight
- Shipping and Ports
- Ticket Retail and Reservation
- Crew Management
- Customer Loyalty

Our consultants offer 24/7 service to help our clients reach their objectives of quality customer experience with cost advantages and continuous process improvements.

Performance Review

Healthcare & Insurance

Hexaware combines technological expertise with industry knowledge to collaborate with major healthcare and life sciences companies.

Hexaware offers many services for both Payers and Providers-and also undertakes healthcare reform along internal systems and business operations, end consumer service among others.

We provide:

Insurance

We provide comprehensive solutions in the Insurance sector- from assessing to planning and implementation to application development to maintenance support. Our BPS team has a talented pool of qualified professionals (AICPCU/Life Office Management Association) and provides outsourcing services like back-end processing, claims adjudication among others.

iFraudEngine

Insurers seek solutions which detect potential fraud at every phase of the product lifecycle, even at the quotation stage. This can lead to reduced premiums and drive customer service giving insurance players a sustainable competitive advantage. Using this engine, companies can do actionable market intelligence and reporting, forecasting, early fraud identification and pattern detection, thus reducing underwriting and claims leaks by over 45%. With a 360-degree approach and automated business rules, this engine uses advanced predictive modelling, text mining and anomaly detection. It also analyses relationships and patterns between individuals and groups involved in multiple claims and transactions, including social networking connections with known fraudsters.

Insurance Policy Conversion Solution (iConvert+)

We delivered a seamless data conversion application that allows a smooth data migration causing minimum disruption to business. The innovative iConvert+ suite is an advanced data migration engine built specifically for use in insurance data migration projects and also helps to partner de-duplication and address validation to

enhance partner data quality. It also gives cost savings from a unified system, in addition to savings from reduced business downtime.

Insurance Product Selection and Implementation Framework (iPSIF)

Hexaware's well-established Insurance Product Selection and Implementation Centre (iPSIC) has developed a complete framework for insurance product selection and implementation. We also help clients to short-list top 3 solutions for floating a RFP as well as finalising the solution, complete with price and contract negotiation.

Hexaware's iEvaluator Solution

Hexaware iEvaluator contains comprehensive set of parameters to assess software on Business Functionality, Configurability, Usability and System Features. It also assesses the software on vendor standing in market as well as technical and data architecture, Integration abilities to check how easy it is to maintain and extend the system, how mainstream the technologies are, how reasonable the hardware requirements are and how well the vendor provides post deployment support.

Sustainability at Hexaware

We have formulated comprehensive policies on Corporate Social Responsibility (CSR). Our operations revolve around our stakeholders. We are working on a roadmap to take up CSR projects and are putting in place CSR performance indicators for several thrust areas like environment, health and sanitation, sports, culture and arts, rural development and natural and disaster relief.

We have also commenced an initiative (H3O – 'Helping Hands from Hexaware') under which Hexawarians volunteer readily to spend their personal time with the less fortunate sections of society.

Initiatives in 2014

'Wish Tree'

Hexaware CSR team worked with Child Help Foundation and 'Fulfill a Kids Wish' fulfilling orphan kids' wishes. Through Child Help Foundation we associated with 4 schools in Mumbai and fulfilled wishes of 182 children:

- Tiwari Z. P. School
- St. Gonsalo Garcia Ashram & School
- Amcha Ghar, Uttan
- Zilla Parishad School Rajavali

We also associated with schools in Pune and Mumbai to fulfill wishes of 52 children.

Marathon

Like every year, Hexaware participated in the Standard Chartered Marathon 2015 on January 18, 2015 to support Helen Keller Institute for the Deaf & Blind and the Research society. There were 50 employees who participated in the Dream Run of 6 km. Our CEO and a few others ran the half marathon (21 km) to support the causes whole heartedly.

'Gift a school kit' initiative

'Seva Sahayog Foundation' is organising this initiative at our offices since the last four years. This year, employees sponsored school kits worth ₹ 300 per kit for disadvantaged children. They distributed school kits to 200 children.

Give India Initiative

Hexaware partnered with Give India to implement a Payroll Giving program for our employees to contribute to improving the lives of those who really need help and impact the world positively.

November 2014 saw 805 of our employees at our Chennai campus turn into Give India's new donors helping Give India reach another milestone of 800+ donors.

SWAG (Stuff with All Goodness)

Hexaware partnered with SWAG (Stuff with All Goodness), which thanks people and bring joy to our daily lives by giving them gifts in the winter festive season. Our employees also gifted street children clothes, toys, books and so on.

Moreover, Hexaware partnered with Aruna Chethana: a school for children with special needs, and distributed clothes, toys and other useful items donated by our employees to 182 children.

Awards and Recognition

We were recognised for excellence in services across various categories. Some of our key achievements were:

EXPLANATORY STATEMENT FOR RESOLUTIONS MENTIONED UNDER ITEM NOS. 6 TO 14 PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item no. 6, 7 & 10:

The Company had, pursuant to the provisions of Section 161 of the Act and applicable rules made thereunder and clause 49 of the Listing Agreement entered with the Stock Exchanges appointed Mr. Basab Pradhan (DIN 00892181), Mr. Christian Oecking (DIN 03090264) and Dr. Punita Kumar-Sinha (DIN 05229262) as Additional Directors (Independent Directors) in compliance with the requirements of the clause holding office upto the date of the ensuing Annual General Meeting.

The Company has received notices in writing from members along with the deposit of requisite amount under Section 160 of the Companies Act, 2013 proposing the candidature of Mr. Basab Pradhan, Mr. Christian Oecking and Dr. Punita Kumar-Sinha as Independent Directors of the Company.

The Nomination & Remuneration Committee has recommended and the Board has approved the appointment of Mr. Basab Pradhan, Mr. Christian Oecking and Dr. Punita Kumar-Sinha as Independent Directors as per their letters of appointment for a period of two years from June 9, 2014, June 26, 2014 and March 26, 2015, respectively.

Mr. Basab Pradhan, Mr. Christian Oecking and Dr. Punita Kumar-Sinha, have given a declaration to the Board that they meet the criteria of independence as provided under section 149(6) of the Act. In the opinion of the Board, each of them fulfill the conditions specified in the Act and the rules framed thereunder for appointment as Independent Director and they are independent of the management.

In compliance with the provisions of section 149 read with Schedule IV of the Companies Act, 2013 the appointment of these directors as Independent Directors is now being placed before the Members for their approval.

The terms and conditions of the appointment of Mr. Basab Pradhan, Mr. Christian Oecking and Dr. Punita Kumar-Sinha as Independent Directors of the Company shall be open for inspection by the Members at the Registered Office of the Company during normal business hours on any working day, excluding Saturdays and Sundays and on the website of the Company at www.hexaware.com.

A brief profile of the Independent Directors to be appointed is given below:

Mr. Christian Oecking born in Dortmund / Germany, holds an Engineering Degree from the University of Dortmund. In 1986, Christian started his professional business activities by developing software and related consulting services. In 1993, he joined EDS ("Electronic Data Systems"), Germany, where he started his career in global IT, and more specifically, IT Outsourcing. Later on, he became a member of the German management team of EDS. In 1998, Mr. Christian joined Siemens AG – Siemens Business Services, where he at first took over the responsibility for IT Outsourcing in Germany. In 2001, he became a member of the management board and was responsible for a 2.4 billion € global outsourcing business (Infrastructure and applications).

Mr. Christian Oecking's key focus was to profitably grow and to industrialize this business. He signed leading industry contracts and developed a global operations network with factories in Turkey, Philippines, India, Eastern Europe, Russia and many other locations, serving leading industry customers in all parts of the world.

In 2009 Mr. Christian Oecking was elected to be the CEO/Chairman of Siemens IT Solutions and Services (SIS) and became Member of the Board of Siemens AG. In the following 2 years he restructured the global 4.5 billion € business, harmonized it, pushed sales and finally handed SIS successfully over to ATOS in 2011.

Mr. Christian Oecking supports several companies with board memberships / independent directorate positions or advisory roles. Parallel to his business activities, he was co-founder of the Cloud / Outsourcing Group at BitKom in 2001, that he lead as a president for many years. Mr. Christian Oecking published several books about Application and Infrastructure Outsourcing.

Mr. Basab Pradhan has had a successful career spanning IT Services, Technology and Consumer Marketing. His longest tenure has been with Infosys Ltd. where he spent 13 years over two stints. For 5 of these 13 years at Infosys, Mr. Pradhan was Head of Global Sales & Marketing for the Company. From 2002 to 2005 he led the Company's sales organization as it grew from \$ 400 million to \$ 2 billion in revenues with industry leading margins. Mr. Pradhan now advises technology startups.

Mr. Pradhan has a Bachelor of Technology from the Indian Institute of Technology, Kanpur and an MBA from the Indian Institute of Management, Ahmedabad. He lives in the San Francisco Bay Area.

Dr. Punita Kumar-Sinha is the Founder and Managing Partner, Pacific Paradigm Advisors, an independent investment advisory and management firm. Dr. Kumar-Sinha has twenty five years of experience in fund management in international and emerging markets, being one of the first foreign investors into India.

Dr. Kumar-Sinha is also a Senior Advisor to a few leading Indian companies and serves as an Independent Director on many Boards. Dr. Kumar-Sinha has deep investment expertise, extensive corporate governance insights, and broad based relationships in USA and Asia, particularly in India. Prior to founding Pacific Paradigm Advisors in 2012 she was a Senior Managing Director of Blackstone Group, leading Blackstone Asia Advisors as the business unit head and Chief Investment Officer. At Blackstone Asia Advisors, Dr. Kumar-Sinha worked closely with Blackstone senior management on all business and investing activities including joint ventures and strategic alternatives for the Asia Advisors business unit. Dr. Kumar-Sinha was also the Senior Portfolio Manager for The India Fund (NYSE:IFN), the largest India Fund in the US for almost 15 years, The Asia Tigers Fund (NYSE:GRR), and The Asia Opportunities Fund L.P.

Dr. Kumar-Sinha has a Ph.D. and a Masters in Finance from the Wharton School, University of Pennsylvania. She received her undergraduate degree in chemical engineering with distinction from the Indian Institute of Technology, New Delhi. She has an MBA and is also a CFA Charter holder. Dr. Kumar-Sinha is a member of the CFA Institute, the Boston Security Analysts Society and the Council on Foreign Relations. She is a Charter Member and was a Board Member of TIE-Boston. Dr. Kumar-Sinha has recently been awarded the prestigious "Distinguished Alumni Award" from IIT Delhi.

Prior to joining Hexaware, Mr. R. Srikrishna spent over 20 years at HCL Technologies where he was most recently the President of two businesses – The Life Sciences & Healthcare Business; and the Infrastructure Services Business. He was instrumental in growing these businesses into a multi-billion dollar juggernaut.

Mr. R. Srikrishna is an electrical engineer from IIT, one of the world's premier engineering education institutions and an MBA from one of India's top business schools – IIM, Calcutta.

The information pertaining to the Directors to be appointed as provided in terms of Clause 49 of the Listing Agreement entered into with the Stock Exchanges is furnished in the Statement on Corporate Governance published in this Annual Report.

Mr. R Srikrishna is not related to any of the Directors of the Company and except Mr. R Srikrishna, none of the Directors and key managerial personnel of the Company and their relatives are interested or concerned in the passing of the above resolution.

Item no. 9:

Mr. Jack Hennessy (DIN 06990208) was appointed as an Additional Director on the Board w.e.f. November 5, 2014 and holds office upto the date of the ensuing Annual General Meeting.

The Company has received notice in writing from a member along with the deposit of requisite amount under Section 160 of the Act proposing the candidature of Mr. Jack Hennessy as a Non-Executive Director of the Company liable to retire by rotation.

A brief profile of Mr. Jack Hennessy is given below:

Mr. Hennessy is a Managing Director with Baring Private Equity Asia ("Baring Asia") and is based in the Singapore office. He brings over 16 years experience in the private equity industry and focuses on originating, monitoring and exiting MBOs.

Mr. Hennessy focuses on the education, retail, consumer, health care and financial services sectors. He serves as a member of Baring Asia's Investment Committee. Mr. Hennessy was an Adjunct Professor at INSEAD from 2006 to 2008 where he taught the Leveraged Buyout (LBO) course. He received an MBA from INSEAD and Bachelors Degrees in both Engineering (with Honours) and Science from Monash University in Australia.

The information pertaining to the Directors to be appointed as provided in terms of Clause 49 of the Listing Agreement entered into with the Stock Exchanges is furnished in the Statement on Corporate Governance published in this Annual Report.

Mr. Jack Hennessy is not related to any of the Directors of the Company and except Mr. Jack Hennessy, Mr. Jimmy Mahtani and Mr. Kosmas Kalliarekos, none of the Directors and key managerial personnel of the Company and their relatives are interested or concerned in the passing of the above resolution.

Item no. 11 & 12:

The members may note that except with the approval of the Company in General Meeting the remuneration payable to directors who are neither managing directors nor whole-time directors shall not exceed, one per cent of the net profits of the Company, if there is a managing or whole-time director or manager. Further, such remuneration shall be determined, in accordance with and subject to the provisions of section 197 of Companies Act, 2013, either by the articles of the Company, or by a resolution or, if the articles so require, by a special resolution, passed by the Company in general meeting.

The existing Article 90 of the Articles of Association of the Company provides for passing of special resolution of the shareholders for payment to directors based on percentage of the net profits of the Company. Hence, the Special resolution at Item no 12 is proposed to the shareholders to approve payment to the non – executive directors of the Company for the Financial Year 2014 based on percentage of the net profits of the Company.

Moreover, the amendment in the articles is for deleting the provision of passing special resolution for making payment to non whole time directors based on percentage of net profits as per the applicable provisions in the Companies Act and other applicable laws / regulations.

Moreover, clause 49 (II) (C) of the listing agreement prescribes that all fees / compensation, if any paid to non-executive directors, including independent directors, shall be fixed by the Board of Directors and shall require previous approval of shareholders in general meeting. Hence, it is proposed to the members to pass enabling resolution to allow payment to non executive (non whole time directors) under applicable provisions of Companies Act / Listing Agreement / other applicable laws for a period of 5 years from the Financial Year starting from January 1, 2015.

Hence, the Company shall not be required to pass shareholders resolution for making payment to non whole time directors every year provided such payments are within the cap provided under Section 197 of the Companies Act, 2013.

None of the Directors and key managerial personnel of the Company are interested or concerned in the passing of the above resolution other than the non whole time directors who receive payment based on percentage of profits.

Item no. 13 and 14:

Equity based compensation is considered to be an integral part of employee compensation across sectors which enables alignment of personal goals of the employees with organizational objectives by participating in the ownership of the Company through share based compensation scheme/ plan. Your Company believes in rewarding its employees including Directors of the Company as well as that of the Subsidiary Company(ies) for their continuous hard work, dedication and support, which has led the Company and the Subsidiary Company(ies) on the growth path. The Company intends to implement Hexaware Technologies Limited Employee Stock Options Plan 2015 ("ESOP 2015"/ "Plan") with a view to attract and retain key talents working with the Company and its Subsidiary Company(ies) by way of rewarding their performance and motivate them to contribute to the overall corporate growth and profitability.

Pursuant to provisions of Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (SEBI SBEB Regulations), the Company seeks members' approval in respect of ESOP 2015 and grant of Options to the eligible employees/ Directors of the Company and that of its Subsidiary Company(ies) as decided by the Nomination and Remuneration Committee from time to time in due compliance of the SEBI SBEB Regulations.

The main features of the ESOP 2015 are as under:

1. Maximum number of Options to be granted:

Such number of Options would be available for grant to the eligible employees and directors of the Company and its Subsidiary Company(ies) under ESOP 2015, in one or more tranches, as would be exercisable into shares not exceeding more than 10,765,025 (One Crore Seven Lakh Sixty Five Thousand Twenty Five) Equity Shares in the Company of face value of ₹ 2/- each fully paid-up.

Vested Options lapsed due to non-exercise and/or unvested Options that get cancelled due to resignation/ termination of the employees or otherwise, would be available for being re-granted at a future date. The Board / Nomination and Remuneration Committee is authorized to re-grant such lapsed / cancelled Options as per the provisions of ESOP 2015, within overall ceiling.

The SEBI SBEB Regulations require that in case of any corporate action(s) such as rights issues, bonus issues, merger and sale of division, and others, a fair and reasonable adjustment needs to be made to the Options granted. Accordingly, if any additional Equity Shares are required to be issued pursuant to any corporate action, the above ceiling of Equity Shares shall be deemed to increase in proportion of such additional Equity Shares issued subject to compliance of the SEBI SBEB Regulations.

2. Identification of classes of employees entitled to participate in ESOP 2015:

Following classes of employees are entitled to participate in ESOP 2015:

- a) Permanent employees of the Company working in India or out of India;
- b) Directors of the Company whether whole time director or not; and
- c) Permanent employees and Directors of the Subsidiary Company(ies) in India or outside.

Following persons are not eligible:

- a) an employee who is a Promoter or belongs to the Promoter Group;
- b) a Director who either by himself or through his relatives or through any body corporate, directly or indirectly holds more than 10% of the outstanding Equity Shares of the Company; and
- c) an Independent Director within the meaning of the Companies Act, 2013 and Clause 49 of the Listing Agreement as prescribed by the Securities Exchange Board of India (SEBI) as applicable.

3. Transferability of Employee Stock Options:

The Options granted to an employee shall not be transferable to any person and shall not be pledged, hypothecated, mortgaged or otherwise alienated in any manner. However, in the event of the death of the employee or director, the right to exercise all the Options granted to him till such date shall be transferred to his legal heirs or nominees.

4. Requirements of vesting and period of vesting:

The Options granted shall vest so long as an employee continues to be in the employment of the Company or the Subsidiary Company as the case may be. The Nomination and Remuneration Committee may, at its discretion, lay down certain performance

Notice

metrics on the achievement / non-achievement of which such Options would vest, the detailed terms and conditions relating to such performance-based vesting, and the proportion in which Options granted would vest, subject to the minimum vesting period of 1 year.

5. Maximum period within which the Options shall be vested:

Options granted under ESOP 2015 would vest subject to maximum period of 4 years from the date of grant of such Options .

6. Exercise price or pricing formula:

The Exercise price per Options shall be the price as decided by the Nomination and Remuneration / Compensation Committee ("Exercise Price").

7. Exercise period and the process of Exercise:

The vested Options shall be allowed for exercise on and from the date of vesting. The vested Options need to be exercised within a maximum period of 3 years from the date of vesting of such Options.

The vested Options shall be exercisable by the employees by a written application to the Company expressing his/ her desire to exercise such Options in such manner and on such format as may be prescribed by the Nomination and Remuneration Committee from time to time. The Options shall lapse if not exercised within the specified exercise period.

8. Appraisal process for determining the eligibility of employees under ESOP 2015:

The appraisal process for determining the eligibility of the employees will be decided by the Nomination and Remuneration/ Compensation Committee from time to time.

The employees would be granted Options under the ESOP 2015 based on various parameters such as performance rating, period of service, rank or designation and such other parameters as may be decided by the Nomination and Remuneration / Compensation Committee from time to time.

9. Maximum number of Options to be issued per employee:

The number of Options that may be granted to any specific employee of the Company or of its Subsidiary Company under the Plan, in any financial year under the ESOP 2015 shall be less than 1% of the issued Equity Share Capital (excluding outstanding warrants and conversions) of the Company.

10. Accounting and Disclosure Policies:

The Company shall follow the 'Guidance Note on Accounting for Employee Share-based Payments and/or any relevant Accounting Standards as may be prescribed by the Institute of Chartered Accountants of India from time to time, including the disclosure requirements prescribed therein.

11. Method of Options Valuation:

To calculate the employee compensation cost, the Company shall use the Intrinsic Value method or any other method as prescribed under the Accounting Standards for valuation of the Options granted. The difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the Options and the impact of this difference on profits and on EPS of the company shall also be disclosed in the Directors' Report.

Consent of the members is being sought pursuant to Section 62(1)(b) and all other applicable provisions, if any, of the Companies Act, 2013 and rules framed thereunder and as per Regulation 6 of the SEBI SBEB Regulations.

A copy of the ESOP 2015 shall be kept for inspection by the members on all working days between 10.00 a.m. to 1.00 p.m. till the date of the Annual General Meeting at the Registered Office of the Company.

None of the Directors, Key Managerial Personnel of the Company including their relatives are interested or concerned in the resolution, except to the extent of their entitlements, if any, under the Plan.

The Directors recommend the resolutions for your approval.

Directors' Report

Results of Operations

a) Global operations:

Income from operations increased to ₹ 25,816.77 million in 2014 from ₹ 22,853.48 million in 2013, growth of 12.97%. The growth in Dollar terms was 8.9%, reaching USD 422.40 million. Growth was driven largely by volume increase, aided by increased realized bill rates, however there was an adverse impact of cross currency. Profit from Operations (profit before Exchange rate difference, Interest, Other income and Provision for taxation) was at ₹ 4,335.88 million in 2014 as against ₹ 4,736.26 million in 2013. The decrease was largely on account of increase in onsite business which is primarily low margin business in comparison of offshore, additional investment in sales and increased admin cost for growth.. Profit after tax stood at ₹ 3,201.52 million in 2014 as compared to a profit of ₹ 3,791.35 million in 2013. PAT margins were at 12.4% in Rupee terms.

ANNEXURE TO THE DIRECTORS' REPORT

INFORMATION RELATING TO CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, RESEARCH AND DEVELOPMENT AND FOREIGN EXCHANGE EARNINGS AND OUTGO FORMING PART OF DIRECTORS REPORT IN TERMS OF SECTION 217(1) (e) OF THE COMPANIES ACT, 1956, AND RULES MADE THEREUNDER.

CONSERVATION OF ENERGY:

The Company is entirely a services Company and thus essentially, a non-energy intensive organization. Additionally, the Company's facilities are set up at locations chosen for adequate availability and supply of energy, regardless of power shortages recently witnessed across many markets.

The Company acknowledges that power conservation is a necessity not only for future availability, but also environmental safety. Thus, the Company has in place adequate safeguards against excessive consumption and wastage of energy, in form of energy-friendly apparatus as well as minimal usage policies. All the computer terminals, air-conditioning systems, lighting and utilities are modern technology enabled so that optimum use of energy and power can be made. The state-of-the-art campus at Siruseri has been categorized as a "Green Campus" because of its eco-friendly design.

The Company has installed 90KW Rooftop solar system in its Siruseri Campus in the year 2014 with a capacity of producing 1.2 L units of power in a year. Power generated in 2014 from this system is 78133 units. This results in saving of Green House Gas emission of 46.57 tons of CO₂.

The Company undertakes several green campaigns throughout its locations to reiterate renewed commitment to fulfilling environmental obligations.

TECHNOLOGY ABSORPTION:

In an endeavor to stay abreast of most recent advancements across the technology spectrum, the Company has entered into partnerships, alliances and tie-ups with major global players in the I.T. Industry. This helps the Company to harness the latest and the best of technologies in its field, upgrade itself in line with the latest technologies in the world and absorb technology wherever feasible, relevant and appropriate. Through exchange of ideas and leveraging competencies, the Company has increased its market presence and delivered integrated best in breed offerings.

At the same time, the Company has also attached tremendous significance to indigenous development and upgrade of technology through its own extensive research and development. The benefits derived from these processes are phenomenal and have improved the quality of its world class services. It has also helped in diversifying the services portfolio while increasing cost efficiency. The Company has a significant percentage of its lateral talent drawn from major global players with a good understanding of their internal technology and consulting processes, engineering practices and knowledge centers. The Company has made representations in

multiple industry seminars and conferences – useful in absorbing contemporary trends in technology and business processes from the industry.

RESEARCH & DEVELOPMENT:

The Company has a state-of-the-art Research and Development wing carrying on Research and Development activities to create Intellectual Property for the Company. This is in line with the Company's established philosophy of maintaining and sustaining leadership status and the belief that R&D will be a crucial differentiator between companies, in the not-so-distant future.

The Company perpetuates in-house thought leadership through establishment of structured organizational frameworks like the Innovation Council. This is supported by senior management, and performs a mentoring role to screen and select promising concepts from among various project teams, and see them through implementation. This is an iterative process, conclusion of which results in a list of innovative tools, accelerators and methodologies that add value to current and future clients.

The Company has several Centers of Excellence (CoEs) and Advanced Solution Groups (ASGs) attached to individual practices and verticals for fostering innovation channeled to a particular area of interest. Under ample guidance from the Practice Head, the Company has dedicated long-time resources, as well as employees by rotation on short stints working here to exchange ideas and produce the desired results. These CoEs are not perceived as mere cost-centers with ambiguous commercial value, but rather as supplementary revenue generating units, especially with license sales seen over the last year. The Company's list of Intellectual Property rollouts is impressive and spans across almost all its focus verticals and practices as also emerging areas of interest. The dedicated 'Innovation Infrastructure' 'Innovation Council' and 'Innovation Labs' framework, co-ordinates closely with focus practice groups to pilot and continuously test these incubated ideas.

Some tools, accelerators and other IP produced by the innovative minds this year would include HexBI-Test, HexaJaws, HexPAS, iFraud Engine etc.

FOREIGN EXCHANGE EARNINGS AND OUTGO:

The details of Foreign Exchange Earnings and Outgo are mentioned in Note No. 31 to 34 of the Notes forming part of the Standalone Financial Statements of the Company.

Report on Corporate Governance

The detailed report on Corporate Governance, for the financial year January 1, 2014 to December 31, 2014 as per the format prescribed by SEBI and incorporated in Clause 49 of the Listing Agreement is set out below:

1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Hexaware is committed to the high standards of transparency, openness, probity and accountability.

In working to ensure compliance with corporate governance laws, regulations and policies, Company is focusing on building business processes and infrastructures that not only ensure compliance but also increase their company's capacity for efficiency, agility, and responsive management. The push today is towards putting into place a combination of internal controls, explicit business processes, and systems for corporate governance that can also build business value.

We firmly believe that it is only through good corporate governance practices can we achieve sustainable growth of the organisation and create long term shareholder value. Hence, our endeavour has always been to go beyond the letter of the law and observe corporate governance practices in the true spirit of the law, with high levels of accountability, transparency and integrity.

Hexaware's commitment to ethical and lawful business conduct is a fundamental value of our Board of Directors, management and employees and is critical to the company's success. We strive to uphold ethical and legal standards at all costs. We continuously build value for customers through innovative use of technology and talent without compromising on our core values such as honesty and integrity. We also believe that accurate and timely disclosures improve public trust and consequently attracts various stakeholders towards the Company.

We are committed to adopt International best practices in Corporate Governance. There is a separation of the role of Chairman of the Board and the Chief Executive Officer; a practice that has been in place for more than 12 years in the Company. The Company has adopted the Code of Conduct for Board of Directors, Senior Management Personnel and Prevention of Insider Trading. Further, the Company provides detailed disclosures in quarterly financial statements to show where the funds are invested/ held in a safe manner. With the focus on the core corporate governance principles of accountability, transparency and integrity and adoption of suitable global, local and industry best practices the Company is moving ahead in its pursuit of excellence in corporate governance.

12.10 Dematerialization of Shares and liquidity:

Procedure for dematerialization/ rematerialization of shares:

Shareholders seeking demat/remat of their shares need to approach their Depository Participants (DP) with whom they maintain a demat account. The DP will generate an electronic request and will send the physical share certificate to Registrar and Share Transfer Agents ("the Registrar") of the Company. Upon receipt of the request and share certificate, the Registrar will verify the same. Upon verification, the Registrar will request National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL) to confirm the demat request. The demat account of the respective shareholder will be credited with equivalent number of shares. In case of rejection of the request, the same shall be communicated to the shareholder.

In respect of remat, upon receipt of the request from the shareholder, the DP generates a request and verification of the same is done by the Registrar. The Registrar then requests NSDL and CDSL to confirm the same. Approval of the Company is being sought and equivalent number of shares are issued in physical form to the shareholder. The share certificates are dispatched within one month from the date of issue of shares.

98.61% of the issued capital of your Company has been dematerialized up to December 31, 2014.

Go Green initiative:

In order to protect the environment and as a Go Green initiative, the Company has taken an initiative of sending documents like Notice calling the Annual General Meeting, Corporate Governance Report, Directors' Report, Audited Financial Statements, Auditors' Report, dividend intimations etc. by e-mail. Physical copies are sent only to those shareholders whose e-mail addresses are not registered with the Company and for the bounced e-mail cases. Shareholders are requested to register their e-mail id with RTA/ Depository to enable the Company to send the documents in electronic form or inform the Company in case they wish to receive the above documents in paper mode.

Management's Discussion and Analysis

ECONOMIC OVERVIEW

Global Economic Scenario

The International Monetary Fund expects world economy to grow at 3.5 and 3.7 percent in 2015-16, downward revisions of 0.3 percent relative to the October 2014 World Economic Outlook (WEO). The lower estimates mirrors the reappraisal of forecasts in China, Russia, the euro area, and Japan besides weaker activity in some major oil exporters due to the sharp drop in oil prices. The economic growth in the United States is expected to transcend 3% during 2015-16 and has been revised to 3.6% aided by domestic demand that will be driven by the sharp fall in oil prices, moderate fiscal adjustment, and an accommodative monetary policy stance, despite the projected gradual rise in interest rates. However, the dollar surge is projected to reduce net exports.

Although lower oil prices and quantitative easing support the Euro zone prospects, the IMF has lowered the economic growth to 1.2% for 2015 weighed by stagnation and inflation.

The impact of Abenomics is yet to translate into positive economic growth prospect for Japan as it witnessed a technical recession in the third quarter of 2014. The IMF has revised downward the economic growth to 0.6% in 2015 however; it has indicated lower oil prices and yen depreciation to aid growth in 2015-16.

For emerging market and developing economies, the IMF forecasts economic growth to remain broadly stable at 4.3% in 2015 and to rise to 4.7% in 2016-a weaker pace than forecast in the October 2014 WEO.

Outlook

The dwindling oil prices, fiscal adjustments and easing monetary stance are some of the growth drivers which will aid economic recovery however, the economic growth outlook is likely to get influenced by the fall out between Russia and Ukraine, and the geo-political tensions persisting in Syria and ethnic tensions in the Mid-East nations.

Indian Economic Overview

The resurgent Indian economy is leading the growth momentum among the Emerging economies driven by the robust GDP growth, improved FDI inflows and pro-growth economic reforms such as hike in FDI cap in defence and insurance, deregulation of diesel and petrol prices, Ordinance on Coal and Insurance Bill and telecom spectrum auction.

The International Monetary Fund has raised its India GDP growth estimates for 2014-15 to 7.2% and 7.5% in 2015-16. The revised upward forecasts by the IMF from its earlier estimates of 6.3% and 6.5% for FY 2014-15 and 2015-16, reflect the new GDP methodology adopted by the Indian government.

These projections however, are lower than the Indian government forecast of 7.4% growth rate in 2014-15 and 8-8.5% in 2015-16 as per the revised GDP calculation methodology. The buoyant FY 2015 growth estimate follows an upbeat 7.5% expansion estimated during the third quarter of October-December 2014. (Source: Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation). The Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation, had revised its base year to 2011-12 and released revised annual estimate of National Income and other macroeconomic aggregates on 30th January 2015.

The February trade deficit contracted to a 17-month low at USD 6.8 billion led by oil imports which reduced by more than 55% from the previous month. Imports declined an annual 15.66% in February year-on-year to USD 28.39 billion. During the same period, Merchandise exports slumped 15.02% year-on-year to USD 21.54 billion. (Source: Government of India Ministry of Commerce & Industry Department of Commerce Economic Division)

After a prolonged sluggish period the manufacturing sector in January 2015 witnessed a significant growth at 3.3%. During the period April-January 2014-15, the sector registered a growth of 1.7% compared to a contraction of 0.3% in the corresponding period of the previous year. (Source: CSO)

For the month of January 2015, IIP grew 2.6% as compared to 1.1% increase in January 2014. However, the growth in January is lower than the 3.2% registered in December 2014. KEY ACHIEVEMENTS

Large deal signed

During last quarter of 2014, Hexaware has renewed a large deal with an existing client for over USD100 million. The relation provides opportunity to manage the key IT processes of the corporation.

Investment in Technologies

Proliferating mobile technology and onset of a new era of social business has empowered consumers with information and enriched them through networks that radically change expectations. This gets factored into our clients' requirements as well. Hexaware understands this as we integrate their enterprise operations with new software and technologies.

• **Innovation in Travel and Transportation (T&T):**

Our innovations extend our customers' operating parameters, delivering higher service productivity and optimising their costs.

E-Freight Kit

We partnered with one of our clients, one of the largest airlines globally, to develop a cost-effective technology enabler for handling airway billing processes seamlessly. Earlier, this was paper based. Our new application, E-Freight kit, allows accurate, paperless and timely electronic information exchange for partners in air cargo supply chain.

Digital MRO Suite

Most Airlines and Maintenance-Repair-Overhaul (MRO) service providers use old legacy-based in-house MRO applications having outdated technologies. These old generation MRO applications take enormous time for data migration. Moreover, useful data on hard copy/PDF formats often lie scattered; these have to be converted to a digitised format or integrated and stored in one common location such as a data mart or data warehouse. Besides this, airlines and MRO service providers hold excess inventory (including wrong parts).

Our Digital MRO Suite, incorporating mobility and augmented reality features, improves processes and achieves faster turnaround time in maintenance and parts tracking areas.

• **Innovation in Insurance:**

We provide comprehensive solutions in the Insurance sector—from assessing to planning and implementation to application development to maintenance support.

iFraudEngine

Insurers seek solutions which detect potential fraud at every phase of the product lifecycle, even at the quotation stage. This

can lead to reduced premiums and drive customer service giving insurance players a sustainable competitive advantage. Using this engine, companies can do actionable market intelligence and reporting, forecasting, early fraud identification and pattern detection, thus reducing underwriting.

Insurance Policy Conversion Solution (iConvert+)

We delivered a seamless data conversion application that allows a smooth data migration causing minimum disruption to business. The innovative iConvert+ suite is an advanced data migration engine built specifically for use in insurance data migration projects and also helps to partner de-duplication and address validation to enhance partner data quality. It also gives cost savings from a unified system, in addition to savings from reduced business downtime.

• **Innovation in Banking and Financial Services:**

Onboarding solution

Hexaware's Client On-Boarding Solution for Asset Manager by custodians for back office and mid office functions, which is a long and expensive exercise, aims to bring standardisation and reduces cost and time by following a repeatable process.

AIM Toolkit

Hexaware's AIM Toolkit is a comprehensive internal, regulatory and client reporting solution provides both pre-built and ad-hoc reporting tools and dashboards for portfolio management, risk management and performance management. This will help investment managers make informed decisions utilising standard and self-service reports. Also, the one-screen data view will help CXOs in taking organisational level decisions.

• **Technology transformation through Business Analytics (BA/BI)**

Big Leap

This application helps enterprises elevate their data management capabilities by successfully adopting Big Data technologies in ways that guarantee rapid value. It includes a lab setup with pre-built adaptors for quick proof of concept for business value definition.

Data Modernisation

This application enables transition from heterogeneous/legacy applications driven by business process change, consolidation or M&A, performance considerations to a modern platform using data management best practices and innovative tools. It delivers low-cost, cloud-based managed service model for data migration, data quality services and reduces dependency on business users through Hexaware IP tools like HexaRule, Fuzzy Data Quality Kit, Business Glossary, DQ Dashboards.

Dr. Hadoop (IP/technology solution accelerator)

This tool is a Hadoop Migration Solution Accelerator for efficiently transferring the data structure, data content between structured databases and Hadoop. It speeds up DW augmentation programmes by saving 60 to 70% effort.

• **Innovation in Quality Assurance and Testing**

DT Compress

Its Test automation utility to compare the source and target tables/files to validate business rules for transformations in ETL, data migration projects. No tool investment required, accelerates the test execution cycle as it can compare a million records between the source and target databases in 10 min.

Management's Discussion and Analysis

HexaBi - Test

Automated Reports content validation tool for pre and post migration testing of reports. It entails significant effort reduction in reports comparison testing as compared to a manual comparison.

Hexajaws

An Cloud based cost effective performance test solution using JMeter and a Cloud service provider for portals (for e.g. ecommerce

sites) that are highly user intensive. It significantly reduces the cost of performance testing as the capex cost.

INFRASTRUCTURE UPDATE

During the year, we added two delivery centres onsite in the USA at Alpharetta, Georgia, and Herndon, Virginia, increasing our capacity by 240 seats and bringing us closer to the customer.

OPPORTUNITIES AND STRENGTHS

OPPORTUNITIES

Large Deals

With the global economy recovering from the slowdown and developed economies registering economic growth, IT spending by corporates is increasing gradually. In order to focus on the core areas of business and strategy, global corporates are outsourcing their IT processes and requirements.

How we leveraged the opportunity

At Hexaware, we are capitalising on this emerging global trend. Over the years, we have been acknowledged as a differentiated IT services provider due to our ability to successfully win and execute high value and complex engagements from the existing clients. We have established ourselves as a major player in most of our focus areas and are confident of retaining our position as the preferred IT consulting partner for organisations globally.

Client orientation

At Hexaware, we pride ourselves in maintaining long, robust relationships with clients. For these existing clients, we have the opportunity to introduce new innovation and focused services to increase portfolio of offerings and deepen our relationship with them.

How we leveraged the opportunity

Hexaware has a significant portion of its overall revenue coming from clients where the relationship extends to several years. If one were to look at our top10 clients, the average tenure of the relationships with these clients is greater than five years. Once we establish a relationship with a client, we expand to get a substantial share of the customer's wallet. Not surprisingly almost 96% of our revenues are contributed by our existing clients. To complement our hunting teams, we have experienced hunters with deep domain expertise, strong networks and a deep understanding of the market. We have a strong account mining team that works closely with our account management team to identify a client's problem areas, process bottlenecks and other issues where we can help achieve operational efficiencies. With many new large accounts coming for rebidding, we are optimistic about growth opportunities in the coming year.

Innovations in Delivery model

The inherent dynamism of the IT industry means delivery models are constantly changing. These shifting delivery paradigms offer newer opportunities to provide greater innovations and enhanced services.

How we leveraged the opportunity

We believe that in our business, client satisfaction is of primary importance and have taken a number of initiatives to ensure better client service and ensure customer delight. All of our verticals and accounts have been empowered to take independent decisions to facilitate quick decision making. Each of our accounts have a dedicated account manager who has complete accountability and responsibility for that account. Further, the strong business understanding of our client facing team enables them to get quicker and deeper insights into client requirements. Our team has always been nimble footed and willing to go the extra mile to support our clients and ensure their success.

STRENGTHS

Leaders in niche sectors

Over the years, we have developed and demonstrated leadership and expertise in our focus areas. Our enterprise solution offerings combined with best of class enterprise integration skills are our key differentiators. The following are some of the niche sectors where we are the market leaders:

- Among the leading IT solution providers for the Airline industry
- Fast emerging among the top Indian IT services provider in Germany
- One of the global market leader in PeopleSoft services
- Developed innovative solutions in Capital Markets especially Asset Management

Strong domain knowledge

One of our biggest competitive advantages is our deep insight and strong domain knowledge in the niche areas that we have been focusing. In order to continue our leadership position and continue moving up in the value chain we have been reinvesting in building our technical capabilities. We have created product Centre of Excellences that houses well defined framework, checklists and accelerators. Our employees have been dedicatedly working in this Centre of Excellences by leveraging modern tools and processes for developing solutions of tomorrow which will boost productivity and reduce project development time.

Effective delivery models

We have invested in building significant onsite delivery and consulting capability by locating our business practice leaders, account managers and top management team. This structure enables quicker decision-making and ease of access to customers. We have an enviable track record in building, operating and delivering solutions from very large offshore development centers (ODC). We offer a proven business model for customers looking to exploit delivery capabilities across the globe. Our models provide a framework for outsourcing large application and product management services and provide customers with economies of scope and scale.

OPPORTUNITIES
Building a Sustainable growth model

With the advent of technology, industry is changing rapidly. Obsolescence of existing technology is a reality that industries have to deal with and address very quickly. This creates opportunities to provide long term sustainable models to help improve efficiency and provide solutions that allow industries to remain up to date with latest technology trends.

How we leveraged the opportunity

Hexaware's leadership team works closely with client organisations to anticipate changes in the client's business and respond with strategies that enable them to capitalise on them. For example, during the year we partnered with Experitest to further enhance our mobile automation delivery capabilities to meet our client's needs.

We provided our customers with SeeTest, a robust solution for end-to-end mobile application test automation. With SeeTest, we will be able to steer a client's mobile test automation requirements in the right direction with consultants who are available to translate a client's needs into an effective application test solution through in-house frameworks. With this partnership, we are well equipped to keep up with the dynamics of technology in mobile test automation, and extend our model to include additional mobility test imperatives like device-level performance testing as a by-product of test automation.

In addition to this, we partnered with Oracle to launch Oracle's PeopleSoft Test Framework services, which will allow users to install, configure, implement and maintain PTF automation. Our PTF services allow customers to execute more tests with greater accuracy in a shorter time frame, and enable significantly reduced operational costs. With this offering, we are not only saving money for our clients by helping to eliminate unnecessary and redundant processes, but also enabling an enhanced time-to-market solution with Return on Investment (ROI) within just two test cycles.

STRENGTHS
Flexible

As a mid-size vendor, we provide a great deal of flexibility in both the contractual and delivery models. This includes using innovative pricing and payment models that meet the unique expectations of our clients, optimising our SEI CMMI Level 5 processes to meet specific customer requirements. Our adaptable working relationships stretch from fixed time/ fixed fee/ time and material to the Shared Services model.

Strong talent pool

We believe that our employees are the leaders of tomorrow and we have been investing in them. We make our employees undergo several skill enhancement workshops and programmes in order to hone their skills. Our training structure ensures appropriate mix of domain and technical certification, soft skills training and cross cultural sensitization programmes. Further, in order to ensure that our onsite employees don't miss on their continuous skill enhancement, we have set up the eLearning platform HexaGuru+ which benefits onshore associates working at client locations to continuously learn and upgrade their skills and enhance service delivery.

Programme Risk Management

We continue to monitor critical projects based on a criticality index derived from few identified parameters. A Steering Committee of senior executives in the Company holds regular meetings and continuously monitors the progress of such projects. We have established processes to identify and mitigate any risk during the transition process as well as when the relationship is stable. We will invoke such processes to ensure the overall risk or delays are minimised.

Results of Global Operations (P&L)

Income from Operations

During the year, the revenue from operations grew by 12.97% to ₹ 25,816.77 million from ₹ 22,853.48 million in 2013 on increased volumes, onsite mix and bill rates. The revenue equivalent in US Dollar terms was 422.4 million.

Revenues from operations are basically segregated into onsite revenues and offshore revenues. The table below indicates the revenue split:

Revenue split (%)	2014	2013
Onsite	55.5	53.0
Offshore	44.5	47.0

The blended utilisation was at 71.7% during 2014 as against 72.0% in 2013.

Other Income

During the year, global other income was reported at ₹227.76 million as compared to ₹372.74 million in the previous year, decrease of ₹144.98 million. This decrease was mainly due to the reduction of dividend and interest income by ₹162.54 million.

Expenses

Software Development Expenses

During the year, the Company's Software Development expenses increased to ₹ 4,001.14 million compared to ₹ 3,478.98 million in 2013, an increase of 15%. The increase was attributed largely on account of increase in outsourcing and subcontracting charges and increase in onsite travel and related expenses, in line with revenue growth.

Employment Expenses

The Company's Employment expenses increased to ₹ 14,596.33 million in 2014 from ₹ 12,218.78 million in 2013, an increase of 19.46%. As a percentage of income from operations, employment expenses increased to 56.54% for 2014 from 53.4% for 2013. Increase in cost is mainly on account of salary increments comparable with most IT companies and additional investment in sales force. The total employee count was 10,016 as on December 31, 2014 from 8,854 at the beginning of the year, a net increase of 1,162 employees.

Management's Discussion and Analysis

RISK MANAGEMENT

In the ever changing dynamic world where everything changes rapidly, businesses, in order to stay ahead, need to make certain projections for future growth. Usually the projections materially differ from the time projections are made and the time when decisions are taken. It is more evident in fast evolving space like IT, which is driven by people and where every output is unique and obsolescence is much faster. Hence, it becomes essential to

identify the broad risk categories and provide mitigation measures to manage risks. At Hexaware, we have identified the risks under verticals like revenue concentration risks, financial risks and operational risks. We have formulated policies, procedures and strategies for managing risks which is affirmed by our global CEO and CFO, after consultation with all business units, functions and department heads.

RISKS

1. REVENUE CONCENTRATION RISKS

i. Geographical Concentration risk

America continues to be our largest contributor of revenue with nearly two-thirds of our total revenues coming from the United States. A high dependence on any specific geography can impact our growth plan in the event of a sudden slowdown, change in trade policies, local laws, political environment and work culture. Apart from these, other factors like exchange rate and profitability of American companies might also impact our earning potential.

MITIGATION

- Over the last couple of years, we have expanded our global footprints aggressively to diversify our geographic concentration. We have our presence in 23 countries globally and 31 locations.
- We have increased the share of our revenues from Europe and Asia Pacific from 26.6% and 5.5% in 2010 to 28.3% and 7.1% in 2014.

Revenue spread (in %)

STRATEGY

- Our exposure to the US regions is in line with the global industry practices and we will continue to invest in the region. The optimism comes from the fact that US contributes to a little more than a fifth to the global GDP. There are a number of other growth factors such as favor for capitalism, highest per capita income, innovation driven culture and focus to retain high end work that allow us to identify and address the pockets of inefficiencies in the most optimum way.
- Within Europe, we have a strong presence in Germany and we continue to invest and grow in this region.
- In Asia Pacific, we are focusing on Australia and India to grow our business.

ii. Client concentration risk

Around 50% of our revenue comes from the top 10 clients. Any loss or major downsizing by these clients may impact our profitability. Further, excessive exposure to particular clients will limit our negotiating capacity and expose us to higher credit risk.

Client Concentration

- In the last five years, we have increased our client base from 157 clients in 2009 to 236 clients in 2014.
- During the year under review, we added 44 new clients. We maintain a diversified high quality client roster that can be accessed through the depth of relationships with existing clients as well as the fortune 500 list.
- The number of clients contributing revenues of USD 1 million or more has increased to 61 clients in 2014 as compared to 50 clients in 2010.
- Our growth strategy involves a mix of new client addition and mining the accounts of existing clients. As we add more clients and grow our revenues from the existing clients, we naturally reduce our dependence on the large clients. Moreover, large clients allow quick scaling up of revenues and they come with much higher margins due to lower associated cost and more cost predictability.
- We will strengthen management bandwidth in both sales & marketing and service delivery in order to increase revenue from the top 70 clients.

RISKS

iii. Verticals concentration risk

Around 50% of our revenue comes from two verticals - Banking & Financial Services and Travel & Transportation. Excessive dependence on selected verticals may adversely affect profitability in case of downturn in the fortunes of clients in this group or a reduction in their IT spending/budgets.

MITIGATION

- In order to mitigate the risk, we provide solutions to a wide range of verticals spanning across Banking & Financial Services, Travel & Transportation, Healthcare & Insurance and Manufacturing & other verticals.

Revenue Share % - Vertical

iv. Horizontal concentration risk

The overall composition of our revenue from our horizontals is skewed as around 60% of the revenue is derived from just two horizontals - Application Development & Maintenance and Enterprise Solutions. Any significant change in technology may impact the growth of these two horizontals which will ultimately affect our revenues.

- We are forging alliances with global product leaders, participating in global forums, working closely with global best organisations and consistently making high investment in our innovation centres.
- We are continuously launching and investing in additional service offerings in line with the market demands and aspirations.
- We are investing continuously in emerging and disruptive technologies like Social Media, Mobility, Analytics, Cloud and Big Data. Over the years, our contribution in the Business Intelligence & Analytics horizontal has increased from 7.9% in 2010 to 11.3% in 2014.
- In an attempt to fill an important void in our service offerings, we had earlier launched Remote Infrastructure Management Services (Remote IMS). In a short span of 4 years, the horizontal service line has grown to a healthy headcount and contributed to 8.5% of overall revenue in 2014 compared to 3.3% in 2010.

STRATEGY

- We will continue to identify focused verticals and strengthen its positioning in these by building capabilities around each sub-industry practice.
- We will be acquiring new talent, providing training, retaining right talent, assigning new dedicated teams for execution of projects, creating centers of excellence for innovation for each sub-industry.

Revenue Concentration % - Horizontal

Management's Discussion and Analysis

RISKS	MITIGATION	STRATEGY
2. FINANCIAL RISKS		
<p>i. Foreign Currency fluctuations</p> <p>Foreign exchange fluctuations are one of the key risks impacting our business. The offshore part of the Revenue remains exposed to the risk of Rupee appreciation vs. the US Dollar, the Euro and other foreign currencies, as the costs incurred are in Indian Rupees and the Revenue/ Inflows are in foreign currencies. The contracts we enter into with our customers tend to run across several years and most of these contracts are at fixed rates, any appreciation in the Indian rupee vis-à-vis foreign currencies will affect our margins.</p>	<p>Foreign Exchange markets continue to be volatile and have demonstrated stark movements on both sides in the last few years. The Foreign Exchange Risk Management Policy authorised by the Forex Committee of the Board takes these realities into account and authorises hedging on a systematic basis. These risks have been effectively addressed by the processes and controls laid out in the Foreign Exchange Risk Management Policy.</p>	<p>The hedge ratio assigned to the exposures depends on the time horizon in which they fall, the near term exposures get a higher ratio whereas the farther exposures get a lower ratio. This graded approach ensures that hedges are spread across the hedge horizon in a tapered down manner.</p> <p>As at December 31, 2014, the Company had hedges worth USD 183.86 million at an effective average exchange rate of ₹ 64.54 and hedges worth Euro 2.74 million at an effective average exchange rate of ₹ 76.43 maturing over the course of the next eight quarters (from January 2015 till December 2016).</p>
<p>ii. Liquidity risk</p> <p>We need a continuous access to funds to meet our short and long term strategic investments. Our inability to meet such requirements in stipulated period may hamper our growth plan and even ongoing operations. Further, our inability to quickly convert our assets into cash without incurring any appreciable loss will expose us to liquidity risks.</p>	<ul style="list-style-type: none"> Over the years, we have increased our liquidity position by maintaining high cash & bank balance and investments. As on December 31, 2014, we had a total cash and bank balances and investments of ₹ 4,939 million, which constitutes 28% of our total assets. We are a zero debt company. 	<p>Maintain efficient cash conversion ratio. Billing to collection cycle being monitored so as to keep DSO comarable to Industry Standards.</p>
<p>iii. Credit risk</p> <p>Since most of our transactions are done in credit we are exposed to credit risk on accounts receivable. Any delay, default or inability on the part of the client to pay on time will expose us to credit risk and can impact our profitability.</p>	<ul style="list-style-type: none"> We have adopted an effective receivable management system to control the Days' Sales Outstanding (DSO). We are able to maintain our DSO (including unbilled) to 63 days as on December 31, 2014, placing us favourably when compared with other companies in the IT industry. 	<ul style="list-style-type: none"> Our continuous pursuit to add more large and diverse clients will help us in reducing the concentrations of credit risk.
3. OPERATIONAL RISKS		
<p>i. Attrition risk</p> <p>Being a service company, our success depends upon our highly skilled technology professionals and our ability to attract, hire, train, motivate and retain them. Our inability to retain high-performing and high-potential employees and leaders can jeopardise our client commitments and our growth plans.</p>	<ul style="list-style-type: none"> We are consistently developing and retooling our employee friendly policies to attract and retain the best talent. We have created well defined career growth path, strengthened our internal HR processes, created forums to address employee issues, developed a culture of reward and recognition, provided an easy access to leadership team all of which help us to attract and retain the right talent. 	<ul style="list-style-type: none"> We will continue to create and maintain a pool of world-class resources by recruiting best talents form leading colleges and from within the industry. We will invest in imparting effective & efficient training, blend talent into productive resources by creating challenging opportunities on projects and groom them in order to assume bigger responsibilities. We will take measures to check attrition rate and will try to bring it down in subsequent years.
<p>ii. Competition risk</p> <p>With the easier availability of funding and easing of norms for starting up a business, many new companies are foraying into the technology space, as these have high margins. This is leading to increase in competition. This in turn might affect our cost advantages, which could reduce our share of business from clients and decrease our revenues.</p>	<ul style="list-style-type: none"> With our focused approach, deep domain knowledge and technology prowess, we have created very strong differentiators in terms of quality and our product & service offerings. 	<ul style="list-style-type: none"> We will consistently invest in upgrading our processes and retooling our skill set in order to provide better and differentiated service offerings to our clients and stay ahead of competition.

RISKS	MITIGATION	STRATEGY
<p>iii. Legal and Contractual compliance risk</p> <p>Any disclosure of confidential information, system failures, errors or unsatisfactory performance of services might cause damage to our customers' business & operations and make us liable to them.</p>	<ul style="list-style-type: none"> We have a cross functional contract review team who analyses the contracts/agreements that we enter into with our clients. Further, the risk pertaining to that particular agreement/ contract is approved by the Senior Management after thorough analysis. On case to case basis, the operational teams spread across the globe are made aware of the compliance related issues to adhere to all contractual commitments. 	<ul style="list-style-type: none"> We will continue to comply with the local laws of respective countries while providing services to clients across the globe.
<p>iv. Disaster risk</p> <p>Natural disasters are beyond human control and may hamper our ability to provide our services as per the SLAs. In the event of force majeure, the work may get hampered or the potential loss of information from the computers is a risk and may affect the client.</p>	<ul style="list-style-type: none"> We have well defined Business Continuity Plan (BCP) and have achieved milestones in Information Security with successful completion of the certification audit and recommendation for certification against ISO 27001 standards for Chennai, Mumbai, Pune and Mexico development centers. 	<ul style="list-style-type: none"> We will continue adhering to these quality standards to ensure business continuity and mitigate the damage by preventing and minimising the impact of security incidence.

MATERIAL DEVELOPMENT IN HUMAN RESOURCES

In the IT industry sector, the human capital of an organisation plays the most crucial role in achieving customer satisfaction, apart from technology and innovation. Your company strongly believes that passionate employees will lead to more innovation within the organisation leading to delighted customers. At Hexaware, we emphasise on recruiting, nurturing, and retaining the best skills in the industry and align the needs of the company with the aspirations of our employees.

With this, the global headcount at the end of 2014 increased to 10,016 consultants, representing various nationalities deployed across 20 countries. Of the total work force, Technical personnel consisted of 92.2%.

Our workforce is drawn from many nationalities, spanning over multiple countries globally. Customer interest is core to us and our choice of office locations merely reflects a desire to harness talent irrespective of languages and help build the most suitable and desired model for customer comfort and advantage.

KEY HR INITIATIVES IN 2014

Your company has taken initiative to improve the human resources effectiveness through automation of HR systems and processes, improving employee engagement with several ground-up activities.

HR team has made attempt to improve the morale and confidence of the employees by conducting various employee engagement activities at different level such as pulse and skip meets, Happy Hours, Round table series etc.

At the entry level

Employee connect programmes, KYO, Business etiquettes training, mentoring and buddy system and Trainee Forums.

In order to make Hexaware a great place to work, and build a workforce that is passionate, Hexaware has embarked on a journey to measure the passion index within the company and the work environment through an internal survey facilitated by an external agency.

"Hexacare", as a part of HR initiatives, reaches out to employees by creating awareness about physical well-being and safety, thereby contributing to the holistic development of the employee. Medical check-up camps, wellness programmes, and spiritual awareness workshops were conducted by them.

Your company has examined the existing policies, practices and procedures and is in the process of revamping the same bringing them at par with the industry best practices. In the same spirit the CSR and whistle-blower policies have been revamped and strengthened.

Management's Discussion and Analysis

Improving employee motivation

With a focus in improving motivation, the leaders communicated more frequently with the employees to discuss about the changes. Effective change management process was implemented to ensure that there was no ambiguity in the messaging and all the employees had a clear view of the future vision of the organisation.

With the focus to align the employee career aspirations with the functional necessities arising out of the new business orientation and bridge the talent gap, we have focused on promoting talent from within; by not only encouraging but also preparing them to take the higher position when required. Many key positions were fulfilled by vertical and / or horizontal movements of deserving candidates from within, thus leading to increased employee motivation and morale. A Career Management System is being put in place to meet the career aspiration of the employees and to provide them with a growth path that is transparent and visible.

Employee engagement

As a part of the employee engagement programme, regular connect programmes such as skip and pulse meets, round table series with the senior management, Happy Hours, Open Houses were conducted and the feedback was shared with the management.

Workshops

HR conducted workshops and other activities under the banner of "HexaCare". These workshops brought about awareness about health, safety and physical well-being of the employee. Some of the workshops that were conducted are listed below:

- Health related workshops
- Medical camps
- Hexaware Kids' Day
- Yoga classes, stress management workshops
- Financial management
- Workshop for parents

Employee welfare

- **Funsters:** Hexaware believes in Fun @ work. In order to propagate this belief, the employees make use of the platform called Funsters. They make an effort to make Hexaware a fun place to work keeping in line with the tagline "Back to Growth, Back to Fun".
- **Counselling Services:** With pressure (both personal and professional) mounting on a daily basis, it is taking a toll on the lives of the employees. In order to help the employees deal with the stressful situations, Hexaware provides the services of an in-house counsellor. This ensures that the working environment is kept stress-free to the extent possible.
- **Doctor-on-call:** In order to maintain the physical wellbeing of the employees, your company has hired the services of the visiting doctor who is available twice a week in the campus. We also have tie-ups with hospitals to give medical services at discounted rates.
- **Infirmiry and Dormitory Facilities:** We have a full-fledged infirmiry with paramedical support. Separate dormitories for men and women employees are available for those who want to stay back after late night shifts and avoid midnight travel.

Diversity

At Hexaware, we take the widest possible view on diversity. We create an environment that is safe, secure, and inclusive. Your company believes in the diversity recognises, value, and affirm that social diversity contributes richness to the organisation and enhances the quality of life for individuals and groups. Your company ensures that assignments and opportunities for advancement are accessible to everyone. Your company has always made substantial efforts in building an eco-system which contributes to the development and advancement of our women employees. The strength of the women workforce has steadily increased to above 2,800. This initiative for women is be one of the

most impactful sets of development interventions, which company has opted both in terms of career growth and empowerment. W@H (Women @ Hexaware) Forum launched last year in all locations in India introduced a number of initiatives to fulfil the special needs of this group of workforce increasing their work place commitments including self-defence workshops for women employees.

We have always made sincere, substantive and sustained efforts in building an eco-system which is conducive to the development and advancement of our women employees. They are encouraged to nurture their talent, by undergoing a mentorship programme under successful women leaders and thereby creating women business leaders, who, we believe will make an important contribution to business and the society at large. W@H (Women @Hexaware) Forum which was launched in 2013 in all locations in India, is very active in fulfilling the special needs of this group of workforce.

INTERNAL CONTROL SYSTEMS

At Hexaware, the Internal Control System is designed to prevent operational risks through a framework of internal controls and processes. Our internal control system ensures that all business transactions are recorded in a timely manner, the financial records are complete, resources are utilised effectively and our assets are safeguarded. We have developed robust policies, procedures, checks and balances to bring in discipline in day-to-day functions, for accurately and timely compilation of data. A mix of automated and manual controls is used to ensure proper preparation and reliability of accounting records.

In addition, the Audit Committee has appointed KPMG as the Internal Auditors of the company. The internal audit ensures safeguarding the assets of the Company, review of operational efficiency, effectiveness of systems and processes and assessing the internal control strengths in all areas. Further, Internal Auditors findings are discussed with the process owners and suitable corrective actions are taken as per the directions of Audit Committee on an ongoing basis to improve efficiency in operation.

Independent Auditors' Report

To the Board of Directors of HEXAWARE TECHNOLOGIES LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of HEXAWARE TECHNOLOGIES LIMITED (the "Company") and its subsidiaries (the Company and its subsidiaries constitute "the Group"), which comprise the Consolidated Balance Sheet as at 31st December, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries referred to below in the Other Matter paragraph, the aforesaid consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at 31st December, 2014;
- (b) in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date; and
- (c) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

Other Matter

We did not audit the financial statements of seven subsidiaries, whose financial statements reflect total assets (net) of ₹ 1,784.27 as at 31st December, 2014, total revenues of ₹ 4,055.19 and net cash flows amounting to ₹ 484.54 for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditors.

Our opinion is not qualified in respect of this matter.

Notes forming part of Consolidated Financial Statements

1. BACKGROUND

Hexaware Technologies Limited ("Hexaware" or the "Company") is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956, of India. The Company is engaged in information technology consulting, software development and business process management. Hexaware provides multiple service offerings to its clients across various industries comprising travel, transportation, hospitality, logistics, banking, financial services, insurance, healthcare, manufacturing and services. The various service offerings comprise application development and management, enterprise package solutions, infrastructure management, business intelligence and analytics, business process, quality assurance and independent testing.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Preparation

These consolidated financial statements of Hexaware Technologies Limited (the "Holding Company") and its subsidiaries (together the "Company" or "Group") are prepared in accordance with generally accepted accounting principles applicable in India under the historical cost convention except for certain financial instruments which are measured at fair value. These financial statements comply with the applicable provisions of the Companies Act, 1956/ 2013 and the accounting standards, to the extent possible in the same format as that adopted by the Holding Company for its separate financial statements.

The financial statements of subsidiaries used in the consolidation are drawn upto the same reporting date as that of the holding company, viz. 31st December, 2014.

b) Principles of Consolidation

- a. The financial statements of the holding company and its subsidiaries have been consolidated on a line by line basis by adding together the book value of like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and any unrealised gain or losses on balances remaining within the group in accordance with the Accounting Standard (AS) 21 "Consolidated Financial Statements".
- b. The financial statements of the Holding Company and its subsidiaries have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances.
- c. The excess of the cost to the Holding Company of its investments in each of the subsidiaries over and above the share of equity in the respective subsidiary, on the acquisition date, is recognised in the financial statements as goodwill which is tested for impairment on an annual basis.

- d. Minority interest in the net assets of consolidated subsidiaries consists of:
 - i. The amount of equity attributable to minorities at the date on which investment in the subsidiary is made and
 - ii. the minorities' share of movements in equity since the date the parent-subsidiary relationship comes into existence.

Minority interests in share of net profit/loss for the year is identified and adjusted against the profit after tax of the Company. Excess of loss attributable to the minority over the minority interest in the equity of the subsidiary is absorbed by the Company.

c) Use of Estimates

The preparation of the financial statements, in conformity with the generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosures relating to contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Difference between actual results and estimates are recognised in the period in which the results are known/materialise. Example of such estimates include provision for doubtful debts, employee benefits, provision for income taxes, accounting for contract costs expected to be incurred to complete software development, the useful lives of depreciable fixed assets and provisions for impairment.

d) Revenue Recognition

- a) Revenues from software solutions and consulting services are recognised on specified terms of contract. In case of contract on time and material basis revenue is recognised when the related services are performed and in case of fixed price contracts revenue is recognised using percentage of completion method of accounting. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the year in which the change becomes known. Provisions for estimated losses on such engagements are made during the year in which a loss becomes probable and can be reasonably estimated. Amount received or billed in advance of services performed are recorded as unearned revenue. Unbilled services included in other current assets represents amount recognised based on services performed in advance of billing in accordance with contract terms.

Revenue from business process management arises from unit-priced contracts, time based contracts, cost based projects and engagement services. Such revenue is recognised on completion of the related services and is billed in accordance with the specific terms of the contract with the client.

Revenue is reported net of discount/incentive.
- b. Dividend income is recognised when right to receive is established.

Notes forming part of Consolidated Financial Statements

- c. Interest Income is recognised on time proportion basis.
- d. Profit on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sales price and the then carrying value of the investment.

e) Fixed Assets

Fixed assets are stated at cost of acquisition less accumulated depreciation/amortisation and impairment loss, if any. Cost includes all expenses incurred for acquisition of assets to bring these to working conditions for intended use.

f) Depreciation and Amortisation

Depreciation and amortisation on fixed assets is provided on straight-line method based on the estimated useful lives of the assets as follows:

Asset Class	Estimated Useful Life
Building	61 years
Computer Systems (included in Plant and Machinery)	3 years
Office Equipment	5 years
Electrical Fittings (included in Plant and Machinery)	8 years
Furniture and Fixtures	8 years
Vehicles	4 years
Leasehold Land	Over the lease period
Improvements to leased Premises	Over the lease period
Software	3 years

g) Investments

Long-term investments are stated at cost. Provision is made for diminution in the value of long term investments, if such diminution is other than temporary. Current investments are carried at cost or fair value, whichever is lower.

h) Foreign Currency Transaction/Translation

Transactions in foreign currency are recorded at the original rate of exchange in force at the time transactions are effected. Exchange differences arising on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary items denominated in foreign currency are restated using the exchange rate prevailing at the date of the Balance Sheet and the resulting net exchange difference is recognized in the Statement of Profit and Loss.

In respect of forward contracts entered into to hedge foreign currency exposure in respect of recognised monetary items, the premium or discount on such contracts is amortised over the life of the contract. The exchange difference measured by the change in exchange rate between the inception dates of the contract/last reporting date as the case may be and the balance sheet date is recognised in the Statement of Profit and Loss. Any gain/loss on cancellation of such forward contracts are recognised as income/expense of the period.

Foreign Branches

In respect of the foreign branches, being integral foreign operations, all revenues and expenses during the year are reported at average rate prevailing during the period. Monetary assets and liabilities are restated at the year-end exchange rate. Non-monetary assets and liabilities are stated at the rate prevailing on the date of the transaction. Balance in 'head office' account whether debit or credit is translated at the amount of the balance in the 'foreign branch' account in the books of the head office. Net gain/loss on foreign currency translation are recognised in the Statement of Profit and Loss.

i) Translation and Accounting of Financial Statements of Foreign Subsidiaries.

The local accounts of the overseas subsidiaries, being non integral foreign operations, are maintained in local currency of the country of incorporation. The financial statements are translated to Indian Rupees as follows.

- a. All income and expenses are translated at the average rate of exchange prevailing during the year.
- b. Assets and liabilities are translated at the closing rate on the Balance Sheet date.
- c. Share Capital and share application money are translated at historical rate.
- d. The resulting exchange differences are accumulated in currency translation reserve.

j) Derivative Instruments and Hedge Accounting

The Company enters into foreign currency forward contracts and currency options contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates these instruments as cash flow hedges applying the recognition and measurement principles set out in the Accounting Standard (AS) 30 "Financial Instruments: Recognition and Measurement". These instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Accordingly, the Company records the cumulative gain or loss on effective cash flow hedges in the Hedging Reserve account until the forecasted transaction materializes. Gain or loss on ineffective cash flow hedges is recognised in the Statement of Profit and Loss. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss.

k) Employee Benefits

a. Post-employment benefits and other long-term benefit plans:

Payments to defined contribution schemes and other similar funds are expensed as incurred. For defined benefit schemes and other long-term benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognized in full in the Statement of Profit and Loss for the period in which they occur. Past service

cost is recognised immediately to the extent that the benefits are already vested, and otherwise is amortised on a straight line basis over the average period until the benefits become vested. The retirement benefit liability recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the lower of the amount determined as the defined benefit liability and the present value of available refunds and/or reduction in future contributions to the scheme.

b. Short-term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period when the employee renders those services. These benefits include compensated absences such as leave expected to be availed within a year, statutory employee profit sharing and bonus payable.

l) Borrowing Costs

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

m) Leases

Finance Lease

Assets taken on finance lease are accounted for as fixed assets at lower of present value of the minimum lease payments and the fair value and liability is recognised for an equivalent amount. Lease payments are apportioned between finance charge and reduction in outstanding liability.

Operating Leases

Assets taken on lease under which all risks and rewards of ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognised as expenses on straight line basis over the lease term.

Furnished and equipped premises leased out under operating lease are capitalised in the books of the Company. Lease income is recognised over the lease term on a straight line basis.

n) Taxes on Income

Income Taxes are accounted for in accordance with Accounting Standard (AS) 22 on "Accounting for Taxes on Income". Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid or recovered from the tax authorities using the applicable tax rates. Deferred taxes are recognised for future tax consequence attributable to timing difference between taxable income and accounting income, measured at relevant enacted/substantively enacted tax rates.

In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available to realise such assets. In other situations, deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available to realise these assets.

Minimum Alternate Tax (MAT) credit entitlement is recognised in accordance with the Guidance Note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961" issued by The Institute of Chartered Accountants of India ("ICAI"). MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will be able to adjust against the normal income tax during the specified period. At each balance sheet date the Company reassesses MAT credit assets, and adjusts the same where required.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the entity intends to settle the asset and liability on a net basis.

o) Impairment of Assets

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

p) Share Based Compensation

The compensation cost of stock options granted to employees is measured by the intrinsic value method, i.e. difference between the market price of the Company's shares on the date of grant of options and the exercise price to be paid by the option holders. The compensation cost, if any, is amortised over the vesting period of the options.

q) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when as a result of past events there is a present obligation that can be estimated reliably and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised, but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

r) Cash and Cash Equivalents

Cash and cash equivalents comprise of cash, current account balances and demand deposit with banks and financial institutions.

23. CONTINGENT LIABILITY IN RESPECT OF:

- a) Claims not acknowledged as debt ₹ 28.14 million (Previous Year ₹ 28.14 million).
- b) Claims for taxes on income:
- Where Company is in appeal
Income tax demands of ₹ 8.99 million (Previous year ₹ 112.38 million) have been raised in respect of assessments completed, arising from certain disallowances by the Income tax authorities. The Company has appealed against the orders and based on merits, expects favourable outcome. Hence no provision against such demand is considered necessary.
 - Others:
In an earlier year, the CIT (A) had passed an order in favour of the Company against demand of ₹ 23.79 million raised by the Assessing officer for AY 2008-09, which had arisen mainly due to disallowance of foreign exchange loss as business expenses. Against this, the Income Tax Department has filed an appeal with Income Tax Appellate Tribunal during the year and the matter is in process.
24. Current income tax expense comprises of taxes on income from operations in India and foreign jurisdictions. In respect of certain entities in the group, where the income tax year is different from the accounting year, provision for current tax is made on the basis of income for the respective accounting year, which will be adjusted considering the total assessable income for the tax year. Tax expense relating to overseas operation is determined in accordance with the tax laws applicable in countries where such operations are domiciled.
25. Estimated amount of contracts remaining to be executed on capital account not provided for (net of advances) ₹ 1,898.57 million (Previous year ₹ 223.77 million).
26. The Company takes on lease offices space and accommodation for its employees under various operating leases. The lease rentals towards non-cancellable operating lease agreements recognised in the Statement of Profit and Loss for the year are ₹ 257.18 million (Previous year ₹ 224.67 million).

The future minimum lease payments and payment profile of the non-cancellable operating leases are as follows:

31. EMPLOYEE BENEFIT PLANS

i) Provident Fund, Superannuation Fund and other similar funds.

a) In respect of employees in India

Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary. In respect of the Company's employees enrolled with the Hexaware Technologies Limited Employees Provided Fund Trust (the 'Trust'), the Company pays a part of the contributions to the Trust. The remaining portion of Company's contribution in respect of such employees and entire contribution in respect of other employees is contributed to the Government administered employee Provident and Pension Fund.

The interest rate payable by the Trust to the beneficiaries every year is being notified by the government. The Company has an obligation to make good the short fall, if any, between the return from the investments of the trust and the notified interest rate. The actuary has accordingly provided a valuation and based on the assumptions mentioned below, there is no shortfall as at 31st December, 2014.

Particulars	(₹ Million)	
	As at 31st December, 2014	As at 31st December, 2013
Present value of benefit obligation	1,823.09	1,528.62
Fair value of plan assets	1,823.09	1,528.62
Expected Investment Return	8.80%	8.71%
Remaining term of maturities of plan assets	7.70 years	8.21 years
Expected guaranteed interest rates	8.75%	8.75%

Certain employees of the Company are entitled to benefits under the superannuation plan, a defined contribution plan. The Company makes quarterly voluntary contributions under the superannuation plan to LIC based on a specified percentage of each covered employees salary and recognises such contributions as an expense when incurred and has no further obligation to the plan beyond such contributions.

During the year, the Company has recognized expenses towards contributions to provident fund and other funds and superannuation funds of ₹ 241.48 million (Previous year ₹ 215.04 million) and ₹ 9.70 million (Previous year ₹ 8.11 million) respectively.

- b) The Company contributed ₹ 421.04 million (Previous year ₹ 357.68 million) towards various other defined contributions plans of subsidiaries located outside India during the year ended 31st December, 2014 as per laws of the respective country.

ii) Gratuity Plan:

The Company makes annual contribution to the Employee's Group Gratuity Assurance Scheme, administered by the Life Insurance Corporation of India ('LIC'), a funded defined benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment based on completed years of service or part thereof in excess of six months. Vesting occurs on completion of five years of service.

Notes:

- The Company has identified business segment as the primary segment. Segments have been identified taking into account the services offered to customers globally operating in different industry segments, differing risks and returns, the organizational and the internal reporting system.
- Revenues and expenses directly attributable to segments are reported under each reportable business segment. Common expenses which are not directly identifiable to each reporting segment have been allocated to each reporting segment on the basis of associated revenues of the segment. All other expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses.
- Assets and liabilities contracted have not been identified to any of the reportable segments as the assets are used interchangeably between segments and it is not practicable to reasonably allocate the liabilities to individual segments. Accordingly, no disclosure relating to segment assets and segment liabilities are made.
- Previous year figures are given in brackets.
- Caliber Point Business Solutions limited (CP) (amalgamating company), a wholly owned subsidiary, engaged in Business Process Management services, has been amalgamated with the Company. The Scheme of Amalgamation ('the Scheme') was sanctioned by the Honorable High Court of Judicature at Bombay vide its Order dated 10th October, 2014, the appointed date of merger being 1st April, 2013.

The Scheme has been given effect to in the standalone financial statements. The amalgamation has the impact of reducing General Reserve by ₹ 41.12 million and increasing the balance in securities premium account by an equivalent amount in the consolidated financial statements.
- Previous years figures have been regrouped/reclassified wherever necessary to correspond with the current years classification/disclosure.

Independent Auditors' Report

To the Members of HEXAWARE TECHNOLOGIES LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of **HEXAWARE TECHNOLOGIES LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st December, 2014, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards specified under the Companies Act, 1956 ("the Act") (which are deemed to be applicable as per Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014) and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st December, 2014;
- (b) in the case of the Statement of Profit and Loss, of the profit of the Company for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government in terms of Section 227(4A) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order for the year ended 31st December, 2014, to the extent the same are applicable to the Company.
2. As required by Section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement comply with the Accounting Standards specified under the Companies Act, 1956 ("the Act") (which are deemed to be applicable as per Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014).
 - (e) Since the provisions of Section 274(1)(g) of the Act are not in effect from April 1, 2014, the reporting requirement under Section 227(3)(f) of the Act is not applicable as of the balance sheet date.

Annexure to the Independent Auditor's Report

Re: Hexaware Technologies Limited

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- i) In respect of its fixed assets:
 - a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - b) As per information and explanations given to us, physical verification of fixed assets was carried out by the Management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification is reasonable having regard to the size of the Company and nature of its assets.
 - c) The fixed assets disposed off during the year, in our opinion do not constitute a substantial part of the fixed assets of the Company and such disposal has, in our opinion, not affected the going concern status of the Company.
- ii) The activities of the Company and the nature of its business do not involve the use of inventory. Accordingly, Clause 4(ii) of the Companies (Auditor's Report) Order, 2003 is not applicable.
- iii) The Company has neither granted nor taken any loans, secured or unsecured, to/from companies, firms or other parties covered in the Register maintained under Section 301 of the Companies Act, 1956, during the period the said Section was applicable. Accordingly, Clause 4(iii) of the Companies (Auditor's Report) Order, 2003 is not applicable to the Company.
- iv) In our opinion, and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and nature of its business for the purchase of fixed assets and for the sale of services. The activities of the Company do not involve purchase of inventory and sale of goods. During the course of our audit, we have not observed any major weaknesses in such internal control system.
- v) In respect of contracts and arrangements entered in the Register maintained in pursuance of Section 301 of the Companies Act, 1956, to the best of our knowledge and belief and according to the information and explanations given to us:
 - a) The particulars of contracts or arrangements referred to in Section 301 that needed to be entered into the Register maintained under the said Section have been so entered for the period the said Section was applicable.
 - b) Where each of such transactions made in pursuance of such contracts or arrangements entered in the register maintained under Section 301 of the Companies Act, 1956, for the period the said Section was applicable, is in excess of ₹ 5 lacs during such period in respect of any party, the transactions have been made at prices, which are, prima facie, reasonable having regard to the prevailing market prices at the relevant time.
- vi) During the period the provisions of Sections 58A and 58AA and other relevant provisions of the Companies Act, 1956 and the Companies (Acceptance of Deposits) Rules, 1975 with regard to the acceptance of deposits from the public were applicable, in our opinion and according to the information and explanations given to us, the Company has not accepted such deposits. Therefore, the provisions of Clause 4 (vi) of the Companies (Auditor's Report) Order, 2003 are not applicable to the Company.
- vii) In our opinion, the internal audit functions carried out during the year by the firm of Chartered Accountants appointed by the Management have been commensurate with the size of the Company and nature of its business.
- viii) According to the information and explanations given to us, the Central Government has not prescribed maintenance of cost records under clause (d) of sub-section (1) of Section 209 of the Act, for the period the said Section was applicable. Therefore, the provisions of Clause 4 (viii) of the Companies (Auditor's Report) Order, 2003 are not applicable to the Company.
- ix) According to the information and explanations given to us in respect of statutory dues:
 - a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income-tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.
 - b) There were no undisputed amounts payable in respect of Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income-tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Cess and other material statutory dues were in arrears as at 31st December, 2014 for a period of more than six months from the date they became payable.
 - c) There are no dues of Income-tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty and Cess, which have not been deposited as on 31st December, 2014 on account of disputes, except as follows:

Name of statute	Nature of the dues	Amount (₹ in Million)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	1.46	Assessment Year 2009-10	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	4.17	Assessment Year 2010-11	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	2.76	Assessment Year 2011-12	Commissioner of Income Tax (Appeals)

- x) The Company does not have accumulated losses at the end of the financial year and the Company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.

- x) In our opinion and according to the information and explanations given to us, the Company has not borrowed any amounts from financial institutions, banks or by issue of debentures.
- xii) According to the information and explanations given to us, the Company has not given any loans and advances on the basis of security by way of pledge of shares, debentures and other securities and hence the question of maintenance of adequate records for this purpose does not arise.
- xiii) According to the information and explanations given to us, the Company is not a chit fund or a nidhi/ mutual benefit fund/ society. Therefore, the provisions of Clause 4 (xiii) of the Companies (Auditor's Report) Order, 2003 are not applicable to the Company.
- xiv) According to the information and explanations given to us, the Company is not dealing or trading in shares, securities, debentures and other investments. Therefore, the provisions of Clause 4 (xiv) of the Companies (Auditor's Report) Order, 2003 are not applicable to the Company.
- xv) According to the information and explanations given to us, the Company has not given guarantees for loans taken by others from bank and financial institutions. Therefore, the provision of Clause 4 (xv) of the Companies (Auditor Report) Order, 2003 are not applicable to the Company.
- xvi) The Company has not taken any term loan during the year. Therefore, the provision of Clause 4 (xvi) of the Companies (Auditor Report) Order, 2003 are not applicable to the Company.
- xvii) In our opinion and according to information and explanations given to us, and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have, *prima facie*, not been used during the year for long-term investment.
- xviii) According to the information and explanations given to us, the Company has not made any preferential allotment of shares to parties and companies covered in the Register maintained under Section 301 of the Companies Act, 1956, during the period the said Section was applicable.
- xix) The Company has not issued any debentures during the year, hence the question of creation of security or charge in respect of debentures issued does not arise.
- xx) The Company has not raised any money by way of public issues during the year.
- xxi) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

Notes forming part of Financial Statements

1. A Background

Hexaware Technologies Limited ("Hexaware" or the "Company") is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in information technology consulting, software development and business process management. Hexaware provides multiple service offerings to its clients across various industries comprising travel, transportation, hospitality, logistics, banking, financial services, insurance, healthcare, manufacturing and services. The various service offerings comprise application development and management, enterprise package solutions, infrastructure management, business intelligence and analytics, business process, quality assurance and independent testing.

B Significant Accounting Policies

i) Basis of Preparation of Financial Statements

These financial statements are prepared in accordance with generally accepted accounting principles applicable in India under the historical cost convention except for certain financial instruments which are measured at fair value. These financial statements comply with the applicable provisions of the Companies Act, 1956/ 2013 and the accounting standards.

ii) Use of Estimates

The preparation of the financial statements, in conformity with the generally accepted accounting principles, requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosures relating to contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognised in the period in which the results are known/materialised. Example of such estimates include provision for doubtful debts, employee benefits, provision for income taxes, accounting for contract costs expected to be incurred to complete software development, the useful lives of depreciable fixed assets and provisions for impairment.

iii) Revenue Recognition

Revenues from software solutions and consulting services are recognised on specified terms of contract. In case of contract on time and material basis revenue is recognised when the related services are performed and in case of fixed price contracts revenue is recognised using percentage of completion method of accounting. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the year in which the change becomes known. Provisions for estimated losses on such engagements are made during the year in which a loss becomes probable and can be reasonably estimated. Amount received or billed in advance of services performed are recorded as unearned revenue. Unbilled services included in other current assets represents amount recognised based on services performed in advance of billing in accordance

with contract terms. Revenue is reported net of discount/incentive.

Revenue from business process management arises from unit – priced contracts, time based contracts, cost based projects and engagement services. Such revenue is recognised on completion of the related services and is billed in accordance with the specific terms of the contract with the client.

Dividend income is recognised when right to receive is established.

Interest Income is recognised on time proportion basis.

Profit on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sales price and the then carrying value of the investment.

iv) Fixed Assets

Fixed assets are stated at cost of acquisition less accumulated depreciation/amortisation and impairment loss, if any. Cost includes all expenses incurred for acquisition of assets to bring these to working conditions for intended use.

v) Depreciation and Amortisation

Depreciation and amortisation on fixed assets is provided on straight-line method based on the estimated useful lives of the assets as follows

Asset Class	Estimated Useful Life
Building	61 years
Computer Systems (included in Plant and Machinery)	3 years
Office Equipment	5 years
Electrical Fittings (included in Plant and Machinery)	8 years
Furniture and Fixtures	8 years
Vehicles	4 years
Leasehold Land	Over the lease period
Improvements to leased Premises	Over the lease period
Software	3 years

vi) Investments

Long-term investments are stated at cost. Provision is made for diminution in the value of long-term investments, if such diminution is other than temporary. Current investments are carried at cost or fair value, whichever is lower.

vii) Foreign Currency Transaction/Translation

Transactions in foreign currency are recorded at the original rate of exchange in force at the time transactions are effected. Exchange differences arising on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss. Monetary items denominated in foreign currency are restated using the exchange rate prevailing at the date of the Balance Sheet and the resulting net exchange difference is recognised in the Statement of Profit and Loss.

Notes forming part of Financial Statements

In respect of forward contracts entered into to hedge foreign currency exposure in respect of recognized monetary items, the premium or discount on such contracts is amortised over the life of the contract. The exchange difference measured by the change in exchange rate between the inception dates of the contract/ last reporting date as the case may be and the balance sheet date is recognised in the Statement of Profit and Loss. Any gain/loss on cancellation of such forward contracts are recognised as income/expense of the period.

Foreign Branches

In respect of the foreign branches, being integral foreign operations, all revenues and expenses during the year are reported at average rate prevailing during the period. Monetary assets and liabilities are restated at the year-end exchange rate. Non-monetary assets and liabilities are stated at the rate prevailing on the date of the transaction. Balance in 'head office' account whether debit or credit is translated at the amount of the balance in the 'foreign branch' account in the books of the head office. Net gain/loss on foreign currency translation is recognised in the Statement of Profit and Loss.

viii) Derivative instruments and hedge accounting

The Company enters into foreign currency forward contracts and currency options contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates these instruments as cash flow hedges applying the recognition and measurement principles set out in the Accounting Standard (AS) 30 "Financial Instruments: Recognition and Measurement". These instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Accordingly, the Company records the cumulative gain or loss on effective cash flow hedges in the Hedging Reserve account until the forecasted transaction materialises. Gain or loss on ineffective cash flow hedges is recognised in the Statement of Profit and Loss. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss.

ix) Employee Benefits

i. Post-employment benefits and other long-term benefit plans:

Payments to defined contribution schemes are expensed as incurred. For defined benefit schemes and other long-term benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the Statement of Profit and Loss for the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested, and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit liability recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as

reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the lower of the amount determined as the defined benefit liability and the present value of available refunds and/or reduction in future contributions to the scheme.

ii. Short-term employee benefits:

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period when the employee renders those services. These benefits include compensated absences such as leave expected to be availed within a year and bonus payable.

x) Borrowing costs

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

xi) Leases

i. Finance Lease

Assets taken on finance lease are accounted for as fixed assets at lower of present value of the minimum lease payments and the fair value and a liability is recognised for an equivalent amount. Lease payments are apportioned between finance charge and reduction in outstanding liability.

ii. Operating Leases

Assets taken on lease under which all risks and rewards of ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognised as expenses on straight-line basis over the lease term.

Furnished and equipped premises leased out under operating lease are capitalised in the books of the Company. Lease income is recognised over the lease term on a straight-line basis.

xii) Taxes on Income

Income Taxes are accounted for in accordance with Accounting Standard (AS) 22 on "Accounting for Taxes on Income". Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid or recovered from the tax authorities using the applicable tax rates. Deferred taxes are recognised for future tax consequence attributable to timing difference between taxable income and accounting income, measured at relevant enacted / substantively enacted tax rates.

In the event of unabsorbed depreciation and carry forward losses, deferred tax assets are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available to realise such assets. In other situations, deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available to realise these assets.

Minimum Alternate Tax (MAT) credit entitlement is recognised in accordance with the Guidance Note on “Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961” issued by The Institute of Chartered Accountants of India (ICAI). MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will be able to adjust against the normal income tax during the specified period. At each balance sheet date, the Company reassesses MAT credit assets and adjusts the same, where required.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the entity intends to settle the asset and liability on a net basis.

xiii) Impairment of assets

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting

period is reversed if there has been a change in the estimate of recoverable amount.

xiv) Share based compensation

The compensation cost of stock options granted to employees is measured by the intrinsic value method, i.e. difference between the market price of the Company's shares on the date of grant of options and the exercise price to be paid by the option holders. The compensation cost, if any, is amortised over the vesting period of the options.

xv) Provisions, Contingent Liabilities and Contingent assets

Provisions involving substantial degree of estimation in measurement are recognised when as a result of past events there is a present obligation that can be estimated reliably and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised, but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

xvi) Cash and Cash Equivalents

Cash and cash equivalents comprise of cash, current account balances and demand deposit with banks and financial institutions.

22. Contingent Liabilities in respect of

a) Claims not acknowledged as debt ₹ 28.14 million (Previous year ₹ 28.14 million).

b) Claims for taxes on income:

i. Where Company is in appeal

Income tax demands of ₹ 8.99 million (Previous year ₹ 112.38 million) have been raised in respect of assessments completed, arising from certain disallowances by the Income tax authorities. The Company has appealed against the orders and based on merits, expects favourable outcome. Hence no provision against such demand is considered necessary.

ii. Others

In an earlier year, the CIT (A) had passed an order in favour of the Company against demand of ₹ 23.79 million raised by the Assessing officer for AY 2008-09, which had arisen mainly due to disallowance of foreign exchange loss as business expenses. Against this, the Income Tax Department has filed an appeal with Income Tax Appellate Tribunal and the matter is in process.

29. Employee benefit plans

i) Provident Fund and Superannuation Fund

Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary. In respect of the Company's employees enrolled with the Hexaware Technologies Limited Employees Provident Fund Trust (the 'Trust'), the Company pays a part of the contributions to the Trust. The remaining portion of Company's contribution in respect of such employees and entire contribution in respect of other employees is contributed to the Government administered employee Provident and Pension Fund.

The interest rate payable by the Trust to the beneficiaries every year is being notified by the government. The Company has an obligation to make good the short fall, if any, between the return from the investments of the trust and the notified interest rate. The actuary has accordingly provided a valuation and based on the assumptions mentioned below, there is no shortfall as at 31st December, 2014.

Notes forming part of Financial Statements

Certain employees of the Company are entitled to benefits under the superannuation plan, a defined contribution plan. The Company makes quarterly voluntary contributions under the superannuation plan to LIC based on a specified percentage of each covered employees salary and recognises such contributions as an expense when incurred and has no further obligation to the plan beyond such contributions.

During the year the Company has recognised expenses towards contributions to provident fund and other funds and superannuation funds of ₹ 241.48 million (Previous year ₹ 189.85 million) and ₹ 9.70 million (Previous year ₹ 6.56 million) respectively.

ii) Gratuity Plan

The Company makes annual contribution to the Employee's Group Gratuity Assurance Scheme, administered by the Life Insurance Corporation of India ('LIC'), a funded defined benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment based on completed years of service or part thereof in excess of six months. Vesting occurs on completion of five years of service.

The following table sets out the status of the gratuity plan for the year ended 31st December, 2014:

Particulars	(₹ Million)	
	Year 2014	Year 2013
Change in Defined Benefit Obligation		
Opening defined benefit obligation	349.08	323.46

Since the investments are held in the form of deposit with the LIC, these are not volatile, the market value of assets is the cost value of assets and has been accordingly considered for the above disclosures.

The Company is expected to contribute ₹ 77.00 million to gratuity funds for the year ended 31st December, 2015.

Financial assumptions at the valuation date	Year 2014		Year 2013
	Discount rate	8.15% to 8.20%	
Rate of increase in compensation levels of covered employees *	6% to 10%		10% for first year and 7.5% thereafter
Expected Rate of Return on Plan assets **	7.5% to 8%		8.00%

* The estimates of future salary increases considered in actuarial valuation takes into account the inflation, seniority, promotions and other relevant factors.

** Expected rate of return on plan assets is based on expectation of the average long-term rate of return expected to prevail over the estimated term of the obligation on the type of the investments assumed to be held by LIC.
